Dairy and Cattle Interests Big Factors Many Farmers Watch Butter-Makers Work Judging in Four Breeds Attracts Throng

Agricultural Element Here Several Days in Advance of Farmers' Day.

The farm and the substantial products of the agricultural world were in evidence around the grounds during Friday. The dairy and cattle interests were the controlling factors, and the farmer was Farmers' Day on the program. The material wealth of the soil has attracted so much attention during the early days of the Exhibition that the agricultural element has arrived several days in advance of the usual throng.

In the dairy competition, the work of the day was wholly among the professional class. That is the term used to designate those who have graduated from a regular course of instruction. The prize winners will be announced today. Next week the non-professional competition will commence—open to wives of farmers, farmers' sons and daughters. J. A. McPeeters of Guelph is the judge of the butter making contests. To The World he remarked yesterday that the quality of the butter exhibited this season is much better than in previous years. The interest in the work was manifested by the several hundred persons in the building all the time.

George H. Barr of the Strathroy Dairy School was the lecturer for the day. He spoke entertainingly of the methods of the business in Western Ontario. He thinks the work of the dairy workers of the Dominion takes a deservedly high place in the estimation of the commercial world. Each day some eminent authority on the subject will speak in the afternoon at the dairy building.

The class of demonstrators in the forenoon was Miss Mary L. Green, Loyal, Ont.; Mrs. Katie McVoy of Guelph; Richard M. Player, Owen Sound.

G. W. Ensminger of Toronto Struck With .22 Rifle Bullet, Yet is Apparently Unhurt.

To few men, if any, has been granted the experience and the power to relate that experience which befell G. W. Ensminger of No. 1 Blong-Avenue, Toronto, who yesterday was walking around town with a .22 rifle bullet in his brain, apparently little the worse for a truly remarkable accident, which occurred at Port Perry on Thursday. His misadventure is owing to the liberty which sports of that place have enjoyed in shooting sparrows, and it was a bullet feathered with lead which penetrated his forehead and lodged in his brain.

Mr. Ensminger, a wholesale dealer in butter and eggs, and in the course of his business makes weekly trips to Port Perry. On Thursday, having driven to that place, he had given his team the reins and was standing on the step of the sleight house, when he was struck by a bullet which passed through the rim and crown of his hat and penetrated his forehead fully three-quarters of an inch. Mr. Ensminger staggered for a moment, but he was not hurt. He was taken to the Sleight House, and two local physicians were summoned.

An examination revealed the fact that the bullet had entered the head about two inches above the left ear. On probing the wound, the doctors were unable to locate the bullet and said that it was impossible to state definitely whether the bullet was still imbedded in Mr. Ensminger's head or had slanted out again.

A party of local sports, accompanied by citizens of Toronto, had, through the law, engaged in shooting sparrows, and to this cause Mr. Ensminger's unfortunate accident is attributed. The parties in question were within forty yards of the Sleight House at the time of the accident, and on becoming aware of the result of their original carelessness immediately left, not waiting to inquire into the condition of their victim.

On several occasions recently a number of citizens of Port Perry have been placed in a position of jeopardy through the firing of a bullet by a party of sportsmen. Remonstrances have proved of no avail, and it has recently been suggested that the authorities of the town to a sense of their dereliction in the matter.

A remarkable feature of the shooting was the fact that a member of the local constabulary was standing on the steps of the Sleight House at the time of the accident, and that he was not aware of the shooting. Mr. Ensminger does not anticipate any serious complications, tho he is naturally a little worried.

British Alaskan Argument Line May Cross the Inlets

And Then It Would Still Follow the "Coast"—Yankee Con- tentions Refuted.

New York, Sept. 4.—The Sun's London correspondent thus expresses the British argument in the Alaskan Boundary: The British argument makes a volume of 137 folio pages, which deals exhaustively with the seven questions under consideration. In reference to the question as to what channel is the Portland Canal, Great Britain contends that it is that which Vancouver named on entering the ocean between the British Island and Kananaghut Island, leaving Sitka and Prince of Wales Islands to the south and east, it extends northerly eighty-two miles to its head. The contention of the United States that the observatory inlet was meant is also refuted. Great Britain contends, on the other hand, that if there must be a departure from the line must run through the Strait and Ernest Sound, or up Behm Canal on one or the other side of Revillagigedo Island.

