ADD MORE TO JOHN D'S REVENUE

His Quick Lunch Restaurants To Be Opened on Sundays

\$50,000 A YEAR

Oil King was Laughed at When He Put Money in "Ham and Business But Again His Judgment Proved Right

New York, Nov. 9.—(Special)—The big string of quick lunch restaurants in this city from which John D. Rockefeller draws down a nest egg of \$50,000 a year, have discontinued their practice of closing on Sunday and are now going after the small change of New York's hungry multitude with a larrikin and a dark lantern.

The quick lunch restaurants where the masses eat have long been classed as among the Oil King's favorite local investments. Another string, reminiscent of his lucca judgment on business values.

Cynical Wall Street scoffed and laughed when it heard news years ago that the head of Standard Oil had gone into the "ham and" business and facetiously pictured him serving coffee and "snickers" to a nondescript crowd of cab drivers, stevedores, office boys and cash girls.

A certain element in the Street has never forgiven John D. because of his persistent refusal to list Standard Oil and other high-class unlisted securities which he controls on the Stock Exchange and make them a shut-book in the game of high finance.

His unsatisfactory conditions of the water pressure at hydrants in the business districts of the city as revealed by the tests made yesterday, was a subject of much interest today and was commented upon by various officials directly or indirectly interested.

His Worship the mayor said he was at a loss to understand why there should be such a difference between the pressures at Reim street and Market square. There would naturally be some loss on account of friction and heavy draft on the pipes in the same point patch at the present time he is the largest holder of unlisted securities in the world. A good portion of his wealth, estimated at \$100,000,000 to \$200,000,000 is thus "sewed up" and immune from the predatory raids of financial "night riders."

In the Sunday operation of the string of quick lunch restaurants in which he is interested, Wall Street, which has ceased making fun of his eccentricities in the business, sees the opening of a new and lucrative source of income to the oil magnate, and wonders when he will stop tapping new fountains of gold.

Local statisticians compute that Rockefeller is in receipt of money from 48 different sources which will ground the world. He needs it, since his contributions to education, science, religion and other charities for the ten months ended November 1, are estimated at \$2,000,000. Of this sum \$1,000,000 was given a few weeks ago to the Rockefeller Institute for Medical Research in this city.

AND A FEW YEARS AGO HE WAS WORKING FOR \$20 A MONTH

Frank Hoskins Sells Ranch for \$150,000—This Only One of His Many Holdings

Spokane, Wash., Nov. 9.—Frank Hoskins, who worked as a farm laborer, for \$20 a month in Columbia county, Wash., has just sold his ranch of 2,180 acres near Dayton for \$150,000 to ex-Governor Miles C. Moore and Sons, of Walla Walla. His other holdings are 740 acres of ranch land, valued at \$45,000, in Walla Walla county; 4270 acres, valued at \$75,000 near Connel, and personal property valued at \$27,500.

Hoskins' profit on the first named sale was \$65,000, including two crops, 100 acres of land and live stock and machinery retained by him. His practice has been to buy cheap and sell on a rising market. In this way he has handled more than \$750,000 worth of farm property in the last ten years.

He started by saving his earnings and buying a small farm, when prices were lower than they are today. He found a buyer soon afterward and sold at an advanced figure. With the proceeds he bought a larger holding, which he sold within three months at a profit. In this way he continued and with his judgment of value and the ability to sell for cash he has accumulated a fortune that will keep him the rest of his days in comfort. However, he has no idea of retiring.

RUMOR OF C. P. R. STEAMSHIP PLANS

Montreal, Nov. 9.—The S. S. Empress of Britain, which sailed from Liverpool on Friday last, will wind up the season at Quebec as far as the Empresses are concerned. While no definite announcement has as yet been made as to the plans of the company for the next year, there can be but little doubt, says an official of the company, that increased accommodation in every way will be provided.

It is said to be possible that the C. P. R. may go more extensively next year into the one cabin class of vessel, running right up to Montreal, so popular have their existing vessels of this class proved in the past.

