Charity Carnival.

Though interrupted by the electric lights going out, the carnival at the Prince's Rink last night, in aid of charity, was a great success financially. His Excellency the Governor and Lady Davidson and Miss Davidson were present. Over three hundred masqueraders took part in the even which was witnessed by an exceptionally large gathering of spectators The interior of the rink was artistically decorated with flags and Chinese lanterns while the vari-colored costumes added greatly to the attractiveness of the scene. Soldiers and sailors of every country and rank, Arabs, Esquimaux, Turks, Pierots, Chinese Jockeys Seglers Courtiers Britannias the Allied Nations Nurses. Niggers. Milk-maids and every other character conceivable were faultlessly impersonated. Some of the costumes in deed were very handsome and original. The most striking was Mr. Angus Reid, son of H. D. Reid, Esq., who won first prize. He represented electricity in all its asects, including wireless telegraphy. His costume was certainly a work of art. It was made by Mr. Thomas Armstrong, of the sub-staton, Miss Nellie Job daughter of Hon. W. C. Job. also won first prize. She posed as "Der Tag." At the opening the masqueraders took part in a March Past played by the C.C.C. band. None of the Chinamen were around, they having fled to their ellow countrymen on Prescott Street The flames from the fire were tre ndous and illuminated that section of the town for a long distance. The firemen worked hard under adverse conditions to prevent the fire from spreading, but did not succeed, as the Postal Telegraph Office next door and a dwelling house adjoining caught. Out of the latter Mr. J. Donnelly rescued a woman named O'Grady and her child, who might have been burned to death. After working strenu-ously for over an hour the fire-fighters got the blaze under control. Just then the Chinamen came back and found amongst the ruins their cashbox, which contained \$100, much to their delight. The damage done was very extensive. The laundry was to-tally destroyed with hundreds of dollars worth of shirts, collars, etc., that it contained. The adjoining buildings were badly damaged. They are own-ed by Mrs. E. J. Rawlins, and we learn are not insured. The origin of fire is at present unknown.

It may be described as a phosphated milk product. When dissolved in water it becomes a fluid in appearance and in taste as well as in general properties similar to milk; and one of its distinctive points is that phosphorus (an important brain food) is given thereby in an organic and easily assimilated form. Experiments lately carried out seem to prove these claims. At any rate Sanaphos is well worth trying in place of the alien product. RUSSIANS ON OFFENSIVE AGAIN.

LONDON, To-Day. Except at the Central Beskid Pass of the Carpathians, where the fierce Austrian attacks have moderated somewhat, the Russians are now on the offensive along the whole length of their extremely long line from the Baltic Sea to the Roumanian border Apparently they have definitely dis posed of the German and Austrian attempts to outflank their two extreme wings. The tide having turned they are making slow but steady progress. After retiring on the right bank to the Dneister River, the Russians have crossed into Bukowina and are unofficially reported to be back in Vzernowitz, which military men say is extremely probable, as they already had captured Sadagora, a few miles to the west. They are again in possessio of Stanilau and have crossed the Lukwa River, the forward step which in the opinion of military experts will compel the Austrians to evacuate Bukowina. In Northern Poland the Russians are advancing slowly west-ward from the Niemen River and the Germans are fighting a rearguard ac man attack being seriously pressed against the fortress of Ossowetz. Here from Lyck, and there is a good road across the marshes, but with their armies falling back on either side they cannot remain long. British milifary experts say To the south ac cording to a Berlin despatch, the Germans have evacuated Myszynie, which is right on the East Prussian border northwest of Lomza, while further west, near Mlawa, they are believe actually to have crossed the border after their defeat at Przasnysz. Th Russians also show revived activity in Central Poland and have attacked the Germans east of Plock and near Skierniewice, southwest of Warsaw In the western theatre, the Angle French, like their Russian ally, an doing most of the attacking, but la terly without apparently making any further progress, although they clair to have repulsed German attacks

PANIC AT CONSTANTINOPLE.

LONDON, To-day. Consternation reigns at Constanti-nople. The Turks and Germans are realizing that they are powerless to prevent the allied fleet from forcing the passage of the Dardanelles and are hastily dismantling some forts in the Straits to obtain material for strengthening places on an island in the Sea of Marmora near the entrance of the Bosphorus, which is to be placed in a state of seige, according to
