Living With the Temporalities

The announcement made to the general assembly of the Presbyterian Church in Canada that there has been discovered a loss of \$37,500 in the funds of Knox College...

It is not to be feared that these revelations—tell it not in Gath—will not do much to assist the new financial agent to tap those virgin sources of unexplored wealth in the church so eloquently depicted by Principal Gordon in urging the appointment...

Nor can it afford much consolation to those who have contributed funds to the support of Knox College and the other "schemes" to be informed that these unauthorized investments were made in the hope that the college should thereby benefit and receive increased income.

Even unprejudiced observers may be pardoned for having "their doubts" as to what would have happened if these "unfortunate and unauthorized" investments had turned out fortunate.

These perplexing problems we confess are quite beyond us; and we shall have to leave them to the newly appointed moral reform agent, whose business it will be to blow the trumpet and rally the lagging forces against spiritual wickedness in high places...

It is a question affecting the public interest, and it is a question which, because there is a section in the code which says that no man is guilty of publishing defamatory matter...

John Lloyd, the ex-night clerk, and Harry Dean, ex-night watchman, at the St. Lawrence Hall, were then placed on the stand...

Mr. Pugsley forthwith, with due deference, accused the judge of doing what no other judge would do yesterday when he filed a plea of justification...

English Railway Also Settles With Mrs. King For \$20,000. The London and Southwestern Railway of England has made a settlement with Mrs. C. A. Pison of Toronto...

TELEGRAPHERS ON STRIKE. Companies Refuse Demands and Men Go Out. SAN FRANCISCO, June 21.—The telegraphers employed by the Western Union and Postal Telegraph Companies were ordered on strike at 3.30 this afternoon...

GOING TO WASHINGTON. Laurier and Bond to Discuss Fisheries Problem. WASHINGTON, D.C., June 21.—(Special.)—Sir Wilfrid Laurier, prime minister of the Dominion of Canada...

"NEXT FRIEND" WITHDRAWS. Mrs. Eddy's Cousin Says There Are Enough Without Him. CONCORD, N. H., June 21.—Fred W. Baker of Epsom, N. H., a second cousin of Mrs. Mary Baker Eddy...

Notice to Island Water-Takers. The present engine and pumps at the Island Pumping Station are not of sufficient capacity to supply the domestic demands...

MR. EMMERSON WILL NOT GO ON AT THIS COURT

Ex-Minister, Backed Up Step by Step, Refuses to Proceed in Prosecution of Crockett for Criminal Libel.

HE ASKS FOR A COMMISSION

To Examine Witnesses, One in England, the Other in the United States—Crown Seeks Delay.

FREDERICTON, N. B., June 21.—(Special.)—Hon. Mr. Emmerson, in spite of all Mr. Pugsley's cunningness, was backed up this morning step by step until at last he declared that he would not go ahead with his case.

"I am not playing with loaded dice," says H. Crockett, the defendant, has been receiving congratulations all day. Court opened with an attempt by the prosecution to procure a postponement because two witnesses, by name Foster and O'Brien, were missing, one being in England and the other in the United States.

John Lloyd, the ex-night clerk, and Harry Dean, ex-night watchman, at the St. Lawrence Hall, were then placed on the stand...

Mr. Pugsley forthwith, with due deference, accused the judge of doing what no other judge would do yesterday when he filed a plea of justification...

LAW SOCIETY MAY TAKE UP FLORENCE MINING CASE

Premier Whitney Intimates That Solicitors Have Violated Professional Etiquet.

There may be some interesting developments before long in the Florence Mining Company controversy, which was started a few days ago by Premier Whitney in vindication of Mr. Justice Eritton.

In an interview with the press a few days ago, Mr. Whitney denied that Justice Britton had made certain reflections on the Ontario statute relating to the case he was trying, and at the same time he intimated that the counsel for the Mining Company had been using various means to interest The Globe newspaper in the case.

Mr. Whitney's attention to Mr. Clark's letter, and asked if he had anything further to say respecting the matter. The premier read the letter over very carefully and then said:

MONTREAL, June 21.—(Special.)—Le Canada is very much at Dr. Sproule and asks who can possibly object to Sir Wilfrid Laurier going to Rome in order to kneel down before the supreme chief of his religion.

"The idea, however," says Le Canada, "that he went to Rome with his ministers in order to make political capital could only have germinated in the putrid brain of the Orange leader."

GET A FREE HAND TO COPE WITH MUTINY

French Chamber of Deputies Votes Confidence in Government and Will Maintain Sovereignty of Law.

ONE HUNDRED ARE WOUNDED

In Fighting With Rioters in Streets of Narbonne—Opposition Members Accuse Ministers of Striking Up Populace.

PARIS, June 21.—By a majority of 104, the chamber of deputies this afternoon voted confidence in the government and gave the ministers a free hand to employ the measures they deem best to re-establish the sovereignty of the law in the disturbed departments of the south.

This came after a day of intense excitement over the mutinous movement of troops in the Midi, following the widespread disorders by the wine-growers.

The grave view the French capital takes of the revolutionary events in the south of France and their tragic outcome, was evidenced by the scene in the chamber of deputies to-day when the government was interpellated on the measures it proposed to take to re-establish order.

Hundred Wounded. Premier Clemenceau lost no time in imparting to the deputies the news from Narbonne, adding to the information already published the fact that over a hundred soldiers were wounded in the fighting yesterday with the rioters.

Government Accused. The opposition deputies fiercely attacked the government, accusing the ministers of sending agents to stir up the populace in the south, asserting that the cuirassiers acted like Cossacks that the troops fired without provocation and without notification, and that women and children had been slaughtered and insisted that the release of M. Ferret, ex-mayor of Narbonne, would alone restore calm.

Support Cabinet. After six hours' debate the chamber generally adopted this view and by 287 to 225 votes decided to support the cabinet.

HAMILTON, June 21.—(Special.)—The daily accident on the street railway occurred this afternoon on East King-street when an eastbound car ran into one of the big steam road rollers of the city, just below the Macdonald monument.

Mrs. Vere Brown, Toronto, won the Hamilton Ladies Golf Club cup this afternoon by defeating Miss Florence Harvey by three up and one to play.

The W.C.T.U. convention of the counties of Wentworth and Halton closed this evening.

Seize Lot of Booze. This afternoon the county license inspector seized a wagon load of beer and whiskey at the camp of the Italians employed on the Hamilton and Hamilton Railway.

One year ago the city of Hamilton sold 4 per cent bonds at 90.40. Today it sold \$197,000 worth at 81 to the Woods, Grand Opera, Toronto.

HAYWOOD MUST FACE JURY ON MURDER CHARGE

Judge Refuses Motion for Acquittal—State Closes Case and Trial Adjourned Till Monday.

BOISE, Idaho, June 21.—When the state today closed its case against Wm. D. Haywood, charged with the murder of ex-Governor Frank Steunbeger, the defense made an unsuccessful attempt to have the court acquit the prisoner on the ground that the state had not proved its charge.

THE prosecution introduced a few witnesses today to corroborate previous evidence, and then formally rested its case.

Parties requiring our services would do well to give early notice to secure dates.

TONY FAUST, 30 TO 1, WINS CONEY ISLAND HANDICAP

Notasuga Beats Cohort in Daisy Stakes—Jockey C. L. Miller Breaks Leg.

NEW YORK, June 21.—Tony Faust, a despised outsider, at 30 to 1, won the Coney Island Handicap, 6 furlongs, at Sheepshead Bay today, beating some very fast sprinters. King's Daughter was second and Dreamer was third. Halifax, the 13 to 5 favorite, finished outside the money. King's Daughter looked a winner, but in the final furlong shifting brought Tony Faust up and won by one length. Notasuga, second choice, won the Daisy Stakes. Jockey C. L. Miller had his leg broken when he mounted in the fifth race, ran into the fence with him. Jockey Notter was suspended for three days by the starter. Two favorites won. Summary:

First race, selling, 5 furlongs, Futurity course—Alauda, 106 (Mountain), 19 to 1; Risk, 99 (Hornet), 5 to 1; Mission, 102 (Miller), 3 to 1; 3. Time 1:01 2-5. Wassall, Iwami, Una, New Carter, Astoria Belle, Hiscock and Treasurer also ran.

Second race, selling, 6 1-2 furlongs, main course—Barbary Belle, 95 (E. Dugan), 5 to 1; Orbicular, 113 (Sadke), 6 to 1; Moya, 97 (Shilling), 12 to 1; 3. Time 1:13 Lady Anne, Workman, Nazam, D'Arkie, Esoteric, Genbrims, Belcast, Yorkist, Pretension, Clichona, Little Woods and Rifeman also ran.

"Plastic Form" Made to Measure Summer Suits

are for the man who has special ideas or tastes in clothing which ready-to-wear suits sold by retail stores do not supply, and also for the man who is built a little out of the ordinary, so that none of our type forms fit him.

By buying a made-to-measure suit from us you secure at least three advantages:

First—You have your choice of hundreds of samples of different fabrics, the finest products of the best mills in England, Scotland, Ireland, and France.

Second—You are sure of the very latest, most up-to-date styles, for our designer is constantly in touch with the great American style centres, and we are constantly receiving plates illustrating new styles. Besides this, we guarantee fit.

Third—You pay us very little more for a made-to-measure suit than you would pay the ordinary retailer for a ready-to-wear, and much less than a custom tailor would charge you for the same suit. This is possible, because we buy direct from the mills in large quantities, and because of the splendid organization of "Plastic Form."

If you are hard to suit, you are the man we are looking for. Come in and see our samples.

THE FREDERICK FARCE

Now, just a word about this Frederick farce. By a method of its own the public mind discerns matters of this kind, and already the public has made up its mind that Emmerson is afraid to face the music and shivers to clear his reputation. So far he has been putting up a transparent bluff, which may suit his friends and his party, but which does not go with the general public.

We take it that Emmerson's real defence, in his own inner conscience, is that he is a petty slammer, compared with some others, and that if he could spread out their records, which remain concealed from public gaze by co-partly arrangements or saw-offs, he would not then pose as the horrible example.

THE CITY COUNCIL AND THE CITY'S FUTURE

On Monday afternoon at 3 o'clock an important motion will be submitted to the city council by Ald. Church. It proposes the appointment of the mayor, Controllers Hubbard and Harrison and Aldermen Chisholm, McMurray, R. H. Graham, McGhie, Geary and Adams as a special committee to enquire into and report upon the situation as it bound shortly to come. Among the matters more particularly specified by Ald. Church are a systematic plan for the improvement of the harbor and water front; railway discrimination against Toronto; and the improvement of the city's transportation interests; the annexation of new territory; the advisability of making Toronto a free port; and generally what is necessary to be done to advance the interests of the city as the centre of the commercial and transportation interests of the province.

