HEAVY WIND

Standing Crops in Tobacco District Are Levelled—Landslide at Rutland

NEW YORK, July 23—Four persons were killed by lightning in Metro-poli-tan New York and South New Jersey yesterday. Crops of tobacco, hay and grain were flattened by a severe rainstorm in New England and upstate New York.

A 14-year-old boy was killed by lightning when he attempted to climb a tree to dislodge a kite. A woman was killed at her sewing machine in Somers Point, N. J., a laborer was killed under a tree near Westchester, and a soldier struck dead while on duty at Fort Slocum.

There were no fatalities in New England, but the storm swept down barns, flooded streets and cellars and washed out railroad tracks. Trolley service and wire communication were impeded.

LANDSLIDE

At Rutland, Vt., the storm started a landslide down Mount Tabor, cutting a swath 15 rods wide and a mile long, through valuable timber and blocking a road.

At Westfield, Mass., the heart of the tobacco district, three barns were leveled, and roads washed out with a loss of \$60,000.

CO-OPERATION

Dr. Stresemann Says His People Must Work With Other Nations

LONDON, July 23—Only nine days remain before the expiration of the preliminary agreement on employment in the coal fields, and there is increasing anxiety as each day slips by without a settlement of the differences between the miners and mine owners concerning a new agreement.

The miners are receiving sympathetic support from labor generally and the belief that there will be a stoppage of work in the mines soon for the moment, increasing. Trade union members of the House of Commons last night sent a resolution to As. J. Cook, secretary of the miners' federation, protesting against the mine owners' "degrading attempt to reduce the miners to abject slavery."

It is expected that this will stiffen the miners' attitude, but the understanding is that the government will make another attempt today to bring the disputants together.

FUMIGATOR FREED ON DEATH CHARGE

Toronto Man Dies When Gas Leaks into His Apartment.

TORONTO, July 23—That although the chemicals used for fumigating gas were the most deadly known to science, there was no law governing their use and they could be purchased openly at any drug store by anyone, was the disclosure made at the coroner's inquest yesterday into the death of Benjamin Wehrup, who died from the effects of fumigating gas which penetrated into his bedroom from the adjoining house.

Joseph Hills, the fumigator, who was placed under arrest following Wehrup's death on a charge of criminal negligence, and who is being held on bail of \$4,000, was exonerated by a verdict of accidental death being returned by the jury. It added a strong recommendation that legislation be enacted covering fumigating and the handling of such dangerous chemicals.

J., July 23—A sensational tale of deaths following operations performed on patients of the New Jersey State Hospital for the insane, this city, was revealed before the Bright investigating committee at the State House here yesterday by Miss Edith Strong, a nurse who was discharged from the state's service.

Miss Strong, who was a volunteer witness, at the resumption of the inquiry into state affairs yesterday, declared that since she took a position at the hospital about one year ago, five women patients in her ward, died, "only two or three got well," after they had undergone operations.

In nearly every case, Miss Strong testified, the patients opposed the operations, but were rushed into a room "like cattle" given a hypodermic injection and operated upon. She claimed that one patient had begged her to save her from the operation table. She charged Dr. Henry A. Cotton, medical director of the hospital, with "experimenting on patients with the knife."

SEA LORDS GET APPROVAL FOR NEW CRUISERS

British Cabinet Agrees Upon Plan for Navy—No Resignations Now.

By H. BAILEY. British United Press. LONDON, July 23.—Churchill's "Hamlet" drama by the sea lords. These headlines in this morning's papers tell of the victory of the admiralty force in the fight over the British cruiser appropriation, and the plan, with the single exception of the Morning Post, finds nothing but outright condemnation or disapproving criticism for the cabinet's decision.

Mr. Bridgeman's threat of resignation with the assurance that Earl Dufferin would go out with him, and his alternative promise to cut down naval expenditure on docks and naval incidents so that the estimates as a whole would not be increased if he were allowed to build four cruisers this year and three next year has swung the cabinet in his direction from a position of resolute opposition to him under the leadership of Winston Churchill.

