BOMB FELL NEAR CAR

Another Smashed Roof of

Damage.

LONDON, Feb. 10, 7:46 p.m.—A Bri-
tish official statement was issued to-
night on the attack on the Kent coast
by German seaplanes on Wednesday.

The first raider appears to have
selected for his target a tramway car
full of women and children, and the
first bomb fell on the road close be-
hind the car and exploded without
material damage. A woman received
some cuts on the cheek.

Within a few minutes of sighting
the hostile aircraft, naval and military
aeroplanes were in pursuit, but were
unable to overtake them owing to the
precipitate nature of their flight.

Wilson Gives In to Germany
The New York papers of yesterday
substantially admit that President Wil-
son has had to modify his demands on
Germany in regard to the Lusitania.

When the Germans opened fire with
their long range gun against Belfort
today, they were speedily out of
sight by the French artillery which had
covered the position of this piece of
ordnance and which bombarded its
emplacement effectively, the enemy
being able to fire only two shells from
it. At the same time, the French

Under such instructions commanders

The intention of the Teutonic al-
lies is considered in official and
diplomatic circles here to be a de-
velopment of the memorandum pro-
posing the disarming of merchant
ships which Secretary Lansing re-
cently sent to the entente powers.

High officials of the state depart-
ment seemed to consider the claim
that the fundamental questions in-
volved in the conduct of submarine
warfare have been settled in ac-
cordance with the contentions of the
United States. This is based on the
belief that Germany and Austria
giving notice that they will sink
without warning all armed ships, the
two governments cannot legally
claim the right to sink unarmed ves-
sels.

citizens now may be warned that they

chant ships at their own risk and be
entitled to no more protection from
the United States than if they em-
barked upon a belligerent warship. Of-
ficials today seemed not to be able to
conceive that any issue could arise in
this connection.

The Day of Doom
Drives On!

The public mind grows more hopeful
daily as to an early and successful end-
ing of the war. Not that any one coun-
cels a let-up in the work of prepara-
tion; the cry is to keep on enlisting,
making shells, sending our troops across
to Europe with all speed. And to keep
on giving and serving and doing with
greater vigor than ever.

And as the allies seem to be organiz-
ing on an enormous scale for big actions
in many directions; and while Germany
seems bent on still further super-hyper-
efforts the impression broadens that it
can only end in some kind of collapse
for the Prussian-Turkish-Austrian cause.

They see they can neither down the
world nor dictate terms.
Somebody is putting out feeler after
feeler about peace negotiations; and these
are not coming from the allies. The
bankers and the bellies of the Germans
are craving for relief from the ever-
present strain. Suicide and insanity
spread!

Does the talk of a dash of the Ger-
man navy out to sea to meet the Brit-
ish fleet portend a conclusion reached
by Germany that she cannot afford to
surrender her ships, but she can help
surrender by blowing up the remnants!

Fighting fronts in Belgium and France;
in Russia, in the Balkans, in Austria
against Italy; building railways and
training men and concentrating supplies
and armaments to drive Britain out of
Egypt and to take the Suez Canal, these
are not to mention a host of other things
in hand, are too much even for a wrought-
out nation of enormous resources, long
years of preparation, and a will to any
end. Germany is unbalanced and her
own unbalancing surely means her own
overthrow!

VIMY HEIGHTS

EXPLOSION OF DEPOTS

Violent Bombardment of Ger-
man Lines in Woevre
Gives Good Results.

LONDON, Feb. 10.—Progress was
made in the underground passages
west of La Folie by the French today
in a new offensive towards the heights
of Vimy in Artois. The Germans
made two attacks against the French
lines at a point west of Hill 140 and
were repulsed, the French say, com-
pletely. The Germans exploded a mine
at a point north of the Neuville-Thelus
road and the French occupied its
crater. By a curtain of fire the French
caught a German detachment south
of the Somme River and drove it back
to its trenches, preventing its de-
velopment. A German blockhouse in
the Escurivares region was destroyed
by French artillery which also bom-
barded German cantonments.

The French report the gaining of
excellent results from a bombardment
of the knoll at Meunil in the Cham-
pagne. Some German munition de-
pots were exploded by a violent bom-
bardment of the German lines in the
Woevre region.

By a Staff Reporter.
OTTAWA, Feb. 10.—This city and
all eastern Ontario are waiting for
real hydro-electric power, distributed
by the Ontario Hydro-Electric Com-
mission. Hon. Frank Cochrane is now
back and it is hoped that the nego-
tiations between him and Sir Adam
Beck in this direction will be brought
to a successful conclusion.

Mr. Cochrane has the say as to cer-

was totally destroyed, together with
the contents. Mrs. Ramsay and her
two-week-old infant were rescued
with difficulty, the woman being se-
verely burned about the hands. Four
children were taken out in safety. A
little girl and boy lost their lives.

BANK LOANS TO
FARMERS WILL
BE ENCOURAGED

Advances to Be Made on
Security of Grain and
Live Stock.

EFFICACY IS DOUBTED

Proposal Rather Coolly Re-
ceived—Canadian Ocean
Marine Was Advocated.

