Now we've got a feller down to Reed's Point one time in a while, and he's a thermometer an' fixed it so it showed ten degrees below zero all the time. Well, he's got it out in the country, an' it shows down there in the mornin' an' every feller that come along looked at it—pullin' up his coat. How to get down his cap an' started on the run. They say we're just as old as we think we are, an' I guess we're a good deal the same about the weather. I seen a little feller with a toy shovel on a snow-bank, he's kept a professional shovel. It made me wish I was about six or seven years old myself—Yes, sir—it did seem so."

## GOOD THINGS COMING TO THEATRES OF ST. JOHN

### SHOULD WIDOWERS MARRY 2ND TIME?

This Is a Leading Question in "Bonds of Love," at Imperial Tomorrow.

Should a widower marry a second time, to give his child a mother? This is one of the questions which come up for settlement, and which furnish some of the dramatic scenes in Pauline Frederick's latest Goldwyn picture, "Bonds of Love," which will be shown at the Imperial Theatre beginning tomorrow.

In the photodrama, the child is being "mothered" by a selfish aunt who knows only her own comfort or discomfort, and never thinks of the child's honest desire to play. As the boy is a real mischievous lad his life is one round of spankings. However, a new governess is engaged who understands his needs and the void which the missing mother love has made. And she succeeds in filling the breach.

What should the father do? His action and how he was impelled to follow it is dramatically told in "Bonds of Love."

Little Frankie Lee, the crippled boy in "The Miracle Man," is the wonderful child actor in this story.

### SHE FEELS SHE OWES HER LIFE TO THEM

WHAT MISS EAGLE SAYS OF DODD'S KIDNEY PILLS

Ormsby Lady, Who Suffered from Diabetes for Five Years Tells of the Benefit She Received from Dodd's Kidney Pills.

Ormsby, Ont., March 2. (Special)—"I feel I owe my life to Dodd's Kidney Pills." This strong statement comes from the lips of Miss Gertrude Eagle, a well known and highly respected resident of this place. And Miss Eagle gives her reasons for speaking in these terms that none can fail to understand.

"I have been suffering from Diabetes for five years," she states. "I tried the medicine but they could do nothing for me."

"A friend told me of Dodd's Kidney Pills and of their great value. I tried one box and they helped me. I have now taken three boxes and they have done me so much good I feel I owe my life to them."

Diabetes is one of the most advanced and dangerous forms of kidney trouble. A remedy that will relieve Diabetes will act much more quickly on minor kidney ills. Ask your neighbors if Dodd's Kidney Pills are not the sovereign remedy for all forms of kidney trouble.

### Further Debate on Speech from Throne

Ottawa, March 2.—Further debate took place today on the reply to the speech from the throne. The government had not uttered a word on this question which was so vital to the resources of the Canadian people. He thought the government was afraid of itself and in deserted straits.

J. E. Gauthier, St. Hyacinthe, advocated a general election. J. H. Burnham was heard from the government side in condemnation of prohibition.

Returns tabled showed the cost of entertaining the Prince of Wales to have been \$104,197 out of an appropriated \$120,000.

When the house adjourned tonight, Sir George Foster tabled in the house the correspondence between himself and Judge Robson, covering the latter's resignation as chairman of the board of commerce. Judge Robson says simply that he finds it impossible to remove his home to Ottawa and his presence is required in Winnipeg. The acting premier in his acknowledgment accepts Judge Robson's resignation with regret.

On the same day he resigned, February 23, Judge Robson wrote a long letter to the acting premier, giving his views on the operation of the board of commerce, suggesting that a federal machine to inquire into costs and profits of commodities, and to act in an advisory capacity to provincial boards would be more useful than the board as constituted at present, the matter of dealing with profiteers being left to the judge, thinking, to the provincial authorities.

### News Notes About Prominent Baptists

(Maritime Baptist.)

It is not often that anyone is privileged to see his or her descendants to the fifth generation. But this was the record of Mrs. George Haughn of Lapan, N. S., who passed away on Feb. 10 at the age of eighty-seven. A great-great-grandmother! Mrs. Haughn was for many years a member of the church at Bridgeville.

The church at Canada, under the skillful leadership of Pastor A. J. Prosser,

### made a systematic attempt to drag every absent member. But the circular letter sent to each was not concerned wholly with the forward movement. A questionnaire was attached which sought information concerning the member's Christian service and spiritual condition.

Rev. H. B. Sloan, who had a long and successful pastorate at Waterbury, Conn., is now state director of the Baptist forward movement in that state. Mr. Sloan is a New Brunswicker and a graduate of Acadia.

Another New Brunswicker who is now serving the Baptist cause in Cape Breton is Rev. R. W. Ferguson, who is pastor of the church at Rockville. A correspondent writing the Watchman-Examiner says that the church is prospering under his wise leadership. Brother Ferguson is well known among our churches here, having spent many years in his ministry in this province. Among the churches which he served as pastor are Charlotte street, St. John West, River Glade and Forest Glen, and Centreville.