LOSERS GROUND. The result has certainly lessened Churchill's prestige. Mr. Baldwin has not ground as well as the general outcome of the controversy in addition to losing Bridgeman's prominence he had never previously enjoyed, has increased public feeling that while the government is strong in numbers it is weak and vacillating in policy. In the Tory ranks there is a feeling of relief that a crisis is past without any resignations, but the members are sharply divided on the question that has been at issue and the first breach has been made in the government's huge majority in the House.

BEAVERBROOK. Lord Beaverbrook has recently cultivated a habit of publishing in his Daily Express all attacks made upon him by other newspapers or periodicals.

Today he reprints in his own paper an analytical sketch of himself from "Truth" in which the writer says ironically "it is a great mistake Mr. Beaverbrook makes that he does not consult Lord Beaverbrook about a policy before he adopts it. If he did he would stand a good chance of being buried in Westminster Abbey."

It is left for the Morning Post, however, to publish today the Morning Post's articles questioning whether Beaverbrook is in fact really representing the views of Canada. Certainly Beaverbrook has arrogated to himself the right to speak as a representative citizen of the empire, and has insisted so much upon this right that the popular impression has been created that Canada's views are adequately presented in England only by him. The Edmonton Journal's criticism is produced in the Morning Post without comment, but prominently.

ANNUAL PICNIC HELD BY INSURANCE MEN

Blue Goose Members Have Delightful Outing at Loch Lomond Camp.

The members of the Ancient and Honorable Order of the Blue Goose held their annual picnic yesterday at the Log Cabin Fishing Club, Loch Lomond. That all had a most enjoyable time is evident from the remarks heard about the various sports events. The arrival of the club "The Most Royal Gander" L. W. Nickerson announced that a baseball game would be played between the club and the "Shields" of Canterbury street. The latter team were defeated by an overwhelming victory but as the score has not as yet been compiled it was not known today how wide the margin was. In the first inning the "Cave Men" tallied 17 runs and were so confident that they had the game won that they became careless and before the casualty writers could be summoned the "Shields" had scored 20.

In addition to the ball game there were running races for the "old timers," the "young buns" and so on. The events that the official score neglected to tabulate the winners and runners up. The winners were: 100 yds. wheel barrow race, walking events, and a tug of war.

Petting Is Approved By Police Head

WATERBURY, Conn., July 23.—"Come to Waterbury to Pet," may be this city's slogan, following the announcement of Chief of Police George M. Beach that he is not going to permit his officers to interfere with love's sweet dreams.

"It is as impossible to stop young people from courting and making love as it is to stop the birds in the trees from mating. The police in Waterbury will at all times maintain order in the community and will apprehend wrong-doers, but there will be no attempt to curb young fellows and girls from innocent love-making. There is no particular harm in young people kissing and hugging each other. As a matter of fact the fellow or girl who does not feel the urge to mate at any time or other cannot be normal. It is natural and I would be foolish to attempt to put a stop to it," Chief Beach said.

NO DECISION YET ON POTATO FREIGHT RATE

Railway Board Has Not Yet Settled on Continuation of Reduction

CHAIRMAN LEAVES CITY FOR OTTAWA

No Action Expected on Maritime Province Question Until Fall.

That he could not say definitely whether or not the present reduced freight rate on potato shipments from the eastern to the western provinces would prevail after the month of August, the time when this special six months' rate clause will have expired, was the announcement of the Hon. H. A. McKeown, chairman of the Board of Railway Commissioners of Canada, who left for Ottawa last evening. He was accompanied by Mrs. McKeown.

Hon. Mr. McKeown also stated that the Board of Commissioners would not visit the Maritime Provinces in a body, as announced at the recent Maritime Conference at Moncton, but that they have requested the public as organizations, firms, companies and individuals, to place their views on the Maritime freight rates matter in writing before the Board prior to August 15. The communications received by the Board would then be turned over to its experts for investigation and consideration, Hon. Mr. McKeown said.