By Staff Reporter.
OTTAWA, Ont., Feb. 10.—In the
house of commons this afternoon Sir
Thomas White brought forward a pro-
posal for the issue of which the western
farmers are complaining in the shape
of an amendment to the Bank Act. The
bill which he introduced, and which
received its first reading today, pro-
vides that a bank may lend money
to farmers upon security of grain and
livestock. None of the western Con-
servatives had anything to say for or
against the proposed legislation and
the western Liberals were somewhat
divided. Hon. Frank Oliver and Levi
Thompson (Qu'Appelle), favored the
proposed amendment, while Messrs.
Turiff (Assiniboia), McCraney (Saskatoon), and Buchanan (Medicine
Hat), thought it would do the small
farmer more harm than good.

Sir Wilfrid Laurier, while not oppos-
ing the bill, said that the chartered
banker could never be expected to lend
money as freely to farmers as they
did to merchants and manufacturers,
and suggested that the problem of
rural credits be seriously considered
by the government.

When the house got into committee
of supply upon the estimates of the
marine department, a number of mem-
bers on both sides of the house dis-
cussed the scarcity of ocean tonnage
and the consequent rise in ocean
freight rates. Although they differed
widely among themselves as to the
proper remedy, all agreed that some-
thing should be done to establish a
Canadian ocean marine. The majority
of those who took part in the debates
believed that the government should
substantially bonus the shipbuilding
industry, and Dr. Edwards (Frontenac) favored government ownership
and operation of ocean fleets.

ficials today seemed not to be able to
conceive that any issue could arise in
this connection.

Under such instructions commanders
would be at liberty to sink, without
warning, any armed vessel, whether
passenger or freight carrying.

The intention of the Teutonic al-
lies is considered in official and
diplomatic circles here to be a de-
velopment of the memorandum pro-
posing the disarming of merchant
ships which Secretary Lansing re-
cently sent to the entente powers.

High officials of the state depart-
ment seemed to consider the claim
that the fundamental questions in-
volved in the conduct of submarine
warfare have been settled in ac-
cordance with the contentions of the
United States. This is based on the
belief that Germany and Austria
giving notice that they will sink
without warning all armed ships, the
two governments cannot legally
claim the right to sink unarmed ves-
sels.

To Warn U. S. Citizens.
In view of this situation, American
citizens now may be warned that they
will take passage aboard armed mer-
chant ships at their own risk and be
entitled to no more protection from
the United States than if they em-
barked upon a belligerent warship. Of-
ficials today seemed not to be able to

this connection.

Y. M. C. A. MEN AMONG CANADIANS OVERSEAS

National Council Pledged Itself to Meet Growing Needs in England.

CONVENTION HAS CLOSED Military Service Department Occupied Attention of Sessions Yesterday.

A pledge to put forth the best efforts of the associations in Canada to meet the growing needs for Y.M.C.A. men among the soldiers overseas was made by the National Council at the closing meeting of the annual convention yesterday.

The secretary for western Canada, H. Balastruc, reported that 300 members of the western associations had already enlisted. Out of 15 city associations nine of the staff had enlisted and eight more had left to engage in military Y.M.C.A. work.

The military service department occupied the greater part of the attention of the sessions yesterday, and the reports of the officers reflected the magnitude of the work that the needs of the hour have thrust into first place in connection with the war.

CRITICIZE POLICE BOARD

Citizens Think Single Men Should Not Be Taken on the Force.

HAMILTON, Friday, Feb. 11.—Consequent on the Tiger Battalion's entrance into the recruiting field, the authorities in Hamilton asking the government to invoke the Canada Militia Act, whereby the government has the power to call on all men of military age for service.

Criticism is being directed at the police commission in its action in appointing a number of leading association workers from out of Toronto, among whom were Messrs. J. C. Ross (who organized Montreal and got 12,000 for the Patriotic Fund), W. M. Birks, Angus Kingman, J. F. Fraser, Halifax; J. E. Masters, Montreal, N.B.; W. W. Wilson, Quebec; J. T. Sighting of Aircraft Terrifies Montreal. Scare Started by Report of Aeroplanes Flying Over Ormstown, Que.

MONTREAL, Feb. 10.—Another aeroplane "scare" was spread thru military circles shortly after 9 o'clock tonight, when it was reported that two aeroplanes were seen flying over Ormstown, about 60 miles from this city. The aeroplanes were seen by a report made by a pilot who had been seen over that place, the time tallying with the first report. The military authorities are investigating.

SENATE APPROVES EXTENSION OF PARLIAMENT'S LIFE A YEAR

Address to Imperial Parliament for Amendment to British North America Act Carried With Division—Senator Legris Utters Complaint.

Ottawa, Feb. 10.—The senate this afternoon, after a brief discussion, unanimously adopted the address to the Imperial parliament asking that the British North America Act be amended to provide for the extension of the term of the present parliament one year.

Hon. Senator Lougheed, the government leader, said it was not unusual that the government should have considered the advisability of appealing to the country for a fresh mandate.

On the other hand there was a large body of public opinion opposed to an election on the ground that it would tend to distract attention from the war. Canada's expenses in the war were much higher in proportion than those of other countries. Canada was raising an army of 600,000, and the money paid them at the rate of \$1.10 a day would suffice for 2,000,000 men in the British army.

The resolution was adopted unanimously at the conclusion of Senator Legris' remarks.

AUSTRIAN SUSPECT IS ARRESTED AT KINGSTON

Incriminating Letter Results in Detention of Augustus Prager, Book Agent.

