

SENATOR G. A. COX DIED IN TORONTO IN EARLY MORNING

Was One of Canada's Outstanding Financial Giants for Nearly 40 Years.

HE ABHORRED GAMBLING

Held Most Important Position on the Directorate of Great Many Large Corporations.

Toronto, Jan. 15.—Hon. George A. Cox died at his home on Sherbourne street at 5:15 a.m. today. The senator had been for some days in a semi-conscious state. The day before yesterday he recovered consciousness sufficiently to recognize the members of his family, who were gathered about him, then he relapsed into unconsciousness and slept away.

Last night he became restless, and his physicians, Doctors Davidson, Anderson and Goldsmith were called. Recognizing the serious turn of the patient's condition, they remained in attendance, doing what they could, till the end came.

The whole family was gathered to the bedside at the moment of dissolution. There were present Mrs. Cox, and the senator's two sons, E. W. and H. C. Cox, with their wives, and the senator's daughters, Mrs. A. E. Ames and Mrs. A. L. Davis. A. E. Ames was also present.

The death of Senator George A. Cox this morning removes the most active and influential financial magnates in the Province of Ontario, and one of the outstanding financial giants of the Dominion of Canada. It is a difficult matter to estimate his wealth, owing to the vast number and complex character of the industries and the monetary institutions in which he was interested. His estate has been said to be anywhere from ten to eighteen millions.

FIRST BIG DEAL.
He was one of the incorporators of the \$15,000,000 Transcontinental Railway Company, and might have been its president had he so desired. His first big financial deal was carried out when he was 38. This was in 1875. At this time the Midland Railway was in financial difficulties, and, at the request of the creditors, he undertook to straighten matters out. He was associated with Senator Murray in the flotation of the company's bonds on the London market, and this was accomplished successfully after encountering considerable opposition. In five years Mr. Cox had amalgamated the road with others, and the steel was relaid throughout. The whole road was put in first-class shape, so that it was possible to turn it over to the Grand Trunk Railway as a large profit to the Midland shareholders.

ABHORRED GAMBLING.
Though a list of the companies with which Senator Cox has been associated would read like a blue book of the industrial and financial interests of the country, he has never bought a share of stock on a margin. He has always abhorred gambling of any kind, having an old-fashioned Methodist conscience.

C. T. R. MEN PASSING EYE AND EAR TESTS

Special Inspector Here To Examine Middle Division Employees.

The Grand Trunk Railway system has sent a special car from Montreal to London equipped with an outfit for an eye and ear test of all the trainmen running on the middle division.

A number of the men were tested today, and successfully passed the examination. Men will be examined each day until all on the middle division have undergone the test.

J. Lavelle, a former passenger conductor running out of London and Toronto, has charge of the car, and is acting in the capacity of inspector.

WOMEN PURSUED BY BRUTE IN THE NORTH PART OF CITY

"Who Are You Chasing?" Asked One—"I'm Chasing You," Was Reply—Then Former Fled to Nearby House.

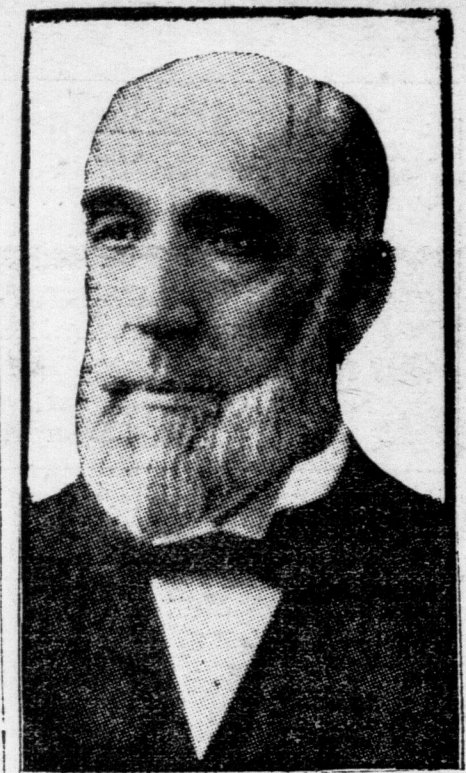

That debased type of humanity known as Jack, the Huggs, is abroad in the northern section of the city.

Several cases have come to light wherein women have been pursued, but fortunately, not attacked by this strange person.

Followed After Visit.
On Tuesday night, a well-known lady was returning to her home after calling at the residence of Chief of Police Williams. She noticed a strange man behind her, and when he followed her to a letter box, she turned around with the exclamation, "Who are you following?"

He Slunk Away.
With the reply, "You!" he started to remove his overcoat, and then the lady broke into a run, with the man following her. She turned into the entrance of a friend's house, with the stranger in hot pursuit, and hastily rang the doorbell. The man did not venture further, and when the owner of the house appeared, slunk away into the darkness. This happened about 10 o'clock at night.

COUNTERFEITERS GET 30 MONTHS IN PENITENTIARY

Magistrate Judd Passes Judgment On Convicted Coiners, Today.

SENTENCES CONCURRENT

Similar Punishment Meted Out on Both Counts of Making and Passing Spurious Coin.

Two years and six months in the Kingston Penitentiary was the sentence Magistrate J. C. Judd meted out this morning to Valentine Phillips and Frederick Sutherland, the two convicted counterfeiters, arrested here a week ago Monday.

The prisoners were charged with two offences,—making and passing counterfeit coins. They received the same sentence on each count but the two sentences will run concurrently.

In passing sentence the Magistrate said: "I have come to the conclusion that neither of you young men were members of an organized gang, and I believe that you were both led astray by the foolish idea that you could make easy money passing counterfeit pieces. I don't want to be too hard on prisoners, but the public must be protected."

Thanks Magistrate.
After sentence had been passed, Phillips thanked the magistrate for the lenient sentence. He declared that the counterfeiting cases had been the first criminal offence he had ever been connected with, and that on his release from the penitentiary he would endeavour to make amends.

Sutherland had little to say. He admitted that it was the second time he had been arrested and expressed the hope it would be the last.

The prisoners were nervous and haggard looking as sentence was passed.

May Be Arrested Again.
When Phillips ended his term for the present charge he may, on leaving Kingston, be rearrested. The London detectives have been in communication with the London, England, authorities, and the former today learned that a man answering Phillips' description was wanted by the authorities across the water. Phillips when questioned strenuously denied the charge and stated that this was the first time he had ever been arrested.

The prisoners will be taken to Kingston in the course of a few days.

GREISOCH ARRIVES IN LONDON AFTER ARDUOUS VOYAGE

Young Jew, Detained at Halifax, Comes Safely to the City.

GREAT TRIP TO FREEDOM

A Youth Who Faced Death in Russia Tells of His Experience.

Frail looking, short in stature, but thrilled with hopeful, joyous buoyancy, young Benjamin Greisoch, who was detained by the Canadian immigration officials at Halifax, because of his affliction with endocarditis and who was wanted by the Russian authorities for army desertion, stepped from the 1128 Grand Trunk train this morning and warmly embraced his brother and two friends who awaited his coming here. He carried in his hand a curious looking Russian small wicker trunk which was hurried across the station platform to his brother's waiting sleigh and driven at once to his brother's home at 93 Maitland street, where a plump roasted fowl and other festive fare awaited his coming.

Safe it would be to say that few arrivals to London, have looked with more delight at the historic and dilapidated Grand Trunk station than Greisoch as he crossed the platform.

Harry Grace met all the trains from the east Thursday and was overjoyed this morning to be reunited with his brother.

Young Greisoch told the Advertiser this morning that he was well treated by the Halifax immigration officials and received all the letters sent him by his brother. He was detained two weeks and two days.

Blase, slow-thrilling native Canadians, could hardly appreciate the feelings of the youthful refugee when he arrived in London. When he crossed the Russian boundary into Germany he thought he was free. Freedom was nearer still to him when he embarked on Tunisian at Antwerp for Canada.

But then at Halifax there came back to him visions of Russian prisons, Russian military barracks reeking with filth and vermin, day-long hours of drill, the brutality of Russian officers, the dark, dreary, hopeless picture of life-long exile in Siberia, perhaps, court-martial and death by shooting for desertion. At that his freedom was assured.

Glad Reunion Dinner.
Down at Harry Grace's home on Maitland street, his little children expectantly awaited the coming of the refugee from Russia. Mrs. Greisoch was busy preparing the reunion dinner. Friends and relatives were invited and this afternoon a large number are telling the story of his life in the Russian army, his escape and subsequent adventures, as thousands of other refugees from Russian tyranny have told their stories on arriving in America.

"A-7" Failed to Come Up With the Others After Manoeuvres.

[Canadian Press.]
Plymouth, Eng., Jan. 16.—The British submarine "A-7" failed to show off here today, and the authorities say there is little hope of her crew of 16 officers and men being saved.

The submarine was engaged in exercises in the Sound with a number of her sister vessels and she failed to come to the surface with the other boats when the manoeuvres were brought to an end.

The "A-7" is one of a class of nine boats numbered "A-3" to "A-12". She was built in 1904 and measured 150 feet in length. Her submerged displacement was 204 tons. Her engines developed an indicated horsepower of 660, giving her a surface speed of 16 knots and a submerged speed of nine knots.

She lies at the bottom of Cawsand Bay on the western shore of Plymouth Sound.

Two other vessels of exactly the same type have been with disaster. The "A-2" at Queenstown in 1905, with a loss of four lives and the "A-8" at Plymouth in 1906 with a death list of fifteen.

The British navy has also lost a number of other submarines within recent years.

ALIVE AT 5 O'CLOCK.
[Canadian Press.]
Plymouth, Jan. 16.—At five o'clock this afternoon, all the crew of the British submarine "A-7" which stuck on the bottom of Plymouth Sound during manoeuvres today were still alive. The parent ship Onyx succeeded in getting into communication with them at that hour.

LONDONER LOST MONEY IN CHICAGO

Chicago, Ill., Jan. 16.—Alex. MacConachie, London, Ont., was yesterday standing on State street, when a stranger came along and engaged him in conversation. The stranger was en route to North Side and MacConachie said he would like to go along. In front of the Holy Name Cathedral, they met a third man, who exhibited a thick roll of yellow bills.

"Let's get that easy money," whispered MacConachie's new friend. The three began to match coins and when it was over MacConachie was shy \$65 and \$450 in checks.

Detectives obtained descriptions of the swindlers and arrested Michael Jordan, who was identified as one of them.

The name does not appear in the city directory.

Storm Sewers Will Give Work To Unemployed

Colborne St. End of System to Be Commenced Early in February.

It is likely that work on the Colborne street section of the proposed storm sewer system will be commenced about Feb. 1, providing that the necessary pipe and other materials can be secured. Willis Chipman, of Toronto, the engineer in charge of the work, had a brief conference with the board of control this morning, and the project was discussed. The Colborne street end of the work has been estimated to cost \$34,700, and the idea is to do the work by departmental labor. Mr. Chipman assured the controllers that providing the necessary material could be secured, the work could be done without delay, and would give employment to practically all the men who could be secured. This will go a long way towards solving the unemployed situation.

Mr. Chipman and his two assistants, Engineers McGregor and Smith, have been in conference with City Engineer W. X. Ashplant for the past few days, and the borings of the different sections are being taken preliminary to going ahead with the completion of the plans for the new system.

The newly elected directors elected Jas. Wheaton, secretary, and Richard Oke, treasurer.

The financial statement showed \$310.89 receipts and \$150 disbursements. A motion was carried to ask the Dominion Government to divide the \$50,000 which is annually allotted to some one fair in the Dominion, among the leading fairs of the Dominion. The two representatives to the Fairs Association at Toronto are M. Dickie and W. H. K. Talbot.

'SAFETY FIRST' LECTURES FOR G. T. R. EMPLOYEES

London Men Will Be Called Together to Hear Addresses on Exercise of Proper Care.

London Grand Trunk Railway officials have received notice from the head office in Montreal that the first of a series of "Safety first" meetings will be held in the city within the course of a week or so.

It is the intention of the road to bring all its men running on the middle division of London to these meetings. The idea is to show the workers the great advantages to the road and themselves in being careful in the handling of passengers and themselves.

Chicago employees of the Grand Trunk had their inaugural "Safety first" meeting Thursday night when over 500 men listened to railway experts speak on the great need of employees exercising every care.

The programmes have been arranged in the Montreal office of the Grand Trunk and similar meetings will be held at all divisional points.

JUDGE INDICATES 'TISER STORY OF FAKED ST. RY. ACCIDENT

In Assize Court This Morning Chief Justice Dismisses Nickle's Damage Suit Against Street Railway and Grand Trunk.

FINDS THAT HE WAS NOT ON CAR

Advertiser's Account of Fake, Published Last August, Beginning of Fiasco's Expose.

An investigation set on foot by a story published in the London Advertiser of August 15th, resulted in the action of William Charles Nickles against the London Street Railway, being dismissed with costs by Chief Justice Falconbridge at the assize court this morning.

Nickles claimed \$5,000 damages for injuries received while a passenger on the car which collided with a freight train at the Dundas street inter-switching line on the night of July 24. After hearing the evidence, the presiding judge found that the plaintiff was not a passenger on the car in question, and consequently could not have received the injuries he claimed to have received. He dismissed the action with costs.

Spettigue's Story Similar.

The story told to the witness stand by Frank Spettigue, a dairyman living in Westminster Township, was exactly in line with the story published in the Advertiser to the effect that Nickles was not a passenger on the car, but drove to the scene of the wreck in a buggy with him. Arriving there, he jumped from the buggy, and disappeared, and Spettigue heard no more of him until he learned that he was in the hospital suffering from injuries supposed to have been received in the wreck. He could not quite reconcile the facts in the case, and commented upon the peculiar circumstances to several friends.

Word came to Spettigue that there was peculiar circumstances in Nickles' alleged injuries, a reporter investigated the affair. He interviewed Spettigue, and heard his story, afterwards going to the hospital where Nickles was being said. Nickles stuck to his story that he had boarded the car going east at Eva street, and was injured in the crash. He explained the instead of going to the direction of his home, by saying that he had become confused in the directions.

Created Sensation.
The result of the reporter's findings was published exclusively in The Advertiser of Aug. 15, and created a big sensation. An investigation was promptly set on foot by the London Street Railway company, and the result of this morning's trial fully vindicated The Advertiser and Frank Spettigue.

On the witness-stand yesterday, Nickles stuck to his story about boarding the car at Eva street, just before the crash occurred.

Was Returning With Spettigue.
Frank Spettigue swore that Nickles was returning with him in a buggy from the farm of Charles Talbot, nine miles east of the city, and did not arrive at the scene of the accident until several minutes after it occurred.

C. H. Ivey, counsel for the street railway company, called for the street car, who swore that no passenger boarded the car at Eva street that night, or at any point between the scene of the accident and the fair grounds.

Not Passenger, Says Conductor.
John Cooper, conductor on the ill-fated car, swore positively that no passenger got on at Eva street that night. He would certainly say that anybody did, and he was positive that nobody boarded the car from the time it left the fair grounds loop until it collided with the train.