NO ACTION UNTIL FALL

Hon. Mr. McKeown further stated that he did not expect any action

Some of Combined R. K. Y. C. Power Boat Fleet in Fredericton For Races.

Latest reports from those on the R. K. Y. C. cruise show that the power boats and yachts left the Narrows at about 10 o'clock yesterday morning and arrived at Colwell's wharf, on the trip towards the city, late in the afternoon. They were joined by Commodore James Barnes, who returned to the city Monday but left to rejoin the fleet yesterday afternoon from Millidgeville on the Mist. The Mist made a record trip to Colwell's wharf, Commodore Barnes was accompanied on the Mist by Harold Hooper.

To Have Race.

Last evening the Vagabond's baseball outfit lost by a score 20 to 7 to the Wanderer's crew. Today the fleet expects to arrive at Hatfield's Point at an early hour in the afternoon. An extensive list of sports will be held there. The Atlanta, belonging to J. Fraser,

boats and yachts are gayly decorated with flags and bunting for the occasion.

Among the arrivals are the following: Alexa, with Commodore Fenwick McKelvey; Migrace, with Fleet Captain Hartshorn; Hannah, Captain Turner; Julia, Captain Thompson; Rosie A., Captain Blackwell; Tut Tut, Captain Harrington, and P. D. Q. The yachts Old Glory and Rena are also in port with the Syca, the latter carrying T. T. Lantain and E. N. Harrington.

Salmon Run Here IS BEST IN YEARS

Sardine Fishing Also Good—Practically All of American Canneries Open.

The run of salmon in Saint John harbor and just outside has been, for a while, the best in recent years, J. F. Calder, inspector of fisheries, of Campbell, said last night while in the city.

The fishing business, on the whole, was very fair, he said. All but one of the sardine canneries on the American side of the line had started to operate, he said, and the one not now working was expected to open next week. The run of sardine herring off Deer Island and Campbell and in Saint John harbor and district had been good.

Line fishing had been quiet, Mr. Calder said, and, with the exception of hake, the run of fish was poor. The fishermen were getting quite a few hake of good size.

Mr. Calder is at the Royal Hotel.

SUPERINTENDENT HERE.

James Broadhurst, the wharf superintendent of the New Zealand Shipping Company, arrived in the city from Sydney yesterday morning and left in the afternoon for Montreal. Mr. Broadhurst has been connected with shipping operations here since the winter port started.

A Mistake

that some beauty seekers are making

They are misled on "olive and palm" soaps

Do you realize, Madam, that "olive and palm" soaps are ages and ages old? But never has one, before Palmolive, brought comparable results to the skin.

Palmolive Soap is a masterpiece, based on 60 years of soap study. It is a scientific creation, made to bring new beauty to the skin. Made to keep schoolgirl complexions.

Its unique results have led millions to adopt it. Now it is made in five countries, to supply the world-wide demand. It is made in France, because French women find in this their ideal of a soap.

Soft, velvety complexions are many times as common as they were before Palmolive came. Then don't accept ordinary "olive and palm" soaps, with artificial color, and often super-fatted.

Palmolive costs 10 cents—no more than the price of most ordinary soaps. But that is due to enormous production. Palmolive has become the leading toilet soap of the world. The only two soaps we know that fairly compare with it cost 25 cents per cake.

This warning is in your interest. There is a way to keep youthful complexions, and multitudes have found it. But that way is not a mere "olive and palm" soap. It is found in Palmolive alone.

Note the unnatural "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils—nothing else—give Palmolive its delicate, natural color. Olive and palm oils—no other fats whatsoever—are used in Palmolive.