REBEL PLOT ALLEGED

Citizen Communicated With Post-office Authorities and Police Became Active.

KINGSTON, Ont., Feb. 10.—A big sensation was caused here this afternoon, when it became known that the police had under arrest a young Austrian named Augustus Prager, and that serious charges of plotting to do damage in the city had been laid against him.

The French War Office announced in the afternoon that by an attack with grenades the Germans were driven from some communication trenches which they had captured west of La Folle, and that the artillery duel has been continued between Hill 115 and the Neuville-Thelus road.

The perfect rendering of these exquisite phrases was in itself a sufficient test of the high efficiency, the artistic culture and the control in expression of the chorus. "John Peel" is another national chant and the setting for male voices was given with such dramatic and musical power, an encore was demanded and the final stanza was repeated.

Other Members. Applause was renewed as he concluded, the choir sang the lovely "Listen to the Larks All Acrylic." The wonderful light and shade of the chorus, "John Peel" made it the vocal triumph of the evening.

Washington Officials Speak of Barring Armed Allied Steamers From Ports.

WASHINGTON, Feb. 10.—The future of a submarine warfare conducted under these rules. It was considered that the immediate effect of such a ban would be to cause the department to be more quickly than had been deemed advisable its intention to abandon the project of arming German merchant ships.

It is reported that Bulgarian irregulars (Bashi-Bazooks), who crossed the Greek frontier, were attacked and driven back by Greek regular troops. This clash does not bode anything encouraging to Ferdinand from this quarter.

Austria has called the classes of 1865 to 1872 to the colors. These are men who reached the age of 20 years during those periods of time, so these classes, Germany, it will be found, is in about as bad a way, for last midsummer reports of various Teuton trades which were published showed that all but old men and boys had then been mobilized.

French warfare has been continued near the heights of Vimy, in northern France, with variable fortunes, but with the balance of gains apparently on the side of the French. Trenches which the Germans occupied have been retaken, the German hold being too feeble to stand the strain of a severe struggle.

From Russia the news keeps excellent, the Russians having punctured another hole in the Austrian defence and crossed the Danube River, threatening to encircle Czernowitz, and to make another advance into the Carpathians.

Allied troops are said to have reinforced the Italian garrison at Avlona. Austrian maritime attacks on transports removing the Serbians from Durazzo continue to fail. An allied aeroplane raid on Smyrna, on the coast of Asia Minor, is said to have done much damage.

ELGAR CHOIR STIRRED PATRIOTIC PULSES

ENTHUSIASM RAN HIGH

Percy Grainger's Choral Setting to Kipling's Words Was Also Splendidly Sung.

HAMILTON, Friday, Feb. 11.—With three men in khaki in the chorus tonight, eight at the front and Major Kimmons in a soldier's uniform, the Elgar Choir must be regarded as having done its share for the allies and the patriotic feeling aroused by the concert in the Grand Opera House was a real contribution to the cause.

The choir was not the sole attraction. Percy Grainger, the great English pianist and composer, repeated the program he gave in Massey Hall in Toronto on Wednesday evening with the exception of the Caesar March and the "Thousand Years" which were given in their premiere and may well be heard under such auspices in other cities.

The perfect rendering of these exquisite phrases was in itself a sufficient test of the high efficiency, the artistic culture and the control in expression of the chorus. "John Peel" is another national chant and the setting for male voices was given with such dramatic and musical power, an encore was demanded and the final stanza was repeated.

GERMAN ONSETS FAIL

Two Efforts to Check Forward Movement Were Easily Repulsed.

(Continued From Page 1.)

The German official statement claims that the Germans were captured a section of trenches from the French and recaptured one of the mine craters recently lost near Neuville, making a gain of 52 men and capturing 22 machine guns. It is admitted that directly north of Bequincourt the French succeeded in gaining a footing in a section of the foremost line of the German trenches.

British military critics do not credit Dutch reports of a coming big offensive in France by the Germans. While not so generally known that Mr. Detz is a Canadian, his friends here near Niagara Falls, I think, he is a negro and a great friend of mine. It is such a joy to hear these things here.

OAKWOOD RATEPAYERS WANT IMPROVEMENTS

Many Matters of Interest to Residents Discussed at Association Meeting.

TRANSPORTATION PROBLEM

Decided Last Night to Write Authorities Regarding Conditions in District.

A meeting of the Oakwood-Ratepayers' Association was held last evening at the home of Mrs. J. C. Cook, 1200 Clarendon Street, where the following matters were discussed: Shelter for passengers at Avenue road and St. Clair avenue; fire alarm box at Marchmont road; the Turner road grade; a passenger and freight station at Van Ben street; lights on Tyrrell avenue; the speed of automobiles on Dupont street; and the Toronto Suburban Railway Company's plan to lay out a new line.

Regarding the latter it was resolved that a letter be sent to Sir Adam Beck, secretary of the Board, asking that the Toronto Suburban Railway Company be authorized to erect a passenger station and freight depot at the intersection of Tyrrell street and Davenport road on the property given for that purpose by the Land Securities Company some time ago, and to the city council asking that the Toronto Street Railway be required to make a crossing at the intersection of Tyrrell street and Davenport road.

