Enemy Drive From North Threatens to Prevent Entente Reinforcements From Reaching Cadorna—Invaders Sweep South.

London, Oct. 30.—The drives of the Germans and Austro-Hungarian armies, begun a week ago against the eastern and northeastern fronts of the Austro-Italian theatre, continue unabated, but with the Italian cavalry fighting rearguard actions on the retreat of the Italians to positions chosen for a stand, and the Teutonic allies also being impeded by the flood condition of the Tagliamento River.

CADORNA CONDUCTING AN ORDERLY RETREAT

No Decisive Battle Yet Fought, But One Expected to Develop Soon—Italy's Fighting Spirit is Aroused.

Rome, Oct. 30.—The wippling out of party differences and the strengthening of Italy's morale in the face of the present military effort by the Austro-German coalition, is exemplified in the statements issued by two of the political parties, the Catholics and the official Socialists. No party sentiment must be recognized in this time of trial, these statements declare.

CONFIDENT ITALIANS CAN MAKE FIRM STAND

Washington, Cheered by News of Saving of British Heavy Guns, Expects Cadorna Soon to Give Battle Successfully.

Washington, Oct. 30.—The Italian situation was discussed at length by President Wilson and his advisers at today's cabinet meeting, discussion touching immediate military aspects and the extension of assistance by the allies. Furnishing of supplies, especially coal, badly needed for Italian munition factories, is said to be regarded as this country's particular sphere of immediate action.

MEN OF SIX PROVINCES SHARE IN THE VICTORY ON FLANDERS RIDGES

Fighting For Meetchele and the Crest Farm Culminated in Success Despite Bad Terrain and Strong Hun Resistance.

By W. A. Willison. Canadian Headquarters in France, via London, Oct. 30.—Scrambling over the hastily-constructed trenches which have marked the forward line of the recent attack, the Canadians at dawn today pushed forward against wings attacking and Passchendaele ridge in an advance which stretched from beyond Meetchele on their left to the Ypres-Roulers railway on the right.

By W. A. Willison. Canadian Headquarters in France, via London, Oct. 30.—Satisfactory progress has been made by our forces all along the line. After a check on the right wing, our infantry, fighting desperately, has forced its way up the slopes and seems to have gained a footing on Crest Farm itself. On the left, where the advance was made, our troops have passed the immediate points and are fighting for possession of Meetchele, the enemy's last stronghold in front of Passchendaele, on the left.

ENEMY'S WAR LOSSES NOW SIX MILLION MEN

Socialist Reichstag Deputy States the Germans Killed in War Are Million and Half.

Washington, Oct. 30.—Germany lost six million men in the three years of war, according to a declaration made in the Reichstag by the independent socialist, Ledebour. A report of his speech reaching Washington through Switzerland states that, contemplating the prospects of a fourth winter campaign, the socialist leader said: "You have not evidently, gentlemen, an exact conception of what was meant. We have had 1,500,000 dead, three or four million wounded, of whom 500,000 are crippled for life, and two million absolutely inviolated. It is stated that official information given in possession of American officials for some time.

Big Hun Preparations.

Today's advance was made under better conditions than those of last week, and on rising ground, but where the terrain was better. The enemy has had four previous days in which to study our defenses. Information gathered from aeroplane observation, the examination of prisoners and from other sources proves that he has made the best possible use of the time. During the same period miracles have been performed with our artillery. Straining men and straining teams have worked incessantly ad-

Dominion Forces Deal Enemy Positions on Passchendaele Ridge Mighty Blow, Forcing Back Germans in Places to Depth of 1,000 Yards—Gained All of the Objectives Set—Berlin Reports British Troops in Passchendaele—Fight in Flooded Territory.

London, Oct. 30.—The British troops in Flanders carried out successful operations today, according to Field Marshal Haig's report tonight. The Canadian troops gained all their objectives on the Passchendaele Ridge and beat off five hostile counter-attacks. The text of the statement reads: "Successful operations with limited objectives were carried out by us early this morning against German positions between the Ypres-Roulers railway and the Poelcapelle-Westroosebeke road. In spite of the marshy nature of the ground on the greater part of the front attacked, and notwithstanding heavy rain and gales, which made communication with our troops extremely difficult, important progress has been made.

"On the right of the attack, in spite of fierce opposition, the Canadian troops gained all their objectives on the main ridge and have reached the outskirts of the village, where five hostile counter-attacks were beaten off by our troops. Captured German machine guns were used effectively in repulsing these attacks.

"On the left of our attack, where the ground is low-lying and intersected by flooded streams, the going was particularly bad. Nevertheless naval and London territorial battalions captured a number of farms and strong points after heavy fighting. "Gloucester troops successfully raided the enemy's trenches last night southeast of Gavrelle. Another successful raid, in which 19 prisoners were taken, was carried out by the Belgian troops south of Dixmude."

SENT ENEMY FORCES REELING BACK.

London, Oct. 30.—(Via Reuter's Ottawa Agency.)—Reuter's correspondent at British headquarters in France, telegraphing this afternoon, says: "Our armies have again struck the Germans in Flanders and sent them reeling back in some places to a depth of nearly 1000 yards. Luck was with us today in the matter of the weather. The morning had broken keen and dry, being just the weather that the Canadians would have chosen for going over the top. Apparently so successfully have they gone over that before the sun was two hours high they had gained the greater part of their objectives.

"The fighting was on a more limited scale than last Friday. It has been chiefly towards the outskirts of Passchendaele and in the region of Poelcapelle. Reports received up to the time of telegraphing indicate that our men have fought their way well along several important tributary spurs of the great ridge system which is gradually being won from the desperately resisting enemy.

"Shortly after making the first stage of their advance, the Germans launched a big counter-attack from the direction of the enemy's trenches. It was a desperate struggle, but the Canadians had just carried a strongly fortified line of redoubts at the centre of which the attack was directed. The place was liberally furnished with machine guns, which were promptly swung into position against the oncoming Germans.

"The weather was covered with such a grey-cloud corpses. Rifle fire completed the work of the machine guns, and the counter-attacks were beaten back with heavy punishment.

"Our attack today differed little from its predecessor as regards method. The barrage was very intense. While this was drumming forth its flaming curtain, the great guns farther back were doing fine counter-battery work against known positions of enemy artillery, hence the enemy's retaliation was very severe. Despite the high winds our indomitable air-men were in contact with the enemy on the ground. The ground is still desperately bad, but along the higher places where the principal fighting developed, the surface is reasonably good between the water-filled shell-holes, was directed. The place was liberally furnished with machine guns, which were promptly swung into position against the oncoming Germans.

PART OF CARNIA FRONT GAINED BY AUSTRILIANS

Vienna, via London, Oct. 30.—(British admiralty, per wireless press.)—The Austro-Hungarian official communication issued today says: "The Italian Carnia front has collapsed on the most important sectors. During a snowstorm our troops wrested from the enemy positions which he had built up during two and a half years southwest of Treviso, near Pontafel, in the Plocean region, and on St. Paul.

"The war material captured in the Carnia front exceeds by far the booty which fell into our hands as a result of our Gallician and Polish summer offensive in 1915."

### ENEMY CANNOT PAY INTEREST ON DEBT

New German Taxes Fall Short by Quarter Billion Dollars.

### BRITAIN STILL SOUND

Bonar Law Moves Credits for Another Two Billion Dollars.

London, Oct. 30.—Andrew Bonar Law, chancellor of the exchequer, in moving a vote of credit for the purpose of continuing to pay £400,000,000, said this amount would supply the necessary funds up to the first week in January next.

"From the beginning of the financial year to September 29," he said, "the daily average expenditure had been £3,646,000, and the budget estimate, the increase was made up under the following heads: Army and navy, £2,530,000; miscellaneous services, £203,000; advances to the allies and dominions, £341,000, or a total of £3,074,000." The credit today brings the total loans for the year to £2,600,000,000, and the total since the beginning of the war to £5,692,000,000.

**Big Average Outlay.**  
In the period of Oct. 22 to Sept. 22, the chancellor said, the daily average expenditure of Great Britain for war purposes was £5,414,000. He did not, however, wish the house to take too favorable a view of the figures given, but wished to point out that so far as could be judged the position in the second half of the year from the viewpoint of dead weight expenditure would not be quite as favorable as the first half. That was mainly due to the fact that the government had fixed the loaf at ninepence and had decided to increase very largely the pay of the soldiers and the sailors. These items would add between £40,000,000 and £50,000,000 to the dead weight expenditure in the second half of the year. The chancellor said that the average expenditure as compared with the budget estimate, namely, £48,500,000, nearly the whole of it is due to increased expenditure by the war office, which has accounted for £39,000,000, leaving £9,500,000 divided equally between munitions and the navy.

**Cause of Increase.**  
"The chief cause of the big increase is to be found in the rise of the price of commodities. The extent of the forces we are keeping abroad—the number of men we have abroad has increased since the budget estimate was made by reason of increased personnel, but not including airplanes, which cost under the whole of it is due to the number of Indian troops in Mesopotamia and finally, the forward movement made by our troops in Flanders. This has had a vast increase in expenditure for more railways and bridges, etc. The gap between what our railway line of communications and the advance of the front has been filled by motor transport, the increased pay for this amounting during the half year to £5,000,000. We are entitled to deduct the amount advanced to our allies and the amount advanced to our dominions. In the case of the allies we £1,100,000,000, and in the case of the dominions £160,000,000. We are also entitled to deduct the amount given to the Government of India to the empire for the war. The gift amounted to £190,000,000, but of that amount something in the nature of £100,000,000 has been treated as revenue. The Indian Government, however, has taken the responsibility for the balance. The total amount to be deducted therefore is £2,290,000,000.

"The national debt at the outbreak of the war was £245,000,000, therefore the debt due to the war is actually £3,295,000,000. Contrasting the British and German financial positions Mr. Bonar Law said that the vote of the Reichstag, which had been passed by the reichstag, which did not include advances to Germany's allies nor the expenditure for separation allowances, which were included in Great Britain's votes of credit.

"Our war expenditure therefore," he said, "amounts to 700,000 less than Germany's. Germany's increased war taxation has fallen short by £55,000,000 of the interest on her debt. While we anticipate that we shall, definitely, it will not be want of money that will prevent us from winning the war, because we can bear the strain longer than our enemies."

