## THE LONDON CONFERENCE

A Sensational Session Was Held in Windsor Yesterday

### THE MINISTER DROPPED

Rev. William McDonogh, of Stratford, at yesterday's session of the Methodist conference in Windsor, caused some surprise by his criticism of the system in vogue in the Methodist colleges in Canada, and particularly the Wesleyan college in Montreal. He claimed that the teachings of some of the professors in the colleges are not orthodox, and in fact some of them teach nothing more than heresy.

His remarks were resented by several of the delegates, and they defended the course of studies as laid down in Wesleyan college. These speakers claimed that the conference has the selection of the professors and also has supervision over the college, so that it is the fault of the church, and not the position of the college, that the conference moved a resolution that the conference declare its unbounded confidence in the college and the professors in the teaching staff. The resolution was carried unanimously.

Another little incident which occurred yesterday was the absence of the choir of the Central Methodist church at the evening service. It was expected that the choir would assist in the musical service, but there was some misunderstanding, and only about six members put in an appearance.

However, Rev. W. E. Millson, who understands music, did not propose to have the service devoid of singing, and he organized a male choir of thirty voices from among the delegates present. The young ladies who are members of the choir assisted the ministers, and the singing was very acceptable.

Rev. O. F. Chittick, the Methodist minister at Gesto, who got mixed up in a scandal last summer, was dropped from the ministry and his name stricken from the books of the conference.

Dr. Hannan and Dr. Gifford have been superannuated for a year, and J. S. Fisher, Lambeth, and Geo. Morrison, Stratford, have been superannuated permanently.

Rev. J. J. Sinclair, who left his pastorate at Thamesford last fall, was reported missing. He was in San Francisco, but it is not known whether he survived the earthquake.

Some criticism was offered on his departure from his charge without leave. A committee will communicate with a brother at Ottawa to learn something of his whereabouts. Mr. Sinclair belongs to a wealthy family at Ridgeway.

## GETS EIGHT BOMBS

Most Hated Man in the Caucasus and With Reason—Cossacks Take Vengeance.

Borjoni, Transcaucasia, May 31.—An attempt was made on the life of Gen. Alkhanoff, Governor-General of Kutais, Tuesday night as he was taking a train for Tiflis. The condition of Gov-General Alkhanoff is serious, his liver having been pierced.

Eight bombs were thrown at him in Borjoni, and five of them exploded, killing two Cossacks.

The remainder of the Cossacks immediately formed up and fired indiscriminately into the crowd, killing many persons. In addition the Cossacks burned to the ground buildings in the vicinity, into which the people had fled.

Gen. Alkhanoff, the "pacifier" of Kutais Province, is the most hated man in the Caucasus.

Falls into the Flames.

Windsor, May 31.—A horrible fatality occurred yesterday at Windsor Beach, when an English immigrant named George Griffin, while standing in front of a great log fire, was seized with an epileptic fit and fell head first into the flames. He was dead when found.

## HOW ABOUT THE BY-LAW

There is a Spirited Fight in Chatham To-day Over Keystone Proposition.

### WATCH FOR THE EXTRA

Will the sugar by-law carry, or will it be defeated? This is the interesting question that has kept both the workers for and against the project on the anxious seat all day.

King street presented an animated scene this morning and afternoon, the conjectures and a quiet bet here and there kept things enlivened for a time. The odds in the wagers, however, were in most cases given by those who held that the by-law would be defeated. However, it's the same old story in the same old way—an election or a horse race—no one knows definitely how it may end.

Yesterday afternoon the anti-sugar factory faction published an open letter to the ratepayers in which a large number of reasons were given as to why the by-law should be voted down. One of the clauses of this circular stated that the city's debt was at present up to the million mark. This caused a smile in some circles, though there were others who were prone to credit the ominous announcement. The circular was headed in big, bold, suggestive type, "A Delusion and a Snare," and though there was nothing of a vicious nature about it, made a vigorous attack on the position. A few days previous a circular setting forth the advantages of having a sugar factory located in Chatham was published and circulated by those in favor of the by-law.

At the eleventh hour the opposition circular was printed and circulated. When it was handed about the streets last night it caused considerable stir, and this morning numbers could be seen walking along the streets studying it.

Both parties have been working with vigour all day, and indications point for anything, quite a large vote should be polled. Those for the by-law are working quietly, and have a most spirited fight, and button-holed voters right and left. The contest is one of the keenest in a long time, and has aroused an interest that has been demonstrated since the last municipal election. The Planet will issue an extra this evening giving full returns from the various polling sub-divisions.

## ALD POTTER'S EXPLANATION

He Has Something to Say Relative to Purchasing on Market

### HE WAS MISUNDERSTOOD

Ald. Potter's action in introducing the clause stipulating that no merchants or outside wholesale purchasers should be allowed to buy on the market before ten a. m., which he brought up at the consolidation of the market by-law, has been warmly criticized from time to time.

Speaking to a Planet reporter this morning Mr. Potter said: "I have been very much surprised at the adverse criticism which the introduction of this measure has met with. It appears that several people have mistaken the object of the prohibition and are at a loss to understand my motives in advocating it. A number of misconstructions have been placed upon the intentions of the clause and I would like to repeat my reasons for including it to prevent outsiders from taking away supplies which rightly belong to our own citizens and to prevent wholesale buyers from offering to the injury of our own ratepayers.