Follow Shortest Route.
The British contention on the third question is that the inlet must follow the shortest route, and that the text of the treaty supports the British view. In reference to the parallel of 54 deg. 40 min. being the southern

boundary Great Britain discards the line from the head of Portland Canal to the fifty-sixth parallel of latitude should be the shortest possible to the point on that parallel which the tribunal decides is the starting point of the eastern boundary of the island.

The principal effects of the British argument are directed to the fifth question, to which some forty pages of the argument are devoted. Great Britain understands this question to mean that the tribunal is to decide whether it was an essential characteristic of the Hsiere or strip that it should not be traversed by inlets, in other words whether the eastern boundary should necessarily run around the heads of all inlets, the definition of which is almost vital to the entire question.

Coast Same as Ocean.
The words "coast" and "ocean," Great Britain contends, refer to the same thing. The windings of coast are those of a coast which limits the ocean.

The American contention of "tidal water" is dismissed as out of the question. The Thames, at Richmond, is unquestionably under tidal influences. So is New Orleans, on the Mississippi. But, according to the British argument, one could not by any stretch of imagination call these two points parts of the ocean. It is pointed out

FAIR NOW \$12,000 AHEAD PIONEERS DRAW CROWDS

Men Who Have Made Canada What She is To-Day Turn Out in Great Numbers.

With an excess of twelve thousand dollars in receipts over the first six days of last year the Exhibition closed its first week last night. It was Pioneers' Day, and the estimated attendance was placed at 28,000. For Thursday the official figures show an admission with coupon tickets of 38,000. These are some of the factors in the enthusiasm that the management is manifesting.

There was a big crowd on the grounds, the Friday is ordinarily a dull day. Every building, the grand stand and the midway were generously patronized. The process building received much attention, and many visitors watched the various stages through which different articles of commerce pass from the raw material to the finished product. The Jubilee gifts and the fine exhibit of the West Indies received a large share of attention. Pioneers from all parts of the Dominion were present in goodly numbers, and they had their families with them. Lord Lynden and his party of visitors from the Dominion will reach Toronto this morning and will be the guests of the management. Altogether the second week of the fair opens very auspiciously, and fifty thousand visitors are expected to be present during the day, while the "Carnival of Venice" will probably have standing room signs up early.

Talked Imperialism.
Pioneer and Empire Day saw a goodly company at the directors' luncheon, in which were represented many of the old timers, fathers of the Fair, with heavy beards, who related to see once more the strides made and the improvements wrought at the great Exhibition. Imperialists were also much in evidence, headed by Lieut.-Col. Denison. Among others round the tables were: George F. Harworth, Dr. W. H. Bluking, G. E. Gibbard, R. Southern, A. E. Mayor, Whitehead, C. A. Zavitz, O. A. C. Guelph, James Spooner, Toronto; James Goldie, Guelph; W. W. Stark, Brampton; Norman Ballantyne, Stratford; A. King, Byron; W. W. Ballantyne, Stratford; R. Pringle, Cobourg; D. R. Wilkie, Toronto; G. A. Pattillo, Etobicoke; J. A. Denison, S. R. Hesson, ex-M.P., Stratford; Henry Lounsbury, John A. Bruce, Hamilton; F. C. Bruce, Hamilton; William Drouin, Brooklin; W. G. Pettit, Freeman; Herbert Shearer, Rochester; W. H. Shearer, Villa Nova, Ont.; George Galt, D. B. Reid, F. R. Hillwell and Col. Hamilton.

After the toast to the King had been drunk, President McNaught said it was gratifying to note that Canada was attracting greater attention all over the empire than at any time in her history. He thought that the time had arrived when it was beneath our dignity as Canadians to hang on to the Mother Country, and that we should certainly contribute to imperial defence, and that in no negligible manner.

