VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, FRIDAY, 8TH FEBRUARY, 1878.

PRAYERS.

The House being met, and the Speaker elect having taken the Chair ;
 A Message was delivered by *Réné Kimber*, Esquire, Gentleman Usher of the Black Rod.

Mr. SPEAKER,

His Excellency the Governor General desires the immediate attendance of this Honorable House in the Senate Chamber.

Accordingly Mr. Speaker, with the House, went up to the Senate Chamber ;— and then Mr. Speaker spoke to the following effect :

MAY IT PLEASE YOUR EXCELLENCY :

The House of Commons have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am.

The Honorable the Speaker of the Senate then said :

Mr. SPEAKER,

I am commanded by His Excellency the Governor General to assure you that your words and actions will constantly receive from him the most favorable construction.

And the House being returned,—

Hon. *Peter Mitchell*, Member for Northumberland, N.B.,—*John C. Wade*, Esq. Member for Digby,—*François Xavier Ovide Méthot*, Esq., Member for Nicolet,—and *Zéphirin Désiré alias Oliver Désiré Bourbeau*, Esq., Member for Drummond and Arthabaska, were formally introduced to The House.

Mr. Speaker then informed The House that he had received from the Hon. Mr. Justice *Bossé*, one of the Judges selected for the trial of Election Petitions, pursuant to the Dominion Controverted Elections Act, 1874, his Judgment in the matter of the Controverted Election for the Electoral District of Beauce ; and the same was read, as follows :—

Z. VEZINA,

P. S. C., District of Beauce.

To the Honorable,

The Speaker of the House of Commons of Canada.

And the said Certificate was ordered to be entered in the Journals of this House.

Mr. Speaker also informed The House that the Clerk of The House had received from the Clerk of the Crown in Chancery,—Certificate of the Election and Return of the Hon. *Peter Mitchell*, to represent the Electoral District of Northumberland, N.B

Mr. *Mackenzie* introduced a Bill (No. 1) respecting the administration of Oaths of Office; which was read the first time.

Mr. Speaker reported His Excellency's Speech from the Throne, and read a copy thereof to the House, which is as follows :—

*Honorable Gentlemen of the Senate :**Gentlemen of the House of Commons :*

In again summoning you for the despatch of business, I am glad to be able to say that nothing beyond the ordinary business of the country requires your attendance.

It afforded me great pleasure to have had an opportunity, before my departure from Canada, of visiting the Province of Manitoba and a portion of the outside Territories, which visit I accomplished during last Autumn. I have now had the advantage of visiting every Province in the Dominion during the term of my government of Canada.

I am happy to be able to say that the Arbitration on the Fishery claims, under the terms of the Washington Treaty, has been concluded. An award has been made by the Commission of \$5,500,000 as compensation to Canada and Newfoundland for the use of their fisheries during the term of the present Treaty. This amount is much less than that claimed by my Government, but having assented to the creation of the tribunal for the determination of their value, we are bound loyally to assent to the decision given.

The exhibition of Canadian manufactures and products at Sydney, New South Wales, was successfully carried out. I trust that the result will be the opening up of a new market for Canadian goods even in so remote a region as the Australasian Colonies, shipments of Canadian productions having already been made. The expenditure will slightly exceed the estimate, but I doubt not the cost to Canada will be amply repaid by the extension of her trade.

Preparations have been uninterruptedly carried on, during the last six months, for securing an ample but select exhibition of Canada's products and manufactures at the great exhibition to be held at Paris during the current year. A further estimate will be required to meet the expenditure. His Royal Highness the Prince of Wales, as Chairman of the British Commissioners, has assigned a most prominent place to Canada in one of the main Towers, where a Canadian Trophy is now being erected.

A very disastrous fire occurred in June last, in the City of St. John, which caused the destruction of a large portion of the City, including all the public buildings owned by the Dominion Government. My Government deemed it necessary to contribute \$20,000 to assist in relieving the immediate wants of the people who were rendered destitute by so appalling a calamity. I also sanctioned the appropriation of some public money with which to commence the erection of new buildings for the public business, which acts you will be asked to confirm in the usual way.

During last summer my Commissioners made another Treaty with the Blackfeet, Blood and Piegan Indians, by which the Indian title is extinguished over a territory of 51,000 square miles west of Treaty No. 4, and south of Treaty No. 6. The Treaty has been made on terms nearly the same as those under Treaty No. 6, though somewhat less onerous. The entire territory west of Lake Superior to the Rocky Mountains, and from the boundary nearly to the 55th degree of North latitude, embracing about 450,000 square miles, has now been acquired by peaceful negotiation with the native tribes, who place implicit faith in the honor and justice of the British Crown.

Early in the past summer a large body of Indians under Sitting Bull, from the United States, crossed into British territory to escape from the United States troops, and have since remained on the Canadian side.

The United States Government made a friendly but unsuccessful attempt to induce these Indians to return to their reservations. It is to be hoped that such arrangements may yet be made as may lead to their permanent and peaceful settlement, and thus relieve Canada of a source of uneasiness and a heavy expenditure.

The surveys of the Pacific Railway have been pressed to completion during the past season. A complete instrumental survey of the route, by the valleys of the North Thompson and Lower Fraser Rivers, has been made with a view to ascertain definitely, whether that route presents more favorable features than the routes already surveyed to Dean Inlet and Bute Inlet respectively. It is believed that the additional information now obtained will enable my Government to determine which route is the most advantageous from Tête Jaune Cache to the sea. Full information will be laid before you at an early day, of the season's work in this and other directions.

I am happy to be able to congratulate you on the abundant harvest reaped in all quarters of the Dominion; and I rejoice that under this and other influences there has been some improvement in the Revenue returns, thus indicating, I trust, that the commercial depression that has so long afflicted Canada, in common with other countries, is passing away.

My attention has been called to some imperfections in the existing system of auditing the Public Accounts, and a measure providing for their more thorough and effective supervision will be submitted for your consideration.

The prospect of obtaining, at an early day, greater facilities for reaching the North-Western Territories and the Province of Manitoba, is sure to attract a larger number of settlers every year, and as much of the prosperity of the Dominion depends on the rapid settlement of the fertile lands in these Territories, it is desirable and necessary to facilitate such settlement as much as possible. In order to effect this, measures will be submitted for your consideration concerning the registration of titles, the enactment of a Homestead Law, and the promotion of Railway enterprise in districts not touched by the Canada Pacific Railway.

Your attention will be called to a measure for better securing the independence of Parliament.

Experience has shown that certain changes may advantageously be made in the departmental arrangements existing at present. A bill will be submitted to you for accomplishing this purpose without increasing the expenditure, or the number of Departments.

It is very desirable that there should be uniform legislation in all the Provinces respecting the traffic in spirituous liquors. Hitherto that trade has been regulated by Provincial laws, or laws existing before the Confederation of the Provinces, although there has been lately a conflict of authority as to the jurisdiction of the local authorities. A bill making the necessary provision will be submitted for your consideration.

Various measures found necessary for the amendments of existing laws will also be submitted for your approval.

Gentlemen of the House of Commons:

The Estimates for the ensuing year will be laid before you at an early day. They have been prepared with an anxious desire to provide for all the branches of the public service and the execution of pressing public works within the limits of the expected revenue, without increasing the burden of taxation.

I have directed that the Public Accounts of the past financial year shall be laid before you.

On motion of Mr. *Mackenzie*, His Excellency's Speech was ordered to be taken into consideration on Monday next.

Resolved,—That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals, and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Immigration and Colonization,—which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker also laid before The House, the Report of the Librarian of Parliament, on the state of the Library of Parliament, which is as follows:—

TO THE HONORABLE THE HOUSE OF COMMONS OF CANADA, IN
PARLIAMENT ASSEMBLED.

The Report of the Librarian of Parliament respectfully showeth :—

That during the past year continued efforts have been made to render the Law Division of the Library complete in all its branches, especially in view of the requirements of the Supreme Court, now in active operation; as well as for the use and behoof of members of the Legislature. Large purchases have been made since last Session, in French Jurisprudence; and comparatively little now remains to be done to place this important section of the Library upon a proper footing.

In order to facilitate reference to the Law Books, and to exhibit the full extent of this valuable collection, a classified Catalogue thereof has been prepared with an alphabetical index of authors and subjects. This is now in the press, and will be ready for distribution in a few days.

This work will be followed, as soon as possible, by the issue of a similar Catalogue of the Books on Political and Social Science, and Political Economy—which, together with the Law Books, will embrace all the works in more immediate demand by those engaged in the business of legislation.

Considerable additions have likewise been made to all other sections of the Library, particularly in the French department. Some dissatisfaction was expressed last Session by French Canadian Members, at the serious deficiencies which were apparent in this portion of the Library. Accordingly, strenuous efforts have been made to remedy this defect; and a larger sum of money has been expended for French Books, during the past year, than has been customary of late; but not so as to exceed in the aggregate the limit of one-third of the Parliamentary Grant for the purchase of books for the past two years; which amount has been approved by the Joint Library Committee as a suitable and necessary proportion of expenditure for French Books.

A supplementary Catalogue of the additions to the Library within the year has been printed but: this does not include the numerous works on Law and Legislation which are entered in the Classified Law Catalogue above mentioned.

The usual lists of Works deposited under the Copyright Act, and of Donations received within the year, are hereunto appended.

Amongst these Donations, there are some which are deserving of a special mention.

(1.) The original photographic picture of the Fancy Dress Ball, that took place at Government House, in February, 1876; which has been generously presented to the Library by His Excellency the Governor General. This is a beautiful memento of a memorable event in Canadian social life; and an historical record of permanent interest, not only of the individuals who took part therein, but of the characters they severally assumed.

In making this costly and beautiful gift, Lord Dufferin has expressed a hope that it may "prove the precursor of many another artistic donation to the Art 'Treasures of the Dominion, and a first step towards the establishment of a National 'Picture Gallery.'" Your Librarian would venture to re-echo this desire and to solicit, on behalf of all students and lovers of the Fine Arts in Canada, the judicious liberality of Parliament to aid in cultivating a sound and enlightened taste, throughout the Dominion, in this particular. A small annual grant, to be expended in the purchase of choice productions by native artists, would be a much appreciated boon, and a stimulus to native talent in this direction.

(2.) Through the good offices of Mr. *Edward Allen*, our London Agent, the Library has become the fortunate possessor of one of a limited number of issues of a great literary curiosity, namely, a copy of the Holy Bible, printed (from type previously set up), bound and forwarded from Oxford to London, in the space of

twelve consecutive hours. The wonderful achievement was performed in commemoration of the four hundredth anniversary of the introduction of printing into England by *William Caxton*; and it is a striking memorial of the triumph and consummation of the arts of printing and binding since that epoch.

(3.) Another literary treasure of much intrinsic value, recently presented to the Library, is a copy of the annotated catalogue of all the works printed in relation to America, between the years 1482 and 1601, and which are to be found in the private library of the late *John Carter Brown*, of Providence, Rhode Island. This catalogue of a most precious and unique collection, was printed for private circulation only, in the most sumptuous style, and is enriched by bibliographical notes from the pen of the Honorable *John Russell Bartlett*, an accomplished American scholar, and with fac-similes of original title pages of some of the rarest books in America. This catalogue is so highly prized by collectors, that a copy of it has been known to fetch three hundred and twenty-five dollars at a book auction. The Library is indebted to the widow of the late *Mr. John Carter Brown* for this interesting volume.

In the last Report the number of volumes then in the Library was estimated at 83,883. About 4,998 volumes have been added during the year, making a total of 88,871.

All which is respectfully submitted.

ALPHEUS TODD,
Librarian of Parliament.

PRAYERS.

Four Petitions were brought up, and laid upon the Table.

Mr. Speaker laid before The House,—Account Current of the Accountant of the House of Commons, of the amount received and disbursed by him for contingencies, from the 1st July, 1876, to the 1st July, 1877; with the Auditor's Report.

On motion of Mr. *Ross* (Middlesex), a Select Committee was appointed to supervise the official Report of the Debates of this House during the present Session; with power to report from time to time; said Committee to be composed of Messrs. *Ross* (Middlesex), *Oliver*, *Dymond*, *Béchar*, *Charlton*, *Tupper*, *Bowell*, *Desjardins*, and *Colby*.

The House proceeded to the consideration of His Excellency's Speech at the opening of the Session.

Mr. *De St. Georges* moved, seconded by Mr. *Charlton*,—

That an humble Address be presented to His Excellency the Governor General, to thank His Excellency for his gracious Speech at the opening of the present Session; and further to assure His Excellency,—that we learn with satisfaction, that His Excellency, in again summoning us for the despatch of business, is able to inform us that nothing beyond the ordinary business of the country requires our attendance.

That it affords us great pleasure to know that His Excellency had an opportunity, before his departure from Canada, of visiting the Province of Manitoba and a portion of the outside Territories, which visit His Excellency accomplished during last Autumn, and that His Excellency has now had the advantage of visiting every Province in the Dominion during the term of his government of Canada.

That we are happy to learn from His Excellency that the arbitration on the Fishery claims, under the terms of the Washington Treaty, has been concluded, and an award has been made by the Commissioners of \$5,500,000 as compensation to Canada and Newfoundland for the use of their fisheries during the term of the present Treaty, and that we feel, with His Excellency, that although this amount is much less than that claimed by His Excellency's Government, yet that having assented to the creation of the tribunal for the determination of their value, we are bound loyally to assent to the decision given.

That we are glad to know that the exhibition of Canadian manufactures and products at Sydney, New South Wales, was successfully carried out; that we trust with His Excellency, that the result will be the opening up of a new market for Canadian goods even in so remote a region as the Australasian colonies, shipments of Canadian productions having already been made; and that, although the expenditure will slightly exceed the estimate, we doubt not the cost to Canada will be amply repaid by the extension of her trade.

That we thank His Excellency for informing us that preparations have been uninterruptedly carried on during the last six months for securing an ample but select exhibition of Canada's products and manufactures at the great exhibition to be held at Paris during the current year; that a further estimate will be required to meet the expenditure, and that His Royal Highness the Prince of Wales, as Chairman of the British Commissioners, has assigned a most prominent place to Canada in one of the main Towers, where a Canadian Trophy is now being erected.

That while we are grieved to know that a very disastrous fire occurred in June last in the City of St. John, which caused the destruction of a large portion of the city, including all the public buildings owned by the Dominion Government, we feel that His Excellency's Government were right in deeming it necessary to contribute \$20,000 to assist in relieving the immediate wants of the people who were rendered destitute by so appalling a calamity, as His Excellency was in sanctioning the appropriation of some public money with which to commence the erection of new buildings for the public business; and that we shall have pleasure in confirming these acts in the usual way.

That we are much gratified to be informed, that during the last summer His Excellency's Commissioners made another Treaty with the Blackfeet, Blood and Piegan Indians, by which the Indian title is extinguished over a territory of 51,000 square miles west of Treaty No. 4, and south of Treaty No. 6, that the Treaty has been made on terms nearly the same as those under Treaty No. 6, though somewhat less onerous, and that the entire territory west of Lake Superior to the Rocky Mountains, and from the boundary nearly to the 55th degree of North latitude, embracing about 450,000 square miles, has now been acquired by peaceful negotiation with the native tribes, who place implicit faith in the honor and justice of the British Crown.

That we learn with much interest, that early in the past summer, a large body of Indians under Sitting Bull, from the United States, crossed into British Territory, to escape from the United States troops, and have since remained on the Canadian side; and that the United States Government made a friendly but unsuccessful attempt to induce these Indians to return to their reservations. And that we agree with His Excellency, in hoping that such arrangements may yet be made as may lead to their permanent and peaceful settlement, and thus relieve Canada of a source of uneasiness and a heavy expenditure.

That we are well pleased to know, that the surveys of the Pacific Railway have been pressed to completion during the past season; that a complete instrumental survey of the route, by the valleys of the North Thompson and Lower Fraser Rivers, has been made with a view to ascertain definitely, whether that route presents more favorable features than the routes already surveyed to Dean Inlet and Bute Inlet respectively; and that it is believed that the additional information now obtained will enable His Excellency's Government to determine which route is the most advantageous from Tête Jaune Cache to the sea; and that we thank His Excellency for the promise that full information will be laid before us at an early day, of the season's work in this and other directions.

That we receive with much pleasure His Excellency's congratulations on the abundant harvest reaped in all quarters of the Dominion, and that under this and other influences there has been some improvement in the Revenue returns, thus indicating, as we trust with his Excellency, that the commercial depression that afflicted Canada in common with other countries, is passing away.

That we thank His Excellency for informing us that his attention having been called to some imperfections in the existing system of auditing the Public Accounts, a measure providing for a more thorough and effective supervision will be submitted for our consideration.

That we share with His Excellency the conviction that the prospect of obtaining, at an early day, greater facilities for reaching the North Western Territories and the Province of Manitoba, is sure to attract a larger number of settlers every year, and that as much of the prosperity of the Dominion depends on the rapid settlement of the fertile lands in those Territories, it is desirable and necessary to

facilitate such settlement as much as possible; and that we are pleased to learn, that in order to affect this, measures will be submitted for our consideration concerning the registration of titles, the enactment of a Homestead Law, and the promotion of Railway enterprise in districts not touched by the Canada Pacific Railway.

That we shall give our best attention to any measure submitted to us for better securing the Independence of Parliament.

That being informed by His Excellency that experience has shown that certain changes may advantageously be made in the departmental arrangements existing at present, we shall respectfully consider any Bill submitted to us for accomplishing this purpose, without increasing the expenditure or the number of Departments.

That we feel with His Excellency, that it is very desirable there should be uniform legislation in all the Provinces respecting the traffic in spirituous liquors, and being aware that hitherto that trade has been regulated by Provincial laws, or laws existing before the Confederation of the Provinces, although there has been lately a conflict of authority as to the jurisdiction of the local authorities, we shall gladly receive any Bill making the necessary provision which may be submitted for our consideration, as we shall also any other measures found necessary for the amendment of existing laws and submitted for our approval.

That we thank His Excellency for the assurance that the Estimates for the ensuing year will be laid before us at an early day, and that they have been prepared with an anxious desire to provide for all the branches of the public service and the execution of pressing public works within the limits of the expected revenue, without increasing the burden of taxation; and for having directed that the Public Accounts of the past financial year shall be laid before us.

And a Debate arising,—and The House having continued to sit until 12 of the clock, midnight;

TUESDAY, 12TH FEBRUARY, 1878.

And the Debate continuing,—the said Debate was, on the motion of Mr. *Mousseau*, adjourned.

The House then adjourned at 12.10 A.M.

Mr. Thomson (Welland)—On Monday next—COMMITTEE OF THE WHOLE, to consider the following Resolutions:—

1. That experience shews that during the past forty years the business and industries of the people of Canada and of the United States, have in times undisturbed by war or pestilence, been paralysed by sudden, ruinous and occasionally long continued depressions and stagnations, and that each such crisis, aided by the steady products of agriculture, has passed away, and fresh activity and enterprise been developed; and that hitherto no effectual means have been adopted to prevent the recurrence of the wide-spread ruin and misery which always characterizes such crises.

2. That it is not correct, though often asserted as being so, that over-trading, over-manufacturing and personal extravagance are the causes of these crises, the fact being that the cause must be sought for at the root of the system under which the industries, Agricultural, Mechanical, Commercial and Mercantile move, and not from the outcropping of an imperfect system, and that as a rule the imperfect being generally the source of imperfection, it is evident that a new system is needed, by which aid would be extended to the agricultural industry especially; it, and it only, being the underlying perpetuator of national and individual life and prosperity.

3. That as mechanical science has within the same period of forty years in a great measure supplanted manual labour, it is probable that a monetary system which sufficed for the former processes of industry, is inadequate to meet the demands of like processes, stimulated by machinery and steam power; and that it may fairly be concluded that from that circumstance results the want of harmony of system which produce those great catastrophes called panics or periodical depressions, which are always fraught with ruin to families and communities.

4. That as the banking and currency system now in force in the country is of a purely commercial character and only sufficient for mercantile transactions; as the only method by which farmers can obtain money is by mortgaging their farms at high rates of interest, generally resulting in ruin to the farmer, as experience has amply proved that no legitimate industry, agricultural, mechanical or commercial, can escape ultimate failure when money is the article of the first and highest profit, it is expedient that a system of agricultural banking should be created to ensure money aid to farmers at a low rate of interest, and upon a system more adapted to the needs of agriculture than that forming the basis of the present mercantile system of banking.

5. That to obtain this object a measure should be passed by the Parliament of Canada, to be called the General Agricultural Banking Act, embodying the provisions set forth in the following resolutions:

6. That an Agricultural Bank, distinguished by the name of the County, may be established in each County in Canada; that the capital stock of each such Bank shall be at least five hundred thousand dollars, in shares of twenty-five dollars each, and that the whole of the said capital stock shall be paid up before any banking business is commenced.

7. That so soon as the said capital is paid up in full the same shall be deposited with the Government of Canada, who shall give to the Bank in exchange, free of charge, an equivalent amount of Dominion notes, each of which notes shall be stamped with a distinctive mark denoting the Agricultural Bank to which it has been issued; that upon such capital so deposited interest shall be paid by the Government to the Bank at the rate of 3 per cent. per annum, but that such interest shall only be payable for such time as the Dominion notes given in exchange for the said capital continue unredeemed; and that such interest shall be calculated from time to time as the said Dominion notes are redeemed by the Government.

