The Raiders Must Be Subverted!

The World this morning does not propose to discuss the details of the decision of the privy council in England against the Dominion of Ontario and in favor of the Toronto Electric Light Company. The decision in substance allows the Electric Light Company of Toronto to work under a Dominion charter, to override the rights of any municipality in Ontario to control their own streets and to any who shall exercise public service franchises within its bounds.

This is the broad result and it is absolutely against municipal rights and provincial rights.

And we have to thank the professed Liberal, Sir Wilfrid Laurier, backed by The Toronto Globe and nearly all the Liberal papers in Ontario and the Liberal party for this state of affairs; for when public service corporations of this kind were first created they were created under provincial law which compelled them to respect municipal rights and which kept them absolutely under the jurisdiction of provincial authority. Provincial authority and municipal control proved irksome to them and so clever lawyers were got to advise the promoters of these companies that if they transferred their existing rights into a company chartered under Dominion law they would escape provincial control, and they would be no more subject to municipal regulation. And these clever lawyers were also able to persuade the Laurier parliament to give the companies such Dominion charters—that they had been expressly created for the purpose of exercising municipal and provincial franchises. By the touch of the magic wand at Ottawa these public service corporations doing business in municipalities passed from provincial to federal control.

As we said, we have to thank the Liberal party, Sir Wilfrid Laurier and The Toronto Globe for these things. Had The Globe ever put in a protest they might not have happened. And that is the situation to-day.

But is there any remedy? Undoubtedly there is. Sir Wilfrid Laurier is no longer in power. The Conservatives are in power at Ottawa and they have professed themselves to be friendly to public rights, to provincial rights and municipal rights. A reform can be effected in several ways.

The shortest, quickest and most effective way is for the Dominion parliament to pass an act to the following effect: That notwithstanding any powers or privileges heretofore conferred on any company to do a public service within municipal lines by the federal parliament, the exercise of such rights so conferred shall be subject to the rights of the provinces and the municipalities as if said powers had been conferred by such provincial authority.

In other words, then, even if the Dominion has chartered these companies, they must only exercise their powers as they would exercise them if they received them from the provinces.

This is a quick and speedy cure, but there are many others. For instance, a company that was created by the province and then put itself out of control of the province by taking a Dominion charter, is, to all effects and purposes, an outlaw and in a state of anarchy. And it is a very easy matter for a province, which possesses sovereign rights in the way of taxation, to tax such outlaw companies and such defiant companies, companies so disregardful as they are of public rights, as the legislature may see fit to impose.

Sir James Whitney can get remedial legislation at Ottawa, and he ought to press for it; and he can regulate all these adventurers by the power of taxation which he and the legislature possess. The man or company who tries to beat down provincial rights and municipal rights by way of federal legislation is ill-advised and will not succeed. They can never succeed against the public and they must not be allowed to. The fight is only beginning.

GANGSTERS AWE WITNESS WHO RETRACTS TESTIMONY

Dramatic Scenes in Coroner's Court When "John the Barber" Seeks to Repudiate Statements Damaging to Webber, Perjury Charge Resulting—Detective Lieutenants Ignore Request to Appear.

NEW YORK, July 24.—(Can. Press.) Fear of revenge at the hands of East Side gangsters to-day temporarily blocked the efforts of District Attorney Whitman to draw closer the lines about the men who assassinated Herman Rosenthal eight days ago. Apparently awed by the presence of gangsters in the coroner's court, John Reiser, known to the sporting fraternity as "John the Barber," retracted at the coroner's examination a statement which he made a few minutes earlier to Mr. Whitman. Reiser was later arrested on a charge of perjury.

The coroner's hearing was in the nature of an examination of "Bridgie" Webber and Sam Paul, charged with complicity in the murder. Having failed to get desired statements from the witness, District Attorney Whitman secured an adjournment of Webber and Paul's examination for 48 hours.

Reiser was the first witness called. He declared that he had seen Webber in Broadway near the scene of the murder, after Rosenthal's slaying.

Witness on the Rack. "Was he running?" asked Mrs. Whitman. "Yes," Reiser replied.

"Did you see him ten minutes ago that he was in your own words, running like hell?" "I was excited and don't remember," said Reiser.

"Did you tell me that in my office, in the presence of Mr. Moss, that you were afraid to tell of the case? You know the gang you were against and were afraid you would be killed?" asked Mr. Whitman.

"No," replied the witness, in a frightened manner. "No."

Mr. Whitman then placed Asst. Dist. Attorney Moss on the stand. Mr. Moss said that just before the hearing Reiser had told him and Mr. Whitman that he came from the subway at Times-square about 2 o'clock, and in front of the Cadillac saw Webber "run-

"No Battleships," Say Democrats

WASHINGTON, July 24.—(Can. Press.)—Democrats of the house in caucus to-night voted 70 to 52, not to recede from their "no battleship" program in the naval appropriation bill. A determined effort was made to have the caucus approve a compromise with the senate whereby the house would agree to the construction of one battleship.

CATTLE BUYER DROPPED DEAD

Andrew Shortreed, One of the Best Known Dealers in Ontario, Died at Fergus.

Andrew Shortreed, one of the best-known cattle men in Ontario, having been engaged in the business practically all his life, dropped dead yesterday morning at his home in Fergus, as the result of an attack of heart failure, following a short illness.

Mr. Shortreed a few years ago was engaged as a cattle buyer in the firm of Black & Shortreed of Toronto, and in this way became well acquainted with nearly all the cattle men in the province, as well as a large number of the farmers. He was past his 65th year, but had enjoyed good health until about two weeks ago, when he was confined to his home for a few days. Yesterday he started for a short walk when the fatal attack came.

A number of the cattle men who deal at the Union Stock Yards, where Mr. Shortreed was particularly well known, will attend the funeral.

CANADA TO GIVE SUBSTANTIAL AID

Hon. J. D. Hazen Says So in Guarded Manner—No Partnership Without a Voice.

LONDON, July 23.—(C.A.P.)—Replying to a deputation of the Maritime League yesterday, Hon. J. O. Hazen declared the question of protection to trade routes in time of war by the conversion of merchant ships into cruisers had not been overlooked by the Canadian Government and, further, he was sure he revealed no confidence by saying this important question had been the subject of negotiations by the admiralty.

"Speaking of our mission here, I think there is a very strong feeling among the people and the electorate of Canada in favor of Canada doing something that may be regarded as fairly substantial towards the defence of the empire. We realize we owe a great deal to the protection of the British navy. We realize our existence as a Dominion in very large measure depends on it at the present time. It would be premature and improper for me to say what will be the result of our visit here."

Referring to the question of a permanent naval policy, Hon. Mr. Hazen said if the Dominion participated she must be adequately represented at the councils. The feeling in Canada is that there can be no partnership without a voice in the management of affairs.

INDIAN THIEF GIVEN 5 YEARS.

ST. CATHARINES, July 24.—(Special.)—A sentence of five years in Kingston Penitentiary was imposed on an Indian, Daniel Dockstader, by Judge Carman to-day. The Indian was guilty of entering cottages at Grimsby Beach last December and stealing a large quantity of household articles.

The judge severely sentenced the prisoner, but allowed Mary Greene, accused on same charge, her liberty.

May Throw Out Darrow Trial.

LOS ANGELES, July 24.—(Can. Press.)—A ministerial under sensational circumstances is said to be imminent in the case of Clarence S. Darrow, for alleged jury bribing. Attorneys for the defence are said to have charged in a conference with Judge Hutton to-day that the illness of Juror L. A. Leavitt was feigned and asked for an immediate investigation by the court.

SPEND MILLIONS FOR FEDERAL BUILDINGS

Hon. F. D. Monk Says Toronto Postoffice is a Disgrace to the City, and Favors Large Expenditure to Provide for Fifty Years' Growth, With Federal Square.

That it is necessary to spend millions on the public buildings in Toronto in order to make them adequate for the needs of the city for 50 years, and that there should be a federal square around which all the buildings would be grouped, were two statements made to The World last evening by the Hon. F. D. Monk, minister of public works, who was in the city for a short time before returning to Ottawa.

"I was in the postoffice to-day," said Mr. Monk, "and it is a disgrace to the city. I am strongly in favor of spending millions on a federal square and buildings where accommodation would be provided for 50 years to come, and where the buildings could be seen and be easy of access. A great city like Toronto should have its public buildings so centered that they could be seen clearly and would be accessible from all directions."

Mr. Monk stated it was very regrettable that a city of Toronto's size should hesitate at the expenditure of millions of dollars on the harbor.

Harbor is Neglected. "It is a disgrace to your beautiful city, a great commercial center should have the back of the harbor accommodated and such poor access as I find in your harbor," continued the minister.

"I am glad to see that you are taking advantage of it. Why, the city should spend millions on such a harbor."

Look at our American neighbors. I am myself a Canadian patriot, but I have to admire the fine ports and harbors that they have over here. We also have the haulage contract for the Hamilton and Erie docks, accommodation, and everything you could desire. Here you have nothing like that. My' you should spend millions on Toronto's harbor."

While at Port Stanley we had to spend an hour and a half before we could get in. There was only one light and it was so low that you could not tell where to enter."

Asked as to the result of the interview with the civic officials, the minister declared they did not hold a conference, but both parties had agreed on the lines Toronto should follow in making the federal square and a conference, will be held later in Ottawa.

ROBBER FAILED IN TWO PLACES

Ernest McEvoy Broke Two Windows, But Was Captured After Short Chase by Policeman Hill.

A double attempt at robbery last night by Ernest McEvoy, 59 Sackville street, a young man who claims to be a railway switchman, ended in his being latched up shortly afterwards in No. 1 police station. He attempted to break into the premises of the United Photo Supply Company, Limited, 19 East Adelaide street, and the Wreyford Woolen Company's premises, 38 West King street, but failed in both cases.

At 8 o'clock last night the caretaker of the Wreyford Company called to see if the door was locked. He noticed a man break the glass in the front door and place his hand inside to work the lock.

At 10 o'clock Constable Hill saw McEvoy with his hand thru the glass of the photo company's door. McEvoy evidently noticed the constable at the same time. He ran along Adelaide street. This time, however, he was not successful in his getting away, the constable overtaking him after chasing him about a block.

In his hurry to get away, McEvoy dropped a bottle. After the arrest he was taken to the station, where he positively identified McEvoy as the man who had attempted the earlier robbery.

Kingston Strike Petering Out.

KINGSTON, July 24.—(Special.)—Everything points to a speedy settlement in the painters' and paperhangers' strike, on since July 1. Some of the men are sick of the strike, and say they will return to work if it is not settled by the committee soon.

Old Country Cricket

The World has pleasure in informing its readers that commencing Monday, July 23, and every Monday thereafter, a weekly column will appear devoted solely to English county and international cricket. The writer has for many years been in close touch with the cricket world, and as recently as May, 1912, was engaged on the English press reporting county and club cricket.

OSHAWA WILL BE FIRST TO BENEFIT BY NEW LINE NOW BUILDING BY C.P.R.

Hundreds of Men Are Employed on Construction Work East of Toronto, and Towns Along the Lake Shore Will Be Benefited by Canadian Pacific Competition.