Mr. McNaught then read a letter from Hon. P. P. Pelletier of Quebec, who regretted being unable to attend the luncheon, and in which he spoke of the good feeling existing between the sister provinces, separated by the Ottawa River.

D. R. Wilkie was the next speaker, and he heartily concurred with the President's remarks about the West Indies and Newfoundland, and the treaty between Canada and these countries. Speaking of Newfoundland and Confederation, the speaker said that it was

Hammond Says That Scott and Davis Are Liars.
O. C. Hammond, partner of E. B. Oler, M.P., answering The World's question: "What do you think of the attack of Messrs. Scott and Davis on Mr. Oler?" said, yesterday: "Really, politics is something I do not understand, and it is too dirty water to wash in, but I will say by my own knowledge of business principles, that Scott is a liar and Davis is a d— sweep, and a sanguinary perverter of the truth, whatever that means, and if either is a gentleman he would know it."

BRITISHERS DRENCHED.

Inexperienced Steersman Gives Lord Braye an Uncomfortable Time.
Ottawa, Sept. 4.—(Special.)—Lord Lynden and his party of British M.P.'s with their ladies, left for Toronto tonight. They visited the Chaudiere this morning and took a trip thru the slides, under the supervision of Mayor Cook. The river boat on which Lord Braye made the swift journey was in charge of an experienced steersman, and in making his way down the broadside to the stream. His lordship and those with him received a thoro drenching.

CIVIC LIGHTING PLANT.

Recommended to Ottawa Council as a Paying Investment.
Ottawa, Sept. 4.—At a meeting of a special committee of the City Council tonight, it was decided to recommend the Council to establish a plant next year to do the city's street lighting. An expert has figured out that the city would save money. The amount now paid would more than provide the sinking fund and interest. It is proposed to buy power from one of the numerous companies. The city owns its own building and plant.

Put Off Till September 14 Weary Commons Adjourn

Compromise in Discussion of G.T.P. Bill Reached After a Mighty Long Sitting.
Ottawa, Sept. 4.—(Special.)—Except for two brief intermissions the House was in continuous session from 8 o'clock on Thursday evening till 10:30 to-night. At 1 o'clock this afternoon the House rose for the regular midday intermission. This was the first break in a sitting that lasted exactly sixteen hours. The usual afternoon session was held, and as usual the Speaker left the chair at 6 o'clock to resume again at eight. Then the House adjourned till to-morrow, when it will meet for another seventeen hours' session.

Truce Declared.
But at 11:30 to-night the government and opposition came to terms. Several agreements were drawn up, which failed to suit both parties. Sir William Mulock and Mr. Monk finally got together and evolved a document which made it clear that both the government and the opposition had won. THE GOVERNMENT CONSENTED TO ALLOW CLAUSE TWO, WHICH INVOLVES THE WHOLE PRINCIPLE OF THE BILL TO STAND FOR FUTURE CONSIDERATION. It also agreed to allow clauses 7, 8, 9 and 10 to stand. In lieu of these concessions the opposition consented to pass all the other clauses previous to clause 12. One provision of the settlement is

that further consideration of the Grand Trunk Pacific bill shall be deferred till Sept. 14. Minor measures will be considered on Monday. On Thursday next the redistribution bill may be taken up.

The cause of the prolonged session was the Liberals' refusal to supply information concerning the location of the route between Quebec and Winnipeg to the opposition. Sir Wilfrid Laurier has stated that the government is in possession of "mountains of information." Where is this information, and why is it not revealed for the use of parliament, which is asked to sanction a project involving over a hundred million dollars? The government was given warning in the House the other day, when Mr. Monk stated very plainly that unless more information was furnished the passage of the bill would not be expected. The Premier's answer had no heed to this request. He is repeating the method followed in the railway committee. The Liberal's refusal to supply information was a deliberate act, and it is to be regretted that the government has given its charter before the route was located. Now parliament is being asked to ratify the contract and receive the information later. It is the old game of reversing the natural order of things. The government is determined to railroad its bill through the House, and to achieve this purpose it does not hesitate to force a sitting of 17 hours on members.

