ORLY-FOURTH YEAR

A Banquet To Premiers

Sir Edmund Barton and Mr. Seddon to Be Entertained in Montreal.

Ship Laborers Strike at Quebec Has Been Amicably Settled.

Moulders Association Vote Down Proposal to Start a Co-operative Foundry.

Montreal, July 18.—The Board of Trade today decided to tender a banquet to Sir Edmund Barton, premier of Australia, and Hon. Richard Seddon, premier of New Zealand, when passing through the city, via this city and British Columbia.

Montreal, July 18.—The Elder-Dempster, who went ashore at Pointe St. Charles, on Saturday last, was called at 2 o'clock this morning and was on the way to Montreal under an overcoat.

Montreal, July 18.—A proposal for the establishment of a co-operative foundry brought forward by Socialist members of the International Moulders' association, was defeated by an overwhelming majority this morning.

Charles Webb, 35 years old, shipper for James Lamb, Co., wholesale grocer, fell down a 25 foot shaft this morning and fractured his skull. He was removed to the hospital, where he died.

Quebec, July 18.—The Mayor and Council have again before Judge Caron on motion of Donat Meunier, K. C. counsel for the United States government, to quash the last habeas corpus writ to which the Meunier proceedings before Judge Lafontaine, extradition commissioner at Montreal, brought him.

The ship laborers strike was settled this afternoon, two local stevedores, having agreed to pay the same rates as in Montreal, and the Harbor Commission and the ship laborers agreeing to pay the agreed rates.

Halifax, July 18.—J. A. Chipman, of the firm of J. A. Chipman & Co., four merchants, well known throughout Eastern and Western Canada, died at noon today.

Montreal, July 18.—The son of Henry Palmer, Southwell, while riding a pony to work, carelessly fell from the side of the halter to his neck. He fell off the pony while riding in the park and was killed.

Magie, Ont., July 18.—The body of a young girl, who was drowned in the river yesterday, it is supposed to be the case of a suicide.

Port Hope, Ont., July 18.—Lightning struck a barn here yesterday, and the barn was completely destroyed.

MUCH WANTED MAN. Ticket Clerk Who Made a Business of Robbing Railways.

Suit St. Marie, Ont., July 18.—Today before Judge Johnson, George O. McCallie alias K. Cochrane, the telegraph operator and clerk of the Ontario and Quebec Railway, was sentenced to five years imprisonment in the Kingston penitentiary.

PUGS PREPARING. Jeffries Says He Is Not Over-Trained.

Oakland, Cal., July 18.—Rumors were flying thick and fast around town today to the effect that Champion Jeffries was not over-trained.

Changes Brought About By New Premier.

London, July 18.—The Duke of Devonshire, president of the council; the Marquis of Lansdowne, secretary of state for foreign affairs; Lord Chamberlain, the principal secretary; the Earl of Selborne, secretary of the admiralty; and the Marquis of Londonderry, postmaster general, are understood to have consented to resign their present portfolios in the new cabinet.

Vancover Wins Check Match Against Nanaimo.

Vancover, July 18.—(Special.)—In the cricket match between Nanaimo and Vancover teams today, Nanaimo made 125 runs for the first innings, and Vancover, after scoring 200 for five wickets, declared the innings closed. In the second innings Nanaimo only scored 46 before Vancover winners.

THE COBINATION.

London, July 18.—An official notification was issued this morning that by the King's command the coronation of King Edward and Queen Alexandra will take place on August 9.

SEXYING OUT THE LAND. Mining Men From the Interior to Investigate Resources of Island.

Among the arrivals from the mainland last night were Messrs. James D. Sward, B. and E. J. Wilson, the well known smelter man, of Greenwood. Mr. Sward is recognized in the interior as the man who has the most intimate knowledge of the resources of the Similkameen district, having devoted years to an exploration of that rich and interesting region.

Both gentlemen have come to the coast for a holiday trip and incidentally to investigate the mineral resources of Vancouver Island, recent developments having convinced them that there is something in it.

Guests Of Salisbury

Five Thousand People Entertained at Hatfield House Garden Party.

Cabinet Ministers' Princes and Distinguished Men From All Over the World.

No Event of Coronation Year Has Exceeded It in Brilliance.

London, July 19.—Five special trains took 4,000 distinguished guests to a garden party at Hatfield House (Hertfordshire) the seat of the former premier, today. Lord Salisbury's guests included the cabinet ministers, Indian princes, members of the diplomatic corps, and a number of peers and members of the House of Commons.

No social event of the coronation year has exceeded in brilliancy of scene and brilliancy of the gathering at Hatfield House, since the coronation of Queen Victoria in 1840.

