

## SEMI-READY

No discounts. No fake sales. Prices never fluctuate. Even the "Lonely" sale is a thing of the past.

"Semi-ready" has no old-fashioned clothes to get rid of. Wouldn't foist them on customers, if it had.

Double protection because—You need not buy because you look, or keep because you buy.

Suits and Overcoats, \$12 to \$25.

## KNOCKING DOWN TEN-PINS.

The Armories by a Good Margin.

The Q.O.R.C. still maintain their lead

in the championship race in the Toronto

Bowling League when, on their own alleys,

they defeated the Munro by 222 pins.

Good, 560, and Sutherland, 570,

were the highest scores for the losers, while

for the winners Armstrong

Edmondson with 614 was the top-notch.

The Q. O. R. also were beaten when the

Hindlers bowled consistently with good

individual scores, as Grant 625, Black 605,

Bell 595, Noble and Meade 594.

On the Indian alleys the Grandslams put

in a team total of 3523 against the Indians'

2285. Sunshine on their own alleys defeat-

ed Liederkrans A. while Liederkrans B

lost to Assurance by 65 pins in close con-

tact and Independents trounced Toronto

B. C. on the Indian alleys. The score was:

## ISLAND IMPROVEMENT IDEAS

Some Suggestions From the Executive of the Island Association to Come Up To-Day.

## WANT CHANNELS CLEANED OUT.

Launches on the Lagoons—Fire Department Wants Contravention of City By-law.

Suggestions from Executive of Island Association to the Island Civic Committee, to be discussed to-day by the committee, are: That a strip of land be reserved for an avenue from the Long Point to the lake, as per communication of the Island Association of Sept. 22 last.

That plans of houses, to be erected on lands leased, should be approved of by the Assessment and Park Committees.

That no further leases should be granted until the plan of the Island Parks and improvements has been settled and adopted, and that the aforesaid plan should be produced with the leases, etc.

That the vacant land, now owned by the city, should be cleared and the waterways should be kept in a clean, up-to-date manner, washed out each day with hose, and that the middle of these lots, especially towards the lake, should be planted with trees, shrubs, etc., and the waterways should be kept in a clean, up-to-date manner, washed out each day with hose, and that the middle of these lots, especially towards the lake, should be planted with trees, shrubs, etc.

That the channels should be cleaned out periodically and at a great expense, and that there should be an absolute prohibition of all dumping or draining into the lagoons anywhere, under a most severe penalty for infraction of this.

That the long connection with the lake at the eastern end of the city should be made at once, so as to afford a current and outlet.

That the Long Point should be connected with the channel dredged out last year, and that the waterways should be kept in a clean, up-to-date manner, washed out each day with hose, and that the middle of these lots, especially towards the lake, should be planted with trees, shrubs, etc.

That a franchise that launches on the lagoons, to run on approved schedule at reasonable rates, should be granted to responsible parties at once.

That there should be a new house station east of the breakwater, which is now a very dilapidated structure.

That there should be a better fire service, and that the city should have a fire station at the Long Point, which is now a very dilapidated structure.

Many boat houses, outhouses and undesirable places are now used in direct contravention of the city by-law.

That the bridge at Centre Island should receive a coat of paint.

## FIVE MOUNTED MEN IN MONTANA DO IT IN A NOVEL WAY.

Butte, Mont., Feb. 12.—The Burlington Express, No. 6, eastbound, was held up shortly after midnight on the Northern Pacific tracks, eight miles east of this city, near Homestead, by five mounted men. They covered the sides of the train with their guns, unoccupied the engine, mail and express cars, and ran them ahead of the train about two miles, where the robbers fired two charges of dynamite, blowing the safe to pieces and wrecking the express car. The trainmen of the passenger train, after the robbers had left the engine and cars, hastened back toward Butte, and met an incoming freight train, the engine of which was uncoupled to run to Butte and to alarm given. A reward of \$5000 has been offered.

## DISPUTES VALIDITY OF ACT.

St. Thomas, Persoonators Appeal Against Conviction Heard at Osgoode Hall.

The appeal of the St. Thomas persons against the sentence of a year's imprisonment, inflicted by Judge Bell, for improper practices in the referendum vote in that city, was heard at Osgoode Hall yesterday.

Whether the Ontario Liquor Act of 1902 is valid or not was the question submitted to Chief Justice Falconbridge and Justices Street and Britton on a motion of John A. Robinson of St. Thomas, to quash the convictions of Robert Foster, William Walsh and Henry Brandon. They were convicted in January, and Robert Foster will have to pay, in addition, a fine of \$400.

Mr. Robinson contends, on behalf of the convicted persons: (1) that the Liquor Act of 1902 was illegal, and that, therefore, there could not have taken place any illegal voting, as alleged; (2) further, that the summonses on which the parties were apprehended did not charge any crime known to the Canadian law, inasmuch as the words of the act dealing with ballot-stuffing were not followed.

J. R. Cartwright, K. C., replied, for the Crown, claiming that the Liquor Act was legal, and that the summonses, also, were valid. Judgment was reserved.

This case will be watched with interest by friends of prohibition, as, on the outcome of this decision, will depend, probably, the fates of other parties, convicted at Toronto and Ottawa of illegal voting.

## METHODISTS PROTEST.

No Aid Should Be Given To Denominational Colleges.

Rev. Dr. Carman, superintendent of the Methodist Church, and Rev. Dr. Potts, treasurer of the Educational Fund, waited upon Premier Ross yesterday morning to protest against Ontario government grants to universities that are denominational, not strictly provincial, not controlled by the government and not responsible to it. The western university, which is under Anglican control, and Queen's which some regard as a Presbyterian college, have both applied for government aid.