### WOMAN'S BEST L'XATIVE

Proved Every Day That Dr. Hamilton's Pills Are Just Right for Woman's Ills.

Little wonder woman suffers so much from constipation. She always hesitates continually puts off taking medicine. Of course a woman's system is delicate, is easily injured by drastic purgatives. Bitter experience with harsh medicines makes her cautious, and her great injury, chronic sluggishness of the system is prevented.

Few pills are suited to the actual needs of woman—they are the strong needs of woman's laxative, and it combines gentleness with thoroughness of action. It is known to the people of many nations as Dr. Hamilton's Pills, which never gripe, never cause nausea and are safe to use no matter what the conditions of strength or circumstances of health may be. A naturalness and regularity of the system, so important to every woman, is quickly acquired by the regular use of Dr. Hamilton's Pills. As a health-bringer, as a tonic laxative, as an all-round ladies' medicine, there is positively nothing so efficacious as Dr. Hamilton's Pills of Mandrake and Butternut; 25c. per box, at all dealers.

There is good hope now, we believe, that the worst is over, and that Brother MacPherson will soon be able to take up all his accustomed tasks again. During his illness the church at Sussex has enjoyed a visit from its former pastor, Rev. G. B. Macdonald, all services on his own field in Maine having been interrupted by the prevailing epidemic.

### BABIES BORN FEB. 29.

(London Chronicle.)

Babies born Feb. 29 are certainly deserving of commemoration if they have to wait till leap year comes round to celebrate their birthday. But what about the baby that chances to come into the world on a day that is not marked in the calendar? Such cases happen. There was a boy born during the voyage from Yokohama to San Francisco on the last day of February, 1903, just as the ship was crossing the 180th meridian. A day had to be intercalated to make an actual number of sunrises and sunsets correspond with the calendar, and the question arises when will this little chap, born on Feb. 30, have another birthday? Not until it happens to be on the same spot in similar circumstances.

### HUNGARY'S REGENT

Budapest, March 2.—Admiral Horty, who was formally elected regent of Hungary on Monday and voted an honorarium of \$100,000 kroner by the national assembly, is a member of a very big Hungarian family and is believed to be a strong partisan of the former Emperor Charles. His election is regarded in some quarters as a step towards a military dictatorship and the possible return of the Hapsburgs to the throne.

Vienna, March 2.—The Austrian government is taking cognizance of alleged repeated outrages against Austrians by Hungarian soldiers. Dr. Karl Renner, chancellor, yesterday informed the foreign legion committee that he was preparing a note of protest against these attacks. He recited cases in which he said Hungarian guards had crossed the frontier and robbed or arrested Austrians and taken them to Hungarian soil, where they were chained and beaten.

### ANOTHER BLOW TO "WETS."

Florida Cannot Be Temporary Home, State Officials.

Washington, March 2.—New Yorkers will not be allowed to transport liquor to Florida or to Saratoga, N. Y., unless they expect to make those resorts their permanent residences. The International Revenue Bureau has dispelled any idea that permits may be obtained to transport intoxicant stocks from a permanent to a temporary residence, even though the thirty-one is going to make a visit to a home which is actually his for the time being. Winter and summer residences are not permanent residences under the ruling.

who could see the needs of a great city in its making. The other day I had occasion to visit St. Andrew's church, and upon the wall of the parlor hung a chart or plan of the proposed docks at Courtenay Bay drawn by the late Mr. Murdoch.

Does this not prove that some of our directors could see the proper course to pursue in order to remove the crowded districts and build for the future? Why this scheme was not carried out at the time when construction work would be lower than today is a mystery.

In looking over the town plans of Mr. Adams I must say that the scheme is a grand one, but the location, although splendid, is too far from the centre of the city for the working man or woman. The most of our people work in the city proper, and a long drive to and from their homes would not be advantageous, especially when we can't rely on the present car service.

## RECENT DEATHS

The death took place Sunday morning of Moses Jewett, aged sixty-eight years at Lower Prince William. He leaves to mourn him three sons, Arthur and Alfred of Fredericton city, and Frank at home; two daughters, Mrs. Harold Kelly, of Kingsclear, and Mrs. Dow Moore, of Lower Prince William.

The death of Otto Logan, of Beaconsfield avenue, West St. John, formerly of the 85th Battalion and later a sergeant in the depot battalion, occurred at the general public hospital yesterday after a short illness of pneumonia. Mr. Logan, who enlisted with the 85th Battalion and served with it for some time overseas, was wounded and returned to Canada in the depot battalion. Following hospitalization he took up a course of vocational training under the D.S.C.I. and had not completed it. His illness lasted but one week. He had made his home in St. John for some years. Besides his wife, who was Miss Hattie Buchanan, daughter of Mr. and Mrs. Samuel Buchanan, of St. John, he is survived by one daughter, Evelyn, and two brothers, one in Portland (Me.), and one in the north end.