### "TO HELL WITH WIN-WAR" SHOUTS MONTREAL MAN

Anti-Conscriptionist Continues Agitation Against Military Service Act.  
Montreal, Oct. 30.—"We should say 'to hell with win-war' until we have saved our country," declared Ferdinand Villeneuve, one of the anti-conscriptionist speakers at a meeting of the St. James L'Assommoir Club tonight. Villeneuve added: "By saving the country we may win the war." He urged his fellow-French-Canadians to appear before the courts of exemption, as otherwise they might lose their votes in the federal elections, and if Laurier were returned to power the conscription law would likely be repealed. Bernier and Gaston Pilon were selected as delegates to a meeting in Quebec Saturday night for the organization of a labor party.

### ALYES' MUNITIONS BURN AT BALTIMORE

Several Millions of Dollars Lost in Supposed Incendiary Fire.

### THREE PIERS AFLAME

Firemen Strive Desperately to Prevent Spread of Conflagration.

Baltimore, Md., Wednesday Morning, Oct. 31.—One of the greatest fires in Baltimore since the conflagration of February, 1914, that destroyed the business section of the city, is raging early this morning on the big piers of the Baltimore and Ohio Railroad at its extensive terminal at Locust Point on the south side of the harbor. Piers 8 and 9, stored with vast quantities of munitions and supplies for the American forces in France and their allies, are in flames. Within ten minutes after the flames were discovered the entire structure was ablaze. Fifteen of the crew of a British steamer lying at the pier leaped overboard, and it is feared that some of them were drowned. A dozen or more men employed on the pier are missing. On one of the piers, where cases of shells which exploded at intervals, it is reported that the fire was of incendiary origin.

### Fire Near Elevators.

The Baltimore and Ohio grain elevators are but a short distance from the burned piers, which are the main terminal in this country of the Furness-Withy grain line of steamers. Pier 8 was the former North German Lloyd Line pier at which all their ships loaded at this port. The two piers, which are destroyed, cost about one million dollars each.

United States secret service men are at the scene investigating rumors that suspicious-looking men were seen hurrying from the vicinity a few minutes after the fire was discovered by a policeman. A strong northwest wind swept the flames towards Locust Point, and the fire spread to the terminal and occupied by the families of workmen on the piers.

In the Baltimore and Ohio elevators are large quantities of grain ready for shipment to the allies.

The firemen have so far succeeded in preventing the flames from spreading to the elevators.

Shortly after midnight pier 10, the former immigration pier of the German Steamship Co., was burning, but that time the fire chief believed they could confine the flames to the three piers.

Baltimore and Ohio railroad officials could not give any estimate of the loss, but it will reach several millions.

### FIFTY PER CENT. RAISE ASKED BY SWITCHMEN

Union Wants Increase to Apply All Over United States.

Chicago, Oct. 30.—Demands for a 50 per cent. wage increase will be submitted to the railroads of the United States by the members of the Switchmen's Union of North America as a result of action taken by a special committee at a two-days' meeting which ended here today. The Adamson Law, enacted in 1916, to avert a threatened strike, reduced the daily pay of the men to 75 cents, but did not increase their wages.

The demand for a wage increase will be followed by a referendum vote on a nation-wide strike of switchmen, if it is not granted in 30 days. It was announced by E. E. Heberling of Buffalo, president of the union. The 30-day notice which the railroads require must be given before any change in wages can be taken up, which was served on the railroads at once.

## MORE DISCLOSURES MADE BY LANSING

### Count Luxburg Wanted Submarines to Overawe Brazil.

Washington, Oct. 30.—Two more of the notorious Count von Luxburg's messages to the German foreign office from Buenos Aires were made public tonight by Secretary Lansing. They provide official confirmation of Germany's plan to control southern Brazil, shedding light upon Teutonic intrigue in South America generally, and reveal that Luxburg appealed vainly for a squadron of submarines, which would, to awe some Latin-Americans and to flatter others with subsidies.

These dispatches, like others that have gone before, were given out by Secretary Lansing without discussion of their contents. The only comment was in this statement attached to the copies: "In view of the fact that the substance of certain telegrams addressed by Count Luxburg to the German foreign office has been published, the secretary of state publishes the actual text of the telegrams."

The messages follow:

"No. 63, July 7, 1917.—Our attitude towards Brazil has created the impression here that our easy-going good nature can be counted on. This is dangerous in South America, where the people under this veneer are Indians. A submarine squadron with full powers to me might probably still save the situation. I request instructions as to whether or not the rupture of relations is to be started for home or to remove to Paraguay or possibly Chile. The navy attaches will doubtless go to Santiago de Chile."

"No. 89, Aug. 4, 1917.—I am convinced that we shall be able to carry thru our principal plans in South America, the maintenance of open markets in Argentina, and the reorganization of south Brazil equally well whether with or against Argentina. Please cultivate friendship with Chile. The announcement of a visit of a submarine squadron to salute the president would even now exercise decisive influence on the situation in South America. Prospects excellent for wheat harvest in December."

## WAR SUMMARY

### THE DAY'S EVENTS REVIEWED

THE Canadians, according to latest reports last night from the Belgian front, were victoriously advancing up the slopes of Paschendaele Ridge and upon the Village of Paschendaele. Their right wing, after a brief check, forced its way up the slopes before it and captured Crest Farm, at the summit. This farm is a cluster of buildings converted into a rubbish heap and with concealed batteries of machine guns. Their left wing, moving steadily forward, engaged the Germans in the direction of Paschendaele Village and captured Meetechele. This village is the last stronghold of the Germans before Paschendaele.

The official bulletin from British general headquarters reports the Canadians to be right in the outskirts of Paschendaele. On the British left, naval and London territorial divisions, who impeded by bad marching conditions underfoot, captured fortified farms and other strong places. The British troops had limited objectives allotted to them as their goals and they attained them all in their advance. The enemy asserted that the Canadians had captured Paschendaele, but that the Germans drove them out in a counter-attack. This is probably another Langemarck fiction. The enemy is probably adopting this manner of preparing the German people for the loss of Paschendaele. The professing to rejoice over the German success in Italy, the informed press on military affairs in the German press plainly betray their anxiety over the steady British advance. These persons know, as well as anybody, the significance of losing the last ridges of western Belgium. Whenever the British hold all of these, their long-distance guns can fire at and hit everything moving in the flat lands clear up to the Dutch frontier.

The British airplane service is keeping up its new policy of long distance reprisal raids in the form of attacks against German factories and blast furnaces in the valley of the Saar virtually every day. Twelve British flying machines carried out the latest attack, making Firmsens, 20 miles beyond Saarbrücken, their target. Their bombs burst on German factories and gas works with excellent results, starting many fires. The effect may be imagined when it is realized that a single bomb will demolish a large-sized building. The new British policy apparently is the systematic bombardment of district after district in order to make it untenable by German industry. German socialists who have

A. Like the celebrated brook, coats may come and coats may go, but the coat of Hudson seal (seal rat) goes on forever as first favorite with her who wants a warm, fashionable wrap for all-the-time wear in winter. This one to the left is a beauty. Made of carefully-selected skins, it falls straight from the shoulders, flaring out gradually to attain an easy fullness around the foot. The collar may be drawn up high, as its wearer here elects, or open in front and spread out in flat cape style on the shoulders. The lining is of mousseline brocade, with alternate satin stripes of black and gold. Price, \$195.00.

B. Do you motor a good deal in an open car? Perhaps you drive it yourself? If so, give special heed to this swaggar coat of tawny brown muskrat, beautifully marked, carefully striped, and topped off smartly with collar and cuffs of Hudson seal (seal rat). The lining is of green, brown and black brocade—a charming combination of color. And the price is \$165.00.

### The Great Special Selling of Oilcloths and Linoleums Continues Thursday

Featuring in particular Printed Oilcloths and Linoleums at 43c and 69c, and Inlaid Linoleum at \$1.39 per square yard.

—Fourth Floor.

D. So easy to slip your toes into when you jump out of bed in the morning, these little crocheted wool sandals are great favorites for bedroom use. The soles are lined with quilted satin, the colors available are pink and blue, and the sizes 3 to 8. Price, \$1.65 a pair.

E. Not confined to the bedroom, this smart mauve satin pump. It has a heel and sole that permit its use with the tea-gown or with the elaborate vest-gown that occasionally finds its way to the drawing-room. The pump is comfortably lined with quilted satin, and may be had, as well, in old rose, pink, brown, King's blue and pale blue. Sizes 3 1/2 to 7. Price, \$3.50 a pair.

F. Soft golden brown kid composes this smart little bedroom slipper, with quilted lining and silk pom-pom on the toe. It is obtainable also in black, red, pale blue, pink and white. Price, \$1.65 a pair.

G. "Kozy" is its name, and cozy is its nature, we may well say of this "high-cut" bedroom shoe of red, pink, lavender, or pale blue feet. It is featured in sizes 2 1/2 to 8. Price, \$1.75 a pair.

H. An old rose, Belgian blue, grey or brown dressing-gown for which you want a pair of slippers? Then here they are—in suede, in any of the colors mentioned, with pom-pom of same tone on the toe. Sizes 2 to 7. Price, \$1.65.

J. A delightful little quilted satin "mule"—in black, lined with lavender. Note the half-Louis heel and turned sole. Sizes are 2 1/2 to 7. Price, \$3.50 a pair. —Second Floor, Queen St.

K. To get a complete vision of this very attractive-looking coat, imagine silver-grey brush wool, wonderfully soft and fine, with stripes of white bordering the collar, cuffs and lower edge. The same model is procurable, too, in a delightful shade of Wedgwood green, in purple, in brown, and in mulberry, striped in every case in white. The price is \$13.50.

L. A charming shade of rose is this coat labelled "L"—with vertical stripes of white in its collar and cuffs. It is knitted plain in heavy, soft yarn, making a splendid sweater for general, all-round wear. The same model may be had, too, in emerald, purple and Copenhagen blue. Price, \$10.00.

M. Are you one of the many women who has been promising herself a purple sweater coat some day soon? Then here it is—an immensely nice model with collar and cuffs of white brush wool. Or, if you prefer, you may have it with a plain purple collar. Again, if the coat itself appeals to you, but not the color, you may have the same coat in emerald green, rose, or Copenhagen blue. Price, \$12.50.

N. Think of this smart-looking coat for \$7.50! And 'tis nicer even in reality than in pen and ink. It is one of the popular Brush Wool family—in emerald green, maize, gold, a delightful china blue, and camel hair. Sometimes the collar is bordered with white, as shown in the sketch. Sometimes there is an entire collar of white (detachable). Price, \$7.50.