This is a preliminary step in the right direction and should be heartily supported by the city council. Toronto has now reached a stage when provision for its future must be made on a well-considered, broad and comprehensive scale. The present problem for some time is new acute and becoming more urgent with every year that passes. Proof of this need not be offered, nor need it be sought, since it must be patent even to those whose

peasimism affects their judgment. Scepticism regarding the continued growth of the city means doubt respecting the progress of Canada herself. That Toronto will be left stranded while the wave of expansion sweeps the country is inconceivable so long as even a modicum of energy and enterprise possesses the citizens. But The World is convinced a very different spirit animates the public and business men of the city, as indeed is evident from the approval already extended to Ald. Church's resolution by the board of trade, the Manufacturers' Association, the Riverdale Businessmen, the Guild of Civic Art and the Retail Merchants' Association, all of whom should be represented during its discussion.

If provision is to be made at all for the Greater Toronto that is surely coming, it must be preceded by full consideration and advisement by the best available expert authority. The history of other great cities has shown that proper continuity of policy and administration can only be achieved when an exhaustive plan has first been approved and is then steadily followed to completion. Such a plan for Toronto ought not to be impossible, nor even unduly difficult. For certain purposes the intervention of a commission may be necessary, containing representatives of the Dominion and provincial governments, as well as of the city, but a recommendation to this effect would naturally form part of the duty devolving on the special committee the council is now asked to appoint.

The chronic opposition of the permanent officials, who on this point seem veritable fatalists, must not be allowed to block or even impede steps that commend themselves to the great commercial and industrial interests of the city. Nor should the special committee, if it is appointed, be encouraged to postpone its report till a date rendering it impossible of consideration by the present council. A great project of this kind can only be carried out by the perseverance of successive councils, each doing its part, and on the example set by this council a great deal will depend. Let it at least leave the matters covered by Ald. Church's resolution in a shape which will enable its successor to take them up and deal with them effectively.

EXTENDED WATERWORKS

A beginning has been made in the work of providing for the city's imperative requirements by the preparation of a report on necessary waterworks extensions by the city engineer's department. While everything has not been included that is needed to bring the waterworks system to a thoroughly up-to-date state of efficiency, enough is presented in the report to take away the fear of a water famine or an uncontrollable conflagration in outlying districts.

But the city council should thoroughly understand that there is not an item in the program submitted that can be done without, and no paring of the figures should be attempted. At least a million dollars are required to place the waterworks service in fit condition to meet the needs of the next year or two. The engineer, presumably remembering the past methods of the city council, has recommended the expenditure of \$710,000. It might have been more prudent to anticipate the pin-headed pruning policy of some of the aldermen by recommending \$1,000,000 and accepting \$700,000, but the mayor and board of control ought to be able easily to convince the council that no cheese-paring in the present instance is wise or possible. This may be more easily insisted upon since the ratepayers do not provide the money for the improvements, every cent of which comes out of the consumer. The ratepayers will do well to remember this when called upon to vote on the bylaw.

The provision of adequate mains for new districts in the north, west and east of the city is called for by the fire department, as well as by the household consumer, and in Parkdale the same cause dictates the conversion of 4-inch to 6-inch mains. The duplicate pumps at the main and high-level pumping stations are required for the sake of both economy and prudence.

WORTHILY SUCCESSFUL

To look back upon a third of a century's work, and to witness the long vista of progress leading up to a commanding influence in the educational life of a nation, comes only to the exceptional man. When that eminence is attained, without a flutter of suspicion, nor a breath of the public's taunt, the country owes grand honors to its benefactor.

Rev. Dr. J. J. Hare of the Ontario Ladies' College of Whitby has just closed the thirty-third year of his principalship in that foremost of women's universities. From a position of obscurity this college for the highest endowment of women has risen to one that wields a tremendous influence in the educational life of Canada and the homes of America. The highest ideals have blossomed from the sowing of the simplest and fundamental virtues, taught under the direction of Dr. Hare.

He is indeed a pioneer in the work in America. The elevated status of womanhood, the deep-seated love of righteousness in the hope, and culture, whose synonyms are sweetness and light, owe much to the principal of the Ontario Ladies' College. Still a young

man, Dr. Hare may reasonably look forward to many years of usefulness on behalf of the great cause whose furtherance he has made his life work.

LABOR CANDIDATES

Labor is a big, independent, forceful factor in the life of Toronto. There seems to be no reason why the District Labor Council should not be encouraged in its resolution to place Labor candidates in the Toronto field for the federal elections. Other things being equal, a labor representation is better able to deal with legislation touching his constituents than is a member of a profession. Men we have, in close touch with labor in all its phases and in all its trials and tribulations, who could take their places in parliament with dignity and success. Perhaps too long have we considered that lawyers are the only eligibles for federal political distinction. Surely we have progressed sufficiently to believe there are others.

THE COUNTRY MERCHANT

Saturday Evening Post: The parcels-post bill, we are told, will be taken up at the next session of congress. Effective opposition to it will probably come, not from the express companies, but from country merchants, to whom a parcels post appears mostly as an agency for furthering the encroachments of the mail-order houses.

It has been pointed out to the country merchant many times outside of Canada, that in a country town of two thousand inhabitants there are, say, six independent grocers, each handling sugar, salt, matches and so on. If industry were fully organized one of the six would be driving a delivery wagon for the sugar trust, another for the salt trust, a third for the match trust, and so on. They would receive wages of about forty dollars a month while sound and active, and live with their families in a neat but not gaudy joint-tenure dormitory.

RONGESVALLES AVE. LINE TO OPERATE IN 60 DAYS Obstacles Are Removed and Work is to Begin at Once - Civic Jottings.

The Rongesvalles-avenue street railway extension will be complete and ready for operation within the next two months or thereabouts; at least, this is the expectation of the civic works department.

A brief communication from Manager Fleming, received by the city engineer yesterday, stated that the company was ready to proceed with the laying of the rails on Rongesvalles-avenue as soon as the city laid down the permanent foundation.

The new line, which will extend from Queen-street to Dundas-street, will cover 5667 feet, and it is estimated that, on the average, 100 feet of concrete can be done daily. The street railway will be able to follow up with the laying of the rails as the work progresses, so that by exhibition time the new line should be carrying passengers.

High Court of Ontario Holds Temperance Society Election

Followers of Thomas G. Matheson, Alleging Wrongful Proceedings, Withdraw and Robb Faction Win Offices by Good Majority.

Alleging misrepresentation and crooked work also a deal that "was not square in the elections held last night, when the Robb faction was returned to power by a good majority, Thomas G. Matheson and his followers decided by resolution at a hurry call meeting to secede from the West End Christian Temperance Society and immediately form a distinct society.

It had been anticipated that there would be a hot time at the elections. Both factions worked their level best, with the result that the society which a year or so ago had greatly dwindled down, grew in a month or so to one of the biggest temperance lodges in the Dominion, with a membership of over nine hundred.

The trouble between the factions has been aired in the courts and the Hon. Chief Justice Muir decided that the elections should be held under the direction of the High Court of Ontario, to prevent further trouble.

George M. Lee, high court registrar, was appointed to take charge of the elections, which were held last night. Having been notified that there would be in the neighborhood of one thousand voters, Mr. Lee engaged St. Andrew's Hall to hold the meeting, which was to be held at 8 o'clock on Saturday night.

At eight o'clock the hour fixed for distributing the ballots, Mr. Matheson, who claims that he has 488 bona fide members, first appeared. He was accompanied by several of his lieutenants and turned in the ballots as fast as he could get them.

Here was where the trouble started. Just before 9 o'clock an Irish barrister named Thompson wanted a ballot and Mr. Lee promptly refused it on the ground that he should have been in time to get his ballot with the rest of the gathering.

This so incensed Mr. Matheson that he immediately jumped to his feet, on to a chair and yelled out for the officers and friends to immediately leave the hall and go over at once to the Temperance Hall on Bathurst-street.

MAY CUT OFF CITY WATER FROM TOWNSHIP USERS

City Engineer Rust Thinks Action May Become Necessary Owing to Water Shortage.

There is a possibility that York Township residents, who are enjoying the privilege of being supplied with city water, may have their supply cut off altogether, for a time at least.

City Engineer Rust, in discussing the increasing discomforts of the situation in the east end, due to the shortage in water supply, owing to the heavy drain made upon it by Scarborough Beach Park, said that if a crisis were reached, and householders within the city limits were suffering actual want, it would be necessary to discontinue

QUALIFICATIONS FOR A REALLY GOOD WIFE

A Subject in Which Every Man and Woman That is Married or is Going to Be, is Interested.

"Clinging vines and business imbeciles are out of fashion as wives. A course in commercial law or social economy is a valuable matrimonial asset these days." Such is the statement of one of the greatest present-day social economists.

One of these was made prominent the other evening when George invited Laura into a legging ice cream parlor and asked her to name her favorite beverage.

To sum up the matter, he proposed to seeing the chairman of not playing square, in that he had decided to keep the ballot open until 10 o'clock, and had closed at 8. Somebody started up the "Dology" and Mr. Thompson quit. The crowd went home.

Result of Elections. The result of the elections is as follows: President, first vice-president, G. Scott; third vice-president, H. Varnum; secretary, J. F. Ferguson; financial secretary, Joseph Todd; treasurer, M. Constance; chaplain, Joseph Dunlop; executive committee, Joseph P. Grier, James Baker, Richard Fisher, G. M. Lawrence, J. R. Wilson, R. KIDNEY DISEASE COMES ON QUIETLY

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some form of Kidney Complaint, but do not suspect it. It may be in the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as, brick dust deposit in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or suppressed urination, burning sensation upon urinating, etc.

Doan's Kidney Pills

They go to the seat of trouble, strengthen the kidneys and help them to filter the blood properly and flush off all the impurities which cause kidney trouble. Mr. Thomas Petty, Massey, Ont., writes: "After I arrived in Canada from New Zealand, a couple of years ago, I noticed very much from kidney trouble. I tried several remedies, but they did me no good. Finally my back-ache came so lame I could scarcely walk. I was advised to try Doan's Kidney Pills and after taking them I felt like a new man.

Improve Water Service

FOUR BURNED TO DEATH IN STEAMER DISASTER

Crystal Stream Destroyed at Cole's Island—Crew Was Penned in Lower Deck.

ST. JOHN, N. B., June 21.—Four men were burned to death and half a dozen other persons badly hurt in a disaster at Cole's Island last night, when the steamer Crystal Stream was totally destroyed.

The Crystal Stream was an old New York sidewheeler, brought here five years ago to run on the St. John River and Washademoak Lake. D. J. Purdy, M.L.A., of St. John, is the principal owner.

The steamer, which makes two trips a week, was lying on the west wharf at Cole's Island, 50 miles from St. John, on her down trip to this city, heavily loaded with freight.

