EVERYONE HAD EXPRESSED OPINIONS REGARDING THE McDUGALL CASE

Only Eleven Jurors Secured Out of Two Panels, One of Fifteen and the Other of Thirty---Additional Panel Summoned This Afternoon---McDougall Pleaded "Not Guilty"---No Plea of Justification

The case against C. Bruce McDougall was commenced this morning in the Circuit Court before His Honor Mr. Justice White. Attorney General Hazen and J. B. M. Baxter, K. C., appeared for the crown and J. J. Ritchie, K. C., J. J. McNeil and J. C. Sherren for the defense.

When the court adjourned at noon a full jury was not obtained. Eleven out of the twelve, the requisite number, were sworn and the last one will be obtained this afternoon. His honor instructed the sheriff to summon an additional panel.

Mr. Ritchie, for the accused, presented an able argument to support his motion to quash the indictment. His honor, however, disallowed the motion and the prisoner was called upon to plead. Some surprise was caused by the fact that a plea of "not guilty" was the only one made, as it was expected that a plea of justification would be made. However, the time for such a plea is past.

Mr. Ritchie in supporting his motion claimed that no count in the indictment contained the elements necessary to constitute an offense of criminal defamation. After quoting the definition of the offense as laid down in the code, the learned counsel submitted that the indictment did not state that the alleged libel was published without legal justification. He cited the case of the Queen vs. Cameron (2 C. C. 170), a Scottish case, in support of his contention. He claimed that "thereby subjecting him to public hatred, ridicule and contempt" was the gist of a criminal offense. In order to found a criminal action the indictment must allege in their demand and challenge the jurisdiction of the court. The offense, according to the tenor of this indictment, is the basis of an action. Mr. Hazen claimed that the case of the Queen vs. Cameron, relied upon by the defense was not at all applicable to this case and pointed to the court where the case of that case differed from the present. For these reasons the Attorney General contended that the motion must be disallowed.

His Honor—"I'll disallow the motion."

Mr. Ritchie—"May it please Your Lordship will you reserve a case upon that point?"

His Honor—"Certainly."

Attorney General Hazen—"May it please Your Honor I desire to make a motion which I should have made at an earlier moment, that the usual courtesy of the bar of this Province be extended my friend Mr. Ritchie, who is one of the most eminent members of the Nova Scotia bar."

His Honor—"It is not necessary to extend the courtesy of the bar to Mr. Ritchie. Yesterday when we learned that he was coming we were very pleased and took it for granted that Mr. Ritchie would be welcome."

Attorney General Hazen—"May it please your honor, I move that the prisoner be called upon to plead."

The jury were then empaneled. Mr. Sherren challenged J. Hunter White. The Attorney General was about to stand Mr. Campbell aside when Mr. Ritchie objected on the ground that in a libel case the crown in a case of this kind has no right to stand a juror aside.

Attorney General—"Oh, that is in a case of a private prosecution."

Mr. Ritchie—"Well, was it the complaint laid by a private person?"

Attorney General—"It was laid by Officer Lucas acting under instruction of the Attorney General."

His Honor after reading the law said that he agreed with Mr. Ritchie. He then asked the jury to retire and the demand and challenge the jurisdiction of the court.

Mr. Sherren challenged Simon A. Jones.

Mr. Ritchie challenged Charles D. Trueman.

By the consent of counsel for the crown and for the defense, Fred C. McNeil was stood aside.

Mr. Sherren challenged J. Robert Thorne.

The crown challenged Kendall Hall. Charles Bailey informed the court that he had an objection to the case. Mr. Sherren—"I challenge Mr. Bailey that he does not stand indifferent."

G. Wilford Campbell and Benjamin J. Dowling were sworn as jurors. Charles W. Bailey was sworn. Examined by Mr. Ritchie, Mr. Bailey said that he had expressed an opinion, but could do his duty according to his oath. He did not believe that he would be doing a duty to himself.

WILL LIGHT PORT ELGIN AND SHEDIAC

Sackville Electric Co. Almost Ready for New Business

Rev. Geo. Jackson Will Speak in Sackville—Dr. Jabez Rogers Accepts Call—Funeral of Abel Carter.

SACKVILLE, N. B., Sept. 9.—Before the snow flies the Sackville Electric Light Company will be supplying electric light in Port Elgin as well as here and in Shediac. Arrangements for the installation of the necessary plant at Port Elgin have been going on for some time and are now nearing completion. The placing of poles for street lighting and the work of wiring is about to be begun. This week or the first of next week will see the poles of the Sackville company being placed on the streets of Shediac. The temporary delay has been due to the fact that a Shediac company has also sought the installation of the necessary plant at Port Elgin and the two companies are now in a dispute as to the location of the poles. The company is about to begin the erection here of a new boiler house. The building will be of brick and stone.

Rev. George Jackson of Toronto, who is a notable controversy with Rev. Dr. Carman, will be in Sackville next week and will speak before the preachers' union.

Word has just been received of the death of Murray H. Croker recently in the Winnipeg hospital. He was a son of the late Captain Henry Croker and Mrs. Croker of West Sackville. He is survived by one brother and one sister who are living at West Sackville and he had been in the West but a few months.

At Belle Verie on Tuesday John Lancaster passed away after an illness of several months. The deceased was one of the oldest residents of the Belle Verie section of the county.

Rev. Dr. Jabez Rogers of Sussex has accepted an invitation to become the pastor of the Methodist church here in June next. His acceptance, of course, is subject to the approval of the New Brunswick and Prince Edward Island conference. Rev. C. W. Corri, Wolfville, has declined a call to the pastorate of the Baptist church at Middle Sackville and Middle.

The funeral of Abel Carter, who was killed on the I. C. R. on Tuesday, took place on Wednesday afternoon, and was one of the most largely attended in Sackville in years. Included in the funeral procession were the deceased's former employer, Enterprise Foundry, Rev. C. F. Wiggins officiated.

J. R. BRADLEY REFUSES TO EXPLAIN DISCREPANCIES

Says Statements are Getting Too Much Mixed Up—Peary Still at Battle Harbor—Sad News of Death of Members of His Party

POINT AMOUR, Labrador, Sept. 9.—The steamer Roosevelt with Commander Peary on board, is supposed to be still at Battle Harbor, Labrador. The weather here is fine.