Compromise Sought Twice.
Twice the opposition sought to effect a compromise. They wanted to reach an understanding, but the government refused to do so.

MR. TARTE TOLD THE TRUTH ABOUT AN EARLY ELECTION

Reiterates That Some Favor This Idea Owing to State of Premier's Health.
Montreal, Sept. 4.—(Special.)—Until J. Lorne McDougall comes off his perch or is forced down the government will have difficulty in proceeding with its banking business. The embezzlement of the auditor and the treasury board results from the government's determination to put into practice some of the recommendations made by the commissioners who investigated the account keeping methods of the department as a result of the Martineau frauds. The commissioners' report was somewhat severe upon the Auditor General for the supplement to his report defending his acquittal, declaring in effect that the Bank of Montreal is the loser by the frauds and not the government. Now he dissents from the decision of the Treasury Board to carry out the recommendation of the commissioners, to have all cheques returned to the Finance Department instead of to the department by which they were issued. The outcome of the difference between the Auditor and the Finance Minister has a special significance for the civil service inasmuch as Mr. McDougall's attitude may result in his declining to recognize the departmental letters and credits against which cheques for salary are issued.

LIGHT MANITOBA FROST BUT CROP NOT DAMAGED

Thunderstorms were prevalent over Ontario and Quebec yesterday. In Toronto there was thunder and lightning, but no rain. There has been little rain throughout the province during the past twenty-four hours. A cool wave is blowing up from the north and the northwest. Last night Manitoba and the Northwest Territories were visited by a light frost. The frost was not sufficiently severe to cause any damage, however.

Oxford Mills, Sept. 4.—During a severe electric storm, which passed over the section about 6 p.m., the barns and other out-buildings belonging to James A. Pettapiece, one and a half miles east of here, were struck by lightning, and the entire season's crop of hay and grain, totally destroyed. The loss is partly covered by insurance.

HAIL DOES DAMAGE.

Newtonville, Sept. 4.—A terrific thunderstorm of wind and hail passed over here about 6 o'clock this evening. Hail fell thick and as large as marbles. The lightning struck a large spooling machine from the roof, sending several nails and shattering a post. The lightning struck the roof and struck the fence on the opposite side, breaking the fence and shattering the heavy wind and hail did a lot of damage to the fruit, apples, and other fruit being blown down in large quantities.

BROUGHAM HIT HARD.

Perhaps Canadian yachtsmen are prepared to do this, but the Shamrock and go thru a tremendous discipline. If not, experts on the Shamrock will be struck by the fact that they will have the same fate as Lipton."

THOROBBREDS ARE JUDGED

Polo Ponies, Roadsters, Hunters and Heavy Draught Horses Receive Awards.

Many classes of the thoroughbred horses were judged Friday afternoon at the Exhibition. Robert Davies, Toronto, carried off most of the prizes in these classes. Mr. Thistle won the silver medal for best mare any age. In the thoroughbred classes, Dalmoor, the Queen's Plate winner of 1900, won the prize for best stallion, any age. Awards were also made in some classes of the ponies and polo ponies. The performance of the ponies was most interesting to the spectators. In the polo ponies classes, Campbell, Myers and Col. Lessard won first. The Junior division prize for pair of roadsters in harness not less than 1,500 lbs. was won by Miss K. L. Wilkes, Vicor and Victor. Miss Wilkes has captured many prizes so far at the Fair. This team was an exceptionally fine one. Two classes of the hunters were disposed of, and George Peffer secured two firsts, two seconds and one third. Crowe and Murray getting the remaining prizes. Mr. Thistle's net Minnie Keswick, from Lindsay, was adjudged the best single pacer, 15 hands and over, and was a good first. In this class many picked William Newman's Eric R., a chestnut gelding from St. Catharines, but this horse was not in the money.

WIGHT FOR KICKING UP A ROW AT BESSEYS RESTAURANT.

