UNIONISTS' NET GAIN IS 15 NORTH IS STRONGLY LIBERAL

In London, the Conservatives Gained 3 Seats and They Did Well in Birmingham and Manchester.

POPULAR VOTE SHOWS A UNIONIST INCREASE

At the close of Saturday's voting, the standing of the various parties, including uncontested seats, was:

- Unionists 43
Liberals 37
Laborites 6
Nationalists 5
Unionist gains 18
Liberal gains 3
Laborite gains over Liberals 1
No change 69

Of the twelve seats contested in London, the Liberals hold seven, and the Unionists five, three of the latter being gains in North Lambeth, Brixton and Fulham.

The Liberals won Manchester, North; Darlington, and Grimsby.

The Labor gain was in East Manchester.

LONDON, Jan. 16.—Sunday has given a welcome respite from strenuous work at the election stations, and an opportunity for calm reflection over the prospects of both parties striving to gain control of the government.

The greatest animation prevailed to-day at the rendezvous of politicians and Saturday's results were discussed from all possible viewpoints.

The pollings to-morrow include 31 London constituencies and 57 provincial boroughs.

As forecasted, an unprecedented number of electors came to the polls. An average of 84 per cent. of the registered voters voted.

This increase in the voting strength seems to have been largely cast on the Unionist side.

In London the twelve seats won gave an average increase of 12,845 to the Unionist vote, and a slight decrease to the Liberals, while the provinces increased the Unionist vote 46,942, and the Liberal vote only 412.

This increase is a source of greatest satisfaction to the Unionist press, as showing the rapid growth in favor of tariff reform.

The editorials in the morning newspapers take up an attitude of temperate enthusiasm on both sides regarding Saturday's results, as a "good beginning" which should serve to provoke adherents to the respective parties to renewed energy.

The Rev. St. Sylvester Horn's election to parliament for Ipswich establishes a record. Under the law clergymen are incapacitated from sitting in parliament, but a non-conformist minister is not recognized as a clergyman.

There have been several other clergymen and retired dissenting divines in the house of commons, but the Rev. St. Horn is the first acting pastor to be elected to that body.

The Popular Vote. The popular vote goes strongly against the Liberals.

THE GREAT STRUGGLE

The political struggle now on in Britain is both the greatest and the fiercest in her history.

Primarily it is a direct and bitter fight of democracy against aristocracy. That is the great fight, and democracy will win.

The Liberals have kept the fight to this main constitutional issue. It overshadowed naval insecurity, tariff reform, home rule for Ireland.

The Conservatives made a mistake in rejecting the budget. Time is on the side of tariff reform, but it is not on the side of aristocratic government.

The liquor interest is with the lords, the Non-Conformists (more than incensed at the lords' defeat of the educational bill) continue more solid than ever for the government.

Quite a number of evangelical churchmen must be refraining from voting Conservative on account of the lords' alliance with the drink trade.

The Liberals have put up the best campaign work—both platform and organization.

London opinion and London papers do not yet rule Britain.

THE NAVY AND GERMANY'S

What Lloyd-George Said at Grimsby in Comparing the Fleets of the Two Nations.

(Canadian Associated Press Cable.) LONDON, Jan. 16.—Lloyd-George at Grimsby on Saturday said that he was so scared that if he heard a fog signal on the railway they would think the German fleet was in the Humber.

"We have 120,000 sailors to 40,000 Germans, yet it is said we are going to be invaded and beaten, that three British bluejackets cannot keep off one German (laughter). That is an insult

LLOYD-GEORGE, MOBBED, LEAVES BY BACK DOOR UNDER POLICE ESCORT

His Pro-Boer Sympathies Got Him Into Disfavor at Grimsby After Sensational Address.

LONDON, Jan. 16.—The most exciting scene of the campaign occurred at Grimsby Saturday, where a menacing crowd threatened David Lloyd-George, chancellor of the exchequer, compelling him to flee from a hall where he had been speaking, under police protection.

Part of the provocation for the hostility shown toward him was caused by the chancellor's unusual course in addressing the voters on polling day, which has never obtained before in England, and which is considered by many unconstitutional.

The chancellor's speech included a prediction of disaster to the German fleet if it fought the British.

Referring to the invincibility of the British navy, he declared: "If the German fleet in a moment of madness ever attacked Great Britain, it would be at the bottom of the German ocean in a very few hours."

A big crowd waited outside the hall, and when the chancellor appeared, raised shouts of "traitor," "pro-Boer." The chancellor retreated within the building and a cordon of police was drawn up to keep back the crowd.

The chief constable, with an escort of police, conducted Mr. Lloyd-George out of the back door, and the party retreated a quarter of a mile along the railway, where a small station was used as a refuge.

An automobile was telephoned for, and in the meantime, the chancellor busied himself in writing letters.

BALFOUR HOPES FOR COUNTIES

And Chamberlain is Glad That Birmingham Supported the Party so Well.

LONDON, Jan. 16.—Unionist jubilation is chastened by the fact that the party required 29 gains in proportion to the number of seats fought on Saturday to be able to anticipate a working majority with any confidence.

However, the victories are sufficiently numerous to inspire the party to the greatest efforts. They are looking forward to a much improved position before the week is out.

Joseph Chamberlain received the results at Highbury with the greatest delight when Birmingham's majorities arrived, and said: "Well, we have done our share towards upsetting the Socialist coach."

Mr. Balfour was also well pleased and expressed faith in the counties turning Conservative.

WOMAN'S STRANGE DEATH

PITTSBURG, Pa., Jan. 16.—From a speechless trance in which she had lain for three months and a half, Mrs. Kate Mendelsohn passed on to death at a hospital here to-day.

On the night of Sept. 20, she awoke to find the woman in a comatose state. Their baby lay on the floor uninjured, apparently having fallen out of bed.

WHERE THEY ARE ON RAILWAY ISSUE

Members of Legislature Indicate How Far They Will Go to Bring Relief From Intolerable Street Car Traffic Conditions.

