# University of Ottawa.

THE UNIVERSITY OF OTTAWA, conducted by the Oblate Fathers of Mary Immaculate, began with the infancy and developed with the growth of the city. Established in 1848 by the Right Rev. J. E. Guigues, O. M. I., D. D., it was intrusted to the care of the Very Rev. Father Tabaret, O. M. I., D. D., and under his presidency attained a high degree of prosperity.

Originally incorporated under the title of "College of Bytown," this institution received in 1866 the title of COLLEGE OF OTTAWA," together with the power of conferring University Degrees. In 1885 its charter was so amended as to extend its original powers.

Besides the Regular University degrees, the University of Ottawa enjoys the right of conferring the Degrees of Bachelor and Doctor in Science, and Music, together with the Degrees of Civil Engineering, Mining Engineering and Mechanical Engineering. The University received at the same time extensive powers of affiliation, in virtue of which, all the Degrees conferred by the Faculty are officially recognized in the Dominion and in all other British possessions.

BY A BRIEF, dated February 5th, 1889, the Sovereign Pontiff LEO XIII, raised the University of Ottawa to the rank of a Catholic University, with all the privileges conferred on such Universities.

The Degrees of B.A. and B.L., which the University confers, in virtue of its *University Charter*, besides being honorable testimonials of high and varied attainments, entitle those who study

law to exemption from preliminary examinations, and to a reduction of two years from the ordinary course of five years. These degrees also exempt those who study medicine from preliminary examinations.

*A certificate that the holder thereof has passed the examination conducted at the end of the first year in Arts, entitles such holder to registration as a medical student within the meaning of the Ontario Medical Act.*

*A certificate that the holder thereof has passed an examination in the subjects required for entrance to the Ontario College of Pharmacy, entitles such holder to registration as a student in Pharmacy.*

The Government Museum and the Parliament Library furnish professors and students with the means of elucidating every question in literature, science and art. Moreover, the students enjoy the advantage of occasional attendance at the debates of the Dominion Parliament, during the annual session held in Ottawa, and thus become familiar with those political contests in which they may afterwards be called to take part.

Beside these, and other educational advantages dwelt upon in the following pages, spacious grounds for Athletic sports, a well-equipped gymnasium, well-ventilated recreation halls, baths, an infirmary with a doctor in daily attendance, recommend this institution to parents who consult both the intellectual and physical advancement of their sons.

# Canonical Erection of the University of Ottawa.

Breve Apostolicum quo Collegium Ottawense Canonice Erigitur.

*LEO PP. XIII.*

AD PERPETUAM REI MEMORIAM.

Cum Apostolica Sedes omni tempore curas suas ad tuendam fidei integritatem morumque disciplinam studiosissime adhibuit, tum etiam in eo semper advigilavit, ut ampla domicilia, doctrinis bonisque artibus excolendis catholicæ juventuti paterent, in quibus recta mentis atque animi institutio, ad privatam ac publicam societatis humanæ utilitatem posset hauriri, eademque, cum opus esse censuit, nunquam prætermisit quin eorum domiciliorum dignitati, stabilitati, et prosperitati adserendæ, suæ auctoritatis et opis præsidia conferret.

TRANSLATION.

*LEO PP. XIII.*

FOR THE PERPETUAL REMEMBRANCE OF THE EVENT.

As the Apostolic See has at all times watched with anxious care over the preservation of the integrity of faith and morals, so also, has it ever been solicitous that there should be at the disposal of Catholic youth, well appointed institutions for the study of sciences and fine arts, in which there might be acquired, in furtherance of the private and public good of human society, a thorough mental and moral education. Nor has it ever neglected, whenever such seemed to be desirable, to promote the dignity, stability and prosperity of such institutions by the support of its own authority and power.

