# Beck Goes After MacKay As a Critic Criticising Just for Fault Finding

### Minister of Power Incidentally Gives Some Information on the Present Status of the Government's Scheme.

### MUNICIPALITIES GETTING POWER AT BARGAIN RATE

Hon. Adam Beck took occasion yesterday in moving the second reading of the bill for the development of water-power at Dog Lake to refer to the power policy of the government.

He dealt with the criticisms of the opposition, showing that they were largely based on want of information, which might have been obtained, if wanted, and he made the first official announcement of the fact announced two weeks ago in The World that the government had secured a contract for power at \$9 per horse-power.

By carrying 65,000 horse-power on transmission lines originally expected only to carry 30,000, the government is contributing the capital charges, the sinking charges and other expenses over \$5,000, instead of 20,000, and with \$9 power and 14 cent power the government would be able to give much cheaper rates than those furnished in the early estimates.

Part of Power Policy.  
The Dog Lake scheme was part of the government power policy. They intended, not only to supply the people with cheap electric energy, but also to reserve for them the water-powers of the province. They met great difficulty in this, as under the Dominion Acts many powers were being corralled. Port Arthur and Fort William were examples of what was possible in the use of electric energy.

The statements made by Hon. A. G. MacKay were characterized by Mr. Beck as erratic and inconsistent. He was probably not conversant with the actual condition of affairs and knew less than he should know. He apparently approved of the power policy of the government. He should remember the promise of the late government, and their act of 1903, which was supposed to assist the people in acquiring possession of water powers. It was an impossible act, however, and could not be carried out on account of its financial conditions and of the Committee clause, and had been condemned by ex-Mayor Urquhart as a gold brick measure.

Where Critics Fell Down.  
There had never been a policy on which more earnest work, more money or more expert opinion had been expended than upon the power policy of the government. Yet Mr. MacKay had made the statement that in calculating the cost of a transmission line for 200 miles at \$25 a mile or about \$50 an acre had been allowed for right of way. Had he asked for information he would have learned that \$25 per mile of right of way in table 7 of \$885 a mile was allowed for Toronto's share. The \$450 for other municipalities. The total was \$1975 or \$247 an acre, or ten times what Mr. MacKay had stated.

It was lack of information on his own account that made him make such unjustifiable statements. He had declared that not a single horsepower had been delivered, and two weeks later not a horsepower had been delivered yet.

Like the Building of Rome.  
It showed his capacity and judgment of the work in hand when he found fault with the commission for not getting such an answer to the question of right of way in two weeks. The Mayor of Toronto knew that such a view was ludicrous. He (Mr. Beck) wondered that gentlemen throughout the province thought of Mr. MacKay's statements. No lack of energy or zeal could be attributed to the commission in view of the large number of municipalities throughout the province.

Fifteen municipalities had agreed to sign contracts, but Mr. MacKay would have the government believe that the commission was injudicious, ill-advised and stupid.  
The commission was to be condemned for what? For the policy which the premier had adopted of giving the people power at the lowest possible figure. It was an honest and practical policy. It was not a gold brick policy, not a make-shift policy, not a policy which would carry them over an election only, but a policy which would carry out the promise made by the government.

He was glad of criticism at all times, and if the criticism was honest and sincere and not merely that which purposes the people would appreciate it, and its constructive character would benefit all concerned.

Cheap Power a Reality.  
Without coercion or interference with vested rights they had gone to the companies at the going rate into the open market they had not been disappointed. It had taken some time, certainly, but to-day they had available 100,000 H.P. cheaper than the government could possibly develop it and without interfering with the credit or commercial status of the companies.

Mr. Beck then took up the question of the alleged proposal to take over the Electrical Development Company's plant by the city or the government.  
The purchase by the city was a preposterous idea. The city could not involve itself in the purchase of \$10,000,000 of bonds and the purchase of 125,000 H.P. in western Ontario.  
At the first opportunity the people endorsed by an 80 per cent majority the policy of obtaining power from the Ontario Power Co. Bylaws had been submitted involving the expenditure of

Continued on Page 7.

## Back to the Land

In reply to Allan Studholme, Hon. Mr. Monteith stated yesterday of the number of immigrants placed on farms in Ontario in 1907 by the Ontario government distribution office was 4889, the Salvation Army 4839. Total, 9728.

## FIRE WIPES OUT BIG LONDON FACTORY

### \$300,000 Loss to Hobbs Manufacturing Co. and Canada Furniture Co.—Two Firemen Hurt.

LONDON, April 2.—(Special.)—Fire to-night destroyed the building and contents of the Hobbs Plate and Stained Glass Manufacturing Co., including the mirror plant of the Canada Furniture Co., and a portion of the stock of the Western Wire and Nail Works, in all of which companies T. Hobbs is largely interested.

The loss is estimated at \$300,000, with insurance about \$240,000.  
The fire broke out at 6.20 p.m., apparently at the bottom of an elevator shaft, where a considerable quantity of straw is said to have been. The cause of the outbreak is not known. The building is situated near the Grand Trunk depot, and across from the Tecumseh Houses.  
When the fire department reached the spot the flames were in full possession, and nothing could be done to save the building, which was of irregular construction from one to three stories.

Falling bricks injured firemen Ferguson and Haylock, but not seriously. Debris fell across the railway tracks, forced the Grand Trunk to send trains around by Port Stanley.

Toronto Firemen Heard That Three Men Had Been Killed.  
R. Harmer, president of the Canada Furniture Co., states that the loss to the company should not exceed \$50,000, and will not interfere with business.

A rumor that three of the London firemen had been killed was circulated among the firemen, at last night's blaze on East King-street, and caused quite a bit of sincere misapprehension.

When Chief Thompson was assured that the story was a canard he was greatly relieved.  
"I know Chief Clark very well, and what a terrible blow it would be to him to lose any of his men. I know how badly I have felt when we have had misfortune, and I feel relieved, too, for the sake of the men themselves, and so will all the boys who have heard the rumor," he said.

## ONLY 31 DISMISSALS IN CIVIL SERVICE UNDER WHITNEY

### Some Others Resigned—Total of Appointments in 3 Years is 324.

The return of civil service changes asked for by Duncan Ross was laid on the table by the provincial secretary yesterday.  
It showed only 31 dismissals out of a total staff of 704, increased by further appointments since 1895 to 817, or 113 additions to the whole. There were besides 134 resignations, and 73 other vacancies occurred chiefly by transfer to other departments.

The total number of appointments in the three years is 324. The greatest increase is in the department of lands, forests and mines which has grown from 47 to 71, and the department of agriculture from 179 to 215.  
The provincial secretary's department in which business and revenue has largely increased has only added four to the 247 employees of Dec. 31, 1904.

Winnipeg Stock Exchange.  
WINNIPEG, Man., April 2.—The Winnipeg Stock Exchange is soon to be an active reality in the financial world. The preliminary reorganization work has been done, and the officers elected are: President, A. M. Nanton, vice-president, H. Champion, secretary, W. Sanford Evans. The other directors are R. T. Riley, Hugh Sutherland and W. R. Allen. Offices have been secured in the new grain exchange building.

# HOW MINORITY WOULD ALTER RIDINGS

## Brant and York and New Ontario Changes Are Alone Acceptable —Late Voting for the North?

C. M. Bowman yesterday presented to the legislature the minority report of the redistribution committee, which recommended the acceptance of the proposed changes in Brant and York and the increases in Northern Ontario, but objected to others made by the government. Toronto, Peterboro, Essex and Middlesex, it was considered should remain unchanged, and also Brockville, Leeds, Cardwell, Peel and West Northumberland.

The minority solution of the Huron problem is Stanley, Tuckersmith, Usborne, Hay and Steven Townships and Seaford, Exeter, Hensley and Beaufort for south ridings. Ashfield, Colborne, Euliet, McKillop and Goderich Townships and Goderich and Clinton, centre riding. East and West Wawanosh, Morris, Grey, Howick, Turnberry Townships, Wingham, Brussels, Wroxeter and Blyth for the north riding.  
Premier Whitney remarked that it was distinctly out of order to bring the report before the house. It should have been moved in order. He was quite willing that the report be referred to committee of the whole on bill No. 33 (the redistribution measure) and this was ordered.