Having pointed out that the cure of the present intolerable conditions with regard to the street railway service in Toronto was in the legislature of Ontario, The World asked as many of the members representing the city and the adjoining constituencies as could be reached, whether they proposed at the forthcoming session to promote legislation to cure the evil.

Neither Mr. Foy, attorney-general, nor Dr. Pyne, minister of education, would consent to be interviewed. Mr. McPherson went to some pains to ascertain the wording of the statute conferring powers on the street railway, and having made this clear he proceeds to say that he is prepared to hear argument on behalf of the city and from the company as to whether the company has not honestly lived up to its obligations; and if it has not, then, after determining conditions of arbitration, he would unhesitatingly vote for legislation enabling the citizens to protect themselves, and by expropriation, if necessary.

Wait, Says Shaw. John Shaw, M.L.A., ex-mayor of Toronto: "The city has an appeal coming on for a reversal of the decision of the privy council as to the right of the city to order extensions. I think, as this will be taken up soon, would be best to wait for the decision before taking any steps towards expropriation. I had quite a bit to do in the drawing up of the street railway agreement, and I have no doubt whatever that the city's contention as to the meaning of the clause dealing with this point was the one intended, and would be confirmed by the legislature. I don't anticipate that the legislature will interfere to expropriate and nullify an agreement confirmed by the legislature. It would be a different thing, and they might take action. It seems to me it would be better to investigate further and

Foy Won't Talk. Hon. J. E. Foy, attorney-general of Ontario, declined to be interviewed on the subject.

Tubes the Solution. Hon. Thos. Crawford, speaker: "My own opinion, tho' I am not a lawyer, is that expropriation is out of the question. There is a distinct agreement between the two parties, which was confirmed by the legislature. I don't anticipate that the legislature will interfere to expropriate and nullify an agreement confirmed by the legislature. It would be a different thing, and they might take action. It seems to me it would be better to investigate further and

TUBES IN BUENOS AYRES

Two Companies Are in the Field—Elaborate Plans.

BUENOS AYRES, Jan. 16.—There is an actual rivalry in reference to concessions for underground railways. The Western Railway has secured its extension line to the port (and in perpetuity), but this will not meet the necessities of urban traffic, and therefore the municipal intendente has a contract ad referendum with the Anglo-Argentine Tramway Company for the construction of a network of underground lines, according to the proposal presented about three months ago. The concession is to be for eighty years (which term will apply also to the surface lines, some of which, in the central streets of most traffic, will be removed when the underground lines are ready for service). The company will pay the municipality, as the sole tax, 5 per cent. of its gross receipts, which will be no mean sum. October amount to \$2,000,000. A clause in the contract, proposed by the intendente and accepted by the company, makes the concession subject to any existing concession granted by the national government.

HARRY GILMORE CALLS JEFF TO BEAT JOHNSON

Old Toronto Boxer Gives Reasons For Picking the White Man—Black Man is Game.

CHICAGO, Jan. 16.—Veteran glove men are having their say about the big match, but neither Jeff nor Johnson are making their peace as yet. Another matter of interest is the comment that the American has made about the British and the fact that he has attracted wide attention and interest.

Later the veteran Canadian and the newcomer for the ring have had two other private bouts, each lasting over half an hour. The first was a draw, the second a narrow decision for Johnson.

It is not possible for me to agree with my old friend Ryan. Gilmore told a party of friends, especially in some of the points about Jeff and Johnson. Here is one point that a lot of critics are overlooking. Did you not see Jeff's fight with Dan Ryan? Here's what I figure: Jeff's body punches will slow Johnson up. Jeff's body punches will slow Johnson up.

No Streak in Jack. I look for a desperate match, and want to say right now that there is nothing in the stories that Johnson has a yellow streak. He might have had one once when he was hungry and down and out, but since he climbed to the top he has all the confidence and assurance in the world.

Years ago when Carney and Ireland, the two Jimmys, were fighting for the English championship, Ireland had a thousand times in the nose. All the time he kept taunting him. "Show as a coach," says Ireland, "I'm better than you." Ireland, in answer to his second's appeal, started for Ireland's ribs, and Jimmy began to show up. "Now it's the coach's turn that's coming on with the speed," says Carney.

Interprovincial Hockey Game in Mutual Street Rink—Saturday's Scores and Records.

In the Interprovincial League, before a rather small crowd, Saturday night, at mutual street, T.A.A.C. defeated Montreal by 4 to 2. Currie, the star center for T.A.A.C., being the star of the game, he scoring twelve of the fourteen goals for his team.

The game was a sample of how they play hockey in the east, the visitors being very aggressive and aggressive, giving the player the ball-end of the stick, or even the stick-end, to the Montreal players.

THE BRITISH ELECTIONS.

Indecisive correctly expresses the result of the first round of the British electoral contest.

In London the Unionists did not make the showing they expected, gaining only three seats.

In the southern and midland districts they did better, but Lancashire and Yorkshire give no indication that they will aid in ousting the government.

Over the day the Unionists gained 15 seats, counting 39 on a division, a proportion which, if it holds good, only means a gain of 50 seats in England, or about half what is required before they can command a majority of the house of commons.

In their gains is included Burnley, where the intervention of a Socialist candidate divided the vote in favor of the budget sufficiently to allow the Unionist to step in.

To-day's pollings will be still more important, a large number of important London and provincial borough constituencies being included in the list.

Saturday's results give no clear indication of what their verdict will be, certainly they afford no evidence of any general slump in public opinion. It must be remembered when comparing the figures that the general election of 1906 was of a very abnormal character, and was marked by heavy Unionist defections which are not likely to recur.

About the only safe inference that can be drawn is the strength of the sentiment for tariff reform. Had this been the main issue, the Unionists would have made a better showing than they did, but the introduction of the constitutional question created by the rejection of the budget has to all appearance materially strengthened the government.

There may be ground for the report that Mr. Balfour would prefer to have the Liberals remain in power dependent on the Nationalist vote, a condition that could mean nothing else than a short parliament, and the certainty of a victory for tariff reform on the next appeal to the people.