Has ob causas gratissimum fuit Nobis intelligere, jam inde ab anno Christi MDCCCXLVIII, Ottawæ præclara in urbe Canadensis regionis, Collegium juventuti catholicæ instituendæ conditum fuisse a Josepho Eugenio Guiguës, illustris memoriæ Presbytero Congregationis Oblatorum Mariæ Immaculatæ, qui primus Ottawæ Episcopus datus est, idemque Collegium ampliora in dies incrementa feliciter suscepisse, tum Collegii ædificio novis operibus amplificato, tum bibliotheca instituta, et museis omniq[ue] instrumento ad omnigenam eruditionem comparatis, tum concursu et frequentia alumnorum, quos laus et fama institutionis e longinquis etiam locis exscivit, adeo ut Collegium ipsum, decreto edito a supremo Canadensis regionis Consilio legifero anno MDCCCLXVI, dignum judicatum fuerit, ut justum ac legitimum Universitatis civilis studiorum nomen acciperet omnibusque donaretur juribus quibus ceteræ Universitates potestatis civilis auctoritate fruuntur.

Cum hæc Collegio Ottawiensi fauste et feliciter evenissent,

---

For these reasons it was most pleasing to Us to learn, that there had been established, as early as the year of our Lord 1848, in Ottawa, a renowned City in Canada, a College for the Education of Catholic youth, by Joseph Eugene Guigues of illustrious memory, a Priest of the Congregation of the Oblates of Mary Immaculate, who was appointed the first Bishop of Ottawa,—and that, in the course of time, the said College had auspiciously grown to ampler proportions, by new extensions made to the College buildings, as well as by the establishment of a library, and the addition of museums and of all means and appliances for the imparting of a complete and thorough education, and furthermore by the ever-increasing number of its students whom the fame and high standing of the institution had attracted even from distant localities, so that in the year 1866, the same College was judged worthy, by the highest legislative assembly in Canada, to receive the well-deserved legal title of a civil University, and to be vested with all the rights and privileges which the other civil Universities enjoy through the authority of the civil power.

In consequence of the eminent success and prosperity of the

huic Apostolicæ Sedi anno MDCCCLXXXVIII preces oblatae sunt Præpositi Congregationis Oblatorum Mariæ Immaculatæ ac Doctorum Decurialium Collegii, necnon litteræ Archiepiscopi Ottawiensis, impense postulantium, ut idem Ottawiense Collegium, tot nominibus commendatum, dignitate et jnribus Catholicæ Universitatis, ex more institutoque Apostolicæ Sedis augetur. Hujusmodi preces Nos libenter excipiendas censuimus. Novimus enim quantas opportunitates habeat Lyceum Magnum optimorum studiorum in Urbe nobilissima Ottawa, Archiepiscopalis Cathedræ honore aucta, et civilis regiminis sedes constituta, quæ natura loci media inter alias Canadensis regionis Urbes assurgens, omnibus comitantibus facile pervia est, ac ex presentia insuper lectissimorum virorum, qui in supremis civilis potestatis consiliis sedent, quique rerum publicarum administrationem gerunt, splendidam capit accessionem dignitatis. Novimus etiam quo studio dilecti filii sodales Congregationis Oblatorum Mariæ Immaculatæ, ab Anno MDCCCLVIII, rectæ institutioni juventutis operam dederint,

College of Ottawa, there was submitted to the Apostolic See, in the year 1888, a request on the part of the Superior of the Congregation of the Oblates of Mary Immaculate and of the learned members of the faculty of the College, and also a letter on the part of the Archbishop of Ottawa, earnestly beseeching Us, that the said College of Ottawa, which was deserving of such high commendation, be exalted, in accordance with the custom and established usage of the Apostolic See, to the dignity and rights of a Catholic University.

To these entreaties We have willingly accorded a favorable consideration, for we know what advantages for the pursuit of the most advanced studies this great College has, established in that most distinguished City of Ottawa, which besides being the seat of the civil government, has been elevated to the dignity of an Archiepiscopal See, and which by its central position amidst the cities of Canada possesses easy communication with every part of the country, and which, moreover, receives additional splendor from the presence of those distinguished men who preside over the Supreme Council of the land, and conduct the administration of

Thomæ Aquinatis doctrina traderentur, quibus rebus factum esse compertum habemus, ut plures, plæclarique ex Ottawiensium Doctorum disciplina alumni prodierint, qui existimationem et decus institutoribus suis late conciliarunt.

