25TH ANNIVERSARY OF THE I. O. D. E.

Occasion fittingly Celebrated. Community Prayer Meeting Largely Attended—Marriage of Mr. Clarence Allen of St. John to Miss Brenda Wear.

Annapolis Royal.—A quiet, but pretty wedding took place on Friday morning, March 6th, at the home of Mr. and Mrs. William Wear, when their youngest daughter, Winifred Brenda, became the wife of Mr. Clarence Allen of St. John, N. B. The ceremony was performed by Rev. A. Gibson, the bride couple standing beneath a floral arch. The bride looked charming in a gown of sandalwood crepe de chene, and was attended by her niece, Miss Molly Wear, becomingly gowned in Nile green crepe de chene—both carrying bouquets of pink carnations and sweet peas. After the ceremony a buffet luncheon was served, and later the young couple departed for St. John, where they will be the guests of the groom's parents, Mr. and Mrs. Alex. Allen. The bride's travelling suit was brown with hat to match. Many useful and pretty gifts were received in addition to those presented the bride-elect at a recent shower. After their wedding trip, Mr. and Mrs. Allen will reside in Annapolis Royal.

The twenty-fifth anniversary of the founding of the I. O. D. E. was celebrated on Tuesday afternoon at the Academy Assembly room, by Fort Anne Chapter and a beautiful standard presented by Mrs. J. M. Owen, on behalf of the Historical Association of Annapolis Royal, of which she is President. In making the presentation, Mrs. Owen gave a short address telling the history of the flag, and what it means to loyal hearts, after which she formally presented it to the Regent. After expressing the sincere thanks of the Chapter, the Regent passed the standard to the Bear, or Miss Beatrice Herbert, who held it aloft while the anthem was given and the National Anthem sung. A warm tribute of appreciation to Mrs. Owen was given, and a vote of thanks moved by Mrs. W. C. MacPherson, seconded by Mrs. L. D. Shaffer and presented by the Regent, Miss Charlotte Perkins. A pleasant social hour then followed, during which a large birthday cake, made by Mrs. C. A. Ritchie, decorated with twenty-five red, white and blue candles, and a miniature Union Jack, was cut and served, together with cheering cups of tea served by hostesses, Mrs. C. C. King and Mrs. G. B. Hardwick.

Mrs. Jane Cunningham, a life-long resident of Annapolis Royal, passed away at her home on St. George St., on Sunday evening, aged eighty-two years. The deceased was a daughter of the late James and Susan (Spurr) Gray, and married Dr. Arthur B. Cunningham, a well-known dentist, who died over thirty-three years ago. Mrs. Cunningham is survived by two daughters, Mrs. H. W. Taylor of Westmouth, and Miss Susie, at home, two sons, ex-Mayor William R. Cunningham and Charles G. in the United States, one granddaughter, and two grandsons. A sister, Mrs. John Craig of Yarmouth, and a brother, Dr. Charles Gra of Mahone Bay, pre-deceased her some years ago. The funeral was held on Wednesday afternoon at St. Luke's church, with services by Rev. T. C. Mellor, and interment at Woodlawn Cemetery. The pall-bearers were T. M. Buckler, A. G. Herbert, F. W. Harris and Capt. W. J. King. Fully four hundred were present at the Community Prayer Meeting on Friday evening at King's Theatre, at which Rev. Bishop Hackenley, who is making his first official visit to Annapolis, delivered an eloquent address on "Good Citizenship." The clerycorps and massed choirs occupied the front of the church.

BUSY SESSION OF TOWN COUNCIL

Estimates for Year, Improvements to Water System—Ratepayers Meeting Called for March 23rd.

The Town Council met in regular monthly session on Friday evening, Mayor E. A. Hicks, presiding. The following bills were passed: Mrs. E. L. Fisher, Insurance, \$16.50 Weekly Monitor, Printing and Advertising, 23.50 Street Pay Roll, 22.50

The estimates for the year were presented embracing an expenditure of \$24,750, \$17,250 general expenses, \$7,500 schools. The rate was fixed at 4 per cent.

The usual discount on taxes of 3 per cent on those paid before June 1st and 8 per cent interest added on those paid after that date.

The Water Committee are considering the feasibility of conserving the water supply and building up at the lake a dam which will raise the water two feet, estimated cost \$250.

The cleaning of the reservoir at an early date is also recommended.

Capt. W. E. Gesmer appeared on behalf of the Childrens Aid Society and requested a grant of \$150. This was granted and the Poor Committee will work in conjunction with Mr. A. J. Prosser.

It was decided to vote \$25 toward the N. S. Publicity Bureau for advertising provided the towns of Middleton and Annapolis did the same and the Municipality voted sufficient additional to bring the total grant up to at least \$100.

Murray Durling was appointed a constable for the town.

It was resolved to hold at Ratepayer's meeting on Monday, March 23rd, at 8 p.m. in the Town Hall to consider the voting of a sum not to exceed \$2500. for the purchase of the Bridgetown Court House property.

DISTINGUISHED VISITORS HERE

Co-Adjutor Bishop Hackenley and President Moore of King's College Heard at St. James Church

A goodly congregation assembled in St. James church last Wednesday evening, it being the occasion of the first visit to the parish of Dr. Hackenley, since his consecration as Bishop Co-Adjutor of the Diocese of Nova Scotia.

Canon Underwood conducted the service and the Bishop preached a searching sermon from the 17th chapter of St. John's gospel, verse 19.

After the service the congregation adjourned to the schoolroom and there met the Bishop informally.

On Thursday evening a similar service was held in St. Mary's church, Belleisle, the Bishop choosing as his text St. Luke's gospel, chapter 18, verse 41.

Here, too, he met the members of the congregation after the service.

Another outstanding event in the life of St. James church was an informal gathering of the men of the congregation on Tuesday evening to meet the Rev. A. H. Moore, President of the University of King's College, Halifax. President Moore had come to Bridgetown to deliver the last of this season's series of University Extension Lectures, and it was after this lecture that he met the men of St. James church. The outcome of the meeting was the formation of a branch of "King's University League" with Mr. H. LeMoine Ruzgles as President and Mr. John Longmuir as Secretary-Treasurer who with Mr. Allison Fitz-Randolph and Mr. A. F. Hiltz form the Executive Committee.

CENTRELEA.

A number in this village are suffering from the gripe and flu.

We are very pleased to see Mrs. Spurgeon Messenger back again after spending nearly eight weeks in Yarmouth, where she underwent an operation.

We are very sorry to report that Mrs. Calvin Corbett is on the sick list. We wish her a speedy recovery.

We are very glad to report that Mrs. Etta Hicks and Milton Brooks, are slowly recovering from their serious illness.

Miss Muriel Whitman of Bridgetown, spent the week-end with her grandparents, Mr. and Mrs. Edward Messenger.

LAWRENCETOWN PLAYERS GET GOOD RECEPTION LAST WEDNESDAY.

The one big factor in "The Village Lawyer," a four act drama of consistency and comedy, presented by the Lawrencetown Theatre Guild at the Demonstration Building, Wednesday, March 4th, was its wealth in graphic and amusing characters. Not only was the production rich in taste and distinction but it was played exceptionally well and to a capacity house by gifted thespians who are generally conceded to be the most versatile, if not the best, group of amateurs in the Valley.

R. C. Bishop played the role of the lawyer with an air of superb gallantry and in scenes that called for it saturnian diffidence. C. V. Whitman played the hard-hearted country squire, "Conant," with distinction and just the right emphasis at all times.

Gladis Bishop made a delicious picture of the country girl of "Angie" and her scenes of love making with "Alan" Porter as "Alan" did fine in an amusing, colorful and dapper characterization. Hazel Ritchie had a real opportunity to show her abundant resources of fun as the loquacious "Mrs. Dill." The role of "Helen Conant" that Ellen Prince gave us was done with rare charm and displayed the varying emotions of love and hatred with great credit. Charles Merry as "James Ferguson" was physically and in lines a fine and satisfactory achievement. A. H. Whitman as "Sam Dill" gave an able, rich, and humorous bit of broad character acting. Carman Marshall gave a sincere and fun loving impersonation of the typical office boy; while Helen Porter depicted

ed perfectly and with typical dandy accent the colored role of "Lobelia." Georgie Felton embodied the role of "Isabel Underwood" with a tenderness, beauty and pathos that might well be envied by some of the best professionals of the day.

The specialties were well received and added much to the enjoyment of an evening well spent. "Swing Me In The Moonlight," by Carrie Whitman and eight of her sunsweet maidens was as pretty and entertaining a scene as was ever staged in the building. "Don't Mind The Rain" was equally well received. Harry Rackson in a skit impersonation of Harry Lauder had the Lauder laugh, cough and comedy, winning much applause with his songbook. Whitman and Porter in "A Splash of Ink" provided the laugh of the evening in their clever dialogue of farce.

Now that the Lawrencetown Theatre Guild has set the pace by achieving a remarkably fine production let us hope that they will step on the accelerator and give us still more.

—(Com.)

SOME PRINCIPLES OF CITIZENSHIP

Subject Treated in an Eloquent and Comprehensive Manner Here by President Moore of King's University.

The concluding lecture in the University Extension Course here was given Tuesday evening by Pres. A. H. Moore of King's University. The speaker took as his subject, "Some Principles of Citizenship," and treated it in an eloquent manner and highly pleasing to his auditors of whom there was a large number.

President Moore first called attention to importance of our work well directed for the benefit of the youth today who would be our citizens of tomorrow. In them during the period of their physical growth should be implanted the ideals of good citizenship. The building of character was one of the grand purposes and essentials of true education.

He referred to the uplift telling the days of war, the idealism and spirit of co-operation, the willingness to die for Liberty, Truth and Freedom. We had an outstanding realization of citizenship. Has this stayed with us to the same extent as it existed in those days? Hon. David Lloyd George has said that the Post War task is to get a new world. Not to lapse back to materialism and greed. Are we nearer this new world? Do we still feel the uplift of the war-time period with its lofty idealism? Good citizenship is the crowning achievement of social life. The development of character is the great aim and ideal of all teaching. In referring to the question he drew a comparison between the British system of education and that which prevailed in Germany. In the first the ideal was to create an individual of resource and character but in Germany the ideal was to create a super state in which the individual was merely a small cog in a big wheel, the wheel a great Frankenstein monster, the state above moral and religious requirements. President Moore traced the idea of citizenship back to Plato and Aristotle and showed that the fundamentals were not greatly different today from those of early times. He traced the struggle and developments through the feudal period. Citizenship has its finest expression through the franchise which had been won through long centuries of struggle. However, in many elections but a small proportion of voters went to the polls. These who refrained had little regard for the duties and obligations of citizenship. He discussed some remedies suggested such as compulsory voting, or depriving of the privileges of the ballot. These remedies, however, did not seem to meet the situation. In education alone could a solution be found that would work out in the highest interests of the state. He expressed the opinion that if some of the frills of our present school curriculum were cut off and more attention given to civics the result would be found in a more competent and higher type of citizenship. The real fundamentals of citizenship could be found in two words *Rule and Obedy*. The word *rule* placed the emphasis on the voter himself and not upon the government which should be regarded as his servant. When a voter had full consciousness that he was a ruler himself, it would no doubt result in greater thoughtfulness and care in his exercise of the ballot. The word *Obedy* implied that authority was to be respected. Proper training for citizenship began in the home. In British parents still rule their children, in America it is a too general state of affairs that children rule their parents. President Moore deplored the laxity in law observance in America. The great dominant note of British citizenship is to produce sterling character in its men and women.

The speaker concluded with the well known inspiring lines from Kipling, "England's Answer."

Go to your work and be strong, halting not in your ways
Baulking the end half work for an instant dole of praise
Stand to your work and be wise—certain of sword and pen
Who are neither children nor God's, but men in a world of men.

You can't keep gasoline down by stepping on it.

PERSONAL MENTION

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider it a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Mr. K. L. Crowell returned on Sunday morning from Teno where he attended the sessions of the Provincial Command of the G. W. V. A.

Miss Mary Phelan attended the Millinery openings in St. John last week.

Harold Brinton returned Friday from Boston after spending the past seven months in the U. S. A.

Major A. D. Macdonald of Halifax, Divisional Commander of the Salvation Army in Nova Scotia, was in town last week in connection with Army work. While here he was the guest of Mr. and Mrs. H. R. Sabine.

Mr. R. F. Parker of Upper Grandville, left on Monday at the Monitor office a bunch of Mayflowers in full bloom. Another indication of the present abnormal season.

