FAM IN MEDICINE.  
There are few in medicine as in every thing else and a "new thing" frequently sells for a short time simply because it is new. But in medicine as in nothing else the people demand and will be satisfied only with positive, absolute merit. The fact that Hood's Sarsaparilla has stood its ground against all competition, and its sales have never wavered but have remained steadily on the top demonstrates, beyond any doubt, the intrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales continue to be the largest in the world.

The blood is vital fluid, and when it is poor, thin and impure you must either suffer from some depressing disease or you will easily fall a victim to sudden changes of seasons, or overwork. Keep your blood pure with Hood's Sarsaparilla and be well.

## Letter Apostolic of His Holiness Leo XIII. By Divine Providence Pope.

Concerning Anglican Orders.

Leo, Bishop, Servant of the Servants of God in Perpetual Remembrance.

We have dedicated to the welfare of the noble English nation no small portion of the Apostolic care and charity by which, helped by his grace, we endeavor to fulfill the office and follow in the footsteps of "the Great Shepherd of the sheep." Our Lord Jesus Christ. The Letter, which last year we sent to "the English seeking the Kingdom of Christ in the unity of the faith," is a special witness of our good will towards England. In it we recalled the memory of the ancient union of her people with the Mother Church, and we strove to hasten the day of a happy reconciliation by stirring up men's hearts to offer diligent prayer to God. And, again, more recently, when it seemed good to us to treat more fully the Unity of the Church in a general letter, England had not the last place in our mind, in the hope that our teaching might both strengthen Catholics and bring the saving light to those divided from us.

It is pleasing to acknowledge the generous way in which our zeal and plainness of speech, inspired by no mere human motives, have met the approval of the English people; and this testifies not less to their courtesy than to the solicitude of many for their eternal salvation.

QUESTIONS FOR REOPENING THE  
§ 1.—REASONS FOR REOPENING THE  
With the same mind and intention we have now determined to turn our consideration to a matter of no less importance, which is closely connected with the same subject and with our desires. For an opinion already prevalent, confirmed more than once by the action and constant practice of the Church, maintained that when in England, shortly after it was torn from the centre of Christian unity, a new rite for conferring Holy Orders was publicly introduced under Edward VI., the true Sacrament of Orders, as instituted by Christ, lapsed, and with it the hierarchy

rightly estimating these matters it will not be difficult to understand why, in the letters of Julius III., issued to the Apostolic Legate on March 8, 1554, there is a distinct mention, first of those who "rightly and lawfully promoted" might be maintained in their Orders; and then of others who, "not promoted to Sacred Orders," might "be promoted if they were found to be worthy and fitting subjects." For it is clearly and definitely noted, as indeed was the case, that there were two classes of men; the first those who had really received Sacred Orders either before the secession of Henry VIII., or, if after it, and by ministers infected by error and schism, still according to the accustomed Catholic rite; the second those who were initiated according to the Edwardine Ordinal which on that account could be "promoted" since they had received an ordination which was null. And that the mind of the Pope was this and nothing else is clearly confirmed by the letter of the said Legate (January 29, 1555), subdelegating his faculties to the Bishop of Norwich. Moreover, what the letters of Julius III. themselves say about freely giving the Pontifical faculties, even in behalf of those who had received their consecration "minus rite and not according to the accustomed form of the Church," is to be especially noted. By this expression those only could be meant who had been consecrated according to the Edwardine rite, since besides it and the Catholic form there was then no other in England.

