PRESIDENT McCALL WILL REFUND MONEY \$225,000 of Misdirected Funds Will Be Returned.

Andrew Hamilton, the Lawyer Who Looks After the Company's Lobbying Must Return From Europe

NEW YORK, Nov. 13.—John A. McCall, president of the New York Insurance Company, was called before the Armstrong committee of insurance investigation today and peremptorily ordered by the committee to demand the return from Europe to this country of Andrew Hamilton, the lawyer who has had charge of the legislative matters for the New York Life. Mr. McCall was further ordered to demand an accounting from Hamilton of the moneys expended by him and of the balance which he owes the New York Life.

Mr. McCall said that it was the policy of his company to have Mr. Hamilton remain abroad until after the investigation into the case of the Equitable Life, was called. He produced letter books and memoranda which Mr. Hughes read, and was in the midst of reading when adjournment was taken.

Other witnesses today were John R. Hageman, vice-president of the Metropolitan Life, and Vice-president Pike of the same company, who were interrogated by the Metropolitan Life committee.

SEASON LAST YEAR WAS MUCH COLDER

FREDERICTON, N. B., Nov. 13.—One year ago today the river at this point was frozen over. The Fredericton Boom Co. are not going to be caught napping and for that reason they started today to take up the booms and have them placed in winter quarters.

Saturday night lumbering operations at Springhill were concluded for the season. A fire let up for a time but had been going on for about three weeks and during that time about 1,500,000 feet of lumber, or between 300 and 400 jobs was handled.

The lumber was brought down river after being hung up, by means of a channel which had been dug at Burpee Bar under the direction of Robert Atkinson, who represented the owners of the lumber.

SENSATION IN ST. ANNE'S ELECTION TRIAL

MONTREAL, Nov. 13.—A decided sensation was provided in the court room this morning in the St. Anne's election trial when a witness for the prisoners, named Dennis Maher, under cross-examination by Ferron, stated that he had been approached by one George Gagnon, who secured his address and told him there was \$50 in it if he would come to court and give evidence against Gagnon.

AT THE YORK

No doubt a great number of the old residents will remember Professor Anderson, who appeared here at the Mechanic's Institute 23 years ago. The professor was known then, as he is now, as "The Wizard of the North"; a valuable horse, a gold and silver watch, and numerous minor presents. Owing to other duties which he has to attend to, the professor will only be able to entertain the St. John public for one night, and all the amusement-loving people should be present at the York Theatre next Wednesday evening.

OUTGROWING PARTY BOUNDARIES.

The Winnipeg Tribune (Independent) attributes Mr. Bennett's defeat in Alberta to the fact that he conducted his campaign on federal party lines and so missed the support of many intelligent electors who, while approving his stand on the schools question, were not willing to endorse all that is branded with the name of Conservative, as he asked them to do. So this result in Alberta encourages rather than disheartens the Tribune with reference to the coming contest in Saskatchewan.

"Mr. Haultain," it says, "refused to permit a powerful body of his friends to induce him to repudiate his non-party form of government—the form of government that, under the direction of Mr. Haultain, has become the pride of Canadian politics—the form of government that will yet be imitated throughout the length and breadth of Canada. This is the form of government," it declares, "that eliminates graft, wire-pulling and the spoils system—the three disgraces of Canadian politics today."

While it is doubtful if events in this case will fully justify the Tribune's optimism—for the government has a powerful grip on the new voters in the west and is straining every nerve to keep Mr. Haultain out—the signs are unmistakable of a loosening of party ties in this country and a growing tendency for self-thinking and independent voting among the more intelligent electors. In politics as in religion, the sectarian grooves made in the last century are growing too narrow for the men of today. There is good and bad in all parties and all sects, and the increasing ability of men both to choose and to follow the better, irrespective of its trade mark, is the surest evidence that, socially and individually, evolution has not yet reached its goal.

A TIP FOR N. B. FARMERS.

There is food for thought for our New Brunswick farmers in the fact that the "abandoned farms" in the Eastern States are looking up, from the return movement of settlers in the west. The American Cultivator notes that the cheapness of land in many parts of the east is attracting more and more attention from the enterprising western farmer, while the eastern farmer is beginning to realize what an advantage they have in the ability to buy land situated near the largest markets at much lower prices than are commanded by good land in the west. It is these considerations which should re-encourage the farmers of New Brunswick to their own holdings, while so much apparently strong temptation is held out to them to "go west." Neatness in market, surety of income from intelligently diversified crops and freedom from weather that hampers his harvesting should combine to make the agriculturalist in this province pause before yielding to the fascination of the western fields which look so green from this far distance.

"Attempts at the assassination of the republic," so a New York preacher has characterized the corrupt practices of some of the workers during the recent New York election. And the phrase is not a whit too strong. The foundation of democratic governments is the ballot box and the man who violates its sanctity threatens the stability of the state. A country has no worse enemy than the man who—with money or dishonest contrivances—stands between the voter and the instrument that registers his will.

St. John's last ditch against the encroachments of the lighting monopoly is the little municipal plant in the North End. This must be guarded carefully as affording a basis for the offensive operations which the city must begin some day—not far in the future we hope.

The worst fears of the Anglophobes has done more to cement the Anglo-American sentiment than any event since the lamentable separation of the colonies from the mother country.

It is puzzling why some of these journals which are demanding more pay for school teachers on the ground that higher salaries mean better teachers will persist in declaring that the increased indemnity to members of parliament is a total loss to the country.