## REBELS MURDER VILLAGERS.

Serious Outbreak Recently Occurred in Southern Madagascar.

London, Feb. 12.—A despatch to a news agency from Paris announces that mail advices received there from the island of Madagascar give details of a serious outbreak, which occurred recently in the southern part of Madagascar. A force of rebels attacked and destroyed a village, murdered its inhabitants, and carried off a large number of the population. The French maintained serious losses.

## GATHER FROM THE OUTSIDE.

The World is a Medium for Securing "Help" From Beyond.

Toronto has enjoyed such an era of mercantile and manufacturing prosperity that the demand for labor is sometimes greater than the supply. It is hard to get a good mechanic. It is almost impossible to secure a good domestic.

The World has a very large out-of-town circulation. Thousands of copies go out every day to the manufacturing towns and cities, to the villages and to the farms. Tell your want in The World "want" columns. It will bring results, greater than those of any paper with a purely city circulation.

For instance, The World has a sale of 2500 copies each day in Hamilton.

Many of the people who live in Toronto have adopted The World, and one evening paper, thus thereby covering the city, and reaching a large out-of-town field.

## TRIAL OF DR. KENT.

Rechester, Feb. 12.—In view of the fact that very little has been done of late in the case of Dr. Leonard Kent of Rechester, it was decided to put the case on the docket of the present session.

Dr. Kent was indicted for manslaughter in the degree in slaying in the killing of Ethel Blanche. Under the present provisions of the Criminal Code, the maximum penalty for the offence is 20 years in prison.

George Bates to conduct his defence, and himself taking an active part in securing evidence in his behalf.

A large amount of the evidence that is expected to be in favor of the defendant is being secured in Buffalo, where attacks of Mr. Bates' office have been for some time past. The trial promises to be a long one and replete with sensations.

## SIR FREDERICK TO SELL OUT.

Bath, N.Y., Feb. 12.—H. J. Wynkoop, local agent for the Pullman estate, has made announcement that the estate is to be closed, as its owner, Sir Frederick Johnstone of England, has decided to dispose of his interests in this country, of which there still remains unsold about 2000 acres in the estate and a lumber tract in Virginia.

## MILBURN'S

Heart and Nerve Pills.

MAKE SHAKY NERVES FIRM. MAKE WEAK HEARTS STRONG.

They build up the system, renew lost vitality, give nerve and brain power, improve the appetite, make rich red blood, dispell that weak, tired, listless, no ambition feeling and make you feel full of life and energy.

WILL ENFORCE VACCINATION.

Provincial Board of Health Decides to Ask for Legislation.

The Provincial Board of Health continues to do sledge-hammer work in protecting Ontario from infectious diseases.

At yesterday's meeting it was decided to ask the legislature to produce universal vaccination. Under the new regulations free vaccination will be offered to every child under six months of age.

No unvaccinated child will be permitted to attend school. Trustees allowing such a child to do so will forfeit the government grant for their school.

The board also considered amendments to the regulations relating to diphtheria. Among these were provisions for a more exact diagnosis of disease and a more accurate determination of the time at which a patient might be safely set free.

Another provision was that, in a case of suspected diphtheria, or in a case where there is doubt as to the nature of a sore throat, the patient shall be separated from the family till a swab from nose and throat shows absence of germs.

The period of convalescence was determined and the period of detention placed at four weeks, unless a swab from the nose and throat shows absence of germs before the expiration of this term.

The regulations require that, in cases of discharge from the nose or other organ, the swab shall show freedom from germs, even after four weeks. Statistics showed that in 20 per cent. of the cases the germs linger for three or even six months.

## UNIVERSITY SATURDAY LECTURES.

The third lecture of the course will be delivered on Saturday at 3 o'clock p.m. in the University Chemical Building.

The lecturer of the day is Prof. Alexander of University.

He will speak on the subject of "Robert Louis Stevenson."

COAL AS GOOD AS THE REST. PRICE AS LOW AS THE LOWEST

WILL ENFORCE VACCINATION.

Provincial Board of Health Decides to Ask for Legislation.

The Provincial Board of Health continues to do sledge-hammer work in protecting Ontario from infectious diseases.

At yesterday's meeting it was decided to ask the legislature to produce universal vaccination. Under the new regulations free vaccination will be offered to every child under six months of age.

No unvaccinated child will be permitted to attend school. Trustees allowing such a child to do so will forfeit the government grant for their school.

The board also considered amendments to the regulations relating to diphtheria. Among these were provisions for a more exact diagnosis of disease and a more accurate determination of the time at which a patient might be safely set free.

Another provision was that, in a case of suspected diphtheria, or in a case where there is doubt as to the nature of a sore throat, the patient shall be separated from the family till a swab from nose and throat shows absence of germs.

The period of convalescence was determined and the period of detention placed at four weeks, unless a swab from the nose and throat shows absence of germs before the expiration of this term.

The regulations require that, in cases of discharge from the nose or other organ, the swab shall show freedom from germs, even after four weeks. Statistics showed that in 20 per cent. of the cases the germs linger for three or even six months.

## UNIVERSITY SATURDAY LECTURES.

The third lecture of the course will be delivered on Saturday at 3 o'clock p.m. in the University Chemical Building.

The lecturer of the day is Prof. Alexander of University.

He will speak on the subject of "Robert Louis Stevenson."