C. N. Smith (So) feared that the voters' lists in Northern Ontario might not be ready in time, and he declared there was a growing suspicion in the north that the elections there were not to be held on the same day as the other elections.

Premier Whitney replied that he did not believe that there were people either in the north or the south of the province who would expect the government to take or refrain from taking any action that would not be proper.

## CONVICTED PRISONER OPENS FIRE ON COURT

### Kill Chief of Detectives and Wounds Several Others—Is Himself Shot.

TERRE HAUTE, Ind., April 2.—Found guilty of a charge of arson, Henry D. McDonald, in the circuit court room to-day, shot and killed Chief of Detectives Wm. E. Bywer, seriously wounded three other officers and a bystander, and was himself seriously wounded. McDonald had been charged with dynamiting stores and a church in Sandford last year. In the verdict McDonald jumped up, drew a revolver and fired at Prosecuting Attorney James A. Cooper, Jr., but missed because Cooper tipped his chair over backwards. McDonald continued firing at the officers seated around the counsel table. Detective Dwyer fell dead at the foot of the bench.

Police and deputy sheriffs in the court room drew revolvers and opened fire on McDonald, who returned the fire. Before the convicted man fell with half a dozen bullets in his body, he had shot Harvey V. Jones, the superintendent of police, in the side; Deputy Sheriff Wm. Winter in the chin; Sylvester Doyle, court bailiff, in the leg, and a bystander in the side.  
The jurors jumped to their feet at the first shot. Judge J. T. Walker, one of the attorneys, tried to stop McDonald, but he only hindered the jurors from opening their eyes when they shot at McDonald.  
Judge Crane, who presided at the trial, ran to the railing of the jury box, and the spectators rushed out in confusion.

Persons in offices below the court room heard the shots and rushed to the upper floor only to collide with the people leaving the court room. About 1000 persons collected around the building in the few minutes, and the police had to be called to prevent the crowd from forcing its way into the courthouse.

McDonald was finally overwhelmed by his officers, his ammunition spent and his strength weakened by wounds and taken to a hospital. He is expected to recover. The other wounded men will recover.

## TWO YOU THS ARRESTED.

Ligouri Kennedy, 17 years, 41 Eglinton-avenue, and Thomas Murphy, 15 years, 13 Mutual-street, were arrested by Detective McKinley yesterday, charged with thefts from small stores here and general in the city for a month and Kennedy is charged with four and Murphy with one of these.  
Kennedy is charged with theft of \$5 from Fred W. Fleet, 502 West Queen-street, with theft of a hat and muffler from Edward Upgrevore, 473 Yonge-street; with theft of \$5 and two books from Albert Brinell, 241 Yonge-street, and with theft of money from Albert Bridges, 718 East Queen-street.

# The Toronto World

Farmer Maclean is much annoyed by cattle in the sugar bush.

## WOOLEN MANUFACTURERS WITH BACK TO THE WALL MUST FIGHT OR GIVE UP

### Conference is Called for Next Week To Take Steps To Impress Government With Seriousness of the Situation.

The Canadian Manufacturers' Association have sent out a call for a general meeting of the woolen and knit goods manufacturers of Canada, including those who are not members of the association, at the Windsor Hotel, Montreal, on Thursday, April 9.

The announcement says: "In considering whether it would be advisable for you to be present, it is well that you should bear in mind the situation confronting your industry."  
The importations of woolen goods since 1902 have been increasing at a rate which, to all those with capital invested in the industry, is nothing short of alarming. The figures, taken from the official trade and navigation returns:

Year	Value	Increase over previous year
1902	\$12,623,107	\$2,571,155
1903	15,130,302	1,738,829
1904	16,864,831	709,583
1905	17,963,514	1,818,152
1906	19,381,666	1,818,152
1907	21,415,044	2,133,378

"This means that in five years the imports have jumped \$9,791,937, or 89 per cent. They are, therefore, increasing very much more rapidly than our population, for assuming that the latter were 6,000,000 in 1902, at the same rate of growth we would have in Canada to-day 10,400,000 souls. It is apparent that foreign woollens are not only supplanting all our population, but they are actually displacing mostly all of the output of Canadian mills.

The correctness of this deduction is amply borne out by the series of disastrous failures that have marked the career of the Canadian woolen industry for the past few years. You do not need to be reminded of the mills that have gone under. Their name is legion, embracing every size and variety from the little one doing custom work for the farmer to the big fellow in the city with its hundreds of employees.

"Is the trade to be allowed to drift along in this condition until it comes your turn to go to the wall? Are you going to put forth some effort to save the capital you have invested? There is only one thing to be done—the woolen and knit goods manufacturers, all of them, must stand firmly together and call a halt! We believe that they can and that they will create such an impression when their case is properly presented, that the government will be compelled to afford them relief. We also believe that by arriving at some mutual understanding among themselves they can vastly improve the conditions under which business is at present being transacted.

"This is the purpose for which the meeting is being called. Make up your mind now to be present, and join in with your fellow manufacturers in protecting your common investment.  
If you cannot be present please express your views by writing, addressing them to James P. Murray, Chairman, Woollen Manufacturers' Meeting, Windsor Hotel, Montreal, and mailing them so that they will reach their destination not later than April 8. So great, however, is the importance of having a thoroughly representative gathering that we want you to put forth every effort to be on hand."

# WILL LEAD THE WORLD, SAYS MR. SHAW

## Ex-Secretary of United States Treasury Looks for Wonderful Development in Canada.

MONTREAL, April 2.—(Special.)—"The probability is that the development throughout Western Canada during the next ten years will exceed that of any other country in the world's history" is not the statement of an optimistic Canadian from the ranks of the Saskatchewan, but that of Leslie M. Shaw of New York, ex-secretary of the treasury under McKinley and Roosevelt, and considered one of the ablest financiers of the United States, who is now in the city on private business and who spoke at the Windsor in the most interesting manner of matters political and financial in both the Dominion and the republic.

Mr. Shaw, being twice governor of the State of Iowa, understands the conditions in the west and he declared here to-day that it would be almost impossible to overestimate the future growth of the Canadian provinces west of the great lakes.

"We are not at all jealous of your wonderful heritage. On the contrary, we rejoice at your splendid development and the stability of your institutions. In the early days the United States were generous to the promoter and to the railway builder, and we obtained good results, and this country is following in our footsteps and the same success will be yours. Our railway companies sold a good deal of their land at from three to five dollars an acre and now the owners are selling the same land at from fifty to seventy-five dollars and buying more up in Canada at from ten to fifteen dollars."

He is a Protectionist.  
During Mr. Shaw's remarks about the trade policy of his own country the remark was made that some alleged that the Canadian west would never accept a protectionist policy. The ex-secretary of the treasury said: "Never no fear on that point; that western country of yours will become strongly protectionist."

"Would you then be a protectionist, Mr. Shaw, if you were a Canadian?" "I would certainly be a protectionist, and my advice is to legislate for the Dominion of Canada and for Canada alone."

Proceeding, Mr. Shaw said he was still a protectionist, if he declared, the Democrats came to power in the United States they would not carry in to effect their free trade policy. He might be asked, give us free trade in spots, and that would not, of course, be beneficial to the best interest of the country. He would not express an opinion as to the probable standard-bearers of either of the great political parties over the border. Mr. Shaw did, however, make a very interesting statement as regards the present condition of both the Republican and Democratic parties of the neighboring republic.

"For the first time, he avers in the history of the world there is found to-day an English-speaking country with both of its political organizations leaning to radicalism. In other words, there is no conservative leadership. England, he observed, has had her radical party, yet at the same time she has had strong conservatism in opposition to that advanced, or radical party, and the same can be said of Canada.

