ACCESSION OATH TO BE AMENDED AT ONCE

Bill Changing Working Passes Second Reading in Imperial Parliament—Reference to Establishment to Be Cut Out

London, July 2.—The second reading of the bill altering the King's accession declaration is anticipated with considerable interest.

The Ground of Hostility. But he drew the broad distinction between hostility which springs from the belief that the present form of declaration could not be modified in any way without impairing the safeguard of the Protestant succession.

Opposition to the Change. Moving the rejection of the bill, Agar Roberts protested against the government attempting to rush the bill through in three days, and declared that its drafting was an insult to the intelligence of those who prefer the existing formula.

Madris Asks for Neutrality. "President Madris has notified President Taft of these facts, and asked respect for your excellency to take occasion to use your good offices with the cabinet at Washington that my government may have free hand to restore peace in this country without the hindrances mentioned."

PROTEST AGAINST FARMER. Lawyers Claim Railway Commission Decision Should Be Filled by Lawyer. Ottawa, July 28.—The request for the appointment of a farmer to take the vacant position in the railway commission is bringing forth protests from the legal profession.

President A. B. Campbell and directors Robinson and West, of the Edmonton Exhibition Association, went down to Lacombe on the excursion Friday to represent the association at the annual demonstration day at the Experimental Farm.

The Canadian Bulletin

EDMONTON, ALBERTA, CANADA, MONDAY, AUGUST 1, 1910 NUMBER 515

215,000 FOR WIFE'S AFFECTIONS. David A. Miller Awarded Verdict by Minnesota Judge for Full Amount of Claim Against Five Defendants—Judgment is Unprecedented

Duluth, Minn., July 28.—David A. Miller was awarded a verdict of \$15,000 by the jury in the district court before Judge Dibel, for alienation of his wife's affections.

NICARAGUA'S APPEAL MEETS NO RESPONSE. Germany Will Not Interfere in Dispute Between Nicaragua and United States—President Madris Asks for Neutrality

Berlin, July 29.—Germany has declined to entertain the request of President Madris that this government use its friendly offices to put a stop to the possible interference of the United States in the affairs of Nicaragua.

At the Nicaraguan government has no objection to the representative at Berlin, and has made through Herr von Bernstorff, German minister to Central America, to request that the British government should communicate with President Madris, and directed the answer that the German government could do nothing in the matter.

SIR WILFRID AT PRINCE ALBERT. Makes a Great Speech in Which He Extols the British Constitution

Melfort, Sask., July 27.—Sir Wilfrid Laurier made a great speech to the citizens of Prince Albert today. "When I come to the most northern portion of the American continent and see immense crowds of British people," he said, "I ask myself, how it is that I speak an English tongue, and that I am a British subject."

Comparing the British and the American constitutions the Premier said the British constitution was the more democratic, and it was more elastic and better adapted to the requirements of the people.

High River Man Disappears. Charles Thurn Leaves Without Saying With Employees. High River, July 29.—The disappearance of Charles Thurn from High River has been causing anxiety among men to whom he owes considerable money, and especially among some of his employees.

WINNIPEG FRONTAGE AT \$1000. Understood That Either C.N.R. or G.T.P. Were Purchasers. Winnipeg, Man., July 29.—One hundred and fifty feet frontage on Main street, south of the new Union depot was sold today for \$1,000.

NORTHERN CROPS ARE IN SPLENDID SHAPE. Member for Sturgeon Saw Some Fine Fields in the Athabasca Landing District

J. R. Boyle, M.P.P., returned Tuesday night a from trip to Athabasca Landing and surrounding district. Mr. Boyle was away a little over a week on his recent and latest trip.

AVIATOR BRANCH OF CANADIAN MILITIA. Canada's Interests in Air Navigation. This Year of Such Magnitude That Government Will Establish Additional to Militia Service

Ottawa, July 27.—Aerial navigation has taken a firm hold upon Canadians everywhere. Much interest has been manifested in air navigation since the country in the various aviation meets, and in the evident determination of the military authorities eventually to establish an aviation branch of the militia service of the Dominion.

REVENUE TARIFF POLICY OF THE GOVERNMENT. Sir Wilfrid Says Total Abolition of the Tariff Would Produce Financial Panic—Direct Taxation Not Practicable Here

Saskatoon, July 29.—Sir Wilfrid Laurier received a strong deputation this morning from the Saskatchewan Grain Growers' Association on the subject of the tariff, terminal elevators, the Hudson Bay railway and the chilled meat industry and co-operative legislation.

MR. HOADLEY ON CROPS. M.P.P. Says They Are Not Half as Bad as Represented

Calgary, July 27.—The crops in the south are not half as bad as they are made out to be at the present time," said Mr. Hoadley, M.P.A., for Okotoks, who was in the city this morning.

THE HARVEST TIME IS FAST APPROACHING. C.P.R. Crop Reports States That Grain Cutting Will Start About Aug. 15—Average Crop Over District Will Be Lighter Than Usual

Calgary, July 27.—The C.P.R. crop reports mention the near approach of harvest, grain cutting will commence in many parts about the middle of August. The expected average yield at Crossfield is: Wheat, 30 bushels to the acre; oats, 25 bushels, and barley, 25 bushels.

SAYS HOME RULE FOR IRELAND AND SCOTLAND. And an Imperial Parliament Containing Representatives of the Oversea Dominions—Plan Agreed on by Asquith and Balfour

London, July 28.—Home rule for Ireland and Scotland, as well as an imperial parliament with representatives from all these colonies, is the latest and most important step in England's progressive political program which has had the world's attention during the past year.