Peter Adams, one of the passengers who stood in the aisle of the car, near the door, also swore that nobody could enter the car without brushing past him, and he saw no passenger get on from the time the car left Egerton street.

Wilfred Neely, who was a passenger on the back of the car, also bore out this testimony. He saw no one get on the car and was positive the plaintiff was not a passenger.

Found In Ditch.
P. C. Edgar Fowler told of finding Nickles groaning in the ditch and complaining of injuries to his back long after the accident, and had been cared for in a nearby house.

Thinking he was seriously injured, he summoned the ambulance and had him removed to Victoria Hospital where he remained nine days, apparently suffering great pain.

P. C. Malcolm McCrae bore out the testimony of P. C. Fowler in regard to the finding of the supposedly injured man.

Reporter On Stand.
Thomas E. Walsh, reporter for The Advertiser, was the last witness called for the defence. He related the circumstances attending his investigation in which interviews were published the day of the accident he had been an able-bodied man, above the average strength.

Ran For Street Car.
Counsel for the plaintiff stated that there was no doubt that he was suffering from a weak back, but C. H. Ivey, a moment later, drew from the plaintiff an admission that he had only this morning jumped from a moving street car on Dundas street, and ran for some distance over to the sidewalk. This was at variance with his actions in the courtroom, where he appeared to have difficulty in moving about.

Denies Spettigue's Story.
Recalled to the witness stand, this morning, Nickles denied the story told by Spettigue, absolutely, contending that his own testimony was the truth.

Counsel for the plaintiff, then addressed the bench. He referred to the fact that all of the witnesses were positive in stating that no passengers got on the car and that Nickles was not there, as an unique circumstance. Memories were not usually good.

"From my own experience," Justice Falconbridge replied, "I find that events leading up to an accident photograph themselves indelibly upon the memory. I find nothing out of the ordinary in the testimony of these witnesses."

In dismissing the case Justice Falconbridge stated that while there were features which were hard to explain, no court would uphold him in accepting the uncorroborated evidence of the plaintiff as against the preponderance of evidence adduced by the defence. "The action is dismissed with costs," he said.

G.T.R. Case On Trial Afternoon.
Nickles also sue the Grand Trunk, and evidence in that branch of the suit will be heard this afternoon.

That between three and four hundred thousand dollars should be spent on London's education system, is the opinion of a committee of the board of education. Trustee Martyn does not think that it is possible to raise all the money this year but is confident that not less than the sum mentioned will be necessary to put the schools in proper shape and provide the additional accommodation that is necessary.

Trustee Martyn's committee held its first meeting on Thursday afternoon and without actually bringing anything to a head, discussed various phases of the local school problem, and the best ways and means of meeting it. In practically every school in London there exists a condition of crowding that is a handicap to good results. The trustees feel that relief must be given.

The proposed purchase of the Mack property on Grand Ave. was the subject of discussion.

The board has been offered the property for the sum of \$24,000, but some of the trustees are opposed to the purchase on the grounds that the location is not all that is desirable and that the building cannot be easily converted into a schoolhouse.

The need of a new Princess Ave. school, a modern building at Grand Ave. and a new school at Ridge Ave. are touched on along with other matters.

LONDON, FRIDAY, JAN. 16.

A BLANK SHEET.

With the conventional proud array that marks the opening of Canadian Parliament, the Borden Government has entered upon the greatest negative program in the country's history. The Borden Government will not touch the naval question. That is acknowledged by its press allies, and made certain by lack of reference in the speech from the throne. The Government will seek to blame the Liberal Senate for blocking the Borden "emergency" naval proposals. But would it not have been a more masterful action to have appealed to the country, as it had asked the Liberals to appeal; and would it not have made the senators tremble to have had the verdict of the people hurled into their faces.

Three western provinces and the Dominion Grange have passed unanimous appeals for free wheat. The demand presses upon Borden, yet he ignores it, or saves it for a final play to the grandstand—a grandstand that may be frantic for a square game by that time. Free wheat and free food are Liberal demands. The country wants both of them. Yet Bordenism has neither acceptance nor alternative. He is beset with fears of impending disaster, and will listen again to the voice of Sir Canadian Combines, who placed him where he is.

A few months ago senate reform or abolition was to be effected. Now it's twelve new senators and control the upper house by any means!

If you were to ask the man on the street to name a single act of constructive legislation originally devised and carried through in the twenty-eight months of Borden rule, he would have difficulty in naming it. Laurier and his cabinet brought some outstanding act of statesmanship into every session of parliament, penny postage, immigration, Grand Trunk Pacific, canals, a Canadian navy for Canadians, and they went down to defeat on the greatest proposal of the chief's career. The Laurier Government produced the builders of Canada's century.

The only builder in the Borden Government is Sam Hughes, and all he can build is armories.

Borden's Government, never strong, is becoming more feeble with each session. It cannot remain in power by blaming senators and redistributing the country. The country wants action!

WHAT'S STEWING?

It looks as though a big gerrymander may be cooked up. No other important measure than redistribution seems promised. The Government, perhaps, has reason to expect that the Liberals will fight like wildcats, and that there will not be time for much else than to ram it through. Every indication, in fact, is that the session will not be less free from the same contentions, and if necessary aggressively contentious conduct on the part of the Opposition, as made the stirring times before the application of the closure.

Borden has one other session after the present one is finished, and with redistribution and filling his hand in the Senate, it is likely that his whole effort will be to strengthen the Government as a machine rather than as the first institution of the nation's progress. Borden wants the physical side of his Government renovated in a hurry. The second session may then be devoted to the people's work, the naval bill, free wheat, and other minor matters that appeal at the time may be taken up. They may be taken up too late, two sessions away, Mr. Borden. It may be too late now, in fact. You have the dragging handicap of a bad start, and we do not think you are the favorite in the race, either.

GOOD INDICATIONS.

Not long since a dinner was tendered to Judge Cullen of the New York supreme court on the occasion of his retirement. One of the principal speakers was Justice Hughes, of the United States supreme court. Among other things, Justice Hughes said: "More depends upon the man sitting in trial upon a case than upon any rules of procedure you may lay down. More depends upon the tradition behind him than on any statutory enactment."

This statement is true beyond a doubt. Good men on the bench are an absolute necessity if justice is to be administered, and the best are none too good. All men have their limitations. A judge should be the best man who can be selected. Before reaching the bench he should have had a long experience at the bar, which

should have developed and perfected his knowledge and judgment. He should have a fair mind and a broad one. Then add to that the justice or sense of justice that comes only from active contact with the world. The result will be the best obtainable, a good natural disposition, knowledge acquired by education and experience, a broad mind and sound common sense. There are few judges who possess all these requisites, or in varying degree they possess them so well they reach or fall short of the highest degree of perfection as judges.

Canada has had many good judges, on the whole better than the judges of the United States, and it is a good indication of better days for the administration of justice there that men like Mr. Justice Hughes are speaking out.

WHY BOOKS DON'T SELL.

A noted publisher of fiction declares that books don't sell or circulate as formerly, and lays the blame at the door of the social follies of the time. In other words, the tango, the turkey trot and kindred frivolities have so taken up the time and attention that there is no time for reading. Doubtless this is true to some extent, but we think the real reason is the poor stuff that is handed out in the name of light literature. A good story, like a good drama, is sure of an audience, but unfortunately at present they are as scarce as hen's teeth. Also, the public is wearying of the deluge of salacious novels just as it is of the salacious play and in disgust is turning from any kind of reading.

When the sex problem (so-called) has run its course in book, magazine and theatre, perhaps the demand for wholesome entertaining reading will be met.

UNIVERSITY EDUCATION.

In introducing Miss Keller on Saturday evening, her teacher spoke of her career at Harvard University, and declared that except for the English studies the four years at college had been lost time to her charge. So the Greek, Latin, philosophy, etc., according to Mrs. Macey, went for nothing.

She seemed to think that this was not merely the individual case of Miss Keller, and inclined to an unfriendly generalization on college courses. Doubtless some of her audience, especially those without personal experience of college work, would be disposed to agree with her as to the impractical nature of higher studies.

It must be true that the university curriculum and work, like the work done in high and public schools, cannot well help including a mass of things not adaptable to immediate use. When a public school grade is required to leave off the names of the months in the year, or the rivers of Siberia, it is crossing rivers before it comes to them quite as much as the class that pegs at the irregular verbs in Latin. All through our educational system, from bottom to top, the pupils are made to learn things that may or may not be of use years hence. Knowledge is taken to be like money, to be acquired as rapidly and as much of it as possible, to be put into the savings bank of memory, and to be applied to needs as they arise, or drawn upon in the rainy days of illness and old age or to be hoarded any way for the satisfaction of possession.

To have Greek is to have a diamond ring, except that it will not sell for anything, and it can as easily be lost. Philosophy recalls Dr. Johnson's friend who said he tried to be philosophical, but cheerfulness would keep stealing in; or Goldwin Smith's saying that "Hegel is as dead as Pythagoras."

But, on the other hand, what better use of time, under present conditions, can be made by the average young man or woman than to go to university? Why make money if one does not know what to do with it? And if our system of education is imperfect, shall one prefer nothing to a partial good? Perhaps it is no great harm to store up some items of knowledge ahead of time, build a bridge before crossing the river. Storing knowledge may have the advantages as well as the faults of storing money. The modern university does not require Greek, and certainly Harvard, where you can take any studies you like for a degree, did not compel Miss Keller to the courses which she chose at her own sweet will. She would have wasted her time much more surely had she studied these favorite subjects of hers without the system imposed by a university.

A university organizes self-training. One of the greatest factors in a university education is the history study. As Mr. G. M. Trevelyan says in a recent book, "Clío," history teaches us "to know the past and enjoy it for ever." It "trains the political judgment by widening the range of sympathy and deepening the approval and disapproval of conscience; it stimulates by example youth to aspire and age to endure; it should not only remove prejudice, it should breed enthusiasm."

That last word is interesting. Life is made more worth while by the university, it generates enthusiasm, promotes friendship and more generous citizenship.

Exit the old —

Enter the new Emergency!

We mean the emergency of staying in office.

Dust to dust, Mr. Borden buries the Emergency. May it rest in peace.

The country knows what the Government will not take up at any rate.

The only thing to mar the grand opening of the big show at Ottawa was the apparent coolness between

Sam Hughes and the gilded coach of state.

Be careful, Mr. Borden. No wheat reciprocity, or pop, we become an adjunct.

"I'd say to the middle-aged, married man of this type."

WHEN PHOTOGRAPHY WAS DISCOVERED.

Perhaps it is difficult fully to understand the panic into which the followers of the art of painting were thrown on the discovery of photography, since to us the place of the two arts is so thoroughly assured and so assuredly separate. But we must remember that to an unphotographed age the art of painting necessarily meant something quite different from what it means to our own kodaked generation. "Figure

No one who desires the welfare of the Conservative party will seek to have Mr. Beck removed from provincial politics. The "plot" which exists in certain quarters is a sheer product of the imagination. It may be that he is not universally beloved, but he has undoubted strength throughout the province.

But whether Mr. Beck goes or stays there is no fear that the hydro-electric party in the Legislature will not continue to be inspired by the service with which his name is so conspicuously associated, nor will the Liberal party render its province in Ontario still more hopeless by any display of hostility to the provincial electric system.

BRALEY'S POEM TODAY

JACK LONDON.

An Appreciation.

There's something clean and strong and true,
Here's to you, Jack, whose virile pen
Concerns itself with Man's Size Men;
Here's to you, Jack, whose stories thrill

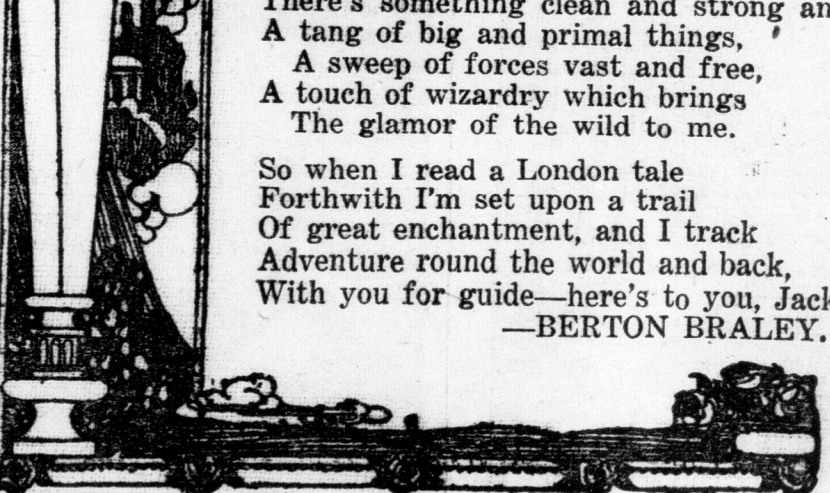

With savor of the western breeze,
With magic of the south—and chill
Shrill winds from icy floes and seas;
You have not wallowed in the mire
And muck of tales of foul desire,
For, though you've sung of fight and fraud,

Of love and hate—ashore, afloat—
You have not struck a ribald note
Nor made your Art a common bawd.

Here's to you, Jack; I've loved your best,
Your finest stories from the first,
Your sagas of the north and west—
But what is more—I've loved your worst!

For, in the poorest work you do,
There's something clean and strong and true,
A tang of big and primal things,
A sweep of forces vast and free,
A touch of wizardry which brings
The glamor of the wild to me.

So when I read a London tale
Forthwith I'm set upon a trail
Of great enchantment, and I track
Adventure round the world and back,
With you for guide—here's to you, Jack.
—BERTON BRALEY.

SeaLion Rehearsed at Midnight Routed Officer and Watchman

The members of humane societies two regular performances had been put over, the last show was out and the theatre was in darkness, Prince, the largest and most important of the sea-lions, ambled out of his cage, and wiggling over the top of a four-foot gate, gained the stage. In the semi-darkness the sleek beast pushed his various "props" to their accustomed place in the centre of the arena and commenced to go through the various stages of his act, balancing sticks and balls, throwing bars into the air,

blowing a horn and pulling off other weird stunts on the particular vaudeville menu allotted to him day by day.

Called a Policeman.
The night watchman, William Doherty, returning from the front of the house, opened the door leading onto the stage just in time to see Prince performing one of his most difficult stunts, and after gazing for a moment or two in wide-mouthed amazement, ran for a policeman. In front of the theatre he encountered a brawny minion of the law, and the officer, grasping his night stick, followed the watchman into the theatre.

When the two reached the stage the sea-lion was still in the midst of his act, and apparently paying no attention to the fact that the audience was missing. As the two men came in sight Prince eyed them wonderingly and when the policeman, advancing a step or so, emitted the wonderful words, "Come here," accompanied by a snap of his fingers, the product of the frozen north slid down from his pedestal and wiggled in the cop's direction.

