CLARK SCATHING IN ATTACK ON STAFF TAKEN BY LAURIER

Liberal Chief More Anxious to Win Election Than War, Says Red Deer Insurgent--Col. Arthur Assails Quebec's Attitude Strongly--A. K. Maclean a Bolter.

By a Staff Reporter. Ottawa, June 26.—Colonel James Arthur, Conservative member for Pelly Sound, Dr. Michael Clark, Liberal member for Red Deer, Donald Sutherland, Conservative member for South Oxford, A. K. Maclean, Liberal member for Halifax, and P. S. Robitoux, Conservative member for Kent, N. B., delivered strong and earnest speeches in the house today against the referendum and in support of the Conscript Bill. The anti-conscription sentiment was voiced at today's sitting by Onesiphore Turgeon, of Gloucester, N. B., and Jacques Bureau, of Three Rivers, both Liberals. Colonel Arthur, who resumed the conscription debate last night, returned from the front and on behalf of the Canadian army pleaded for immediate reinforcements. He spoke plainly of the lack of loyalty in Lower Canada, and declared that only one thousand French-Canadians were actually at the front.

Mr. Turgeon in opposing conscription confined himself largely to legal arguments, but Mr. Bureau, who spoke at the same time, cut loose with a scathing denunciation of the Province of Ontario. He said that Quebec was surrounded by enemies in Canada, more to be feared than the Prussians, whose methods they were adopting. There was a deliberate effort to divide the French-Canadians in a reserve and isolate them from the rest of the country.

Col. Arthur (Pelly Sound) resumed the adjourned debate on the second reading of the conscription bill. There was no difference of opinion as to the merits of the bill among the men at the front. They needed reinforcements and they wanted them right away. They took no note of what Sir Wilfrid Laurier said about conscription in 1914, or the Militia Act of 1914. He spoke for these men, having been in the field, and he voiced their sentiments when he said that no one today was opposing conscription except from some selfish, personal, political purpose. The voluntary system, Col. Arthur said, had broken down because a great many patriotic men who were willing to serve were not enlisted unless and until the front was made to do so. In his own district of Pelly Sound many French-Canadians had been brought in to take the jobs which had been held by men who had gone to the front. When the recruiting officers went to get more volunteers they replied they received with every disease from lunacy to venereal disease and they were afflicted with every disease from lunacy to venereal disease's knee. (Laughter.)

The record showed that some 3000 French-Canadians had enlisted in the Province of Quebec, but Col. Arthur did not think the number recruited had been anything like that much. There

Dr. Clark's Candid Words

Sir Wilfrid Laurier, by refusing coalition, opposing conscription and preparing to oppose parliamentary term extension lays himself open to the charge of being less anxious to win the war than to win the next general election. The referendum would allow the slackers to determine our policy at the front and give undue power to the province where most of the slackers reside. No matter which way the referendum went, it is unlikely that the Liberals, if returned to power, would pass the conscription act. Sir Wilfrid Laurier and the bulk of his followers, who are opposed to conscription, might form a government that would do for the millennium, but not one able to face Armageddon. If organized labor opposes conscription, it is probably because the present bill aims only to conscript man power. The government should impose an income tax that will hurt, cut out patronage, especially in military finances, remove all tariff duties from food and fuel and make every man wearing khaki earn his pay. I shall support this measure on its second reading and I shall vote against the referendum.

MANY BIG MEN CENSURED FOR KUT DISASTER

Mesopotamian Commission Chiefly Blames Sir John Nixon. HARDINGE RESPONSIBLE Austen Chamberlain Took Wrong Advice of Military Experts.

London, June 26.—The most scathing and outspoken official report of the investigation of any military operations since the war began, not even excluding the report on the ill-fated Dardanelles expedition, was made public in a blue book issued tonight. This was the report of the commission which has been investigating the Mesopotamian expedition. Put briefly, the report finds that the expedition was a justifiable military enterprise, but was undertaken "with insufficient forces and inadequate preparation," and that its initial failure with the loss of Kut-el-Amara, was due to lack of foresight, mistakes and miscalculations. The report frankly declares that the shortcomings of the expedition were due to the "organizing aptitude of all concerned, and it apportions the chief responsibility upon General Nixon, the former commander of the British forces in Mesopotamia, and upon the viceroy of India, Lord Hardinge, and the commander-in-chief in India, Gen. Sir Beauchamp Duff.

For "the lamentable breakdown" of the technical services, the responsibility is attributed to Surgeon-General G. Hathaway, who "showed similar unfitness" as the high administrative officer he held. The report recommends as most desirable that the governing machinery of the Indian army should be so reformed as to enable it to be a help to and not a drag on the fighting capacity of the armies it controls, and that the aim of administrative reform in India, certainly in the military departments, should be the devolution of responsibilities and duties from the over-centralized bureaucracy of the government. The signatories to the report are Lord George Hamilton, Earl Donoughmore, Lord Hugh Cecil, Sir Archibald Williamson, Admiral Sir Cyprian Bridge, General Sir Neville Lyttelton and John Hodgkiss, minister of labor. In a separate report, Josiah A. Wedgwood, commander in the royal

French Win Action of Considerable Importance Near Hurtebise Farm. LIVELY IN BALKANS Allies Disperse Strong Bulgarian Reconnaissance Party Near Vardar.

London, June 26.—The infantry activity in the region between Soissons and Rheims has given way entirely to artillery duels in the sector of Moulin de Laffaux and a continuance by the Germans of the slow demolition of Rheims with guns. Monday night saw an engagement of considerable proportions northwest of the Hurtebise farm, where the French captured German first line trenches and more than 800 prisoners. Berlin is admitting the gain by the French, tempers the German crown prince's loss somewhat by the assertion that the fighting near the Hurtebise farm recaptured the greater portion of the lost territory.