FIRE DOOMED TO DESTRUCTION. Fire in the Village of Driscoll. Estimated Damage to the Amount of \$125,000

Bismarck, N.D., July 28.—Fire to the west side of the village was wiped out by the fire fighting apparatus. The buildings on the east side of the track caught fire several times, but the flames were extinguished before they could reach the main building.

VIRGINIA HORRIFIED BY DYNAMITING PLOT. Reward Offered for Apprehension of the Men Who Were Said to Be Connected with the Plot

Ridgewood, Va., July 27.—While returning from his farm to the town a week ago some unknown person hurled an explosive at Mr. Boussman Ash, who was riding past his own woods.

WINNIPEG FRONTAGE AT \$1000. Understood That Either C.N.R. or G.T.P. Were Purchasers

Winnipeg, Man., July 29.—One hundred and fifty feet frontage on Main street, south of the new Union depot was sold today for \$1,000.

CENSUS OF FOREST PRODUCTS. The census of the forest products of Canada, to be taken on 1st June, 1911, will embrace square, waney or flat timber, logs for lumber and miscellaneous products.

BIG HOTEL CONTRACT LET. New \$75,000 Hotel in Winnipeg To Be Built By Sharp & Son

Winnipeg, Man., July 29.—The contract for the big hotel to be built by the McLaughlin Hotel Co. at the northwest corner of Main and Rupert streets cost \$75,000. The hotel will be a modern and up to date in every particular.

QUEBEC, JULY 27.—A warrant for the arrest of Dr. Crippen was placed in the hands of Chief Constable Quavey today. He will be arrested Sunday, when he reaches Rimouski.

The steamship Montrose is out of wireless distance.

AND EVERY DAY WAS CHRISTMAS

Graft Investigation Uncovers Perpetual Illinois Central Christmas Tree.

Chicago, Ill., July 28.—The Illinois Central Railway Company was dubbed the "Santa Claus" of the car repair "Christmas Tree" in today's session of the graft investigation before Master in Chancery Roswell E. Manson. "Christmas" was every day in the year for the stockholders of the car repair company and certain high officials of the railroad who were participants in the graft. More than \$1,500,000 of the railroad's cash is said to have gone into the pockets of the plotters in the years 1907 and 1908. Details of the methods used are now being spread upon the court records for the first time. Panhandlers will turn green with envy if they read them. It was as one of the plotters who has reformed put it today, "Easier than taking candy money from a three-year-old child."

CANADA IN PICTURE.

Interesting Advertising Project Carried Out by C.P.R. Describes Canadian Life—Company of Actors and Moving Picture Machine "Do" the Country. Golden, B.C., July 28.—It is just a month since the Edison special, a five-car train, consisting of baggage coach, camera, photographic car, sleeping car, "Carland," official car of Mr. J. S. Dennis, assistant to the vice president of the Canadian Pacific Railway, and a dining car, left for a trip across the continent. This train is the concrete representation of one of the most interesting advertising projects ever undertaken by the Department of Canadian film which will depict the farming, industrial and scenic advantages of Western Canada and the pictures will be shown all over the United States and Europe. Ten thousand theaters in the United States are to be visited by the camera and special company of actors, stage manager and moving picture operator is carried to add the dramatic element necessary to provide human interest to the pictures.

A Military Romance.

At Regina a special parade of the Royal Northwest Mounted Police was arranged and this body of men, unique in the history of America, is shown on parade, camping, and in ordinary daily life. A pretty little romance was woven to bring in a mounted policeman who fell in love with the daughter of his superior officer and who called upon to choose between love and duty when it came necessary for him to arrest his sweetheart's brother for the perpetration of a crime.

Fun on Houseboat.

Splendid roads and not one mishap marked their eighty-five-mile ride and they arrived at their destination, Atholmar, on the houseboat "Isabel," in time for dinner. They made friends with the three oldest miners in the valley, Ben Abel, Sam Brewer and Joe Young, and they acted for the first time in their lives as the actors did in place mining scene with them and had a genuine picnic train, an old-fashioned rocker and gold pan on the shores of Dutch Creek.

Magnificence of Banff.

At Banff the stage director was almost paralyzed by the magnitude of his task and the company worked during its three days' stay. Mountain scenes, waterfalls, wonderful views, water polo in the huge swimming baths, and pictures of the buffalo, the mountain sheep, the antelope and the elk were taken, and the company voted its Banff stay a success from the pictorial point of view and from the members' own pleasure. At Laggan every one exclaimed over the beauty of that incomparable view of the emerald water Lake Louise and the towering snow-crowned heights of Mount LeRoy in the back-

ground. The picturesque hotel in its setting of close cropped lawn with masses of gold and scarlet blooms of poppies, came in for much commendation, and the scenes taken there should be productive of some beautiful effects.

There the company did its first mountain-climbing picture, and it was both funny and awe-inspiring. None of the party had ever climbed a mountain, and the costumes, looking at them from the light of later experience, were ludicrous in their unsuitability. The leading lady was charming for climbing steep mountains in her short brown velvet skirt, brown suede high-heeled shoes and belted white sweater. The ingenue wore her white serge suit, lace trimmed undershirt and suede shoes. Two of the men wore white canvas shoes to take a nice little summer stroll, and every one else was equally ill attired for such a strenuous experience.

Trip on Flat Car.