8. That all deposits made with the Bank, except only Dominion notes bearing its own distinctive mark, shall in like manner once in each week be deposited with the Government, which, as in the case of the deposit of the capital stock, shall return to the Bank an equivalent amount of Dominion notes; and such deposits with the Government shall bear the same interest with the same conditions as the capital stock, save and except that arrangements may be made between Agricultural Banks for the mutual exchange of Dominion notes received on deposit and bearing the distinctive marks of any of such Banks so entering into such arrangement.

9. That the Banks shall issue no notes or bill of its own.

10. That the Bank shall lend to farmers only, and for purposes of the farm on credit not exceeding one year.

11. That the Bank shall not lend on the security of real estate, nor discount any note, nor hold any real estate, except only the premises actually required for its occupation; but that the Bank may lend upon open account, with the security of two approved bondsmen, charging interest at not more than five per cent. on all moneys as withdrawn from the Bank by the borrower; that borrowers and depositors with the Bank shall be allowed interest at the rate of 3 per cent on all balances at their credit, calculated from time to time as deposits are made or amounts withdrawn; that once in each year, or upon the first closing of the accounts, every account shall be balanced and a commission of one per cent. on the debits of the account current shall be charged the borrower or depositor towards defraying the expenses of the Banking office.

12. That the Bank may declare dividends out of its earnings at a rate not to exceed 5 per cent. per annum on its capital, and that any earnings over and above the amount sufficing to pay such dividend shall be applied as follows:—1st, in laying aside a sum not exceeding 10 per cent. upon the capital stock as a rest or reserve to equalize dividends in succeeding years; and 2nd, to reduce the rate of interest to borrowers in succeeding years to as low a point as will ensure the dividend of 5 per cent. herein before specified; but that under no circumstance shall the Bank charge a higher rate of interest than 5 per cent.

13. That possession of shares in the capital stock of the Bank shall be evidenced by the possession of certificates of shares, which shall be transferable from one person to another without endorsement or transfer noted in the books of the Bank; and that for the purpose of exercising the right to vote, each shareholder shall deposit the shares which he holds at the Bank at least one week previous to the general or special meeting at which the votes are to be given.

14. That the affairs of the Bank shall be administered by a Board of Directors not less than five nor more than fifteen in number, who shall be elected by the votes of the majority of the shareholders present at the annual general meeting, each share entitling the holder thereof to one vote; that the qualification of a Director shall be the holding of forty shares in the capital stock of the Bank deposited with the Bank, as in the next preceding resolution specified, at least one week before the day of election; that during the continuance in office of the Director the said amount of shares shall remain deposited with the Bank and if the same are withdrawn by him

previous to the expiry of his term of office he shall *ipso facto* cease to be a Director; that the Directors shall have power to fill vacancies as they arise, and that the Directors, as soon as may be after their election, shall proceed to the election of one of their number to be the President of the Bank.

15. That the Bank shall make monthly returns to the Government in such form as shall be prescribed by the Governor in Council, which returns shall be signed by the President and principal officer of the Bank.

16. That no dividend shall be made so as to impair the capital stock of the Bank; and, if the same be done, that the Directors knowing and wilfully concurring therein shall be jointly and severally liable for the amount thereof.

17. That if any Cashier, Assistant Cashier, Manager, Clerk or Servant of the Bank, secretes, embezzles or absconds with any Bond, Obligation, Bill obligatory or of credit or other Bill or Note or any security for money, or any money or effects entrusted to him as such Cashier, Assistant Cashier, Manager, Clerk or Servant, whether the same belong to the said Bank or belong to any person or persons, body or bodies, politic or corporate, or institution or institutions, and be lodged with the said Bank, the said Cashier, Assistant Cashier, Manager, Clerk, or Servant, so offending and being thereof convicted in due form of law, shall be deemed guilty of felony, and shall be punished by imprisonment at hard labour in the Penitentiary for any term not less than two years, or by imprisonment in any gaol or place of confinement for any term less than two years, in the discretion of the Court.

18. That the making of any wilfully false or deceptive statement in and account, statement, returns, reports or other document respecting the affairs of the Bank, shall, unless it amounts to a higher offence, be a misdemeanor, and any every President, Director, Auditor, Manager, Cashier, or other officer of the Bank, preparing, signing, approving or concurring in such statement, return, report, or document, or using the same with intent to deceive or mislead any party, shall be held to have wilfully made such false statement, and shall further be responsible for all damages sustained by such party in consequence thereof.

19. That an Inspector or Inspectors of Agricultural Banks shall be appointed by the Governor in Council, whose duty it shall be to inspect such Banks at least once in each six months, and to report thereon to the Minister of Finance; that the salaries of such Inspector or Inspectors shall be paid by a *private* contribution from the Agricultural Banks based upon the amount of their capital; that an Inspector shall have power, in the event of any infringement of the Act respecting Agricultural Banks, to take sole charge of the Bank, and to report the case to the Minister of Finance.

20. That the Governor in Council shall have power and authority in such case to make such order, either as to the future management of the Bank or as to the winding up of its affairs, as to him may seem advisable.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, FRIDAY, 15TH FEBRUARY, 1878.

PRAYERS.

Seven Petitions were brought up, and laid on the Table.

The House again resumed the further|adjourned Debate on the proposed motion of Mr. *De St. Georges* for an Address in answer to His Excellency's Speech at the opening of the Session.

And The House having continued to sit until 12 of the clock, midnight;

SATURDAY, 16TH FEBRUARY, 1878.

And the question being put; it was agreed to.

On motion of Mr. *Mackenzie*, the said Resolution was referred to a Select Committee, composed of Messrs. *Mackenzie*, *Smith* (Westmoreland), *Laflamme*, *Jones*, *De St. Georges*, and *Charlton*, to draft an Address pursuant thereto.

Mr. *Mackenzie*, from the said Committee, reported the draft of an Address, and the same being read a second time, was agreed to, and is as follows:—

To His Excellency the Right Honorable Sir FREDERIC TEMPLE Earl of *Dufferin*, Viscount and Baron *Clandeboye* of *Clandeboye*, in the County Down, in the Peerage of the United Kingdom, Baron *Dufferin* and *Clandeboye*, of *Ballyleidy* and *Killeleagh* in the County Down, in the Peerage of Ireland, and a Baronet, Knight of the Most Illustrious Order of *Saint Patrick*, Knight Grand Cross of the Most Distinguished Order of *Saint Michael* and *Saint George*, and Knight Commander of the Most Honorable Order of the Bath, Governor General of Canada, and Vice-Admiral of the same, etc., etc., etc.

MAY IT PLEASE YOUR EXCELLENCY:

We, Her Majesty's dutiful and loyal subjects the Commons of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of the present Session.

We learn with satisfaction, that Your Excellency, in again summoning us for the despatch of business is able to inform us that nothing beyond the ordinary business of the country requires our attendance.

It affords us great pleasure to know, that Your Excellency had an opportunity, before your departure from Canada, of visiting the Province of Manitoba and a portion of the outside Territories, which visit Your Excellency accomplished during last Autumn, and that Your Excellency has now had the advantage of visiting every Province in the Dominion during the term of your government of Canada.

We are happy to learn from Your Excellency, that the arbitration on the Fishery claims, under the terms of the Washington Treaty, has been concluded, and an award has been made by the Commissioners of \$5,500,000, as compensation to Canada and Newfoundland for the use of their fisheries during the term of the present Treaty, and that we feel, with Your Excellency, that although the amount is much less than that claimed by Your Excellency's Government, yet that having assented to the creation of the tribunal for the determination of their value, we are bound loyally to assent to the decision given.

We are glad to know that the exhibition of Canadian manufactures and products at Sydney, New South Wales, was successfully carried out; that we trust, with Your Excellency, that the result will be the opening up of a new market for Canadian goods even in so remote a region as the Australasian colonies, shipments of Canadian productions having already been made; and that, although the expenditure will slightly exceed the estimate, we doubt not the cost to Canada will be amply repaid by the extension of her trade.

We thank Your Excellency for informing us, that preparations have been uninterruptedly carried on during the last six months, for securing an ample but select exhibition of Canada's products and manufactures at the great exhibition to be held at Paris during the current year; that a further estimate will be required to meet the expenditure, and that His Royal Highness the Prince of Wales, as Chairman of the British Commissioners, has assigned a most prominent place to Canada in one of the main towers, where a Canadian Trophy is now being erected.

While we are grieved to know that a very disastrous fire occurred in June last in the City of St. John, which caused the destruction of a large portion of the city, including all the public buildings owned by the Dominion Government, we feel that Your Excellency's Government were right in deeming it necessary to contribute \$20,000 to assist in relieving the immediate wants of the people who were rendered destitute by so appalling a calamity, as Your Excellency was in sanctioning the appropriation of some public money with which to commence the erection of new buildings for the public business; and we shall have pleasure in confirming these acts in the usual way.

We are much gratified to be informed, that during the last summer Your Excellency's Commissioners made another Treaty with the Blackfeet, Blood and Piegan Indians, by which the Indian title is extinguished over a territory of 51,000 square miles west of Treaty No. 4, and south of Treaty No. 6; that the Treaty has been made on terms nearly the same as those under Treaty No. 6, though somewhat less onerous, and that the entire territory west of Lake Superior to the Rocky Mountains, and from the boundary nearly to the 55th degree of North Latitude, embracing about 450,000 square miles, has now been acquired by peaceful negotiation with the native tribes, who place implicit faith in the honor and justice of the British Crown.

We learn with much interest, that early in the past summer, a large body of Indians under *Sitting Bull*, from the United States, crossed into British Territory, to escape from the United States troops, and have since remained on the Canadian side; and that the United States Government made a friendly but unsuccessful attempt to induce these Indians to return to their reservations. And we agree with Your Excellency, in hoping that such arrangements may yet be made as may lead to their permanent and peaceful settlement, or return, and thus relieve Canada of a source of uneasiness and a heavy expenditure.

We are well pleased to know, that the surveys of the Pacific Railway have been pressed to completion during the past season; that a complete instrumental survey of the route, by the valleys of the North Thompson and Lower Fraser Rivers, has been made with a view to ascertain definitely, whether that route presents more

favorable features than the routes already surveyed to Dean Inlet and Bute Inle respectively; and that it is believed that the additional information now obtained will enable Your Excellency's Government to determine which route is the most advantageous from Tête Jaune Cache to the sea; and we thank Your Excellency for the promise that full information will be laid before us at an early day, of the season's work in this and other directions.

We receive with much pleasure Your Excellency's congratulations on the abundant harvest reaped in all quarters of the Dominion, and that under this and other influences there has been some improvement in the Revenue returns, thus indicating, as we trust with Your Excellency, that the commercial depression that afflicted Canada in common with other countries, is passing away.

We thank Your Excellency for informing us, that your attention having been called to some imperfections in the existing system of auditing the Public Accounts, a measure providing for a more thorough and effective supervision will be submitted for our consideration.

We share with Your Excellency the conviction, that the prospect of obtaining, at an early day, greater facilities for reaching the North Western Territories and the Province of Manitoba, is sure to attract a larger number of settlers every year, and that as much of the prosperity of the Dominion depends on the rapid settlement of the fertile lands in those Territories, it is desirable and necessary to facilitate such settlement as much as possible; and we are pleased to learn, that in order to effect this, measures will be submitted for our consideration concerning the registration of titles, the enactment of a homestead law, and the promotion of railway enterprise in districts not touched by the Canada Pacific Railway.

We will give our best attention to any measure submitted to us for better securing the Independence of Parliament.

Being informed by Your Excellency that experience has shown that certain changes may advantageously be made in the departmental arrangements existing at present, we shall respectfully consider any Bill submitted to us for accomplishing this purpose, without increasing the expenditure or the number of Departments.

We feel with Your Excellency, that it is very desirable that there should be uniform legislation in all the Provinces respecting the traffic in spirituous liquors, and being aware that hitherto that trade has been regulated by Provincial laws, or laws existing before the Confederation of the Provinces, although there has been lately a conflict of authority as to the jurisdiction of the local authorities, we shall gladly receive any Bill making the necessary provision which may be submitted for our consideration, as we shall also any other measures found necessary for the amendment of existing laws and submitted for our approval.

We thank Your Excellency for the assurance that the Estimates for the ensuing year will be laid before us at an early day, and that they have been prepared with an anxious desire to provide for all the branches of the public service and the execution of pressing public works within the limits of the expected revenue, without increasing the burden of taxation; and for having directed that the Public Accounts of the past financial year shall be laid before us.

The said Address was then ordered to be engrossed, and to be presented to His Excellency the Governor General by such Members of this House, as are of the Honorable the Privy Council.

On motion of Mr. *Mackenzie*, a Special Committee of seven Members was appointed, to prepare and report Lists of Members to compose the Select Standing Committees ordered by this House on Friday, the 8th instant;—composed of Messrs. *Mackenzie*, Sir *John A. Macdonald*, *Smith* (Westmoreland), *Blake*, *Holton*, *Tupper* and *Masson*.

Resolved, That this House will on Tuesday next resolve itself into a Committee, to consider of a Supply to be granted to Her Majesty.

Resolved, That this House will on Tuesday next resolve itself into a Committee, to consider of the Ways and Means for raising the Supply to be granted to Her Majesty.

Mr. *Mackenzie* laid before The House, by command of His Excellency the Governor General,—Annual Report of the Minister of Public Works, for the fiscal year, 1st July, 1876, to 30th June, 1877, on the works under his control.

Mr. *Smith* (Westmoreland) laid before The House, by command of His Excellency the Governor General,—Tenth Annual Report of the Department of Marine and Fisheries, being for the fiscal year, ended 30th June, 1877.

TIMOTHY WARREN ANGLIN,

Mr. *Bunster*—On Monday next—ADDRESS to Her Majesty, praying that she may be graciously pleased to recommend that a measure be submitted to the Imperial Parliament for the purpose of amending the 20th clause of Section 4 "Legislative Power" of the British North America Act 1867, so as to have a Session of the Parliament of Canada once in every two years instead of once in one year as at present exists, unless in cases of great public emergency, when His Excellency the Governor General, by and with the advice of His Executive, shall have the power to call such extra Sessions as may be deemed expedient in the interim, thus saving to the country one-half of the present enormous expense of legislation which may be said to cost annually, say in round numbers, House of Commons \$350,000, Senate \$200,000, which amendment would be of great advantage in saving of time to the public men of the Dominion and would be the means of saving so large an amount of the public revenue as would materially help to build many miles annually of the Canadian Pacific Railway.

PRAYERS.

One Petition was brought up, and laid on the Table.

The following Petitions were read and received:—

Of Sir *Hugh Allan*, and others, Members of the Presbyterian Church of Canada, in connection with the Church of Scotland; praying for an Act of incorporation under the name of "The Church of Scotland in Canada";—and

Of the County of Perth Prohibitory Liquor Law League; praying for certain amendments to the Dunkin Act.

Motion being made, that the Petition of *Bennett Smith*, and others, of Windsor and vicinity, County of Hants, Province of Nova Scotia; praying that a subsidy may be granted for a Steamer to ply on the Basin of Minas, between the ports of Saint John, N.B., and Windsor, N.S., calling at Parrsborough, in the County of Cumberland, be now received;

Mr. Speaker decided,—“That as the granting of the prayer of this Petition “ would involve the expenditure of public money, it cannot be received.”

On motion of Mr. *Smith* (Peel), the Petition of the Canada Vine Growers Association, presented this day, was read and received; praying for an extension of their Charter.

The House resumed the further consideration of Mr. *Kirkpatrick's* proposed motion, “that an Order of The House do issue to the proper officer, for copies of all “ Reports of Engineers, memorials, papers and correspondence relating to the survey “ and location of the line of the Pacific Railway between the Red River and Battle- “ ford, and not heretofore laid before Parliament; and also all Reports, memorials, “ papers and correspondence relating to the proposed line of said Railway between “ the same points but South of Lake Manitoba.”

And the Question being put,—it was agreed to, and the Order issued, accordingly.

On motion of Mr. *DeCosmos*, an Order of The House was issued, for copy of a Return containing a complete copy of every special and general Report of the Chief Engineer and Acting Chief Engineer of the Canadian Pacific Railway in possession of the Government, respecting the cost of constructing the line of the Canada Pacific Railway (including the bridges) between the Head of Bute Inlet and some place or port in Vancouver Island.

On motion of Mr. *Flynn*, an Order of The House to the proper officer was issued, for copies of all correspondence, papers and Reports in connection with the Grand River Falls, in the County of Richmond.

Mr. *Thomson* (Welland) moved, that this House will, *on Wednesday next*, resolve itself into a Committee of the Whole, to consider the following Resolutions:—

1. *Resolved*, That experience shews that during the past forty years the business and industries of the people of Canada and of the United States have, in times undis-

turbed by war or pestilence, been paralysed by sudden, ruinous and occasionally long continued depressions and stagnations, and that each such crisis, aided by the steady products of agriculture, has passed away, and fresh activity and enterprise been developed; and that hitherto no effectual means have been adopted to prevent the recurrence of the wide-spread ruin and misery which always characterizes such crises.

2. *Resolved*, That it is not correct, though often asserted as being so, that over-trading, over-manufacturing and personal extravagance are the causes of these crises, the fact being that the cause must be sought for at the root of the system under which the industries, Agricultural, Mechanical, Commercial and Mercantile move, and not from the outcropping of an imperfect system, and that as a rule the imperfect being generally the source of imperfection, it is evident that a new system is needed, by which aid would be extended to the agricultural industry especially; it, and it only being the underlying perpetuator of national and individual life and prosperity.

3. *Resolved*, That as mechanical science has within the same period of forty years in a great measure supplanted manual labour, it is probable that a monetary system which sufficed for the former processes of industry, is inadequate to meet the demands of like processes, stimulated by machinery and steam power; and that it may fairly be concluded that from that circumstance results the want of harmony of system which produce those great catastrophes called panics or periodical depressions, which are always fraught with ruin to families and communities.

4. *Resolved*, That as the banking and currency system now in force in the country is of a purely commercial character and only sufficient for mercantile transactions; as the only method by which farmers can obtain money is by mortgaging their farms at high rates of interest, generally resulting in ruin to the farmer, as experience has amply proved that no legitimate industry, agricultural, mechanical or commercial, can escape ultimate failure when money is the article of the first and highest profit, it is expedient that a system of agricultural banking should be created to ensure money aid to farmers at a low rate of interest, and upon a system more adapted to the needs of agriculture than that forming the basis of the present mercantile system of banking.

5. *Resolved*, That to obtain this object a measure should be passed by the Parliament of Canada, to be called the General Agricultural Banking Act, embodying the provisions set forth in the following Resolutions:

6. *Resolved*, That an Agricultural Bank, distinguished by the name of the County, may be established in each County in Canada; that the capital stock of each such Bank shall be at least five hundred thousand dollars, in shares of twenty-five dollars each, and that the whole of the said capital stock shall be paid up before any banking business is commenced.

7. *Resolved*, That so soon as the said capital is paid up in full the same shall be deposited with the Government of Canada, who shall give to the Bank in exchange, free of charge, an equivalent amount of Dominion notes, each of which notes shall be stamped with a distinctive mark denoting the Agricultural Bank to which it has been issued; that upon such capital so deposited interest shall be paid by the Government to the Bank at the rate of 3 per cent per annum, but that such interest shall only be payable for such time as the Dominion notes given in exchange for the said capital continue unredeemed; and that such interest shall be calculated from time to time as the said Dominion notes are redeemed by the Government.

8. *Resolved*, That all deposits made with the Bank, except, only Dominion notes bearing its own distinctive mark, shall in like manner once in each week be deposited with the Government, which, as in the case of the deposit of the capital stock, shall return to the Bank an equivalent amount of Dominion notes; and such deposits with the Government shall bear the same interest with the same conditions as the capital stock, save and except that arrangements may be made between Agricultural Banks for the mutual exchange of Dominion notes received on deposit and bearing the distinctive marks of any of such Banks so entering into such arrangement.

9. *Resolved*, That the Bank shall issue no note or bill of its own.

10. *Resolved*, That the Bank shall lend to farmers only, and for purposes of the farm only on credits not exceeding one year.

11. *Resolved*, That the Bank shall not lend on the security of real estate, nor discount any note, nor hold any real estate, except only the premises actually required for its occupation; but that the Bank may lend upon open account, with the security of two approved bondsmen, charging interest at not more than 5 per cent. on all moneys as withdrawn from the Bank by the borrower; that borrowers and depositors with the Bank shall be allowed interest at the rate of 3 per cent. on all balances at their credit, calculated from time to time as deposits are made or amounts withdrawn; that once in each year, or upon the final closing of the accounts, every account shall be balanced and a commission of 1 per cent. on the debits of the account current shall be charged the borrower or depositor towards defraying the expenses of the Banking office.

12. *Resolved*, That the Bank may declare dividends out of its earnings at a rate not to exceed 5 per cent. per annum on its capital, and that any earnings over and above the amount sufficient to pay such dividend shall be applied as follows:—1st, in laying aside a sum not exceeding 10 per cent. upon the capital stock as a rest or reserve to equalize dividends in succeeding years; and 2nd, to reduce the rate of interest to borrowers in succeeding years to as low a point as will ensure the dividend of 5 per cent. hereinbefore specified; but that under no circumstance shall the Bank charge a higher rate of interest than 5 per cent.

