## CONFLAGRATION AVERTED

Newcastle's Excellent Water Service and Fire Brigade do Good Work.

### SERIOUS NIGHT FIRE

Was Well Under way When Discovered. H. Wyse's Warehouse Destroyed

An alarm of fire was sounded between two and three o'clock Friday morning for a serious blaze in the warehouse and bakery of Mr. Wyse's, Castle street. The fire is supposed to have originated in the bakery and that building was all aflame and the large warehouse to the rear was burning briskly when the alarm was sounded. The firemen were promptly on the scene and soon four powerful streams were playing on the blaze.

The stock in the grocery store and furniture in the residence up stairs were removed. This building was on fire several times and the rear end was damaged by fire and water but after a desperate fight the fire was confined to the outbuildings. The buildings adjacent were badly scorched. It was at one time thought impossible to save the block, and the firemen with the volunteers who assisted are to be congratulated on the manner in which the fire was handled.

After an hour and a half of hard work the fire was under control. The loss was confined to the bakery and outbuildings with stock therein, in all about \$800 on which there was no insurance.

The stock and furniture in the store and dwelling was injured by water and removal. This was covered by insurance.

Newcastle narrowly escaped a serious conflagration and it is admitted that but for the fine water service and efficient and prompt fire brigade this fire could not have been checked and thousands of dollars would have gone up in smoke.

The pump at the power house was put in operation but it was found that there was too much pressure on the mains and the engineer was asked to slow down as the men at the nozzle could not handle it. After the fire the reservoir was within two feet of being full.

## ANOTHER OUTBREAK

Two More Cases of Smallpox Were Reported in Chatham Saturday.

Two new cases were reported to the Chatham Board of Health on Saturday. These were discovered in a house owned by a McFarlane and the victims were promptly sent to the Insolation hospital. It was confidently hoped by all that the epidemic was over and that the disease had been stamped out.

### OBITUARY.

MR. PHILIP O'DONELL.

The many friends of Philip O'Donnell, were shocked to hear of his death which occurred at his home in Barnaby River on Thursday June 1st. He was in his 21st year and was much liked by all who knew him. The funeral took place Saturday morning in St. Mary's cemetery where Rev. Father Campbell, celebrated requiem high mass. The family have the sympathy of the whole community in their sad bereavement.

## NOT READY FOR PEACE.

Russia Will Still Continue War, so Says the Czar.

St. Petersburg, June 4.—12.35 a. m.—In the course of an interview between the Associated Press and one of the emperor's most influential ministers the minister said that the emperor had not yet changed his position with regard to the prosecution of the war. Dealing with the question of submitting the question of peace or war to a national assembly he said it was impracticable.

## JUNE WEDDINGS

JONES—WARREN.

A very pretty wedding took place at the home of Mr. and Mrs. Wm. Corbett, Jr. last Wednesday evening when Mr. S. Montgomery Jones and Miss Lucy Warren were married. The ceremony was performed by the Rev. Henry Arnott.

The bride and groom were unattended. The bride looked charming in a gown of pearl grey ladies' cloth, hat of white chiffon, and allover lace trimmed with ribbon and apple blossoms.

After the service which was witnessed by only the relatives and intimate friends of the contracting parties, the guests partook of a sumptuous wedding supper.

PAULIN—GODIN.

A very interesting and fashionable wedding took place at St. Mary's R. C. Church yesterday morning at nine o'clock when two of Newcastle's most popular young people, Miss Gertrude Godin and Mr. Joseph D. Paulin were united in the bonds of matrimony.

The bride looked charming in a gown of white brocade albetta with yoke of spangled tulle and trimmings of point lace, and wore a veil of silk tulle with orange blossoms. She was attended by her Sodality sister, Miss Bertha Copp, who wore a gown of white silk with yac trimmings while James P. Whalen did the honors of the groom.

As the bridal party entered the church the organ pealed Mendelssohn's wedding march. The bride carried a bouquet of white roses and lilies of the valley; the bridesmaid carrying one of pale pink carnations and maidenhair fern.

The marriage ceremony was performed by Rev. P. W. Dixon, after which the usual nuptial mass was celebrated while the Choir, headed by Miss Helen Black, sang sweet airs.

The ceremony over, the party drove to the residence of the groom where breakfast was in waiting, and a sumptuous repast taken, after which they returned to the Hotel Miramichi where a special dinner was served, and preparation made for their departure.

The bride's travelling costume consisted of a Golden Brown Taffata silk and Russian blouse, with trimmings of yac lace and cream satin, the belt fastened with a handsome sterling silver pin of the Canadian Coat of Arms, the gift of the groom.

The happy couple left by the Ocean Limited amid a shower of rice and slippers, with the best wishes of their many friends, on their wedding tour to Quebec and Montreal where they will visit one of the bride's sisters, Rev. Sister Leber of the Convent of Congregations Notre Dame.

The bride was the recipient of many beautiful tokens of esteem from numerous friends.

A greaser on the Nor. S. S. Heros was nearly killed Thursday night at the Horse-shoe, when the steamer was waiting for tide and tug to go to sea. Men were hoisting ashes and dumping them overboard, it was dredged up later on, and the iron bucket fell a distance of twenty-five feet and struck the man in the head. When the St. Andrew went alongside to take the steamer out she was sent up with the injured man, who is now in the marine hospital. He regained consciousness on the way up. His head was badly cut and blood flowed freely.—World.

A number of clergymen attended the meeting of the Rural Deanery of Chatham on Tuesday and Wednesday. Tuesday evening in St. Mary's instructive address was delivered by Rev. W. J. Wilkins and Rev. W. J. Bate. A meeting of the Sunday School Teacher's Association was held in St. Mary's school room. Addressed by Rev. W. J. Bate, followed by a discussion. Mr. Bate was welcomed to membership, and regret was expressed at the approaching departure of Rev. George Freeburn. Tuesday afternoon was spent in the study of a chapter of the Holy Scriptures in the original Greek. Wednesday evening the sermon was preached by Rev. T. H. Cuthbert. The clergy met in chapter at the rectory during the day, when an instructive paper was read by Rev. W. J. Wilkins. The usual devotional services were held. Thursday, Ascension Day, the rector preached on the subject of the festival.

## NOT AS BAD AS REPORTED.

Drives on Northwest and Little Southwest are not Hung up for Good.

### WILL REACH BOOM.

This is the Opinion of Lumbermen Here—Water Very Low but Drives Still Moving.

The following Fredericton despatch to the St. John Globe is to use a local lumberman's expression "away off".

Fredericton, N. B., June 5.—Reports from the Miramichi during the past few days make a very gloomy aspect in the lumber trade for the season after what was expected earlier in the year. On the South west Miramichi the drives are all out. Messrs. Lynch and Welsh have got the corporation drives, amounting to about 14,000,000 feet, down as far as Blackville, but on the Northwest it is different. There has not been a stick of new lumber got into the booms on the Northwest Miramichi this year, and it is not all likely that there will be any got in there. The drives are all hung up, and the nearest new lumber is said to be about thirty miles from the booms. The amounts that the different operations have hung up are: Ritchie, 12,000,000; Lynch, 3,000,000; Hutchison, 4,000,000; Sinclair, 6,000,000; Burchill, 2,000,000; Sullivan, 2,000,000; other operators, jobbers, 1,000,000; total, 30,000,000.