Nos igitur, hisce rebus rite perpensis, et communibus votis libenter annuentes tum Venerabilis Fratris Josephi Thomæ Duhamel, Archiepiscopi Ottawiensis, tum Præpositi et sodalium Congregationis Oblatorum Mariæ Immaculatæ, aliorumque illus-

public affairs. We also know with what zeal our beloved sons, the members of the Congregation of the Oblates of Mary Immaculate, have devoted themselves, since the year 1848, to the proper education of the young, having willingly bestowed upon this noble work and its advancement their possessions as well as their zealous care, and how much the Superiors of that same Congregation have always taken it to heart, to preserve and nurture, in a becoming manner, among their subjects, a devotedness towards the Holy See and the Rulers of the Church, and to promote to the professorship of Ottawa College the prominent disciples of their Congregation,—of whom several have been honored with the Doctorate at the Gregorian College of the Society of Jesus in this august City, and, at the same time, to watch that philosophy and theology should be taught in accordance with the doctrines of St. Thomas Aquinas. These things being so, We can understand how many illustrious scholars, formed by the learned professors of the College of Ottawa, have gained for their teachers wide esteem and honor.

We, therefore, after due consideration of these facts, and

trium Ottawiensium civium, hisce Litteris, ad majorem Dei gloriam, ad incrementum Catholicæ religionis, ad decus, utilitatemque Canadensis regionis, Ottawiense Collegium catholicæ juventutis erudiendæ a Congregatione Oblatorum Mariæ Immaculatæ conditum, cujus regimen et magisterium a Presbyteris Congregationis ejusdem sub hujus Sanctæ Sedis et Archiepiscopi Ottawiensis auctoritate geruntur, canonica institutione ad dignitatem Catholicæ Universitatis studiorum, evehimus, eidemque Universitati jus attribuimus, ut Magisterii lauream aliosque gradus academicos, in singulis doctrinæ generibus ad consueta universitatum statuta et leges conferre possit.

Cum porro plurimum intersit ad prosperitatem Universitatis et decus, eam rectis aptisque legibus prudenter instrui, quibus regimini ejus opportune consulatur, volumus et statuimus, ut ejusdem Universitatis statuta et leges, huic Apostolicæ Sedi primo quoque tempore exhibeantur, quo iis mature expensis Ea

willingly consenting to the common entreaties of our Venerable Brother, Joseph Thomas Duhamel, Archbishop of Ottawa, and of the Superior and members of the Congregation of the Oblates of Mary Immaculate and of other eminent citizens of Ottawa, for the greater glory of God and the promotion of the Catholic religion, and for the honor and good of Canada, by these Letters do elevate by canonical decree the College of Ottawa,—established for the education of Catholic youth by the Congregation of the Oblates of Mary Immaculate, whose administration and instruction is conducted by the Priests of the same Congregation under the authority of this Holy See, and of the Archbishop of Ottawa, —to the rank of a Catholic University, and we bestow upon the said University the right of conferring the Doctorate and the other academical degrees in every branch of Science, in accordance with the established regulations and laws of Universities.

It is, moreover, Our will that Our Venerable Brother the Archbishop of Ottawa, and those who will after him occupy the Archiepiscopal chair, shall hold the office of Apostolic Chancellor in the same University, and that the Archbishop himself and his successors, and also the other Bishops of the Province of Ottawa and of Toronto, who will affiliate their Seminaries and Colleges and other similar institutions with the aforesaid University, do watch over the preservation of a correct and sound doctrine in the same.

Finally, We give to the said University the power to consider in the number of its students, after the manner of the University of Quebec, those who are educated in the Seminaries, Colleges and other institutions of the ecclesiastical provinces of Ottawa and Toronto only, and to accord to them the same favors as to the other students of the University of Ottawa.

## 1. ADMISSION, REPORTS, ETC.

Applicants for admission who have not attended another college, if not personally known to some member of the Faculty, must present a certificate of good conduct from a responsible person.

Testimonials of a good moral character are required of applicants from other colleges.

Previous to admission, students are to give the names and residences of their parents or guardians, to whom reports, accounts and receipts are sent.

Students are admitted at any time during the scholastic year. The best time for entering is at the beginning of a Term, when the requisite instruction preparatory to the introduction of fresh matters, or of more advanced parts of the matters already studied, is usually given in the several classes.

No student will be received for the First Latin Class after September 30th, unless he is fully able to advance with that class.

Students are not admitted, save on condition that they attend at least one Term. Should a student leave within the Term, no reduction of fees is made in his favor. Cases of protracted sickness or of dismissal are the only exceptions to this rule.