TIME FOR A CHANGE.

The element of unfairness that is inherent in the Toronto Board of Education's system of paying high school teachers should this year be removed.

It has been the custom, to treat all teachers alike in the matter of initial salary. A teacher with many years' successful high school experience is accounted in the class of one with absolutely no experience. Both are paid \$1200. This is obviously unfair.

To remove this unfairness some such scheme as that proposed by Dr. Emmet should at once be adopted by the board. This plan recognizes outside successful experience by increasing the nominal initial salary of \$1200 by \$100 for every three years of such experience up to nine years. Thus, for example, in engaging a teacher of nine years' experience the board would pay him an initial salary of \$1300 instead of \$1200. The flexibility thus introduced would lessen the board's difficulty in securing good men to fill vacant positions, and make it possible to appoint only such men as can reasonably be expected to fill vacant headships of departments when opportunity offers.

But these are teachers now on the staffs of the Toronto Collegiate Institutes who have suffered and are now suffering because some such plan was not in vogue when they entered the city's service. The only just thing to do, then, is to adjust the salaries of these men in accordance with Dr. Emmet's scheme. This would at once remove all cause for further complaint and place the salary system on a sound basis.

The cause of secondary education in Toronto must not be neglected and the press should be a unit in urging the necessity for a change in the board's policy—a policy which was perhaps suitable in the past, but which is manifestly not adapted to the conditions and the needs of the present.

Let Dr. Emmet's proposed schedule be adopted.

COMMON SENSE AND THE SNOW BYLAW.

Everybody but the police and the city hall officials know it is easier and safer to walk on a frozen sidewalk with half an inch of rough snow or ice on it than upon the bare glassy concrete surface. There are spots on the west side of Yonge street between King and College such as are a danger to approach. The experienced take to the road at these points.

The snow bylaw has been made a hissing and a reproach on account of the idiotic method of its administration. It was designed to give safety and comfort to the citizens. It is made to work for their misery and damage.

There can be no hard and fast rule about cleaning snow off the walks. When a thaw comes, all walks should be cleared completely. After a snow-fall they should be made passable and safe. Wet sidewalk is the best means for this. When a keen frost occurs, it is the duty of the policeman to see

that the walks are not converted into slide traps, but if a little rough snow or ice accomplishes this, it is a manifest absurdity to punish anyone for leaving it. You can see men with axes and other weapons chopping off the only foothold a passer-by can get of the slippery concrete surface, and a little later you can see subsequent passers-by doing athletic and gymnastic gambols in the sacred name of a city bylaw.

While the half-inch coating is a police court issue down town and in the less distinguished quarters of the city, in the Bloor and St. George street sections it is not difficult to find frontage after frontage allowed to retain all the snow that falls. When a thaw arrives the pedestrian has to wade thru this aristocratic slush, while the police magistrate is making criminals of delinquent widows who have failed to keep pace with the weather.

Controller Foster might look into this snow bylaw.

THE CANADIAN ASSOCIATED PRESS SERVICE.

Cordial appreciation is due the Canadian Associated Press for the admirable cable service it gave on Saturday night in connection with the British election returns.

These began to come in at 6 o'clock, and thanks to the very complete preparations, were received in a shape that secured for the public speedy and accurate information regarding this historic political conflict. Never before has the benefit of a distinctly national organization for the handling of British affairs been so clearly demonstrated and the highest commendation has been deservedly earned by the Canadian Associated Press staff.

Nor should the great personal interest taken by Mr. John Ross Robertson in the success of the arrangements pass without recognition, and it cannot but be a source of sincere gratification to him that his efforts have resulted in such a successful conclusion.

Not only the Canadian press but the Canadian people are indebted to the association and its president for the care, attention and despatch with which the results were handled.

AMERICAN PRESS ON CANADA'S NAVY.

New York Sun: If it is true, as reported, that Sir Wilfrid Laurier can command enough votes in the Dominion Parliament to pass his "Act Respecting the Naval Service of Canada," Sir Kitchener may rail, but there will be a Canadian squadron, and in the nature of things, as such national enterprises once launched are not abandoned, but always expanded, there will be as the years go on, a Canadian navy and a fleet. In the debates upon the subject a genuine national spirit as distinguished from mere colonial loyalty may be noted.

New York Tribune: The most obvious feature of the case is that the plan of contributing to the defence of the empire is put forward by the leader of the party which has always considered, and in fact largely was, anti-imperialist and at times little short of secessionist, and is opposed by the leader of the party which has always vaunted itself upon its robust and aggressive devotion to imperial interests.

To impartial observers it will probably appear that Sir Wilfrid's scheme is not only logical, and there will be wonder at the opposition to it. Those who are champions of imperialism should naturally advocate all possible aid for the empire and Canadian participation in imperial affairs, while those who exalt the national idea above the imperial should seek to make the Dominion self-defence and to keep out of all imperial quarrels which do not concern Canadian interests.

COOK GOT \$50,000

So Says Secretary Lonsdale, Who is Beginning to Doubt Him.

COPENHAGEN, Jan. 16.—Walter Lonsdale, former secretary of Dr. Cook, says he is beginning to lose faith in his former employer. The last letter he received from Dr. Cook was dated at a place in southern Spain on Dec. 24.

According to that letter Cook was at sea from Dec. 4 to Dec. 24, and Mr. Lonsdale figured that this was the reason why he was unacquainted with the declaration of the Copenhagen University rejecting his claim of having discovered the pole. Since that time Mr. Lonsdale has not heard a word from Cook, although he had sent a number of telegrams to the doctor's last known address.

Mr. Lonsdale estimated that Dr. Cook's profits from his lectures and other revenue from newspaper articles amounted to about \$50,000.

FEARS MOHAMMEDAN RISING

Lord Crawford Fears Halley's Comet Will Stir Natives.