WATER PRESSURE LOSS CAUSES A LOT OF TALK

FINAL PUSH TO TOTTERING EDIFICE GIVEN, HEARST SAYS, BY ROOSEVELT

Incidents of the Day of Big Democratic Gains in United States

New York, Nov. 9.—William R. Hearst issued this statement early this morning: "For my part I sincerely hope that the voters of the country have repudiated the Republican party, and undoubtedly the results in this state will be a confirmation of the Democratic party and the serious question now to be determined is whether the Democratic party will deserve the confidence of the citizens and will do more to remedy the conditions of which the people complain than the Republican party has done."

Edwin A. Merritt, of St. Lawrence, is likely to find himself the choice of the minority as leader, he having led the Republicans when they were in the majority. Mr. Dix as governor will be called upon to fill vacancies in the state service to the aggregate salaries of which amount to about \$200,000 annually.

President Says Nothing Washington, Nov. 9.—President Taft arrived at 8:45 a.m. from Cincinnati where he voted yesterday and went direct to the White House. It was announced that he had no statement to make regarding the results of yesterday's election.

Cleveland, O., Nov. 9.—The Democrats yesterday swept Ohio and in addition to electing Nelson S. Harmon for a second term as governor, have undoubtedly elected the remainder of their state ticket and a majority of the legislature. In consequence, Senator Charles Dick, republican will be succeeded in 1911 by a democrat. The Harmon plurality over Warren G. Harding, republican, is still in doubt, but sufficient returns are in to show that it is the largest vote ever given by Ohio to a democrat. The latest estimates give Harmon a margin of 60,000 over Harding. The next Ohio congressional delegation will contain thirteen and possibly fifteen democrats out of twenty-one.

Columbus, O., Nov. 9.—The Democrats are now claiming the election of the whole state Democratic ticket from Governor Harmon down with the possible exception of Attorney General Denman. Seattle, Wn., Nov. 9.—The republicans of Washington won a sweeping victory yesterday's election, choosing five supreme justices by a plurality of about 20,000 and electing all three congressmen and William E. Humphrey, Senator Warburton and William J. Lofelotte. The republican majority in the legislature will be more than 100 insuring the election of Miles Pollock as senator.

Portland, Ore., Nov. 9.—Although hardly over 10 per cent of the vote in Oregon has been counted, Oswald West, Democrat, and former Railroad Commissioner, is believed to have been elected Governor over Taylor B. Senter, Republican, by a plurality of from 3,500 to 4,000. The indications are that Oregon has gone "wet."

Other Places Bowling Green, Mo., Nov. 9.—Champ Clark, majority leader in the house of representatives when advised that the Democrats would control the next house of representatives, said: "The landslide is attributable directly to the tariff and the fight on the rules in the house. The rules split the republican party, and the tariff bill, coming so soon after, caused dissatisfaction throughout the country. I am an avowed candidate for speaker of the house and I hope to be elected. Yesterday's election is a sure end to the objectionable house rules."

Columbus, O., Nov. 9.—With eleven assembly districts in doubt returns received this morning indicate that the Democrats will have sixty-nine seats in the house, and seventeen in the senate. This total of eighty-nine is nine more than the number held by the Republicans. The committee consists of Charles Dick. Indianapolis, Ind., Nov. 9.—The late returns from yesterday's election changed the drift so that republicans were assured of a small majority in the legislature, and that United States Senator Beveridge would be elected, was the claim of Chairman Lee of the republican state committee at 5 o'clock this morning. Senator Beveridge said he believed he had defeated John W. Kern, Democrat, by a narrow majority.

Montreal, Nov. 9.—(Special to the Times) new reporter sent a wire to Col. Roosevelt this morning, stating that guides would be in readiness to take him when he came down to the city.

When he came down to the city he found that it was gin I wanted. Then I said I knowed I couldn't get some good earth to put next to the sidewalk on German street, to grow grass on, an' ast ever it was because they couldn't get any that made 'em wait till the street was finished before they hauled the old stuff away. I didn't mean no harm. But by 'em! that feller grabbed me by the neck an' told me he'd eat me alive. I intended to ask even about that travel street guide, but when I got my mind he was down to the next corner. I guess he was mad about something.