The supply of goods upon the market, while, perhaps, sufficient for our own use, is not large enough to permit of us supplying other towns, and any goods of this nature that are shipped in wholesale quantities out of the city means a corresponding shortage for the citizens. In making the regulation cover our own storekeepers as well as the wholesale dealers, I was considering the increase in prices which is essential to the second hand article. By giving the citizens an opportunity to procure their supplies at first cost on the market they are protected from the competition of the large trader. Under these circumstances the prohibitory clause is a direct benefit to the people and, far from being a hindrance, I think I am justified in claiming that it is a reform and a move in the right direction."

## WILL HOLD CELEBRATION

Dominion Day Will Be Marked by Gay Festivities.

### THE CITIZENS' MEETING

A citizens' mass meeting for the purpose of making arrangements for the holding of a demonstration in Chatham on Dominion Day, was held in the Council Chambers in Harrison Hall last evening. Through some mistake the doors of the hall were not unlocked at eight o'clock—the time mentioned for the meeting—and many, as a consequence, returned home after trying the doors, thinking the meeting must have been called off.

At the meeting which afterwards took place, preliminary arrangements in preparation for the event were talked of, and it was decided to await the report of those citizens most vitally interested, when another meeting will be called, probably some night next week.

It was the opinion of those present that the demonstration should prove a success. It is a long time, since Chatham fittingly celebrated any of the Government holidays, and through this neglect every holiday a large amount of money is taken away from the city. The people of this city would many of them much rather enjoy the holiday in town, and if a worthy program were promised there is no doubt but what they would.

Manager W. N. Warburton, of the C. W. & L. E., said that the railway company would be willing to donate a percentage of the earnings of the road for the day towards helping the celebration along. This is encouraging, and there are promises of support from other sources. It would not take such a very large amount to get the celebration under way, once public interest is aroused and the people are assured of a good program for the day.

If the idea meets with the success that it should, another meeting will be called at which plans for the day's events will be considered. Announcements will appear in the press from time to time with regard to the matter.

## FAST ON A ROCK

Fine Battleship of Channel Fleet in a Bad Position—Crew Were Saved, But Some Were Injured.

Bristol, England, May 31.—The British battleship Montagu, 14,000 tons, and belonging to the Channel fleet, went ashore during a dense fog yesterday morning on Shutter Point, Lundy Island, at the entrance of the Bristol Channel. She is in a bad position, with a bad hole in her bottom. Several of her compartments are full of water and the engine-room, boiler-rooms and stokeholes are flooded with the water still gaining.

She has lost both propellers and her wireless apparatus, and besides has several holes in her plate.

The battleship Duncan and a number of tugs and other vessels are on their way to assist her.

The Montagu is a first-class steel battleship. She was launched in 1902, cost about \$2,500,000, and carried a crew of 750 officers and men.

All the members of the crew were saved, but several of the men had broken limbs.

Twenty-two Drown.

Conception, Chili, May 31.—The British ship Lamore, Capt. Cowell, from Melbourne, April 21, for Coronel, has been wrecked at Sanquarria. Twenty-two of the crew were drowned, including all the officers except the first mate.

Swept Into the Sea.

Halifax, N. S., May 31.—The schooner Thetis, from Summerside, P. E. I., for Louisburg, was driven ashore at the entrance to Louisburg harbor Tuesday night. The crew of four men took to the rigging, and inside of ten minutes three of them—Capt. Wm. Kane, his son William, and a seaman named Joseph Murray—were swept into the sea and drowned. George Murray is the sole survivor.

Two Drownings at Montreal.

Montreal, May 31.—About two o'clock yesterday a boy named Menard, 10 years of age, whose parents reside on Beaudry street, while fishing from the wharf at the foot of the street, fell into the river and was drowned. In the canal beside the Ogilvie Mills, in view of about 100 people, a man, apparently about 40 years of age, was drowned from a boat while pulling into the inlet towards the mill.

## THE WEATHER FOR JUNE

Rev. I. L. Hicks Gives Prognostications of Variations of Climate

### JULY WILL OPEN COOLER

Rev. Irl R. Hicks, of St. Louis, in Word and Works, predicts June weather as follows: Storm period central on the 1st, extending to the 4th, after which a decided rise of temperature, humidity, cloudiness and rain; cooler on the 5th. Storm period from 6th to 8th, then warmer with electrical storms; cooler on the 9th and 10th. From the 11th to the 16th perturbations of earth and atmosphere—may be rain and thunder, or possibly seismic and volcanic disturbances. The storm period will culminate on the 14th, and there will be lots of hail, with possibly cloudbursts and tornadoes, after which a violent and sudden change to cooler, with snow squalls and possibly frosts in the extreme north. From the 18th to the 21st, humidity and wind currents, with an excess of lightening and thunder. There are to be many reports of seismic and volcanic perturbations within five days, centering on the 21st. There will be more disturbances from the 23rd to the 27th—violent and dangerous. If heavy storms of rain, wind and thunder do not appear, peculiar and phenomenal results will convulse and perturb the elements of earth and sky. There may also be heavy rainfalls and floods. On the last two days of the month there will be great heat and thunderstorms, and July will open cooler.

## MARBLE CAME BACK

Mrs. Marble Has a Hard Time Tearing Herself Away from Chatham Friends.

Mrs. Marble has decided to again take up her residence in the Maple City, and the police found her yesterday at her old home on Queen St. The authorities have found that it is impossible to even give her away. No place wants her and she likes to live in Chatham.

