BASUTOS MAY RISE AGAINST THE BOERS

Young Chiefs Stir Up Holy War Among Tribesmen

TROUBLE IS EXPECTED

Flying Force of British Troops Sent from Pretoria to the Border Country—Boers Ask Permission to Carry Rifles for Their Own Protection.

NEW YORK, Sept. 28.—A special cable from London to the Sun says that it is stated there that a flying force left Pretoria on September 26 for the borders of Basuto land.

Since the death of Leribodi, the paramount chief, and the report of the late German defeat in southwest Africa, the Basutos have been restless and a war like feeling has been simmering ready to burst out at any moment.

Young chiefs are traversing the country stirring up a sort of holy war that is aimed more at the Boers than the British. It is alleged that the British residents at Maseru have urged application to the High Commissioner to arm the farmers living on the border.

The Boers there are presently asking permission to carry rifles. The Boers, also reported to be restless and anxious to join the Basutos. The story includes a statement that Great Britain is being urged to send more troops. Nothing official on the subject is given.

GREATEST FINANCIAL DEAL FOR MANY YEARS SAID TO BE PENDING

Freely Reported Today That the Bank of Montreal is About to Purchase the Bank of New Brunswick—Directors and Officials Maintain Strict Silence.

A financial deal that is probably of the greatest magnitude of any that has taken place in St. John in recent years is reported to be in progress.

It is stated that negotiations are about completed whereby the Bank of Montreal will acquire the business of the Bank of New Brunswick.

A number of the directors of the Bank of New Brunswick when asked this morning concerning the terms or particulars of the deal, would say nothing. W. E. Staver, manager of the Bank of New Brunswick, said he had no knowledge of anything definite. He said, "Boers are always negotiating with each other when they have nothing else to do." He did not, however, deny the report.

Additional interest is attached to the matter by reason of the fact that Mr. Staver, who has resigned from the Bank of New Brunswick, is, it is said, to join the Bank of Montreal.

Mr. Staver, manager of the Bank of Montreal branch here, said he had heard the rumor, but beyond that he knew nothing of the matter. The fact that the directors or bank officials would neither affirm nor deny the report is taken as an indication that it is worthy of credence.

A number of citizens who were seen by the Times had heard of the deal, and the general impression was that it was practically settled, and that the terms of transfer were now under consideration.

There are, besides the head office here, branches at Campbellton, Charlottetown (P. E. I.), East Florenceville, Grand Manan, Riverview, Summerside, Sussex, North End, West End and Fairville. These branches have all been established since the management was assumed by Mr. Staver, and they are in a flourishing condition.

The Bank of Montreal, which is one of the largest financial institutions of the world, will still further augment by the acquisition of the Bank of New Brunswick, which is considered one of the best paying institutions in lower Canada.

The Bank of New Brunswick, which was incorporated in 1820, has a capital of \$300,000 and a net of \$50,000.

The directors are James Manchester, president; J. Morris Robinson, vice-president; Mayor W. W. White, Francis P. Barry, Geo. West Jones and Charles F. Baker.

ANGLO-JAP TREATY

Japanese Statesman Says World Will Realize ITS EFFECT IN TIME

Will Usher in New Period of Phenomenal Commercial and Economic Development as Well as Advance Civilization in East—An Anglo-Jap Company.

LONDON, Sept. 28.—According to the correspondent of the Standard at Tokio, the Marquis Ito, discussing the new Anglo-Japanese treaty, said—

"The time will soon come when the world will realize the full beneficial significance of this agreement. The peace, now happily restored by our treaty with Russia and so strongly guaranteed by this new alliance, will usher in a new period of phenomenal commercial and economic development, as well as advance civilization in the far east. All nations will have a fair share in the resultant increase of commerce."

LIVERPOOL, Sept. 28.—It is understood that an Anglo-Japanese ship owning and carrying combine with a capital estimated at \$25,000,000 has been arranged. The chief European office will be in London, and the office of the management will be located at Liverpool.