While it is admitted that considerable lumber will not reach the boom this year it is the general impression that there will not be over five millions hung up for the season. Some of the drives which are abandoned for the present will come with the summer rains as they are practically in safe water, and only a slight rise is necessary to float them to the boom.

Some logs are reaching the Northwest boom and more are expected to come in this week.

Why Fredericton know it all correspondents spread their reports in reference to the situation here is beyond our comprehension, unless it is to injure the trade in this locality.

## DOAKTOWN MAN LED CLASS.

H. C. Mersereau Awarded the Gold Medal for Graduates in Medicine.

Montreal, June 5.—It was announced at McGill tonight that H. C. Mersereau, of Doaktown, N. B., won the gold medal of the graduating class in medicine.

R. B. Bennett, well known on the Miramichi is doing active work in the Election campaign in London Ontario. The following is from a press despatch.—The latest word from London and Woodstock does not please those liberals who read between the lines. Grit stumps admit that R. B. Bennett's speeches are winning votes against Hyman. Referring to this young New Brunswick orator's speech at Woodstock, the Toronto News of Saturday says: "Bennett made a grand plea for the common school, in which to develop out of the diverse nations and types pouring into the west a clean, honest, united, patriotic type of Canadian citizen, as the United States had done by their common schools. This sentiment was cheered again and again by the audiences." But the report gives no idea of the magnificent character of the address and of the meeting. Mr. Bennett has introduced Ontario people to a new style of oratory. It is ambitious, ornate and excessively rapid, and this young man, thoroughly in earnest, pours out a rushing, impassioned flood of eloquence in defense of the rights of his enthusiasm and his determination, and cheer him to the echo.

All flesh is grass, remarked the man with the quotation habit.

I suppose, rejoined the cheerful idiot, that is why death is sometimes called the grim reaper.

### HEART PALPATION AT NIGHT

Rattles even the strongest man but to the average woman it is a taste of general purgatory. Take a little Nervine in sweetened water and away goes the palpitation. You'll be saved lots of worry by keeping Nervine on hand, which is a treasure for all sorts of pains and aches. Nervine cures headache, stomach and bowel troubles quickly. Costs 25c for a large bottle.

A. F. Beattie, of the Alton Hotel Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to his:

**THE SYMPTOMS:**

- Nervousness
- Palpitation
- Trembling
- Dizziness
- Stinking Feeling
- Heart Pains
- Short Breath
- Weakness

Mr. Beattie says:

"I was weak and miserable. I was subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great restorative."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for \$2.50, at all dealers in Medicine, or Paxon & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

"How did you know I was here?" asked the pretty girl.

"I heard you singing," replied the gallant young man.

"Hear me singing?"

"Yes, and I don't think I ever heard such a beautiful voice."

"Gracious!"

The song was so sweet and sentimental.

"But that was not a song."

"Not a song?"

"No, it was our college yell."

**GRAPHIC DESCRIPTION OF SEA FIGHT**

**Japanese Outclassed Russians in Gunnery and Manoeuvring.**

London, June 1.—In describing the naval battle, a correspondent of the Daily Telegraph with the Japanese fleet says: "An infernal concentration of fire reached its zenith at 2 o'clock in the afternoon. As the Russians advanced in the direction of Vladivostok, a Japanese squadron was lying between them and their destination, and the doomed Russians were battered on all sides. Between three and five o'clock in the afternoon, a cruiser of the Admiral Nakhimoff class and the repair ship Kantschatska foundered after their works had been shattered. The Russians broke in utter disorder, lost their formation and went zig-zag. The Japanese closed in and pressed them towards the Nagoto coast."

The fight the correspondent says lasted until 7 o'clock in the evening. The correspondent continues: Togo risked nothing and lost nothing. Darkness brought a glorious night, with smooth and transparent seas. The Russians were edging northward with the powerful Japanese fleet in a horizontal line across their bows, forming an effective barrier. Then, under searchlights and the cover of the big guns of the warships, the Japanese torpedo flotilla began, like locusts, to sting and sink the enemy, the Russians, continuing to return the gun fire. At two o'clock in the morning, the fighting was fierce and intense, and no rest was allowed the Russians. With dawn of Sunday, the Japanese fleet came into still closer range. All day long the battle continued, and by evening was raging off northern Nagoto. The Russians were powerless to offer any effective resistance.

Tokio, June 1, 7 p. m.—The navy department made the following announcement today:

"Later reports from the different divisions of the fleet engaged in the naval battle of May 27 show as follows:

The Russian battleship Orel was heavily damaged in the early part of the fight on Saturday, going down at 3 o'clock in the afternoon. The first Russian vessel sunk was the battleship Sissoi Veliky. The armored cruisers Admiral Nakhimoff and Vladimir Monomach, after being in the general engagement during the daytime, were still further damaged by torpedoes during attacks by night and were eventually completely disabled. They drifted into the vicinity of Tsu Islands, where they were discovered on Sunday morning, May 28, but the auxiliary cruisers Shilano, Yawata, Tainan and Sada, which were about to capture them, but they all sank.

The crews of our auxiliary cruisers rescued 915 of the crews of the sunken Russian ships.

The battleship Navarin was torpedoed four times after sundown on Saturday, May 27, and sank. The survivors of the Navarin's crew confirm the story of her destruction.

The cruisers Nilitaka and Otawa discovered the Russian cruiser Svetlana at nine o'clock on Sunday morning in the vicinity of Chappyan Bay, and immediately attacked and sank her. The commander of the Nilitaka reported the fact.

It is suspected that the Russian cruiser Almaz and Aurora were sunk by torpedoes on the night of May 27.

The former report includes the statement that the Russian cruiser Jemtechug was sunk, but it remains unconfirmed, and the cruisers name has been excluded from the revised list of the Russian vessels destroyed.

Judging from this and former reports, the enemy's main strength,

consisting of eight battleships, armored cruisers and three coast defence ships are destroyed or captured. With the second class cruisers and other vessels destroyed, the enemy's fighting power is annihilated.

Later reports show that during the night of May 27, our torpedo boats, numbered thirty-four, thirty five and sixty five were sunk by the enemy. Comrades rescued the majority of their crews. Besides the above there was no damage worth reporting. No warship nor destroyer suffered any loss of fighting or navigating power.

We anticipated a heavy loss of life, but find that our casualties were comparatively slight. They do not exceed eight hundred killed and wounded.

The casualty reports will be rendered as speedily as possible. Nearly the whole strength of both combatants met in battle, and the area of the fighting was very wide.

The first day proved foggy, and even without the smoke and fumes resulting from the battle, it was impossible to see five miles. Consequently during the day it was impossible to locate or observe all the ships under my command. Moreover, the fighting having lasted two days, and the ships being scattered for the purpose of chasing and attacking the enemy, some having received orders after the battle, it is impossible to collect and present any detailed report covering the whole battle at this time.