Some time ago, when this well-known woman was up in the Police Court, Judge Houston told her she would have to leave Chatham or be sent to prison. She decided to go away, and did go, but she has recently returned and is living in a house which has long since been condemned.

The other day she was taken seriously ill and her daughter, Mrs. Donnie Marriott, of Detroit, was sent for. Mrs. Marriott arrived and has been staying in the city ever since, living with her mother.

Yesterday the police received a call from the Grand Trunk district, saying there was a row going on in the Marble mansion. P. C. Dezella went out and found William Worts, William Guy and Mrs. Marriott having a fine time over a bottle of booze. He promptly marched them off to the Police Station, and they were remanded this morning until Monday.

Mrs. Marble told Chief Holmes that if the Judge would let her daughter go, both of them would go straight to Windsor to live, and would not come back to Chatham again.

LIVING TOO FAST.

The fact is that the Government is living beyond its income and has done so in seven out of the ten years since Sir Wilfrid Laurier became Premier. This is the more remarkable since Mr. Fielding has collected from the people \$370,000,000 in nine years, which, as Mr. Foster shows, is \$110,000,000 more than the revenue of the previous time. Mr. Fielding has got clear of this \$110,000,000 extra, and has borrowed about \$8,000,000. This year Mr. Fielding expects to spend \$82,000,000, while, as Mr. Foster points out, \$42,000,000 was found sufficient in 1896.

Mr. Foster made it his business to consider how this change has occurred. The Government has completed no great public work outside the ordinary services. Making allowance for development, the country must be paying much more than it did for the same services.

A few days ago a member, speaking of one department, said it was wide open, meaning that no guard or check was kept on payments, and that extravagance and plunder were common features of its administration. Mr. Foster showed by a series of examples that this might be said of the Government generally.

There is the Yukon. The Government of that district cost last year \$1,647,000, while the revenues from gold royalties, customs, excise and all other sources was \$879,000. More than three-quarters of a million a year is sent from outside to pay for the government of the 8,000 people remaining in the Yukon. The Government collects \$100 a year from each man, woman and child in that district and then sends in another \$100 to pay the rest of the expense. It costs more to govern those 8,000 people, now orderly and well organized, than it did five years ago, when there were between 30,000 and 40,000 inhabitants, including many lawless and desperate characters, and when the Yukon was producing \$27,000,000 in gold, whereas now it produces only \$8,000,000. The population of the Yukon is now that of a fair sized town, yet its government costs enough to run a populous province.

#### "AMATEUR" SPORT.

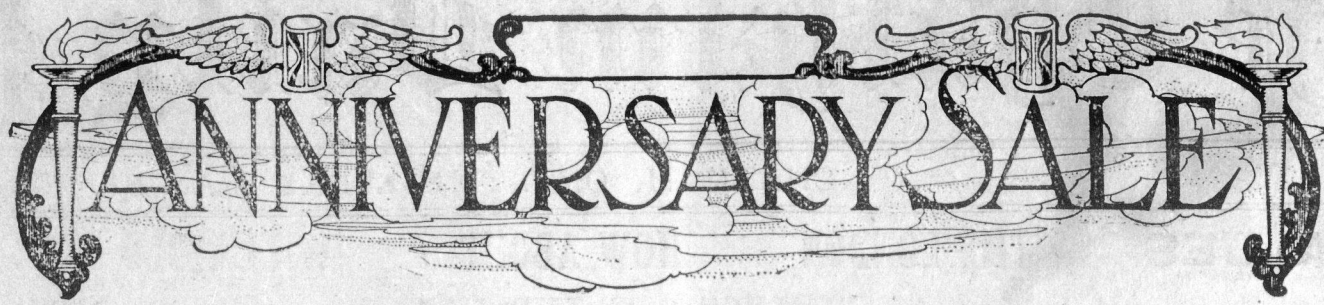

The report of the lacrosse match between the Capitals of Ottawa and Toronto mentions that two of the former's players "refused to play at the last hour owing to some unsatisfied demands," and that consequently the defence and field were disorganized to some extent, and, incidentally, the Ottawa team was exposed to the risk of being beaten. It would be interesting for the public to be informed as to the nature of the demands that would cause two amateurs, if they are amateurs, to adopt a course just before a match was to commence that would seriously jeopardize the chances of their club. The explanation is that one young man wanted to hold the management for \$300, and the other, who apparently enjoys a job in the civil service at \$780 a year, presumably not for his ability to play lacrosse, refused to go on the field unless his position in the civil service was made permanent! "We were powerless," says a member of the playing committee pathetically; "we could not drag Mr. Hyman down to the Oval for such a purpose." And still these two young athletes may still be amateurs, so far as the public is aware.

The Woodstock Express on Saturday celebrated its eighth anniversary. It started as an independent paper, but absorbed the Times, which was established in 1853, and has supported the Conservative cause during the last two campaigns. In its anniversary issue it announces definitely its adherence to the Conservative party and policy, though reserving the right of criticism in case it believes such is justified. The Express is a well-conducted paper.

# We Are Eight Years Old!

## We Commemorate Our Eighth Birthday

### With a Wonderful Bargain Event.

Looking backwards eight years, we will liken this store, as it was then, to the little acorn. It was thoroughly sound and the meat was fertile and ready to begin a lusty growth.

