## ONE CONTINUATION FOR JUSTICE IS EVACUATION

Believe Wilson Will Be Guided by Supreme War Council.

TEXT OF NOTE ARRIVES Will Be Delivered to President at Ten This Morning.

Washington, Oct. 22.—The prevailing belief here tonight is that any action President Wilson may take as a result of the new German note will be largely guided by a decision of the supreme war council in France.

Shrewd diplomatic observers and some officials take the view that no intimation of his own attitude has come from the president, because admittedly the issue is one of military importance. It is a military problem—that of the evacuation of invaded territory by the German armies as the only condition upon which the plea for an armistice even will be given consideration.

The Germans now are evacuating Belgium and northern France as rapidly as they can move before the sweep of the allied and American armies.

Since the government at Berlin says they want to get out without further fighting, apparently the issue is one for the allied war council to determine whether it shall be suggested through President Wilson that Gen. Foch be applied to for terms, or whether without further diplomatic parley the approach of a white flag from the German lines shall be awaited.

Deliver Note Today. The official text of the German note reached the Swiss legation here by cable early today, but it was not delivered at the state department because the entire day was spent at the legation on the tedious task of decoding the document and preparing an English translation of the German text. The translation was made with the greatest care by Frederick Oeder, the Swiss chargé, because there are obscure phrases in the unofficial version received yesterday by wireless which may be construed in an inaccurate rendering of the German.

When the charge's work was done Secretary Lansing had left his office and an engagement was made for delivery of the note at ten o'clock tomorrow morning. This incident in itself was pointed to later as evidence that exchanges between London, Paris and Washington have been proceeding since the arrival of the wireless message and pending the official word from the war council of what the military situation demands, the president is in no hurry to know the exact verbal differences between the official and unofficial texts. There also were reports that any action might wait upon diplomatic conference about the note, but these were of no official confirmation.

Only One Question. Whatever form any further diplomatic exchanges may take, one official pointed out tonight after all there is but one question, "Are the Germans whittled?" If they are whittled, the surrender will come quickly enough, as quickly as the men who say they have superseded the kaiser, and the war lords in power dare let the truth sink home upon the German people. Some diplomats support the theory that they are restrained from revealing the real situation abruptly and taking peace at any price only from fear of more than a political revolution. Notes approaching gradually a final capitulation are being sent to the German public in broken doses and at the same time to take every possible chance of finding a loophole in American and allied harmony with the hope of avoiding ultimately throwing the German nation upon the mercy of its enemies.

Austria-Hungary and Turkey were scarcely mentioned here in today's discussions of the situation, tho it was noted that the present German communication says nothing whatsoever about "in harmony with our allies." It seems that both the allies and Germany regard the lesser central powers as virtually out of the war, tho the forces working within their borders have a little more to do before surrender comes.

Senator Lodge, Republican leader and ranking minority member of the foreign relations committee, issued a statement during the day denouncing the German note as another poorly laid trap and reiterating his opinion that the only way to give the peace by the president "unconditional surrender."

## MAY HAVE A NEW LINE SOUTH OF THE SCHELDT

Germany Evidently Are Going to Attempt to Make a Stand There for a While.

With the Allied Armies in Belgium, Oct. 22.—The enemy appears to be in strength in the angle south of Valenciennes formed by the Scheldt and Escaillon Rivers, probably indicating that he has a defensive line south of the Scheldt on which he is going to attempt to stand for a while. The Journal of the British army says that the German line south of Valenciennes is becoming the peak of the salient being driven in toward the Scheldt by the British.

## BELGIANS GET ACROSS LYS RIVER AND CANAL

Counter-Attacks by Germans to Regain Positions West of Petteghem Have Failed.

Paris, Oct. 22.—The official communication issued by the Belgian commandiers tonight says:

"The enemy sought to maintain his positions on the Lys and the canal from Deynze to the Dutch frontier. He attempted several counter-attacks for the purpose of forcing us back west of Petteghem, which we had occupied today. All these attacks failed with heavy losses. The Belgian army crossed at several points the Canal de Derivation de la Lys.

In their retreat the Germans were compelled to throw two hundred vehicles into the Bruges-Ghent Canal near Miere, west of St. Georges. The French troops have established a bridgehead to the south of Deynze a bridgehead of three kilometers over an extent of four kilometers. Patrols have crossed the canal at the Lys further south to Vive-St. Eloi.

"In the course of these operations, 200 Germans were taken prisoner by the French. "The Second British Army, in spite of considerable resistance from machine guns and artillery, have advanced to the front of 1400 meters (about a mile) between the Lys and the Scheldt and have established a bridgehead on the right bank of the Scheldt east of Pooey."

## AMERICAN HOSPITAL BOMBED BY GERMANS

Biggest Attack Since U. S. Troops Took Up Their Present Positions.

With the American Army Northwest of Verdun, Oct. 22.—In retaliation for the destruction wrought by American bombing planes within the enemy's lines recently German aviators last night raided the American front and back areas in the largest force since the American offensive began in the Meuse and in the Argonne. In addition to attacking the infantry the Germans bombed the region around Clermont, Mont Faucon and Rarecourt.

Fire bombs were dropped near the American hospital in the neighborhood of Rarecourt, one of the bombs tearing down an outbuilding. The glass ends of four former French barracks now used by the Americans were shattered. In addition to the hospital wards, were shattered. A Red Cross nurse, Margery Sawyer of Buffalo, was blown from her bed but was not injured. All the patients were taken to dugouts, none of them being injured. Another Red Cross nurse, Mabel Butler of New Haven, Conn. was in the same building with Miss Sawyer, but was not hurt. Both of them immediately went to the aid of the patients.

When the first bomb fell the hospital attendants gave their first attention to their charges, leading or carrying them to shelter. Rocks thrown up broke the windows in the southern end of the building. Ten other bombs were planted in succession in a great bombardment. Throughout most of the night German planes were heard many times, passing over.

Paris, Oct. 22.—French troops have captured Chalandry and Grandup, two important points on the Czecho-Slovak front fighting with the French recaptured the Village of Terren, which had temporarily fallen into the hands of the enemy.