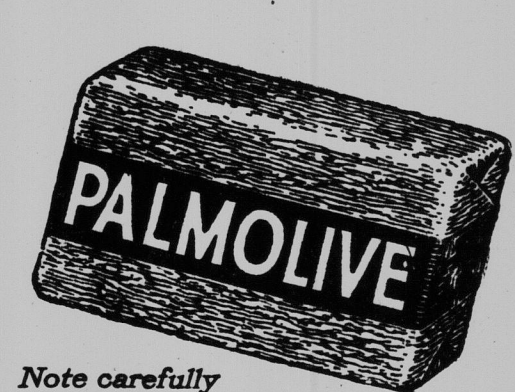

No "super-fating," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Let no one convince you—for your own sake—that any ordinary type of "olive and palm" soap can bring you Palmolive results.

Wash, launder, cleanse with any soap you wish. But when beauty is at stake—take care. Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

IN PARIS
French women are discarding French soaps for Palmolive

Palmolive is today one of the two greatest selling toilet soaps in France. Parisian beauties are happy to pay almost twice as much for a cake of Palmolive as Canadian women pay. And, in many cases, three times as much as for their own French soaps. Remember this when tempted by costly French soaps, or by "French" claims for soaps.

Note carefully the name and wrapper. Palmolive is never sold unwrapped.

THE EVENING TIMES-STAR, SAINT JOHN, N. B., THURSDAY, JULY 23, 1923

The Evening Times-Star

The Evening Times-Star printed at 25-27 Canterbury street every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., A. D. McKeown, President.

SAINT JOHN, N. B., JULY 23, 1923.

THE TOURIST BUSINESS.

The question of an enlarged tourist traffic is very much a plain business question. There are certain facts which must be faced squarely. One is that while the number of tourists coming to the province has increased very greatly of late, the tide of travel is not yet anything like what it should be.

native leaders in control of the Assembly at St. John's. They stoutly oppose granting economic concessions to American capital, believing that the prospect of independence would vanish if American financial interests became entrenched.

It is now suggested in some quarters that if the United States decides that it can draw largely upon the Philippines for crude rubber, and pursues this course, regardless of native jealousy and without thought of consequences, the price paid for growing rubber under the American flag might prove to be very high.

TELLING THEM.

An aggressive and prominent Canadian educationalist, Professor George M. Wrong, in a signed article in a London periodical discusses certain causes of misunderstanding between Great Britain and the Dominion, and dwells rather sharply upon what he conceives to be British shortcomings in regard to this country.

He is disposed to rebuke English visitors to Canada who take the responsibility of writing, after a sojourn of a few weeks, "tarting reports of the limbo of Canada's breaking with Great Britain, or joining the United States, or separating in two or three states, or coming under the dominance of the French."

RUBBER AND INDEPENDENCE.

Britain's strong position in connection with the supply of crude rubber, and the great rise in price of the article, naturally combine to make the Americans extremely anxious to develop other sources to supply their own immense demands.

The great work of reform goes steadily on. There is no rest for the wicked. Take, for example, this item from a serious-minded newspaper in rural Minnesota.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

Quebec loses one and regains another cherished link with its romantic past by the events of the last few days. The Town of Hastings, in England, has turned over to Mr. Larkin, High Commissioner in London, for return to Quebec, an execution, bearing the arms of France, captured by Wolfe's men from the city's walls in 1759.

The loss of the week was the burning of the old Neptune Inn, at the foot of Mountain Hill, where the main traffic near the river steams leaves Lower Town DuRoi's Terrace and Upper Town generally. This old building dated back at least to 1768, when the scrupulous Bigot and his infamous companions were robbing New France and preparing it for the downfall soon to come.

It is possible that the alert figure of the entrancing young Horatio Nelson was often seen in the neighborhood of the building which became the Neptune Inn. Nelson was in Quebec for a time in 1782 as commander of the King's ship, the Albemarle.

On the Wing (Toronto Globe) There is just a tiny reminder that the season is already on the wane. This week a flock of lesser yellow-legs were seen on the mud flats of Ashcroft Bay, on their way north from the breeding-grounds near the Arctic.

He makes very serious objection to the acute antagonism to Canada and to Canadian investments shown in some financial circles in London, asserting that the effort to discredit Canadian securities has been so determined "as almost to assume the quality of blackmail," and in contending that such an attitude is wholly unjustified.