The "meat" was square dealing, honest values, dependable merchandise, and the public's confidence, and it thrived and grew. THE MIGHTY OAK FROM THE LITTLE ACORN GROWS. That is if the little acorn is whole in heart, untainted, unworm eaten, and is planted in a responsive ground. Our very little store of eight years was a healthy "little seed," busy, aggressive, progressive, and full of electrical energy. DO YOU WONDER AT OUR PRESENT BUSINESS? Not often we exult, or crow. But really we are proud of our success, proud of the appreciation our earnest endeavors have met with, and above all, proud of the loyalty of our store friends. So much for retrospective views, now for its celebration; we are going to round up these resultful years with a celebration, a glorious gala one. **It will be a Ten Days' Sale Extraordinary.** From the opening of the doors **FRIDAY MORNING** until the last day of this sale. This store will distribute special bargains in every department, and grand exhibits of new merchandise will be on view. When we announce a sale we expect to pay a revenue. Prices must fall; profits must diminish, or cease to exist entirely. When the gale is general (as this one is) every department must endure losses. Come early in the day; you've heard about the early birds.

## Good Blood

Good blood, good health; bad blood, bad health; there you have it. Why not help nature just a little and change the bad to the good? Bad blood to good blood; poor blood to rich blood! Ask your doctor how this applies to Ayer's Sarsaparilla, and how it applies to you. Could anything be more fair?

We have no secrets! We publish the formulas of all our medicines! Lowell, Mass.

## NO. 7. MASTER MINDS ON MUSIC.

Being the 7th of a series of ten talks introducing sayings of great men, applicable to the Nordheimer Piano, the symbol of perfect music.

I've read that things inanimate have moved. And as living souls have been informed by magic numbers and persuasive sound—Congreve.

Those are the lines that follow Congreve's famous lines about music's charms. Everyone may agree with the poet as to the soothing of music, and perhaps a few understand what he means by the persuasiveness of sound on things inanimate. Whether it is true or not, the fact remains that

## TOURNAMENTS AS THEY WERE.

How They Were Conducted in the Days of Henry VIII.

One of the events of the London season is to be a graphic representation of tilting as it was practiced in the times of Henry VIII. This inspiring spectacle will form one of the displays at the military tournament to be held at Olympia, under the planning and direction of Viscount Dillon, keeper of the tower armories, and a famous expert in these and all kindred matters. The viscount, appropriately enough, contributes to The Pall Mall Magazine a bright and informing article, full of rare facts and illustrations, which goes far to clear away a number of our misconceptions as to what the art of tilting and jousting used to be.

The expression "a tournament" has, the viscount says, much changed in its significance from the days when such exercises and displays of warlike action were common. Young men who aspired to shine in the use of arms seized the occasion of the proclamation of a tournament to display not only their proficiency, but also their magnificence and ability to spend large sums of money in support of it. The tournament was, so far as those taking part in it were concerned, only for the rich, or at least for the proteges of the great.

Unfortunately for the interests of truth, the tournament has been seized on by the romancers and other artists and so disguised with fiction and fancy that the real thing is hardly to be recognized in such works as "Ivanhoe" or such displays as the Eglinton Tournament of 1839. The tournaments in the reigns of the first three Edwards, we also find a great number of prohibitions by those kings of these projected tournaments. The reason for these prohibitions is pretty clear. The assemblies of arms, do as they please, some of them at least skilled in the profession of arms, could hardly be regarded with satisfaction by the authorities when the position of the crown was not as assured as it now is. And again, the call to arms, the leaders of men for service in foreign wars, would not allow of the expenditure of so much energy and money on what were displays of comparative personal power. Certainly during the great war with France no one could afford to devote time and money to tournaments taking place at home.

Alleviate, near Calais, where for the purpose safe-conducts were given to knights and others attending. Froissart has given us description of this meeting, and the splendidly illuminated manuscripts of his works (executed, of course, some eighty or a hundred years later) still present to us some of the glories of that tournament as treated by later artists.

To form some idea of the outfit of a knight for attending a tournament, we may refer to "Petit Jean de Saintré," where we find the following list of expenses: Three knights with fourteen horses, nine squires with twenty-two horses, a chaplain and a chief herald with two horses, and four men with two horses, besides four powerful destriers ridden by pages with two grooms to each, two cooks with three horses, a courier, a shoemaker and an armorer with four horses, four pack-horses for himself and four more for his company, and twelve for his household besides and for his maitre d'hotel—in all eighty-nine horses. These, with three or more rich suits of clothes for the different exercises of the tournament, and the necessary armor, with armor for horse and foot combat, and banners and standards, not to mention his weapons, were a handsome allowance for one who was not a rich noble but a simple "écuyer tranchant" of the king. It should, however, be noted that all this kit was provided by the lady of the court whose protegee Petit Jean was, and whose colors and devices he wore and celebrated.

As to the Queen of Beauty, who figures in "Ivanhoe," and who was reproduced at Eglinton, she is a creature of invention, and in the accounts of real tournaments she does not appear.

## HOW THE POOR LIVE.

Grime Figures That Give a Peep Behind the Scenes in London.

Vagrancy, it is not surprising to learn by the latest official London report, is increasing.

In 1882 "casuals" were being relieved at the rate of 6,000 to 7,000 nightly; in 1905 the number had increased to 11,812 to 13,516 every twenty-four hours.

Interesting figures concerning the method of living of the very poor and the inmates of common lodging-houses are given.