The statement says: "On the Serre front we again forced the enemy to retreat notwithstanding an obstinate defence by his machine guns. We took Chalandry and Grandup. Our line runs along the Serre as far as Morliens, passes thru the outskirts of Frodmont-Cohalatte and follows, further south, the line of the Canal de Buse.

This morning the Germans twice renewed their attacks east of Vouziers, but were everywhere repulsed. Czecho-Slovak troops, engaged in liaison with our forces, recaptured the Village of Terson (north of Vouziers) which had temporarily fallen into the enemy's hands.

"In Alsace a strong enemy detachment attempted to reach one of our centres of resistance north of Thann, but was driven back.

"On October 21 along the west front and in Flanders our observation squadrons carried out important work of reconnaissance and surveillance behind the enemy's front. Two enemy planes were brought down and a balloon was burst. During the early part of the night our bombing planes dropped 18,800 kilos of projectiles on German railway junctions, and, in particular, on the stations of Longuyon, St. Hene, Hirzon, Vervens Marie, Mont Cornet, Rosoy-sur-Serre, Priest-sur-Serre and Liart. ## RUTHLESSNESS MEANS GREATER HUMANITY

Leader of German Centrists Formerly Expressed Different Ideas to Present Ones.

London, Oct. 22.—It is recalled by The Times correspondent at Bern that the German Centrists, under the leadership of the government formed to convince the outside world of the peace-loving character of this government, in a newspaper article written in February, 1915, expressed sentiments quite contrary to those he is now supposed to entertain. He wrote:

"The greatest ruthlessness is in reality the greatest humanity. If it should be possible to destroy the whole of London that would be humane than to allow one of our fellow countrymen to bleed to death on the battlefield, because such a radical course would lead most speedily to peace.

"England has stolen from us more than 400 merchant ships. The answer to this should be for every German merchantman, one English town or village will be destroyed by our airmen.

The German newspapers are laying great stress on the supposed attitude of Herr Erzberger on the peace question. They refer at length to his plan for a league of nations.

## ENTHUSIASTIC WELCOME TO LILLE DEPUTIES

Take Seats in Chamber After Year and Tell of German Brutalities.

Paris, Oct. 22.—The chamber of deputies today enthusiastically welcomed Deputies Delory and Raghebon, who returned to their seats after a year in the hands of the Germans. Amid an impressive silence, M. Delory said:

"It is impossible to denounce all the German crimes, but the most abominable was the carrying off of women and girls of 19 and 16 by enemy soldiers, their enforced submission to medical examination, and their being obliged to work under French machine gun fire for the Germans."

"The chamber shouted its indignation. One member cried: 'Well, teach our children that. We'll never forget.' Then M. Delory resumed: 'The Lys plain are nothing but an immense area of ruins, with not one house intact. There cannot be a Frenchman who doesn't wish those culpable chastised.' M. ## INSURGENT SAILORS RIOT IN PETROGRAD

Protest Against Conscription Order Issued by the Head of the Commune.

Stockholm, Oct. 22.—Several thousand insurgent sailors stopped the performance at the Marinsky Theatre in Petrograd on October 14, and compelled the orchestra to lead a march to the Smolny Institute, in protest against the order of M. Zinovief, head of the Bolsheviks, to conscript all sailors according to neutral standards here today.

The Bolsheviks organized a resistance to the conscription order and defeated. Many of them later were executed. Street fighting and riots continued for several days as a result of an order to round up the men suspected of promoting the uprising. The sailors have been disaffected since the summary execution in June of Admiral Stokhans, commander of the Baltic fleet, who saved it from capture by the Germans.

Simultaneous with the outbreak in Petrograd there was trouble in Moscow, but its extent is not known. It is attributed to an uprising of the Social Revolutionists.

## Enemy Also is Fighting Furiously to Keep Allies From Outflanking Tournai.

New York, Oct. 22.—The Associated Press tonight issues the following: The fall of Valenciennes to Field Marshal Haig's forces is imminent. Despite the desperate resistance of the Germans, the British have entered the city on the west, while to the north they have made a deep thrust into the great Malmes Forest and are moving in the direction of Conde, near the angle of the Scheldt.

Valenciennes had been in uninterrupted possession from 1877, until the onrush of the Germans early in the present war led them many miles into France. It is now about to be added to the rapidly growing list of towns, the redemption of which has brought rejoicing to the French people.

Progress Slows Up. Although the progress of the allied forces in Belgium and French Flanders has slowed somewhat, the face of the stiffening of the lines of rear-guarding the retreat of the German armies, appreciable gains have been made and some of them of much importance.

Hollain and Bruyelles on the Scheldt, south of Tournai, are now in the hands of the British, and north of Tournai the Village of Froyenne near the Scheldt. There has been sharp fighting for the crossings of this waterway at Pontons-Chini; the Germans are battling hard to keep the allies from outflanking Tournai on the north.

Behind the Scheldt the Germans are massed in strength; their machine guns on the east bank are active, and are receiving the support of artillery and trench mortars.

In the northern battle area the Belgians have reached the Lys Canal. They have captured a bridgehead with numbers of the enemy west of Moerendreeke. An item of great interest appears in the latest announcement by the French war office concerning operations along the Aisne. It says: "The Czecho-Slavs with us retook the Village of Tournai."

ORDER MAY HAVE DIRE RESULTS

President of Trades Congress Gives Views on the "No Strike" Prohibition.

LABOR NOT CONSULTED Considerable Difference Between Voluntary and Enforced Abstention.

Ottawa, Oct. 22.—In connection with a reply made by him to the government's statement made today apropos of the inter-pretation of the order-in-council regarding strikes and lockouts, Tom Moore, president of the Trades Congress, declared that the government's declaration that any heavy action on the part of the government may precipitate deplorable consequences, in view of the temper of even the most moderate-thinking labor men in Canada, at the present time.