ROME, Sept. 8.—Commander Cagni, who was with the Duke of the Abruzzi on his Polar expedition, said yesterday with reference to the respective claims of Cook and Peary, "That Peary would reach the Pole one day I never doubted, nor have I doubted the sincerity of the affirmations of Dr. Cook, but of Peary's I am more than convinced."

The doubts with regard to Dr. Cook, he continued, "are from the vagueness of his first statements, the misunderstandings regarding the Polar temperature, the position of the newly discovered land and his apparent lack of preparation for the expedition. In judging the two explorers the fact that geographical and astronomical observations have been taken from floating ice, the position of which alters daily, increases the difficulty. The observations remain, however, and if both have reached the Pole much divergence is impossible but final judgment cannot be handed down until we have exhaustively compared their diaries and reports of the results obtained by both travelers."

NEW YORK, Sept. 9.—John R. Bradley, who financed the Cook expedition party, declined yesterday to give any statement that would reconcile the conflicting statements made by him and by Dr. Cook in his lecture Tuesday night in Copenhagen as to the objects of the Cook expedition, saying that matters were becoming so mixed up that he would have nothing more to say in the controversy that had arisen. Mr. Bradley said in this city on Sunday that the plans of the start were carefully laid, then exhibited checks paid out for supplies to show, as he said, "we were doing something more that fitting out for a fishing trip."

Mr. Bradley further said that no one was told it was a Polar expedition on the ship until it reached Etah, Greenland.

Dr. Cook said in his lecture that "about the middle of 1897 when we started, the Pole was no part of the programme which aimed altogether at one of the oldest residents of the Belle Verie section of the county."

A small army of newspaper men sought to interview Mr. Bradley yesterday at his home, but he resolutely refused to see them, though he sent word that he would talk to the Associated Press over the telephone.

Speaking of the contradictory statements with reference to the purposes of the Cook expedition, Mr. Bradley said over the telephone, "I am not going to make any more statements. Things are getting mixed up and I don't care to see them. I am not going to say anything more and won't talk of Peary, if I have any statement to make later about this controversy that has developed I will make it through the Associated Press."

Mr. Bradley's attention was called to a report that his time would be so occupied this winter with Dr. Cook that he would not be able to go to Palm Beach, where he and his brother Edward Bradley, are commonly known as the proprietors of the Beach Club, a gambling resort.

"You will have to see my brother Edward about the Beach Club," said Mr. Bradley. "He knows all about that. I have no connection with the Beach Club and intend to go to Europe this winter."

The foregoing statement of Mr. Bradley surprised his friends, for his connection with the Beach Club, which is located near the Royal Palmetto Hotel at Palm Beach, has been generally accepted as a fact. For about a dozen years the Beach Club has been one of the features of Palm Beach. A restaurant supplies those patrons of the club who spend their time there and it is one of the only clubs in the country where gaming is regarded as a pastime by the patrons rather than one of money gain.

ELMHURST, N. Y., Sept. 8.—Realizing the grief that it would cause, Commander Peary went to such trouble to break as gently as possible the sad news of the death of Ross Marvin to this city, who accompanied him into the far north and who lost his life in the Polar regions.

Last night L. C. Bement of Ithaca, a member of the Peary relief expedition of 1901, received the following message from Battle Harbor:

"Break news of Marvin's death to his mother immediately before she sees it in the papers. Dr. Marvin died at forty-five miles north of Cape Columbia, while returning from a dog north latitude. Great loss to me and to the expedition. Every member sends deepest sympathy."

(Signed) "PEARY."

Through friends in this city the message was conveyed to Mr. Marvin's aged mother, who, it is believed, would not survive the great shock. Yesterday a movement was started to give Mr. Marvin a great welcome on his return from the north, and the members of the family only were yesterday planning a celebration in his home coming.

Ross Marvin was born Jan. 28, 1860, and was one of Elmira's most prominent and esteemed young men and had a brilliant future in prospect. He graduated from the High School and won a scholarship to Cornell University and worked his way through college, standing high in all his studies in the science course. He was first assistant to Peary and of special value to the expedition on account of his knowledge and was to have charge of the supporting party when Peary made his last dash to the Pole.

Mr. Marvin's death in such sad circumstances has caused great grief, and plans are under way for a large public memorial service instead of the welcome he was to receive.

LADIES' TOURNAMENT AT THE TENNIS COURTS

TODAY'S WINNERS AT SUSSEX EXHIBITION.

Says New Brunswick Could Become Famous for Its Ayreshire Cattle.

SUSSEX, N. B., Sept. 9.—Dr. Andrew E. Elliot, of Ontario, who has been acting as live stock judge at the exhibition here, delivered an address last evening on Pasture Lands. In the course of his remarks he referred to the exhibition of Ayreshire cattle as the best he had ever seen and said that if New Brunswick farmers paid sufficient attention to their development they could produce a breed that would be famous all over the continent.

Owing to the noise outside Dr. Elliot was forced to discontinue his remarks before he had given half of his address.

CHARGED WITH ROBBING BAGGAGE ON C. P. R.

Geo. Ross, of McAdam Jet, Arraigned at F'lon—Geo. Beach Also Accused of Stealing From Railway.

FREDERICTON, N. B., Sept. 9.—This morning arraigned before Police Magistrate Marsh charged with the theft of a quantity of jewelry valued at \$100. The charge is that Ross stole the jewelry while acting as a baggage handler of the C. P. R. at McAdam Junction. Ross was arrested last evening by Detective Killen of St. John and brought to this city.

George Beach, also charged with misappropriation of property belonging to the C. P. R. at the Fredericton station, was arraigned at the same time. Cyrus Inches of St. John appeared for the C. P. R. while Mr. Percy Guthrie, of the firm of Crockett & Guthrie, represented Mr. Beach. Mr. Ross was unrepresented. The proceedings were very short. The counsel stated to the court that they were not prepared at present to go on with the hearing, and the magistrate remanded both men until Monday morning next. There was a large attendance at the court this morning. There was no request made for bail.