Hamilton is enjoying the greatest boom in its history. Far more people than can find houses are crowding into the city. In addition to the factories in the course of erection now, many new plans have been made. The John McPherson Company will build a large addition to their factory on Jackson-street, and the number of hands will be increased from 300 to 400. Rumor says that a large department store will be built on the corner of James-street and the market, and another on the Stinson estate, at the corner of James and King William-streets. When the Bank of Hamilton build six new storeys on their office and all the other projects are carried out, Hamilton will not look like the same place.

WAPPENINGS.

Hamilton Sept. 5.—(Special.)—Two hotelkeepers have broken the agreement and have put on free lunches this week. The hotelmen held a meeting this afternoon to discuss the situation. A committee was appointed to interview the two and try to bring them back into the fold again. It was agreed that each should put up a bond of \$500, which would keep to the agreement. Whiskey will be advanced to 10 cents a glass on Oct. 1.

BOYS WITH MATCHES.

Boys with matches are still worrying the life out of Chief Acheson. This afternoon they set fire to the King-street bridge. Very little damage was done. The flower show at the drill hall will have closed this evening. This afternoon they set fire to the King-street bridge. Very little damage was done. At a meeting of the Trades and Labor Council to-night a suggestion was made that the Board of Trade should be asked to appoint a conciliation committee to prevent strikes and lock-outs. The subject will be discussed at the next meeting.

THE HEINTZMAN & CO. DISPLAY AT THE EXHIBITION.

It is a very remarkable display of pianos that is made by the old firm of Heintzman & Co. in the manufacturers' building of the Dominion Exhibition, and yet it is just such a display as would be expected from this firm, who have attained so high a degree of perfection in piano building. One is immediately attracted by the beautiful exterior of the instruments that are on exhibition. The woods in themselves represent a piece of art, the design and architecture make them very beautiful. There one sees the Antique, the Colonial, the Chippendale, the Sheraton and other classic designs. The design is that after the style of the piano that was made by this firm for the use of the Prince and Princess of Wales in their Canadian tour. It is, however, when we remember that the concert and baby grand pianos of this firm have ever been the choice of great artists like Sir Alexander Mackenzie, Jonas Friedheim, Burmeister, Albani, Flunkert Greene, Pol Plancon and many others who have toured this country, that we realize the supreme place the Heintzman & Co. instrument holds as a high-class piano. Its tone and touch are distinctive and hold a place quite alone in the piano world. Courteous representatives of the firm are pleased to show visitors to the Exhibition some of the finest of these great instruments, whilst at the handsome piano saloons of Heintzman & Co. in the Exhibition, an attractive exhibit is always made.

Interesting Opinions of a Stockman From Fort Benton, Montana.

Fort Benton, Montana, Sept. 4.—A local stockman who has returned from a new range prospecting trip thru part of the Northwest Territory, is rather favorably impressed with its attractions as a live-stock country. He describes it as a country in which the open country over in Northern Montana twenty years ago when fences were few and live-stock had vast stretches of open country to roam in.

BRITISH ALASKAN ARGUMENT

Continued From Page 1.

The tribunal, it is argued, should draw a boundary line along the summits of the mountains parallel to the coast of the ocean. It is urged that when Russia proposed to the United States for the treaty contemplated the erection of a barrier between the British and Russian possessions through the whole Alaskan.

Speeches were heard from Mr. Johnson and Mr. Cardwell, J. R. Lavell, Mr. Monk and W. B. Northrup. The contract was closely analyzed, and renewed efforts were made to induce the Liberals to supply the information that would justify the passage of the bill.

Mr. Irwin made a personal appeal to Sir Wilfrid Laurier to-night. He said the Premier had lost the support of the House which he was supposed to possess, or he would not attempt to railroad a contract of such great importance thru the House while members were physically exhausted.

Sir William Mulock then stated that the House had done a good day's work, and that the committee would rise and report progress. Five minutes later the House adjourned.

With the adjournment ends the opposition which has been in session since Thursday evening. Nothing was said in the House concerning the opposition's demand for further information as to the location of the route. It is understood, however, that the government will endeavor to satisfy the opposition's request.