Many St. John friends will read with regret of the death in Montreal on Sunday of Mrs. Francis C. Henderson, of Dr. Arthur T. Henderson, of that city. A daughter of the late Dr. R. A. H. Macken, of Gloucester, Mr. Henderson and her four sisters lived for several years at Robesay, where they were held in kindly remembrance in the first of the war Miss Francis went overseas as a nurse and there was married to Dr. Henderson, a Montreal physician. She returned to Canada in August last. Her husband and a son about a year old survive.

Miss Ada MacFarlane, daughter of late Mr. and Mrs. Alexander MacFarlane, both of whom died recently, died in Fredericton last week. She leaves four brothers and one sister.

Mrs. Fraser McDougall of Moncton died at the home of her daughter, Mrs. Charles Bass, Temple, Texas, recently.

The death of Mrs. R. Guy Fowler took place at her home in Moncton yesterday at the age of ninety-seven after a lingering illness. She leaves her husband, four children, three brothers and two sisters.

## MUNICIPAL COUNCIL NOW HAS CHAPLAIN

We are told to "cast thy burdens on the Lord," presumably by means of prayer. This may include the niceties of disquisition and endless perplexities involved in the deliberations of the municipal council, as the official report says the council have passed a resolution creating the office of chaplain for that worthy body.

It is a marked coincidence that the council who introduced and supported the resolution were the gentlemen who were most opposed to the monument in memory of our fallen soldiers, with the exception of Councillor Perry, whose decisions are largely guided by the price of potatoes. It is fair to suppose that his attitude was one of thanksgiving for the season's prospect. The other members of the group may also have been moved by a spirit of thankfulness and it is well that they be indeed grateful. Many a young man as fair and promising as the youthful councillor from Aberdeen, has collapsed in his way to a dressing station, or parted out his life amid poison gas in a shell hole. The representative of the town of Hartland is about the age and somewhat resembles the organization of the Princess Pats whose sacrifice and glory will ever remain undimmed. The worthy mayor of our sister town can enjoy the pleasure of his family in safety because thousands of our fallen Canadians have died to give him that security. Well may they be thankful to a self-sacrificing deity that has inspired his spirit in the breast of mortals for the good of their fellow men.

Then prayer shows faith and faith leads us to believe that some day, somewhere, beyond the shadows there will be a meeting when the martyrs who held Langemark three days without food or drink will meet the opulent councillors from Brighton who have referred to the emblem of their memory as a "pile of rocks."

After all it is well settled that prayer is mainly for the benefit of him who offers it—to bring him in a proper relation to his Creator. It will be a small benefit to have the formal exercises of a chaplain. The practice is handed down from a time when it was believed that legislators were the human agents of Divine will, but in this day of blatant selfishness and sectional strife it is a mockery to attempt to clothe the least of our political functions with a garb of religious sanctity. Small wonder some councillors smiled. It was enough to make the sphinx of Egypt grin. It is well summed up by Shakespeare: "Thus do I sigh and with a piece of Scripture. Tell them God bids us do good for evil; Thus do I clothe my naked villainy With odd ends and ends stoles forth from holy writ. And seem a saint when most I play the devil."

**JAIL FOR HIS PENSION**  
London, England, March 2—Preferring prison to the workhouse, an Exeter man committed himself to jail in order that he may enjoy the comparative luxury of jail. He is seventy-eight and has 12s. 6d. in pension to his credit. When given two months again, he said: "I have done enough work for the government to be entitled to a pension."

In Alberta Schools.  
Calgary, March 2—To make the physical inspection of school children by public health nurses, obligatory next year, and universal in the province within three years, is the object of Hon. A. G. MacKay, minister of public health for Alberta.

The variety of styles for spring is interesting. Many clever new ideas are being featured, and their youthful lines were never more becoming.

Frocks with fancy vests are among the decidedly new. Narrow leather belts or cord girdles are showing in smart variations, while attractive touches of embroidery, rows of braid or button trimming, go to make these spring models decidedly out of the ordinary.

Blouses fashioned in surplice effects. Skirts with short, full plelups or overdraperies of various lengths, and sleeves cut on brand new lines are included in our collection. These are showing in a complete range of sizes.

## PENSIONS FOR MOTHERS WHO ARE WIDOWS

Mother's Influence and Home Happiness Essential to Future Well-Being of Fatherless—Matter of Pensions Vital One of Immediate Concern.

(Toronto Globe.)  
"Child poverty is the poverty that really matters," wrote Bernard Shaw, years ago, to Judge Neil—said to be the first man to interest himself in a subject at present engaging the attention of thinking Canadians—motherless children. "This," continues Shaw, with characteristic insight and ego, "is the truest thing that I have written for the affection of mothers who have stunted and their little hearts famished by the affection of mothers who have time and care for them, so that their mothers with going out to earn a wage. Their souls are seared, they never get over it."

An Enduring Bitterness.  
They never do. The average child carried in want and mother loneliness cradles the bitterness of it so long as he lives. The report made ready by Dr. Riddell, deputy minister of labor, and his committee of twenty-six, is an illuminating one. With the taking up of the measure providing for mothers' pensions by the provincial legislature during the coming session, Ontario will get in line with her sister provinces, Manitoba, Saskatchewan and Alberta, in this matter of helping out the widowed mothers in the important work of rearing their families. The mother is the proper guardian of her child. Home is the place for her while engaged in the task. There is no spot between here and heaven where it can so well be done. No institution, however wisely managed, can take the place of home and mother.