Roman Catholics in the city will observe tomorrow as a day of fasting and intercession for God's blessing upon the deliberations of the Plenary Council, which convenes in Quebec next week. The assiduous will be the leading Canadian Catholic convener for a number of years. His Lordship Bishop Casey informed The Star this morning that he would leave on Wednesday evening next for Quebec. He will be accompanied by his theologian, Rev. W. F. Chapman, V. G., and Rev. Dr. O'Reilly.

The condition of Rev. Charles Condon remained unchanged this morning.

AMUSEMENTS

A GREAT SHOW AT H. H. H. "I'd give ten cents any time to see either one of these pictures, they're the best I've ever seen." A gentleman who was present at the H. H. H. last evening came to the box office and made the above remark. The pictures he referred to were The Better Way, a brand new Biogram picture drama of Puritan days. The other was The Jill, which is shown as an extra reel, and repeated at the request of hundreds of others who missed it last evening. The story revolves around the question, "Was a woman the right to lift a man's hand as an extra reel." It's the strongest drama yet presented by the Biogram Co. Barred Making in France is a decidedly interesting and instructive picture, and it's marvellous to see how they are made with no tools except a saw, hammer and hatchet. The First and Last Experience of a Lady Juggler kept the crowd in raptures, and is the best comedy shown here for some time. Marie Gerard, the dainty little dancer, is receiving great applause at each show.

SECRETARY OF ARCTIC CLUB TO MEET PEARY

H. S. Bridgman Passed Through the City Last Night—Mrs. Peary Coming Also.

On his way to Sydney, where he will welcome Commander Robert E. Peary on his return from the Arctic region, Herbert L. Bridgman, secretary of the Peary Arctic Club, of New York, passed through the city last evening. He declared that the achievement of the intrepid American was a marvellous one, but did not judge much credit in Dr. Cook's story. Peary would have sufficient scientific data to prove his claim.

Mr. Bridgman has engaged a suite of rooms at the Sydney Hotel for the use of Mrs. Peary and children. The explorers' wife will come through St. John this evening to meet her husband at Sydney.

During his brief stay in the city Mr. Bridgman had a chat with local newspaper men. He declared that he could take steps to place Peary's steamer, Roosevelt, in the great naval parade in connection with the Hudson celebration during the latter part of this month. As a matter of history, the

CALL OF THE COLLEGES BEING ANSWERED WELL, AND ATTENDANCES ARE RECORDS

When lectures are resumed at the University of New Brunswick on Monday morning, Oct. 4th, the college will have within her gates a freshman class of something more than usual size. Dr. C. G. Jones, chancellor of the University, speaking to the Sun yesterday, estimated the number of incoming students at forty-five. These, he thought, would be about equally divided into those taking the engineering and the Arts courses. Engineering would draw the larger number of the young men, but the number of lady students in the Arts classes would about preserve the numerical balance.

Which classes will not commence until Oct. 4th, the college is scheduled to open on Sept. 30th. These first days will, however, be devoted to the taking of matriculation examinations by the new students and of supplementary examinations from those of last year's students who were not altogether successful. There will not be many of these, however, for most of the new students come in on the Normal School matriculation examinations written in July.

Appointment has just been made of an instructor in French and German to fill the place of Prof. Geoghegan, who is absent from his chair upon a year's leave of absence. The new man is Axel J. Upsall, an A.M. of Harvard University. Mr. Upsall has spent two years in France and Germany since his graduation, acquiring a well-rounded knowledge of the languages he will teach, and has also had two years of experience in teaching in the United States. He comes to the U. N. B. highly recommended both by his instructors at Harvard and in Europe and by the president of the academy in which he has been instructed.

When the students return they will face one other new instructor in the person of Frank E. Day, who assumes the chair of English Language and Literature. Mr. Day is now in Yarmouth, N. S. He will reach Fredericton on the 16th of September. After graduating from Mount Allison University in 1903, Mr. Day taught for two years at Acadia Villa School before returning for a post graduate course in 1905. He then became the appointee of Mount Allison's first Rhodes scholarship, while at Oxford he specialized in English and did not complete his course there until the present year, having received permission to spend an intervening year in Germany.

While at Oxford Prof. Day was prominent in athletic as well as in academic pursuits. He rowed with the four-oared crew of his college, and represented Oxford in the heavy-weight rowing at Henley, where the meat was fought. He defeated his man.

A well-appointed new lecture room has been fitted up in the college building for the classes in English. In the basement a modern lavatory has been placed during the summer vacation.

This year's graduating class at the U. N. B. will be one of the largest. It is expected that the college will send out a number eight in advance of last year, and the number is expected to reach forty before the close of the camp.

ACADIA SEMINARY.

Acadia Seminary opened Wednesday, Sept. 8th, with a larger attendance than in any previous year. Over one hundred pupils are expected, and by the middle of the month the building will be taxed to its utmost capacity. Every room will be occupied. Young ladies come from New York, Maine, Massachusetts, Quebec, Saskatchewan, and from all parts of the province, a large sprinkling coming from New Brunswick, nine of which are from St. John and vicinity. These are the Misses Marion Estabrooks, Gertrude Phillips, Cookin, Mabel ELLIOTT, Fredman, Hamm, Harding, Hutchinson and Vanvar.

The teachers in the collegiate department are the same as last year. Miss Wells is vice-president, with Miss Jackson, Miss Bishop, Mrs. Grant, Miss Andrews, Miss Richardson, Miss Goodspeed.

Mr. Ringwald will again be the musical director, Miss Foulson, who is the instructor in violin, has returned, after spending the summer in Christiania, Norway.

Miss Mabel Davis is to be the new teacher in Latin, taking Miss Benson's place. Miss Daisy Arnold is taking Miss Ring's place as assistant in voice. Miss Hamilton will have charge of the physical culture. The graduate nurse for the coming year will be Miss Sprout, a skilled telegrapher.

Owing to the untiring efforts of Dr. DeWolfe this promise to be the most prosperous year in the history of Acadia Seminary.

HORTON COLLEGE ACADEMY.

Horton Collegiate Academy at Wolfville opens with good attendance, the prospect being bright in the history of the institution. Nearly all last year's middle class are back. A large number of the students are from New Brunswick, Fredericton alone furnishing five.

Many improvements have been made in the Academy Home, which is greatly enlarged, doubling the accommodations. The classrooms are enlarged and re-seated.