In the past the United States have had radical parties, yet at the same time these parties have been strongly combated by conservative forces. It is not so, however, to-day, where both the Democratic and Republican organizations are striving to see which can present the most radical policy or platform to the electorate of the country. Mr. Bryan is extremely advanced, and the Republican organization appears to be trying to go one better.

"Do you think public opinion can be for this radical policy on the part of the political parties?" "I do not want to express an opinion just now as to public sentiment. I simply wish to call your attention to the existing state of things in our country." Things, he added, have taken a turn for the better. Money is plentiful and the people have returned to the greater part of the deposits which they withdrew from the banks at the time of the panic. Confidence has also been restored in a certain measure, yet because of the two parties having adopted such advanced platforms, I have to say that there is still a very large number of the most conservative men in the United States who look upon the future with considerable apprehension. The future is, in fact, difficult to forecast just now. Will we go over the precipice or will a halt be cried before the brink is reached? are questions being asked by all cautious men at present in the country.

## A SERIOUS CHARGE.

Made in Quebec Legislature by Mr. Leblanc.

QUEBEC, April 2.—(Special.)—Mr. Leblanc, opposition leader, called Recorder Dupuis to-day with having wired the municipality of St. Cuthbert when a member of the legislature last year, for \$1800, which he said was necessary to secure the passage of the town's bill thru the legislative council. He said Mr. Dupuis was returned a member from the town to attend to its business. A Quebec paper related all these facts when it was rumored the government was about to appoint Dupuis. Nevertheless, the government thought he was good enough to be recorder of Montreal. He added that the legislative councillors were not men who could be approached with bribes. Premier Gouin said that Mr. Dupuis had made a solemn declaration explaining that the money was for law costs and Mr. Leblanc retorted that the declarations were false.

## NEWEST SKYSCRAPER WILL BE 447 FEET TALL

### Will Be 36 Storeys in Height and Will Consist of Central Tower 95 Feet High.

NEW YORK, April 2.—Plans for another skyscraper building to be erected on the tower end of Manhattan Island, facing West and Washington-streets, were announced to-day. The new structure is to be 36 storeys and 447 feet in height, and will consist of a central tower 95 feet square flanked to part of that height by wings on each side of the tower, will be equipped with 30 elevators, will be erected by the Century Investment Company, and is to cost \$4,600,000.

## BAD FIRE AT INGERSOLL

### Manchester Cereal Company's Plant Destroyed.

INGERSOLL, April 2.—(Special.)—The Manchester Cereal Company's factory was destroyed by fire here at 8.30 to-night. The loss is about \$250,000, of which \$17,000 is on the building.  
The loss is fairly well covered by insurance. The cause is unknown, but the fire had evidently made great headway before it was discovered.

## BRISK KING STREET FIRE IS QUICKLY HEADED OFF BUT DAMAGE RUNS HIGH

Dominion Cloak Co. Burned Out and Valuable Stock of Courian, Babayan & Co. Damaged by Water.

The fire department can be credited with two good jobs during yesterday. In the heading off of what appeared at the outset to be the making of conflagrations, first at a factory here on Ontario-street at 2.30 a.m., when a gale was blowing, and then again last evening on East King-street, during a miniature blizzard.

When East King-street was filled with smoke and was lighted up by a burst of flame from the rear of the building at 40 and 42, spectators figured on "a big fire." But Chief Thompson's men tackled the blaze from front and rear and such a torrent of water was rushed in that the blaze did not get beyond the flat occupied by the Dominion Cloak Co. Their loss is placed at \$9000.

Courian, Babayan & Co., dealers in oriental rugs and bric-a-brac, occupying most of the basement, first and second floors of the house. At that time the prime minister was not in his place and the question was not renewed.  
But the talk of the town is the judge's ruffled feelings. He expressed himself freely on the subject to his friends, and it is not thought that he can be induced to accept, the pressure is being brought to bear on him.  
In case he remains firm in his decision, Judge McTavish, who conducted the insurance investigation, may be given the commission.

The next opportunity to enquire about the communication was on the adjournment of the house. At that time the prime minister was not in his place and the question was not renewed.

WE SELL TROUSERS

Good fitting trousers are as much a feature of our clothing as are the Suits and Overcoats we sell. All of our best lines of Trousers are shrunken and shaped to stay, and the best of trimmings only are used. OUR NATIONAL LIFE IS AT STAKE SAYS PAPER

Hindustan Publication Appears in Vancouver to Preach Political and Social Freedom.

VANCOUVER, April 2.—(Special.)—The initial number of a free Hindustan publication, under the auspices of the local Hindus, has appeared. Its avowed object is to preach the doctrine of political, social and religious freedom. The first number deals largely with immigration bars to the Dominion.

"To-day our national life is at stake; British government in India has already adopted the most repressive measures to crush our national aspirations, and a new measure is going to be adopted which will lead our national life to stagnation. We are slaves in our country and have no voice in the government of our country. Far from having any representation of our own, we are treated worse than the cats and dogs of Englishmen in British colonies."

BAD DAY FOR BILLS

Legislature's Municipal Committee in a Critical Mood.

Several bills went down before the municipal committee of the legislature yesterday. Mr. Bradburn withdrew his bill to give aldermen a two-year term.

WILL BE MOVED

DROWNED AT PETERBORO

Russell Newbury Lost Life in Otonabee River.

PETERBORO, April 2.—(Special.)—Russell Newbury, the six-year-old son of Geo. Newbury, was drowned in the Otonabee River at No. 5 dam this afternoon.

HAMILTON Happenings

World subscribers and intending advertisers may transact any matter of business relating to the paper at The World's Hamilton Office, Royal Hotel block, James and Merrick streets. Telephone 965.

THREE HOUSES BURNED BY INCENDIARY FIRE

Ben Cooley Arrested for Begging With a Blistered Arm—General City News.

HAMILTON, April 2.—(Special.)—That he burned his hand with acid so as to give it the appearance of having an ugly wound is the accusation the police make against Ben Cooley, who struck the city about a week ago. He was run in to-night by Acting Detectives Sayre and Robinson on a charge of vagrancy. The police claim that he has been soliciting money on the strength of his fake wound.

William Henderson, brother of Mrs. W. H. Mills, died to-day at St. Joseph's Hospital. The remains will be forwarded to St. Catharines. Fire completely destroyed two houses on Cannon-street, Crown Point, this evening and burned the roof off the house in a row and with the gable that was blowing it was feared that they would all be destroyed, but the fire was confined to the three houses by the heroic efforts of the citizens aided by a couple of companies from the city fire department.

The internal management committee of the board of education discovered this evening that they had a small sized strike on their hands. The teachers are not qualified to teach the children in the annual training classes of the art of basket weaving, which is on the manual training curriculum, and the manual training teachers refuse to instruct the teachers in the art. The inspector was told to investigate and act. The residents of the east end petition to have addition made to the Barton-street school. An indoor rifle range will be installed for the collegiate cadets. Lily King was taken to the cells to-night on the charge of obtaining \$19 by fraud.

Treasurer's Statement. The treasurer's statement showing how much money the city officials had last year was issued to-day. It shows that some of the officials drew perquisites in the way of secretarial salaries for other work. Some of the foremen were also paid at various rates, drawing from \$16 to \$27 a week. The matter will be investigated by the council.

The Beach commissioners have been advised that the government bill wiping out licenses in Saltfleet Township will not affect the Beach, where there are three licenses, which will be under the control of the Beach commissioners. Stewart & Wilton are building four three-story store and apartment buildings on the corner of King-street, between Jarvis and Wellington-streets. Custody of a Child. John Pitts has succeeded in getting an injunction restraining his sister-in-law, Mrs. Pajules, from taking charge of his child until the dispute is settled in the courts.

The New Arlington. Now open for visitors. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. Geo. McIntyre, Phone 2482. See Billy Carroll's Pipes to-day at the Grand Opera House Clear Store. Skedden & Son, Painters, Decorators, Paperhangers, 152 King-street W. During the pure food show at T. Eaton & Co's, Toronto, do not forget to visit the booth of the Wagonette staff, Limited, preservers of pure jams, jellies, marmalades and sealed fruits. Free demonstration opposite the meat counter. 46512

SEEMING. It sometimes seems that life is full of bitterness—it sometimes seems that our few joys are only dreams. Too often forgotten in the dull monotony of tears. It sometimes seems, however it be, that sorrows dwell in memory. And rattle even when the night. From which they came has passed from sight. Adown the flood of years.

