PREFACE.

The **Twenty first volume of Cherrier's Quebec Directory** for 1879-80, the eighth compiled by the present publisher, is herewith submitted to the Public. It is presented to its patrons with humble but reasonable confidence that in so far as *precision, care, energy, experience and liberality*, can secure accuracy and completeness, it is accurate and complete. In the present edition we have endeavoured not only to equal the publications of previous years in general correctness, but if possible to surpass them. With this object in view we have secured competent assistance, and hope that our friends will endorse our efforts. And it is with no ordinary satisfaction that we mention, in connection with this issue, the name of one who, not many years ago, was a well-known, much respected and not ere long to be forgotten citizen of this "Ancient City": we allude to G. H. Cherrier, Esq., to whose untiring energy Quebec is unquestionably indebted, for a yearly publication of a Directory. Founded in 1858 by the above gentleman, it was compiled for 13 years, till 1871-72, under his management. In 1872-73 we undertook the task and how far we have succeeded in gratifying this City with a reliable Guide, we leave the Public to judge. We must however humbly state that of late years, we have spared neither time nor efforts to give satisfaction in every possible way, and we beg to recommend this edition in particular, as one which will corroborate our assertion.

TWENTY FIRST EDITION.

In issuing this the 21st annual directory of the "Capital," we may be pardoned a show of vanity if we claim to have accomplished so tedious and important a work in the short space of six weeks. The canvassing, compiling, and printing of a directory for a city of the importance of Quebec—the second in the Dominion—is a most difficult and complicated undertaking at best; much more so than is generally understood by those—and they are numberless—who are not initiated into all the details which surround a work of this kind, such as: the vexations attendant on the procuring of information in a mixed population, from door to door, and the consequent arduousness of the task in compiling the same to make the book valuable. These are difficulties which escape the consideration of those for whom it is especially intended; and if

omissions occur at all, we can scarcely be blamed, as many still refuse to give information, or give it wrongly, for obvious reasons such as, to keep at bay—*importunate creditors, unpaid wash bills, unsettled tailor's claims, &c.* However it will, we are confident, bear the test of severe examination and be found equal to prior publications. This naturally brings us to

ITS CONTENTS.

In preparing this year's issue we have noted 1648 removals, have erased 1262, and have added 1587 names. At the time of going to press—17th of May—there were still 372 houses unoccupied; a fact that will account to a certain extent for the few names which may be found wanting in these pages.

It contains—not including St. Sauveur—9621 names, an increase of 325 names over last year's issue, which is a larger increase than we anticipated, the depression of business and hard times not having yet subsided. If many names have been added to our alphabetical list, a few that it has borne for many years, names of men intimately identified with the City's welfare, have been stricken from the roll. Among those can be mentioned the names of rev. Sykes, judge Doucet, P. A. Tremblay Esq., M. P., and J. Houghton.

OUR RESPONSIBILITY.

The Directory being one of the great enterprises closely akin to the railroad, the telegraph and steamship for the saving of time—in a well organized community being indeed money—it follows inevitably that in compiling a Directory we ASSUME CONSIDERABLE RESPONSIBILITY. A newspaper may recklessly invent; it may make statements which, though substantially correct, are not absolutely accurate; it may be imposed upon by an unfaithful or dishonest subordinate, or it may suffer from a misapprehension or typographical errors; but in all these cases allowance will be made, or a remedy can easily be devised. Not so, however, with the Directory. It must be nearly perfect, or it is adjudged worthless. And yet what a liability to error there must of necessity be, when there is so much to be done in so limited a time.

INSUFFICIENT REMUNERATION.

It seems a common thing with many to exaggerate the number of copies of this work sold each year and the net income deriving

therefrom. Our annual subscription list does not exceed 600. Thus any person who knows the expense attending the publication of a Directory, is aware that the above is not a fair remuneration; the more so if he considers that our advertising patronage does not sustain us in our laborious task, a means of support so liberally extended to other Canadian Directories. And as a proof that the above assertion is not an exaggerated one, we give the following figures of our outlays, leaving it with whomsoever it may interest to draw the inference and tell us if the result of his research is anything like ample compensation for the amount of work we annually undertake and perform, not to say anything of the responsibility we incur and are subject to.

APPEAL AND WARNING.