Little Talk on Modes and Makers

It was when we were in New York recently that you heard the story of Anne Upton and the Mole-color Gown. Cecile's. It was told to us apropos, wholly, of the Mole-color Gown, one of the successful models of the season. But as we think of it now, it is Anne Upton who is one of the chief designers at the Maison Cecile, favored haunt of the rich and fashionable, with branches in Chicago and Philadelphia. It happened in this way:

Announcements were out for Cecile's Opening, an event guarded just about as jealously from the intrusion of the uninvited as a council of war. The little Louis Seize salon in which the exhibit was to be staged was all aglisten with fresh grey enamel, and rosy with fresh pink velours. Two new mannequins with flame red hair, fabulously white complexions, and marvelously sinuous figures had been added to the staff. A grand rehearsal had been held. Madam Cecile trying the effect upon the whole of the black and gold medieval robe in which she herself was to grace the occasion. And not until then did it occur to anyone that no gown had been planned for Mademoiselle Smith, the head saleswoman. Only three days remained. The designers and seamstresses of the establishment were up to their eyebrows in work. It could not be bought elsewhere. It would never do to have it get about that the House of Cecile bought gowns from other houses.

Then it was that Ma'm'selle thought of Anne Upton, the little creature who had once befriended her when she—Ma'm'selle Smith—was down on her luck. To make a long story short, Anne the obscure was given the order for the gown.

She set up all night planning it. And next day she made it in mole-color kitten's ear crepe, arranging the skirt after the fashion of Greek drapery, and lining the loose and throat with cloth of silver. A knot of violet and turquoise blue velvet nestled like a rare orchid in the folds of the bodice in front, and to a half-circle grey fox fur around the back of the neck was due the pleasant fact that Ma'm'selle Smith never looked better in her life.

The mannequins performed their airy gyrations. The sumptuous and lovely costumes were duly admired. But one person after another asked, Ma'm'selle Smith the price of the gown she wore. Might it be obtained? Could it be made in velvet instead? And thus the day was over, it had booked as many orders as any other model in the collection.

Such is the simple tale of the Cecile gown that Anne Upton made—and how Anne herself was exalted to a high post in the great atelier. For Cecile is human as well as a steel-cutting what garment-maker in 14th or 47th Street is not ready to engage upon the spot the designs of a "best-seller"?

RAINS WILL HELP FALL WHEAT CROP

Bulk Likely to Enter Winter in Good Condition, Say Reports.

PLOWING DELAYED

Potato Digging Almost Completed, But Weather Delays Work in Some Places.

Recent rains have helped the new fall wheat considerably, and the bulk of the crop is likely to enter the winter in good condition.

Fall plowing is only about half thru, owing to the late harvest and the dry condition of the soil earlier in the season.

Threshing has been slow on account of heavy yields and the scarcity of men and machinery.

Corn, however, is a comparatively light crop, both for husking and the silo, and much of it has been late in the cutting.

Some buckwheat in eastern Ontario is out yet, wet in the stalk, which will delay its threshing.

Rains Delay Potatoes. Potato digging is almost completed, but rains have delayed the work in some quarters.

Root pulling is on in earnest, although somewhat checked by the rains.

Clover looks well in the field. The seed threshed out so far has given satisfaction as to yield and quality.

The light apple crop is being rapidly bought up at high prices, and is being more carefully handled than formerly.

Live Stock Report. The Durham district reports: "A carload of horses, each weighing from 1250 to 1400 pounds, was shipped from the county this week for the most part they were in good condition, but some were advanced in years."

The milk flow which has kept up wonderfully so far, is on the wane, as milk feeds are very expensive and hard to get.

The new flow which has kept up wonderfully so far, is on the wane, as milk feeds are very expensive and hard to get.

Brood sows are in strong request, some going at rates as high as \$10 to \$15.

Farm work has been much delayed by rain during the past week, especially plowing, silo-filling, and root harvesting.

"IRISH COBBLER" IS POTATO SELECTED

Representative Growers and Departmental Officials Recommend This Variety as Most Profitable.

Representative potato growers of the province and officials of both federal and local departments of agriculture in convention at the parliament buildings yesterday were agreed that the variety of early potato known as "Irish Cobbler" could be raised most profitably in the province.

The meeting was called for the purpose of devising means whereby the potato industry could be placed on a more profitable basis, and as a means of ending the standardization of varieties was advised and methods of combating common potato diseases were suggested.

No decision was reached as to the best late varieties to introduce. Two were favorably considered—"Green Mountain" and "Empire State." The discussion will be resumed this morning.

The convention opened yesterday morning, with Commissioner E. C. Creelman presiding. Sir William Hearst, minister of agriculture, addressed the gathering in the afternoon.

He referred to the importance of the potato growing industry in the province, and stated that it was the policy of the department to place the industry on a better basis by assisting in standardizing varieties, and aiding in the control of diseases.

In addition to government representatives others present were W. J. Orton, of Washington, potato expert of the United States department of agriculture; A. J. Macdonald, Douglas Maynard, Leamington; D. Broughton, Lambton; and Gordon Smith, Union. The convention will be continued this morning.

Considerable interest is being shown by hunters in a splendid display of game heads in the windows of the northwest corner King and Yonge streets.

On Nov. 1st the crack of the rifle will be heard again throughout the hunting territory of the province, and the Grand Trunk officials report that they are already issuing each day licenses to hunt deer, elk, moose and caribou.

The deer and moose heads indicate that the new crop matures in which are taken each year throughout the Highlands of Ontario, including the districts of Muskoka, Haliburton, Timagami, the Ottawa River and Lake Nipissing and the region adjoining the Algonquin Park game reserve.

Minister of Public Works Will Extend Operations, He Says.

Hon. F. G. Macdonald, minister of public works, yesterday stated that it was the intention of his department to supplement the supply of fish from Lakes Nipigon and Georgian Bay and Lake Superior.

The campaign to supply the residents with government fish has been so successful that the present supply is inadequate, and that the government is contending to secure a sufficient supply for all. It is expected that in a few weeks a place which desires fish will be able to secure a shipment three times a week.

One of the most important attractive features of the second extraordinary session of the Legislature to now be in the case of high quality business suits, the suits have just been received from the British buying agents, and as values are going today these most desirable and serviceable of woollens will be regularly priced at \$38.00, but the regular price is \$33.00, and the full benefit of this unusual price may be selected from these suits and have the full benefit of a 15 per cent discount on the purchase price.

Medicated Wines Must Not Be Made Overstrength in Future.

J. D. Flavell, chairman of the Ontario License Board, stated yesterday that manufacturers of medicated wines who introduced a greater percentage of alcohol into their product than the law allowed would be prosecuted.

Investigation by the Ontario Department of Fisheries of the truth of a statement by a Leamington clergyman that Lake Erie fishermen were throwing away sons of fish in order to keep the price up, revealed the fact that fish had been so wasted fifty or twenty years ago, but not during the present season.

There is absolutely no truth in the statement that the fishermen are doing that today," declared Hon. F. G. Macdonald.

The court called for yesterday in the first division court adjourned until November 13 at 10 a.m.

BRICKYARD WAS OF NO SPECIAL VALUE

According to Opinion in Statement by Assignee of Brickyard, Valuing of Don Valley Case.

At the resumed argument in the Taylor-Davies appeal before the first appeals court at Osgoode Hall yesterday Wallace Nesbitt, K.C., opened by reading the evidence of E. R. C. Clark, assignee for the Taylor Bros' brick business, to show whether proper enquiries had been made in regard to the value of the property when a valuation of \$38,000 had been placed on the 140 acres of land in the Don Valley. The property was subsequently transferred to the late Robert Davies to satisfy a mortgage of \$100,000 against it, but which conveyance was annulled by the assignee when an action was brought by Mrs. Isabella Taylor, wife of William Taylor, to recover the property on behalf of the creditors.

The counsel brought out an admission that he believed the Taylor had an extensive business, but explained that John F. Taylor was a wild speculator and that W. T. Taylor declared he was bleeding both the paper and brick business to make good in the statement read the assignee swore he only valued the Taylor property as a brick yard and not as one of special value.

SUGAR CROP NOT READY FOR MARKET

Present Time is "Between Seasons" and Causes Shortage of Commodity.

SOME HOARDING KNOWN

Crisis Will Be Tided Over if People Will Hold Tight, Says Jobber.

That there is a shortage of sugar in Canada and that it may be attributed in the main to the present shortage in the crop, and that the situation will be considerably relieved by the end of December, is the substance of the opinions expressed by the chief jobbers and others conversant with the market.

None of the men interviewed reported the use of sugar for conversion into alcohol, but the statistical report of the Dominion Alliance in this matter shows that during the year ending March 31, 1917, approximately 809,000,000 lbs. of sugar, and molasses were imported into Canada, out of which 28,000,000 lbs. were used in the distilleries.

The unnecessary hoarding of this commodity is also held partly responsible for the present shortage. During the past two years the price of sugar, wholesale, has risen from \$4.44 a hundred pounds to \$9.14, but also there is a rumor in the street that the price is soon to be raised 50 cents on the hundred pounds there was no confirmation on the matter.

The manager of the grocery department of the Robert Simpson Co. told a reporter for The World that his firm would on no account sell more than 5 lbs. of sugar to one customer at a time, and that only when accompanied by other substantial purchases at the store. In other words they will not sell sugar by itself, but will not sell in larger than two and a half pound packages to one customer.

The market price yesterday was 10 cents a pound, and it was not expected to rise. The R. Barron Co. of North York street is selling on the same basis as the Robert Simpson Company. Michie's Ltd. of King street, are selling at quantities demanded. They do not anticipate any rise in prices.

All the grocery stores in the city have experienced a shortage of supply, the retailers have been unable to send enough to fill the demands of the retail trade.

Laid In Big Supply. R. Hudson, of the Canada Brokerage Co. said that during the recent conference of the food retailers and jobbers with the food controller one of the speakers cited an instance of food hoarding in which a professional firm of Hamilton recently bought 20 hundred-pound bags of sugar. He himself stated that the number of people who had recently bought hundred-pound bags of sugar.

"If people will only hold tight for a little longer, and act as normal human beings, the crisis will be tided over," said Mr. Hudson.

"There are several reasons for the present shortage. One of these, in fact the chief of these, is the fact that the crop in the West Indies has not yet matured. We shall have access to the crop from that part of the world in January. Look for a slight increase in area, was concurred in by the committee.

To endorse such a policy, he claimed, would lead to a serious condition in which four or five organizations would all be trying to advise the public. It was decided that the communication should be acknowledged and the association informed that any recommendations regarding price submitted before the next meeting of the committee would be considered.