It sometimes seems that friends are few. Tho' many smile, but few remain. That of them all one may be true. That many and pangs of pain that may beset our way. It sometimes seems that love of gold has gripped all men within its hold; That men are grown as less to man than when the lawn of love began. In that far-distant day.

And yet, 'tis true, however it seem. Of joy and sorrow man is king; That man is lord of fleeting dream, And man or breaks the magic ring That circles him— And still 'tis true that one can find Hearts that are none and fond and free, That earth is such as God designed, That God is kind to you and me, However it seem. —Floyd D. Raze.

Miss Edith Margaret Small of Montreal is registered at the King Edward. Miss Small appears on Monday evening in Association Hall in "An Evening with the Habitant."

BOATING

How about that new boat or launch that you are going to get, for this spring? Have you asked the Jutten Boat Launch Works of Hamilton for a catalogue and prices?

NAME A COMMISSIONER SAY ALDERMEN TO BOARD

Resolution of Parks Committee Asks Controllers to Choose Successor to Mr. Chambers.

"In view of the fact that the spring is now on and so much spring work on hand, and some of our most important parks now only in charge of temporary caretakers, this committee deem it advisable and in the best interest of the city that a park commissioner be appointed at the earliest possible date, in order that the working of the parks may as soon as possible be established on a permanent basis."

The foregoing resolution was unanimously passed at a meeting of the civic parks and exhibition committee yesterday afternoon on the motion of Ald. Vaughan. It will be forwarded to the board of control as a gentle intimation that the aldermen are losing patience over the delay.

Ald. Bengough, who was seconder, declared that the new commissioner must be a "good, big, large barreled man," which estimate of the qualifications needed was approved by the committee. Commissioner Harris reported that Robert Carlton, superintendent of Queen's Park, was in charge of the park, and recommended that his services be continued temporarily at \$13.50 per week. The committee, however, thought Mr. Carlton, who is 74 years old and has served the city for 44 years, should be at once retired on an allowance, and some responsible person should be appointed in his place.

The sub-committee appointed to report on a system of playgrounds through the city reported that, owing to present unsettled conditions in the department, it had been impossible to present to let matters stand. A new committee, of Ald. Vaughan, Bengough and R. H. Graham, was named to make the usual "comprehensive" report.

The modified plans for a palmhouse in Allan Gardens were passed. The proposal is to build only the central portion, leaving the two wings to be constructed later, should council so will it. Whereas, the complete plan would cost \$75,000 to carry out, the revised one only carries out the cost of \$30,000, and as there is about \$26,000 insurance fund on hand from the old pavilion, an actual expenditure of about \$4000 will alone be necessary.

Ald. Foster's conviction was that the proper place for the newly-owned pair of buffaloes was the Riverbank, said Ald. Adams was equally positive that they could only thrive in High Park. The chairman, to break the deadlock, proposed that a sub-committee should report on a suitable location, which was carried.

Exit Mr. Duggan. E. H. Duggan, clerk of the 19th division court, must vacate his quarters in the city hall.

At the meeting of the civic property committee yesterday afternoon Commissioner Harris reported, said Mr. Duggan, who occupies offices in the west corridor of the basement floor, had declined to sign a lease for the new quarters into which it was proposed to remove him in carrying out the plan of readjustment of offices. The committee thereupon decided that Mr. Duggan must leave the building, and if he can manage to do so, he should be removed from the premises.

The proposal of Mr. Harris that the board of control should be asked to inquire into the estimates of a brick pavement at the entrance to the driveways at Harbor-square was concurred in. The cost is estimated at \$675.40.

Parks Enquiry Report. Judge Winchester says he will have his report on the parks investigation ready for the council meeting of Monday, April 13. It will be placed in the hands of the mayor on the morning of the meeting.

Controller Hocken, when asked whether the resolution would hasten the nominating of a commissioner, said he didn't think it would have any effect, as the board was unlikely to make any decision before the end of next week. Asked whether he would be any nearer an agreement, he replied: "All I can say is that a process of elimination is being followed, and among the many applicants there are several who have a chance."

THE FACTORY BEHIND THE STORE

Choice Lots for Immediate Sale. EGLINTON. Brier Hill and Hawthorne Avenues.

Healthiest position in North Toronto. High level land, good drainage, close to schools and churches. 3 minutes' walk to cars; town water mains and concrete sidewalks to property. WANTED—INDEPENDENT MEN.

One of the most encouraging things in Canadian politics to-day is the growing spirit of independence. There is still much, far too much, of blind, unreasoning, conscience-deadening partisanship, but the independent spirit is abroad and is growing.

PROVINCIAL RIGHTS AND THE FEDERAL GOVERNMENT.

More disingenuous than convincing are the efforts made to delude the people of Ontario into the belief that the Liberal party is the stern protector and defender of provincial rights.

THEY "BEAT THE CAR-FARE BEATS."

New York Commercial: A short paragraph in these columns a few days ago, intimated, rather facetiously, that the real object of the New York City Railway Company in placing the new "pay-as-you-enter" cars on the Fourth and Madison-avenue line was to collect all the fares.

THE CRY OF GERRYMANDER.

Gerrymander is a mouth-filling word always much in evidence when constituencies are under revision. Probably there never was a redistribution measure which did not give real or fancied occasion to the party then in opposition to hurl accusations at the responsible government of adjusting boundaries from political motives.

ONE WORD BREAKS WILL.

The township clerk did up the will of John McIntosh of the Township of Grey, and referred to the farm stock, implements, etc., as "appurtenances."

AT OSGOOD HALL.

Master's Chambers. Cartwright, master, at 11 a.m. Judges' Chambers. The hon. the chancellor at 11 a.m.

FISH PRESERVATION.

Bobbycayn Independent: One of the most useful movements inaugurated of late years has been the Ontario Fish and Game Protective Association, which now numbers some 40 branches.

WANTS POSSESSION OF HIS DAUGHTER.

John Campbell McLachlan of Toronto, a designer and inventor of steam engines, brought an action against the executors of the estate of Nathaniel Dymond, carrying on business as the firm of Dymond & Co., asking for \$25 a month interim alimony.

INTERPRETATION OF A WILL.

Catherine Amelia Jacklin of Grey Township, a daughter of late Charles Hudson, a farmer, moved before Chancellor Boyd in single court for an injunction restraining the executors of her father's estate from removing his child, Dorothy, from her custody.

CANADIAN ENTERPRISE.

For energetic action, ability and thoroughness, nothing surpasses the Canadian people, and the "Empire College of Opticianry," a new institution, founded by Dr. Harry E. Noe, is no exception to this rule.

LABOR'S REQUESTS.

Old Age Pensions, Shipping Bounty and Other Matters. OTTAWA, April 2.—The National Trades and Labor Council of Canada, thru its representative, interviewed Sir Wilfrid Laurier and Hon. Robolphe Lemieux to present to them the resolutions passed at the annual convention in Glace Bay.

WAS MARRIAGE LEGAL?

Parents of Frank Reeves Seek to Recover Property From Widow. The question of the validity of a divorce secured in the State of Illinois was involved in a case heard by Justice Riddell in the non-jury assizes yesterday.

CANON WELCH FAVORS REDUCTION IN LICENSES.

Without expressing any opinion as to the wisdom or justice of the methods adopted by the council toward license reduction, Canon Welch, in the course of his noonday sermon at St. James' Cathedral, strongly favored the principle.

BANK GETS JUDGMENT.

Justice Riddell gave judgment yesterday in favor of the Severn Bank for \$2000, interests and costs, an action brought by the bank against the estate of the late J. T. Slater.