H. Borden Fraser, Assistant Station Agent, at Port Williams, spent the week-end with his parents, Mr. and Mrs. Alex. Fraser at Belleisle.

Guests of Canon and Mrs. Underwood at the Rectory last week were the Rev. A. H. Moore, President of King's College, Halifax, the Right Rev. John Hackenley, D. D., Bishop Co-Adjutor of Nova Scotia, and for the week-end, Mr. W. Cameron, Principal of Torbrook school.

Miss Brenda Troop returned from Boston on Tuesday, where she has been attending the Millinery openings.

Mr. Alex. Fowler of New York is visiting his parents, Mr. and Mrs. F. H. Fowler.

Mr. Edward Walker was the guest for a short time last week of his father, Mr. Alden Walker.

Mr. and Mrs. Gerald Hoyt returned Saturday from a visit with the latter's parents, Mr. and Mrs. Walter H. Golding.

DEEP BROOK.

Mrs. B. C. Clarke, of Bear River, and Miss Charlotta Sulls of Annapolis Royal, spent Thursday with their mother, Mrs. A. G. Sulls, in honor of her birthday.

Frank Adams of Nictaux, was a week-end guest at the home of his parents, Mr. and Mrs. Loren Adams.

The W. M. A. Society held their regular monthly meeting with Mrs. L. E. Sherman. In the absence of the President, Mrs. Robert Spurr conducted an interesting meeting.

A very happy social gathering was held in the Baptist Hall on Tuesday evening, March 3rd, when the officers and teachers of the Sunday School entertained the members of the School and Home Departments. At six o'clock about 40 persons sat down to a well prepared supper, after which the evening was spent in music and music. Paul Vroom received first prize in the bean bag contest, and Nellie Nichols, first prize in a memory test on a collection of miscellaneous articles. The pastor entered heartily into the games and helped very much in making the evening a success.

BEAR RIVER EAST.

Sorry to report Mr. Wallace A. Jefferson very ill. We fear he will not recover.

Miss Annie Ruzgles and sister have returned from U. S. A.

Mr. Daniel Dukeshire and Mr. Frank E. Jefferson were in Annapolis Royal, Saturday.

Mr. and Mrs. Walter Dukeshire and children of Bear River, called on Mr. and Mrs. Arthur Jefferson, Sunday 8th.

Mr. Roy Manser of Victoria, recently visited Mr. and Mrs. Delbert Wagner. Miss Abbie Jefferson has returned to Digby.

REGISTRATION OF THE FOXES

Owners Met James Pritchard and Discuss Matter. Gathering Favorable to Registration and Application Papers Being Prepared.

On Monday afternoon a large number of Fox Breeders from various parts of the County, met here with Mr. James Pritchard, of Summerside, to discuss the question of registration of foxes. Parties registering this year for foundation stock have till June 15th to make their applications and stock is inspected in the Autumn by a Government Inspector. The Fox Breeders at the meeting were unanimous for registration and are getting their application papers in order. Ninety-five per cent of Fox Breeders in Canada from Quebec west have their stock registered and through the East the proportion is rapidly increasing. The demand is for breeding foxes for registered stock and this stock naturally brings the highest prices.

A duty has to be paid on unregistered animals sent to the United States free. From prices received from pelts by local breeders Mr. Pritchard considers that the foxes in this part of the country are of very excellent stock and compare favorably with the best produced anywhere. The guarantee provided purchasers through registration would mean much higher prices for breeding purposes and that of course is the most profitable way in which to dispose of them. Mr. Pritchard discussed points connected with registration very fully with fox owners and left Tuesday for Digby where he takes up these questions with ranchers of that county.

NOTES AND NEWS OF LAWRENCETOWN

Social And Personal Items Which go to Make up Local History.— Reception of Co-Adjutor Bishop Hackenley.

Lawrencetown.—Mr. W. L. Fillmore, sales manager for the Lakeside Nursery Farm, has been a guest at the home of Mr. Gordon Boland, for some days. These young gentlemen were college friends.

Mr. Strong, Bridge Street, has returned to town after a short absence.

Miss B. Slocumb, Outram, has been a guest at the home of Mrs. W. Prince, Mrs. M. Wheelock, is now at home, having spent some time in Wolfville, with her son, Dr. F. Wheelock.

Mrs. McLearn will soon return to town from Wolfville.

Mrs. H. H. Whitman will go to St. John and Montreal to view the spring millinery openings.

Rev. L. Wallace is getting much better, yet rather weak after an attack of flu.

Mrs. W. Daniels, South Lawrencetown, has been ill of la grippe.

Mr. Hunt's family have also been ill of la grippe.

Mrs. I. Wezell is much better.

Mr. and Mrs. W. McKewen are both quite ill.

Mr. and Mrs. C. F. A. Patterson are having a most enjoyable time in Florida.

The Baptist Aid met at the home of Mrs. R. L. Morse.

Methodist S. S. met at the home of Mrs. Miner Daniels.

Methodist F. M. S. met at the home of Mrs. G. Morris.

A reception to Bishop Hackenley was held at the residence of Mr. D. Jefferson. Many went to pay their respects to the distinguished visitor.

A very interesting service was held in the Parish church, attended by a large and interested congregation.

Quite a number of young people will be confirmed at an early date.

The next Chain Tea will be held at the home of Mrs. J. B. Hall.

Mr. R. Stoddard's sale of cattle and farming implements went off well. Quite a number of farms, it is said, will be sold. It seems such a loss to our county.

Mr. and Mrs. Foster will return to town.

The play was a great success. All did so well.

3,761 PHONES IN RURAL NOVA SCOTIA

There are now 297 mutual telephone companies organized and incorporated under the provisions of the Nova Scotia Rural Telephone Act—an increase for the year of seven new companies, according to the report of the Inspector of Rural Telephone Companies, tabled Friday in the Local House.

"There is in operation a pole line mileage of 2,571 miles," says the report, "a double wire mileage of 2,750 miles—an increase for the year of 130 miles pole line and 147 miles of metallic circuit wires.

"There are now approximately 3,761 telephones in the mutual rural companies, an increase for the year of 125 telephones."

The approximate cost of the equipment, including poles and wire, of the companies is given in the report as \$308,000.

"Many of the rural districts in the province are still without telephone service, says the report but a considerable extension is assured for the company year.—(Herald.)

NURSING CLASSES CONCLUDE AFTER PROFITABLE WINTER COURSE.

Classes in nursing very successfully conducted during the winter months by Mrs. Chesley Forsyth and Mrs. Mary Anderson were concluded with Friday evening's session. Some twenty-five ladies joined these classes and were highly pleased with the programmes and instructions given. The local doctors addressed the gatherings on four occasions out of the twelve meetings held.

Dr. Armstrong spoke on Communicable diseases and on bandaging. Dr. Deelman, emergency cases and Dr. Crowe, infant feeding.

At the concluding meeting the work of these ladies who conducted the classes was highly spoken of and each was presented with a year's subscription to The Ladies Home Journal. Dalny refreshments were served at conclusion by the lady instructors.

HORNOBBING WITH TURKEY.

It has been asserted at different times that France concluded a secret treaty with Turkey and this assertion has, we believe, never been successfully denied. To this national com- quetry has been attributed in some quarters at least, a reason why Turkey after the Great War embarked on the wholesale massacre of the Armenian people, one of the foulest series of deeds in the history of modern times. The Turk should have been driven out of Europe long ago and would have been driven out only for the jealousy and dissension of the first class powers. He has been shorn, it is true, of a great deal of his power and influence in Europe, but today he is more powerful there than at the close of the Greco-Turkish war. In Asia he carries on in his own territory with the ruthlessness which has characterized his race down through centuries. Occasionally he meets opposition and latterly from his subjects the Kurds. The complaisance and friendliness of France is shown from the fact that Turkey was allowed to convey troops across French territory to engage in a ruthless war with the Kurds. This permission could have easily and properly been refused and justifiably refused. Turkey had little more right to convey troops across French territory than Germany had the right to invade France through Belgium. The principle differs only in degree. The Turk, a wily diplomat by playing off interests secures and strengthens his own position and is left free to mis- govern and oppress practically at will and it is distinctly to the dis- credit of France that such a state of affairs should continue to exist.

Press Comment

THE ERROR OF FRANCE'S WAYS.

London Daily Chronicle: France is the richest nation on the Continent; she has been, and is, passing through a period of prodigious industrial and commercial prosperity; and while she has shirked paying a penny of debt to Great Britain, she has been pouring out money on inflated armaments, including submarines, aeroplanes and aerodromes, of which Great Britain is the most obvious, if not the only, target. By no possibility can her conduct be squared with the honorable standards which the English-speaking world upholds, and a common friendly effort should be made to induce her to rectify it.

CANADA'S FUTURE.

Singapore Free Press: Canada is one of the justifications of Empire and a century hence, when she will share with America the role of the Great Powers of the Atlantic, she will be able to look back upon her beginnings in the small western island over a record of relationship free from the unhappy stain which blots the pages of Anglo-American history. The day is past when Britain's role is the close guardianship of the several members of the Empire. The young states have grown up they have learned their lessons at Hannania's knees and it is futile to regret that apparently the close community of the family is being broken.

INSANITY AS MURDER PLEA.

Cincinnati Times-Star: It would be

a good thing if it could be made the general rule in America courts that a man or woman acquitted of murder on the ground of insanity be remanded to an asylum for life. No later claim of recovery should be allowed. Much of the talk of insanity in murder trials is obvious bunk. Perhaps it can not be avoided—but at least it ought to be possible for society to make sure that people on the border line of insanity will not have an opportunity to claim more than one victim apiece. And if a life term in an insane asylum came to be recognized as the invariable alternative to electrocution, the present popularity of murder as a comparatively safe pastime would be considerably reduced.

CATTLE ON THE HOOF

Bulawayo Chronicle: At present Canada is the only Dominion which ships store cattle to Britain—that is cattle which the British farmer finishes off for the butcher; but most countries, we understand, can land fat cattle for slaughter at the port. Australia and New Zealand are considered to be outside the "chilling" zone and we do not know if the question of a live cattle trade has been considered at that great distance. There is no doubt, however, that South Africa could handle a trade on the hoof; experiments have already proved successful.

FOREIGN INTERESTS IN MEXICO.

Manchester Guardian: Ever since the days of Diaz, Mexico has been rearing a structure of wealthy civilization on the basis of a miserable proletariat. The contrast has been especially marked because of the inflow of foreign capital attracted by the resources of the country. Thus to natural inaptitude for the routine of Government and to the legacy of Spanish despotism has been added a new difficulty for Mexico in the holding by America of more than a third of her national wealth and three-quarters of her oil wells, and by other Powers of a further proportion. It is, of course, in the interest of these foreigners that Mexican finances should be retrieved from chaos and that order should prevail. But unfortunately the desire of some of the native reformers to catch up on their industrial revolution, by sweeping agrarian changes has conflicted with foreign interests. Whether Calles will survive to handle these complicated problems, and whether if he does so he will try to push a strong Radical programme, are both doubtful conjectures.

NATION AND EVOLUTION.

Sydney Bulletin: The declaration of an English labor leader that "the workers must learn to think internationally" and that "it is necessary to regard the world as one country," has a smooth-sounding appeal. . . . There is nothing more sure than that in a Labor-governed United States of Europe the British working-man would be the first to break into rebellion. Nationality is playing its part in the evolution of the race. As a physical special man's type was determined long ago by the working of natural law; but the mental species is not yet determined, and the law of the survival of the fittest is working as truly in ideas as it once worked in physical form. So the world must rise or fall a nation at a time;

WORKING GIRL'S EXPERIENCE

Read How She Found Help in Lydia E. Pinkham's Vegetable Compound
Amplior, Ontario.—"I must write and tell you my experience with your medicine. I was working at the factory for three years and became so run-down that I used to take weak spells and would be at home at least one day each week. I was treated by the doctors for anemia, but it didn't seem to do me any good. I was told to take a rest, but was unable to, and kept on getting worse. I was troubled mostly with my periods. I would sometimes pass three months, and when it came it would last around two weeks, and I would have such pains at times in my right side that I could hardly walk. I am only 19 years of age and weigh 118 pounds now, and before taking Lydia E. Pinkham's Vegetable Compound, when I had taken a bottle, I felt a change. My mother has been taking it for a different ailment and has found it very satisfactory. I am willing to tell friends about the medicine and to answer letters asking about it."—Miss HAZEL BERNDT, Box 700, Amplior, Ontario.

THE BRITISH IN INDIA.