This becomes even still clearer when we consider the legislation which, on the advice of Cardinal Pole, the Sovereign princes, Philip and Mary, sent to the Pope in Rome in the month of February, 1555. The royal ambassadors—three men, "most illustrious and endowed with every virtue," of whom one was Thomas Thirby, Bishop of Ely—were charged to inform the Pope more fully as to the religious condition of the country, and especially to beg that he would ratify and confirm what the Legate had been at pains to effect, and had succeeded in effecting, towards the reconciliation of the kingdom with the Church. For this purpose, all the necessary written evidence and the pertinent parts of the new Ordinal were submitted to the Pope. The Legation having been splendidly received, and their evidence having been "diligently discussed" by several of the Cardinals, "after mature deliberation," Paul IV. issued his Bull Praeclara carissimi on June 20 of that same year. In this, whilst giving full force and approbation to what Pole had done, it is ordered in the matter of the Ordinal as follows: "Those who have

ROYAL BAKING POWDER  
ABSOLUTELY PURE

been promoted to the ecclesiastical Orders, . . . by any one but a bishop validly and lawfully ordained are bound to receive those orders again." But who those Bishops not "validly and lawfully ordained" were had been made sufficiently clear by the foregoing documents and the faculties used in the same manner by the Legate; these, namely, who have been promoted to the Episcopate, as others to other Orders "not according to the accustomed form of the Church," or, as the Legate himself wrote to the Bishop of Norwich, "the form and intention of the Church," not having been observed. These were certainly those promoted according to the new form of rite, to the examination of which the Cardinal especially deputed had given their careful attention. Neither should the passage much to the point in the same Pontifical letter be overlooked there, together with others needing dispensation, are enumerated those "who had obtained as well orders as benefices nulliter et de facto." For to obtain orders nulliter means the same as by an act null and void, that is invalid, and the very meaning of the word and as common parlance require. This is especially clear when the word is used in the same way about orders as about "ecclesiastical benefices." These, by the undoubted teaching of the sacred canons, were clearly null if given with any vitiating defect. Moreover, when some doubted as to who, according to the mind of the Pontiff, could be called and considered bishops "validly or lawfully ordained," the said Pope, shortly after, on October 30, issued further letters in the form of a Brief, and said: "We, wishing to remove the doubt, and to opportunely provide . . ."

by the omission of the tradition of instruments, for in such a case, according to the established custom, the direction would be to repeat the ordination conditionally; and still more important it is to note that the judgment of the Pontiff applies universally to all Anglican Ordinations, because, although it refers to a particular case, it is not based upon any reason special to that case but upon the defect of form, which defect equally affects all these ordinations; so much so that when similar cases subsequently came up for decision the same decree of Clement XI. was quoted as the norma.

§ 6.—THE QUESTION ALREADY DEFINITELY SETTLED.  
Hence it must be clear to every one that the controversy, lately revived, has been already definitely settled by the Apostolic See, and that it is to the insufficient knowledge of these documents that we must perhaps, attribute the fact that any Catholic writer should have considered it still an open question. But, as we stated at the beginning, there is nothing we so deeply and ardently desire as to be of help to men of good will by showing them the greatest consideration and charity. Wherefore we ordered that the Anglican Ordinal, which is the essential point of the whole matter, should be once more most carefully examined.

§ 7.—THE ANGLICAN ORDINAL.  
In the examination of any rite for the effecting and administering of a Sacrament, distinction is rightly made between the part which is ceremonial and that which is essential, usually called the matter and form. All know that the Sacraments of the New Law, as sensible and efficient signs of invisible grace, ought both to signify the grace which they effect, and effect the grace which they signify. Al- grace which they signify. Al-

though the "signification" ought to be found in the whole essential rite—that is to say, in the matter and form—it still pertains chiefly to the form; since the matter is the part which is not determined by itself, but which is determined by the form. And this appears still more clearly in the Sacrament of Orders, the matter of which, in so far as we have to consider it in this case, is the imposition of hands, which indeed by itself signifies nothing definite, and is equally used for several Orders and for Confirmation. But the words which until recently were commonly held by Anglicans to constitute the proper form of priestly ordination—namely, "Receive the Holy Ghost," certainly do not in the least definitely express the sacred order of priesthood, or its grace and power, which is chiefly the power "of consecrating and