Life Guard's Retreat.
This, the story has it, was altogether too much for the policeman and his janitor companion, and the pair rushed out of the theatre and did not stop for breath until they had reached the other side of the street. There they conferred, and the matter was ended by the watchman betaking himself to Capt. Treat's hotel. The trainer was awakened and went over to the theatre where, with the assistance of a piece of fish, the sea-lion's favorite food, he coaxed the wandering animal back into his quarters.

The feat of climbing over the four-foot gate was most extraordinary and was only paralleled by the cleverness shown by the beast in digging up the trimmings of his act from the dark recesses of the stage and putting them into action in the usual way, but without the guidance of his trainer.

Kenny, an official of the company, owning the Colequid, who was on board at the time of the wreck, said today that no one was to blame for the loss of the ship, the weather conditions being against them. "The discipline of the crew was excellent and there was no sign of panic or insubordination," he says. The officers and passengers of the ship will probably remain in Yarmouth a few days.

Normal School Girls Hear Talk on Japan

Miss Matthews, Y. W. C. A. Secretary of Tokio, Gives Interesting Address—Girls to Organize "Y."

It was an extremely interesting message that Miss Matthews, Y.W.C.A. secretary in Japan, brought to the girls of the Normal School at a meeting held in the assembly hall yesterday afternoon. Mrs. A. T. Edwards, president of the Y.W.C.A. for London, was present and occupied the chair.

Miss Tsuda's School. Miss Matthews described an interesting school in Tokio where some 160 girls attended. It was a normal school, preparing teachers in English subjects for work in all parts of Japan, she stated, and was largely maintained by Miss Tsuda, one of the most wonderful of Japanese women. In very graphic language Miss Matthews told how fifty years ago Miss Tsuda first came to America, when a little girl, in company with four other little maidens, 100 boy students and an embassy of learned men, the object being to study the educational methods of other lands than their own. Miss Tsuda remained in America for about ten years before returning to Japan, and this enabled her to understand two points of view—the Eastern and Western. She could read a novel in English with the same enjoyment that she obtained from a Japanese book, and was one of the chief leaders of women in Japan. In this normal school, Miss Matthews stated, the girls had a branch of the Y.W.C.A. organized, with Bible classes, which were largely attended.

A Progressive People. The Japanese were a keen-minded,

progressive people, and when they visited America or England and saw the slums of large cities, the factories, the saloons and the poverty they would say, "America has not yet solved her own problems; we must be careful how we follow her." The progress of the Japanese nation was evidenced in the new position which native women are filling. Japanese women now sold tickets at the railway stations, were clerks in the banks, operated telephone offices, reported on native newspapers and worked in factories.

Normal Girls to Organize. Mrs. Edwards expressed herself as being very glad that the Normal girls were considering the organization of a students' branch of the "Y." Through it they would be associated with students in many portions of the globe and would probably find it interesting to work together in some things at least with the sister society recently formed at Western University.

men, and oh how well you answer them. I have just been reading some of the letters in answer to Pond Lily's request of marriage for love. I was astonished at Mrs. G. Tuck being married three times and never in love. I am unmarried, but think love should be the first consideration of married life. This is my first letter to you, and I would like to ask a few questions. Trusting I shall be favored by a reply, along with the many who come to you for help in love affairs.

1. Out in the country where we drive four and five miles to church in the evening, which begins at 7.30 and usually is over at about 9, and after driving home, is it proper for a young man to stop a while with his lady friend? How late would it be right to stay? Pa says we girls should be more saving on the wood and oil; but mother says Pa never used to think of that himself.

2. If a young man keeps company with a young lady for two years and has told her many times that he loved her, then asks her for her hand as a helpmate, how long should he wait for an answer? Should she not be able to answer him either yes or no?

SISTER ANNE. Ans.—1. Yes, it would be quite proper, Sister Anne. Good for mother! Of course "Pa" didn't consider the wood and oil when he went a-courting. But don't let the young man stay after midnight. He should really go about 11.

2. Yes, I think after a two-year courtship she should know her own mind well enough to give a definite answer on the spot.

OUR ASTROLOGER HOROSCOPE

FRIDAY, JANUARY 16, 1914. Three planets and the moon bring mortals many a boon.

According to astrology, this is a fortunate day for commercial transactions, since Venus, Mercury, Jupiter and the sun are all in benefic aspect.

It is a favorable time for making investments. The stars promise gain to those who buy. There is a lucky sign for real estate and stock investments.

New partnerships are subject to a lucky rule. The signing of contracts and agreement has a happy omen.

Women should make the most of this day's astral conditions. Those who are earning money should profit by influences held to bend men toward justice and honesty.

There is a good augury for seeking positions, for asking aid in any business enterprise and for obtaining support from persons in power.

Tea-Table Talk

Here's A New Stunt.

Word comes from Regina that the Women's Association of a certain Methodist Church there have hit upon a novel scheme for raising money. They are doing darning and mending for young businessmen and businesswomen boarding in the city. A moderate charge is made, and the mending done at the weekly meetings of the association. The idea is a welcome change from church bazaars, socials and suppers as a means of raising funds, and the possibility of getting his or her hosiery mended neatly or a patch set when needed will doubtless be gladly seized upon by many a businessman and woman.

Perhaps some folks will say that there is nothing to hinder a girl doing her own mending, even if she is a business-girl. But again, perhaps if those same "folks" sat all day at an office desk, stood all day behind a counter, fed a hungry machine all day amidst the whirring of many hungry machines, tick-tacked on a typewriter all day, or endeavored to drive "read-in," writin' and "rithmetic" into the heads of half a hundred young urchins and this day in and day out, perhaps then these same folks wouldn't feel any more like sitting down to a basket of mending than the girls who really are engaged in these various capacities.

And besides commending itself as a means of raising funds for church uses, surely this would be an excellent method for the wife of the man-out-of-work to add to the contents of the family purse. It should be worthy of a trial, at least!

Suffrage Debate.

Rumors have it that there is to be a presentation of some description at the close of the Suffrage debate to be held in the Auditorium tonight, but just what, and to whom, has not yet been revealed. It has leaked out, however, that the Rev. S. R. Heakes is to make the presentation, which will form an interesting part of a most interesting evening.

An exchange says that "a group of women can become highly excited over the fact that a bride is starting out in married life with machine-hemmed napkins." Yes, but it makes the men's tongues buzz still louder to hear that the groom hasn't missed a game in the world's series for four years!

We are all noddin', noddin', noddin'. We are all noddin' and dropping off to sleep. To keep us awake we have all done our best.

We are all noddin', noddin', noddin'. We are all noddin', and dropping off to sleep. The hour it is late, we'll no longer delay.

But we'll take our hats and bonnets, and quickly away, We're a noddin' and dropping off to sleep.

The Home Realm

In cold weather, when the body needs an extra supply of fuel-producing foods, the housekeeper's conscience may permit her to serve pies.

Prunes and raisins offer excellent filler materials for winter pies, especially when the pies are wanted to "top off" a dinner that has not contained a very generous meat course.

Raisin fillings are compounded in various ways. They are sometimes a mixture of raisins and cranberries, again of raisins and sour milk, and still again of raisins, chopped lemon and sugar. Some of these call for the addition of eggs, in which case the pie becomes very substantial.

Pie Recipes.

Sour Cream Pie—One cupful of sour cream, one of sugar, one of chopped raisins, the beaten yolks of two eggs, one teaspoonful of cinnamon and one of ground cloves. Bake in one crust and let get nearly cold. Then make a frosting from the whites of the two eggs and two level tablespoonfuls of sugar. Set the meringue in a very slow oven. The housekeeper that promises subject to forces for the filling mixture and bake with upper and lower crusts without a meringue.

Lemon Raisin Pie—One cupful of chopped raisins, the juice and grated rind of one lemon, one cupful of sugar, one tablespoonful of flour, one cupful of cold water. Cook the flour, water and sugar together and let

cool before adding the fruit. Mix and bake between two crusts. Prunes can be substituted for the raisins in this recipe and an excellent pie will result. In this case add a little cinnamon.

Mock Cherry Pie—One and a half cupfuls of cranberries, one and a half cupfuls of water, one-half cupful of raisins. Cook these well, then add a teaspoonful of flour to thicken it and sugar to taste. Bake them between two crusts.

Pumpkin pie is a general winter favorite, now rivalled in many families by pie made from winter squash. Here are recipes for pumpkin pie given by one of the best cooks in my acquaintance.

1. One quart of sifted pumpkin (fresh or canned), two eggs beaten light, one large spoonful of flour, a pinch of salt, two level teaspoonfuls of ginger, fourteen ounces of sugar, one quart of milk. Bake in single crust.

2. One and a half cupfuls of steamed and sieved pumpkin, two-thirds of a cupful of brown sugar, a teaspoonful of ginger, one-half teaspoonful of salt, two eggs well beaten, one and a half cupfuls of milk, one-half cupful of thick cream. Mix in the order given. Bake in one crust, short crust or flaky pastry, as preferred. Give special attention to the temperature of the oven, so that the under crust will bake quickly before the heat has to be moderated to prevent curdling.

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letters can be answered privately.]

She's Just Eleven. Dear Miss Grey—Would you please answer the following:

1. I am 11 years old, am in the Senior Third Book. Am I far enough advanced for my age?
2. I am four feet five and a half inches high. How long should my winter coat be, and how long should my summer coat be?
3. I am bothered with styes and red eye rims. What is a good remedy?
4. What do you think of my writing?
BLUE EYES.
A.—1. Yes, I think you should advise you not to waste time in the next couple of years if you are to pass the entrance examination at 14—which, of course, you should really aim to do.
2. Dresses from 2 to 3 inches below the knee; your coat may be from one to two or three inches longer.
3. Your eyes are evidently weak, and in need of treatment of some sort. I think really that your mother should take you to an oculist.
4. It is a very good hand for your age.

Louis Riel's War.

Dear Miss Grey—I am a steady reader of your large, favorite London newspaper, and would be pleased to have a little information in regards to Louis Riel's war: what year and how long did it last?
2. Could you please send me the song entitled, "Don't Count Your Chickens Before They Are Hatched"?
3. What year was the first railroad built through Maidstone Cross, Essex County, and how long was it surveyed before it was built?

Thanks to you very much. From your STEADY READER.

A.—The first Red River revolt under the leadership of Louis Riel occurred in 1869, when the little settlement of French and half-breeds became alarmed because of the treaty between the Government and the Hudson Bay Company. They feared that their homes and lots would be taken from them. All settlers who were thought to be in sympathy with the Government were made prisoners, and one Thomas Scott, a loyal, outspoken man, was shot at Riel's command. Before a troop of volunteer soldiers could reach the district, the rebellion quieted down, and Riel fled to the United States.
A second revolt took place in 1885, when a number of the half-breeds in company with several tribes of Indians, settling on the Saskatchewan River, arose against the Dominion Government. The trouble was probably increased by the ill-treatment and neglect on the part of the Dominion officers in the Northwest. The rising was brought to an end by the Mounted Police, and an army of volunteers was captured, tried, and sentenced to be hanged.

2. The query is passed on to some kindly reader, who may have the song and will be good enough to send it.
3. This I have not been able to find out. Perhaps some old resident living in the vicinity of Maidstone Cross will be able to tell us.

To Sing in Public. A.—1. I think you should interview the vocal teacher whom you say comes to your town, let him hear your voice and give his judgment regarding its possibilities. If he deems it fit for vocal training, do so by all means, if your parents consent. But do not look ahead too far. Be content with taking a step at a time and I feel sure the way will open up for you if you have determination and perseverance. You will without doubt be able to get into concert singing and this is a good way of getting your foot on the ladder. As to the cost, that will depend on the charges of your teacher, and prices vary so much that I cannot give you an estimate.

"What sort of voice appeals to the public?" Well, that is hard to answer, but I think I am safe in saying that it pleases a voice not so much trained that it loses all its natural expression—a singer who can get up and sing out of the depths of her heart, naturally, and as if it were a joy to let the melody flow from between her lips, without too much rolling of the eyes, or straining of the vocal chords—this is the sort of singing that appeals to

never allow yourself to be persuaded to marry a man that you know you do not love, for you never, never can be happy and may be the most miserable woman on earth.

MRS. L.

YES, IT IS NICE! Dear Miss Grey—Here is another one to ask your help. It must be lovely to receive so many letters of love questions, especially from young

men, and oh how well you answer them.

I have just been reading some of the letters in answer to Pond Lily's request of marriage for love. I was astonished at Mrs. G. Tuck being married three times and never in love. I am unmarried, but think love should be the first consideration of married life. This is my first letter to you, and I would like to ask a few questions. Trusting I shall be favored by a reply, along with the many who come to you for help in love affairs.

1. Out in the country where we drive four and five miles to church in the evening, which begins at 7.30 and usually is over at about 9, and after driving home, is it proper for a young man to stop a while with his lady friend? How late would it be right to stay? Pa says we girls should be more saving on the wood and oil; but mother says Pa never used to think of that himself.

2. If a young man keeps company with a young lady for two years and has told her many times that he loved her, then asks her for her hand as a helpmate, how long should he wait for an answer? Should she not be able to answer him either yes or no?

SISTER ANNE. Ans.—1. Yes, it would be quite proper, Sister Anne. Good for mother! Of course "Pa" didn't consider the wood and oil when he went a-courting. But don't let the young man stay after midnight. He should really go about 11.

2. Yes, I think after a two-year courtship she should know her own mind well enough to give a definite answer on the spot.

OUR ASTROLOGER HOROSCOPE

FRIDAY, JANUARY 16, 1914. Three planets and the moon bring mortals many a boon.

According to astrology, this is a fortunate day for commercial transactions, since Venus, Mercury, Jupiter and the sun are all in benefic aspect.

It is a favorable time for making investments. The stars promise gain to those who buy. There is a lucky sign for real estate and stock investments.

New partnerships are subject to a lucky rule. The signing of contracts and agreement has a happy omen.

Women should make the most of this day's astral conditions. Those who are earning money should profit by influences held to bend men toward justice and honesty.

There is a good augury for seeking positions, for asking aid in any business enterprise and for obtaining support from persons in power.

Under the sway the health is supposed to improve, since the physical forces are stimulated.

Opportunities for advancement should be sought while this configuration prevails.

Theaters should prosper today. The stars foreshadow reforms and novelties in stage productions. Great losses will be followed by gains along unexpected lines.

The seers prophesy that there will be extraordinary questions arising in connection with our relations to foreign powers. Complications of great significance will arise from trivial causes. The Panama Canal subject is subject to forces.

Persons whose birthdate it is have a forecast of fair fortune. Those who are employed probably will be promoted within the year. For the young, romance is foretold. Women will be particularly blessed.

Children born on this day have their magnetic centre in the sign, Capricorn, and Saturn is their principal ruling planet. Boys have the promise of success in business and professional life, as they will be clever and persevering. Girls probably will marry happily.

McCormicks	0	3	7	19

McClarys and Gastes copped the honours in the Manufacturer's League last evening. The Cigarettes nosed out Greene-Swifts in the initial contest by the score of 5 to 3, and the stovemen handed the Blount Men the short end of a 5-to-4 score. Both games were fast and interesting from start to finish, and a big crowd witnessed them.