Washington Post: There has been greater service rendered by man since the invention of the alphabet than to the human attempt to make India a healthier and, every conceivable difficulty has confronted it there in plague, drought, flood, famine, ignorance and superstition, embracing a population of 319,000,000. Into this age-old country which would change not, England has poured billions of dollars for drainage, sanitation, medical attention and education—a worthy record of a great Empire.

NATIONALISM IN SOUTH AFRICA.

Natal Advertiser: We do not say that Canada and Australia respond quite so sensitively as many of us out here to the oscillations of political feeling in Britain. Their sense of nationality is greater than ours; their self-confidence is more manifest; and their oneness with the British ideal is more instinctive. In this country, a great many people are blamed unjustly because they seem, like Dante's demons, to preceive a divided duty when the question of their loyalty is discussed. They want to be good South Africans, but they feel they dare not relinquish touch with their parent country. They feel in their bones that Great Britain is not done with South Africa nor are they finished with Great Britain.

VOCATIONAL EDUCATION.

Cape Argus: In South Africa recent changes in secondary education are mainly a reflection of the dominant feeling that more should be taught at the school age which will be of direct and perceptible value when the time comes for the pupil to earn his livelihood. But it is never an easy matter to foresee the future of any given pupil and there are still some old-fashioned people who look askance at all efforts to impart a vocational bias to school education. They hold that if a boy or girl can learn at school to think clearly and to take pains, the character and details of the particular curriculum employed are of secondary importance. It is nevertheless unwise to depreciate subjects which have a vocational bias since they may be with some pupils effective instruments for obtaining the best intellectual results.

GIVING GERMAN CREDIT.

London Morning Post: Lenders of credit have great responsibilities to discharge towards the country as a whole and especially towards its industries which provide the resources from which these credits are drawn. It is therefore, as we believe is the case, the too easy terms on which Germany is getting credits at the present time are proving a menace to many of our leading industries, an immediate duty rests upon all who control our credit resources to see that these perfectly legitimate operations—under ordinary circumstances—of financing the activities of foreign countries are in no way abused. In other words, competition to lend should not at this juncture result in German industries obtaining loans on terms calculated to aid their competition with our industries—a competition which is already sufficiently severe.

ONTARIO GOVT. ENDORSES STRONGER BEER.

Progressive Leader's Motion Was Defeated by Vote of 51 to 24.
Toronto.—The Ontario Government's proposal for a stronger beer was endorsed in the Legislature when the amendment to the amendment to the address which had been moved by W. E. Raney, Progressive leader, and which opposed stronger beer was defeated 51 to 24. Conservative voting for the Raney amendment were Earl Rowe, South Simcoe, and T. L. Kennedy, of Peel. A number of the Liberals supported the Government against the amendment.
Following this division Hon George Henry, Minister of Public Works, moved an amendment to the Sinclair amendment. The Henry amendment expressed satisfaction in the Government's proposal to maintain the principle of the Ontario Act and at the same time make such changes as would destroy illicit traffic in liquor. This wiped out the amendment moved by W. E. N. Sinclair, Liberal leader which condemned the Government on the claim that the Premier had broken his word by proposing stronger beer.

WILL BE TAKEN OVER BY NEWS COMPANY.

C. N. R. Restaurants to Change Hands.
C. N. R. restaurants in the Maritime Province will be taken over on April 1st and conducted thereafter by the Canada Railway News Company, E. D. Pheland, vice-president of the company said today.
Mr. Pheland, together with Mr. Ing-

PHINNEY COVE.

Mr. and Mrs. Leslie Wallace (nee from Israel) of St. John, N. B., are spending some time at the home of Mrs. Wm. Israel.
Mrs. Frank Chute is with her daughter, Mrs. Lloyd Hudson, at Upper Granville, the occasion being the arrival of a little granddaughter.
Mr. William Cameron of Torbrook, Mr. Roger Flanell, Miss Gladys Durbin, Evelyn and Clair Bent of Beaufort, have been recent visitors to friends here.
Mrs. Wm. Israel was called to Beaufort, a few days ago on account of the sickness of her father, Mr. Alden Bent.
On March 1st, Mrs. Delilah Hand-spiker passed away at the home of her daughter, Mrs. Norman Hamilton, at Hampton in the eighty-second year. She was a resident of Phinney Cove for nearly sixty years, the whole of her married life and part of her widowhood being spent here.
Word has been received here of the death of Mrs. Ellen Chute which occurred at the home of her daughter, Mrs. Charles Jenkins, Oak Lawn, R. I., on Dec. 16th, 1924, in her eighty-second year. Mrs. Ellen Chute was the widow of the late James W. Chute and daughter of the late James Banks of Phinney Cove, and was known by the older residents of the entire community. Three sons and two daughters survive her. Mr. Joseph Banks, whose widow still lives with us, was one of her sons.

GROWING OF SUGAR BEETS IN NOVA SCOTIA.

New Glasgow.—The growing of sugar beet is interesting several Pictou County men at the present time. Messrs D. McDonald, Sylvester, J. W. McDonald, Bailey's Brook, and J. T. Thompson, of Sunny Brae, are working out the idea of the growing of Sugar Beet in Nova Scotia. These gentlemen have interviewed Principal Gunning of the Agricultural College, Truro, and he thinks it a fine idea. The success of Pictou County will be given first seed and directions of how to plant it by the Agriculture Department of Halifax, if they will take up the idea. Should several farmers in each section of the county plant the seed, a test at the end of the season will be made to determine the sugar contents. Later an effort will be made to have the Sugar Beet grow in P. E. I. If 5,000 acres are planted to sugar beets, sugar refinery at some central place will be erected. Pictou is named as a possible town for the refinery.

POTATO GROWERS.

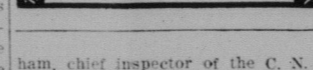

Charlottetown.—The annual meeting of the Prince Edward Island Potato Growers Association, with a membership of over 1,000 is in session here. The annual report of the secretary, J. W. Boutler, showed that up to the first of December 150,000 bushels of seed potatoes had been handled and 170,000 bushels of table stock. Up to the end of February, almost 500,000 bushels had been handled and 104 car loads in February alone. He also reported that the association had saved P. E. I. farmers \$78,000 on fertilizers as a result of the big reduction in price brought about by them.

MITRO-CULTURES AND THE INOCULATION OF LEGUME SEED.

(Experimental Farms Note)
Although occurring to the extent of about 80% in the air, nitrogen is considered the most expensive of the elements of plant food. This is due to the fact that with the exception of the legume family, plants are unable to utilize this atmospheric nitrogen, but must depend upon the supply of that element in the soil. Leguminous plants, however,—alfalfa, clovers, vetches, peas, beans, etc.—are enabled to use the nitrogen of the air through the action of bacteria which exist in the characteristic nodules found on the root system of well developed plants of this group.
These useful bacteria if present in the soil enter the root of the young plant, multiply and develop the swellings or nodules, assimilating nitrogen from the air and passing it on to the plant. The plant's development is stimulated, the nitrogen supply of the soil is conserved or even increased, and benefit is thus felt by a succeeding crop.
For each kind of legume a special variety of bacteria is required whose presence in the soil is necessary. If a particular crop has been growing successfully in a short rotation it may be assumed that nodule bacteria of the right kind are in the soil. Many soils, especially in these districts, are deficient in these bacteria, and in most cases where a legume is being grown for the first time, or after a long lapse of years, it will be of advantage to add bacteria, or in other words, to inoculate.
Inoculation may be effected by taking soil from a field where the same crop has grown successfully and incorporating it with the new land at the rate of 200 lb. or more per acre. This practice is often expensive and is always subject to the danger of introducing weeds, insects and plant diseases.
Another method, much simpler to apply is that of adding a pure culture of the nodule bacteria directly to the legume seed before sowing. This method has been tried for a

COMPARISONS

Diamonds and charcoal are essentially carbon yet their values and usefulness are as far apart as the poles. So it is with Scott's Emulsion.

Many imagine that all oils are similar, but when the usefulness of cod-liver oil is compared with all other fats, the difference in value is as far apart as common charcoal and diamonds.

Scott's Emulsion is cod-liver oil made pleasantly available to build up those who are run-down or weak.

CRITICISING THE PREACHER.

No man has harder people to serve than the minister of the gospel. His critics are many and the criticisms varied. A Texas paper comments as follows:

"The preacher has a great time. If his hair is grey, he is old. If he is a young man, he hasn't had the experience. If he has ten children, he has too many; if he has none, he isn't a good example. If his wife sings in the choir, she is presuming; if she doesn't, she isn't interested in her husband's work. If the preacher reads from notes, he is a bore; if he speaks extemporaneously, he isn't deep enough. If he stays at home in his study, he doesn't mix enough with the people; if he is seen around the streets, he ought to be home getting up a good sermon. If he calls on some poor family, he is playing to the grandstand; if he calls at the home of the wealthy, he is an aristocrat. Whatever he does, someone could have told him to do better."

Canadian Power Defends Chinese Villagers

Now what on earth has power development at Shawinigan Falls got to do with Chinese village life? you ask. The answer is that it helps to protect Mr. Chinaman, Mrs. Chinaman and all the little Chinese men from bandits. Yes it's a long cry from the waters of the St. Maurice Valley to the interior Chinese village, but there you are. And it came about thus. A harassed Chinese head-man driven to desperation and from his native village by bandits from Hong Kong, came down to Shanghai, and down by the dock-

side saw men of his race working by night as if by day on the unloading of one of the giant Canadian Pacific Empress steamships.

What wonderful things were these that could so defy the darkness? Chung Li drew closer, and saw that at intervals along the shed in which the stevedores were working much light came from little cans that glowed softly in the breeze.

Now everyone knows that electric lights are the invention of the devil and were introduced by the white races to burn the eyes of Chinese babies and shorten the life of Chinese men. Therefore, as

STUDY COURSE FOR FARMERS APPRECIATED

Farmers' Association Expresses Hope That Extension Course Will be of Permanent Benefit.

The Farmers' Association of Annapolis County expressed its appreciation for the four weeks of study on a study course which was held at the Agricultural College, University of Nova Scotia, during the past week.

Following the banquet, the ladies and gentlemen repaired to the Demonstration Hall, where the certificates were awarded to the students of the first and second year courses by Dr. J. B. Hall. The following received their certificates:

First Year Students—Robert Longley, Arthur Barbeau, Moody Sanford, P. B. Young, Fred Gardner.

Second Year Students—Capt. B. G. Keene, Capt. A. P. Beatty, Capt. C. Ferguson, Capt. S. O. Monnie, Owen Hunt, Harold Sherkan, Captain Orr, Carl Christensen, Allan Muir, Dorothy Whitman, Mary Balcom, Agnes Dennis, Frances Duncan.

Following the awarding of certificates, Dr. A. H. Moore, President of King's College, Halifax, delivered a lecture on the subject of "Citizenship: Its Privileges, Responsibilities and Challenges."

Referring to the great conflict of 1914-1918 and the splendid idealism that animated the citizens and soldiers of the British Empire, he warned his hearers not to lapse from such ideals of citizenship as then actuated the rank and file of the people. Dr. Moore declared that the challenge of Canadian citizenship was to render unto the State the things that belong to the State, and unto God the things that belong unto God.

Law and liberty go together. Law defines rights and safeguards citizenship. "We must be guided by certain great principles," Dr. Moore continued. First, the citizen must rule, and in the second place the citizen must obey the laws of the land. The people are the governing force, and rule directly by the franchise which is a very sacred responsibility. Only he who has felt the need and value of obedience is in a position to exercise authority. Dr. Moore drew a striking contrast between Great Britain and Canada with regard to the recognition of the authority of the law and obedience thereto, stating that respect for law in the Old Country puts the attitude of the people of this country to shame. This is seen in the home life of the people in the two countries. While the children rule their parents here, in Great Britain the parents still rule their children. Over there they are trained for citizenship in the home. It is impossible to raise the average standard of the school or of the com-

COMMUNITY ABOVE THE STANDARD OF THE HOME

Dr. Cumming, Principal of the Agricultural College, followed Dr. Moore with a brief address setting forth with characteristic optimism the advantages of Nova Scotia. He referred to the high yields of the Bay of Fundy during a four year period.

During a four year period, he said, the average yield of wheat per acre was greater in Nova Scotia than in any other Province of Canada that of Nova Scotia during that period being 19.25 bushels against 11.50 in Saskatchewan. During the same period the average yield per acre of oats in Nova Scotia was 32.50 bushels, against 28 bushels in Saskatchewan. While there had been absolute crop failures in the West, the oldest inhabitant of Nova Scotia does not remember a failure any one year. There had also been six successive years of bumper apple crops in Nova Scotia.