Quite a difference. "The official statement does not seem to carry out its purpose of correcting misinterpretation of the recent order-in-council prohibiting strikes and lockouts during war times," said Mr. Moore. "It is a mistake to suppose that there is a great difference between the voluntary co-operation to which labor is invited, and the order-in-council providing that labor should not be allowed to go on strike. Labor does not desire a strike at any time, and the government's statement of today is not in accordance with the facts of the situation."

The statement proceeds to say: "Labor requested in return that it be consulted on important matters relating to the policy of the government in connection with the war. This consultation has been carried out in good faith, as evidenced by the increased number of government officials who have been consulted on this order-in-council." Mr. Moore pointed out that the government's statement is in direct contradiction to the facts of the situation.

KILLED BY FALL. Kitchener, Oct. 22.—While cleaning windows above the crane room at the Canadian Buffalo Force Company's plant this morning, J. Leper, aged 35 years, fell to the floor from a height of 100 feet, and was killed.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

By entering the western suburbs of Valenciennes yesterday, British troops have obtained a foothold on the city which they will not give up until today, if not already, they will have possession of the entire city, thus freeing from the enemy a city which has been under uninterrupted occupation by the French since 1877, until the Germans occupied it in the early onrush of the war. Valenciennes is added to the rapidly growing list of French and Belgian towns redeemed by the allies, who will not cease until Ghent, Brussels, Antwerp and every other French and Belgian town has been delivered, and the Germans have been driven back to the Rhine.

Comment on Germany's answer to Wilson's note shows that many people are of the opinion that Germany is ready to "blow up"—that she cannot make another stand. This, however, may be a mistake. The German army, or the greater portion of it, managed to get away from the advancing allies, and may be preparing a shorter defense line near their own border. Truly they may be retreating to a line nearer the Rhine; but there is no doubt but that they will make another stand. If they can fight on a shorter line with a million men or so, they are bound to be able to stand for a time at least. But while they are standing the allied air men will be flying over the German towns across the Rhine, and will bomb some of these places out of existence, thus giving the Germans a taste of their own medicine. Then they will be ready to quit.

In addition to entering Valenciennes, British troops have taken Molain and Bruvelles, on the Scheldt River, south of Tournai, while north of that place, Procyon has been taken. Germans are fighting hard to keep the British from outflanking Tournai on the south.

French troops have captured Chalandry and Grandpuy, north of Laon, and have been assisted by Czechoslovaks in recapturing the village of Terton, which temporarily had fallen into German hands.

There was comparative quiet on all the battlefronts yesterday. It takes time to bring up big guns, and the allies do not doubt are engaged in that task. In their advance in the morning,

**DEATH RATE IS HIGH; "FLU" STILL RAGES**

**Epidemic Claims One Hundred and Twenty-Seven Victims Yesterday.**

**760 FOR THE MONTH**  
**While Peak Has Not Been Reached, Situation is Improving.**

From the returns received yesterday at the city clerk's office, it would seem as if the "flu" and pneumonia epidemic was still on the increase, altho the medical health authorities think it has now about reached its peak, and with a smoother working system of handling the outbreak, a decrease in the number of deaths may be expected from now on.

So far this month the two diseases have claimed 760 victims, 521 from "flu" and 239 from pneumonia. Of this number, yesterday's toll accounted for 92 from "flu" and 34 from pneumonia, or a total of 127.

Because the medical health officer was able to say yesterday that things seemed to point to the fact that the epidemic had been reached in the "flu" outbreak, it by no means implies that there is any idea of slackening. Dr. Hastings expresses himself as almost afraid to keep everything at the highest degree of efficiency until he is sure that the city has gone over the top in the matter of the epidemic.

At the various centres women are putting on even greater speed. At the women's department of the Ontario Employment Bureau, calls were coming in continuously. Many more are offering to help but still the calls for assistance exceed the help offered by a good many. The hospitals are very anxious for more beds as orders in one hospital they were 20 orders short. Many who took up the work at the beginning had to give up for various reasons. In this way the calls that come into the women's department are not all for women.

**Kitchens Are Busy.**  
The kitchens at the Technical School are among the busiest spots of the city. Here the work is under Miss Margaret Davidson, who is assisted by her staff of domestic science teachers of the Schomberg School, teachers and students from various schools. Hundreds of quarts of soup are being made and sent out. At the Patriotic League, 33 West King street, phone 1760, there is urgent need for cash to carry on the work. Yesterday the Patriotic League was given a check for \$100 by the War Workers' Association of Red Gables. These included 50 from the League Chapter, I.O.D.E. and 122 from St. Simon's Red Cross being a contribution from the Canadian Aviation Club.

The Canadian Aviation Aid Club announced that the busiest spots of the city. Here the work is under Miss Margaret Davidson, who is assisted by her staff of domestic science teachers of the Schomberg School, teachers and students from various schools.

A large class was in attendance at the lectures given at the parliament buildings yesterday. In this connection Miss Knox says that women who have slight home duties can spare only a few hours a day to help relieve the burden in some of the houses where the entire family has been taken down, they will be rendering a service to their country and doing a good work. Anyone who can help might phone Miss Powell, M. 5300.

An instance of the need for help is that of 15 foreigners suffering from the epidemic in an east end district. Supplies were inadequate and there was no one to attend to the poor sick strangers. The auxiliary of the Riverdale C.W.A. is making soups and sending them out by a boy scout. Herculean work is being done by one of the members, Mrs. Billingham, who is a trained nurse and on Sunday alone she cared for 60 people.

Calls sent in to the Margaret Eaton School are sent to the public health nurses on Davenport road. At the Broadview Y.M.C.A. the Women's Auxiliary and the Patriotic League are co-operating. They are making soups, custards and pneumonia jackets and are finding many sad cases upon which to spend their charity. The kitchen at Sherbourne Street Methodist Church is doing its "bit" for the outsiders. Flannellette nightgowns for children between three and seven years and all kinds of bedding are needed by the Neighborhood Workers. Supplies may be sent to Room 409, Ryrie Building, 100 East Beaver street, for urgent cases may be had at the Toronto Red Cross, 92 West King street, open from 9 to 5 each day except Saturdays. The doctors are wanted at all distributing centres.