Provision Violated

L. H. Wittner, once a candidate for Congress in Illinois, precipitated the issue, charging that the teachings in the schools violated a provision of the District of Columbia appropriation bill which stipulated that no funds should be expended for salaries of those teaching "disrespect for the Holy Bible."

After going into great detail, as to the contents of approved text books, including G. W. Hunter's biology, which was cited in the Dayton trial, and the teachings of history, biology, astronomy and other scientific subjects, Wittner set forth that these, taken literally, conflicted with the scriptural text which he quoted as setting forth:

That man was created from the dust in one day, and that woman was made from the rib of Adam.

That the first man fell because the first woman believed what a snake said about eating forbidden fruit.

JUST AS I DREAMED as a little girl of a Fairy Prince and a home with golden furniture on pink plush carpets—so as a bride, then as a busy young mother I learned to dream of a Magic Range made by fairies to cook wonderful meals at the touch of a magic button.

When lo, it came! Such dazzling whiteness. A peek at the price tag—so low and only so much a month. All month I popped in Muffins, Roasts, Cakes, Pies—at a moment's notice—to have them come out like Goodhousekeeping illustrations.

On the 30th came the meter bill. A positive joke. No use telling it—or you'd never believe what I have yet to say about making a small bill still smaller.

IMPORTANCE OF TOURISTS TO PROVINCE IS STRESSED

Retiring President Predicts Fifty Per Cent. Increase Over Last Year in Number Of Visitors in 1925

H. P. ROBINSON NEW HEAD OF ASSN.

Annual Meeting Passes Resolution Asking Vigorous Efforts to Broadcast Advantages of New Brunswick—Government Motion Picture Director Tells of Plan to Boost Province.

THE date of the close of the fiscal year of the New Brunswick Tourist and Resources' Association was changed from June to December 31, and Howard P. Robinson, of Saint John, was elected president for the ensuing year at the annual meeting of the association, held in the Board of Trade rooms yesterday afternoon.

The reports said the association was doing excellent work in view of the small amount of money available for publicity. A suggestion by Mr. A. Ward that the membership fee be advanced to \$5 was put over for further discussion at the next annual meeting.

ASK CO-OPERATION. The members were addressed by Raymond S. Peck, director of the Canadian Government Motion Picture Bureau, who gave an outline of the plan to obtain several films in this province setting forth its agricultural resources and scenic, its game and fishing scenes, the chief beauty spots of the province and one special film of the beautiful and historic spots around the city.

SAYS FUNDS HANDICAP. Mr. A. Ward, in welcoming the members, pointed out that the association's work was done chiefly outside the province. He said that the idea was to make the province better known in the New England states, especially, and he declared that the lack of money was handicapping this work.

SOME REJECT THEM. In 1924-25 the campaign for members was carried on as in the previous year. From the office of C. E. Allan, the efficient secretary-treasurer in Saint John, and from his office in Sackville, letters were sent out with the result that about 1,700 drafts had been placed. Mr. A. Ward stated that in some places the baby drafts were not received as kindly this year as they were in 1924.

SOME "KNOCKED" WORK. Many replies to our tourist letters have reached us. Some have expressed their warm and hearty appreciation of the work our association is seeking to accomplish, but others seemed to take delight in "knocking" one man, who is interested in horses, said that he was interested in horses and that he was this same factor which prevented the association from spreading the advantages of the province to a much greater extent in other parts of the continent.

SENT REGRETS. Letters of regret from Hon. A. A. Dymart, Hon. D. W. Meserveau, F. W. Robinson, A. C. Currie, H. Ogilvy and others at being unable to attend the meeting were read by Mr. Allan. He also read several letters from people who had received literature sent out by the association expressing their appreciation of it.

LEFT OVER. A. M. Belding outlined this plan which had been brought to his attention in Vancouver while on his recent tour across Canada on behalf of the Maritime Provinces. Since it was too late to do anything for this year, as Parliament had adjourned, this matter was left in abeyance.