Therefore, we must say to our friends that it has become a matter of serious concern whether we will or not continue issuing this publication at \$2.50 per copy; the advertising, which should be the chief means of support, being *null* or the *next thing to it*. We have heard quite a number of business men say they could not dispense with the work, even if they had to pay double the amount charged for it; if the latter would only advertise to the extent of \$2 each year, it would be a happy relief, and would enable us to continue its publication at the present price, and cover a number of rebukes we receive from those who refuse even to purchase the work. We do not consider it a charity for any one to purchase a Directory any more than to purchase a newspaper. If we look to Canadian directories published in the leading cities of the Dominion, we will find in this latter respect, quite a different state of things; one indeed altogether worthy our serious consideration and evidently profitable likewise to the business community and the publishers of said works. We have ample reasons to complain of that want of patronage and must avail ourselves of the only opportunity afforded us of so doing. There is no doubt—and our statement will be sustained by whomsoever will take a rapid glance at Canadian directories outside of ours—that such publications, are in many and many a ways, as good and efficient advertising mediums as newspapers. Yet, it is really surprising to see how few of our so-called business men will avail themselves of the opportunity yearly afforded them of extending their business by having recourse to such an efficient medium. This manifest and unaccountable unwillingness to advertise, we regret to say, is only to be found in Quebec; for as already stated, Canadian directories have always been liberally patronised by adver-

tisers. We give below the amount of advertisements inserted in the various city directories published by our *confrères*. What cause must we assign for this mark of unappreciation of our directory as an advertising medium? Well the fact is we dare not openly speak our mind! We will refrain broaching the subject, leaving it with each and all of our patrons to answer our query and assume their share of responsibility. As a warning, we however will add this much: that unless this advertising patronage, which we are, as a Directory publisher, entitled to, is before long extended to us, we shall have to raise the price to \$3.00.

These pages contain the usual small amount of advertisements, although some of the very best firms of this city are represented therein. AMOUNT OF ADVERTISING PATRONAGE EXTENDED TO OTHER CANADIAN DIRECTORIES.

The sums represented by advertisements inserted in other city directories are as follows: Montreal, \$1,500; Quebec, second city of the Dominion \$200; Toronto \$1,000; Ottawa \$600; Hamilton \$500; London \$300; Halifax \$700.

DIRECTORY BORROWERS.

We have toiled and struggled in this work, believing our citizens would give us corresponding encouragement; but, Directory non-borrowers have disappointed our expectations. If these constant borrowers, who, by imposing upon the kindness of their neighbours, filch information which has been obtained at considerable expense by us, would purchase copies for *their own use*, the sale would be so increased, that we believe, we could afford to reduce the price of the work. To this cause and to the insufficiency of advertising patronage can be assigned the increase, of late years, in the price to subscribers.

QUEBEC ILLUSTRATED.

We hope that our next year's Edition of the Directory will be coupled with ILLUSTRATIONS of Quebec. Should we succeed in this object of ours, its pages will contain about 80 engravings, mostly from original drawings made expressly for this work, at an expense of several hundred dollars.

An attempt with the above object in view has been made this year and we regret to say, without the anticipated result. On the 9th of January, we addressed a circular to the various heads of our Quebec Institutions, hoping to receive from them aid and encouragement in a matter, as we thought, so generally interesting; but such is the apathy most of times shown by our Citizens for anything concerning their own interests, that of the many applications made, *only three* were attended with any favorable result. However, as we are not easily rebuked, we have not given up the idea. On the contrary, we rather like to battle and overcome difficulties; a fact which will be readily admitted by our numerous friends, and by none more, than those who have already striven to drive us out of the field and to this day, are satisfied if they can only throw embarrassments in our way.

STRANGE NOTIONS.

Some people entertain strange notions—and we have heard them expressed—as to how a Directory should be made up. One party has suggested that we arrange the names according to the age of each person,—he demanding to come first among those of his surname, as he was the oldest, in town! Otherwise he would not subscribe to a copy. We have not changed our alphabetical arrangement, although we have lost his custom! Another refused to purchase, because we would not put all sons' names directly under that of their fathers! Another—a notary by the by—has for his hobby, that we should compile the Directory in French! He too refuses subscribing! We have kindly received and consigned to the waste basket such suggestions. Our book is made for utility, not to please the whims and caprice of any person. We have studied to condense the information in the book,—making it more convenient for reference—rather than to cope with some Directories, as to thickness of volume.