BERLIN, Sept. 27.—The Anglo-Japanese alliance in its extended form is regarded by some commentators as tending to bring Russia and Germany closer together. Germany would close agreements with Russia and Russia may feel the need of such agreements in consequence of the extension of the British-Japanese alliance.

CHARLOTTETOWN EXHIBITION

CHARLOTTETOWN, P. E. I., Sept. 28.—(Special)—The thirty day of the exhibition was the greatest day of the fair, with a record attendance. Judging the swine, dairy cattle and sheep was completed by G. M. McEae, Ottawa, R. R. Venn, Howick (Que.), and J. M. Gardiner, of Western Ontario, respectively.

The swine were pronounced the best of the maritime provinces. That of sheep is one of the largest and best of all the exhibitors. The dairy cattle superior to those of last year. Dairy Superintendent Daigle, who judges the cheese, declares the competition is of exceptionally show quality and excellent.

HAVE STRUCK THE FORD PIT

A Great Boom in Sight for the Pictou Coal Trade.

HALIFAX, N. S., Sept. 28.—(Special)—A despatch from New Glasgow says: "The famous Ford pit seam has been struck after years of search. The coal is of excellent quality. They are now at a depth of 1,200 feet in No. 2 shaft, while in No. 1 they are down 1,000 feet. It is expected that when the latter shaft reaches the same depth as No. 2 the seam will be struck there also. Since the disastrous explosion at the old Ford pit in 1885, the Acadia Coal Co. have tried many times to work the pit but without success, as the fire came through from the old workings until, under the present management, the Allah shafts were sunk at Pictou, some distance from the old pit, and their efforts have been successful.

This will prove a great boom to the Pictou coal trade, as this mine will no doubt be a very large producer."

FOUND WITH THROAT CUT

Halifax Soldier Found Dead in the Ramparts of the Citadel.

HALIFAX, N. S., Sept. 28.—(Special)—Bombadier James King, of the Royal Artillery, was found dead in the ramparts of the Citadel this morning. He was about 30 years old. No cause is known for his death. He had a good record and was in the band. He had been dead several hours when found.

WEATHER IS ON FIRE IN PEACEFUL CAMPOBELLO

Residents Excited Over a Recent Liquor Raid and the Arrest of One of the Raiders—Determined That Illegal Liquor Selling Must Stop.

Campobello is much excited over litigation resulting from a raid made on Owen Watson's store on the night of Sept. 16. After the raid Watson had John Thurber arrested charged with breaking into his store. He was tried yesterday at St. Andrews and discharged. Watson will be arraigned later on a charge of illegally selling liquor. Referring to the affair the St. Andrews Beacon says:

"The hearer's on fire in Campobello. This condition has been brought about by the action of Owen Watson in issuing warrants for the arrest of several residents of Campobello, although there had been no complaint against them. Watson had been ordered away from his premises, but beyond this there were no quarrels. The sale of liquor went on as usual."

"The leading people of Campobello are determined that illegal liquor selling on the island must stop. They will take no action until after the determination of the present case."

"About 100 Campobello residents came up to St. Andrews by 'Aurora' yesterday to attend the examination in the Thurber case, which was set down for 2 o'clock."

THE VERNAL MASCULE

One who well along in life, still is dressed with a natty affectation of youth. There was no vacant seat in the car, and he took a standing position in front of a pretty young girl and industriously ogled her. She did not pay much attention to him until suddenly he removed his hat and drew a handkerchief across his brow.

As he did so, he saw the young man's face, looking up, saw his hair, white close cropped, was snow white, but forgetfulness, and arising, she regarded him with a sympathetic smile and said: "Why, 'dear, what a fine sight to see this seat, sir!"

Completely crushed he left the car, and the young woman, astonished that her kind act had not been appreciated by her aged admirer, resumed her seat.

Mr. Schmall has been shooting in Michigan and Maine, but on account of the success of his friends returning from the hunt he has abandoned the old ground and anticipates great sport on his trip to the woods. A guide is to meet him at Chatham on Monday.—Transcript.