The appreciation of the audience to the speakers of the evening was suitably voiced in a motion made by V. B. Leonard and seconded by Dr. L. R. Morse and expressed by the audience in rounds of applause.

At the meeting of the Farmers' Association of Annapolis County on Friday afternoon the following resolution was unanimously passed:

"Whereas the Government of Nova Scotia through the Department of Agriculture, has followed a forward policy in the development of the agricultural industry of this County in the establishment of the Agricultural Demonstration building, the holding of annual short courses, meetings, demonstrations and experiments, and the establishment of this extension school marks a further step towards the re-vitalization of the rural life of our county;

"Therefore resolved that we, the Annapolis County Farmers' Association, in special convention assembled, desire to place on record our keen appreciation of the efforts of the Department of Agriculture on our behalf; our earnest thanks to the instructors who have taken part in this school and our hope that steps may be taken to place this important work upon a permanent basis."

This resolution was unanimously passed.

Dr. Cumming spoke briefly from the subject, "The Purchase and Use of Fertilizers," strongly advocating the purchase of high grade fertilizers for the best results on the farm.

SHOULD GIVE NATIVE PRODUCT A CHANCE

(Toronto Globe Editorial.)

The "Made-in-Canada" campaign is one in which Canadians may heartily cooperate without regard to their opinions as to the exact height of the tariff wall, or the bearing of the tariff on industry. An out-and-out free trader may also be an enthusiastic Canadian, and a firm believer in the capacity of Canadians to take the front rank in manufacturing industry as well as in any other form of activity.

The importance of the tariff is not to be denied, but the question need not be raised when an appeal is being made to Canadians to buy Canadian goods, and so to increase the volume of business and employment.

There is perhaps some false modesty in regard to the products of Canadian factories. We have not quite outgrown the colonial habit of deference in this respect. The word "imported" still carries with it a suggestion of superiority—so much so that a Canadian manufacturer has been known to put an English or American label on his own products. Canadian woolen goods, excellent in quality, have suffered from this suggestion. Canadians should get rid of this false modesty. They should at least give the native product a chance; ask for it, insist upon getting it, and give the article a fair trial.

Manufacturers might also do more in the way of publicity for their own products. We grant now not only of newspaper advertising, in which we might be suspected of a selfish interest, but of special exhibitions and various other ways of securing Canadian manufactures. There is not the least reason why Canada should not be one of the foremost manufacturing nations in the world. It has the coal, the water powers and other fundamentals of industry. Its people are as ingenious, inventive and enterprising as any in the world. The progress already achieved has been marvellous. The census of 1921 showed a value of \$481,000,000 in manufacturing products. The census of 1922 showed a value of \$2,747,000,000. The Canadian consumer may do a great deal to maintain that progress by giving preference to the products of Canadian factories.

DENOUNCE THE PETERSEN CONTRACT

Western Conservative in Combative Mood.

Ottawa—Conservative attack on the Petersen steamship contract in the Commons, was led by H. H. Stevens, Vancouver, who was minister of trade and commerce in the Melchior administration. Mr. Stevens declared that for Sir Wm. Petersen the agreement was "heads I win, tails you lose." There was no penalty in the contract; Sir William could abandon it whenever he chose. The agreement would with interest cost the country seventeen millions in ten years; if continued for 20 years, the cost with compounded interest would be \$46,000,000. Mr. Stevens thought it would be "infinitely better" to apply the money to debt reduction. He declared the Petersen report prejudiced and unfair. It bore the earmarks of an effusion from a man of narrow and jaundiced mind.

Here Premier King jumped to his feet with an invitation to Mr. Stevens to repeat the statement on a platform where he would not have the protection of parliamentary privilege.

"I shall be glad to waive any protection of parliament in regard to that statement," retorted Mr. Stevens. A. R. McMaster, Liberal, Bromo, who was chairman of the parliamentary committee which investigated ocean freight rates a couple of years ago said that any one reading evidence before that committee would come to the conclusion that there was a combine.

Hon. Edmund Bristol, Conservative, Centre Toronto, though the contract a gold brick for the people of Canada.

Harry Leader, Progressive, of Portage La Prairie, on the other hand, urged that parliament should take immediate action to develop the cattle industry. "We are the victim of a combination of commercial blood suckers," said Mr. Leader.

The contract will be further discussed in the House before reference to special committee.

OPTIMISTIC REPORTS ON CANADA'S MINES

The Mineral Production Last Year Valued at Two Hundred And Ten Million Dollars—Output of Coal in Nova Scotia Shows Big Falling Off.

Ottawa—Optimistic reports of production in Canada's mines featured the 27th annual meeting of the Canadian Institute of Mining and Metallurgy here Wednesday.

Reviewing the Dominion mineral production S. J. Cook, chief of the mining, metallurgical and chemical branch of the Dominion Bureau of Statistics, said that Canada's output of mineral production in 1923 reached a total value of \$209,516,455. This total has only been exceeded in three previous years, 1918, 1922 and 1923.

Primary metals produced in Canada during 1923 reached a total value of \$102,900,000, a advance of more than eighteen million dollars over 1922; non-metallic minerals and structural material showed a lower total value than in the preceding year of \$106,500,000, a loss of twenty-three millions mostly due to the loss in production of coal. Gold production reached a new high level at 1,516,369 fine ounces, valued at \$31,245,941; production from Ontario mines was 1,124,092 ounces. Silver bullion was higher at a total of 20,245,846 ounces, valued at \$13,519,042; more than half the production was from Ontario mines and most of the rest from British Columbia ores.

Nickel production advanced 7.1 million pounds to 69,586,750 pounds. Copper production reached a total of 106,350,750 pounds, or 22.4 per cent above the 86,331,537 pounds produced in 1922. Lead established a new high record at 117,556,076 pounds. Zinc established a new high level of 98,888,667 pounds including 54,880,000 pounds of refined zinc produced at Trail, and 43,906,667 pounds estimated at recoverable from zinc ores exported for treatment. Sales of cobalt and its compounds were well maintained throughout the year but white arsenic dropped off 27.3 per cent in quantity to 4,672,239 pounds and 43.8 per cent in value to \$352,354. Coal showed a disappointing drop of approximately 2.3 million tons and 17.2 million dollars in value to a total of 12.6 million tons valued at \$54,885,229, five per cent less than in 1923.

Production of natural gas indicated a slight gain both in quantity and value. Gypsum sales were 11.5 per cent greater than in the previous year. The quantity of salt sold was greater, but the reported sales value was slightly lower than in 1923 and amounted to \$1,259,616. Cement sales while about the same in quantity as in 1923, declined 1.6 million dollars in value to \$12,445,126. Lime sales were lower at \$3,062,450. Brick, tile, stone, sand and gravel sales were all slightly below the totals for 1923.

Exports of arsenic gold concentrates from Nova Scotia provided the principal item of interest in the mineral production of that province in

Write for FREE BOOK. PRATT FOOD CO. OF CANADA, LTD., TORONTO

1924 according to the report made to the Institute by T. J. Brown, Deputy Minister of Works and Mines in Nova Scotia and President-elect of the Institute for the coming year.

Coal mining contributed 5,557,420 tons valued at \$23,380,810 as compared with 6,957,828 tons produced in 1923 at a value of \$28,170,453. Depression in the iron and steel industries of the Sydney district was very noticeable throughout the year. There was the customary production of salt from the Malagash mine and the output of clay products was considered satisfactory. The gypsum properties were active during the year with the result that the output of this material was considerably increased.

W. E. McMullen of Fredericton presented a brief review of the mining industry in New Brunswick. The coal output reached nearly one million dollars in value and almost half a million dollars worth of gypsum was mined and prepared for market during the year. Gas and crude oil production contributed \$15,000 to the total value and there was a small shipment of manganese valued at upwards of \$4,000. Building stone, lime, clay products, sand and gravel were all produced in considerable quantities.

On behalf of the Engineering Institute of Canada, Dr. R. C. Wallace, President of the Institute, presented the Leonard Gold Medal for 1923 to Dr. W. L. Uglov, of the University of British Columbia, for his paper, "Undiscovered Mines of British Columbia," published last year.

New

CHEVROLET

New value—with its success based on selling quality at low price, Chevrolet now has greater quality than ever before.

New chassis—from radiator to rear axle, new quality features of construction that you would expect to find only on higher priced cars.

New bodies—of even greater beauty and comfort. Open models have many-added refinements. Closed models with fine Fisher Bodies.

New finish—in beautiful colors of the wonderful and enduring Duco that retains its color and lustre indefinitely and withstands severest usage.

Canadian Big Game For Austrian Alps

Here are seen some fine specimens of mountain sheep, photographed near Banff, Alberta. Just a mountain goat giving an idea of the fine gun or camera require these big game animals provide.

A Banff railway station recently a small official gathering bade goodbye to six worthy members of Nature's Own Alpine Club. They had never before been passengers although from their lofty home in the Canadian Pacific Rockies they had watched and heard the trains that day by day shuttle smoothly to and fro on the world's greatest highway. In deed so close to the railway track did they oft times venture that the people in passing trains had the unique pleasure of seeing these hardy mountaineers ascending and descending the cliffs and crags of their native haunts.

For they were the famous "Big Horns," the wild sheep of Canada's great mountain region. Lodged in upholstered crates, accommodated in a roomy Dominion Express car, they were consigned to a large estate high up in the Alps of Austria where they will have liberty to roam in a congenial environment and where, it is hoped, they may in course of time multiply and become as abundant as the flocks that feed on the Alpine meadows near Lake Louise and that wander upon the sunny slopes of Yoho Valley.

Count Hohenloe, an Austrian nobleman, who had travelled in the Rockies and who had seen the wild sheep of that region, believed that given opportunity they would easily

become acclimatized and would thrive well in the highlands of his native country. Anxious to put his theory to the test he entered into negotiations with the Canadian Government and succeeded in securing two rams and four ewes for export to Austria.

In the Canadian Pacific Rockies where "Big Horn" sheep are increasing enormously in numbers there is yet a great plenty of other large game animals. The territory westward of and convenient to Lake Windermere Camp is noted for Grizzly Bear. A comparatively short trail journey northward from Lake Louise brings one into a region where white goats clamber on the cliffs and crags. In the open valleys south of Banff there are many elk and moose a-browsing. Too, out there the Spray Lakes sparkle in the sunshine, the finest troutling water in Nor' West Canada. And whether you hunt with rifle or with camera the sportsman will find trophies worth the winning in this vast and unspoiled land of sportsman's lure.

Extension School at Lawrencetown, while a large number attended the play, "A Village Lawyer" on the 4th.

Fenton Morris has had a telephone installed in his home.

W. P. Fensty is leaving this week for the west to purchase two cars loads of horses.

We are glad to report Miss Eva Freeman improving in health.

T. C. Minard moved his brother from the Hospital in Middleton to his home here on Saturday, where he will recuperate before returning to his home in Queen's Co.

OBITUARY.

Sidney M. Foster.

The late Sidney M. Foster, whose death occurred at his home Bridgetown East, on Wednesday, was born on the old homestead farm just above the Town of Bridgetown. He was at the time of his decease seventy-nine years of age. He was the oldest son of Oliver and Helen Foster, who were pioneer settlers. The other members of the family were Robert and James Foster.

He left surviving to mourn his departure his son, Ernest, who occupies the homestead and Ralph, who is a telegraph operator in the West, also two daughters, Florence, who married Harris Shaw of Windsor and Gladys, who married Percy Webber, now in Halifax.

The funeral services were conducted at the house by Rev. Harland H. Phinney and were very solemn and impressive.

The late Sidney M. Foster married Adella Bishop, daughter of Silas Bishop of Bear River in the County of Annapolis.

He was a highly esteemed citizen of quiet disposition and will be greatly missed by his many friends and relatives for whom he always had a warm welcome.

A number of beautiful wreaths of flowers were contributed by friends and relatives of the deceased.

The remains were interred in the Riverside Cemetery beside those of his wife who predeceased him fifteen years ago.

MELVERN SQUARE.

Miss Esther Baker has gone to take charge of the school at Karsdale, Digby Co.

Miss Hilda Goucher is spending a few weeks with her aunt, Mrs. Richard Hay of Granville.

Mr. Wm. McCurdy, who spent the winter at sea, has returned home, accompanied by his bride, Miss Marguerite Willey of Canada.