Letters were received from Mrs. F. L. Fitzpatrick, 401 Dundas street, asking that the \$1000 previously offered to the city to equip a playground in North Toronto was still available.

The use of Ketchum Park for drill purposes was granted to the R.F.C., and also permission for the dead storage of motor cars under the grand stand at Exhibition Park.

The recommendation of the committee for spaces for garden plots in the parks similar to last year, with a slight increase in area, was concurred in by the committee.

Garages and Dwellings Are Still Being Planned in City.

Permits are still being issued in considerable numbers by the city architect's office regarding glass structures, as well as other buildings. Among the permits issued yesterday for more expensive structures were the following:

F. G. Smart, one pair of detached brick dwellings at 212 and 214 Waverley road, at an estimated cost of \$4000.

W. Williamson, for addition to planing mill at 601 Woodbine avenue, \$3500.

J. E. Lawson for brick duplex house and garage at the northeast corner of Summerhill avenue and Jean street, \$5000.

POLICE POTATOES HARVESTED. Commissioners Gratified at Result of Voluntary Garden Efforts.

It was announced at the meeting of the police commissioners yesterday afternoon that the greater portion of the crop of potatoes on the lands of the Upper Canada College had been harvested.

The commissioners are delighted with the results accomplished on the land by the police and the various divisions, who volunteered their services, and there is little doubt but that the police will work the same land next year. To entice people on the subject of home production they intend placing exhibits of the potatoes in stores and windows downtown. All of the vegetables are to be donated to charitable institutions.

The commissioners on request of the chief of police decided to purchase long waterproof coats for men on patrol duty. For their good work in rounding up the Vaughan road motor bandits Acting Detectives Crowe and Elliott were awarded merit marks. For absconding with a bicycle, Constable Smith was promoted to the rank of sergeant.

SUPERINTENDENT RESIGNS. After twenty years' service as superintendent of the Ontario Department of Game and Fisheries, E. W. Tinsley has tendered his resignation, and will be succeeded by W. McDonald, who for several months has been acting as deputy minister of the department.

MOTOR CAR OVERTURNS. James Hyland, 682 Duellia avenue, was out about the head yesterday afternoon by spring glass when a motor car belonging to the Forestry Battalion overturned at the corner of University avenue and Dundas street. He was taken to St. Michael's Hospital and later was able to go home. Three soldiers, who were riding in the car, escaped unhurt.

PARKS COMMISSIONER RESENTS DICTION

Does Not Propose to Be Guided by Recommendations of North Toronto Ratepayers' Association.

At the meeting of the parks and exhibition committee of the city council yesterday a letter was read from the North Toronto Ratepayers' Association asking that that body be consulted before any site is decided upon for a North Toronto playground.

Commissioner Chambers said that the boot was on the wrong foot; they should approve or object to a site that the committee had first decided upon. "I don't propose to be guided by the recommendation of any organization," he said. "Let them approve or disapprove of any site I recommend."

To endorse such a policy, he claimed, would lead to a serious condition in which four or five organizations would all be trying to advise the public. ### A Bigger Policy Required.

Facing facts is the one big policy that the world-war imposes upon everyone. There is frequently a tendency on the part of the optimistic to try to evade facts, to escape their knowledge as to what they should do to assist an escape from their consequences. It is a more natural tendency in a young, energetic and resourceful nation like Canada than in older lands, because new conditions are more easily sought out or created in a new land than an old one.

But the war has had an equalizing or leveling effect, reducing everybody to the same footing, the young and the old, the rich and the poor, the clever and the dull; we all meet on the minimum level of food and shelter. It is this which gives such tremendous importance to the officials who have been entrusted with the control of food and fuel. The vitality of the nation depends upon the common sense and the fidelity of these men. Their good faith may be assured, yet their experience or their preconceptions may be such that they accomplish nothing. For some reason or another, as it appears to us, the controllers of food and fuel have not risen to the occasion of their tasks, or else they have not been able to impress those above them with the necessity of taking such steps as Lord Rhonda in England and others have not hesitated to take.

This is not the time to be considering any one interest or any other interest. Only the nation as a whole can be regarded in carrying out the measures that will best subserve the interests of the nation and of those who are fighting with us as allies. There is more than a possibility of the war being continued for two years or even three years longer. As some authorities say, the only safety is to prepare as if the war were to last for ever. In Canada we seem to have acted on the assumption at all times that the war might be over in three months. Optimism is a splendid quality when properly applied, but we need some long-range optimism, just as we needed long-range artillery.

The policy of the food controller in trying to jolly people along by persuasive discourses on the healthfulness of restricted diet, the ethics of canning fresh vegetables, and the immorality of hoarding is all very well for a Sunday school campaign, but in a war it is wide of the mark, especially when it falls short of those who are making most gains out of the high prices which the policy encourages, and which does more than anything else to take the heart and the courage out of the great mass of the people of the nation. The policy that leaves the ordinary citizen out of account, or takes note of him merely as a side issue, is not a policy which will carry through a prolonged war.

There is an idea in some circles that criticism of this description will embarrass the officials in their work. But this overlooks the very important fact that a little embarrassment of the officials at this time is much to be preferred to a very serious embarrassment of the whole nation later on.

Nothing is acting so depressingly on the morale of the whole people as the constant increase in prices, helplessly increasing as they seem to be to those who are trying on fixed and restricted incomes to do their best to meet the war conditions. The food controller has no comfort for the mass of the people who belong to this class. His concern is all for those who produce and distribute food, a worthy minority, but not more worthy than those who do their duty in other directions and play their due part in the national life. This question of high prices will not down, in spite of all the convictions of the trusts and corporations and interests, or the prepossessions of the food controller. High prices in war time may be due to an increased demand, but they are much more due to the artificial conditions created by the dealers and middlemen. This has been glaringly demonstrated in many cases, as with the paper manufacturers, the coal men, the iron and steel men, the wheat and flour men, in all which cases prices have been fixed. Even the stock exchanges have found it necessary to regulate their work, or plan less exacting toll than that involved in the raising of foodstuffs.

It would be much wiser to deal with this matter of prices today than later on, when the people may insist on taking it into their own hands.

The whole question of the production and the sale and distribution of food and fuel affects the very life of the nation and the stability of the anti-Teuton alliance, and it should be handled in a larger spirit than at present.

### No Alternative.

Hon. Robert Rogers has plenty of political horse sense, and he puts the issue well when he says that those who favor conscription have no alternative but to support the candidates of the union government at the coming election. Whether a person prefers union or party government, whether he is satisfied or dissatisfied with the record of the government which came into office in 1911, whether he is a protectionist or a free trader, all these things are quite immaterial when he comes to vote at the next election. The war is so supremely the one issue that if he favors keeping Canada's fighting force at the front up to strength he has no choice but to vote for the union government.

When conscription was proposed our fellow-citizens of Quebec were quite within their rights in opposing it. Those Liberal members who thought that the question ought to be referred to and settled by the people acted in a constitutional manner, however unwise we may deem their course to have been. To some extent they may claim they are vindicated, because the coming election is after all a plebiscite upon conscription.

There may be some public opinion in this country, however insignificant, which favors peace on almost any terms if peace can be secured, and which feels that Canada has contributed all the men she should contribute to the war. Those holding that opinion

will undoubtedly vote against the union government. They may be anxious to win the war, but honestly believe that it cannot be won; or they may think it would be a national disaster for Canada to put fresh levies of soldiers in the field.

These people have the right to express their views by voting against the union government. They will no doubt submit to the decision of the majority that the war should go on, that there should be no premature peace, and that more soldiers should be sent by Canada to the front. On the other hand, those who believe that we should be satisfied with nothing less than a victorious peace, who believe in reinforcing our boys at the front, who believe in conscription, have no choice or alternative but to support the union government. And they are the great majority of our people.

### U. S. Nation-Wide Prohibition.

The advancing wave of prohibition in the United States receives an unexpected check in the opposition of The Outlook to a constitutional amendment prohibiting the manufacture, sale, importation and transport of intoxicating liquors within the United States. The Outlook would undoubtedly like to see the liquor evil abolished, and warmly praises the results of local option. Those results, it says, are permanent and beneficial, and we read:

"When local option has had a fair and continuous trial and there has been no radical change in the population, the community has not gone back to license. The jails have been empty, the schools have been full, the savings bank deposits have increased, the public library has been patronized, the water department, the fire department, the police department and other forms of public service have been improved, the streets have been cleaner, the homes more prosperous, the mothers and children happier, and pauperism has almost disappeared." Nevertheless The Outlook opposes a prohibition amendment to the federal constitution. It does so in the first place because it fears the contest would divide the people, who ought to be united in wartime; but apart from this it fears the result of certain states imposing their will upon other states.

The southern states, which would probably favor a prohibition amendment to the federal constitution, would be the first to resent an attempt to amend the constitution so as to enfranchise the women of the United States. They argue, with a good deal of force, that equal suffrage is a question which every state must settle for itself. There might be no serious objection to enfranchising the women of New Hampshire, but the greatest possible objection to complicating the already desperate race problem in the south by enfranchising several million women of color, a large majority of whom are admittedly not ready for the vote.

So The Outlook argues that states with rural population mainly native born cannot decide how the liquor problem should be dealt with in states containing large cities and a multitude of people of foreign birth. Yet the tide is flowing so fast toward national prohibition that no one can say what may happen, and it must be remembered that in voting upon a constitutional amendment the State of New York with nine million people has no more potent a voice than the State of Nevada with a population of eighty thousand. Already, however, congress, in the exercise of its war powers, has prohibited the manufacture and importation of distilled spirits during the period of the war, and has authorized the president at any time by executive order to prohibit the use of grains and fruits in the manufacture of beer and wine.

### Other People's Opinions

#### Serious Farming Situation.

Editor World: The war must be won. Little else matters. But it cannot be won on an empty stomach, and the strenuous man in farmer's overalls is fundamentally of as great importance as the man in khaki. The unmarried help on the farms in my parish went to the war long ago. The same is true of many farmers' sons, two of whom have made the great sacrifice. This countryside has been combed clean. The result is that, despite the fact that they fully recognize the need of increased production, some of our farmers find it difficult or impossible to maintain their normal output. Others disappointingly declare that they will have to quit altogether. Everybody is crippled in his operations for want of help. Thrashing, corn-cutting and the like have been unduly prolonged because there were not hands enough; and fall plowing, in consequence, is away behind. The situation is emphatically serious.