The day was calm save in the region of Moulin de Laffaux, where the artillery fighting was quite active, and in the region of Rheims, which was "violently bombarded," says the official statement issued by the French war office tonight. Belgian communication: "The enemy shelled our roads of communication, while the artillery actions were especially spirited in the neighborhood of Ramecapelle, Dixmude, Reininghe and Pygemale. There was lively fighting near the ferryman's house." Eastern theatre, June 25: Quite intense cannonading on both sides took place in the region of the Vardar and the Cornia bend, where a strong Bulgarian reconnaissance, which attempted to enter our trenches, was dispersed with rifles and grenades. The British troops carried out to the east of Lake Doiran a successful raid in which they made about a dozen Bulgarian prisoners. Allied aviators successfully bombarded a number of enemy communications.

PLAN UNIFORM POLICY ON WHEAT QUESTION

Canadian Grain Supervisors Are in Touch With U. S. Authorities.

Winnipeg, June 26.—The board of grain supervisors for Canada, it was announced today, have under consideration a policy with regard to both available and prospective supplies of wheat, and are in communication with the corresponding authorities in the United States, with a view to effecting to reach a policy uniform in both countries. The board will not permit the opening of the market for future delivery in wheat until further notice. SKATER HIT BY MOTOR. Thomas Brant, 600 West Wellington street, had his head cut when knocked down by a motor car driven by Chas. H. Routledge, 385 College street, on DeCoe street last night. He was taken home. The boy was on roller skates at the time.

THE IMPERIAL AVIATION FIELDS

At Leaside and Ridley Park Rushed to Completion—Street Cars and Pavement Laid on Yongs—Mayor Church Anxious to Help King George.

Rapid progress is shown on the two big aviation plants in the North Toronto district, one at Leaside to the east, the other at Ridley Park, to the west. The latter is on the Robins estate, and is approached by Mason avenue, this side of York Mills. The engineers and workmen of the imperial munitions board have just put down a stone-lar pavement north from Deloraine avenue, for half a mile, to a junction with Mason avenue, already paved in a high-class way, westerly towards Bathurst street. Water pipes and sewers are being laid from the city mains along this route right up to the officers' quarters, the cadets' quarters, the work-shops and the six big hangars for the airplanes. Work on all these buildings is now under way, and the whole plant ought to be ready for occupation in a month or less.

The Leaside flying field is much further advanced, many of the buildings being finished. The concrete pavement on Morse drive put in by the Toronto city council, to the west, and cable munitions plant on Soudan, then east and north to Eglinton avenue. A stone and tar pavement from Soudan to Eglinton is now being put down. Electric wires for light and power are also up. Hundreds of men—beam, house, power machines, drain-digging machines and scores of motors and automobiles are working day and night at both plants, under direction of Col. Low, who built the Borden camp.

But the great need for these two plants is a new pavement, and the imperial authorities would greatly appreciate quick action on the part of the city in taking over the Metropolitan franchise. The negotiations for this franchise ought to be concluded in a fortnight, and before a month has passed the city ought to be on the double-track and the asphalt pavement on at least one side of the track allowance. Mayor Church says if this deal is not completed he may have to ask Col. Low to fill in the holes on Yonge street with crushed stone and tar. Ald. Ball and Works Commissioner Harris are, however, confident that the city will be busy on the tracks and pavement before August 1st. The way for the mayor to get knighted, if he desires the honor, is to help King George and the emperor by helping King George and Lloyd George are waiting anxiously to hear that the city is doing its part. Incidentally, the munitions commission is spending several millions of dollars hereabout in a quite free way. The general should at least show some appreciation. Sir William Mackenzie is said to have instructed the representatives of the Metropolitan to close up the deal for the railway on Yonge street up to York Mills.

STETTIN HUNGER RIOTS LEAD TO BLOODSHED

Mob Plunders Shops—Soldiers Fire on People With Machine Guns.

Gothenburg, June 26.—According to further details given in newspaper TUD, by a resident in Gothenburg who witnessed them in the recent hunger riots in Stettin were of a most serious nature. Several persons were killed. The riots began June 15, the mob being composed largely of women, although some men took part in the disorders. The outbreak had its origin in rumors that foodstuffs had been exported. The mob plundered shops and broke windows. The police in the outlying parts of the city strenuously sought to quell the riots. One girl was reported to have been stabbed thru the body with a sword. In the central part of the city, the soldiers used machine guns and bayonets and several persons are reported to have been killed near the Hansa bridge. The sound of firing was heard all night. Machine gun detachments were posted at various centres of the city thruout the following day. Work was generally resumed June 20.

Washington, June 26.—American loans to the allies passed the billion dollar mark today, when the treasury placed \$15,000,000 to the credit of Belgium and \$10,000,000 to France's account. Credits to all the allies to meet their expenditures in this country now total \$1,008,000,000, of which Great Britain has received \$550,000,000 and France \$210,000,000.

CANADIANS SHOVE LINE BEFORE AVION VILLAGE

Germans Remain in Hamlet, Keeping Up Steady Sniping From Houses—Dominion Troops Consolidate Captured Ground.

By Stewart Lyon. Canadian Headquarters in France, via London, June 26.—Today was spent in the consolidation of the captured ground. The enemy remains in Avion, and from its ruined houses, he has kept up a steady sniping. Further to the south his machine guns also were extremely busy.

Our casualties, the people at home will be glad to learn, are remarkably few. The flank of guns along the front seemed like distant lighting. The night was wild and pitch dark. The torrential rain which fell was accompanied by a high wind, which held up the advance towards the village until daylight. Guns Active by Night. All night our artillery was extremely active. The flank of guns along the front seemed like distant lighting. The night was wild and pitch dark. The torrential rain which fell was accompanied by a high wind, which held up the advance towards the village until daylight. The Germans have made enormous craters at all the cross roads in Avion and leading towards Lens. These craters did not exist forty-eight hours ago.