The faculty is the same as last year, and is succeeded by W. H. Moise, a man with wide experience and good record in the Nova Scotia schools.

KEPT ALIVE BY EATING THEIR COMPANIONS

A Horrible Tale of Suffering From the China Sea—Men Were Lost in Small Boat

VANCOUVER, B. C., Sept. 8.—The Empress of Japan brings a tale of horrible suffering from the China Sea. A Chinese junk picked up a dugout with three men in the last stages of exhaustion and two bodies half eaten. The men, who were taken into Shanghai were found to speak a language which no one could understand. They were evidently natives of some Pacific Island and must have drifted for hundreds of miles. Their recovery is doubtful.

TWENTY-ONE CASES OF TYPHOID NOW

Twenty-one cases of typhoid fever have been reported to the Board of Health and the inspectors are making their rounds to find if any more persons have contracted the disease, while the number is quite large, the situation is not considered alarming. The present season is very dry and germs are floating about. Extra precautions will be taken by the Board of Health to prevent the spread of the disease. In houses where the fever is prevalent a careful examination will be made of the plumbing in hopes of finding the cause of the typhoid. In homes where there are two or more cases the inspectors have been ordered to rigidly analyze the milk.

There were proofs made yesterday of the tuberculosis literature which will be circulated about the city. Drs. Pratt and Daniel, the committee in charge of the benefits hope to have them ready for distribution in a short space of time.

WEDDINGS

RESLER-BARBITT.

Cards have been received here announcing the wedding of Newport, Oregon, of Edwin De Vere Resler and Mrs. Mary Bowden-Barbitt. Mrs. Barbitt is the daughter of William Bowden, 74 Sydney street, and she will be remembered here for her musical ability. She has been a resident for some time of the West. Her home will be at Corvallis, Oregon, where Prof. Resler is located as a member of the staff of the state agricultural college.

CRAWFORD-TILLEY.

A quiet wedding was solemnized at Jacksonville on Wednesday afternoon when Miss Anna Tilley, eldest daughter of Mr. and Mrs. Chapman Tilley was united in marriage to Charles Crawford, a prosperous farmer of Debec. Rev. E. Turner was the officiating clergyman. The house was prettily decorated with sweet peas and potted plants for the occasion. The bride was becomingly attired in a dress of white muslin de soie. After the ceremony luncheon was served and the happy couple left on the evening train for their future home in Debec. Miss Tilley was tendered a linen shower on Monday evening by her many young friends with whom she was very popular.

PALMER-HEACON.

A pretty wedding was solemnized at 6:30 yesterday morning at the home of Alex. McDermott, corner of Main and Adelaide streets, when Rev. Neil MacLachlan united in marriage Daniel Palmer, of Scotchtown, Queens County, and Jennie Heacon, daughter of Mr. and Mrs. Arthur Bowen, of Gazette. The young couple were united and only a few intimate friends were present at the ceremony. The bride was dressed in a suit of grey, and wore a hat of straw. After the knot was tied, a wedding breakfast was served and Mr. and Mrs. Palmer left on the steamer May Queen for Douglasdale, where they will spend a short vacation before taking up their residence in Scotchtown.

MICHAEL J. KELLY INSTANTLY KILLED BY FALLING INTO THE HOLD OF STEAMER ORTHIA

Shortly before midnight last evening, Michael J. Kelly, of 72 Broad street, while alighting coal from hatch No. 4 of the steamer Orthia of the Dominion Line was hurled from the staging and thrown down the hatch, a distance of about forty feet, meeting instantaneous death. Mr. Kelly was one of the night crew. The Orthia was lying at the Pelling wharf. About 11:05 o'clock a load of six heavy bags of coal, which is the usual amount used on the Orthia, was being hoisted on the left hand side of the staging, with his back towards the steamer. The hoisting winch and the one pulling aft were both operating, and the sling reached Kelly and then Sharkey, the latter being working on the right of the staging, taking the loads from the sling, as was Kelly. They proceeded to untie the load and lower it to the truck. Kelly still kept his back turned to the steamer. While Kelly was holding the sling back to the hatch, he slipped and revolved backward, falling into the hold. Kelly was in an awkward position, and rolling remained for him to do but cling to the sling. Sharkey being on the other side was able to let go. The sling swung to the hatch with terrific force and struck against the side, throwing the unfortunate man down the tunnel. He struck on his head, with a heavy bag of coal on top of him. He gasped and died. John Murphy, who was working down the hold, picked him up, and was horrified to find that he was extinct. He and James Leclair then put the body in the sling and hoisted it up and carried it to the office.

Mrs. A. P. Emery, Thos. Lunney and D. E. Berryman were hastily summoned, but medical aid was useless. Emery examined the body and stated that death was probably due to a concussion of the brain and to a fracture of the skull.

Messrs. C. G. Langlois and Sheridan were on the winch at the time of the accident. James Moore was the foreman. In all likelihood an inquiry into the accident will be held.

The unfortunate man's wife was informed of the accident, and on learning of the sad news was prostrated with grief. Mr. Kelly leaves, besides his wife, one adopted daughter. He was between fifty and sixty years of age. His fellow workmen spoke very highly of him, and stated that he was a general favorite.

After the accident, the workmen knocked off work for the night.

LIBERALS PLAN BIG CONVENTION

ONTARIO, Ont., Sept. 8.—The holding of a great Liberal convention for the purpose of laying down the platform was unanimously decided upon at the annual meeting of the General Reform Association of Ontario in Temple Building.

The date of the convention was fixed for June, 1910. It was a truly representative of Ontario Liberals, which attended. H. H. Mowat, K. C., president of the association occupied the chair. In his opening address the president briefly reviewed the work of the past year.

The appointment of two new Cabinet Ministers, Hon. Chas. Murphy, as Secretary of State, and Hon. W. L. Mackenzie King, as Minister of Labor, had been ungrudgingly approved.

