EBERT GOVERNMENT CONFIDENT OF ITS ABILITY TO DEFEND THE ELECTIONS AGAINST VIOLENCE

The Insurrection Generally, it is Claimed, Has Been Effectually Put Down—New Troops Called by the Government Give Followers of Liebknecht No Quarter—Liebknecht is Reported Seriously Wounded.

Berlin, Sunday, Jan. 13.—(By the Associated Press)—The Ebert Government tonight was confident of its physical ability to defend the elections to the National Assembly next Sunday, January 19, against violence from Spartacan and independent socialist sources.

The insurrection generally, it appeared tonight had been effectually put down, chiefly because the new troops called in by the government had taken matters in hand and were determined to give the followers of Liebknecht no quarter. The next few days, it is declared, will witness the inauguration of further drastic military measures calculated to stamp out the Bolshevik contagion. (Despatches dated Berlin Monday and Tuesday have reported that the Spartacan leaders had disappeared and that their forces had been overthrown by the government troops.)

One of these measures covers the illegal possession of arms and ammunition and it is proposed to make this offense punishable with immediate death. That the military men now cooperating with the government propose to show the insurgents no mercy and they amply demonstrated this policy during the re-capture of the Vorwarts building and police headquarters.

It is declared by credible eyewitnesses that the new government troops in both actions Saturday beat down with bayonets and with clubs, and otherwise killed scores of men

who were Spartacan guards or civilians caught with arms. Hundreds of persons already have been arrested and are facing severe penalties.

Berlin, Monday, Jan. 13.—Police chief Fichter, immediately on assuming office in succession to the deposed head of the department, Herr Eichhorn, for whose retention the Spartacans had fought, issued a decree declaring invalid all the decrees of the Eichhorn regime.

He also announced to the policemen that they would be given back their weapons, which were taken away from them during the first days of the revolution. The policemen greeted Fichter's decree by taking off the red bands which they had been wearing on their sleeves.

London, Jan. 14.—Dr. Karl Liebknecht, one of the Spartacan leaders, was wounded severely in the fighting in Berlin, according to an Exchange Telegraph despatch from Amsterdam. The report gives no details.

Bremen, Monday, Jan. 13.—Spartacan forces temporarily are in control of the government of Bremen after an insurrection. The Spartacans were defeated in a local election by the majority socialists and successfully carried out a coup to prevent the majority socialists taking office. All Bourgeoisie newspapers are under Spartacan censorship and a communistic republic has been proclaimed.

Hours thereafter the Spartacans overthrew the communistic republic and threaten the immediate socialization of all industries and banks.

DOAKTOWN HERO RETURNS HOME

Was Member of Famous "Fighting 26th."

Residents of this village were pleased to welcome home Signaller Burnaby Wathen, second eldest son of Principal and Mrs. Geo. A. Wathen, after an absence of about four years. Sgt. "Bun" Wathen deserves much credit, having enlisted with the "gallant 26th" Battalion, under Lt. Col. McAvilly. He has had many miraculous escapes from death, at one time being gassed. Soon after recovering, he suffered from a shell shock, but his many friends are glad to know he is enjoying such good health at present.

Before enlisting he was one of the popular C. C. R. operators and was one of the many to throw up his position and go help the boys at the front. Another brother, Gr. Murray Wathen, is overseas, having last fall with a draft from Valcartier.

VIRGINIA PEARSON AT THE HAPPY HOUR

Beautiful Star in Striking Play of the Russian Revolution.

"The Firebrand," in which Virginia Pearson is starred, will be shown at the Happy Hour Theatre, Thursday.

This play is a stirring drama of conditions in war-torn and revolutionary Russia. It gives a new idea of what is happening in the East, and the audience have given aid and comfort to the Kaiser and where thousands of Russian soldiers have been slaughtered by treachery on the inside.

Mrs. Pearson gives a dramatic portrayal of the feelings of a princess whose brother is killed in battle because the traitors have given out soldiers bullets that do not fit their guns. Like others, she is led to, but in the end she turns and fights victoriously for those who are trying to save Russia from ruin and the despot's heel.

A sterling cast supports Miss Pearson.

TROTZKY AND C. P. R.

Toronto, Jan. 8.—The Telegram today recalls the fact that Trotsky, the new Soviet dictator, worked in the freight sheds of the C.P.R. at Montreal and that he has a claim against them for \$14 for alleged arrears of wages as he left without notice. Trotsky also claims the attention of Canadians in that he organized a Toronto branch of the I.W.O. in New York.

GRAIN GROWERS HAVE A FAR-REACHING PROGRAMME

Brandon, Man., Jan. 10.—The Grain Growers' Convention this morning approved most of the planks of the Farmers' platform as adopted by the Canadian Council of Agriculture in Winnipeg on November 29. In fact, the only amendments offered were to make the returns more far reaching. In addition, farm machinery, household materials and requisites were included in their list.

The platform commits the delegates to the support of a league of nations, wide measure of free trade, taxation of unimproved lands, value graduated income tax, immediate repeal of the war time election act, discontinuance of conferring titles on Canadians, reform of the Canadian Senate, check of Government by orders in council, increased responsibility of individual members, abolition of the patronage system, publication of contributions and expenditures before and after election, removal of press censorship and restoration of free speech, proportional representation, establishment of measures of direct legislation through the initiative, referendum and recall, and opening of seats in parliament to women on the same terms as men.

SALVATION ARMY APPEAL

An appeal is being made for the Salvation Army from the inhabitants of the western part of Northumberland County to raise the amount of \$2,500 during the drive from Jan. 19th to 25th, inclusive.

We are well aware of the wonderful help this organization has been during these years of strife, more especially during the trying years from 1914 to 1918, when this Dominion and other portions of the Empire were endeavoring to hold aloft the highest ideals which civilization and humanity revered. In their work at the front and base they have not been surpassed by any kindred organization, which has been done by the boy who has done his bit and returned to this country.