ANSWER TO "LE CANADIEN."

The above lines were written and formed part of a pamphlet entitled "History of the Quebec Directory," issued in January last. On its publication the press, to whom we had handed it, courteously noted its contents. In writing the above *brochure* we were solely actuated by the desire of filling up what we had considered a blank in our work. The "*Canadien*" however, after citing some of its contents, and having been pleased to ascribe to some of our remarks, a want of courtesy towards our own countrymen, made a rather uncalled for criticism of the above lines, blaming us at the same time for publishing the Directory in English, as being an unjust proceeding on our part. At the time we did not think proper to answer, knowing that a better opportunity would soon offer. It is now our duty to do so and to justify, at the same time, our steps in the matter; knowing that further silence on our part, might be construed into an open acknowledgement of wrong. However looking into our critic's remarks solely from the same stand point as he, we are not prepared to say that the remarks then made were altogether unjustifiable. We will, on the contrary admit, that to one considering solely that the majority of our population belongs to the French element, it indeed seems rather strange that the Directory should be compiled in English. Hence we easily understand the query made by some: Why is our directory not published in French?

Our reasons are manifold and obvious; the first is that, unfortunately for our French compatriots, if they constitute as they do, the majority of our population—as 3 is to 1,—they are to be found in a relative *minority* on our subscription list and in the support and patronage generally bestowed upon us, an assertion we will at once prove by comparing figures. We have an equal number of French and English supporters, viz: 300 of each. The

Directory and likewise Census returns give a French speaking population of 41,000 and an English speaking population of 19,000, so that in order that there should be a proportion of patronage, there ought to be 410 French and 190 English subscribers. Yet such is not the case; for of a total population of 60,000 giving 600 subscribers, equivalent to 1 to each 100 names in the directory, we secure from the two elements an equal number of subscribers. But, will it be retorted, that is no objection, for, who tells you that were the Directory published in French you would not realize as many more subscribers in the French speaking business community, thereby amply compensating for the loss of a few English subscribers discontented by the change? To this pretension, here is our answer. It will be granted by all that we can verily assume to know *something* about directory business and its present supporters, and our experience of many years, we doubt not, will justify us in our belief. Therefore, we assert, on the knowledge we have of persons and things, that such *would not be* the case. But will it be said again: your assertion is not a proof and cannot be taken as such. Well then! we can only refer you, for your entire satisfaction, to an opponent's experience in the matter. One Bennett, published in 1877-78, a Directory which should have given, according to your pretensions, the greatest satisfaction; a considerable part of his work having been compiled in *both languages*. And did he not succeed, will he your next query? Succeed! Yes, he succeeded in losing money, and his venture was in every respect a total failure.

Again you doubt our statement! Write to that gentleman on the subject and we are sure, *he will set your doubts at rest*. But enough; for even did the failure of the above trial not support our argument we would still hold good our assertion, for *we know moreover*, that besides not gaining favour among our countrymen, we would lose the majority of our English patronage, which, it must be remembered, deserves some attention on our part, as they are undoubtedly one of the most wealthy, influential and enterprising portion of our population. How then for a directory? The fact is evidently this: Quebec would have to go without one, for we could not afford and none would attempt to publish a directory *pro famâ*. It don't pay! On the other hand, we believe there is little inconvenience to be derived by our French patrons, from the fact that the Directory is published in English, as they all possess—and let this be said to their praise—a sufficient knowledge of the English language to not be put about in the every day use they make of a Directory. As stated previously, this work is made for general utility and not to suit the fancy of this or that one. And as for nationality and party interference or influence, we have long ago determined that, in the performance of our duties towards our Citizens to whom we are largely indebted, we shall be and intend to remain above such

considerations, having but one object in view and that is: to be useful to one and all in as much as our humble capacities will permit.

NOTE-WORTHY EVENTS.