The garden party was the most brilliant of oriental costumes and the brightest of oriental costumes and the brightest of oriental costumes and the brightest of oriental costumes.

WANT ARBITRATION.

Miners Convention Expresses Views on Anthracite Strike.

Indianapolis, July 19.—The miners' convention has adopted President Mitchell's recommendations with a few modifications.

The salient points of the address as read by Secretary Wilson, are that the miners argue that the foundation of the great industrial progress of the country during the last decade has been laid largely by their labor; that they receive a pitifully small wage; that they are being unjustly treated; that the operators are opposed to a general strike, and that they cannot be induced to break their contracts; that the United States people are requested to bring pressure upon the Anthracite operators and railroads to compel them to submit to arbitration.

The miners' convention has adopted President Mitchell's recommendations with a few modifications.

The Waters Are Rising

Mississippi River and Its Tributaries Flood Many Miles of Crops.

And Millions of Dollars Worth of Property Has Been Destroyed.

Illinois and Missouri Farms Have Suffered Badly and Worse Is Feared.

Keokuk, Iowa, July 19.—The flood conditions are much worse today and the Mississippi river is from two to ten miles higher than it was a few days ago.

Damage is also occurring on the Illinois side between Hannibal and Quincy. The Lina and Hunt levees opposite Canton, Mo., which protect many square miles of corn in Illinois, are constantly patrolled and hopes are entertained that they may possibly hold.

The greatest damage is on the Missouri side of the river between Keokuk and Hannibal, territory covering over 300 square miles and on which corn was estimated at 80 bushels to the acre a few days ago.

Reports today are that in the territory indicated the loss will be over four million dollars. Chiefly to corn lands. The damage done along the Mississippi is greater than was expected or at first reported.

One township in this county, Green Bay, is six or seven feet under water. It contains more than 11,000 acres of crops. Families there were driven out hurriedly and some cattle were drowned. The levee, eight miles north of Burlington, broke, inundating three square miles that had been considered safe.

The river is the most damaging tributary of the Mississippi, is rising down with a flood approaching but twice the normal stage in the center of the river. The water topped the record of 1882, and touched the highest record of 1851. The river rises in the center of Iowa and empties into the Mississippi 25 miles north of Keokuk.

Edyville, Ottumwa and Copper Creek among the heaviest losers from the cause.

WASHINGTON. ANARCHISTS. Three From Turkey That Need Watching.

Washington, July 19.—An evidence of how closely the government of the United States watches the movements of anarchists, is shown in a communication received at the State department from the British government in London.

The communication states that three anarchists, named Dignotti Genituli, Guiseppe Pasquale and Cassia Ceremele, three anarchists who have been expelled from Constantinople, and he desires to be informed if they take refuge here, and especially if they should leave the United States to go to Mexico.

CELESTVILLE CYCLONE.

Loss Will Be About a Hundred Thousand Dollars.

Montreal, July 19.—(Special.)—J. F. Richardson, of the C. P. R. Telegraph office, who has returned to his office after having superintended the work of rebuilding the company's wires, which were destroyed by the cyclone at Celestville, describes the scene as one of the most wonderful of the kind he has ever seen.

The cyclone which struck Celestville, the wildest ever experienced in the province, was accompanied by a heavy rain, and the loss will be in the vicinity of \$100,000.

WISCONSIN GOVERNOR. Lafolette of Madison, Nominated for Head of State.

Colonial Premiers They Have Discussed Increase of Subsidies For Various Provinces.

And Maritime Men Want Fishery Award Divided in Their Provinces.

Precedence of Cabinet Ministers and Dominion Members.

London, July 17.—The Telegram London cable says: "Nothing has been officially reported about the meeting of the provincial premiers and ministers from Canada here at present, but it is understood they have discussed important questions, and the details for the Dominion have been proposed for an increase of half a million for Ontario, other provinces in proportion. Maritime Provinces desire that money from fishery award should be divided among the Maritime Provinces. They also want a good claim in an article on account of their great fishing trade."

The question of precedence given provincial premiers and cabinet ministers in the Dominion was discussed. At present, the provincial ministers rank after Dominion members, and the order of the cabinet is very irregular. It is the effect that they should rank after Dominion Cabinet ministers. Mr. Wilfrid Laurier is evidently a strong proponent of the Dominion. Mr. Laurier said he did not want Britain to tax its people for the benefit of Canada, but suggested that Canada should pay all grain it should exempt Canadian wheat. Perhaps Canada might be able to reciprocate by the admission of some articles of British manufacture. It is said the British ministers are considering the proposal.