Clothed, But Not Reared.  
The other day the widowed mother of four children, ranging from three to nine years of age, who goes out to work six days a week, made this enlightening reply to the query: "Can you manage to bring up your children on your earnings?"

"No," the hopeless bitterness of her tone spoke volumes. "I'm able only to get 'em dressed and fed. There is no bringing up possible."

Multiply this case by thousands and we see a waste of motherhood, home influence and home happiness appalling to contemplate.

Half From the Province.  
Those who have studied the question from all points are of the opinion that the province should bear half the cost of mothers' pensions and the municipalities the other half. Dr. Riddell recommends that a commission of five—three women and two men—have the matter in charge. The mother and children entitled to this allowance must not possess property valued at more than two thousand dollars, or more than five hundred in cash or household goods.

"What are you going to do when you grow a big man?" the lady of the house asked the little curly-headed son of her washwoman, who had accompanied his

Miss Agnes Chalmers of Grand Rapids, Mich., whose novel of a few years ago, "The King's Cup Bearer," is said to have inspired Lady Astor to go into politics, is a close friend of Lady Astor, and has recently seen a great deal of her. "Lady Astor works sixteen hours a day at her political duties," said Miss Chalmers, "but does not let her children suffer for lack of parental attention. She is a mother first and a politician afterward. Her chief efforts in the house of commons are directed at bettering the lot of the poor and controlling the liquor traffic. VARIATION IN WEIGHT OF CARS MATTER ADJUSTED

(Canadian Press Despatch.)  
Montreal, March 2.—A judgment from the railway commission received by the transportation bureau of the board of trade today settles the question of allowance for variation in weight of cars when weighed on railway track scales with their loads. The rule laid down makes it specific that the scale of allowances for such variations in weight shall in future be made by the railway companies. This order is taken as a general settlement of a dispute that has been going on since 1913 when the railways made application to the railway board for permission to reduce their scale of allowances.

VICTORIAN ORDER OF NURSES MEETS

At the Victorian Order meeting held last night at the residence of Mrs. George Smith, in Union street, the three officers of the previous year were unanimously re-elected as follows: President, Judge Forbes; vice-presidents, Mrs. George F. Smith, secretary-treasurer, H. M. Lugden. The report of the superintendent of nurses, Miss Murdie, told of a month of very strenuous work, with an exceptionally large number of

visits made in very stormy and unfavorable weather. The report referred also to the large amount of child welfare work accomplished and to the medical inspection of the free kindergartens carried out most successfully. Mrs. H. A. Powell presented an excellent report as the visitor for the month. It was announced that the extra nurse for the west side would arrive about April 1, making the seventh nurse of the order in St. John. The inadequacy of the present home was again the subject of discussion. The meeting agreed that larger quarters were an immediate necessity, and was of the opinion that the new home when secured should be a training school as well as a place of residence for the trained nurses. The delegates appointed to represent the branch at the annual meeting of the order in Ottawa were Senator Thorne, Senator Daniel, Mrs. S. E. Elkin and Mrs. George F. Smith.

Harry Heas and a grocer in Somerset street, and Herbert Sanson, a clerk in Kestrad's grocery, Main street, both said that the \$13.50 delivered goods to them from the complainant firm and that they paid him money according to account rendered. The case was postponed.

Four men, charged with drunkenness, pleaded guilty and were remanded.

**WILL LIKELY BUILD.**  
 George Carvill, in conversation with a Times reporter this afternoon, said that following the decision of the supreme court at Fredericton yesterday, he had not quite decided whether he would proceed with the erection of a garage in Cliff street. The cost of building, he said, was somewhat higher than when he first applied for a permit, and on this consideration his decision would likely rest.

We are showing a particularly attractive list of sliding couches at present in view of the demand that is sure to accrue around moving time, and shall be pleased to have you call and look over the line.

This conference, which will be attended by one hundred of the leading editors and publishers of the British Empire, including men like Lord Northcliffe, Lord Burmah, Lord Riddell and others of similar prominence, as well as publishers of Canada and some distinguished Americans, promises to be the greatest event of its kind in the history of the British Empire.

**IN WALL STREET.**  
New York, March 3.—Fractional changes prevailed at the uncertain opening of today's stock market, except in rails, which were moderately strong while equipments and miscellaneous specialties denoted further pressure. Royal Dutch and Shell Transport recovered part of yesterday's losses, but American specialties denoted further pressure. Edictio Johnston reacted one to almost three points. Further buying of rails, stocks and motors soon impeded the general list. Trading was light, however, rails showing most of their recent activity.