Shortly after 1 o'clock fire was discovered on the upper deck. It had evidently caught in the hay from a spark from the smokestack. With great rapidity it spread thru the light freight, and before the members of the crew could be awakened the whole steamer was in flames.

Hemmed in Like Rats. Most of the men were sleeping in the lower deck below the freight, and were hemmed in by the fire like rats in a trap. As soon as those on the upper decks were aroused they endeavored, but without success, to extinguish the flames, turning their attention also to those of their comrades who were below deck.

Strenuous efforts were put forth to rescue the men who were below, but they were not until the rescuers were able to approach even the side of the steamer that the task was given up.

William Logan and Allan Logan, two brothers, belonging to Land's End, Fred Smith of Shannon, Queen's County, and a fourth man named Baxter, were also badly burned, and this morning their charred bodies were found in the ruins.

Engineer Wentworth Roberts and the stewardess, Mrs. Chase, both belonging to St. John, were quite seriously burned, while Capt. Mabey and other members of the crew sustained painful injuries. Herbert McAlary, the mate, and H. P. Belyea, the purser, were also badly burned, and this morning their charred bodies were found in the ruins.

The steamer cost \$22,500 and is insured for half her value.

TORONTO REAL ESTATE

Home at Your Own Price Furnished For \$2500

Construction Company Putting Up Two Hundred Dwellings in Choice Residential District.

Love Bros. Ltd., contractors and builders of 1000 East Gerrard-street, Toronto, are offering for sale 200 completely furnished homes at \$2500 each. These houses are being constructed in a choice residential district, within 15 minutes by car from Queen and Yonge-streets.

The firm are able to offer special inducements to purchasers, owing to their complete construction facilities, having their own sheet metal plant, mill work plant and machines for doing practically every portion of the work entering into a modern dwelling, thus saving a large part of the cost of an ordinary house.

These 200 houses are of semi-detached design, with brick fronts and cement floor in basement. Sanitary enameled plumbing is used throughout and the hot water tank is connected with the furnace in the basement. Sidewall registers are used and the furnace is the best made. The rooms are decorated with artistic wallpaper. Special enameled paper is used for the covering of the bathroom walls.

The woodwork throughout is gained in imitation oak, and every house is completely carpeted, and piped through for gas, with up-to-date fixtures.

The furniture, bought by the careful at bottom prices, has been carefully selected by the builders. A piano goes with the equipment.

No better offer could be made for a completely furnished new home. The price, \$2500, seems ridiculously low, but the fact that the builders are able to construct by wholesale explains the reason for this. The company offer easy terms of payment, bringing these houses within the reach of anybody

who can put up the small amount necessary to guarantee the bona-fides of the purchaser.

S. A. EXTENSIONS.

Accommodation Much Too Crowded, But Plans For Future Incomplete.

The reports current regarding extensions by the Salvation Army are quite unofficial, according to Col. Gaskin. The army buildings in all parts of the city are much too crowded and there is a movement for their enlargement. This, however, is an old story, Col. Gaskin says. The army has been contemplating changes in a general way for years and some of the property reported to have been recently bought has belonged to the army for the last ten years.

The army is considering the question of the establishment of a hospital in Toronto and has been invited to do so in a neighboring town, but Col. Gaskin regards such a step as quite improbable.

A tent is to be erected on Queen-street, but on property which is merely loaned to the army temporarily.

VALUABLE CORNER SOLD.

Land Security Company Gets Land on Which Building Stands.

The Land Security Co. has purchased the land upon which its building stands at Adelaide and Victoria-streets from Sir William Mulock. The property has a frontage of 47 feet on Adelaide, and 296 feet on Victoria. The assessed value of the land is \$29,925.

The whole property will be offered for sale. An hotel company is after the site.

UP-TO-DATE WORKINGMEN'S HOMES.

This row of houses, on East Gerrard Street, numbers 900 to 1,000, was built by Love Bros., who offer them for sale in a unique way. They are furnished through with every article of household use, including a fine piano, and are being sold on an easy payment plan.

NICE PARK PROPERTY FOR BUILDING LOTS

Negotiations With Radial Railway Company For Long Branch Property Which Failed.

The sale of 40 good looking acres of lake shore land between Long Branch and Fort Credit has just been put thru, the seller being Mr. Cotton, and the purchaser being a mystery because those interested in the sale refuse to say anything about it for the time being. The property includes a nice beach and it seems that not so very long ago it was offered to the street car people at the bidding price of \$200 an acre, it being apparent that there was no amusement park for the people who like to go west.

Negotiations only reached an embryo stage and stayed there because Mr. Railway Moore and Mr. Estate Agent Pearson could not get sufficiently together at appointed times. It is even said that appointments were made for Sunday conferences and that Mr. Moore either from religious convictions or forgetfulness did not bid by the first even to there were speculations hinting toward a three-and-a-half-acre from the city for 15 cents. The land was flatly offered to the railway park people at \$200 an acre, but the opportunity did not seem to fit. Building case has come along and paid \$400 an acre for it and as far as can be gleaned from Mr. Pearson in his most communicative mood the holding is to be divided into 50-foot lots for summer residences, also he deeply regrets that its nice past possibilities were not appreciated by Mr. Moore and the other manipulators of the suburban service which bids fair to become famous on account of its comfortable and seldom available cars.

Who the man is who paid the \$400 an acre for the land is a dark secret. But the sale has been consummated. Mr. Pearson says so. The possibilities along the lake shore road for summer cottages are grand and many citizens are realizing it. Without regard to the wretched condition of the road from the murder of Sunnyside crossing to the future there is a building activity on the lake shore to the west. Some of the houses are so far incomplete, but the owners are spending their spare time working. The sale of the should-be park property at the figure secured is calculated to give an impetus to price advances all along the western line.

There is a decided reluctance on the part of many real estate agents to disclose in detail the volume of their business. In many cases their clients decidedly object to the slightest publicity. Brokers acting for banks, loan companies, etc., have to be particularly careful. Speculators generally and naturally like to have the consideration they paid for property kept as far out of reach of the prospective buyer as possible, unless it is a forced sale. Some clients do not even want it known that they are selling their property.

From the office of the assessment commissioner it is learned that the real estate situation is holding its own very admirably, there being a still noticeable demand for good building lots and also for the smaller class of houses. There are no big sales of down town property lately, such as there were during this period of last year. Down town prices are away up.

Assessment Commissioner Forman says there has been some activity in tax sales of lands and he is making a report of all recent transactions which he will submit to the board of control at the end of this month.

A feature of this year's business has been the exceedingly good demand at the island, where there are booming and are considered sufficiently reasonable prices to bring about transactions with far less than customary trouble. E. A. English had rented 80 houses on the island before the sad chilly season asserted itself so forcibly.

Many new houses have been erected on the island and they are all of the better class. Almost any property on the island is in demand, but to the class of house. Lots of money. That is why the prices seem to be exceedingly high when it is taken into consideration what the places must have cost not so very long ago.

As an instance of the condition of the city market, Mr. English mentioned a number of solid brick roomed large deals. There is some selling of houses in the west end between Bloor, houses ranging from \$2500 to \$3500, and College-streets, which were on sale an occasional enquiry for the better class of houses. The activity in Co always a demand for this class of house but it was not as brisk as it should be. Another instance he gave was that of a dozen solid brick houses on site. "GO WEST! YOUNG MAN, GO WEST!"

That is the advice that Horace Greeley launched upon the investing public long ago. Conditions since have made Horace Greeley not only a prophet but a philosopher.

Black steries have been told about "bad crops," poor transportation and other things, that might influence the prospective investor, but the truth remains that Western Canada is still the Mecca of the small as well as the large investor.

There is no section on the North American Continent where REAL ESTATE has advanced so rapidly in the past few years as in Winnipeg and Western Canada.

There are many ways of making your dollars earn big dividends, but the most profitable, satisfactory, and comfortable of all is by anticipating the direction of population, and buying land at the low prices that always prevail before railroads bring in hundreds of thousands of eager settlers and home makers. Two years from now you'll wonder why you hesitated a moment to buy Western lands from us—**Choice Picked Lands**—at only \$7.50 an acre, which will then be selling at more than double the figure. Or a lot in a splendid residential section—one of permanent values—in the City of Winnipeg, for only \$100.

Have you watched the Western crop reports lately? If so, you will see that the wheat is growing strong and lusty, and indications point to the biggest harvest in Canada's history. A warm July and August will do it, and that the weather man has promised. Then land prices will move up fully 25 per cent. Come in and see us, talk matters over, and get expert advice.

MOTHER AND BABE DIE

COAL OIL STARTS FIRE

Mrs. M. A. F. Mills Rushes From Kitchen in Flames and Daughter's Clothing Ignites.

Mrs. M. A. F. Mills, 28 Sutton-avenue, and her 17-month-old daughter are dead as a result of the explosion of coal oil, which she poured on the kitchen fire yesterday morning.

Mrs. M. A. F. Mills, the severely burned, will recover. She is at the General Hospital, where the mother died at 10.30 o'clock last night, and the child three hours earlier. Because the kitchen fire was not burning quickly Mrs. Mills poured oil on the flames. Immediately there was a loud explosion, and the woman was enveloped in flames. Mrs. Mills ran screaming from the room, and the child, attracted by her cries, ran to her mother.

The child's clothing caught fire, and the mother passed on down the stairs to the front porch, where she fell screaming in agony. The father, who had been confined to his bed, jumped to the rescue of the little one and, finding her still alive after he had extinguished the flames. Mrs. Thomas, who lives on the lower floor of the house, was attracted by the cries of the agonized woman. She went to the door calling loudly for help.

Two men came to the door and looked in, but evidently fearing injury, forbore to help the woman. At last R. Ritchie, a night watchman, who lives in the neighborhood, heard the cries and gave effective assistance. An alarm was turned in and the department responded.

Mrs. Mills was terribly burned. The most severe burns were about the chest and abdomen. The child suffered more from shock than from the burns. Mr. Mills' injuries are not dangerous. He is a mason, but has been unable to work for some time owing to illness. The family have only been in the country three years, coming here from England, where their only relatives reside.

Mr. Mills has been out of work for three months, and the neighbors are taking up a subscription for the burial of his wife and child. This is in the hands of Mrs. S. Salmon, 28 Sutton-avenue. Mr. Mills was suffering considerable pain from his burns last night. He will not be told of the death of his wife and child till to-day lest the shock should seriously affect his condition.

Cures Drunkards

Mary's Miracle.

The day working miracles. I'm sure is far from past. And now to show you what I mean, I'll tell you the story of a great one that happened right to me. For I was part of it, you see.

You know the life I used to lead—O God, a living death. A bankrupt of the hopeless kind. For, scarce a sober breath I ever drew, and hope and pride Were lost to me and nearly all beside.

One friend alone was left—my wife. God bless her every word. She saved me from a drunkard's grave. And whiskey's wicked power. This is the way she told it me.