FUNERALS

The funeral of the late Jeremiah Sheehy took place at 2:30 this afternoon from his late residence, Chesley street. The body was taken to St. Peter's church where services were read by Rev. Father Scully and interment was made in the old Catholic cemetery. The Moncton Union, of which deceased was treasurer, now operating as a body.

The funeral of the late Mrs. Borden took place today from her late residence, Marsh Road. Interment was made in the Church of England burial ground. Rev. G. R. MacDonald officiating.

The funeral of the late Miss Harriet Bennett, who died on Tuesday at the Home for Incubables, will take place tomorrow morning, when the body will be taken to Westside, Albert county, for interment. The service will be held at the late residence of Rev. A. J. Foster. Deceased was a daughter of the late Benjamin Bennett.

ANOTHER TAN YARD GANG?

Residents and proprietors of establishments on Union street in the neighborhood of Brimley street have of late been complaining to the police of petty robberies that are being committed almost daily. The losses are of the opinion that a second tan yard gang is now operating.

Last evening between nine and ten o'clock a gun-like machine was taken from in front of Mrs. Thomas Sweeney's store on Union street.

Some papers coming into the store called Mrs. Sweeney's attention to the absence of the machine, but she, thinking that it was removed by someone as a joke, paid very little attention to it. Subsequently, however, after having made some enquiries, she ascertained that the machine must have been removed by some sneak thief. Messrs. Thomas Driscoll and Michael McCallum investigated and found the machine buried in a yard back of the Sweeney property. The machine, which contained 120 pieces of gun before the robbery was broken into was minus about a quarter of the number of pieces of gun, while the money which it had contained amounting to not more than twenty-five cents, was gone. Officer Henry Totten was notified and Sergeant Campbell is now working on the case.

On Monday last McCallum's store on Union street was robbed of some packages of cigarettes and the till was also broken into. There is a covered walk running from Union to Waterloo street and it is believed that the sneak thieves effected an entrance to Mr. McCallum's store by this means. During the summer Mr. McCallum has missed beer on different occasions, also cigarettes and money which were stolen from him. On one occasion a little newsboy about ten years of age was captured by Mr. McCallum after he had stored a couple of packages of cigarettes in his house when he pretended to be selling his papers.

The residents in that locality are now becoming alarmed by the many petty robberies, and will feel more at ease when the police break up the gang.

SIR WILLIAM VAN HORNE SAYS ST. JOHN CAN DO ALL

"St. John is Capable of Handling All the Business the C. P. R. Will Do for Some Time"—C. P. R. Will Not Use a Maine Winter Port.

(St. Andrew's Beacon.)

A representative of the Beacon called upon Sir William Van Horne on Monday afternoon to talk over some matters in general. The C. P. R. and port matters in general. Sir William said that he had not much to say in regard to anything in the report that the C. P. R. intended utilizing a Maine winter port. He pooh-poohed the report that the C. P. R. would utilize the port. He said he was quite sure that the company has no such scheme on foot.

"I'd be willing to bet one hundred dollars to one that they had probably secured the port long ago, but I am quite sure that the company has no such scheme on foot."

When asked as to whether any offer to purchase the port had been made, he replied that he had probably heard of some offer by the main who had set the other report in motion.

"We are continually being pressed to use one port or another on the Atlantic. The port of Gattine was one of the places that was urged upon our attention. It was represented as being an ideal port. But the C. P. R. has no intention of going into a Maine port."

"Not even into Stockton!" interjected the reporter.

"No," said Sir William. "St. John is capable of doing all the business that the road will do for some time to come. The railway is not eager to carry grain in the winter. It would be better to warehouse it and hold it until navigation on the St. Lawrence opens. You may not believe it, yet every ton of grain that is carried to St. John in the winter season by the C. P. R. is carried at a loss. We prefer to dump as quickly as possible. A great deal of our western grain is dumped at Port Arthur and finds its way to New York. Very little comes east."