At Field the company had a unique experience in a trip on a flat car in front of an engine. The picture was taken by a railing around the side of the car, so that none of the artists would skid off as the platform dipped on the mountain grades. The big moving-picture camera was roped down, and all had assumed grateful poses for an official photograph at the station, when the brakeman pulled his hand to the engineer. The sooty face of the latter beamed from the window of the locomotive, which loomed up immediately behind the flat

River Lumber Company, and it was a sight never to be forgotten with its fierce flames, its snake-like column of fire shooting across the smoke from the oil tank and its somewhat terrifying boiler explosions. From Golden they went to Glacier and from there to Revelstoke, and so by slow stages to the Coast. Some excellent views of the salmon run will be taken there as well as all the most interesting views in Vancouver that all may know the advantages of the seaport town.

COMMISSIONERS DIFFER.

Chairman Adjourns Session of Saskatchewan Elevator Commission Under Unpleasant Circumstances. Winnipeg, July 27.—As the result of what was practically an altercation between Prof. McGill, chairman of the Saskatchewan Elevator Commission and George Langley, M.L.A., a member of the commission yesterday, Tuesday afternoon's session of the board was destroyed by unexpected termination. During the examination of John Fleming, of A. McPhee & Co., an ex-president of the Winnipeg Grain Exchange, principally the grating details of the grain trade, by Langley, Prof. McGill also took a hand in the examination, to which Langley took vigorous objection, practically contending that the chairman was trying to prevent the witness from giving evidence which he (Langley) denied the indication of the witness that Langley retract what he had said, otherwise he would adjourn the session. Langley, however, proved stubborn and insisted that McGill retract his remarks, whereupon McGill, rising, gathered his papers together and left the room, thus adjourning the meeting. The incident occurred about 10 in the presence of many members of the Grain Exchange, but owing to a hint that their absence would be appreciated, there was no newspapermen present.

BRANDON WALL FEELS

Weakened by Fire on Saturday It Gave Way Before Heavy Wind. Brandon, July 27.—Part of the east wall of the Empire hotel, the top stories of which were under construction, fell into the lane this morning about nine o'clock with a terrific report. This wall had withstood the fire while part of the west wall had fallen on Saturday. Now all that remains intact of the top story is the front wall and portion of each of the side walls. The lane into which the bricks fell is a thoroughfare, which is largely used and it is strange that no person was injured. A teamster had just passed the spot where the bricks fell a moment before the crash occurred. There were a lot of people in the hotel downstairs and almost a panic resulted as they rushed from the building. It is believed that the result of a very heavy wind which followed the rainstorm this morning.

In Jured in Strike Riots.

Street Car Windows Smashed and Crows Stoned—One Man Was Killed. Columbus, July 27.—Rioting by the striking employees of the Columbus street railway again tonight resulted in the injury of a man and the death of another. Mrs. Gardner Raymond, chairman of the Consumers' League, is believed to have been seriously injured. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

TROUBLE DID NOT OCCUR.

South Bend Police Now Have Situation in Hand. South Bend, Ind., July 27.—The crisis in the Grand Trunk strike situation in South Bend which General McKee of the Indiana National Guards predicted for last night, did not materialize. The strikers and sympathizers were quiet for the first time in four days. The police are in complete control of the situation. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

FIRE NEAR ROSSLAND.

Timber Limits Not Yet Invaded, but Change of Wind Would Be Disasters. Rossland, B.C., July 27.—Today fire broke out in the timber south-east on Lookout Mountain, about four miles southeast of Rossland. At first it was supposed the big saw mill and valuable timber limits would be destroyed, but the fire remained outside the limits. The fire warden hurried a large body of men to the scene and they are vigorously fighting the flames. The whole mountain side is on fire. A change in the wind to any great extent will result in serious damage.

NEW HEAT RECORDS IN UNITED STATES.

Chicago, July 26.—The temperature in Salina, Kansas, touched the 111 degree mark today. In Sapulpa, Oklahoma, the 109 degree mark was reached. In Joplin, Mo., the 107 mark in Wichita, Kansas, the 108 mark in Kansas City, the 108 mark. In Chicago the high mark touched 96 at three o'clock in the afternoon.

ONE LIFE LOST TRACED DIRECTLY TO THE FLY

New Jersey Man Inoculated With Rare Poison and Died—Local Conditions Are Very Similar to Those Which Have Aroused Such Activity

New York, July 27.—Killed by a fly. The American Civic Association charges Mr. Ty Phoid Fly with the murder of Edward H. Pratt, president of the Pratt Roof Protection Co. of Jersey City.

Statement of prosecution: Pratt's hand was scratched by a pet kitten. A fly lit on the wound and began drinking the blood. Pratt slapped the insect and crushed it into the wound. In this way he inoculated himself with a rare poison known as the gas bacillus. The hand swelled frightfully, the skin inflating with gas. The hand was amputated, but the poison had spread through the body and he died in fatal agony.

Wished To Detect Germs.

So, when typhoid broke out in the cottage of a mountaineer about two miles away from the scientist's summer home, the scientist tried to see if he could capture any of the germs from the mountaineer's cottage from the typhoid carrier's flies. He had a number of traps, baited them with sugar and set them on the window sill.

Next morning he had some flies.

He examined the stickum on the plates where their feet had adhered and found it swarming with typhoid germs. The scientist guessed that every bit of milk that flies could get at within a two-mile radius of that cottage would be contaminated, which would mean that the typhoid germs.

Evidence for the defendant, Mr. Fly: NONE.

VERDICT: DEATH.