THE T. EATON CO LIMITED

THE HOUSE THAT VALUE BUILT

Easter Saturday Only Two Week Away

This Saturday should be a full day of humming activity in every section of the store that sells Spring wearables. Because now each and every stock is full to the brim in assortment.

Men Save Largely on Stylish Boots

410 pairs ready at 8 o'clock. We've every reason to expect them to disappear within an hour. Why? Well, they're new styles, they're patent leathers, as well as dongola kid, and they're priced lower than the maker MADE them for.

Choose From All the New Hat Styles

ONTARIO'S GOLD LANDS WEST OF GREAT LAKES

Interesting Facts About Section of Province Rich in Mineral Resources.

ONTARIO'S GOLD FIELDS.

W. Saunders of Kenora commences to-day a series of letters on the trans-Superior gold fields. The letters will appear at intervals, and will contain valuable information on this interesting topic.

By W. Saunders.

KENORA, April 2.—The troubles of this part of the province, which occurred between the eighteenth and nineteenth centuries, have not only retarded the prospecting of the country for metal and mineral deposits, but have also retarded the development of the trans-Superior gold fields.

In the year 1881 the pioneer railway company opened the gates of the west to the gold-seeker, and it was not very long after that that the first rush of prospectors made their appearance in Portage as the principal centre of the Lake of the Woods. Their finds may be taken in hand in order of date, showing the lines they adopted.

Boundary Dispute.—The boundary dispute of 1882 between Manitoba and Ontario unsettled things for a time, as it was not considered wise to invest money where the title was considered insecure.

Flissure veins have been found and worked on numerous properties at the Lake of the Woods, but owing to the methods used in mine management, and to the unscientific way of treating the ores, the companies owning these properties have been suffering, and the mines which ought to have produced dividends to their stockholders have been closed down.

Change is Coming.—A change is becoming apparent, however, and the district is likely to rival the Manitowish, which, owing to Anthony Blum's scientific methods adopted at the Laurentian, has sprung to the front as a gold producer.

Coal Men Deadlocked.—PITTSBURG, April 2.—Shortly after 3 o'clock the conference between the miners and operators adjourned without reaching settlement. Both sides were deadlocked all day, but it is said another effort will be made in a few days.

Threaten Rockefeller's Daughter.—CHICAGO, April 2.—Mrs. Harold McCormick, daughter of John D. Rockefeller, is verging on nervous breakdown and has prepared to depart hastily from the city as a result of a series of letters received by her, threatening her life and the lives of her children.

Evelyn's Case Monday.—NEW YORK, April 2.—The suit of Evelyn Thaw for the annulment of her marriage to Harry Thaw will come up in the supreme court on Monday next.

A certainly. Then an erratic dip lower down of the vein caused a lot of unnecessary exploration at those levels which cost a considerable amount of money to its promoters, and did little good. Later knowledge bears this out.

The Ophir Mine, which proved itself at once as being the richest prospect in the whole district, met with legal troubles which closed it down. But these are now got rid of, and the property is to be united with the Sultana under its new regime.

Another prospect named the Crown Reef was sunk to a depth of 100 feet, and when it is stated that the ore averages between 11 and 12 dwts. to the ton, it will readily be wondered at why it has not returned continuous dividends. For the same reasons as before stated, a loose system of mining, inexperienced handling and want of proper control.

Other Good Prospects.—There are numerous other excellent prospects on the Lake of the Woods, and special mention can be made of the Victory and the Gold Coin, the former of which, with only three or four men working this past three months, only last week sent a brick valued at \$4000 to Montreal. With regard to the second named, it is remarkable that an English company, after expending about \$50,000 in the purchase of the property, should have brought it to liquidate without proceeding any further, as it contains some fine veins.

The coming season will therefore witness a revival of the gold mining industry in Ontario from the Lake of the Woods portion of that province, and as there are now some British Columbia miners as well as American with-in touch, it can be seen that a different aspect is becoming apparent from the hazy stage of primitive gold mining that was in evidence about 1896-8.

OUTBID J. P. MORGAN.

George H. Gooderham, who is touring Europe with Dr. Joon, has purchased the famous painting "The Temptation of St. Anthony," at Florence. It is stated in a letter from Dr. Orr that Mr. Gooderham had as competitor the bidding the Russian Government, the Vatican and J. Pierpont Morgan.

LOCAL TOPICS.

The Toronto Plate Glass Importing Company has applied for permission to construct a four-inch pipe from their factory on the Don Roadway into the River, to enable them to pump the river water into a conveyor of sand.

Mr. D. McNeill, first vice-president, J. W. Leonard, general manager of the C.P.R., were in the city yesterday inspecting the Toronto terminals, including the yards at West Toronto and North Toronto. A number of local officials accompanied them.

Two hundred emigrants passed thru Toronto yesterday morning for St. John, where they will take steamers for Europe. They are from the Middle States, a large proportion coming from Chicago.

A Large-Hearted Judge.—KINGSTON, April 2.—After the dismissal of the assault case this morning, Chief Justice Sir W. Mulock wired to Ottawa at his own expense, requesting the minister of justice to release the prisoner, Minerva Topping, who is serving a two-months sentence for vagrancy in the County Jail, in view of having her sent home to her parents.

Sun Shines Out West.—WINNIPEG, April 2.—To-day the weather is warm and sunny, following the great storm of yesterday, and the indications are that spring has come to stay.

Low temperatures are reported from a number of places along the line of the C.P.R., but on the whole the weather map is encouraging.

Fatal Tenement Fire.—NEW YORK, April 2.—Three persons were killed, fifteen injured, some seriously, and the lives of nearly a hundred persons were endangered by fire in a 5-story tenement house at 44 Hester street early to-day. The dead are Berel Weinstein, his wife Anna and their one-year-old son. They were suffocated in their apartments on the fifth floor.

Threaten Rockefeller's Daughter.—CHICAGO, April 2.—Mrs. Harold McCormick, daughter of John D. Rockefeller, is verging on nervous breakdown and has prepared to depart hastily from the city as a result of a series of letters received by her, threatening her life and the lives of her children.

Evelyn's Case Monday.—NEW YORK, April 2.—The suit of Evelyn Thaw for the annulment of her marriage to Harry Thaw will come up in the supreme court on Monday next.

A Square Deal

PEOPLE MUST VOTE UPON NEW CAR LINE TO FAIR Private Bills Committee Knocks Out Several Important Civic Projects.

The city's bill met with but indifferent success before the private bills committee of the legislature yesterday, the most important requests being turned down.

Another stiff jolt was the throwing out of the clause asking for power to expend \$13,000 for an eastern entrance to the exhibition grounds. Mayor Oliver and Controller Spence urged that the need of relieving the overcrowding at the fair was imperative and that the people had voted down the undertaking.

Hon. Adam Beck and the people of London had not found the Free Sanitarium at Muskoka as open an institution as the name would imply. The committee was unanimous in killing the request for power to contribute \$50,000 each to Grace, Western and St. Michael's hospitals, and of Home for Incurables. The approval of the ratemakers should be obtained, so it was ruled.

Fatal Tenement Fire.—NEW YORK, April 2.—Three persons were killed, fifteen injured, some seriously, and the lives of nearly a hundred persons were endangered by fire in a 5-story tenement house at 44 Hester street early to-day. The dead are Berel Weinstein, his wife Anna and their one-year-old son. They were suffocated in their apartments on the fifth floor.

Threaten Rockefeller's Daughter.—CHICAGO, April 2.—Mrs. Harold McCormick, daughter of John D. Rockefeller, is verging on nervous breakdown and has prepared to depart hastily from the city as a result of a series of letters received by her, threatening her life and the lives of her children.

Evelyn's Case Monday.—NEW YORK, April 2.—The suit of Evelyn Thaw for the annulment of her marriage to Harry Thaw will come up in the supreme court on Monday next.

STOLE STEER LAST FALL. Henry Vanderberg Clutched by Law's Long Arm. DAVIDSON, Sask., April 2.—(Special.)—Henry Vanderberg was committed for trial by Justice of the Peace Martin for stealing a steer last November.