Miss Thelma Fitch of Waterville, is the guest of her sister, Mrs. M. Bacon.

Mrs. B. W. Woodbury and son Leon of North Kingston visited her parents Mr. and Mrs. George O'Neil, one day last week.

While entertaining the W. M. A. S. at her home on Wednesday last, Mrs. Boyd Carter was suddenly stricken with paralysis. Dr. Messinger was hastily summoned but up to the present time of writing she is still unconscious.

Mrs. W. Spurr and Betty spent one day last week with her parents, Mr. and Mrs. David Morse, of Middleton.

Mrs. T. Phinney, who has been quite ill, is better, also Mrs. Leah Palmer is much improved in health.

Mrs. Miner Sproule and son Percy were recent visitors of her brother and his wife, Mr. and Mrs. O. P. Goucher of Middleton.

Miss Eleanor Gates has returned home after spending the winter in Yarmouth and Bridgewater.

Mrs. Stuart Dodge spent last week with her parents, Mr. and Mrs. A. D. Gates, of Forest Glade.

NICTAUX.

Hooking mats inside, chopping up wood piles outside and mudd on all sides.

Our school which has been closed the past week, owing to the illness of the teacher, Miss Porter, opened again Monday, March 9th.

Miss Maxine Morse entertained a few friends on Saturday evening.

Mrs. Selma Hatt is visiting in Kingston, at present. After staying a few days there Mrs. Hatt will go to Yarmouth, for a few weeks, where she will be the guest of her niece, Mrs. Brown.

Among those who have been enjoying (?) the Flued uring the past week or so, are Frank Chipman, Mrs. H. J. Munro, Allison Beckwith, Ralph Nelly, Mrs. A. Nelly, Percy Hatt and Margaret Rogers and perhaps many more than your reporter has heard of.

Mrs. S. S. Stevens again entertained the Aid Society on Wednesday, March 4th, serving supper to about 20 ladies at the close of the meeting.

Mrs. Russel Beckwith, who has been very poorly for some time is very much better.

Glad to be able to report Mr. Charles Cotton, who was so dangerously ill with pneumonia at the V. G. Hospital in Halifax, now at home. He was accompanied by his mother who had been in Halifax with her son for some time.

GERMANS REJECT SAILLESS VESSEL. The Union of German Shipowners at their congress at Hamburg Friday, rejected the Plattner rotor ship as of no immediate practical value. Their judgment was based on the record made by the Buckan on its trip to Scotland. The shipowners agreed that there was nothing in the test trip to show that man-power had been saved by the sailless sailing ship.

They concluded that there had been a 30 per cent saving in fuel, but they pointed to the fact that this saving was only one-half percent of the total operating expense. They say on the other hand that the insurance rates for rotor ships would be so much higher as to more than offset even the saving in fuel.

MORE FOR WEST. Bills For Construction of Railway Branch Lines to be Introduced.

Ottawa—Hon. G. P. Graham, Minister of Railways and Canals, informed the House of Commons that bills for Canadian National branch line construction would be introduced by the government this session. The Minister stated that two bills for construction in Saskatchewan would be introduced very shortly. The reason for the introduction of these bills separately from the regular program was that certain money held in trust by the Saskatchewan government for this work had not been voted. The two lines referred to by the Minister, it is understood, are the Turfletford and the Bengough branches.

OVER SIXTY WAYS TO SERVE CHEESE. That Canada will soon take its place with the nations that are the largest consumers of cheese seems assured considering the steady increase in its consumption in the past few years since the Kraft-MacLaren Cheese Company, of Montreal, introduced the five pound boxes. The Kraft Company were the originators of the popular tinfoil-wrapped cheese, without rind or waste, in the five pound wooden box, and while the original product has had many imitators, none have been able to produce a cheese of the same uniform quality and flavor because the Kraft process is protected by patents. The Company does not make cheese, therefore, it is not competing with the cheese factories. But it purchases Canadian cheese in enormous quantities, thus keeping the cheese factories busy and adding to their prosperity and that of the farmers. Kraft Cheese is simply a scientific blending of these manufactured cheeses by means of the patented Kraft process, which absolutely controls the flavor.

The company has just issued a beautiful recipe book showing over 60 different ways in which cheese may be served. Many of the dishes are illustrated in natural colors. A copy may be obtained, free, on writing to the company in Montreal, mentioning this paper.

PRINCEDALE. Mr. John W. Fraser of Watertown, Mass., spent a few days recently with his father Mr. D. A. Fraser.

Mr. Trueman Wright spent the week-end at his home here, returning to Bear River, Monday.

Mrs. Robbins of Bear River East, has been spending a few days with her mother, Mrs. David Fraser.

Mr. and Mrs. B. Poole spent over night, Wednesday, at the home of their daughter, Mrs. Joseph Phinney, Upper Granville.

Mr. and Mrs. Zachus Hall returned home the 6th after spending the winter with their son, Mr. Ancl Hall, New Britain, Conn. They also visited relatives in Lynn, Mass. and Keene N. H.

Mr. Harold Brinton arrived home the 6th after an absence of seven months, spent in Walpole and Roxley, Mass.

B. B. HARDWICK, FORMER MAYOR OF ANNAPOLIS DIES SUNDAY.

A World-wide Traveller he was With James Pyle & Sons, New York For 41 Years.

Annapolis, Md.—Benjamin B. Hardwick, prominent citizen and well known globe traveller, died here Sunday morning, aged seventy-eight. Born at Annapolis Royal, June 4th, he was the only surviving son of the late Andrew Buchanan and Caroline Whitman Hardwick. He married Maria daughter of Edward and Mercy Whitman Hartou, who survives him.

The late Mr. Hardwick was probably Nova Scotia's most widely known commercial traveller. For forty-four years he travelled for James Pyle and Sons, New York, and as the trade ambassador for that firm he encircled the globe several times and sold "Pyle's Pearline" throughout the world. During his life-time he maintained his home in Annapolis Royal, and was seldom away more than a year at a time. He was well known in Halifax, where his sea voyages almost always began and ended. He took a keen interest in public questions and established a unique record for attendance at the opening of the Nova Scotia Legislature, in not missing an opening of the House in thirty-five years.

After giving up his position as commercial traveller, the late Mr. Hardwick devoted much attention to civic affairs in his home town, and in 1921 was elected Mayor. He represented the town at the convention of the union of Municipalities at Halifax in 1921. He was a very ardent Liberal.

MISS PHYLIS STEVENS of Halifax, is visiting her parents, Mr. and Mrs. W. G. Stevens.

Mrs. Alexander Sime's has returned from Smith's Cove.

J. V. DeLaney spent Sunday in Paradise.

Mrs. C. B. DeLaney is spending a few days in Tusket, visited there by the illness of her aunt.

Miss Gladys Whitman, who has been in St. John, for some months, has returned home.

Mr. William Bailey, Jr., who has been with the Barnum survey for some time has returned.

Miss Roberta Isles has returned to her home in Bear River.

Mrs. Vermer DeLaney and baby are visiting at the home of her mother, Mrs. Starratt in Paradise.

Mrs. Isles of Bear River, is at the home of her daughter, Mrs. Norris McGowan.

Mrs. William Wright is visiting in U. S. A.

PRIZE WINNING RECIPE FOR MORNAV SAUCE.

Miss Anita Davis, Montreal, has just been advised of her success in winning first prize in the 1924 Borden Recipe Club Contest. This club, which is international in membership, has such a contest each year, open to all members, of whom there are approximately two hundred thousand. Miss Davis assayed a sauce recipe, the plan of the contest being for each contestant to compete in the classification in which she feels she excels. Her recipe follows:

MORNAV SAUCE—International Prize Winner.

1/2 cup butter
1/2 cup flour
1 teaspoon minced onion
1/2 teaspoon thyme
1/2 bay leaf
1/2 teaspoon salt
1/2 teaspoon white pepper
Dash cayenne
3 egg yolks
1 cup white stock
1 cup Borden's Evaporated Milk
1/4 cup grated Canadian cheese
1/4 cup grated Parmesan cheese

In the top of a double boiler melt one-fourth cup butter; add onion and cook until yellow. Add the flour and stir until smooth. Combine milk and stock; pour gradually into the mixture, beating well with wire whip. Add seasonings and cook slowly for one hour. Strain, reheat, add cheese and let cook until cheese is melted. Cream remaining fourth cup butter. Beat in the egg yolks, gradually, one at a time; add slowly to sauce, mixing well, using care that water in lower part of boiler is not boiling.

This sauce is excellent for all sorts of gratin dishes—crab meat, lobster, also fish, substituting fish stock for the white stock.

Any woman wishing to receive the Borden Recipe Book can write the Borden Company in Montreal, mentioning this paper, and she will be sent a copy free of cost.

FAREWELL LOS ANGELES.

I have Basked in Your Sunshine, I have Revelled in Your Pleasure, I Am Filled With Your Desert Dust, and Your Everlasting Lying.
—Good Bye, California, I Am Going Home.

The following pictures of Los Angeles, the City of the Angels, as given by a disgruntled Canadian from British Columbia, on his return from the brilliant lights of the city in that sun-kissed land:

In a glorious Southern twilight our great ship glides out of the harbor and turns silently seaward bound.

Eastward, the lights and laughter of a city fall away as a glowing mist, revealing in the golden sunset of the Pacific, hills like a silver curtain from the heavens. Far in the West the ocean murmurs and we face the breeze with heads high, filling our lungs with the tang of the sea. We are leaving California.

Good-bye, Los Angeles, I'm going home.

Good-bye, wondrous city of the South, where homes are like the temples of the gods—fit symbols of the deity of wealth. Good-bye, happy hearts with waiting tears, making merry in a world's great playground. Good-bye soft lights, o'er thoughtless dancers in a shrine-like room where hearts go mad. Good-bye, kind friends

with misty eyes waving a silent "bon voyage" from the pier.

Good-bye, California, I'm going home.

I am going away from the heat and desert dust that they call "climate" from blatan boosters—from dens of craft called summer resorts and debauchery called pleasure.

I am sick of hearing stale romance called history—winning coon songs called music—of seeing strange, ill-favored creatures called art, and of reading murder in my heart at the sight of a ten-age girl drinking booze with a toogie.

Good-bye, California, I'm going home.

I want to go to church again where people assemble for worship, and not to attend a performance, I want to go where Sunday is a holy day, not prostituted by amusement pirates. I want to live again where life is sane and kind and true, where "Nature's heart beats strong among the hills"—where God's own door-step is not all cluttered up with signboards, tourist camp litter, flivvers and khaki breeches.

I am leaving a land of breathless haunts, where residents do nothing in the time they save. A land of crowded Sunday theatres and empty churches—a land of pitiful young, godless parents and old-looking children. A land of free divorce, unpunished crime and Hollywood.

I am going to a land of quiet homes, respected laws, and sacred vows—where children have manners and mothers soft voices. Where fruit has flavor, flowers have fragrance and women virtue. Where people transact business in an orderly manner—not wasting half their time in useless haste and the rest—undoing costly errors.

Good-bye, California, I'm going home.

Good-bye to a land of new languages in growth of soft idyllic slang and cross-bred words. A land where politicians have aims instead of principles, whose exaggeration is called humor and people gape in bewilderment at irony.

O California, land of reversed ethics where envy is more to be desired than friendship—where hospitality is a form of robbery—where every human instinct has a dollar mark upon it—I bid you fare you well.

TOWN WILL HAVE NO LIQUOR VENDOR.

Annapolis Royal—The regular monthly meeting of the Town Council was held Wednesday evening in the Council Chamber with Mayor Jamesworth presiding and Councillors Dargie, Whitman, Clayton, How and Livingstone present. The meeting was largely attended by citizens in general, and a denunciation of Jerry men, comprising Rev. W. C. Borden and Rev. A. Gibson, Rev. B. C. Borden and Rev. R. B. Thomas, Granville Ferry, Mr. Gibson, Mr. Thomas and Dr. Borden addressed the council in opposition to the proposed appointment of a liquor vendor, and upon being put to vote, the proposal was turned down by a vote of 2 to 2.

Several other matters of local importance were discussed, special attention being given to the streets. It was decided to close the streets of the town to automobiles for the month of March, and as long as the highways through the Province remain closed.

WOULD HAVE EVERY CHILD TAUGHT TO PLAY, SING AND KNOW MUSIC.