GIANTS WILL GO SOUTH

NEW YORK, Nov. 14.—John J. McGraw has given up the idea of taking the giants to California for training this coming spring, and has determined to go to either Savannah or Memphis. The San Francisco management offered tempting inducements, but the giants have had such beneficial results in their spring training that McGraw decided yesterday that it would be better to go south again. It has been decided to start south in the latter part of February.

THE PLAIN ONES. (The Khan.) Today in a nook in the garden, A spot that the north winds skip, I found a marigold golden, Smiling like a basket of chips.

Now, I had despised the marigold plain When the dahlias tall and proud Were with the gladioli vain And these hovy aster crowd.

Where are they when the forests grow hard And the tree-edge winds are near? Not one of them all is seen in the sward, But the marigolds are here.

It's aristocracy every time: My wren! ones untold Their blooms afar in a warmer clime, But here is the marigold.

Here comes the frost breath and the cold: The gay four hundred wince; And this I've learned from my marigold— Put not your faith in princes.

ANOTHER BIGAMIST AND WIFE MURDERER

John Hoch's Crimes Outdone by Dr. Oliver Haugh, Who is Accused of Poisoning Many Women.

CHICAGO, Ill., Nov. 13.—Death by poison of a Chicago woman is attributed to Dr. Oliver Haugh, who is under arrest at Dayton, Ohio, charged with the murder of his father, mother and brother, and who is suspected of killing other persons by a deadly agent known as hyocine hydrobromate.

Haugh came to Chicago in 1899 and he has said he lived here with a Mrs. Bitter, in Englewood. Whether he married her is not known. Investigation today proved that Anna D. Patterson, who lived at Forty-eighth avenue and West Harrison street, and died October 13, 1899, never knew Haugh. Her death was caused by paralysis.

Dr. Haugh's deeds are said by the police to have surpassed Johann Hoch's. His victims, for the most part, it is alleged, were women whom he either had married or duped. He is said to have profited largely by the deaths of several, the death of Mrs. Mary Tweedy, of Lima, bringing him \$2,000 in jewels and money.

Haugh has twice been in the Ohio Hospital for the Insane and several times in a Cincinnati sanitarium for the cure of persons addicted to the drug habit.

It is charged that he has boasted of several of his poisoning exploits and declared that his intermittent insanity renders him immune from punishment by law.

MIKADO THANKS HIS ANCESTORS FOR VICTORY

TOKYO, Nov. 14.—The Emperor of Japan, followed by the Premier, Ministers and other court dignitaries started in state this morning for Ise Temple, to offer thanks to his ancestors for the successful termination of the war and the restoration of peace.

The Temple of Ise is the depository for three Imperial insignias, a mirror, a sword and crystal, representing respectively, justice, power and virtue. Ise is one of the most important of the temples being the only one which the reigning Emperor personally visits.

There is general rejoicing over his visit today. The day was bright and a brilliant sun shined over the scene. The Emperor by the diplomatic corps at the station.

MORE AID FOR RUSSIAN JEWS

SAN FRANCISCO, Nov. 14.—P. M. Lillenthal, chairman of the Russian Relief Fund, wired \$10,000 yesterday to Jacob Schiff, New York. An additional \$10,000 will be wired within a day or two. Many prominent Jews are among the contributors. A number of public meetings have been arranged for the next few days to further appeal to the public. San Francisco will probably send \$25,000 before the end of the present week.

WISE MAN. "Why did Jack marry his typewriter?" "Merely a matter of economy—he wanted her salary raised."

DIAMOND ADVICE. PUT YOUR MONEY INTO DIAMONDS. Diamonds in your possession represent money—more money than you pay for them after you have worn them a while, for the advance in price is very marked and there is positively no danger of Diamonds depreciating in value in our time. Of course it is always necessary to choose wisely and pay the right prices when you make your selection; therefore it is essential that you should choose the gems at a responsible house and I have a record and a reputation. I think enviable and my very large stock of set and unset gems allows for the best selection in this city or province. Respectfully yours W. TREMAINE GARD, 77 Charlotte St. Direct Importer.

MARRIAGES. BRAWLEY-CAPSON—In St. John's church, Bangor, Me., Nov. 2nd, by Rev. Mr. Newbelen, Nettie Capson to John Allen Brawley, both of St. John, N. B.

DEATHS. HOGAN—In this city, on the 13th inst., James Vincent, son of Ellen and John Hogan, in the 2nd year of his age. Notice of funeral hereafter.

SHARKEY—At Woodstock, after a lingering illness, Miss Annie Sharkey, eldest daughter of Peter Sharkey. Funeral in this city on the arrival of the C. P. R. train Wednesday.

HIS REASON. Visitor—Why have you your genealogical tree hung so high? Host—That isn't a genealogical tree. That's my dog's pedigree, but I want people to think it's my genealogical tree.

ONE ON HUBBY. Mr. Wiseman (surveying new draperies in parlor)—My dear, you certainly have wretched taste. His Wife—Yes, that's what everyone said when I married you.

A STRONG HINT. Parson Snowflake—Brederts and sister, Deaking Johnning will pass round of nickel plate for youn offer, an' dean let it come back lookin' lak a copper plate, as youse did dis mornin'!