Gastes Beat Greene-Swifts.

Greene-Swifts looked like the real first game. They outplayed their opponents and had them on the run at half time by a 4 to 3 count. Both teams put a strenuous struggle in this half. In the second period the Gastes team used their heavier weight to more advantage, and their lighter opponents were out-checked and out-pointed. The Cigarettes could not come back, and as a result they could only score one goal to the Baled Havanas three. It was anybody's contest up until the final bell, however, the teams being pretty evenly matched.

For the winners, Legg, Thorne and Tracey were in the line-up, while Brodson, McPhee and Ballantyne shone for the losers.

The teams:

Gastes—Goal, Tracey; left defence, Stevens; right defence, O'Rourke; centre, Legg; left wing, Gregory; right wing, Thorne.

Greene-Swifts—Goal, Osborne; left defence, Hoy; right defence, McPhee; centre, Ballantyne; left wing, Bartlett; right wing, Brodson.

McClarys 5, McCormicks 4.

The second game gave the fans a lot of excitement. The McCormick team played Edwards, of the intermediates, and Gus was a valuable asset. The first half was nip and tuck, with McClarys leading at the intermission period by 2 to 1. In the second half the game got even faster, and penalties were a little more numerous. At times there were only four or five players aside, and lots of opportunity for individual and combination rushes. McClarys held their lead, although McCormicks were going strong at the finish. It was a busy night for the goalkeepers.

The stars for McClarys were Campbell, McKay and McDermott, while Edwards, Wais and Martin played a fine game for McCormicks. "Check" Parkinson handled the ball for both contests, and gave good satisfaction.

The teams:

McClarys—Goal, Prudhomme; left defence, Chantier; right defence, Buchanan; centre, McKay; left wing, Campbell; left wing, Wilson.

McCormicks—Goal, Wais; left defence, Edwards; right defence, McIntosh; centre, Hennessey; right wing, Martin; left wing, Armstrong.

Referee—C. Parkinson.

SARNIA INTERMEDIATES

WON IN SECOND HALF

Watford Was Leading at Half-time, But Failed to Score at All in Last Period.

[Special to The Advertiser.]

Sarnia, Jan. 15.—Sarnia's Intermediate team tonight walloped the Watford team to the tune of 5 to 2, the game being fast most of the time. The Watford boys had the best of it all through the first half, and the score at that time stood 2 to 0 in favor of the visitors. In the second half the homeboys worked up their muscle, and as a result ran their end to five, while the Watford lads did not find the nets once. The star player for Sarnia was McCart.

McNaughton, of the locals, was laid out in one of the skirmishes.

The line-up:

Sarnia—Goal, Cameron; right defence, McCart; left defence, McNaughton; centre, Storey; rover, Lesueur; right wing, McLellan; left wing, Foster.

Watford—Goal, Johnson; right defence, Dadds; left defence, Rogers; centre, Stapleton; rover, Dobbs; right wing, Parker; left wing, Dadds.

ST. MARYS FINISHED
STRONG BUT LOST OUT

Stratford Intermediates Won From
Home Team by Score of Seven
to Six.

[Special to The Advertiser.]

St. Marys, Jan. 15.—The Stratford intermediates trimmed St. Marys here this evening in a close and hard-fought game by the score of 7 to 6. The ice was in good condition, and Stratford outplayed the locals in the first half, and were leading at half-time by 6 to 2. In the second period St. Marys outclassed the visitors at all stages, but could not cut down the big lead in the limited time.

The teams:

St. Marys—Drescher, goal; Shultz, left defence; L. Wilson, right defence; Tuer, rover; Lavell, centre; S. Wilson, left wing; Ford, left wing.
Stratford—Brown, goal; Harfield, right defence; Harfield, left defence; Harfield, left wing; Harfield, left wing.

NEW HAMBURG WON

One of the Players Was Badly Injured
by Blow on Head.

[Special to The Advertiser.]

New Hamburg, Jan. 15.—The game here tonight between New Hamburg and Preston in the O. H. A. Junior series was a battle royal all the way. At half-time the score stood 5 to 4 in favor of New Hamburg. In the second half each side added only one more goal, making the final score: New Hamburg 6, Preston 5.

Bruno Boger, one of the most popular local players, was badly injured towards the close of the game by being struck with a stick on the head by an opponent, and was obliged to retire. The aggressor was ruled off for the balance of the game, and another Preston man was sided off with the injured local player, but neither side scored after Boger was incapacitated.

The teams:

New Hamburg—Goal, McCart; left defence, McCart; right defence, McCart; centre, McCart; rover, McCart; right wing, McCart; left wing, McCart.

Preston—Goal, McCart; left defence, McCart; right defence, McCart; centre, McCart; rover, McCart; right wing, McCart; left wing, McCart.

Bob Fitzsimmons, Still Middleweight
Champion Pugilist.

"And if I Don't Stop Any White 'Ope in Four Rounds I Won't Awk You to Let Me Fight," "Bat-tling Bob" Told the New York Boxing Commission When Refused Permission to Again Enter the Squared Circle.

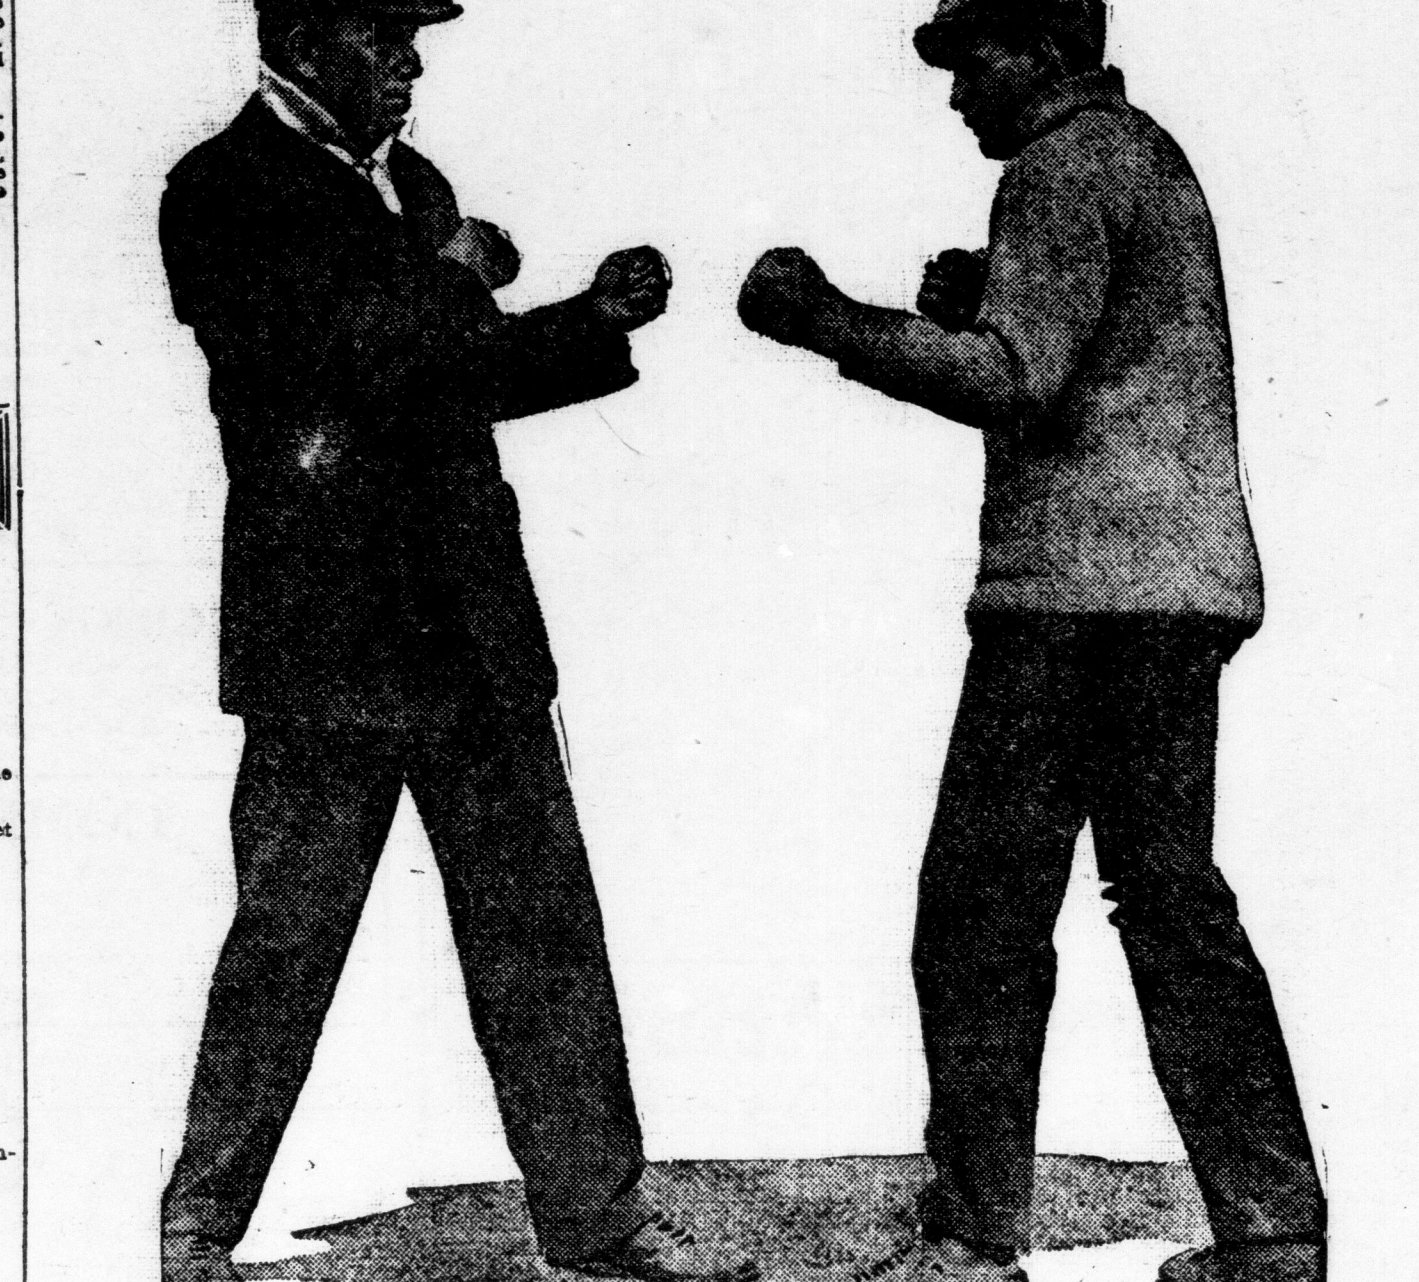

Bob Fitzsimmons, "Batling Bob," half-trained sea lions, he jumped into the ring, and, after stilling the tumult of cheers, said:

"After watching the exhibition here tonight, I feel it my duty to re-enter the ring and dispose of some of these so-called fighters."

Next day, Bob was signed by one of the Gotham fight club to meet an

ed Bob in the shape of a declaration that he was still middleweight champion. They might have added he would die champion, as they won't let him box.

"A lot of good the title I won from Jack Dempsey does me when I can't follow my line of business to make a living," said Fitzsimmons lugubri-

heavyweight champion at the same time and never lost the former title. Now, at 51, heroic "Batling Bob" wants to fight. "I'm not quite so good as I was, but if I couldn't dispose of these white hopes, I've seen 'Robert' he was of a vintage too rare. 'I'll fight any of them in private, and if I don't put him away in four rounds, I won't ask to box in public.'" Bob offered, but the commission was dead.

PARIS INTERMEDIATES
PLAY LONDON TONIGHT

Paris Intermediates, the team that has given London a lot of trouble in the past, will meet the local intermediates at the Princes Rink tonight in what should be the best game of the season. Neither team has suffered a defeat in this district so far, and tonight's game will go a long way toward settling the district title. The local team has won four straight games, while Paris has three victories to its credit. The green-shirted bunch is a strong aggregation, and London will have to travel its best to pull off a victory. One of the largest crowds of the season will likely see this game.

ERIE WILL EVENTUALLY COME AROUND, BELIEVES MR. O'NEILL

London Director and Owner of Guelph Franchise Returns From Erie Hopeful of Making a Deal With That Club.

[BY JINX.] Director George H. O'Neill, of the London club, and owner of the Guelph franchise, returned to London late last night following a two-day sojourn in Erie, where Mr. O'Neill met the directors of the Erie baseball club in regard to the transferring of the Guelph franchise to Erie.

Although the Erie club refused to purchase the Guelph franchise, and also refused to consider a Canadian League ball franchise, the league saw fit to give them a franchise free of charge. Mr. O'Neill is still hopeful of making a deal with them. He attended a couple of meetings of the Erie directors while there, and went over the whole proposition. The whole trouble seems to be in the fact that the Erie people believe the Canadian League made a "steal" of the territory, and as a result they are prejudiced against the league organization. However, Mr. O'Neill's explanation of the affair and his figures showing the Canadian League to be one of the best minor leagues of its kind on the continent, went far to convince the Erie directors that the proposition was a fair one after all.

Erie Has the Wrong Idea.

"Erie seems to have grasped the wrong idea of this thing," said Mr. O'Neill to The Advertiser today. "The papers there were a trifle hostile toward the Canadian League before I arrived, and the same feeling predominated among the shareholders of the club. The impression there was that the Canadian League obtained the Erie territory by unfair dealing. One of the papers came out with a strong article against the Canadian League and Canadian baseball, and went so far as to state that they wanted 'no foreigners' in that city. Another paper treated the Canadian League as a little one-horse organization, and the city of Toronto as a joke balltown that could not support one team, let alone three. I do not know where they

For these impressions, but they had the effect of creating quite a hostile feeling toward the Canadian League in general and the Guelph franchise in particular.

Farrell Cleared It.

"One of the papers, however, wired to Secretary Farrell, and his reply to the effect that Erie had to have Canadian League baseball and take the Guelph franchise or none, cleared the situation somewhat, and gave the matter a new tone. The Erie club has a lease on Perry Field, the only good ball park in Erie, and it would be impossible for any outsiders to put a team in there. I made a proposition to sell the Guelph franchise outright to them or any part of it. I also told them I would go with them on any kind of a proposition for Canadian League ball in which the Guelph franchise would be transferred there. They turned them all down. However, before I came away, the papers there were regarding the proposition with a little more favor, and the directors were also inclined to give it more consideration. I will put the whole situation before the Canadian League meeting Monday, and I am sure the matter will be satisfactorily arranged for everybody concerned before many days."

How Is It a Steal?

That the Canadian League did not "steal" the Erie territory is shown by the fact that the National Association gave the Erie owners nearly two months in which to locate in another league before letting the Canadian League in there. Secretary Farrell announced on Nov. 12 that they had until Jan. 1, and how with so much time in which to get located, the Erie people can accuse the Canadian League of being unfair, is hard to see. The Canadian League will do nothing that will create ill-feeling in Erie. It wants to co-operate with Erie people in giving them good baseball. When Erie realizes this, the difficulties will vanish.