**Noon Report.**  
Oils made additional gains during the morning, especially the Mexican group, the motors also improved. There was a decided advance in shipping, Marine, Common and Preferred, American International, Atlantic Gulf and United Fruit gaining one and a half to four and three-quarter points. Prominent steels, other than Crucible, were barely steady and equipments showed further hesitation. Ralls were altogether unresponsive to the acceptance of wage arbitration by the brotherhoods, tending mainly lower. Call loans held at ten per cent, but call money continued very scarce at recent high bids. Foreign exchange was firm and Liberty bonds shuddered again.

## ACCEPTING OUR MONEY AT PAR IN PAYING BILLS

In its summary of the iron, steel, metal and machinery markets for week ended Feb. 26, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

There is a noticeable increase in the list of American firms that have expressed their willingness to accept payment of accounts in Canadian currency at par. Payment of exchange becomes a more serious matter for many Canadian firms who have to settle for large purchases of material across the line that they can not secure elsewhere.

It would take a confirmed optimist to believe that the agencies for the steel industry are not forthcoming. This refers to the books of the mills remaining in the cellars of the mills. The principle that a contract is a contract. The shortage of sheets and tubes is becoming a more serious matter than was thought possible a month ago. There are large reports of work held up because tubes are not forthcoming. This refers to regular standard sizes and lengths.

Warehouses are facing a peculiar position, and so are the agencies for the steel industry. They are witnessing business in quantities, coming to their door every day of the week, begging acceptance, and they know they are not in a position to entertain a bit of it. It is surely a long cry from the situation that existed barely six months ago when these same people were asking for a minimum of trade to see the wisdom of coming into the market and covering their requirements.

Makers of many lines of machinery announce an increase of ten per cent this week. This refers to some firms both in Canada and United States. Prevision is likely to be general in Canada, if the exchange keeps at its present figure, as many manufacturers have to pay the price exchange rate on their raw material. Makers of taps and dies have given notice of a ten per cent increase, and instructions have also been given to dealers not to quote carbon drills at old prices.

The scrap metal dealers find it to their advantage to ship as much scrap as they can to the U. S. markets to take advantage of the exchange.

**Painters Are Out.**  
London, Ont. March 3.—All painting and paper hanging is at a standstill as a result of a strike of painters and decorators. The men are asking for a minimum of seventy-five cents an hour. The employers offer a maximum of fifty-five cents.

The wind blew so hard in New York Sunday night that a Miss Dixon on 32nd street saw her hat, blown from her head, mount higher and higher, and finally disappear on the top of a building, where it was found later, twenty-two stories above the street.

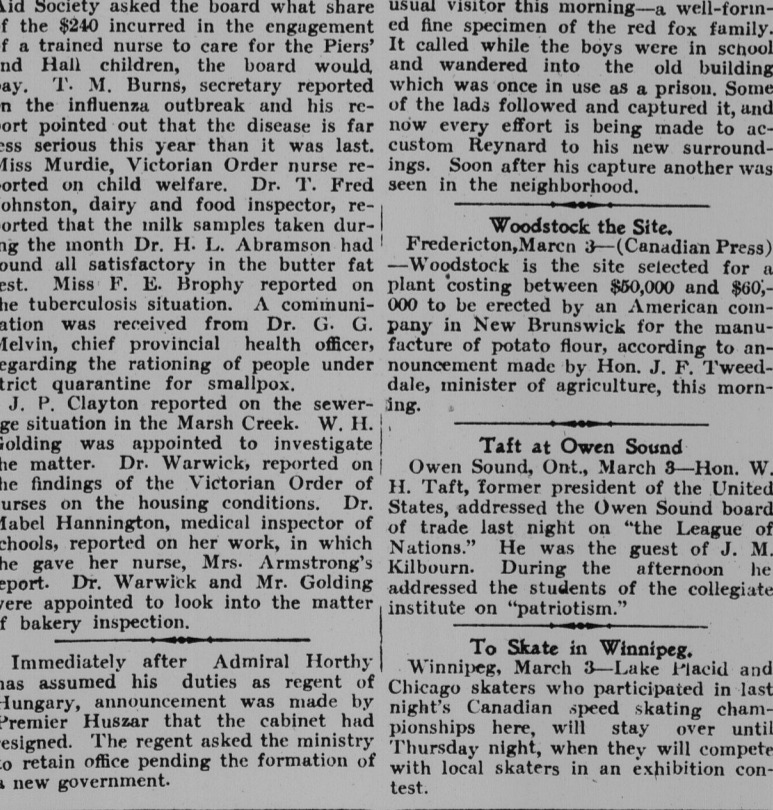

Somebody asserts that the name horse chestnut was derived from the fact that when the leaves of the tree fall there is a scar left on the twig in the shape of a horseshoe that leaves marks resembling the nails of a shoe.

"My dear, listen to this," exclaimed the elderly English lady to her husband, on her first visit to the States. She held the hotel menu almost at arm's length, and spoke in a tone of horror.

"Baked Indian pudding." Can it be possible in a civilized country?—Atlanta Journal.

FEEBLE OLD PEOPLE

Need the Blood-Building, Strength-Creating Elements of Vinol

We Guarantee it to Rebuild Wasting Tissues and Replace Weakness With Strength.