This is not Muskoka, where rock and lake leave but few arable acres in the hundred. On the contrary, every foot is capable of intensive cultivation. A higher working force than the talked-of one man to the hundred acres is a positive necessity here. And yet, in a considerable number of cases, we have actually less. To their chagrin, some of our best men need scarce scamp their work, or plan less exacting toll than that involved in the raising of foodstuffs.

It is folly to suggest the filling of the farmer's place by men of other callings. Whether the world is ready to recognize it or not, it is nevertheless a stern fact that modern farming is one of the professions. It requires a multifarious knowledge and a sound training, as well as manual skill. On the farm several ordinary men plitfully measure up with one actual farmer, while they want several times his wage and consume several times his rations. None but the theorist or the visionary suggest the substitution of men from town for the practical agriculturist.

What the military tribunals may do matters little to me personally. In any event the farming community will raise enough for their own consumption. But if production and without any misgiving. Whether it has any value will be subsequently shown. Let us hope we may be spared a tragic demonstration.

### The Sea is His.

The sea is his: He made it,  
 Black gull and sunlit shoal,  
 From barred light to where the long  
 Leagues of Atlantic roll;  
 Small strait and ceaseless ocean  
 He bade each one to be.  
 The sea is his: He made it,  
 And Britain keeps it free.

Count me the splendid captains  
 Who sailed with courage high  
 To chart the perilous ways unknown—  
 Tell me where these men lie;  
 To light a path to Neptune's home  
 They moored at Dead Man's Quay  
 The sea is his: He made it,  
 And these men kept it free.

O little land of England,  
 Oh, mother of hearts too brave,  
 Men say this trust shall pass from thee  
 Who guardest Neptune's grave!  
 Aye, but these bragging trait shall learn  
 Who'd hold the world in fee,  
 The sea is his:—and Britain,  
 Britain shall keep it free.

### The Convoys of Wounded Comes In.

BY CAPT. W. L. STEPHENS.  
 (British Army Medical Corps.)

The colonel and his attendant doctors have settled themselves at tables in the reception hut—already they hear the sound of the first motor ambulances whirring up from the railway siding where the wounded have been taken off the Red Cross hospital train.

"Here they come," says the young lieutenant, as the ambulances quickly get the first stretcher case off the motor ambulance and put him down, stretcher and all, before the table.

A swift examination, a look at the regimental list of casualties, religion—on his case card. The doctors consult together for a moment as to where there is most bed space available.

"Ward Six," the colonel announces, and the stretcher-bearers again take the wounded man, to march off with him to his new domicile.

Now a little body of men comes trooping in. They are the walking cases. The bathroom is their first haven. They are at the "baths," and in practically all the British home towns. They are made of denim, which is called on Canadian farms overalls. One after another the walking cases are assigned to the wards where beds are being swiftly got ready for them; for once in hospital of course they cease at once to be "walking cases."

"Copped a packet, Jock?" says an Englishman to a big Highlander, as he looks at his bandaged arm. "How did you get him?"

"Tried to stop a whizzbang," Jock replies. "And did. Stopped him fair and square, I did."

"Bones, or just a fleshy cushy one?" "Bones at the wrist."

"You lucky devil. That's a 'sure Blighty,'" laughs the Englishman.

"You blessed Scotch have all the luck. Mine's a mere flesh, no good for Blighty." (His reply said, "Naggar" compares notes over shrapnel, a third exclaims close to the stretcher-bearers and from there, "I'll swap you. How much will you take for that arm of yours.")

"They progress towards the table as one or two more cases out to the wards. Here a man shows an explosive bullet through his forehead, and another, a third exclaims notes on the effect of trench mortars on close quarters, and then buzz up from the stretcher-bearers, "I'll swap you. How much will you take for that arm of yours."

"Trench feet," says one doctor to the other, "I'll swap you. How much will you take for that arm of yours."

"Still hanging on to that idea of yours that 'inoculation' is the answer to the trench foot," says the other, "I'll swap you. How much will you take for that arm of yours."

"I would inoculate some people so that their minds might be open to new ideas," is the prompt but quite respectful reply, "I'll swap you. How much will you take for that arm of yours."

"The colonel exhales one or two close to the stretcher-bearers, and they move off with their arms crossed, and the stretcher-bearers close their cases are sent. These wards lie always opposite the operating theatre from them with the greatest expedition at any time.

"Let's operate tonight, if we are to give him a chance of saving that leg. Let the boys have a night's rest. I'll swap you. How much will you take for that arm of yours."

"I suspect this man of being a carrier and send him out to you to deal with," says the colonel to the stretcher-bearers. "I'll swap you. How much will you take for that arm of yours."

"All right, my lad," says the colonel, looking up. "I'll swap you. How much will you take for that arm of yours."

"You'll have to keep him under observation for a day or two and report." "I'll swap you. How much will you take for that arm of yours."

The locating of carriers—those difficult and elusive people, who have the power, while not being carriers, to transmit the trouble, of transmitting infectious diseases—one of the delicate bits of medical work.

The doctor, with the specimen of the blood, goes early next to the Red Cross hospital. It is a well-known fact that where in an improvised laboratory a skilled pathologist carries out his researches on all the puzzling cases occurring in an entire large hospital area, small cases, rather than the usual scurvy and the officer passes by.

"The officer passes on his way back he looks in at one of the wards where the boys are settling down for the night. "You settle down, sonny, or you'll get the sergeant-major. He'll put you to sleep all right. He'll soothe you and no error."

"What?" rejoins the first Australian, in a gruff tone. "You think he'll come and do a little thing like that for me, and me come all these weary miles from Australia. The sergeant-major says you to sleep in all the best hospitals. Then I'll have sing on my own: 'I'm a little Anzac.'"

"Sydney is my home; I'll swap you. How much will you take for that arm of yours."

The words contrast curiously with the powerful tone of the singer. The following morning the captain, as he considers the hospital letters, reads to the colonel the extract from one of the boy's epistles:

"Arrived at 22 last night; was brought up by an English chauffeur, carried in by two Scotch stretcher-bearers, washed by a Canadian soldier, got my breakfast this morning from a Canadian girl."

"By the way, that same Canadian girl at first would not speak to anybody. She spoke in Gaelic, and I, being a Gaelic, telling him that her father came from the Highlands and had taught her the Gaelic she spoke, she had no more fear of me for that before."

"Here for the first time, in France it was coming to hand. The Macdonalds and I began to take notice at the photo of his trousers, you see, to show him where some bits of splinters are. She spoke in Gaelic, and I, being a Gaelic, she says, 'Jock, are little bits of Gaelic, believe me this Gaelic's going to be half the cure for your trench foot.'"

"So that is '22—some sister—some hospital. And so say all of us. A Canadian sister, speaking Gaelic to a wounded soldier in France is 'sure' doing pretty well." (Copyright, 1917.)

### FUSION ATTEMPTS FAIL IN HAMILTON

Get-together Meeting, Endeavoring to Avoid Election, Had No Results.

By a Staff Reporter.  
 Hamilton, Wednesday, Oct. 31.—That Hamilton is to be the centre of an unusually bitter fight during the coming federal elections is evident from the fact that all attempts of the different parties interested to effect a harmonious agreement in regard to candidates for both the Conservative and Liberal offices presented to the voters of the "old stamp" state that, as far back as they can remember, nothing like the present crisis can be recalled in regard to the interest that is being manifested in local politics by the voters.

With the object of avoiding an election in West Hamilton, six representatives of the Conservative Association, with six independent Liberals, held a conference in the board of trade yesterday. The idea was to have had six representatives of the Liberal Association attend also, but their refusal to attend, and the fact that they had no authority to enter into any negotiations without first calling a convention; consequently the Liberal Association was not represented.

Nothing definite was decided upon by the gathering, and in conversation with a reporter for The World last night, F. J. Howell, who was chairman, said: "It was merely a get-together meeting for the purpose of trying to avoid an election in Hamilton. We don't want an election, and think that it is for the interests of the country not to have one. No decision was reached, so we adjourned until Wednesday afternoon."

During the week there will be three gatherings of a political nature. Tonight a meeting will be held under the auspices of the Win-the-War League in the Conservatory of Music to teach the women-club members how to use their vote. Among the speakers will be Mrs. L. A. Hamilton, Toronto, and Mrs. W. E. S. O'Connell.

Friday the Liberal and Conservative associations will hold a convention in the Royal Conservatory Hotel. It is stated that representative Liberals from all over the province will be in attendance, and the local situation will be dealt with. The convention will assemble at 10 o'clock in the morning, and it is believed that the speakers will include Hon. N. W. Rowell and Hon. Frank McCreary, two of the new federal ministers, and Fred P. Pardee. The evening session will be in the nature of a mass meeting.

### MACLEAN HIGHLANDERS END STAY IN MONTREAL

Battalion, Twelve Hundred Strong, Marches Away to Train Elsewhere.

Montreal, Oct. 30.—The 286th Maclean Highlanders left Montreal today to continue training elsewhere, marching out 1200 strong, under Lieut.-Col. Guthrie, in a driving rain. Brigadier-General H. H. MacLellan, after whom the battalion is named, was present. The Peel street barracks will be occupied next by the 2nd depot battalion of French-Canadian reinforcements, under the Military Service Act, which will be organized by Lieut.-Col. Dalrymple-Gingras, D.S.O.

### ITALY GETS BIG LOAN FROM UNITED STATES

American Treasury Advances Two Hundred and Thirty Million Dollars.

Washington, Oct. 30.—Substantial evidence of America's faith in Italy in the hour of her trial was given at the treasury today in the form of a loan of \$230,000,000. This brought the total of credits extended to Italy to \$485,000,000, and the grand total of loans to the allies to \$2,071,400,000. With this money Italy will pay for vast quantities of coal and other supplies purchased here for her armies and industries. To carry the supplies the shipping board already has agreed to turn over 25 merchant ships.

### CONSERVATIVES SELECT J. BOWMAN IN N. HURON

Choice of Liberals Unanimously Rejected by Enthusiastic Convention at Wingham.

Wingham, Oct. 30.—James Bowman, who, since 1911, has represented East Huron in the house of commons, as a Conservative, was today nominated as a supporter of the union government in the new riding of North Huron at an enthusiastic convention in the town hall. At the meeting held on October 13 to select a candidate Mr. Bowman urged that the meeting adjourn and that President Percy Scott and Secretary McEwen be appointed a committee to meet the president of the Liberal Association at Wingham with a view to agreeing on a win-the-war candidate. This was done and the Conservative and Liberal officers met last week, but were unable to agree on a candidate. The Liberal executive presented the convention today and unanimously rejected, George Spanton, addressing the convention, said that the association he termed the United Win-the-War Association of North Huron. He believed the Liberals made a mistake in not supporting Mr. Bowman. Mr. Bowman did not believe Mr. Eyles was the choice of the majority of the Liberals of the riding. He quoted Mr. Eyles' speech at the Liberal convention at Toronto when he said: "I am opposed to any policy except that laid down by my leader, Sir Wilfrid Laurier."