INTERNATIONAL LEAGUE TO BE TURNED MAJOR

Story From Baltimore Says Jersey City Franchise Will Be Transferred To Washington.

[Canadian Press.]

Baltimore, Md., Jan. 15.—An afternoon paper said here today it learned "through an absolutely authoritative source" that the International League is to be turned into a major league by removing the draft and transferring the Jersey City franchise to Washington and Montreal to Brooklyn. The paper says that a meeting will be called in New York in the near future to discuss "this latest plan to combat the invasion of the Federal League."

President Dunn of the Baltimore International League Club, would not discuss the proposition.

RACER RECOVERS.
Racine, Wis., Jan. 15.—Jack Racer, a welterweight fighter from Davenport, Iowa, who was rendered unconscious by being struck several blows in a fight last night, is out of danger.

Racer was revived in the ring, but later lapsed into a semi-conscious condition and was hurried to the hospital. It was at first believed he was seriously injured. Physicians state that he will leave the hospital today.

ART ROSS WILL PLAY
Montreal, January 15.—Art Ross, the Wanderers' coverpoint, has been taken from his old position of point and is now being trained for goal. Today he guarded the nets in the workout at the arena. He will be used in goal when the team meets Ottawa next Saturday night.

Atkinson, of Ottawa, and Warwick were both released by the Wanderers today.

FEDERALS WILL ENTER NEW YORK IN 1915

Arrangements Are Now Being Made To Put Team in Greater City Next Year.

New York, Jan. 16.—B. S. Muckenfuss, who was president of the St. Louis Nationals in 1908, is in New York making arrangements to put a Federal league club in the greater city in 1915. It was learned today. Mr. Muckenfuss has an option on a park at Corona, Long Island, on the far side of the Queensboro Bridge, and looked over the ground yesterday with an architect who is drawing up plans for a new grandstand.

If the Federal league passes through a successful 1914 season, Mr. Muckenfuss, it is stated, will become head of a New York club in 1915. The weakest club financially in the rest of the circuit being transferred here. It is believed that the owners of the Corona property will be partners with Mr. Muckenfuss in the venture.

Baker's Work in Goal All That Prevailed Winnipeg From Winnings.
[Canadian Press.]
Winnipeg, Jan. 15.—Lining up with five new men from last year's Allan cup winners, Winnipeg gave Victorias the game of their life in the senior hockey fixture here last night, the Hokies managing to squeeze out a victory by a score of 5 to 3. Only some sensational work by Basil Baker, in goal, stopped Winnipeg from getting the long end of the score.

MURPHY TO TINKER.
[By Geo. E. Phair.]
Your playing days are over.
You aren't worth a whoop.
Though once you were in clover,
You now are in the soup.

You've lost your ancient thunder,
And are a common dub,
But you would be a wonder
If you were still a Cub.

CANADIAN RACQUET CHAMPIONSHIPS ON

Opening Games Were Played At Montreal Yesterday.
[Canadian Press.]
Montreal, Jan. 15.—The Canadian racquet championship matches opened this afternoon at the courts of the Montreal Club. Only two matches were decided, one going to Edward Greenhills, the Canadian champion, from G. M. Heckeshaw, of New York City, and the other to C. C. Pell, of the Tuxedo Club, New York, from A. S. Cassils, of Montreal. C. C. Clark and W. P. Burden were scratched.

The top-half of the semi-finals will be played tomorrow afternoon between Edward Greenhills and C. C. Pell.

THE FEDERALS.
[By Geo. E. Phair.]
"They are out to get the money,"
Charlie Ebbets rose to snort,
"And they do not work as I do for the glory of the sport."
A reporter who was standing near was seen to gasp for breath.

OLD BOYS' "HOME GUARD" ARRANGES FOR DIAMOND JUBILEE REUNION DURING CIVIC HOLIDAY WEEK IN AUGUST

Will Again Pilot Home Guard in "Jubilee Reunion"

LT. COL. H. R. ABBOTT, President of the Home Guard, who has charge of the London Old Boys' Reunion of 1914. The colonel is one of the hardest workers of the "Home Guard" and has started his 1914 campaign with the avowed intention of making the Diamond Jubilee celebration "the best ever."

COMING TO LONDON

Mr. and Mrs. William Fox Are Leaving Florence.

[Special to The Advertiser.] Florence, Jan. 15.—Mr. and Mrs. Wm. Fox have moved to London, where they intend to reside. Before leaving here St. Mathew's Guild met at their home and presented Mrs. Fox with an address and a set of handsome silver teaspoons as an appreciation of her valuable services.

Mrs. Fox has been connected with the St. Mathew's Church as a member from her early childhood, having always resided in the vicinity. Mrs. (Rev.) Smith read the address and made the presentation. Mrs. Fox was much affected by the gift, but made a suitable reply. A most delightful evening was spent and a very dainty lunch was served to the ladies of the guild and their husbands.

DANIA IS SAFE.

Havana, Jan. 15.—The Hamburg-American liner Dania, from Hamburg, about which there had been some anxiety on account of her lateness, will arrive here at 2 o'clock this afternoon according to a wireless dispatch received by one of her consignees.

STOP STOMACH WORRIES NOW

And Use Stuart's Dyspepsia Tablets So That You Can Digest Each Meal Quickly and at the Same Time Renew Your Digestive Strength.

Learn once again how to smile and laugh, and stop this grouchy moodiness. This condition arises from a faulty digestion and cannot be removed unless you use common sense and assist Nature a little.

"I am a New Man Since Stuart's Dyspepsia Tablets Gave Me a New Stomach and Appetite."

If the stomach is overworked, its muscles become tired and gradually grow weaker and weaker, until they are unable to take care of the food properly. The glands fail to provide the juices necessary to digest the food. Gases form and cause all sorts of pain, misery and wretchedness, as well as extreme danger to the heart.

It is then that the stomach calls for help. Ordinary medicines are impossible. They not only fail to help the stomach, but injure the entire system. Medical men have studied the stomach and have discovered that the digestive juices consist largely of pepsin and nitrogenous ferments. What, then, would be more natural than to supply these properties artificially when the stomach is unable to produce them.

That is the object of Stuart's Dyspepsia Tablets. These powerful little agents relieve the stomach of its burden, thereby giving it an opportunity to regain its normal strength. They tone up, strengthen and revitalize the secretory glands, mucous membranes, absorbing glands and muscular walls. They restore to the stomach its lost powers of digestion, so that it can again do its work without assistance. They contain, in a concentrated form, every element necessary to digest all sorts of food, whether acid or alkaline.

If you experience an oppressive feeling just inside the lower end of your breast bone and extending upward towards your heart, do not hesitate an instant. Get Stuart's Dyspepsia Tablets from the nearest druggist at once and take one. In a few minutes the pain will leave you and you will feel better. Take a tablet after each meal for several days and your stomach will once more perform its duties. All druggists sell them at 50c a box.

Make Preliminary Plans at the Meeting in City Hall Last Night.

RE-ELECT COL. ABBOTT

Last Year's Chief Executive Again Returned to Office for 1914.

ED. SMITH, IS SECRETARY

The diamond jubilee London Old Boys' Reunion will be held next August in the week commencing Monday, the third, civic holiday. This was decided upon at the annual meeting of the home guard in the city hall last night.

There was a large attendance of old and new members and the meeting was enthusiastic to a degree. Lieut. Col. Dr. Harry R. Abbott was in the chair, and was the unanimous choice of the meeting for another term. Edwin Smith, who has been acting as secretary pro tem since the recent meeting of the executive, accepted the permanent secretaryship, there being no other nominations for the position.

Women Wanted Married Men. President Abbott was not anxious to hold the position for another year and thus keep other men out of the honors, but declared that there was just enough Irish fighting blood in his veins to keep him on the job in the face of the criticisms that had been made of the way the last reunion had been handled. He thought that perhaps a married man would be more acceptable to the women but was gratified at the honor that had been paid him.

The full complement of officers elected was as follows:—Honorary Presidents—Hon. Adam Beck and Sir George C. Gibbons. Honorary Vice Presidents—Major Thos. Beattie M. J. Duffield, T. H. Smallman, Hon. C. S. Hyman, and the mayor. President—Lieut. Col. Dr. Harry R. Abbott.

First vice-president—Ex-Ald. J. H. Saunders. Second vice-president—Ex-Ald. B. W. Bennett. Third vice-president—Ald. F. G. Mitchell. Fourth vice-president—Judge W. H. Chittick. Secretary—Edwin Smith.

Wanted to Ring Out the Bell. Treasurer James S. Bell, who had acted as treasurer of the organization for a number of reunions, wished to decline the job on the ground that the city bylaws forbade any officer of the corporation to engage in private work without the consent of the board of control.

The mayor assured Mr. Bell that this consent would be forthcoming in his case, and the result was that the city treasurer consented to again perform the duties that he has so well looked after in the past.

The appointment of the various committees was left in the hands of the nominating committee which consists of the officers of the association and any members they may care to add.

Surplus of \$737. Treasurer Bell reported that the association had a surplus of \$737.01, with all accounts paid. As may be seen from this the organization is in splendid shape, and from the enthusiasm displayed at last night's meeting the coming reunion will be the greatest affair of its kind ever held in London.

The color scheme to be used in the reunion was left in the hands of the decoration committee.

After Amusement Contract. The representatives of two amusement enterprises were present to present their propositions to the association, but this matter will be taken up by the entertainment committee. One of the advance agents suggested that the meeting of the entertainment committee be a public affair where the ambassadors from the two amusement houses could be present to exploit the merits of their respective shows, the engagement of one or the other hanging on the vote cast in the hall.

At the meeting last night J. M. McEvoy was present, and it was said that he was there partly in behalf of one of the amusement enterprises tending to the contract. It was suggested to the representative of the other company that he should make an effort to secure Sir George C. Gibbons to present his case, so it is possible that the meeting of the entertainment committee will see two of the city's foreign legal rights discoursing upon the merits of their respective clients' shows, and battling in high-flown language for the contract.

The membership fee was left at the same figure, viz., one dollar the year. Among those present were: Lieut. Col. Dr. Harry R. Abbott, Ex-Ald. B. W. Bennett, Edwin Smith, R. A. Carrothers, James H. Horvick, John C. Fitzgerald, J. W. McEvoy, the Mayor, W. H. Abbott, J. H. Bastia, Fire Chief William Attkin, John Eggert, E. W. Harrison, E. W. Scott, Col. Francis Ferrar, W. A. Shanahan, Victor D. Levitt, Walter Carrothers, City Hall Superintendent Harry Merritt, W. L. Taylor, W. J. Armstrong, C. E. A. Webb, Charles Brennan, J. Harry Fowler, J. Ellison Young and many others.

ARRESTED FOR THEFT

Sample Drink Alleged to Have Been Too Much For Youths.

[Special to The Advertiser.]

Blenheim, Jan. 15.—Two young men, James Marshall and Clifford Early, are in jail tonight charged with house-breaking. They were arrested by Chief Earl, and brought before Magistrate Greenwood, and were remanded until Saturday.

Bailed in the sum of \$500 each was asked, but could not be raised.

It is alleged they stole a gallon jug of whiskey from the house of a party who had on Monday evening given one of them a sample drink. In their haste the jug was left on the sidewalk and broken, and the booze all spilled. Interesting developments are expected at the trial.

OPPOSE LEASING

Wool Growers Object to Bill Before Congress.

[Canadian Press.]

Salt Lake City, Jan. 15.—At the fifteenth convention of the National Wool Growers' Association, which opened here today, opposition developed to the proposed leasing of public lands, as provided in bills now before Congress. Speakers, however, generally urged the sheepmen to adjust themselves to existing conditions, and "act as cattlemen would in a stampede—ride in front of the herd and guide it out of danger, instead of merely opposing."

The convention listened to the annual address of President Frank J. Hagenbarth.

Newly Elected Secretary of London Old Boys

EDWIN SMITH, Son of the late H. T. Smith, who for years superintended of the London Street Railway. City representative of T. B. Escott & Co., Limited, wholesale grocers. Mr. Smith is well known in London. He has been connected with the old boys since its organization and was secretary of the Sports committee at the last reunion.

TREASURY WARRANTS FOR PRUSSIAN LOAN

Government Tries New Plan in View of Poor Success in Past Year.

[Canadian Press.]

Berlin, Jan. 15.—The loan of \$100,000,000 to be floated by the government of the Kingdom of Prussia on January 29 is to take the shape of a new form of four per cent treasury warrants, in view of the lack of success of the government issues made during 1913. It is to be offered on better terms to the public, being issued at 97 and is to be redeemable at par in from one to sixteen years. The loan issued in June last year was at 97-90 and that in March at 99, and these were largely unsubscribed.

BANK OF COMMERCE ANNUAL REPORT

After all Expenses Paid, Bank Shows Good Surplus—Many New Branches Opened During Year.

Toronto, Jan. 15.—The 47th annual meeting of the shareholders of the Canadian Bank of Commerce was held in the banking house at Toronto on the 13th of January, 1914, at 2 o'clock.

The following report was submitted to the shareholders:

"The balance at credit of profit and loss account brought forward from last year was \$71,578.88, and net profits for the year ending Nov. 29, after providing for all bad and doubtful debts, amounted to \$2,892,951.10.

This has been appropriated as follows: Dividends at 10 per cent per annum, \$1,500,000; bonus of 1 per cent payable June 1, \$150,000; bonus of 1 per cent payable Dec. 1, \$150,000; written off bank premises, \$500,000.

Transferred to pension fund, annual contribution, \$80,000. Transferred to reserve account, \$1,000,000. In accordance with their usual custom, the assets of the bank have again been carefully valued and ample provision made for all bad and doubtful debts."

The following branches were opened during the year: In British Columbia—Comox, Courtenay, Pandora and Cook (Victoria), and Parkville. In Alberta—Highland, Monitor, Peace River Crossing and Redtail. In Saskatchewan—Kincaid, Redwin, Shaunavon, and Wiseton. In Manitoba—Kelvin street (Winnipeg). In Ontario—Oshawa and Port McNicol. In Quebec—Upper Town (Quebec). In New Brunswick—Campbellton, Moncton and West St. John.

LUSITANIA SAVED CREW OF SCHOONER

Reports That Vessel Was Mayflower, of Nova Scotia. But This Is Disproved.

[Canadian Press.]

New York, Jan. 15.—The commander of the Cunard liner Lusitania, which sailed from here on Wednesday for Liverpool, sent a wireless message to the line today saying that at 8:30 o'clock this morning, in latitude 42.12, longitude 50.30, the Lusitania had rescued the crew of eight men from the Nova Scotian schooner Mayflower. The schooner was abandoned and set on fire.

Marine records show that the British schooner Mayflower left port Humber, N. J., on December 30, for St. John, N.B., and touched at Booth Bay, Me., on January 10. She could not possibly have been in the position indicated by the Lusitania today. No other Mayflower of the schooner type is recorded.

"CAFETERIA EVENING" FOR CLUB MEMBERS

Dundas Centre Organization Adopt Novel Method of Entertainment.