Nothing definite has been reached in regard to the combination between the Allan and Elder-Dempster line towards securing the Dominion. No offer yet has been made, but representatives of these steamship companies are interviewing the cabinet ministers and presenting their scheme for a fast line between Canada and Great Britain. In order to shorten the conference, the premiers are having preliminary interviews with the Admiralty, Defence, and other departments in regard to preferential trade and the proposed assembly line. Admiral Lord Charles Bessborough is attending Canada with a special mission. With a British combine for the Atlantic trade it would surely knock the Marconi Wireless Telegraph company out of business. The Marconi Wireless Telegraph company announce they will send commercial messages to Canada before December. The rate will be sixpence a word for private messages, and fourpence for press messages.

Halifax, July 17.—Ed. Davison, member of the Legislature, died at Bridge-water today. Hamilton, July 17.—Mrs. Goodman died in the house of refuge here today, aged 110. Missionary Dead. Rev. Norman H. Russell Has Died in India. Winnipeg, Man., July 17.—(Special.)—A cablegram from India announces the death at Mohor of the Rev. Norman H. Russell, of the Canadian Presbyterian mission. Death was caused by dysentery, which he contracted before he left India and leaves many relatives here.

Accused of Murder. Chinaman Charged With Killing White Woman. Buffalo, N. Y., July 17.—Justice Keppeck, sitting in special term of the Superior court, today announced the arrest of the habeas corpus proceedings instituted to secure the release of Charlie Wee, the Chinaman charged with the murder of Marion Murphy. Wee appeared for Wee, and District Attorney Haller for the people. Justice Keppeck at the conclusion of the trial, ordered Wee to jail, ruling on two points. He said that the defendant had wanted a magistrate for issuance of the warrant, and that if the defendant had insisted on a trial at the time, the case against the defendant would have been dismissed. The defendant then remained Wee to jail.

AT BISLEY. Servants Made in Matches Yesterday by Canadians. Hiesley Camp, July 17.—Pte. T. J. Pennington of the 5th Buffs, who scored 38 points in the Association Cup match at 200 yards, and 37 points at 100 yards in the Dominion Express company match at 800 yards with 10 shots. Sgt. T. J. Bayles of the Royal Grenadiers, scored 38 points in the Dominion Express company match at 200 yards, and 37 points at 100 yards. Capt. C. N. Mitchell's team scored 49 points. Capt. C. N. Mitchell's team scored 49 points. Capt. C. N. Mitchell's team scored 49 points.

THE KING'S HEALTH. London, July 17.—Since his removal to Cowes, the progress of the King's health has been so rapid that his physicians have drawn up a more liberal diet for His Majesty. The diet has been ordered to be assembled at Spithead, August 11 for the purpose of a review being held a few days subsequent to the coronation. The date of the review, which was expected to be held at Spithead, has been fixed for August 11. The coronation will be celebrated at His Majesty's health, and the coronation will be celebrated at His Majesty's health, and the coronation will be celebrated at His Majesty's health.

TO CHECK CHOLERA. Manila, July 17.—The municipal government of Manila has decided to remove 40,000 natives from the slums and establish camps in an effort to check the spread of the cholera here.

Opinions of A Capitalist. President of Granby Mining and Smelting Company on the Situation.

Mr. S. H. C. Miner, president of the Granby Mining & Smelting Company, accompanied by the manager, Mr. A. E. Farnham, and Messrs. W. H. Robinson, G. Stevens, C. H. Arnold, and W. A. Mackley, members of the committee, arrived from the Boundary district, where they will inspect the company's properties and collect information to guide them in their future operations. A representative of the Colonist called on Mr. Miner yesterday at his residence. Mr. Miner declined to discuss the probable effect of the Fernie strike in the mining industry, as he had no personal knowledge of the condition of affairs except what he had gleaned from the reports of the local press. He said that the Fernie miners were not in sympathy with the Fernie miners, and that if they were to strike, it would be a disaster to the industry. He said that the Fernie miners were not in sympathy with the Fernie miners, and that if they were to strike, it would be a disaster to the industry.

THE SALMON FLEET. Large Fleet of French Carriers Expected to Cause Lower Rates. Salmon canners are holding back this season in chartering vessels to carry the salmon pack, for up to date, but four vessels of the French fleet, the Cambrian Hills, coming with coal; Aramis, en route from Santa Rosa; Adonis, en route from the coast of Victoria; and Marion Woods, 80 days out from Table Bay, Victoria. The fleet is expected to arrive in Victoria in a few days. The fleet is expected to arrive in Victoria in a few days. The fleet is expected to arrive in Victoria in a few days.