§ 4.—INVARIABLE PRACTICE OF THE HOLY SEE.  
The authority of Julius III. and Paul IV., which we have quoted, clearly shows the origin of that practice, which has been observed without interruption for more than three centuries. That Ordinations conferred according to the Edwardine rite should be considered null and void. This practice is fully proved by the numerous cases of absolute re-ordination according to the Catholic rite even in Rome. In the observance of this practice we have a proof directly affecting the matter in hand. For if any chance doubt should remain as to the true sense in which these Pontifical documents are to be understood, the principle holds good that "Custom is the best interpreter of law." Since in the Church it has ever been a constant and established rule that it is sacrilegious to repeat the Sacrament of Order, it never could have come to pass that the Apostolic See should have silently acquiesced and tolerated such a custom. But not only did the Apostolic See tolerate this practice, but approved and sanctioned it as often as any particular case arose which called for its judgment in the matter. We adduce two facts of this kind out of many which have from time to time been submitted to the Supreme Council of the Holy Office. The first was (in 1684) of a certain French Calvinist, and the other (in 1704) of John Clement Gordon; both of whom had received their orders according to the Edwardine ritual. In the first case, after a searching investigation, the consultants, not a few in number, gave in writing their answers—or, as they call it their vota—and the rest unanimously agreed with their conclusion, for "the invalidity of the Ordination," and only on account of reasons of opportuneness did the Cardinal deem it well to answer by "dilate" (viz., not to formulate the

conclusion at the moment.) The same documents were called into use and considered again in the examination of the second case, and additional "written statements of opinion were also obtained from consultants, and the same conclusions were as Sorbonne asked for their opinion. No safeguard, which wisdom and prudence could suggest to insure the thorough sifting of the question, was neglected.

§ 5.—DECREE OF CLEMENT XI. AND ITS IMPORTANCE.  
And here it is important to observe that although Gordon himself, whose case it was, and some of the consultants had abjured, amongst the reasons which went to prove the invalidity, the ordination of Parker, according to their own ideas about it, in the delivery of the decision this reason was altogether set aside, as documents of incontestable authenticity prove. Nor, in pronouncing the decision, was weight given to any other reason than the "defect of form and intention;" and in order that the judgment concerning this form might be more certain and complete, precaution was taken that a copy of the Anglican Ordinal should be submitted to examination, and that with it should be collated the ordination forms gathered together from the various Eastern and Western rites. Then Clement XI. himself, with the unanimous vote of the Cardinals concerned on the "Feria V.," April 17, 1704, decreed, "John Clement Gordon shall be ordained from the beginning and unconditionally to all the orders, even Sacred Orders, and chiefly of priesthood, and in case he has not been confirmed he shall first receive the Sacrament of Confirmation." It is important to bear in mind that this

Hence it must be clear to every one that the controversy, lately revived, has been already definitely settled by the Apostolic See, and that it is to the insufficient knowledge of these documents that we must perhaps, attribute the fact that any Catholic writer should have considered it still an open question. WEDNESDAY, OCTOBER 21, 1896. PUBLISHED EVERY WEDNESDAY. SUBSCRIPTION—\$1.00 A YEAR, JAMES MCISAAC.

EDITOR & PROPRIETOR. SIR OLIVER MOWAT has been constantly reminded of his promise to make Ottawa, "the Washington of the North," as the local papers do not fail to call his attention to it now and then.

MR. LAURIER is likely to be constantly reminded of his promise to make Ottawa, "the Washington of the North," as the local papers do not fail to call his attention to it now and then.

THE Teachers' Association of Nova Scotia held its annual meeting at Truro, during last week. At Thursday evening's session, Sir Charles Tupper was present and was presented with an address by the association.

DAHOUSE, N. B., advices of Saturday last say that the Restigouche election petition had reached the stage of taking evidence on the preliminary questions.

THE following from such a stalwart Grit paper shows how the methods pursued by the Government are disgusting even its best friends: "We had hoped to have been able to chronicle on the advent of the Liberals evidences of a progressive public sentiment with regard to the Civil Service."