While hostilities have ceased, the war is not over and we are entering the most important era in our history, which demands more consideration than in the past. We must give generously in order to do for our relatives and friends "over there." Let us remember the anxious days from 1914 to 1918, when events caused us grave moments of serious reflection upon the outcome of the struggle. And all the while the Salvation Army and other organizations were right up in the front line carrying out their deeds of mercy in order that the fighting lad should be cared for. We remember that others were thinking of him.

The money which will be given to our relatives and friends should be cared for. We remember that others were thinking of him.

The money which will be given to our relatives and friends should be cared for. We remember that others were thinking of him.

A happy Belgian maiden, seeing her prospective husband clubbed to death with the butt-end of a mallet, under orders from General Von Glick; her father shut down and herself torn from the arms of her aged grandmother by a German officer, Captain Von Hancke, who fortunately was unable to accomplish his evil purpose, these experiences of Ruth Clifford provide but a slight idea of the atrocities of the German barbarians in their advance through Belgium that are faithfully and authentically shown in the dramatic heretofore unknown in sights into the private life of the German Emperor, as played by Julius Kuper, in his sensational screen epic, "The Kaiser, the Beast of Berlin," to be shown at the Happy Hour Theatre on Wednesday next.

UNFEIGNED ADMIRATION FOR CANADA'S WAR EFFORTS

Ottawa, Jan. 11.—"The war has had some consolations—it needs many," said Newton D. Baker, United States Secretary of War, at a Canadian Club luncheon to-day.

"One of the permanent benefits to the children of men," he said, "is that we of Canada and the United States, who formerly were neighbors, have actually discovered one another. The bond of union cemented when our soldiers and your soldiers fought shoulder to shoulder on the battle fields of France is not going to be broken."

Secretary Baker expressed unfeigned admiration for Canada's war efforts, saying the people across the border knew of the cost of Canada's devotion.

He was cheered to the echo at the conclusion of his address.

A NOTABLE PROTOPLAY.

Few photoplays produced in recent years approach in beauty and interest mounting stunner Marguerite Clark, and in which she plays two parts—Eva and Topsy. It will be shown at the Happy Hour Theatre, Friday and Saturday. It is safe to predict that large crowds will welcome it. Miss Clark is adequately supported by artistic scene players.

RICH, RED BLOOD RESISTS INFLUENZA

Its Victims are Largely Among Weak, Anaemic People.

In the epidemic of influenza, or influenza that has swept over Canada, it has been noticeable that its earliest victims were the thin-blooded anaemic people whose power of resistance is greatly weakened because of the watery condition of their blood. When a person is strong, hearty, able to enjoy a brisk cold, chills and infections are set at defiance. But when the system is run down, when the nerves are shaky and the blood watery, the germs of influenza are quick to seize their opportunity. It is therefore good policy to keep the blood always rich, red and strong, and the nerves well nourished by the use of such reliable tonic as Dr. Williams' Pink Pills. People who take these pills from time to time are usually able to resist colds, influenza and other ailments, and enjoy good health, while many about them are weak, ailing and miserable.

To those who have been attacked by influenza, the after effects are more dangerous than the attack itself. They are left at the mercy of relapses and complications. There is a persistent weakness of the limbs, shortness of breath at the least exertion, poor digestion and a tendency to take cold easily. This condition will persist and will grow worse unless the blood is built up and the shattered nerves strengthened. For this purpose there is no tonic can equal Dr. Williams' Pink Pills. From first to last these pills make new, rich, red blood, which reaches every organ and every nerve in the body. Thus the lingering germs are driven out, the appetite is improved, and weak, despondent victims of influenza are transformed into cheerful, healthy, happy men and women. If you have passed through an attack of influenza, you will find Dr. Williams' Pink Pills the one thing needed to restore you to full health and strength. If the trouble has passed you, you can further strengthen yourself against its insidious advance by the use of this same tonic medicine.

Medicine dealers everywhere sell Dr. Williams' Pink Pills, or you can procure them by mail at 50 cents a box or six boxes for \$2.50, by writing the Dr. Williams' Medicine Co., Brockville, Ont.—Adv.

Mr. Leonard Smallwood Passes Away at Ripe Old Age of Seventy-Three.

The death occurred at his home in Maple Glen on Monday morning of Mr. Leonard Smallwood, an aged and respected resident of that place, after a short illness of pneumonia. WEDDINGS.

Shier-O'Donnell.

A very pleasant event was the marriage shortly after noon Wednesday of Roy Emmerson Shier, son of Mr. and Mrs. John Shier, of Carduff, Saskatchewan, and Miss Martha O'Donnell, daughter of Mr. and Mrs. Edward O'Donnell, of Newcastle. The marriage took place at the home of the bride, Rev. E. A. Kinley, the officiating clergyman. The happy couple were unattended. The bride was crowned in cream silk, crepe de chine and carried a bouquet of pink and white carnations and maiden hair fern. Her travelling suit was of taupe with hat to match. Only the immediate relatives of the contracting party were present. After the wedding dinner Mr. and Mrs. Shier left on the Limited for Moncton, after which they will spend part of their honeymoon here. They will reside near Carduff. The bride was very popular here, and the young people received many hand-some and useful gifts.

BRAVE BELGIAN BOY.

The bravery of a young son of the village blacksmith of Lovain, Belgium, in his recent attack upon a German general—Von Gueler—resulting in fatal injury to the Hun commander, is the talk of this and surrounding communities.

The boy, a mere youth, openly showed his hatred of the Germans, who were occupying his home village and angered at the constant speeches of the general threatening death for any attack upon the troops succeeded in inflicting injuries upon the German general that resulted fatally.

The boy disappeared last seen being pursued into his father's blacksmith shop by a German officer with drawn sword. This scene among many show the deprivations of peace-time in Belgium by the German hosts included with sensational exposures of the Kaiser himself in his private life in Rupert Julian's remarkable screen chronicle "The Kaiser, the Beast of Berlin," to be shown at the Happy Hour Theatre on Wednesday next.