Among the note worthy events of the Directory year we have chronicled the following: the so called *Coup d'état* of the 2nd of March; the subsequent advent into power of the Liberal party on the 1st of May, and opening of Parliament on the 4th June: the laborers' strike on the 14th July. Later on, the downfall, on the 17th of September, of the MacKenzie administration, superseded by the McDonald-Langevin ministry on the 21 November. The laying of the foundation stone of Dufferin Terrace and St. Louis gate on the 18th October and the subsequent regretted departure from our shores of Lord Dufferin, on the 19th of the same month. The landing in the Dominion of the Marquis of Lorne and Her Royal Highness the Princess Louise on the 23 November 1878. The opening of the Federal parliament on the 13th February 1879; the inauguration, by the Hon. H. G. Joly, of the Q. M. O. & O. Railway, better known as the North Shore Railway, on the 8th of February, and the arrival in Quebec of the first train direct from Montreal at 9½ P. M. of the same day; the unexpected reference to Downing Street of the much debated Letellier affair on the 3rd of April; the long expected visit of the Marquis of Lorne and his Royal consort on the 4th of June, the subsequent official opening of the Dufferin terrace on the 5th, and the laying of the foundation stone of Kent gate on the 10th of the same month, 1879.

IN YOUR FAMILIES.

Our book will be found more useful than any secular book published; for therein is contained information about the City, setting forth Quebec as it is, in every different phase and aspect. If you do not believe it, try a copy in your family, and thereby see how readily you can answer any question put by your visiting friends about this City, by referring to the Table of Contents. You cannot bestow on your friends residing elsewhere a better favour than sending them a copy of "CHERRIER'S QUEBEC DIRECTORY."

MONTCALM WARD.

It should be remembered that there are still several streets in Montcalm ward that remain unnumbered, and that the power to do so does not lie with a publisher of a Directory, but with the City Council.

THE TABLE OF CONTENTS.

And various Indexes will be found very convenient, and it will be seen that the information in regard to the Governments, both Municipal, Local and Federal and the Public, Religious, Educational and Charitable and private Institutions, is usually full and interesting. As we have had occasion to state in a previous issue, we are open to any practical suggestion which will in any way tend to improve the general utility of our work, and of this readiness to comply with the wishes of our patrons, we have already given sufficient proof. Whilst on the other hand we wish to rigorously avoid the useless insertion of num-

berless tariffs and such like, which are to be found on every business man's counter.

SHIPS SOLD.

For the year ending 30th June 1878, Quebec ship-owners, sold 13 vessels, aggregating 10,028 tons, for \$434,680, or within a fraction of \$40 per ton.

EXPORTS AND IMPORTS.

According to returns for the year ending 30th June 1878, goods to the value of \$3,262,078, and paying \$567,909.94 of dues, were imported through the Quebec Custom House. The exports hence for the same period amounted in value to \$9,494,836, being a gain of \$6,000,000 in favour of the country.

FAILURES IN QUEBEC.

According to the "*Monetary Times*" the number of failures in Quebec for the year 1878 numbered 12 with liabilities amounting to \$765,000.

OUR PAST AND PRESENT POPULATION.

We can approximate very closely the present population of Quebec, including St. Saviour but not the Banlieue, by adhering to our usual method of computation. Such computation shows a result that is gratifying, notwithstanding the adverse influences which, since many years have prevailed against the growth of our "Noble Old Quebec." The following table exhibits the number of names published in each Directory since 1844, and the increase and decrease in population whenever any —

It is customary with Directory publishers, in estimating the population, to use as a multiple of the names contained in the Directory, the number 3, 4, 5 and often 5; if we estimate as we have done and should do, our population at 5 to each name, we shall arrive at 61,320 souls as being the Census of Quebec, not including the Banlieue. This method of arriving at the growth of this City has heretofore been justified by actual count, notwithstanding statements to the contrary.

As the above tends to indicate, our population is on the eve of a remarkable increase. The early completion of our railroads, which are bringing into such close connection all parts of the Province, together with our steam communication, and last but not least, the City improvements—thanks to the Earl of Dufferin—are making a change in our midst, the measure of which our next issue will better show. Henceforth, there is every reason to believe that the increase will be a steady one and add to the number of our residents; and by improving the real estate of the City proper, enhance the taxable value of its property and equalize its distribution.

PROSPERITY OF QUEBEC.

Is Quebec advancing, or in a state of retrogression, during these times of business prostration? is undoubtedly the question which revolves in the minds of many who have at heart our City's growth and prosperity. We have endeavoured to answer that query by compiling statistics from 1844 to

date, showing our population each 10 years as per *Census report*, giving, in connection therewith, the number of names in the Directory and the ratio the former bears to the latter. From this average ratio of 26 years, we show our population each succeeding year, and it will be seen that, with the exception of 1873-74 in which year a serious business depression took place, and the year 1876-77 when the lamentable destruction by fire of Montcalm ward occurred, Quebec has steadily increased in population.

parties, who have pursued the same general system of canvassing and compiling—adding such improvements each year as experience suggested.