A REPRESENTATIVE gathering of leading liberal conservatives of Nova Scotia met at Halifax on Thursday last and had a conference with Sir Charles Tupper. The object of the meeting was to take steps towards perfecting the organization of the party in that province.

A MONTEAL despatch of the 16th, reports the following as Mr. Tarte's latest declaration against the \$5,000 business: "I may have been wrong or I may have been right; but arbitration awarded Wheelan \$140,000; Paquad, who was at that time manager of the Liberal party, very foolishly in my estimation formed an idea that I was prepared to subscribe \$5,000 if there was no opposition to the item in the House."

LAST week, Messrs. McMillan, Watson and Cameron, representing the Manitoba Government, came to Ottawa to confer with the Dominion Government on the Manitoba school question.

Honore Mercier left a blank that has not yet been filled among the Nationalist Canadians, and it would be comparatively easy for a man like Mr. Tarte to step in and fill that blank if he were prepared to cast off the sloughed skin of the old party politics and come out boldly as the standard bearer of Canadian national independence."

MR. LAURIER is likely to be constantly reminded of his promise to make Ottawa, "the Washington of the North," as the local papers do not fail to call his attention to it now and then.

QUEBEC'S remarkable progress as an agricultural community during the last four years is an attractive subject for the student of political economy.

IT is well known that the New York Sun is a most ardent admirer of the Laurier Government. "Our friends, the Liberals," it is invariably manner of addressing the members of the Grit party.

The St. Lawrence did not arrive here until about twelve o'clock Monday night. The steamer was several hours late leaving Pictou, owing to a washout on the railway line between Truro and Halifax.

The new City Government was to stop the crowds. But people continue to leave the province notwithstanding the change of government. Last month, with less incense than ever from people to move to the United States, owing to the hard times there, the value of real estate taken to that country was 25 per cent. greater than in the same month a year ago.

The terrible catastrophe on Friday in Montreal was on Sunday referred to in most of the city churches. Mayor Smith issued invitations in the name of the city of Montreal to all the aldermen and heads of the city departments to attend the triple funeral, which was fixed for half-past eight on Tuesday morning. All the vicars and Catholics and on Monday evening the remains of the dead firemen were conveyed to No. 1 fire station on Craig Street. There they lay in state until the hour of the funeral, when, followed by their comrades and representatives of the clergy body, they were taken to Notre Dame church; there a solemn requiem Mass was sung, and after that had ceremony, the cortege marched to Cote de Neiges cemetery, where the last sad rites were performed. The funeral cortege was one of the largest ever seen on the streets of Montreal, and arrangements were made for the closing of the stores and the draping of the principal buildings along the line of procession.

DEED.

At Elmira, Lot 47, on Sept. 29, of disease of the stomach, Ann Collins, relict of the late John Campbell in the 75th year of her age. Deceased was a woman of many sterling and inestimable qualities. Her charity towards the poor and sick was well-known, and the large concourse of people who followed her remains to their last resting place in St. Columba's Cemetery showed the high esteem in which she was held. She leaves one son and three daughters besides a large circle of friends and acquaintances to mourn the loss of a kind and loving mother, and a true and trusted friend and neighbor. May her rest be in peace.

In this city on the 17th, from the effects of a severe cold, James Furlong, son of the late John Furlong, aged 14 years. He was a kind and industrious boy and was loved by every boy. A. I. P.

At Morell on Wednesday, Oct. 14, Mary Adelaide, aged five years and nine months, dearly beloved daughter of Anselmus and Isabelle Gallant.

C. M. B. A.—As will be seen by reference to the advertisement in another column, Rev. C. A. Campbell, D. D. of Halifax will deliver his excellent lecture, on the Catacombs of Rome, in St. Patrick's Hall, this city, on Friday evening, the 30th inst. The lecture will be delivered under the auspices of the Charlottetown Branch of the C. M. B. A. Rev. Dr. Campbell, owing to his many years' residence in Rome, has had rare opportunities for study on the ground, this most interesting subject, and all who attend the lecture may count on an intellectual treat of the highest order. The Rev. Dr. delivered this lecture in Halifax during the last lecture season, and the press of that city accorded it unstinted praise. Nothing but a first class lecture might be expected from a man of Dr. Campbell's intellectual calibre, and the C. M. B. A. has been singularly fortunate in securing him to open their lecture season. The object, the subject and the lecturer will, we feel sure, attract an immense audience to St. Patrick's Hall, on the evening of the 30th.