When hope was almost dead within Her faithful, constant breast. She read of Dr. Haines' Cure. Then without stay or rest. She sent for one Trial Sample free. And gave it unbeknown to me!

I drank of it at every meal—ate it in my bread. While Mary watched me anxiously. But never a word she said. Until one day I stopped to think. That I had lost my love for drink!

When, quite unconscious I was cured. My Mary told me all; And gave it unbeknown to me! A modern miracle. I call it this, because my wife And Haines' Cure had saved my life.

And now my little story's done. My ev'ry word is true. And what this treatment did for me. The same 'will do for you; And wives and mothers—one and all, Take heart of Mary's Miracle.

Free Treatment Coupon.

Fill in your name and address on blank lines below. Then cut out this coupon and mail it to Dr. J. W. Haines, 151 Glenn Bldg., Cincinnati, Ohio. You will receive in return enough of the remedy to prove to you that it will cure drunkenness in any form. You give it in tea, coffee or food. The drunkard will stop drinking without knowing why. You will also get books and papers, and prove how hundreds have been saved.

EDITORIAL DISFIGUREMENTS.

Editor World: I have read with interest your article on "Billboards and Disfigurement," and learn with regret that Richardson Evans, honorary secretary of the Society for Checking Abuses of Public Advertising, or, as the billposters in Britain used to name it (Scapa), has been successful in his prolonged campaign to curtail advertisers' privileges.

For some years, when residing in the old country and owning a business there I watched the workings of Mr. Evans with great interest and with a certain conclusion, either that he wanted advertising to go to the newspaper in order that he might have a right to it, or that he was some of the good old people who, if they could do so, would stop the residents of the town from using the advertising space at all. I have since been in England, and my opinion, which there is a diversity of opinion, is that the work of such people as David Allen, or the billposters of Nottingham, England; Toronto Lithographing Company, Howell Hamilton, and the billposters of Toronto, Ontario, is a disgrace to the community.

In the United Kingdom the billboard is designed for the display of advertisements, and when one sees a large board, with some of Pears', Sunlight, or other trade names, on it, and sees the man who takes such pride in the posting of the paper.

With reference to your quotation from Colliers, as to taxing the locations, I may say that in 1889 a bill was introduced into the house of commons by Mr. Ashmead Baxter for the taxing of advertising spaces. Great discussion and opposition was the result. Many billposters refused to pay, and contented themselves with displaying their advertisements on the buildings. The bill could not get at the tenant they levied the owner. The owner then raised the rent, so that those who were not contented with their own display, and who were willing to pay for it, were not allowed to do so.

In the town where I came from the overseers assessed the locations at 11 p.m. 100 square feet, whether that amount was paid in rent or not. The result was, advertisers would not pay the extra price made, and when the bill was ready for posting, the advertiser was unwilling to pay, and the billposters were obliged to remove the bill.

Whenever one goes they will find men like Mr. Richardson Evans, who have no objection to their own display, and everything possible to handicap business men. What would the City of Toronto look like in many places, for the enterprising local firm who promptly secure any vacant—and, like the fire district—unsightly space to erect their billboards and painted signs, thus giving the eye a more pleasing sight? Yet there are many fussy people ready to interfere. All billposting contractors are willing and even anxious, to have any unsightly poster cut out, and, in England especially, censorship committees, consisting of billposting, theatre managers and printing representatives, have for some years had posters put before them for approval. In many cases the posters, being objectionable, have been refused unless considerably modified. Now their work is practically nil.

SHAPED OVER FOOT SCULPTURED LASTS

The way Foot-rite Foot-Sculptured Lasts are Made.

America makes the finest lasts in the world. They hold preferment in England, on the Continent, and even in Australia and Japan, yet nine Americans out of ten are afflicted with corns, bunions, ingrowing nails, deformed toes or some foot trouble. Why? Because American lasts are made merely to please fashion-thirsty eyes. Any shoe moulded over them is simply a foot corset, and the feet designed by nature to go free and unconfined, don't thrive in leather strait jackets.

Foot-rite lasts are a revolution in last making. They're shaped to overcome the foot corset curse. They're a study in sculpture.

The most handsome and ideally formed feet known to orthopedic experts are the feet of athletes. Without perfect feet no prize-fighter could side-step, no runner could sprint, no footballer could dash, etc. Ideal athletic feet of all shapes from all over Canada, America and England were selected as Foot-rite models. These were reproduced in wood without the smallest change, by well-known sculptors. These sculptured wood shapes were then graded into all sizes. Over these model athletic lasts Foot-rite shoes are moulded. What does this mean? It means that Foot-rite interiors are shaped like the human foot. It means that no matter what the shape of your foot, any Foot-rite store contains a shoe interior that's the same shape and size as your foot. It means that there's comfort in a Foot-rite Shoe such as you never found in other shoes. And it means that the Foot-rite shoe, being shaped like the handsome and ideally formed feet of athletes, is certain to please both the eye and the feeling.

Try on a pair of Foot-rites. You'll admit that we've done something unusual to the form of their insides. Anywhere in America, Canada or Great Britain—\$4.00, \$4.50 and \$5.00. Every pair is Goodyear Welted.

CHARTERS IN SEPTEMBER FOR MUTUAL FIRE COS.

Manufacturers' Association Meeting With Success—Need of Skilled Labor.

The executive of the Canadian Manufacturers' Association met yesterday in Toronto, when it was announced that good progress was being made in connection with securing applications for fire insurance to be placed with the two mutual companies the association is favoring. It is expected that the meeting will be held in Toronto in September.

Dissatisfaction was expressed with the policy of the government in reference to the importation of skilled labor. The association feels that the extensive use that has already been made of its employment bureau in London demonstrates the absolute necessity for more Canadian industries are to take care of the business of the country.

The association will advertise free of charge in its official organ all applications from abroad for positions in Canadian factories.

French Tariff. The association has been in correspondence for some time with the Canadian section of the British chamber of commerce, Paris, France, in regard to an extension of the Franco-Canadian treaty of 1903, which would secure the benefit of the French minimum tariff to a much larger number of Canadian exports than are at present entitled to it. It is apparent, however, from the nature of the quo, quo, which France would likely demand, that the proposal would meet with strenuous opposition from certain quarters.

It is unlikely, therefore, that the association will make any definite recommendations to the government, though it hopes to have something to say should legislation along this line be introduced by Mr. Fielding at the next session of parliament.

Reports on Assignments. The association is considering enlarging its sphere of operations by the addition of a department to report on assignments and compromises of a doubtful character, and also to collect overdue accounts. Its facilities in regard to the removal of assignments and obtaining credit reports on foreign houses will also likely be extended.

The transportation committee reported that nearly all the points at issue between the association and the railways in regard to the removal of the discrimination against Canadian shippers on rates from frontier points were not settled, and was expected to be settled in the near future. The board within two weeks putting the new tariff into effect. This tariff involves a reduction in the rates in all the territory east of Port Arthur, and will also tend to equalize the rates eastbound and westbound.

The meeting of the association members being present from as far east as St. John and as far west as Walkerville.

DR. KOEHR'S RESTORINE

New Century—the most wonderful medicine ever discovered. It is astonishing the Medical World, 10,000 cases cured in one month in Paris. The National Medical Board has recommended this Remedy for use in the Insane Asylums where, as is well known, a majority of the male inmates are victims of lost vitality in its most terrible form. In Europe the remedy is endorsed by all governments and is freely used as a specific in the great standing armies of both France and Germany. Stops losses in from seven to ten days as that they never return. Drains entirely clean after a few days' treatment. The skin becomes clean, the eyes bright, confidence returns, sleep elastic, bowels regular. Headaches disappear. No more weak, nervous, the mind becomes bright and active. A Food for Brain and Blood. A permanent cure no matter how chronic the case. Just send us to-day your name and address plainly written and 45 days' treatment of Restorine will be sent FREE in plain sealed package. Do not hesitate a moment! We will treat you success and with honest confidence.

CASE FOR LAW SOCIETY IS PICTON LAWYER'S ACT

E. M. Young Must Account to Client For \$625, Decision of Chancellor.

E. M. Young, a lawyer of Picton, took a case for a client recently upon the understanding that if the suit was successful he was to receive \$200. The suit was successful and the client alleges that Young retained \$625 more than he was promised. The client went to law and the local master at Belleville decided that the lawyer was entitled to all he took. At Osgoode Hall yesterday Chancellor Boyd, in deciding the opposite way and directed that the lawyer must account for the \$625, and asserts that the matter should be investigated by the Law Society.

Chancellor Boyd said: Things have gone from bad to worse on the downward grade, for now the American ambulance chaser has become a visible feature in so-called professional life. It is well, then, in Ontario to repress the beginnings of anything of this kind of illicit procedure. To this end I think that the circumstances of the case should be investigated and dealt with by the Law Society upon notice to the solicitor.

The confidential relations between lawyer and client forbid any bargain being made by which the practitioner shall draw a larger return out of litigation than is sanctioned by the law. Especially does the law forbid any agreement for the lawyer to share in the proceeds of a litigated claim, as compensation for his services.

ORTHODOX FRIENDS.

Old-Time Yearly Meeting of Quakers Began at Pickering Yesterday.

The Quakers of Canada have been a powerful factor in moulding the character of the people of Ontario. Migrating from Pennsylvania in the early part of the last century, they founded flourishing groups of farm settlements at Pickering, West Lake, Picton, Norwich, Newmarket and other points. Many of them were U. E. Loyalists and all were men of sterling character and rugged independence.

Each year these people would assemble in what was known as the Canada Yearly Meeting at Pickering, Ont., where the first yearly meetings were held. Visitors and traveling ministers from the States, England and other parts of Canada attended this gathering. The big plain meeting house, which still stands, accommodated a large crowd. In the eighties this place had a monster gathering at this time. Local farmers drove many miles to attend. The services were conducted in their well-known style without song or music. The plain hats of the men and the brown rustling silks of the women (for the plain, they dressed in the best), made ideal pictures of contentment, and abandonment of the world's hustle and worry.

But tempora mutantur, and the Quakers split into several societies each weaker than the parent, until recently when the Progressive Friends are assuming a larger importance. The old or Orthodox Friends, too, still assemble in small bodies and maintain the simplicity that Whittier admired and the great John Bright enjoyed in the little meeting house near Manchester, England.

At Pickering yesterday the yearly gathering began. The local lively man busy at every train, delivering loads of the visitors from the U. S. and Ontario. These are billeted at the various Friends' places and services will be conducted by until next Wednesday. Sunday will be the main day of public worship.

PUBLIC NOTICE.

WIDENING OF ORFORD AVENUE.

Notice is hereby given that at a meeting of the Council of the Corporation of the City of Toronto, to be held at the City Hall, after one month from the date hereof, namely, on Monday, March 11th, 1907, at 3 o'clock in the afternoon, or so soon thereafter as a meeting of the said council shall be held, the council proposes to pass a by-law to widen Orford-avenue from a point distant 110 feet, more or less, west of Clara-street, easterly to the west limit of Clara-street.