The cost of food, for instance, has been reduced to a minimum. Here is the daily menu of a dock laborer of fifty-five: Breakfast, tea 1-2d., sugar, 1-2d., toast, 1-2d., potatoes 2d., five fresh herrings 2d., potatoes 2d., tea 1-2d., sugar 1-2d.; supper, fried fish 1d., potatoes 1d.; total 9d. Cost of bed 4d.; total 13d. Another lived for 9d. per day, 1-3rd share of meat 4d., potatoes 1d., potatoes 1d., sugar and tea 1d., composed the dinner; a pennyworth of bread formed the tea. The women were the most extravagant, the highest cost being 1s. 4d., which included steak and onions.

For clothes these poor occupants paid very little, the following will show: Coat 3d., trousers 1d., waistcoat 1d., shirt 4d., boots nil. This is what is called a "sample suit." Coat 8d., trousers 9d., shirt 3d., waistcoat 2d., socks 1d., boots 3d., cap 2-1-2d. A woman's outfit costs 3s. to 4s. 6d.

Risked His Life For His Hounds. To save his three hounds, Mr. Corbet, Master of the South Cheshire Hounds, plunged into a flooded stream, and was carried away by the torrent. He sank twice, and was then rescued by a horse dealer. Lord Gerald Grosvenor assisted in rescuing and resuscitating the hounds.

£5,000,000 a Year For Cabs.

A statistician has arrived at the conclusion that £5,000,000 is spent annually by the public of London on cabs. He also estimates that out of that great sum perhaps a million and a half represents overcharges.

A man must become wise at his own expense.

The indulgence of grief is the blunder of a life.

## LITTLE POCKET PHYSICIAN

Hyomei Inhaler That Never Fails To Cure Catarrh.

Thousands who have been cured by Hyomei, call the inhaler that comes with every outfit "The little pocket physician," as it is so small that it can be carried in the pocket or purse.

Prior to the discovery of Hyomei, statistics showed that at least 97 out of every 100 persons in this state were suffering from catarrh in some form. The remarkable results following the use of Hyomei are shown by the smaller percentage to-day of people suffering from catarrh.

A complete Hyomei outfit consists of "The little pocket physician," a medicine dropper, and a bottle of Hyomei, and costs only \$1. While additional bottles of Hyomei can be procured for 50 cents, making it the most economical, as well as the most reliable treatment for the cure of catarrh.

Do not delay longer the use of Hyomei, if you have catarrh. This is a purely local disease, and Hyomei goes right to the spot where the catarrhal germs are present, destroys them, soothes and heals all inflammation, and makes a permanent and lasting cure.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

## Fourteen Years For Robbery.

Kingston, May 30.—Before Judge Price yesterday morning Sandy Badore of Clarendon Station was proved to have assaulted and robbed Abraham Abdu, a Syrian pedlar, of \$25. Badore had previously served a term in prison, and the judge considered him as sentencing him to 14 years in the penitentiary at hard labor.

## FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition.

It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that the most powerful and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic or lingering ailments.

This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. It cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or acid taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, feeling of heaviness, or a general feeling of languor, or flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent.

Constitution causes and aggravates many serious ailments. The shoes are given and each is surmounted by the coronet proper to the rank of its donor.

Seeing that it is illegal for any subject to retain an armed force, it is not strange that the one exception to this law is made in the Duke of Athol, who is regularly guarded by the Duke of Athol, who is regularly guarded by the Duke of Athol, who is regularly guarded by the Duke of Athol.

End of the World by 1934. Within twenty-five years this old earth will be no more. The seers who tell us so are a number of clergymen who partook in the deliberations of the "prophetic and second advent conference," at Exeter Hall, London. The particulars of the earth's finish, as given by the prophets, do not measure up to the same, but all agree that the end is at hand. May 2, 1929, and April 9, 1931, are the choices given in dates.

The upheavals and tremors so common of late in war and earthquake, are proof positive, the prophets conclude, that the usefulness of the world is departing. The coming of an anti-Christ, will complete the list of necessities for the scripture's fulfillment. This anti-Christ will make his first public appearance as King of Syria. In 1932 he will conquer France and extend his rule over many nations.

The prophets foretell that there will be ten million Christians on the earth, but of these 144,000, the chosen of the Lord, will be transferred to celestial mansions in 1924 or 1926. The other 9,856,000 will be transported to the desert around Mount Sinai, to wait three and a half years for their approach to glory.

## Forget the Name.

A father, applying to the Maldon magistrate for a vaccination exemption certificate, was asked to give the name of his child. After considering a minute and scratching his head, he replied, "It's clean gone. I'm blessed if I can remember it." The mayor said that if a father could not think of the name of his own child he was not fit to apply for a certificate, and refused the application.

## BURDOCK BLOOD BITTERS

Is constantly effecting cures of dyspepsia because it acts in a natural yet effective way upon the organs involved in the process of digestion, removing all clogging impurities and making easy the work of digestion and assimilation.

Mr. R. G. Harvey, Ameliasburg, Ont., writes: "I have been troubled with dyspepsia for several years and after using three bottles of Burdock Blood Bitters I was completely cured. I cannot praise B.B.B. enough for what it has done for me. I have not had a sign of dyspepsia since."

Do not accept a substitute for B.B.B. There is nothing "just as good."

A man must become wise at his own expense. The indulgence of grief is the blunder of a life.