FAMOUS GEMS OF PROSE IT'S THE VITAL SPIRIT THAT INSPIRES

WE combat a project to govern this country by corruption; it is not like the supremacy of the British parliament—a thunderbolt—nor like the twenty propositions, a mine of artifice; but without the force of one, or the fraud of the other, will answer all the purposes of both.

I have read books on the subject of government; I have read books on the subject of British government; I have heard of the different principles or foundations of authority; the patriarchal right, the martial right, the conventional rights of kings, the sacred rights of the people.

MARGARET ANGLIN

(Montreal Star.) The news that Miss Margaret Anglin is suffering from a throat trouble which deprives her of the use of her voice and may make it necessary for her to permanently retire from the stage, will be heard with widespread regret.

As one of the galaxy of brilliant people this country has contributed to the stage, Miss Anglin's career was watched with keen interest by Canadians. She is in the fullest sense of the word a Canadian, having been born in the Parliament building at Ottawa.

Her father was a man of phenomenal memory. As a newspaper man in New Brunswick he had been known to write verbatim reports of long and stirring meetings without having taken a single note.

In replying to a political opponent on the hustings, he would quote the exact words which that opponent had used, and when the correctness of the quotation was challenged, reference to the notes stenographically prepared above that Mr. Anglin was right.

She was one of the cleverest of the amateur theatrical company whose performances at Rideau Hall were among the most charming features of the Dufferin days. This Miss Margaret inherited from both sides of the house.

She was a very successful actress, and she was in the very zenith of her fame. To have such a career cut short is indeed a calamity.

THIS MORNING'S FIRE

IN WATERLOO STREET

The damage in the fire in the establishment of Val Bros, Waterloo street early today, is estimated at between \$15,000 and \$16,000. The insurance is \$5,000, carried with White & Collier, T. E. & J. Robinson and G. E. Fairweather. One of the laundry firm said this morning that he did not know as yet what arrangements would be made in the way of re-building, but for the present the business would be carried on in the office in the Myers building, while the laundry firm's laundry would be taken to the work on hand. He had not thought that it originated from the boiler, as this was surrounded by concrete. At 12 o'clock and later there was no sign of fire.

The stock of P. J. Gorman was insured for \$300, with R. W. W. Frank. The Sun Fire and Wm. Thomson & Co. carried insurance on the M. Gibbs' harbor shop fixtures something more than \$300.

The stock of the John Christian Endeavor Union has voted \$20 to the Seaman's Mission Society.

BACK FROM THE WEST

Warren Ogilvie and his wife, who was Miss Maude Scott, daughter of Mr. and Mrs. C. Scott, of 28 Douglas avenue, this city, have just returned after a six weeks' trip to Canada's extreme west.

They spent the winter in the city of Vancouver, British Columbia, through the Cascade Mountains, and the coast of the Pacific Ocean, and the coast of the Pacific Ocean, and the coast of the Pacific Ocean.

At Banff, also Laggan, where one drives three miles to Lake Louise, and there is a great opportunity for sport, hunting and mountain climbing, etc. Going over the mountains there are many places of interest to stop at. Leaving this high elevation they went to Vancouver, Victoria and Seattle, returning via Revelstoke down through the Arrowhead Lakes and Columbia and river to Nelson and Kootenay Landing.

All through this country they describe the people as having the western idea of boasting; when their host stopped at Vancouver they were invited to visit a fruit fair and one would really wonder where the fruit grew, but small birch trees and few small shrubs.

Notwithstanding this, their exhibit was in a building about 60 feet by 30 feet, and the display of fruit and vegetables was grand, the very finest grown in all Canada. It was quite a contrast looking up at snow covered mountains on both sides and growing fruit and vegetables on the foot hills to compare with any tropical climate.