Thomas Jones was appointed a delegate to place the matter of a temporary sidewalk on Beeson street at the next meeting of the city council. With reference to the complaint of automobile congestion on the street, it was decided to write the City Engineer, H. G. Grant, as follows: "The inspector of the division of streets, during summer had had one of the Ford Motor Company's men fitted for speed on Beeson street, and since that time there have been no complaints of speed. A forty-five foot rapid street, located on the east side of Beeson street, is a suitable place for motor traffic. I do not know of any law prohibiting the use of Dupont street as a concrete street for motor traffic so long as there are no violations of the traffic bylaws."

# Where are the Men That Voted Against Prohibition In June, 1914?

Sixty thousand Canadian soldiers are now in the battle zone; sixty thousand more are in England, being sent forward; and the rest of a quarter of a million are in training in Canada and gradually being drafted abroad.

A little more than a year and a half ago an election was held in Ontario upon the one issue, whether the License System should be discontinued; and the answer was so decidedly in the negative that it was thought that the matter had been settled once and for all. But that is just where the ordinary, fair-minded man made a mistake; he didn't know the inner, mental workings of the prohibitionist coterie.

You see, these moral crusaders observed that the overwhelming majority of the men who have enlisted—specially of those who have gone to the front—had voted against their crusade. There is no need to discuss the reasons for their having done so; these reasons were, at any rate, sufficient to satisfy their minds that prohibition is wrong in principle and unworkable in practice; and so they would have nothing to do with it. Now, however, they are away.

## They Are Away and Cannot Vote

This is just the point—they are away and cannot vote. They went away to fight for Liberty, never for a moment imagining that advantage would be taken of their absence to pass a measure which they, as free men, had voted down.

We are not now discussing whether Prohibition is good or bad, whether it would be for the benefit of the Province or not. We are pointing out just one thing, namely, that it is not fair to bring on an election during the war. It would be inexcusable under any circumstances, when the Empire is engaged in a life-and-death struggle, and when unity above all else is essential; still more inexcusable when it had been tacitly understood that during the war no election, with all its attendant excitement and diversion of energy and enormous expense, should be held. But what shall we think of this attempt to rob Canada's gallant defenders—many of whom have given up their lives for liberty—of the victory they gained at the polls only so short a time ago? It is doubtful whether such tactics will commend themselves to the fair-minded people of Ontario.

## Is It Fair To Force the Issue Now?

The Personal Liberty League of Ontario believes in Temperance in all things, and in its promotion, we favor the license system under proper regulation and control, but we are opposed to prohibition or any legislation which encroaches upon or curtails the purely personal liberties of our people.

## NEWS FROM THE CITY HALL

### BOARD OF EDUCATION ESTIMATES PASSED

Little Criticism Was Offered at Meeting of Property Committee Yesterday. OVER QUARTER MILLION

Trustee Noble Says Girls From Home Should Not Appear in Streets in Uniform. Estimates totaling \$254,950 and providing for the property department of the board of education, were passed by the property committee yesterday afternoon. Of this amount \$222,450 is for public schools and the balance, \$32,500, is for high schools. Very little criticism was offered the items which made up the final amount except in the case of repairs for public schools, which it is estimated will amount to \$150,000. This is \$30,000 more than the estimated figure of last year and the difference called for explanations.

Superintendent Bishop reported to the committee that three contractors refuse to pay their workmen what he considers the prevailing rate of wages. He maintained that the amount they are receiving is not adequate and in answer to a question remarked, "we do not adhere to union rates nor do we propose to." The matter was sent on to the solicitor for a report. An experiment will be made in the way of heating the schools. An oil burning arrangement is to be installed and it is found satisfactory, economical and otherwise satisfactory there is a possibility of the heating systems being revolutionized within the near future.

When domestic science was under discussion, Trustee Houston mentioned that apparatus was not being used at the school for that training. He thought it could be installed very cheaply and greatly to the advantage of the girls who at present go up to Winchester School for their training. This raised a point in regard to the manner in which the girls are dressed and Trustee Dr. Noble reiterated his estimate of \$100 for an outdoor classroom and play shed at Winchester School was passed on to the board.

Major Bullock of the 97th Battalion (American Legion) also entered a protest at the way some of the meetings are being conducted. He thought that the members of the league should be impressed with the fact that every effort should be made to conduct the meetings in accordance with the Sabbath Day. ## An Important Saving

The large and increasing policy dividends of the Canada Life are to a material extent an outcome of the very favorable mortality experience it has always enjoyed. Since its inception in 1847, the Canada Life's mortality has been only 60% of what might properly be expected.

The Canada Life has been called on to pay only \$240,000 in war losses, this being less than 10% of the amount known to be at risk.

The judgment and care which produced these excellent results have been exercised in other departments as well, and have been largely responsible for the splendid dividends, totalling over \$2,800,000, paid to policyholders in 1915.

The full Report will gladly be sent you on request.

## CITY HALL NOTES

The board of control has gone on record as approving the system of paying civic employees by cheques. The question was debated at yesterday's meeting. The acting city treasurer will work out a scheme.

The office boy who wrote the "Karl and Otto" letter to the mayor, threatening the city hall, has been dismissed. The question was debated at yesterday's meeting. The acting city treasurer will work out a scheme.