## QUAINT CEREMONIES.

Lord Strathcona Gives Caps to Guests to Wear at Service—Duke of Athol's Body Guard.

There are still one or two houses in England where quaint ceremonies of older days are strictly maintained. Lower Castle, Penrith, is an instance in point. One picturesque incident always takes place every evening, even when the Earl and Countess are dining quite alone. Lord Londale drinks first to "The King," next addressing Lady Londale, to "The Ladies." He then sits down, and her ladyship, rising, proposes, with equal gravity, "The Gentleman."

Lord and Lady Strathcona, when staying at their country castle, are also observers of a certain quaint custom. At the service which is held every morning in the private chapel no woman is allowed to be present with head uncovered. Should a visitor, unaware of the rule of the house, appear bareheaded, she is requested to don the regulation cap. There is the less excuse for the omission, as a white cap of the required description is always placed in the dressing table of each lady guest before her arrival.

There are still heads of old and wealthy Scottish families who would not on any account allow a billiard table to be placed in their houses. Among the many who have been mentioned Lord Mansfield. Though a good sportsman and devoted to country pursuits, especially curling, he will not have a billiard room fitted up in his magnificent old mansion, Soane Palace, Perthshire.

A curious custom in connection with the birth of an heir to the earldom of Carnarvon is still observed at Highclere Castle. The tradition of the family requires that on such an occasion 500 gallons of ale must be brewed, to be kept in one huge cask, which must remain unopened until the heir shall attain his majority. The last occasion of this observance was when little Lord Porchester was born in 1898. The ale was duly brewed, and a Newbury cooper constructed the cask from an oak grown on the Highclere estate. It was hooped with brass, and bears a coronet and inscription with the date, and also the name of the butler who was responsible for the brewing.

It is said that during the great battle of Blenheim a spaniel followed the Duke of Marlborough all day long close at heel, never leaving him until the tide of success had turned decisively in favor of the British arms. The duke took the dog home, and his duchess, the famous Sarah Churchill, cared for it until its death. This dog, the story goes, was the progenitor of the well-known Blenheim spaniels. Ever since that time it has been the custom in the Churchill family for each duke to precede the Blenheim spaniel to his bride when she enters Blenheim Palace for the first time as mistress.

Those who for the first time visit Belfour Castle, one of the seats of the Duke of Rutland, will witness with surprise a strange relic of medieval times. All night long a watchman paces the battlements with a halberd over his shoulder, and every hour calls aloud the time and the condition of the weather, exactly as the London "Charleys" of a century ago used to do. This custom has prevailed ever since the very beginning of the sixteenth century, and until a few years ago the watchman still retained the Elizabethan costume. This dress has now given way to more convenient modern garments, but the watchman still keeps his night-guard.

Another custom, which is better known, belongs to a former seat of the Dukes of Rutland. This is the privilege of visiting a horse-shoe from every visitor to Oakham Castle. Oakham Castle is not at present in the tenancy of the Manners family, but of the Finches, and round the walls of this twelfth century mansion are to be seen no fewer than 142 horse-shoes, ranging from the ordinary size up to a gigantic shoe seven feet in length. The latter was given by George IV., is of solid bronze, and cost £50. The most treasured gems among the collection are shoes given by Queen Elizabeth and by our present Queen. The shoes are given and each is surmounted by the coronet proper to the rank of its donor.

Seeing that it is illegal for any subject to retain an armed force, it is not strange that the one exception to this law is made in the Duke of Athol, who is regularly guarded by the Duke of Athol, who is regularly guarded by the Duke of Athol, who is regularly guarded by the Duke of Athol.

## MEN CURED FIRST THEN THEY PAY.

For years Dr. Goldberg has treated men under his latest method to him without hope of ever being cured, and he has demonstrated to them the value of his treatment before he asked them to pay. He still extends the same offer to men in any part of the world who are suffering from Nervous Debility, with the accompanying symptoms, Headache, Loss of Memory, Mental Depression, Strange Sensations, Irritability, Sleeplessness, Weakness, Trembling, Heart Palpitation, Extreme Physical Exhaustion, Etc., or such diseases as Blood Poison, Prostatic Trouble, Early Decay, Loss of Power, Skin Diseases, Bladder and Kidney Trouble.

He has it! It is a simple and certain cure from various colleges and State Boards of Medical Examiners (a reproduction of which is sent with the first letter to each patient), and so far as he knows he is the only reliable physician who dares to treat patients on the PAY when cured plan.

No matter where you live or how serious your case may be, if you will write him all about it, he will advise you by return mail how long it will take to cure you and how much the treatment will cost you.

Suffering men, don't despair—don't give up hope—don't waste your time and money and risk your life and health on harmful remedies and poisonous and stupefying drugs when such a liberal offer is made you. No stimulating medicines are sent you, which after examination and advice, and you will be made a strong, healthy man, and eradicate from your system forever all traces of disease. Send no money. Simply write today and your case will be taken up at once. Address DR. GOLDBERG, Suite 165, 208 Woodward Avenue, Detroit, Mich., U.S.A.

## FIVE WERE DROWNED

A Fatal Collision Occurred  
In The St. Clair River  
This Morning

### STEAMER ERIN WAS SUNK

(Special to The Planet.)  
The Canadian steamer Erin, with a cargo of 800 tons of coal, bound up from St. Catharines to Algoma Mills, was run down in the St. Clair river near the St. Clair yards of the great Lakes Engineering Co., about four o'clock Thursday morning, by a steamer, said to be the John B. Cowie, of the United States Transportation Co.'s fleet, and five members of the crew of the Erin were drowned.