In the Kootenay country one would see hundreds of duck and wild geese, and a noted place for hunters during September and October. Following the main line Mrs. and Mrs. Ogilvie passed through the Cascade Mountains, and the coast of the Pacific Ocean, and the coast of the Pacific Ocean.

PLEASE EXPLAIN

The committee which was to investigate the board of works has been discharged without making any attempt to investigate. Does this mean that everything is satisfactory?

LOSING A PLAYGROUND

The march of industrial progress is wiping out the best suburban field and general playground in St. John. The Every Day Club playground, where hundreds of children for the last three or four summers have enjoyed the swings, the slide, the teeter, the sand pile, the blocks, the various games and in the holidays the kindergarten work under trained teachers, is to be converted to other purposes.

THE UNHAPPY CONSERVATIVES

Having failed utterly in all their attempts to encompass the defeat of the government led by Sir Wilfrid Laurier, the Conservative leaders are now trying to convince themselves that Sir Wilfrid has begun to defect himself. There may be some degree of consolation in such a thought for an utterly beaten and dejected party, but what a confession of weakness and failure it involves for Mr. Borden and his friends.

WHOM GOD HATH JOINED

We have sipped the cup of sorrow, Thou and I; We have awaited a tomorrow, Thou and I;

We have owned our helplessness, Thou and I; We have sought God in distress, Thou and I;

We have shed a common tear, When no other help was near, Prayed together in our fear, Thou and I.

Shall we break the ties that bind us, Thou and I? Shall we put thee behind us, Thou and I? God has wed with grief and pain, Shall we prove that union vain.

Shall we go our ways again, Thou and I? —J. G. McLaughry in the Circle.

EDUCATIONAL INCOMPLETE

The fellow who brags of his college And all his great learning's a bore; The man who is "ground of his knowledge" Is badly in need of some more.

MONTHS DIDN'T COUNT

One day a "little mother" of the east side brought her small charge to school, and proudly presented it to "Teacher" for inspection. The latter, after having duly admired the baby, said:

"And how old is it?" "Oh, she ain't any yet," replied the "little mother." "But," she added, "she wanted the reforms to be effected by the Republican party. The people are passing it on the Democrats."

NOT HARD

No matter how big your salary may be it is never hard to live beyond it.

ORDERING THE BABY

There was great excitement in Babyland. For a message had come to say that the finest baby that could be made must be sent to earth that day.

MODESTY

MORNING LOCALS

Peter's large crowd attended the St. Peter's high tea and sale last night. Over four hundred eppens were served by the ladies from 6 to 8 o'clock. The ice cream booth, fish pond and all the other booths were well patronized. During the evening music was furnished by a picked orchestra. The fair will be continued until tomorrow night.

A very enjoyable and successful vocal recital was given last night in the school room of Trinity church by Miss Louise W. Knight, assisted by J. A. Kelly, J. S. Ford, and Mrs. Mary Gilchrist.

When the youngster was playing in the street near his home on Saturday afternoon another boy placed a cartridge on the car tracks. A car wheel struck it, there was a report, and Willie fell, screaming with pain. He was carried to the hospital, where it was found the bullet had lodged in his nose. He was playing tag when his home yesterday after he left the Har Mariah.

Grained wood should be washed with cold tea, a small surface only at a time, and rubbed well with a flannel cloth before it becomes dry.

"You don't seem to like my whistling," said the noisy one, after a five-minute continuous performance.

Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a long period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house."

W. M. LAUGHRAN, 1214 Philadelphia St., Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, nervousness and insanity are nervous troubles. There is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

Restorative Nervine soothes the irritated nerves, and assists the nerve cells to generate nerve force. It does not, and should not, be used as a sedative. It is the only medicine that will cure you, if you do not send price to us, we forward a free trial bottle. DR. MILES' MEDICAL CO., Toronto.