Mr. R. Jacobson, the postmaster at Fessenden, Ont., is a man who enjoys the esteem of the community in which he lives. Consequently the following statement from him is worthy of the careful consideration of everyone.

I have given Dodd's Dyspepsia Tablets a fair trial and can with every confidence recommend them. I generally use only half a Tablet after eating, and it has always given relief.

Other people who have used Dodd's Dyspepsia Tablets in their neighborhood have generally used them in the same terms.

This is a very moderate statement but it assures you of one thing: that if you have a bloated or uncomfortable feeling after eating you can find a sure relief in Dodd's Dyspepsia Tablets. And there is further relief in the knowledge that in using Dodd's Dyspepsia Tablets you are safeguarding yourself against chronic indigestion. Dodd's Dyspepsia Tablets are the only tablets that will give you relief by restoring the stomach and allowing it to recover its natural strength. They are sold by all druggists and an insurance policy against discomfort.

AUTOMOBILISTS, BEWARE.

Zealous Country Cops'll Get You If You Don't Watch Out.

The Provincial Secretary is addressing a letter to the Mayors of the cities and towns, and the heads of other municipalities, through the province, in regard to the new automobile law, seeking their co-operation in carrying out the provisions of the act, and directing attention to the necessity for the owners of automobiles registering, and the displaying on the back of each vehicle the registration number, and the proper equipment with means of giving warning of approach; the speed at which they may be driven, the care to be exercised by motorists to avoid frightening horses, and to the other provisions of the act.

A man said to one day: "Oh, well, I don't see anything remarkable about the great sale of 'Salada.' Why shouldn't it sell? See how it is advertised. But, as we explained to him, all that the most skillful and extensive advertising can be expected to accomplish is to interest a person sufficiently to induce a trial purchase. The future must depend entirely with the truthfulness of the 'Salada' claims advertised. The fact that 'Salada' Ceylon teas (black, mixed or green) have continued to grow in popular favor year in and year out, that from extremely modest beginnings the sale now reaches the enormous output of 11,000,000 packets annually, and this in the face of the keenest competition, for, like every other new and successful venture, hundreds of competitors have sprung into existence, copying our every move and ideas, save the quality of our specialty, and this no firm equals, and that the public are fully alive to this fact is evidenced by their preference shown.

Rossland's Future. Rossland Miner: "I believe that the City of Rossland has already seen her darkest days. It should now see gradual progress up grade, and that the public has no resources. We know they can be mined successfully, and we all know that this means a long and prosperous life for our city. This is the statement of Edmund B. Kirby, general engineer of the War Eagle and Centre Star companies, in the course of his last public utterance. The interesting features of Mr. Kirby's sentiments are expressed above, and it is optimistic. In the past, the War Eagle-Centre Star manager has achieved a reputation for conservatism, not to say pessimism. It is true, he has been accused of worse things from time to time.

PUBLIC AMUSEMENTS.

Frank Hancock Matthews, an old Toronto, makes his first appearance in his native city since his leaving for New York some three years ago to continue his vocal studies. Mr. Matthews sings the baritone part in the Neapolitan trio in Wm. A. Brady's very successful musical comedy, "Foxy Grandpa," with Joseph Hart and Carrie DeMair at the Princess Theatre next week. Before leaving for New York Mr. Matthews was a prominent member of the Toronto Lacrosse Club, the Rosedale C.C., the St. Albans Athletic Club, the Queen City Bicycle and Hockey Club, the Mendocchino club and the Jarvis-street Baptist Church choir. He was at one time soloist of the Bathurst-street Methodist Church choir, also St. Peter's Episcopal and was a choral choir boy for a number of years. Mr. Matthews was a pupil at the Toronto Conservatory of Music under Richard Tardiff, and has since his return to Toronto won two consecutive years (1899 and 1900). He was prominent on the concert platform through the province. While in New York he studied with Dr. Frank Dossert of Carnegie Hall, and has since appeared as soloist at some of the high-class concerts and recitals, from

STANLEY BRENT

Hermann Zumpfe Dead. Munich, Sept. 4.—Hermann, Zumpfe, the composer and musical conductor, died here this morning of apoplexy.