**DISTRIBUTE LITERATURE.**  
Sixty Boy Scouts were busy yesterday distributing "flu" literature containing information as to the best means of avoiding the disease and instructions as to treatment.

**CONGRESS POSTPONED BY SALVATION ARMY**

The annual congress of the Salvation Army, which was to have been held in Toronto from October 20 to November 4, was indefinitely postponed as soon as it was seen that the influenza epidemic would assume serious proportions.

The Salvation Army has already lost a number of its members thru the epidemic, including Captain Reginald Simco, and Cadet Frances Horsford, the latter having entered the Officers' Training College (Sherbourne street) from Ottawa a few weeks ago. Both died in the Western Hospital. Various other officers and members of the organization are still seriously ill.

**MORE VACCINE SENT TO ONTARIO PROVINCES**

One thousand doses of influenza vaccine were sent to Windsor, Ont., by the provincial board of health yesterday. Five hundred doses of the influenza vaccine were sent to Cornwall, and 250 to Orillia. A total of 1,500 doses of the vaccine were sent to various places in Ontario, as follows: Burks Falls, 48; Barrie, 52; Arnprior, some; Brockville, 80; Brantford, some; Carleton Place, supply for nurses; Cobourg, some; Cornwall, 500; Essex, 100; Fergus, 24; Forestburg, 20; Guelph, 20; Midland, 100; New Liskeard, 10; Orangeville, 15; Orillia, 320; Penetanguishene, 12; Port Hope, 30; Renfrew, 30; St. Catharines, 20; Sprucedale, 15; Timmins, 25; Warkworth, 50; Westport, 20; Windsor, 1000.

Following the manufacturers' meeting, special committees appointed met and advised the disinfecting of all factories, which was carried out. **RELIEF OF SICK AND DESTITUTE**

Neighborhood Workers' Association Has Many Cases of Both Kinds.

**FOOD DEPOTS OPENED**

Fuel Problem is One of the Hardest That They Have to Deal With.

The workers at the central office of the Neighborhood Workers' Association report that the work of assisting those in distress on account of illness is still very heavy and the calls for assistance are increasing rather than diminishing. Every effort is being made to meet requests for assistance in the most direct way.

The Neighborhood Workers' Association is anxious to get in touch with every case of need in the city. Either the central office or one of the branches is prepared to give even the poorest homes of the city, supply every sickroom, arrange for daily deliveries of the most invalids' foods, and, if the breadwinner is ill, arrange for the sustenance of other members of the family.

All that is necessary is that either a member of the afflicted family or a neighbor should telephone Main 3374, Main 3375, Main 6989 or Main 6987—all four lines being in the central office of the association—and report the case, giving, where possible, details as to the aid required.

Opening Up Food Depots. In addition to the 14 depots already reported in operation, three more have been opened and are now co-operating with the N.W.A.: Community Institute—388 Spadina avenue, Coll. 1711; Wesley Methodist Church—Ossington and Dundas street, Telephone Mrs. Bulman, Parkdale 256; Church, Fairbank, cor. Dufferin and Vaughan road.

In addition to these three new stations, another one will be opened today at St. Paul's Presbyterian Church—Bathurst street and Barton avenue, H. 2522.

The Social Service Commission have loaned to the N.W.A. for this crisis the services of two of their trained nurses, Miss Barclay and Miss Rathburn.

The total cash subscriptions which have been paid to the central office to date total \$2248. The Neighborhood Workers' Association regrets that it is not possible at the present time to publish a list of donors thru the medium of the press.

Supplies of blankets, quilts, comforters, pneumonia facemasks and necessary articles for the sick-room, are still coming in. As the calls increase still larger quantities of supplies of every kind will be needed. With a view to systematizing the work of relief and preventing overlapping and confusion, the central office of the N.W.A. is now acting as a clearing house for all cases attended to thru the various food depots for "flu" patients. Each depot is furnishing lists to the central office, weekly, of all calls met. When these are checked up and indexed any duplication becomes evident at once.

This present crisis reveals the necessity for unity in social effort. The Neighborhood Workers' Association, which has been the purpose of bringing together the social work and workers of the city, is one of the units of the federation for community service now being rapidly organized by the Rotary Club and a social workers' committee to meet just such community emergencies.

The workers here report that 113 families were supplied during the day, also six other centres of the Neighborhood Workers' Association, and two hospital centres.

Typical Cases Assisted. The provincial board of health reported cases in the father and two children were ill with influenza. The mother, with a two-week-old baby, was unable to leave the house to get supplies or to wait on the family. The house was without food or fuel, and both these needs were urgent.

An Italian family on Hayter street, consisting of the mother, father and seven children, are all ill with influenza. Also a border in the house. Arrangements have been made to have this family supplied regularly with necessities for the purpose of bringing them up to date. The father, who is supervising the care of the patients, has taken care of themselves again. Bed linen and other supplies were also sent in, and a public health nurse is supervising the care of the patients. A case where personal service was required was that of a family—two adults and five children—all ill in bed. There was no one in the house to prepare food for them, and, on account of the length of the illness, their supply of fresh food had been exhausted, and they were unable to get anyone to do the washing. To meet this particular case fresh bedding was sent and arrangements made to have soup, custards and other food supplied to them regularly. One case brought to their attention last night was that of a mother and two children seriously ill, and only the father in attendance. The family were in a position to pay for a nurse, but unable to secure nursing help from any source. The N.W.A. in securing nursing aid for families in districts just outside the city limits, where the cost of outside nursing is inaugurated, on the 15th brought to their attention last night was that of a mother and two children seriously ill, and only the father in attendance. LUMBERJACKS WON  
FORESTRY CONTESTS

Canadians Victors in Four Out of  
Five Competitions in  
England.