And Have a Musical Instrument of Some Kind in Every Home

Not infrequently of late years have men of high standing come out boldly and publicly declared their devotion to the cause of music. One of the latest examples of this is seen in the case of Hon. James Davis, Secretary of Labor in the United States Government, who is quoted as saying: "I would so develop music in the community that I would have a musical instrument of some kind in every home, and would have every child taught to play, sing and know music. For music makes for better citizenship. It will drive out envy and hate, which do so much to poison the well-springs of life. Wherever people gather together, I would have music, for it brings happiness and contentment." And again: "Twenty minutes given to listening to band, orchestra, soloist, chorus, or in ourselves assisting with the now popular 'sing,' is the best medicine tired nerves can have. We then go back to our duties with a better 'grit,' renewed vigor, brighter outlook, more courage, lighter hearts. And if we are inclined to consider what may be called the merely material phase of the matter which I have referred to—we much more than make up by our increased energy the brief time taken for the music period."

UPPER GRANVILLE.

"Flu" has been quiet prevalent on account of which the school in Chesley Section was closed a few days. The teacher we hear is again on duty.

Miss Grace Horton has secured employment near Boston.

Mrs. Chadwick and granddaughter, Miss Margaret Burges who have spent the past winter with Mr. and Mrs. Gains Elson returned to their home in Manchester, Mass., on Feb. 27th. The recent quake was felt by some in this vicinity, others were quite unaware of aught out of the ordinary. The apparent early "breaking up" and absence of snow has shortened the wood supply materially at time of writing, although cold, it has quite a spring-like aspect even though silvering time is not quite over. We can anticipate with joy the glad spring tide near at hand.

WANT DUTY ON COAL REDUCED.

Representatives of Quebec and Ontario interviewed Federal Minister of Mines.

Ottawa.—A delegation of eight men from various cities in Ontario and Quebec and representing the Canadian Gas Association had an interview Tuesday morning with Hon. Charles Stewart, Minister of Mines, asking for reduction in the duty on bituminous coal for cooking purposes, and that their Association be placed on the same basis as the metallurgical interests who are given a drawback of 95 per cent. on the duty paid. The delegation consisted of J. J. Armstrong and E. G. Jackson, Toronto; Robert Christie, St. Thomas, Ont.; V. S. McIntyre, of Kitchener, and W. D. Euler, Federal member for that city and North Waterloo; A. A. Dion, of the Ottawa Gas Company, and J. L. Landt, Ottawa; C. S. Bagg, Montreal; and A. Wallace, Quebec City. Consideration of their request was promised by the Minister, Mr. Dugg, of Montreal, was the spokesman.

In view of the representations made late last fall by a large delegation from the Maritime Provinces which sought fiscal changes that would make more available in central Canada the soft coal of the Maritime Provinces, the request of gas-penetrating firms in Ontario and Quebec will arouse some question in the Atlantic Provinces, who want the import duty on soft coal raised rather than reduced.

GOOD NEWS FOR RHEUMATIC PEOPLE

New Known That This Trouble Must be Treated Through the Blood.

The most a rheumatic sufferer can hope for in rubbing something on the tender, aching joint is a little relief. No lotion or liniment ever did or ever can do more than this. The rheumatic poison is rooted in the blood. To get rid of it you must treat it through the blood. Any doctor will tell you that this is true. If you want something that will go right to the root of the trouble in the blood, take Dr. Williams' Pink Pills. The whole mission of this medicine is to purify and enrich the blood, and when they do this all blood troubles, including rheumatism, disappear. Among those who have proved the value of Dr. Williams' Pink Pills is Mrs. Annie Wright, Woolchester, Alta., who says: "I was a sufferer from rheumatism for six years, and during most of that time my life was one of misery. I tried several doctors, and many remedies recommended, but never got more than temporary relief. The trouble seemed to affect my whole system and I was badly run down and suffered from headaches as well. Finally I was advised to try Dr. Williams' Pink Pills, and through these I found complete relief and today I feel like a new person. I can therefore strongly recommend Dr. Williams' Pink Pills to anyone suffering as I did from this trouble."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SEES JUST DUE FOR WAR VETERANS.

Major J. Welford MacDonald Gives Notice of Motion in Local House.

Major J. Welford MacDonald, Liberal, Pictou, gave notice of motion in the legislative assembly Wednesday afternoon, on a resolution calling for re-submission to the Senate of Canada that legislation arising out of the investigations of the Halston commission last year which was not assented to by the Senate and for re-organization by federal parliament of "such departments" dealing with re-establishment of ex-service men "as have lost the confidence of the ex-service men and their dependents" and particularly the Board of Pensions commissioners, "and to institute a policy of administration that will give the widest and most liberal and sympathetic interpretation by the various laws and conditions that have been made and those to be made at feeding pensions, civil re-establishment and soldiers' settlement, and thereby assuring to ex-service men and their dependents the treatment that is undoubtedly their due and which the people of Canada desire them to receive." (Halifax Herald.)

19-POUND SALMON CAUGHT IN MEDWAY.

Liverpool.—The Medway River which is famed for its salmon fisheries and for years has been the Mecca for sportsmen from all over the continent, has already produced eight large salmon this season, and four of them weighed 19 pounds each.

BOOTH'S APPEALS FROM INCOME TAXATION.

Ottawa.—Appeal opened before the Supreme Court of Canada in the case of Cecil B. Smith, a Windsor man, who claims that profits he made in bootlegging are not liable to income tax.

Mr. Smith first went to the Exchequer Court on an appeal from an assessment taxing him the sum of \$28,000. The Exchequer Court dismissed his appeal Judge Audette declaring that anyone who sought justice should come with clean hands. Mr. Smith now appeals to the Supreme Court of Canada, taking the ground that income derived from a traffic prohibited by law is not taxable.

REDUCED RATES ON POTATOES.

New Brunswick Will Make Shipments to The Prairie Provinces.

Ottawa.—Dr. J. H. Grisdale, deputy Minister of Agriculture, when addressing the third annual convention of the Canadian Horticultural Council in session here, said the reduction in carload rates on potatoes from New Brunswick to the Prairie Provinces to be made effective by the railroads from the ninth of March until the end of May, was a matter of great importance not only to the New Brunswick shippers, who had a considerable stock to dispose of, but also to consumers in the Prairie Provinces, where the crop last year was below normal.

Addressing the Council in the opening session, the President, P. W. Bishop, of Paradise, N. S., proposed the Council the clearing house for the results of deliberations and conclusions of the various horticultural interests which it represents. He urged upon the delegates that the keenness of competition in the marketing of horticultural products requires the organized efforts of individuals and of the various interests represented in the Council.

The following officers were elected:—

President—L. E. Taylor, Kolowna, B. C.

First Vice-President—E. B. Lake, Montreal.

Second Vice-President—J. E. Carter, Guelph, Ont.

Directors—W. A. Fraser, Trenton, Ont.; W. J. Biggar, Hamilton, Ont.; J. B. Mulrie, Vernon, B. C.; Secretary—Captain L. F. Burrows, Ottawa.

TWO SISTERS ARE BURIED AS THIRD RECOVERS FROM FLU.

Windsor.—The bodies of Misses Isabella and Alice Reynolds, aged sisters who died within twenty-four hours, of flu, at their homes here on Thursday and Friday respectively were interred together in Maplewood cemetery here Saturday afternoon. Rev. C. Patterson-Smythe, Rector of the Anglican church officiated at the funeral services.

Miss Frances Reynolds, a third sister, who is ill with flu, is improving rapidly, according to medical reports, and her recovery is assured.

LIQUOR SEIZURE MADE AT BRIDGEWATER.

Bridgewater.—Oris Frank, local taxi driver, was met at Bridgewater depot at an early hour Saturday morning by Norton Corkum, Collector of Customs, and Chief of Police Rice, and relieved of an apple barrel which he was about to express, containing a 10 gallon keg of rum; also a club bag of choice liquors. His car was seized and he will be charged under the Inland Revenue Act.

Bridgewater has been used as a distributing point for rum lately. About one week ago a shipment labeled "engines" was shipped from here, and seized at Halifax.

FREIGHT RATES ON COAL REDUCED.

Canadian National Announces Cut From Alberta to Ontario Points.

Montreal.—Canadian National Railway headquarters here Saturday issued the following statement:

"Freight traffic officials of the Canadian National Railway have no knowledge of the reported in the rate of Alberta coal from \$12.70 per ton to \$7.00 per ton to Ontario points. A reduction was to take place within a few days, according to a statement of J. D. Grant, a Drumheller mining man. The Ontario Government, in the Speech from the Throne in February 1923, announced that an application would be made to the Railway Commission for a special rate for the carriage of coal to Ontario, and so far as the Railway officials are concerned, this is the only new development in the situation. When this application comes up before the Railway Board, costs of transportation, etc., will be fully gone into."

The thrifty housewife, using Purity Flour, is certain of getting the greatest food and money values.

PURITY FLOUR

More Bread and Better Bread

A WORD TO SUBSCRIBERS.

There is hardly another business in the country that deals with so many individuals as a newspaper, and for that reason it becomes all the more difficult to depart from the strict and fair practice of prompt collection of subscription rates. The reader who pays promptly is helping make his paper a better paper; he is giving encouragement to the whole organization to go and do better work, to provide more complete news service, to discuss with greater point the issues of the day.

The reading public, if they could get the side of the question that the office of publication has to face, would be quick to realize how necessary the paid-up subscription is to the carrying on of newspaper business.

NO 99

W99—500 acres total, 40 acres cultivated, 24 acres marsh, 3 acres orchard, 100 acres pasture, over 2000 cords hard and soft wood, considerable timber, cuts 50 to 60 tons bag, situation good, buildings extra good. This is the best dairy proposition in this part of the country. Offered at a low figure including the Stock, Equipment and household furniture.

This is a good investment, if interested get particulars from

Lloyd's Real Estate Agency

LENTEN MESSAGE FROM THE ARCHBISHOP OF NOVA SCOTIA.

Bishop's Lodge, Halifax, N. S. Feb. 16th, 1923.

To the Members of the Church of England in Nova Scotia and Prince Edward Island.

My Dear Brethren:—

I wonder what effect is made on the average Churchman by the announcement of Lent. In only too many cases it is a thing of little significance and yet for Centuries it has been welcomed and valued by a large number of earnest men and women. To them, the announcement is enough. They heartily undertake to conform to its rules and make use of its privileges. I need not speak to them, except to give a note of warning not to attempt too much but to map out a modest plan which is at once possible and likely to bring the best results and no reaction.

But there are others to whom I wish to send a message. They are not conscious that they need a Lent or any such season of spiritual discipline. They feel that, however it may be with others, their busy life has no time to spare for its observance. They do not recognize in any obligation, such, for example, as that of the Lord's Day, although even that they are beginning to treat as something that must yield to the more pressing demands of the busy life. It is acknowledged that Lent has an age-long history behind it and the experience of the best spiritual leaders in the Church proves its usefulness.

But they have caught somewhat of that spirit of indifference prevalent among a certain number who are too well satisfied with a worldly life. The care and attention demanded by material concerns far outstrip any requirements of the spiritual. The body and mind are ever present. The Spirit is forgotten. The amount of time and money expended on pleasure and business is quite out of proportion to that which men are prepared to give for the service of God. There are those who are not forgetful of moral progress and the call of humanity but who are unwilling to associate this with a profession of Christianity. That to a Hospital or College but refuse which has been such institutions they would never and could not exist. It is the average of the average person consists to a large extent of the average person's work. There was a time when a Christian was recognized by his functions and attributes. This has been changing and respects has not so universal has not only had its effect on Lent but on other seasons of spiritual discipline. They do not so self-examination of their value and in with the comings these can be looked without the appointment when the thoughts are directed to such things as them.

As it is possible to select a genial and balmy unhealthy growth, makes for physical strength; as it has for the promotion taking to build up education an breathes the spirit; so it is by a time and money expended on pleasure and business is quite out of proportion to that which men are prepared to give for the service of God. There are those who are not forgetful of moral progress and the call of humanity but who are unwilling to associate this with a profession of joy and the ground

FOR NEURITIS
ASPIRIN

Proved safe by millions and prescribed by physicians for

- Neuritis Colds
- Neuralgia Headache
- Lumbago Toothache
- Rheumatism Pain

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetide-acetic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LENTEN MESSAGE FROM THE ARCHBISHOP OF NOVA SCOTIA.

Bishop's Lodge, Trillifax, N. S. Feb. 16th, 1925.
To the Members of the Church of England in Nova Scotia and Prince Edward Island.
My Dear Brethren:

I wonder what effect is made on the average Churchman by the announcement of Lent. In only too many cases it is a thing of little significance and yet for Centuries it has been welcomed and valued by a large number of earnest men and women. To them, the announcement is enough. They heartily undertake to conform to its rules and make use of its privileges. I need not speak to them, except to give a note of warning not to attempt too much but to map out a modest plan which is at once possible and likely to bring the best results and no reaction.