13. *Resolved*, That possession of shares in the capital stock of the Bank shall be evidenced by the possession of certificates of shares, which shall be transferable from one person to another without endorsement or transfer noted in the books of the Bank; and that for the purpose of exercising the right to vote, each shareholder shall deposit the shares which he holds at the Bank at least one week previous to the general or special meeting at which the votes are to be given.

14. *Resolved*, That the affairs of the Bank shall be administered by a Board of Directors not less than five nor more than fifteen in number, who shall be elected by the votes of the majority of the shareholders present at the annual general meeting, each share entitling the holder thereof to one vote; that the qualification of a Director shall be the holding of forty shares in the capital stock of the Bank deposited with the Bank, as in the next preceding resolution specified, at least one week before the day of election; that during the continuance in office of the Director the said amount of shares shall remain deposited with the Bank, and if the same are withdrawn by him previous to the expiry of his term of office he shall *ipso facto* cease to be a Director; that the Directors shall have power to fill vacancies as they arise, and that the Directors, as soon as may be after their election, shall proceed to the election of one of their number to be the President of the Bank.

15. *Resolved*, That the Bank shall make monthly returns to the Government in such form as shall be prescribed by the Governor in Council, which returns shall be signed by the President and principal officer of the Bank.

16. *Resolved*, That no dividend shall be made so as to impair the capital stock of the Bank; and, if the same be done, that the Directors knowing and wilfully concurring therein shall be jointly and severally liable for the amount thereof.

17. *Resolved*, That if any Cashier, Assistant Cashier, Manager, Clerk or Servant of the Bank, secretes, embezzles or absconds with any Bond, Obligation, Bill obligatory or of credit or other Bill or Note, or any security for money, or any money or effects entrusted to him as such Cashier, Assistant Cashier, Manager, Clerk or Servant, whether the same belong to the said Bank or belong to any person or persons, body or bodies, politic or corporate, or institution or institutions, and be lodged with the said Bank, the said Cashier, Assistant Cashier, Manager, Clerk, or Servant, so offending and being thereof convicted in due form of law, shall be deemed guilty of felony, and shall be punished by imprisonment at hard labour in the Penitentiary for any term not less than two years, or by imprisonment in any gaol or place of confinement for any term less than two years, in the discretion of the Court.

18. *Resolved*, That the making of any wilfully false or deceptive statement in any account, statement, return, report or other document respecting the affairs of the Bank, shall, unless it amounts to a higher offence, be a misdemeanor, and any and every President, Director, Auditor, Manager, Cashier, or other officer of the Bank, preparing, signing, approving or concurring in such statement, return, report, or document, or using the same with intent to deceive or mislead any party, shall be held to have wilfully made such false statement, and shall further be responsible for all damages sustained by such party in consequence thereof.

19. *Resolved*, That an Inspector or Inspectors of Agricultural Banks shall be appointed by the Governor in Council, whose duty it shall be to inspect such Banks at least once in each six months, and to report thereon to the Minister of Finance; that the salaries of such Inspector or Inspectors shall be paid by a *pro rata* contribution from the Agricultural Banks based upon the amount of their capital; that an Inspector shall have power, in the event of any infringement of the Act respecting Agricultural Banks, to take sole charge of the Bank, and to report the case to the Minister of Finance.

20. *Resolved*, That the Governor in Council shall have power and authority in such case to make such order, either as to the future management of the Bank or as to the winding up of its affairs, as to him may seem advisable.

And a Debate arising thereon,—on motion of Mr. Killam, the said Debate was adjourned.

And it being 6 o'clock P.M., Mr. Speaker adjourned The House until *to-morrow*.

The Expenditure they verified by the Accounts in detail, duly receipted by the several Contractors;—they also further verified the Account for Printing, which is furnished item by item, by a fyle of the work performed, each document being charged separately, and having tested several, both as to measurement and charges, were satisfied of their correctness.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, TUESDAY, 9TH APRIL, 1878.

PRAYERS.

Mr. *Holton*, from the Select Standing Committee on Railways, Canals, and Telegraph Lines, presented the Fifth Report of the said Committee, reporting the Bill No. 7 respecting the Ontario Express and Transportation Company, with amendments.

On motion of Mr. *Young* it was *Resolved*, That it is desirable that any witness to be examined by the Select Standing Committee on Public Accounts, in connection with the expenditure of public money by the purveyors of the Government in the North West, should be examined on oath.

Mr. *Laflamme* introduced a Bill No. 73 respecting persons imprisoned in default of giving sureties to keep the peace ; which was read the first time, and ordered for a second reading, to-morrow.

On motion of Mr. *Holton*, the Bill No. 71 from the Senate, intituled : " An Act to confer certain powers on the Montreal Building Association by the name of ' The Montreal Investment and Building Company,' " was read the first time, and ordered for a second reading, to-morrow.

The Order of the Day, for the third reading of the Bill No. 51 respecting the offices of Receiver General and Attorney General of Canada, being read ;

On motion of Mr. *Laflamme*, the said Order was discharged, and the Bill re-committed to a Committee of the Whole with instructions that they have power to amend the same by substituting the following, in lieu of Section 5 :—

The Governor in Council may from time to time make regulations providing for such control by the Attorney General over any person on the Staff of the Department of Justice, as shall seem requisite for the execution of the duties of the Attorney General's Office.

The House accordingly went again into Committee of the Whole on the said Bill, and amended the same in accordance therewith ; and the amendment was reported, and concurred in.

Mr. *Laflamme* moved, that the Bill be now read a third time ;

Mr. *Mitchell* moved in amendment thereto, that the Bill be not now read the third time, but that it be *Resolved*, That this House while approving of the abolition of the office of Receiver General as a step in the direction of retrenchment, is of opinion that the creation of an additional Office in the Department of Justice

entails upon the Country an unnecessary charge and expense, not justifiable by the requirements of the Public Service, and therefore, that this Bill be referred back to a Committee of the Whole, with instructions that they have power to strike out all the Clauses relating to the Department of Justice ; which was negatived on the following division :—

On motion of Mr. *Mackenzie*, it was *Resolved*, That an humble Address be presented to His Excellency the Governor General, expressing the deep feeling of regret of this House at his approaching departure from Canada, and it is our duty to assure His Excellency that the zealous devotion of his great abilities on all occasions to the public interests is held in high appreciation; and that especially the visits to each of the Provinces and Territories of the Dominion by which His Excellency has familiarised himself with the character of the people and the resources of the country and the eloquent speeches in which His Excellency has enlarged on those topics, have been attended with the most beneficial results in attracting attention to Canada; and that we are highly sensible of the great degree in which literature and art and the industrial pursuits have received encouragement from His Excellency's efforts and liberality; and assuring His Excellency and his distinguished Consort that they will bear with them on leaving us our warmest wishes for their future welfare and happiness; that we rejoice in the conviction that, though Canada may no longer possess the advantage of His Excellency's experience and knowledge of public affairs in so exclusive a degree as she has enjoyed them in the past, she will continue to have in His Excellency a friend and advocate; and that it is our heartfelt wish that for many years the Empire at large may have the benefit of His Excellency's ripe wisdom, experience and eminent abilities.

The said Resolution was then referred to a Select Committee, composed of Messrs. *Mackenzie*, *Blake*, Sir *John A. Macdonald*, *Holton*, *Lastamme*, *Tupper*, *Smith* (Westmoreland) *Langevin*, and *Masson*, to draft an Address to His Excellency thereon.

MAY IT PLEASE YOUR EXCELLENCY:

We, Her Majesty's dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, beg leave to approach Your Excellency with the expression of the deep feeling of regret which we experience at your approaching departure from Canada.

We feel it to be a duty to assure Your Excellency that the zealous devotion of your great abilities on all occasions to the public interests is held in high appreciation; and that especially the visits to each of the Provinces and Territories of the Dominion by which Your Excellency has familiarised yourself with the character of the people and the resources of the country, and the eloquent speeches in which Your Excellency has enlarged on those topics have been attended with the most beneficial results in attracting attention to Canada.

We are highly sensible of the great degree in which literature and art and the industrial pursuits have received encouragement from Your Excellency's efforts and liberality.

We venture to convey the assurance that Your Excellency and your distinguished Consort will bear with you on leaving us our warmest wishes for your future welfare and happiness; that we rejoice in the conviction that, though Canada may no longer possess the advantage of Your Excellency's experience and knowledge of public affairs in so exclusive a degree as she has enjoyed them in the past this country will continue to have in Your Excellency a friend and advocate; and that it is our heart-felt wish that for many years the Empire at large may have the benefit of Your Excellency's ripe wisdom, experience and eminent abilities.

NOTICES OF MOTIONS.

Mr. *Bourbeau*—On Wednesday next—ENQUIRY OF MINISTRY—Whether it is the intention of the Government to open a Post Office at the place called “Lavallée Corners,” on the line of the South Eastern Counties Railway, at the intersection of the said Railway with the front road of the 9th and 10th Ranges of the Township of Grantham, in the Parish of St. Germain de Grantham, County of Drummond ?

Mr. *Killam*—On Wednesday next—ENQUIRY OF MINISTRY—Whether the Government have learned that an arrangement has been made between Spain and the United States under which the measurement of the Shipping of the United States is accepted in the Ports of Spain and Cuba, for the purpose of collecting tonnage duties ; and whether any steps have been taken by the Government to place Canadian vessels upon an equal footing ?

Mr. *Schultz*—On Wednesday next—ENQUIRY OF MINISTRY—Whether it is the intention of the Government to establish Post Offices at “Dallas” and “Stonewall,” in the Province of Manitoba ?

Mr. *Schultz*—On Wednesday next—ENQUIRY OF MINISTRY—Whether it is the intention of the Government to light and buoy the navigable mouth of the Red River in the Province of Manitoba ?

Mr. *MacKenzie*—On Thursday next—That when the House adjourns on that day it shall stand adjourned until three o'clock in the afternoon on Saturday ; and that Government Measures shall have precedence immediately after Routine Proceedings.

Mr. *Mills*—On consideration of amendment made by the Senate to the Bill (No. 46) : An Act to amend an Act respecting conflicting claims to lands of occupants in Manitoba—That this House doth disagree with the said amendment, for the following reasons :—

1st. That the proposed amendment is at variance with the general scope and title of the Act respecting conflicting claims to lands in Manitoba, under which the question whether any person has a claim against the Crown is not referred to the Commissioners, but only the cases of persons who had acquired some estate or interest in land from the Hudson's Bay Company, or the cases of adverse or conflicting claims between persons under sub-sections *three* and *four* of section thirty-two of the *Manitoba Act*, and in respect of which it has been previously established to the satisfaction of the Minister charged with the administration of Dominion Lands, that there has been undisturbed occupancy of the same. The question whether any person has a claim against the Crown, is and should be determined by the Minister prior to any reference to the Commissioners.

2nd. That the machinery provided by the Dominion Lands Act enables the Minister in charge to make the necessary investigation in the cases provided for by the amendment more expeditiously, efficiently and cheaply than can be done under this amendment, should it become Law.

3rd. That the amendment would prevent the Minister from deciding adversely to the claimant without first making a reference to the Commissioners, although the evidence accompanying the application may conclusively shew that the person asking for a patent has no valid claim.

4th. That the amendment will injuriously impede the administration of Dominion Lands in Manitoba, and delay the allotment of some of the Half-breed reservations.

OTTAWA, WEDNESDAY, 17TH APRIL, 1878.

PRAYERS.

Mr. *Cartwright* presented the reply of His Excellency the Governor General to the Joint Address of both Houses, and which is as follows:—

Honorable Gentlemen :

It is difficult for me to find befitting words in which to thank you for the signal and unprecedented honour which has been conferred upon me by this Joint Address from your two Houses.

Regarding as I do the utterances of Parliament as the most august and authoritative expression of the popular sentiment, it affords me unmeasured satisfaction to be thus assured of the confidence and esteem of the inhabitants of the Dominion.

To win the good will of a nation is the greatest achievement open to human ambition, and to learn from you that I hold a place in the affections of the people of Canada is alike the highest triumph and the greatest pleasure I am ever likely to enjoy.

It would not become me to inquire how far this result is to be attributed rather to your own generosity than to any exertions upon my part. It is a happy principle rooted in the nature of Englishmen of all estates to content themselves with the simple discharge of those duties which lie to their hand, without considering too curiously to what degree their conduct may influence the personal estimation in which they are held by others, and their reward, when it arrives, is often as great a surprise as it is a satisfaction. All that I can say is that, from the moment I came amongst you, I have had but one thought—the desire to render faithful service to our Queen, to the Empire, and to Canada.

If there are no positive advantages to which I can point as having resulted from my administration, there is one boast I can fairly make. No act or word of mine has had a tendency to damp your personal devotion to the Crown, to discourage your attachment to the Empire, or to discredit the system of Constitutional Government under which you live.

I found you a loyal people, and I leave you the truest-hearted subjects in Her Majesty's Dominions. I found you proud of your descent and anxious to maintain your connection with the Mother Country; I leave you more convinced than ever of the solicitude of Great Britain to reciprocate your affection, of her dependence on your fidelity in every emergency. I found you men of various nationalities—of English, French, Irish, Scotch and German descent, working out the problems of Constitutional Government with admirable success; I leave you with even a deeper conviction in your minds that the due application of the principles of Parliamentary Government is capable of resolving every political difficulty, and of controlling the gravest Ministerial Crises, to the satisfaction of the people at large, and of their leaders and representatives of every shade of opinion.

When I resign the temporary Vice-royalty with which I have been invested into the hands of my Sovereign, I shall be able to assure her that not a leaf has fallen from her Maple Chaplet, that the lustre of no jewel in her transatlantic diadem has been dimmed.

Thanks to the opportunities afforded me by the liberality of Parliament, I have been enabled to traverse the fertile regions of your North West, to appreciate your inexhaustible resources and to scan the vast expanse of your territories from the Atlantic to the Pacific. The Speeches to which you refer in such flattering terms have been but the natural, the irresistible exclamations evoked by the sights I have beheld.

Closely associated with me in the discharge of all my duties has been the Lady to whom your Address refers in so kind a manner. Moving amid a society, where the proverbial gallantry of Frenchmen combines with English and Celtic chivalry to create in every Canadian home an atmosphere of purity and refinement; she naturally regards the six years she has passed amongst you as one of the happiest periods of her life, and I am commissioned to convey to you her warmest thanks for the good wishes you have expressed in her regard.

In conclusion allow me to assure you that I shall esteem it one of the greatest privileges of my future life to watch the progressive development of your prosperity, to advocate your interests in the British Parliament, and to confirm our fellow-countrymen at home in their conviction of the high degree to which Canada is destined to contribute to the welfare, the strength, and the renown of the British Empire.

PRAYERS.

The following Petitions were read and received:—

Of the Ottawa Board of Trade and others, Merchants of the City of Ottawa; praying that the inspection of Butter may be made compulsory, and that other consequent amendments may be made to the Act respecting the inspection of staple articles of Canadian produce.

Of *S. Dionne* and others, of St. Denis; of *C. T. Anctil* and others, of St. Philippe de Néri; and of the Reverend *E. Demers* and others, of Mont Carmel; severally praying that the excise duty on the manufacture of foreign tobacco may be increased by ten cents per pound, or the same duty on the manufacture of Canadian tobacco reduced by a similar amount.

Mr. *Jones* presented,—Return to an Order of The House of the 20th March, last; for a Return giving in detail the amount of ammunition furnished during the years 1875, 1876 and 1877, to the Active Volunteer Battalions and Companies of the Dominion; specifying the Battalion to which each Company belonged, and the amount purchased, and the prices paid by each Company or Battalion respectively; also the amount served out to the several Battalions or Companies for practice, and specifying the Companies or Battalions receiving the same, for which no charge was made.

A Message was received from the Senate, agreeing to the Bill No. 3 to provide that persons charged with common assault, shall be competent as witnesses in their own behalf, without amendment.

Also,—agreeing to the Bill No. 30 to grant certain powers to the Agricultural Mutual Assurance Association of Canada, and to change its name, with amendments. (On motion of Mr. *Bowell*, the said amendments were taken into consideration, and concurred in.)

The House went again into Committee of the Whole on the Bill No. 20 to amend the Act respecting the Election of Members of the House of Commons.—And further progress having been made, the Committee rose, and obtained leave to sit again, this day.

The Order of the Day, for taking into consideration the amendment made by the Senate to the Bill No. 46 respecting conflicting claims to lands of occupants in Manitoba, being read ;

On motion of Mr. *Mills* it was *Resolved*, That this House doth disagree with the said amendment, for the following reasons:—

1st. That the proposed amendment is at variance with the general scope and title of the Act respecting conflicting claims to lands in Manitoba, under which the question whether any person has a claim against the Crown is not referred to the Commissioners, but only the cases of persons who had acquired some estate or interest in land from the Hudson's Bay Company, or the cases of adverse or conflicting claims between persons under sub-sections *three* and *four* of section thirty-two of the *Manitoba Act*, and in respect of which it has been previously established to the satisfaction of the Minister charged with the administration of Dominion Lands, that there has been undisturbed occupancy of the same. The question whether any person has a claim against the Crown, is and should be determined by the Minister prior to any reference to the Commissioners.

2nd. That the machinery provided by the Dominion Lands Act enables the Minister in charge to make the necessary investigation in the cases provided for by the amendment more expeditiously, efficiently and cheaply than can be done under this amendment, should it become Law.

3rd. That the amendment would prevent the Minister from deciding adversely to the claimant without first making a reference to the Commissioners, although the evidence accompanying the application may conclusively shew that the person asking for a patent has no valid claim.

4th. That the amendment would injuriously impede the administration of Dominion Lands in Manitoba, and delay the allotment of some of the Half-breed reservations.

On motion of Mr. *Mills* it was *Resolved*, That a Message be sent to the Senate, acquainting their Honors, that this House hath disagreed to the said amendment for the foregoing reasons.

The House went again into Committee of Supply.

(*In Committee.*)

Return to Order,—Accounts for payment for printing as entered in the Public Accounts for 1873-4, as made out of the Contingencies of the Department of Justice, to *I. B. Taylor* and *J. G. Moylan*.

Mr. *Young*, from the Select Standing Committee on Public Accounts, to whom was referred by an Order of The House, of the 20th March, last:—"all accounts, vouchers and papers connected with the payments for printing, as entered in the Public Accounts for 1873-74, as made out of Contingencies of the Department of Justice, to *I. B. Taylor*, the Citizen Printing Company, and *J. G. Moylan*," presented the First Report of the said Committee, which is as follows:—

That they have examined into the aforesaid matters so far as they relate to the payments to *J. G. Moylan*, those to *I. B. Taylor* and the *Citizen Printing Company* appearing to have been made in the ordinary course of business and not to require special investigation.

As regards the payment of \$2,500, charged as having been paid to *J. G. Moylan*, your Committee have to report :—

That on the 14th August, 1869, Hon. Sir *John A. Macdonald*, then Minister of Justice and Premier of Canada, gave an order on Mr. *Thos. Ross*, Accountant of Contingencies, for an advance of the sum of \$1,200 in favor of Mr. *J. G. Moylan*, then proprietor of the *Canadian Freeman*, a paper published in the City of Toronto, and supporting the Government of the day. The order was as follows :—

“The undersigned desires that the sum of twelve hundred dollars be advanced by the Accountant of Contingencies to *J. G. Moylan*, Esq., proprietor of the *Canadian Freeman*, to be repaid by work in printing for the several Departments [and that with this object the several Departments do send their orders for printing through the Accountant of Contingencies].

“(Signed) JOHN A. MACDONALD.”

That the portion bracketted was added by Mr. *John Langton*, the Auditor, after communication with the Minister of Justice;

That Mr. *Moylan* acknowledged the receipt of the money by signing his name on the face of the order;

That on the 22nd January, 1872, during a temporary visit to Canada from Ireland—where he was acting as Immigration Agent for the Dominion Government—Mr. *Moylan* obtained a further order from the Minister of Justice upon the Accountant of Contingencies, for the sum of three hundred dollars in the following terms :—

“MONDAY, 22nd January.

“MY DEAR ROSS,—Will you be good enough to make an advance to the proprietor of the *Canadian Freeman* of three hundred dollars, to be repaid by printing work.

“Yours truly,

“(Signed) JOHN A. MACDONALD.

“THOS ROSS, Esq.,

“Clerk of Contingencies;”

That the receipt of this amount was also acknowledged by Mr. *Moylan's* signature on the face of the order;

That on the 27th March, 1872, Mr. *Moylan*, having then returned finally to Canada, and desiring to collect from certain of the Departments a sum of \$197, which had accrued, in his absence, for Government advertising in the *Freeman*, and payment being,—in the view of the terms, of the advances above referred to—demurred to by the Departmental clerks, obtained from Sir *John A. Macdonald* the following :—

“27th March.

“MY DEAR ROSS,—Will you pay *Moylan's* printing accounts without reference to the back balance?

“Yours,

“(Signed)

“J. A. MACDONALD.

“T. ROSS, Esq;

That on the authority of this order, Mr. *Moylan's* accounts, above mentioned, were paid;

That on the 19th June, 1872, Mr. *Moylan* obtained a further order from Sir *John A. Macdonald*, in the following terms :—

“Mr. *Ross*, Clerk of Contingencies, will please to make an advance to *J. G. Moylan*, Esq., *Canadian Freeman*, for printing, for one thousand dollars, and oblige.

“(Signed)

“JOHN A. MACDONALD.