A communication to the board from the Labor Council, asked for the removal of P. W. Ellis as chairman of the Toronto Hydro-Electric Commission, and the appointment of some other more in sympathy with the cause of the workmen.

Mayor Church has taken up the case of Motorman M. L. Cairns, of the Danforth civic car line, and says that he will try and have him reinstated. He thought that it is the wish of the entire board of control. In the meantime Works Commissioner Harris has not changed his attitude in regard to the matter, and interprets the action of the board as leaving the case altogether to him.

FRIDAY MORNING, FEB. 11

German Menace in Canada

The feeling that we have not been strict enough in our treatment of enemy aliens is growing rapidly in Canada. Hundreds of Germans are still holding important positions with Canadian firms; even in the government service itself, men of German extraction, perhaps of German sympathies, are found occupying most responsible positions.

People in England have awakened much earlier to the peril of the alien enemy at large than have the people of Canada. Much more stringent measures have been taken there to watch and control these people than have been applied here. In Toronto, for instance, there are a large number of Germans who, with the knowledge of not being able to leave the country, can do practically as they please.

The Anglo-Saxon is apt to pride himself on the fact that he treats his enemy with a certain amount of contempt and refuses to be afraid of what he may do. This pride has cost us dearly in the present war. If we were fighting a nation that governed itself by the ordinary standards of humanity, a certain amount of toleration towards individuals of that nation living in our midst might be permissible.

There will be general satisfaction among the citizens that Chief Smith has taken the course he has in connection with District Chief Gunn. Better late than never. Chief Smith will soon realize that the large-minded attitude is the better one in dealing with men. No head of a department can afford to give way to his personal feelings in conducting the public service.

District Chief Gunn has as much responsibility in the matter as Chief Smith, and he will do well to attend to his duties and allow nothing else to bring him into prominence.

Any justifiable complaints about methods of recruiting adopted in Toronto must rest upon their want of success. If the methods get the men it will take a great deal to convince the military authorities that the methods are unsound.

ally others, and appeals to the sentiments which do not exist in one man are potent when turned upon others who are susceptible to sentimental impressions.

The one thing to be noted about the complaints is that they almost invariably come from people who have done nothing themselves to help recruiting or to advance the interests of the Canadian army.

Germans Do Not Understand British Freedom

There is cause for bitter chagrin in Germany over the appointment of General Smuts to the command of the British forces in East Africa in succession to General Sir Horace Smith-Dorrien. There is no doubt that the expected disturbances in Ireland and the anticipation of rebellion in South Africa were among the things on which the Kaiser counted to assist him in his attempt at world-conquest.

He did not understand freedom, because he never was free himself, and never allowed his subjects to be free. The Boers were passionately attached to freedom, and they fought for it against the British because they did not at first understand that the British type of freedom was a higher type than their own.

Transatlantic Aeroplaning

Claude Graham White, who has been a pioneer in aeroplaning, is of the opinion that in twenty years a regular transatlantic flying service will be in operation between London and New York, and that the journey will take fifteen hours. The one great step forward taking place in the mechanical world as the result of the war is certainly the flying machine, whether in the form of gigantic dirigibles of the Zeppelin type, or of the heavier-than-air planes of different varieties.

As progress is hastened by necessity it is likely that the commercial use to which aeroplaning will be put as much harm in Canada as possible, and to partially nullify the effort we are making in the war.

A Valuable Book

The department of the interior has lately issued a fine new atlas of Canada under the direction of J. E. Chalmers, chief geographer. The maps show territorial divisions, the drainage basins of the country, the geology and mineral disposition of the country, the telegraph lines, the transcontinental railways and the railroads of the various provinces; also the canals, lighthouses and sailing routes, the international and interprovincial boundaries in detail, and the latest plans of the ten chief cities of Canada.

It has also the statistics of Canada in the way of trade, vessel tonnage, population and other details of the last census, set out in diagrams that illustrate the facts better, perhaps, than figures.

A Canadian Literary Man

Dr. Samuel Edward Dawson, who has just died in Montreal, has long been regarded as one of the most eminent literary authorities in Canada. He first came into prominence by an essay contributed to Cornhill Magazine.

THIS "MR. CANUCK" IS QUITE SATISFIED

zine about 1882, on Tennyson's "The Princess," in which he proposed a solution of the poet's intention, which made an immediate appeal to readers, and which was, moreover, endorsed by the Laureate himself.

The motive of the poem, he pointed out, the end towards which all its actions moved, was the little infant, the babe, celebrated in some of Tennyson's finest lines, in whom the future interest of the world and the race was wrapped, and for whom all that had gone before was but the preparation.

EAST AND WEST IN CANADA.

Calgary Alberta: The difference between east and west is easily explained. We have more progressive people in western Canada. The western Canadian provinces have been built up largely from, if not the best, at least the most progressive and enterprising of our public men. We have no prairie provinces have been built up largely from, if not the best, at least the most progressive and enterprising of our public men.

GREEK ARMY CANNOT BE DEMOBILIZED NOW

Premier Says Government is Determined to Keep Forces Intact. PARIS, Feb. 10.—Premier Skoulioudis read a declaration in the Greek Chamber today to the effect that the program of the government was above all to keep the forces of the nation intact and use them exclusively in the interests of the country, says a Havas despatch from Athens, dated Feb. 9.