CONDUCTOR GRABBED HIM AND MAGISTRATE FINES N. E. Galster, a street car conductor, was fined \$1 and costs for assaulting a passenger, James Irwin, who said that in some trouble arising from the ringing of the bell the conductor had grabbed him and threatened to put him off.

In Court at Guelph. GUELPH, April 2.—(Special.)—Mark Price, the man caught by the police on Monday night ransacking the house of H. Gummer, appeared before Judge Chetwick to-day. Price elected a friend, tried by a jury and was taken back to the jail. His case will come up at the spring assizes, which open on April 28.

Suffered From Heart and Nerve Troubles FOR THE Last Ten Years. The heart has supplied to it two sets of nerves, one set which quickens, the other which slows its action. The proper action of these nerves, so important to the well-being of the heart, depends upon the general condition of the nervous system.

James Moss secured judgment for \$128.97 and costs for wages against his father, of the Moss Chemical Company, yesterday. Justice Riddell, when delivering judgment, said: "It is a matter of great regret that a family affair of this sort could not be settled out of court. Father and son enter the witness stand and try to prove perjury against each other."

Is Magistrate Carrol Now. GANANOQUE, April 2.—(Special.)—W. B. Carrol, K.C., has been appointed police magistrate for Gananoque.

VENEZUELA'S RETORT TO UNITED STATES CURT Government of South American Republic Refuses to Consider Note of Mr. Root.

CARACAS, April 2.—President Castro's official organ, El Constitucional, publishes a part of Venezuela's answer to Secretary Root's last note, reiterating the secretary's previous demands for the arbitration of the five American claims. These are the words of the Venezuelan minister of foreign affairs to Minister Russell: "The Government of Venezuela refuses for the time being to take under consideration the insinuation made in your note because, up to now Mr. Minister, you have not contradicted the notes of this ministry of dates July 9 and Sept. 20, which treat of the point which have been the subject of discussion, and in which the reasons on which this government then founded its negative were perfectly well defined; in view of this, the cases in question comprised among those which require diplomatic action, cannot be considered, and the Government of Venezuela would see with satisfaction that the United States would consider this matter terminated, the interested parties always having the right of recourse to the tribunals of justice of the republic if they deem it convenient."

Whitney Club at Brighton. BRIGHTON, April 2.—The Whitney Conservative Club was formed here last night, electing the following officers: Hon. president, C. L. Owne; president, George Drewery, S.A.; vice-president, H. B. Phillips; secretary, O. L. Morrow. The club is holding a big smoker next Tuesday evening.

The plan for Carl H. Hunter's soiree musicale, announced for Tuesday next at the Conservatory Hall, opens this morning at Nordheimer's. It will be under the patronage of His Honor Lt. Gov and Lady Mortimer Clark. Mr. Hunter comes direct from Germany, where he studied under the eminent master, Julius Heye. He will be assisted by Miss Holoye Keating, harpist, and Paul Hahn, cellist.

Hon. Robert Rogers of Winnipeg was in the city yesterday, en route to Ottawa.

The amusement committee of the convention of Methodist Church workers, now in session in the Metropolitan Church, yesterday treated the delegates to a program of music, in which the following local artists took part: Miss Bertha Crawford, Miss Corabelle Macdonald, Miss Cook and Miss E. Pearl Brock.

MR. FOSTER'S INVITATIONS. Invitations will be sent to Hon. A. B. Aylesworth, W. H. Shaw, Liberal candidate in North Toronto, and Rev. J. A. Macdonald, editor of The Globe, to attend Hon. Geo. E. Foster's opening meeting in Association Hall.

Fix Standard Weight for Ordinary Bread. Ordinary bread must be a standard weight of one and a half pounds, according to the decision of the bread committee of the legislature, which concluded its work yesterday.

THE BARRIER "Better than The Spoilers" First of all this new novel by Rex Beach is a big, buoyant, bracing story of the last frontier—Alaska—a story with the dash and swing of The Spoilers. This is one-half of THE BARRIER. The other half is its triumphant love story. Here the new book By REX BEACH far surpasses The Spoilers. There is a new setting, too, but still in the virile air of the North. The new people whom Mr. Beach makes live before you in the clean-cut pages of THE BARRIER are intensely human. More than one of them will become celebrities in fiction. HARPER & BROTHERS

### REFORMING OF PRISONS NEW METHODS SUGGESTED

Debate in Legislature is Continued --Label on Prison-Made Goods.

The debate on the prison labor resolution was resumed at the evening session of the legislature yesterday. T. H. Preston (Brant), who is the opposition specialist on the subject, took up the debate. He did not concede that the contract system was a legacy from the late government, but the investigation of the subject and the reception of the report carried the matter to a new stage. Only first offenders were admitted at Mansfield, Ohio, and he supposed the government would adopt a similar step at the Central. He believed that the plan of the provincial secretary would receive the best wishes of the house and the province. He pleaded for the boys engaged in factories and street trades that they might be preserved from incarceration in penal institutions. He had tried to engage a new boy at the Union station, but on returning next day found him absent, and on enquiry he found he was drunk. This incident illustrated the dangers that beset the lives of this class and the necessity of considering their reform. The opposition had no fault to find with the report of the commission.

**Technical Education.**  
F. Macdormid, as a member of the commission, believed the recommendations of the report would be effective in meeting the conditions. He endorsed the idea of technical education and hoped for the success of a great reformatory as outlined.

Allan Studholme hoped to live to see the time when the plan would be brought to a practical end. For 20 years he had preached the doctrine of back to the land for the prisoners, and he hoped they would prove worthy of the trust that the system would require of them. He was convinced of the good faith of the government in presenting this report, judging from the action of the provincial secretary in connection with the Mercer Refuge for Girls.

**Downey is Belligerent.**  
Joseph P. Downey made a somewhat pugnacious speech, taking up the contrast of conditions under the former government with the present, and discussing the hostile arguments of the opposition. Their amendment respecting contract labor would have plunged 450 prisoners in idleness a condition which was well known to be the most disastrous that could befall those in confinement. On the question of labeling prison-made goods, Mr. Downey was especially emphatic. States which had a label law had not observed it, and should it be observed in Ontario and the sale of prison-made goods stopped, would the opposition assume responsibility for the insanity and deaths which would result among the prisoners from enforced idleness.

He paid a glowing compliment to the noble men engaged in the prison reform work of the States, and stated that he had never met any persons more fully seized with the responsibility of their high duties. He trusted the days of the penal system in Ontario were numbered, to give place to the humane reformatory system proposed. E. J. B. Fense did not consider Ontario had any reason to be ashamed of the Central Prison. At Kingston the lock-step, the triangle and the dark cell had been abolished, and the parole system established. He hoped Mr. Downey would revise his opinion of the opposition with respect to what had been accomplished for reform by them.

The resolutions were adopted and concurred in by committee.

**Better School Attendance.**  
Major Craig made a spirited plea for the necessity of taking steps to secure better school attendance in moving the second reading of his bill to amend the Truancy Act. There were 100,000 children who never attended school in the province.

T. H. Preston (Brant) congratulated Major Craig on his stand on extending the length of the school term.

Allan Studholme also supported the measure, but Hon. Dr. Pyne requested the withdrawal of the bill, promising to have the matter taken into consideration.

Seventeen bills were given a third reading and half a dozen more were read a second time in the course of the day's work.

An amendment to Hon. Mr. Cochrane's revenue bill will permit the revaluation of old mining claims.

The provincial secretary laid a pile of about 20 reports and returns on the table, and they were sent to the printer.

The redistribution scheme will be taken up to-day.

### SOME AMENDMENTS TO THE AUTO LAWS

Special Committee of the Legislature Decide on Recommendation.

The special committee of the legislature appointed to consider the several proposed amendments to the laws in relation to automobiles has prepared a report to be submitted to the municipal committee. The suggestions adopted are:

That when a horse is frightened the chauffeur must shut off his engine;

That autos should stop on meeting a funeral;

That the license fee be increased from \$2 to \$5 and \$10, so that more officers may be employed to enforce the law.