SALVATION ARMY DRIVE AT NEWCASTLE

Newcastle, Jan. 10.—A very large attended meeting in the town hall was addressed last night by Capt. Steele, Salvation Army Chaplain overseas three and a half years, who left France for Canada the day after the signing of the armistice. Capt. Steele spoke very interestingly of the great work done by the army immediately behind the firing line, at the base camps, hospitals, etc. The drive for £1,000,000 for the S. A. war and demobilization work begins on the 19th instant. A very pathetic incident related by Capt. Steele was that of two soldiers returning from the trenches—One a Canadian soldier wounded in the head and leg, and the other a German prisoner, wounded in the arm. They were supporting each other. At the S. A. coffee house, the Canadian gave his coffee and biscuits to the German prisoner before he would take any for himself. Not while Canada has men like that, said the speaker, will she ever lose her present high standing among the nations. Mayor J. H. Troy presided.

THE POWER QUESTION.

The report of the hydraulic engi-
neers who made the survey of the wa-
ter powers in the vicinity of Newcastle
last summer was submitted to the
town council at their meeting on
Tuesday, Dec. 31st, and appeared in
our last issue.

The report dealt extensively with
the possible sources of power and re-
commended that the plant, if install-
ed, be at Ludden's Landing on the Se-
vegie River, about twenty-six miles
from Newcastle, where a force of up-
wards of five hundred horse-power
can be secured with a thirty-foot dam.

At the present time less than two
hundred horse-power is being used in
Newcastle, and with the installation
of the new plant a surplus of over
three hundred horse-power will be
available for power purposes, and can
be disposed of at a very low rate
thereby inducing manufacturers who
are now facing the high cost of power
from fuel elsewhere to locate in
Newcastle, and in addition help other
small industries that are struggling
for existence at the present time here.

It would also provide a twenty-four
hour service with practically no extra
cost of production.

The estimate submitted by the en-
gineers is about one hundred and fifty
thousand dollars—a very moderate
sum when it is considered what our
present system is costing us.

In the year 1917 the cost of fuel
alone for power purposes at the elec-
tric light and pumping station here
was \$12,724.46, which does not include
another \$2,000 for freight and hand-
ling, in all about \$14,000, which sum
would pay interest at the rate of six
per cent. on almost \$200,000, or
double the amount estimated as the
cost of installing the new plant. This
year we are told that the cost of fuel
will exceed that of last year by at
least fifty per cent., and in that case
if the new plant were to cost \$200,000
it would be a money-saving invest-
ment for the ratepayers. But the cost
has been placed at \$150,000, and with
the resumption of pre-war conditions
in the manufacturing plants in this
country will likely be reduced to
\$125,000, and if debentures were issued
at six per cent. for this amount
and the plant installed, the interest
of same would be about \$7,500, result-
ing in a saving of almost \$12,000
to the ratepayers of the town, and in
addition a first-class electric service
would be available for twenty-four
hours of the day.

At the intention of the town coun-
cil to shortly submit the question to
the ratepayers for their approval, be-
fore going ahead with the proposi-
tion, and we strongly urge upon the
citizens the careful study of the en-
gineers' report, as well as the cost of
up-keep of the present obsolete plant
so that when the plebiscite is held
they may intelligently vote on the
question and we have no hesitation in
saying that the water power proposi-
tion will obtain a hearty endorse-
ment at the polls.

DRIVE RIGHT AND LEFT

The chairman of the Public Works
Committee has drawn our attention
to the need of keeping the roads about
town of sufficient depth to allow
teams to pass one another without
difficulty. He suggests that all in-
ter-city drivers instruct their delivery
drivers to drive right and left, there-
by making a double track, which could
be kept in good condition all winter.
The suggestion is a good one, and we
trust that all drivers will assist in
the matter.

Government management of rail-
ways in the United States last year
resulted in a deficit of \$186,000,000.

We commend to the consideration
of the stewards on the S.S. Northland
that next trip they procure some of
the sauces advertised by a Chatham
merchant for "foul" and other meats,
and thus end the complaints of bad
food.

Woodstock firemen threaten a strike
unless they are granted \$75.00 each
per year and the Chief \$110.00. In
Newcastle the firemen get \$30.00 per
year and the Chief \$40.00, and New-
castle has one of the best fire-fighting
units in the Maritime Provinces, be-
cause it is not for the pay but for the
interest of the community for which
they serve.

All the Chatham young men have
not as hard opinion of Newcastle as
the editor of the World, judging by
the numbers who visit our town most
every evening, spending several hours
while the editor complains at a two
hour delay here last week. We think
if the editor would pay us a visit a
little oftener he would soon have a
warm spot in his heart for the shir-
town.

The suggestion of Chief Inspector
Wilson that a government liquor dis-
pensary be established causes Com-
modore Stewart to remark:
"The Local Government is flirting
with a proposal that it take over the
wholesale liquor business. What a
great political practical Government
Liquor Bureau would be! The patri-
otic potato scandal wouldn't be in the
same class with the liquor scandal
that would soon be top."

If any of our readers think it is an
easy job to get up a newspaper every
week they should try it. Just for an
example of what it is like, sit down
some leisure moment and write a few
lines describing some of the events
you can see to mind. Then reflect
that a sheet of note paper will con-
tain about as much material for about
the length of a column.

and widely known lady, Mrs. Ellen
Ryan, widow of William Ryan, who
died seventeen years ago, occurred on

in failing health for four years, but
was mentally as bright and active as
ever. She was a little more than 80
years of age and was formerly Miss
Casey. She was a life-long resident
of Newcastle and daughter of the late
Mr. and Mrs. William Casey. Her hus-
band was for years captain of the
light ship here. Deceased leaves three

The many friends of Mrs. Henry

formerly of Doaktown, will be grieved
and shocked to hear of her death Mon-

few days with influenza, followed by
heart failure.