SEEK CANADIAN HORSES FOR THE BRITISH ARMY

Brigadier-General Neill Has Supervision Over Purchase of Remounts for Cavalry and Artillery.

Canadian farmers and breeders have now an opportunity of supplying horses for the British army. Brigadier-General Neill of the Canadian Expeditionary Force was in Toronto the early part of this week in connection therewith. When Sir Robert Borden and Hon. Robert Rogers were in England at the imperial conference, they took up the question with the British war office of supplying remounts for the British army, and after several conferences, a satisfactory arrangement was outlined. The Canadian ministers offered to lend the services of Brigadier-General Neill to the British war office for this purpose, and the offer was gladly accepted. The general came back in the same ship with the Canadian ministers and immediately began organizing buying arrangements for Canadian horses. Already he has opened up depots in the west; the headquarters for Ontario will be in Toronto; and already a large number of horses have been bought at the Repository and at the United States Yards in Toronto and at other places; and the buying will be continued indefinitely for some months now, as the requirements will be continuous and large. The price is in the neighborhood of \$175 a head and up to Toronto Concentration Point.

SHIPBUILDING BEGINS AT CITY OF QUEBEC

Quebec, June 27.—Orders from the imperial government are being received by Canadian firms for the erection of steamers to handle freight to and from Canadian ports. One of the most recent contracts issued by the imperial authorities was that given to the Quebec firm of Quinlan and Robertson last week. It was thru the efforts of this company and the Quebec Board of Trade that the contract was obtained. It is for the construction of four steamers. They are to be wooden screw vessels weighing 2000 tons each. The first two are to be launched in the fall and the other two in the spring. Quebec business men are greatly pleased at the receipt of this contract, as they say it will be the start of a great industry at the Ancient City.

Enemy Has Transferred Town Into Fortress, With Guns Trained Everywhere—Foe Prisoners Declare They Are Promised Peace by September.

By R. T. Small, Staff Correspondent of the Associated Press. British Headquarters in France, June 26.—Realizing his danger, the German commander is fighting for Lens like a wolf in a corner. Lens gone means that a large sector will have to be abandoned. So, inside a salient somewhat resembling the shape of a dog's head, the Germans are hanging on, apparently determined to hold until the last hope goes glimmering. The Canadians took La Coulotte this morning at 7 o'clock, their patrols pushing on eastward towards Avion, while other British troops advanced down the eastern slope of Hill 65. The Germans have extended the floods with water from the River Souchez until the plain between Avion and Lens is well covered. The mill city on the western fringe of Lens has been razed by order of the German higher command, so that the machine guns may have a clear sweep at the British as they approach. Lens itself is a mass of ruins. The walls still stand, but the city is roofless, making aeroplane photographs resemble a bird's eye view of Pompeii. Whole rows of houses have been leveled that the field guns may obtain wider ranges. The entire city has been converted into a German fortress, in which each ruined house is a machine gun emplacement and every cellar and sub-cellar a refuge. For weeks the British refrained from shelling Lens, but the Germans, taking advantage of the sentiment staying the hands of the English, brought their guns into the town, razed the houses about the gun pits and then shelled away safely. Recently therefore, the British guns have trained their sights on the gun positions hidden in the mining capital. The German losses in the Lens salient are heavy, and new drafts are constantly demanded. Prisoners say that they had been promised peace definitely by September.

Advantage of Thousand Yards.

The official report from British headquarters in France tonight reads: Further information regarding the operations carried out by us last night northeast of Fontaine-les-Croix shows that all our objectives were gained with little loss. Twenty-seven prisoners were taken. Two hostile counter-attacks delivered with considerable strength were successfully driven off. During the day our progress south of Lens continued. Enemy troops extended their gains. Enemy positions astride the Souchez River, on a front of two miles, to a depth of one thousand yards, passed into our possession. We have occupied the Village of La Coulotte. As a result of a raid attempted by the enemy last night west of La Bassée, twelve German prisoners were left in our hands. In the air fighting yesterday two German airplanes were brought down; three other hostile machines were driven down out of control. One of our machines is missing. The Associated Press says: The slow but sure encirclement of Lens, the important coal centre held by the Germans in the department of Pas de Calais, is in process of consummation by the Canadians. Having already during the present week captured important vantage points west and southwest of the town, a fresh smash at the German lines has been rewarded by the occupation of the Village of La Coulotte, situated a mile to the south. With the British forces virtually enveloping the town except on the east, the Germans already have ceased the mining of coal in the immediate vicinity of Lens, thereby seemingly indicating that they realize that their tenure of the position is shortly lived.

Altho the British war office aside from the operations around Lens, reports no activity by Field Marshal Haiger's men rising in importance above minor patrols activities, the Berlin war office asserts that the heavy artillery details are in progress at strategic points in which enormous quantities of ammunition are being used. Reading between the lines of the German report, it is apparent that the British are the aggressors, and it is possible that General Haig is paving the way for a serious of new thrusts against the German lines.

WAR SUMMARY

THE DAYS' EVENTS REVIEWED

In their advance on Lens the Canadians have halted before Avion, which the Germans hold with machine guns in barricaded houses. The enemy, it appears, is holding ground, will not give up Lens without a further struggle.

The British bulletin from general headquarters gives the additional information that the British progress south of Lens continued during yesterday and that the troops extended their gains and took possession of strategic positions astride the Soutchez River on a front of two miles to a depth of 1000 yards.