The Campbellford, Lake Ontario and Western Railway is the parliamentary name of the new main line of the Canadian Pacific from Toronto to Montreal. It branches off from the existing line about half a mile east of Agincourt (12 miles east of Union Station) and proceeds due east. From a point three miles east of Agincourt and one mile east of Malvern, the new line runs north and almost parallel to the Canadian Northern as far as Cherrywood (Pickering Township), the average distance between the two tracks being 150 feet. The new track crosses the C. N. R. at Dixie Creek, one and a half miles east of Cherrywood (Pickering Township), and runs parallel to the shore as far as Whitby. Proceeding further east the line goes through Oshawa, crosses the G. T. R. west of Cobourg, then to Belleville, and finally joins the existing C. P. R. track at Glenora, west of Perth, a total distance of 184 miles.

Chief Contractors. The chief contractors are the Dominion Construction Co., formerly known as the Toronto Construction Co., who have under portions of the work to Contractors Daly and Dickinson & Burns. Between Agincourt and a point six miles east of Oshawa, the firm of Dickinson & Burns are entrusted with the work of concrete construction, and between Agincourt and Cherrywood there will be 40,000 cubic feet of concrete. The material for this will be obtained mostly from Belleville, also large quantities of gravel are being obtained from local rivers and gravels pits by Contractor George Little, who also has the haulage contract for the Agincourt section. About 900 yards of temporary track have been laid from a point half a mile east of Agincourt station, and by Monday next it will have served its purpose for bringing out the steam shovel, which will be accompanied by a gang of 75 men. These will occupy a camp near the existing one at Cedar Grove, while the

steam shovel gang on the Whitby section will occupy a camp there and new gangs will be placed on the job, so that the section from Agincourt to Whitby may be completed by Christmas, 1912.

Oshawa Benefits. And it may be that the road will be completed not only to Whitby, but to Oshawa, a few miles further east, by the end of this year. And Oshawa will be the place east of Toronto that will first feel the benefit of Canadian Pacific competition and the development that comes with connection with our great transcontinental line. Oshawa seems destined to be one of the largest manufacturing points east of Toronto and the Canadian Pacific is especially anxious to get in touch with that place, and to be a factor in changing it from a town into a large manufacturing city.

Eleven Bridges. Along this part of the road there will be no less than 11 bridges, five of which will cross roads and six over streams, including the Big and Little Rouge, Dixie Creek and Willcott's Creek. The bridge at the last named creek will be 27 feet high, while the one at Ruffin's Creek, east of Whitby, will be 110 feet high and 900 feet long.

"The engineering difficulties to be overcome are, therefore, not light," said one of the C. P. R. engineers to this World, "but we have a good staff. The new track will eventually be a double track and will shorten the distance between Toronto and Montreal, while it will also possess the great advantage of having an easier grade. About 5000 men are already engaged on the whole line at various points, and as soon as the right of way is acquired at any particular section, the work of construction is pushed on."

For the convenience of their employees the Dominion Construction Co. have established camps at Cedar Grove, Cherrywood and Greenburn, and early railway pioneers would be surprised at the excellent arrangements made for the men's comfort.

GRANT MADE TO RETIRING PASTOR CANOEIST LOSES LIFE IN RAPIDS

Committee to Experiment in Mission Work in Parliament Street District and Erect New Building. Alex. Scott Drowned at Soo While Companion Escaped—Victim Was Son of Lake Captain.

Rev. Christopher Burnett, who has resigned the pastorate of Parliament street Baptist Church, to facilitate the union with Jarvis street Church, has been granted \$500 as a mark of appreciation of his services in promoting the union.

Mission work is to be carried on in the Parliament street Church, and the Sunback street building by a committee to develop a clear understanding of the kind of work and building needed in the district.

INSIDE VILLAGE FOR 68 YEARS

BERLIN, July 24.—(Special.)—Taken to the Village of Wellesley when a bride and never having been away since up to the present, Mrs. Maria Shelter, aged and feeble, has been brought to Berlin and placed in the House of Refuge. She has reached the age of 88 years, and was a resident of Wellesley Village for about 68 years. She is of German birth and has never known any other tongue.

Mrs. Shelter has never during the 68 years of wedded life, left the limits of the village. She with her husband's wife lived in a small cottage until his death five years ago. Since then she has lived alone.

Mrs. Shelter in the past 68 years of her life has never seen a train nor a railway track. She had not seen, up to her coming to Berlin, any other house than those in the village, or other faces than those visiting or residing in that village.

Mrs. Shelter owns some property in the village, which will provide ample funds for her support during the remainder of her life, and her simple requirements will be supplied at the county house.

MINERS DROWN AS RESULT OF CLOUDBURST

Thirteen Perished in Flooded Mine Near Uniontown, Pa., and Others Very Narrowly Escaped—Two Thousand People Marooned Near Jeanette.

UNIONTOWN, Pa., July 24.—(Can. Press.)—Caught like rats in a trap when water rushed into the manway of Superba No. 2 mine at Evans station, three miles north of Uniontown, this afternoon, following a cloudburst, thirteen men were drowned and thirty-seven escaped after a most harrowing experience. The men were drowned about 400 feet from the mouth of the mines, their only avenue of escape. All but one of the victims were married and had large families.

Over 20 children are deprived of their bread winners by one of the worst catastrophes known to this region. The men who escaped were forced to half swim and half walk to the pit mouth thru water ranging in depth from their waists to their necks. The majority were knocked down by timbers sent down the mine with great velocity in the rising current. Several were being carried back into the mine to certain death when rescued by companions who risked their lives.

Officials of the Superba Company say that it will take at least sixty days to clear the mine of water, and until that time bodies must remain in the water. Superintendent J. W. Buttermore was the first man to see the high water start in the manway. He raised the alarm and all the men on the outside rushed into the mine yelling joyfully as they went. In that manner more than half of the miners were saved.

Women Crazed With Grief. The wives and families of the miners and drivers in the mines rushed to a large hole made by the rushing water in the manhole and frantically threw sticks, stones, bushes, poles and whatever other timber they could find into the water to stop its rush into the mines, where their loved ones were earning their daily bread. Falling in that they rushed to the mouth of the mine and would have continued their mad dash into the water in the mine had they not been stopped that anticipated persons who guarded that entrance.

Destruction Railway Tracks. The water rose so quickly following the cloudburst that it practically destroyed all railroad and street railways in Fayette County.

A dam built around the manway a day or two ago, when the water was high, was washed away and the waters rushed into the mine so rapidly that the pit was filled in less than 30 minutes. It was reported to-night that three men had lost their lives in the mine No. 2 mine of the H. C. Brick Coke Co., about a half mile from Superba mine. About 100 were caught there, but all escaped but three.

Toronto Cops Make Fine Showing In Montreal Games

MONTREAL, July 24.—Toronto athletes made a fine showing at the police games here to-day, the small detachment from the Ontario city quite outclassing the pick of the Montreal force.

J. A. O'Neill was the particular star. He tried off the 35-pound weight, high throw with 11 feet 5 inches, the standing broad jump with 5 feet 6 inches and the hurdle race; took second in the hundred yards, the discus, the running broad step and jump, and the running broad jump, and captured thirds in the high jump, the 16-pound shot put, the 220 and the quarter.

McCart, Toronto, won the high jump and the tossing the caber, and took seconds in the 16-pound hammer, the pole vault, throwing the 56-pound weight for distance and the half mile.

Bowie of Toronto, won the running broad step and jump and the running broad jump, and took seconds in the 16-pound shot put and the hurdles, and third in the 100 yards and the discus.

Z. Desmarreau of Montreal captured the 16-pound shot put, the discus, the 16-pound hammer and the 35-pound weight for distance and second place in the other weight events.

BOYS PICK FRUIT.

Commissioner Starr is sending juvenile delinquents on parole to pick fruit in the Niagara district. So far the result is encouraging.

Sweeping Reductions in Hats.

You can buy a straw hat to-day at Dineen's at about the lowest figure in the city. Considering the quality of the goods, there are some excellent lines of fine straw saleros in plain or notched effects, regular price \$2, for \$1, and other lines regular \$2, \$2.50 and \$4, for \$2. Panamas in unusual high-grade styles, \$2.50 and \$4, for \$2. Dineen's showrooms are at 140 Yonge-street.

TORONTO BONDS NOT FLOATED TEMPORARY LOAN SUCCEEDED

Mayor Geary and City Treasurer Coady Failed in London To Sell Six Million Dollars' Worth of Bonds, But Arranged To Issue Treasury Bonds For Short Term Loans.

News that Mayor Geary and City Treasurer Coady were unsuccessful in their mission to London to dispose of the city's four per cent debenture bonds reached Toronto yesterday, and the intelligence caused considerable embarrassment at the city hall, no great surprise was in evidence. Opinions were freely expressed that Toronto had made a mistake in attempting to raise money in view of the present condition of the British market. The report that it would be necessary to dispose of the issue at a figure of about 31 was considered quite probable, but this situation, it is claimed, indicates that the city is only the victim of circumstances. On their present trip the mayor and city treasurer proposed to raise \$5,747,971 and in the event of failure to obtain reasonable terms, it is likely that the money will be obtained on some temporary arrangement.

The city, however, has been censured in the first place for attempting to obtain money under the present conditions, and again for borrowing so liberally. It has been pointed out that the fate of the present debentures was inevitable in view of the recent experience of other cities and corporations, and that if more foresight had been used the city would never have attempted to dispose of 36-month bonds this time of year.

Borrowing too much. Acting Mayor Church and other members of the city council account for the failure as due to some extent, because Toronto's debentures do not offer the same security as formerly. The acting mayor claims that the action is partially responsible for this. Again he says the city has been borrowing too much money of late. He points out that Toronto has now a larger debt than Detroit or Cleveland, the both these cities have

larger populations. All annexed territories, he claims, should be made to provide for their improvement, such as schools and fire halls, as is the system in different parts of the United States.

Raise Some Money.
In spite of the hostility of the market, however, it is believed that Mayor Geary and City Treasurer Coady will hardly return without raising the money by some means. It is probable that treasury bills will be issued to provide for the temporary emergency, and if such an arrangement is made the bonds will likely be left in London as collateral security. These bills are redeemable yearly for short term loans, and if the market does not improve they are easily renewable in the old country.

Warned the Council.
Last year the city council was authorized to issue debentures for \$2,300,000, but no attempt was made to dispose of these before this summer. Had Mr. Coady been sent to England last spring a much better arrangement could have been made. The city treasurer, however, has continually warned the council that the debenture debt was growing too large, and again he censured the council for what he claimed was impairing the city's credit by handling over the harbor property to a commission.

The amounts covered by debentures are as follows:
Trunk sewer \$2,400,000
Public school buildings 489,231
Western Hospital grant 224,400
Storm overflow sewers 51,282
Parks and playgrounds 153,300
Public schools 618,492
Waterworks improvements 1,538,901
(two lots) 1,538,901
Total \$6,574,976
All these debentures mature on July 1, 1948, or 36 years hence.
For Information,
Mayor Henry L. Jost of Kansas

MRS. A. PARKES IS DISCHARGED

Woman Charged With At- tempting to Poison Children Was Given Her Liberty— Money Dispute.