The Cowie went right on, according to stories told by the survivors, not even checking down to give assistance.

The Erin was struck amidships and was cut almost in two by the big steamer and sunk almost immediately in deep water.

**THE DEAD.**  
Chief Engineer Patrick W. Quinn, Port Dalhousie.  
Fireman "Bang" Hill, St. Catharines.  
Mrs. Mary Reed, Spanish River, Ont.  
Watchman, shipped from Detroit, home Amherstburg.  
Woman cook, from Buffalo, name unknown.

Coughs, Colds, Hoarseness and other throat ailments are quickly relieved by Cresoline Tablets; 10 cents per box. All druggists.

The faith is dead that knows no change.

**MORTGAGE SALE**  
OF VALUABLE CITY PROPERTY

Under and by virtue of the powers contained in a certain mortgage made to the vendor, which will be produced at the time and place of sale, there will be offered for sale by public auction by C. J. Moore, Esq., auctioneer, at the Bankin House, in the city of Chatham, on Monday, the 12th day of June, 1906, at the hour of 12 o'clock noon, the following property:

All and Singular those certain parcels or tracts of land and premises situate lying and being in the city of Chatham, and being composed of lot number seven and the most northerly twenty-two feet and six inches of lot number eight in Block "P" in that part of the city of Chatham called Chatham North.

On the premises to be sold is a large two storey frame house in a good state of repair.

The property will be sold subject to a certain registered mortgage thereon to The Agricultural Savings and Loan Company, securing payment of \$600.00 and interest thereon at six per cent. per annum from the first day of October, 1905.

Terms of Sale—Ten per cent. of the purchase price shall be paid at the time and place of sale and the balance in ten days from the date thereof.

For further particulars and conditions of sale apply to  
W. F. SMITH,  
Vendors' Solicitor,  
Chatham, Ont.  
Or to  
C. J. MOORE, ESQ.,  
Auctioneer.  
Dated at Chatham this 25th day of May, 1906.

## CANNOT BE A BALLOON

More Theories Advanced  
Regarding That Strange Light

### SAY IT MUST BE A COMET

Messrs. J. C. Wanless and Dan. Anquetil are still at variance with regard to the strange light that has been noticed in the western sky for some time past. They are not the only ones who have noticed it and wondered, but they both have theories about the phenomena, and they don't mind explaining them.

"I saw in The Planet last night," said Mr. Anquetil, "where someone said that it was a balloon with lights on it, sent up by a Bay City firm for advertising purposes. It can't be a balloon with lights on it. It would have to be a pretty strong light that could be seen one hundred and fifty odd miles away. It looks more like a comet or some astral body. I may be mistaken, but you can't make me believe that it is a balloon."

Mr. Anquetil's theory is partly substantiated by a traveller, who stated this morning that the strange light was plainly seen one night last week, in a city almost two hundred miles east of here, and that it looked just as bright there as it does here. People all over are puzzled over the thing, and wonder how it is that some scientist or astronomer has not come to the front with an explanation before now.

J. C. Wanless is inclined to accept the balloon theory, which, by the way, was first suggested by himself. "Sure it's a balloon," said Mr. Wanless. "Do you think that if it were a star or comet we would not have heard something about it before this? The astronomers would have had some announcement to make about it long ago. Still it does seem funny how it is that it can be so plainly seen at such a great distance away. The light does not stay stationary. I watched it one night, and while I watched, it must have moved quite a distance. The lights used on the balloon must be strong electric ones."

The light has not been visible for some nights lately. On nights when it makes its appearance, it can be seen just some distance above the horizon in the western sky, just about the spot where the sun sets. It is much larger in appearance and of a yellower hue than any of the surrounding stars. It rises some nights at a very early hour, being visible on one occasion during twilight.

Comet, star, balloon or whatever it may be, it has been the cause of much wonderment among the watchers.

## Metal Ceilings and Side Walls!

We have never before had so much work in this line as during the past six weeks. We have put square after square of the most up-to-date designs that ever were shown. And it has been put on right, too.

We shall be glad to show you at any time the many advantages metal has over plastered walls and ceilings and why they are cheaper.

STRICTURE AND KIDNEY DISEASE CURED.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Dr. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the result. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

## KEEPING YOUNG.

It is a Difficult Task if One Follows Fashionable Society.

How to keep young is one of the questions of perennial interest to the feminine mind. Amelie Rives, the noted author, who is said to look like a girl in her teens, recently told of her reply to a physician who wrote her to send him the secret of what he called her perpetual youth, says the Advance, "I wrote back that he must consider the cost," she said. "It is a cost that few of his fashionable patients would make, for I rise at 7 or 7:30, ride or walk in the country roads, live close to my books, see few people and retire at 10. What fashionable women could endure my life? I remember thinking about it one winter morning, when I was walking alone, the crisp, crackling snow under my feet, the fairy outline of a gossamer tree revealing every twig of bush and tree, and I was so invigorated and happy I could have whistled like a boy with delight. But if I had been a woman of fashion I couldn't have endured the silence, the empty distances, the quiet; why, a woman of fashion would die in my place, and I am quite sure that I should in hers."

It is in such solitude and close communion with nature, in the home of her childhood—an old fashioned, rambling country home in Albemarle county, Va., that much of Amelie Rives' work is done.