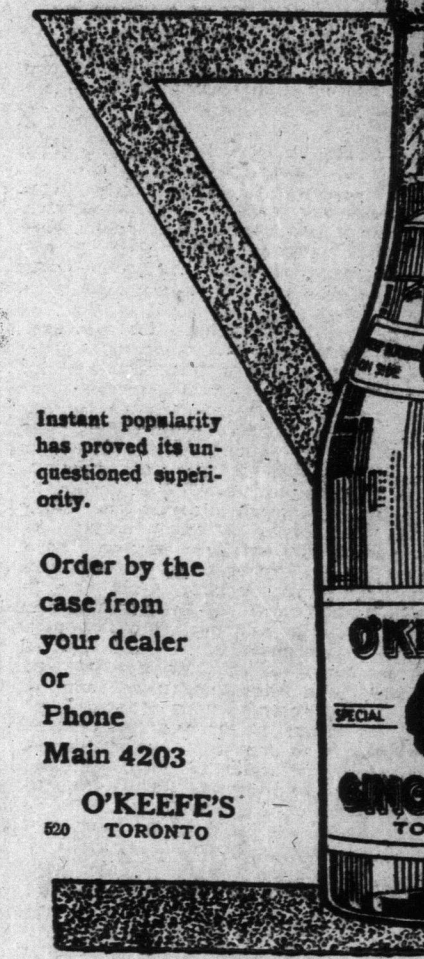

No other names were placed in nomination, and Mr. Bowman was declared the choice.

Offer of Cabinet Position to B. C. Premier Remains Open.

Vancouver, Oct. 30.—Premier Brewster returned this morning from the east. Hon. J. W. De Farris, who went east with Mr. Brewster, is expected back tonight. The premier refuses to make any statement of his opinion of the union administration at Ottawa. "I have been requested by delegations of both parties, Liberals and win-the-war Conservatives, to have a discussion with them before making public my views on the question of union government for Canada," said the premier. "I intend to meet them, and will therefore not discuss the matter publicly until the cabinet as well as the reports of these interviews take place. I am hopeful that my statements may be such as will embrace the whole provincial government so that what I may say may be taken as the government's opinion of what attitude British Columbia should take under present conditions."

The premier announced that he did not care to discuss the reports circulated some time ago that he might join the Ottawa cabinet. Pressed upon the point he admitted that the matter was not, however, a closed issue.

Turning to the more recent suggestion that he might join the senate and set in motion the cabinet as well, he said that the report of a senate appointment was news to him until he read it in the papers. "It is not my intention to go into the senate," he commented.

# Tri-Odds in High School Rugby League Arranged

## HARBORD DOWNED BY OAKWOOD TEAM

### Triple Tie Now in Western Senior Group of High School League.

Oakwood did the expected when they downed Harbord, 19 to 11, in their postponed High School League fixture at Varsity Stadium yesterday. Oakwood's victory made a triple tie in the western senior group of Oakwood, Parkdale and Humberdale.

The better team won yesterday's fixture. They had the weight, and their halves had considerably on their opponents. Harbord did a lot of fumbling and tried to buck when kicking should have been resorted to.

The Oakwood kicked against a strong Harbord territory most of the time in the opening quarter, and the score was a tie 5-5, when ends were changed. A nice run by Burch, left, was followed by a buck with Young carrying the ball, gave Oakwood their first touchdown. Shoot after this Mueller muffed a punt behind his own line which Brody secured for a Harbord touchdown.

With the wind behind them in the second period, Oakwood took the lead, and the half-time score was 12 to 5. Some good line plunging put them within striking distance, and Burch was sent over for a touch-down. In the latter stages of the period Harbord took offensive and salient yards repeatedly. However, when within striking distance of the Oakwood line, time was called. Mueller was forced to rouse, Harbord again had a touch-down. Burch enabled the same player to kick to the goal line for a single point, bringing Oakwood's score to 13. A fumble on an extended pass by Oakwood, followed by another fumble of punt, gave Harbord possession a few yards out, and they bucked over for a touch-down, Harbord 11.

In the last period Harbord had the better of the early play, but Oakwood player on his own 25-yard line was recovered by Oakwood, who ran over a touch-down. Burch's good kicking, assisted by the strong wind, kept Harbord out. Final score: Oakwood 19, Harbord 11.

**The teams:** (1)—Flying wing, Brody; right, Buchanan; centre, Ross; left, Fisher; quarter, Devitt; scrum-half, Munro; full-back, Smith; right inside, Cooper; left inside, Zuffel; right middle, Graham; left middle, Palmer; right outside, Rade; Thompson; left outside, Junkin.

**Oakwood (19)—Flying wing,** Drummond; right, Young; centre, Mueller; left, Burch; quarter, McFetridge; scrum-half, Cornell; Thomas; full-back, Burch; right inside, Maxwell; left inside, Pugh; right middle, Mitchell; left middle, Heyland; left outside, Sibley; right outside, Carr; Umpire—W. Maxted.

**Ottawa Journal:** When Civil Service and Rough Riders clash next Saturday for the third time, the contest should be a hum-dinger, and if the crowd at the stadium, there is something radically wrong with the clean sport. The Ottawa football team is not getting the credit it deserves. It cannot be said that the Ottawa team is not getting the credit it deserves, because they do, and are getting it elsewhere than at sporting events.

A Hamilton despatch says: The little squabble between the local intermediate O.R.F.U. teams goes merrily on, with both teams hitting above the belt. The Techs, however, are termed the "beef trust," as they claim that the Bengals are carrying the heavy men and that they have so many already that the majority of them will have to decorate the bench. The Techs promise great things for the game next Saturday, and it remains to be seen just how many can do against a team that doubled the score against them last Saturday.

Captain Walter Howell is searching the down for halfbacks. He is well satisfied with the work of the Tiger wing men, but he feels that Johnny McKelvey has got to have better support on the back division. McKelvey has been doing nearly all the work behind the line in the two games played and the coach feels that he is being asked to do too much. There is talk of moving Pat Burton back, also he has been making such a good showing as cover that it is thought that he would be more valuable there than as a half-back.

Hamilton Herald: Because Parkdale held Tigers to a 2 to 2 score on Saturday, both Parkdale and Camp are counting on winning over the Jungle Kings when the yellow and black crew invade Toronto. Parkdale had a weak and thereby disgraced fourteen against the Bengals, and they believe that with their regulars all in line they will trim the Toronto brigade.

But Tigers think otherwise. Not only do they expect to win both games in Toronto, but they hope to gain bigger majorities than they did against Parkdale here. Special attention is to be paid this week to the back division. This is the weak spot. The catching and punting has not been satisfactory, and has been due only to Johnny McKelvey's all-round work that that of the team has held up. The line, as at present constituted, will do nicely, thank you. The tackling is all the defence as strong as a stone-wall and the offence very strong.

## Jimmy Reynolds, Ped., Dead at Port Hope

Port Hope, Oct. 30.—James Reynolds, the well-known pedestrian, died at the hospital here at 5 o'clock this morning, aged 67.

His last great walking exploit was on June 15, 1917, when he attempted to make a trip from Port Hope to Toronto and return in 35 hours. He abandoned the undertaking when a mile west of Newcastle, Ontario, miles from Port Hope, having been seized with cramps. However, considering that he was 60 years of age, he had made good time.

Mr. Reynolds made his first walk from Port Hope to Toronto on June 1, 1908, and made the trip in a little over eighteen hours. On June 24, 1907, he started to walk from Port Hope to Toronto and return in 28 hours, but on the return trip he had only reached Newcastle when he succumbed to the heat. On this occasion he had 5 1/2 hours to walk the remaining 17 1/2 miles. In September, 1908, he made the round trip in 38 hours and 18 minutes, notwithstanding an accident to his shin at the Woodbine. On June 13, 1910, Mr. Reynolds endeavored to make the round trip in 24 hours, but when near Newcastle he had to give up.

The deceased for many years conducted a well-known business at Port Hope, and is survived by one son, Howard Reynolds of Rochester, N.Y.

## PHYSICAL DIRECTORS MEET.

The Toronto Physical Education Society met at the McCormack recreation centre on Tuesday morning and listened to an interesting and instructive paper by J. H. Brinsford, on playground work. This was followed by a demonstration of group games. Mr. Brinsford's leading, and would have been followed by a demonstration of the east-enders being badly trounced by the west-enders. The next meeting will be held at Central Y. next Tuesday at 8:30, and judging by the attendance yesterday full house will be out. All wishing to join the society should communicate with W. D. Nicol, Broadview Y. M. C. A., or D. C. Armour, Central Y. M. C. A.

## GALT CURLING CLUB.

Galt, Oct. 30.—The eighth annual meeting of Galt Curling Club was held tonight at the city hall, with one of the largest attendances on record. Appointment of rink and district cup skippers will not be made until the season is under way.

## Soccer Notes

All players and members of the Old Country F.C. are asked to turn up to the general meeting, which is being held at the church hall at Dunn avenue on Wednesday evening at 8 o'clock. A large attendance of members is looked forward to.

## THURSDAY IS DAY FOR FIRST CLASH

### Parkdale and Humberdale Will Make First Attempt to Break Triple Tie.

Oakwood's 19 to 11 win over Harbord yesterday made a triple tie in the western senior group of the High School League.

Oakwood, Parkdale and Humberdale are now tied and a winner of this group must be ready for the final on Friday, Nov. 9. Parkdale and Humberdale will meet at Varsity Stadium on Thursday. The winner will then meet Oakwood on Monday and the victor of this battle will be ready to meet Technical in the final on Nov. 9.

Malvern and Technical will play the junior semi-final at Scarborough Beach on Friday. The victor will be pitted against Parkdale, western division winners, on Nov. 9 in the final.

The high school finals, which will be staged at Varsity Stadium on Nov. 9, should provide a great afternoon of rugby. A relay race, east v. west, will be staged between the games, and is a new venture.

When Parkdale tackles the Hamilton Tigers here on Saturday they will have against them the best team in the Hamiltonian Capital game at the beginning of the season, it is fit and ready, and will take his place on the backfield.

The Hamilton Technicals made a ten-strike when they last night. The Tigers were after him, too.