North Toronto Police Court was well filled last night when Magistrate Clay dismissed the serious poisoning charge against Mrs. Alice Parkes of Glenwood-avenue, and afterwards settled a money dispute between two Germans, aided by two interpreters, one of whom was not sworn in.

Mrs. Alice Parkes was brought up on remand, charged with having administered rat poison on bread to the three children, Esther, Alice and Robert, of Richard Whittaker, a neighbor, 21 C. Macdonald appeared for Mrs. Parkes, who is a slightly built woman between 30 and 40 years old, and she appeared to feel her position very keenly when Magistrate Clay asked if any additional witnesses were present for the prosecution.

Magistrate Clay discharged Mrs. Parkes, who burst into tears as her husband embraced her and they left the court together.

August Quack sued Samuel August Frank for \$3.70 for work done. This work included such a variety of jobs as planting vegetables, carting manure, and repairing stairs. The defendant responded to Mr. Quack's claim by putting in a counter claim for \$9.90, and said that he could bring a witness from Berlin if the court would grant him eight days' respite. Judgment was given for the plaintiff.

Admissions of Arrested "Gun- men" Show Rose, Becker's Associate, Organized Mur- derous Expedition.

NEW YORK, July 24.—(Can. Press.)—The trail that leads to the real conspirators who framed the plot to slay Herman Rosenthal, the gambler, is slowly clearing, and District Attorney Whitman believes to-day that from the bits of evidence he has obtained he will be able to show that the "police system" and even those higher up were behind the plot to silence Rosenthal before he could make further gambling revelations.

From Harry Valon, gambler, and one of the occupants of the "murder car," the police prosecutor has learned further facts that implicate "Bald Jack" Rose, close friend of Police Lieutenant Becker, as the one who hired Becker's closest friend, and charged that Rose was the lieutenant's gambling house collector.

THE GREATEST SCIENTIFIC DISCOVERY OF THE AGE BLOOD-POISON AND ALL ITS TER- RIBLE COMPLICATIONS CAN NOW BE CURED.

The efficacy of this marvelous specific for Blood-Poison, Syphilis, constitutional or acquired—has been endorsed by the Rockefeller Institute, the leading hospitals and highest Medical Authorities of America and Europe. Every man and woman suffering from Blood-Poison, or any of its effects, such as eye, ear, mouth, throat, tongue, skin troubles, etc., ought to know that with the aid of this marvelous remedy they are now curable.

STORE YOUR Furniture or Merchandise at THE SCHOELLKOPF STORAGE PLANT 199 EASTERN AVE. Private Railroad Switch.

Willie Bragg, aged nine years, will be committed to the Victoria Industrial School this morning by the county magistrate. Two weeks ago the lad's father, Thomas Bragg, was summoned on a charge of ill-treating the boy, who had marks and bruises on his body. The father claimed that he was unable to control his son. The magistrate allowed him to take the boy for a week on trial.

At midnight on Monday Willie was found by The World on a street corner in the east end. He was very hungry and cold. The reporter took the little fellow to the vicinity of his home and then left him, after obtaining the promise that he would go at once to his father's house. The boy had been away for some days. The following morning the parents complained to County Constable George Simpson, and he declared that the only course left was to place the boy in the Victoria Industrial School.

Russell Model H. RUNABOUT A 4 cylinder car. It is in first class shape. One of the neatest machines on the road. A bargain at the price. Price \$500 Russell Motor Car Co. LIMITED 100 Richmond West

HOF BRAU LIQUID EXTRACT OF MALT. The most invigorating preparation of its kind ever introduced to help and sustain the invalid or the athlete. W. H. LEE, Chemist, Toronto. Canadian Agent. MANUFACTURED BY The Reinhardt Salvador Brewery Limited, Toronto.

ANOTHER POLICE COURT. At the request of Magistrate Denison, Property Commissioner Chisholm will take up the matter of securing an additional room in the city hall in which an overflow police court could be held. The magistrate contends that the present court is very much overcrowded. It is thought likely that the non-jury court room, which is not used during the summer months, will be used for this purpose.

SUPERVISED PLAYGROUNDS

Children Will Give Two Demonstra- tions in September.

At the meeting of the Playgrounds Association in the city hall yesterday it was announced by George A. Smith, the general supervisor, that an exhibition of the work undertaken by that body would be held in the McCormick grounds on September 21, when entertainment will be provided by the children, such as marionettes, dances and other features. The association will also hold a field day on September 14, when it is expected that 800 juvenile athletes will compete in numerous athletic events.

In his monthly report, Mr. Smith stated that the average daily attendance of the three playgrounds maintained by the association had now reached 1123. Children were also being taught how to swim at the Beach, Fisherman's Island, and Sunnyside, besides in the tanks at the Broadview and West End Y.M.C.A. The work, he

FRESH AIR CAMP FOR POOR CHILDREN AT CLARKSON'S.

Under the direction of Lieut.-Col. Turner, the officers of the Salvation Army conducted the third batch of poor children to the fresh air camp at Clarkson's yesterday. The employment of several new features was resorted to as follows:

After the inspection of the children as to general health, etc., by Dr. Conboy, who has given his services gratuitously for this purpose, a large motor bus was kindly loaned for the occasion by Mr. J. Verrill, who personally conducted the party to the foot of York-st., where they embarked on several motor launches for the trip across the city, including R. Y. Eaton and Henry Simpson, gave the free use of their launches for this purpose, and also on the day was a red letter one in the department of fresh air for poor children.

On the return journey, the children who have been enjoying the free entertainment of the Salvation Army for the past two weeks, were brought back to the city, with every indication of improved health and enthusiasm on account of their two weeks at the camp.

The next party will be leaving on Aug. 6. If there are any poor children in your neighborhood who have had an outing this season, kindly communicate with the nearest Salvation Army corps, or direct to the Salvation Army Temple, Albert-st. All applications will be investigated and dealt with as the case requires.

Disastrous Floods in Wisconsin.
WAUSAU, Wis., July 24.—Flood damage estimated at \$1,000,000 was wrought to-day from the breaking of two dams on the Wisconsin River, north of Wausau.

VALUABLE LICENSE

Commissioners Asked to Approve Sale at \$45,000.

Forty-five thousand dollars is the price asked by Albert Harris, who has a liquor store on Broadview-avenue, for his license. He will get it, too, if the board of license commissioners to-day to approve the transfer. John M. Given is the other party to the deal.

There are only two liquor stores east of Broadview, and the board of license commissioners is expected to approve the transfer. John M. Given is the other party to the deal.

Magnetawan River.
The Magnetawan River district is an ideal place for tourists, and it is putting it mild to say it is one of the best fishing places in all Ontario on the continent. During the season beauties unveiled to the summer tourists stand fresh in all directions. The yellow and green leaves of the white birch and the brilliant foliage of the maple are beyond expression.

The man who wants the pleasure of motor hotels can be satisfied here, as well as the man with small means and with whom economy is an object. There is no more enjoyment can be had at so small an outlay. The Grand Trunk Railway system's summer train service places the district within easy reach of the busy man, who cannot afford to remain more than a day or two, and far enough away from work outside of the city to seek a change of scene for a longer time. Train leaving Toronto 2.20 a.m. daily carries first-class coaches and electric-lighted Pullman sleeping cars, making direct connection with steamer for points on Magnetawan River.

Fast express leaving Toronto 10.15 a.m. daily except Sunday carries first-class coaches and parlor-library-buffet car and dining car, making direct connection with steamer for points on Magnetawan River.

Call at city ticket office of the Grand Trunk, north-west corner King and Yonge-sts. (phone Main 4209) for tickets, illustrated folders and information.

GUARDING CABINET MINISTERS.

NEW YORK, July 24.—A cable from London to-day says: "The cabinet ministers, their families and homes are being guarded by the district constabulary. It is believed that an unprecedented vigorous watch for women demonstrators is planned."

"The Lady Buccaneers."
Harry M. Strous offering, the "Lady Buccaneers," which is to start the theatrical balling at the Star Theatre, starting with matinee Saturday, will have in its company John C. Hanson, Harry Stepper, Nat Becker, Wm. Harris, Dick Maston, Daisy Godfree, Gertrude Ralston and forty others, who will be seen in a furiously funny vehicle named "The Boy."

The face abounds in amusing comedy situations and pointed lines, and is generally conceded to be one of the best things of the show. The old portion of the bill is claimed to be exceptionally strong, and includes the well known Hebrew singer, Miss Annie Goddie, Becker and Adams, and the wonderful Larodes, seven European artists will present a series of classic poses that are claimed to be both beautiful and sensational in the extreme. There are no finer forms of the world than the models and nothing more costly has ever been seen on the American stage.

The finale of the show is called "A Dry Goods Store." It is right up to the minute with new songs, dances and funny business, and furnishes plenty of action for the pretty chorus girls. Those splendid work has earned for them the title of "World's best."

COAL SITUATION

Railway Officials Say Tie-Up Will Soon Be Broken.

Grand Trunk officials yesterday explained the coal congestion at Black Rock by the fact that their motive power is at present concentrated at the Sarnia Tunnel, drawing ore which has been shipped to that point by water. No more engines were expected from the Pennsylvania road yesterday, and the Grand Trunk men were confident that the tie-up would be a thing of the past within a very few days.

One Toronto coal dealer said that there was not at present in the bins of the Toronto firms one-quarter the amount on hand at this time last year. The general consensus of opinion seems to point to the conclusion that the crisis is approaching, and the situation is by no means acute as yet.

CO NNAUGHTS GO A'SAILING.

QUEBEC, July 24.—The Duke and Duchess of Connaught, with Princess Patricia and party, left at 5 a.m. for Earl Grey en route for the maritime provinces.

\$10,000 STAKE TO QUEENWORTHY

But Judges' Placing in Feature Race at Detroit is Greeted With Hoots and Jeers.

DETROIT, July 24.—After five fiercely-fought heats, in the first four of which a different horse finished in front each time, Queenworthy, owned and driven by Thomas W. Murphy of Poughkeepsie, N. Y., was declared winner of the Merchants and Manufacturers' \$10,000 Stake for 2.24 class trotters, the chief attraction of the Grand Circuit program at the State Fair Grounds this afternoon. No starter was able to capture three of the five heats raced. Queenworthy having the best standing at the end of the race, and received the major portion of the purse.

In both the first and fifth heats, the decision of the judges in placing Murphy's mare in front was met with hoots and jeers from the stands. The Wanderer seemed to have won by half a length in the first heat, and the crowd refused to be satisfied with the official verdict.

Northern C. C. A. Regatta.
OTTAWA, July 24.—The postponed Northern C. C. A. regatta will take place here on Saturday afternoon. Rough water caused the meet to be abandoned last Saturday and the Ottawa Canoe Club wished to have it held under their auspices this Saturday, but the Britannia Club refused to allow this and they will hold it again on Lake Deschambault on Saturday. The entry list is the largest in the history of the regatta. The Ottawa canoeists will have a record-breaking list of entries for the C. C. A. meet at Toronto.