But there are others to whom I wish to send a message. They are not conscious that they need a Lent or any such season of spiritual discipline. They feel that, however it may be with others, their busy life has not time to spare for its observance. They do not recognize in it any obligation, such, for example, as that of the Lord's Day, although even that they are beginning to treat as something that may yield to the more pressing demands of the busy life. It is acknowledged that Lent has an age-long history behind it and the experience of the great spiritual leaders in the Church proves its usefulness.

But they have caught somewhat of that spirit of indifference prevalent among a certain number who are too well satisfied with a worldly life. The care and attention demanded by material concerns far outstrip any requirements of the Spiritual. The body and mind are ever present. The Spirit is forgotten. The amount of time and money expended on pleasure and business is quite out of proportion to that which men are prepared to give for the service of God. There are those who are not forgetful of moral progress and the calls of humanity but who are unwilling to associate this with a profession of

Christianity. That is, they will give to a Hospital or a Home or even a College but refuse to support that which has been the inspiration for such institutions and without which they would never have been founded and could not exist. From this it naturally follows that the Christianity of the average person is nominal and consists to a large extent in attendance on certain functions, which do not interfere with what they consider more important, but with no evidence of personal conviction and therefore with no evidence of its existence in personal conversation or personal work.

There was a time when Lent was recognized by withdrawal from social functions and unnecessary entertainments. This has to some extent been changing and respect for Lent is perhaps not so universal as it was. This has not only had an effect which is not for good among the open disbelievers of Lent but it has an indirect effect on those who had always found Lent a helpful convention. They find themselves making excuses for others and allowing the duty and obligation of Lent to be explained away. They do not go so far as to deny that self-examination and self-denial are of great value and essential to the Christian life, but they begin to fall in with the comfortable theory that these can be looked after at any time without the appointment of a Season when the thoughts of all can be directed to such things and fixed upon them.

As it is possible in the natural world to select a place where the genial and balmy atmosphere checks unhealthy growth and develops what makes for physical and mental strength; as it has been found best for the promotion of a public undertaking to build up by preparation and education an atmosphere which breathes the spirit of the undertaking, so it is by a widespread observance of Lent that a spiritual atmosphere may be created and, under its influence, hearts may be drawn and minds inspired by the truth of Christ's teaching and the beauty of His Life, to grasp and cling to that beauty of holiness which is the only basis of joy and the ground of satisfaction.

Leaders in almost every department of the world's activity have been declaring that something more is needed to save the world than commercial acuteness or political astuteness. They acknowledge that what is wanted is a clearer conception of "Spiritual values" than the average man has yet been able to reach. It is such as the case then this case cannot afford to discard an institution destined to foster spirituality and unworldliness. Spirituality has a hard struggle to lift its head above the prevailing materialism and yet it is one thing which can save the world in its present crisis. There is no doubt that there are splendid evidences of an anxious turning of many to enquire more closely into the claims of Christianity to meet the needs of humanity. It is for the Church to supply the means by which these enquiries may be satisfied. That is what the Church tries to do through the medium of Lent. If Lent can be seen to mean a reality in the lives of faithful Churchmen, developing in them more of the true Spirit of Christ and going far deeper than a superficial observance of forms, much may be done to help the wavering and steady the doubting.

I plead, therefore, for a careful and real keeping of the Lent of 1925 and pray that it may lead many to Christ and bring to them that Peace of God which passeth all understanding, keeping their hearts and minds in the Knowledge and Love of God and His Son, Jesus Christ, our Lord.
Faithfully yours,
CLARE L. NOVA SCOTIA.

BONES IN A HERRING.
How many fishermen can tell the number of bones in a herring? There are 371 inside its skin, and if you add the bones of the fin rays outside, the total is 478. Who would have thought it!
The head contains 28, including the eight bony arches which support the gills. The vertebral column consists of 56. The ribs number 21 on each side—42 in all. The upper part of the vertebral column is furnished with 56 bones which spring upwards from the joints, and taper in length towards the tail. The under part of the vertebral column is furnished with 21 bones, which serve downwards, and with the above, form a half circle. Between these and the ribs are 14 other bones, which are forked as they approach the ribs. Then there are, on each side, two other rows; each upper row consists of 21, and each lower row of 56.

NEW EXPRESS RATES ALARM SOUTH SHORE.
Fish Dealers in Liverpool and Lockport See Big Disadvantage in Proposed Changes.
Liverpool.—Report of reduction of express rates on fish in the press on Monday were received by dealers in that industry here with much satisfaction. But finding the reduction applied to car load lots only, changed the aspect of the case. It is asserted that the proposed changes if carried into effect will have a tendency to paralyze the industry here as far as Upper Canadian markets are concerned.
On learning of this reduction in rates your correspondent interviewed some of the leading fish dealers here and in Lockport, to learn how such a concession would affect their business, and elicited the following information: The tone of which is set forth above.
The whole draw back is due to the fact that very few car load lots of fish are shipped from towns along the South Shore to Toronto and Montreal, and consequently the lower rate would not benefit dealers along the shore, but would place them at a greater disadvantage, compared to a city like Halifax, where fish are largely shipped in carload lots.
Dealers in this section argue this is very unfair and discriminatory and will certainly operate to their disadvantage. They cite cases where Halifax dealers, who are already handier to these markets will have the advantage of the new rate which will enable them to land fish in Toronto and Montreal much cheaper than dealers here can do; and that boats on the fishing grounds would be more likely to go to Halifax and sell their fish as the Halifax buyers could pay a somewhat higher price. Numerous other arguments are put forward to show how such a regulation would work to the detriment of the South Shore fishing interests.
The various Boards of Trade and other organizations along the South Shore are interested in the situation and action by them is anticipated.

BREAKING RIVER ICE ROUSES PROTEST.
Lunenburg.—The S. S. Stanley has broken up the ice on the LaHave River to allow one vessel, it is said, to get out to sea, and considerable indignation is reported to have been caused thereby as there is much traffic over the ice at this time of year. Besides there has been considerable smelt fishing, and many people have been making as high as \$10 per day. It is understood that petitions and letters have been forwarded to William Duff, M. P., representing that injustice has been done.

Baby's Own Tablets Always In The House

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else and as long as there are babies in the home you will always find a box of Baby's Own Tablets on hand. Thousands of mothers have become convinced through the actual use of the Tablets that there is nothing to equal them in banishing constipation and indigestion; breaking up colds and simple fevers; expelling worms and promoting that healthful refreshing sleep so necessary to the welfare of little ones. Among the thousands of mothers who praise Baby's Own Tablets is Mrs. Alex. J. Perry, Atlantic N. S., who says:—"I always keep Baby's Own Tablets in the house as I know of no other medicine that can equal them for the minor ills that come to young children." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MEDDLING WITH CANADA'S AFFAIRS.

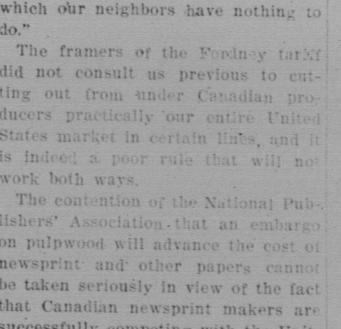

The National Publishers' Association of the U. S. A. is all "hot up" over the oft repeated suggestion in this country that something should be done to either cut off or slow down the export of our pulpwood to the United States. In a word, conserve Canada's natural resources for the use of Canadians, or Americans who wish to take advantage of their opportunities by operating in Canada.

A brief was presented the other day on behalf of the National Publishers' Association to Senator Borah, chairman of the Foreign Relations Committee. The document is interesting. Among other things it accuses us of bad faith. "Under a mask of forest conservation," says the document, "Canadian manufacturers are trying to force the Dominion Government to stop the exportation of pulpwood." Further on the brief states: "They are trying to force the American operators to move their mills into Canada, where the wood would be transformed into pulp for the paper mills here. That accomplished, the next step would be to embargo pulp, thus forcing the Americans to make their paper in Dominion territory under the domination of the Canadian paper industry."

Well, supposing we do all that. A million cords of pulpwood exported brings Canada some \$10,000,000. Made into newsprint this amount of pulpwood is worth approximately \$70,000,000. Is that worth while?
In their brief the National Publishers' Association admit their dependence upon Canadian pulp, and they further state that without Canadian pulp being freely admitted to the United States the employment of some 120,000 workers would be jeopardized. That can be readily adjusted, for they may work up here. That seems a reasonable solution.
Any objection to our looking out for our own interests comes with bad grace from a people who have done everything possible to keep Canadian products out of the United States market. And as they apparently have a great dislike to that word embargo, let us drop it and substitute the word duty—a duty on export. There can be no possible objection to a duty which will preserve our pulpwood for our own people in the same manner as the United States farmer and stockraiser and dairyman are preserving their own market for their own produce by placing an insurmountable duty against Canada.

Of course this is not the first time we have heard of the National Publishers' Association. If we are not mistaken these are the same gentlemen, or was it their colleagues, the members of the American Pulp and Paper Association who employed expensive lawyers to trap around with the Royal Commission re the pulpwood situation a couple of years ago, feeding the members of the Commission such evidence as best suited their purposes, in their attempt to defeat the objects for which the Com-

After all there's no Tea Like Morse's!

WEST TO BREAK WITH U. M. W.
Calgary.—The Western Canada Coal Operators Association, at a meeting here, decided to give notice to the United Mine Workers of America on March 31st, terminating their present agreement on September 30th. Since the resumption of operations in October, after the strike, the coal mining industry of the Province has been badly hit, many mines only working one or two days.

Here and There

The following apt comment on the careless motorist and its ultimate fate comes from the Boston Transcript:
"If a freight train at a crossing
"Hits an auto fair and square
"There's the freight train—Where's the auto?
"Echo answers 'Where?'"

Trees at the rate of 20,000 a day have been planted by farmers in Western Canada during the last 20 years, according to a report of the Federal Department of Agriculture. A total of 150,000,000 young trees, the report shows, has been distributed to farmers in that section in 1905.

Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nations agreement. Exports to that country very nearly doubled during 1924 and at the close of the year Germany was practically in the position of being Canada's third best customer.

A co-operative shipment of poultry to New York City, encouraged and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment consisted of two refrigerator carloads of turkeys and the shippers received 25 cents a pound for their birds, the New York selling price being 41 cents a pound.

Among the interesting books of the season is "Canada's Great Highway," from the First Stake to the Last Spike, by J. H. E. Secretan, C.E., (published by Thorburn and Abbott, Ottawa). Dealing with the early history of the Canadian Pacific Railway, the volume contains many reminiscences of life in construction days as experienced by the author, who was a member of the company's engineering staff.

Sailing from New York on January 14, the "Empress of France," palatial Canadian Pacific steamship, began her "round-the-world" cruise, which is to last 130 days. The vessel was gallily decked with flags and filled with happy passengers eager to enjoy the experience of a lifetime. F. L. Wanklyn and Mrs. Wanklyn, were among those on board. Mr. Wanklyn recently retired from his position as executive assistant of the Canadian Pacific Railway.

Later the solicitor presented his bill for services rendered and received the following reply:
"Dear Sir: I took your advice and placed all of my possessions in my wife's name, and now I have no money to pay for your services."

"William the Conqueror," read the small boy from his history book, "landed in England in 1066 A. D."
"What does A. D. stand for?" inquired the teacher.
"After dark," replied the boy.

A man seeking advice from a young solicitor on how to avoid his creditors was instructed to place all his property in his wife's name.
Later the solicitor presented his bill for services rendered and received the following reply:
"Dear Sir: I took your advice and placed all of my possessions in my wife's name, and now I have no money to pay for your services."

"William the Conqueror," read the small boy from his history book, "landed in England in 1066 A. D."
"What does A. D. stand for?" inquired the teacher.
"After dark," replied the boy.

PARADES

Mrs. Israel Longley a long time and highly esteemed resident of this place passed away Saturday evening, March 7th. The late Mrs. Longley has been an invalid for several years, death came, however, following an attack of influenza. The sympathies of the community are extended to members of the family in their hour of bereavement.

Mrs. Reginald Bishop is now convalescing at the Memorial Hospital, Middleton, where she recently underwent an operation for appendicitis.