The report of the Mesopotamian commission, issued last night, fixes the responsibility for the first advance on Bagdad and the consequent disaster at Kut-el-Amara. It blames the yielding ground, in which the main cause of the decision, Lord Hardinge, viceroy of India; General Beauchamp-Duff, commander-in-chief; Major-General Barron, military secretary to the India office; Austen Chamberlain, secretary of state for India; and the war committee of the cabinet.

The commissioners also find that notwithstanding a period of reverses the success of the Mesopotamian campaign, as a whole, has been remarkable. They assert that in the many parts of the world in which allies have been engaged, no more substantial results or solid victories have been achieved than in Mesopotamia.

The French success won northwest of Hurbetise yesterday was one of those local affairs of more tactical than strategic importance. Their official report of this operation shows that they captured first line trenches and the enemy lost heavily in wounded and dead.

### ROMANOFF ESTATE PASSES TO RUSSIA

Ex-Czar Loses Revenue From Seven Hundred Million Dollar Property.

### FAMILY TRUST FUNDS

Deposed Emperor Has Thirty-Five Million Dollars in England.

(Correspondence of the Associated Press.)

Petrograd, May 31.—Property valued at \$700,000,000, from which Nicholas Romanoff, formerly Emperor of Russia, enjoyed the revenues for life only, have been taken from him by the provisional government. A special commission of the government has been discussing whether land, palaces and other property owned by the former emperor should be worth \$48,000,000, shall be sequestered by the state. This commission also considered whether the property of the grand dukes and duchesses worth about \$10,000,000 should be seized for the benefit of the public. The value of all the property owned by the former emperor or members of the former royal house of Russia is estimated by Professor Okuniev at \$68,000,000.

In addition, the professor asserts, Nicholas still has on deposit in the Bank of England \$30,000,000 placed there years ago in provision for the rainy day which now has come. The late Grand Duke Alexis, uncle to the former Emperor Nicholas, left \$10,000,000 on deposit in the Bank of France.

There are also two Romanoff family trust funds. One was founded by Alexander III, when on his death-bed in Livadia, which now amounts to \$7,500,000, is invested in Russia and is within reach of the revolutionary government. Another, amounting to \$3,000,000, was devised by Alexander II, when he liberated 4,000,000 serfs for \$6 each in 1861.

Chief among the properties taken from the former emperor are the so-called "Cabinet Lands." These constituted one of the largest private

estates in the world and included vast forests, gold, silver, platinum and copper mines, 100 factories for making paper, textile glass or porcelain and 1600 flour mills. Nicholas derived \$22,000,000 a year in profits from the rental of these properties to peasants or others.

The former Emperor Nicholas' annual income when he was deposed, is estimated by Professor Okuniev at \$65,000,000. The duma allowed him \$8,500,000 a year to pay the expenses of the imperial court, but, because of extravagance, mismanagement and suffering, the annual cost amounted to \$20,000,000, according to the statement of Zubatcheff, councillor of the empire.

Expropriation of all the "appanage lands" from which the grand dukes and duchesses enjoyed a life income, was demanded by the council of workmen and soldiers' deputies. These lands are estimated to be worth \$140,000,000. The members of the former royal house offered to surrender them to the government if the nation demanded it. The grand dukes and duchesses owned, as private individuals, more than 200 palaces or villas estimated to be worth \$70,000,000. Some of these include the richest lands in the Crimea and the Caucasus. These estates were taken by the provisional government. In most cases no compensation was paid to the former owners.

### AMERICAN FARMERS CAN HELP GREATLY

British Minister of Agriculture Speaks on Food Supply Problem.

London, June 26.—"Discontent of the stomach is more to be feared than discontent of the brain—that is why we value the co-operation of American farmers." This statement was made by R. E. Prothero, minister of agriculture, to the Associated Press today. "The outcome of the war," he said, "may ultimately hang on the question of food supplies, and the American farmer is allotted the essential part to play in the great struggle for freedom. The need of food for man and beast is great whether peace is won or war prolonged."

Asked what the United Kingdom is doing in the way of food production, Mr. Prothero said that fully one-third of labor—usually employed on land has been taken for war work. "Short handed, harassed by a hundred new difficulties, the farmers are doggedly struggling to increase grain production by half," he continued. "Upwards of 120,000 women in England and Wales, old and young, drawn from every section of the country, are toiling on land, tilling hard and continuously. We have quadrupled our garden plots. After a hard day's work men return to their homes to labor with their wives."

Brewing at Minimum. "There has been no complaint concerning breadstuffs substituted for wheat loaf. The situation has been accepted and everywhere there is determination to eat within tether, however hard it may be. Brewing has been reduced to the minimum. This is a serious deprivation to men working at furnaces, in foundries and harvest fields. For generations they have been accustomed to the use of beer and believe in the aid it gives them. "We are further contemplating a drastic reduction of our livestock so more grain may be available for human food. These privations will have to be endured, but we do not fear such shortage as would mean starvation."

"There is risk that the shortage of food may strain endurance to the breaking point." There is as yet no

### GERMANS GRANT TRUCE TO FETCH IN WOUNDED

Foe Extends Unusual Courtesy for Sake of Maimed Highlander.

Behind the British Lines in France, June 25.—In a section of the line where there has been some pretty severe fighting this week, the British and German front trenches are only thirty yards apart. A Scotch soldier left badly wounded in this narrow stretch of No Man's Land moaned so piteously that the British front line officer could scarcely restrain his men from certain death in attempting to bring him in. While the officer was trying hard to think of some plan for rescuing the wounded man, his eye fell on a stray dog, which had been fraternizing for several days with soldiers in both German and English lines, finding friends in each.