The committee reported against the imprisonment penalty and the proposal to debar motorists from the use of the roads at certain hours.

**Montreal Service.**  
Four Grand Trunk trains leave Toronto daily for Montreal as follows: 7:30 a.m., 9:00 a.m., 3:30 p.m. and 10:15 p.m. The 9:00 a.m. carries car parlor car to Montreal and through Boston sleeper. The 3:30 p.m. and 10:15 p.m. carry through sleepers and make connections at Montreal with Intercolonial for points in maritime provinces. The Grand Trunk is the only double track line between Toronto and Montreal. Secure tickets at city office, northwest corner King and Yonge-streets.

### Julia Marlowe Seen in Role of Rosalind

Talented Actress Opens Brief Engagement at Princess Theatre Before Large Audience.

**"AS YOU LIKE IT"**  
Duke, living in banishment, had been suspended, having regard to the fact that no offence had been mentioned by the commission. It seemed to Mr. Borden that the report was a condemnation of the department as a whole.

Mr. Brodeur replied that one of the officers was suspended some time ago. As to the others, Mr. Fraser and J. U. Gregory, the minister had made some enquiries and found out orders given by himself had been disregarded by these officers.

"They were not suspended as a result of the report of the commission?" asked Mr. Borden.

It was the report, said Mr. Brodeur, of some enquiries made by himself since the report was brought down. He would bring down the papers.

**A Letter From Justice Cassels.**  
Sir Wilfrid Laurier said he had a letter from Justice Cassels, which he had not yet read.

Mr. Blain asked how many copies of the civil service report would be printed. There was a great demand for it.

This, replied Mr. Fielding, was under the control of the printing committee.

Mr. Borden asked when the third reading, Owen, was suspended, and upon what grounds.

"On account of his private conduct," said Mr. Brodeur, "I wouldn't like to give the reasons."

Mr. Fielding corrected an answer he gave some days ago with regard to advances made to the bank on account of the Quebec bridge. In addition to the sum mentioned, there was an item of \$155,000 advanced by the bank to the company, which went into construction of the bridge.

Mr. Speaker announced that a joint meeting of the house of commons and the senate would be held at 11 o'clock tomorrow in the senate chamber, to discuss the Champlain treaty.

Mr. Graham informed Mr. Laor that John B. Scott, deputy superintendent of the Welland Canal, at Dunnville, had not resigned.

**To Be Decided.**  
The wife of the postmaster at Weston has contracted smallpox. It is believed that the handling of mail in the office, tho that is not altogether certain. The postal authorities here state that nothing definite has been decided on as to the disposition of the mail matter, but they will decide the question to-day.

### REFORMING OF PRISONS NEW METHODS SUGGESTED

Debate in Legislature is Continued --Label on Prison-Made Goods.

The debate on the prison labor resolution was resumed at the evening session of the legislature yesterday. T. H. Preston (Brant), who is the opposition specialist on the subject, took up the debate. He did not concede that the contract system was a legacy from the late government, but the investigation of the subject and the reception of the report carried the matter to a new stage. Only first offenders were admitted at Mansfield, Ohio, and he supposed the government would adopt a similar step at the Central. He believed that the plan of the provincial secretary would receive the best wishes of the house and the province. He pleaded for the boys engaged in factories and street trades that they might be preserved from incarceration in penal institutions. He had tried to engage a new boy at the Union station, but on returning next day found him absent, and on enquiry he found he was drunk. This incident illustrated the dangers that beset the lives of this class and the necessity of considering their reform. The opposition had no fault to find with the report of the commission.

**Technical Education.**  
F. Macdormid, as a member of the commission, believed the recommendations of the report would be effective in meeting the conditions. He endorsed the idea of technical education and hoped for the success of a great reformatory as outlined.

Allan Studholme hoped to live to see the time when the plan would be brought to a practical end. For 20 years he had preached the doctrine of back to the land for the prisoners, and he hoped they would prove worthy of the trust that the system would require of them. He was convinced of the good faith of the government in presenting this report, judging from the action of the provincial secretary in connection with the Mercer Refuge for Girls.

**Downey is Belligerent.**  
Joseph P. Downey made a somewhat pugnacious speech, taking up the contrast of conditions under the former government with the present, and discussing the hostile arguments of the opposition. Their amendment respecting contract labor would have plunged 450 prisoners in idleness a condition which was well known to be the most disastrous that could befall those in confinement. On the question of labeling prison-made goods, Mr. Downey was especially emphatic. States which had a label law had not observed it, and should it be observed in Ontario and the sale of prison-made goods stopped, would the opposition assume responsibility for the insanity and deaths which would result among the prisoners from enforced idleness.

He paid a glowing compliment to the noble men engaged in the prison reform work of the States, and stated that he had never met any persons more fully seized with the responsibility of their high duties. He trusted the days of the penal system in Ontario were numbered, to give place to the humane reformatory system proposed. E. J. B. Fense did not consider Ontario had any reason to be ashamed of the Central Prison. At Kingston the lock-step, the triangle and the dark cell had been abolished, and the parole system established. He hoped Mr. Downey would revise his opinion of the opposition with respect to what had been accomplished for reform by them.

The resolutions were adopted and concurred in by committee.

**Better School Attendance.**  
Major Craig made a spirited plea for the necessity of taking steps to secure better school attendance in moving the second reading of his bill to amend the Truancy Act. There were 100,000 children who never attended school in the province.

T. H. Preston (Brant) congratulated Major Craig on his stand on extending the length of the school term.

Allan Studholme also supported the measure, but Hon. Dr. Pyne requested the withdrawal of the bill, promising to have the matter taken into consideration.

Seventeen bills were given a third reading and half a dozen more were read a second time in the course of the day's work.

An amendment to Hon. Mr. Cochrane's revenue bill will permit the revaluation of old mining claims.

The provincial secretary laid a pile of about 20 reports and returns on the table, and they were sent to the printer.

The redistribution scheme will be taken up to-day.

### LEG AMPUTATED WITH POCKET KNIFE IN WRECK

While Pinioned Under Wreckage, J. A. McKittrick Pleaded With Minister to Perform Operation.

**CENSURED AID. KEELER.**  
ST. LOUIS, April 2.—While pinioned under the wreckage following a collision between a freight and a Burlington passenger train at Spanish Lake, near here, to-day, J. A. McKittrick suffered the amputation of his leg with a pocket knife in order to avoid death from the scalding steam.

The utterances to which the council took exception were those in which Aid. Keeler expressed himself as ashamed of the arguments of President Kennedy that brewery workers, cigar-makers and others would be put out of work should the number of licenses be reduced, and that it was desirable that these classes of workers should be thrown out of employment.

The resolution, which was moved by Delegate H. P. Stephens, caused some discussion. It was opposed by Delegate James Simpson, who argued that temperance questions should be kept out of municipal politics. The supporters of the resolution explained that no objection was taken to the alderman's temperance leanings, but to his reference to the board of control of accepting tenders for painting and decorating the interior of the city hall, was opposed by the council, which will ask that the day labor plan be followed.

### NORTHERN W. C. T. U. MEETS

Mayor Oliver One of Speakers in Central Methodist Schoolhouse.

At a meeting of the northern branch of the W. C. T. U., held in the schoolroom of Central Methodist Church last night, the chair was occupied by Fox, and addresses were made by the Oliver, Aid. Hales and Thos. Gibson. Both the mayor and Aid. Hales referred incidentally to the license reduction question, expressing the opinion that it marked a step in the right direction and that there was no need for discouragement because of the temporary setback.

A resolution of thanks to the speakers and musical entertainers was made by Rev. J. W. Smith.

An excellent cement for mending almost anything may be made by mixing litharge and glycerine to consistency of thick cream or fresh putty.

Our method of testing corn is accurate, simple and quick, and may appeal to the busy farmer...

Now the insistent cry of the boomer is that the 1907 hog crop 'is all in'.

The best food for suckling sows is generally considered to be a mixture of this should be continued until the litter is at least six weeks old.