In the form of a "cafeteria evening," a successful social and entertainment was held in Dundas Centre Methodist church Thursday evening, by Number Eight Club and the Men's Sunday Morning League. The committee in charge believe this form of social to be more effective in getting people acquainted than the old-fashioned supper at which the guests sit at the same table throughout the evening.

All the eatables occupied a central table and everyone had to help himself to "everything." Self service socials will probably be repeated monthly at Dundas Centre church.

Albert E. Cayley presided and introduced the programme which included an address by Rev. A. J. Jones; a reading by Fred W. Daly, B. A.; a ghost story by Professor James H. Bowman; a tenor solo by Mr. Dodgson; a recitation by Bert Hannah; and a bass solo by James Fowler. Morris, organist of Dundas Centre church, was accompanist for the musical numbers.

FOREIGN MISSION GIVING DECREASED

According to Conference Figures, Which, However, May Not be Authentic.

[Canadian Press.]

New York, Jan. 15.—Protestant congregations and their members in the United States and Canada spent \$61,458,000 in 1913 in foreign mission work, according to figures issued by the foreign missions conference which closed its sessions here yesterday.

The amount is lower by \$17,317,000 than the outlay of 1912. It was stated, however, that this indicates a real decline, because the statement for 1913 is the first authoritative one issued, former statistics having been compiled in an unsatisfactory manner.

COMPLETES TERM IN KINGSTON; REARRESTED

Reginald Middleton Is Wanted at Wellesley on Grand Larceny Charges.

[Canadian Press.] Kingston, Jan. 15.—Detective Archibald, of Toronto, was here this morning, and left for Toronto with Reginald Launcelot Willoughby Middleton, who completed a four-year term for forgery, having been sentenced from Toronto, Middleton will be deported to Wellesley, Mass., where charges of grand larceny have been made against him.

BIT ANTAGONIST SUED FOR DAMAGES

Man Injured in Fight May Lose Several Fingers.

[Canadian Press.] Kingston, Jan. 15.—John Banks and William Young, living at Perth road, got into an altercation, and Young bit Banks on the face and hands. The latter suffered very serious wounds and is now threatened with blood-poisoning. Banks is suing Young for damages, but the case had to be postponed owing to Banks' condition. He may have to lose several fingers.

BANK OF TORONTO ANNUAL REPORT

Assets Show an Increase of 1,698,616 Dollars.

Toronto, Jan. 15.—The 58th annual report of the Bank of Toronto shows a successful year's business.

The profits for the year, after making the usual deductions for expenses and bad and doubtful debts, \$350,694; a little over 11 per cent on the capital. To this is added \$176,573, balance from the previous year, and \$203,000 from former appropriations not required, making a total amount for distribution of \$1,227,272.

Dividends at 10 per cent, and bonus 1 per cent to shareholders, called for \$800,000.

Usual appropriations to officers' pension fund, \$20,000. Written off bank premises, \$500,000, being about 10 per cent of the total amount, and making \$500,000 written off in the past three years.

Amount carried forward in profit and loss, \$307,272, which, with the rest of \$9,000,000, made total reserve funds exceed the paid-up capital of \$5,000,000, by \$1,307,272.

General statement: Deposits show increase of \$1,684,250, a satisfactory showing, in view of the vast withdrawals of deposits throughout the country for other investments.

Assets immediately available, \$14,072,236, equal to 28.34 per cent of liabilities to the public, and an increase for the year of \$1,883,018.

Loans, \$42,478,485. After allowing for the different method of treating the rebate of interest called for by the new act, a net decrease of \$1,068,017 is shown, indicating the ability of the bank to strengthen its position by turning part of its loans into available funds, while at the same time taking care of the needs of its many customers at points scattered from Gaspe to Victoria.

It is noticeable that the statement does not include any "loans elsewhere." Total assets, \$50,925,164, an increase for the year of \$1,698,616.

EMPEROR ADVISES PRINCE TO REFUSE

Thinks Albanian Throne Would Be No Bed of Roses—Assassination Probable.

[Canadian Press.]

Berlin, Jan. 15.—The Tagliche Rundschau learns that the emperor has repeated conversations with Prince William of Wied, counselling him not to take the Albanian throne. The emperor, according to the same authority, has also expressed himself to others as most pessimistic over the outlook for the prince. This view is shared by many prominent personages, who believe that the prince would be in constant danger of assassination by fanatics.

REMOVAL OF DUTY MERELY A CANARD

It Is Now Believed the Wheat Tax Will Stay—Speculators Win.

[Canadian Press.]

Calgary, Alta., Jan. 15.—Some well-informed grain men assert that the story that the Dominion Government was likely to eliminate the duty on American wheat is now said to be a canard. Speculators are believed to have made some millions of dollars on the rise, and expect to make another substantial clean up again when it becomes known the duty is to remain as it is.

WIVES AND MOTHERS APPEAL TO M'BRIDE

Ask Clemency Towards Imprisoned Miners—No Promises Made Them.

[Canadian Press.]

Victoria, B. C., Jan. 15.—The executive chamber of the provincial building has probably never witnessed a more affecting scene than that which took place yesterday, when upwards of sixty women, wives and mothers of the imprisoned miners from Ladysmith, Wellington and Nanaimo appeared before Premier McBride and appealed for clemency on behalf of those held for participation in the riots of last August. Premier McBride would make no promises with regard to clemency, pointing out that such a matter as this lay with the authorities at Ottawa.

PERTH DOCTORS MEET

[Special to The Advertiser.]

Stratford, Jan. 15.—Dr. A. F. McKenzie, of Moncton, is the new head of the Perth County Medical Association, his election taking place at the quarterly meeting held here today. Medical men from Goderich, Clinton, Mitchell, St. Marys, Sebringville, Dublin, Moncton and Stratford were present.

A banquet preceded the meeting, at which Drs. F. N. G. Starr and R. D. Rudolph, both of Toronto, gave medical addresses.

The elections resulted as follows: President, Dr. A. F. McKenzie, of Moncton; vice-president, Dr. C. F. Smith, of St. Marys; secretary-treasurer, Dr. F. J. R. Forster, of Stratford.

The local representatives were appointed as follows: Stratford, Dr. G. R. Deacon; Mitchell, Dr. A. D. Smith; St. Marys, Dr. J. R. Stanley; Listowel, Dr. J. Moore.

New Home Treatment For Removing Hair

(Modes of Today.)

The following formula is now almost universally used by beauty specialists for banishing hairy or fuzzy growths from the chin, lip or cheek: Get from a druggist a small original package of delatone and mix enough with water to cover the hairs not wanted. Apply and in about 2 or 3 minutes remove and with it comes every bit of hair. The skin should be washed following this treatment to remove the remaining delatone. Be careful to get the real delatone, otherwise you might be disappointed.

LITTLE TALKS

[Copyright, 1913, The International Syndicate, Baltimore.]

No. 56

IN the window of a store located in the heart of the retail shopping district, I saw, the other day, a crudely hand-lettered cardboard sign, about 12 inches wide by 6 inches deep. It was practically buried among a lot of miscellaneous merchandise, and read:

Sales Lady Wanted

Now, let's see: How many out-of-job sales-ladies pass that store in the course of a day? I guess 50. That's a fair estimate, isn't it? How many of the 50 will stop to look in that window and discover the little cardboard sign? Say, 10 per cent. That's 5. The store isn't a particularly attractive one, and wouldn't convey the idea that a good salary is attached to the vacancy in the sales force. So I figure that only three out of the five who see that sign would apply for the job. That makes three applicants a day for the proprietor of that store to select from.

Suppose the proprietor, instead of depending on an obscure sign in his window, should insert in this newspaper a little Want Ad. in the "Help Wanted—Female" column. Suppose he worded his ad. something like this:

WANTED—A NEAT, COURTEOUS saleslady: one with experience preferred. Apply, Blank's, 2000 West Lexington street.

That ad. would cost him, say, thirty cents or so. Several hundred women would read that ad. and, instead of having only a few applicants to select from, he would have quite a number—and of a better class than those who walk the streets in search of employment.

Such is the power of advertising—and, really, isn't it quite simple and inexpensive?

DAIRYMEN HAVE ALWAYS MARKET AT THEIR DOORS

Experts Discuss the Situation
at Convention.

WELCOME NEW PRESIDENT

Prof. Doan Tells of Cheese
Business.

[Special to The Advertiser.]

Stratford, Jan. 15.—To the dairymen of Western Ontario who have believed that the crowning success of their industry is the securing and holding of a great foreign trade, Mr. T. W. Steinhoff, of Toronto, pressed the truth at today's session.

"Our best butter market is right at our own doors, in our towns and cities," he declared in addressing the convention on defects in Ontario butter when it goes into storage and when it comes out.

"The quality of Western Ontario butter compares favorably with any other when it comes from a six or seven months' stay in cold storage," he said. "Taste and taints come largely from the creameries themselves."

That butter from this part of Ontario has met with continual failure against that of Eastern Ontario and Alberta was a matter of regret to him.

"Poor flavor and coarseness of texture are the chief defects," said Mr. Steinhoff, and he advised that more attention be paid to the finish and uniformity in the weight of the boxes.

Tells About Cheese.
Mr. Robert Johnston, of Woodstock, who spoke on cheese, had, in his experience, noticed that this product was often in poor shape when it arrived at the storage plant, and that the boxes frequently were broken. Careless boxing and failure to indicate by marks on the boxes that there were defects in the cheese were other things to be remedied.

Light salting, he stated, gives to the May and June butter a better taste.

Prof. Doan's Address.
In an address entitled, "Cheese Notes," Professor H. H. Doan, of the O. A. C., gave a large amount of very valuable information.

The subject was considered under four headings—Cheese: milk production, cheese manufacture, cheese selling and cheese consumption; under cheese: milk production, the need of larger herds of cows, milked by machinery, and having the milk delivered to the factory direct from the

farm or on large vans was considered necessary in order to reduce the cost of hauling, which is one of the greatest financial difficulties in the cheese business under present conditions.

The use of pure-bred dairy sires was advocated, these to be supplied through breeding associations, farmers' clubs or by the factory management. In the latter case, fees for same to be deducted from milk check, similar to charges for manufacturing cut cheese, etc.

Need Larger Factories.
Under cheese manufacture, larger factories and reduced cost for manufacturing were advised. The men making cheese in small factories at small profit would probably turn their attention to farming, as did the shoemakers, tailors and wagon-makers in country districts 25 years ago, when their business was taken over by the larger manufacturing concerns, with consequent cheapening of boots, clothing and wagons.

Good Cheese Scarce.
The cheese consumer finds difficulty in being able to buy good cheese in Canada, although he pays a much higher price as a rule, than does the British consumer. The reason for this is that most of the best cheese is exported, and the cull cheese are sold in many cases to Canadian consumers, who consequently do not buy very much cheese.

Another cause of lack of cheese consumption in Canada is the fact that Canadian consumers do not appear to realize the value of cheese as human food. Scientifically a pound of cheese is equal to a pound of beef for human consumption. Cheese has the advantage over meat in that it does not require cooking, but it is so desirable to cook in a variety of ways. It is more easily digested than meat and there is practically no waste on cheese.

Cheese at least once a day would give a variety on the tables of rich and poor at low cost, considering its nutritive value, and would stimulate the cheese industry of Canada, which is not in so flourishing a condition as might be expected, seeing its inception in 1884.

Valuable Statistics.
Mr. R. M. Ballantyne, of Montreal, gave some statistics. Our cheese exports are down to about 1,600,000 packages, a decline of 2,400,000 packages. The effect of the new United States tariff in the east of Canada has been at tremendous export of cattle, including many calves, so that it will be five years before the beef famine is over. "In 1914 we will export several thousands of packages less of cheese than in 1913, and the prices will be the highest ever paid for cheese in Canada."

Butter prices will be regulated by the world market, as we are now on a butter importing basis," said Mr. Ballantyne.

Fair Prices.
Fair prices reigned at the hammering off of the products in the market station preceding the afternoon session. J. W. Scott, of Exeter, called for the bids, and a. Grimes, of Woodstock, did the bidding.

Best of 1913: September, colored, 14 cents per pound; October, colored, 13½ cents per pound; Canada, white, 13½ cents per pound; Canada, still, 14½ cents per pound; Canada, still, 13½ cents per pound. Butter—Winter creamery, box, 27 cents per pound; prints, 29 cents per pound; October made, 27½ cents per pound.

Presented Trophies.
The presentation of trophies, some practical addresses and the introducing of the new president brought the convention of the Dairymen's Association of Western Ontario to a close. From every point of view the gathering was a splendid success.

The new president, J. B. Muir, of Ingersoll, in a brief, neat speech, thanked the association for his election and made a promise to be unsparring in his endeavor to push forward the progress of the dairy industry.

George A. Putnam, of Toronto, presented the trophies. "Co-operation," he said, "has been the salvation of farmers in European countries. Ontario farmers, too, can benefit from it."

Votes of Thanks.
Concluding the convention the association thanked the mayor, the city council, and the board of trade, as well as the citizens of Stratford for the assistance given. The press, those who had given special prizes and the Department of Agriculture, both Provincial and Federal, also were thanked for the aid they had given to the dairy industry.

The challenge cup, given by the "Cheese Buyers" for the highest score on cheese (except flat and still), for three times, or twice in succession, was won for 1914 by George Empey, of Newry. The silver cup, given by the Imperial Bank of Canada, under similar conditions, went to Mrs. C. Cuckow, of Mount Eggin, for this year.

The De Laval silver was won by John H. Scott, of Exeter.

CANNOT DISCOVER RAMPOLLA'S WILL

Searchers Found Money and
Valuables In Secret Drawers
—An Arrest Expected.

[Canadian Press.]

Rome, Jan. 15.—Those who have undertaken the task of searching the apartment of the late Cardinal Rampolla for a last testament bearing a later date than that of 1889 are beginning to fear that it will not be found. It is reported that the authorities are about to take more energetic measures which will include the arrest of one of the men employed in the Cardinal's household.

The examination of the apartment continued today, particular attention being given to the furniture of the bedroom, most of which was taken apart. The writing desk was found to contain secret drawers in which were found many valuables. In an envelope in the safe was found a handkerchief containing \$7,000 which was handed to the Cardinal by a foreign visitor to be distributed among the poor. Beginning Jan. 21, a complete inventory will be taken.

Papers in West Shore Railway
Case.

[Canadian Press.]

Toronto, Jan. 15.—A search warrant sworn out by J. W. Moyes has been the means of landing two volumes full of papers into the keeping of J. Seymour Corley, K. C., city crown attorney.

Subpoenas from the Ontario Railway and Municipal Board were served this morning, and will insure the production of the unopened volumes in the presence of the board next Monday, the date fixed for Mr. Moyes' explanation of the affairs of the Ontario West Shore Railway.

Two volumes were brought into the custody of the officers at the initiative of Mr. Moyes.

Anglican Sub-committee Completes Its
Task—Result Not Ready For
the Public.

[Canadian Press.]