And cities and states are stepping forward ready and willing to be the murderer's executioner.

So many cities and states are on the banner roll in the war now that the list includes practically all of the states in the Union.

What did they care for the importance of the actual results of the fight are being seen in the health office reports.

Typhoid, which has been blamed for the deaths of thousands of people, has actually decreased in a number of cities after the cities began destroying flies.

The number of typhoid cases in Rochester, N.Y., has been appreciably lessened.

Mrs. Gardner Raymond, chairman of the Consumers' League, is believed to have been seriously injured. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

Ashtville, N.C., has made a most notable record in the fight against typhoid.

Ashtville, N.C., has made a most notable record in the fight against typhoid. The number of typhoid cases in Rochester, N.Y., has been appreciably lessened. Mrs. Gardner Raymond, chairman of the Consumers' League, is believed to have been seriously injured. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

University Pushing Fight.

The University of Nebraska is pushing the fight in that state. In Wisconsin school children are being enlisted by travelling lecturers. The Indiana state board of health through Dr. John N. Hurty has got the school children interested.

Florida, Georgia, and Louisiana are being covered with anti-fly posters by the state health authorities.

Florida, Georgia, and Louisiana are being covered with anti-fly posters by the state health authorities. The number of typhoid cases in Rochester, N.Y., has been appreciably lessened. Mrs. Gardner Raymond, chairman of the Consumers' League, is believed to have been seriously injured. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

New Jersey has passed a law requiring all bakeries to be screened against flies.

New Jersey has passed a law requiring all bakeries to be screened against flies. The number of typhoid cases in Rochester, N.Y., has been appreciably lessened. Mrs. Gardner Raymond, chairman of the Consumers' League, is believed to have been seriously injured. The rioting broke out in several parts of the city. As soon as the rioting broke out, the street cars were stopped and the windows were smashed. The rioters were quiet for the first time in four days. The police are in complete control of the situation.

KANSAS JAILS ARE EMPTY.

State Has But Five Hundred Paupers Within Borders. Topeka, Kan., July 25.—Kansas has only 512 paupers within its borders, according to a report filed by the state board of control today. Twenty-eight county poor farms have no inmates at all. There are fifty-three counties of the state having no prisoners under sentence and thirty-four jails. These statistics show a remarkable absence of crime and poverty in a state of more than 1,600,000 people.

Lost on N.S. Shore.

Yarmouth, N.S., July 27.—The Lunenburg schooner Barcelona, from Boston for Bridgewater, struck a rock in the narrow channel and ran ashore on Mud Island. She will probably be a total loss. The crew was saved.

Drowned in St. John River.

St. John, N.B., July 27.—While swimming at Walters Landing on the St. John river, Fred Sherwood, aged twenty-one years, a son of Alex. Sherwood, Fairville, N.B., was drowned.

HARVEST EARLY IN ONTARIO.

Many Varieties of Grain Have Already Been Cut. Ottawa, July 26.—The harvest at the Experimental Farm, was begun at an unusually early date and is now well advanced. Dr. Charles Saunders, Dominion cerealist, reports that many varieties of wheat, oats and barley have already been cut.

The earliest varieties of spring wheat were harvested on the 15th of this month, having matured in 82 days from the time of sowing. This is the earliest date on record at Ottawa for the cutting of spring wheat. These earliest varieties are hard, red wheat of good baking qualities, one of them surpassing Red Life in the production of large, shapely leaves of bread.

SENSATIONAL FRENCH TRIAL.

Promoter Found Guilty of Swindling and Gets Two Years. Paris, July 27.—Henri Rochette, a promoter, was found guilty of swindling through a violation of the corporation law, and condemned to two years' imprisonment and to pay a fine of 500 francs.

The trial was long and sensational. Rochette was arrested on March 23, 1908, accused of having fraudulently obtained more than \$12,000,000 through the medium of his various companies and societies. On his arrest the line of shares in which he was interested was suspended. A scandal was stirred through the charge subsequently made that the arrest of the promoter was a stock jobbing trick on the part of a gang of speculators who had sold great blocks of the Rochette shares under agreement to deliver them "after March 23."

Rochette's shareholders got together and established that the companies were on a sound financial basis, that there was no natural cause for the fall in the securities. The name of the former Premier, Clemenceau, was brought into the matter through the openly made allegation that he caused Rochette's arrest. This Clemenceau denied.

GOVERNING BOARD TO BE ORGANIZED

Way Is Now Cleared for Organization of Classes for Methodist College—Project Freely Assented to by Members of Committee. Calgary, July 27.—The way was made absolutely clear for the classes in connection with the proposed Methodist college to be commenced in the fall by the following resolution passed by a special conference at Red Deer yesterday afternoon: "That we freely assent to the start-up of classes for the new Methodist college at Calgary when it is considered advisable."

This resolution will have to go before the General Methodist conference in the city of Canada to be held at Victoria in the middle of August, but can be acted upon by the board of governors as soon as it is organized.

Board of Governors on Board.

The creation of a Board of Governors was part of the business accomplished by the special committee, and it was confined to 42 members. But no damage was done. Today Prof. Henry and H. F. Kenny are in charge and throughout the sessions there has been splendid discussions of the city and country schools in attendance. The convention was opened and conducted yesterday by Rev. D. A. Gunn, of Calgary, and Miss Palk, elementary specialist. Today Prof. Henry and H. F. Kenny are in charge and throughout the sessions there has been splendid discussions of the city and country schools in attendance. The convention was opened and conducted yesterday by Rev. D. A. Gunn, of Calgary, and Miss Palk, elementary specialist. Today Prof. Henry and H. F. Kenny are in charge and throughout the sessions there has been splendid discussions of the city and country schools in attendance. The convention was opened and conducted yesterday by Rev. D. A. Gunn, of Calgary, and Miss Palk, elementary specialist.