As we grow old the blood gets thin, the circulation sluggish, digestion weak, the organs act more slowly and less effectively than in youth, the waste system becomes more rapid than repair, and the result is a feeble, weakened condition.

VINOL is the ideal strengthener and body builder for old folks, for it contains the very elements needed to enrich the blood, quicken the circulation, rebuild wasting tissues and replace weakness with strength. And as a result the system is fortified against colds and pneumonia.

One old lady recently wrote: "I am 78 years of age and my husband is 79, and we owe our good health to VINOL, as we have proved it to be the greatest strength creator and invigorator known. We are strong and well, but I often say, I do not believe we would now be alive if it were not for VINOL."

If you are feeble and weak, why not try VINOL on your druggist's guarantee.

TEMPERANCE CRISIS FACED  
A Convention Call is Issued by Ontario Alliance

The executive of the Ontario branch of the Dominion Alliance issued the official call for the Ontario Temperance Convention to be held in Massey Hall on March 9, 10 and 11. The call read in part—

"The temperance forces of Ontario and Canada face a crisis which demands the most careful thought and wise action. Following the magnificent victory at the polls on October 20, there has come with startling suddenness the repeal of dominion war-time prohibition, and the consequent flooding of our province with liquor. An intolerable situation has thus been created. We have been shown decisively and forcefully that the light is not over, that many a battle still faces us. The Ontario Temperance Act must be amended and strengthened.

"Ontario must join with responsible forces in an immediate campaign for complete nation-wide prohibition. There is also facing us the duty, responsibility and privilege of actively participating in the great world movement, the possibilities of which are stupendous."

GREY IN VIENNA

Reckless Extravagance in Austrian Capital—Middle Classes Being Crushed.

London, March 3.—A despatch from Hull, Yorkshire, to the Westminster Gazette, says that Colonel Lambert Ward, member for Northwest Hull, speaking in that city to a vote of thanks to Lord Robert Cecil, referred to his visit to Vienna, from which capital he has just returned. That city, he said, was indulging in an absolute orgy of reckless extravagance, and it was crowded to such an extent that he had to apply at seventeen hotels before he found shelter.

Theatres, concert halls, cinemas and restaurants were crowded more than ever. As an example of extravagance he stated that at a ball given in a concert house on St. Charles Tuesday, the electric lights blazed from dusk to dawn, ten thousand people paid the pre-war equivalent of 2s for admission, and the only beverage consumed was champagne, at prices at the pre-war rate of exchange of 220 to 225 a bottle.

Underlying this extravagance was a great amount of suffering, but not among the working classes, whose wages had been raised up to forty times pre-war days. It was the middle class who were on the verge of starvation.

Lord Robert Cecil, in reply, referred to Colonel Ward's picture. Much what he had heard that night was new to him, and interesting, yet he was inclined to think the evidence brought before him of extravagance in Vienna and elsewhere. Distress among the women and children of Central Europe was appalling; it might not be easy to trace in a great city, but he was not dissatisfied with the great stream of evidence from private workers and official sources of all nationalities. But he was quite sure Colonel Ward would not in any way lessen those great and charitable efforts to ameliorate distress.

BIRTHDAY PARTY

A leap year birthday party was given on Monday evening at the home of Mr. and Mrs. Walter McNeil, Brussels street, the occasion being the birthday of Mrs. McNeil who only has such a treat every fourth year, as her birthday falls on February 29.

Friends met to wish her many happy returns and presented a handsome parlor table to their hostess. There were music, songs and games, and a supper was served.

Joseph D. Harrigan, Former Visiting Specialist at North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, undiluted substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-phosphate tablet is manufactured in strict accordance with the Pharmacopoeia test requirements. Bitro-phosphate is therefore not a patent medicine as should not be confused with any of the secret nostrums, so-called tonics or widely advertised "miraculous" remedies.

CAUTION—Although Bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh-growing properties, it should not be used by anyone who does not desire to put on flesh.

DAUGHTERS OF ISRAEL

The Daughters of Israel held their monthly meeting last night in the Y. M. H. A. building in Horsfield street, and heard most satisfactory reports of the splendid philanthropic work accomplished during the past month. In the absence of the president, Mrs. J. Goldman, the vice-president, Mrs. L. Isaacs, occupied the chair. The various cases which the society is aiding were reported on and all reports told of much comfort and help having been given. It was reported that a person in the provincial hospital who had been abandoned by the society, had been discharged on probation and a sum sufficient to pay half of the board for this case was voted.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever used."

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, MARCH 3, 1920

**MRS. ALICE McCLUSKEY**, prominent Lewiston woman, who says she wishes she could have gotten Tanlac twenty years ago, as it would have saved her lots of suffering. Declares she is now well and happy and that she wants everybody to know about it.

"I have been trying for twenty long years to find a medicine that would overcome my troubles, but my efforts failed me completely until I commenced taking Tanlac." was the remarkable statement made recently by Mrs. Alice McCluskey, residing at No. 59 Park street, Lewiston, Me., a well-known and most highly respected woman of that city.