24 CHURCHES TALK OF FEDERATION.

(Continued from page 1.)  
"We believe that the growing interest in federation and the widespread conviction of the great possibilities contained in federative movements indicate that the time is opportune for the extension and strengthening of the principles of federation."  
"We believe that questions like that of the saloon, marriage and divorce, Sabbath desecration, the social evil, child labor, the relation of labor to capital, the bettering of the conditions of the laboring classes, the moral and religious training of the young, the problem of the foreign-born, and the international arbitration—indeed, all great questions in which the voice of the churches should be heard—concern Christians of every name, and demand their united and concerted action if the church is to be effectively in the conquest of the world for Christ."  
"It is our conviction that there should be a closer union of the churches, and a more effective use of the resources of the Christian churches in the different cities and towns, and when feasible in other communities and fields, with a view to an increase of power and of results in all Christian work."  
"What we propose is a federation of denominations, to be created by the denominations themselves."  
While the interchurch conference is not the first general assembly of the various Christian cooperation it will be the first officially delegated body to represent in formal conference the large majority of American Protestant denominations.  
No one can prophesy just what practical results may be expected from this conference. No scheme or plan of any kind has been suggested, and the delegates to consider. But as one of the delegates puts it, "It is obvious that the essential needs of the church will be revealed to the world as it has never before been revealed."  
The following denominations will be represented at the conference: Every church with 500 members has fifty delegates; those having 100,000 will be represented by ten, and those with a smaller membership by five delegates.

The Baptist churches, North, Baptist churches, South, Free Baptist churches, Christian Connection, Congregational churches, Disciples, Evangelical Association, Evangelical Synod, Friends, Evangelical Lutheran Church, General Synod, Methodist Episcopal Church, Methodist Episcopal Church, South, Methodist Protestant Church, African Methodist Episcopal Zion Church, Moravian Church, Presbyterian Church in the United States, Cumberland Presbyterian Church, Reformed Presbyterian Church, United Presbyterian Church, Protestant Episcopal Church, Reformed Church in America, Reformed Church in the United States, Reformed Episcopal Church, Seventh Day Baptist churches, United Brethren and the United Evangelical Church.

W. J. FURBUSH IN AUTO WRECK; WIFE BADLY HURT

BELMONT, Mass., Nov. 13.—Mrs. T. Furbush, 804 Watertown street, West Newton, and Sheridan R. Cate were badly injured in an automobile accident at the corner of Concord avenue and Pleasant streets at 5:30 o'clock yesterday afternoon. W. J. Furbush, who drove the car and was driving it at the time of the accident. With him in the car were his 12-year-old son, Charles, his wife and Mr. Cate. Mr. Furbush and the boy escaped injury.  
The car was running down Concord avenue which is very steep, and in trying to clear a carriage the brake failed and the car got beyond the control of Mr. Furbush and dashed into an iron fence at the bottom of the hill and then over a stone wall and turned turtle. Mr. Furbush and his son were thrown clear of the car, but Mr. Furbush and Mr. Cate were pinned underneath.  
Two ambulances were summoned and the two injured were conveyed to Newton Hospital in an unconscious state. Mrs. Furbush has a fractured thigh and ankle, has contusion about the face and head and it is feared has received internal injuries.  
Mr. Cate's injuries include four fractures of the ribs and contusions and it is also feared he is injured internally. Mr. Cate is a Harvard student, 25 years old and a son of Rev. G. H. Cate, of West Newton.

HARD COAL MINERS KICK OVER TRACES

SHAMOKIN, Pa., Nov. 13.—A complete canvass of the Lackawanna, Schuylkill and Lehigh coal districts shows that the miners are in a very bad way. The United Mine Workers' Convention, to be held here beginning December 1, will be bound after April 1 next by a renewal of the award of the Anthracite Coal Strike Commission, unless the operators, in addition, agree to the union becoming a "senior" party.  
From first hand sources the following forecast of the convention's action is justified:  
A committee representing the union miners will be instructed to wait upon the operators and request that they be permitted to explain to the operators. If granted the opportunity, that the conference is asked to that a mutual agreement may be reached as to the terms of employment at all collieries after April 1.  
The convention will take a stand for an eight-hour workday, uniform pay for classes of employees not rated as miners and specific terms of employment, but these will be held subject to a joint discussion and will not be entered in advance of the request for a conference. Should the operators issue or post a notice of their intention or willingness to continue in force the commission's award in advance of the convention such notice will be disregarded, it is said, by the convention unless addressed to that body, to the union or to one or more of its representatives.  
Failing to get the consent of the operators to meet representatives of the union, the convention will adjourn to allow for further negotiations and for final instructions from the local unions in all three districts.  
In the event of the operators refusing to meet or discuss with union representatives the Shamokin convention will, at the least, announce the refusal of the 100,000 union mine workers to be longer bound by the terms of the commission's award.

DR. FRANK CRANE'S EPIGRAMS.

How do we know whether Christianity will work or not? It has never been tried.  
Any given government is better than the one it replaces.  
I should like to see a new society organized called "An Association for the Promotion of the Principles of the Sermon on the Mount."  
The gist of religion was in the remark the dying Bunson made to his wife, as she stooped over him: "In thy face have I seen the Eternal!"  
The greatest enemy of the soul is cold. It is by energy, struggle and love we keep the soul warm.  
The only way the rich can think themselves happy is to borrow the opinions of others. That is, to think of themselves as other think of them.  
The most improbable thing one knows is one's own life.  
Fools wonder at strange events; wise men at common.  
Nothing is absolutely true unless it can be set to music.  
In the millennium we shall have oratorios on Sunday instead of sermons.—From sermon preached by Dr. Frank Crane at Union Church, Worcester, Mass.

PANAMA CANAL ENGINEERS DIFFER.