“JUNE 19th, 1872;

That the receipt for this amount was also acknowledged by Mr. *Moylan's* signature on the face of the order;

That the several amounts thus paid, and aggregating \$2,500, were not entered in the books of the Department at the time the advances were made, and did not,—except as regards the last advance of \$1,000 which was inadvertently posted in the contingency book for 1872-3,—appear in the Public Accounts presented to Parliament, until the close of the year 1873-4, or nearly five years after the first advance of \$1,200 in August, 1869; that they seem to have been entered previously in a private memorandum book kept by Mr. *Ross*, and represented so much cash in hand, the account being closed at the end of the year and the balance treated as a refund, which was resumed as soon as fresh drafts, in favour of contingencies, were obtained;

That in the year 1872-3, the total sum charged to contingencies of the Department of Justice, appeared, by the Public Accounts, to be \$6,254.58, but this did not include the following items—

| | |
|--|---------|
| On 31st July, Sir <i>John A. Macdonald</i> | \$1,000 |
| On 30th December, per do | 500 |
| On 31st do per do | 500 |
| January 30th, <i>J. G. Moylan</i> | 1,000 |
| Total..... | \$3,000 |

which made the actual amount, chargeable at the date named, \$9,254.58, but which sums were deducted from the gross total, and held in suspense as above described;

That no check appears to have been kept on the Accountant's cash balances nor was any audit made into the state of his accounts so far as the cash balances or payments held in suspense were concerned;

That no demand was made on Mr. *Moylan* for the repayment of the several advances nor any serious effort to obtain from him printing work, or advertising as a set-off thereto;

That on the 5th of November, 1873, the day on which Sir *John A. Macdonald's* Government resigned office, Mr. *Ross* carried the sum \$2,500 to the account of "contingencies" as for printing done for the Department of Justice, and in the Public Accounts of Canada for 1873-4 the sum of \$2,500 accordingly appears under that head;

That your Committee have devoted considerable attention to an inquiry into the circumstances under which this large amount was paid and charged without any services having been rendered to the Dominion of Canada or work done in accordance with the terms of the orders on which the money was advanced, or for the purpose designated in the Public Accounts;

That they have taken the evidence for this purpose of Mr. *J. G. Moylan*, Hon. Sir *John A. Macdonald*, M.P., Mr. *Ross*, the Accountant of Contingencies, and Mr. *John Langton*, Auditor, as well as that of the Hon. *L. H. Holton*, M.P., who was Finance Minister in the Government of the late Mr. *Sandfield Macdonald* in 1863; of the Hon. *Wm. McDougall*, C.B., who was Commissioner of Crown Lands in the same administration, and of *Joseph Rymal*, Esq., M.P., who was, in 1863, a member of the Legislative Assembly of the Province of Canada;

That *A. F. Macdonald*, Esq., M.P., brother and executor of the late Hon. *John Sandfield Macdonald*, attended before your Committee and exhibited certain documents relating to an alleged claim for advertising of Mr. *J. G. Moylan* against the Province of Canada in 1862-3.

That Mr. *Moylan's* explanation is in substance as follows:—

That in the fall of 1863 he visited Quebec, where the Legislature was then in session; that he had a claim for printing and advertising done during the régime of the *Cartier-Macdonald* Administration in 1861-2, and that he applied for payment not by presenting his accounts to the several Departments, but to the Hon. *John Sandfield Macdonald*, as the head of the Government then in power; that Mr. *J. Sandfield Macdonald* refused to pay the accounts, amounting in the aggregate

to \$1,983, in consequence of Mr. *Moylan* "declining to support his (Mr. *J. S. Macdonald's*) Government at the forthcoming elections;" that he (*Moylan*) then spoke to Sir *John A. Macdonald*, the leader of the Opposition, and one of the principal members of the former Administration; that Sir *John A. Macdonald* certified the accounts to the extent of giving his name *quantum valeat*, and promised to see the Premier on the subject; that he (*Moylan*) understood that interview did take place, but that no action was taken towards the settlement of his claims as the result of Sir *John A. Macdonald's* offices; that he (*Moylan*) never applied to or saw Mr. *John Sandfield Macdonald* again before the year 1867, after parting from him at Quebec in 1863, and leaving in Mr. *John Sandfield Macdonald's* hands the accounts as certified *quantum valeat* by Sir *John A. Macdonald*;

That during the brief return of a Conservative Government to power in the spring of 1864, he (*Moylan*) spoke to Sir *John A. Macdonald* as a leading member of that Government, who promised "to take his claim into consideration";

That he applied for but did not urgently press his claims on three or four occasions previous to 1st July, 1867, when the first Dominion Government under Sir *John A. Macdonald* came into office;

That he once called at the office of Mr. *John Sandfield Macdonald*, the Premier of Ontario, in Toronto, subsequent to 1867, but did not take any special steps to secure his aid in procuring a settlement;

That the book in which the business to which his accounts related was entered, was lost accidentally in 1864; and that he had subsequently, and has now, in his possession no record of these transactions whatsoever. Meantime, in, as he (*Moylan*) believes, the year 1864 or 1865, he had published, at the instance of the late Hon. *D'Arcy McGee* a very large edition of a pamphlet on cholera and was paid the bulk of the sum due to him for that service, but a balance of \$500, alleged to have accrued from translations, corrections, and other extras, was not paid. He states that no other Minister than Mr. *D'Arcy McGee* had anything to do with this matter; that he (*Moylan*) more than once applied for payment to Mr. *McGee*, but unsuccessfully up to the date of that gentleman's untimely death in 1868.

That your Committee, in view of the evidence submitted to them, regard the payment of such claims as those set up by Mr. *Moylan*, as altogether questionable and highly irregular, and open to grave objections. That it was shown that while Sir *John A. Macdonald* regarded the employment of Mr. *Moylan*, to do printing work for his Government in 1861-2, and the insertion of Government advertisements into the *Freeman* as a legitimate exercise of Government patronage, to the benefit of which Mr. *Moylan* was fully entitled, the charges made had not arisen in his (Sir *John A. Macdonald's*) Department; that he had no personal knowledge of the items included in the accounts; that he had never made, and did not make then or at any future time, any investigation into their accuracy or the reasonableness of the several amounts; that, being at the time only a private member of the Legislature, he had no official responsibility in the premises; and that he had not then nor at any future time any other knowledge or information concerning these accounts other than their exhibition to him by Mr. *Moylan*, with, in certain cases, some newspaper slips appended to the accounts, representing the advertisements charged for therein; that Mr. *Moylan* has not tendered any evidence, either oral or documentary, showing he had either general or specific authority for the work or advertising in question; that his representations of the motive which prompted Mr. *J. Sandfield Macdonald* to resist his claim in 1863 are contradicted by the fact that the elections had taken place at a period anterior to his interview with Mr. *J. Sandfield Macdonald*; that Mr. *Holton's*, Mr. *McDougall's*, and Mr. *Rymal's* evidence all goes to prove that Mr. *J. Sandfield Macdonald's* objections to pay the amount were founded on the fact that no sufficient authorization for the work or service done, or of the correctness of the charges made was forthcoming; that his (*Moylan's*) want of energy in pressing the claims from 1864 onwards, while his political friends were in power, and when Mr. *J. Sandfield Macdonald* was, owing to political changes, no longer likely to bear him any ill-will on political grounds, while he was at all times accessible as a witness of *Moylan's* original demands, are wholly

inconsistent with Mr. *Moylan's* financial position as described by Sir *John A. Macdonald*; and that the same remark applies to the \$500 said to have accrued in 1864 or 1865.

That the account found among the papers of the late Honorable *John S. Macdonald* by his executor, and the circumstances connected with its retention and non-payment by Mr. *J. S. Macdonald* afford evidence that Mr. *Moylan's* claims on the Province of Canada were at least highly problematical in their character.

Your Committee also find a very wide discrepancy between the evidence of Mr. *Moylan* and Sir *John A. Macdonald*, in regard to the payment of the several amounts representing the sum of \$2,500, included in the order of reference.

Sir *John A. Macdonald* expresses his belief in the validity of Mr. *Moylan's* claims, and asserts that they would have been paid as a just debt of the old Province of Canada, if he (*Moylan*) could have procured from Mr. *J. Sandfield Macdonald* the accounts left in his hands; but it does not appear that either Mr. *Moylan* or Sir *John A. Macdonald* ever took any pains to secure the evidence thus professedly required, while the last payment of \$1,000 was made after Mr. *J. Sandfield Macdonald's* decease in 1872.

Sir *John A. Macdonald* states that the sum of \$1,200 was advanced to Mr. *Moylan* to enable him to carry on his paper, the *Freeman*, successfully, while himself absent in Ireland as an Immigration Agent of the Dominion Government, and that the order correctly expressed his (Sir *John A. Macdonald's*) understanding of the terms of the advance, namely, that it should be recouped by advertising or printing to be done in the *Freeman* office. It was, in fact, owing to the Departments declining, in 1872, to pay the *Freeman* accounts, amounting to \$197, in view of that order, that Sir *John A. Macdonald* revoked his instructions to the Departments, under his note to Mr. *Ross*, of 27th March, 1872, and virtually converted the advance into a free gift. This is in direct contradiction to Mr. *Moylan's* statement that he received the money "as part payment of the old debt."

The sum of \$300 paid to Mr. *Moylan* on the 14th January, 1872, is admitted by both to have been intended to cover the expenses sustained by Mr. *Moylan* owing to a protracted stay in Ottawa, in 1871-2, in connection with immigration affairs. Sir *John A. Macdonald* further admits that he had no expectation or intention that this payment should be recouped to the Government, by printing and that his order, therefore, did not correctly express the understanding on which the money was paid. Sir *John A. Macdonald* further admits that the sum of \$1,000, advanced to Mr. *Moylan* on the 12th June, 1872, was intended to cover losses sustained by Mr. *Moylan* through his absence from Canada in the public service; that he, Sir *John A. Macdonald*, did not contemplate its repayment at any time, unless the old claim of Mr. *Moylan* should be established by the production of the accounts and vouchers left in Mr. *J. Sandfield Macdonald's* hands in 1863, and that consequently his own order to advance money for printing did not correctly represent his intentions when he directed that advance and gave the order to the Accountant of Contingencies.

Your Committee feel it their duty to point out that the intimate political relation of Mr. *Moylan* and the Government and party of which Sir *John A. Macdonald* was the head, as shown by Mr. *Moylan's* publication at his own risk of a political campaign sheet in the interest of Sir *John A. Macdonald* in 1867; by the continuous support given for many years by the *Freeman* to Sir *John A. Macdonald's* Administration; by Mr. *Moylan's* appointment as Immigration Agent in 1869, and by the efforts made in 1873 by Sir *John A. Macdonald* and other prominent members of the Conservative party to secure for the *Freeman* substantial pecuniary assistance, rendered it especially incumbent on Sir *John A. Macdonald* to avoid the appearance of any laxity or irregularity in transactions in which Mr. *Moylan* was an interested party.

Your Committee are however obliged to report:—

1. That the sum of \$1,200 was advanced in an irregular and improper manner to Mr. *J. G. Moylan* on the authority of Sir *John A. Macdonald* on the 14th August, 1869.
2. That the terms of the said advance of \$1,200 were not, and have not since been complied with, and that the account of the said advance was improperly closed by charging it for printing to the Department of Justice under the head of contingencies in the Public Accounts of 1873-4.

3. That the sum of \$300 was advanced on the 14th January, 1872, for other purposes than those designated in the order for the said advance given by Sir *John A. Macdonald*; that Sir *John A. Macdonald* admits the tenor of the said order to have been contrary to his intentions in the premises; and that the said sum of \$300 was improperly charged to printing for the Department of Justice, in the Public Accounts.

4. That the sum of \$1,000 advanced ostensibly for printing, on the authority of Sir *John A. Macdonald* to Mr. *J. G. Moylan* on the 14th June, 1872, is alleged by Sir *John A. Macdonald* to have been paid on account of an alleged claim of *J. G. Moylan* on the old Province of Canada, that the purport and object of the said advance was incorrectly described by Sir *John A. Macdonald* in the order for payment given by him and improperly charged to printing for the Department of Justice under the head of contingencies in the Public Accounts.

5. That for the advances of \$1,200 on the 14th August, 1869, and the further advance of \$1,000 on the 19th June, 1872, respectively, the Dominion of Canada has received no value or consideration whatever.

6. That the alleged claim of *J. G. Moylan* upon the old Province of Canada, being in dispute, and unproven, afforded no lien or security for the repayment of the sum of \$2,200 by the said *J. G. Moylan* to the Dominion of Canada, and that the said *J. G. Moylan* never took any steps, subsequent to the advance of the said moneys, to obtain proof of the validity of his alleged claim on the old Province of Canada, or to repay the sums so advanced.

7. That the Hon. Sir *John A. Macdonald* was called upon, by letter dated November 10th, 1876, by the Government of Canada, to explain the circumstances under which the said payments to *J. G. Moylan* were made, and promised, in a letter to the Secretary of State, written on the 22nd November, 1876, to "look into his papers and communicate the result of his enquiries"; but that, although, again invited by a letter written by the Secretary of State on the 29th December, 1876, to give the required explanation, he did not then, or until examined before your Committee, offer any information on the subject.

8. That *J. G. Moylan*, in reply to an application from the Minister of Finance, dated 22nd October, 1874; and again in reply to an application from the Minister of Justice, dated 25th September, 1876, stated in accordance with his evidence given before your Committee, that the several payments above mentioned, were made in discharge of his alleged claim on the old Province of Canada, and that in his letter, containing this statement, he asked for an investigation before a Committee of Your Honourable House, at which Sir *John A. Macdonald* might be present and give the desired information.

9. That the several sums aggregating \$2,500, were improperly and irregularly held in suspense account from the dates of the several advances until carried to account on the 5th November, 1873.

Your Committee, in conclusion, recommend that a more efficient audit should be provided of the cash balances of all persons charged with the payment of the public moneys in the several Departments.

All which, with the evidence and the proceedings of the Committee of this day (Tuesday, 23rd April, 1878), is respectfully submitted.

(For the Minutes of Evidence and Proceedings of the Committee of the 23rd instant, see Appendix No. 1.)

On motion of Mr. *Laurier*, the Bill No. 76 to amend 37 *Victoria*, Chapter 8, intituled: "An Act to impose License duties on compounders of spirits; to amend the Act respecting the Inland Revenue, and to prevent the adulteration of Food, Drinks, and Drugs," was placed on the Government Orders for a second reading, to-morrow.

The following Addresses to His Excellency the Governor General were voted,— and Orders of The House issued to the proper officer, viz. :—

By Mr. *Tupper* :—Order of The House ; for a copy of the Report of Exploration made by Mr. *Bell*, C.E., on the proposed route of the Canada Pacific Railway from Nipigon to the junction with the Thunder Bay, or Kaministiquia Branch of the said Railway.

Mr. *Mackenzie* presented,—Return to Address of the 27th March, last; for copies of all correspondence between the Hudson Bay Company and the Dominion Government, relative to alleged losses at the Red River Settlement, connected with the insurrection in 1869-70.

(*The Order for Public Bills and Orders was called under Rule 19.*)

The Bill No. 4 to amend the Law relating to Stamps on Promissory Notes and Bills of Exchange, was again considered in Committee of the Whole, amended, and reported.

Mr. *Guthrie* moved, that the said amendments be now taken into consideration, and concurred in.

And objection being taken to this Bill being proceeded with, on the ground that it imposes an impost, and therefore should have been introduced, after the consent of the Government had been given;

Mr. Speaker decided as follows:—The whole question occurs to me at the present moment in this light. In the first place I may say that the 54th Clause of the British North America Act, 1867, has no bearing whatever, in my opinion, on the case. It relates merely to appropriations. Hon. Members in reading it over rather cursorily are led into a mistake, owing to the peculiar reading of it, and this Clause is as follows:—"It shall not be lawful for the House of Commons to adopt or pass any Vote, Resolution, Address or Bill for the appropriation of any part of the Public Revenue, or of any tax or impost, to any purpose that has not been first recommended to that House by Message of the Governor General in the Session in which each Vote, Resolution, Address, or Bill is proposed."

It does not bear on the question of the imposition of taxes at all. It merely relates to appropriations, the general law of Parliament however is very clear—that whenever it is proposed to impose a new tax, this should be done by the Government on recommendation. But we have ourselves here a Rule relating to the mode in which Bills of this kind shall be introduced.—The 88th Rule is as follows:—“If any motion be made in The House for any public aid or charge upon the people, the consideration and Debate thereof may not be presently entered upon, but shall be adjourned till such further day, as The House shall think fit to appoint; and then it shall be referred to a Committee of the Whole House, before any Resolution or Vote of The House do pass thereon.”

Under this Rule it is clearly necessary that any measure purporting to impose a burden on the people, should be introduced in the first place by Resolution of the Committee of the Whole House. On that point there can be no doubt whatever. Now the only question that rises is as to whether this Bill would impose, if passed, or would not impose an additional tax on the people. This question was raised soon after the Bill was introduced, possibly on the second reading, and then the Hon. Mover stated distinctly to The House that it would not impose any additional burden; that it required no additional stamps to be attached to any instrument whatever, and that he introduced it merely for the purpose of removing doubts which had arisen in some of the Courts as to the value to be attached to the re-stamping of Foreign Bills of Exchange accepted in this Country. He stated—and nobody seemed to contradict him, and none of the lawyers in The House did so—that it has been the practice, and this was again stated this evening—where parties in this Country received Foreign Bills of Exchange which had not the required stamps attached in the first instance, to put on double stamps when they received them; that suits have arisen on Notes and Bills so stamped, and that some doubt existed, in the Courts as to whether this putting on of the double stamp did or did not give validity to the Note. If that were so, this would be merely an explanatory Act, which did not create any new burden or impose any new burden, but simply defined what the law was. It occurs to me that the matter stands in this way at all events; if this Bill now before The House provided that certain stamps should be attached to Foreign Bills of Exchange in certain cases, that in other cases double stamps might be affixed and that unless in the first instance a proper stamp were affixed or unless in the other case double stamps were affixed the Note would be valueless, then I think that it would impose a tax on the people; but as it stands at present, the penalty is clearly inoperative. If a Foreign Bill of Exchange comes into the hand of an innocent holder not stamped at all or insufficiently stamped, it is valueless, absolutely valueless, and if the doubts that are entertained are well founded as to the right to put double stamps on, then he cannot possibly render that valuable, and it cannot certainly to that individual be a loss or burden,—that he may make that which the law declares otherwise valueless to have a fair value by a certain operation. The question is one rather for a Law Court than for a Speaker of the House of Commons to determine. This is very clear. It is very much to be regretted that this Bill, was not in the first instance introduced by Resolution, and if I had then been consulted on the subject, I would have advised it; but as the matter now stands I cannot perceive that if the Bill passed it would impose any burden on anybody. The only persons who would pay the duty are the persons relieved by affixing the stamps to the Bill, and who would thus be enabled to collect whatever the face value of the document or instrument purported to be.

The said amendments were then taken into consideration and concurred in, and the Bill read a third time, and passed.

The Bill No. 40 for the amendment of the Law of Evidence in certain cases of Misdemeanor, was considered in Committee of the Whole, reported, read a third time, and passed.

The Bill No. 55 to amend the Law respecting Building Societies, was read the second time, and referred to the Select Standing Committee on Banking and Commerce.

The House resumed the further consideration of Mr. *Tupper's* proposed motion, that an Order of The House do issue, for a Statement showing:—for

1. The amount of the Loan of 1876, and the amount actually received therefor;
2. The number of allotments, and the amount awarded to each allottee;
3. A Statement shewing, when, and how the amount of said Loan was received, and whether allottees or any of them, and if any of them, which of them, availed themselves of the privilege of pre-payment, and if so, whether they were allowed interest or discount thereon and the total amount of such discount;
4. The amount of interest accrued or accruing on said stock allowed to the said allottees respectively, as against the amount payable to them respectively;
5. The item of Commission and charges of, and incident to the said Loan in detail, and to whom paid;
6. The rate of interest payable by the Dominion on the said Loan, regard being had to the amount actually received, and the period it has to run.

And the question being put; it was agreed to, and the Order of The House issued accordingly.

Mr. *Mackenzie* laid before The House, Copy of a Report of a Committee of the Hon. the Privy Council, approved by His Excellency, the Governor General in Council, on the 18th April, 1878, which is as follows:—

The Committee of the Privy Council have had under consideration the questions relating to the construction of the Georgian Bay Branch of the Canadian Pacific Railway and the extension westward of the Canada Central Railway, in consideration of a subsidy to be paid by the Government, as provided by the Canadian Pacific Railway Act of 1874.

That a contract was entered into in 1874, with Mr. *A. B. Foster*, for the building of the Georgian Bay Branch, under which Mr. *Foster* was to execute all the surveys, as well as perform the work of construction from the mouth of French River, eighty-five miles eastward.

That on the 28th February, 1876, this contract was annulled, and Mr. *Foster* was paid such portions of his expenditures on the survey as were reported by the Chief Engineer to be serviceable to the Department in completing the survey.

That on the 4th November, 1874, an Order in Council was passed under the terms of the Act 37 *Vic.*, Cap. 14, known as the Canadian Pacific Railway Act of 1874, whereby a subsidy of \$12,000 per mile was granted to the Canada Central Railway Company, for a distance not exceeding 120 miles from the eastern end of the Georgian Bay Branch above referred to, upon the conditions:—

1st. That the road should be built upon a line to be approved by the Minister of Public Works, but which was defined generally, as ascending the valley of the Bonnechère from the vicinity of Douglas Village, *via* Golden Lake and Round Lake, and thence by as direct a line as might be found, to Burnt Lake, and thence to the proposed terminus of the Georgian Bay Branch—about the 85th mile from Georgian Bay.