A number from here attended the celebration at Windsor on the 24th of May.

Mr. and Mrs. H. D. Lenover were Chatham visitors Saturday.

Miss Carrie Osterhout, of Chatham, spent Sunday at her home here.

A large number attended the races in Chatham on Victoria Day.

The crops are all looking fine.

THE WORST OF A COLD

Is how suddenly it comes. No time to hurry to the drug store, group develops, the lungs are affected with pneumonia or tuberculosis, and it's too late. Keep Catarrhzone on hand—it kills colds instantly. Some-thing magical about the way it cures Catarrh and Bronchitis. Catarrhzone is the best remedy, because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrhzone inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.

THE WORST OF A COLD

Is how suddenly it comes. No time to hurry to the drug store, group develops, the lungs are affected with pneumonia or tuberculosis, and it's too late. Keep Catarrhzone on hand—it kills colds instantly. Some-thing magical about the way it cures Catarrh and Bronchitis. Catarrhzone is the best remedy, because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrhzone inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.

## OUR CLOTHING IS THE WORLD'S BEST

We're "Cranks," so some of the Clothing Manufacturers think. They say we are the worst people in the Clothing business.

**We're so Infernally Particular.**

When we're so exacting, it's for you—so you'll get what you want—and by having it, we'll get the business. Come here and look over our Clothing—turn it inside out—look at the quality and finish—the way seams are sewed and what they're sewed with—how the padding's put in—and all those apparently unimportant details. Some Clothing looks mighty slick outside—but it doesn't stay so any length of time.

## THE NEW TICKET AGENT

W. H. Harper will be Succeeded by Out of Town Man.

## A NEW INSURANCE FIRM

No definite information has yet been forthcoming from the head offices of the Canadian Pacific Railway as to who shall succeed the late Mr. W. H. Harper as city ticket agent and express agent for the company in Chatham. It has been learned from a reliable source, however, that the appointment will go to an out-of-town man who has been in the employ of the Railway for a number of years. The official announcement with regard to the appointment will probably be made public in the course of a few days.

Mr. Norman Harper, son of the deceased ticket agent, has severed his connection with the ticket office and the express office, and has gone into partnership with Mr. James Fleming, of Fleming & Tillson. These two gentlemen will handle the insurance business in this city which was formerly represented by the late Mr. Harper. They have opened their offices on King St. West.

The announcement is also made that the C. P. R. Co. intend making a number of extensive alterations and improvements to their present city ticket office and express office. The interior will be refitted with new equipment and furnishings, and the front may be torn down and rebuilt. The office, when completed, will be one of the most up-to-date.

### A FIERCE ATTACK.

Zulus Beaten Off After a Fight of Several Hours.

Durban, Natal, May 31.—The rebel Zulus again attacked Col. Leuchars' column Tuesday.

They fiercely assaulted the British camp, fought obstinately for several hours, but finally were beaten off with heavy loss by the steady fire of the troops.

The British had three men killed and 12 wounded.

In an important circling operation of the command of Col. MacKenzie 40 to 50 of Chief Bambata's followers were killed and big herds of cattle and many women and children fell into the hands of the British.

### PILLS AND PILES.

A prolific cause of Piles is the use of cathartics and pills of a drastic, violent nature, which is always followed by a reaction on account of the resinous, drying properties they contain. There are other causes, but no matter what the cause or what the kind of Piles, Dr. Leonard's Hemorrhoid can be relied upon to cure to stay cured. It's an internal remedy that removes the causes of Itching, Blind, Bleeding or Suppurating Piles. A guarantee goes with each package containing a month's treatment. It can be obtained for \$1.00 at druggists, or The Wilson-Fyle Co., Niagara Falls, Ont.

The man who sighs always enjoys sorrow. He who cannot bear humility cannot wear honor. Truth has many robes, but only one face.

## Learn Dressmaking IN TWO WEEKS

Have you commenced your spring and summer sewing? Are you interested in Dressmaking, either professionally or for your own family sewing? Have you broken away from the old way of depending on patterns.

Please pardon so many questions, but each one means something to you. We have a wonderfully complete systems in dressmaking—15 in all. These lessons will be of lasting benefit to you. They will throw new light on the subject, and instead of being tedious and tiresome you will find dressmaking one of the most interesting of all your diversions. It will no longer be a "duty," but a pleasure to make a dress, and your dresses will have a fit such as few women can accomplish.

We teach you how to cut, fit, and put together everything from the long, loose, from the plainest shirtwaist to the most elaborate frock, etc. We furnish everything to work with except tape measure, scissors, tracer and pencil.

Why spend months at a shop where you will learn nothing but how to sew on hooks and eyes, overcast, etc., and then, after you are through, what did you learn about cutting? (Absolutely nothing, for you will know no more about cutting after being there a year than you did the first day you went there.)

Charge for full course is only \$10, to be paid when through, if satisfied, including one of the most perfect fitting systems in use, which we give free. We have taught over 2,000 ladies in this way within the past five years, and all recommend it very highly. No pay in advance.

We will teach at Chatham from June 28th to July 11th. Hours from 8:30 to 5. All wishing to learn, or for full particulars, be sure to see us at the Garner Hotel, on Wednesday, June 27th, between 10 and 5 o'clock.

**THE MISSES ELLISON.**  
Instructors in Dress Cutting. Box 771, Stratford.