AT THE BALL GAME NEVER FAIL TO CALL FOR STERLING CHILL-PROOF ALE

After the strenuous exertions of rooting for the home team, visit the Buffet near the Grand Stand Entrance and split a bottle of delicious, invigorating, sparkling **STERLING ALE**

Insist on having it cold—it is chill-proof and free from sediment. Its finer qualities are brought out when kept on ice.

Remember the name—STERLING—the new, light, palatable, cooling brew. When you're hot and tired it is STERLING ALE that touches the right spot.

INSPECTION INVITED

Brewed and bottled in the most sanitary and up-to-date plant in Canada by **REINHARDT'S OF TORONTO**

Otlo Wins Feature From Fatherola, 1 to 1

Second Choices Have the Call at King Edward Park Race Track.

MONTREAL, July 24.—Second choices had the call at King Edward Park today, winning four of the six races, the other two going to the favorites. Otlo beat Fatherola, the even money choice, in the fourth race, the classic affair of the day.

SIXTH RACE—Maiden 2-year-olds, 4 furlongs:
1. I See It, 112 (Mondon), 7 to 10, 3 to 1 and out.
2. Woola Mason, 109 (Warrington), 6 to 1, 2 to 1 and even.
3. WHL Lassic, 107 (McArdle), 3 to 1, even and 1 to 2.
Time 1:01. Silverine Wells, Sun Guide and Idelle also ran.

SEVENTH RACE—Three-year-olds and up, selling, 5 1/2 furlongs:
1. John Marts, 111 (Challen), 3 to 1, even and 1 to 2.
2. Kaptman, 111 (Dreyer), 3 to 2, 3 to 6 and out.
3. Chess, 109 (Mondon), 6 to 1, 2 to 1 and even.

EIGHTH RACE—Three-year-olds and up, selling, 5 1/2 furlongs:
Time 1:09 3/4. Grace Mc, Garden of Roses, Lydia Lee, Tee May, Watch Me, and Haymarket also ran.

NINTH RACE—Three-year-olds and up, selling, 5 furlongs:
1. Chilton Trance, 107 (Carroll), 3 to 1, even and 1 to 2.
2. Woola Mason, 109 (Warrington), 6 to 1, 2 to 1 and even.
3. WHL Lassic, 107 (McArdle), 3 to 1, even and 1 to 2.
4. Koroni, 111 (Dreyer), 2 to 1, 4 to 5 and 2 to 1.
Time 1:09 3/4. Susan Carrisima and Call Boy also ran.

TENTH RACE—Purse \$300, for 4-year-olds and up, 1 mile:
1. Chilton Squaw, 109 (Carroll), 3 to 1, even and 1 to 2.
2. Monday, 112 (Warrington), 3 to 1, 2 to 1 and out.
3. Irish Kid, 111 (Russell), even, 1 to 2 and out.
Time 1:45 4/5. Sea Kitty, Cassowary, Duke of Bridgewater, Wilfrid Gerdes also ran.

Lacrosse Gossip

Outgeneraled in committee, with Vancouver, by the casting vote of President Harry Cowan, over the schedule, the New Westminster Club withdrew from a special meeting of the British Columbia Lacrosse League at Vancouver, and practically retired from the league.

The meeting was called to discuss the action of Westminster in defaulting last Saturday's game, but nothing was done in that connection, as the constitution only provides for a forfeit of five hundred dollars. However, Vancouver succeeded in passing a motion to shift to Vancouver the home game in the schedule from Sept. 14 to July 27 to make up for the defaulted game. The move took Westminster completely by surprise. Manager Wells Gray indignantly refused to accede to a change of dates, and Westminster delegates stamped for the door. When they had gone, the Vancouver Club delegates held a conference with representatives of the Recreation Park Association, and the latter consented to put a team in the field to finish the present season. According to a Vancouver despatch, as a result of the withdrawal, Con. Jones and a representative of Recreation Park are on their way to Montreal and Toronto, where they will secure eight or nine players and form out a second-class team. It is not expected that Westminster will remain in the league, and a new team will take their place, playing a six-game schedule, commencing Aug. 20 and closing in time to permit Vancouver players to take their place against Cornwall and the champions of the Big Four. Con. Jones will also make arrangements with the rest of the all-star team to play in Vancouver during the week of the Westminster Fair.

The following is contributed by the secretary of the Toronto Lacrosse Club: Con. Jones' determination to get together another lacrosse team to play with the Vancouver outfit lives up matters in lacrosse circles in Toronto and Montreal, for only in these cities could he hope to get any first-class players. Even then it is difficult to see what good men he could induce to leave their homes to take chances in a league that has blown up before half the season was over, to see if he can sell some of his stars to the Big Four teams. It is said that he has contracts calling for \$20,000 on hand, and if he could be relieved of them he would be glad to get out of what has proved a very expensive business. Con may strike town in time to see the big game at Scarborough on Saturday between the Irish-Canadians and Toronto. If Con Jones is coming to buy, which is not likely, he will hardly find good men in the market. If he is looking to sell, he might dispose of a couple of men to each of the Big Four teams. Toronto's would be well enough to have Clifford Spring, but, of course, Con cannot sell him, as Spring is on the Westminster team. Chas. de Querre could use a couple of good home men, and George Kennedy might find use for Landon. The Nationals will

Beaches Baseball League

A special meeting of the Beaches Baseball League will be held to-night in the Royal's parlors. The games on Saturday are: 2 o'clock, Kew-y. Harriers; 4, Royals v. Entons.

THURSDAY MORNING, JULY 25, 1912

NORTH TORONTO POLES.

When the privy council is in full swing the British Empire sits round at a safe distance. Like the Helms at Sinai. The privy council, however, seems a little less prejudiced against the golden calf than was the authority under the ancient dispensation.

The issue joined here is clearly that of provincial rights, and this issue is already under trial. Should Dominion chartered corporations persist in actions hostile to the interests of municipalities relying on provincial protection, the province has it in its power by taxation and in other ways to remedy the situation, and no doubt the Dominion Government will perceive the wisdom of usurping provincial rights when the case is properly presented.

The corporations, however, are by no means so well off under the decision as they would have been previous to the establishment of the hydro-electric commission. The people have reason for satisfaction that they have the practical protection of efficient competition to stand between them and the corporations. The company may go the length of putting up poles and lines in North Toronto where they are not wanted, but they will be guided in this by the demand, and if the people patronize their own power system, which gives light and power at cost, and without danger of interruption, the privilege of erecting poles will be of small value to the corporations. Unless there are profits in sight there will be no poles erected.

Along with the privy council decision came the news from Hamilton that the Cataract merger had been abandoned. The competition of the hydro-electric commission made that a difficult deal to swing. Those who declared that Hon. Adam Beck's power line would be a failure are now finding out that there is more power in that line than they expected, and that it would have been more prudent to take account of Hon. Adam Beck's plans than to ignore them. The corporations will probably think twice before they ignore Hon. Adam Beck's plans in North Toronto. Nor should we forget the privy council's peak load decision. The corporations must not forget that in dealing with the people they cannot have it all their own way.

ONE CENT POSTAGE. Bills have been introduced in congress to reduce letter postage in the United States from two cents to one cent per ounce, and the Indians are favorable to such a change being effected. President Taft and Postmaster-General Hitchcock are in favor of the reduction, and there is little opposition to it from any quarter.

The change should have been and would have been made long ago had not the excessive profits from the carriage of letters been absorbed in a most extravagant administration of other branches of the postal service.

Letter postage has year yielded 75 per cent of the postal revenue and accounted for only 14 per cent of postal expenditure. In the last decade the government has collected from the people for carrying their letters \$500,000,000 over and above the cost of the service. Even were no increase of business to follow the reduction, one cent postage would pay its way handsomely, but judging from the enormous increase in business which followed the reduction from three to two cents, the volume of business will expand so enormously as to make the service more profitable.

The United States postoffice department has persistently shown great profits to the express companies which it might have reaped for itself by establishing the parcel-post, and it has found the extension of the rural mail delivery system more expensive than anticipated, but the great loss has been in connection with second-class mail matter. Newspapers and periodicals, more especially than magazines, have been carried at a great loss, due partly to the inclusion of more catalogs and advertising pamphlets, but mainly to the system of paying the railway companies by the pound for mail carriage instead of, as we do in Canada, furnishing postal cars and paying the railway companies for hauling them. The deficit from second-class mail matter during the past decade amounted to \$800,000,000, which more than absorbed the profits on let-

ter postage during the same period. Public ownership and operation has been most useful in demonstrating that a reduction in rates results in additional profits by largely increasing the volume of business.

GLASGOW AGAIN THE SECOND CITY.

Last year the City of Birmingham, England, obtained parliamentary authority to carry thru a large extension scheme, which, on coming into effect, deprived Glasgow of its claim to be ranked as the second city in the United Kingdom. The Scottish commercial capital was not inclined to accept the situation and accordingly revived the old movement for the absorption of the independent burghs of Govan and Partick—burgh communities entirely surrounded by the city proper—and included in the scheme the suburban burgh of Pollokshaws, various contiguous populous areas and portions of the counties of Lanark, Renfrew and Dunbarton. The bill passed the house of commons in much curtailed shape and was only saved in the house of lords by the acceptance of compromises, on the city by the peers. The net result is that the burghs and populous areas in and about the city will be included within its limits, but all the agricultural land suitable for residential extensions has been excluded. This provides another example of the favor always shown in the house of lords to landed interests.

Glasgow, however, will now regain its place as the second city with a population of something over a million, and will remain the most thickly populated city in the kingdom, having fifty persons to the acre against nineteen in Birmingham. As the burghs and districts annexed have been dependent on the city for their police services, the annexation will simply unify the general administration. Governor Woodrow Wilson, the Democratic candidate for the United States presidency, it is interesting to note in this connection, paid a notable tribute the other day to the excellence of Glasgow city government. After pointing out that in Scotland cities are governed by an assembly composed of three representatives from each district, one of whom retires annually, he observes that nobody in Glasgow ever gets a chance to vote for more than one person each year, and that his course and that of the council and its various committees in charge of departments can be easily followed. Glasgow, he continued, has one of the simplest and best governments in the world, and it undertakes things that cities in the United States would not be allowed to undertake, and yet without suspicion even of graft, or bargain, or private rackets. He did not think that the Scots were more honest than the United States people, altho shrewder in some respects. "There is," he concluded, "no more patriotic and civic interest in the City of Glasgow than there is in our cities, but the City of Glasgow owns its own government and the voters of our cities do not own theirs."

THE ACTING MAYOR. Acting Mayor Church is at least active. He has managed to exhibit more activity during his temporary term than many mayors do during their full term of office. Without committing himself to a complete endorsement of the acting mayor's program, it is only fair to accord him full credit for the useful publicity he has managed to give to a number of important civic issues. The man who does nothing appeals to a certain type of municipal politician, because he obviates the necessity of going on record on the questions in which the people are interested. Under Acting Mayor Church the people at least know what is going on and where their representatives are at on the questions under discussion. And the acting mayor has chosen the good part of being on the people's side by intention, and this should be accounted to him for righteousness. It will advance no one in popular favor to run with the people's hare and hunt with the corporation hounds.