She was a great and willing worker
in the church and Sunday School, as
well as an enthusiastic president of
the Kingston Women's Auxiliary and
an honorary president of the other
three branches of the parish. All
branches recently showed their ap-
preciation of her work by making her
a life member of this organization.

During the brief time—two and one
half years—she had been in the par-
ish, Mrs. Waterton organized two Sun-
day Schools—one at Reed's Point and
one at Nator's—in which she took
such pride and worked so faithfully
and unselfishly that she seldom con-
sidered her own health.

Mrs. Waterton was thoughtful of
others, taking opportunities of help-
ing in sickness and need. Her bright
and cheerful disposition made her be-
loved by all who knew her. She will
be greatly missed by her large circle
of friends and heartfelt sympathy is
extended to Mr. Waterton in his sad
bereavement.

SIX HUNDRED
CHILDREN GOT
OUT SAFELY

St. Johns Church and School
House at New Aberdeen, C.
B., Burned—Loss \$40,000.

Glace Bay, N.S., January 12.—St.
John's Church and school building at
New Aberdeen, C. B., was destroyed
by fire that broke out at 11.55 today.
The building was three stories, and
was burned to the ground, nothing
left but the chimney. About
600 children safely got out of
the building in one minute, the fire
being very quickly extinguished.
Some seats from the school and pew from the
church were saved. The loss is at
least \$40,000. The building was of
wood, and in an exposed situation, and
the flames spread rapidly, notwith-
standing the good work of the town
and colliery firemen. A few sparks
caught on an exposed chimney, but
practically no damage was done. A
defective fire is believed to have been
the cause of the fire.

**ROOSEVELT PLANNED FILM
PROFITS BE USED AFTER
WAR TO HELP SOLDIERS**

Oyster Bay, Jan. 12.—That Colonel
Theodore Roosevelt planned for the
comfort of the American soldiers in
France and at home while he was on
his sick bed became known today,
when it was related that he wrote a
letter asking that change be made
in a contract which he signed before
the war ended. Although the change
has not yet been made, it is believed
that he would have signed the new
contract, but his desires will be car-
ried out.

At the time Colonel Roosevelt al-
lowed his books to be filmed by Fred-
erick L. Collins of the McClure Firm,
Inc., he had stipulated in his contract
that "all profits accruing to me per-
sonally shall be used for the relief of
soldiers and possibly other war organiza-
tions."

After the armistice was signed the
Colonel wrote Mr. Collins and asked
that the wording "during the war"
be changed to read "until all of the
men are returned to their homes
from the war." The Colonel explained
that he knew that the soldiers would
be in need of money more than before
because of the tedious days of peace-
making.

The financial clauses concern the
gold reserve of the Reichsbank and
the issue of money by Germany. Mar-
shal Poch, when he meets the German
armistice delegates will make sugges-
tions regarding the security of gov-
ernment monetary deposits and the
means of issuing bank notes. Guar-
antees will be required regarding any
removal of the Reichsbank's gold
from Berlin. In view of Bolshevik ac-
tivities.

The naval conditions demand strict
compliance with the requirements of
the original armistice concerning the
handing over of the submarines which
have not yet been complied with. No
question was raised regarding the
occupation of German ports by the
Allies, as has been reported.

Examination into the question of
allied intervention in Poland against
the Bolsheviks was postponed by the
council.

The armistice question thus being
settled, Marshal Poch has left for
Trevies, where the German delegates
will be received.

**PUTTING FORWARD
EXTENSIVE CLAIMS
FOR ITALIANS**

**An Outburst of Indignation
Against Former Italian Min-
ister, Bissolati, Who Con-
tends Italy Should Not
Claim the Brenner Pass,
in the Tyrol, or Dalmatia.**

Rome, Monday, Jan. 13.—(By the A.
P.)—The recent speech of Leonida
Bissolati, Milan, in which the former
cabinet minister expressed the opin-
ion that Italy should not claim the
Brenner Pass, in the Tyrol, or Dal-
matia, has caused an outburst of in-
dignation in virtually the entire Ital-
ian press. Among other things the
utterance has drawn out the publica-
tion of a document setting forth the
claims Italy should make at the peace
conference which was drafted in
April, 1917, by Senator Leopoldo
Franchetti and signed by 3,000 per-
sons, Senators and deputies of all the
parties, including followers of Signor
Bissolati, Socialists, Catholics, Rad-
icals, etc., and which was presented to
the premier.

Only three copies of these docu-
ments are in existence. In the claims
the Italian claims are set forth as fol-
lows:
In Europe, the annexation of the Ir-
ridentist lands, namely the Upper
Adriatic, Trentino, Gorizia, Trieste,
Istria, Fiume and Dalmatia, posses-
sion of the natural boundary with a
strong strategic frontier on the
Austro-Hungarian side;

In the Adriatic, exclusive Italian
domination with freedom of naviga-
tion for all commercial purposes,
and with the cession to the peoples
of the Adriatic of the outlet to the
sea necessary to their commerce.

There was also stipulated the right
of Italy to construct a railway which
would unite the port of Ancona with
the Macedonian Railway.

In Africa, too, it was claimed for
renewal of the recognition by England
of the protocols signed in 1931 and
1934; the cession by France of the
small possession of Djibouti (French
Somaliland) in Libya, the rectifica-
tion of the Italian boundaries of east
and west Libya; in the Red Sea, pos-
session of the Farsan Islands; in Asia
and the Eastern Mediterranean, the
assignment to Italy of continental
Asia Minor, with all its ports on the
coast of the Aegean and Mediterranean
Seas, including Alexandria, and
with the island (Turkish?) islands,
which, owing to their nearness to the
coast, form an integral part of the
continent.

Signor Bissolati resigned from the
Italian Cabinet late in December in
protest against the extent to which
Italy was pushing her territorial as-
pirations through the existing minis-
try.