Canadian Associated Press.  
London, Oct. 22.—Novel features were  
introduced when forestry troops from  
Canada, Australia, New Zealand and  
Great Britain held an athletic and field  
day "somewhere in the distance." The  
were 37 companies represented, 12 of  
the Canadian Forestry Corps. The  
contests in cross-cut sawing, log loading,  
the falling and log rolling on land and  
in water, in which the Canadians won  
four of the five contests.  
In the cross-cut sawing two experi-  
enced lumberjacks who formerly worked  
in the neighborhood of the Ottawa River  
finished the job in 20 seconds. The  
second and third prizes were won by  
men from two other Canadian com-  
panies. Speed and readiness were the  
qualifications required in the log-loading.  
Three Canadian units were winners, the  
first doing the job in 5 minutes and 20  
seconds.  
A French-Canadian won the log-roll-  
ing in water easily. He was an experi-  
enced river driver from lower Quebec,  
he quickly put most of his oppo-  
nents out of the log into the water.  
The second prize winner was a British Colum-  
bian. Three Canadians won the log-  
rolling on land.

BASE HOSPITAL  
NOT FIT PLACE  
Statement of Fire Chief at  
Inquest Held Last  
Night.

DEATH OF AN AVIATOR  
Probe Circumstances Sur-  
rounding the Case of Cadet  
T. Davidson.

That the Toronto base hospital in  
its present state is not fit for use as a  
hospital was the statement made by  
W. J. Smith, chief of the fire de-  
partment, at the inquest into the cir-  
cumstances surrounding the death of  
Cadet T. Davidson, who died as a re-  
sult of Spanish influenza on Oct. 18.  
It was first thought that the inquest  
would have to be adjourned on ac-  
count of the order against holding  
meetings, but as Col. R. H. Greer,  
crown attorney, explained, the in-  
quiry was to help the existing condi-  
tions, it was continued. The arrival  
of Mr. Hastings, M.P., later seemed  
to justify the action.  
Fire Chief Smith, who was the first  
witness called, stated that he had  
examined the fire appliances on two  
or three occasions, and found that  
with some minor repairs they were  
correct.  
One fault he found, and which had  
since been corrected, was that there  
was not a duplicate lighting system  
in the building. The city bylaw re-  
quired that all such public buildings  
should have this double system in  
case of fire, when the danger aris-  
ing from the use of lights going out  
of business was minimized by the use  
of the other set.  
In company with the city architect,  
he had examined the building and had  
found the inmates well versed as to  
their fire drill. There was fire drill  
every month and sometimes more.  
In answer to a question, the chief  
stated that he had always found the  
hospital authorities very willing to  
comply with the city bylaws. The  
type of building used at the hospital  
was not now in general use, and the  
roof made it a very poor fire risk.  
To Colonel McCollum, chief Smith  
said: "If I heard that there was a  
fire there tomorrow I would feel very  
uneasy. If there were 1000 bed-rif-  
ed patients in the hospital, there  
might be a heavy loss of life."  
Checked by Lieut.-Col. J. A. Mac-  
donald, M.P., Smith said that the  
military authorities of military  
district No. 2, as to whether there  
were any improvements which he had  
suggested that had not been ac-  
cepted, the witness said the only pos-  
sible improvement which he could  
suggest now was the installation of an  
sprinkler system, which would in all  
likelihood be done.  
Major Riley, of the C.A.M.C., senior  
medical officer of the R.A.F., in a  
District No. 2, when asked for  
what reason the R.A.F. sick were sent  
to the Base Hospital, said that it was  
a part of the agreement between the  
imperial and the Canadian authorities.  
"Tent at Long Branch."  
At Long Branch, N.S., where  
Cadet Davidson came, there had been  
only a tent hospital with which to  
attend cases of illness at the camp.  
The instructions were that all men  
with a temperature should be sent  
to the Base Hospital. In the last few  
weeks the R.A.F. had sent approxi-  
mately 1400 men to the hospital suffer-  
ing from Spanish influenza.  
To make room for patients at the  
Base Hospital, about 50 cadets were  
taken from the hospital in a convales-  
cent state and sent to Burwash Hall.  
He did not hear of any releases at  
Burwash Hall.  
The witness said that all men for  
these men by moving a large number  
of cadets into tents and supplying  
them with oil stoves.  
He was perfectly satisfied with the  
treatment accorded to the men at the  
base, which was entirely under the  
control of the C.A.M.C. and public  
health officers.  
Asked as to the capacity of the  
hospital, Major Riley stated that in  
peace time he has seen the hospital  
with 600 patients in treatment.  
About 800 would be the maximum of  
accommodation at any time.  
He did not think there was over-  
crowding at the Base, when remem-  
bering the fact that 300 men were taken  
from there to make room for other  
patients. He stated that those men  
were simply taken away to relieve the  
pressure at the Base.  
Tents Most Healthy.  
Nothing was done by the C.A.M.C.  
to prepare for the epidemic by taking  
over extra space which might be  
utilized as hospitals. In the matter of  
letting men to sleep in tents witness  
said that there were less cases of  
sickness among the men who slept in  
tents than those who slept in barracks  
by over 50 per cent.  
He did not see any reason against  
using the Base Hospital for influenza  
patients. The men were kept segre-  
gated. He did not know of any being  
taken from the hospital in a convales-  
cent state and sent to the Base to act  
as undertakers' assistants.  
In reference to the existing condi-  
tion of the Base, the witness stated that  
a letter from the United States say-  
ing that when patients were given a  
drastic open-air treatment the mor-  
tality was reduced from 40 to 13 per  
cent. He would call this epidemic a  
contagious disease, and did not think  
that the military authorities were con-  
sidering the city bylaw by using the  
base as a hospital for these cases.  
In reference to the existing condi-  
tion against public meetings, it was decided  
to cut all the sittings short, and the  
enquiry will be resumed this evening.

stores building is expected to be com-  
pleted within the next two weeks.  
About 200 men are employed on the  
various structures. The workmen  
have escaped remarkably from the  
prevailing epidemic, only a few cases  
having been reported.

BRITISH CAPTURE  
MANY BIG GUNS

One Used to Bombard Dun-  
kirk is Among the  
Trophies.