Foreign Engineers Unanimous for a Sea Level Canal, American Experts Favor the Lock Construction.  
NEW YORK, Nov. 14.—A Washington special to the Times says: "The foreign engineers on the president's consulting board in favor of a sea level canal for Panama, it is understood in Washington, while the American engineers are unanimous for lock construction. Conclusions have been reached at Panama and the reports will be transmitted to the president's board of engineers. It is the latter and more practical form of construction. They agree that it could be completed in sixteen years. How long the Americans think it will take to build a lock canal has not been learned. It was said recently by one of the American engineers that it would require seven years to construct one of the big locks needed at Colon, if a lock canal were built. Whether work on the other locks could proceed simultaneously was not stated."  
Secretary of War Taft said just before he went to the isthmus on the trip from which he is expected back at the capital on Wednesday, that he hoped to have the report ready to submit to congress for the final decision early next year.

"Within five years you will see Nova Scotia applied so driven out of the St. John market that it will not profit the packers in that province to send any more here." This is the statement made by one of the leading fruit dealers here yesterday. He gave as one reason for this the fact that Nova Scotia apples which are as good and in some cases better than those grown in Nova Scotia. The people here are just beginning to find out how well adapted this country is to fruit raising, and the experience of the last four or five years have been so successful that the fruit growing acreage is being greatly increased every year.

Mr. and Mrs. W. Z. Earle will occupy the upper flat of the large house on King street east, just erected by George A. Henderson. It will be completed in a few days. This house is one of the most complete in the city. Each of the two flats has several open fireplaces, the house is heated by hot water, it has incandescent and gas lighting, electric bells in every room, speaking tubes running all through the house and is most conveniently laid out. Mr. Henderson will occupy the lower flat.  
The ladies of St. Mary's church are getting on well with their preparations for the annual harvest supper to be held on Thursday evening. A variety of musical programs is being arranged, which will be carried out after the supper is finished.  
Owing to the absence of a quorum there was no meeting of the school board last evening. Several matters of importance were to have come up, the date of the opening of the night school being among the number. An effort will be made to have a full meeting next Monday night.  
Ebel Appleby, the nine-year-old daughter of Henry Appleby, was yesterday bitten on the arm by a savage dog belonging to John Hayes, which attacked her while she was crossing the fair grounds off the Marsh Road. The owner of the canine has been reported by Deputy Chief Jenkins for allowing the animal to roam at large unattended.  
The annual meeting of the St. John Firemen's Mutual Relief Association was held last evening and the following officers were elected: Charles E. Ward, president; W. H. COUNTY COURT.

The county court opened this morning at ten o'clock. Judge Forbes presiding. The case under consideration was the civil suit of R. Thomas Worcester, who conducts a livery stable against Henry G. Weeks, connected with the Lakes of the Woods Rolling Mill. The action is brought for injuries suffered by a team of horses on August 6. The defendant engaged the horses to take him and three others to the Barker House, Ben Lomond, but after a stay there for dinner he took them for a further drive around the head of the lakes. One animal died and the other suffered serious injuries. Crucial testimony is alleged by R. Chapman is acting for the plaintiff and Daniel Mullin, K. C., for the defendant.  
The petit jury sworn in on the case were the following: Caleb Belyea, Thomas Belyea, Thomas Belyea, H. Ramsay and John Dolan. Four juries were fined \$5 for non-attendance. These were Samuel J. Ritchie, Harry D. Machum, Walter H. Bell and George W. Parker.

GOING TO BERMUDA

Colonel Sharp and Major Phillips returned yesterday on the boat from Digby, where they have been inspecting a new Army barracks which is nearing completion in that town. They also visited Yarmouth and inspected a new barracks being built there.  
Col. Sharp leaves for a trip to Bermuda on Saturday next, to inspect the Army corps in that section of his province. The colonel will sail from New York, and will be accompanied on the trip by Mrs. Sharp and Captain Riley. This tour of inspection will take about three weeks. The Army have now large corps in four Bermuda towns, viz., Hamilton, St. George, Somerset and Southampton.

Allis pinched her father's arm again, and looked up in his face inquiringly, as from the seat behind them the jumbled conversation came to their ears. Porter nodded his head understandingly, and frowned. The stephanotis was choking his nostrils, and an occasional word was filling his heart with confirmation of his suspicions. "I don't like it," he muttered to Allis. "They've had four breaks, and there's been left each time. The Chestnut's worst actor I ever saw at the post. But I'm thinking he'll leave the race right there, the way he's cutting up."

THE WORLD'S OUTPUT OF GOLD.

Estimates Prepared by the Director of the Mint - Increase of \$22,000,000 in 1904.

WASHINGTON, Nov. 11.—Estimates of the world's output of gold for the calendar year 1904, prepared by the director of the mint, show an increase of \$22,000,000 compared with that of the previous year. The United States gained about \$7,000,000 and South Africa \$15,000,000, both countries being still upon a rising scale of production, while Australia, on the other hand, shows a tendency to reduce its contribution, although the falling off is not large and may be temporary, in view of developments in the world's output in 1905 to exceed that of 1904 by \$25,000,000, with an increase of \$100,000,000 in 1906.

A HUMAN QUARRY.

CHICAGO, Nov. 11.—A despatch to the Tribune from St. Cloud, Minn., says: John Jankel of this city, aged 22, is a human stone quarry. Fourteen months ago he was the victim of an explosion in a stone quarry. Since that time, 4,000 pieces of stone have been removed from various parts of Jankel's anatomy. A piece of granite weighing half an ounce weighed was removed from the socket of his eye, which was lost in the explosion. Four times a week Jankel submits to the knife.

N. B. MAN DEAD IN MONTANA.

W. C. Hammond, for many years a resident of Montana and well known in Missoula and the Blackfoot country, died at 2 o'clock this (Sunday) morning in Anaconda, after an illness of a few days. Mr. Hammond had been suffering from rheumatism for several weeks and three days ago took electric treatment for his lameness. The treatment appeared to benefit him much at first, but the next day he complained of a pain in his heart and had two sinking spells. These attacks followed more rapidly Friday and Saturday and after midnight a severe one resulted in his death.