**THE STAND FOR PEACE.**

Washington, June 1.—Russia will know officially how ready this government is to assist her in commencing peace negotiations with Japan at the earliest possible moment if Count Cassini, the Russian ambassador, carries out his intention of seeing the president tomorrow. For two days the ambassador has planned calling at the White House and would have asked for an appointment this afternoon but for the fact that the president was engaged in opening the Lewis and Clark exposition. The ambassador said tonight that he hoped to make an appointment tomorrow.

The whole situation was thoroughly discussed in an informal way by Count Cassini with his friend, the German ambassador, who dined at the Russian embassy tonight after having had a conference with the president early in the day. Indicative of the importance of the two conferences of the German ambassador was the statement of the Russian ambassador late tonight that he hoped to see the president within the next 24 hours.

Meanwhile it can be stated on the best authority that the Washington government is bidding its time, believing that Russia must be given time fully to realize the crushing character of her defeat.

Tokio, June 2, 1:30 p. m.—The reported sinking of the Russian cruiser Jemtechug in the recent naval battle has been confirmed. New York, June 2.—A St. Petersburg despatch to the Times, from its correspondent there says: Details communicated to me from a trustworthy source leave little room for doubt that Admiral Nebogotoff's sailors mutinied during the battle in the Japan Sea and either threw the admiral and many officers overboard, or, according to another version, bound them in their cabins and hoisted the white flag. I am assured that eight men in Nebogotoff's squadron were ironed for mutiny while still in the Red Sea. Many people well versed in the affairs at the front declare that something similar is likely to happen in Manchuria when the armies learn the truth in regard to the naval disaster. They will doubtless learn the truth as usual from the Japanese.

**You Owe it to Your Mother**

To do your best to keep her youthful in appearance, as well as in spirit, by taking pains with her dress and the little accessories and details of her toilet.

Not to shock or pain her by making fun of her religious prejudices if they happen to be at variance with yours, or if they seem narrow to your advanced views.

To introduce all your young friends to her and to enlist her sympathies in youthful projects, hopes and plans so that she may carry her own youth into old age.

To talk to her about your work, your studies, your friends, your amusements, the books you read, the places you visit, for everything that concerns you is of interest to her.

If she is no longer able to take her accustomed part in the household duties, not to let her feel that she is superannated or has lost any of her importance as the central factor of the family.

To remember that her life is monotonous compared with yours and to take her to some suitable place of amusement, or for a little trip to the country, or to the city, if your home is in the country as frequently as possible.

The girl who endeavours to pay back what she owes her mother is the one who will be most sought after by the people who are worth while, and be apt to make the most successful life.

"But my dear sir," protested the banker, "I don't see how you can spare the time to go to the baseball game. You don't know what is going on in your office while you are away."

"Oh, yes, I do," chuckled the old broker with the grandstand ticket.

"The office boy is smoking cigarettes and the book-keeper is making love to the typewriter."

**INTERESTING LETTER**

**WRITTEN BY A NOTABLE WOMAN!**  
Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, of 1028 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.:  
Dear Mrs. Pinkham: For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and read of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, but to my great surprise I found that I kept gaining, while the tumor lessened in size. The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound.

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unequalled endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Health is too valuable to risk in experiments with unknown and untried remedies or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

SPRING CLEANING

Is considered a necessity by every one, and they fail to eradicate from their blood the accumulated impurities, whose presence is often shown by listlessness and loss of energy and by the occurrence of canker and pimples. If these impurities are left in the body it is in a suitable condition to fall prey to tuberculosis and other diseases. For this purpose thousands of people take 2 bottles of

GATES LIFE OF MAN BITTERS

and 1 of Gates' Invigorating Syrup every spring. These increase the activities of the organs which remove wastes from the blood, and then the system is fortified to withstand the summer exertions. Sold everywhere at 50 cents a bottle by

SUNDAY SCHOOL CONVENTION.

Report of Annual Convention Held at Newcastle Recently.

The Eighteenth Annual Convention of Northumberland S. School Workers opened in the Methodist church Newcastle on Friday May 19th 1905, at 2.30 p. m. In the absence of the President Rev. A. F. Bentley, the Provincial Field Secretary, Rev. J. B. Ganong, was called to the chair. After a few initial remarks, Mr. Ganong, introduced Prof. Bowser, of New York, who would lead the singing during the sessions. A short devotional service was followed by an address by the Field Sec'y Central thought All the efforts of the S. S. Workers are in vain without the power of Holy Spirit upon him in his efforts to teach and train the young.

The following committees were the appointed:—

Nominating Mr. T. A. Clarke Rev. H. Arnott Miss L. Morrison

Credential Mrs. James Anderson Miss L. Morrison

Resolutions Rev. H. Johnston Rev. I. Gregg

SECOND SESSION

The evening session, which was well attended, opened with a spirited song service led by Prof. Bowser who also gave a pleasing solo. Minutes of final session of last County Convention read and approved.

Remarks by Field Sec'y and announcements for following session.

Rev. Mr. Ganong, then presented Rev. Dr. Bachman, of Washville Tennessee, gave a lengthy but most interesting address showing clearly the work of the Home, the S. S. and the church. Some of his leading thoughts were:—

1 The Home and S. School are more powerful agencies in the salvation of the individual even than the pulpit.

2 We must study well the child's environment. A plant neglected will have neither the appearance nor the fruit of one unceasingly cared for. So neglect in a child's spiritual education for any period of its life mars that life. Most parents study more carefully the companions of their daughters than their sons.

3 Teaching is telling and also showing. It is better to show a child how it should live than merely train by precept.

4 Be careful in the selection of songs taught and the pictures shown, little children. The seed sown in the heart in earliest years bears most certain fruit.

After remarks by chairman, this helpful session closed with prayer by Rev. Mr. Arnott.

THIRD SESSION

This session opened with the usual song service following by devotional exercises. Minutes of preceding sessions received, and a slight amendment, adopted.

County Sec'y's report was then read. The Convention decided to defer discussion of this report until the afternoon.

Dr. Bachman, took the rest of session in the study of the International Lesson for the following Sunday. With the audience as his class, and illustrating important points on the blackboard he gave much help not only on that particular passage, but applicable to the lessons taught from Sabbath to Sabbath.

FOURTH SESSION

After the usual opening exercises, Rev. Mr. Ganong, explained the I. B. R. A. plan and advised the introduction of this manner of Bible study for all the schools. He also made a strong plea for a large circulation of the S. S. Advocate, as a channel of communication between the Prov. Exec. and the individual S. S. Workers.

Minutes of morning session read and approved.

The Secretary then read her statistical report, and also the Treasurer's report. These were both adopted.

In the absence of the President, his report was read and showed his deep interest in the work of the County.

Several sections from the Sec'y's written report were then discussed one by one. These referred to suggestions by the Field Sec'y given at the March Exec. and then more fully discussed in the County Convention.

1 That our County pledge it-

self only for the amount to be raised by the schools. All direct personal subscriptions to be sent to the Prov. Treasurer as a different fund.