LONDON, Jan. 16.—Lord Crawford, ex-president of the Astronomical Society, who has widely traveled in Africa and India, fears a general native uprising and massacre of Christians by fanatic Mohammedans when Halley's comet appears in the sky in the coming spring. Agitators, he says, will seize the opportunity to stir up the uneducated, superstitious natives, using the comet as a fiery sign of Allah to drive out Christians. He has recommended the government to issue placards with pictures explaining the phenomenon throughout north Africa, and especially in Egypt and India.

An Alleged Highwayman.

LONDON, Jan. 16.—(Special.)—Robert Hobbeltwhite, believed to be from Toronto, and who has an alias of Douglass, was arrested at Tinsley Meadows, near London, and will be charged to-morrow with robbery of violence from boarders at the Hodagus House. A watch was taken from a boarder, and Dr. Hains of St. Mary's had his pocket-gone then and was left bruised and bleeding.

ONTARIO'S MAGNIFICENT ARMY

We have heard a good deal of late about "wildcatting" in Northern Ontario, and about the prospector who sells claims and everything of that kind. All that aside, the World wishes at this moment to recognize the worth of the ten thousand men who make up the army of prospectors at this moment in the service of Ontario. They are the finest body of men that probably ever got together in any single cause or adventure. For from five to seven years now, these men have been undergoing training in the mines at Cobalt, at Sudbury, and in the location of mines in the new Northern Ontario.

They are all men of physical excellence, of endurance, of courage, of nerve, of perseverance, undaunted in the face of all kinds of difficulty, not deterred by the rigors of the climate nor the dangers of the woods, nor of the waters, nor freshets. They know now the nature of the country; they know what they are looking for, and they know how and where to look for it; and, as a matter of fact, are to-day the most up-to-date and competent mining explorers and prospectors that were ever in the field. They go out into the bush when the thermometer is 30 below zero, with their toboggans and their supplies, their sleeping bags or their little tents, their store of dynamite and provisions, their tools and their packs, and once they take the trail nothing can induce them to leave. They sleep beneath the stars for an only shelter.

They have exploited the country from Sudbury to Cobalt, and from Cobalt to Porcupine, and they are breaking away to the north and to the west, and hereafter they will not be checked until they strike the prairie or the Arctic zone. They will keep moving in both directions, and always becoming more and more expert as they advance. In a few months from now they will be able to go from Cochrane, the most northerly station of the Timiskaming & Northern Ontario Railway, westerly along the Grand Trunk Pacific, and along that road at an average distance of ten miles they will cross river after river running north from the Height of Land to James Bay. None of these rivers has been exploited as yet, but soon they will be, and these men, as we said above, will in a very short time know a lot of the hidden riches of Ontario's new and greater north.

The World, therefore, takes its hat off to the Ontario explorer and prospector. He is to-day doing more for his province than any other industrial army within its bounds. If his business methods are at times questionable, his courage and his finding qualities are not.

WHERE THEY ARE ON RAILWAY ISSUE

Continued From Page 1.

see what is in this tube system. We must see if we can't get something that will bring relief. It seems to me that there is something worth looking into in regard to that tube system. I think myself that in the near future in the City of Toronto we will require an underground railway. The congestion of our streets will be such that it will be difficult to move the masses."

Strong on Loyalty.

Thomas R. Whiteside, M.L.A.: "As far as loyalty to the city goes, I don't think the World can tell me anything. I am just as strong on that as the World. There is no doubt whatever that something must be done. The people taken into the city must be able to get in. If nothing else can be done to force the street railway to supply the accommodation, expropriation will have to be tried."

Dr. Godfrey Satisfied.

Dr. Godfrey, M.L.A.: "I will look at it this way: what is the use of kicking up a fuss about something that we have a better service out here now than we had five years ago. The cars are comfortable and the company gives us a 20-minute service morning and evening during the rush times and in the summer a fifteen minute service, and I have not heard any complaints. It is not the business of members of the legislature to take up such a matter anyway. What is the work of the aldermen. However if any aldermen or citizens have any suggestion to lay before the legislature for the betterment of the West Toronto or Ward Seven street railway service, it will have my support, but I have no intention of fathering any bill concerning the Toronto street railway, and I have not heard any kicks I believe I could have the cause of the complaint remedied by going to Mr. Fleming and laying the matter fairly before him."

Nothing to Say.

Hon. Dr. Pym, minister of education, declined to discuss the question. When asked what he would care to say about expropriation of the street railway, his answer was: "Nothing, nothing whatever."

McPherson Quotes Statute.

W. D. McPherson, M.L.A.: "The Toronto Railway Company has now the exclusive right of operation of a line of surface electric railways, within defined limits of the municipality, on stated conditions, for about eleven years more, that is until the 31st day of August, 1921. Owing to the agreement between the city and the company having been sanctioned and confirmed by a special act of the legislature, the rights of the city and the

Levisky. 4. Rex v. Radford. Before Cartwright, K.C. Master. Great West Life v. Shields-J. D. Falconbridge, for plaintiffs, on motion for judgment on a judgment recovered in Manitoba, M. L. Gordon, for defendant. Judgment: There does not seem to be sufficient material to satisfy the provisions of C.R. 603, which requires an affidavit by plaintiff, or by some other person who can swear positively to the debt or cause of action. The affidavits in support was that of one of the Ontario solicitors acting for plaintiff, who can only swear on information and belief derived from letters and telegrams received from the Winnipeg solicitors. This is clearly not sufficient. Motion dismissed with costs to defendant in the cause. (Rowell & Co.), for defendants, moved on consent for leave to amend their statement of defence according to agreement between the parties. Order made. Lucio v. Stewart-B. H. Ardagh, for defendant, moved for an order for the medical examination of plaintiff, W. H. Price, for plaintiff. Order made for examination by Dr. Primrose at such time and place as he may appoint. Costs in the cause. Crandall v. Barker-Barker v. Crandall-Raney (Mills & Co.), for the Barkers, moved for an order for the delivery up of land for security for costs. R. McKay, for plaintiffs. Plaintiff is the owner of the s.w. quarter and the defendant is the owner of the n.w. quarter of lot 29, concessions A, Township of Montgomery. A road, well defined, leading from plaintiff's land, running across defendant's land, was opened long ago and has been used and traveled for many years. Defendant's objections by gate or fence, and by a declaration to plaintiff's alleged right. The plaintiff claims the defendant and his owners and occupants of the n.w. quarter of the lot in question, to use the road free from any and every obstruction. There will be a declaration that the plaintiff, his heirs and assigns is and are entitled to the free and uninterrupted use and enjoyment of a right of way 20 feet wide across the n.w. quarter of lot 29, concession A, Township of Montgomery.