CHARGE DISMISSED.

So contradictory was the evidence given at the trial of Alex. Porter, accused of selling \$50 from the People's Dairy Co., when he came up in the police court yesterday, that Col. Denton dismissed the case.

Travelers' Cheques.

The public are reminded of the fact that the best way of carrying funds when on a business or holiday trip, is Travelers' Cheques. This system of carrying money has been in vogue for some time and is easily the most convenient and cheapest. Travelers' Cheques, payable any place in the world, are issued in \$10, \$20, \$50 and \$100 denominations and may be cashed by hotels, stores, banks, ticket offices, etc., at their face value.

AUSTRIA CALLS OLD MEN. ZURICH, Feb. 10.—Austria has called to the colors the class of 1867, 1868, 1869, 1870, 1871 and 1872, according to despatches received here today.

NICKEL REFINERY.

Editorial, Ottawa Free Press, Feb. 9: Whatever evil there may be in the exportation of Canada's nickel ore to the United States for refining there and distribution in its finished form, it will be only partly removed by the action of Premier Borden in inducing the International Nickel Company to erect a refinery here for supplying the needs of Canada and Great Britain.

POLICEMEN ENLISTED GIVEN WRIST WATCHES

Wrist watches were presented to Policemen Cook (382), Davidson (529), Johnston (144), Dewey (448) and Egan (191), all of whom have collected for overseas service, by their comrades at Claremont Police Station yesterday afternoon. The presentation was made by Inspector Crowe on behalf of the men. In a brief speech the inspector paid tribute to the sterling worth of the men as members of the Toronto police force. Each man suitably responded.

NEXT YEAR'S TAX FOR EXPENDITURES ON WAR

Hon. W. J. Hanna Would Not State Whether It Would Be Confined to One Mill. Provincial Secretary Hanna refused to commit himself before a deputation of the Ontario Municipal Association yesterday as to whether the war tax next year would definitely be confined to one mill. T. J. Moore, city clerk of Quebec, asked the question, explaining that they would like to know in order to fill out their assessment papers. Mr. Hanna replied that he was unable to state that one mill would cover war expenditures, but promised that it would be brought up in the house very shortly after the opening of the session on the 29th.

OTTAWA ORDERED TO PAY MONEY TO COURT

Appellate Court Relieved City as Stakeholder of Separate School Taxes. By an order issued by the appellate division court at Oshawa Hall yesterday, the City of Ottawa is relieved from its uncomfortable position as stakeholder in regard to the taxes collected for separate school purposes. These funds are claimed by both the separate school board and by the separate school commission appointed by the Ontario Government to solve the bilingual difficulty.

TEACHING OF FRENCH

Trustees Ignored Order and Were Found Guilty of Contempt by Justice Masten. Justice Masten in his judgment yesterday found both Foster and Menard guilty of contempt of court, and unless they give within one month an undertaking not to allow the use of French in the schools they will each have to pay a fine of \$500 and costs. They will have to pay the costs of the Plaintiff McDonald.

CASE FOR CROWN WILL NOT FINISH THIS WEEK

Many Witnesses Subpoenaed to Testify in McCutcheon Trial Will Not Be Called. In order to facilitate the trial of McCutcheon Brothers, which is being heard by Mr. Justice Middleton in the criminal assizes, the crown does not intend to call a number of witnesses who appeared before the grand jury. This leaves about seven witnesses to be called and the evidence of some of these may now be heard in the defence. It is not likely, however, that N. F. Davidson, K.C., for the crown, will complete his case this week.

BRITAIN WILL NOT SEND SPECIAL ENVOY TO U. S.

Foreign Office Official Declares Report to Contrary Unttrue.

LONDON, Feb. 10.—An official of the foreign office said today that as far as the British government is concerned, the report that a special envoy would be sent to Washington.

The report that an envoy would be sent to the United States probably is the outgrowth of an editorial suggestion in the Manchester Guardian that Viscount Bryce or Arthur J. Balfour, first lord of the admiralty, be sent on a mission to Washington with full powers to adjust the blockade controversy between the British and American Governments.

SPANISH SHIP CARRIES GERMANS TO OLD CADIZ

Escaped Foemen From Kamerun Making Way to Europe and Home.

PARIS, Feb. 10.—The Spanish steamer Isla de Fanay, which has arrived at Cadiz from the island of Fernando Po, West Africa, has several Germans on board, according to a Havana despatch from Madrid. Other Germans who made the trip north on the steamer disembarked in the Canary Islands, from where they hope to reach Holland.

Fernando Po is a Spanish island in the Gulf of Guinea, and it is probable that the Germans aboard the Isla de Fanay made their escape from the German Kamerun region, which borders the gulf.

PAID LAST RESPECTS.

The funeral of the late James B. Creighton took place yesterday afternoon from the family residence, 12 East Charles street. Dr. T. J. W. Burgess and E. Darling of Montreal, W. R. Crenoweth and Mrs. B. R. Hopbourn of Ottawa, were present at the funeral. Many prominent Toronto people also paid their respect to Mr. Creighton.

**LEFT-HANDERS LOOK GOOD TO JOE TINKER**

Cubs' Manager to Carry Large Staff of Port-Siders—Baseball Gossip.