"I just feel like I would give the world to meet everyone who suffers as I did and tell them about this medicine. If I could only have gotten Tanlac twenty years ago it would have saved me a lot of suffering and money.

"My principal trouble was indigestion, and for many years I could not eat meat or pastries for I would always suffer afterwards. I would most always have a distressed feeling after eating and nothing seemed to agree with me. Then, to add to the rest of my suffering, I contracted rheumatism in my shoulders and hips and the awful pains I suffered can never be told in words. This trouble finally got so bad I could hardly walk and my arms pained me so I could scarcely raise my hands to my head. I even had to give up my housework and was hardly able to get around at all.

"You can imagine how happy I was when, after taking only a few bottles of Tanlac, I found such a wonderful improvement in my condition! Why, it was just the medicine I needed all the time and I continued taking it until now I am perfectly well again. I can truthfully say that I am enjoying as good health now as I ever had in all my life. I have gained about 14 pounds in weight and can again do all my housework without the least trouble. I don't get tired like I did and after doing my work I can get out and walk for blocks and feel just fine when I get back home. I earnestly advise everyone who suffers as I did to take Tanlac."

Tanlac is sold in St. John by Ross Drug Co. and by the leading druggist in every town.

## CALL TO CHRISTIANS

Church Leaders in England Unite in a Message to the People.

The following message, signed by the Archbishops of Canterbury and York and the Free Church leaders, is addressed to the peoples of the empire.

The opening weeks of a new year, dark and storm-laden as they are, have been lightened for many of us by a message of an unusual kind. The prime ministers of Great Britain and of our self-governing dominions have united in an appeal to us to base our efforts for peace, and the bettering of the world's life, upon other than material things. In well chosen words they remind us, "That neither education, science, diplomacy, nor commercial prosperity, when allied with a belief in material force as the ultimate power, are real foundations for the ordered development of the world's life." They plead for "recognition of the fact of the Fatherhood of God and of the divine purpose for the

## Easy Way to Remove Freckles and Eruptions

Some women have skin of such texture they occasionally are annoyed by the sudden appearance of freckles, slight eruptions of fine lines. March winds usually play havoc with skins of that kind. In such cases if one will procure an ounce of common mercurochrome wax at any drug store, apply a little of it before retiring, like cold cream, she can easily overcome the trouble. When the wax is washed off the next morning, almost invisible flaky skin particles come with it. The entire outer cuticle is removed in this way in a week or so, with all its defects. No bleach could so effectively remove freckles or blemishes. The new surface is smooth, clear, fresh looking. No harm or inconvenience accompanies this simple treatment.

The promulgation of this message is an incident of supreme importance. It is the utterance of statesmen who, as they remind us, have experience of the

He was born in France in 1850, entered the Oblate Order in 1865 and was ordained a priest in 1857. In 1858 he went to the Red River settlement and since had done missionary work among the Indians and half-breeds at Isle La Crosse, Reindeer Lake and Houtouche. He was in Bellefleur in 1885 when General Middleton went there to quell the Red Rebellion. His mission was in the line of fire, but he would not leave his house and was wounded by a stray bullet. Some few years ago he retired from active service and came to Edmonton to spend his declining years.

their nurture. The highest calling is that of fitting the next generation. Can anyone deny it or question it? Even for the church which preaches the gospel, the greatest and highest task is the nurture of the young. But how does Canada face this question practically? The elders of the village get together and consider how little they can get a teacher for. Or they regard some annual sum, from one or two hundred dollars a year upwards, as the amount they are able to pay, and get whatever teacher they can for that. It may be a little pin money for a daughter of some member of the board of school trustees. Or the millster's daughter might be got to do it. Perhaps we are stating the case at its worst. But we venture the assertion that the least Canada ought to do in this matter is to double the salaries of all the school teachers. Why, they are not worth it, says some one. That is not the question. The service of making the next generation—the nation of twenty years hence—is worth it. If those at present in the service are not worth it, and in some cases no doubt they are not, it soon would be supplied by such as are worth it. Indeed, in some cases, doubling the stipend would not meet the case.

Canada's most important industry—all will admit it as an abstract proposition—is the breeding of Canadians. Canadians are worth more to Canada than immigrants—at all events, than a large proportion of those we import after being cast in a foreign mould. We want more born Canadians. That is a very important matter to which we have not given due attention. We want them better born; but that is another story. What we have now to speak about is

## BIG CROWD SEES GOOD SKATING

Hilton Belyea Star of Championship Meet — Gorman and Garnett Also Winners.

About 1,500 skating enthusiasts were in attendance at the city championship sports which were held on the Victoria rink last evening. The honors of the meet went to Hilton Belyea, who captured the half mile, one and three mile events. His skating was a revelation when it is taken into consideration that he has been in the game for more than a score of years. His powerful stroke wore down his opponents and he was never headed once he went to the fore. In the three mile Bobby Belyea stuck close to the champion and finished a good second, in the mile Charles Gorman forced the champion to extend himself, and in the half mile Frank Garnett followed him across the line. The 440 yards championship went to Charles Gorman with Frank Garnett a close second. In the 220 yards final the race was declared a tie between Garnett and Gorman. The former went into the lead at the start and maintained it until within a yard from the line when Gorman closed in with him. From a spectators' standpoint it was hard to determine who won, but after considerable arguing and discussion the announcer said that the judges awarded the race to Garnett. A few minutes later it was announced that Referee Fred Logan had decided the race a tie and ordered it skated over again.