John Barton

An old servant of the Grand Trunk Railway, lived up to the obligations of his position, and died on Sunday at his home, 37 Sheridan Avenue. He joined the service of the old Great Western Railway in 1863, and continued after the absorption of that railway by the Grand Trunk, having charge of the car cleaning department, resigning his position about two years ago on account of illness and old age. One son and one daughter survive.

Dr. David Bozart

WHITBY, Jan. 16.—Dr. David P. Bozart, one of Whitby's most respected citizens, died this morning of paralysis, aged 83. Up to four years ago he was in active and efficient service and prominent in municipal affairs. He was G. T. H. surgeon for many years. His widow and his only son by his first wife, Capt. Bogart, a graduate of the R. M. C., Kingston, survive.

Mrs. Robert Pearson, who died at St. Thomas last week, at the age of 81, was well-known in Toronto, although she had been a resident of St. Thomas for the past 23 years. She had been closely identified with the fraternal work of the women's lodges of that city. Two sons and one daughter are left to mourn her demise.

At Kingston, the wife of Principal D. M. Gordon of Queen's University, died suddenly last Friday night, having been taken ill while hostess at a dinner given in honor of her husband. She was a daughter of the late Rev. John McLennan of Belfast, P. E. I., and later of Scotland. Her husband died in 1885, in the town of Leithridge, Alta. Surviving here now: Hunterley Dundas, William of Brisbane, Australia, and Misses Katie and Minnie at home, are the surviving children.

At Chehalis, Wash., three little children of Mrs. Oscar Beckman of Winton, were burned to death in a fire that destroyed their home. Their mother was absent at the time.

UNIONISTS' NET GAIN IS 15

Continued From Page 1.

The Navy and Tariff Reform. The most sweeping change in London was in Fulham Borough, where the middle class population went enthusiastically for tariff reform, giving W. Hayes Fisher, the Unionist candidate, a majority of 2000. In this borough in the last election the seat went to the Liberal by 600.

Devonport, where the big navy issue was predominant, wiped out the Liberal majority of 1200, and returned two Unionists by 500. Sir J. Jackson and Sir C. Kinlock Cooke.

The Right Hon. G. Wyndham, the former ambassador to the United States, and Waldorf Astor, who contested the two Plymouth seats as Unionists, were defeated, but cut down that town's Liberal majority from 2367 to 1006.

Davidson Dalzell, a promoter of the time conspicuous in Wall-street, running on the Unionist ticket, turned out J. H. Seavers, a Liberal, from his seat for the Brinton division of Lambeth.

W. Joynton-Hicks, the Unionist, who defeated Winston Spencer Churchill, in the Manchester by-election of 1908 by 423 votes, loses his seat to Sir G. Kent, Liberal, by 783.

The Right Hon. G. Wyndham, who will be Governor-General of Canada if the Unionists take on the government, carried his seat by a slightly increased majority.

Parker Had Close Call. The Liberals took away a thousand votes from Sir Gilbert Parker in the Gravesend district, but he retains his seat as a Unionist.

The famous barrister, Rufus Isaacs, keeps Reading for the Liberals by a small majority, but Russell Rea, a prominent shipowner, loses Gloucester to the Unionist H. Terrell.

J. T. T. Lincoln, Liberal, ousted H. Pike Pease, one of the most prominent Unionists, from Darlington, by 29 votes, while Premier Asquith's brother-in-law, Sir F. Tennant, lost his seat for Salisbury to the Unionist, G. Locker-Lampson, by 215 votes.

Grimsby furnished a great surprise, for it shifted 200 votes, and its seat from the Unionist to the Liberal opponent, T. E. Wing, defeating Sir G. Doughty, one of the foremost Unionist orators.

The streets in the centre of London were almost impassable after the dinner hour from throngs swarming in from the suburbs to get the election returns. The newspaper offices on Fleet-street were the popular magnets.

Many streets were erected on street corners, on which the results were bulletined. Reports were read at the theatres and music halls to big audiences.

Cabinet Members Speak

Several of the members of the cabinet spoke before their constituents at night. Premier Asquith, Foreign Secretary Sir Edward Grey and Chancellor Lloyd-George, delivered the chief speeches, mainly to uphold the government's management of the navy. Winston Churchill, president of the board of trade at Dundee, denounced "the party of privilege and class."

NOTES OF THE FRAY

I. N. Ford, the London correspondent of the New York Tribune, called on Friday night his view of Saturday's election. He said: "The nomination for members of parliament began to-day, and by midnight of Saturday eighty seats will be filled.

If the Unionists gain twenty seats it will indicate a tie between the coalition of Liberals and Radicals and themselves for the whole house."

The Unionists gained only thirteen seats, seven less than Mr. Ford said would be necessary to create a tie.

Grimsby, where Geo. Tait Blackstock, K.C. of Toronto, spoke for Sir George Doughty (Un.), turned over 200 votes and elected a Liberal. Torontonians will regret the eminent K.C. was late in getting on the ground.

Three well-known Canadians contesting have their fight to-day, Hamar Greenwood, in York, and Joe Martin in St. Pancras, and Benar Law (Cambridge).

Rt. Hon. Sir Geo. Wyndham, secretary of war for the Unionist government, was the first member of the old administration to be elected by a vote of the people.

Sir Christopher Furness (Lib.), elected for Hartlepool, is the head of one of the greatest shipbuilding yards, and recently introduced a co-partnership with employees scheme.