**The Red Rose Flavor and Strength**

No Ceylon tea nor Indian tea alone can have the "rich fruity flavor" of Red Rose Tea, because neither variety in itself possesses all the qualities of strength, richness, delicacy, and fragrance. Each has its own peculiar qualities, but each has its weaknesses.

By combining the two in the Red Rose proportions, I produce a tea with the "rich fruity flavor" and strength of Red Rose Tea, a flavor and strength found in no brand of Ceylon alone.

**Tonight's Big Wrestling Bout at York Theatre.**

**Ring Notes.**

**THE TURF**

**DAN PATCH CHAMPION.**

BOSTON, Nov. 13.—The Herald says: Dan Patch is at last a bona fide champion. While the great son of Joe Patchen (2:01 1-4) has generally been considered to be the foremost pacer in the country for several seasons, by virtue of his work during a "wind shield" at which game he was unharmed, Star Pointer's record of 1:59 1-4, made at the Realville track in 1897, had never been beaten under the old conditions and methods until at Memphis last Saturday Dan Patch paced in 1:58, lowering the world's record for pacers by a second and a quarter.

The dispatches from Memphis state that all the gales governing such trials were complied with and that everything was done to safeguard the stallion's record. Nevertheless, it is quite certain that the performance will be thoroughly looked into before it is allowed to go on the records. Dan Patch's performance is really an amazing one, if it was fairly conducted. It is awfully easy to cheat a little in these time trials.

When Dan made his first attempt to beat the record at Lexington, which failed, by the way, the well known driver who was up behind the pace-maker crossed over and acted as if he was in the center of the track, with the way up the back side and around the far turn, where the wind resistance was the greatest and where also it was almost impossible to see whether he, the pacemaker, was next the pole out in the center of the track, and then when they came to the scratch, swung the runner wide and left Dan a clear path through the stretch, with the wind blowing directly behind him.

This incident is of no particular bearing in considering Dan Patch's latest performance, but at the same time it is well known to horsemen and has been laughed and joked about all the fall and held up as an example of Scott Hudson's ability to make the most of opportunities as they arise on the race track. If Dan Patch's latest performance was made on the level, he should be given every bit of credit that is due to a world-beater, but the officials of the register association ought to make a thorough investigation of the performance before accepting it.

It is not incredible that the performance was a genuine one, but with the memory of that Wichita performance the public will not be satisfied unless the affair is thoroughly investigated. Not that the performance is like that of Ceresius at Wichita, plainly a fake one, but still a world's record should be made under conditions that make mistakes or fraud impossible.

The rules of the National Trotting Association require that records against time be made at a regular meeting. A regular meeting is defined as one which has been advertised in at least one paper, and at least two regular races must be on the card. This rule was complied with at Memphis, it is said, still, of course, the object of it all was to give the son of Joe Patchen a chance to acquire championship honors that would be unquestioned. Probably the Memphis performance was all right, it is hoped that it was, but at least two attempts have since been made, one in California and one in

**Don't Neglect a Cough or Cold**

IT CAN HAVE BUT ONE RESULT. IT LEAVES THE THROAT OR LUNGS, OR BOTH, AFFECTED.

**DR. WOOD'S NORWAY PINE SYRUP IS THE MEDICINE YOU NEED.**

It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

A single dose of Dr. Wood's Norway Pine Syrup will stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly eradicating the bad effects, and preventing a return of the cough or cold to bring about a complete cure.

Do not be humbugged into buying so-called Norway Pine Syrup, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cts.

Mrs. Henry Seabrook, Hopedale, Ont., writes: "I have used Dr. Wood's Norway Pine Syrup in our family for the past three years and I consider it the best remedy known for the cure of colds. It has cured all my children and myself."

**ALBUM OF KISSES NOW INVENTED**

LONDON, Nov. 11.—A clever young Kensington woman, Miss Evans, has devised a new kind of autograph album that is likely to be popular. It is a not only to collect autograph signatures of her friends, but to preserve also the imprints of their kisses.

This book is equipped with a little pad of soluble carmine tinted substance upon which the lips are first lightly pressed, so as to take up a little of the pigment. The kiss is imprinted up on the page in a space provided for the purpose, leaving a clear carmine record of the pressure of the lips. By the side of the kiss imprint is another for the autograph and date, and together kiss and signature makes a very precious and intimate keepsake.

"It is really marvellous what a lot of character there is in kisses," says Miss Evans. "People who are not students of the subject simply have no idea how good work. A kiss is a record of the finger prints are alike. Well, no two persons' kisses are the faintest bit alike. I have two hundred in one album and there is not one of them that you could possibly mistake for any other. These kisses look like kisses too."

"This kiss album bears on the title page the motto, 'Give Me a Kiss for a Keepsake,' and the quotation 'Dear as remembered kisses.'"

To complete the kiss album should be sprinkled with kissing quotations from novelists as well as poets.

**COFFEE DRUNKARDS FOUND IN LONDON.**

May Die from Nervous Complaints Brought on by Tea and Other Beverages—Fogs Increase Death Rate

LONDON, Nov. 11.—Fogs have evidently begun in earnest now—in fact, this week has been a week of fogs, which have been at their worst in the morning, when the business people were hurrying to work in the city, die locating the traffic and causing no end of trouble.