That there be a uniform method and time for collecting. Also that each school collect only within the bounds of its own congregation."

Decided by Convention that North'd Co. adopt this uniform method of collecting and that the offerings be asked for in April in towns and villages with the month of September be the set time for winter closing schools. (As however, the collecting this spring has only been partial, slips will be sent immediately to the schools not having received them.)

2 That the amount of Pledge for Prov. Work be decided upon at the Co. Convention, thus giving the representative delegates the support of the County."

Decided that for this year we pledge the amount of \$75.00.

Sec. 3. That the Tour plan of Parish Conventions be adopted, and that at our County Convention we adopt this plan and the perfect arrangements."

This plan was well discussed and clearly explained by the Field Sec'y. A motion in favor of September as the Tour month was carried. This Tour party to be the Field Sec'y with a staff of assistants.

Sec. 4. Recommended that we consider the adoption of a model Constitution for each County."

A motion in favor of the adoption of a model Constitution was carried, but as the Constitution under consideration had been delayed in transport, the matter was left over for the present.

Sec. 5. "Suggested that on Sept. 1st, a house-to-house visitation be carried on in the County. This suggestion was heartily received by the Convention, as a means of materially increasing the interest in the Sabbath Schools, but the matter was for the present left in the hands of local workers

The following are the officers for the ensuing year:

13 Scholars. 50 Average attendance. 1 Provincial officer. 2 International officers.

Dr. Bachman then conducted a Round Table organized on S. S. work which was most interesting and helpful. This was followed by several delightful primary songs by Prof. Bowser.

The Resolutions Committee then moved that votes of thanks be tendered to (1) Pastors and Trustees of the Methodist Church for the use of the said Church. (2) To the people if the town for entertaining the Convention. (3) To the Decoration Comm. who added to the interest by the display of so many beautiful plants. (4) To the boys who acted as pages. These resolutions were received.

Further recommended. That a vote of thanks be tendered to Miss Crocker for her efficient services as organist. To Dr. Bachman and Prof. Bowser for their kindly and valuable assistance.

Convention closed with singing "Seal us, O Holy Spirit."

Although the Business closed on Saturday, perhaps the best part of the Convention for the delegates was found in the two mass meetings in St. James' Church on Sunday. In the afternoon the children gathered from all the schools in the town and were taught by Prof. Bowser and Dr. Bachman. The singing was especially delightful. In the evening Dr. Bachman gave a splendid address on S. S. work to the united congregations of the town.

Two distressing cases of eczema lastingly cured by Dr. Chase's Ointment.

Miss C. STANLEY-JONES, professional masseuse and nurse, 283 Simcoe Street, Toronto, Ont., writes: "In my occupation as a nurse I have come across many cases in which Dr. Chase's Ointment has been used with extraordinary results. One case I recall was that of a child of sixteen months who was in a very bad way with scaly head. It was a really nasty case, causing the child to suffer very much and to be very troublesome. I persuaded the mother to use Dr. Chase's Ointment, and in ten days the child was entirely cured. "Another case was that of a lady who was greatly distressed with eczema of the face. The doctor was doing her with medicine, which was doing no good. In this case cure was effected in seven days with only one box of Dr. Chase's Ointment. Both of these cases were lasting."

The control which Dr. Chase's Ointment exerts over eczema and all itching skin diseases is a wonder to all who have tested it. 50 cts. a box, at all dealers, or Edmanston, Bates & Co., Toronto.

Hundreds of London dockers swarm over them like egg-laden ants, while enormous cranes rattle their swinging chains over them and the scrapers get to work on the cracked and faded paint of their sloping sides.

A BUSY SCENE. There is no idleness in the docks. The brown-faced men who have brought these steel monsters across the seas are smoking luxurious pipes at home, dancing children on their knees, taking their wives to music hall and theatre, and not a doubt of it, spinning yarn under the wonderful world down under; but here in docks are shabby, pale-faced, thick armed Londoners, running to and fro with packages on their bowed shoulders, sweating to empty the vessels that lie there; here too, are engine drivers, steering their teams from dock to dock, and carriers driving away with unloads of merchandise—everywhere Londoners waiting on these huge ships. The sailors are like gentlemen who have driven their equipage to the stable and let these groomers of the docks to clean up ready for their next excursion.

You get some idea of London's trade by moving through the tall warehouses of the docks. Consider a few figures. Thirty-six thousand tons of tea are stored here in a single year. In the quays, with their twenty-eight miles of gangway, can be stored 100,000 pipes of wine. Two hundred and fifty thousand tons of wool, worth £20,000,000, arrive annually at the port of London. Twenty thousand tons of tobacco are here in bond, valued at \$9,000,000.

## The Union Advocate,

ESTABLISHED 1867.

NEWCASTLE, JUNE 7, 1905.

An account of Mr. Loggie's late return to Ottawa nothing further has been decided as to when the delegation appointed to go to Ottawa will leave to attend to their duties. Much valuable time has been lost and something ought to be done this week.

## LIMITED RESOURCES.

The University of New Brunswick from lack of funds, is forced from time to time to part with efficient members of its faculty, who cannot afford to remain in positions in which the remuneration, comparatively speaking is a mere pittance.

In the past two decades principally for this reason, the institution has lost such eminent men as Dr. H. S. Bridges, Prof. Fletcher, Prof. Duff, Prof. Murray, Prof. Stockley, Prof. Dixon, Prof. Jack and others, who are occupying positions in which the emolument is greater than they received here.

The lack of financial resources at the University is to be greatly deplored. Not only has the Senate to cut things very fine with its present staff, but it is also prevented from enlarging the scope and usefulness of the institution, whose financial resources are no greater now than they were a quarter of a century ago.

If the University had the money there would probably be chairs of chemistry, agriculture and forestry established, but it is no use thinking about such extensions until the money is in sight.

Where is it to come from is the important question.—Fredericton Herald.

## CANADIAN-AMERICAN FLOUR IN GERMANY.

The drawback system by which the Minneapolis millers are enabled to import Canadian wheat for export practically free of duty has brought the United States into the zone of fire of the Canadian-German tariff war. Germany imposes prohibitory duties on Canadian wheat and flour, and she objects to receiving American flour ground from Canadian wheat. It is intimated that in the treaty of commerce which she hopes to negotiate with the United States she will try to incorporate a provision requiring all American flour to be accompanied by a certificate of origin. This, of course, is on the assumption, by no means a certainty, that Germany and America succeed in keeping out of a tariff war of their own.—Ex.

## FOR PEACE

The President on Friday struck a blow for peace in the Far East. In a conference at the White House with Count Cassini, the Russian ambassador, the President presented the earnest hope that Russia would forthwith conclude peace with Japan. Prolongation of the war, he believes will not result in victory for the Russian arms and can only serve to increase Japan's demands and render more difficult the drafting of a treaty of peace which the Tsar as well as the Mikado can sign. Until his words have reached Tsakoe-Salo and have been communicated to Emperor Nicholas in the friendly spirit in which they were uttered, their effect cannot be estimated.