A glance at the decrease of ratio each year, shows a nearer approximation to perfection in our canvass. Indeed, a Directory publisher of long experience has the advantage of obtaining full and correct returns. His work will not be purchased unless it is reliable, and from the fact of his making the canvass every year—instead of every ten years—and comparing the new returns with the previous year, we are confident the Directory is the most complete.

As further evidence of the slow but sure strides to progress Quebec has made within the last 28 years, we shall give a few more statistics computed from the Censuses of Canada for the years 1851-52-1860-61-1870-71.

SUMMARY OF QUEBEC POSSESSIONS PUBLIC AND PRIVATE.

An examination of the following list of appurtenances will exhibit Quebec more graphically than a longer description would do. Has two lines of railways converging to the City, one directly, the other indirectly; two lines of street railways, with upwards of four miles of track; has 7,400 voters and 7,388 houses, 2,632,874 acres of land, 1,028 warehouses, factories and shops, with 284 streets including those of St. Sauveur, equivalent in length—for Quebec City—to 175,294 English feet; has 26½ miles of sewers, connected with 300 gully wells at street corners. The latter are trapped and have pits to receive the solid

matter from the wash of the streets and are cleaned out when required, which, combined with the 4½ mile current of the St. Lawrence river, afford a sewerage system nowhere excelled; has 213 fire hydrants, 1 public garden of 73,245 sq. ft. in extent; 1 terrace (Dufferin) 1,420 feet in length; 2 protestant high schools, 1 christian brothers' commercial academy with 4 branch schools, 2 boys' academies, 1 school of arts and designs, 6 ladies seminaries, 1 Laval normal and model school, 2 colleges, 1 university and 5 convents; 1 government library on which has been expended \$50,000, containing 23,229 volumes, together with 578 marine maps; besides 2 other libraries of about 20,000 volumes valued at \$40,000; 12 hospitals and asylums, 1 medical college, 1 lying-in-hospital, 1 house of reform, 21 churches, 8 banks, 4 of which have an aggregate capital of \$8,000,000; 32 clubs, 10 religious and 23 benevolent societies; 5 national and charitable institutions; 7 cemeteries; 7 public halls; 3 building societies; 8 daily newspapers and 7 weeklies, besides monthly papers and periodicals; 459 licensed carters and 445 trucks giving the Corporation an annual revenue of \$7,149; 36 incorporated companies; 8 markets, 6 fire stations and 3 fire engines, 10 babcoks; 7 police stations with a police force composed of 1 chief, 1 deputy-chief, 1 clerk, 2 detectives, 1 health officer, 8 sergeants and 46 constables. Owns a fleet of 453 ships—census of 1870-71—representing a tonnage of 110,405 tons.

MARKET APPRECIATION.

As a marked appreciation of the value of our book in the eyes of our civic authorities, we may here mention that, at the earnest request of Lawrence A. Cannon, Esq., the esteemed clerk of the city and our very able city engineer, Chevalier Chas. Baillière, our Directory has been placed under the corner stones of the *Dufferin Terrace* and the *St. Louis Gate*, on the 18th of October, 1878 and the *Kent Gate*, on the 10th of June, 1879. And we would be wanting in elementary, courtesy were we to let this opportunity pass by without asserting these gentlemen's strong claims to our profound gratitude.

MANUFACTURING INTERESTS.

It is painful to state that so far, Old Quebec, notwithstanding its geographical position, its convenience as a receiving and shipping centre, its so-called economy of Municipal Government—some will say this is contestable and we believe it—elegance, thrift, healthfulness, educational and social advantages, has drawn very little new capital for manufacturing enterprises and has not as yet succeeded in emboldening our old and wealthy Citizens to embark largely in such ventures. Let us hope that with our present railways, harbour and such like improvements, and much vaunted protectionist policy, Quebec will soon show its sister city Montreal, that if it has been for a certain period behind time, it is at last awakening to a just sense of its importance as a commercial, manufacturing and shipping centre. Our factories now

existing, consist of 4 boot and shoe; 2 cabinet, 1 tobacco; 1 rubber; 1 confectionary and biscuit; some 55 tanneries and 8 foundries. According to the last census returns there was capital invested in industries in this City to the amount of \$2,870,638, employing 7,250 hands with a total value of raw material amounting to \$4,771,459 and a total value of products of \$8,449,752.