Sir Gilbert Parker, who had a close call in Gravesend, is the Canadian novelist, and the only Canadian so far elected.

man in the Plymouth contest, 800 votes behind the second Liberal elected. He is a son of Wm. Waldorf Astor, formerly of New York, now a naturalized Englishman. His children are all naturalized Britons.

Rufus Isaacs (Lib.), elected in Reading, is the leading barrister in the kingdom.

Sir Henry Norman, the Liberal journalist, recently appointed assistant Under-Secretary of State for the Colonies, in order to retain his place in the cabinet he will be nominated from another borough.

Joynson Eicks, who defeated Winston Churchill in the by-election in Manchester, was himself defeated Saturday.

T. G. Bowles (Lib.), elected in King's Lynn, is the well-known "Wage" of the house, and one of the popular and frequent figures in Punch's pictures of parliament.

Ian Malcolm (Un.), defeated in Salford North, has had considerable experience in affairs of state, and is a man of great promise. He is a native of Quebec, but was born in Toronto and Ottawa. He is married to a daughter of Mrs. Lily Langtry.

Capt. Hon. Guy Victor Faring (Un.), Winchester, distinguished himself in the South African war. He is Viscount Morpeth (Con.), Birmingham.

Among the interesting members is Rev. C. Sylvester Horne, Congregational minister, who won on the Liberal ticket at Ipswich.

SUFFRAGETTES ACTIVE AT THE LONDON POLLS

"Keep the Liberal Out" Was Motto Displayed — The Popular Vote.

LONDON, Jan. 16.—(New York Sun Cable)—The total popular vote now stands: Liberals, 263,244; Unionists, 368,871; Labor, 76,394; and Socialists, 1,974. The popular vote in the same districts in 1906 was: Liberal, 302,149; Unionists, 309,757; Labor, 73,564; and Socialists, 9584.

LONDON presented a curious aspect to outsiders who are unacquainted with the English system of spreading a national election over a fortnight. Twelve sharply defined districts of the metropolis were in visible turmoil and excitement. The remainder of the town wore the aspect of any dull Saturday until evening and then the whole population turned out and concentrated at various polling stations where arrangements had been made to placard the results.

The suffragettes took a very active part in the election in the London districts. Several of the women stationed themselves outside most of the polling booths and urged the voters to reject the Liberal candidates. They were especially energetic in the Erixton division of Lambeth in their attempt to secure the defeat of Joe Herbert Seavey, Liberal member of the firm of Henry W. Peabody & Co. Mr. Seavey is a native of Boston, Mass., and a graduate of Harvard University. He is a native of Boston, Mass., and a graduate of Harvard University. He is a native of Boston, Mass., and a graduate of Harvard University.

One of the most amusing features of the election campaign is the part that children take in it. Not content with having their wives dressed in beautiful new "election costumes" while canvassing for votes many candidates have pressed their offspring into service.

"Vote for Daddy." Thus the three-year-old twin sons of a Conservative candidate prospected the streets with little sandwich boards which bore the inscription "Vote for Daddy," while the five-year-old son of another candidate made speeches from his pony cart, bidding the electors to vote for his father.

A little daughter of David Lloyd-George, the chancellor of the exchequer, gathered a great crowd of dressed-up children in Welsh and pleaded with assemblies of children to influence their fathers to vote for her father.

DIDN'T HAVE FIRE ESCAPE And Is Fined Twenty Dollars—Hotel-man Was Negligent.

BROCKVILLE, Jan. 16.—(Special)—A case of considerable interest came before P. M. Carroll at Gananoque when on the complaint of License Inspector Taber Morton, Neff McCannly, proprietor of the Provincial Hotel, was charged with a violation of the law in failing to put up a fire escape, having been ordered several months ago by government officials, to do so. Altho Mr. McCannly had an escape made, it was not put in position, contrary to the minimum fine of \$20 consequent the violation of the law, and costs was imposed and the defendant was ordered to have the fire escape put in position at once.

HOLY NAME SOCIETY

St. Paul's and St. Helen's Roman Catholic Churches were crowded yesterday afternoon at the annual services of the Holy Name Society. Members of the society from St. Michael's, St. Joseph's, St. John's and St. Paul's assembled at the cathedral and marched in procession to St. Paul's, where the sermon was preached by Rev. Father Williams of St. John's, East Toronto. The other clergy taking part in the service were Fathers Murray, Hand, Whelan, Mulhern, Murphy, Kelly and Cushing. The service at St. Helen's was attended by the members of the society from the parishes of St. Mary's, St. Francis, St. Peter's, St. Cecilia and St. Helen's. The sermon was preached by Rev. Father O'Malley. Catholics were warned to show more reverence for the name of Jesus. The principal object of the society is to discourage blasphemous language among its members and others.

AT THE THEATRES

J. E. DODSOON. In "The House Next Door," at the Princess next week.

"The House Next Door." The engagement of J. E. Dodson in "The House Next Door," at the Princess Theatre, begins to-night. While it has been said that Mr. Dodson is an English actor of renown, and that his comedy treats of present-day conditions in London society, it has not been mentioned before that the present conditions in England in a remote way are touched upon in the play. This is coincidental, of course. The only similarity, however, is the fact that Sir John Cotswold, Bart., is a confirmed Conservative, and his opponent, the man he hates intensely, one Sir Isaac Johnson, is a Liberal. The former represents the old order in society, while the latter is an up-to-date man of the people, a circumstance of which he is duly proud. The play is a comedy which will appeal to all lovers of the legitimate in the drama. No better actor than Mr. Dodson has ever been seen in Toronto. His visits have been few, indeed. Many years ago, as leading actor with the Kendalls, and only once later, comprise his appearance in this city. It is promised that hearty laughter will mark the production of "The House Next Door."

pany is one of the thrifty men of the stage. He has always been shrewd in business affairs, and his many deals in real estate and mining properties have nearly all turned out well for him. By the time this fine actor is ready to leave the stage—which we trust will be years hence—he will be possessed of an abundant competency for his old age. For almost 30 years, James O'Neill's name has been most closely identified with the play "Monte Cristo," and at the present time he is playing the part of the venerable archbishop in the Viola Allen company, which will present F. Marion Crawford's last play, "The White Sisters," at the Royal Alexandra Theatre next week.