News of the Waterfront. Yesterday Was a Day For Northern Steamers at the Docks.

Portland Passes Out for San Francisco—Sealers Gone to Behring Sea.

The Northern steamers were the centre of attraction on the waterfront yesterday. The Pacific Coast Steamship company, sails North this morning with a fair freight, and the steamer Anzur of the company sailed last night with a fair cargo. The steamer Princess Louise followed the Anzur from the wharf at 11 p.m. with heavy general freight for the canneries and way ports, between Victoria and the Nass. The Cottage City was late in getting under way until this morning, as she sailed from the Outer wharf being at Ketchikan when the Anzur went from here to Vancouver, there being more cargo there to be carried. The Anzur was carrying a large quantity of miscellaneous supplies and merchandise from Eastern provinces. The Anzur carried about one hundred tons of general supplies, including the lead and the usual carrying merchandise from this port, and at Vancouver further. The Anzur was carrying a large quantity of miscellaneous supplies and merchandise from Eastern provinces. The Anzur carried about one hundred tons of general supplies, including the lead and the usual carrying merchandise from this port, and at Vancouver further.

What He Believes is Necessary to Ensure Progress in Province. Mr. S. H. C. Miner, president of the Granby Mining & Smelting Company, accompanied by the manager, Mr. A. E. Farnham, and Messrs. W. H. Robinson, G. Stevens, C. H. Arnold, and W. A. Concentration Of Ores by Oil

Description of the Elmore Process for Which Much is Claimed.

Said That It Would Reduce Cost and Greatly Increase Profits.

The press of the interior has devoted a good deal of space recently to a discussion of the Elmore process of concentration of ores by oil and the probable results of its introduction in the low grade copper mines of the district.

The Vanners, Wilby tables, etc., would not need to be run as close concentrators, but employed merely to yield a large proportion of the mineral in sharp "heads," all middlings, tailings and slimes being passed through the oil.

The oil, having been reduced to a freely flowing pulp, passes directly from the mill into the open end of a horizontal rotating drum, inside of which are fixed a helix with cross blades or buckets, which lift up the pulp to a certain height and drop it again, at the same time propelling it forward to the opposite end of the drum, thus keeping the pulp in constant agitation for several seconds which are occupied in its progress through the drum.

From the top of the pointed box the oil with its load of mineral flows off continuously into a specially constructed centrifugal machine, where the oil is extracted from the mineral which is left in the machine.

The process was first tried in the laboratory, then on a small working scale, and then with a plant erected at the Gladwin mine, Wales, capable of treating about 50 tons of ore per day.

Many mining men of world-wide reputation have expressed their favorable opinion of the Elmore process, amongst them being: J. D. Kennedy, Esq., London; Henry Louis, of the Durban college of South Africa; Daniel C. Griffin, Esq., San Francisco; Daniel C. Griffin, Esq., San Francisco; Daniel C. Griffin, Esq., San Francisco.

Dr. Sir—In reply to your enquiry I have the honor to inform you that my opinion as to the Elmore oil process is that it is a most valuable process, and that it is a most valuable process, and that it is a most valuable process.

(1) The process saves the finest slimes or float mineral, free gold, sulphides or tellurides, etc., which is the chief source of loss in water concentration plants, and will separate such mineral from the slimes in less of less specific gravity than the same it occurs in.

(2) It can be used at any system of wet crushing without classification of material finer than 20-mesh (400 holes per square inch), or can be added to existing concentration mills for the treatment of the slimes which carry off the fines; it is thus specially adapted to the saving of "float losses."

(3) The pulp flows automatically and continuously through the mixers without attention; the oil passes continuously from the surface into the centrifugal machines, and thence—freed from concentrates—into the centrifugal machines, and thence—freed from concentrates—into the centrifugal machines.

(4) The cost of installation is not relatively high for a plant in which the capacity is at least 50 tons per day. The floor space occupied is very small. The cost of operation is very low, and wear and tear is little as any run-of-mine machinery will admit of.

oxidized gold ores in which the metal is so fine as to defy amalgamation have given good results. Average basket yield from the Elmore process, without any previous amalgamation has yielded a high extraction and rich concentrate.

(12) Where an ore is heavily mineralized the adoption of the oil process by no means precludes the employment of water concentration plants, especially where such is already installed.

(13) Where gold occurs both finely disseminated through the quartz or other ore matrix, and also in association with pyrites, tellurides, or refractory minerals, the oil process offers a ready means of treatment.

(14) The readiness with which the finest mineral particles are retained by oil renders possible in many instances the recovery of slimes of values which the concentrating process alone would not have been able to recover.