On entering, each student is examined by the Prefect of Studies and placed in the class for which he is found the best fitted. The subject matter of this examination is to be found at the beginning of the programme of the Commercial, Collegiate and University Courses, and in the programme for each Grade and Form of these Courses.

The Academic Year is divided into three Terms, beginning respectively on the first Wednesday of September the seventh day of January and Easter Tuesday.

The sum of the class *marks* of each day and of the *marks* of the monthly competitions are read once a month to the assembled students, in presence of their Professors. Thus the conduct, application, and standing of each student are made known in a

way eminently calculated to encourage progress in virtue and knowledge, to reward the dutiful and studious, and to simulate the remiss to praiseworthy emulation.

Reports are sent every month by the Prefect of Studies to parents, showing with similar exactness, the conduct, application and regular standing of their sons, and giving information about matters of special interest.

The summer vacation begins in the latter part of June, and ends on the first Wednesday of September.

The Christmas holidays last from December 23rd to January 6th inclusively. Students may, nevertheless, remain in the University during this time at the option of their parents. Under no consideration is permission granted to spend the holidays with friends in Ottawa.

N. B.—No student will be allowed to remain at the University during the summer vacation.

Parents are earnestly requested to send their sons in time to resume their studies on the appointed day. It is very prejudicial to a student to be absent at the very time when fresh matters, usually higher and more difficult than those previously studied, are introduced, and needful introductory instruction is imparted.

### 11. DISCIPLINE, REGULATIONS, ETC.

The observance of discipline and good order being indispensable to insure the success of the students in their studies, exact observance of the rules of the University is enforced. Moral influence is resorted to especially, as an incentive to the performance of the duties prescribed.

Serious infringement of discipline, habitual profanity of language or the introduction of irreligious or otherwise pernicious books is a cause of dismissal.

With a written permission from their parents, senior students may be allowed the use of tobacco. The regulations regarding its use are strictly enforced.

The junior and senior students are under the immediate supervision of the Oblate Fathers. Separate study-halls, playgrounds, dormitories, etc., are allotted to each Division.

No branch of study shall be begun, or once commenced shall be discontinued without the permission of the Prefect of Studies.

No book, pamphlet or newspaper shall be introduced into the University without having been previously examined and approved by the Prefect of Discipline.

All letters, whether sent or received by the students, may be opened and read.

Students are not allowed to leave the University without the consent of their parents, who are requested not to withdraw their sons without notifying the Rector of the intended withdrawal.

The students are strictly forbidden to lend, borrow or exchange personal effects of any kind.

Any damage done by a student to the furniture, instruments or books of the University, is charged to his account.

Day scholars are strictly forbidden to take out letters or to perform any other errands for the boarders.

N. B.—Parents are earnestly requested to impress upon their sons the importance of practising economy while at the University. Much unnecessary expense and grave inconveniences are avoided when what is deemed requisite for needful purposes is transmitted directly to the Bursar of the University. This would also be the wise course to adopt with regard to pocket money, of which the more moderate the supply, the better.

The University will not pay any accounts for articles purchased by a student, unless a sum for this special purpose is deposited with the Bursar.

The University will not be responsible for any article of clothing, or table furniture, or for books left at the University by the students.

Books, stationery, etc., may be procured at the University ; in which case a sum equivalent to the required expense must be deposited with the Bursar.

#### **IV. PROGRAMME.**

The Programme of Studies Embraces Six Distinct Courses.

1. THE THEOLOGICAL COURSE, which extends over four years and embraces all the branches of ecclesiastical science generally taught in Catholic Seminaries.

2. THE PHILOSOPHICAL COURSE, which is both the crowning of the Collegiate Course and the basis of all professional studies.

Students may take their Degrees both in Sacred Theology and Philosophy.

3. THE COURSE OF ARTS, which extends over four years, and at the end of which the student may receive the diploma of Bachelor of Arts or of Bachelor of Literature, after having passed the prescribed examinations.

4. THE SCIENTIFIC COURSE, which is adapted for young men, who, having acquired sufficient knowledge of the classics, desire to devote themselves to the study of the natural sciences and mathematics. It commences after the Collegiate Course, and lasts three years. After the necessary examination upon the various matters of the course, students may receive the degree of B. S.