He quickly wrote a note, "Will you allow us to bring our man in?" and tied it around the dog's neck, sending him across to the German lines with the message. In a few minutes the dog returned with the reply, "Will give you five minutes." The officer and two men took a stretcher and went over the top, returning in safety four minutes later. Men on both sides joined in a cheer before they settled down again to the business of war.

### CLAN MACLEAN CALLED TO COLORS IN STATES

British Recruiting Mission Signing Men for Canadian Highland Overseas Unit.

New York, June 26.—A call for the Clan MacLean has been sounded from headquarters of the British recruiting mission in this city. About fifty or sixty men, MacLeans preferred, are wanted to fill the vacancies in the ranks of the 24th Battalion of Canadian overseas forces, which the British government will be asked to designate as the MacLean Highlanders of North America. Already the States are represented on the rolls of the battalion, for which Lieut.-Col. Percy Guthrie, who will command it in France, is here seeking recruits. In the last ten days a total of 1,301 British subjects have enlisted here for service in France.

### GOOD ROADS AND CONSCRIPTION.

Belleville, June 25.—The annual convention of the members of the Deaf Association of Ontario is taking place at the provincial school for the deaf in this city. A large number of delegates are present, not only from Ontario, but other portions of the Dominion, and a few pupils from the United States. This afternoon the annual program of sports was carried out, and prizes awarded to the successful competitors.

### MANY BALL PLAYERS JOIN AUSTRALIANS

Lieut. Diamond, Champion First Baseman, Leads Recruiting Campaign.

Sydney, Australia, June 25.—Australian baseball players on the various war fronts number several hundred. There will shortly be two additions to their ranks in the persons of Allan Beach and Austin Diamond of Sydney. Both are now in training here. Beach was the secretary of the National League of Baseball Clubs of New South Wales. Diamond, who is a lieutenant in the Australian expeditionary force, was in his day, a dozen years ago, the best first baseman in Australia. He captained the Australian team which visited the United States and Canada in 1913. He and Lieut. Seaborn, a football player, were the leaders of a recruiting campaign lately among sporting organizations in this state. The motto of the two was, "Be a sport and enlist." They raised a unit of a hundred athletes, which is now in a training camp.

### LOAN MAY GO TO CROWN.

London, June 25.—To consider the forfeiture to the crown of £46,061 due to the King of Bulgaria on a loan from the London branch of the Credit Lyonnais, a commission under the great seal, set in the King's bench for the first time in the history of the law courts. Counsel for the respondents obtained a fortnight's adjournment to call evidence. At the time of the transaction Bulgaria was at peace and the entente powers believed that the country would enter the war on their side. The French government raised the loan, in which the Credit Lyonnais participated.

### MEXICAN NAVAL SCHOOL OPEN.

Mexico City, June 25.—Classes have been resumed at the National Naval Academy at Vera Cruz, which has been closed since the American occupation of that port in 1914, when cadets from the school opposed the landing of the American forces. The national military school at Chapultepec, which also has been closed for years, will resume its courses of study shortly. The Chapultepec school will supersede the academy of the general staff, which will cease to exist when the Chapultepec school reopens.

### DUTCH BULB FIELDS BURST INTO BLOSSOM

Hollanders Find Solace From War in Growing Flowers.

Haarlem, Netherlands, May 31.—Fully five or six weeks late, owing to the prolonged cold spell, the flowers of the Dutch bulb fields once more unfold themselves to the delighted eye of nature lovers, and the famous bulb country, between Haarlem and Leyden, is ablaze with daffodils and narcissi, while hyacinths, in their variegated shades, have again woven "nature's own pet." The tulips are yet to come.

Rarely has the advent of these spring flowers been welcomed with genuine enthusiasm. The people of Holland, nerve-strained as they are, owing to the constantly imminent war peril by which their little country is from all sides menaced, find some measure of solace in the reflection that as surely as the spring flowers have come again, the blessings of peace will once more descend upon this disturbed world.

The usual invasion of week-end visitors from the neighboring Big cities has set in, and crowds wander thru the scented fields garnering the blossoms. The evening trains discharge their thousands all laden with the day's spoils, and give the grim railroad stations an unwonted air of gaiety. The roads are alive with hordes of cyclists carrying big baskets slung across their shoulders. Figures just published show that exports to the United States and Canada rose from \$100,000 tons in 1915 to \$1,014 last year. American gardeners have, in these years of war, seen more and more drawing on the product of the long line of famous bulb-fields that lie just behind the sand dunes of the coast of the provinces of north and south Holland. Last year's exports to America and Canada were more than double the total of 1915, the year immediately preceding the outbreak of war, and constituted nearly half of Holland's entire exports of 25,853 tons.

## FOR THE EMPIRE

Flight Lieut. C. R. Sloan is now reported to have been killed in action May 4, according to word received by his brother, Mr. C. J. Sloan, manager of the Royal Bank, Bathurst and Colborne streets. The Red Cross authorities from Switzerland have sent the information that Lieut. Sloan has been killed at Abancourt. The fallen officer was 35 years of age and a native of Toronto. He was educated at the St. Lawrence Collegiate Institute and the University school. His mother was killed in the Niagara trolley car accident in July last.

Pte. A. J. Riddell, who boarded with Mrs. A. Callan, 50 Northcote street, was killed in action. Pte. Riddell was a jovial Scotchman, steady and industrious. He left his employment with the Ormsby Roofing Co. to enlist with a Highland regiment.

Pte. John Rogers, 21 Phipps street, is believed to have been killed October 1915. He enlisted in the fall of 1915, and went overseas in March, 1916, as a member in a Toronto unit, but was drafted into the fighting line on reaching the front. He was a plumber and is survived by his wife and seven children.

Pte. J. Welch, killed in action, was a young Irishman, a member of the 10th Battalion in the spring of 1915. His next of kin live in Belfast.