GERMANY MUST
HAND OVER THE
CARGO SHIPS

Paris, Jan. 14.—The economic
terms approved by to-day's session of
the supreme war council to be im-
posed for the extension of the armis-
tice with Germany provides that Ger-
many shall hand over to the Allies all
her cargo steamers in German and
other ports to enable the Allies to re-
victualize Germany and such adjacent
countries as may be decided upon.
The terms also require the restitu-
tion of all manufacturing machinery,
etc., taken from the invaded regions,
which it is possible to identify. This
was decided upon in view that it
would bring about a quicker revival
of economic life than the payment of
an equivalent in money.

The financial clauses concern the
gold reserve of the Reichsbank and
the issue of money by Germany. Mar-
shal Poch, when he meets the German
armistice delegates will make sugges-
tions regarding the security of gov-
ernment monetary deposits and the

IF you had a sore place, and had to choose between two remedies, one of which went to the spot direct, and the other by a roundabout way, which would you prefer? Undoubtedly, the one that gets there direct!

That is just the reason for people's preference for Peps for ailments of the throat, bronchial tubes and lungs. Peps get there direct, because they are breathable, while remedies which are swallowed only go to the stomach.

Dissolve Peps in the mouth, and the vapor which is liberated is carried by the breath direct to the breathing passages and minute air cells of the lungs, destroying all germs, and soothing, healing, and strengthening the delicate membranes.

Once you try Peps you will never use any other remedy for coughs, colds, sore throat, bronchitis, tightness across the chest, night cough, laryngitis or asthma. All dealers 50c. box.

OVER 25 PER CENT. OF FRANCE'S ARMY LOST TO NATION

1,327,800 Dead and Nearly 900,000 Permanently Un-fitted for Work.

3,000,000 MEN WOUNDED

Of This Number, Three-fourths Have Recovered—French Colonial Losses Were Large.

Washington, Jan. 8.—Casualties in the French army, excluding colonial troops, up to November 1, were 4,782,800, according to reports made public to-day by the French High Commission to correct conflicting reports hitherto published.

Men killed in action or dead of wounds numbered 1,328,000, and to this total must be added 299,000 listed as missing and given up for lost, making a total of 1,627,800. The number of wounded was 3,000,000, with 435,000 listed as prisoners. Three-fourths of those who will have recovered, either entirely, or at least to such an extent as to be fit to work again.

Slightly less than 700,000 are absolutely unable to work, and have been pensioned. To this figure must be added those who will come back from prison camps in Germany unfit for work. The French Government estimates that the total number of unfit and pensioned men will be between 800,000 and 900,000 men.

The losses among the native troops coming from French colonies or protectorates were 42,500 killed or died of wounds, with 15,000 missing and very probably dead. The number pensioned after wounds or illness was 44,000, to which must be added those of the 3,600 held as prisoners of war, who will have to be pensioned.

"If one considers only the losses among French citizens," said the commission's statement, "and compares their number to the population of France, about 35,000,000, and to the number of men mobilized, about 7,500,000, one sees that the total killed or died of wounds, missing and unfit for work, was between five and six per cent. of the French population and between 25 and 30 per cent of the men mobilized."

DEPORTATION OF GERMANS AND OTHER ALIENS

Washington, Jan. 10.—Legislation authorizing deportation of Germans and other aliens interned during the war was requested by Attorney-General Gregory today. He sent the draft of a bill to the chairman of the Immigration Committee, who at once introduced it in the House.

The bill, by the terms of which would be on the warrant of the Secretary of Labor that the aliens were "undesirable residents because they had been ordered interned."

REFUSED INCREASE IN CAR FARE IN NEW YORK

New York, Jan. 10.—The City Board of Estimates today denied the request of the Interborough Rapid Transit Company for an increase in the fare charged on elevated and subway lines from five cents to eight. The Board also denied the request of the New York Railways Company for an increase on the surface lines from five to eight cents and three cents for transfers. The Board adopted a resolution to the effect that there appeared to be no reason why financial burdens caused by the war or otherwise should be shifted from the holders of Interborough securities to the traveling public.

SIR WM. PETERSON SUFFERED A PARALYTIC STROKE

The Principal of McGill at the Time Was Presiding at Harry Lauder's Meeting.

Montreal, Jan. 12.—In the presence of many prominent citizens and a large audience assembled in Emmanuel Church to hear Harry Lauder this afternoon, Sir William Peterson, principal of McGill University, who was presiding at the meeting, was stricken with a paralytic seizure, as a result of which it was necessary to convey him at once to Royal Victoria Hospital. Sir William complained of feeling unwell, and the Rev. Geo. Adam tried to persuade him from attending the meeting, but he insisted and was helped to the platform by the pastor. It was during the singing of a quartette that attention was called to Sir William's condition. He was at once attended by Dr. Armstrong, and several medical men in the audience and was found to be suffering from a stroke which affected his entire right side and it was further stated that there was hemorrhage on his brain.

Sir William was conscious to-night but his speech is affected. He is under the care of Dr. W. R. Hamilton, Dr. F. G. Finley and Dr. Duncan MacCallum, who issued the following bulletin at ten to-night:

"Sir William Peterson has suffered a severe apoplectic stroke, but is resting quietly."

BRITISH AND U. S. LABOR WILL IGNORE SOCIALIST CONGRESS

London, Jan. 10.—Canada's labor delegates in the present outlook may have to choose between two conventions, but there will be no definite decision required until after the conference between the United States delegation and the British trades union representatives. The conference called to meet at Lausanne does not meet with the approval of the British labor members of Parliament, who are withdrawing through various reasons from the British representation. The Lausanne conference as it appears at present will be more representative of political Socialism than genuine trades unionism. British labor members of Parliament feel that in view of the result of the recent election they cannot afford to subordinate trades unionism to continental Socialism, or even the advanced views of Ramsey MacDonald or Arthur Henderson.