Hamilton Spectator: Also the Technical School Rugby team has failed to come out on the large scale. The students are by no means discouraged, and will make a strenuous effort to win from Capitals here next Saturday. The management is naturally disappointed at the fact that the efforts to get heavier men for the wing line have not resulted. The team is still in the remaining games of the C.R.F.U. series, and while they are not giving up, they are not giving up either. They are after Red Farnery, who is a very experienced player, and they will turn out. Any idea he may have had of playing again were dispelled by a severe injury received in a practice game on Thanksgiving Day. The little fellow was first attempt to play the game. The students have other things on their mind and hope to have a real senior aggregation ready for next Saturday's game here.

## ON ATHENAEUM ALLEYS.

The Cutters of the Dunlop League took a fast hold on first place last night, when they defeated the Shamblers by 3-1. A double bill was scheduled in the Adams League. For St. John's, while the Cutters were treating the Dining Tables to the game, the Shamblers were playing a double bill.

The Shamblers were playing a double bill. The Cutters were playing a double bill. The Shamblers were playing a double bill. The Cutters were playing a double bill.

## UNDOCKED HACKNEYS WILL FEATURE SHOW

New York, Oct. 30.—Because of the war, hackneys which have not been docked will be featured in the annual National Horse Show, which will open in Madison Square Garden on November 12. It was announced here today. The receipts will be given to the American Red Cross.

## AYR UNION CURLING CLUB.

Ayr, Oct. 30.—At the annual meeting of Ayr Union Curling Club the following officers were elected for the ensuing year: President, W. J. Reid; vice-president, J. G. Brown; management committee, W. A. Reid, J. Anderson, and J. F. Reid; rink skippers, J. Anderson, J. F. Reid, and J. G. Brown.

## ST. LOUIS IS TIRED OF FIELDER JONES

### Latest Big League Manager to Get the Ax, According to Rumor.

Chicago, Oct. 30.—From a source quite adjacent to Fielder Jones it was learned that the manager of the St. Louis Browns does not expect to return next year to the task of leading the Mound City outfit.

While no official announcement has been made, it is understood that Jones is being asked to resign. The manager of the St. Louis Browns is being asked to resign. The manager of the St. Louis Browns is being asked to resign.

Hamilton Spectator: Also the Technical School Rugby team has failed to come out on the large scale. The students are by no means discouraged, and will make a strenuous effort to win from Capitals here next Saturday.

## BASEBALL CLASSIFIED

London, Oct. 30.—England is making a strenuous effort to understand and appreciate things American these days, and is making quite a success of everything except baseball. At baseball England balks, and it professes to see in the game a semblance to a schoolboy game known to the English as "rounders."

There are puzzling changes both in the form and the manner of the game. There is a fierce aversion and force in the play which the school game did not possess. The rules are different. A complete run around, and what was there in the school game, is now a complete run around, and what was there in the school game, is now a complete run around.

OBEY THE LAW! Report at Once for Service or Claim Exemption Under the Military Service Act, all men in Class One are soldiers today, absent with leave and without pay. Failure to obey the law amounts to DESERTION and can be punished as such. Class One includes bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th of October, 1917, and whose 34th birthday did not occur before January 1st, 1917. DO IT TODAY! The rush in the last few days may be such that in the hurry and stress a number of men may fail to comply with the requirements under the Act. That will not be recognized as an excuse, as every man is being given ample time to report for service, or claim exemption. GO TO YOUR POST OFFICE TODAY and ask for a form for reporting for service or for claiming exemption. Understand, it is a matter of LAW that all the men in Class One must report for service or claim exemption not later than November 10th, 1917. Issued by The Military Service Council

SPORTSMEN AND HUNTERS Headquarters for Sportsmen's Supplies. Guns, Shells, Clothing, etc. KE GO. Kings St. E. Toronto. PORT-WRITERS HANDED OUT REAL HARD BOLTS What a difference in baseball writing by and 30 years ago! Nowadays the players are gently kidded. Thirty years ago they were pounded from pillar to post by the zealous scribbles—and the writers wrote just what they pleased. They were not afraid to write what they saw, and they were not afraid to write what they heard. Here are some of the things that were written in the old days: "Why does the Cincinnati Club persist in standing by the useless and dissipated one Geuz? Surely his ridiculous attempt to consume all the beer north of the Rhine should by this time have been as advertised as they deserve." "Frog Jumper, our great left-hander, as invented a new trick before and after every game. It is composed of a pair of beer and whiskey, and it's capacity seems to be simply unlimited." "Chaynes, the famous college pitcher, as either helplessly intoxicated or else drew the game. After the fourth inning he was replaced by Honesty Skitt, who is at least sober and honest, and Honesty topped the run getting." "A disgraceful row took place in Paddy Quinn's infamous saloon last night. In Quinn's saloon, the members of the Brooklyn and Cincinnati Clubs, Con Kayser, the Brooklyn catcher, was attacked by Eddie Winkaco, another catcher of the same club, and, seizing Gimpaco, the Cincinnati catcher, by the ankles, he threw him to the floor with such force that the unfortunate player's neck was broken. Ten minutes later Gimpaco, Gilligan of the Reds assaulted little Bub Clicker of Brooklyn, and struck him on the head with a beer mallet, and Winkaco was out of the game for several days." "Eddie Skirk and Jack Molte, two of the finest players of the New York club, settled old grievances last night in front of the Aeneas saloon. Both were raving drunk at the time. Skirk was fearfully beaten and was taken to the Irish hospital." "What is the matter with Rick Booley? The answer is: Booley will not do. Why retain this disgruntled player on the club? The Chicago team was hopelessly hand-capped during the past season by the presence of the notorious pipe-flend and lusher Jack Conroy on the club." "There is one man on the club who has a heart, and a generous heart, and the rest of his men their souls would rattle round inside a mustard seed like a peanut in a wash boiler." "And there are plenty more such epithets in the scrapbook."

**NATIONAL LIBRARY FOR BLIND OPENED**

Formal Opening of New Quarters of Canadian Institution Held Yesterday Afternoon.

Canada generally has an interest in the formal opening of the new quarters of the Canadian National Library for the Blind, situated near the corner of College street and University avenue, the event marking a pronounced development in things in which the blind of the Dominion may eventually have a share.

The house has been comfortably furnished by the Canadian Women's Association for the Welfare of the Blind and towards the work the reception room was equipped by the Chateaugay Chapter, I. O. D. E. In addition to the furnishing, the library shows a large selection of books in which the blind of the Dominion may eventually have a share.

**HALLOWE'EN BAZAAR OPENS.**

Foresters' Hall Scene of Activities for Ambulance Fund.

Charmingly appointed and going with a swing is the Halloween bazaar now in progress at Foresters' Hall. Lady Hearst officiated at the formal opening yesterday afternoon, committing the members of Ward Two Conservative Association and on the beautiful decorations and on the work they had done in preparation for the event, the proceeds of which were to go for an ambulance for the men in the base hospitals. Col. Hardy also said a few words, expressing thanks for what the members had done in the past towards the comfort and recreation of the men, and hoped for the success of the patriotic work in hand.

The hall is most effectively decorated in orange and white, witches silhouettes against the bright background. The women in charge are: Mrs. James Casey, general convener; home-made confectionery, Mrs. Wood, Mrs. A. M. S. Stewart; candy booth, Mrs. Westman; handkerchiefs and aprons, Mrs. J. V. Moore; linen, Mrs. T. B. MacDonald; utility booth, Mrs. W. G. Nord; dolls, Mrs. Hugh Shaw; children's wear, Miss A. Armstrong; ice cream, Miss E. Crawshaw; Mrs. C. E. Querre; Florence M. Benjamin, the composer, was doing her bit by the sale of her pretty song, "Belgian Blue," for which Jules Brazil has written the music.

Mrs. Arthur VanKoughnet, general convener, for soldiers' comforts have encouragement by an early call on the workers.

Senior Students of St. Joseph's College Held Unique Entertainment.

Halloween was anticipated by the senior students at St. Joseph's College last evening when an entertainment was given in which the confederations of the province were shown most delightfully, the girls taking part being dressed in the dress of the period in which the provinces were represented. The entertainment was most gracefully, the many varied costumes lending to the attractiveness of the picture. A banquet at which the students were the guests was given at the close of the performance.

**FIRST ALUMNAE MEETING.**

St. Joseph's College Association Opened Season's Activities Yesterday Afternoon.

St. Joseph's College Alumnae held its first general meeting for the season yesterday afternoon. The president, Mrs. J. D. Ward, in the chair. Very Rev. Dean Harris, L.D., was the speaker, giving a most interesting and scholarly paper on "Christian Art and Greek Culture," tracing the development of sculpture during the Greek period, which seemed to bring out the perfection of the body, while the paintings of the Christian era brought to its fullest the art of painting, through which the spiritual side is much more aptly portrayed than through the medium of stone.

Tea was served at the conclusion of the lecture, the hostesses being Mrs. A. Thompson and Mrs. Paul O'Sullivan.

**GOOD SUM REALIZED.**

A good sum was realized by the patriotic bazaar held in Ketchum Hall under the presidency of Mrs. E. Yeats by the Fidelity Chapter, Order of the Eastern Star.

**TORONTO'S FEEBLE-MINDED.**

In the course of an address given to the Women's Social Service by Dr. Hinks it was stated that there were 2000 feeble-minded children in the schools of Toronto, and over two hundred unfortunate women known to be feeble-minded.

**GIVING DRAMATIC WEEK.**

A dramatic week is being given by York Chapter, I. O. D. E., in aid of the Canadian War Contingent Association. "David Garrick," the first offering, was given at St. Alban's School under the direction of Robert Bright, and was admirably presented.

**SUCCESSFUL SHOWER.**

A successful shower held by the Parkdale Chapter, I. O. D. E., realized a liberal money collection and 100 pairs of socks for friendless soldiers at the front.

The honorable the premier and Lady Hearst are going to Ottawa for the marriage of Lady Maud Cavendish on Saturday.