Bill Donovan is a great admirer of Ty Cobb. Recently he remarked that, if Ty has slowed up in his running, he would be a favorite ever since he joined the manager because he had his mind made up to do it. Donovan thinks that he will be able to steal 100 bases the coming season if he tries.

The passing of Wilbur Good from the Cubs will cause many of the old-time patrons of the game to grieve. He has been a favorite ever since he joined the team after being secured from the Boston Club. Tinker could not carry more than five outfielders, the so Good had to go.

Jimmy Smith, the kid shortstop on the Chuffed staff last summer, will get a chance with the Pittsburgh Pirates.

President Navin of the Tigers was loud in his determination not to take over any of the Red Sox players when they were signed two months ago. He has broken that pledge, for he bought Pitcher Erickson of the Brooklands a few days ago, and paid a big price for him, too.

Manager Tinker hinted that he might secure another left-handed pitcher while he is down east this week. If he is going to stock up on the scrappies and use them against the different clubs if they are successful.

Down in Cincinnati some of the scribes seem to think it will be possible for the Reds to play the schedule out the coming season without the services of Fred Toney. Schneider and Moseley will be able to fill in even if Toney decides to stick to his Goose Hill home.

Pitcher George Davis of the Boston Braves does not want to report to the Boston team on March 1, as his contract demands, because he is working hard to get his diploma from the Harvard law school this year.

Schaller, former member of the White Sox outfield, but now a star member of the San Francisco Seals, is a holdout. He wants more money before he agrees to report to Manager Wolverton the coming spring. Schaller was a star hitter or the team, and he may get his raise.

Nap Rucker says his left arm feels just as strong as it ever did. He feels he can go out next summer and win twenty-three games, but he fails to tell how many games he may lose in trying to win that many.

Harry Sinclair has subside and little has been heard from the oil magnate for the last three weeks. He has turned over his baseball affairs to Pat Powers and Billy Murray of the Newark Club.

Josh Devore will fight quite at home next year with the Phillies. He has played in every world's series since 1911, except last fall, and he thinks now that he will be in the 1916 scrap.

Old John Hummel, veteran infielder and outfielder of the Dodgers, has been released at last. He never was a speedy man, but he always happened to be around where the ball was when he was in the game.

Roger Bresnahan continues to get a lot of space in the papers, although his case has been disposed of so far as President Weegman of the Cubs is concerned. Roger can get his salary cheque every two weeks for the next two years, but he will have to mark time between each pay day.

Commanding Position Assumed  
 by Copper in Transactions  
 on N. Y. Exchange.

**C. P. R. ALSO ADVANCES**  
 Three and Three-Quarter Points  
 Rise Registered in Canadian  
 Railway.

NEW YORK, Feb. 10.—Metal shares  
 assumed a commanding position in  
 today's upward market. A majority of the  
 temporary holders to take the place of  
 those who are on leave. The market  
 was characterized by a general  
 advance in all lines, with copper  
 leading the way. The Canadian  
 Railway advanced three and three-  
 quarter points to 112 3/4. The  
 market was characterized by a  
 general advance in all lines, with  
 copper leading the way. The  
 Canadian Railway advanced three  
 and three-quarter points to 112 3/4.

There were some spectacular gains  
 in a few specialties and utilities. General  
 Motors rose 2 1/2 to 57 1/2. United  
 States Steel advanced 1/2 to 147 1/2.  
 The market was characterized by a  
 general advance in all lines, with  
 copper leading the way. The  
 Canadian Railway advanced three  
 and three-quarter points to 112 3/4.

**FIVE POINT ADVANCE  
 IN MACKAY COMMON**  
 Most of the Speculation on Toronto  
 Market Was Given Over  
 to Mackay Yesterday.

Mackay common provided most of  
 the speculation in yesterday's Toronto  
 stock exchange. Inside interests have  
 been working quietly in the shares for  
 days, and yesterday an outburst of  
 buying occurred, such as usually  
 follows a speculative rise. Closing on  
 Wednesday at 84 1/2, the opening  
 yesterday was a high point up, and  
 from there a five-point advance was made  
 to 89 1/2. The market was characterized  
 by a general advance in all lines,  
 with copper leading the way. The  
 Canadian Railway advanced three  
 and three-quarter points to 112 3/4.

**CARRIAGE FACTORY EARNINGS.**  
 MONTREAL, Feb. 10.—The annual  
 statement of Carriage Factories  
 Limited, presented this afternoon,  
 shows that after paying charges,  
 net interest and 12 1/2 per cent  
 depreciation, the balance added to  
 fund was \$225,202, against \$24,741 a  
 year ago.

**TWIN CITY EARNINGS.**  
 The earnings of the Twin City Rapid  
 Transit Co. for the last ten days of  
 January were \$275,325, an increase  
 of \$24,111, or 11.98 per cent, over the  
 corresponding period last year.

**WHEAT MARKET RALLIES  
 ON NEW EXPORT SALES**

Sudden Cessation of Inquiry Had  
 Forced Speculators to Let  
 Go Holdings.