5. THE COLLEGIATE COURSE, extending over three years and embracing all the matters necessary for matriculation.

6. THE COMMERCIAL COURSE, the object of which is to impart to young men not destined for the literary careers, such instruction as will enable them to fill with advantage and with honor, any position for which they wish to fit themselves.

The Commercial Course serves at the same time as a preparation for the Collegiate Course and for the other courses above mentioned.

The last year of this course is specially employed in the practical study of commercial transactions and prepares the young man to take up with success, any branch, whether commercial or administrative.

#### Mathematics.

From the very first year of the course the various branches of Mathematics are associated with the study of the Classics. The course of Mathematics is independent of other courses. It is so arranged that the students, who are fitted by their knowledge of Greek and Latin to take their place in the higher classes, may at the same time, follow the lower courses of Mathematics, without encroaching upon the time required for their other studies.

#### Chemistry.

The fitting up of a spacious Chemical Laboratory has enabled the University to open a course of Analytical Chemistry. Each student is provided with a working bench, makes his own

experiments, and has every facility of acquiring, by personal research, a practical knowledge of that universally important science.

#### **Mineralogy and Geology.**

The modern sciences receive the attention due to their acknowledged usefulness and efficacy as a means of mental training. The University Museum, containing a large collection of geological specimens, and the Museum of the Geological Survey of Canada to which the students have been kindly granted access, supply ample material for extensive research.

#### **Physics.**

The minute and exhaustive study of Physics crowns the edifice of the natural sciences. The Physical Laboratory contains all the instruments necessary for the demonstration of the various phenomena and their laws in the different branches of Physics.

#### **Religious Instruction.**

The religious training of the students is attended to with unceasing care; the most approved means are adopted to foster and develop genuine piety, and a sound practical and thorough knowledge of Catholic doctrine is imparted. Thus students are prepared to cope in after life with those difficulties and dangers which may arise from their own passions, from pseudo-science, and from contact with the enemies of Christianity; they are prepared to preserve that integrity of life and purity of morals which at once adorn and cement Christian society. Particular attention is, therefore, given to the course of Religious Instruction, which is so graded as to suit the intellectual development of the students.

## V. EXAMINATIONS.

### College Examinations.

There are three *sessional* examinations each year ; a written examination before the Christmas holidays, an oral examination at Easter and a written examination immediately before the close of the Academic year.

These general examinations, together with the marks of the entire preceding Term, determine whether the student deserves promotion or not.

Failure in two or more subjects at the *Sessional* examination involves the loss of the session. The faculty may permit the student to recover his standing by passing a supplemental examination at the beginning of the ensuing session.

## Commercial Course.

---

The great importance of a thorough commercial education needs no proof in an age like ours so remarkable for the pre-eminence and extent of its commercial and industrial enterprises. It should be borne in mind that the best drilling imaginable in Arithmetic and Book-keeping does not suffice to complete a commercial education. There is still needed a certain degree of the intellectual culture which the study of literature and of the natural sciences imparts. A Commercial Course that aims solely at making correct accountants is incomplete. It should aim, also, at preparing students to fill with honor, and to the advantage of themselves and all concerned, the various positions they may be called upon to occupy in after life. The programme herein laid down for the Commercial Course clearly shows that the Directors of the College thoroughly understand the importance of attaining this two-fold aim of a complete commercial education.

The Students of the fourth year may be exempted from the study of French, to be able to give more time to commercial branches, which are to be studied with special assiduity.

### Practical Department.

A well-organized Business Class, in which banking, commercial law and all business requirements are attended to, prepares the students of the Fourth Grade to fill, on leaving College, positions which would otherwise require several years of apprenticeship.

In this class, the students take an active, practical part in all kinds of business transactions, in buying and selling, forming and dissolving partnership, drawing checks, giving and receiving notes, etc.

Business calculations, business papers, business correspondence, banking and book-keeping in their simplest and in their most intricate forms are here brought into practical use.

The diligent student will here acquire a more general and complete knowledge of business and book-keeping than he ordinarily could in several years of practical office work.

In this Department the merchandise is represented by printed cards and handled the same as in the outside business world, the prices being regulated by the daily quotations from New York and Montreal market.

A DIPLOMA, stating the success obtained, is given to those who pass with honor their final examination in the various branches taught in the Commercial Course.

FEE for the Commercial Diploma, \$3.