This city of Glasgow seems to have solved the question of civic taxation in a most satisfactory manner. The South American says that "the city authorities have ascertained that the entire expenses of the city for the future can be borne by the income which will be received from the public works owned by the city. Among the latter are waterworks, gas and electric light plants, street railroads, sewage farms and other institutions of less magnitude all of which are paying large profits annually into the city treasury."

The Stock Farm, that reliable and progressive horse journal published at Lexington, Ky., comes to the front again this year with another liberal purse for trotters and pacers. The horsemen seem to appreciate this effort in their behalf, since the publishers inform us that they received five hundred entries to a similar purse given last year. The Stock Farm certainly deserves to be successful in their undertaking, as they are offering to the horsemen of the country a chance to win more money for a small investment than was ever given them before. In fact, it only costs the ridiculously low sum of one twentieth of one per cent to secure a purse of \$5000. They guarantee the purse to be this amount and the nominator is taking no chance whatever other than that which depends upon the ability of his colt to go fast enough to win.

There is danger that a good deal of the Cape Breton potato crop will be lost this year through rot. In some places, at least fourteen per cent. of the crop is lost in this way; and the danger is that the percentage will increase from day to day while the tubers are left in the ground.—Cape Breton Advocate.

The Moncton Times states that a city alderman was seen in a state of wild excitement near the market the other day. He covered a hundred yards in 9.4-5 seconds, which is a world's record, and 220 yards in 22 seconds flat, which is one fifth of a second lower than the world's record. On measuring the course it was found that Wefers had gone five feet farther than 220 yards, and all agreed that he had equalled the record of 21.4-5.

The residence at Upper Gagetown, N. B., of a well-to-do farmer named Eastbrooks was destroyed by fire during the gale of Tuesday night of last week. Their cries were heard, but nothing could be done to save them. Eastbrooks lost absolutely everything but had some insurance.

There are now floats of the Halifax dockyard, says a late despatch, the strongest fleet of modern warships ever in that port. They are fighting cruisers. The latest addition is H. M. S. Talbot, which develops the extraordinary speed of 23 knots. She has a more powerful armament than the flagship Crescent, and her hull is highly protected. A destructive and new feature on the Talbot is the revival of the obsolete fighting tops for cruisers. In a few days more the warships Buzzard, Mohawk and Cordelia will arrive from Newfoundland and make a fine assemblage of warships there. The further addition to the battle ship Renown to the North Atlantic squadron will undoubtedly raise it to the designed level of size and strength to face the power of the American White Squadron and the expected strengthening of the French fleet in these waters next year.

The Montreal fire department suffered severely on Friday last, as two of the best men of the corps were buried beneath the debris of a down town warehouse, and a third expired soon after being taken out. A fire having broken in Gilmour Bros. & Co.'s, wholesale fancy dealers, 31 St. Peter's street, the entire brigade was soon on the spot and sixteen men were fighting the fire in the third story. Sixty of the flooring gave way, precipitating the brave firemen and all the lower floor to the basement below. Men hurried to the rescue, where it was found two firemen, King, of No. 1 station, and Carpenter, of No. 7, were buried beneath the ruins, while the third fireman, Lapointe was likewise killed by the fall. Nine other men were taken to the hospital, more or less injured, but all but one named Bennett have since been taken to their homes. The remainder escaped unhurt. Messrs. Kearney Bros., ice Goldstein, cigar makers, next door, had a great deal of stuff damaged by water, and although the fire was not very serious, the total loss may be \$40,000. Search for the poor firemen's bodies resulted in their recovery some time after the fire was put out.