London, Oct. 22.—Allied forces  
which have swept the Germans out of  
Belgian Flanders captured the big 15-  
inch cannon with which the Germans  
were bombarding Dunkirk during the  
past year. The gun was un-  
damaged, according to an official  
statement issued at the war office.  
The statement reads:  
"The group of armies commanded  
by the King of Belgium has main-  
tained its pressure along the whole  
front."  
In their hurried retreat before the  
Belgian army the Germans were forced  
to abandon all their coast defence  
guns, of which a number were intact.  
The big 35-centimetre gun at Le Un-  
ghuobom (three miles south of Ghis-  
telles), which was fired up to the last  
minute, and the 15-inch gun at Dun-  
kirk, were also captured undamaged.  
"French detachments which crossed  
the Lys have repulsed a violent en-  
emy counter-attack and succeeded in  
improving their bridgeheads east of  
the river."  
The second British army is on the  
bank of the Escaut from Baillet to  
Heldrin. In spite of enemy resist-  
ance it has advanced more than 1500  
yards between the Escaut and the  
Lys.

An urgent appeal for comforts for  
Belgian soldiers has been received. It  
should be remembered that these men do  
not receive parcels from home, as do our  
own soldiers. The occupation of Belgium  
by the enemy prevents all communication  
between the men in the trenches and  
their families. Think of this when mak-  
ing up Christmas parcels and send con-  
tributions of socks, chocolate, etc. to 35  
West King street.

now famous Chicago-Detroit team  
 the scoring record for a single  
 game was established. This ex-  
 treme in professional baseball came  
 in a game of the contest between  
 Detroit's hard-hitting White Stock-  
 ings and the Detroit, then in the  
 National League.

teen White Stockings made the  
 of the bases during the lucky-  
 0-seventh inning, and 14 men  
 to bat during that time. The final  
 of the game was 28 to 6, in favor  
 of the White Stockings. The  
 Detroit pitcher who figured in the  
 game was well, never mind who he  
 for one thing, let's have a heart-  
 popularity of baseball among the  
 nations abroad is spreading so  
 that there is already a demand  
 for professional baseball games in  
 many foreign countries. These  
 requirements several, and  
 authorities are collaborating in  
 preparation of a baseball primer,  
 will be distributed in various parts  
 of Europe. The pamphlet, which  
 is printed in French, Italian, and  
 Spanish, will carry the rules of  
 the game in the simplest form. In  
 addition, there will be pages of explana-  
 tions of the various rules which  
 those who are playing their first  
 game will find of great value.  
 These questions and answers  
 pamphlet will be printed in English and  
 other languages in parallel columns

 spectators meet, without being  
 able to speak the language of their oppo-  
 sition, they can understand each other  
 as a medium of communication at  
 a glance. A glossary of technical and base-  
 ball terms in all languages is also to be

**GALLANT ACTIONS  
 BY CANADIANS**

Captain of Western Ontario  
Battalion Showed Great  
Pluck and Judgment.

**OUTFLANKED POSITION**  
Captain of Toronto Battalion  
Enabled Advance to Be  
Resumed.

By J. F. B. Livesay.  
 With the Canadian Forces in France,  
 Oct. 21--Here are more bright deeds of  
 Canadian soldiers, whose high clear  
 notes will ring in every Canadian heart.  
 One of the hardest initial tasks of the  
 opening phase of the battle of Cambrai  
 was the crossing of the Canal du  
 Nord by the Canadian First Division,  
 which then turned due north as well as  
 east, thus cleaning up the east bank  
 and capturing the strongholds of Sane-  
 Marquain and Marquain from the  
 flank and rear. In this operation the  
 attacking brigade was assigned the  
 extremely difficult task of passing over  
 the canal on a narrow front of a quarter  
 of a mile, thereafter fanning out to  
 a front of over three miles.

While very gallant officers com-  
 manded three battalions in the attack,  
 they were only seconds in command,  
 with no previous experience in battle  
 commands. This greatly increased the  
 responsibilities of the brigadier, who  
 therefore kept in closest touch thru-  
 out the crossing of the canal.

Shortly after zero, under a heavy  
 fire, while the enemy still held part of  
 the left bank, entirely regardless of  
 personal danger, he spent the whole  
 day in the vicinity of the attacking  
 battalions, ably directing and dealing  
 with the difficult situations as they  
 arose. Through his displayed com-  
 mander's gallantry, splendid initiative  
 and outstanding leadership during the  
 battle of Cambrai.

**Observed His Men On.**  
 While leading his company, the cap-  
 tain of a western Ontario battalion  
 found that owing to darkness the men  
 were pushing ahead of their objective  
 into our own barrage. Rummaging for-  
 ward under heavy machine gun fire,  
 he checked and organized the men. In  
 the subsequent advance the company  
 suffered heavy casualties, the captain  
 being severely wounded in the arm.  
 With indomitable spirit and by almost  
 supernatural effort he forced his way  
 forward, cheering and inspiring the  
 men until again hit. Still he pressed  
 on, his third and final wound in his  
 third and fatal wound.

In the attack on Bourlon Wood, an  
 acting captain of the left support of  
 a Toronto battalion found the ad-  
 vance held up by machine gun fire  
 from a railway embankment. He  
 rushed up two platoons, outflanked the  
 position and captured it, enabling the  
 advance to be resumed.

**B'Well and Rheumatoid  
Surely Saved My Life**

October 10th, 1913.  
 I received a telephone call from Mr.  
 Borrowman on October 10th. He had  
 just read by advertisement in The  
 Evening Telegram, and he wanted to  
 know if I was open. It was 10 p.m.  
 I told him I would be open for about  
 half an hour yet. He arrived in about  
 fifteen minutes and he is the person  
 who took place. He said:  
 "Well, I was reading your ad. in The  
 Telegram tonight, and thought, well,  
 lots of people will doubt the truth of  
 it. I can say it's surely all true, your  
 B'Well and Rheumatoid will stop a  
 cough, and I thought as I read your  
 ad, well, I am one of the people who  
 were coughing themselves to death  
 you mentioned, and I am sure your  
 medicines saved my life. I had a very  
 bad cold for some weeks. It settled  
 on my bronchial tubes and was much  
 like asthma. I lost my voice and was  
 coughing and wheezing, and nearly  
 dead when I called on you and got  
 your B'Well and Rheumatoid." It  
 surely saved my life. It was awful  
 misery. I could hardly breathe; my  
 breath was so short I could hardly  
 walk. I have come here tonight for  
 another bottle of B'Well to be used in  
 my family." B'Well, \$1.25. Rheuma-  
 toid, 25c.