MABEL TALIAFERRO. The star of "Springtime," coming to the Princess last three nights next week.

Lily Lena at Shea's To-day. Lily Lena, the delightful and fascinating little English singer, is returning to Shea's Theatre this week with a series of excellent story songs and new costumes and hats direct from London. Other prominent features included in this week's bill are Stuart, the "male Patti," who has been in Europe for the past four years and his voice is more wonderful than ever; Flo Irwin and her clever company are presenting George Ade's best comedy, "Mrs. Peckham's Carouse"; Herzog's Horse Show, six stalling black stallions; Aubrey Pringle and George Whiting in "Breaking Into Vaudeville"; Hilda Hawthorne, the winsome ventriloquist; Palfrey and Lacey, comedy cyclists; the Makremko troupe of Russian dancers, presenting "Gypsy Life," and the cinematograph complete the bill.

David Higgins, in "His Last Dollar," at the Grand.

Manhattan Opera Company. Oscar Hammerstein, who is presenting his Manhattan Opera Company at the Royal Alexandra this week, began the theatre-going public of Toronto that may attend his performances during their stay here, to be in their seats by 8.15, that they may hear the overture by his Manhattan Opera House Orchestra of 40 pieces, which is said to be a feature of the opera. As Mr. Hammerstein will permit no cuts to be made, it is very necessary that the curtain go up on time. To-night's offering will be Donizetti's tuncful opera, in three acts, "Lucia," with Mirando, Blondel, Russo, Pignatari, Scott, Le-roux, Ardolino. The company arrived yesterday in a special train, consisting of two Pullman dining cars, two day coaches and three baggage cars. Thru the efforts of the local management Mr. Hammerstein has consented to play a popular priced matinee, which prices will range from 25 cents to \$1.

ELIZABETH CLARK. Metropolitan Opera Company.

"Merry Maidens" at Star. The attraction at the Star this week is the well-known "Merry Maidens Burlesquers." It is said to be one of the largest attractions on the road, while the gowns worn by the girls are all real Parisian creations. This season the show was produced by a man, comedian, is a trade mark of merit, without undue praise from the press agent, George Scanlon, imitable in Irish wit; Willie Weston, a wonderful light comedian, with versatile powers of imitation; and dainty and demure Fannie Erice, who has won a following in light musical comedy in soubret parts.

Liza Lehmann at Massey Hall. Selom has such a unique and attractive program been offered the musical public as that which will be given by Mme. Liza Lehmann, the great English composer, at Massey Hall, on Wednesday next week, Jan. 26. For the first time her song cycle, "In a Persian Garden," will be presented in Toronto, and under the composer's own direction, herself at the piano, with a talented quartet of vocalists of her own selection.

CELESTIAL CHOIR. Two special features will mark the concert of the National Chorus on Wednesday evening, at the singing of the Cathedral scene from "Parsifal" by a selected choir of 35 boys in certain of the choral exercises. Another feature will be the appearance of Miss Madje Van Neelsen-Stone, mezzo-soprano, of the Metropolitan Opera Co. New York. She is an accomplished vocalist and singer who, at the time with a phrasing and emotional interpretation.

ADA BROWN. With the "Merry Maidens" at the Star this week.

The College Girls. The attraction at the Gaiety this week comes with all the earmarks of being one of the very best road attractions of the season. Departing from the usual construction given burlesque attractions, this company offers two acts, joined together with a tangible plot and a clever story, from the pen of one of the best writers of musical comedy of the present day, and the musical numbers all written especially for this attraction by that versatile writer, Seymour Purdie. It is one of those classy musical comedies, bright.

At the night session papers will be given by F. T. Compton, M.P., on "Canada's Fur Bearing Animals"; Dr. P. H. Bryce, on "Public Health Improvement"; Dr. H. T. Gussow on "Diseases of Forest Trees," and by Dr. G. J. Hewitt on "Destructive Insects."

On Thursday and Friday the business will be along the lines of organization, water powers, mines, forests, fisheries and public health.

President's Daughter Aids Strikers. NEW YORK, Jan. 16.—Miss Helen Taft, daughter of the president, is lending her aid to the strikers here. Saturday she and some of her girl friends at Bryn Mawr College came to town and participated in a conference of prominent society women at the home of Mrs. Henry Lambarre Jayco, at which the strike was discussed and plans were made to aid the girls.

Grand Forks, Idaho, Burned. SPOKANE, Wash., Jan. 15.—Grand Forks, once rated as the toughest town in Idaho, was almost destroyed by fire.

There were evidences Saturday evening at Conservatory Hall that eventually the Toronto String Quartet will gain that full recognition which the beautiful art of the band so thoroughly deserves. The ground floor seats were all filled, and had the gallery also had its complete quota of music-lovers, the quartet could have had a red-letter mark in its calendar, with the slogan, "Standing room only." There should have been, however, a packed house; first, because the Toronto String Quartet is to Canada what the Kreisler or Plozard, or Spiering Quartet is to the United States; secondly, because the program was exceedingly beautiful and contained one novelty, Chadwick's Quartet in E minor; and, thirdly, because the local organization went to the expense of importing for their concert this season, Miss Elizabeth Clark, a celebrated contralto soloist, from the Metropolitan Opera Company, New York.

Miss Clark was heard Saturday evening in a coloratura aria from Meyerbeer's "Les Huguenots," and in a series of songs from Schubert, Brahms and Handel. She is a handsome brunette with a graceful stage manner, and displayed a remarkably powerful contralto, pure and melodious in all the register, and whether it was in the coloratura, as in Meyerbeer's "The Noble Seigneur," or emotional quality, as in the Brahms' "Serenade," or the Mendelssohn's "Without Thee," Miss Clark disclosed genuinely beautiful vocal art. Her tone was always full, round and sensuous, and her phrasing was true to the text

and clearly defined the melodic outlines of the scores. Her qualities are all summarized in a single sentence—Miss Clark is an accomplished artist.