MEAL, BE MAILLY! DO NOT LET PHYSICAL WEAKNESS RUIN YOUR LIFE. YOUNG MEN men young in years but aged in experience, used in vitality, want-futured, full-eyed, slow-minded young men, young men who have in a few short years thrown away the precious vigor of youth, young men who have scarcely stepped upon the pinnacle of manhood and find that they have lost their right to stand upon it, young men who look back a few years and see themselves as they were, blooming into manhood, and now, as they are, at the age when manhood should be complete, the heart strong, the eye bright, they find the force of manhood gone. OLD MEN Middle-aged men and old men, who realize that they have not the force of vitality that should be theirs—men of any age who are lacking in animal vitality—can be made new by Dr. McLaughlin's Electric Belt. It will not fail. It cannot fail, as it infuses into the weakened parts the force of life and strength—the force which is the origin of all vital power—Electricity. DR. McLAUGHLIN'S ELECTRIC BELT The grandest invention of the age for weak men; the surest and easiest cure for all nervous and chronic diseases. Its wonderful power is directed to the seat of the nervous system, through which its vitalizing strength penetrates into all parts of the body, carrying new life to every function which has been weakened by excesses or dissipation, restoring energy to the brain and power to the vital organs. No weak man, no sickly or delicate woman will ever regret a fair trial of the Dr. McLaughlin Electric Belt, which is nature's restorer of vitality. It will cure every case of Rheumatism, Nervous Debility, Weak Stomach, Kidney and Liver Troubles, Lame Back, Sciatica, Varicocele, Loss of Vitality, and all Weaknesses in Men and Women. READ WHAT THE CURED SAY: I am well satisfied with the Belt I purchased from you. If I come across anyone with a weak back I will at once advise him to try the Belt, for I am satisfied the money paid for mine was not wasted.—EDWARD BRIDGMAN, Mount Bryar, Ont. I had long been able to give you a good report of your Belt. It has done good work for me. I am a stronger man today than for over a year back. I am well satisfied with it. I only wish your work "God Speed," as I am well, and hearty.—A. SMITH, Alton, Ont. I have used your Belt for one month, and my back and kidneys do not give me any trouble any more. I can only say, as others have said who have been cured, "It has no equal."—GEO. W. HAWLEY, Dorland, Ont. I received great benefit from the use of your Belt. I have been free from all aches and pains and have been greatly strengthened every way. There is no doubt but that it is the right remedy for all weakness in men.—HERBERT E. REID, Barrie, Ont. I can send you one from your own town if you will drop me a card. I don't ask anyone to buy my Belt on speculation. I know that it will cure any case of Rheumatism, Varicocele, Indigestion, Constipation, or any weakness caused by ignoring the laws of nature. Lame Back, Sciatica, Kidney Disease that has not gone as far as Bright's Disease. I am willing to take all chances. All I ask is for you to give me reasonable security that I will get my pay when you are cured and I will arrange a Belt with all necessary attachments suitable for your case, and send it to you, and you can PAY WHEN CURED. CAUTION—Many write me they have used electric belts and received no benefit from them. I will explain why—They have purchased cheap imitations and do not know what term electric belts. Such appliances are made to sell, not to cure. If they did possess any virtue these selling them could not advise you of the proper manner in which to apply them. READ WITH CARE! Every patient wearing Dr. McLaughlin's Electric Belt receives FREE, until cured, the advice of a physician who understands his case. Agents or Drug Stores are not allowed to sell these goods. FREE BOOK—If you cannot call, write for my beautiful illustrated book, giving you cuts of my Belts and prices. This little book is of great value to anyone; it contains a lot of useful information to men who are not what they should be; tells how strength is lost and won. I send this book closely sealed free to anyone. I have a book for women as well as men. DR. M. O. McLAUGHLIN, 130 Yonge Street, Toronto, Ont. Office Hours—9 a.m. to 8.30 p.m.