**OATS HARDENED, TOO**  
 World's Requirements Estimated  
 as Much Larger Than Short  
 Time Ago.

CHICAGO, Feb. 10.—Renewal of  
 export buying helped to rally the  
 wheat market today after a sharp  
 break that was due to an unusual  
 whirl of speculative stop loss orders  
 to sell. The close was nervous as the  
 market was not until after the market  
 had undergone a severe tumble that  
 signs of fresh activity on the part of  
 exporters began to appear. Estimates  
 of the amount purchased for Europe  
 put the total at only 600,000 bushels,  
 but in view of the previous nearly  
 complete cessation of business with  
 foreigners, the effect was to restore  
 in a measure the confidence of the  
 bulls. The sudden flurry of the stop  
 loss orders which for a time over-  
 whelmed the market came about as a  
 result of a moderate initial advance  
 here that gave a new opportunity to  
 discouraged holders who were unable  
 to unload on yesterday's decline.

**FAIR SIZED GAINS MADE  
 IN MONTREAL STOCKS**  
 General Response Experienced  
 to General Improvement at  
 New York.

MONTREAL, Feb. 10.—Local stocks  
 made more general response to  
 what had earlier in the week,  
 owing to the improving tone  
 of the New York market, and  
 some fair-sized gains were marked up  
 among the more active issues. The  
 market was characterized by a  
 general advance in all lines, with  
 copper leading the way. The  
 Canadian Railway advanced three  
 and three-quarter points to 112 3/4.

**LONDON BANK STATEMENT.**  
 LONDON, Feb. 10.—The weekly state-  
 ment of the Bank of England shows  
 the following changes:  
 Total reserve, increased £2,925,000.  
 Circulation, increased £1,244,000.  
 Bullion, increased £1,591,588.  
 Other securities, increased £2,391,000.  
 Public deposits, increased £1,984,000.  
 Notes reserve, increased £2,741,000.  
 The proportion of the bank's reserve  
 to liability this week is 24.4 per cent;  
 last week it was 25.4 per cent.  
 Rate of discount, 5 per cent.

**NEW YORK CURB.**  
 H. B. Willis had the following at the  
 close:  
 The New York Curb market, both m'n-  
 ing and industrial, continued its strong  
 upward movement. Stocks closed strong  
 and the buoyancy of the entire range of  
 prices was highly gratifying. Fractional  
 gains were recorded by practically all  
 issues as a result of the two-point advance  
 in the stock market.

**U. S. STEEL TONNAGE.**  
 NEW YORK, Feb. 10.—The United  
 States Steel Corporation today reported  
 unfilled orders on its books as of Janu-  
 ary 31 last of 7,992,767 tons, compared  
 with 7,802,229 tons on December 31, 1915,  
 and 4,248,571 tons on January 31, 1915.

**THE VALUATION OF AN ESTATE**  
 Estates sometimes contain paintings, antiques or other valuable articles, to be distributed to the heirs in specific proportions. Such distribution must be based upon intelligent valuation of the property. The valuation of estates in the company's charge which contain art objects, is guided by consultation with the best available expert opinion.

**MINTYRE GAINING  
 ADVANCES A POINT**

Gradually Recovering Losses in  
 Recent Depression—Teck-  
 Hughes Up.

There was less activity at the  
 Standard Stock Exchange yesterday  
 than the day before, the volume of  
 trading falling off to 91,893 shares.  
 The market, however, with but few  
 exceptions continued firm, with an  
 especially strong undertone. Mc-  
 Intyre, West-Dome and Teck-  
 Hughes were the outstanding fea-  
 tures of strength on the board.  
 Few stocks are coming on the mar-  
 ket at the present prices, which would  
 seem to indicate a policy on the part  
 of traders to hold for higher prices.  
 This attitude is regarded by well-  
 informed people as justified in view of  
 the great development which is going  
 on in the north country and the very  
 satisfactory results that are being  
 obtained.

In the Porcupine, Apex opened at  
 7 1/2 and sold off a little, closing at  
 7 1/2. Dome Con. came into promi-  
 nence, selling from 18 up to 18 1/2.  
 Dome Extension opened strong at 31 1/2  
 but reacted closing one point down  
 at 30 1/2. Traders generally regard this  
 stock very favorably and a big mar-  
 ket is predicted for it. Dome Lake  
 sold at 23 down to 22 1/2.  
 Big Dome sold at \$29 on very limited  
 trading. Reactions in this stock  
 are very small, and advices from  
 New York, where the stock is largely  
 held, say that \$30 is being talked of  
 for the stock. Hollinger held strong  
 at 22 1/2 all day. It is said that  
 this stock is getting scarcer on the  
 street and it is gradually going into  
 the hands of a few people.

West-Dome continued active, opening  
 at 15 and selling up to 15 1/2. It  
 closed a little easier at 15 1/2. West  
 Dome Consolidated was strong, selling  
 up to 23. Now that an engineer of  
 high repute and an efficient mine  
 manager have been appointed it  
 looks as if this reorganized company  
 would do better business. The stock  
 active work will be commenced al-  
 most immediately and this property  
 will be given every opportunity to  
 justify the good name it held in former  
 days. New York was an active buyer  
 again.

**Mining Notes**  
 The last piece of machinery, consist-  
 ing of a Hardinge ball mill, necessary  
 for the enlarged capacity of the  
 McIntyre mill, was shipped up north  
 yesterday, according to Col. Hay,  
 president of the company. All the rest  
 of the machinery has been installed and  
 work was being held up by the non-  
 arrival of this particular section. The  
 present capacity of the mill will be  
 just about doubled.