Mr. of Vancouver, B. C. were united in marriage this afternoon at 3:30 o'clock at the residence of the bride's parents, the Rev. H. G. Kennedy of the United Baptist Church officiating. The bride looked charming in a dress of white china silk crepe with train and embroidered with caryatidum. She carried a shower bouquet and had as bridesmaids Miss Lou Wilson of Toronto and her sister, Miss Aurilia Boyer. The groom was supported by Clarence Sprague. Among the many handsome presents the bride received was a cut glass carafe, one dozen tumblers and a plateau from her young friends. The guests included only a few of the immediate relatives and friends of the family. The happy couple left on the evening express for their future home in Vancouver. En route they will visit Toronto and Niagara and will go to the lake route from Owen Sound to Fort William.

The Liberal press and people. Hon. A. G. Mackay briefly supported the President's suggestion for the convention.

H. H. Dewar made it clear that the advisory committee would not in any way assume to frame the platform, but merely to carry out the detail work of arrangement of meetings of associations and collect all possible information relative to wishes of various bodies to be represented.

Hon. Chas. T. Murphy, K. C., secretary of state, expressed regret that the Conservative press published day after day columns of misrepresentation and even falsehoods. One particular case of this kind was Hodgins' falsehoods of the Tory press. On these matters continued day after day, and the Liberal press had but little to say on the subject, although material for refuting misrepresentation of Tory press was very easily obtainable. Even when charges collapsed the Liberal press were almost silent on the case. He then proceeded to point out the error which he claimed the Globe had committed in attacking his department for leasing Dominion Hacking Association charter. He explained that in his opinion the department had no option but to issue that charter. He urged that Liberal papers should at any rate inquire from departments regarding any matter about which it was desired to criticize. He complained that much good news of value to the country and to the party was overlooked. The papers at Ottawa did not collect that news and did not seem to realize that when parliament was not in session there were many important news items to be had which were not looked after by press representatives.

Continuing Mr. Murphy strongly criticized the Globe's attitude on various questions of public interest.

FOUND A WAY

To Be Clear of the Coffee Troubles.

"Husband and myself both had the coffee habit and finally my stomach and kidneys got in such a bad condition that he was compelled to give up a good position that he had held for years. He was too sick to work. His skin was yellow, and I hardly think there was an organ in his body that was not affected."

"I told him I felt sure his sickness was due to coffee and after some discussion he decided to give it up."

"It was a struggle, because of the powerful habit. One day he heard about Postum and concluded to try it and then it was easy to leave off coffee."

"His fearful headaches grew so frequent, his complexion began to clear, kidneys grew better until at last he was a new man altogether, as a result of leaving off coffee and taking up Postum. Then I began to drink it too."

"Although I was never as bad off as my husband, I was always very nervous and never at any time very strongly weighed 85 lbs. before I began to use Postum. Now I weigh 115 lbs. and can do as much work as anyone my size I think."

Many do not use Postum because they have not taken the trouble to make it right. I have successfully fooled a great many persons who have drunk it at my table. They would remark, 'You must buy a high grade of coffee.' One young man who clerked in a grocery store was very enthusiastic about my 'coffee.' When I told him what it was, he said, 'Why I sold Postum for four years but I had no idea it was like this. Think I'd drink Postum hereafter!'

LANDOR'S PLANS TO REACH SOUTH POLE

Will Use Airship Constructed on Zeppelin Lines
Shackleton to Try Again—'An Going to Find That Pole,' He Declares to Correspondent.

LONDON, Sept. 10.—Mr. Henry Savile Landor, as recently announced in the Herald, proposes to try to reach the South Pole by an airship. His expedition is to be an Anglo-American one, supported by wealthy Americans and Englishmen and distinguished scientific bodies with which Mr. Landor is connected.

Speaking of his plans to a Herald correspondent, Mr. Landor said: "I am now at work on the plans for my airship. I have had a model constructed with which I will be making trials inside of a week or two. My airship will be of the rigid type, somewhat on Zeppelin lines, but smaller. There will be several compartments to the balloon for safety's sake, and the whole will be capped by a very light aluminum nose to protect it from wind pressure."

"My plan is to establish a general base wherever I land my ship—probably near the excellent base selected by Lieutenant Shackleton. I will commence my operations from here and purpose to do all the travelling possible by means of my airship. I will first of all establish a sub-base on the route to the pole about fifty miles from my base and leave there a good store of provisions and supplies. For fifty miles further on I will establish another, and so I will go on until my expedition is within striking distance of the pole. I anticipate that the whole expedition will not take over seven months."

SHACKLETON DOUBTFUL
Lieutenant Shackleton, who is in London at the present time, was asked his opinion regarding Mr. Landor's project. "I don't think any airship expedition is at all practicable," he said. "I have proved it to be true, and others have proved it to be true, that the South Pole is fully ten thousand feet above the sea level. I cannot imagine the balloon that would successfully navigate such an atmosphere. Besides, when you reach the pole from the north, the pole is situated you have at least 75 degrees of frost all the year round."

"Furthermore, there is a constant blizzard blowing from the South at the rate of forty to sixty miles an hour. These moderate slightly after November, but it is up till March 1, but they are always of such a nature as to be quite unmanageable for an airship of any design yet invented. The earliest navigable season for reaching the base is in early December. Next year, I adopted in March, so if Mr. Landor wishes to dash in and out in a few months he must do the whole thing in less than three months. I consider it quite impossible."

"I believe a successful South Pole expedition would require at least a year and three months to complete the work. There is little use in going if the explorer does not allow himself time for a reasonable amount of scientific work to be done, without which the expedition is practically worthless. Raising my conclusions on my own expeditions, it will take at least four months to reach the pole from the base which I set out from, and I believe he base to be the best obtainable."

"I never met Mr. Savage Landor, and know nothing of his plans or motives. I concur with his criticism that an expedition was too cumbersome on a Polar trip. Actually I had only four men on the dash to reach the pole. The economical cost of my expedition was indorsed by the British Government the other day, when it

SAVED FROM AN OPERATION
By Lydia E. Pinkham's Vegetable Compound

Bellefleur, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctor said I must submit to an operation. I was so discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—Mrs. EMMA CHATEL, Valleyfield, Bellefleur, Quebec.

DR. COOK'S ESKIMOS SAY HE NEVER WENT NORTH BUT STAYED NEAR LAND

Cook Reaffirms His Discovery and Says He Has Full Proof—He Will Send a Ship to Greenland to Bring His Eskimos Home to Corroborate Him.