In these days of modern medical skill when the need of operations is recognized and in many cases must be as quickly performed, the local hospital is outstanding as a community blessing and benefit. Parades already owe the Memorial Hospital, Middleton, a debt of gratitude that can be not only as the people here are found to be among the faithful and enthusiastic supporters of so worthy an effort to meet so great a public need.

Members of the Women's Institute with their husbands enjoyed a social evening on Thursday, March 5th at the home of Mr. Byron Chesley and Miss Maggie Chesley. A paper on "Institute Work" was given by the President, Mrs. R. S. Leonard. Readings by Miss Eleanor Longley and Mrs. W. S. Smith were presented and followed by music, furnished by Mrs. Ritchie Elliott, Mrs. Ernest Berke and Mrs. Ralph Beard. At the close of the programme a sing song led by Mrs. Cutten was enthusiastically enjoyed by all. Refreshments provided by a committee for which a small charge was made added a grateful contribution to institute funds.

The Women's Missionary Society met Tuesday afternoon, March 3rd at the home of Mrs. H. A. Longley. The subject of study for the meeting was "Armenia, Its People and Their Sufferings." Attention was also directed to recent articles in the Maritime Baptist written under the title "The Betrayal." A third instalment giving further publicity to the Armenian situation and problem is yet to receive publication, we understand. At the close of the above meeting, the annual business session of the Mite Society was held. Officers for the coming year were elected and money on hand was voted to be used for church purposes.

Miss Marion Balcom is enjoying a well earned vacation after a year's training at the New England Baptist Hospital. Following a two weeks rest Miss Balcom will return to the hospital to continue her course of training as a nurse.

Mrs. Charles Eccles and daughter, of Granville Centre, recently spent the week-end with Mrs. Eccles' aunt, Mrs. John Sprone.

Mr. and Mrs. Milton McGill are occupying the Beecher cottage at Paradise Corner. Mrs. McGill as a dressmaker and tailor will be able to meet a long felt need of the women of this place.

Mrs. Hallet Gibson of Halifax recently visited her sister, Mrs. J. C. Philney.

Church Services, March 15th.

11 a.m.—Clarence.
3 p.m.—West Paradise.
7:30 p.m.—Paradise.

IF WE KNEW.

If we knew the woe and heartache waiting for us down the road,
If our lips could taste the wormwood,
If our backs could feel the load,
Would we waste the day in wishing for a time that never can be?
Would we wait with such impatience for our ships to come from sea?
If we knew the baby fingers pressed Against the window pane
Would we cold and stiff tomorrow—never trouble us again—
Would the bright eyes of our darling catch the crown upon our brow?
Would the prints of rosy fingers vex us then as they do now?

Ah! these little ice-cold fingers: how they point our memories back To our baby words and actions strewn along our backward track:
How these little hands remind us, as in snowy grace they lie,
Not to scatter thorns but roses for our reaping by-and-by.

Strange we never prize the music till the sweet-voiced bird has flown;
Strange that summer skies and sunshine never seem one-half so fair As when winter's snow pillows shake their white down in the air.

Lips from which the seal of silence none but God can roll away
Never blossomed in such beauty as adorns the month today;
And sweet words that freight our memory with their beautiful perfume
Come to us in sweeter accents through the portals of the tomb.

Let us rather up the sunbeams lying all around our path,
Let us keep the wheat and roses, casting out the thorns and chaff;
Let us find our sweetest comfort in the blessings of today
With the patient hand removing all the briars from our way.

S. C. HALL.

BABY'S COLDS

Children's delicate digestions are easily disturbed by too much "dosing." Still, the little ones' cold troubles cannot be neglected.

At the very first sign of croup, sore throat, or any other cold trouble, apply Vicks VapoRub over the throat and chest. There is nothing to swallow—you just rub it on. Colds go over night, croup is usually relieved in 15 minutes.

Local Happenings

The ice went out of the Annapolis River last week. This is believed to be about the earliest in record or at least the earliest in a long period of years. It is expected now that the S. S. Valinda will come up from Annapolis this week and go to St. John on Monday next continuing her regular schedule for the season.

At the Women's Institute on Thursday afternoon the chief matter discussed was the possibility of Nova Scotia Institute Convention held here in June.

Arrangements were made for a public meeting to be held at 8:30 p.m. on March 18th at which Miss Helen McDougall, Superintendent of Women's Institutes for the Province will deliver an address.

Chesley school has re-opened again and the teacher, Miss Armstrong, has returned from her home in Middleton.

Inspector Bishop made a descent last week on the home of Mr. Wm. House and secured a barrel of beer about 45 gallons, a keg of the same fluid and a jug with a small portion of spirits. The raid is the first undertaken in Bridgetown in many moons.

OBITUARY.

Arthur Piper.

The death took place at Centuria on Monday of Arthur Piper aged seven weeks, son of Mr. and Mrs. Arthur Piper. Funeral took place Tuesday afternoon 2:30 interment at Centuria Baptist Cemetery.

FATHER JOHN'S MEDICINE
BUILDS NEW STRENGTH
REAL FLESH

PORT WADE.

Ernest McGrath went to Boston last week to stay indefinitely.

Mr. MacNeil our "courier" of last week hits the nail squarely on the head.

The Lincoln Pulp Co. have laid rails to the far end of the pier in order to troll the wood all the way out.

A number of our neighbors shipped apples to St. John last week per S. S. Granville.

Some of the lumbermen of this place continued to haul timber to the Bay Shore although snow about gone.

Progress--

Progress is our motto by gradually adding to our stock.

We have just received the following: Towels and Towelling, Rubber Aprons, Hair-pins, Combs, Barrettes, Princess Pat and Marie Antoinette hair nets, Wash Cloths, Talcum Powder, Tooth Paste and Tooth Brushes.

We also carry a very exclusive line of Writing Tablets, Suede Finish, with envelopes to match.

In general Groceries we have in stock at all times, Molasses, Peas, Beans, Farina, Onions, Rolled Oats, Buckwheat Flour, Biscuits, Cheese, Soap, Tea Sweet Pickles, White and Brown Sugar, Breakfast Bacon, etc., etc.

FRANK OUELLET
LAWRENCETOWN, N. S.

SOME THIN IN 600 MOTOR VEHICLES.

Registered in Nova Scotia Last Year.—Revenue of Provincial Secretary's Department.

Substantial increases in the revenue of the Provincial Secretary's Department were shown by the report of that department tabled in the House of Assembly by Hon. E. H. Armstrong, Provincial Secretary, Friday. There was an increase of \$252,013.29 in the revenue of the office over that of last year. The total revenue for the year was \$1,495,993.40.

Motor vehicles are registered under this department, and the report showed that there were 20,569 cars registered in Nova Scotia last year, an increase of 2,476 over the same period for 1923, and the total registration represents one car to every twenty-five of the population of the province. Registration of cars has more than doubled in the past five years. Since the Act was passed in 1907 there have been 28,843 cars registered in Nova Scotia. The total revenue for motor vehicles in initial and annual registration fees for the last year was \$525,035.50 with an additional \$7,184.10 for chauffeurs.

Of the increase in the cars 2,215 of them were passenger cars, and 291 of them were commercial motors. There are now sixteen routes in the Provinces over which motor carriers are operated and authorized to travel.

The revenue of the Provincial Secretary's department is secured from the incorporation, and registration fees of companies and the provincial revenue tax on various companies, such as insurance companies, banks, public utility companies, railways and incorporated companies in general, and from motor vehicles. There are 1,309 companies registered as doing business in Nova Scotia last year, an increase of 20 over the previous year. There were also nine additional rural telephone companies incorporated during the year.

The departmental revenue showed a very substantial increase over any previous year, and was only a few thousand dollars short of the estimated revenue. The increase was contributed by increases in companies annual registration fees collected of \$52,700.05 and in the increase of motor fees of \$51,575.22; and in the fees of incorporated companies there was an increase of \$47,526.92.

The Departmental revenue has increased more than a million dollars since 1914. In that year the Provincial Secretary's department collected \$114,922.05. There were gradual increases for several years, when in 1921 it jumped for the first time above the million dollar mark, and has now attained almost a million and half dollars toward the revenues of the Province.—(Chronicle.)

ANNAPOLIS SCORES WIN OVER BRIDGETOWN.

Annapolis Royal—Bridgetown went down to defeat here Thursday night when the locals won with a score of 5-0. Although not the usual attendance it was a fast game but rough, with numerous penalties. In the first period, Mahoney scored for Annapolis. Moore in the second, W. Riley, Macintosh and W. Riley in the third. Wilfred Riley for the locals, played an exceptionally fine game, showing wonderful speed and marvelous stick-handling. The line-up:

Bridgetown—Goal, Lockett; H. McKenzie and McMichael, defense; Mack wing; Poole, centre; Lloyd, wing; Todd, sub.

Annapolis—Harris, goal; defence, R. Riley and M. Ritchie; Macintosh, wing; Mahoney, centre; W. Riley, wing; D. Macintosh and Moore subs. Referee—G. MacLeod.

BREAKING RIVER ICE ROUTES PROTEST.

Lunenburg.—The S. S. Stanley has broken up the ice on the LaHave River to allow one vessel to get out, to get out to sea, and considerable indignation is reported to have been caused thereby as there is much traffic over the ice at this time of year. Besides there has been considerable smelt fishing, and many people have been making as high as \$10 per day.

It is understood that petitions and letters have been forwarded to William Durr, M. P., representing that injustice has been done.

No Sale But a Profit.

A farmer entered a hardware-store and exhibited an enormous egg about six inches long, which he declared had been laid by one of his own hens.

The dealer examined it with the rest, and then said: "Bah! I've got something in the egg line that will beat that."

"I'll bet you a dollar you haven't," said the farmer.

"Right!" replied the merchant, and going behind the counter, he brought out a wire egg-beater.

VOL. LII, NO. 51

MOST SUCCESSFUL C.G.I.T. CONVENTION

One Hundred And Seventeen Girls in Attendance—Excellent Addresses by Miss Trotter, Maritime Secretary.—Banquet Served by Girls' Work Board.

A large and important convention of C. G. I. T. girls of the Counties of Kings, Annapolis and Digby, held sessions here on Saturday afternoon, Saturday evening and on Sunday. Including the local girls there were 117 in all in attendance and the Maritime Secretary, Miss Trotter was present and gave helpful addresses and suggestions.

The sessions opened at 1:45 on Saturday afternoon with representation as follows:

Annapolis Royal United church, 4 girls, 1 leader.
Berwick Baptist church, 5 girls, 2 leaders.
Berwick United church, 2 girls, 1 leader.
Clarence Baptist church, 2 girls, 1 leader.
Granville Ferry Community Group, 2 girls, 1 leader.
Kentville Baptist church, 6 girls.
Kentville United church, 7 girls, 2 leaders.
Middleton Anglican church, 1 girl.
Middleton United church, 3 girls, 1 leader.
Wolfville Anglican church, 2 girls, 1 leader.
Weymouth Methodist church, 1 girl, 1 leader.
Bridgetown Anglican church, 17 girls, 2 leaders.
Bridgetown Baptist church, 22 girls, 2 leaders.
Bridgetown United church, 17 girls, 2 leaders.

The Conference opened with a Sing Song led by Miss Trotter with Miss Ina Orlando as pianist. This was followed by election of officers which resulted as follows:

President—Miss Bernice Hardwick, Annapolis.
Secretary—Miss Mary Anthony, Bridgetown.

After election the girls were divided into groups for a discussion period of twenty minutes on the subject, "The Ideals of a Canadian Home." This was followed by reports given from each group. The conclusion was reached that the department of each should be ladylike and behavior above reproach. At school the attitude toward our teachers should be honorable at all times. No cribbing, chewing gum, or using of slang, as it leads to swearing, no partiality in friendships as far as the right kind of girls is concerned. The girls decided that starting out at night and loud talking attracted the attention of the wrong kind of people. In home life to be always too busy and happy to post, but that manners here should be the same as they would be out in company. At church reverent attention should be shown toward the preacher. The code card was discussed and it was considered advisable for each girl to observe the eight points of this code because it helps them to form good habits. Clean sport is uplifting and selfishness degrading. A good loser is better than a selfish winner.

Song 15, "Girls of Canada Were Needed," was rendered followed by a talk by Miss Trotter, "More Stately Mansions." She explained the three degrees of C. G. I. T. groups with the constitution of each. The girls were then divided into four groups for the preparation of stunts.

At six o'clock the girls returned to the Postmaster General's, where a banquet was served.

W. H. Smith, of this town on Monday the Grand Central.