DUFFERIN TERRACE.

This unrivalled promenade, more than a quarter of a mile in length, and averaging some two hundred feet in breadth, with the garden adjoining, stands at a height of 182 feet above the St. Lawrence. It is erected on the crest of the rock forming the south-east face of the promontory upon which the city is built and extends from the rear of the Post Office, near the head of Mountain Hill, to the edge of the cliff beneath the King's Bastion of the Citadel, which rises majestically above it at a height of 150 feet.

Many persons, while walking the Durham Terrace which adjoins it to the North, have no doubt, on a crowded evening, conceived and given expression to the idea that an extension of the terrace, towards the southward would be highly desirable; but the first practical suggestion defining the limits and extent of the improvement is to be found at page 22, of the report of C. Baillairegé, Esq., Chevalier and City Engineer, for the year 1872.

Under the mayoralty of O. Murphy, Esq., the Legislature was applied to for power to issue debentures to carry out the work, and Lord Dufferin, then Governor-General of the Dominion, and who had most nobly abetted and promoted the undertaking, kindly allowing his name to be coupled with the improvement, laid the foundation stone of the terrace at the south corner of the Castle Battery under the Louise Pavilion, on the 18th October, 1878, under the mayoralty of R. Chambers, Esq.; while it is expected that the terrace will be inaugurated and thrown open to the world during the coming summer by their Excellencies, the Marquis of Lorne, now Governor-General of Canada, and his Royal Spouse Princess Louise, daughter of Our beloved Sovereign Queen Victoria.

The Federal Government considering the Dufferin Terrace a work of national magnitude and importance has, at the request of Chevalier Baillairegé, its originator and designer, included \$15,000 in the estimates now before the House of Commons, for the purpose of repairing the front fortification wall and of raising it to the level of the terrace in a series of piers and arches; and when, in addition to the terrace, of which Lord Dufferin has said "there will be nothing like it of its kind in the world," the proposed new chateau has been erected on the citadel, with a carriage drive to it from Des Carrières street, up along the face of the glacis and into the end of the ditch at foot of flag-staff bastion—as proposed by Lord Dufferin himself on suggestion of our City Engineer—the

attraction to visitors will certainly equal if not surpass that to be found in any other city of the globe.

We must not omit to say that application is now being made to the Federal Government for permission to demolish and remove that terrible eyesore, the old chateau which shuts out the view of the river from St. Louis and Des Carrières streets, and this with the design of erecting a conservatory in its stead. Along the front of the terrace are five pavilions or kiosks which will be known as the "Frontenac," "Victoria," "Louise" and "Lorne," "Dufferin" and "Plessis," one at each extremity of the promenade, one at the centre and two intermediate; thus dividing the walk into four sections of over one-sixteenth of a mile each, while affording protection from both sun and rain and enabling persons to state in advance at what particular pavilion they may, at any time, be found or sought for.

The range of guns from Wolfe's battery being now rendered inefficient by the height of the Terrace, it is proposed to erect a new battery under the terrace between the Victoria and Dufferin pavilions, along the re-entering portion of the front or fortification wall. This battery will be situated on the very crest of the cliff and command the shipping lying abreast of the lower town wharves and piers.

The arched openings under the terrace are designed with the view of an aquarium which in course of time may be commenced and extended as occasion offers from the Louise Pavilion to the Victoria, a distance of not less than 350 feet, and even the whole length of the new terrace if required, thus making it more than a thousand feet long, while the remaining space below the flooring may be utilized for storage purposes and devoted to the culture of mushrooms and other plants which thrive best in the dark.

The depth of the space beneath the terrace will also make it appropriate for tanks for hippopotams and other pachyderms and amphibia, etc., also for pits for lions and the more dangerous carnivora, should we ever have the good fortune of possessing, even on a miniature scale, anything like the Paris "Jardin des Plantes" or the London "Zoological Gardens." Then with a suitable band stand to discourse sweet music to the eager ears of the thousands who will not fail to enjoy the promenade, the garden tastefully laid out and planted with trees of fragrant smell and pleasing hue, not forgetting a good supply of lounges suitably interspersed over the whole surface of the terrace and garden, Quebec will be in possession of something capable of causing visitors to the old City to lay on their oars for a few days or weeks instead of, as at present, coming into the City by the morning boat or train and leaving it again the same evening for the want of any object of interest to centre their affections in.