Heaviest Fall of the Season Occurred Tuesday.

Brandon, July 27.—One of the best rainfalls of the year occurred here this morning, lasting a couple of hours and giving the land a thorough soaking. The storm was accompanied by very violent thunder and lightning.

TO EVADE DEPORTATION

Winnipeg Young Woman Married Chas. Sloan, of St. Paul. Grand Forks, N.D., July 25.—By becoming the wife of Charles Sloan, of St. Paul, here this morning, Ellen Wright, of Winnipeg, has probably successfully defeated the efforts of United States immigration officials from deporting her. Miss Wright and Sloan came to this city from Winnipeg Thursday evening, making the trip by automobile from Winnipeg to Langdon, thus evading the immigration inspectors at Neche, who had previously denied her admittance to the United States, although she had claimed to be an American citizen. Immigration Inspector Stewart learned of the action taken by Miss Wright and her companion and immediately came to Grand Forks. They were located and arrested, whereupon the couple were married. By becoming the wife of Sloan, whose citizenship is unquestioned, the woman also becomes an American citizen. There is a statutory change against "them" but this probably will be dismissed.

TO ATTEND CONGRESS.

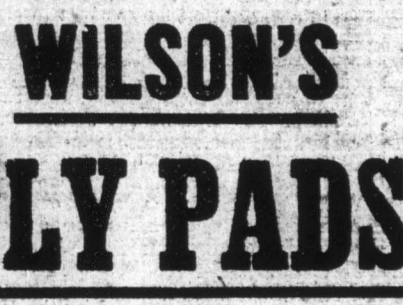

Montreal, July 27.—Rev. Father Lepelletier, Professor of Divinity in the Propaganda at Rome and Rev. Father Curro, teacher in the Canadian seminary, both of whom arrived on Saturday, they are in Montreal for the eucharistic congress.

WILSON'S FLY PADS

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him.

His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

persistently, this peril would be tremendously reduced.

SUNDAY SCHOOL RALLIES.

Excellent Meetings Held Along Branch Lines of the C. & E. Camrose, July 27.—The Sunday school mid-summer tour party visited our town on Tuesday and Wednesday, holding two mass meetings which were well attended. Prof. L. L. Henry conducted the musical part of the program with his usual enthusiasm, and the song service was delightful to all present. H. F. Kenny, the general secretary, gave a graphic description of the world's convention in Washington, and the audience saw a vision of the imminency of the Sunday school cause, at the evening meeting. Today the Sunday school workers assembled at 3 o'clock and very aggressive plans were outlined for work during the coming year.

Blow to Speculators.

Very interesting meeting of Sunday school workers was held, when Rev. D. A. Gunn, of Calgary, under the direction of the Alberta Sunday School association, visited the town. Mr. Gunn gave a very helpful address on "How to Secure Trained Workers in the Sunday School," and also led in a general discussion as to ways and means of work in the small school, and much good will resulted from the meeting. Mr. Gunn came here from Sedgewick and Hardisty, where he had held similar meetings on Sunday and Monday.

Quality in Cream Wanted.

Just recently six new butter factories started up in the province with one in Calgary, which is known as the Calgary Central Creamery, operated by Mr. Palleisen, and one in the south at Grand Okanogan, operated by Mr. B. B. Buckler.

TO EVADE DEPORTATION

Winnipeg Young Woman Married Chas. Sloan, of St. Paul. Grand Forks, N.D., July 25.—By becoming the wife of Charles Sloan, of St. Paul, here this morning, Ellen Wright, of Winnipeg, has probably successfully defeated the efforts of United States immigration officials from deporting her. Miss Wright and Sloan came to this city from Winnipeg Thursday evening, making the trip by automobile from Winnipeg to Langdon, thus evading the immigration inspectors at Neche, who had previously denied her admittance to the United States, although she had claimed to be an American citizen. Immigration Inspector Stewart learned of the action taken by Miss Wright and her companion and immediately came to Grand Forks. They were located and arrested, whereupon the couple were married. By becoming the wife of Sloan, whose citizenship is unquestioned, the woman also becomes an American citizen. There is a statutory change against "them" but this probably will be dismissed.

TO ATTEND CONGRESS.

Montreal, July 27.—Rev. Father Lepelletier, Professor of Divinity in the Propaganda at Rome and Rev. Father Curro, teacher in the Canadian seminary, both of whom arrived on Saturday, they are in Montreal for the eucharistic congress.

SOUTHERN FARMERS GO INTO DAIRYING

Dry Weather Causes Decrease in Dairy Products, But High Prices Will Compensate—Many to Go Into Mixed Farming. Calgary, July 29.—"Though the quantity of dairy products in Alberta this year do not compare favorably with that of last year, still the increased price of this output from the province will more than compensate for the decrease in quantity," said Mr. C. P. Marker, the provincial dairy commissioner, today in discussing the dairy situation in the province this season.

"This has been caused by the extremely dry weather. However, prospects for the fall of this year are good, and indications are that the dairying business will be carried on more extensively than ever next year."