HANDLING AMERICAN POTATOES

Some Thirty Thousand Barrels Now Here for Cuban Market

SENT IN BOND

Big Supply of New Brunswick Tubers Also Here or in Transit—Good Price in the West and Demand There is Heavy

It will probably be a surprise to most people to learn that there have been shipped, or are in transit or stored here at the present time, about 40,000 barrels of potatoes, raised in the state of Maine. One of the prominent shippers yesterday said that the potatoes are brought here and shipped to Cuba in bond. The duty in Cuba is eleven cents less than that charged for entry into Canada. The Canadian duty is twenty-five cents a barrel. At the present time there are in the cold storage warehouse here, about 30,000 barrels of the Maine product awaiting shipment to the Havana market. The quality of the potatoes, he said, was about the same as the New Brunswick potatoes. The soil in Arnsbrook county, just across the border from Carleton county, was practically the same as the Maine soil. In addition to the Maine stock, there are about 35,000 to 40,000 barrels of the New Brunswick product in storage, shipped or in transit to St. John. The present price of New Brunswick potatoes is \$1.25 a barrel, while the price in Maine is ninety-five cents. The American product, as stated, is shipped through this city in bond and the duty collected from the buyer in Cuba.

The almost unprecedented demand for New Brunswick potatoes in the west this year, is said to have forced the price up. About half the New Brunswick crop has already been shipped west, the dealers say. The shipments go all the way from Sherbrooke, Que., to Calgary. The western buyers are paying \$1.25 and freight charges. The shippers state that the action of the city in making the warehouse on the west side frost proof is bound to be a great help to them this season as it will double their storage capacity here. Last year, owing to inadequate accommodation here, it was necessary to hold the stock in cars, at considerable expense and risk from frost.

FORESTALLING CASE GETS INTO POLICE COURT

Charge Against Two City Dealers—Not in Court and Hearing is Postponed

Following the numerous complaints made from time to time about forestalling in the country market, proceedings are being taken on this charge against two dealers, G. A. Stanley Hopkins, and John McDonald. The men were reported yesterday, the information being laid by Chamberlain Lingley and the complaint by Clerk Dunham. The case was to have come up for hearing this morning, but neither of the defendants put in an appearance. Recorder Baxter was present for the prosecution, and in order to have the dealers in court, the case was postponed until Friday at 10:30 o'clock. The by-law in reference to this section concerning forestalling states the fine in each instance as being \$25. It defines forestalling as buying goods sold in the country market, for the purpose of selling them again, if the said goods have not been displayed three hours between sunrise and sunset. It is charged that the defendants in this case procured for this purpose a carcass of veal and a carcass of lamb, the latter being bought by Mr. McDonald and the veal by Mr. Hopkins. In view of the discussion on market affairs, the case is being watched with interest.

POLICE COURT TODAY

A Carleton Case Over a Pair of Rubber Boots is Dismissed

A case which caused considerable amusement this morning in the police court was that wherein Albert Nice of the West Side charged another young man, George Burleigh, also of Carleton, with having used abusive language to him. It developed that Burleigh had missed a pair of rubber boots some time ago, and a little later, seeing Nice with a pair, and seeing him run when they approached each other, concluded that Nice had his boots. Nice produced evidence to show that the boots had been bought from another man, but Burleigh was still skeptical, evidently thinking that because Nice ran on seeing him, that he was guilty of taking the boots. G. E. Logan appeared for Burleigh, and the case was dismissed.

Michael Landers was fined \$8 or two months on a charge of being drunk and a like fine was imposed on Emmett Cunningham, while \$4 was the amount in the case of George Garnett. A fine of \$1 was imposed on Melvin Sulcan on a charge of drunkenness, and \$8 on a charge of profanity in Charlotte street. A case against Frederick Condon charged with assaulting Arthur Ellis, was dismissed. Some misunderstanding seems to have occurred in this case, and the two men shook hands and became friends again this morning.

THE CORSICAN. The last steamer of the Allan Line fleet to leave Liverpool for Montreal is the Corsican which sailed out of the Mersey on last Thursday evening soon after 6 o'clock. She has 535 passengers on board, 29 in the saloon, 109 in the second and 350 in the third class, and is expected to reach her dock at the end of this week. The Corsican was 112 miles east of Belle Isle yesterday afternoon due in Quebec tomorrow and Montreal on Friday.