HIGH RATES HURT THE COUNTRY. The Manchester, N.H., Union, in its issue of the 23rd inst., says: Farmers and would-be farmers who may contemplate migration from the United States to the Canadian Northwest, should consider seriously the high freight rates which are calling forth such bitter protests from Canadian farmers and merchants in the western provinces. The Union then goes on to point out that a farmer to be successful in his business requires not only fertile land, but good transportation facilities, and that the profit made in buying land cheaply may soon be absorbed in exorbitant freight rates. A similar argument is to be found in the literature issued by northwestern states anxious to have their people remain at home instead of emigrating to Canada. Just now the Dominion Railway Commission is hearing cases in the west, and at Winnipeg, Brandon, Regina and Moose Jaw, and indeed wherever they go, farmers, merchants, manufacturers, boards of trade and representatives of civic corporations appear before them with overwhelming evidence to prove how unfair and discriminatory are the freight rates effective in the west. A comparison of rates between Port William and Moose Jaw, and between Toronto and St. John, N.B.—the distances being about the same—show the western rates to be 25, 50 and even 100 per cent higher. The commission has already decided

5% DEBENTURES

Profitable—Safe. Our 5 per cent debentures offer a profitable and safe investment. The entire assets of the company are responsible for the payment of both the principal and interest.

THE DOMINION PERMANENT LOAN COMPANY

12 King Street West

that discrimination does exist and that the burden of justifying the same is upon the railway companies, but the western people are none the less resolved to impress their grievances upon the members of the commission. Rate reduction comes slowly in Canada. In the United States the national and state railway commissions have cut down freight rates, the two cent per mile passenger rate has been generally adopted, the express companies have been brought to book and some far-sighted corporations like the Western Union Telegraph Company have voluntarily reduced their charges to some extent. To picture Canada as a country where the corporations charge what they please and where rates never come down, may well deter intending settlers from coming to us, and will not be without justification unless parliament deals in an effective manner with the railway grievances of the west.

Dr. W. Hegemann is coming next year to show us how to lay out the town. We have several big constables who could do that now. Dr. Hegemann wants \$500 a week for it. He might start with the city council.

Acting Mayor Church's suggestion about acquiring the land at the mouth of the Humber is an excellent idea. Whether for park or other purposes ultimately the investment would be a profitable one.

Improvements for which money is now sought are about ten years late. Had they been carried out when money and labor were cheap, as they should have been, the city would not now have to go begging.

FREIGHT CONGESTION IN AMERICA WEST.

Columbus (Ohio) Journal: The Great Northern Railroad has issued a circular advising all coal dealers along its lines to stock up early, as an extraordinarily heavy movement of grain is expected this fall. A movement of 30,000,000 bushels of grain is expected from Montana alone, and the total grain crop of the entire northwestern states will be enormous. In issuing this circular the Great Northern is trying to minimize as much as can be done the possibilities of freight congestion this fall.

Combined for Protection. Editor World: The letter in your issue of Monday last, from an "Old Member" of the A. O. U. W., regarding the insurance "to cash" the order members is very interesting and unfortunately too true.

However, all is not lost that is in danger, and a way out of the trouble may yet be found. I have been in conversation lately with several members who would be adversely affected by the new imposition. The feeling is that it is high time that we older members should combine for protection. "Charity, Hope and Protection" are the watchwords of the order, and our united efforts would be to preserve them from prostitution. To this end, if the old members who wish to put up a strong fight against the impending inquiry, will send their names and addresses to me, I will convene a meeting at an early date, of which they shall have due and timely notice.

Geo. S. Macdonald, P. O. Box 64, Toronto, July 24, 1912.

LO, THE POOR CREDITOR!

Liquidation Costs Eat Up All Assets But \$210. WELLSAND, July 24.—(Special.)—The Electro Steel Co. affairs have been settled. Receipts from sale of the plant were \$396, and the expenses of liquidation \$385, leaving a balance of \$210 to be divided among creditors.

The liquidator received \$447.15, and \$100.00 for disbursements and expenses \$822.11. Creditors who have a \$5 claim will receive one cent.

FOUND INDIAN'S BODY IN WOODS

CORNWALL, July 24.—(Special.)—Dr. W. A. Munro, coroner of Cornwall, was notified to-day of the finding of the remains of a man in the woods, three miles east of St. Andrew's. On investigating he found the scanty remains of a human being, the clothing on which would indicate that he had been lying there during at least a portion of last winter. No sign of foul play was discernible. It was learned that an old Indian basket maker, who lived in a shack, had disappeared during the winter, and it is likely that it is his body that has been found.

Do not suffer from itching, bleeding, or protruding piles. No surgical operation. Dr. Chase's Ointment will relieve you at once and as certainly as you can see it. It is sold by all druggists, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you enclose this paper and enclose a stamp to pay postage.

THE EYE IS THE GREAT EDUCATOR

First Knowledge Comes Thru the Eye, and We Prefer Seeing Things to Reading About Them.

Children should not be required to learn thru the ears at an age when they ought to be learning only thru the eyes. The eyes are the greatest means of education. No animal except man has any other education except that which is gained thru the eyes.

The World's Progress to its readers an "eye-teaching" Bible which contains more than six hundred pictures applying directly to the verses which they accompany.

Heretofore the word "illustrated," as applied to a Bible, meant merely a few allegorical "pictures" of Biblical events taken from any source and "conveniently" placed in any part of the book, merely as embellishment inserts, but not directly alongside and explanatory of the verse they were to illustrate.

Call at this office and examine these Bibles. Compare them with any you have ever seen before. But be sure to have six certified with you, for you will want one of these illustrated Bibles. Both Protestant and Catholic to select from.

GERMANY'S NAVAL PROGRESS

By 1914 Twenty-five Battleships Will Be in Full Commission. BERLIN, July 24.—Such progress has been made with the strengthening of the German navy, voted almost unanimously during the Reichstag session of the Reichstag, that it is now officially announced that the new third squadron of eight battleships will be commissioned by the autumn of 1914.

Crews for the four battleships of the reserve squadron, which, according to the same law, are to be kept in full commission, will not be available probably for two or three years after that, so it is pointed out here that the alarmists in the British cabinet are not actually wrong in assuming the presence at sea of 20 fully manned German battleships in the autumn of 1914.

FIFTY THOUSAND MEN REQUIRED

Farm Laborers' Excursion—This Year's Wheat Crop Will Be the Largest in History of Canada.

The wheat crop of 1912 will be the largest in the history of Canada, and the Saskatchewan and Alberta, thus requiring the farm laborers of the east to recruit and assist in harvesting the world's greatest bread basket. The governments of the respective provinces state that 50,000 men will be required for this year's harvest.

Dates, rates and conditions will be announced in a few days. Contact any C. P. R. agent for full particulars.

LANDMARK IN HISTORY

Earl Selborne Se Refers to Canada's Share in Defense. LONDON, July 24.—(C. A. P.)—Earl Selborne, speaking in the lords regarding the cessation of the struggle between Great Britain and Germany for naval supremacy, said: "I have no hesitation in saying that the utterances concerning the dominions form a landmark in the history of our country."

WARNING TO FRANCE.

PARIS, July 24.—(Can. Press.)—That the world is not yet on the eve of the cessation of the struggle between Great Britain and Germany for naval supremacy is the prevalent opinion in France by Winston Churchill in the house of commons.

The continuation of the rivalry between these two countries causes a note of regret here, but there is an inclination to believe that if it must continue on France should learn a lesson from England's procedure and herself increase her navy.

At Osgoode Hall

ANNOUNCEMENTS. July 24, 1912. Motions set down for single court for Thursday, July 26, at 10 o'clock: 1. Canadian Life v. Blackburn. 2. Werry v. Bell. 3. Re Lovring Estate. 4. Thompson v. Flett. 5. Walker v. Gerolamy. 6. Bertonchi v. Scarrone. 7. Leas v. Leas. 8. MacLean v. Referendex. 9. Weller v. Stewart.

Judges' chambers will be held immediately at conclusion of court.

Master's Chambers.

Before Geo. S. Holmsted, Registrar. Rex ex rel Strain v. Kennedy-J. G. Smith for the King; J. Mitchell for defendant. Cut out this Coupon and mail it, together with Twenty-five Cents, to The World, Toronto, Can. for a trial month's subscription. NAME ADDRESS DATE

UNIVERSITY HEATING PLANT A FAILURE. MICHE'S GLEN-ER-NAN SCOTCH WHISKEY. -Bottled in Scotland—Exclusively— for Michie & Co. Ltd. 7 King St. West, Toronto.

Board of Governors Have Spent \$300,000 Already, When Original Estimate Was Only \$142,325—Design Classed as Faulty, Supervision Lax, and Quality of Coal as Poor.

Over three hundred thousand dollars has been spent to date by the board of governors of the University of Toronto for a central heating plant, the cost of which was originally estimated at \$142,325. This enormous excess cost may be accounted for in some measure by the fact that the system is much more extensive than originally planned, but that this is not the only factor in the case is made clear by the following extract from a report sent in to Graham Campbell, superintendent of the 'Varsity buildings, by the assistant superintendent. He says:

"The reports of Briggs & Holbrook, the designers of the plant, make some unfavorable comment on my ability as an engineer. My opinion has been, and still is, that the design of the power plant as installed is faulty, considered in the light of economical operation, that through the construction of the central plant supervision by the consulting engineers has been lax, and estimates of cost have been unnecessarily inaccurate."

Briggs & Holbrook, in their turn allege that the excessive cost of operation is the result of prodigality in using heat and lack of foresight in buying poor coal. By a test conducted in April last, the New York firm found that the buildings could be heated on a consumption of 2037 tons a day, whereas the average consumption during April weather was forty tons a day.

Superintendent Campbell answers the criticisms made by the New York firm by stating that during the test conducted by Briggs & Holbrook, such economy was practiced that the dining hall was not allowed enough steam to cook the meals, and complaints were received from the mining and chemical buildings.

In the meantime, the university has spent 110 per cent, over and above the original estimate, and it would seem that the heating plant may be listed as one more of the experiments that have not justified their expectations.

You're Next. You can shave in comfort and shave right away when there is plenty of hot water. A Gas Water-heater will give you shaving water in a jiffy. You can get just the right amount. It is not necessary to heat up the kitchen, as is the case when you are dependent upon a waterfront for hot water. Merely light the gas—just a match required. Let us tell you how "little" it will cost to have a heater installed in your house. It will save money, time and labor.

LADIES' AND MISSES'. Chamber, Gingham and Muslin Dresses, in plain, striped and checked materials.

MAIL CORRESPONDENTS RECEIVE SPECIAL AND PROMPT ATTENTION.

JOHN CATTO & SON 65 TO 61 KING STREET EAST, TORONTO.

Corner-stone of Twenty Thousand - Dollar Edifice Laid Last Night in Moonlight by J. W. Flavelle.

Riverdale Methodists made history last night by holding a corner-stone laying service by moonlight.