WANT WHITE SHIRT JOBS STILL ROOM FOR WORKERS

Secretary Day Has Many Applications for Secure Positions, But Artisans Remain Scarce.

Since the statement by Secretary Day of the Employers' Association, published in The World, that 5000 openings for mechanics, laborers and factory girls existed in Toronto, and workers could not be secured in the city, he has received a number of applications.

Notwithstanding the fact that I have given mechanics and laborers jobs who applied as a result of my published statement of having vacancies for 5000 hands, the void is still well up to the 5000 mark, and the chances of securing skilled mechanics and laborers in Toronto very slim.

What we want are men and girls willing and able to work and capable of filling positions in the different trades already referred to. For these men and girls we will have 5000 vacancies, with \$2 a day sure for the men.

Strike of 8000 Coal Miners in Missouri May Be the Result.

Kansas City, Mo., Sept. 4.—All the 8000 coal miners in Missouri may become involved in a strike unless the 600 men in the Nowinger district report to work promptly. They went out against the orders of President John Mitchell and were made to leave the Chicago conference, and the operators may refuse to enter the conference scheduled to be held here on Oct. 10.

THAT AVENUE-ROAD INFLECTION

The motion for a continuance of the inflection secured by the city, restraining the Toronto Railway Company from extending their tracks further north on Avenue Road will be argued in Chambers at Osgoode Hall on Tuesday next.

BY LAKE AND RAIL

The sultry weather of yesterday made the wharf look busy.

The Chippewa brought over a big crowd, which included a considerable number of American visitors to the convention of "Believers," which begins a three-day course to-day in Toronto.

GUARDS' BAND COME TO-MORROW

Great Arrangements to Meet the Coldstream.

The arrival of the Coldstream Guards Band in Toronto to-morrow afternoon is, in a measure, an historic episode, because it marks the first time that a crack regimental band has been given leave to proceed to the colonies.

The Canadian Northern has been going right ahead during the past year. For the week ending Aug. 31, 1902, the earnings were \$49,200, as against \$78,900 for a corresponding time this year, an increase of \$29,700.

Comparison between statements of G.T.R. earnings for week ending Aug. 31, 1902 and 1903, exhibits a gain for this year over last of \$153,184, as follows: 1902, receipts, \$900,240; 1903, \$1,053,424.

London, evening: Market for American Railroad shares closed on the curb quiet but at about the same level as yesterday.

It is understood that the Atchafalaya report will show surplus equal to eight per cent earned on stock for year before deduction of sinking fund for 1902.

There can be no two opinions regarding the effect of the report. The 4, 3 and 6 per cent dividend paying railroad shares are cheap, from Atchafalaya down to Pennsylvania.

Head's Boston letter, Sept. 4: The only feature in Boston's stock market today is the fact that Canada was a steady buyer and was holding 12 at the close.

WILLISON ON TARTE.

The Branch Between the Two Quondam Friends is Widening.

J. S. Willison of The News, indirectly replying to Mr. Tarte's insinuation that he has "reviled" head," says in last night's leader: The welcome rendered Mr. Tarte by certain Conservative newspapers is so openly indecent that they are sensitive on the subject.

It needs little to draw from them elaborate defenses of their conductor. One or two apologies have been filed up to the present, and they are strikingly weak. It is not, says one, that Mr. Tarte was seeking for high place in the party. Unfortunately Mr. Tarte is certain to demand high place and influence. He is not a returning prodigal, humbly approaching the paternal mansion, entreating with an anxious and deprecating eye, slipping in by a side door, and making himself inconspicuous in an out-of-the-way corner near the fireplace.

Mr. Tarte has rejoined the party with a brass band and with abundant impudence. No one who knows anything of the matter will expect that he will, and to be content with tolerating him, and to be content with tolerating him, and to be content with tolerating him.

Mr. Tarte is neither less nor more corrupt than he was in 1900. He is neither less nor more of a politician than he was in 1900. He is neither less nor more of a politician than he was in 1900.

The journals which then howled at him have not recanted. They have not apologized for blackening his character. Their silence must be taken as an avowal that they believe that he is an honest and a patriotic politician.