The proposed by-law and plan showing the land to be affected may be seen at my office in the City Hall.

PUSH CART HIT AUTO.

But Owners of Letter Took No Action—Auto Chases in Court.

Levinta Nordello, a peddler who has been up several times for pushing his cart on the sidewalk, was before the magistrate yesterday for running down his auto at the corner of Bathurst and Queen-street with his push cart. "The shoe is on a different foot," said the chief inspector. "I think he should be let go. The owner of the auto can take action." And he was let go.

F. H. Gooch, charged with speeding his auto at the corner of King and Yonge-streets, said his lawyer was out of town. The magistrate decided there should be counsel.

"But the man that was hurt doesn't say I'm responsible," said Mr. Gooch. "Oh yes he does," said J. P. White, appearing for Sgt. Instructor Creighton of the O.P.R., the man hit. The case will be heard on the 28th.

F. H. Richardson, charged with running his auto without a rear light, was remanded for sentence.

Cabrera Said to Be Dying.

MEXICO CITY, June 21.—President Estrada Cabrera of Guatemala is reported to be dying from blood poisoning, which followed the extraction of a tooth.

Four Years For Theft.

Frank Smith was sent to the penitentiary for four years by Magistrate Denison yesterday on four charges of theft, to which he pleaded guilty.

CALL TO CENTRAL CHURCH.

Rev. J. H. Hazelwood to Leave Toronto to Junction.

Rev. J. H. Hazelwood, D.D., pastor of Annette-street Methodist Church, Toronto Junction, has received a unanimous call to become pastor of Central Methodist Church at the close of the pastorate of Rev. J. V. Smith, which takes place in June, 1908.

The invitation was extended at the last meeting of the quarterly official board of Central Methodist Church. Dr. Hazelwood has accepted subject to the approval of the stationing committee.

FIGHTING THE FLAMES.

Immense Spectacle Which Will Be Feature of Monday's Circus.

No incident in life holds so keen an interest for mankind as a great conflagration; let the fire alarm sound, and no matter how preoccupied the mind may have been, all is forgotten in the all-absorbing question, "Where is it?"

Realizing this fact, the management of Forepaugh-Sells Shows has prepared a spectacle entitled "Fighting the Flames," with which the performances given next Monday will be opened.

The scenery alone necessary to represent a city in all its multitudinous grandeur of tall buildings, streets, hotels, markets and "skyscrapers," would be an impossibility to any show save the Forepaugh-Sells combination.

The new amphitheatre tent in which the fire spectacle is presented has been especially constructed for the purpose and is so large in length and width as to make all large circus tents heretofore seen appear small by comparison. The high ceiling, usually known as the hippodrome oval and surrounded by the auditorium, is this year so large that with the help of panoramic scenery it represents a busy city thoroughfare, surrounded by a large city park.

Facing this park and its surrounding streets is the great wall of architectural scenery. On the street, in the park, in and out of the stores, 1000 actors on foot, in carriages, automobiles, carts and bicycles, peanut vendors, newsboys, bootblacks, fruit sellers, peddlers, fashionably-dressed men and women are in motion.

The rushing fire wagon and blue-coated policemen appear; an officer rings in the alarm of fire. Flames are now shooting out from many windows. A terrific explosion is heard, with rattling glass, falling partitions, and people rushing, pushing and crowding. Amid the tumult come the clang and clatter of the fire apparatus, hose-carts and ladder wagons, ladders, hose-couplings, extinguishers, wall scaling devices and various implements for fire-fighting are the perfection of inventive genius and the very latest. The mechanical and electrical apparatus for the imitation of flame, smoke, steam and other pyrotechnic stage effects which make it unnecessary to resort to the production of this effect artificially are the newest inventions, and the 40 special fire-fighters have been picked from the leading fire departments of the large cities.

PROSPECTS IN DUFFERIN.

Several Candidates Eager For the Provincial Nomination.

ORANGEVILLE, June 21.—(Special.)—The Conservative convention to nominate candidates for the Dominion and local houses will be held at Shelburne on Wednesday next, and delegates to the number of 230 will be selected on Monday evening in the various municipalities throughout the riding. The number entitled to sit in the last convention, held in 1904, was 227.

There is little doubt but that Dr. Barr of Shelburne will receive the nomination for the commons, for it is said J. R. Gillespie, druggist, of this town, will divide the convention.

For the local house it is not so easy to pick the winner. John A. Best of Mulmur made a strong run at the last convention, but will be objected to by the Orangeville delegates, and there will be thirty-three of such.

C. R. McKeown, mayor, also is working hard, using lots of halitone photographs and printers' ink, and is quite confident.

Mr. E. Stewart will also go to the convention and is considered a strong man, and is the one disturbing factor in the McKeown following.

It is likely there will be an election, as the convention will be very likely harmonious, and the county is noted for "bolters."

Prices being about equal there is only one way to dress correctly—the Semi-ready way.

Each man requires individual treatment, and so our customers are physically diagnosed with a tape line, and the suits are then finished to their exact measure within two hours.

Finished exactly as the requirements of their forms dictate.

A \$30 serge suit, finished to your measure in the physique type suit, means that the clothes hold the original shape that we give them—and conform to the wearer's shape as long as he cares to wear them.

If you can't call, send for a copy of the booklet, "Dress and Address," which describes suits at \$15, \$20 and up to \$30.

ACCUSED OF STEALING \$3000.

MONTREAL, June 21.—Joseph E. Costin, an agent of the Mutual Life Insurance Company, was brought before the court this morning on a charge of stealing the sum of \$3000 from the company. Costin is alleged to have secured the money by means of a forged cheque. He pleaded not guilty and was remanded.

SIMPLY FORCED TO SELL.

What Lack of Store Space on Yonge Street Does.

Owing to lack of space in which to do full justice to the rapidly increasing tailoring business it is said that Crawford Bros., 211 Yonge-street, are arranging with Auctioneer Chas. M. Henderson to dispose of by auction their whole stock of men's furnishings. Mr. Crawford does not deny that such is the situation, but he has not yet decided on the exact date of the sale. He explains the position thus: "When we sold our building at Yonge and Shuter-streets we figured that by establishing our ladies' department at 254 Yonge-street we could get along in the new men's department at 211 Yonge-street until we could get more room. Ask anyone who wants to get a store property on Yonge-street down town and they will tell you whether or not they want to be comfortable. As it is now we have not the room to show stuff, but don't you have the impression that we are selling out our business, for it is now better than ever it was in all lines.

SHORTAGE IN PULP WILL AFFECT PRICES.

OTTAWA, June 21.—(Special.)—Advices to the trade and commerce department are to the effect that there is an immediate prospect of a settlement of the strike and lockouts which are paralyzing the pulp industry in Southern Norway. Indications are, therefore, that there will be a tremendous shortage in the output of the Norwegian Pulp Mills this year, a circumstance that is bound to affect prices.

TEN YEARS FOR CHARLES.

Admitted Setting Fire to Richelieu Restaurant.

For setting fire to the kitchen of the Richelieu Restaurant, 84 West King-street, a few days ago, Gordon Charles, who informed the insurance company of his action, was sentenced to ten years in Kingston Penitentiary by Magistrate Denison in the police court yesterday.

Charles Ward, on a grave charge, also got ten years. His wife and two daughters testified against him.

THE BRUCE OLD BOYS' EXCURSION.

The date for the Bruce old boys' and girls' excursion this summer was inadvertently given in The World yesterday as Friday, July 6, instead of Friday, July 5. The special trains for Warton and Southampton will leave at 7 a.m., returning the following Monday evening at 8:30 o'clock, and arriving about midnight.

STRENGTH FREE TO MEN.

How to Regain It Without Cost Until Cured

Strength of body—strength of mind! Who would not possess it if they could? It is nature's greatest gift—our most valuable possession. Without this strength life is a failure, with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dull and the mind slow to act. There are those who, through carelessness, have allowed the vigor of youth to pass away, and who, when they are old, find themselves weak, puny, broken-down men, dragging on from day to day who might be as strong and vigorous as ever they were if they would only turn to the right source. Electricity cures these weaknesses, it gives you back the very element you have lost! It puts new life into the veins and restores the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who is able to pay for it, my "Belt" FREE UNTIL CURED. You pay nothing down, you deposit nothing, you risk nothing; but upon request I will furnish you with the Belt to use, and if it cures you pay me my price—in many cases not over \$5.00. If you are not cured or satisfied, return the Belt to me and that ends it.

As I am the originator of this method of treatment and have made it a great success, there are many imitations of it, based on my name, but my knowledge, based on 40 years' experience, is mine alone. My advice is given free of charge.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt to the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Call or write for a Belt to-day, or, if you want to, look into the matter further. I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

THERAPION

A complete revolution has been wrought in the department of medical science, whilst thousands have been restored to health and happiness who for years previous had been suffering from a miserable existence.

THERAPION No. 1.—The Sovereign Remedy for Rheumatism, Suppurating Joints, Gout, Sciatica, Neuralgia, Migraine, Headache, Stomachic, Catarrhs, etc. The use of which does irreparable harm by its impotent cure, but which, when used as directed, restores the system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 2.—The Sovereign Remedy for Primary and secondary syphilis, eruptions, ulcers, pains and swelling of the joints, and all those complaints which mercury and arsenic are popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3.—The Sovereign Remedy for debility, nervousness, impaired vitality, sleeplessness, distaste and incapacity for business or pleasure, loss of appetite, blushing, indigestion, pain in the back and head and all disorders resulting from dissipation, early excesses, etc., which the faculty so persistently ignores, because it cannot cure or even relieve.

THERAPION is sold by principal Chemists throughout the world. Price in England 2/6 per packet; in ordinary sale, which of the three numbers required, and observe that word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Commissioners, and without which it is a forgery.

FOSTER GETS SECOND NOMINATION

Riding Association Asserts Its Independence of the Central Body.

North Toronto Liberal-Conservative Association asserted its supremacy in its own district last night by meeting in Simpson's Hall and nominating Hon. George E. Foster as the constituency's Dominion candidate.

Mr. Foster had been chosen by the central association, but the local body contended that the nomination was not valid unless confirmed by the organization immediately representing the people in the government side.

There was no objection to Mr. Foster; in fact, the meeting could not have been more enthusiastically in his support. There was no objection to Mr. Foster; in fact, the meeting could not have been more enthusiastically in his support.

Chairman John Harris pretty well voiced the sentiment of the meeting when he stated that Mr. Foster was the most trenchant critic in the house of opposition was so feared by the government as he.

Confidence in Mr. Borden and Premier Whitney and his government were carried amid great enthusiasm, and then the speaker turned to Mr. Foster, M.P.A. for North Toronto, to address the meeting.