## HAS THE DAY OF ONTARIO FLOUR GONE BY?

The changes that come about in the trade conditions of a country are no more remarkable than the changes in the taste of consumers for different varieties of food. Time was, and not so very long ago either, says the North Sydney, C. B. Herald, when the total supplies of flour used in this country came from Ontario, whereas today the trade is largely in Manitoba hard wheat flours, such as "Royal Household" and others. In the mining sections, particularly where loaf bread is in very large consumption, such flours as "Royal Household" are now almost nine tenths of the trade, and before long many merchants predict the same will be true of the country districts as well. A representative of the Herald, in conversation with John McCormick, of Sydney Mines, learned that sales of hard wheat flour, such as "Royal Household," are nearly ninety per cent. of his flour business. Mr. McCormick said the most particular people about bread quality are the coal miners, and that they are quite ready to pay the slightly higher price of such a flour as Royal Household in order that they may have the best bread they can get. There is no doubt that much better loaf bread can be made from hard wheat than from soft wheat flours, and not only is the quality better but there are more loaves of bread to the barrel, so that while the first cost is greater the actual cost as compared with the old-fashioned soft wheat flours is easily less. It will be interesting to watch the further change towards such a flour as Royal Household throughout the country districts of this country, in fact all the counties of the Island of Cape Breton.

## Why a Circus Draws Crowds.

By this time almost every person living in this city and throughout the adjacent territory for many miles knows that the great Sells & Downes Show will exhibit in NEWCASTLE, THURSDAY, JUNE 8th.

The Sells & Downes Show is a circus, and an up-to-date circus. Every detail connected with its presentation of a lengthy but novel program is carefully executed with an eye single to the satisfaction of the circus patrons. With it may be seen twenty-five clowns, who are ably assisted by clown pigs, clown dogs, clown monkeys, and clown donkeys. From the entrance of the "Rube" clown when it doors open, to the farewell salute by the graceful prince of fools during the races, the little folks are sure of wholesome amusement.

While the Sells & Downes Show has usual drawing power of a circus, it also possesses unusual magnetism in the way of securing patronage, because of its unusual popularity. The old time and regular circus goes always notice something new and refreshing about the Sells & Downes Circus. New and novel features which are far above the ordinary predominate in the Sells & Downes program, while it is very noticeable that the so-called "old" or ordinary acts have been carefully elevated and improved, so much so that even what have been considered common and worn out acts have been raised to a plane of merit and attractiveness almost as high as that of the feature of features. The result is inevitably the same in all cities, the patrons of the Great Sells & Downes Show are agreeably surprised and delighted. Nobody complains of seeing "the same old thing" when leaving the tents. The "same old thing" is never with the Great Sells & Downes Show.

**Not the Landlord's Fault.**  
A traveling man found a hair in his order of honey at a Muscotah hotel and complained to the landlord about it. "I can't help it," the landlord replied. "I bought it for combed honey."

"Did Jones have appendicitis?"  
"The doctors disagreed. Some thought he had money and some thought he hadn't."

## LADY PREACHER.

Novel Experiment in the Faith Carried Out at Leicester.

The first woman to become a fully qualified minister of an English church held her first services at Leicester on the 23rd September with a success which may lead other congregations to follow this interesting example.

Miss Gerud von Petzold, who has undertaken the duties of the ministry of the Unitarian Free Christian Church at Narborough road, Leicester, officiated at the morning and evening services as the appointed preacher. She had previously given three trial sermons, and the congregation were unanimous in inviting her to take the place of the Rev. W. Whitaker, who recently resigned.

Pale, but composed, the young lady faced the large congregations, and conducted the services in an earnest, impressive and graceful manner.

She possesses a pleasing and well modulated voice. The sermons were read, but the delivery was good. Learning with clasped hands on the desk on which her manuscript was placed, she kept her eyes mainly fixed on the congregation. She has a German accent, not strongly marked.

The quaint articulation of some of the words was rather attractive than otherwise.

Her language was simple enough to be understood even by the children. At the morning service she preached from the text: "But if thou shalt seek the Lord thy God thou shalt find him, if thou search after him with all thy heart and thy soul."

"Look at the world around you," she said. "Look at the men and women selling their souls for pleasure, for money, ever ready to take advantage of one another, to make the best of a worldly bargain, in their spare moments giving themselves up to their passions, degrading themselves body and soul."

The lessons of the Bible learned in childhood should, she urged, be carried into the lives of men and women.

Her addresses were followed with close attention, and leading members of the congregation afterwards expressed approval of the manner in which the services had been conducted.

Miss Petzold was born twenty-eight years ago in West Prussia, and has been in England about six years. She soon obtained a complete mastery of the language, and graduated M.A. at Edinburgh University in 1900.

Afterwards she underwent a three years' course of ministerial studies at Manchester College, Oxford, which is connected with the Unitarian body.

## USE OF PERSONAL PRONOUN

Why the Uncultivated Appear Always to Be Talking of Self.

All the uncultivated appear almost always to be talking about themselves, but it is easy for a superficial observer to exaggerate the extent to which this is the case. For instance, if you discuss with an uneducated man a question of morals or the wisdom or rectitude of any particular line of conduct, he will tell you what he thinks right or what he thinks wrong or what strikes him as wise or foolish, with very little use of the personal pronoun. He can see the situation from the outside. But if you discuss it with an uneducated man he is incapable of this detached attitude of mind. The uneducated man can only picture the circumstances to himself by picturing himself in the midst of them. What he thinks right and wise is, no doubt, often a great deal better and wiser than what he would actually have done. "Such and such a thing was wrong; I should not have done it," he says, or: "Such and such was foolish. Now, had it been me, I should have done so and so." To the sophisticated listener he gives an impression of appalling self-righteousness and even perhaps of hypocrisy, but the impression is a mistaken one. He argues in the vocative case, because it is the one in which he can most easily express himself.

Some people, it must be admitted, attract confidences from those who have no weakness for making them. We are not alluding to those persons who by a method of deft cross-questioning manage to abstract information with which they have no business. Such information is not considered by its original owner, but stolen from him, or at least wormed out of him. The people we mean here that in their face and bearing which makes all the world at home with them, whoever meets them may know that they are incapable of giving a snub or a rebuff to any one who claims their sympathy, be he never so silly. They are all about the world unarmed and unarmed, and to give human nature its due, unphobic. Unconsciously, it is they who make the first confidence, telling those who see them, even for the first time, that they are sympathetic and obliged, and as shrewd as they are harmless.—London Standard.

**Women Should Walk More.**  
Doctors who have closely studied the matter unhesitatingly assert that walking is the best exercise a woman can engage in for the development of her physical charms. The woman who is in the habit of taking a car ride every time she wishes to travel a few hundred yards is the one who has a bad complexion and complains of growing stout. She will tell you that her spine troubles her and that her feet are rheumatic; that she cannot walk—positively must not do so. If you are among the number, take a walk every day, give up the car habit unless you have some real riding to do or time is an object and every day walk a little farther. An excellent thing is exercise, and if you do not find walking agreeable with you, then take to the gymnasium. After you have tried all the indoor physical exercises try the open air ones.