The instrumentalists, in their opinion, were never in better form, and made the very most of their program. It was evident from their playing of Beethoven's Quartet in E flat that musical precision and unanimity were the players' playing both of it and the presto was overwhelmingly and musically delightful. The same must be said of the art of the band in interpreting Haydn's familiar "Poco Adagio Cantabile," with variations, from the "Kaiser" quartet. The broad, noble quality of the music demands the utmost precision and unanimity from the players to preserve it from developing into a mere hymn tune or into bravura. But the band kept all pure, the emotions with consummate art. A novelty was G. W. Chadwick's Quartet in E minor. This is a composition with a quite Celtic feeling for the spirit of wonder in the world. It is a sensuous throat, but with a notable spirituality in the melody. The viola is used most for the expressive and absolute music, and the band played it faithfully.

State Commissioner of Health Will Follow Ontario's Example. ALBANY, N. Y., Jan. 16.—Steps are to be taken by State Commissioner of Health E. H. Porter, to stop the pollution of the Niagara River in the City of Niagara Falls, N. Y., where it is stated garbage is thrown into the river thru a chute below the falls. The attention of the state department was called to the matter by Charles A. Hodggets, chief health officer of Ontario, who stated that a petition from the City of Niagara Falls, Ont., asking for authority to operate a similar chute in that city, had been denied by the provincial officials, and asking that if possible steps be taken to prevent the pollution of the river on the American side.

COBALT—Mining Securities Mark Time Generally at Week End---COBALT

Mining Markets Depressed Realizing Saes in Progress

Cobalt Securities Generally Reactionary, But Should Better Demand Arise Advances Might Be Easily Realized.

World Office.
Saturday Evening, Jan. 15.
The Cobalt mining securities for the past few days have been in a rather depressed condition. Realizing sales have been in progress all along the line, with the inevitable result that a lower range of quotations has been established for most of the speculative holdings issued. The reactionary tone which has developed of late is directly analogous to the attitude of Wall-street, the great stock market and other exchanges of this continent, and it is altogether likely that the severe breaks which have been experienced on certain of these larger and outside markets, have to a certain extent been instrumental in maintaining the weak undertone which has attended the Cobalt market. That price has been held as well as they did is to a great extent attributable to the fact that the no signs of inside support have been apparent, and that the absorbing power of the market has been retained at a pitch where all offerings have been fairly well taken care of by the large outside public have not become as yet appreciable extent enamored of mining stocks even on the basis of the announcements of the increased dividend disbursement on Kerr Lake, which was the signal for realizing movement which sufficed to bring about a complete change in the action of the security, a movement which dealt the market a severe blow. When the shares were soaring, a great deal of the stock was picked up by investors and speculators, and the higher quotations would be warranted by the advance in the distribution of profits, and when subsequent developments proved an exact opposite outcome, liquidation of these holdings was inspired, in consequence of which this issue has been through a round-trip sale and more or less short selling remains the feature of this section of the market at the present time. The market is not in a position to be held at the moment and as a matter of fact, the future prospects at best are not very bright. While the sentiment in the market is not as gloomy as it once was, it is argued that the present low figures are a result of the general reaction in the market, and that the property in good physical shape should continue the present dividend declaration. It is thought that ultimately the stock will be established on a much better basis.

The market during the last few days has been led by its downward course by the higher priced and so-called investment issues. Kerr Lake, Crown Reserve and La Rose have demonstrated that it was only natural that with losses registered from day to day by these leaders, the market should be affected in a similar manner. As was expected in certain quarters the announcement of the increased dividend disbursement on Kerr Lake was the signal for realizing movement which sufficed to bring about a complete change in the action of the security, a movement which dealt the market a severe blow. When the shares were soaring, a great deal of the stock was picked up by investors and speculators, and the higher quotations would be warranted by the advance in the distribution of profits, and when subsequent developments proved an exact opposite outcome, liquidation of these holdings was inspired, in consequence of which this issue has been through a round-trip sale and more or less short selling remains the feature of this section of the market at the present time.

EACH DAY THAT OTHER MADE "GRAFT" PROPOSAL

It Was Over Settlement of Doctor's Bill For Smallpox Cases—Chancellor Mardith on Insanity.

LONDON, Ont., Jan. 15.—(Special.)—A sensational charge of graft was made at the assizes Saturday afternoon, against ex-Reeve George Kimball of London Township, by Dr. Ross of Hyde Park, arising out of the smallpox outbreak in that municipality. Kimball made a counter-charge against Ross.

Ross is suing the township for \$2575, claiming that he had an agreement with the township to receive \$100 a week while he attended the cases. In the account which he rendered to the township council, he claimed to account \$1498 in cash settlement of his claim. The council offered him \$950 in full of his claim.

SOARED LIKE AN EAGLE IN THE SKY

Louis Paulhan Tells of Sensations at Great Altitude—Stopped Engine Several Times.

LOS ANGELES, Jan. 15.—"I had no thought of danger when I was a mile in the air," said Louis Paulhan, who was as safe and secure as when flying twenty feet from the ground. I could have gone to sleep and my good machine would have carried me safely thru the night. That, at least, was how I felt. There was no gusty wind and I rode up the air as gently as if I were in an easy chair. The air was cold, but intensely exhilarating and wonderfully pure. It is impossible for me to describe my feelings. It was exactly as the birds feel—I know their language now. No one can understand the birds until he has been one of them—until he has experienced what I did yesterday alone in the air.

CAR
The Cobalt mining securities for the past few days have been in a rather depressed condition. Realizing sales have been in progress all along the line, with the inevitable result that a lower range of quotations has been established for most of the speculative holdings issued. The reactionary tone which has developed of late is directly analogous to the attitude of Wall-street, the great stock market and other exchanges of this continent, and it is altogether likely that the severe breaks which have been experienced on certain of these larger and outside markets, have to a certain extent been instrumental in maintaining the weak undertone which has attended the Cobalt market.