It looked as if that old circus parade, as the Lord Mayor's show is called, was going to be spoiled by the fog Thursday. When the people were assembling in the streets there gathered over the city a dense fog, black as the blackest night. Lights had to be turned on everywhere and the people were expecting the unique experience of seeing Lord Mayor's show under the gas-light or wondering if it would be turned into a torchlight procession. This, however, was avoided in time. The mysterious darkness disappeared as suddenly as it came, and the Lord Mayor's show went by in only slight gloom.

The beginning of the fog season always, of course, ends up the death rate, and this year is no exception to the rule, old people afflicted with lung disease being carried off by the fog. The last returns showed 501 deaths of people over sixty out of 1,484, as compared with 302 of the previous week.

It has been noticeable lately, too, that there has been a remarkable increase of deaths from nervous complaints, and a doctor writing to the papers attributes the increase of people suffering from nervous disorders to the increase of popular tea shops and the drinking of China tea as being less deleterious than the Indian and Ceylon kinds.

But another asks, "What of persons addicted to the coffee habit? There is no brand of coffee they can drink to suffer considerable extent without suffering from the same distressing consequences as afflict the injudicious users of tea."

Still another medical man who makes a specialty of dietetics, says: "As many men are addicted to excessive indulgence in coffee as there are inmoderate tea drinkers among women. Thousands of men, particularly in the city, sip coffee during the day at brief intervals, and their brethren in New York sip spruce. In time the coffee habit develops palpitation of the heart, an irregular pulse, nervousness, indigestion and insomnia."

"Coffee drunkards, as I may call them, are greatly increasing in number, due probably to the wave of superstition which is passing over the country, but I have known cases where hallucinations, especially differing from those of alcoholism, have been set up by the persistent abuse of coffee over a series of months."

"Coffee is a cerebral stimulant, ranking with alcohol, and used in moderation is less harmful than tea, as it contains less tannic acid. He also condemns coffee after dinner, and says the practice of taking a demulcent at night is solely responsible for few cases of 'neurasthenia.'"

Another writer recommends dyspeptic and nervous persons to drink the yerba mate tea of Paraguay. "Yerba" is universally used in South America, but yerba mate, says a Mincing Hill merchant, is used more than any other beverage in this country. Although it is known to us, little, if any, comes on the market, and a drinker would require to have it specially sent over. He would probably find it cheaper to eschew tea altogether.

**TONIGHT'S BIG LOCAL EVENT.**

The York Theatre tonight should be more than filled to witness the wrestling match taking place there this evening between Paul Sweeney, of the United States and Geo. Schnable, of Germany. In view of the fact that the last wrestling bout taking place between Hedger and Maupus was considered by those that witnessed it to be the best sporting event that had taken place in St. John in years, and that it is remembered that both these giants of the wrestling world have won good places in the first series of the spring tournament taking place in Montreal, and have been opponents of both Hedger, Maupus, Apollo and other well known wrestlers, it can be taken for granted the public will be off to see a better and faster bout than the last one that was held here.

"Coffee is a cerebral stimulant, ranking with alcohol, and used in moderation is less harmful than tea, as it contains less tannic acid. He also condemns coffee after dinner, and says the practice of taking a demulcent at night is solely responsible for few cases of 'neurasthenia.'"

Another writer recommends dyspeptic and nervous persons to drink the yerba mate tea of Paraguay. "Yerba" is universally used in South America, but yerba mate, says a Mincing Hill merchant, is used more than any other beverage in this country. Although it is known to us, little, if any, comes on the market, and a drinker would require to have it specially sent over. He would probably find it cheaper to eschew tea altogether.

**SUDDEN DEATH OF FREDERICK LADY.**

FREDERICK, N. B., Nov. 13.—The death occurred this evening at her residence, Queen street, of Mrs. Miller, widow of the late E. W. Miller. Deceased was one of Fredericton's most respected and best known residents and the announcement of her death came as a sudden blow to the city this evening. Mrs. Miller was ever foremost in the social life of the capital and was a lady who enjoyed the best of health. On Saturday evening last she was confined to the house with a cold and yesterday her friends persuaded her to call in a physician, who pronounced Mrs. Miller as suffering from pneumonia. Nothing serious, however, was anticipated, and up to a late hour this afternoon she talked to her friends and no one expected the end was so near. In the early evening a most sudden change came and the patient sank rapidly, passing away shortly after 7 o'clock. The deceased, who was about 75 years of age, was formerly Miss Elizabeth Spahn, daughter of the late Justin Spahn, a well known jeweller of this city. Her husband, who died many years ago, was a prominent lawyer, and up to the time of his death was clerk of the legislative council. Mrs. Miller for many years had resided in her dwelling house on Queen street by herself up to a few years ago she and her sister, Miss Spahn kept the house together. The latter died about 1900. Mrs. Miller was a foremost member of the cathedral congregation. She saves considerable property, including the premises occupied by F. E. Block, jeweller; Anderson & Walker, tailors; Strancker and Harrison, tailors; and Geo. A. Burkhardt, photographer. This property it is understood, now comes to the heirs of the late E. Byron Miller. The late Geo. S. Miller, formerly of St. John, was the only child of the deceased.

**ALBUM OF KISSES NOW INVENTED**

LONDON, Nov. 11.—A clever young Kensington woman, Miss Evans, has devised a new kind of autograph album that is likely to be popular. It is a not only to collect autograph signatures of her friends, but to preserve also the imprints of their kisses.

This book is equipped with a little pad of soluble carmine tinted substance upon which the lips are first lightly pressed, so as to take up a little of the pigment. The kiss is imprinted up on the page in a space provided for the purpose, leaving a clear carmine record of the pressure of the lips. By the side of the kiss imprint is another for the autograph and date, and together kiss and signature makes a very precious and intimate keepsake.