Mr. Whitney, Mr. McNaught declared, would loom large in history. He had proved himself a man of action, a man of government from the first day he had taken hold and the confidence of the people in him was growing stronger every day.

When Mr. McNaught sat down brief addresses were made by Hilliard Birmingham and one or two others, after the adoption of a motion to wire Mr. Foster the news that the North Toronto association had given him the nomination.

With labor scarce in almost every line of trade, the outlook for a supply of operatives for the canning industry is not bright.

This was the opinion of several grocery traders engaged to The World yesterday.

It was suggested that perhaps if the wages offered were sufficiently remunerative, the industry could be kept in Toronto and other large cities to the towns where canning factories are located, but the view was expressed that, while the change to the country might be an inducement in hot weather, owing to the nature of the work, the canning industry could not hope to make enough by piecework to recoup them for the change of vocation.

The canning industry has been compelled to seek locations outside the city, and yet within easy reach of railroad facilities. In the small towns they can get and hold a force of employees sufficient for their regular requirements, but an extra heavy staff is necessary for the short season. In these smaller towns there is but a very small floating supply of labor that can be utilized for a brief period and the returned drift. And much difficulty is experienced in securing hands to pick small fruits, peas, tomatoes, etc. This has been the case for the past few years, but seems to be greater than usual this year.

Executors' Notice to Creditors.

Notice is hereby given, pursuant to Statute, that all persons having claims against the estate of John Kelley, deceased, who died on or about the 15th day of May, 1907, are hereby notified pursuant to R. S. O., 1897, chap. 123, and amending acts, to send in their claims, duly verified, to the undersigned solicitor for executor of the estate of the said deceased, on or before the 15th day of July, 1907, a full statement, with particulars, names and addresses, and nature of security if any held by them, duly verified. After such date, the executors will proceed to distribute the assets of the said estate, having regard only to the claims of which they shall have notice, and will not be liable for any claims of which they shall not have been received.

Dated this 7th day of June, A.D. 1907. W. B. TAYLOR, Executor for Executors of said Estate.

TENDERS

COUNTY OF PEEL DEBENTURES FOR SALE.

The undersigned, C. A. Irvine, Warden of the County of Peel, will receive tenders until Saturday, the tenth day of July, 1907, at the hour of eight o'clock p.m., for debentures numbered one to thirty-seven, both inclusive, of the debentures proposed to be issued by the County of Peel for the sum of \$100,000. The County of Peel proposes to raise for the improvement of the said highways the sum of \$100,000 by the issuing of debentures bearing interest at the rate of four per cent, annually, repayable in thirty years. Highest or any tender not necessarily accepted.

For further particulars apply to C. A. Irvine, Brampton, or T. J. Blain, Solicitor, Toronto, on or before the 15th day of June, A.D. 1907. C. A. IRVINE, Warden, Peel County.

allowed by the lateness of the season and the trade would likely be driven to England or the United States. The prices of canned goods are already 10 per cent. higher than they were last year, and a further raise may be expected.

This consideration of trade being driven from the country on account of lack of manure labor to handle it is regarded as most serious.

HIGHWAY OF THE FUTURE.

Cost of Construction Would Be Something Enormous.

The "future American highway," according to an inventor whose pamphlet is reviewed in Engineering News, will be a paved roadway 120 feet in total width, divided by longitudinal curbs into eight separate roadways, four for passenger cars and four for animal traction vehicles and a four-foot walk at each side in each direction. He provides a method of locomotion that nature furnished. The rest of the width is devoted to automobile tracks. As the cost of this remarkable highway would amount up to between \$100,000 and \$200,000 per mile, the inventor does well to call it a "highway of the future."

ESTATE NOTICES

ADMINISTRATOR'S SALE OF FRESHOLD PROPERTY

NOTICE is hereby given that James Hards, administrator of the estate of Mary Jane Hards, will offer for sale, by public auction on Wednesday, July 17, 1907, at the hour of 11 o'clock in the morning, at the Farm House, in the Village of Weston, the following real property: All and singular, that certain parcel or tract of land and premises situate, lying and being in the Township of Etobicoke, containing by admeasurement 6 1/2-100 acres, more or less, being the same more or less, being composed of the northeasterly part of lot No. 20, concession C, of the said township and which may be better known and described as follows, viz: Commencing at the northeasterly corner of said lot 20, concession C, of the Township of Etobicoke, on the southerly side of the road between lots 20 and 21, said concession C, at a point where the said southerly side of said road is intersected by the water line of the Humber River; thence westerly following the said southerly boundary of said road between said lots 20 and 21 as fenced in chains to the intersection of said southerly boundary thereof with the easterly boundary of a road commonly known as Scarlett's road; thence south 38 degrees east following the easterly boundary of said Scarlett's road 839 1/2 chains as fenced to the dividing line as fenced between the property of the late Charles Jones, Esq., thence east 1/2 chains to the former water line of the said Humber River; thence northerly following the aforementioned former water line of the said Humber River 1/2 chains, more or less, to the place of beginning.

The above property is beautifully located for residential or other purposes, within five minutes' walk of the Village of Weston, and abuts on the Humber River, and is located conveniently as to churches, schools, and electric railway.

Twenty per cent of the purchase money shall be paid to the undersigned, the balance within thirty days thereafter. The property will be sold subject to reserved bid and the conditions of sale prepared by the vendor's solicitor. For further particulars apply to John K. McEwen, auctioneer, 17 Weston, or to A. Bosworth Armstrong, 71 Weston, street, Toronto, solicitor for James Hards, administrator of the estate of Mary Jane Hards, deceased.

EXECUTOR'S NOTICE TO CREDITORS

Notice is hereby given pursuant to the revised statutes of Ontario, 1897, chapter 123, section 38, and amending acts, that all persons having claims against the estate of the above named George Franklin Bambridge, who died on or about the 25th day of December, 1900, are required to send or deliver their claims, or before the 15th day of July, 1907, to Messrs. Beatty, Blackstock, Fasken & Chadwick, Toronto, solicitors for Annie Maria Bambridge, executrix of the last will and testament of the said deceased, George Franklin Bambridge, deceased. And also that after the 15th day of July, 1907, the said executrix will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard to the claims of which she has notice, and will not be liable for any claims of which she has not been notified, and will not be liable for any claims of which she has not been notified, and will not be liable for any claims of which she has not been notified.

Dated at Toronto, this 4th day of June, 1907. BEATTY, BLACKSTOCK, FASKEN & CHADWICK, Solicitors for the said Administratrix.

The undersigned, C. A. Irvine, Warden of the County of Peel, will receive tenders until Saturday, the tenth day of July, 1907, at the hour of eight o'clock p.m., for debentures numbered one to thirty-seven, both inclusive, of the debentures proposed to be issued by the County of Peel for the sum of \$100,000. The County of Peel proposes to raise for the improvement of the said highways the sum of \$100,000 by the issuing of debentures bearing interest at the rate of four per cent, annually, repayable in thirty years. Highest or any tender not necessarily accepted.

For further particulars apply to C. A. Irvine, Brampton, or T. J. Blain, Solicitor, Toronto, on or before the 15th day of June, A.D. 1907. C. A. IRVINE, Warden, Peel County.

allowed by the lateness of the season and the trade would likely be driven to England or the United States. The prices of canned goods are already 10 per cent. higher than they were last year, and a further raise may be expected.

This consideration of trade being driven from the country on account of lack of manure labor to handle it is regarded as most serious.

HIGHWAY OF THE FUTURE.

Cost of Construction Would Be Something Enormous.

The "future American highway," according to an inventor whose pamphlet is reviewed in Engineering News, will be a paved roadway 120 feet in total width, divided by longitudinal curbs into eight separate roadways, four for passenger cars and four for animal traction vehicles and a four-foot walk at each side in each direction. He provides a method of locomotion that nature furnished. The rest of the width is devoted to automobile tracks. As the cost of this remarkable highway would amount up to between \$100,000 and \$200,000 per mile, the inventor does well to call it a "highway of the future."

ESTATE NOTICES

ADMINISTRATOR'S SALE OF FRESHOLD PROPERTY

NOTICE is hereby given that James Hards, administrator of the estate of Mary Jane Hards, will offer for sale, by public auction on Wednesday, July 17, 1907, at the hour of 11 o'clock in the morning, at the Farm House, in the Village of Weston, the following real property: All and singular, that certain parcel or tract of land and premises situate, lying and being in the Township of Etobicoke, containing by admeasurement 6 1/2-100 acres, more or less, being the same more or less, being composed of the northeasterly part of lot No. 20, concession C, of the said township and which may be better known and described as follows, viz: Commencing at the northeasterly corner of said lot 20, concession C, of the Township of Etobicoke, on the southerly side of the road between lots 20 and 21, said concession C, at a point where the said southerly side of said road is intersected by the water line of the Humber River; thence westerly following the said southerly boundary of said road between said lots 20 and 21 as fenced in chains to the intersection of said southerly boundary thereof with the easterly boundary of a road commonly known as Scarlett's road; thence south 38 degrees east following the easterly boundary of said Scarlett's road 839 1/2 chains as fenced to the dividing line as fenced between the property of the late Charles Jones, Esq., thence east 1/2 chains to the former water line of the said Humber River; thence northerly following the aforementioned former water line of the said Humber River 1/2 chains, more or less, to the place of beginning.

The above property is beautifully located for residential or other purposes, within five minutes' walk of the Village of Weston, and abuts on the Humber River, and is located conveniently as to churches, schools, and electric railway.

Twenty per cent of the purchase money shall be paid to the undersigned, the balance within thirty days thereafter. The property will be sold subject to reserved bid and the conditions of sale prepared by the vendor's solicitor. For further particulars apply to John K. McEwen, auctioneer, 17 Weston, or to A. Bosworth Armstrong, 71 Weston, street, Toronto, solicitor for James Hards, administrator of the estate of Mary Jane Hards, deceased.

EXECUTOR'S NOTICE TO CREDITORS

Notice is hereby given pursuant to the revised statutes of Ontario, 1897, chapter 123, section 38, and amending acts, that all persons having claims against the estate of the above named George Franklin Bambridge, who died on or about the 25th day of December, 1900, are required to send or deliver their claims, or before the 15th day of July, 1907, to Messrs. Beatty, Blackstock, Fasken & Chadwick, Toronto, solicitors for Annie Maria Bambridge, executrix of the last will and testament of the said deceased, George Franklin Bambridge, deceased. And also that after the 15th day of July, 1907, the said executrix will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard to the claims of which she has notice, and will not be liable for any claims of which she has not been notified, and will not be liable for any claims of which she has not been notified, and will not be liable for any claims of which she has not been notified.

Dated at Toronto, this 4th day of June, 1907. BEATTY, BLACKSTOCK, FASKEN & CHADWICK, Solicitors for the said Administratrix.

JOHN KELLEY, Deceased

Executors' Notice to Creditors.