(15) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(16) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(17) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(18) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(19) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(20) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(21) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

(22) It should be remembered that, as a metallic oxide is not saved by oil, although it may be associated with it, it is not recovered.

The Annual Rifle Meet

Splendid Prize List is Made Up For This Year's Competition.

Large Number of Competitors Will Be Here From All Parts.

As already announced by the issue of the official prize list, the twenty-ninth annual rifle meet of the B. C. Rifle Association will be held at the Clover Point range on Thursday the 31st instant, continuing throughout the two following days.

Competitors will be glad to notice several new features in the prize list, the most important being the service match to be fired under service conditions, as respects range, etc., and the Transvaal Cup match to be contested by the best marksmen of the province.

The firing will begin on Thursday, the 31st July, at 8 a. m., with the extra series of 500 yards, and the following matches will be contested during the meet in the order named:

No. 1—Tyro Match—Five hundred yards, seven shots at 100 yards, restricted to efficient members of the militia, who have not won a prize of \$4.00 at any previous meeting of this or any other provincial, Dominion, or National meeting, and eighteen prizes of \$1.00 each.

No. 2—New Westminster Match—500 yards, 10 shots—Fifty-one cash prizes, value \$139. The first prize in this match is the Challenge Cup presented by the B. C. Rifle Association, and will be won twice in succession.

No. 3—Victoria Corporation Match—500 yards, 10 shots—Fifty-one cash prizes, value \$139. The first prize in this match is the Challenge Cup presented by the B. C. Electric Railway company, and will be won twice in succession.

No. 4—Helmeton Match—200, 500 and 600 yards, 10 shots—Fifty-one cash prizes, value \$168. The first prize in this match is the Challenge Cup presented by the B. C. Electric Railway company, and will be won twice in succession.

No. 5—Vancouver Corporation Match—500 yards, 10 shots—Fifty-one cash prizes, value \$139. The first prize in this match is the Challenge Cup presented by the B. C. Electric Railway company, and will be won twice in succession.

No. 6—Vancouver Bankers' Match—500 yards, 10 shots—Fifty-one cash prizes, value \$139. The first prize in this match is the Challenge Cup presented by the B. C. Electric Railway company, and will be won twice in succession.

No. 7—Grand Aggregate—For the aggregate of scores in matches Nos. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50.

No. 11—Tyro Aggregate—Restricted to members of the militia, who have not won a prize of \$4.00 at any previous meeting of this or any other provincial, Dominion, or National meeting, and eighteen prizes of \$1.00 each.

Soldiers Back From London

Two Members of Coronation Contingent Return and Tell of Their Trip.

Delighted With the Hospitable Treatment Received in the Old Country.

Trooper W. Winkle, who served in South Africa with Strathcona's Horse, and Gunner Smethurst, of the Fifth Regiment, who was a private of the First Canadian Contingent to South Africa, are home from London, where they went as members of the Coronation contingent from this city.

They were also something of a treat to the city, and said the story of a pleasant trip, and the story of a pleasant trip, and the story of a pleasant trip.

Baby's Own Tablets.

When the weather is hot the sands of the little life are apt to glide away before you know it.

You can't watch the little ones too carefully at this period. Dysentery, diarrhoea, cholera infantum and disorders of the stomach are alarmingly frequent during the hot, moist weather of the summer months.

At the first sign of any of these, or any of the other ailments that afflict little ones, give them these Tablets.

A Mother's Praise. Mrs. Herbert Burnham, Smith's Falls, Ont., says: "When my eldest child was six weeks old he had an attack of cholera infantum, and was at death's door. My doctor advised the use of Baby's Own Tablets, and in twenty-four hours baby was better; the vomiting and purging ceased and he regained strength rapidly. I have used the Tablets for other ailments of children since and always with the happiest results. I can sincerely recommend them to mothers as a medicine that should always be kept in the house."

Little ones thrive, are good natured and grow plump and rosy in homes where Baby's Own Tablets are used. Children take them as readily as candy, and crushed to a powder they can be given to the youngest infant with the best of results.

Sold at drug stores or you can get them post paid at 25 cents a box by writing direct to

The Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y.

Victoria's Brighton Beach

Summering on the Sandy Shores of Cordova's Lovely Bay.

Small Colony Now Under Canvas at This Favorite Camping Grounds.

The little colony of campers at Cordova Bay now numbers about two hundred all told, and every day sees additions to the drovers and the quietude of the beautiful beach almost unbroken by the other of that delightful spot.

The campers have recovered from the heat of the summer months, and the weather is now just what is needed for a pleasant stay.