COPENHAGEN, Sept. 8.—Dr. Thomas S. Cook, of Washington, N. J., who was surgeon of the Peary expedition of 1898-1902, promptly came to the support of Dr. Cook today. He said: "The charge (referring to Peary's statement of today) may lessen Dr. Cook's standing in the popular estimation, but it does not affect the fact that the Eskimo world will be affected only by scientific discrepancies. Dr. Cook will undoubtedly have scientific records and observations without the Eskimo proof. If Eskimo proof is needed, there are enough admirers of fair play in the world to send impartial interpreters to the Eskimos."

Analyzing the Eskimo character, Dr. Dedrick is inclined to think them untrustworthy. He said that the Eskimos would not agree for scientific sakes and because of immediate benefit. "Suppose Cook next year went up and distributed presents as ships do and asked if his rival had gotten out of sight of land and they said 'no.' What manner would it make the public? Other impartial parties may yet be sent from the whalers which arrive at Dundee in all may also know what the Eskimos say."

With the Pearett at Battle Harbor tonight, Commander Peary should reach the coast, easily by tomorrow. "I can put details of his expedition in a few lines," he said. "The progress of his ship from Indian Harbor southeast has been extremely erratic. First delayed at Indian Harbor by rough weather, and hampered in addition by lack of fuel. The Roosevelt has literally crawled home, and news of her progress has been meagre and at times unreliable."

Aside from the message received by the Associated Press today from Commander Peary and the one received by

ing that Commander Peary had denounced him as an impostor. His memoir has not changed in the slightest from the day he landed at Copenhagen. "The progress of the controversy of his alleged taking of Peary's stores, Dr. Cook asserts that he has written and had satisfactory evidence that Peary took his stores, perhaps believing him dead."

"Harry Whitney is personally acquainted with all the facts and perhaps what he has to say when he returns may be interesting," added the explorer.

"Then Dr. Cook remarked quizzically: 'Make as little as you can of this and don't say anything disagreeable about Peary.'"

SIX HUNDRED MORE START FOR THE WEST

Woman, Drunk, With Infant in Arms, Sees Besotted Husband Board the Train

BETWEEN 600 and 700 harvesters left last evening for the wheat fields by a special C.P.R. train which pulled out of the depot at nine o'clock. A special from Nova Scotia arrived with the main body of the excursionists at 8.15 o'clock and the others who were picked up here.

For the most part, the excursionists entertained without any disorder, but one regrettable incident occurred. Among the men starting on the trip was an Englishman who has been resident in Charlottetown for some time. He was being sent away by four women and by his wife who carried a ten weeks' old baby in her arms.

The man was supplied with liquor, and he and the five women were very visibly under its influence before the train got away. His wife was in a helpless state of intoxication, and had to be carried to the waiting room and afterward sent to her home in a coach.

As she reeled about the station with her tiny infant in her arms, she attracted a great deal of commiserative comment. The man himself was to drink to realize the situation.

DR. PARKE DENIES THE SCANDAL CHARGE
He Has Taken Action Against Montreal Herald for \$25,000

QUEBEC, Sept. 8.—Reports have appeared in several newspapers within the last few days regarding an alleged scandal in this city, the name of Dr. George Parke, a prominent local physician being mentioned in connection with the affair. An action for a heavy amount of damages was taken against the doctor by the husband of the lady whose name was mixed up with the affair, but Dr. Parke denies the charge. He has instructed his attorney to contest the action against the Montreal Herald, which was the first paper to report the affair.

SENIEWSZ TO STAND ANOTHER TRIAL
Before Judge Carleton in the county court at Andover, yesterday, the jury disagreed in the case of Samuel Seniewsz, the Jew charged with the theft of \$200, the property of the Bank of Montreal. Standing three to nine in the interests of an agreement were hopeless. The defendant was represented by W. P. Jones of Woodstock, and E. J. Carter appeared in the interests of the crown upon the announcement of the disagreement, on behalf of the prisoner. Mr. Jones applied for bail Judge Carleton allowed Seniewsz out on \$500 bail.

TICKET AGENT UNDER ARREST

FREDERICTON, Sept. 8.—This evening, shortly after six o'clock, George Beach, ticket seller at the station, was arrested by the chief of police, John B. Hawthorne, on a warrant issued on information laid by the railway inspectors charging him with irregularities in the department. The arrest had been expected for some time past.

About a week ago between eight and nine hundred dollars was found to be missing and Mr. Beach, gave to the chief of police the envelope containing the money had been taken off his desk.

"Two C. P. R. detectives immediately came and have closely worked on the case with the result that Mr. Beach was tonight arrested on suspicion and taken before Magistrate Marsh. He

was remanded until tomorrow morning when the preliminary examination will be begun. Mr. Beach has been a popular official. He received a salary of forty dollars per month, so it is stated, in the morning until late in the evening. The C. P. R. people refuse to give any information as to what ground on which their suspicion is based, except to say that the accounts in his books are not regular, and his arrest is the result of detective work during the past week.

In an interview with the chief of police this evening that Beach indicated that he would give a clear account of everything that has taken place and give a statement of everything in connection with the business.

CANADIAN NEWS TOLD IN BRIEF PARAGRAPHS

TORONTO, Sept. 9.—The annual convention of Knights of St. John and Malta was brought to a close today. Considerable business of importance was done during the convention, which was the most largely attended one ever held in this city.

TORONTO, Sept. 9.—At the Canadian Embalmers' Association convention, in session here, Dr. Sheard gave a most interesting and instructive address on the shipping of corpses infected with contagious disease. Dr. Sheard contended that with proper disinfectants embalmers should be permitted to ship all bodies, infected or otherwise.

TORONTO, Sept. 9.—A delegation from the Municipal Association for the Betterment of Communities waited upon Premier Whitney this morning. They have made previous appeals for effect and while nothing definite is known, it is believed the delegation will be favorably received.

TORONTO, Sept. 9.—Turnstiles at the exhibition grounds were kept busy all day yesterday, and the attendance thus far is showing a marked increase over last year. Ideal weather has helped to swell the attendance, and everything points to a most successful fair.