Pte. L. G. Taitton, young Englishman, who spent four years in Toronto employed in a paper mill before the outbreak of war, is now reported killed in action. His family reside in England, but the young man had many friends in the city. He resided at 27 Myrtle avenue prior to enlisting.

Pte. Henry Whitlock, elderly grand-son of P. Whitlock, of the same name, who resided at 1000 Bay Street, is presumed to have been killed in action. Mr. Whitlock, who was farming near Hamilton, New Ontario, enlisted with the 10th Battalion in August, 1915. He was 20 years of age when he enlisted, and is survived by his parents, Mr. and Mrs. P. Whitlock, of the same name, of the same name, of the same name.

Pte. L. A. Stillar, enlisted in Toronto with a pioneer battalion in 1915. He was in action in the east end of France, and is reported among the killed. His home is in Sturgeon Falls.

Pte. Thomas Keating, missing since September 17, 1915, is presumed dead. Before enlisting he was employed by the Toronto Glass Works, Dovercourt road. He was 25 years of age and resided in England. His wife resides with her mother, Mrs. Charlotte Dale, at 46 Mitchell street, and her little daughter, Lillian, aged two years, was born only a few days after her father left for France.

Pte. L. McGregor is now officially presumed to be dead. He enlisted with the 10th Battalion and was invalided home from Salisbury Plain with rheumatism and received his discharge. He enlisted again and had been in France nearly 18 months. He was a native of Glasgow, but had been in Canada twelve years. Pte. McGregor was the sole support of his widowed mother, who resides at 22 Essex street.

Pte. Alexander Morton, son of Mr. and Mrs. George Morton, 352 Bathurst street, who has been missing since the battle of Zillebeke, in June last, is presumed to have lost his life in that engagement. He came from the same place as the late Pte. McGregor, and was employed as a bricklayer. Pte. Morton's friends live in Bloxham, Oxfordshire, England.

Mr. C. W. Spink, proprietor of Kew Beach boat storage, would like to announce to the public that the canoe which upset in front of Scarborough Beach Park on Sunday afternoon, June 24, resulting in the drowning of one of the occupants, was not rented from his place, although the three rescued men, as well as the canoe, were brought to his boat-house, resulting in the assumption that the boat occupied by these men had been rented from him.

## BRITISH ARE RESIGNED TO FOOD RESTRICTIONS

Capt. (Rev.) J. W. Magwood Tells of Fine Spirit He Found in England.

Praise of the fine spirit shown by the British people in the manner they are accepting the new food restriction rules is given by Capt. (Rev.) J. W. Magwood, a Methodist chaplain, who went overseas with the 216th Bantam Battalion, and returned home to Toronto yesterday. The rationing orders, he states, are observed not only in private houses but also in the best hotels. Special economy is shown in the use of sugar, bread and butter. Agricultural affairs in the British Isles are being conducted in a very efficient manner, women sharing to a considerable extent in the work done on the farms.

Capt. Magwood was present at the Irish debate in the house of commons. He thinks a new spirit of conciliation has arisen, which augurs well for a settlement of the Irish question, this being noticeable in the speeches of both Redmond and Carson.

Capt. (Rev.) John Coburn, who has also just reached Toronto from overseas, states that the military establishments in England for the services of chaplains is limited in its capacity. On his arrival there last month he was informed that it was full. While on shipboard Capt. Coburn was allotted the duty of censoring the soldiers' letters. Reading these letters proved the men of a fine type and worthy of high respect. Only a dozen out of 200 letters had to be discarded.

## SUES ON CONTRACT

Laundry Superintendent Claims That Employers Broke Agreement. Justice Ferguson in the non-jury assizes yesterday reserved judgment in an action brought against the Puritan Laundry Company, Limited, by James I. Goldbold for \$2000 for breach of contract. A claim was also made for an accounting of business during the three years of his contract with them as superintendent.

According to Mr. Goldbold he entered into an agreement in May, 1915, to perform the duties of superintendent of the laundry for three years. For the first 18 months he was to receive \$35 a week and \$40 a week for the remainder of the period. He was summarily dismissed on July 29, 1916, without, he alleges, reasonable or just cause. In defence it was claimed Goldbold was not suitable for the position, and he was offered \$70 in lieu of two weeks' wages at the time of dismissal.

Mr. Goldbold is a native of England, but had been in Canada twelve years. Pte. McGregor was the sole support of his widowed mother, who resides at 22 Essex street.

Pte. Alexander Morton, son of Mr. and Mrs. George Morton, 352 Bathurst street, who has been missing since the battle of Zillebeke, in June last, is presumed to have lost his life in that engagement. He came from the same place as the late Pte. McGregor, and was employed as a bricklayer. Pte. Morton's friends live in Bloxham, Oxfordshire, England.

## CITY HAD TO PAY OR BE SOLD UP

Board of Control Issues Order That Frederick Murch Be Paid.

The presence of a sheriff's officer in the mayor's office yesterday morning quickly brought the board of control to a decision on whether it would pay Frederick Murch \$2700, the cost of land expropriated from him, which he never received as it was handed over to his solicitor, A. F. Lobb, who absconded. And the decision was to pay Mr. Murch the money immediately and the costs of a suit to recover the amount bringing the total up to \$5800.

The controllers had taken the position that the legal department was responsible for handing the money over to Mr. Lobb and recently ordered that amount be taken out of the fees received by the city's lawyers. City Solicitor Johnston wrote the board stating that it could not be seized of the full facts of the case and that Mr. Murch had been in the position since June 6 to issue execution against the city.

Had to Pay. The mayor stated that the board had to pay the money or the sheriff would seize the chairs and desks in his office and the council chamber. Controller Cameron stated that the board should not have ordered the legal department to make the payment as it had no money for that purpose. It did not alter the fact that the city owed Mr. Murch the money. "Get four or five citizens to identify Mr. Murch this time and get five good looks at him before you pay it," was how Mayor Church gave his instructions to Finance Commissioner Bradshaw.