Mr. Flavelle referred to the marvelous development of Methodism in Ontario. He looked back with interest to the small Methodist church at Peterboro of his boyhood days, which was an insignificant structure by contrast with the handsome Sunday school for which they were laying the corner-stone.

After the stone had been "well and truly laid," a substantial collection was taken up for the building fund.

Rev. J. J. Heddit, president of the Methodist Social Union, and R. C. Hamilton, treasurer, extended the best wishes of the union to the local workers on the success attending their efforts.

Rev. J. A. Miller, pastor of Papermill Presbyterian Church, expressed the hope that former Presbyterians living in the vicinity would join hands with the Methodists in their efforts to meet the church needs of the neighborhood, as several former Methodists had done in the case of his own church.

When he went to the Papermill church five years ago it was considered doubtful if a mission could be successfully established. The outcome had been so wonderfully encouraging that they had a Sunday school roll of 450 scholars. They will start to erect a large new Sunday school building.

Rev. J. B. Wallwin, the pastor, thanked the Methodist Social Union for having enabled the committee to secure the site and by a loan without interest for five years to proceed with the erection of the building.

A message of congratulation was received from Rev. R. Gay, rector of St. Monica's Church.

The Best Work. Rev. Dr. Hazlewood declared that the best work that could be done for the community was to supply it with a church.

The Alexander Choir and the choir of the Riverdale church took part in the service.

Bargains in Upright Pianos. The old firm of Heintzman & Co., Ltd., 195-197 Yonge-street, have a number of slightly used Upright Pianos that they are offering this week at very special prices.

International Eugenics Conference LONDON, July 24.—(Can. Press.)—The first international eugenics conference opened here to-day with 400 delegates representing 12 countries in attendance.

Are You a Visitor To Toronto?

Also, don't forget the friends at home. Take them back some little souvenir of Toronto—a Brooch, for instance, showing the Toronto Coat of Arms, or of a Maple Leaf design, beautifully enamelled in colors on sterling silver, would be much appreciated. There are hundreds of these at "Ryrie's," costing from 25c up.

RYRIE BROS. LIMITED 134-6-8 Yonge Street TORONTO

DANFORTH LINE NOW BEING LAID

Fifty Men Have Graded 600 Feet of the Roadway for Civic Car Lines, and New Pavement and Rails Will Be Laid by the End of Next Week.

Work has started in earnest for the construction of the civic car lines and pavement on Danforth-avenue.

Last January the ratepayers voted \$139,448 to be used for this purpose, but it was Monday noon of this week before the ground at the corner of Danforth and Broadview was broken.

Six hundred feet of the road have already been graded. By the first of next week the steel rails will be laid on this portion of the street.

Fifty Men at Work. Foreman Birke has a gang of 50 men already at work with pick and shovel. There are 12 teams engaged in hauling the earth away to Riverdale Park and other places.

The car tracks will be laid on the northern half of the present street. On either side of the double tracks there will be a 27-foot paved road. In making the new road the old street has been widened to 86 feet by taking in a strip of property on the north. The removal of 50 houses was necessary to accomplish this, but an allowance of 32 feet had been obtained for sidewalks and boulevard.

At the present time there is a sidewalk on the southern side of Danforth-avenue. There will be no alteration made to this during the construction of the pavement.

As soon as the rails have been laid on the ties for a short distance, another gang of men will fill in with concrete. Block bricks are then to be laid on top of this foundation.

Traffic will be diverted on to the tracks while the other side of the street is being graded. It is hoped that by the time cold weather sets in the tracks will be completed from Broadview to Greenwood-avenue.

Asphalt pavement has been approved for the road and within the next month this should be well under way, so that the greater portion of it will be finished by the fall.

The delay in the execution of the citizens' order for a pavement is attributed to the scarcity of steel rails.

Any Headache Cured Tired Systems Re-Toned

When You're Dull, Tired, Restless Day and Night Something is Wrong in the Stomach

A Prominent Publishing Man Says the Quickest Cure is Dr. Hamilton's Pills.

Headaches never come to those who use Dr. Hamilton's Pills, and this fact is vouched for by the Assistant Manager of The Poultry Success Magazine of Springfield, O., Mr. J. H. Callender, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resisted everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, help the stomach, and make you feel strong and well. For headaches, indigestion and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills."

Being composed of natural vegetable remedies, Dr. Hamilton's Pills are great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In constipation, food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease. All druggists and stock-keepers sell Dr. Hamilton's Pills, 25c per box, 5 for \$1, by mail from the Cattaraugus Co., Buffalo, N.Y., and Kingston, Canada.

WARD 4 PICNIC SUPPASSED ALL OTHERS

Thousands of Conservatives and Their Friends Spent Yesterday at Queenston Heights, Listened to Short Political Speeches and Took Part in Program of Sports.

When the first boat left Yonge-street wharf yesterday morning at 7.30 for Queenston Heights on the fourth annual picnic of the Liberal-Conservative Association of Ward 4, neither weather conditions nor turnout of picnickers augured well for the success of the day.

The second boat, which left Toronto at 8 o'clock, had not many passengers either. On the third boat, which left two hours later, however, there was a splendid crowd. It was drizzly until after ten a.m., and this kept back many who had planned to have gone early in the morning. So soon as it was seen that the day was not to be really fine, the turnout began. A great number did not arrive at Queenston until afternoon.

Fred Armstrong, president of the association, presided in the capacity of chairman. He made a very short speech preliminary to his introduction of the various other speakers.

E. W. J. Owens, K.C., M.L.A. for South Toronto, was the first to take the stand and tell his hearers what he thought of the government. He was especially well satisfied with the speech of the speaker.

W. K. McNaught, M.L.A. for North Toronto, was the next speaker. He congratulated himself and his hearers on the fact that the reciprocity idea was now consummated in Ontario.

Edmund Bristol, K.C., M.P. for Centre Toronto, was the last speaker. His speech was punctuated with straight from the shoulder truths that sunk deep into the hearts of his hearers. He thought the present administration had yet had at the head of affairs.

Borden's naval policy came in for special eulogy. He thought that Canada was now big enough and far-sighted enough to see the things that the mother country was doing for Canada. His idea was that the world would see this vast country the real centre and "pivot" of the great British empire.

A. C. Macdonald, M.P., was another speaker. He said little however, it was in the province of the winners receiving.

Funeral of Ward Two was the greatest of the day. It was a great picnic for the ladies of Ward Two who were present the success of the day.

This pleased the Ward Two ladies immensely and as the Ward Four picnic was in evidence and well able to look to their own laurels everyone was happy.

POWER COMPANY CAN ERECT POLES

Privy Council Reverses Decision of Court of Appeal, and Gives Company Power to Erect Poles on Any Highway—North Toronto Residents Are Disappointed.

The privy council, sitting in London, England, yesterday allowed the appeal of the Toronto and Niagara Power Co. against the Town of North Toronto.

In giving judgment, their lordships of the privy council said that the act of incorporation appeared to give appellants prima facie very large powers, which, unless they are restricted by the act, entitle them to succeed.

These lordships held that the act itself, the Canadian Parliament treated the company, whose works were expressly declared, as proper to be general advantage, as proper to be entrusted with freedom to interfere with municipal and private rights.

If the powers of entry had been subjected to the veto of each municipality, it might have meant the failure of the company to achieve its purpose. However, their lordships believed the question of safeguards was present to the minds of draughtsmen, because the company having power to erect electric power wires might prove of serious danger to the public.

Accordingly passed general statutes conferring powers of control on municipal authorities.

The act of 1887, which gave the company power to erect poles on any highway, was not repealed by the act of 1888, their lordships said that if the power conferred displaced the less restricted powers of the act of 1887, it would be null and void.

Entering without consent of the appellants, the appellants are in the wrong, but the general Railway Act of 1906 shows the intention to save all such powers. Their lordships did not agree with the Canadian court of appeal that the general restrictions imposed by section 93 of the 1887 act, as amended by the act of 1888, were not inconsistent with the provisions of sections 12 and 13 of the act of incorporation.

Their lordships, therefore, allowed the appeal. The appellants were entitled to a declaration that they are at liberty to erect poles for the stringing of transmission power wires along Eglinton-avenue without the consent of residents of the North Toronto Town Council, who must also pay costs.

History of Case. North Toronto Town Council has put up a good fight against monopolies and vested interests. Last September the Toronto and Niagara Power Co. were forcibly prevented from erecting poles for Eglinton-avenue by the instructions of Mayor Brown, who had the support of the council. Chancellor Boyd was deposed by the company, and he decided that the company had the right to erect such poles. The case then went to the court of appeal, and the three judges were unanimous in a verdict favorable to the town council.

The privy council's decision, therefore, is in direct opposition to the unanimous verdict of the Canadian court of appeal. Town Solicitor Gilmour, who acted as counsel for the Toronto and Niagara Power Co., visited England to instruct Sir Robert Finlay, K.C., attorney-general.

NOTICE. The Traders Bank of Canada and The Royal Bank of Canada. NOTICE IS HEREBY GIVEN of the intention of the undersigned Banks to apply, after the expiration of four weeks from the date of the first insertion of this notice in The Canada Gazette, to the Governor-in-Council and the Treasury Board, through the Minister of Finance and Receiver-General, for the approval of an agreement between the Traders Bank of Canada to sell and the Royal Bank of Canada to purchase all the real and personal properties, assets, rights, credits and liabilities of the Traders Bank of Canada, of whatever kind, and where-soever situated, and whereby in consideration for such sale and purchase the Royal Bank of Canada agrees to allot and issue to the Traders Bank of Canada, or to its nominees, thirty-three thousand six hundred fully paid shares of the capital stock of the Royal Bank of Canada of the par value of \$100 each, and amounting in all to the par value of \$3,360,000, and whereby the Royal Bank of Canada undertakes to assume, pay, discharge, perform and satisfy all the debts, liabilities, contracts and obligations of the Traders Bank of Canada (including notes issued and intended for circulation outside and in circulation and leasehold obligations).

A copy of the said agreement can be seen at the offices of the Royal Bank of Canada at Montreal, P.Q., and the Traders Bank of Canada at Toronto, Ont.

The said agreement has been approved by the resolutions of the shareholders of the Traders Bank of Canada, carried by the votes of shareholders present in person, or represented by proxy, representing more than two-thirds of the amount of the subscribed capital stock of the said Bank at a special general meeting of the shareholders of the Royal Bank of Canada at a special general meeting of the shareholders of the said Bank duly called and held for the purpose.

NOTICE. The Royal Bank of Canada to apply to the Governor-in-Council and the Treasury Board for the approval of a by-law adopted at the special Meeting of the shareholders of the Royal Bank of Canada held on the 3rd day of July, 1912, increasing the capital stock of the Royal Bank of Canada from ten million dollars to twenty-five million dollars. Dated 2nd day of August, 1912. By order of the Board, General Manager, The Royal Bank of Canada, 100 King Street West, Toronto, Ont.

The Toronto World's FREE SEAMBLE CERTIFICATES

Overlapping Covers. Genuine Limp Leather. \$50,000 Spent for Illustrations Alone.