The showing of the three winners was good and they were heartily cheered by their many friends. An interesting feature of the meet was a 220 yards hurdle event by Edward Horton of Saranac Lake, who holds the world's championship. In one of the 440 yard heats he fell and hurt his left knee, having to retire from the remaining races.

Following are the results:

## HERMANN, PRESIDENT OF THE LEAGUE, REITERATED HIS DENIAL THAT ANY SUCH DEAL WAS IN PROSPECT.

"It is the height of absurdity for anyone to believe for an instant that we would consider breaking up a championship club by trading off any of our players," Hermann concluded. They will all be with the team when the bell rings for action."

## BABE RUTH IN YANKEE GARB

He and Bodie Rivals for Centrefield—Work-Out Yesterday.

Jacksonville, Fla., March 3.—Babe Ruth had his first work as a Yankee yesterday, and seemed to enjoy the batting practice. When he wasn't batting he was hopping around scooping up ground balls and exhorting the batters to "hit 'em harder." He and Bodie are rivals for the centre field job, and they worked like friendly hewers. Bob Conroy was again in charge of the practice. In the morning the pitching veterans, Shawkey and Morigridge, practiced, for

## WILDCAT KILLS HENS OF HARBERTON MINISTER.

That a wildcat is no respecter of persons was shown a short time ago when Rev. J. J. Graham, pastor of the Presbyterian church at Hampton, had the misfortune to lose thirteen hens as a result of a visit from the animal. The high cost of poultry and the superstitious seem to deter the animal's efforts in securing a daily meal. The hens were kept in a house adjoining the residence, and a considerable distance from any woods, yet the cat became bold enough to take the journey and make off with the poultry.

## U. S. Another team signed for the race is that of Tom Bello and Vincent Madonna, representing the Italian Sporting Club. Bello is the star rider of the club and is a road rider of exceptional ability.

Clause Van Meek, sprint and road champion of Holland, has been picked as the "dark horse" in the race. He surprised the riders and trainers yesterday when he arrived at the Newark Velodrome after following an auto at thirty-five miles an hour and then set the pace for the field on the wooden track in a five-mile dash.

BANG-UP SHOW AT OPERA HOUSE

Acts Make Notable Hit and Serial Picture Episode is Gripping.

The excellent character impersonations and acting of George M. Rosener provided one of the features of a stellar mid-week programme at the Opera House last evening. His offering is one of the best of its kind that has ever presented on a local stage and his lines have a ring of pathos and comedy every bit as gripping as his make-up for the different characters he essayed was good and combined with his mannerisms made him an instant favorite and he well merited the prolonged and hearty applause received from the large audience.

Another act which evoked hearty laughter and which was greatly enjoyed was that of White, Black and Useless. A better trio would indeed be hard to find. Useless, a mule, evoked no end of merriment. His antics had the audience convulsed with laughter and, as many remarked, he is worth the price of admission alone. Black was instrumental in the successful presentation of

FURTHER MATTER OF PLAY GROUNDS

In Fairville Last Evening Committee Advanced Matters a Stage.

A committee appointed at a public meeting in City Theatre, Fairville, last week, met in Firemen's Hall last evening. Councillor William Golding in the chair, Chas. S. (Bud) Tippet was appointed secretary to the committee and it was decided to hold meetings each Tuesday night to further plans in relation to the public recreation ground.

On motion of Councillor O'Brien the matter of having an engineer make a survey of the proposed land on Manawagonish road was decided on. These plans will be presented at the next meeting, when details in regard to a delegation to city hall will be worked out and speakers appointed who will present the wishes of the committee before the mayor and commissioners.

The meeting last night was enthusiastic and those present were unanimous in the opinion that no effort should be spared to secure for Lancaster a recreation ground large enough to provide play for all who wished, for years to come.

DISCUSS MATTER OF PROHIBITION

Rev. T. Marshall presided yesterday at a meeting in the Y. M. C. A. with Rev. F. E. Boothroyd as secretary, when matters pertaining to prohibition were discussed.

It was the feeling of the meeting, however, that before asking for amend-

ments which are necessary to render effective the present prohibitory laws, the question should be submitted to the people for their approval. The meeting voted their approval of Chief Inspector W. D. Wilson's methods and decided to give him their hearty support.

The following are the amendments which are being sought: 1.—That the government take control of the dispensation of liquors for medicinal, scientific, sacramental and mechanical purposes; 2.—That the quantity of liquor that may be prescribed at one time be eight ounces; 3.—That the number of prescriptions issued by any doctor be limited, and that the prescriptions be handled by the attorney-general's department; 4.—That the medical council might be able to deal effectively with doctors who violate the law.