Stating that there were men working who should be at the front, James Lebar, a Fenian raid veteran, appealed to the board for a pension. A pension of horses but the heads of departments refused to employ him owing to his infirmity. Commissioner Harris said he would like to give him a job but he couldn't as no matter whether the city was guilty of negligence or not, it would render itself liable for a large amount under the Workmen's Compensation Act.

Jail Farm Salaries. The controllers promised the old veteran a light job. As the provincial government has taken upon itself the sole right of making appointments to the duty of censoring the soldiers' letters, the controllers have decided that the province should also pay the salaries and expenses connected with the in-vestigation if they are not going to have any say in making appointments they will ask the government to take over the jail, and the matter will be taken up at a conference with provincial officials.

Property Commissioner Chisholm reported that on June 20, there were 63 men at the Don Jail and no women, and 24 men at the Industrial Farm on the same date.

## CITY HALL NOTES

The board of control has refused the Toronto Anti-Conscription League permission to hold a meeting in the northeast end of the Queen's Park to discuss the compulsory service bill.

Mayor Church yesterday sent the following telegram of congratulation to Sir Robert Borden: "Toronto wishes you heartiest congratulations and many happy returns of the day on this your birthday. May you be long spared to continue your good work for Canada. Accept our heartiest congratulations and best wishes."

## PLAN UNITED ACTION IN COMMON INTEREST

Hon. W. J. Hanna Says Canadian Food Control Commission is Being Rapidly Organized.

Hon. W. J. Hanna, food controller for Canada, who recently returned from a conference at Washington with F. C. Hoover, food administrator of the United States, had little to say yesterday regarding the results of his mission, but intimated that in the course of two or three days complete details of the plans would be announced.

While in the United States capital Mr. Hanna put in all his time with the Hoover food administration and the British embassy, and he was impressed by both nations to food control. He found entire willingness on the part of Mr. Hoover and his associates to co-operate in every way possible with the Dominion commission.

"I had the opportunity of discussing the general food situation at length with the British and American authorities," said Mr. Hanna, "and we arranged for united action on matters of common interest. The Canadian commission is being organized as rapidly as possible and the names of the members will be announced within a few days when the result of the conference is made public."

## CAPTURE THIEVES AFTER STERN CHASE

Policeman Haywood Made Haul of Motor Thieves and Stolen Car.

Thru the smart work of Policeman Haywood, Reginald Nepear, Otto Hookbush, John Chaumont and Joseph Hilton appeared in the police court yesterday, on a charge of stealing a motor car from W. O'Brien, on June 22. They were committed for trial.

The arrest was effected by the detachment of the policeman and the generosity of Mr. Beaumont, 407 West Bloor street, who lent his car to the policeman and made possible the chase of the aged thief and the stolen car. Magistrate Kingsford authorized the clever work of Policeman Haywood.

In the police court yesterday, Harry Reynolds was arraigned on several charges of bigamy, and was remanded until July 4. It is alleged that he went thru the ceremony of marriage in November, 1916, with a Miss Minnie Barrington, and in March of this year with Miss Edith Hatherly.

Investigate Interpreters. Investigation of the activities of interpreters in the police court was initiated yesterday, when Alex. Marevitch appeared on a charge of vagrancy and solicited the court by stating that he had worked for several lawyers as interpreter, including T. C. Robinson, K.C., and J. W. Curry, K.C. A letter from County Crown-Attorney Geer was read, stating that he had employed Marevitch as interpreter on several occasions and found him satisfactory.

At his own request, Mr. Curry took the stand and said he had used Marevitch as an interpreter when he had been brought to his office by clients. Detectives Mulholland and Cronin stated that he had never seen Marevitch work, but had seen him many times around the police court. The case was adjourned for a week for investigation.

Men of Toronto will have an extraordinary opportunity on Thursday to secure a blue serge suit, made of guaranteed pure wool and fast indigo dye, at a price greatly below present day market prices.

For Thursday only, at Hobberlin's, materials for five hundred suits will go at \$20, \$25 and \$30. Suits made to measure by expert tailoring—style, fit and workmanship guaranteed. High grade trimmings and entire satisfaction throughout. Realize what this means! Wool is becoming seriously scarce, and if the war continues prices will become fabulous. In any instance, our suits are being interwoven with wool to keep down rising costs, and unless conditions improve material for common use will be made of nearly all cotton.

Hobberlin's Thursday offering is astonishing. Should any man, after he has paid a deposit or had a suit delivered, be called to defend our flag, his money will be cheerfully refunded—every cent. The claims made for this material are backed and guaranteed by the special commission act, by accepting the names of workers at the Canadian Alliance-Chalmers Co. Louis Holschberger appeared in the police court yesterday, and was committed for trial. Arthur Bolinsky was complainant. Giving evidence, Bolinsky said that if he did not pay the money to Holschberger, he would get "fred."

On a charge of stealing milk tickets in the Dairy, Edward Sparrow, a driver, was committed for trial. ACTION DISMISSED. Suit Against City Concerning Rental of Hobbs' Market Stall is Dismissed.

In the non-jury county court yesterday afternoon Judge Denton dismissed an action brought against the city by Mrs. A. L. Bentley for \$600 and costs. The plaintiff, who sells butter and eggs, rented a stall at St. Lawrence Market in March, 1916. She alleged that in December, 1916, the city council caused a distress warrant to be levied against her goods thru non-payment of \$8.83 business tax. She claimed that the bailiff notified her on several occasions and interfered with her in her business. In defence, the corporation claimed that the tax was due on the business conducted by her son, but at the time in question taken over and conducted by Mrs. Bentley.