One need not be a member of a religious organization to appreciate this magnificently illustrated work. Everyone who reads needs it; everybody that has occasion to carry on a conversation needs it; everybody can use it as an everyday reference book—a historical treatise, a key to familiar quotations. It is an educational volume for progressive people of TO-DAY.

Autos for Liveries. A special clearance of Secondhand Cars very suitable for liveries. You can make money on these cars. They are priced low for quick delivery on our year end on July 31st.

1. NAPIER, seven-passenger, six-cylinder. An imported car in splendid running order. Fully equipped. Price \$1,500. 2. MODEL H. RUSSELL. A 30 H.P. car, up-to-date, with foredoors, fully equipped with top, glass front, magneto and lamps. Price \$900. 3. MODEL H. 10. A seven-passenger car, 30 H.P., has foredoors and is an up-to-date car in all respects. A sound proposition for a livery. Price \$1,200.

We allowed for the above cars just the price we are asking on new cars this spring. We can recommend any of the above as a sound business investment.

RUSSELL MOTOR CAR CO., LTD. 100 Richmond West

THE TRADERS BANK OF CANADA AND THE ROYAL BANK OF CANADA. NOTICE IS HEREBY GIVEN of the intention of the undersigned Banks to apply, after the expiration of four weeks from the date of the first insertion of this notice in The Canada Gazette, to the Governor-in-Council and the Treasury Board, through the Minister of Finance and Receiver-General, for the approval of an agreement between the Traders Bank of Canada to sell and the Royal Bank of Canada to purchase all the real and personal properties, assets, rights, credits and liabilities of the Traders Bank of Canada, of whatever kind, and where-soever situated, and whereby in consideration for such sale and purchase the Royal Bank of Canada agrees to allot and issue to the Traders Bank of Canada, or to its nominees, thirty-three thousand six hundred fully paid shares of the capital stock of the Royal Bank of Canada of the par value of \$100 each, and amounting in all to the par value of \$3,360,000, and whereby the Royal Bank of Canada undertakes to assume, pay, discharge, perform and satisfy all the debts, liabilities, contracts and obligations of the Traders Bank of Canada (including notes issued and intended for circulation outside and in circulation and leasehold obligations).

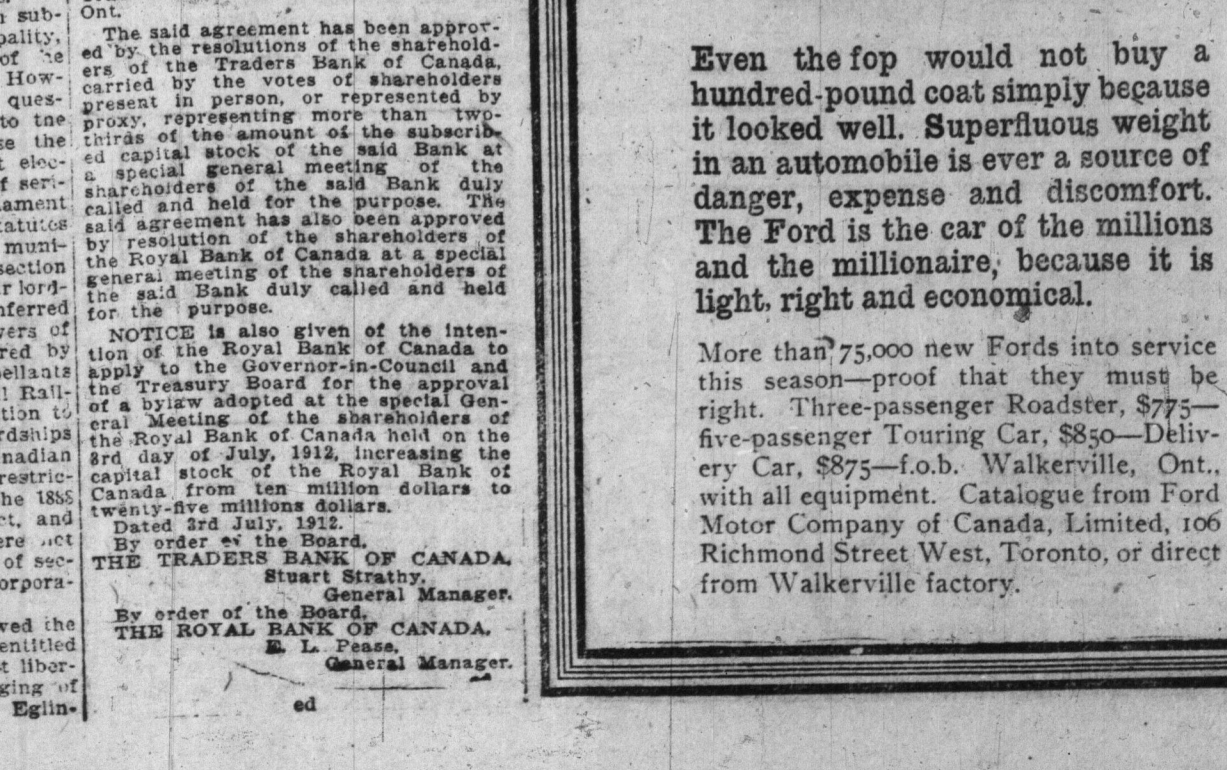

A copy of the said agreement can be seen at the offices of the Royal Bank of Canada at Montreal, P.Q., and the Traders Bank of Canada at Toronto, Ont.

The said agreement has been approved by the resolutions of the shareholders of the Traders Bank of Canada, carried by the votes of shareholders present in person, or represented by proxy, representing more than two-thirds of the amount of the subscribed capital stock of the said Bank at a special general meeting of the shareholders of the Royal Bank of Canada at a special general meeting of the shareholders of the said Bank duly called and held for the purpose.

NOTICE. The Royal Bank of Canada to apply to the Governor-in-Council and the Treasury Board for the approval of a by-law adopted at the special Meeting of the shareholders of the Royal Bank of Canada held on the 3rd day of July, 1912, increasing the capital stock of the Royal Bank of Canada from ten million dollars to twenty-five million dollars. Dated 2nd day of August, 1912. By order of the Board, General Manager, The Royal Bank of Canada, 100 King Street West, Toronto, Ont.

Even the fop would not buy a hundred-pound coat simply because it looked well. Superfluous weight in an automobile is ever a source of danger, expense and discomfort. The Ford is the car of the millions and the millionaire, because it is light, right and economical.

More than 75,000 new Fords into service this season—proof that they must be right. Three-passenger Roadster, \$775—five-passenger Touring Car, \$850—Delivery Car, \$875—f.o.b. Walkerville, Ont., with all equipment. Catalogue from Ford Motor Company of Canada, Limited, 106 Richmond Street West, Toronto, or direct from Walkerville factory.

FARMLY ACTIVE AND NO CHANGE

Market Continues in Even Mood—Large Number of Exporters—Small Stock Steady.

For an off-market day Wednesday's live stock receipts were above the average in number and quality, with quotations holding firm on heavy stock and fairly active on small stock.

At the Western Yards. The receipts for the day were light as follows: Cows, 31; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Union Yards. The receipts at the Union Yards were: Cows, 35; calves, 48; calves, 23; sheep, 87; hogs, 66.

At the Ontario Yards. The receipts at the Ontario Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Montreal Yards. The receipts at the Montreal Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Buffalo Yards. The receipts at the Buffalo Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Duluth Yards. The receipts at the Duluth Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Chicago Yards. The receipts at the Chicago Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

BIG INCREASE IN ELEVATOR CAPACITY

Storage Facilities in the West Greatly Improved Over a Year Ago.

A recent report from the department of trade and commerce states that the capacity of the grain elevators in the west for 1911-12 was \$5,614,900 bushels, which is an increase of about five millions over the preceding year.

At the Western Yards. The receipts for the day were light as follows: Cows, 31; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Union Yards. The receipts at the Union Yards were: Cows, 35; calves, 48; calves, 23; sheep, 87; hogs, 66.

At the Ontario Yards. The receipts at the Ontario Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Montreal Yards. The receipts at the Montreal Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Buffalo Yards. The receipts at the Buffalo Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Duluth Yards. The receipts at the Duluth Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Chicago Yards. The receipts at the Chicago Yards were: Cows, 27; calves, 107; calves, 57; sheep, 17; hogs, 43.

REPORTS OF BLACK RUST IN WESTERN WHEAT CROP

But No Serious Deterioration Has Occurred on Either Side of the Border.

Crop reports from the Canadian and American west during the last two days report that black rust has been observed in the fields on both sides of the border line.

At the Western Yards. The receipts for the day were light as follows: Cows, 31; calves, 107; calves, 57; sheep, 17; hogs, 43.

At the Union Yards. The receipts at the Union Yards were: Cows, 35; calves, 48; calves, 23; sheep, 87; hogs, 66.

6-1227-1228-1229-1230-1231-1232-1233-1234-1235-1236-1237-1238-1239-1240-1241-1242-1243-1244-1245-1246-1247-1248-1249-1250-1251-1252-1253-1254-1255-1256-1257-1258-1259-1260-1261-1262-1263-1264-1265-1266-1267-1268-1269-1270-1271-1272-1273-1274-1275-1276-1277-1278-1279-1280-1281-1282-1283-1284-1285-1286-1287-1288-1289-1290-1291-1292

Vipond and Hollinger Lead Decline in the Mining Issues

WHEAT MARKET FAILED TO HOLD ITS ADVANCE

Prices Drop Back Again on Lack of Confirmation of Black Rust Damage—Corn and Oats Score Further Advances.

CHICAGO, July 24.—Plattening out of the black rust scare led to a drop in wheat. The market closed at a net decline of 10 to 14c. Corn finished a shade off to 1/4c and oats 1/4c to 1/2c down to 1c advance. The outcome for provisions was 2 1/2c to 1 1/4c increase in cost.

Cooler and clearer weather in the northwest helped dissipate alarm in regard to spread of rust before wheat became ready to cut. Moreover, experts sent word that the prospect of injury seemed remote. Instead of impairment the experts found yields of 20 to 25 bushels an acre in sight, with the harvest only a week or 10 days off.

Dishheartening cables formed a stumbling block all day for the bulls. From Liverpool, especially, the response to the advance yesterday on this side showed a lack of belief abroad as to genuine danger of a shortage in the spring crop. Moreover, export trade had come to a standstill, no bids arriving that could be worked, even on today's break. A rally due to even favorable reports from the Canadian northwest did not prove lasting.

Hot weather in Kansas and Oklahoma incited buying of corn during the greater part of the session. Around the opening and close, however, the market was affected by the bearish sentiment concerning wheat.

In the oats crowd the principal feature was the strength of spot and of July delivery. Scarcity made it self-evident and caused the market to show considerable independence of other grains.

Despite the fact that provisions remained slow through, the lighter run of hogs went afforded a basis for an upturn.

Receipts of wheat at various points, with usual comparisons, follow:

GOGWANDA CAMP IN LIMELIGHT

New Lease of Life Given to Mining Companies—Transportation Facilities Revolutionize Conditions.

The building of the Elk Lake branch of the T. & N.O. Railway, which means that at the least one-half of the distance for hauling goods into the Gowganda district will be cut off when the road is running, has given new life to that section, and several silver properties hitherto inactive are being worked.