2nd. That the Company should, within one month, satisfy the Minister of Public Works that they had entered into a *bonâ fide* contract for the building of the Railway.

3rd. That running powers should be given to certain roads on stated conditions.

4th. That the Government or the lessees of the Government line from Georgian Bay, should possess running powers on similar terms to the Companies designated.

5th. That payment of the subsidy should be made on the completion of the Railway in sections of not less than 20 miles, upon the certificate of an Engineer to be appointed by the Government.

That in consequence of the annulling of the contract for building the Georgian Bay Branch, it was considered best to complete the survey of the country to be

traversed, which had been to a great extent executed by the Engineers of the Contractor, with the result of raising some doubts as to the best direction.

That it was deemed unadvisable to urge the Canada Central Railway Company to proceed with the building of the subsidized line until the more complete examination and survey of the country should have been accomplished.

That Mr. *Hazlewood*, the Engineer originally charged with making an examination of the country from the mouth of French River to the neighbourhood of Douglas and Pembroke, reported that a line, with fair gradients and average work was practicable, in the direction indicated by the Order in Council referred to.

That the Engineers of the Canada Central, and those employed by Mr. *Foster*, reported more serious obstacles in grades and engineering work, and difficulties after leaving the lower part of the Bonnechère valley; and though the Chief Engineer stated that he believed that a more thorough exploration would prove that they were mistaken, it became necessary to ascertain the facts with greater particularity.

That Mr. *Lumsden* was therefore despatched early in the season of 1876, with a strong party to do the work.

That this Engineer has reported, as the result of the season's operations, that a fair line can be obtained on Mr. *Hazlewood's* plan, but that for a considerable distance the work will be somewhat heavy in consequence of the prevalence of rock cutting, and that the maximum grade rising eastward would be 52.80 feet per mile in an aggregate distance of about seven miles, and that there are three miles of the same grade rising westward. That this grade though not excessive, is much higher than Mr. *Hazlewood* expected.

That the Engineer employed by the Canada Central Railway Company has reported that so far as works of construction are concerned, a more favorable line could be obtained ascending from Pembroke on a line nearly parallel with the Ottawa River, and distant from the same after leaving the Petewawa River, an average of 8 or 10 miles, and touching in its course the south-east corner of Lake Nipissing.

That the same Engineer reports generally that the alignment of the road is good, and that it will not exceed six per cent. of curvature; that from Pembroke to Nipissing Road, five rivers are crossed, four requiring bridges of a span of 100 feet, and one (the Petewawa), a span of 400 feet; that forty miles are through a spruce, tamarac and hardwood country, and 90 miles through burnt woods and open country, the soil generally being of a sandy or gravelly character, with considerable reaches of clayey sand and sandy loam.

That the estimated distance from Pembroke to the south-east corner of Lake Nipissing is about 130 miles. This point is about 20 miles further west than the point previously determined on as the eastern terminus of the Canada Pacific Railway (thus saving to the public the construction of about 20 miles of railway.) From this point westward to Cantin's Bay, the projected station on French River, the distance is between 50 and 55 miles.

That the Canada Central Railway Co., in a letter dated the 10th February, 1877, proposed that the Company should build the Westward extension from Pembroke on this line, to the south-east corner of Lake Nipissing for a total bonus of \$1,440,000, being at the rate of \$12,000 per mile upon 120 miles; that payment of the subsidy should be made on the basis of 80 per cent of the expenditure, the drawback of 20 per cent to be paid on the completion of every ten miles, the line to be completed within three (3) years, and 75 per cent of the value of rails delivered on the ground to be paid as the rails are delivered.

That Mr. *Fleming*, Engineer-in-Chief, to whom the proposal was referred, reports as follows:—

“CANADA PACIFIC RAILWAY,

“OFFICE OF THE ENGINEER-IN-CHIEF.

“OTTAWA, February 16th, 1877.

“The Hon. A. Mackenzie,

“Minister of Public Works.

“SIR,—I have the honor to report on the proposal made by the Canada Central Railway Co., in the communication addressed to you of date 10th inst.

" I do not altogether concur with the view expressed as to the impossibility of finding a line and building a first class railway on the route originally laid down by the valley of the Bonnehère. It is due, I think, to an officer on my staff, Mr. Hazlewood, to state that the surveys which have since been made substantially confirm the report on the reconnaissance which he made in 1874. He was instructed to walk over the ground, and report if it would be practicable to build a railway across the country in a direct course. On his return he reported that he felt quite safe in stating that a railway could be located on a direct course between the mouth of French River and Burnt Lake; in fact that the departure from a straight line would probably not increase the distance more than 5 per cent."

He further reported on the character of the country between Burnt Lake and Renfrew, *via* the valley of the Bonnehère River, and expressed the opinion that there would not be any great difficulty in finding a practicable line for the railway.

" While I have, as yet, seen nothing to alter my own views with respect to the general accuracy of Mr. Hazlewood's report, I am satisfied that there are no engineering objections to the proposal now submitted by the Canada Central Railway Company to extend the line westerly from Pembroke instead of from Renfrew.

" Indeed the information obtained goes to show that a line with more favorable gradients may be obtained on the route now proposed to be adopted by the Canada Central, and that it will serve the interests of the Country fully as well. I have therefore, no hesitation in recommending that the proposal be favorably entertained.

" I think it would be well to stipulate with the Canada Central Company that the gradients ascending westerly may be as high as 52.80 per mile, but that the maximum ascending in the opposite direction should be 26.40 per mile; and that the curvature and general alignment should be approved by the Department."

" (Signed) SANDFORD FLEMING."

That the House of Assembly of the Province of Quebec on February 13th, 1875, passed a Resolution which was communicated to the Government of Canada stating that " according to the reports of eminent men on the nature and configuration of the ground, it appears that a trace which would follow the Matawan would present the cheapest, the easiest, the shortest route for the development of the vast commerce of the West and of the Pacific, as well for the branch of the Pacific to the East of the Georgian Bay as for the line to be subsidized by the Government * * * * and that in the event the exploration proves that a preferable line to that of the Matawan exists to the South of the River Ottawa, the line to be subsidized by the Government, be brought to Pembroke, and not to Renfrew, where a junction with the railway system of the Province of Quebec is impossible, seeing the enormous expense which it would entail."

That since that period the Government of Quebec have commenced the construction of railways on the northern side of the St. Lawrence and Ottawa Rivers, and the railway from Montreal westward to Ottawa has been completed by that Government.

That though the line would be lengthened by this deflection to the northward, the western end of the subsidized line would, as stated, reach a point much further to the westward of the previously proposed terminus, or junction with that portion of the Canada Pacific Railway proposed to be built under the terms of the Act, to the French River, and would thus save to the public the cost of constructing about 20 miles of railway.

The Committee of Council, after fully considering the facts as already summarized, recommend,—

First.—That the proposition of the Canada Central Railway Company to extend the line to such point as may be selected by the Government as the terminus of the Canada Pacific Railway at or near the crossing of the Nipissing Road at the South East Corner of Lake Nipissing for the sum of one million and four hundred and forty thousand dollars (\$1,440,000) should be accepted, upon the condition as to grades,

recommended by the Chief Engineer—and that the total payment to be made shall not, under any circumstances, exceed the sum of twelve thousand dollars (\$12,000) per mile.

Second.—That the Company shall, within three months of the ratification of this Order in Council by the House of Commons, satisfy the Minister of Public Works that they have entered into a *bonâ fide* contract or contracts, for the building of the Railway, and have provided sufficient means, with the Government bonus, to secure the competition of the line—and also that the Company shall, from the date of such contracts, make continuously such progress as will justify the hope of the completion of the line within the time mentioned.

Third.—That the Company shall enter into an agreement to grant running powers, on terms to be approved by the Governor in Council, to the Montreal, Ottawa and Western Railway, now in process of construction, from Montreal, on the northern side of the Ottawa River, or any railway in extension thereof, from any point of intersection west of the Town of Renfrew, that may be approved of by the Governor in Council, and also to the Kingston and Pembroke Railway Company, from the intersection of their line, provided such point of intersection is at or west of Renfrew, and to such other Companies as may have the termini of their systems on or towards Lake Huron, and which may be designated by the Governor in Council as entitled to such running powers: Provided that the terms of such running powers to any of the said Companies or roads may be mutually agreed upon by the Canada Central Railway Company and the Quebec Government, and the other Companies named, and in the event of disagreement, the conditions to be settled by arbitration, one arbitrator to be selected by each party, and one by the Governor in Council.

The Government of Canada and the lessees or future owners of the Government road, westward of the western terminus of the subsidized line, shall possess running powers in the said railway on similar terms to the Companies designated.

Fourth.—That payments be made to the extent of eighty (80) per cent. of the said bonus of \$12,000 per mile on the completion of every ten miles—one-half of such payment may be advanced when work equal to five miles is completed on any one section, on the certificate of the Chief Engineer that satisfactory progress is being made—and payment to the extent of sixty (60) per cent may be made on work extending over twenty-five miles, upon the certificate of the Chief Engineer that such work is equal to ten miles of completed track.

The balance to be paid on the entire completion of the railway to the Nipissing Road at the south-east corner of Lake Nipissing; Provided that payments may be made upon rails delivered, to the extent of seventy-five (75) per cent. of the market value thereof—the amount so paid on rails to be deducted from each settlement of ten miles.

All payments to be made on the certificate of the Chief Engineer.

They further recommend that payments be made to the extent of eighty (80) per cent. of the work actually executed, on the completion of every ten miles, in the proportion which ten thousand dollars per mile bears to the actual cost of each Section.

The Company, however, to have the option of substituting the payment by the Government of the interest (or part of the interest) on bonds of the Company, running over such term of years as may be hereafter approved by the Governor in Council, in lieu of the mileage subsidy referred to.

The terms and conditions in all other respects to be the same as above provided.

The grant to be operative only after the ratification of this Order in Council by resolution of the House of Commons.

Certified.

W. A. HIMSWORTH,
Clerk, Privy Council.

Mr. Mackenzie also laid before The House,—Agreement made between the Hon. Alexander Mackenzie, and the Moncton Gas Light and Water Company, which is as follows:—

This Agreement made this twenty-third day of April, in the year of Our Lord one thousand eight hundred and seventy-eight, between the Honorable *Alexander Mackenzie*, as Minister of Public Works of Canada, and the Moncton Gas Light and Water Company;

Whereas it is advisable for the better working of the Intercolonial Railway at Moncton, to organize a system of Gas and Water Works to supply the Workshops at Moncton with these articles;

And whereas the Moncton Gas Light and Water Company, who are about to establish Gas Works and Water Works at the Town of Moncton, in the Province of New Brunswick, for the use of that Town, have signified their willingness to supply the Intercolonial Railway at that place with such quantity of gas and water as may be required from their proposed Works;

And whereas, by Order in Council of the 26th March, 1878, the Minister of Public Works of Canada was authorized to enter into an agreement with the Moncton Gas Light and Water Company for the supply of water and gas for the Intercolonial Workshops at Moncton, N.B., in accordance with the conditions hereinafter specified for such a number of years as may be deemed best in the interest of the Railway:

Now, therefore, the said Minister and the Moncton Gas Light and Water Company do agree as follows:—

1st. *Water Supply.*

1st. The Moncton Gas and Water Company agree to provide a reservoir giving a head of water, at the Railway Works, of about one hundred feet, and that their supply pipes leading to and up to the Railway grounds, shall not be less than twelve inches in diameter and one-half inch or nine-sixteenths of an inch in thickness.

2nd. The said Company agree also to supply the Intercolonial Railway with all the water they require for the use of their engines, station, workshops and every purpose within the Railway grounds at Moncton, including a full pressure through such hydrants as may now exist, or may hereafter exist for fire purposes.

3rd. The said Company shall give and secure a full supply of pure and wholesome water to the Railway for all the purposes it may require, whether specially stated in the foregoing clause or not.

4th. Should the Company fail to provide a full and regular supply of water, such as may be required at any time, the Government reserves the privilege of refusing any longer to receive water from the Company, on giving them written notice to that effect; and in such case the Company shall not be entitled to any compensation, on account of the cancelling of this agreement at any time before the expiration of the period of the present agreement.

5th. The Government agrees that the Railway shall not necessarily waste water, and shall not supply water through their pipes outside of the Railway grounds to other parties.

6th. The Government shall pay the sum of *Three Thousand Dollars* a year for such water supply, for a period of ten years, from the date at which the supply shall commence. And the Government shall have the option, at the end of such period of ten years, of renewing the contract for the supply of water for a further period of ten years, if they so desire, on the same terms. Provided the supply of water required does not exceed the average quantity used during the said previous term of ten years. And in case such supply should be increased, the sum to be paid for such additional quantity of water required, shall be fixed by mutual agreement between the parties, and in case of disagreement, the value thereof shall be submitted for settlement by arbitration, each party naming an arbitrator, and the two arbitrators so chosen, selecting a third.

2nd. *Gas Supply.*

1st. The Moncton Water and Gas Company agree to establish Gas Works at Moncton and to supply, at the boundary of the Intercolonial Railway grounds, good gas, of a proper illuminating power, as regular, and in such quantities as the Railway may require.

2nd. The gas shall be measured by means of approved meters furnished by the Company, and situated within the Railway grounds.

3rd. If, at any time, hereafter, impure gas be furnished, or if the supply of good gas should be insufficient or irregular, the Company, at the first request, shall take immediate steps to furnish pure and proper gas, and in the quantities, and as regularly as may be required by the Railway.

4th. The Government agree to pay, therefor, at a rate not exceeding three dollars and twenty-five cents (\$3.25) per thousand feet, on the distinct understanding, that, if any lower rate or price is charged to any other consumer, whether by discount or otherwise, the Government shall have the benefit of such reduced rate or price charged to and paid by others consumers, which rate or price shall be paid quarterly.

5th. The Government reserves the privilege of terminating the present agreement at any time after a period of ten years (unless sooner determined by reason of breach of any of the conditions of this contract) without, in either case, the said Company being entitled to any compensation or indemnity whatsoever.

6th. This agreement to be subject to the approval of the House of Commons of Canada during its present Session.

In witness whereof the said parties hereunto have set their hands and seals at the day and year first above written, in duplicate.

Mr. *MacKay* (Cape Breton) moved in amendment thereto, that all the words after the word “that” to the end of the said motion be left out, and the following inserted instead thereof:—“in the opinion of this House; it is advisable to impose a duty of seventy-five cents per ton, upon all coals imported into the Dominion; so as to help to meet the financial deficiency, and at the same time give a stimulus to a most important industry.”

FRIDAY, 26TH APRIL, 1878.

And the question being put; it was negatived on the following division:—

On motion of Mr. *Ross* (Prince Edward), it was *Ordered*, That in consequence of illness, leave of absence, till the end of the Session, be granted to *James Yeo*, Member for Prince County, P.E.I.; and that his Sessional indemnity be computed, as for the whole Session.

On motion of Mr. *Mackenzie* it was *Resolved*, That when The House adjourns this day, it shall stand adjourned until three o'clock, P. M., to-morrow, and that Government business shall have precedence immediately after Routine Proceedings; and that for the remainder of the Session on and after Monday next, The House shall meet at two o'clock in the afternoon, on each day, including Saturdays.

Mr. *Cartwright* moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. *McDonald* (Cape Breton) moved in amendment thereto, that Mr. Speaker do not now leave the Chair, but that it be *Resolved*, That by a Return of The House of the 16th February, 1877, dated 1st March, 1877,—and also by a Return to an Order of The House of the 19th March, 1877, and dated 20th March, 1877, for copies of all tenders and contracts, plans and other correspondence, relating to the Ingonish Harbor contract, in Nova Scotia, it appears:—

That on the 10th May, 1873, the contract for building Ingonish Harbor, was awarded to *F. W. McKenrie*, for the sum of \$78,208.60 cents; that in pursuance thereof an agreement was entered into, on the 22nd July, 1873, between *F. W. McKenrie* and the Minister of Public Works; that under the terms of the agreement, afterwards renewed between *Ross & McKay*, to whom the contract was transferred by the said *F. W. McKenrie* and the present Government on the 5th February, 1874, it was stipulated, that any change which the Government Engineer deemed necessary to be made in the original plans, should be so made by the contractor, and if extra expenses were entailed by such changes, the contractor should be paid extra for them; but should the change lessen the original expense, then such should be deducted from the amount of the contract;

That by the said contract, the said *Ross & McKay* were bound to build a Breakwater 700 feet long, and were to make good all damages it might sustain during its construction; that they were to dredge a channel into the Harbor 200 feet wide, and fifteen feet deep; that the contract was to be finished on or before the 31st December, 1874; that the contractor was liable for any salary or wages due the person superintending the work, in behalf of the Government, for any time he might serve in so superintending beyond the 31st December, 1874;

That on the 30th September, 1875, Mr. *Perley*, Government Engineer, six months after the work should have been finished, recommended extra work, estimated to cost \$2,000;

That it appears the said Breakwater was not taken off the hands of the contractors before the 17th February, 1877; that at that time there was but 565 feet of the Breakwater, the contractor was to construct completed—or 135 feet less than allowed by the terms of the contract;

That it does not appear that the channel has been dredged 200 feet wide, and 15 feet deep, as per terms of contract, and as recommended on the 26th January, 1876, both by Mr. *Perley* and Mr. *Baillargé*; but on the contrary the papers go to show, that it has been dredged only 60 feet wide, and 12 feet deep;

That it appears the sum of \$1,975 was paid one *Angus McLeod*, Superintendent on this work, in behalf of the Government for attendance subsequent to the 31st December, 1874, the terms on which the work should have been completed;

That notwithstanding the reduction in the length of the Breakwater, and that the dredging was not done to the width of 200 feet, and to the depth of 15 feet, but only to 60 feet wide, and 12 feet deep, and the extension of the time for building it to over two years, the Government paid the full amount of contract \$78,208.60 cents; and also extras to the amount of \$3,643, without deducting therefrom the allowance for the

Breakwater being less in length, and the dredging less in width and depth as aforesaid, and with out deducting the \$1,975, paid for the services of Superintendent after the time allowed for the completion of the contract ;

That in the opinion of this House, there was paid to the contractors a great deal more than ought to have been paid, causing serious loss to the Country ;—which was negatived on the following division :—

NOTICES OF MOTIONS.

Mr. *Bunster*—On Monday next—ENQUIRY OF MINISTRY—Whether the Government have asked for tenders for construction of the Western Section of the Canadian Pacific Railroad, which runs through British Columbia ?

Mr. *Mills*—On Monday next—COMMITTEE OF THE WHOLE to consider the following Resolutions :—

1. That doubts exist regarding the Northerly and North-Easterly Boundaries of the North-West Territories and Rupert's Land, transferred to Canada by Order of Her Majesty in Council, of the 23rd June, 1870, incorporating the Territories of the Hudson's Bay Company and the North-West Territories with Canada.

2. That the discovery and working of minerals, in the vicinity of Cumberland Sound, have recently been reported, and other matters have transpired which make it important that all doubt respecting the jurisdiction of Canada over those parts of British North America should be removed with as little delay as possible.

3. That correspondence has taken place on the subject, between the Government of Canada and the Government of the United Kingdom of Great Britain and Ireland, which, through the Right Honorable the Secretary of State for the Colonies, has intimated its willingness to transfer, to the Dominion of Canada, all the Territories in question, and has invited an expression of the views of the Government of Canada respecting the propriety of Legislation for that purpose.

4. That it is expedient that the right of Canada to all of British North America, and the Islands adjacent thereto (not including the Province of Newfoundland) should be placed beyond question, and that the offer of Her Majesty's Government to transfer the said Territories to Canada be accepted.

5. That to avoid all doubt in the matter, it is desirable that an Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed defining the North-Easterly, Northerly and North-Westerly Boundaries of Canada, as follows, that is to say : On the East by the Atlantic Ocean, which boundary shall extend towards the North by Davis Straits, Baffin's Bay, Smith's Straits and Kennedy Channel, including all the Islands in and adjacent thereto, which belong to Great Britain by right of discovery or otherwise ; on the North the Boundary shall be so extended as to include the entire continent to the Arctic Ocean, and all the Islands in the same Westward to the one hundred and forty-first meridian West of Greenwich ; and on the North-West by the United States Territory of Alaska.

6. That the Parliament of Canada, on the transfer of the before mentioned Territories being completed, shall have authority to legislate for their future welfare and good government, and the power to make all needful rules and regulations respecting them, the same as in the case of the other Territories ; and the Parliament of Canada expresses its willingness to assume the duties and obligations consequent thereon.

7. That an humble Address be presented to Her Majesty embodying these Resolutions.

TIMOTHY WARREN ANGLIN,

NOTICES OF MOTIONS.

Mr. *Mills*—On Monday next—COMMITTEE OF THE WHOLE to consider the following Resolutions:—

1. That by Section twenty-two of the Dominion Lands Act, Sections 11 and 29 of the Public Lands in each Township of the Province of Manitoba are set apart, to be sold at some future time in order that a fund may be realized for the maintenance of public schools within the Province.

2. That the Government of Manitoba have applied to the Government of Canada to have the School lands within the limits of that Province transferred to them, to be sold for the purpose of creating an Educational endowment, or that a sum of money for which these lands may be pledged, shall be annually granted by the Dominion for school purposes.