Is Killing the Babies, Who Die Like Rats. VANCOUVER, April 2.—(Special.)—Dr. J. A. Kendall made several exceedingly startling statements regarding the city milk supply in an appeal this afternoon presented to the city council to insist on bacteriological test.

SNUFF TAKING. A tobacco exhibition is to be held in London shortly because of the recent legislation against juvenile smoking that an attempt is to be made to put new milk, will be much enjoyed by the sucklers, and prove of great benefit as well.

FOR SALE. Team of registered Clydesdale fillies, one is full of Galant Chateau.

SPRAYING FRUIT TREES NEEDED TO MAKE MONEY

Too Many Poor Apples and Other Fruits Go Out From Ontario—Improved by Spraying.

It was scientifically demonstrated some years ago that spraying, properly done, saves 75 per cent. of our fruit otherwise destroyed by insects or diseases...

What, then, are the pests which the fruit raiser, or the berry raiser must fight here. Amongst plant diseases the apple scab which distorts the apples and impairs the working capacity of the leaves is the bight guard to control, he said, and various mildews and rusts.

A host of insects menace the fruit raiser, such as the plum curculio, codling moth, scale insects, plant lice, tent caterpillars, climbing cut worms, web worms, borers, leaf miners, leaf gnawers, apple maggots, twig gnawers, etc.

The practical fruit raiser or farmer asks at once if there is not some inexpensive compound which, if faithfully used, will keep in check both fungus and insect attack.

Goose eggs for setting should not be kept longer than ten days at the outside. Best results are obtained from the eggs set not longer than a week after being laid.

Chickens do not require feeding for the first 24 hours after hatching.

Whatever the cause, the distressed condition of the bird is an indication of what is amiss. She will be found frequently going to the nest with her tail depressed as she walks.

Answers to Queries. Correction: When reading over my notes I am sorry to see a mistake occurred in the word 'pullets'.

FEATHER-SETTING (Bob): Remove the affected birds and give them an antiseptic or one part of spirits of tar to 20 of lard or vasoline, mixed and rubbed in.

GAPE. (Mrs. T.): From your letter I should judge your birds have been brought on by foul water and unclean surroundings. Sprinkle the coop floors with powdered lime and cause the infected birds to inhale the fumes of burning camphor and carbolic crystals.

BE CAREFUL OF CHILL. The latter trouble sometimes occurs when the youngsters are not of a partridge or quail disposition, since the pigling sometimes remains attached for a short time to the sow by the non-breaking of the umbilical cord, and in this case the piglet is very quickly chilled, and it takes some considerable amount of trouble to bring it round again.

THE MODEL INCUBATOR CO., LIMITED 198-200 River St., Toronto, Ont. Agents, J. A. SIMMERS, Seed Merchants, 147 King St. E., Toronto

PERFECTION SEED AND GRAIN SEPARATOR. (Patented 1901). Highest awards Toronto, Ottawa and London Falls, 1907.

THE 20th CENTURY MILL. The best mill ever made for cleaning and grading all kinds of grain. Pays for itself in one season.

EMPEROR WILL BE CAREFUL. VIENNA, April 2.—As a measure of precaution on account of ill-health, Emperor Francis Joseph will abstain from taking part in the customary holy week ceremonies, which included the washing of the feet of the poor.

POULTRY NOTES

By F. C. S. (By F. C. S.)

Chicks Dead in Shell.

Complaints come in at this time of the year that chickens are dying in the shell at the latter stages of incubation.

Chickens that are mopey, and to be used for setting purposes, should not be carried by her legs or wings, but merely lifted carefully off the nest and supported firmly around the back part of the body, holding the wings so that she cannot flap them.

GOOSE EGGS FOR SETTING should not be kept longer than ten days at the outside. Best results are obtained from the eggs set not longer than a week after being laid.

CHICKENS DO NOT require feeding for the first 24 hours after hatching.

WHATEVER the cause, the distressed condition of the bird is an indication of what is amiss. She will be found frequently going to the nest with her tail depressed as she walks.

OAK PARK STOCK SALE

CRAYKE MIKADO \$1900

First Annual Sale of Stock on This Historic Farm Brings Fair Prices—Cold, Windy Day.

BRANTFORD, April 2.—(Special.)—The first annual auction sale of stock from the Oak Park Stock Farm took place to-day. Welby Almas, the noted auctioneer, handled the sale, and in spite of a cold, blustering day, made some warm work in the ring.

CRAYKE MIKADO, a grand champion of the present proprietors, who have maintained the farm in a condition worthy of its past and also its great possibilities. A fine field of fall wheat looked in good shape for 40 bushels to the acre this year, it too many freezing days do not intervene. Immense stacks of straw and well-filled hay barns attest to the productiveness of the soil.

## Everything a Man Wants for Spring Ready in the Men's Store Saturday

### Buy Oxfords for Warmer Weather

The last flick of winter occurred yesterday. Look for and prepare for balmy spring now, Easter is coming. April has nicely begun. Buy your oxfords. The sale of oxfords at Simpson's was the feature of March. Its conclusion will be a feature of early April.

Gentlemen's Oxfords, in all the newest 1908 spring leathers, and styles to fit any foot. Regular \$1.00. Saturday \$2.99

**GENTLEMEN'S BOOTS.**  
300 pairs of Men's Boots, box calf, heavy slip Goodyear-welted soles, Blucher, sold throughout, our great buying power enables us to offer them to you on Saturday morning at the shoe question Saturday by buying a pair or two of these \$1.99 boots. Sale price

**O**UR Store for Men is an institution in this city. We group nearly all men's wearables in one big section of the store, where men who know what is what wait upon men and give them what men want--prompt service and expert advice.

As for values, quality, variety of choice we are ready for the one and only satisfactory test--comparison.

Come to-morrow and choose for spring. You can do better nowhere and the time to buy is come. For 8 o'clock we offer:

### \$14.00 to \$20.00 Suits for \$9.95

Men's High-grade New Spring Suits, fine imported fancy worsteds and high-class tweeds, in exclusive and correctly fashionable patterns; the shades are light and dark greys, slate, olive mixtures and dark brown, single and double-breasted sack style, with long, graceful lapels, best of trimmings, and tailored with a style that distinguishes the first-class from the ordinary. Sizes 35-44, ranging from \$14.00 to \$20.00. Saturday

**\$9.95**

- Men's New Spring Topper Coats, made from fine, closely-woven imported covert cloths, plain olive fawn, also a very dark greenish stripe, handsomely tailored with broad chest effects, and first-class linings and trimmings. Saturday \$9.50
- Men's Lightweight Spring Overcoats, three-quarter, single-breasted Chesterfield style, in a fine black cheviot, deep silk-faced lapels, silk extending to bottom of coat. Saturday \$12.00
- Men's High-grade Silk-lined Spring Overcoats, the correct single-breasted Chesterfield style, with the

new lapels, first-class interlinings and splendidly tailored; the material is a fine black English vicuna. Saturday \$18.00

### Fashionable Spring Headwear

Men's Derby Hats, all the correct styles and very large range of different proportions suitable to any features. Our selections are from the world's most famous makers. Saturday at \$1.00, \$1.50, \$2.00, \$2.50 and \$3.50.  
Men's Soft Hats, new, up-to-date shapes, colors black, brown, tan and grey, fine grade English and American fur felt. Regular \$1.50 and \$2.00 hats. Saturday \$9c  
Men's Silk Hats, latest spring shapes, fine qualities and good finish. Easy fitting. \$3.50 to \$7.50 Prices

### The Simpson Shoe for Men, \$4.00 a Pair

The Victor shoe is a Simpson shoe. It is made for us exclusively. We have the say as to what goes in it. It is our shoe.

Now we handle all sorts of shoes. We know the ins and outs of all the brands and all the makes. When we say the Victor is a \$5.00 shoe for \$4.00 it means that we have cut out the middle profits and expenses on a regular \$5.00 shoe as known to the trade.

New lasts for 1908. See them. All popular widths and sizes at \$4.00 a pair.