Our enterprising fellow townsman Willis Russell, Esq., has it in contemplation to apply for the site of the Old Chateau or other site in

the immediate vicinity of the Terrace to erect a first class hotel like the Windsor at Montreal and certainly some such accommodation is badly needed in Quebec; nor can it be denied that, in connection with the new promenade, some place of refreshment is imperatively required close to hand, where gentlemen may procure a cigar and coffee, ladies an ice or lemonade.

Some years ago the question was mooted of erecting a statue to the founder of Quebec, "The Marquis de Champlain" and a model sent out from Paris for the purpose, now to be seen in the City Engineer's office. This project should now be revived in connection with the new Terrace which would afford a magnificent site for such a statue, and it would be a much better way of doing honour to Champlain's name than that now proposed by the Literary and Historical Society of Quebec of merely inscribing it on one of the kiosks.

After alluding to Chevalier Baillairgé, as originator and designer of the terrace, to Lord Dufferin as its noble promoter, to mayors Murphy and Chambers under whom the money was voted and the work carried out; it is fitting to state that J. J. Foote, Esq., editor and proprietor of the *Morning Chronicle*, deserves well of the community for his advocacy of the improvement and the expense incurred by him in illustrating the Dufferin Improvements. So also does Councillor Brouseau, chairman and the members of the Road Committee, for their endeavours on behalf of the great work and the Finance Committee and City Council in general for nobly voting the money to do honour to the occasion.

REMINISCENCES OF THE PAST.

As illustrating furthermore the advance of Quebec in the path of prosperity and as a matter of interest to the antiquarian, a few items may be cited from Hawkin's directories for 1844-45 and 1847-48, Mackay's directories for 1850-51 and 52-53 and McLaughlin's directories for 1854-55, 55-56 and 57-58.

In Hawkin's directory for 1844-45, on pages 59-60 the names of the following gentlemen are given as forming the City Council for that year, viz: *Mayor*.—Honble. R. E. Caron. *Aldermen*.—J. Wilson, Honble. L. Massue, J. Tourangeau, A. Simpson, E. Giackemeyer, J. Savard. *Councillors*.—G. Okill Stuart, H. S. Scott, J. McLeod, T. W. Lloyd, L. Plamondon, M. Connolly, J. Doran, W. O'Brien, J. Robitaille, E. Rousseau and J. Laurin.

For the year 1847-48, on page 67 we find the Quebec Board of Trade composed as follows: *President*, Honble. W. Walker; *vice-president*, J. Dean; *treasurer*, H. J. Noad; *Council*, P. Langlois, jr., A. Gillespie, H. Lemesurier, J. B. Forsyth, G. H. Parke, J. Tibbets, W. Stevenson, A. Laurie, C. Wurtele, H. W. Welch.

Most of these names are now inscribed upon the roll of the dead. A few staid and venerable gentlemen of the number still remain quietly awaiting their term to be added to the

list, and some of them still give promise of years of activity.

In Mackay's directory for 1850-51, the police force is set down as follows: *Chief Constable*, R. H. Russell—Station houses, Cul-de-Sac, Parliament Buildings, the Chateau—Force 33 men.

In the same work for 1852-53, the number of vessels built and registered at Quebec in 1851 is put down as being:

40 square rigged, aggregate tonnage. 38,900	
12 schooners	1,562
2 steamers	109

Total 40,567

In McLaughlin's directory for 1854-55 on page 178, appear the undermentioned names in connection with the North Shore Railway, now a *fait accompli*. *Jos. Cauchon*, M. P. P., president; *Angus McDonald*, vice-president; *Directors*, W. H. Anderson, Honble. N. F. Belleau, F. Evanturel, Gustave Joly, J. McDougall, G. H. Simard, G. O. Stuart, Hector L. Langevin, secretary and treasurer; *James N. Gildea*, chief engineer, *Ed. W. Grubb*, asst. engineer. Office, Buade street.

In the same work for 1855-56 are given on page 15, part II.

ST. PATRICK CATHOLIC INSTITUTION.

Founded A. D. 1852.