3. That it is not in the public interest in consequence of the sparseness of the population and its probable rapid increase within a few years, and in consequence of the additional value which these lands are likely to acquire because of that increase in the population, that they should be disposed of at the present time.

4. That it is expedient however to assist in the meantime the cause of education in the Province, and that with this view a sum of ten thousand dollars be placed at the disposal of the Government of Manitoba in aid of the public schools therein, annually for a period not exceeding three years, and that the several sums so advanced with the interest thereon, at the rate of five per cent. per annum, be recouped to the Dominion Government from the first sales of the lands so set apart as aforesaid for educational purposes.

On motion of Mr. *Mills*, The House went into Committee of the Whole, to consider certain proposed Resolutions to be embodied in an Address to Her Majesty on the subject of the North-Easterly, Northerly and North-Westerly Boundaries of Canada, and declaring it desirable that An Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed defining the same.

(*In Committee.*)

The following Resolutions were adopted :—

1. *Resolved*,—That doubts exist regarding the Northerly and North-Easterly boundaries of the North-West Territories and Rupert's Land, transferred to Canada by Order of Her Majesty in Council, of the 23rd June, 1870, incorporating the Territories of the Hudson's Bay Company and the North-West Territories with Canada.

2. *Resolved*,—That the discovery and working of minerals, in the vicinity of Cumberland Sound, have recently been reported, and other matters have transpired which make it important that all doubt respecting the jurisdiction of Canada over those parts of British North America should be removed with as little delay as possible.

3. *Resolved*,—That correspondence has take place on the subject, between the Government of Canada and the Government of the United Kingdom of Great Britain and Ireland, which, through the Right Honorable the Secretary of State for the

Colonies, has intimated its willingness to transfer, to the Dominion of Canada, all the Territories in question, and has invited an expression of the views of the Government of Canada respecting the propriety of Legislation for that purpose.

4. *Resolved*,—That it is expedient that the right of Canada to all of British North America, and the Islands adjacent thereto (not including the Province of Newfoundland) should be placed beyond question, and that the offer of Her Majesty's Government to transfer the said Territories to Canada be accepted.

5. *Resolved*,—That to avoid all doubt in the matter, it is desirable that an Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed defining the North-Easterly, Northerly and North-Westerly Boundaries of Canada, as follows, that is to say: On the East by the Atlantic Ocean, which boundary shall extend towards the North by Davis Straits, Baffin's Bay, Smith's Straits and Kennedy Channel, including all the Islands in and adjacent thereto, which belong to Great Britain by right of discovery or otherwise; on the North the Boundary shall be so extended as to include the entire continent to the Arctic Ocean, and all the Islands in the same Westward to the one hundred and forty-first meridian West of Greenwich; and on the North-West by the United States Territory of Alaska.

6. *Resolved*,—That it is desirable that the Parliament of Canada, on the transfer of the before mentioned Territories being completed, should have authority to legislate for their future welfare and good government, and the power to make all needful rules and regulations respecting them, the same as in the case of the other Territories; and the Parliament of Canada expresses its willingness to assume the duties and obligations consequent thereon.

7. *Resolved*,—That an humble Address be presented to Her Majesty embodying these Resolutions.

Resolutions to be reported.

The said Resolutions were accordingly reported, read a second time, and agreed to, and referred to a Select Committee, composed of Messrs. *Mills*, *Mackenzie*, *Laflamme*, Sir *Albert J. Smith*, Sir *John A. Macdonald*, and *Langevin*, to draft an Address embodying the same.

Mr. *Mills*, from the said Committee, reported the draft of an Address to Her Majesty, which was read a second time, and agreed to, and ordered to be engrossed, and is as follows:—

To the Queen's Most Excellent Majesty.

MOST GRACIOUS SOVEREIGN,

We, Your Majesty's most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, humbly beg leave to approach Your Majesty for the purpose of representing:

That doubts exist regarding the Northerly and North-Easterly Boundaries of the North-West Territories and Rupert's Land, transferred to Canada by Order of Your Majesty in Council, of the 23rd June, 1870, incorporating the Territories of the Hudson's Bay Company and the North-West Territories with Canada.

That the discovery and working of minerals, in the vicinity of Cumberland Sound, have recently been reported, and other matters have transpired which make it important that all doubt respecting the jurisdiction of Canada over those parts of British North America should be removed with as little delay as possible.

That correspondence has taken place on the subject, between the Government of Canada and the Government of the United Kingdom of Great Britain and Ireland, which, through the Right Honorable the Secretary of State for the Colonies, has

intimated its willingness to transfer, to the Dominion of Canada, all the Territories in question, and has invited an expression of the views of the Government of Canada respecting the propriety of Legislation for that purpose.

That it is expedient that the right of Canada to all of British North America, and the Islands adjacent thereto (not including the Province of Newfoundland) should be placed beyond question, and that the offer of Your Majesty's Government to transfer the said Territories to Canada be accepted.

That to avoid all doubt in the matter, it is desirable that an Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed defining the North-Easterly, Northerly and North-Westerly Boundaries of Canada, as follows, that is to say: On the East by the Atlantic Ocean, which boundary shall extend towards the North by Davis Straits, Baffin's Bay, Smith's Straits and Kennedy Channel, including all the Islands in and adjacent thereto, which belong to Great Britain by right of discovery or otherwise; on the North the Boundary shall be so extended as to include the entire continent to the Arctic Ocean, and all the Islands in the same Westward to the one hundred and forty-first meridian West of Greenwich; and on the North-West by the United States Territory of Alaska.

That it is desirable that the Parliament of Canada, on the transfer of the before mentioned Territories being completed, should have authority to legislate for their future welfare and good government, and the power to make all needful rules and regulations respecting them, the same as in the case of the other Territories; and the Parliament of Canada expresses its willingness to assume the duties and obligations consequent thereon.

On motion of Mr. *Mills*, a Message was ordered to be sent to the Senate, requesting their Honors will unite with this House in the said Address.

A motion being made by Mr. *Mills*, That this House will on to-morrow, resolve itself into a Committee of the Whole to consider certain Resolutions to provide that a sum of Ten Thousand Dollars shall be placed at the disposal of the Government of Manitoba annually, for a period not exceeding three years, in aid of the Public Schools in the said Province, to be recouped to the Dominion Government from the first sales of lands set apart for educational purposes;

Mr. *Mackenzie*, by command of His Excellency, acquainted The House that His Excellency the Governor General having been informed of the subject matter of the proposed Resolutions, recommends them to the consideration of The House.

Resolved, That this House will, on to-morrow, resolve itself into the said Committee.

On motion of Mr. *Mackenzie*, it was *Resolved*, That this House do ratify and approve an agreement entered into between the Government of Canada and the Moncton Gas Light and Water Company, providing for a supply of Water and Gas for the Government Workshops and Offices at Moncton, in New Brunswick, which Agreement is to the following effect:—

Copy of Agreement made between the Hon. *Alexander Mackenzie*, and the Moncton Gas Light and Water Company:

This agreement made this twenty-third day of April, in the year of Our Lord one thousand eight hundred and seventy-eight, between the Honorable *Alexander Mackenzie*, as Minister of Public Works of Canada, and the Moncton Gas Light and Water Company;

Whereas it is advisable for the better working of the Intercolonial Railway at Moncton, to organize a system of Gas and Water Works to supply the Workshops at Moncton with these articles;

And whereas the Moncton Gas Light and Water Company, who are about to establish Gas Works and Water Works at the Town of Moncton, in the Province of New Brunswick, for the use of that Town, have signified their willingness to supply the Intercolonial Railway at that place with such quantity of gas and water as may be required from their proposed Works;

And whereas, by Order in Council of the 26th March, 1878, the Minister of Public Works of Canada was authorized to enter into an agreement with the Moncton Gas Light and Water Company for the supply of water and gas for the Intercolonial Workshops at Moncton, N.B., in accordance with the conditions hereinafter specified for such a number of years as may be deemed best in the interest of the Railway :

Now, therefore, the said Minister and the Moncton Gas Light and Water Company do agree as follows:—

1st. Water Supply.

1st. The Moncton Gas and Water Company agree to provide a reservoir giving a head of water, at the Railway Works, of about one hundred feet, and that their supply pipes leading to and up to the Railway grounds, shall not be less than twelve inches in diameter and one-half inch or nine-sixteenths of an inch in thickness.

2nd. The said Company agree also to supply the Intercolonial Railway with all the water they require for the use of their engines, station, workshops and every purpose within the Railway grounds at Moncton, including a full pressure through such hydrants as may now exist, or may hereafter exist for fire purposes.

3rd. The said Company shall give and secure a full supply of pure and wholesome water to the Railway for all the purposes it may require, whether specially stated in the foregoing clause or not.

4th. Should the Company fail to provide a full and regular supply of water, such as may be required at any time, the Government reserves the privilege of refusing any longer to receive water from the Company, on giving them written notice to that effect; and in such case the Company shall not be entitled to any compensation, on account of the cancelling of this agreement at any time before the expiration of the period of the present agreement.

5th. The Government agrees that the Railway shall not necessarily waste water, and shall not supply water through their pipes outside of the Railway grounds to other parties.

6th. The Government shall pay the sum of *Three Thousand Dollars* a year for such water supply, for a period of ten years, from the date at which the supply shall commence. And the Government shall have the option, at the end of such period of ten years, of renewing the contract for the supply of water for a further period of ten years, if they so desire, on the same terms. Provided the supply of water required does not exceed the average quantity used during the said previous term of ten years. And in case such supply should be increased, the sum to be paid for such additional quantity of water required, shall be fixed by mutual agreement between the parties, and in case of disagreement, the value thereof shall be submitted for settlement by arbitration, each party naming an arbitrator, and the two arbitrators so chosen, selecting a third.

2nd. Gas Supply.

1st. The Moncton Water and Gas Company agree to establish Gas Works at Moncton and to supply, at the boundary of the Intercolonial Railway grounds, good gas, of a proper illuminating power, as regular, and in such quantities as the Railway may require.

2nd. The gas shall be measured by means of approved meters furnished by the Company, and situated within the Railway grounds.

3rd. If, at any time hereafter, impure gas be furnished, or if the supply of good gas should be insufficient or irregular, the Company, at the first request, shall take immediate steps to furnish pure and proper gas, and in the quantities, and as regularly as may be required by the Railway.

4th. The Government agree to pay, therefor, at a rate not exceeding three dollars and twenty-five cents (\$3.25) per thousand feet, on the distinct understanding, that, if any lower rate or price is charged to any other consumer whether by discount or otherwise, the Government shall have the benefit of such reduced rate or price charged to and paid by other consumers, which rate or price shall be paid quarterly.

5th. The Government reserves the privilege of terminating the present agreement at any time after a period of ten years (unless sooner determined by reason of breach of any of the conditions of this contract) without, in either case, the said Company being entitled to any compensation or indemnity whatsoever.

6th. This agreement to be subject to the approval of the House of Commons of Canada during its present Session.

In witness whereof the said parties hereunto have set their hands and seals at the day and year first above written, in duplicate.

PRAYERS.

One Petition was brought up, and laid on the Table.

Mr. *Trow*, from the Select Standing Committee on Immigration & Colonization, presented the Final Report of the said Committee, which is as follows:—

The Committee made an examination at their several sittings during the Session into the following subjects:—

The Immigration into the Dominion and the means taken to promote it, and in their several relations to Immigration;

The Meat and Cattle Trade with the United Kingdom;

The manufacture of Beet Root Sugar;

The adaptability of British Columbia for settlement, and its timber interests;

The opening up of the Dawson Route for transportation of passengers and freight into Manitoba and the North-West;

The Forests of the Dominion;

The manufacture of Peat; and

The navigation of Hudson's Bay.

On the subject of Immigration, and the system pursued, the Committee examined very fully the Secretary of the Department of Agriculture, from whose evidence they find the following facts:—

The Commercial and Industrial depression which continued to prevail during the past year materially and unfavourably affected the Immigration from Europe to the Continent of America as compared with former years. It appears, however, that Canada has suffered less material loss, arising from the number of immigrants arriving, than the United States; the percentage of loss in the latter in 1877 as compared with 1876 being 18.63; while in the case of Canada there is an actual increase of 5.65 per cent., in a comparison of the same years. The following figures show the total Immigration to Canada and the United States from 1873 to 1877, inclusive:—

Immigration to Canada.

| | | | | |
|------|-------|--------|-------|---------------------------|
| 1873 | | 50,050 | | <i>Decrease per cent.</i> |
| 1874 | | 39,373 | | 21.33 from 1873 |
| 1875 | | 27,382 | | 30.20 from 1874 |
| 1876 | | 25,633 | | 6.38 from 1875 |
| 1877 | | 27,082 | | <i>Increase per cent.</i> |
| | | | | 5.65 from 1876 |

Immigration to United States.

| | | | | |
|------|-------|---------|-------|---------------------------|
| 1873 | | 459,804 | | <i>Decrease per cent.</i> |

| 1877 | | 138,222 | | 18·63 from 1876 |

The following figures show the total movement of emigration from the United Kingdom for the same years including both foreigners and persons of British origin:—

Emigration from the United Kingdom.

| | | | | |
|------|-------|---------|-------|---------------------------|
| 1873 | | 310,612 | | <i>Decrease per cent.</i> |
| 1874 | | 241,014 | | 22·40 from 1873 |
| 1875 | | 173,809 | | 27·92 from 1874 |
| 1876 | | 138,222 | | 20·47 from 1875 |
| 1877 | | 119,971 | | 13·24 from 1876 |

The actual emigration of persons of British origin alone from the United Kingdom in 1877, was 95,195, while there was an immigration during the same year of persons of British origin of 63,890, showing that the net loss to the population was only 31,305.

It is, in the opinion of the Committee, proper to consider these general movements of population in any attempt to appreciate the immigration to Canada. The emigration from Great Britain last year touched the lowest point of any year since 1861, and is considered by the statist of the Board of Trade to be at its minimum. Even the emigration to Australasia received a slight check in 1877, the figures being 31,071 against 33,191 the previous year, notwithstanding the great exertions and very large expenditure of that group of colonies to promote it.

The immigrants reported as having settled in Canada in 1877, entered at the following ports:—

| | |
|-----------------------|-------|
| Quebec..... | 4,201 |
| Suspension Bridge.... | 6,453 |
| Halifax, N.S..... | 930 |
| St. John, N.B..... | 141 |
| Portland, Me..... | 1,513 |

Manitoba from U.S... 2,084; and there were further reported with settlers goods by frontier Custom Houses 11,759, making a total of 27,082 settlers. In addition to these a considerable number of passengers entered at our ports to go to the Western States. These swell the total number of immigrant arrivals in Canada during the year to 35,285.

The amount of money and value of effects ascertained to have been brought into the Dominion by immigrants during the last year was \$632,269; and the unascertained values of effects and money brought would probably swell these figures to about a million dollars. This amount, however, would represent but a very small proportion of the value to the Dominion of the immigrant settlers during the year.

It is the immigrant himself who is the chief value. Every immigrant who successfully settles in the country, becomes, at once, both a producer and a consumer; in the former capacity he contributes to the general wealth, in the latter to the general revenue, and so helps to place the Dominion in a better position to undertake those great public works, yet necessary for its full development. The actual money and value of effects brought into the country by immigrants was about nine fold greater last year, than the whole of the ordinary expenditure of the Dominion Government for the service of immigration; and this quite apart from the infinitely greater value of the immigrants themselves.

As regards the classes of immigrants induced to come by the Government Agents, these were entirely confined to female domestic servants and agriculturists, *viz.*—

Tenant farmers with small means and Agricultural labourers. Employment was found for all the agricultural labourers. In fact the demand was not in all cases fully satisfied; and there have been no reports of persons of this class, in the country parts, being out of employment during the winter. No inducements were held out to persons of the mechanic class to come to Canada, in view of the industrial depression which has prevailed. Persons of this class, however, received information from their respective Trades; and those who came found employment. The persons out of employment have been residents of towns, but it is not believed the number is nearly so large as last year; and it is to be remarked that even in the most prosperous times there are always found some persons in towns out of employment.

The expenditure for Immigration in 1877, shows a very marked reduction as compared with the previous year. The gross total expenditure as shown by the Department charged with Immigration, was, during that year \$183,672, against \$284,065 for the previous year. But even this amount should be further reduced by refunds paid by the Provinces, partly on account of advances made for transport, and partly on account of the expenses of the London Office, to the amount of \$42,285; and still further by loans to Icelanders to be repaid to the amount of \$30,717, making the net ordinary expenditure for the year \$110,670, this being the smallest expenditure for Immigration since 1871. It includes the cost of the whole service and all the establishments both in Canada and in Europe. The net *per capita* cost of Immigrants was \$4.08. This *per capita* cost is calculated on the whole amount of the ordinary expenditure, and the whole number of Immigrant settlers. Any other mode would be sure to lead to error. All Immigrants who come to the country—even the Immigrant passengers who take advantage of Canadian routes to go to the United States,—necessarily receive directing attention from the Agencies in Canada.

It appears to the Committee that the Immigration establishments have been reduced to as narrow limits as possible, if establishments are at all to be maintained. The number of Travelling or Lecturing Agents in the United Kingdom has been reduced to four, as, against the number of thirty-five employed for longer or shorter periods in 1873. The number of Stationary Agents in the United Kingdom is six, *viz.* :—at London, Liverpool, Glasgow, Belfast, Dublin and Limerick—and on the Continent, three, *viz.*—at Hamburg, Paris, and in Switzerland. An active propagandism appears to be made, and the service efficiently and economically conducted.

On the general subject of Immigration to Canada, and the best means of promoting it from an English point of view, the Committee examined Mr. *Henry Simpson*, lately connected with the English Press. His evidence is published in the Appendix herewith. The Committee also took evidence on the same subject from Mr. *Peter O'Leary*, whose evidence is also contained in the Appendix.

The Department of Agriculture has, during the year, published several pamphlets and other valuable documents containing reliable information to intending settlers regarding the great resources of Manitoba and the North-West and its adaptability for successful settlement. These respective documents have been distributed gratuitously throughout the older Provinces and also in Europe with beneficial results.

The Immigration into the Province of Manitoba during the year 1877 was about 7,000, which is very considerable in view of the limited population of that Province, and the yet imperfectly developed means of access. It appears, however, from the most recent evidence that has been taken before the Committee, that the Immigration to that Province has commenced this spring on a much more extended scale, *viz.* : at the rate of about 200 a day, which would make the Immigration in one month nearly equal to the whole of that of last year. A very large proportion of these immigrants have moved from the old Provinces of the Dominion. There a c

also considerable numbers from the United States. And the (it may be almost called) unrivalled richness of the soil of that Province, and its special adaptation to the growth of wheat of the most valuable quality, have begun to attract attention in Europe.

THE PROVINCE OF BRITISH COLUMBIA AS A FIELD FOR COLONIZATION.

On the subject of the adaptability of the Province of British Columbia for Colonization, the Committee examined Mr. *Henry J. Cambie*, District Engineer, in charge of Surveys for the Canadian Pacific Railway, from whom they obtained much valuable information, which was given by him with clearness and precision, and is published in the report of his evidence, appended hereto. Mr. *Cambie* showed that there are large tracts of land in the Province which, at comparatively moderate expense, can be made available. This is a fact of particular importance in view of the very great resources of that Province in mineral wealth, in fish and in forests. The evidence of Mr. *Peter O'Leary*, who visited that Province as an observer in view of the interests of the emigrant classes in Great Britain, is in the same sense as that of Mr. *Cambie*, and the information given by him will be received with confidence by the classes for whom he more particularly obtained it.

The Committee are of opinion that this already serious movement of population towards the North-West Prairies of the Dominion will very soon grow to large dimensions, and this is a fact of grave importance, both to the Government and Parliament, in view of the necessity of providing adequate means of ingress and egress, both for immigrants and ordinary passenger traffic and freights. A large and sudden Immigration into a new country will, at first, of course, put a strain on its resources, and probably upon those of the Immigration Department, to see that it is properly directed.

The Committee find that the Special Schemes of Colonization, in Manitoba and Kewatin, viz.: of the Mennonites, the Icelanders, and repatriated Canadians from the United States, have been fairly successful, and appear to be likely, in the future, to attract further additions without further aid from the Government.

The Committee find from the facts already established, that even with the present inferior facilities, wheat can be brought from Winnipeg and placed in connection with the Grand Trunk system at Sarnia for 30 cents a bushel, and this fact, coupled with the large average production per acre on the prairies of the North-West, will probably, in the almost immediate future, severely test the wheat-growing capabilities of competition of Ontario, or the other older Provinces of the Dominion.

The Committee in view of this fact, and also of its relations to Immigration, thought it advisable to examine witnesses on the subject of the Meat and Cattle Trade which is now springing up between Canada and the United Kingdom, and which, it may be here incidentally remarked, was in the first place advocated and set on foot by one of the Canadian Emigration Agents. The movement thus started spread to the United States.

It appears from the evidence of Mr. *Thos. Cramp*, a director of the Dominion Line of Steamships, that the vessels of this Line are specially fitted up for the carriage of Live Stock, to the exclusion of other freights from Canada. This line carried last year 3,513 oxen, 8,273 sheep and 1,233 swine, together with 213 horses. The exports of all these animals are rapidly increasing and the steamers are engaged to their full capacity for some months in advance. Other lines, particularly, the Allan, the Beaver, and Temperley, have carried considerable numbers of these animals. The total number of Cattle carried in 1877 was 7,412 and of sheep 11,825, against about one third of these numbers the previous year. The extent of this trade for many years to come will probably be only limited by the capability of Canada to supply it.