"It is really marvellous what a lot of character there is in kisses," says Miss Evans. "People who are not students of the subject simply have no idea how good work. A kiss is a record of the finger prints are alike. Well, no two persons' kisses are the faintest bit alike. I have two hundred in one album and there is not one of them that you could possibly mistake for any other. These kisses look like kisses too."

"This kiss album bears on the title page the motto, 'Give Me a Kiss for a Keepsake,' and the quotation 'Dear as remembered kisses.'"

To complete the kiss album should be sprinkled with kissing quotations from novelists as well as poets.

May Die from Nervous Complaints Brought on by Tea and Other Beverages—Fogs Increase Death Rate

LONDON, Nov. 11.—Fogs have evidently begun in earnest now—in fact, this week has been a week of fogs, which have been at their worst in the morning, when the business people were hurrying to work in the city, die locating the traffic and causing no end of trouble.

It looked as if that old circus parade, as the Lord Mayor's show is called, was going to be spoiled by the fog Thursday. When the people were assembling in the streets there gathered over the city a dense fog, black as the blackest night. Lights had to be turned on everywhere and the people were expecting the unique experience of seeing Lord Mayor's show under the gas-light or wondering if it would be turned into a torchlight procession. This, however, was avoided in time. The mysterious darkness disappeared as suddenly as it came, and the Lord Mayor's show went by in only slight gloom.

The beginning of the fog season always, of course, ends up the death rate, and this year is no exception to the rule, old people afflicted with lung disease being carried off by the fog. The last returns showed 501 deaths of people over sixty out of 1,484, as compared with 302 of the previous week.

It has been noticeable lately, too, that there has been a remarkable increase of deaths from nervous complaints, and a doctor writing to the papers attributes the increase of people suffering from nervous disorders to the increase of popular tea shops and the drinking of China tea as being less deleterious than the Indian and Ceylon kinds.

But another asks, "What of persons addicted to the coffee habit? There is no brand of coffee they can drink to suffer considerable extent without suffering from the same distressing consequences as afflict the injudicious users of tea."

Still another medical man who makes a specialty of dietetics, says: "As many men are addicted to excessive indulgence in coffee as there are inmoderate tea drinkers among women. Thousands of men, particularly in the city, sip coffee during the day at brief intervals, and their brethren in New York sip spruce. In time the coffee habit develops palpitation of the heart, an irregular pulse, nervousness, indigestion and insomnia."

**BOXING NOTES.**

Harry Gilmore, the veteran featherweight, has entered his son in the amateur boxing tournament at Chicago this month. Young Gilmore is the champion amateur 125-pound boxer.

More than 7,000 persons saw Tom Murphy win the heavyweight championship of Australia from Billy McCall, at Sydney, Australia, a short time ago. Murphy did not do very well when in the States.

Jim Clark, who brought the English bantam Digger Stanley to the States, has arranged to bring Ike Bradley, another bantam, to Boston in about a month. Bradley is a clever boxer and has a victory over George Dixon.

Another brother of Billy Murphy, the erratic Australian featherweight, has broken into the game in the antipodes. He made his debut into the ring at Sydney the other day, and he made a good impression, winning a knockout in two rounds.

Seats for the Harkins engagement will be placed on sale Thursday morning at 10 a. m. Patrons will note the fact that the box office hours are 10 a. m. to 1 p. m. and 3 p. m. to 8 p. m. The bills selected for the engagement are entirely new to St. John, and are some of the latest New York successes. The repertoire will be announced in the papers in a day or two. Look out for it.

Two large moose carcasses arrived by the steamer Victoria at Indiantown yesterday from Gagetown. They weighed in the vicinity of a ton when calculated together, and were shot by young Coy of the Queen's county shiretown. Ald. John Vanwart purchased the meat today, and beside the "cattin" that is on the forest noles, there are two excellent sets of antlers.

The street railway got its first touch of winter today—that is the first real touch, though it has encountered some snow before this. The rails were snowed under about an inch and that soon became crust. When the first cars went over the routes in the early morning they had some little difficulty, but once the scrapers dug the crust off the rails, and sand was applied the way became easy. By 10 o'clock the sun did the rest.

The right of Nova Scotia to collect succession duties on property in this province will be heard before the supreme court this term at Fredericton. The amount at issue is \$5,000. Geo. H. Lovitt, of Yarmouth, died in 1900, leaving an estate worth \$50,000, of which about \$50,000 was deposited in the Bank of British North America here. Both governments claim the succession duties. By mutual consent a case has been stated between the provinces. A. A. McKay, K. C. and H. A. McKewen will appear for the executors and Dr. Pugsley for the province.

## COL. McLEAN'S ASSERTION DENIED.

### George R. Vincent Proves St. Railway Made Promise

### To Consider Lancaster Highway Boards' Offer to Remove Snow from Streets

—The Letters Published.

On the 24th of last month a proposition was made by the highway board of Lancaster to the Street Railway Company offering to settle the difficulty between the municipality and the company by agreeing to remove the snow from the highways in the parish over which the street railway cars might run in the case of the company extending their lines into Fairville. The company promised to consider the matter at the next meeting of the directors.

A meeting of the directors was held yesterday and afterwards Col. McLean stated that no such offer was considered. Every letter received from the highway board had been finally answered and nothing remained for the further consideration of the directors. The street railway, he added, absolutely refuse to make any agreement of any kind with the highway board until the legislation of last session, regarding the removal of snow, is repealed.