ADVOCATES VISITS. That our association strive to give greater interest in tourist work, and to enlist the sympathetic interest of our people in the work of the New Brunswick Tourist and Resources' Association.

PRIVATE CAMP SITES. That we encourage the establishment of camp sites by private individuals, rather than by cities, towns and municipalities. The reports made were obvious and I will not tire you with details.

closing I wish to express my sincere thanks for the honor done me in being president and to assure the members of the association and the people of the province generally that I am retiring from the presidency, I shall be ready to do anything I

STIRS UP DISCUSSION. A communication from a Lynn man requesting about \$500 be spent in advertising around Boston to enable him to bring a party of 1,000 tourists to this city the month caused considerable discussion. Adventures of the Twins

By OLIVE ROBERTS BARTON. THE LAND OF WONDERS.

At last the Twins came to the entrance of Pixie Cave and peeped in. Not a soul was around anywhere, so they crept in ever so softly.
All the glow-worms and fire-flies had their lights turned down, and the cave was so dark it was like going into the movies in broad daylight. Neither Nick nor Nancy could see a thing.
But by and by they gradually became accustomed to the darkness. Then they saw fifty tiny beds and fifty tiny chairs, all made out of tree-roots. Besides this there was a big cupboard marked "Clothes Closet."
"The Twins took a peep inside this and saw fifty tiny "best" suits hung neatly in a row.
Beyond this was another cupboard marked "Secret Cupboard. Don't Touch and Keep Out."
"The golden bee-hive must be in there," whispered Nancy. "Well get the Fairy Queen's bees for her right away."
Before Nick could answer, the magic key jumped out of his pocket and fitted itself into the lock. The door flew open, and a hand seemed to push them through. Then the door slammed shut behind them.
Instead of a cupboard, the Twins found themselves in a strange country.
"My goodness!" said Nancy. "It looks like the Wonderland Alice went to."
"It is Wonderland!" said a large sea-cow waddling up and shaking hands with its flipper. "You'll find in this land of wonders, that everything is turned around topsy-turvy, hole-in-skelter, hit-and-miss. Are you after anything in particular?"
"Yes," said Nick. "The pixies stole the honey-bees that make the rose honey for the Fairy Queen. They put it into their secret cupboard. The Green Wizard told us we got the key from the Sour-Old-Woman. After all sorts of trouble we got here, and we find the secret cupboard isn't."
"Stop right there," said the sea-cow. "You said plenty. The secret cupboard isn't! That's all! It isn't! There is no such thing. The secret cupboard is

Gray Wool Material Makes the Smart Coat Shown Below

TRIPLE seams and the introduction of a smart tab collar are among the interesting features of the coat sketched above.
The material is a soft gray woolen fabric, and the coat is untrimmed, save for the collar and triple parallel seams. The collar is a narrow overlapping affair, with tabs arranged in cascade effect.
With this is worn a small gray hat with a steel arrow thrust through its crown.

3,000 CHILDREN GIVEN TREAT

Invited and Unasked Are All Entertained by J. D. O'Connell

Women Crowd in and Cause Trouble, But Police Out Them

The ranks of children from the East End, Centennial and Allison playgrounds invited to attend the picnic given on the first named ground yesterday afternoon by J. D. O'Connell, "the orphan's friend," were swelled out of all proportion by hundreds of kiddies from all the other sections of the city who were anxious to share in the treat provided by the genial planter and philanthropist.

It was estimated that at least 8,000 were present, as the 2,500 bags of peanuts provided by the committee assisting Mr. O'Connell proved entirely inadequate for the demand. Tickets had been distributed through the grounds where the children were invited and the holders were served first. The others were given treats from what was left.

Women Crowd In.
 There was some unpleasantness caused by several women who tried to crowd into the children's places but, with the help of three policemen, they were brought to order. Those in charge reported that the boys were far more tractable and orderly than the youngsters of the other sex.