Very strong representations were made to the Committee as to the crushing effect which the Bill of the Duke of Richmond, would have had on this trade by compelling the slaughter of all cattle at the port of debarkation. It has afforded them great satisfaction to learn that the Bill is to be so amended as to permit the entry of

Canadian Cattle alive. This favorable result is undoubtedly in a very large measure, owing to the representations made to the Imperial authorities, by Order in Council of the Canadian Government; and Sir *John Rose* and Mr. *Dyke*, the Canadian Immigration Agent, at Liverpool, to the Committee of the House of Lords, to whom the Bill was referred.

Many of the steamers, particularly, of the Allan Line, are fitted with cold and desiccated compartments to carry fresh meat from Canadian ports to England. This trade appears to be measurably successful although it has not hitherto extended so rapidly as that in live stock. It appears to be subject to certain draw-backs which, however, may be overcome, as they have reference to methods of refrigeration and desiccation and the adequate care of the meat at the several points after leaving the compartments of the Ocean Steamships.

The witnesses whose evidence may be particularly consulted with respect to these trades are Messrs. *Cramp*, *O'Leary* and *MacShane*. The successful development of these trades will attract to Canada a class of Emigrants with capital, which the country would not otherwise have obtained, besides inducing a very beneficial change in the farming of the older Provinces, where grain has been continuously grown to an extent of somewhat impoverishing the land.

The Committee examined Mr. *Edward Burrard*, Director of Agriculture of the Province of Quebec, on the subject of the cultivation of the Sugar Beet, and its manufacture into sugar. The facts elicited, prove beyond question, that the soil and climate of the old Provinces of the Dominion are peculiarly adapted to the successful growth of the Sugar Beet, rich in sacchrine matter, and notwithstanding the unsuccessful attempts which have been hitherto made to manufacture beet-root Sugar in the United States, this fact is sufficient to encourage an attempt to demonstrate the feasibility of its manufacture in Canada, especially in view of its very great importance. It is also well to bear in mind the long tentative efforts which were made in Europe, before the great success of the manufacture was fully established. Success in Canada would mean very considerable increase of wealth, besides a favorable adaptation of circumstances in view of the cattle trade now opening up. The Committee are, therefore, of opinion that this incipient or projected industry is worthy of any fostering care of Parliament that could be consistently bestowed upon it.

The evidence given by Mr. *Thague* on the Forests of Canada, their products and the advisability of care to be taken for their preservation, will be found to contain a statement of facts and suggestions of great value for the whole Dominion. This question is one which affects both the climate and natural wealth of the whole country. It is, therefore, of especial interest in connection with Immigration. All nations in Europe are now bestowing very particular care on forest preservation. The Committee are aware that in all the old Provinces of the Dominion, the forests have been placed by the Act of Confederation, in charge of the Provincial Governments. The Committee are yet, however, of opinion, taking into consideration the general importance of the subject in view of every interest of the Dominion, that it may not be inopportune for them respectfully to call the attention of the Local Governments through the Parliament of Canada, to the necessity of measures for forest preservation in the interest of the general welfare of the country.

As cognate to the use of forests for fuel may be mentioned the manufacture and use of peat, of which there are large supplies in many parts of the Dominion. It is found in Manitoba where wood is scarce; and there it may become specially valuable. On this subject the Committee believe that the evidence of Lieutenant-Colonel *Thompson* will be found worthy of particular consideration. It contains a description of a new process of manufacture by artificial drying in a very much shorter time than the old methods, of much greater capacity with regard to the quantities that can be produced and of much greater certainty, when the chances of the weather for drying have to be taken into consideration. The great value of peat for fuel is undoubted, and this resource of the Dominion is one to be highly prized.

Professor *Hind* furnished to the Committee very elaborate evidence on the feasibility of the navigation of Hudson's Straits and Hudson's Bay from the point of the mouth of Nelson River to Liverpool, as a means of outlet for the future trade of a large portion of the North West Territory. Port Nelson is less distant from Liverpool by about one hundred miles than New-York, and when there, on the westward trip, the traveller is more than half way across the continent. The statements made by Professor *Hind* in his exposition are certainly full of interest; and furnish reasons why more particular information on some points in doubt should be obtained. It is to be particularly borne in mind that a combination of physical facts renders the climate in the North Western portion of this continent much milder and more suitable for agricultural operations, and consequently for settlement, than corresponding latitudes on the Eastern or Atlantic side. These favorable circumstances seem to arise for one reason from the configuration of the continent and the depression of the Rocky Mountains allowing the prevalent Pacific winds charged with moisture to exercise their genial influence over that portion of the Territory in question. It is certain that degrees of latitudes over a very large portion of the American continent do not simply imply either heat or cold. Port Nelson in Hudson's Bay is about the latitude of Edinburgh. The corresponding latitude on the Labrador Coast implies a degree of cold which forbids agricultural colonization, while the same line carried due west into the Peace River Territory of the Dominion would bring the traveller into conditions of climate and soil highly favorable for agriculture. Whatever the immediate interests may be attaching to the proposed navigation of Hudson's Bay it appears certain that as population pushes itself into the territories north-west of Manitoba, if an outlet at the point of Port Nelson is at all feasible, it will surely be developed and made available. It is for the Government to consider what steps may be deemed advisable to obtain further information on this subject.

THE UTILIZATION OF THE DAWSON ROUTE AND PORTIONS OF CANADA PACIFIC RAILWAY ABOUT TO BE COMPLETED AS A ROUTE TO MANITOBA.

On the subject of the Dawson Route from a consideration of facts stated in evidence by Mr. *Hugh Sutherland*, the Committee find that it would be advisable to utilize the portions of Railway being constructed and about to be finished by means of tramways around the portages between Port Savanne and Kettle Falls, the tramways being worked by light cars on a narrow gauge drawn by horses and towed on barges along the water stretches without breaking bulk. A transshipment to be made at Kettle Falls to steamers plying between that point and Rat Portage, whence the Railway would take it directly to Winnipeg. Mr. *Sutherland* states that 50 tons per day of freight could be carried by this mode more rapidly than by the present routes through United States Territory, with much less vexation as regards bonding arrangements, at prices which can compete with the present rates, and with perfect immunity as regards Immigrants from the systematic tampering with them that now takes place in their passage through American Territory. Mr. *Sutherland* states that the required work can be done during the present season at a cost not exceeding \$150,000; and he is of opinion that the proposed improvements are necessary to, and would lead to the colonization of the cultivable lands along Rainy River and other parts of the Dawson Route, and moreover, a point which is of great importance, furnish the Province of Manitoba with increased facilities for obtaining lumber at a much cheaper rate than at present. For considerations of this nature the improvements in question will have permanent interest and value, after the Pacific Railway shall have been constructed all the way between Manitoba and Lake Superior. There is a further consideration, in view of the rapidity with which Manitoba and the adjacent Territory are now filling up, the proposed route would afford another outlet for their products of grain, and of ingress for their necessary supplies from the older Provinces of the Dominion, which would prove to be of great value to both.

The evidence herewith appended is submitted as a part of the Report of the Committee.

The Committee, before closing their Report, have great pleasure in stating that they have received very valuable information and assistance from *John Lowe, Esq.*, Secretary of the Department of Agriculture and Immigration.

(For the *Minutes of Evidence accompanying this Report, See Appendix No. 2.*)

The Bill No. 77 for the better prevention of crimes of violence in certain parts of Canada, until the end of the next Session of Parliament, was considered in Committee of the Whole, amended and reported; and the Bill as amended, to be taken into consideration, on Monday next.

The House went again into Committee of Supply.

On motion of Mr. *Mackenzie* it was *Resolved*, That the Government business shall have precedence on Wednesday next, immediately after Routine Proceedings.

Mr. *Mackenzie* presented the following Returns, *viz.*:—

Return to the Order of The House of the 1st April, last; for Return of ranks and names of all officers who have attended and taken long or short course certificates at the "A" or "B" Battery Schools of Gunnery; the corps to which they belonged with the dates of their appointments; their ranks and corps at present or the dates and reasons for their retirement.

Return to the Order of The House of the 1st April, last; for a Statement of all sales or leases of the Islands in the River St. Lawrence lying between Brockville and Kingston, known as the "Thousand Islands," during the years 1874-5, 1875-6 and 1876-7; shewing what Islands or parts of Islands were sold or leased; names of said Islands; quantity of land in each sold or leased; time for such leases or sales to run; the names of purchasers or Lessees, with the amount to be paid *en bloc*, or per acre, for such purchase or leases.

Return to Address of the 24th April, last; for copies of all correspondence between the Government, or the Minister of Justice, and the creditors of one *Olivier Latour*, or any of them, or any persons on their behalf, in relation to the alleged forfeiture of its Charter by La Banque Nationale by reason of its illegally trading in Lumber and in the manufacture and sale of Square Timber and Saw Logs, and the produce thereof, and in other goods, chattels and merchandize, in violation of the Banking Act, to the prejudice of other banking institutions, the Lumber Trade and the said creditors.

Also, for copies of all contracts, depositions, statements and writings submitted to the Government, or to the Minister of Justice, evidencing said (illegal) trading, and also copies of the opinion of the ex-Minister of Justice and the present Minister of Justice thereon, and of all Orders in Council having reference to said illegal act of said Bank.

Return to the Order of The House of the 24th April, last; for a copy of the Report of Exploration made by Mr. *Bell*, C.E., on the proposed route of the Canada Pacific Railway from Nipigon to the junction with the Thunder Bay, or Kaministiquia Branch of the said Railway.

Return to Address of the 1st instant; for copies of all Orders in Council fixing the rate of Tolls to be collected by the Upper Ottawa Improvement Company, on saw logs and timber passing through their works.

The amendments made by the Senate to the Bill No. 52 to amend the Canadian Pacific Railway Act of 1874, were taken into consideration.

Mr. *Mackenzie* moved, that this House doth disagree in the amendments made by the Senate to the said Bill, for the following reasons:—

"Because it is contrary to the uniform practice of Parliament, that contracts into which the Executive is authorized to enter, should be made subject to the approval of the Upper Chamber.

" Because in recognition of the practice, the Executive was authorized by the Canadian Pacific Railway Act of 1874 to make all contracts for the construction of that great work subject to the approval of the House of Commons only.

" Because in further recognition of the practice the Executive was by the same Act authorized to make contracts for leasing or working one of the Branch Railways, in connection with any other Railway, subject to the approval of the House of Commons only.

" Because on the principle on which the approval of the Senate was not required to such contracts it ought not to be required to a contract for leasing or working another of the Branch Railways ;"—which was agreed to on the following division :—

On motion of Mr. *Mackenzie*, a Message was ordered to be sent to the Senate, to acquaint them with the foregoing reasons.

A Message was received from the Senate, agreeing to the Address to Her Majesty, on the subject of the North Easterly, Northerly and North Westerly boundaries of Canada, and declaring it desirable that an Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed, defining the same;— by filling the blank with the words "Senate and."

Also,—That they have passed an Address to His Excellency the Governor General, praying that His Excellency will be pleased to transmit the Joint Address of both Houses to Her Majesty, on the subject of the North Easterly, Northerly, and North Westerly boundaries of Canada, and declaring it desirable that an Act of the Parliament of the United Kingdom of Great Britain and Ireland should be passed defining the same; and to request that the Commons will unite with them in the said Address.

On motion of Mr. *Mills*, a Message was sent to the Senate, informing their Honors that this House hath concurred in their Address to His Excellency the Governor General, praying him to transmit the Joint Address of both Houses to Her Majesty, on the subject of the North Easterly, Northerly, and North Westerly boundaries of Canada, and declaring it desirable that an Act of the Parliament of Great Britain and Ireland should be passed defining the same, in such a way as to His Excellency may seem fit, in order that the same may be laid at the foot of the Throne;— by filling up the blank with the words "and Commons."

The amendments made in Committee of the Whole to the Bill No. 77 for the better prevention of crimes of violence in certain parts of Canada, until the end of the next Session of Parliament, were taken into consideration, and concurred in, and the Bill read a third time, and passed.

The House went again into Committee of Supply.

The Governor General transmits to the House of Commons, further Supplementary Estimates of sums required for the service of the Dominion, for the year ending 30th June, 1878; and in accordance with the provisions of "The British North America Act, 1867," he recommends these Estimates to the House of Commons.

GOVERNMENT HOUSE,

OTTAWA, 2nd May, 1878.

Dufferin.

The Governor General transmits to the House of Commons, further Supplementary Estimates of sums required for the service of the Dominion, for the year ending 30th June, 1879; and in accordance with the provisions of "The British North America Act, 1867," he recommends these Estimates to the House of Commons.

GOVERNMENT HOUSE,

OTTAWA, 6th May, 1878.

On motion of Mr. *Cartwright*, the said Messages and further Supplementary Estimates were referred to the Committee of Supply.

The Bill No. 75 from the Senate, intituled: "An Act respecting the Traffic in Intoxicating Liquors," was again considered in Committee of the Whole, amended, reported, and the amendments concurred in.

Mr. *Mackenzie* moved that the said Bill be now read a third time.

Mr. *White* (Renfrew) moved in amendment thereto, that the Bill be re-committed to a Committee of the Whole with instructions that they have power to amend the same, by striking out sub-section 8 of Clause 99;—which was negatived on a division.

The Bill was then read a third time, and passed.

The House then went into Committee of the Whole, to consider certain proposed Resolutions to provide that a sum of \$10,000 shall be placed at the disposal of the Government of Manitoba, in aid of Public Schools, etc.

(*In Committee.*)

The following Resolutions were adopted:—

1. *Resolved*, That by Section twenty-two of the Dominion Lands Act, Sections 11 and 29 of the Public Lands in each Township of the Province of Manitoba are set apart, to be sold at some future time in order that a fund may be realized for the maintenance of public schools within the Province.

2. *Resolved*, That the Government of Manitoba have applied to the Government of Canada to have the School lands within the limits of that Province transferred to them, to be sold for the purpose of creating an Educational endowment.

3. *Resolved*, That it is not in the public interest in consequence of the sparseness of the population and its probable rapid increase within a few years, and in consequence of the additional value which these lands are likely to acquire because of that increase in the population, that they should be disposed of at the present time.

4. *Resolved*, That it is expedient however to assist in the meantime the cause of education in the Province, and that with this view a sum of ten thousand dollars be placed at the disposal of the Government of Manitoba in aid of the public schools therein, annually for a period not exceeding three years, and that the several sums so advanced with the interest thereon, at the rate of five per cent. per annum, be recouped to the Dominion Government from the first sales of the lands so set apart as aforesaid for educational purposes.

Resolutions to be reported.

The said Resolutions were accordingly reported, read a second time, and agreed to.

Mr. *Mills* then introduced a Bill No. 78, to authorize the advance of certain sums to the Province of Manitoba, in aid of the Public Schools therein, which was read the first and a second time, and ordered for a third reading, at the next sitting of The House, this day.

The House then adjourned at 20 minutes before 2 o'clock A.M.

On motion of Mr. *Ross* (Middlesex), the Eighth Report of the Joint Committee of both Houses on the Printing of Parliament, was concurred in.

Sir *Albert J. Smith* laid before The House,—Report of the Commissioner of Fisheries, for the year ended 31st December, 1877; being Supplement No. 5 to the Tenth Annual Report of the Minister of Marine and Fisheries, for the year 1877.

Mr. *Mackenzie* presented,—Return to Address of the 4th March, last; for copies of all papers, correspondence and Orders in Council connected with the Windsor and Annapolis Railway, the Windsor Branch and the Western Counties Railway; and all papers and Orders in Council and correspondence in connection with the purchase of an Annuity by the W. C. Co., or the guarantee of an annual sum of money to that Company for a special number of years.

Mr. *Mackenzie* moved, that this House do ratify the Order in Council, dated the 18th April, 1878, respecting a subsidy to the Canada Central Railway Company, passed under authority of "An Act to provide for the construction of the Canadian Pacific Railway," 37 *Victoria*, Chapter 14, which Order is to the following effect:—

The Committee of the Privy Council have had under consideration the questions relating to the construction of the Georgian Bay Branch of the Canadian Pacific Railway and the extension westward of the Canada Central Railway in consideration of a subsidy to be paid by the Government, as provided by the Canadian Pacific Railway Act of 1874.

That a contract was entered into in 1874, with Mr. *A. B. Foster*, for the building of the Georgian Bay Branch, under which Mr. *Foster* was to execute all the surveys, as well as perform the work of construction from the mouth of French River, eighty-five miles eastward.

That on the 28th February, 1876, this contract was annulled, and Mr. *Foster* was paid such portions of his expenditures on the survey as were reported by the Chief Engineer to be serviceable to the Department in completing the survey.

That on the 4th November, 1874, an Order in Council was passed under the terms of the Act 37 *Vic.*, Cap. 14, known as the Canadian Pacific Railway Act of 1874, whereby a subsidy of \$12,000 per mile was granted to the Canada Central Railway Company, for a distance not exceeding 120 miles from the eastern end of the Georgian Bay Branch above referred to, upon the conditions:—

1st. That the road should be built upon a line to be approved by the Minister of Public Works, but which was defined generally, as ascending the valley of the Bennechère from the vicinity of Douglas Village, *via* Golden Lake and Round Lake, and thence by as direct a line as may be found, to Burnt Lake, and thence to the proposed terminus of the Georgian Bay Branch—about the 85th mile from Georgian Bay.

2nd. That the Company should, within one month, satisfy the Minister of Public Works that they had entered into a *bond fide* contract for the building of the Railway.

3rd. That running powers should be given to certain roads on stated conditions.

4th. That the Government or the lessees of the Government line from Georgian Bay, should possess running powers on similar terms to the Companies designated.

5th. That payment of the subsidy should be made on the completion of the Railway in sections of not less than 20 miles, upon the certificate of an Engineer to be appointed by the Government.

That in consequence of the annulling of the contract for building the Georgian Bay Branch, it was considered best to complete the survey of the country to be traversed, which had been to a great extent executed by the Engineers of the Contractor, with the result of raising some doubts as to the best direction.

That it was deemed unadvisable to urge the Canada Central Railway Company to proceed with the building of the subsidized line until the more complete examination and survey of the country should have been accomplished.

That Mr. *Hazlewood*, the Engineer originally charged with making an examination of the country from the mouth of French River to the neighbourhood of Douglas and Pembroke, reported that a line, with fair gradients and average work, was practicable, in the direction indicated by the Order in Council referred to.

That the Engineers of the Canada Central, and those employed by Mr. *Foster*, reported more serious obstacles in grades and engineering work, and difficulties after leaving the lower part of the Bonnechère valley; and though the Chief Engineer stated that he believed that a more thorough exploration would prove that they were mistaken, it became necessary to ascertain the facts with greater particularity.

That Mr. *Lumsden* was therefore despatched early in the season of 1876, with a strong party to do the work.

That this Engineer has reported, as the result of the season's operations, that a fair line can be obtained on Mr. *Hazlewood's* plan, but that for a considerable distance the work will be somewhat heavy in consequence of the prevalence of rock cutting, and that the maximum grade rising eastward would be 52.80 feet per mile in an aggregate distance of about seven miles, and that there are three miles of the same grade rising westward. That this grade though not excessive, is much higher than Mr. *Hazlewood* expected.

That the Engineer employed by the Canada Central Railway Company has reported that so far as works of construction are concerned, a more favorable line could be obtained ascending from Pembroke on a line nearly parallel with the Ottawa River, and distant from the same after leaving the Petewawa River, an average of 8 or 10 miles, and touching in its course the south-east corner of Lake Nipissing.

That the same Engineer reports generally, that the alignment of the road is good, and that it will not exceed six per cent. of curvature; that from Pembroke to Nipissing Road, five rivers are crossed, four requiring bridges of a span of 100 feet, and one (the Petewawa), a span of 400 feet; that forty miles are through a spruce, tamarac and hardwood country, and 90 miles through burnt woods and open country, the soil generally being of a sandy or gravelly character, with considerable reaches of clayey sand and sandy loam.

That the estimated distance from Pembroke to the south-east corner of Lake Nipissing is about 130 miles. This point is about 20 miles farther west than the point previously determined on as the eastern terminus of the Canada Pacific Railway (thus saving to the public the construction of about 20 miles of railway.) From this point westward to Cantin's Bay, the projected station on French River, the distance is between 50 and 55 miles.

That the Canada Central Railway Co., in a letter dated the 10th February, 1877, proposed that the Company should build the Westward extension from Pembroke on this line, to the south-east corner of Lake Nipissing for a total bonus of \$1,440,000, being at the rate of \$12,000 per mile upon 120 miles; that payment of the subsidy should be made on the basis of 80 per cent. of the expenditure, the drawback of 20 per cent to be paid on the completion of every ten miles, the line to be completed within three (3) years, and 75 per cent. of the value of rails delivered on the ground to be paid as the rails are delivered.

That Mr. *Fleming*, Engineer-in-Chief, to whom the proposal was referred, reports as follows:—

" CANADA PACIFIC RAILWAY,
 " OFFICE OF THE ENGINEER-IN-CHIEF,
 " OTTAWA, February 16th, 1877.

" The Hon. A. Mackenzie,
 " Minister of Public Works.

" SIR,—I have the honor to report on the proposal made by the Canada Central Railway Co., in the communication addressed to you of date 10th inst.