County secretary Vincent when seen this morning said that he was very much surprised at Col. McLean's statement. Not only had such a communication been sent to the company but he had received a letter acknowledging it. He said that as a proof of the untruthfulness of Col. McLean's statement he encloses the following letter, his last communications with the company, for publication:

St. John, N. B., October 24th, 1905.  
H. W. Hopper Esq.,  
Acting Secretary Saint John Railway Co., City.

Dear Sir:—  
Yours of the 11th inst., enclosing resolution of your board received, and in reply I beg to say that the Highway Board of the Parish of Lancaster will not consent to a repeal of the Act of last winter to which you refer, but the board is willing to enter into an agreement with your company to remove the snow from the railway crossing to Barkins Corner on Main street for a number of years, at a very low rate, providing the extension is made at once. This will I think get your company over all the imaginary difficulties complained of.

An early reply will oblige.  
Yours very truly,  
George R. Vincent.

St. John, N. B., 27th October, 1905.  
George R. Vincent Esq.,  
Secretary of the Municipality of the City and County of Saint John.

Dear Sir:—  
I have your letter of the 24th October and am unable to answer same until I get instructions from our Board of Directors. I will put your letter before them at their next meeting and send you immediate notice of their action.

Yours truly,  
H. W. Hopper.

In the fact of this, said Mr. Vincent, Col. McLean dares to state that every letter has been finally answered.

## ST. PETERS HIGH TEA

### A SPLENDID SUCCESS.

In spite of the inclement weather fully eight hundred people attended the St. Peter's high tea last evening, of whom about five hundred took supper, which was served up in a very tasty manner by the ladies in attendance. All the booths were liberally patronized.

The high tea was formally opened at seven o'clock by His Worship Mayor White who gave a short and witty address. He was followed by Ald. McGoldrick.

Both of the tables looked splendid. At the plain table about 175 guests were served including the guests of the evening Mayor and Mrs. White and Aldermen and Miss McGoldrick.

Besides the ladies mentioned yesterday, the following young ladies are in attendance at this table: Miss Ella Stanton, Miss Cassie McQuade, Miss Maud Donohoe, Miss Mary Garvin, Miss Lima Savage and Miss Laura O'Donnell.

The ban alleys attracted large crowds. At the men's alley the prize, a smoking set, was captured by Christopher Nichols while at the ladies' Miss Susan Murphy of the West End, was the winner. She was the winner of a set of handsome vases. Suitable and handsome prizes will also be offered tonight. The ladies' prize is a lemonade set and the gentlemen's a shaving set.

The high tea is proving a splendid success and large crowds are expected again this evening.

## A COLLECTION.

The Star is asked to correct the following paragraph which appeared in this morning's Telegraph: "The Long-shoremen's Association met last night in their hall, Water street, and discussed the question of rates for the winter's work, and also transacted routine business. The present rate is thirty cents an hour, but it is understood that the association feel that this is insufficient, when the risk and exposure to the cold weather are taken into consideration. They will, therefore, ask for the forty cent rate." The officers declare that the meeting was for routine business only and that the rate was not discussed. They also wish to remind the Telegraph that the forty cent rate has been in force since last May.

The annual meeting of St. Andrew's Curling Club will be held at the rink tonight. Officers for the ensuing year will be elected and an informal smoker will be given.

## PROBATE COURT

In probate court this morning, and in probate in the last will and testament of the late Mrs. Margaret Adams of Yarmouth, N. S., widow of the late James Adams of this city, was granted to Mrs. Elizabeth MacLean, daughter of the deceased. The estate in this province values at \$800. J. R. Armstrong, K. C., proctor.

Letters of guardianship of the persons and estates of Lois Gertrude Laskey and Albert Edward Laskey, infant children of the late Wm. E. Laskey, who was drowned from the tug Idlewild in New York harbor, were granted to the infants' mother, Mrs. M. E. Laskey, executrix of the estate. W. H. Trueman proctor.

The last will and testament of Mrs. Ann Rodday was admitted to probate and letters testamentary granted to her sons Robert J. Rodday and Samuel Rodday, the executors named in the will. The estate values at \$1,000 personal property. Dr. Macrae proctor.

Accounts of the late Dennis Moriarty were passed this morning. Macrae and Sinclair proctors.

## FORTUNATE INVESTORS.

R. B. Harris, of Canning, and N. A. Rhodes, of Amherst, have a block of land in the Saskatchewan, about 400 miles west of Winnipeg. It was taken up in the spring by Messrs. Harris and Rhodes, some Halifax people who were offered a chance, declining to go into the deal. The block consists of nearly 11,000 acres. They have started to improve the property. Oats that were sown on the 29th of June averaged 50 bushels to the acre. Thursday they received an offer to sell the property, which would give them a net profit of \$3,000. They have decided not to sell preferring to hold on until spring, with the expectation of securing a still higher bid on account of the improvements they are making to the property which they own exclusively.—Amherst Telegram.

## OLD METHODS AND NEW.

"Do not fear to be different—it's different that makes things possible, and it's the courage to advocate a difference that gives life to enterprise. Competition builds trade but cuts profit—follow in the footsteps of your competitor." The Currie Business University, Ltd., has won its way into the good graces of the business community by offering a class of office-helpers trained to a higher standard than has hitherto been attempted. That's the difference.

"To be unique—that's the point—true genius seeks no convention. It does not matter what the other fellow has done to be successful; you must follow a different road to equal him—in business."

## TOOTH HINTS!

"When ought we to go to the dentist?" Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

The stability and short-sightedness of either policy is evident. Every one who thinks a moment on the subject knows that we cannot masticate our food satisfactorily if one or more of the teeth are tender, inflamed, decayed or otherwise out of working order; and that if this be the case the mouth requires immediate attention.