Notice is hereby given, pursuant to Statute, that all persons having claims against the estate of John Kelley, deceased, who died on or about the 15th day of May, 1907, are hereby notified pursuant to R. NIAGARA CAMP BREAKS UP AFTER GOOD REVIEW

General Otter Expresses Satisfaction at Showing of Troops—Body Guards Lead March.

NIAGARA—ON-THE-LAKE, June 21.—(Special.)—With the annual review of troops, which finished just before 6 o'clock to-night, the field duties of the soldiers in camp were wound up for 1907.

The brigades were reviewed by Brigadier-General Otter, near whom sat Rear Admiral John Denison of the British fleet, a keenly interested spectator. Both the general and rear admiral expressed themselves as exceedingly well pleased with the progress made by the army of raw recruits in the short period allotted to them by the government.

Upwards of 10,000 people witnessed the spectacle. When the full strength of the camp was lined up the four brigades stretched a good mile from north to south of the commons. The cavalry brigade was given first place, the A.M.C. (three companies) second, and then the third, fourth and fifth infantry brigades, with the 13 massed bands in the centre rear.

For almost half an hour the army stood thus immovable, while in front of them were reporting to the brigadiers and these in turn to Gen. Otter and staff, who occupied a position 50 paces in front of the ranks.

The general and staff then advanced to where the Union Jack had been planted and the army was put on the march. The first march, then west, then south, to pass before the commanding officers and Rear Admiral Denison.

Body Guards Lead. The Body Guards, in four well-filled squadrons, headed by Lieut.-Col. Merritt, brigade commander, were the first to salute. Their almost perfect alignment and erect, easy poise in the saddles called forth an ovation from the spectators as they marched along the line, and also elicited a complimentary ejaculation from the rear admiral. Gen. Otter said not a word. He sat his horse flat as a table as a statue with the right hand in an attitude of constant salute.

Four squadrons, each of the 1st Hussars, 2nd Dragoons and 9th Mississauga Horse followed, with equal good order. Three companies of the Army Medical Corps with their red cross wagons came next.

The composite regiment headed the 3rd Infantry Brigade and, despite the great advantage this organization had over the country corps when they entered camp, could not be pronounced superior in marching order to the 4th (Indians), 44th and 77th Regiments of the 5th Brigade, and the 12th York Rangers of the 1st Infantry brigades.

The three infantry brigades were marching past "eyes right" the cavalry were put into a gallop around the outer edge of the parade grounds, and were allowed to come once more before the general, in columns of troops on the trot.

The infantry brigade then returned, with an "eyes right," in quarter column order. This time the 7th Regiment of the 5th Brigade leading, with the composite regiment of the 3rd Brigade in the rear.

All troops were once more lined up in regiments, from north to south, with the massed bands in the centre, and the whole army, a mile long, advanced toward the general in review order.

Most Successful Review. Gen. Otter, in a brief address to the brigadiers, pronounced it one of the most successful reviews he had ever witnessed outside of the regular army, and complimented each brigadier on the progress his command had made in the two weeks at camp.

Already preparations are being made for breaking camp. The 23rd Regiment, from Parry Sound and North of the line, and the 4th and 5th squadrons of the G. & B. G. entrained to-night for the journey home.

Wills & Company, Brokers Weekly Bulletin Toronto, June 22, 1907. The market conditions of the Cobalt stocks remain practically unchanged. Lower levels are being found by all of them with the exception of Silver Leaf. This stock has been strong and reported finds. Our report on this property shows that the vein discovered is a very good one, nothing, however, to become over-enthusiastic about. This stock is safe to sell on bulges, and buy on reactions. Silver Queen people are adopting a good policy by advising the shareholders as to the conditions of their mine. They still show that they feel resentment toward any of their shareholders who would think of disposing of their stock. If this company will keep on mining, the market will strengthen considerably. The Foster Mine is the only cloud that now hangs over the Cobalt market, and we believe that after the shareholders' meeting on the 27th inst., when this is cleared up and the worst is known, the whole market will strengthen considerably. We do not look, however, for any rapid advances until later in the fall. Nipissing Mine is uncovering on an average of one new vein per day. The camp never looked so prosperous as it does now. Everybody is busy and the work here is being done at a rapid rate. Tell on the market later in the season. Advice is to buy Treshway and Nipissing on these levels. Yours very truly, WILLS & CO.

CONDEMNED TO DEATH. KIEV, Russia, June 21.—The court-martial convened to try the courageous snappers at the summer camp, at Banlevka, is said to have acted with promptness and severity. It is reported that forty-eight mutineers have already been condemned and shot. Bakery Badly Gutted. NIAGARA-ON-THE-LAKE, June 21.—Shortly after 4 o'clock this morning Frank Thomas' bakery on Queen street was badly gutted by fire. Mr. Thomas and his wife were forced to make their escape by a ladder from the second storey window. The damage is estimated between \$600 and \$700, with no insurance. Had an All-Night Session. NORFOLK, Va., June 21.—The Travelers' Protective Association, after an all-night session, to-day elected W. R. Johnson of Knoxville, Tenn., president and selected Milwaukee, Wis., for the next meeting.

THE HIGHEST RECOMMENDATION

for the shares of the LUCKY BOYS GOLD MINES, LIMITED, is the fact that large blocks are being rapidly subscribed for at Cobalt, Halleybury, New Liskeard and Larder Lake. We are receiving letters from mining engineers and miners every day reserving large blocks of LUCKY BOYS shares. These men have been over the ground, and in all of the letters we receive from them they say that the properties are even better than we represent them, and that LUCKY BOYS will be the greatest and most profitable mines in the Larder Lake district. The fact that these experienced men are investing their own money in LUCKY BOYS should be sufficient to satisfy the most sceptical. Miners employed on the nearby mines are all pinning their faith to the LUCKY BOYS. They are buying all the shares they can. They realize what a splendid investment they are getting in buying LUCKY BOYS at SIX-CENTS PER SHARE. They know a good thing when they see it. Are you going to join them in making a fortune? Bankers and conservative business men throughout the whole country are now buying LUCKY BOYS for their investment. We strongly advise our clients not to hesitate, but buy LUCKY BOYS to-day at SIX CENTS PER SHARE. We have only one million shares to dispose of at this price, and at the rate that these shares are being absorbed we predict that they will not last long. The public will be falling over themselves six months from now trying to buy

LUCKY BOYS

at One Dollar per share or more. We strongly urge the immediate purchase of these shares. We are placing our own funds in it and we are willing to stake our reputation on the merits of LUCKY BOYS. The LUCKY BOYS' properties consist of 20 claims of 40 acres each, making a total acreage of 800 acres. Some of the claims adjoin the famous Reddick claims, others adjoin the Proprietary Gold Fields, and others adjoin the wonderful Blue Bell properties.

We have sent our own mining engineers to examine and report on the properties, we have looked exhaustively into the merits of LUCKY BOYS before offering the shares to our clients. We question if an opportunity like this will ever present itself to you again. We advise our clients to buy LUCKY BOYS. We advise you to buy all you can, you are bound to greatly profit thereby. The stock of the LUCKY BOYS is actually worth a great deal more money than the price we are asking for it. Our engineers figure there is in sight on the properties of this Company gold equal to many times the par value of the total capitalization of the Company. All it requires for investors to make money is to have faith and confidence in the LUCKY BOYS proposition, and we strongly advise investors to put every dollar that they can in these shares at the present price.

Could you visit the Larder Lake district and examine the properties, as we have done, you would not hesitate a single moment in placing every dollar at your command in the shares of LUCKY BOYS at

6 CENTS PER SHARE

(Par Value, \$1.00. Fully Paid and Non-assessable.)

It should be noted that all of the Directors of the Company are well-known and successful business men—not men that are simply interested in a mine—but men that are miners in every sense of the word, and who know how to operate, maintain and conduct a mine in a business-like manner, and who have been connected with the strongest and most successful mines in the Cobalt camp. These gentlemen are just the kind of mining men that investors should be glad to become identified with. The fact that some of these gentlemen, who are Directors of the Company, and originally owned a part interest in some of the LUCKY BOYS claims, are buying the shares at 6 cents each with the cash that they receive for their interest in the properties should be sufficient to satisfy the most sceptical. These men know what a splendid investment they are getting in buying the shares at 6 cents each.

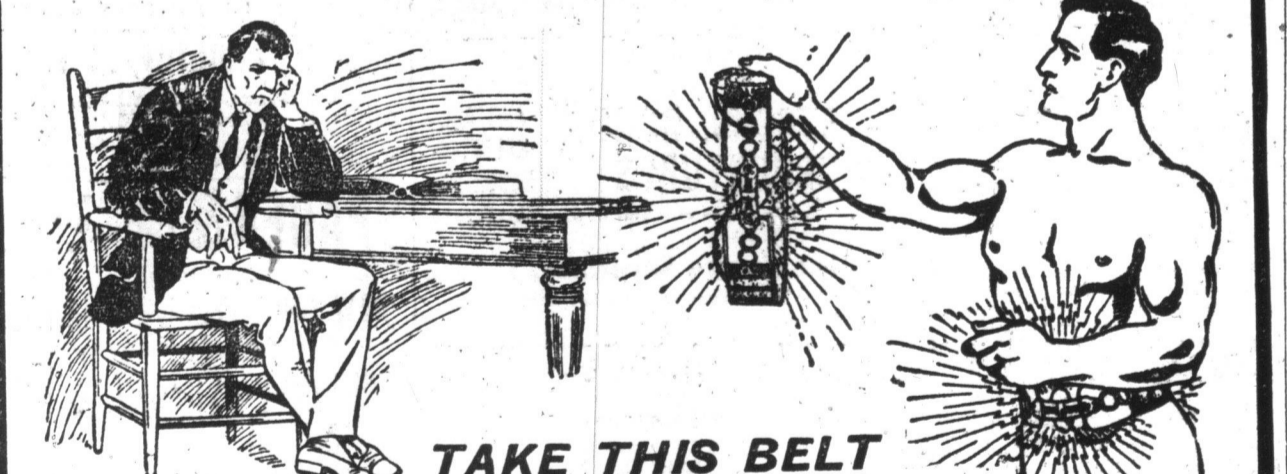

The mineral production during the current year has been remarkable as compared with former records, and it will be still greater in 1907. Remember, when you see the enormous advances in the prices of Larder Lake mining securities that are coming immediately and that will continue for months and months, if not for years, that we told you to select one or more good stocks, and that a small investment in them will yield inside of a very short time enormous profits that would be impossible in any other industry.