"B'Well and Rheumatoid are all  
 right. You can use my name all you  
 like. I am only too glad to recom-  
 mend medicines that save life." Mr.  
 E. Borrowman lives at 82 Argyle  
 street, Toronto, Ont.

**DECISION MUST LIE  
WITH MILITANT CHIEFS**

Only Way to Spare French Blood  
Will Be by Unconditional Sur-  
render of Enemy.

Paris, Oct. 22--In discussing the  
 German reply to President Wilson,  
 The Temps says:  
 Now, more than ever, the decision  
 must be with the military and naval  
 chiefs of our alliance. To make the  
 French public believe that Germany  
 is ready to accept peace is a task  
 coming along the pathway of least ef-  
 fort is an outrage to truth and an il-  
 service to the country. There is only  
 one way to spare French blood and  
 that is to refuse the enemy until he  
 would give up his arms in a way  
 that would give no time in which to  
 recover.

The Temps reviews the German  
 note and points out that it contains  
 no word of apology for crimes com-  
 mitted. The note, it says, is com-  
 posed of two parts. One part, which  
 is short, carries the need of the gen-  
 eral staff for a respite from fight-  
 ing. The other, which is verbose,  
 answers the need of the German Gov-  
 ernment for sustaining hope in Ger-  
 many.

In respect to the German demand  
 for arrangements for an armistice  
 should be according to power on both  
 sides of the field, The Temps wonders  
 what Gen. Hoffmann would have said  
 about that before the Drest-Litovsk  
 negotiations. "What is the good," it  
 adds, "of telling us the German re-  
 gime has been radically transformed  
 when the reichstag has not deliberated  
 on any of the three replies to Presi-  
 dent Wilson? To say it is dark at  
 mid-day deceives nobody."

**Are Likely to Modify Order  
Banning Enemy Publications**

Ottawa, Oct. 21--Some modification  
 is likely to be made to the order-in-  
 council regarding enemy publications.  
 Representations have been received  
 that full application of the order has  
 meant suppression in one or two cases  
 of publications which have been  
 strongly pro-ally. It is possible that  
 some method of licensing will be  
 adopted.

**BRITISH CASUALTIES FOR WEEK**

London, Oct. 22--British casualties  
 reported for the week ending today  
 numbered 87,150, compared with 85,710  
 for the previous week. They are  
 divided as follows:  
 Killed or died of wounds: Officers,  
 57; men, 4871. Wounded or missing:  
 Officers, 1484; men, 30,198.

**DEMONSTRATIONS IN RUMANIA.**

Paris, Oct. 22--Violent demonstra-  
 tions were occurred in Jassy, the tem-  
 porary capital of Rumania, according  
 to advices received here. A mob broke  
 into the office of The Isslor Gazette,  
 the government organ, and the print-  
 ing plant was demolished.

**NOTE EQUIVOCAL  
AND TORTUOUS**

Paris Sees No Intimation of  
Desire to Accept Peace  
in Only Way.

**LYING TRICKERY**  
Teuton Seeks to Deceive Him-  
self by Disregarding All  
Evidence.

Paris, Oct. 22--The German reply  
to President Wilson was received here  
too late for the afternoon papers, but  
was eagerly discussed in official cir-  
cles and in parliament. Among depu-  
ties of all shades of opinion the im-  
pression was, first of all, that the  
reply betrayed more than previous  
communications the state of depres-  
sion and the demoralization of the  
German people as the result of the  
allies' victories.

As a whole, the note is found to  
be equivocal and tortuous and plati-  
tudinally phrased as to leave the  
door open for all sorts of quibbling  
and the demoralization of the  
Newiers is there evidence in the  
reply of a genuine desire to accept  
the only way in which peace can be  
concluded, according to expression of  
opinions here. On the contrary, all  
that is apparent is the urgent desire  
of the German general staff to get an  
armistice at any price in order to re-  
organize its reserves of men and ma-  
terial. Therefore, it is generally be-  
lieved that the reply is not likely to  
be considered at Washington.

The Figaro says that the men who  
combined to write the reply to Presi-  
dent Wilson have "translated the An-  
glish, clear and powerful anger  
of the people in whose name they  
pretend to speak."

"The German note is a typical docu-  
ment," says The Math. "In it are  
expressed the sentiments of a barba-  
rous people who failed in a foray.  
There is not a word in the note which  
reveals that actual strength of which  
France and other nations have so  
often given proof in misfortune. Nev-  
ertheless, by a remnant of that lying  
trickery innate in the Teuton, our  
adversary seeks still to deceive him-  
self by lulling himself against all evi-  
dence, and hopes, by one doesn't know  
what, to succeed in deluding  
Wilson by euphemisms and equivoca-  
tions."

**An Avowal of Defeat.**

The Journal says the note seeks to  
divide the allies and seeks also to  
draw from President Wilson a formal  
declaration that "nothing will be  
asked contrary to the honor of the  
German people, but what an avowal  
of defeat it is."

Col. De Thomassin, in The Petit  
Journal, says: "It is proof at  
the German high command considers  
the situation of its armies most grave,  
but not yet desperate."

"The German Government is again  
trying to quibble," says L'Espresso.  
"Still, while humiliating itself, it  
does not admit its defeat, but one  
feels it is at the end of its resist-  
ance."

**Does Not Admit Defeat.**

Marched, writing in Human-  
ity, says: "On every point the Ger-  
man Government clearly shows an ef-  
fort at concealment. Good sense and re-  
sulting dictate that the best way  
in talking of traps and tricks. It is  
a few days ago that the conversa-  
tion began on Oct. 8 would be con-  
tinued. We may suppose that a new  
step toward a just peace has been  
made this day."

The Paris Midl considers the Ger-  
man reply evasive. "The presen-  
table," the newspaper declared today,  
"but, but then feel-  
mann-Hollweg. He is a 'scrap of  
paper' man. But President Wilson  
will not be duped."