Those assisting Mr. O'Connell from the respective playgrounds were Miss Kathleen Lundy, supervisor of the East End, with Sanford Goldman and his brother, Bert Goldman, who volunteered his help; Miss Beatrice Mooney, of the Allison, with her male assistant, Robert Mary, and Miss Mildred McCutcheon, who is a special play leader for the grounds, and Miss Bernice Mooney also assisted. Miss Mary O'Connell, Arthur Burns, of the Centennial, and Harold Barker, of the King George, were also on hand to give the much-needed assistance for one of the busiest afternoons ever spent on the East End grounds. Miss Emma T. Heff, general superintendent of the playgrounds, looked after the smaller children.

NEW COURTS OPENED

Although there was no formal opening of the Main street Baptist church tennis courts last evening, about 80 young members of the congregation gathered on the courts and enjoyed a few sets of tennis before the rain put an end to further sport. The courts are excellent ones and are open for use by members of the Sunday school or congregation during week nights. On Wednesday evening, when prayer meeting service is being held, play will be stopped at 8 o'clock.

KOREAN BENEFIT FROM JAPANESE

Modernization of Little Nation is the Aim of Those in Authority.

TOKIO, July 23.—The Koreans may not like the Japanese because of the inherent hatred any conquered peoples feel toward their conquerors, but there has been quite a bit said and done lately which points to the inevitable conclusion that Japan has done a great deal in the way of aiding this little nation toward modernization.

FREDERICTON, July 22—St. Paul's church tonight completed the voting which took place by ballot in accordance with Federal legislation, at the request of several petitioners, on the question of church union.

At a congregational meeting, over which Rev. Dr. F. S. Sutherland presided as moderator, the result was declared. It was announced that 349 communications were qualified to vote and of that number 467 registered during the voting. Four ballots were spoiled and 468 were accepted. At the former vote the standing was: For union, 293, against union, 8. The great majority of non-concurring Presbyterians withdrew and refused to vote at that time. In today's voting the number of non-concurring Presbyterians increased their vote, although the majority has taken many people away.

DARROW IS TERMED EXHIBIT A BY BRYAN

Scopes Lawyer Also Criticized Finished Product of Evolution.

Canadian Press Dispatch. DAYTON, Tenn., July 22.—Clarence Darrow does not believe in miracles and has long been searching for proof of an after life without finding "evidence on the subject," he replied yesterday to a series of questions propounded by William Jennings Bryan, as an aftermath of the Scopes evolution trial conviction.

Mr. Darrow, described by Mr. Bryan as "an Exhibit A—the finished product of evolution," had subjected the commoner on the witness stand the day before to a close examination on the literal interpretation of the Bible, and the Scopes prosecutor had expected to retort in kind. He was forced, however, to the medium of a public statement, when Judge Houston struck his testimony from the court record.

Darrow declared that he still was seeking evidence on possible life beyond the grave, said he had no knowledge of the origin of the universe, and what he had of it, looked on the Bible as an any other great book and believed the Christ that was foretold in the Old Testament, was simply a great Jew, who should deliver the Jews from physical bondage.

HENRY FORD IS GIVEN TEUTON DISTINCTION

BERLIN, July 23—Henry Ford is the recipient of a new distinction. Ford is the human equivalent of the German tongue-twister which means American efficiency.

Family Given Scare By Evening Prowler

A young girl residing with her parents at their home in Leinster street, was given a bad scare on Tuesday night when she was raising the window of her room, which is on the ground floor. As she put her arm outside to raise the window sash, it was seized by a man who was standing in the yard. He attempted to pull her out of the window, but let go and ran away when she screamed to her mother and sisters for help. The police arrived on the scene in a very few minutes but the culprit had vanished. The girl's father was away from home and the whole household was frightened badly by the occurrence.

MODERATION LEAGUE FOR NOVA SCOTIA

Halifax Has First Organization—Hold Prohibition Has Been Failure.

HALIFAX, July 22—Steps were taken here tonight at a public meeting to organize a Moderation League for Nova Scotia. Forty men became members and appointed a nomination committee to return in two weeks' time with a slate of officers.