St. Catharines, Jan. 15.—After a week's deliberations with the idea of simplifying and enriching the prayer book used in the Anglican churches of Canada, the sub-committee appointed for that purpose completed its work today and adjourned.

The meetings were held in St. Parish Hall, three sessions being held each day, with Right Rev. Dr. Williams, bishop of Huron, presiding, and Ven. Archdeacon Armitage, of Halifax, as secretary.

The report will recommend the addition of special services and special lessons for special purposes and occasions, with certain changes in the phraseology where it may have been considered antiquated.

Aylmer Hotelmen Found Not Guilty
Of Serving Minor.

[Special to The Advertiser.]

Aylmer, Jan. 16.—F. H. Trim, proprietor of the Brown House and E. L. Nichol, proprietor of the Central Hotel, were charged before County Police Magistrate Hunt today with unlawfully allowing liquor to be supplied to a minor, Herbert Davis of Fairview, on December 30th.

W. H. Barnum appeared for Trim and County Crown Attorney McCrimmon prosecuted.

After considering the evidence the magistrate found that Davis was "apparently" twenty-one years of age, and dismissed the charges without costs.

The magistrate asked the opinion of several prominent citizens as to the age the boy and his friends looked. One said he looked over 21 years, the others were doubtful.

The council chamber was crowded with those interested in the case.

BIG MAY OFFERING MET BRISK DEMAND

Milder Weather Brings More Potatoes to Market—Eggs Easier But Still High.

Hay featured on the local market today with an offering exceeding thirty loads. The quantity for sale on the square during the past week has been small, and trading was active, this morning as a result. Prices for the commodity were \$13 to \$15.

Oats were in demand this morning at \$1 to \$1.05. The supply was above the average, but the farmers experienced no difficulty in disposing of their loads. Wheat was firm at 85 to 86 cents.

Eggs are easier as the result of the milder weather. The price is 42 to 45 cents. Butter is firm and high, as listed.

Potatoes are easier today as the result of the milder weather. The supply down to "fill," the farmers fearing that the market would be frozen. The retail price is 90 cents per bushel. Other vegetables are as listed.

Butcher's meats are firm and high with the usual offering.

Poultry is slow and prices will probably not change for some time. The demand is an average one.

Beautiful American Girl Mexican Rebel Chief Is Reported to Have Made His "Captive Bride"

SENORA FRANCESCA VILLA.

The beautiful cashier of the American Clothing Company's store at Toronto, Mexico, who, it is reported, General Francisco Villa, rebel chief, forcibly married in three to four weeks. When Villa left Toronto on his successful capture of Juarez and Chihuahua, he and his wife drove off in the grandest carriage he could obtain and a guard was seated on the box beside the coachman. Those who saw the couple say the bride seemed resigned to her position.

PRISON COMMISSION SOON READY TO REPORT

Labor Question is Taking up Interest at Present.

[Canadian Press.] Kingston, Jan. 15.—The members of the prison reform commission are at last on the final stage of their work. Before leaving for Toronto this afternoon, G. M. Macdonnell, the chairman, stated that he expected to have his report ready for the Government inside of three to four weeks. The principal matter which is taking up the attention of the commission now is the labor question and the chairman is in hopes of securing information which will be of great value to the commission at the session to be held in Toronto tomorrow, when prominent labor men will give evidence before the commission. On Saturday the commission will take up parole work with the prison parole board.

The chairman will return from Toronto on Monday, where arrangements will be made for the commission's trip to St. Vincent de Paul penitentiary. After this prison has been inspected the commission members will be ready to frame their report.

The commission held its first session in Kingston on October 1 and has been in session off and on since then.

French Minister of Finance Presents Plan in the Chamber of Deputies.

[Canadian Press.] Paris, Jan. 15.—Joseph Caillaux, the minister of finance, presented in the Chamber of Deputies this afternoon the new French cabinet's proposed solution of the budget difficulties which have been agitating France and which brought about the downfall last month of the Barthou ministry. M. Caillaux proposes to meet the deficit of \$158,800,000 in the 1914 budget so far as possible without resorting to the loan of a sum greater than \$33,600,000, the loan to be of the short time variety.

The extraordinary expenditure for the army of \$242,000,000 and that for the navy of \$84,000,000 will be met by four rapidly redeemable loans to be issued separately during 1914 and 1915, thus avoiding the overburdening of the money market with a single issue.

M. Caillaux counts on obtaining \$38,000,000 from the proposed graduated tax on capital, \$30,000,000 from the income tax, \$10,000,000 to \$20,000,000 from new taxation, notably that of petrol and from economies to balance the 1915 and future budgets.

FORMER LONDON MAN NEW YORK SUICIDE

Jumped From Fourth Floor of Bellevue Hospital—Despondent With Illness.

New York, Jan. 15.—Frederick Pisson, a Canadian 27 years old, who has been in this city two weeks, committed suicide at 6:15 Thursday afternoon by jumping from the balcony of the fourth floor of Bellevue Hospital. He was despondent because he had tuberculosis of the spine and believed he would not recover.

Pisson had a year ago resided here for a few weeks with a family on Maitland street north. He later went to work for a farmer named Smith the other side of Dorchester. After he left the farmer all trace of him was lost.

A letter sent from Toronto, signed "Bob," was found on his body by the New York authorities. The body at present is in charge of a coroner, and the New York police are making an effort to find the dead man's relatives.

MANITOBA OPPOSES ABOLISHING THE BAR

[Special to The Advertiser.]

Winnipeg, Jan. 15.—The Manitoba Legislature decided today against taking a referendum on the question of abolishing the bar in this province. The resolution came from the Opposition side of the House, its sponsor being J. B. Baird, member for Mountain, who introduced a similar resolution last year.

Senator Roblin moved in amendment that it would be undesirable to change from the present system, and affirming the principle of prohibition by means of local option. The Premier urged that to abolish the bars would simply drive the business into the hands of the wholesalers. The Opposition tried to have the Premier's amendment ruled out of order, but the Speaker refused to rule in their favor and his decision was upheld by a straight party vote, 23 to 12. The amendment was afterwards carried by a similar vote.

Liberal Leader T. C. Norris today introduced a resolution asking the Dominion Government for free trade with the United States in agricultural implements. The debate on this was adjourned.

Windsor.—On the request of Robert Rell, who was defeated by one vote in election, Judge Drummond, of Windsor, has ordered an official recount. No corruption is charged.

The Skin Troubles of Childhood

School Records Show Much Time Lost From Eczema.

Chafing and skin irritation, whether from changing temperature, rough winds, strong soap or the action of the clothing, naturally develop into eczema, spread over the body and defy ordinary treatment.

Most doctors do not give much attention to skin diseases, and, consequently, it is necessary for parents to select some treatment which has proven a cure for such ailments. If records of cures count for anything, then you can turn to Dr. Chase's Ointment with fullest assurance that in this you will have the means of controlling itching skin diseases.

By affording prompt relief from the terrible itching, Dr. Chase's Ointment puts an end to suffering, and removes the cause of scratching. As the fires of eczema die away the ointment sets up the process of healing, and brings about thorough and lasting cure. As a treatment for the skin troubles of children nothing has ever proven so satisfactory as Dr. Chase's Ointment.

Floors that Safeguard Health

The floor is the logical collecting-place for dust and germs. Resting and breeding there they are a menace to health—particularly the health of the children.

RONUK FLOOR POLISH

Is an effective antiseptic and germicide. Not only does it sink into the pores of the wood and seal up all crevices that harbour germs, but it actually kills them.

It forms a surface so smooth that it is kept perfectly clean by simply wiping with a dry cloth—no more scrubbing—and it is easier and more economical to apply and keep polished than ordinary wax or varnish.

THREE-YEAR-OLD BOY DROWNED

St. Catharines, Jan. 15.—The little 3-year-old son of Joseph Vallee was drowned in the raceway near his home on the Thorold road this evening. The little fellow slipped and fell into the water, and was carried by the swift current half a mile down the raceway to the Packard Electric Company, where the body was taken from the water.

BODY IS UNCLAIMED.

[Special to The Advertiser.] Windsor, Jan. 15.—The body of the late Frank Holland, aged 55, who died last Sunday in Hotel Dieu, Windsor, has not yet been sought by relatives, believed to live either in Essex County or in Toronto.

The Bank of Toronto

Report of the Fifty-Eighth Annual General Meeting

The Fifty-Eighth Annual Meeting of the stockholders of this Bank was held at their new Banking House, corner of King and Bay Streets, Toronto, on Wednesday, 14th January, 1914.

The President, Mr. Duncan Coulson, occupied the chair. Mr. Thos. F. How, the General Manager, acted as secretary, and Messrs. George R. Harcourt and E. M. Chadwick were appointed scrutineers.

The Secretary read the following report: The Directors of the Bank of Toronto beg to present their report for the year ending 29th November, 1913, accompanied by a statement showing the condition of the Bank on that date and the result of the operations for the year.

PROFIT AND LOSS ACCOUNT.

The Balance at credit of Profit and Loss, on 30th November, 1912, was	\$ 176,578 24
The Net Profits for the year, after making full provision for all bad and doubtful debts, and deducting expenses, interest accrued on deposits and rebate on current discounts, amounted to the sum of	850,693 35
Received from debts recovered previously written off	200,000 00
	\$1,227,272 09

This sum has been appropriated as follows:	
Dividends at Eleven Per Cent.	\$550,000 00
Bonus, One Per Cent, making a total distribution of	50,000 00
Twelve Per Cent.	600,000 00
Transferred to Officers' Pension Fund	20,000 00
Written off Bank Premises	300,000 00
Carried forward to next year	307,272 09
	\$1,227,272 09

There has been world-wide financial stringency throughout the year, but the volume of business in Canada has again been large. The reports of the Trade and Commerce Department show increases, and the development of the country has gone forward. Banking resources have shown very slight increases. The demand for money has been urgent, and the Bank's available funds have been steadily employed.

The Bank entered into occupation of their new banking house on the second day of July last, and since that date the operations of the Bank have been carried on in this building.

A branch of the bank has been continued in the premises formerly occupied as the Head Office, and branches have also been opened at Victoria, B.C.; and Meyronne and Mazenod, Saskatchewan; Richmond, Alberta; Kerwood, and Yonge Street and Yorkville Avenue, Toronto, in Ontario. We have also closed some small offices that did not give promise of becoming profitable.

The form of General Statement submitted to you is in accordance with the requirements of the Bank Act passed in the last session of Parliament, and gives fuller details in some particulars.

The Head Office and branches of the Bank have been regularly inspected by our Inspection Staff. At the Head Office, the cash, securities, loans, and balance sheet have been verified by a committee of the Board of Directors.

The Auditor appointed by the Stockholders at the last Annual Meeting has made his examination into the affairs of the Bank, and his report upon the same will be found appended to the General Statement submitted herewith.

Under the provisions of the Bank Act it is now compulsory for the Stockholders to elect an auditor or auditors, and report upon the statement to be presented to the Stockholders at the next succeeding Annual Meeting. We have endeavored to inform you that we have been formally notified in writing by one of our Shareholders that he will, at the Annual General Meeting, nominate Mr. Geo. F. T. Clarkson, C.A., to the office of Auditor of this Bank for the next ensuing year, and this name will therefore be submitted to the Stockholders for their consideration.

It is with sincere regret we have to report the loss the Bank has sustained through the death of Mr. Robert Reford, who was for twenty-one years a Director of this Bank. He took a deep interest in all its affairs, and was unwearied in promoting its success. His intimate knowledge of the business of the country, and his high standing in the community, made him a most valuable member of the Board, and his advice and co-operation were always freely given.

To fill the vacancy thus caused, the Board elected Mr. William I. Gear, who for many years was associated with Mr. Reford in his business interests, and who has already proved to be a worthy successor and an active member of the Board.

D. COULSON,

THOS. F. HOW,

Toronto, 29th November, 1913.

I have examined the Books and Accounts of the Bank of Toronto at its Head Office and two principal branches in Montreal and Toronto, and checked the cash and verified the investments and securities on hand there as at the close of business on November 29th, 1913, against the entries in regard thereto in such books as are required to be kept by the Bank, and I am satisfied that the same are correct.

I certify that the foregoing statement of Liabilities and Assets as at November 29th, 1913, is in agreement with the books, and properly drawn so as to exhibit, in my opinion, a true and correct view of the state of the Bank's affairs according to the best of my information, the explanations given to me, and as shown by the books of the Bank.

G. T. CLARKSON,

Chartered Accountant.

Toronto, December 23rd, 1913.

After the Report had been read, the President addressed the meeting, and moved the adoption of the Report, seconded by the Vice-President. This motion was carried, as also a resolution expressing the thanks of the Shareholders to the President, Vice-Presidents and Directors for their efficient services during the past year.

In accordance with previous notice given by him, Mr. J. C. Black nominated Mr. Geoffrey T. Clarkson, C.A., as Auditor of the Bank, as required by Section 56 of the new Bank Act, and resolution to that effect was duly carried by the meeting.

The following Directors were elected for the ensuing year: William George Gooderham, Charles Smith Hyman, William Stone, John Macdonald, Albert Edward Gooderham, Nicholas Bawit, Duncan Coulson, Joseph Henderson, Frank Stephen Meighen, Jacob Lewis Englehart, William Inkermann Gear. At a subsequent meeting of the new Board, Mr. Duncan Coulson was unanimously re-elected President, Mr. W. G. Gooderham, Vice-President, and Mr. Joseph Henderson, Second Vice-President.

Jury Investigated Death of Walter Pollock at Woodstock.

[Special to The Advertiser.] Woodstock, Jan. 15.—A verdict of accidental death was rendered this evening by the jury investigating the death of Walter Pollock, who a couple of weeks ago had both legs crushed as the result of being run over by a G. T. R. passenger train at the depot. The evidence went to show that he was still in motion, and he also stepped off backwards. No blame was attached to any of the railway officials.

MR. AND MRS. J. JOHNSTONE WEDDED 50 YEARS AGO

Enjoyable Celebration Was Held at Home of Popular Ashfield Township Councillor.

[Special to The Advertiser.] Lucknow, Jan. 15.—A most enjoyable celebration took place on Thursday at the home of Mr. and Mrs. James Johnstone, Coldstream Farm, township 10, of Ashfield Township, in honor of the anniversary of their golden wedding.

Both have gone through all the hardships of pioneer life in this district. They were married in 1864. Mrs. Johnstone was formerly Miss Mary A. Marshall, and resided near Clinton, when she spent the first few years of her married life.

Mr. Johnstone was the recipient of a gold watch and a handsome pair of cuff links, and Mrs. Johnstone received a beautiful gold bracelet, gold fruit spoon and toilet set.

F. F. Pardee Will Address Series of Gatherings in District.

[Special to The Advertiser.] Sarnia, Jan. 15.—A series of Liberal meetings, to be held throughout the riding of West Lambton, has been arranged for by the party leaders here for the purpose of organization. They will be addressed by F. F. Pardee, K.C., M.P., and will be held in the different localities at 3 p.m. each afternoon.