"Information says the note is a  
blow in the Kaiser's face, but is not  
sufficient to span the gap between  
the past and present."

"Hoping to save herself and obtain  
peace, Germany promises not to sink  
passenger ships," says L'Information.  
"Having lost her force, she now ap-  
peals to the right."

**GERMANY'S LAST NOTE  
MERELY CLUMSY TRAP**

Washington, Oct. 22--Senator Lodge  
of Massachusetts, Republican leader, in  
a statement today branded Germany's  
latest note as "a clumsy trap, awkwardly  
set to involve us in diplomatic discus-  
sions," and said if it is answered at all  
it should be with demands only for un-  
conditional surrender.

"It seems to me unbelievable," said  
Senator Lodge, "that anyone should be  
taken in by the last German note."  
"Of course, all they say about chang-  
ing their government is pure camouflage.  
There has been no election in Germany.  
It is the same old reichstag, governed by  
the same forces and interests. They are  
merely frightened and trying to deceive  
the American people--trying to gain by  
negotiation what they have lost in the  
field."

**MUCH MORE REQUIRED  
THAN EVACUATION**

London, Oct. 22--It has been learned  
by Reuters, Limited, that the view held  
in authoritative quarters regarding the  
situation arising out of the German reply  
to President Wilson's note is as follows:  
The German note assumes that the  
president only demanded the evacuation  
of occupied territory, and the Germans  
are still proceeding on that assumption.  
But that is not so, and this point should  
be made quite clear.

Freedom of the seas, as understood by  
the Germans, cannot be accepted by Great  
Britain at all.

There are various other naval ques-  
tions requiring elucidation.  
Other points which have not yet been  
touched upon include questions of inde-  
mnities and reparations.

**GERMANS GET READY  
TO EVACUATE BRUSSELS**

Amsterdam, Oct. 22--German forces  
at Brussels are working incessantly to  
remove war material from that city,  
according to the Reuters' corre-  
spondent from The Handelsblad. He says  
that many regiments of German troops  
are leaving the city and that there is  
much excitement among the people  
there. On the other hand, Antwerp is  
very calm and has not been affected  
by recent events.

The same newspaper's correspondent  
at Boermond says that hundreds of  
refugees from northern France are ar-  
riving there. These people, who are of  
all ages, have been on the road for  
three weeks. They were given only two  
hours' notice to collect their belongings  
by German officers at Douai, Cambrai  
and other cities in the war zone.

**CONCRETE SHIP ARRIVES.**

New York, Oct. 22--The concrete  
ship Faith, first of its type built for  
ocean cargo carrying, and hailing from  
San Francisco, has arrived safely at a  
gulf port, according to word received  
by agents of her owners here. The  
vessel, after carrying 2,000,000 feet of  
lumber from California to Chile, took  
on a load of 4,000 tons of nitrate and  
came thru the Panama Canal.

**On them the Shadow fell**

**THESE**, our little Canadians, born  
to freedom, to a heritage of happi-  
ness, Germany's greed would enslave.

For they were heirs to Canada's  
boundless wealth--our mines, our  
forests, our teeming fields--the Hun  
hungered for these riches of Canada.

In his plans for world power, Canada  
was not overlooked in the German scheme  
of plundering the nations.

Doubtless there are to-day in Berlin  
plans for the apportionment of concessions  
of Canada's natural resources, plans for  
the government of Canada, for the policing  
of our cities, the levying of taxes, for  
enforced adoption of the German language  
as was done in Lorraine after 1871, and all  
the other systems of government by  
German methods.

And a brutal German soldiery would  
have enforced those systems by which  
the people would have been enslaved and  
every vestige of freedom and independence  
destroyed.

If Prussian plans had carried the smile  
would have passed forever from the happy  
little faces in our homes.

Our boys and girls--heirs to Canada's  
riches--would have worked as slaves in  
their own mines, in their forests, their  
fields and factories.

The fruits of their toil, the wealth of  
Canada, theirs by right, would have been  
borne across the seas to fatten the German  
beast.

While the beast lives, his venom, his  
gall, his merciless, monstrous ambition  
threaten our homes.

Canada--young, high-spirited, inde-  
pendent--must stand firm.

Canada must use the wealth the Hun  
lusts after to crush him to earth.

Canada's strength, the united strength  
of each and every true Canadian, must  
raise the shield of protection for the  
generations to come.

The call will soon come for more of  
Canada's wealth. It is your money that  
is needed--every cent that you by cheerful  
sacrifice and loving self-denial can lend to  
your country.

**GERMANY'S LAST NOTE  
MERELY CLUMSY TRAP**

Washington, Oct. 22--Senator Lodge  
of Massachusetts, Republican leader, in  
a statement today branded Germany's  
latest note as "a clumsy trap, awkwardly  
set to involve us in diplomatic discus-  
sions," and said if it is answered at all  
it should be with demands only for un-  
conditional surrender.

**MARINE RATES UNCHANGED.**

Germany's Promise of Humanity Does  
Not Affect Marine Men.  
New York, Oct. 22--The assertion in  
the unofficial text of the latest German  
peace note that Germany has despatched  
orders to submarine commanders "re-  
cluding the torpedoing of passenger  
ships" will have no substantial effect  
upon marine war risk rates, insurance  
authorities declared here this morning.  
Declaring that at present "free passage"  
from Germany provide no safety for ves-  
sels, one insurance man said that not-  
withstanding the short cessation of the blood  
warfare will result in a reduction of rates.

WHOLESALE FRUITS AND VEGETABLES

The market was very dull and drab yesterday, only a limited number of buyers being out, partly due to the season of the year, and partly, no doubt, to the prevailing sickness, prices keeping unusually stationary on the whole of the offerings.

LIVE STOCK MARKET

Trading in cattle at the Union Stock Yards continues very apathetic, and it is questionable if yesterday's sales even held steady at Monday's decline. There is a notable absence of real good cattle, the bulk of the offerings being very common and inferior, following Monday's market.