"The farmers south of Calgary will in future go in more for mixed farming than in the past. Those on the Alberta Railway and Irrigation Co. are already making arrangements to enter into this class of farming. The districts around Cardston, Mountain View, Kimball and Leavitt have asked to have the government travelling dairy school visit them this fall. The travelling school consists of lectures and demonstrations of approved methods of home dairying. During the Calgary fair H. B. Bullock, of Brantford, Ont., who had exhibited in Jersey City, sold a number of Jersey to farmers living in the Cardston district, and it is understood that these cattle are doing well. Mr. Wolfe, M.L.A., for Cardston, in speaking to me recently, stated that the conditions have never been any better in that district than they are this year."

Six New Butter Factories.

Just recently six new butter factories started up in the province with one in Calgary, which is known as the Calgary Central Creamery, operated by Mr. Palleisen, and one in the south at Grand Okanogan, operated by Mr. B. B. Buckler.

"At present there are 61 creameries and 12 cheese factories in Alberta. The 13 creameries operated by the provincial government have adopted a system known as "grading quality as a basis of payment, which means that all those who send in cream which reaches the required standard of quality receive 2c per pound more than that which does not reach the standard."

Quality in Cream Wanted.

"As the western market is a quality market, this plan or scheme brings the fact home to the farmers that quality in cream is what is wanted at the creamery and factories." We note this year a marked improvement in the creameries that have adopted this system, as compared with former years. We are endeavoring to establish a high standard and thus bring all the dairy products up to this standard.

"We believe that it results that we will have to show this year will induce all concerned to test this new system."

TO EVADE DEPORTATION

Winnipeg Young Woman Married Chas. Sloan, of St. Paul. Grand Forks, N.D., July 25.—By becoming the wife of Charles Sloan, of St. Paul, here this morning, Ellen Wright, of Winnipeg, has probably successfully defeated the efforts of United States immigration officials from deporting her. Miss Wright and Sloan came to this city from Winnipeg Thursday evening, making the trip by automobile from Winnipeg to Langdon, thus evading the immigration inspectors at Neche, who had previously denied her admittance to the United States, although she had claimed to be an American citizen. Immigration Inspector Stewart learned of the action taken by Miss Wright and her companion and immediately came to Grand Forks. They were located and arrested, whereupon the couple were married. By becoming the wife of Sloan, whose citizenship is unquestioned, the woman also becomes an American citizen. There is a statutory change against "them" but this probably will be dismissed.

TO ATTEND CONGRESS.

Montreal, July 27.—Rev. Father Lepelletier, Professor of Divinity in the Propaganda at Rome and Rev. Father Curro, teacher in the Canadian seminary, both of whom arrived on Saturday, they are in Montreal for the eucharistic congress.

EDMONTON NEWS

THURSDAY'S DAILY.

SUCCESSFUL LAW STUDENTS. The results of the first intermediate law society examination have just been handed out. The following students were successful: George H. Keith, Taber; D. L. Redman, Calgary; H. E. Doolittle, Edmonton; W. H. McLellan, Lethbridge; D. H. Elton, Lethbridge; J. W. Crawford, Calgary; G. C. O'Connor, Edmonton; H. L. Howe, Edmonton; W. C. Pollard, Calgary; G. G. Lafferty, Calgary; Z. W. Jacobs, Cardston; C. A. Wilson, Edmonton.

FRIDAY'S DAILY.

LOCAL. Some of the finest looking rhubarb ever seen in Alberta, in the opinion of Mr. Fisher, was shown to the Board of Trade officers Thursday. The rhubarb was grown in the garden of J. W. Kennedy, of this city, and the base was over five inches in circumference. It will be exhibited at the Edmonton Exhibition.

LICENSE GRANTED.

The application for a license by the Pembina Hotel company for their hotel at Entwistle was considered at a meeting of the board of license commissioners, held on Thursday morning. The commissioners decided to recommend that the license be granted.

COUNTERFEIT COINS.

An Edmonton barrister Thursday discovered a brand new five cent counterfeit five cent piece among his small change. The coin is of pure cobalt silver and so cleverly counterfeited that it would be almost impossible to distinguish it from genuine silver. The counterfeiter, however, made the extraordinary mistake of making the lettering and figures on the reverse side stand the same way up, instead of in opposite directions, as in the case of all coins issued from His Majesty's mint. A large number of these counterfeit five cent pieces are said to have been struck by a clever forger in Cobalt. This one had travelled the wrong way.

CHARGED WITH INSANITY.

Bartholomew Bartolo and wife and six small children, at the residence of R.N.W.M.P. barracks Thursday morning on a charge of insanity. Bartolo is an Italian who was employed on a farm about twenty miles from St. Albert. Some days ago neighbors noticed something strange in the behavior of the Italian couple. They seemed to be afflicted with religious mania and were in the custom of keeping the six small children up to all hours of the night praying and going through different religious exercises. Last night a police officer was sent to effect their arrest. He found the whole family going through a decidedly unique religious exercise which consisted of rolling on the floor and groaning as if in great agony. They will come up for trial tomorrow.

WILLS PROBATED.