It is well known that the American representatives headed by Samuel Gompers are strongly opposed to the recognition of continental Socialism by trades unionism. In fact, neither the English nor American trades union leaders wish to reform the time to sit in council with representatives from Russia and Germany. Both the former would come Bolshevik, and from the latter men who might not be representative of Labor movement. British and American labor desire a conference at Versailles, where the Peace Congress will meet, but France will not permit German representatives. It is believed here that an agreement will be reached between the British and American labor leaders to call a trades union conference at Versailles and ignore the Lausanne convention. If they do, the Central Powers will have no representatives. The Lausanne conference will be representative of advanced Socialism and parts of the conference of trades unionism. As Canada's representatives are trades unionists, they will almost certainly follow the lead of the British labor union leaders and Gompers rather than the advanced Socialists.

The great difficulty before the trade union leaders is that previous to the cessation of hostilities they had agreed to an international congress at Lausanne, and that agreement in Labor is imminent. The permanent cleavage in Britain is already evident. In Britain it is already here, and from information at hand Gompers and his colleagues will stand behind the British labor who have risen from the ranks of intellectuals as Ramsey MacDonald and Philip Snowden.

WORK OF REPARATION AND RE-CONSTRUCTION

Ottawa, Jan. 10.—At the invitation of the cabinet committee of the House of Commons, representatives of eighteen nationally organized fraternal societies conferred with Director H. J. Daly and his staff at the committee's offices to-day. The convention was called for the purpose of discussing ways and means by which organizations could take their part in the national work of reparation and reconstruction. A committee was formed and pledges of co-operation were given.

DISCHARGE OF MEN BELONGING TO CANADIAN NAVAL SERVICE

Ottawa, Jan. 10.—The following was issued today by the Naval Department:

"A great number of applications from all parts of Canada are being received by the Naval Department for the discharge of men belonging to the Canadian Naval Service and it is desired to make known the best method for temporary service in the Royal Canadian Naval Forces are being released as quickly as they can be spared. The absence of a large number of certain arrangements made for permanent staffs to do this work will not permit of more than being made at once. In the vast majority of cases applications for preferential treatment in regard to discharge can be accepted."

Little Ones of Deceased and Disabled Fighters Cared For

Ottawa, Jan. 7.—Pensions for children of deceased and totally disabled soldiers have been increased and made as follows:

HINDENBURG MAKES UP NEW REGIMENTS

The Hague, January 8.—Hindenburg is very active at his headquarters at Cassel, it is heard. He has been kept hitherto a profound secret. In connection with air raids on London, he is giving general orders to form new regiments of the good-looking and sending them to Poland. The German press speaks of the large number of troops being sent to Poland.

The Socialist organ Freiheit has published a private telegram from Hindenburg to the eastern general staff in which he stated he did not recognize the decision of the Soldiers' and Workmen's Council to reform the army, especially as regards officers and non-commissioned officers. Hindenburg points out that such a far-reaching decision cannot be taken by representatives of one class, but by the whole people.

A German newspaper has reported that the situation still is precarious, that there is great depression among the upper classes and the stable Government will be established unless the Entente makes a definite statement to the German people that no food will be sent until there is a stable government chosen by a national assembly with whom the Entente can negotiate.

This major affirms that the returning troops are in good spirits (meaning the soldiers) and that the soldiers' councils in the larger towns endeavor to influence the troops by demobilizing those who are willing to work for the Spartacus party immediately, often paying soldiers 20 marks daily for his work.

Germany is exporting a large amount of neutral shares to Holland and other neutral countries with a double advantage to gain on the exchange. According to a Dutch banker, however, these shares are being sold cannot be negotiated until peace is signed.

SNOWSHED 100 MILES.

London, Jan. 8.—Captain John Macgregor, of the Canadian Mounted Rifles, who was recently awarded the Victoria Cross, was a native of Calgary, Nairnshire, Scotland, where his mother lives. At the outbreak of the war he snowshoed 100 miles to enlist. For leading the charge at Vimy Ridge in 1917 he received the D.C.M. and his commission and in January of last year won the Military Cross and a captivity for determination and gallantry at Hill 70.

CAMPBELLTON, N.B. BOY AMONG HONOURED

Campbellton Graphic: The list of New Year's honours for Canadian soldiers is published to-day. Among the gallant boys and draws from all parts of the Empire. He is a Campbellton boy and a brother of Mrs. Francis P. Matheson and Chas. C. Johnson of this town and Mrs. Chas. F. Payne of Halifax, N. S.

Johnson went over early in the war as an engineer and was given important work. He tested summaries before being sent on active service, and went to France to effect a remedy for big guns "heating." The French government was so impressed with his ability that he was awarded the Legion of Honour for bringing water to the Jura Mountains, 1,500 feet high where the French were suffering for lack of water. Johnson invented a siphon which overcame the difficulty and brought the honor given by France.

More recently he has been on the staff of the War Office in London.

The Johnson boys have indeed done their part in the war. Four of them donned the khaki viz.: James with forces in Siberia, Albert, Francis with Canadian Snowshoers in Germany, and Capt. Harry won his commission in the field, wounded and returned to Canada as a lieutenant. He is now at the Royal Military Academy, Guelph, U. S. A.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-LIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rash, Eczema and other Skin Affections disappear when "Fruit-a-lives" are taken to correct Constipation.

"Fruit-a-lives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

AMERICAN SECRET OF WAR REVEALED

Extraordinarily Valuable work by Metropolitan Observation Service in Air Raids.

London, Jan. 6.—(Canadian Press Despatch) The secret of the extraordinary work performed by the Metropolitan Observation Service was disclosed in a report made by the Metropolitan Observation Service, which was made public in connection with air raids on London. The report, which is being made familiar with the following four stages: Maroon warnings, search-lights, boom of anti-aircraft guns, and the "All Clear" but the people were ignorant of the elaborate and invaluable system for detecting the positions and movements of hostile aircraft advancing on London or actually bombing the city.

The Metropolitan Observation Service was established in October, 1914 by the Police Commissioner in conjunction with the Admiralty. Its original purpose was to detect and report on suspicious and conspicuous lights in the London police district, but it quickly developed into a most efficient agency for giving the promptest information regarding the outbreak and location of fires and movements of hostile aircraft.