The bridge party and dance held last night at Strathroy, thru the courtesy of Mr. and Mrs. Frederick Roberts, was very marked success, and much praise is due to the energetic committee, Mrs. Kenneth MacLaren, Mrs. Loren Harris, Mrs. Housser, Mrs. Jack Fraser, Miss Graydon, for their work in aid of the Earls Court Children's Home, the local charity being in a bad way since the beginning of the war, which is so much more in people's vision than the wants nearer home, and the committee's entertainment. The great hall at Strathroy, with its lovely pictures, needed only the palms, flowers and lovely faces of the guests to be a most successful affair. The company was very gay, the tablecloth being of orange with white and brooms painted on it, and during the supper hour there was a Hawaiian dance by Mr. Pringe, who was before joining the I.R.C.F. with Al Johnson; Messrs. Murray and Bendos. Providing for the entertainment of the girls, apples and all sorts of Halloween games, which conducted to a very jolly evening. Tea or Coffee

Luncheon:  
Welsh Rabbit on Soda Biscuits  
Fruit Salad - Oatmeal Cookies  
Tea

Dinner:  
Beef Steak Mash Potatoes  
Boiled Cabbage  
Cornmeal Pudding

The recipes for Welsh Rabbit and Cornmeal Pudding, mentioned above, are as follows:  
Welsh Rabbit—  
Make a good white sauce. To two cups, add one-half a level teaspoon of mustard, a small quantity of cayenne, and two-thirds a cup of grated cheese, and as soon as the cheese is melted, remove from the fire, pour over toast, and serve at once.

Cornmeal Pudding—  
5 cups skim milk  
5/8 tablespoons cornmeal  
1/2 cup molasses  
1 teaspoon salt  
1 teaspoon ginger

Scald the milk and pour over the meal. Cook in a double boiler for twenty minutes. Add molasses, salt and ginger. Pour into a buttered baking dish and bake two hours in a slow oven. Raisins or dates may be added if desired.

**Put Less Tea in the Pot**

Because it chiefly consists of the Assam teas of Northern India, the strongest and richest in the world, less Red Rose is required in the tea pot.

HADN'T THE MONEY TO GO INTO FORCE

Hull Hotelman Without Sufficient Persuasive to Secure New License.

ALDERMEN IN MARKET?

Court Continues Investigation Into Charges of Bribery of Council Members.

Ottawa, Oct. 30.—Armand Teller, one of the oldest hoteliers in Hull, was today the subject of the aldermen's bribery investigation before Judge McDougall today thru the drill way in which he secured his license.

"I didn't get my license because I was 100 years behind the times," said Teller, when called to give his evidence. "When the hotel license came up for renewal I discovered that I would have to pay out \$2000 or \$3000 to get a chance of securing my license if I wanted to be in the style."

The witness in reply to a question by Recorder Dastfranz as to whether he had heard some of the aldermen were "on the market," retorted that he hadn't gone on the market for them. He declared that he had not been approached by any of the aldermen for money, but had heard that Blackburn was asking as high as \$8000 from some of the hotelkeepers.

H. Loban testified that he had met Blackburn, who asked him whether he thought M.J. Laverdore, whose license was in danger, could pay \$2000, and if he did not know if they had made any bargain together.

GERMAN CRUISER DESTROYED BY FIRE

See Adler, Commerce Raider, Sink Five Sailing Ships in Pacific.

Vancouver, Oct. 30.—That the German sea raider See Adler was destroyed by fire at sea, 2000 miles from land, was the story told by Count von Luckner, commander of the raider, to the Fiji correspondent of The Auckland Star, following his capture off Levuka.

Count von Luckner and five other Germans comprised the crew of an armed launch which was taken with the raider by the British command.

Count Luckner declared that he was in the battle of the Atlantic he sank 25 steamers and sailing ships, and claims that he was not responsible for the sinking of a single ship.

NEW PAPER RATES TO GO INTO FORCE

Commissioner Pringle to Present Immediate Report to Government.

TO ADJUST OUTPUTS

Coming Price Will Be Based on Actual Average Costs.

Ottawa, Oct. 30.—After a short session today, when the only statement remaining on hand was dealt with, the newspaper inquiry conducted by Commissioner R. A. Pringle, K.C., under authority of the Dominion Government, came to a close.

As the order-in-council fixing the price of newspaper paper to Canadian publishers at \$50 a ton expires on Wednesday, the last day of the month, the commissioner has to make a recommendation to the government very promptly, and he hoped to place an interim report on his findings in the hands of the minister of finance by Wednesday night.

At the close of the inquiry Mr. Pringle stated that from the figures showing costs in the plants investigated, which had been gathered by the chief accountant, Geoffrey T. Clark, of Toronto, the newspaper publishers have been given around \$500,000 by the manufacturers in the past eight months.

In a few days preparation will be made by Commissioner Pringle to get under way another inquiry which he is authorized to make into the cost of producing book and half-ton papers, including the class of paper used by the various magazines.

Doctor Tells How To Strengthen Eyesight 50 Per Cent. In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says after trying it: "I was almost blind; I could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses."

SUGAR PRICES DROP ATLANTIC SUGAR REFINERIES LEAD IN REDUCTION OF PRICE OF SUGAR

Official announcement issued today reads as follows: It is our opinion that the price of sugar in the United States and Canada will be gradually reduced during the next three months, and in accordance with this view, this company has today marked down all grades of "LANTIC" 10c per 100 lbs.

In following the markets through the year 1917 this company has been consistently correct in its advice.

NO SUGAR FAMINE THREATENS

Our refinery has been operated steadily throughout the year, and while we have not a large stock of sugar to distribute at the moment, we intend to keep the refinery running continuously and we are doing everything possible to meet the demands of the purchasing public.

Further reductions in price will be made by us from time to time as conditions warrant.

Vast Store of German Scientific Information Will Benefit Americans.

TO MAKE SALVARSAN

Manufacturers Will Produce Both Drugs and Valuable Dyestuffs.

Washington, Oct. 30.—The vast store of German scientific information in this country was opened today to American manufacturers in regulations issued by the Federal Trade Commission...

When the regulations had been made public the commission met a group of medical men to consider licensing the manufacture of certain drugs, principally salvarsan, used in the treatment of syphilis...

Approximately 20,000 patented and copyrighted articles are said to be affected by the commission's order.

Whether prices for drugs manufactured under license will be determined by the commission was not announced...

When the commission will issue the first licenses for manufacture of articles patented by alien enemies or their allies probably will depend on the time required for American producers to meet the license requirements...

BIGGEST SURPRISE OF HIS LIFE, HE SAYS

Williamson Finds Relief From Troubles of Five Years' Standing.

HIGH PRAISE FOR TANLAC

Often Wouldn't Close Eyes All Night—Feels Like Old Self Again.

"I have never been so surprised over anything as I have over the results of Tanlac in my case," said William Williamson, a well-known brick mason living at 1135 St. Clarens avenue, Toronto, recently.

"My kidneys have been bothering me for four or five years," he continued, "but during the past year other ailments set in and kept me feeling miserable nearly all the time. I had terrible pains across my back, especially when I stooped over or tried to lift anything; then rheumatism settled in my right leg, and at times I simply suffered torture from it. The pain was so sharp and cutting at times I would almost drop in my tracks. My appetite went square back on me and nothing I would eat tasted right. I was very nervous—could hardly sleep—and I would just roll from one side of the bed to the other, and many a night I have not closed my eyes for sleep at all. I just had that dejected, worn-out feeling, had no energy and didn't care for anything and certainly felt awful."

Finance Minister Duggan Purchasing of Securities Held Outside of Dominion. Ottawa, Oct. 30.—The minister of finance today issued the following statement respecting the Victory Loan.

CANADIAN HOLDERS UNLOADING C.P.R.?

New York Believes Good Deal of Selling Comes From Across Border.

TURNOVER IS HEAVY

Lowest Price in Thirteen Years Reached Before Stock Had a Rally.

Nearly 45,000 shares of Canadian Pacific Railway poured upon the New York market yesterday and broke the price 6 points below the previous closing quotation of Monday, bearing down the shares to 112 1/2, the lowest point the stock has known in about 13 years.

While it is early as yet to hazard a prediction that C. P. R. has turned the corner, a much more hopeful spirit prevailed among Toronto brokers and traders at the close of the market.

Since the vote on C. P. R. he held last Thursday no fewer than 35,000 shares have changed hands, or, taking \$140 as the average price, a total of \$4,900,000. The volume of trading in this and in other well-known railway issues yesterday, as follows:

Table with 2 columns: Stock Name, Price. Includes C. P. R., Union Pacific, Pennsylvania, Reading, etc.

How Rivals Compare. Much has been made of the argument that the break in C. P. R. is attributable to a natural scaling down process in view of the tapering of United States railways.

On Wednesday, Nov. 14, a great special combination sale of unreserved consignments of drugs and general purpose horses, delivery horses, farm horses, drivers and saddle horses will be held at the Union Stock Yards.

CHICAGO CELEBRATES FIRST MEATLESS DAY

Chicago, Oct. 30.—Meatless Day in Chicago was observed in holiday spirit in this city. It was a novelty in the majority of homes only in the sense that it was by government order, for soaring prices long since had made meatless days in the majority of homes an economic necessity.

"To the Last Dollar"

IS there a man or woman in all Canada who does not agree with the declaration of Lloyd George, President Wilson and other Allied Statesmen that we are in this war "to the last man and the last dollar?"

We must agree with this or else invite defeat at the hands of a merciless enemy who has set out to enslave the world.

But do we—do you—fully realize that it is actually our duty to lend our money—to make our money fight?

It is our duty; it is your duty.

Never mind the "other fellow." Think of your duty; your privilege.

Remember that Canada wants you to buy Canada's Victory Bonds.

Canada expects you—whether you are an employer or an employee, whether you have much or little, to do your part towards assuring Victory.

You, personally, are faced with the duty and the privilege of buying Canada's Victory Bonds to the utmost limit of your ability.

And remember, you don't give your money. You merely lend it.

You'll get it all back and you will be paid the interest promptly every six months.

Can you afford to hesitate?

Can you conceive of a duty more imperative than the winning of the war?

Can you imagine a more practical way to help when you are not fighting—than to dedicate your savings to meet the needs of the men who are fighting for you?

Be Ready in November to Buy Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

PUT-DOWN SEVEN AIRCRAFT

Bombing Airplanes Explosives on Enemy Stations.

30.—The official communique issued by the war office says that quite lively artillery fire was directed by the sector of Erzya-entzheim, and on the left bank of the Meuse.

At the end of the day, a German trench was destroyed by our shells, and a number of prisoners and material were captured.

On October 29 German bombers bombed Dunkirk and caused many casualties. The same day bombs were dropped on the town of Arras, and a woman and one child were killed.

On October 27, 28 and 29 of October 28 and 29, German bombers dropped 2000 explosives on stations and despatches at Arras and Givet. Beltracq, near Metz, Longueville and Thionville were also bombed.

On October 29, the German air force bombed the theatre at Arras, and caused many casualties.