Letters of administration of the estate of Gottlieb Rens, who died in Strathcona on June 9th last, have been granted in the District Court to Gustave Gardel and Christian Brandenburg, of Strathcona. The estate is valued at \$11,245, consisting chiefly of Strathcona property. A life annuity in lots 33, 34, 35 and 36, Block 2, Strathcona, is left to Karl Rens and Paulina Rens, father and mother of the deceased, and four children. To Juliana Rens and Karl Samuel, Annie and Amy, children of the deceased, and Mrs. Robert Lendrum, of Riviere Qui Barre, a daughter, the residue of the estate is left, to be divided in the proportion of one-third to the widow and two-fifteenths to each of the children. Letters of administration have been granted in the matter of the estate of Joseph Favell, of Lethbridge, Alta., to Samuel E. Mayer, of Edmonton. The estate of \$1,175 is to be equally divided between Elizabeth Anderson, widow, and two sons, Andrew Favell and John-James Favell. The will of Edward Monkman, of Whitford, who died at Vegreville, May 25th last, has been probated. The estate, valued at \$2,813, is bequeathed to Florence Monkman, wife of the deceased, to whom letters of administration have been granted. Letters of administration of the property of Charles L. Erickson, who died intestate at Camrose, November 14th, 1909, have been granted to his widow, Johanna Erickson, to whom property valued at \$1,200 succeeds. The estate consists of the south-west quarter of section 24, township 48, range 21 west of the fourth meridian.

BROUGHT SETTLERS TO ALBERTA.

F. McKay Dickson, who has been doing immigration work for the Provincial government in the States of Michigan and Ohio, returned to the city Wednesday evening after two months' absence. As a result of the trip, Mr. Dickson reports that the Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine out of ten cases of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when preceded with water and sugar, it is pleasant to take. Sold by all dealers.

THE RECEPTION TO LAURIER.

Another meeting was held Friday morning to further discuss the details of the civic reception to be tendered Sir Wilfrid Laurier upon his visit to Edmonton on August 14th. The latest arrangement is that the presentation of the civic address shall take place in front of the Yale Hotel on a platform erected there. The presentation will take place between ten and eleven o'clock and will follow the parade.

WORK AT EXHIBITION GROUNDS.

There are 200 men working the saw and hammer, the pick and the shovel at the exhibition grounds. Work on the new grand stand is proceeding satisfactorily, although some delay has been occasioned by the lack of heavy timber which has been held up in shipment. It is expected to reach the city in the course of a few days. The finishing work on the other buildings is being put on. The manager Harrison thinks all the buildings will be completed by August 15th. The race track is in excellent condition.

TEN CENTS HIS ASSETS.

With only ten cents in his pocket, a young rock drifter from Quebec arrived at Immigration Station Monday morning. On starting from Quebec he had money galore, but high living and travelling in parlor cars soon ran away with the cash. He started to an immigration official that it was his intention to "beat it" to the Rockies, where he would be able to get employment at his trade. He was received at the immigration hall, however, he decided to work with a farmer for a month or so, in order to get the necessary money to make his journey on the cushions.

ASPHALT MOUNDS AT FT. McMURRAY.

Twenty-Nine Men Down From The Far North For The Winter. The north country swarms with prospectors, and numerous claims of various kinds are being staked out, said R. A. Dewar, who has just returned from a six months' sojourn at Ft. McMurray, in the Bulletin yesterday afternoon. "It is a great country up there. The greatest in the world, bar none. The mineral resources are boundless and there is a vast tract of the prairie land about forty miles wide and two hundred miles long from the Pelee River right down to Great Slave Lake."

EDMONTONIANS AT GULL LAKE.

Gull Lake is booming this year, and the visitors continue to flock to this popular resort in increasing numbers. Scarcely a day passes without two or three parties of Edmontonians joining the multitude at Lacombe's summer resort. Building has been brisk this summer, and scores of cottages have been built or are being sent under construction. To give an idea of the number at present in residence at the lake from Edmonton, the following list has been compiled: Dr. and Mrs. Sloane and family, Mrs. McIntyre, Miss Jean Aitken, and Miss Richardson. Mr. and Mrs. Smith and family, Mr. and Mrs. Whitelaw and family, Mrs. G. S. Guden and Mr. and Mrs. Hegler and family. Mr. and Mrs. Grant, Strathcona, with Mr. and Mrs. A. T. Mode, late of Strathcona, Miss C. Fright at Ft. McMurray, Mrs. Fraser and family, Edmonton, Mrs. Richardson and family. Mrs. G. W. Swalund, Mrs. W. H. Nightingale and Mr. and Mrs. E. C. Emery and family. Rev. C. D. Campbell and Mrs. Campbell, Mr. and Mrs. G. G. Gitter and family, Mr. and Mrs. J. W. Blackett, Mr. and Mrs. W. Chalhand, Miss N. Mercer, Miss Helen Montgomery. H. Gilbert and Miss Gilbert, Mrs. Thon and son, Mr. and Mrs. H. J. Dawson and family and Misses Forin. Rev. Dr. McQueen and Mrs. McQueen, Mr. and Mrs. Cops and family, Mrs. Barford and family, Miss Lynch and Mrs. J. A. Haller, Mrs. H. Newton and family, Mr. G. W. Armstrong and family, Mr. and Mrs. Smith, Mrs. McEwan and family, Mrs. Studholme and family, Mrs. Powley and family, Mr. and Mrs. G. Reid, Rev. E. W. and Mrs. Patterson, Mr. and Mrs. Walker, Mrs. Belcher and the Misses Belcher, Mr. and Mrs. Nesbitt, Mr. and Mrs. B. Lawton, Mrs. T. C. Bushe, Mrs. Heathcote and family, Mr. and Mrs. W. E. Sheppard and family, Mr. and Mrs. Wallace and family, Strathcona.

STOLE FROM HOTEL GUESTS.