The London County Council provided a central headquarters at County Hall, Spring Gardens, where information is received from innumerable observation posts scattered over a wide area which were equipped with powerful searchlights. The posts were designed by members of the staff. The personnel consisted of 1,200 officers and men, all ineligible for military service and drawn from all classes of the community, whose duties entailed the sacrifice of time, money and comfort in the performance of their service. The posts were manned night and day in all weathers and in the most exposed positions around London.

The cost of the organization to the state was infinitesimal, thanks to public bodies and private firms and individuals contributing greatly, by lending and equipping observation posts. The service, which was organized and conducted by Lt. Commander Henry Paget, was highly commended by the authorities for extraordinarily good work in saving life and property.

AMERICANS FOLLOW BRITISH PLAN FOR LEAGUE OF NATIONS

World Government to be Constitution With Demonstrative Powers in Council.

IRRITATION AT DELAYS

Wilson to Return to America for Closing Days of Congress and Then go Back to France.

(By Richard V. Oulahan)

Paris, January 10.—The most important development today is that the American peace delegation has begun the actual preparation of the formula for the organization of the League of Nations. In general, the American plan followed the suggestions previously advanced by Lord Robert Cecil who conferred with President Wilson on Tuesday. The formula takes into account the responsibilities and popular opinion of the United States as well as the Allied countries which necessarily means some modification of the proposals of the most advanced advocates of this method of preventing war.

The American delegation has been careful to include nothing that will conflict with the constitution of the United States or lay ground for the claim that an amendment to the constitution is required. Nor will the formula propose a league which even inferentially impairs the sovereignty of any nation. In one aspect this relieves the league from the necessity of resort to force to discipline a recalcitrant government should the majority of the league determine that force is necessary. Another criticism directed at President Wilson when he came to Europe was that he desired to further an ambition to become chief of the world government, but his part in arranging the American formula deprives this charge of merit.

Will Publish Formula

It is expected that the formula will soon be given publicity as the American delegation has decided to propose it to the open session of the inter-Allied conference when the first inter-Allied meeting is held next week. In this connection it cannot be too strongly emphasized that President Wilson has determined to stay here until more definite progress is made toward the adjustment of the most important questions that will come before the conference. There are signs of irritation over the delays, but it is expected that considerable advance will be made when the Allied representatives get together. While it is certain that the President will start for America in time to attend to the business of the closing days of Congress, it is quite likely he will stay in Paris until the last available moment. That he will return to France in the spring seems equally certain. He conferred again this afternoon with the American delegates, and in every way is showing his desire for head-

RECONQUERING COLONY

Rome, January 8.—Although all done with lightning, Italy still has a grave task to accomplish—the reconquest of her colony in Tripoli, in Northern Africa. In April, 1915, the Italians, under pressure of an enemy well-armed and organized by Turkish officers, were obliged rapidly to abandon all the most important towns with the exception of Tripoli, and only 125 square miles of the country remained in their power.

Although General Amalgio asked for reinforcements, these were denied him, as it was thought best by the supreme command that all forces be kept on the Italian front. This had disastrous political results, as the Italians had their prestige imperiled among the natives through their retirement.

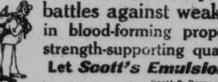

The Italians are now rapidly and gallantly reconquering what was lost, as is shown by an official communique that has been published. All the coast towns have fallen, many voluntarily asking for Italian intervention and for a just government.

NO SHORTAGE OF FOOD ON THE NORTHLAND

Chief Steward Declares That There Was Almost Sufficient Food Left After the Ship's Arrival at Halifax to Carry Her Back Across the Atlantic—Hearing Will Probably Conclude Today.

Ottawa, Jan. 10.—The officers of the White Star liner Northland were on the stand to-day in the hearing before Mr. Justice Hodgson and their evidence went far to refute the stories told by the men who returned on that vessel.

That any food shortage was due to the method of serving, rather than to the failure of the company to properly provision the ship, was evident from the testimony of the chief steward, who stated that, after she had reached Halifax and debarked her troops, the Northland had left almost sufficient food to carry her back across the Atlantic as a cargo vessel.

The evidence in regard to the water supply was even more convincing. Chief Engineer Monks, whose business it was to fill the vessel's tanks said he took aboard 1,600 tons of fresh water at Liverpool, and after her voyage was over had 600 tons still left.

It also came out that the Northland's accommodation on previous trips, when she carried troops, was the same as on this occasion, and that these men were rationed to the same standard as formerly.

The hearing will probably conclude to-morrow. Witnesses yet to be called include Major Westmore, O.C., who will be recalled, and Arthur Chambers, Toronto Telegram correspondent, who sent several stories out from Halifax in regard to alleged conditions on the ship.

POLICEMAN KILLED MAN TO SAVE WOMAN

Fought Four Thugs Who Were Attacking Young Wife of a Sailor.

New York, Jan. 8.—Attacked by four men, from whom he had attempted to rescue Mrs. Anna Dowder, eight-year-old wife of a sailor, policeman Michael Gleason, of the West Forty-seventh street station, early to-day shot and killed a man identified as Peter Printey, a longshoreman, and seriously wounded another.

The fight took place in West Fifty-seventh street, after Gleason had heard Mrs. Dowder scream for help. In a hallway he saw the young woman struggling with four men.

Gleason is more than six feet tall and unusually strong, so he "ditched" the men, who were in the dark hallway, jumped on him, while the fourth held on to the struggling Mrs. Dowder. One man got Gleason's right stick away from him in the first rush and beat him with it, while the others kicked and pounded him to the floor.

Gleason, blinded and bleeding, managed to shake off his assailants and got out his revolver. His first bullet hit the man who was yielding the night stick in the heart.

London, Jan. 10.—The British branch of the Pilgrims, which, according to tradition is the first public organization in England to receive new American ambassadors, today had John W. Davis, the new United States Ambassador, as their guest of honor at a luncheon. A distinguished gathering of British and American public men was present.