We are not trying to sell stocks of LUCKY BOYS to uneducated or half-witted people. We are trying to interest legitimate business men in a proposition that we believe will turn out to be one of the greatest of its kind the world has ever known, and again we say, if you are not in a position to hold this stock until such time as the LUCKY BOYS GOLD MINES, LIMITED, properties are developed, we do not want you to buy it. A mine cannot be developed in a day any more than a railway of 50 miles can be built in an hour, and no railway ever paid dividends or ever amounted to anything until the trains were running, and a mining property cannot amount to anything until the ore is being treated. People who purchase the stock of the LUCKY BOYS cannot expect the Officers and Directors of the Company to pay dividends until dividends are earned. We do honestly believe, however, that before the present summer is past LUCKY BOYS will be paying dividends to its stockholders. We are in business to-day and we propose to stay in it while there is any business to be had, and we can say to you now that in some years to come we expect to be counted among the financial houses that are spoken of and referred to in the highest terms by investors.

When we offered the first block of Blue Bell shares, we predicted that the Larder Lake district would be the greatest gold district in the world, and our predictions are being endorsed daily by miners arriving from the golden north with the beautiful specimens of pure free gold. These men fully endorse our predictions. The time is not far distant when the eyes of the whole world will be concentrated upon the wonderful golden north of New Ontario.

A year ago very few white men had trodden the trail through the Larder Lake district. To-day the greatest stampede the world has ever known is taking place. Capitalists, mining engineers and prospectors are now "bitting the trail" and hurrying through as fast as they can. Millions of dollars will be offered for some of the Larder Lake properties within the next few months.

Chicago Futures Firm.

World Office, Friday Evening, June 21. Liverpool wheat futures closed to-day at 48 1/2 lower and corn futures 44 to 46 lower than yesterday. At Chicago July wheat closed unchanged from yesterday; July corn 1/2c lower and July oats 1/2c lower. Winnipeg car lots wheat to-day 13c year ago 2c.

ST. LAWRENCE MARKET.

Receipts of farm produce were 270 bushels of grain, 25 loads of hay, with a few dressed hogs, and a large delivery of butter, eggs and poultry. Wheat—Two hundred bushels sold at 50c for fall. Oats—One hundred bushels sold at 37c to 38c for timothy, and 34 to 35c for mixed. Dressed Hogs—Prices ranged from \$1 to \$2.50 per cwt.

Chicago Markets.

Marshall, Spader & Co. (J. G. Beatty), King Edward Hotel, reported the following fluctuations on the Chicago Board of Trade: Open. High. Low. Close. Wheat—July 94 1/2 95 94 1/2 94 1/2 94 1/2 94 1/2

Chicago Cattle.

Marshall, Spader & Co. wired J. G. Beatty at the close: The market was extremely nervous to-day and the trading was largely for large speculators to operate without filling up the bull contingent. The strike of the telegraph operators in San Francisco, which will occur at 11 p.m., Chicago time, and the threatened strike at Pittsburgh and New York, has curtailed the trade somewhat.

MANY LOTS BURNED OVER

Settlers at Chapleau Had Hard Time Saving Village—Many Lose Supplies. Word has been received at the parliament buildings that a heavy rain is falling along the line of the T. & N. O. Railway between New Liskeard and Moose Lake, and all danger of further fire in that district is over the present.

At Chapleau the fire approached so close to the village that it was with the greatest difficulty that the people saved their homes. The whole population had to turn out to fight the flames, and it was only after hours of hard work that the danger was averted.

NORTH YORK LIBERALS HAVE GALA TIME

Rain Falls to Dampen Enthusiasm — Jury Empanelled Adjourns For Week.

AURORA, June 21.—(Special.)—In the pretty little Town of Aurora, the home of T. Herbert Lennox and Fred Underhill, Conservative and Liberal candidates in the legislature for the historic old riding of North York, an attempt was made to revive the old-time enthusiasm and vigor which has marked the history of the latter party in days past.

For a long time flaming posters have heralded to-day's event, and the presence of Hon. Mr. Aylesworth and Hon. Mr. Lennox, postmaster-general, was secured for the occasion. The latter arrived (owing to a detention on the C. P.R.) at the eleventh hour, but the visit and address of Hon. Mr. Lemieux (his first appearance in Ontario) was the event of the day. The latter met with an excellent reception, as did all the candidates. The line of procedure, as marked out by the reception committee, was generally adhered to, the only extra number on the bill of fare being a short, sharp thunderstorm, in the middle of the proceedings, which had the effect of scattering the crowd, variously estimated at from 500 to 1000, in all directions, and delaying for about half an hour the flow of oratory.

But in that lull the sun shone again and the speaking, which had been temporarily carried on in the drill hall, was resumed in the park. The attendance from outside the riding was fairly representative, the majority of the visitors arriving on the grounds shortly before noon. A party comprising Hon. Mr. Graham, H. M. Mowat, president Toronto Reform Association; F. G. Inwood, Liberal organizer; W. F. Sutherland, J. C. Irving, Sir Amelius Irving, J. F. M. Stewart, local organizer; J. H. Denton, H. H. Dewart and others came up at noon and were escorted to the grounds, where an elaborate luncheon had been prepared by the ladies. A number of sporting events were run off during the afternoon, prior to the speaking, all of which were keenly contested.

H. S. Cano, president of the North York Liberal Association, was chairman; H. M. Mowat and F. G. Inwood spoke briefly, the latter urging the necessity of organization, and pointing victory in the near future. Mayor H. W. Fleury read an address to the various speakers, reciting the assets of statesmanship carried on under the late provincial and the present Dominion parliaments and paying a glowing eulogium to Sir Wilfrid Laurier in particular.

Hon. Mr. Graham spoke briefly, and with efficiency. He attacked the Whitney government along general lines, and charged them with cowardice in the appointment of commissioners to shield themselves. He repeated his old charge regarding the maladministration of affairs in the license department and created a little sensation by the statement that Chairman Brunton of the North York License Board had resigned within the last few days, because he would not do the behests of the department in the Queen's Park.

Hon. Mr. Aylesworth declared that the Liberal party had its original grievances arising from the family compact. That rebellion was not against the crown, but against a party seeking its own end.

The Liberal party, said the minister of justice, stands for toleration. What the Conservative press of the day which seeks to assail the first minister on every pretext. He next turned his attention to Dr. Sproule, as representing the Orange body now in session in British Columbia. “What do you think,” said the speaker, of a man so intolerant as to find cause for offence in the fact that Sir Wilfrid Laurier, while in Rome, pays his respects to His Holiness as the lead of the church? As well charge myself, brought up in a Methodist home, with paying my respects to Dr. Carman, a Presbyterian with calling on his moderator. He charged that disension existed between Mr. Brodie and Sam Hughes, M.P., over the latter's intolerance. The latter was charged with saying that the Rev. Sidney Fisher were matters of history. The strong administrative ability of an Oliver, and a Sitton, had made the man in Canada had ever done more to harmonize conflicting interests and races than Sir Wilfrid.

“You are being told in Quebec,” said the postmaster-general, “that we in the Province of Quebec, are not loyal to British law and institutions. Do not be afraid of our loyalty. It does not come from the lips, but from the heart. We have inherited a religious creed,” said the speaker, “and we will maintain it.”

Fred Underhill, the candidate, was visibly agitated when called upon, but had prepared himself for the occasion by a typewritten address, which he read to the audience. The meeting closed with the customary cheers. In the evening a promenade concert was held in the drill shed.

operatives are engaged in night and day work, it has no hospital accommodation, either medical or surgical.

The Junction contains a resident population of over 10,000, which has doubled in a very few years and will double again within the next five years. There are 2000 Canadian Pacific Railway employees in the shops and yards. The Canada Foundry Co. employs nearly as many more. The Canadian Cycle Motor Co., Hamilton Piano Factory, the Dodge Wood Spill Pulley Co., Gurney Co., Heintzman Piano Factory, the Union Stock Yards, Gunn's Soap Leavack & Martin Co., Comfort Soap Factory, are among the important labouring industries. It is inevitable that not only medical but surgical cases are being brought in. It is not infrequently attended to by having three-quarters of an hour with a private ambulance.

A unique circumstance seems likely to arouse now the interests concerned with the necessity for a hospital establishment in the town. With the enforcement of rooms and their adaptation for wards, especially the public wards, which would be provided by the spacious hall-rooms. It is declared that the Heydon House could be converted into a hospital at a minimum cost. Over 150 patients could be easily accommodated.

It is understood the Heydon House was about to be sold and converted into stores and living apartments, owing to the increased demand in the Junction, when Dr. Heydon took the initial steps to organize a company for the maintenance of the hotel, Alexander Heydon, who owns the hotel, is willing to assist and the provincial government, the town council and the Junction captains of industry will probably co-operate also.

Greenberry will take place to-morrow afternoon at 1 o'clock from the home of her daughter, Mrs. Wesley Johnston, to Stouffville Cemetery. Mrs. Greenberry leaves a family of four sons and three daughters, all of whom, with the exception of Joseph H., of Montana, will be present at the funeral. The other members of the family are: William of Stouffville, Reuben of Toronto and John of Lindsay. The daughters are: Mrs. Gorley of Eugene, Mrs. Wesley Johnston and Miss Amelia, at home. Mrs. Greenberry was presided over by her husband a number of years. She was a member of the Congregational Church.

Considerable feeling has been aroused in the present instance by the failure of the driver of the auto, R. Bowers, to come to the rescue of the ladies, instead of remaining seated in the machine. It is not charged that the machine was going at a fast rate, but sufficient time elapsed after the horse exhibited signs of fear to assist in the work of holding it. Numerous cases are being cited by the farmers where automobiles have shown the utmost disregard for lady drivers, and this has served to arouse feeling in the matter.

PICKERING.
Independent Telephone Company Are Active—Gossip Look Well.

PICKERING, June 21.—The Methodist garden party at the residence of H. G. Calvert here on Thursday evening was most successful.

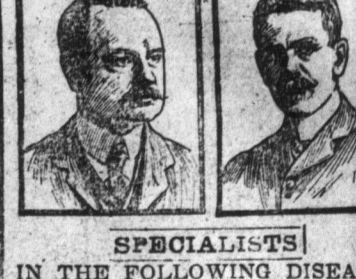

Crops in this vicinity are looking fairly well. Hay will be short and more corn is being planted. The Orthodox Friends' yearly meeting is in progress at this place and many visitors have arrived. John Bell of Audley is not improving and his friends are anxious as to his condition. He is 71 years old and has never been sick before.

There is some talk of a publicity department being established here, whereby the advantages of Pickering as a residential place may be advertised. Pickering freemen are planning for a big time on the first of July. The college grounds have been engaged and a good program is arranged for. A meeting of the Independent Telephone Co. will be held in the Audley schoolhouse next Monday night. It is expected that there will be a hot time.

G.T.R. WILL SPEND \$50,000.
LONDON, Ont., June 21.—The Grand Trunk management have approved of the expenditure of \$50,000 on the extension of the company's shops in the east end. The plans are now in the hands of the chief engineer, Mr. Holson, and it is expected that tenders will be called for at an early date.