Inordinate love for other people's property led to the undoing of J. W. Robson, a young Englishman, just lately arrived in this country. Last week Robson registered at the Queen's Hotel, and immediately after his arrival guests at the Queen's began to mis-memorize articles, such as brushes, ties, cuff links, etc. Sergeant Detective Brooks, of the city police, was notified and after a few Sherlock Holmes stunts succeeded in tracing the thefts to Robson, who was arrested Thursday and his room searched. The search resulted in the finding of many stolen articles ranging from hair pins to safety razors. Robson was sentenced to six months' hard labor at Fort Saskatchewan. A. E. Dunham was charged with assaulting his wife, Mrs. Dunham, the plaintiff, stated that on the evening of the 29th she and her husband had had a quarrel. Just afterwards the brother of the defendant came up to the house with his automobile and asked Dunham to take him for a ride. Witness objected to her husband going out with the result that he came into the house and said that the defendant had been out with his brother. Witness was hurt so seriously that a doctor had to be called in to attend to the wounds received. Dunham and his brother, Harry Dunham, denied under oath that any assault had taken place. The magistrate's judgment on the case will tomorrow. W. E. Fritchard was fined two dollars and costs for leaving his team idle in the street. He was also fined yesterday. One drunk was also fined the usual \$4 and costs.

PROVOST LIBERAL PICNIC.

The Hon. Duncan Marshall returned to the city Friday night on Thursday at Provost he attended a most successful Liberal picnic, and yesterday was at Lacombe. Several hundred people were present at the Provost picnic, and an enthusiastic reception was tendered to the speakers. Addresses were delivered by the hon. Minister of Agriculture, Chas. Stewart, M.P.P., Geo. F. Smith, M.P.P., and Dr. Clark, M.P. To Fortitude, Trinidad. Quebec, July 27.—In view of the recent discoveries of petroleum in Trinidad which might be useful to the navy, and the importance which the island will acquire on the completion of the Panama canal, the British government is considering the advisability of fortifying the entrances to the Gulf of Paria.

DISCUSS PUBLICITY.

A committee of the city council, composed of Mayor Lee and Aldermen McNelis and Lundy, waited upon the Board of Trade Friday to urge that something more be done to make known the good crops of the Edmonton district. The question was discussed for some time and further action was deferred until the next meeting of the board. The committee also discussed for some time and further action was deferred until the next meeting of the board. The committee also discussed for some time and further action was deferred until the next meeting of the board.

TWO MISSIONARIES FOR GRAND PRAIRIE

Superintendent of Methodist Missions, T. J. Work, being home by train in Northern Part of the Province. Rev. T. C. Buchanan, superintendent of Methodist missions for the Province of Alberta, has been making Edmonton his headquarters for the last few days. Mr. Buchanan was down the Grand Trunk Pacific as far as Edmonton, where he thinks of establishing a mission station. "We already have a mission station at Wolf Creek," said the superintendent to a Bulletin reporter, this morning. "and we contemplate establishing others along the Grand Trunk. The missionary at Wolf Creek lives and conducts services in a tent. He also has been doing good work among the different railway camps in his district. "Last year," he continued, "we found that our work was mostly confined to the southern part of the province, but this year we are getting north and land is claiming more and more of our attention. We have missionaries at Athabasca Landing, Lesser Slave Lake and other northern points. Only a short time ago two of our missionaries left for Grande Prairie, where, by this time, they are doubtless doing splendid work among the new settlers who have poured into that country this spring. We have all kinds of territory to work in," he concluded, "and the only thing which hampers us is lack of money and men."

RADFORD WILL FIGHT FOR HIS BISON SKIN

Department of Agriculture Has Taken Possession of Numerous Hides Under Penalties Issued to Radford Last Year—Naturalist Wants the Skin. Harry V. Radford, the hunter of milk chocolate fame, has come down from the north to contest with the Department of Agriculture the possession of the skin and skeleton of the enormous wood-buffalo which was shot at Fort Smith on Slave river, north of Lake Athabasca, last winter. Radford argued in the city last night and is a guest at the Castle Hotel. In May of last year the New York naturalist went into the north country with the intention of studying the habits and life of the wood bison, and to secure if possible a specimen of the species which has puzzled naturalists. In order that he might kill one of the animals he secured a special permit from the Lieutenant-Governor. This permit, it is claimed by the Department of Agriculture, was given on the express understanding that the skin of the animal should be to become the property of the provincial government. When the hide and bones were shipped down from the north a short time ago by Radford, the government took possession. The hide, which is large enough to carpet a study room, measuring thirteen feet in length and eight feet in width, now lies in the taxidermy establishment of Wolfe and Hine on Second street, awaiting disposition by the government. Now H. V. Radford has come down to Edmonton to continue his buffalo hunt which began last winter in the north. He wishes to express the remains of the animal to the American Bison Society at New York. The Department of Agriculture raises objections. The outcome remains to be seen. Mr. Radford intends to remain several years longer in the north and will return to Fort Smith in the course of a week or two. On his return he will prepare a formal report for the American Bison Society on the wood bison. This completed, the intrepid explorer will venture into the barren lands lying toward the Arctic to hunt the musk-ox.

FIVE TIMES

This adv. was written July 30th. During the past three weeks the demand for Grand Trunk Stenographers has been just five times the available supply. Suggestive isn't it? Summer season is now on. Fall term will soon be here. You should take our course in shorthand right away. This is the school that teaches Gregg shorthand. Gregg shorthand is the fastest in all the world. GRAND TRUNK BUSINESS COLLEGE EDMONTON J. C. McTavish, Principal.