### 200 PERISHED IN GREAT FLOOD

Storm Caused Reservoir in Natal to Overflow, Causing Many Deaths.

Durban, Natal, June 2.—A great storm which has swept over Pinetown, the centre of the tea and sugar plantation of Natal, caused the reservoir to overflow, causing the death of 200 persons. The storm resulted in numerous casualties elsewhere.

### HUNDREDS KILLED AND WOUNDED BY EARTHQUAKE.

Ceja, Montenegro, June 2.—Later details of the earthquake from Scutari, Albania, show that 100 persons were killed and 250 injured, and that the town has been completely devastated. It is feared that the list of casualties will be considerably increased.

### SETTLING THE NORTHWEST.

Big Rush of Settlers in May, and the Rush Still on.

An idea of how rapidly the Northwest is being filled up through the energetic and systematic immigration policy of the Dominion government may be found in the homestead returns for the past month, when there was an increase of nearly 1,000 entries over May, 1904.

There were 3,925 homestead entries for the past month against 2,953 for the same month last year or an increase of 97.2. At Regina there were 1,080, an increase of 268; at Battleford, 566, an increase of 250; Yorkton, 659, an increase of 182; Red Deer, 353, an increase of 218; Edmonton, 329, an increase of 29; Prince Albert, 231, an increase of 64; Lethbridge, 217, a decrease of 10; Calgary, 192, a decrease of 48; Alameda, 160, an increase of 50; Winnipeg, 54, a decrease of 10; Brandon, 12, a decrease of 21; Dauphin, 33, a decrease of 13; Minnedosa, 19, an increase of 7.

### FIRE AT BUCTOUCHE.

Two Hotels and Several Stores Destroyed Yesterday Morning.

Buctouche, June 6.—Another blaze occurred at Buctouche, in which seven buildings were burned. At 1.30 o'clock this morning fire broke out in the store occupied by John Sayre. His loss will be a heavy one as he carried little or no insurance. Those burned out are: John Sayre, general store; John L. Cormier, Hotel and barn; J. P. Gogan, confectionery store; M. L. D. Cormier, Hotel and barn just completed.

G. S. Richard, general store. Fortunately it was a calm morning, otherwise nearly the whole business part of the town would have been swept away. Mr. Sayre would carry probably \$3,000 or \$4,000 worth of stock. Mr. Richard also had a large stock. The total loss in stock and buildings would be \$20,000 or more.

### DAINTINESS.

The Quality That Develops the Greatest Charm in Woman.

If any woman in the world were allowed three wishes she would nine chances to one demand beauty, wealth and cleverness. In this order are the good things of life valued by a woman. She would rather have a pretty face than anything else in the world. Next to that she wants the money wherewith to dress up to that pretty face, and, finally, for no reason in particular, she would like a little brains thrown in, just enough to make her clever at repartee and able to say nice things when they are needed and able to understand learned things when they are said.

Yet no amount of money in the world, no beautiful face, no cleverness, can make up for a lack of daintiness. Daintiness is the quality which in a man's eyes distinguishes a woman from the other sex and from all others of her own sex. It is the quality which gives her charm of manner, of voice and of appearance.

The most beautiful face in the world is not attractive to a man if it is surrounded by a mass of fringed hair and wears a coarse expression. The cleverest speech that ever fell from a woman's lips would not interest a masculine listener or rouse his admiration if it were full of coarse phrases. No gown that was loud in color, bold in cut or untidy about the edges ever charmed a man, no matter if it were worth its weight in gold.

Daintiness is not something to be relegated to our maiden aunts. It is not to be confounded with primness and rosemary. It is the secret of feminine charm. The moment a woman loses her daintiness she loses her identity. She is no longer a woman, and, not being a man, she is a nonentity.—New York Press.

### SOILED CARPETS.

How They May Be Cleaned and Their Colors Brightened.

Carpets which have grown dirty, have lost their color and have become dull and old looking can be nicely renovated in the following manner: Cut up into very small pieces about an ounce of soap and make it into a lather with a pint of boiling water; then add another quart of water and an ounce of borax.

Put this mixture on the range and bring it to a boil; then remove it, and when it is quite cool add an ounce of alcohol, one of ammonia and half an ounce of glycerin. Do but a small portion of the carpet at a time, and renovate it by wetting a clean flannel cloth in the above mixture and rubbing in vigorously until the spots are removed and the color brought back. Another way to bring the colors out may be used, and it may be accomplished in the ordinary sweeping if salt or dried tea leaves or a mixture of both be thickly sprinkled on the carpet an hour before the sweeping is begun. Use a good, stiff broom when sweeping, and the whole appearance of the carpet will be marvelously improved.

### TOILET TIPS.

Pure almond oil will not hurt the most delicate skin.

Salt water acts as a tonic on the skin. Gently spatted on the face, it will help make the cuticle firm.

When massaging to plump the arms and throat, use cocoa butter. It is better and cheaper than cold cream.

Rose water, eight ounces, and tincture of benzoin, two drams, make one of the best skin tonics and whiteners.

Almond meal cleanses the face and leaves it in a smooth condition. Mix a small quantity with rose water and massage the whole face with this, afterward rinsing off with tepid water.

Hair can be curled constantly on the iron without injury, providing the iron is not too hot. If the hair is well curled immediately after shampooing the curl will remain in longer, the ordinary head of hair retaining it for a week.

### MARKING TIME AT THE FRONT

Nothing new from the war Centres. Details of Naval Battle.

Manila, June 3.—Rear Admiral Enquist (who was commander of the heavy cruiser squadron of the Russian fleet), arrived in the bay at nine o'clock this evening on board his flagship, the protected cruiser Aurora, accompanied by the protected cruisers Oleg and Jartchag. All the vessels were more or less damaged and there were many wounded men on board.

Rear Admiral Train, on board his flagship the battleship Ohio, with the Wisconsin, Oregon, Raleigh and Cincinnati, was outside Corregidor Island maneuvering, when the Aurora saluted with thirteen guns, and the Ohio answered.

Admiral Train and his squadron accompanied the Russian vessels to Manila.

Tokio, June 4, 2 p. m.—Vice Admiral Togo visited Vice Admiral Rojestvensky at the naval hospital at Sasebo Saturday and expressed his sympathy for the Admirals' wounds. He praised the desperately courageous fight of the Russians and expressed his hope that Vice Admiral Rojestvensky would soon be able to return to Russia.

Rojestvensky was deeply moved by the Admirals' words and thanked him. He congratulated Japan on the courage and patriotism of her sailors and said it lessened his regret and the sorrow of defeat to know the high character of the victors.

### NORTH SHORE IS PROGRESSING

Campbellton and Dalhousie Show Marked Progress.

If it is true that the progress of a town is shown in the character of its mercantile establishments, no town in Canada of equal population can boast of handsomer stores, or more up to date stocks and bricker trade than the town of Campbellton. For one who has visited Campbellton a quarter of a century ago and sees it now will be convinced what energy and a progressive spirit will do. Some very fine residences are also being erected on pretty grounds.