When asked as to whether the C. P. R. had purchased or intended to purchase the N. B. Southern railway, he said that some time ago they had been asked to buy, and they said they would. But the N. B. Southern people withdrew their offer and no further action was made to obtain the road.

The new ferry steamer Ludlow, which was to be ready for the route last fall, was to be ready for the route last fall, and then last spring, and then in June, and then in July, and then in August, and then in September, has again progressed and expects leave to sit upon its side in October.

It appears that Naval Architect MacLean miscalculated the size of the steam pump needed to produce the necessary vacuum, although he spent many hours pumping hot air into vacuums at City Hall on the occasion of his various visits to the town at fifty dollars per hour.

Then the back connection door on the boiler ought to have been a plain slide, with the latch-string out.

Moreover, the cabin pipes have developed dangerous tendencies already, and will have to be tapped by the marine surgeon of Rodney Hospital.

Also, the naval architect was hunkered by fooling his brassery at the firework, and the cadidly declares that somebody must pay for it.

Then there's the bilge water. It appears to have the bulge on the crew, and they are clamoring for a stomach pump. A feed pump is also needed, and it is no secret that the garboard strike has developed symptoms of mutiny and a homicidal tendency.

One did not let of other things about the Ludlow which the crew expect to learn as they go along. They hope to understand her fairly well in a year, provided she is put on the route this winter.

Mearns Wm Lung and the Otago people are being coached for a race in the harbor in Carnival week.

Mr. Peter Binks says it is ridiculous to talk of fire or marine insurance for the Ludlow. What she needs is a good accident policy.

An Ontario paper set out with a demand that hunters be examined before they are granted a license to go after big game. This is a very proper suggestion. Too many hunters take firearms with them when they go into the woods, and as a result people are shot. Every one of them should be searched for concealed weapons.

Supt. Murdoch wants a free hand if we are to have Loch Lemond water next winter. The water board is apparently searching for the key of the handcuff which the owner of the Dry Lake was being compelled to wear all summer.

RIPE RASPBERRIES

A Box Picked This Morning, Sept. 28th, in a Douglas Avenue Garden.

H. J. Roberts of Douglas Avenue brought to the Times office a box of raspberries. They were ripe, luscious, and just plucked from the bushes in Mr. Roberts' garden.

The raspberries mature about two weeks later than the fruit comes on the market from other places. They have two kinds, one somewhat later than the other. From the two the family get all the raspberries they require in their season.

MORE CIVIC BUNGLING

St. John, N. B., Sept. 27, 1905. To the Editor of the Times.

Sir,—I had occasion to pass through Albert street, North End, this morning and there witnessed an object lesson in civic economy worthy of publication.

PRICES OF FURS STEADILY INCREASING; MAY GO HIGHER

Dunlop, Cooke & Co., Talk of What May Be Expected in St. John This Year and Next—Good Times Increased the Demand for Furs—Something About Styles. With the approach of cold weather the thoughts of the people of St. John and throughout the province naturally turn toward the desirability of procuring suitable garments for their comfort. In this particular it is reasonable to assume that many will want to invest in furs. Therefore the prices, quality and styles of fur garments for the coming winter will be of interest.

When asked what furs would be used mostly, he said: "I should judge that mink, sable, Persian lamb, seal, chinchilla, ermine and silver fox will be the most popular. The popularity of ladies' fur-lined garments this season has exceeded all expectations. The indications in Europe early in the season were that the fur-lined would be the leading garment this year and the experience both in the United States and Canada, up to the present time, has fully borne out the forecast contained in our Paris letter of April last. Asked if there was a possibility that the prices would be lower next season, he said: "No, most decidedly not. The Persian lamb skins that will enter into next year's business have already brought an advance of 30 per cent. at the recent sales in Russia, and those who do not buy fur-lined garments early must pay higher prices. Northwest coast seal skin is the only fur that has not realized the high prices of the rest and is largely due to the fact that their shipment to the United States is prohibited and as a consequence Canadian seal skins are selling 25 per cent. lower than our neighbors across the line. But the catch is that the smaller supply of seal skins is being extended and the indications are that by December next, when the seal skin sales take place in London, there will be a very marked advance in the price of this most becoming fur."