TORONTO, Sept. 9.—At a meeting held yesterday afternoon of the Canadian Independent Telephone Association, officers for the ensuing year were elected. The reports of the various departments show the company to be in a most flourishing condition. Next year's programme for expansion will be an elaborate one and the newly elected officers will immediately undertake its carrying out.

DEDRICK INCLINED TO GIVE COOK BENEFIT OF DOUBT

Was With Peary on Trip of 1898-1902 and From Knowledge of Esquimaux Character Puts Little Faith in Stories Told to Peary.

NEW YORK, Sept. 8.—Dr. Thomas S. Dedrick of Washington, N. J., who was surgeon of the Peary expedition of 1898-1902, promptly came to the support of Dr. Cook today. He said: "The charge (referring to Peary's statement of today) may lessen Dr. Cook's standing in the popular estimation, but it does not affect the fact that the Eskimo world will be affected only by scientific discrepancies. Dr. Cook will undoubtedly have scientific records and observations without the Eskimo proof. If Eskimo proof is needed, there are enough admirers of fair play in the world to send impartial interpreters to the Eskimos."

Analyzing the Eskimo character, Dr. Dedrick is inclined to think them untrustworthy. He said that the Eskimos would not agree for scientific sakes and because of immediate benefit. "Suppose Cook next year went up and distributed presents as ships do and asked if his rival had gotten out of sight of land and they said 'no.' What manner would it make the public? Other impartial parties may yet be sent from the whalers which arrive at Dundee in all may also know what the Eskimos say."

With the Pearett at Battle Harbor tonight, Commander Peary should reach the coast, easily by tomorrow. "I can put details of his expedition in a few lines," he said. "The progress of his ship from Indian Harbor southeast has been extremely erratic. First delayed at Indian Harbor by rough weather, and hampered in addition by lack of fuel. The Roosevelt has literally crawled home, and news of her progress has been meagre and at times unreliable."

Aside from the message received by the Associated Press today from Commander Peary and the one received by

ing that Commander Peary had denounced him as an impostor. His memoir has not changed in the slightest from the day he landed at Copenhagen. "The progress of the controversy of his alleged taking of Peary's stores, Dr. Cook asserts that he has written and had satisfactory evidence that Peary took his stores, perhaps believing him dead."

"Harry Whitney is personally acquainted with all the facts and perhaps what he has to say when he returns may be interesting," added the explorer.

"Then Dr. Cook remarked quizzically: 'Make as little as you can of this and don't say anything disagreeable about Peary.'"

EDMONTON, Sept. 8.—The fur storehouse of Hissop & Nagle, of Athabasca Landing, was broken into and furs were stolen to the value of between \$10,000 and \$15,000. This is almost an unprecedented occurrence. It being usual, as in this case, to leave goods unprotected for days in northern territory. While it is not definitely known when the robbery occurred, it is unlikely the thieves will be able to dispose of the furs unnoticed, as the rivers, which are the highways of the country, are being watched.

TORONTO, Sept. 8.—Life imprisonment and lashes is the possible penalty that faces Henry Howarth, aged twenty-five years, lately out from England, who, in the police court this morning, admitted offenses in relation to Ethel Manning, a pretty thirteen year old girl from Paris, Ont., who had run away from home to be with him.

MONTREAL, Sept. 8.—Hon. Henry B. Emerson, former Minister of Railways, who is in the city is still rather sceptical regarding the success of the way but it is in the meantime suspending judgment. At the time of the appointment of the Board of Management he expressed doubts that the change would result in any benefit to the finances of the road. Asked regarding how the change was working he said: "It is not much of a change you know, it is merely substituting four-headed management for one-headed management. The road is now managed by four men instead of one and each man has one-fourth of the power of manager. That is all." Regarding the reductions in the staff Mr. Emerson said that it was a question whether it was economy. He did not think that the intercolonial was overmanned.

Leading Interests in Crown Reserve Mining Company Secure Control of the Silver Leaf Property.

It has been stated that the Crown Reserve Mining Company has taken over the Silver Leaf Mining Company, but this is not correct. The control of the Silver Leaf has passed into the hands of some of the gentlemen who have been prominently associated with the Crown Reserve Company.

The directors are J. T. R. Laurendeau, Major J. G. Ross, C. E. Potter, of Toronto.

The six first named in the above list are the executive members of the Silver Leaf property. Col. Carson states that the property will be vigorously and systematically worked, and he hopes to see a successful issue.

The sensational announcement today was a surprise, the parties behind the negotiations being pledged to secrecy, so that shareholders would not be unduly excited.

The executive office will be brought to Montreal in a very short time. The report of a Toronto paper that the Carson interests would pay 25 cents a share for Silver Leaf stock is not credited here.

Subject is Much Discussed—Listing of Issues on Canadian Exchanges Advised

The highly important announcement comes from London that, at the next annual meeting of the Grand Trunk Railway, a subject that will engage the attention of the directors will be the formation of a Canadian advisory board.

It has been recently impressed upon the London directors that there is no attempt to transplant the financial control of the railway from London to Canada, but the advisability of having a board, probably in Montreal, is being strongly urged, and signs point in the

DECIDE TO RETURN

PITTSBURG, Pa., Sept. 8.—By practically a unanimous vote today, the strikers of the Pressed Steel Car Company's plant at Schoenville, decided to return to work at the plant and accept the concessions granted them by the company.

Many of the men have resumed work at the plant and others will return as soon as their positions can be given to them.

Joy reigns tonight in Schoenville and many stones which have been closed since the beginning of the strike eight weeks ago, have opened.

Nine men were killed and eight were injured and a monetary loss of hundreds of thousands of dollars resulted from the trouble.

DOCTOR ARRESTED

DETROIT, Mich., Sept. 8.—Dr. George A. Frith, a well known practitioner of this city, was placed under arrest tonight at police headquarters on suspicion in connection with the death of Miss Maybelle Millman, of Ann Arbor.

ONE OF THE ADVANTAGES OF GRAPE-NUTS FOOD IS THAT

it is pre-digested in the process of manufacture. The starch contained in the wheat and barley is transformed into grape-sugar by exactly the same method as this process is carried on in the human body, that is, by the use of moisture and long exposure to moderate warmth. This grows the diastase in the grains, then long baking completes the remarkable change from starch to grape-sugar.