Council.—President, W. Quinn; 1st vice-president, J. O'Leary; 2nd vice-president, J. Lilly; recording secretary, M. F. Walsh; corresponding secretary, T. Colfer; treasurer, J. Lane, jr.; vice-recording secretary, T. M. Quigley; vice-corresponding secretary, Jas. Foley.

We will now conclude this Preface by unhesitatingly declaring this to be one of the most thorough and exhaustive works of the kind issued since 1844-45; and we desire to express to our patrons our acknowledgements for the support accorded us, which, though not as extensive as it should be, we accept as gratifying evidence of the acceptability of our previous efforts to make a trustworthy Directory. We cannot part without tendering our sincere thanks to C. Baillairgé, Esq., Chevalier and City surveyor and to G. J. L. Lafrance, Esq., City treasurer, as also to our

able City accountant M. F. Walsh, Esq., for the very valuable assistance, they have at all times most readily and willingly accorded us, on former, as well as, on the present occasion.

And now we will say to those who might have to find fault with our labour, and perhaps be too easily inclined to criticism: remember the following words of Samuel Johnson:—"He who has much to do will do something wrong, and of that wrong must suffer the consequences; and if it were possible that he should always act rightly,

"yet when such numbers are to judge of his conduct, the bad will censure and obstruct him by malevolence and the good sometimes by mistake."

In 1663 was founded the Quebec Seminary which afterwards became a regular College, and it had, by successive addition, acquired a high degree of importance, when it was erected, by Her Majesty's Royal Charter, into a University, under the style and name of *The Laval University*. By this charter, which bears date December 8th, 1852, no change was effected in the constitution of the Seminary itself, but a council composed of the directors of the institution, and the three senior professors of the several faculties was empowered to possess and enjoy all the privileges granted to the Universities of the United Kingdom, and especially that of conferring degrees in the Faculties of Divinity, Law, Medicine and Arts. On the 15th May, 1876, His Holiness Pope Pius IX, gave to the Laval University, the Canonical erection. ALPHABETICAL DIRECTORY.

EXPLANATIONS :

ABBREVIATIONS USED IN ALPHABETICAL DIRECTORY : bdg. hse. *boarding house* ; bds. *boards* ; h. *house* ; r. *rear* ; sq. *square*.

The Names in CAPITALS are those of Subscribers and Advertisers.

When hill, lane, place, road, square, or any other such word, does not follow the residence, the word *street* is to be understood ; for example : Abgrall Victor, laborer, Champlain 677, means Champlain street 677.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of *business*, and the second the *residence*, and both in the same street.

It will be noticed that the names of all members of a firm are added directly after the name of the firm. This, it must be understood, does not interfere with the regular insertion of the same names in their *Alphabetical order*.

For full indices to the CONTENTS, see pages 13-14

Our advertising patrons may be found by referring to the Index, page 12. We feel justified after many years acquaintance, in saying we believe them to be among the very best in their vocations, in the City of Quebec.

In the Street Directory, numbers followed by a — are houses *unoccupied* at the time of publication.

Names of residents in houses of ill-fame are not inscribed in the Directory.

In preparing this year's issue we have noted 1,648 removals, have erased 1,262 and have added 1,587 names ; the number of names in this year's Directory being 9,621 shows a net gain during the past year of 325 names, there being only 9,296 in the last edition. At the time of going to press, 17th of May, there were still 372 houses unoccupied ; a fact which will more than account for the few omissions that may be found during the year.

To find a name, first know how to spell it.

Quebec Mercury (the), daily, evening, annual subscription \$4.00; G. T. Cary, editor, and publisher, Buade 11-13. "THE MERCURY" FILES—We have had the satisfaction of receiving, by this day's English mail, intimation that the file of the *Quebec Mercury*, bound in yearly volumes from its foundation by T. Cary, senior, barrister, first editor and proprietor, in January 1805, (and grandfather of the present editor and proprietor,) has been received complete and in good order at the library of the British Museum in London, where it will be preserved with all the other historical works open to the British public in that valued and venerable institution. Canadians can thus at any time refer their friends or correspondants in England to the *Mercury*, for reliable records of local events during recent or remote years; and it shall be our endeavor always to make it as full and authentic a diary in the future as it is admitted to have been during the past. Complete files of this paper are also among the archives of the Parliament of the Dominion of Canada, at Ottawa, and that of the Provincial Legislature in this City.