The first will be in the township hall of Plympton township on Monday next. On Tuesday the meeting will be in the Sarnia township hall; on Wednesday in the Moore township hall, and on Thursday in Sheppard's hall at Sombr.

Nervous Energy Is Limited

There is only so much energy in the human body. A few people have an abundance, but more have not enough. Hence the necessity of conserving vitality.

If wasted by mode of living, disease or worry there must be a reaction, and trouble is sure to come. It may be headaches and weak, aching eyes; it may be nervous indigestion, or it may be merely lack of energy and ambition, and feelings of fatigue or helplessness. Of course the sooner or later exhaustion of the system leads to prostration, paralysis or locomotor ataxia, but there is no need to let the trouble develop that far.

By using Dr. Chase's Nerve Food you can restore to the feeble, wasted nerve cells the energy they have lost. It will take some effort on your part to give up worry and anxiety, but you should realize your serious condition. Rest and use this great food cure and you are bound to improve in health and vigor.

**EXPERIENCE
OF MOTHERHOOD**

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children have been born because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

EDWARDS' SOUPS

It helps with scores of dishes

Inside a packet of Edwards' Soup cook has the secret of scores of successful dishes. It is Edwards' Soup which imparts that distinctive flavour to her stews, Edwards' Soup that puts such savouriness into her gravies, Edwards' Soup that gives such nourishment, such colour and such substance to her own soups, Edwards' Soup that forms the basis for her hashes, Edwards' Soup that sends down the bills and sends up cook's reputation. Cook always gives Edwards' Soup half-an-hour or more on the stove—she says it's worth the time twice over.

EDWARDS' SOUPS

But you MUST boil them for half-an-hour — worth it.

Edwards' Soup is good as a soup by itself, it is good as a strengthening of other soups; good as a thickener of gravies; good for hashes, good for stews — too good to be spoiled by insufficient boiling.

How Mrs Bates' Savings
Prevented Home Disaster

Marjory McMurchy in Toronto Star.

The Bates family, like all families who can, had a gathering at Christmas. This year, however, the gathering lasted longer than usual because Simpson Bates was home from Graitown, a thriving western town of three hundred inhabitants. Simpson had lately married a girl who lived on the prairie near Graitown. He had brought her home so that his mother and sisters might know her and see many of his brothers as he happened to spend Christmas at the old home. Clara was a bright, optimistic, wholesome, happy girl, and the whole Bates family had taken to her with one accord. She had been astonished, however, to find that her husband Simpson was known to his family as Sim. Mr. Simpson Bates had never been known as Sim in Graitown. When he was called anything but Bates, they called him "Toothpick" Bates, on account of his elongated and decidedly slender figure.

The Bates family consisted of Mrs. Bates, the mother of Simpson and all the others; of two daughters unmarried at home, whose names were Mollie and Grace; of one married daughter, Phoebe, who has two children; of one son, Peter, married in the home town; and of two other sons, Jimmy and Gladstone, who were both away from home. Jimmy was first mate on a merchant ship. Gladstone, in business as a large and energetic farmer. Mrs. Bates had been a widow when Grace the youngest, was a year old. She had been a teacher before her marriage and after Mr. Bates died, she began to teach again immediately, earning most of the money which came into the family exchequer. Fortunately, Phoebe was the oldest of the family, and she was a great help at home since her mother had to work.

Had a Hard Struggle. The Bates family had a very hard struggle for a few years. But the boys and girls soon began to work, and all had good positions because their mother had insisted that they should go into work that needed education and some technical training. Mrs. Bates was an unusually able woman. She was a most successful teacher with a really uncommon capacity for managing unruly scholars. She had not been teaching many years after her husband's death, when she was made principal of a school, and her salary was a good salary as teachers' salaries go. One is happy to say that Mrs. Bates' work as a teacher was appreciated by the people of the place where she lived. When her children insisted that she would retire from teaching which happened at the time that she was sixty-five years old, Mrs. Bates had been for thirty years, continuously in the employment of the school board. She was given a pension of six hundred dollars a year, and expressions of gratitude from the crown-up pupils who had once been under her care. It was not a usual thing for pensions to be granted in that particular Canadian city. But out of Mrs. Bates' old boys was president of a local political organization and he was one of the people who helped to secure a pension for Mrs. Bates.

Thrown Into Lion's Den
to Please Movie Fans

ETHEL DAVIS.

Ethel Davis, Hollywood, Cal., is just recovering from the effects of a dangerous fall in one of those unprepared and unpremeditated accidents which occasionally happen in the production of a moving picture.

A short while ago when Edwin August was making "Into the Lion's Pit," a rather hazardous undertaking for several reasons, Miss Davis took the part of the hero's sweetheart sacrificed to the lions.

Her stunt was to be thrown into the pit where the lions roared. A sure-enough pit was dug, good and deep, and the plan was to catch Miss Davis in a net just below the surface. This was to be held by four strong men.

Then August gave the order to grind out the scene. The heroine was flung into the lion's den. But she fell to the bottom; one of the four corners of the net slipped.

none knew much about it. Mother Bates liked to keep her own business to herself.

A Pleasant Holiday. The Bates family had a very pleasant holiday season. Simpson and his wife stayed at home with mother and the girls. But there were frequent family gatherings, either at the old home, at Peter's house or at Phoebe's. Neither of the boys, Jimmy or Gladstone, had been able to come home this Christmas. They had all been very happy until it was understood that money matters were troubling Sim. He had been eager to provide for Clara, and after they became engaged he had put all his savings into some investments out West which he knew were good. But business had been dull since his marriage. He had not been able to get in the money he had expected, and now some payments were due in January which were really worrying Sim very much. Mrs. Bates' quick eye saw that there was something the matter with Sim. She taxed him with being not himself one afternoon. Sim tried to put her off, but Mother Bates insisted on knowing what was wrong.

"Now, mother," said Sim, "there is nothing for you to worry about. You have done enough for us in all the years when we were little. I am going to have a talk with Peter, but it did not seem to have done him much good. The only result was that now Peter looked grieved. Mrs. Bates spoke to both her sons this time. "Boys," she said, "suppose you tell me what is wrong. Do you remember the time when it wasn't any help to have a talk with mother?"

He didn't, that was the truth. But as Sim said, and Peter agreed with him, it didn't seem right to trouble mother with questions about money. Finally, however, the boys admitted that Sim needed fifteen hundred dollars or he would lose the best of his investments, and that seemed hard. Yet neither of them knew exactly where to look for that money. It wouldn't have been so very much for a capitalist. But the Bates boys had been on salaries themselves, and not very big ones either, until just a few years ago. Money was hard to get, and neither Peter nor Sim knew where to get it.

RECALLS OLD TIMES.

[Montreal Gazette.] The calling out of 60,000 burghers in South Africa to keep order in the strike zone recalls old times in the Transvaal. The situation is bad today, but is not to be compared with the last big mobilization. Now the burghers are planning to preserve peace. Then they were out to break it.

LORD BALLYROT IN LANGLAND

I chanced to visit an acquaintance in his room, old chap, and found him waiting impatiently for a bar of toilet soap, which the bell-boy had been ordered to fetch. At length the lad appeared. He was whistling, but minus the desired article, and my friend dispatched him in these words: "Say, kid, can that windpipe symptom and get on the job. When I phony and get on a bar of soap, I didn't want you to lop back after sunset with a bar of music. Do you think I can get the stovepipe talcum of this mussy burg off my map by just sloshing in a basin of hard-boiled water. Hurry up and train your beaver on the scent of a perfumed foam brick."

MY WORD!

PETROLEA.

Petrolea, Jan. 14.—Mr. Joseph Jackson, of Toronto, is here visiting friends. Mr. Jackson was in the lumber business for many years in Petrolea.

Mr. Charles Sharkey is going to Windsor for the winter months, as he expects to get a position in one of the Detroit factories.

Mr. Charles Bognner has returned to Petrolea and has taken up his work here.

Mr. Frank Stuart is visiting his parents, Mr. and Mrs. F. Stuart, James street.

FOREST

[Special to The Advertiser.] Forest, Jan. 14.—Rev. R. Simpson, of Camlachie, lectured in the Presbyterian Church last night on "Mission Work in the Peace River District." The lecture was illustrated with lantern views. The receipts totalled \$18. The young people danced of the season in the town hall last night. The London Harpers furnished the music.

Miss Ila Webster, of Ridgetown, is here visiting her sister, Mrs. Charles Anderson.

Tom Maylor spent the week-end in London.

M. G. Cole attended the funeral of his sister-in-law, Mrs. Frank Cole, of South Bend, Ind., recently.

Misses Rita and Irene Kennedy left today for Chatham to resume their studies at the Ursuline Convent.

BIBLIOPHOOLS.

[Washington Star.] That man who paid a fortune for a bogus rare book must be a very indignant bibliophile. "Well," replied Miss Cayenne, "there are bibliophiles; and then there are what Josh Billings would have called 'bibliophools.'"

A GOOD DRIVE.

[Detroit Free Press.] "Did you enjoy your drive in your new electric?" "Very much. I annoyed three traffic policemen, held up two auto trucks, and kept a whole string of gasoline cars driven by men waiting until I said good-bye to a friend."

TO RELIEVE RHEUMATISM

the body-waste producing uric acid must be gradually arrested and the blood purified.

Correct diet is essential. Abstain from tea and anything containing alcohol; eat meat only once a day and take SCOTT'S EMULSION after every meal.

SCOTT'S EMULSION makes new blood free from the poisonous products which irritate the joints and muscles; its medicinal force relieves the enlarged, stiffened joints; and more, SCOTT'S EMULSION stimulates the forces to expel the poisonous acids by its concentrated nourishing properties.

Physicians everywhere prescribe Scott's Emulsion for rheumatism.

CANADIANS SHOULD KNOW HISTORY OF THE COUNTRY

Interesting Address Given by Canon Tucker at St. Matthew's Church.

"Canada" was the subject which Canon Tucker, rector of St. Paul's Cathedral, chose for his address last night before the men of St. Matthew's Church. Samuel Haken, city clerk, occupied the chair. During the evening Rev. Edward Appleby, rector of the church, announced that his Worship Mayor Graham had promised to speak on "Good Citizenship" on Thursday evening, Jan. 29.

Canon Tucker pointed out that it was important for Canadians to know something of their past history, for such knowledge had a great bearing upon the problems of the present. In England, he remarked, they did not think that Canada's history amounted to anything, but it was the richest and most thrilling history to be found in any country. If anyone wished to learn the truth of that statement he had but to read Parkman. "If you do not find that as interesting as the best novel, I'll give you the novel," said the lecturer.

Some events of seeming slight importance had a great bearing upon the history of the country. Such were the discovery of America, the invention of printing, bringing about the Reformation, the founding of Quebec by the French, and in after times the taking of that city by Gen. Wolfe.

The speaker also referred to the various religious sects and nationalities in the country, stating that China was awakening, and that some day there might come a reckoning for Canada for her treatment of Chinamen on the Pacific coast.

SIX ARE REPORTED LOST.
[Canadian Press.]
Seattle, Wash., Jan. 15.—When a wireless message announced yesterday that the schooner William A. Garms, waterlogged and ashore on Vancouver Island, had been rescued by the tug Goliath and was being towed to Port Townsend, no mention was made of loss of life. Another message from the Goliath today reported that Captain F. Torloff and five sailors, of the William A. Garms, were missing. They had left the ship in one of the lifeboats to seek aid for their comrades, and no trace of them has been found.

PROSPEROUS YEAR FOR AGRICULTURAL SOCIETY

London District Members Here Encouraging Reports at Annual Meeting.

The annual meeting of the London District Agricultural Society was held Wednesday night in the Western Fair offices, Dominion Savings Building. There was a large attendance of members present. R. A. Carrothers, the president, occupied the chair. The financial report, which was read by the secretary-treasurer, A. M. Hunt, showed a balance of \$231.89, which had been paid over to the Western Fair Association.

Considerable progress has been made by the society in the past year, as evidenced by the annual report, which showed a membership of 320. An election of officers resulted as follows:

President, R. A. Carrothers; first vice-president, J. Pringle; second vice-president, T. H. Smallman; third vice-president, E. H. Johnston; secretary-treasurer, A. M. Hunt; directors, W. M. AWARDED DAMAGES CASE GOES HIGHER

Interesting Points in Action Against Street Railway and Grand Trunk.

Five hundred damages was awarded Frank Swadling by the jury at the assizes Thursday afternoon in his suit against the London street railway and the Grand Trunk Railway. Swadling was motorman on the street car which ran into a freight train at the Dundas street interlocking line in July last.
The presiding judge, Chief Justice Falconbridge, held that the plaintiff was not entitled to damages, and the case will now go to the supreme court, appellate division, in Toronto.
Argument was not concluded in the case of Wm. C. Nicholls vs. the Street Railway Company and the Grand Trunk, for injuries alleged to have been received in the same accident. Some interesting features may develop in the hearing, as the defendants are endeavoring to prove that Nicholls was not a passenger on the car which met with the accident.

ARTIFICIAL ICE

The plant being erected by the London Cold Storage Company to manufacture ice is fast being completed. They have built a very substantial building of brick which is now finished. The system of freezing which is being installed was decided upon after much consideration, and the plant when finished will be one of the best on this continent. The fact that pure ice has become a necessity, and the demand in all the cities for artificial ice, where there is an abundance of lake ice, is the best proof that the people want a pure ice, for use both for cooling and domestic purposes. The artificial ice will be distributed by the Artificial Ice Supply Company under the management of John M. Daly, the well-known coalman, and the public can rest assured of the very best service. We will give you absolutely pure ice. You can use it on your table, in your drinking water, or for any other purpose.

[Special to The Advertiser.]
St. Thomas, Jan. 15.—The contracts were let today for the new Y. M. C. A. building. The structure is to cost \$65,000, and the contracts were awarded to St. Thomas contractors. The general contract, covering the mason work, steel, structural and roofing and carpentering (\$50,387) goes to A. E. Ponsford, Hamilton and Stott gas plumbing and heating work at \$10,408. The building is supposed to be completed by next summer, and ready for occupation in September.

TWO CAR MEN HURT AND TWO ARRESTED

Toronto Crew Accused of Negligence Because of Collision.

[Canadian Press.]
Toronto, Jan. 15.—Charged with criminal negligence, William Harding, a motorman, of 112 Parliament street, and Harry Gilbert, employees of the Toronto Railway Company, were placed under arrest today. The arrests were the result of an accident at the King street, barns at midnight last night, when Alex. McPherson and J. J. Johnston, two street car men, were seriously injured. Both were pinned between two cars. It was said at St. Michael's hospital today that there is little chance of McPherson's recovery.

According to the reports the police has received, Johnston and McPherson, who were in charge of a King street car, were putting their car into the barns at King and St. Lawrence streets. The men had backed the car into the barns and were standing in front of it adjusting the fender.
Without warning of any kind, it is alleged, one of the big new King street cars crashed into them, pinning them against the front of the car. The car was in the King street car barns at King and St. Lawrence streets. The men had backed the car into the barns and were standing in front of it adjusting the fender.