The Duke of Connaught, president at the luncheon.

Sir Harry Brittain, the secretary, read letter of greeting from Chauncey Depew, and George Wilson and a letter of regret from the Earl of Reading.

Lord Curzon, who is in charge of the British Foreign Office during the absence of Secretary Balfour, in proposing the health of Mr. Davis, said: "Peace is the greatest constructive task ever placed on the shoulders of any constructive statesman. The task can only be successfully confronted if the American and British nations stand side by side to shoulder the burden. It is our strongest aspiration that from the discussion at Paris will emerge a league of nations."

But even supposing that the dream of fulfillment, there is another league which must emerge—a league of English-speaking nations. It is to that league that the world will have to look in the future as the guardian of the peace of the peoples and frontiers of the new nationalities, now struggling into existence."

Mr. Davis, in replying to a toast to his health, after thanking the Pilgrims for their welcome, said he could not slip "this opportunity to voice for the people of the United States their deep appreciation of the splendid reception Great Britain has just given to their Chief Magistrate and the gracious hospitality of their Majesties the King and Queen."

The readiness of your citizens and the manifold courtesies extended to President and Mrs. Wilson have added, "has gone home to the heart of America and forged another and lasting link in the chain which has united us."

After paying tribute to the late Walter H. Page, his predecessor, and to Great Britain's part in the war, Mr. Davis continued: "It is a happy augury that already we are agreed in terms and the broad outlines that a settlement must take and have proclaimed this agreement before the whole world. Surely the wish is no merely father to the thought, when I express the conviction in the matter of detail we will be in equal harmony."

BRITISH CABINET IS ANNOUNCED BY LLOYD GEORGE

Andrew Bonar Law, Lord Privy Seal and Leader in the House of Commons.

OTHER CANADIANS IN THE CABINET Winston Churchill is Secretary of War and the War Ministry, Which Have Been Combined.

London, Jan. 10.—The new cabinet announced to-night. It presents few surprises.

The question the British newspapers are asking is whether Mr. Lloyd George will rule his cabinet, or whether his conservative advisers will dominate him.

The majority of the members of the cabinet in high places are conservatives, notably Andrew Bonar Law, Earl Curzon, Arthur J. Balfour and Viscount Milner. Only four years ago their party regarded Mr. Lloyd George as the conservatives to-day regard the Bolsheviks.

The Premier is pledged by his campaigning speeches to a sweeping programme of liberal reforms, particularly the giving of land and houses to working men and discharged soldiers. His principal advisers are regarded as representatives of the land owning interests, who, following tradition, would place barriers in the way of such reforms.

Mr. Ministers without portfolio, George Nicoll Barnes and Sir Eric Geddes, have important duties for which there are no cabinet places. Mr. Barnes will represent Labor at the Paris peace conference, while Sir Eric has undertaken the management of demobilization for Foreign Affairs.

One innovation is the selection for the first time of an Indian as a member of the Government, Sir S. H. Sinha having the place of Under-Secretary for India. Another is the appointment of Cecil B. Harmsworth to succeed Lord Robert Cecil as Under-Secretary for Foreign Affairs.

London, Jan. 10.—The new British Cabinet will be headed by David Lloyd George as Premier and First Lord of the Treasury, according to an official statement made tonight. The other members of the Government will be:

Lord Privy Seal and Leader in the House of Commons—Andrew Bonar Law.

President of the Council and Leader in the House of Lords—Earl Curzon of Kedleston.

Ministers without portfolio—George Nicoll Barnes and Sir Eric Geddes.

Had Headache For Two Years

A Barrie Man Tells of Persistent Headaches and Indigestion—Finally Found His Way to Good Health.

For two long years the writer of this letter was subject to severe headaches. The nervous system got run down, digestion failed, and there was constant loss of weight.

The use of Dr. Chase's Nerve Food changed all this, and now with scores of other Barrie people Mr. Nader is recommending the use of this food cure as the best means of building up the exhausted nervous system and curing headaches, indigestion and all the annoying symptoms of a run-down condition.

Mr. John Nader, 33 Pennington street, Barrie, Ont., writes: "During the last two years I had an attack of indigestion, accompanied by severe headaches. I suffered from loss of appetite, and my system became run-down. I also lost considerably in weight. I began using Dr. Chase's Nerve Food, and as they helped me I continued this treatment for some time. My condition is now greatly improved, my headaches are gone and my health in general is much better. I can cheerfully recommend the use of Dr. Chase's Nerve Food to those suffering from nervousness of any kind."

The reason Dr. Chase's Nerve Food is so effective in cases of this kind is because of its extraordinary blood-forming influence. By creating an abundance of rich, red blood it strengthens the action of the heart, vitalizes the exhausted nervous system and builds up the system in every way.

The appetite is restored, digestion improves, you rest and sleep well, and the new vigor and energy is felt in every organ of the human body. Dr. Chase's Nerve Food is doing wonders for men, women and children whose systems have become weak and run down. 50 cents a box, 4 boxes for \$2.15, all dealers or Edmondson, Bates & Co., Limited, Toronto.

PROHIBITION CHARGES LEBGED BY DELEGATIONS

Fredericton, Jan. 9.—The Government, which began its monthly session last night, will devote some of the time to the hearing of delegations. This morning a delegation from the N. B. Commercial Travellers' Association requested the Government to introduce legislation to provide for the licensing and inspection of all homes in New Brunswick, which would have provisions similar to the law enacted in the Province of Quebec.

In reply it was pointed out that New Brunswick was one of the small provinces of the Dominion, and that it might be advisable for the three Maritime provinces to have similar legislation in regard to this matter. In view of that, it was pointed out to the delegation that joint action in the three provinces might well be taken by the commercial travellers.

This afternoon the New Brunswick Branch of the Dominion Alliance had a delegation in connection with the Prohibition Act. Also the druggists of Fredericton had a delegation in connection with the liquor vendicthorship under the Prohibition Act.