### Regulations for the University Examinations.

---

The examination questions are prepared by the Boards of Examiners appointed by the different Faculties.

Previously to the examination, a written application to the Secretary, signed by the candidate, shall be inserted in the Inscription Register.

Each examination is written or oral in every branch. The written examination in each branch lasts two or three hours; the oral, from ten to fifteen minutes.

Before the written examination begins, each candidate should give to the Secretary a sealed envelope containing his name, together with the Pseudonym he chooses for his Examination Papers. These envelopes are not opened until the Examination Papers of the candidates have been examined and the results have been registered with the corresponding Pseudonyms.

Candidates shall bring neither books nor paper to the Examination Room. They are provided with the classical dictionaries and the tables of logarithms which they may need. Sheets with printed headings are given them upon which to write their answers.

They are not to write their names on these sheets, but are required to write their Pseudonyms *very distinctly* at the top of each sheet they use. Any such sheet not distinctly bearing their Pseudonym is liable not to receive credit from the Examiners.

Any candidate detected in copying from the papers of another candidate, or in improperly obtaining any assistance whatever, or in improperly introducing any book or manuscript into the Examination Room, shall be at once dismissed.

Any candidate so dismissed will be inadmissible to any subsequent Examination, without the special permission of the Senate.

While the Written Examinations are going on, the candidates shall be constantly under the supervision of the Board of Examiners.

At the close of each Session each candidate shall hand to the Prefect of Studies the papers he has written, firmly fastened together *in order*, and leave all other paper on his desk.

These papers are examined by the aforesaid Board of Examiners.

The number of *marks* obtained by the candidates determines their success or failure.

At the Matriculation Examination each candidate has to obtain at least *three-fifths* of the maximum number of marks obtainable, and not less than *one-third* in each subject.

At the Intermediate Examination at least *two-thirds* of the obtainable total, and in each branch *one-half* of the number obtainable, are required.

If a candidate fail in one subject, he will be required to write again on that subject only. But if he fail in more than one subject, he will lose the whole examination.

### THE MARTIN O'GARA SCHOLARSHIP.

The University lately accepted from a committee of citizens of Ottawa, a sum sufficient to establish a scholarship in perpetuity. This Scholarship is to bear the name of the late Martin O'Gara, Esquire, Q.C., LL.D., and is to be awarded annually to an English-Speaking student in the University from the Ottawa Separate Schools. The winner's name will be announced at the close of each academic year.

"The Martin O'Gara Scholarship," is one of two scholarships founded in the year 1900, by certain citizens of Ottawa and other parts of the Province of Ontario, as a memorial to Martin O'Gara, Esquire, for many years an eminent citizen of Ottawa.

Born in the County of Mayo, Mr. O'Gara came from Ireland to Canada, a mere youth, and his success in life was due solely to his own abilities. Having graduated at the University of Toronto, he was called to the Bar in 1861. A man of profound legal erudition, he made his way to the head of his profession, becoming, in a few years Queen's Counsel, and, subsequently, a Bencher of the Law Society. At his death, in 1899, he was the acknowledged leader of the Bar throughout Eastern Ontario, and had been nominated by the Crown for a seat in the Supreme Court of Judicature of the Province. In addition to his other public duties, he fulfilled for nigh forty years, those of Police Magistrate and Police Commissioner at the Federal Capital. A man of culture and scholarship, he was chosen by the University of Ottawa to receive its highest academeal distinction, being at the same time appointed a member of its Law Faculty. His fine qualities of character as displayed both in public and private life, earned for him the esteem of his fellow men of all creeds and origins, and this, together with the widespread feeling of regret which his death inspired, and the desire that his life might serve as an example and inspiration to the youth of the Country, for all future time, led to the institution of these memorials in his honor.

## BACHELOR OF SCIENCE.

Tétreau, Thomas, M. D., C M.,	Lawrence, Mass .....	1897
-------------------------------	----------------------	------

The University will always thankfully receive all specimens or objects of natural history, all natural curiosities, medals, coins, or other objects of art, which the friends of education may kindly contribute towards the completion of our present collections. A well stocked and well organized museum forms the best class-book for the study of the natural sciences. On this account we appeal to the friends of the University to interest themselves in a work so important as a University Museum, by forwarding such articles of interest and use as may be at their command and disposal.