The new Post office that is being erected on Main Street will be a monument that will beautify the business portion of the town, and the addition of wharfing accommodations will make Campbellton's harbor a very convenient one for shipping as well as easy for passenger traffic.

A good second to Campbellton in progress during recent years is the little town of Dalhousie, which notwithstanding that it has not the advantage of being traversed by a thorough line of railway is going ahead.

With the Dalhousie Lumber Co's two large mills, the Chapin mill and the large factory under erection by the Restigouche Woodworking Co., our town can boast of four manufactures of which it can well be proud, especially under a modern system of regular cash payment to the working men.—Events.

### BRYENTON.

The people have nearly all finished farming and the fishermen are getting their nets ready for the fishing season. Quite a number of fish, principally shad, have already been caught.

Messrs. Howard, Ernest and Wallace Bryenton took their departure for Campbellton on Tuesday last to work in the employ of Dow Shields & Co.

Miss May Donovan, our popular teacher, paid a visit to her home in Douglastown last week.

Miss Alice Hanbrook of Indiantown is visiting her sister, Mrs. Howard Mander-ville.

Mrs. Henry Kelly met with a very painful accident a few days ago. She sustained a bad fall and fractured her arm.

Misses Maggie and Lydia Bryenton visited friends in Newcastle this week.

Messrs. Horace Carnahan and Freeman Bryenton have returned home from the lumber drives.

Mr. Alf. Bell's new home is nearing completion. Quite a number of carpenters are engaged in the work.

Miss Ella Bryenton is visiting friends in Chelmsford.

# Uncle Terry

By CHARLES CLARK MUNN

Copyright, 1900, by LEE & SHEPARD

"No," he answered, and then hesitating a moment added: "I do not feel that way tonight. I may when train time comes tomorrow."

Her eyes fell, and rising quickly, like a scared bird anxious to escape, turned away.

But a strong hand clasped one of hers, and then she heard him say: "Am I to go away tomorrow happy or miserable? You know what I came up here to ask. You know what I have worked and studied and waited for all the long year since first I saw you and for whom I have tried to become a useful man in the world instead of an idler. It was to win you and to ask this that I came here today."

Then she felt an arm clasp her waist and a voice that trembled a little say: "Answer me, sweet Alice, is it yes or no?"

And then he felt her supple form yield a trifle, and as he gathered her close in his arms her proud head touched his shoulder.

### CHAPTER XLII

THE winter had passed and March returned when one morning Albert received a bulky envelope bearing the Stockholm postmark and containing numerous legal papers and a lengthy letter. He did not notice Frank when he came in or even her greeting, and well might Albert be keenly absorbed in those documents, for they made him the emissary privileged to lay at the feet of the girl he loved—a fortune!

No more need she devote herself to her foster parents, no more need Uncle Terry putter over lobster traps in rain or shine, or good, patient Aunt Lissy bake, wash and mend, year in and year out.

Here was more than they could spend in all the years that were left them, and what a charming privilege it would be to him to place in her loving hand the means to make glad and bless those kindly people who had cared for her as their own, and what a sweet door of hope it opened for him!

Then, for the first time, he noticed Frank watching him with smiling interest.

"Well," remarked that cheerful young man, "I'm glad to see you emerge from your trance and return to earth again. I've said good morning twice and watched you for half an hour and you didn't even know I was in the room."

When Frank had perused the most interesting of the documents he gave a low whistle and said:

"Now, methinks, somebody will be taking a wedding trip to the Land of the Midnight Sun in the near future. I congratulate you, my dear boy, and you can have the Gypsy when you are ready." Then he added shyly, "Maybe it can be arranged so there can be four in the party."

The next morning Albert, bearing the legal evidence of Telly's heritage and with buoyant heart, left for Southport. Late in the afternoon the little boat bearing him as sole passenger halted at the head of the island, and he saw the smiling face and muffled form of Uncle Terry standing on the wharf alone.

"Bless yer heart, Mr. Page," exclaimed Uncle Terry, grasping both of Albert's hands in his, "but the sight o' ye is good for sore eyes."

"And how are Aunt Lissy and Telly?" responded Albert, smiling into the glowing face of the old man.

"Oh, they're purty middlin', an' they'll be powerful glad to see ye, too. It's been a long time since ye left us."

"How vividly came to Albert every detail of his last parting from Telly, framed as she was in a background of scarlet and brown foliage! He could see her as he last saw her, standing with bowed head and tear wet face, and feel a tinge of the keen pain that

pulled at his own heartstrings then. He could almost hear the sad rustle of the autumn winds in the dry leaves that had added a pathos to their parting.

And now only a few miles separated them!

But the way was long and Uncle Terry's old horse slow, and the road in the hollows a quagmire of half frozen mud. Gone were all the leaves of the scrub oaks, and beneath the thickets of spruce still remained a white pall of snow. A half gale was blowing over the island, and when they halted in front of Uncle Terry's home the booming of the giant billows filled the night air, and by the gleam of the lighthouse rays Albert could see the spray tossed high over the point rocks.

"Go right in," said Uncle Terry, "an' don't stop ter knock; ye'll find the wimmin folks right glad ter see ye, an' I'll take keer o' the hoss."

With Telly it had been a long, dreary winter. Her only consolation had been the few letters from the only man who had ever uttered a word of love to her, and how eagerly they had been read again and again.

At times, when the cold desolation of winter was at its worst, only maidenly reserve had kept her from writing him that her loneliness and heart hunger were more than she could bear.

She had no inkling of his coming, and when Uncle Terry bade him enter the house she was alone in the sitting room laying the table, while Aunt Lissy was in the kitchen cooking supper. She heard the click of the front door latch and, stepping into the little hall as the door slowly opened, she met the man who for five long months had never been absent from her thoughts.

A glad cry escaped her, and then— "We haven't a home there yet," she answered, turning her face away.

"But we will have, darling, and as soon as you consent I shall begin to make it ready. I want you, darling, and I want a home. Life to me with you buried here is only desolation, and how much so to you the past five months can only tell. I know how you feel toward these good people, and your care for them shall be my care."

Telly hid her face behind her hands, and as she yielded a little to his clasp he whispered: "Do not say 'no' again, Telly! Do not rob yourself and me of love and home and happiness any longer! Make what plans for them you wish. Do as you will with your heritage. All I plead for is you." As he paused, holding her close while he waited for her answer, only listening love heard it whispered:

And outside the billows that years before tossed her ashore and had woken their monotone of sadness into her life still tolled their requiem, but she heard them not. She had entered the enchanted castle of illusions.

### CHAPTER XLIII

WHEN June had again clad Sandgate's hills and villages with green and spangled its meadows with daisies there occurred two events of sacred import to four young people.

The first was a wedding in the village church where the sweet voice of Alice Page had oft been heard and where now as a bride she walked timidly to the altar.

Her pupils, aided by their parents, had turned the church into a bower of green, brightened by every flower that grew in field or garden. Even the old mill pond contributed its share, and the altar was white with lilies. Almost every resident of the town was present, and the aged miller sat in one corner and watched with wistful eyes The Nason family, with Aunt Susan and Albert, shared the front pew.