MAY ALSO RUN STREET CARS Carleton Electric Light Co. May Enter Traction Business On East Side. The Carleton Electric Light Co. are still determined to invade the East Side and expect to get a fair share of the business as soon as they are ready to handle it. It is not yet known if the company will be made at once to secure the balance. No difficulty is anticipated, as the promoters of the enterprise are confident that the investment will be a good one. In response to an inquiry as to how the enterprise was progressing, Mr. Hanington informed the Sun yesterday that the company had been offered all the land required by the company for its East Side plant by a gentleman who will take up the value of it.

SACKVILLE. SACKVILLE, Sept. 27.—The members of the Westmorland Division of the Sons of Temperance at Point de Bute paid a fraternal visit to Middle Sackville Division last evening. During the evening there was speaking, music, etc., and refreshments were served. Joseph Rawerts, who has been spending the vacation in Sackville, left Tuesday for St. John, where he will enter Yale University to study civil engineering. Mr. Sackville's oldest citizen are Mr. W. Williams Robinson, who is in his 82nd year, and Mrs. M. J. Robinson, who is 81 years old. Mr. Robinson has been in the west for some time, has returned home and will continue his winter here. With what he was ranching with Samuel Farwell.

HUNTING NEW BRUNSWICK'S BIG GAME WITH A CAMERA

What a Portland Paper Says of Dr. Bishop's Trip Through Canaan Woods with a Rapid Fire Camera—Moving Pictures Obtained of Wild Animals in the Primeval Wilderness

The party of well-known New England sportsmen and artists who left this city two weeks ago for New Brunswick for the purpose of taking moving pictures of moose hunting scenes and if possible of the animals themselves, returned last evening on the Flying Yankee after a very successful trip. Eighteen pictures were taken, all good, and two of them have been declared among the finest ever obtained by the Biograph Company.

WATER AND SEWERAGE

Supt. Murdock Says New Water Main from One Mile House Cannot Be Laid This Season.

The new water main from the Marsh Bridge to the One Mile House cannot be laid this season. Superintendent Murdock made this announcement to the water and sewerage board yesterday. The water pipe will not be laid this season because of the condition of the ground and the fact that the water table is so high that it is impossible to lay the pipe in the usual way.

GROSS NEGLECT

Floor of No. 1 Hook and Ladder Station in Bad State.
The floor of No. 1 Hook and Ladder station on King street east is in a very bad condition and should be attended to at once. In a number of places the floor has given way and there are a number of holes that might prove very dangerous should a horse get his foot caught.

On Tuesday night, when the engine was being taken out of the station to go to the Jamaica fire, the flooring gave way under one of the wheels and had the machine not had a good start a serious delay might have been caused. It is said that this matter was brought to the attention of the authorities some time ago, but nothing was done. In order to avoid serious accidents it should be looked after immediately.

NO DISCRIMINATION

Yesterday's Montreal Transcript says—'The St. John Times publishes a letter which speaks of 'degradations from Albert county,' and the need of a patrol wagon. Why single out Albert county for special consideration? The people of Albert county are renowned for being law-abiding. They probably in proportion to population contribute more to the provincial treasury than any other county in the province. Their reputation in that respect is most enviable and therefore the unprovoked slur published in The St. John Times is uncalled for.'

The letter in question referred to an Albert county degenerate whose conduct while under arrest led to the discussion of the need of a patrol wagon. Degenerates from many counties and countries come under the eyes of the St. John police. The Transcript is at fault.

MONCTON IS PROUD

St. John is discussing the wisdom of having a patrol wagon. Great themes for the enterprising people to discuss. Why, Moncton City has its patrol wagon and its mounted police patrol already. Wake up, Wake up, St. John! Follow promptly the examples set by Moncton, the terminus of the Grand Trunk Pacific, and be up-to-date.