Gowganda has many good silver prospects, and during the year 1908-1909 considerable prospecting work was done. Later, however, the lack of transportation facilities into the district, work was closed down. There are prospects that the Elk Lake branch another year and companies are fast getting into a position for extensive work.

The Mann property, purchased in the boom days, and idle for a long time, is being worked, and handsome ore is being taken from the open pit. The Boyd-Gordon plant, the Mann, was purchased by the Mann company several weeks ago, power for work coming from the Boyd-Gordon plant.

On the South Bay Mines, adjoining the Bartlett, trenching is under way. Four veins showing native silver have been uncovered. The company will install a steam plant this fall.

At Miller Lake the Millerette Company is running 45 tons of ore a day through the small concentrator. Hand-some ore is coming from the lower levels.

On the Miller Lake O'Brien mine the main shaft is down 250 feet and drifting done on the vein. A short drill has proved the vein to another 100 feet and the shaft will be deepened. Database shows at this level.

To the east of Gowganda in the Elk Lake section 22 syndicates and companies are operating.

VIPOND HITS THE BUMPS DROPS TO NEW RECORD

Mining Markets Given Over to Bearish Operations—Hollinger Has a Weak Spasm and Whole List is Depressed Thereby.

World Office, Wednesday Evening, July 24. A sudden and sharp decline in Vipond and a reflective weak spasm in certain other sections of the Porcupine list were the outstanding features of the mining exchanges to-day.

The market was largely given over to bearish operations, and as there was no material demand in evidence at any time, the decline was brought about in a decidedly easy manner.

At its low price of the day Vipond stood at 2 1/2c, a net decline of 5 1/2 points from last night's close, and a full 1 1/2 cents a share under the high price of the month. Still more significant, however, was the fact that the stock at that level was quoted at the lowest price at which it has ever sold.

There was no news out on the security, and the sudden dip was therefore only explainable as a natural outcome of the current depression in mining circles. The market has been brought to a point where any material selling can only be expected to force values down in short order, and the appearance of selling orders in the stock resulted in the bids being lowered in very short order in consequence.

A Mysterious Decline. All reports from the Vipond property continue favorable, and while no authentic information is to be had regarding the results of the stamp mill operations, it is understood that the plant is giving every satisfaction.

For many months now the insiders in the company have practically left the stock to find its own level in the market. With no support available to take care of the offerings to-day the intrinsic merit of the proposition was relegated to the background once a decline was fairly under way.

At the close the shares were on offer at 27, while the closing bid was at 26 1/2. Hollinger dropped back 30 points to 12 1/2c late in the day when real selling got in appearance, and was still on offer there at the closing. The recent demand for the stock has now almost entirely disappeared, and the intrinsic merit of the shares is significant of nothing if not that the public are absolutely disinterested in the market valuation of the proposition.

The Cobalt steady. In the Cobalt section there was little doing of any account, and while changes on the whole were purely negligible, Timiskaming was the only weak spot, showing a losing their recent gain in a recession to 38.

Stock Markets Ruled by Usual Period of Midsummer Apathy

SPECULATION IS ON THE WANE

Toronto Stock Market Given Over to Dulness—General List Shade Easier—B. C. Packers Crosses Par.

Both Rio and Sao Paulo continued under pressure in the Toronto stock market yesterday, prices in each instance sagging below their previous levels. There was no burdensome liquidation under way, but the buying demand for stocks was decidedly limited, and brokers holding selling orders were forced to make concessions before purchasers were to be found.

The market on the whole was decidedly apathetic, the recent vivacious movement having dwindled away almost entirely. Few securities were traded in to any great extent, and in fact the majority of the list appeared in the record of transactions only to the extent of a few small lots of stock. The continued lack of public interest manifested in this manner inspired further weakness, and several of the recent favorites dropped below their previous levels.

ANOTHER DROP IN CONSOLS IN LONDON MARKET

LONDON, July 24.—Money was in increased demand and dearer, and discounts were firm today. Dealers on the stock exchange gave their attention chiefly to the general carry over, in which charges for American shares ranged from four to five per cent. British securities were weak on further liquidation. Consols lost an easy improvement and closed a quarter of a point lower than yesterday.

PLAYING FOR REACTION

Chas. Head & Co. to J. E. Osborne: The market continued extremely professional and a few traders were inclined to play for a reaction, the results were not satisfactory. In some quarters, in fact, substantial advances were scored, this being particularly the case with the electrical stocks. The news was not calculated to materially affect prices, but traders were disposed to wait for some stimulus before taking a decided stand either way.

The Last Week at Which the Shares of the DOMINION OIL COMPANY Can be Purchased at Par.

THE DOMINION OIL COMPANY now have an assured well of high grade oil, and after Monday, July 29th, the price of the Treasury Shares will be advanced to \$1.25 per share. The demand for crude oil is increasing daily, and the dividends that will be paid to the investors in producing oil companies will far exceed the returns offered by any other enterprise.

OIL HAS MADE FORTUNES FOR MANY, WHY NOT FOR YOU? The purchase of shares in THE DOMINION OIL COMPANY offers a rare opportunity for a safe and permanent investment, which should yield enormous returns. The Company is headed and managed by well-known, successful and highly-respected Canadian business men, and the fullest investigation regarding the Company is invited.

Illustrated Prospectus and full particulars mailed on request, or, better still, call at our offices, see the oil from the Company's well, and let us show you what an investment in these shares offers. It costs you nothing to investigate, and you cannot afford not to.

Canadians in S. American Railway Deal

Plans have been formulated and arrangements are already under way for the linking up of the railways in the Argentine, Brazil, Uruguay and Paraguay into a system which will be, in effect, the C. P. R. of South America. The financial end is being handled by a strong group of Canadian, American and French capitalists, which, it is alleged, is dominated by interests connected with the Canadian Pacific.

Already the plan for the consolidation of the railway lines has taken root, financial control of the Entre Rio and the Argentine Northeastern Railways having been acquired. There seems to be little doubt that a very ambitious scheme is contemplated, consisting of a network of international railways under one control, with an aggregate length of 31,000 miles of line, or more than twice the mileage of the Canadian Pacific.

Extensive offices have been taken in Buenos Aires, where a representative of the group, well known in the railway world, has taken up quarters, whilst an eminent North American engineer is reported to have been appointed technical adviser. The consolidation, if carried to a successful conclusion, will make the greatest railway deal of modern years.

Public Were Fleeced By 120 Million

WASHINGTON, D. C., July 24.—According to the old adage that a "sucker is born every minute," \$25,000 of them come to the American people each year. Each of the crop which ripened to the plucking stage netted a profit to the swindlers of \$23,800 this season. At least that was their per capita loss, as the statement of Postmaster-General Hitchcock, made public to-day, shows that above this level of profit the swindlers netted a profit of \$120,000,000 during the fiscal year. This is an increase of \$5,000,000 over the aggregate of last year.

The number of those who reaped the profits of the crop is not known, but 1063 of them were caught while gathering the harvest. During the year, which ended June 30 last, 425 of these harvesters were convicted and sentenced. The cases of 571 others who are alleged to have been caught while making their way with the goods, are awaiting final disposition.

Neither the suckers nor their despoilers come from any one walk in life. According to Mr. Hitchcock's report those engaged in the harvesting included merchants and mechanics, politicians and professional men, paupers and millionaires. They exploited all sorts of schemes, but their chief means of work were bogus mines, fake remedies and worthless lands.

The swindlers now face lean and hungry years, however, as the recent orders to postoffice inspectors will make their business both less profitable and more perilous to them. Postmaster General Hitchcock's order to collect evidence that would warrant criminal prosecution of the swindlers gradually is building a wall of protection around the suckers. Before that time the punishment was only a fraud order forbidding the delivery of mail to such operators, who worried but little. They merely changed their names, addresses and title of their "business," continuing their operations until another fraud order caught up with them.

NORTHERN CROWN BANK INCREASES CAPITAL

WINNIPEG, July 24.—Northern Crown Bank has increased its paid up capital to \$1,000,000. At the same time the undesirable difference between Crown and Northern certificates will be adjusted. The new stock will be issued at par, and all shareholders will participate. Holders of a hundred Northern certificates will be entitled to 38 new shares of par value of \$5000 for \$4100.

NEW YORK LIST MOVES IN BUT MARKET MANIFESTS NO TENDENCY TO BREAK AWAY FROM CHRONIC DULNESS—PRICES SHOW DOWNWARD TREND.

NEW YORK, July 24.—The stock market to-day manifested no decided tendency to get out of the rut into which it fell earlier in the week. Business was the smallest of any full session in some time and price changes were without significance, although in a downward direction. There was a recurrence of the recent selling pressure against the leaders, but lacked sufficient force in most cases to carry the movement beyond mere fractions. The electrical stocks and a few others in which public interest has seldom been more than negligible were prominent for their activity and strength, but in general the speculative importance were relatively dormant.

Another severe decline in National Biscuit early in the session was unattended by any special news other than the assumption that the company is meeting with unusual competition. Texas Company also suffered something of a reverse on unofficial demand of its contemplated change in the dividend, and further liquidation in United States Realty was indicated by its reactionary movement.

Local bankers were to-day considering the financing of \$4,000,000 new equipment notes by the Boston & Albany Railway. The notes will probably take the form of a joint issue with the New York Central, which leases Boston & Albany under guarantee.

BIG INCREASE IN TAX PAID BY RAILWAYS

The statement of earnings submitted by the railway companies operating on the North American continent for the ten months, July, 1911, to April, 1912, is chiefly remarkable for the continued sharp advance in the item of taxes. The percentage covered, taxes increased no less than \$9,668,827, or 11.1 per cent, from \$86,388,163 in the same ten months of the year 1911, to \$96,057,000 in 1912.

Aggregate gross income for the months of July, 1912, to April, 1913, averaged \$2,200,000, or 1.4 per cent, as expected, net earnings after operating expenses decreased only \$331,511, the negligible percentage of .05 of 1 per cent. In other words, operating expenses covered 98.6 per cent of gross revenues and cut slightly into net, but much less severely than has been the case for the past two years. Their share of the item of taxes, increasing \$9,668,000, and followed by \$10,379,941 decline in the balance which railways had at the end of the ten months period with which to meet interest charges and dividend requirements. In the ten months period, the highest statement is issued, taxes consumed 4.2 per cent of gross revenues, the highest ratio ever reached.

On account of the decline in net, whereas gross revenues advanced, the discussion the ratio of taxes to net was more sharply. In the period under discussion the ratio of taxes to net was full 1.24 per cent, compared with 1.21 per cent in the same months of 1911. The table below shows the unbroken advance in the item of taxes in recent years:

Table with columns: Per Cent, Amount, Millions, Gross. Rows include 10 months, 1912, 1911, 1910, 1909, 1908, 1907, 1906, 1905, 1904, 1903, 1902, 1901, 1900, 1899, 1898, 1897, 1896, 1895, 1894, 1893, 1892, 1891, 1890, 1889, 1888, 1887, 1886, 1885, 1884,