" I do not altogether concur with the view expressed as to the impossibility of finding a line and building a first class Railway on the route originally laid down by the valley of the Bonnehère. It is due, I think, to an officer on my staff, Mr. *Hazlewood*, to state that the surveys which have since been made substantially confirm the report on the reconnaissance which he made in 1874. He was instructed to walk over the ground and report if it would be practicable to build a Railway across the country in a direct course. On his return he reported that he felt quite safe in stating that a Railway could be located on a direct course between the mouth of French River and Burnt Lake ; in fact that the departure from a straight line would probably not increase the distance more than 5 per cent."

He further reported on the character of the country between Burnt Lake and Renfrew, *via* the valley of the Bonnehère River, and expressed the opinion that there would not be any great difficulty in finding a practicable line for the Railway.

" While I have, as yet, seen nothing to alter my own views with respect to the general accuracy of Mr. *Hazlewood's* report, I am satisfied that there are no engineering objections to the proposal now submitted by the Canada Central Railway Company to extend the line westerly from Pembroke instead of from Renfrew.

" Indeed the information obtained goes to show that a line with more favorable gradients may be obtained on the route now proposed to be adopted by the Canada Central, and that it will serve the interests of the Country fully as well. I have therefore, no hesitation in recommending that the proposal be favorably entertained.

" I think it would be well to stipulate with the Canada Central Company that the gradients ascending westerly may be as high as 52.80 per mile, but that the maximum ascending in the opposite direction should be 26.40 per mile; and that the curvature and general alignment should be approved by the Department."

"(Signed) SANDFORD FLEMING."

That the House of Assembly of the Province of Quebec on February 13th, 1875, passed a Resolution which was communicated to the Government of Canada stating that " according to the reports of eminent men on the nature and configuration of the ground, it appears that a trace which would follow the Matawan would present the cheapest, the easiest, the shortest route for the development of the vast commerce of the West and of the Pacific, as well for the branch of the Pacific to the East of the Georgian Bay as for the line to be subsidized by the Government * * * * and that in the event the exploration proves that a preferable line to that of the Matawan exists to the South of the River Ottawa, the line to be subsidized by the Government, be brought to Pembroke and not to Renfrew, where a junction with the railway system of the Province of Quebec is impossible, seeing the enormous expense which it would entail."

That since that period the Government of Quebec have commenced the construction of Railways on the northern side of the St. Lawrence and Ottawa Rivers, and the Railway from Montreal westward to Ottawa has been completed by that Government.

That though the line would be lengthened by this deflection to the northward, the western end of the subsidized line would, as stated, reach a point much further to the westward of the previously proposed terminus, or junction with that portion of the Canada Pacific Railway proposed to be built under the terms of the Act, to the French River, and would thus save to the public the cost of constructing about 20 miles of railway.

The Committee of Council, after fully considering the facts as already summarized, recommend,—

First.—That the proposition of the Canada Central Railway Company to extend the line to such point as may be selected by the Government as the terminus of the Canada Pacific Railway at or near the crossing of the Nipissing Road at the South East Corner of Lake Nipissing for the sum of one million and four hundred and forty thousand dollars (\$1,440,000) should be accepted, upon the condition as to grades recommended by the Chief Engineer—and that the total payment to be made shall not, under any circumstances, exceed the sum of twelve thousand dollars (\$12,000) per mile.

Second.—That the Company shall, within three months of the ratification of this Order in Council by the House of Commons, satisfy the Minister of Public Works that they have entered into a *bond fide* contract or contracts, for the building of the Railway, and have provided sufficient means, with the Government bonus, to secure the completion of the line—and also that the Company shall, from the date of such contracts, make continuously such progress as will justify the hope of the completion of the line within the time mentioned.

Third.—That the Company shall enter into an agreement to grant running powers, on terms to be approved by the Governor in Council, to the Montreal, Ottawa and Occidental Railway, now in process of construction, from Montreal, on the northern side of the Ottawa River, or any railway in extension thereof, from any point of intersection west of the Town of Renfrew, that may be approved of by the Governor in Council, and also to the Kingston and Pembroke Railway Company, from the point of intersection of their line, provided such point of intersection is at or west of Renfrew, and to such other Companies as may have the termini of their systems on or towards Lake Huron, and which may be designated by the Governor in Council as entitled to such running powers: Provided that the terms of such running powers to any of the said Companies or roads may be mutually agreed upon by the Canada Central Railway Company and the Quebec Government, and the other Companies named, and in the event of disagreement, the conditions to be settled by arbitration, one arbitrator to be selected by each party, and one by the Governor in Council.

The Government of Canada and the lessees or future owners of the Government line westward of the western terminus of the subsidized line, shall possess running powers in the said Railway on similar terms to the Companies designated.

Fourth.—That payments be made to the extent of eighty (80) per cent. of the said bonus of \$12,000 per mile on the completion of every ten miles—one-half of such payment may be advanced when work equal to five miles is completed on any one section, on the certificate of the Chief Engineer that satisfactory progress is being made—and payment to the extent of sixty (60) per cent. may be made on work extending over twenty-five miles, upon the certificate of the Chief Engineer that such work is equal to ten miles of completed track.

The balance to be paid on the entire completion of the Railway to the Nipissing Road at the south-east corner of Lake Nipissing; Provided that payments may be made upon rails delivered, to the extent of seventy-five (75) per cent. of the market value thereof—the amount so paid on rails to be deducted from each settlement of ten miles.

All payments to be made on the certificate of the Chief Engineer.

They further recommend that payments be made to the extent of eighty (80) per cent. of the work actually executed, on the completion of every ten miles, in the proportion which ten thousand dollars per mile bears to the actual cost of each Section.

The Company, however, to have the option of substituting the payment by the Government of the interest (or part of the interest) on bonds of the Company, running over such terms of years as may be hereafter approved by the Governor in Council, in lieu of the mileage subsidy referred to.

The terms and conditions in all other respects to be same as above provided.

The grant to be operative only after the ratification of this Order in Council by resolution of the House of Commons.

Certified.

W. A. HIMSWORTH,
Clerk, Privy Council.

Mr. Cameron moved in amendment thereto, that all the words after "that" to the end of the said motion be left out, and the following words inserted instead thereof:—

"In the opinion of this House no subsidy should be granted to the Canada Central Railway Company for the construction of a Railway to connect with the Eastern Terminus of the Canada Pacific Railway, or the Georgian Bay Branch thereof, except upon an agreement being entered into by the Company to grant running powers on terms to be approved of by the Governor in Council to all Railways intersecting or connecting with the said Railway, in accordance with the provisions of the 'Canada Pacific Railway Act, 1874 ;' " which was negatived on the following division :—

Mr. Cartwright moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. McCarthy moved in amendment thereto, that Mr. Speaker do not now leave the Chair, but that it be "*Resolved*, That The House regrets that in the face of annual deficits during the period in which the present Administration have been in power, amounting to \$3,360,812.72 cents, (as appears from the Public Accounts), the annual expenditure has not been curtailed so as to confine it within the Revenue, and instead of practically adopting a policy of retrenchment, the Government have expended more in each of the years 1874-75, 1875-76, and 1876-77, than the largest amount ever expended prior to the year 1874-75;"—which was negatived on the following division:—

Resolutions to be reported.

Report to be received,—and Committee to sit again, to-morrow.

A Message was received from the Senate, agreeing to the amendments made by this House, to the Bill No. 75 of their own, intituled: "An Act respecting the traffic in Intoxicating Liquors," without amendment.

Also,—acquainting this House, that the Senate doth insist in their amendments made to the Bill No. 52 to amend the Canadian Pacific Railway Act, 1874, to which this House hath disagreed, and for the following reason, *viz.* :—

1st. That the Senate doth insist on the said amendments for the reason that without them the Bill would provide for the disposal of public property for a term of years, without obtaining the sanction of both Houses to the terms of the transfer.

2nd. And for the reason that the terms of the lease of a railway running to a foreign country, and forming the only outlet from the Province of Manitoba and the North-West Territories until the completion of the Pacific Railway, easterly from Red River, involve questions of public policy likely materially to affect the course of traffic, and the prosperity of the Dominion, and is one of those agreements, which should be laid on the Table of the Senate, as well as on that of the Commons, before becoming operative.

3rd. And for the reason that the practice of Parliament referred to in the first reason given in the Message from the House of Commons has never extended beyond contracts for the completion of Public Works, for which money voted by the Commons is in the course of being expended, other contracts having been constantly submitted for the approval of both Houses, for example :—

(a.) The transfer of the Windsor Branch Railway, Nova Scotia, to the Western Counties Railway, and for the working it in the meantime—Resolution of the Commons, 23rd May, 1873, and of the Senate of the same day—Chapter 16 of the Statutes of 1874.

(b.) The transfer of the Pictou and Truro Railway, authorized to be made to any Company constructing a Railway to the Gut of Canso, and to provide for its temporary disposition in the meantime—Resolution of the House of Commons, 19th May, 1874—Chapter 46 of the Statutes of 1877.

(c.) Contract for the Ocean Mail Service in 1869 (32 and 33 *Victoria*, Chapter 5), and that in 1873 (36 *Victoria*, Chapter 33), on account of their general bearing on the trade and business of the Dominion, were made subject to ratification by both Houses of Parliament.

4th. Mr. *Mackenzie* presented,—Return to Address of the 27th March, last; for a Statement shewing all contracts given since 1867, including those of the Intercolonial Railway, those awarded to the lowest tender, and those given to others; the difference between the price given and that stated in the lowest tender, and the reasons why the contract was not awarded to the lowest tender; and all Orders in Council relating to the same.

The amendments made by the Senate to the Bill No. 53 to provide for the better auditing of the Public Accounts, were taken into consideration, and concurred in.

The amendments made by the Senate to the Bill No. 14 further securing the Independence of Parliament, were taken into consideration.

On motion of Mr. *Laflamme*, the first amendment, page 1 line 10. Leave out from "attached" to "No" in line 12,—and the second amendment, page 1 line 13. Leave out "Clerk of the Peace," were disagreed to, for the following reasons:—

Because the independence of this House (which it is the object of the first Clause amended to secure) might be impaired if persons entitled to superannuation or retiring allowances were eligible for seats in this House, as some of such recipients might be called into active service by the Administration of the day under the penalty of abandoning their provisions or allowances.

Because it might lead to the superannuation of civil servants in order to make them eligible for Election to this House whereby the public service would be injured and the independence of the House affected

Because another class, *viz*: Judges, are entitled to retiring allowances only when suffering from bodily or mental infirmity disabling them from work or are retired under the discretionary power of the Government for reasons alleged to affect the administration of Justice. It would therefore tend to affect the independence of the Bench as well as interfere with the independence of this House.

As to the second amendment:—

Because it is contrary to sound policy to allow the Clerks of the Peace who are in several Provinces the custodians of the lists of voters which must be used at the Election of Members of the House of Commons to become Candidates.

The third amendment was agreed to, and a Message was ordered to be sent to the Senate, to acquaint them with the foregoing reasons.

The Amendments made by the Senate to the Bill No. 4 to amend the Law relating to Stamps on Promissory Notes and Bills of Exchange, were taken into consideration, and concurred in.

On motion of Mr. *Mackenzie* it was *Resolved*, That there shall be to-morrow two distinct sittings; the first to begin at 2 o'clock P.M., and end at 6 o'clock P.M.,—the second to begin at half past seven o'clock P.M., and continue until the adjournment of The House.

The House then adjourned.

The following Resolutions were adopted :—

2. *Resolved*, That towards making good the Supply granted to Her Majesty for the financial year, ending 30th June, 1879, the sum of \$19,458,856.95 cents be granted out of the Consolidated Revenue Fund of Canada.

Resolutions to be reported.

The said Resolutions were accordingly reported, read a second time, and agreed to,—and the Committee to sit again, at the second sitting of The House, this day.

Mr. Cartwright then introduced a Bill No. 80 for granting to Her Majesty certain sums of money required for defraying certain expenses of the public service, for the financial years ending respectively the 30th June, 1878, and the 30th June, 1879; and for other purposes relating to the public service; which was read the first time, and ordered for a second reading at the second sitting of The House, this day.

The House then adjourned until half past seven o'clock P.M.

7.30 P.M.

Mr. *Mackenzie* presented,—Return to the Order of The House of the 1st April, last; for a Return showing in detail all fees paid by the Department of Justice, or by any other Department, or in connection with the Intercolonial Railroad, to Counsel and Attorneys in connection with any business before the Supreme Court since its formation, and the names of the Counsel and Attorneys, and the several suits in respect of which such fees were paid.

The Bill No. 80 for granting to Her Majesty certain sums of money required for defraying certain expenses of the public service for the financial years ending respectively 30th June, 1878, and 30th June, 1879, and for other purposes relating to the public service, was read the second and a third time, and passed.

Mr. Speaker communicated the following letter, which he had received:—

GOVERNOR GENERAL'S OFFICE,
OTTAWA, 9th May, 1878.

SIR,—I have the honor to inform you, that His Excellency the Governor General will proceed to the Senate Chamber to prorogue the Session of the Dominion Parliament, on Friday, the 10th instant, at 3 o'clock P.M.

I have the honor to be, Sir,
Your most obedient Servant,

E. G. P. LITTLETON,
Governor General's Secretary.

The Honorable
The Speaker of the House of Commons.

A Message was received from the Senate, agreeing to the two following Bills, without amendment, viz.:—

No. 78. To authorize the advance of certain sums to the Province of Manitoba, in aid of the Public Schools therein; and

No. 76. To amend the Act 37 *Victoria*, Chapter 8, intituled: "An Act to impose license duties on compounders of spirits; to amend the Act respecting the Inland Revenue, and to prevent the adulteration of Food, Drink, and Drugs."

Also,—acquainting this House, that the Senate doth not insist on its second amendment to the Bill No. 14 further securing the Independence of Parliament, to which this House doth disagree,—but that they do insist on its first amendment to which this House disagrees, and for the following reasons:—

1st. Because in view of our system of Government, under which the people of the different Provinces are represented in Local Legislatures, and in general Parliament, a large number of suitable representatives is needed as compared to the educated population and it is unwise to restrict the choice of the people by declaring ineligible a class likely to present from education and knowledge of affairs, persons with strong claims to the confidence of an electorate.

2nd. Because when once a Superannuation allowance is granted under the Statute, to retired Public Officers, it becomes an indefeasable right and cannot be withheld at the discretion of Ministers of the Crown, or except for cause defined in the Statute.

3rd. Because the Superannuation Act is administered under the responsibility of Ministers of the Crown to Parliament, and they would be amenable to the censure of Parliament for any infringement of public or private rights in connection therewith.

4th. Because the tenor of Imperial Legislation of late years has been to justify the presence of retired Civil Servants in both Houses of Parliament, on account of the great public advantage to be derived from their knowledge and experience in public affairs; and no inconvenience has resulted from their liability (under any circumstances very remote) of being recalled to the Public Service.

On motion of Mr. *Laflamme*, a Message was ordered to be sent to the Senate, to acquaint their Honors, that this House doth not insist in its disagreement to the first amendment, and that it now agrees to the same.

Also,—agreeing to the two following Bills, with amendments, *viz.* :—

No. 77. For the better prevention of crimes of violence in certain parts of Canada, until the end of the next Session of Parliament. (On motion of Mr. *Laflamme*, the said amendments were taken into consideration, and concurred in).

No. 68. To amend the Act 38 *Victoria*, Chapter 11, intituled : “ An Act to establish a Supreme Court, and a Court of Exchequer for the Dominion of Canada.”

On motion of Mr. *Laflamme* it was *Resolved*, That this House doth disagree in the said amendments, for the following reasons :—

Because the first amendment by inserting the word “ highest ” will in effect destroy this Section, which was intended to remove doubts as to the provisions of the Law as it exists, respecting the Right of Appeal from the Court of final resort ;

Because the second amendment would deprive parties of the Right of Appeal to the Supreme Court, in matters wherein an appeal lies to the Privy Council—and because there seems to be no reason, why an appeal should be refused in matters relating to titles to land, annual rents, or such like matters or things, where the rights in future might be bound ; and a Message was ordered to be sent to the Senate, to acquaint them with the foregoing reasons.

The House then adjourned.

Speaker.

PRAYERS.

Mr. *Mackenzie* presented,—Return to the Order of The House of the 1st instant; for the Return of the original papers made and signed by the Deputy Heads of the different Public Departments purporting to be made in obedience to the Order of this House of the fifth day of March, 1877, as follows:—The names of persons appointed to office between the 1st of January and the 7th of November, 1873, the names of the officials whose salaries were increased during the same period; the names of those so appointed whose appointments were cancelled subsequent to the 7th of November. A statement shewing whether the positions which were filled up by those whose appointments were cancelled have remained unfilled or have been since filled up—and if so when and by whom—and whether the salaries of those officials which were increased during the period named have been since reduced or increased, and shewing the reduction or increase in each office respectively.

A Message was received from the Senate, agreeing to the Bill No. 80 for granting to Her Majesty certain sums of money required for defraying certain expenses of the public service, for the financial years ending respectively the 30th June, 1878 and the 30th June, 1879, and for other purposes relating to the public service, without amendment.

Also.—acquainting this House that the Senate doth insist upon the amendments made to the Bill No. 68 to amend the Act 38 *Victoria*, Chapter 11, intituled: “An Act to establish a Supreme Court and a Court of Exchequer for the Dominion of Canada,” to which this House disagreed, for the following reason:—

“As to the first amendment:—

“That it is unwise to allow an appeal, save from the Highest Court of final resort in each Province, and that the word “Highest” was inserted by the Senate’s first amendment to prevent doubt on that point, and maintain the right of appeal as it now exists.

“As to the second amendment:—

“That the words struck out apply to cases involving the title to, or questions relating to, the laws of immovables in the Province of Quebec, laws derived from France which are not familiar to the majority of the members of the Supreme Court, nor is the French language, and that an appeal to Her Majesty’s Privy Council from the Courts of their own Province affords in both respects a satisfactory tribunal to the people of Lower Canada; and that it is unwise to deprive them of the right they now enjoy in this respect.”

Sir *Albert J. Smith* presented,—Return to Address of the 1st April, last; for copies of all correspondence between the Government and Sir *Hugh Allan* and the Montreal Telegraph Company, in relation to the construction of a Telegraph Line, between Matane and Fox River.

A Message was received from His Excellency the Governor General, desiring the immediate attendance of The House in the Senate Chamber.

Accordingly Mr. Speaker, with The House, went to the Senate Chamber;—when His Excellency was pleased to give, in Her Majesty's name, the Royal Assent to the following Bills, *viz* :—

The Speaker of the House of Commons then said :—

MAY IT PLEASE YOUR EXCELLENCY,—

The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

In the name of the Commons, I present to Your Excellency a Bill intituled : “ An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1878, and the 30th of June, 1879, and for other purposes relating to the Public Service,” to which I humbly request Your Excellency’s assent.

To this Bill the Royal Assent was signified in the following words :—

“ In Her Majesty’s name, His Excellency the Governor General thanks Her loyal subjects, accepts their benevolence, and assents to this Bill.”

After which His Excellency the Governor General was pleased to reserve the following Bills for the signification of Her Majesty’s pleasure thereon :—

An Act to repeal Section twenty-three of “ The Merchant Shipping Act, 1876,” as to Ships in Canadian Waters.

An Act for the relief of *Hugh Hunter*.

An Act for the relief of *Victoria Elizabeth Lyon*.

An Act for the relief of *George Frothingham Johnston*.

His Excellency the Governor General was then pleased to address the two Houses in the following Speech :—

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I am glad to be able to relieve you from further attendance in Parliament after a somewhat long and laborious Session.

I shall take the necessary steps, at an early day after the close of the financial year, to give effect to the measure you have passed for the better auditing of the Public Accounts.

I shall call the attention of Her Majesty’s Government to your Address praying that all of British America, except Newfoundland, shall be, by imperial action, declared to be within the Dominion of Canada.

I rejoice that during the term of my administration this final step to consolidate British interests on the continent of America has been taken with so much unanimity, and that henceforth the Dominion Government will, under Her Majesty, exercise undisputed sway over the northern half of this continent.

I am happy to be able to state that, pending the final settlement of the question of boundary, a conventional line has been adopted by my Government and the Government of the United States, between Alaska and British Columbia on the Stickine River.

The large sums you have appropriated for the great works of internal improvement will be expended with the most rigid regard to economy, and in the expectation that the principal canals under construction may be nearly completed within the next financial year.

The settlement of Manitoba and the North-West Territories has been proceeding this year with unexampled rapidity, and if the efforts of my Government to obtain a railway connection with Winnipeg at a very early day should be successful, I anticipate, next year, a still larger increase to the population.

It is specially gratifying to find so many Canadians who had in former years emigrated to the United States now returning to the newly organized territories of their native land.

Gentlemen of the House of Commons :

I thank you for the supplies which you have granted for the various public services.

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

Nothing could have given me more gratification than the joint Address with which you have honored me on the eve of my departure.

My interest in Canada shall not cease when my mission as Her Majesty's Viceroy shall have terminated, and I am glad to know that you have taken so favourable a view of my efforts to fittingly represent our most gracious Queen in this the most important of Her Majesty's Colonial Possessions.

I now bid you farewell, and earnestly trust you may find in the future the manifold blessings which I shall ever pray may be continually showered upon you.

The Parliament of the Dominion of Canada was then prorogued to Wednesday, the 19th June, next.

Speaker.