Two weeks later occurred the other event, when the Gypsy steamed into the harbor and the select party became the guests of honor at Uncle Terry's home. Long tables, decked with flowers and loaded with the best Aunt Lissy could prepare, stood under the trees in front. The little porch was a bower of ferns and clusters of green and berries, and every man, woman and child that dwelt on the island was there.

Then, after Albert and Telly had halted in the fern covered porch to utter the simple but sacred words that bound them for life, the gladsome party gathered and made merry at the tables.

The sun was low in the west ere Telly kissed the tear wet faces of Uncle Terry and Aunt Lissy and the Gypsy sailed away. Far to seaward the purple line of coming night was slowly creeping in, and side by side on the little knoll where stood a low white headstone those two sat and watched her pass out of their lives. When only the wide ocean was visible and the line of shadow had crept up to the wave washed rocks beneath them, Uncle Terry arose.

"We'd best go in, Lissy," he said. "And she saw that she must lead him, for he was blinded with tears."

### THE END.

An Ape of 1738.

The human ape of the Hippodrome is not without its parallel in former days. An eighteenth century chronicler tells us that in 1738 "a most uncommon creature was brought from Carolina. It was a female, whose height was about four feet and in every part formed like a woman except the head, which nearly resembled an ape. She walked upright and sat down to her food and fed herself as a human creature. It was supposed to be the female of the creature which is called chimpanzee, or the mock man." A charming touch is added in the remark, "She expressed great respect for a boy who was on board the ship with her and seemed very unhappy at his absence."

## When Indigestion Grips You

It is not merely "something you ate" at the last meal—it is weakness in the stomach. A pain is Nature's danger signal that something is wrong. Indigestion is the stomach's way of telling you that it can't or won't work.

NOW is the time to take FRUIT-A-TIVES. These fruit tablets rest the stomach—bring out a copious flow of gastric juice at meal time—and make the stomach and intestines digest everything you eat.

You know that Fruit-a-tives are doing you good—because there is no more pain—no more sour stomach—no belching gas. Fruit-a-tives keep the stomach clean and healthy—and ready to digest any sensible meal you eat while the constipation is entirely cured by their use.

"Fruit-a-tives are most valuable in the home. We have used two boxes and are to-day getting a child, which tells our opinion of their merits. I find them especially good for the children, pleasant to take and very cleansing in their action."

Mrs. F. H. WARRISH, Calgary, Alberta.

Fruit-a-tives are pure fruit juices in tablet form. They act gently on all the organs of digestion—strengthen, invigorate, and cure. If there is anything wrong with stomach or bowels, cure yourself with

# REASON No 20 WHY YOU SHOULD USE Red Rose Tea

### Because it is Economical.

Red Rose Tea is composed of what are known in the trade as "high-grown" Ceylon and Indian teas. These teas are grown at high altitudes on the mountain slopes, where the tea bushes grow more slowly and are more carefully cultivated than in the valleys, where the climate is warm and humid.

High-grown tea is not only a finer quality, but contains much more tea juice or extract than valley-grown tea.

This can be easily proved by comparing a drawing of Red Rose with any other tea. By doing so you will find that a pound of Red Rose Tea will spend as far as 1 1/4 to 1 1/2 lbs. of other teas.

The saving is most apparent in the Blue Label and better grades—buy a pound and make the test.

**BWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY** as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, 75c.

**THE GERMS OF CATARRH**  
Not only attack the passages of the head and throat but finally reach the lungs and cause consumption. Nothing destroys catarrh so quickly as fragrant healing Catarrh-zone which relieves the cough, stops the discharge, takes all soreness from the throat. "I consider Catarrh-zone has no equal as a cure for catarrh and lung troubles" writes Jas. E. Wetherell of Brighton. "It cured me after many good doctors failed to even relieve my trouble." Catarrh-zone can't fail to cure—it's guaranteed. Two months treatment \$1.00 trial size 25c.

"For what?"  
"Well, I was once locked in a freight car for a week, with the weather at zero and nothing but a frozen turnip to eat, and nothing but blocks of building stones to keep me warm, and if I am not entitled to a pension nobody else ought to have one. The horrors of that old turnip beat the horrors of a battlefield all to pieces."

## Earl Grey As A Reformer.

Earl Grey is something of an enthusiast in behalf of the Public House Trust and would like to see it adopted in Canada. Recently Senator Beique and another have advocated the system in the Canadian Senate, claiming that it would do good by eliminating in large measure the element of private gain from the liquor traffic, and place the business on a more respectable basis. There is little doubt that Earl Grey is sincere in his desire to promote greater moderation among the drinkers in Canada. It may also be admitted that the Public House Trust is doing good in England. His Excellency's mistake lies entirely in misapprehending the difference between the habits and sentiments of the people here and in England. Canada is one of the soberest countries in the world; England, unfortunately, one of the most drunken. Temperance reform and temperance legislation in the Mother Country are a half a century behind what they are in this country.

The public House trust represents advanced temperance legislation in England. The adoption of the system here where the fight is for entire prohibition in several of our Provinces and the abolition of the bar in others, would be taking a long step backward. Here all the liquor interests would gladly compromise upon the general adoption of Earl Greys or the Gothenburg system, while the promoters of temperance reform would as promptly reject it. We want no Public House Trust in Canada. Its adoption would serve to entrench the liquor traffic in the Dominion more strongly than it now is. The time has passed for garnishing the liquor traffic in this country with a tinsel of respectability. It is too much discredited for that. Had we not long since passed beyond such measures as Earl Grey proposes, Canada would not be the comparatively sober country that it is. There is still unfortunately much drunkenness in the Dominion, but it is fractional compared with the drink evil in the Mother Land. Earl Grey doubtless means well, but in the matter of temperance reform and temperance legislation he represents the days of our grandfathers rather than the present generation in Canada.

**NOT THE KIND.**  
I had an uncle died up in Vermont last week and, though there is nothing so very queer about an uncle dying, this relative of mine did not have a fair show.  
As how? was asked.  
Well, when he he was 20 years old a tin peddler advised him to always carry stuff around his pocket to throw in a mad dogs eyes, in case he met one. He carried that stuff for forty years and never used it.  
Well?  
One day after he had carried it for thirty years, he was crossing a field and an old bull gave him a toss. When he came limping into the house and told us about it I said:

Why did you not throw snuff in his eyes Uncle Jerry?  
Why, that peddler told me to use the snuff on dogs, and that if ever a bull got after me I was to use ground cinnamon. I had not any of the blamed stuff with me!

Anyone can build a flour mill

and equip it with what is ordinarily known as modern milling machinery, and perhaps if they have the experience and the millers, they can make as good a flour as ROYAL HOUSEHOLD, up to the point where ROYAL HOUSEHOLD reaches the electrical process. Beyond this, no Canadian miller, at present, can go, and the result is that in ROYAL HOUSEHOLD we have flour distinctly different from any other in Canada; one which any good miller or practical flour man could tell the difference in, and note the superiority of, without a moment's hesitation.