## PROGRAM ARRANGED FOR "NIOBE" MEN

Will Parade Thru City to Parliament Buildings and Visit Island.

Arrangements for the program to be carried out by the sailors of the Niobe during their visit to Toronto tomorrow and Thursday have been completed as follows: At 8.45 a.m., muster at the 109th Regiment armories to prepare for march. At 10 a.m., march off. The route will be as follows: Down York to King, East King street to Yonge, up Yonge to College street, west on College to University, up University to the Royal Canadian Yacht Club, where the men will board the R. C. Y. C. tender "Hiawatha" and cross to the island at 12 o'clock. After lunch there will be an inspection by Mayor T. L. Church, followed by a sail around the bay in various yachts belonging to the R.C.Y.C. At 5 p.m. the Niobe sailors will give an exhibition of cutlass drill.

The return march will start at 8 o'clock, and will proceed to the 109th armories by the shortest route. Here arms will be turned in, and supper will follow. The evening parade will take place at the Regent Theatre. The sailors will march to the Regent Theatre where a special program has been prepared for them.

It is expected that a large crowd will turn out to watch the march past of the boys in navy blue. On Thursday the sailors will muster at the armories at 10 a.m. and at 11 a.m. march out for about an hour. In the afternoon they will visit Government House, where the evening there will be an assault-at-arms at Massey Hall.

## PEEL AUXILIARY CALLS FOR CONCERTED ACTION

Pass Resolution Endorsing Description and Appealing to All to Sink Politics.

The following resolution was passed by the County of Peel War Auxiliary at a meeting held at Brampton on Saturday: "The Peel War Auxiliary feel intensely Canada's lukewarm support of her gallant soldiers at the front, thousands of whom are under twenty years of age, and all of whom have gone voluntarily and are fighting under a terrific strain thru lack of proper reinforcement.

"This auxiliary therefore heartily approves of the principle of the description bill introduced into parliament by Sir Robert Borden, and hopes that it will be without objection, referendum or other excuses or delays carried into immediate effect.

"This auxiliary appeals to Canadians of French origin not to stir up party discord, but to join heartily in this war with those of British blood, forever uniting Canada, and making her a country worthy of her noble lineage, sprung as she is from the best blood of Britain and old France.

"This auxiliary further appeals to all Canadians of whatever origin to cast aside politics and be men worthy of the heroes of the Canadian army.

"That a copy of this resolution be sent to Sir Robert Borden and to Sir Wilfrid Laurier.

Moved by James L. Ross of Erin-dale, seconded by Capt. W. C. C. Innes of Port Credit.

SCHOOL EXECUTIVE MEETS. The executive of the board of Sabbath Schools and Young People's Societies of the Presbyterian Church met yesterday afternoon, the new convenor, Rev. W. J. ## Vacation Death Roll

During every holiday season the newspapers record a startling number of accidental deaths among pleasure seekers.

Supposing you should lose your life while on your vacation this year, what will happen to your family? Do you realize that you've a duty towards them that doesn't end with your death?

Perhaps your wife hasn't been trained to be a bread-winner. But your failure to protect her until she dies—till the children are educated and self-supporting—may force your widow into the business grind in spite of her inexperience.

It's not a pleasant prospect, is it? But isn't it a possible contingency? To offset it you need an Imperial policy to perpetuate your income after you're gone. Write for literature and terms today. Tomorrow may be too late.

BE CAREFUL WHAT YOU Wash Your Hair With

Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

WOMEN'S ASSOCIATION HAS SPLENDID BALANCE

Workers for Canadian War Contingents Report on Contributions Received.

How to Destroy the Dandruff Germ

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well-known fact, but when we realize that it is indirectly responsible for many of the worst cases of catarrh of the scalp, we appreciate the importance of any agent that will destroy its power.

At last night's meeting of the Y.M.C.A. should go thru C.W.C.A. as the Y.M.C.A. has no means of transportation. Those at the meeting were Mrs. Torrington, Mrs. Gooderham, Mrs. Graham, Brampton; Lady Beck, London; Mrs. Starr, Whitby; Mrs. Hawkins, Hamilton; Col. Bruce, Col. Marshall, Auden; Sir John Gibson, Mrs. Plumtree, secretary, and Mrs. Bruce, treasurer.

## A Special Display of Misses' Summer Frocks Takes Place in Our Misses' Section Today A Frock for Every Hour of the Day

Beginning with the "Dairymaid" gingham and ending with the supple silk crepe de chine, there is truly not a frock forgotten, and every one, be it simple or extremely stylish, is a winsome garment of youthful womanhood. Young women of 14 to 20 years will delight in these misses' frocks, and small women will do well to try the ready-to-wear in that section.

### Frocks of Filmy Voile \$9.50 to \$12.50

All the charming oddities of fashion are depicted in this dainty array—white dresses with spotted hems, collars, cuffs, belts or vice versa—striped dresses with white collars, cuffs, belts and hems, or vice versa. They are in dainty pink, blue, mauve, green and all white with touches of color, and made in exquisite girlish styles. Prices, **\$9.50** to **\$12.50**

### The Loveliest Crepe de Chene Frocks, \$22.50

Fashion's very last thought is silk crepe de chine frocks, trimmed with wide silk military braids, so, of course, we have them. Small knife-pleats from neck to hem, a wide belt and big collars, and lopping pockets are endearing features about this new style. The wide white braid is shown on the belt, collar, pockets and cuffs.

### Gingham Gowns So Modish, \$15.00 to \$18.50

There's an indelible stamp of New York upon the gingham at these prices that will win your willing affections. Patterns most wonderful in equally wonderful colors—all sized checks and plaids in bold swaggar designs.