Therefore the most delicate stomach can handle Grape-Nuts and the food is quickly absorbed into the blood and tissue—certain parts of it going directly to build and nourish the brain and nerve centres.

"There's a Reason"

T. H. Eselbrooks be allowed \$200 towards building a retaining wall on his property on Burges Avenue upon his signing the release in the usual way. It was decided to pay George A. Clarke, city hall janitor, \$60 a month instead of \$50.

The matter of tearing down the Charlotte Thompson property on Ludlow street, which is in a dangerous condition, was referred to the recorder, and that he take immediate action in the matter.

The report of the Water and Sewerage Board was then taken up. The first section was that relative to the rate of the water supply to the International Railway, which was discussed at some length and subsequently adopted. The section was to the effect that the rate be reduced from one cent per 100 gallons for any quantity over 25,000 gallons instead of two cents.

It was decided that an assistant city engineer be appointed. The request of R. G. Murray that water extension be made to the Marsh Road at an expense of \$400 was referred back to the board.

The order of business was suspended to allow Ald. Baxter to give notice of a motion to issue debentures in the sum of \$100 to defray the expense of laying a water main in Milford, in the Parish of Lunenburg.

Ald. Baxter moved that the Treasury Board be authorized to issue a small grant to the widow of the late Hurd Peters.—Carried.

All communications were referred to the respective boards and committees. The meeting was then adjourned.

CHATHAM STRIKERS WILL TAKE LEGAL ACTION

To Secure Back Wages From the Miramichi Pulp Mill—Their Situation is Serious.

CHATHAM, N. B., Sept. 8.—The workmen of the Miramichi Pulp and Paper Mill who went on strike two weeks ago for wages due them, have retained T. W. Butler, of Newcastle, to look after their interests and will seek to get their money under the Workmen's Lien Act. The total amount due is now about \$7,000, as it is stated that about \$4,000 has been paid in various sums during the past fortnight.

The situation is serious as many workmen are destitute of money and their credit at the grocery is exhausted. Manager Spaulding stated today that just as soon as possible he would get the mill running again.

THE FALL STYLES

show no radical departures from those of last season as far as cut is concerned, though many minor details of lapel, collar, pocket and points of finish will distinctly mark the NEW suits from the old.

And in designs and delicate shadings of fabrics there are changes of note, the Green and Brown effects being among the most effective and desirable.

If you have not already become posted on these points through observation of our new TWENTIETH CENTURY LINE, we suggest that you call at your early convenience.

It is a pleasure to show such suits of sterling worth - and our customers tell us it is a pleasure to wear them, \$16 to \$26. Others, made especially for Gilmour's, \$19 to \$29.

Fall Overcoats, too, for those who appreciate real worth, \$12 to \$27.00.

LOCAL NEWS

British mails ex S. S. Adriatic via New York are due in St. John tonight.

One lone Norwegian drunk was before the court this morning. He pleaded guilty and was fined four dollars.

The police were called to Chapel street last night to quell a disturbance.

A dangerous hole is reported in the bridge street sidewalk near C. B. Pidgeon's store.

The catch basin on the corner of Mill and Main streets is reported in a dangerous condition.

James Daley, the popular barber, has joined the staff in McKinnon's parlors at the Dufferin Hotel.

Greatest bargains ever offered in Boys' suits at \$1.98, \$2.48 and \$2.98 for the best \$3.50 to \$4.50 values.

Fercy Moore has been reported by the police with fighting on the Marsh Bridge.

The police report a dangerous hole in Mecklenburg street. Yesterday one of R. T. Worden's horses stepped into it and had both knees skinned.

Bon fires in honor of weddings last night were extinguished on Wright street, North End, and Winslow street, West End. Some persons who were afraid of damage being done by the Carlton blaze pulled the hook in Box 24 and called out the fire department.

The turbot Admiral, owned by D. D. Glaser & Sons arrived at Indian town this morning with a raft of logs from Mitchell's boom, for the local mills.

Baseball fans will be given an opportunity on Saturday afternoon to witness two struggles for the championship of that branch of sport in New Brunswick. Manager Donald of the Marathons has made arrangements with Moncton to play two games here on the Victoria grounds commencing at 2.30. At the conclusion of the first game new pitchers will be put in the box for the teams and the second game started.

Mr. Donald stated that it was through the courtesy of Edward Mahoney, of St. Peter's, that the regular game was postponed enabling the Marathons to play Moncton.

The Marathons will be strengthened by the addition of E. Mahoney in short stop and Small at centre field, which with their own line up presents a formidable aggregation.

Among Moncton's players will be Gallagher, Trites, Crockett and other men who are playing left edge ball, and the games will not only prove good exhibitions of the genuine article.

Should there be a split in the game a deciding one will be played in Moncton at a later date.

DOG SEEMS TO HAVE GRUDGE AGAINST COPS

Has Attacked Two of Them as Well as Several Other Persons—Police Now Seek Its Life.

A man named Melanson, who resides on the Strait Shore, is the owner of a very troublesome dog and the attention of the police has been called to the matter.

On Tuesday the dog sunk its teeth into L. V. Belyea's leg on Mill street. This morning it tackled Policeman Clark on Mill street and tore a knee out of the officer's trousers.

A dog, thought to be Melanson's animal, took a bite at Police Sergeant Kipatrick this morning.

The police tried to capture the dog this morning and were unsuccessful. The dog follows a hawker's team and will undoubtedly have to be destroyed.

MRS. BENSON TAKEN TO PROVINCIAL HOSPITAL

Woman Who Spent Several Days Wandering in the Woods Has Shown No Signs of Improvement

William Benson, of Bellisle Creek, brought his wife to the city this morning and had her taken to the Provincial Hospital upon the advice of his physician.

Mrs. Benson who is a woman of 37 years left the home of her mother with whom she was staying about two weeks ago and for several days wandered about the woods. She returned to her home and has been acting strangely ever since her trying experience.

Mr. Benson feels keenly the necessity of separating her mother from his three children but acting upon medical advice he took this sad and errand to the city this morning. He left at noon for his home.

Coroner D. E. Herryman has decided that he will hold an inquiry into the death of Michael Kelly, who was killed last night on the Donaldson Liner. This jury will probably be sworn in this evening.