Immediately that organization is completed in Halifax the League will be extended throughout the province. Moderation League and Prof. Stephen Leacock's "The Case Against Prohibition" were read by the acting chairman and there were several addresses, the point of all being that prohibition in literature issued by the Ontario Nova Scotia was a failure except from the viewpoint of the bootlegger and those engaged to enforce the law.

Among those taking part in the discussion were City Solicitor F. H. Bell and ex-Alderman G. E. Ritchie.

LIQUOR WRIT ISSUED

Boston Man is Sued at Halifax—Illegal Receipt of Liquor is Charged.

HALIFAX, July 22—A Supreme Court writ was issued at the Prothonotary's office here at the suit of Camille De La Combe against F. K. Snow, of Boston, yesterday.

The plaintiff claims for the value of liquor which, he alleges, defendant obtained on the high seas from the French ship Pelagrine by falsely representing to her master that he had plaintiff's authority to receive the same.

The writ was served on defendant at his hotel. He gave security in \$10,000. It is understood the transfer took place off the Halifax county shore. The Pelagrine is a French steamer now anchored in Halifax harbor.

FRECKLES

Sun and Wind Bring Out Ugly Spots—How to Remove Easily.

Here's a chance, Miss Freckle, to try a remedy for freckles, with its guarantee of a reliable concern that will not cost you a penny unless it removes the freckles while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any drug or department store and a few applications should show you how easy it is to get yourself of the homely freckles and get a beautiful complexion. Hardly more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove your freckles.

At all drug or department stores or by mail. Othine, P. O. Box 2619, Montreal, Canada.

HALIFAX, July 22—A Supreme Court writ was issued at the Prothonotary's office here at the suit of Camille De La Combe against F. K. Snow, of Boston, yesterday.

The plaintiff claims for the value of liquor which, he alleges, defendant obtained on the high seas from the French ship Pelagrine by falsely representing to her master that he had plaintiff's authority to receive the same.

The writ was served on defendant at his hotel. He gave security in \$10,000. It is understood the transfer took place off the Halifax county shore. The Pelagrine is a French steamer now anchored in Halifax harbor.

ALL-ROUND WORK OF CHARLIE GORMAN WAS FEATURE OF GAME

BUTS DOWN LEAD OF NELSON FOR BATING HONORS

Water Dept. Team Defeat the Trojans 7 to 2

THE fine all-round work of Charlie Gorman was the big feature of the Water Department's easy win over the Trojans on the North End grounds last evening. 7 to 2. Rain caused a calling-off of the contest in the last half of the seventh with two Trojans out after the Watermen had scored four times in their half of this inning. The official score then reverted to even innings, thereby robbing Gorman of another hit and two stolen bases. All told Gorman was at bat four times and got four solid smashes, one of them a justy triple to centre. He scored two runs and stole four bases, two of them not being counted. In addition his pep and energy was noticeably effective with his teammates who played snappy baseball all the way and thoroughly deserved their win.

Sterling pitched well
Lloyd Sterling increased his string of victories to 9, not being in any danger last evening. The Trojans were minus the valuable services of their captain, Eddie Cox, who is feared, is out of the game for the rest of the season owing to blood-poisoning in his right hand.

For Bating Honors
There is a merry triangular battle now going on for first place in bating honors between Earl Nelson, Gorman and Paul. Gorman slugged his way into second place last night and now rests a scant 11 points behind. Here is the standing:

SPORT NOTES.
The New England one mile swimming championship for men will be held by the New England Association of the Amateur Athletic Union at Boston, August 23.

Harvard's half of the Harvard-Yale track team which defeated Oxford-Cambridge, had a distinct edge on the Yale half when it came to winning first places. Four of America's six places were won by Harvard men. Yale performed its share of work however, in placing second men. After the meet had been dead-locked 6 to 6 on second places, it was shown that America had won on second places 7 to 2 to 4 to 1. Yale produced 6 to 6 on second places.

Probably few big men have been as fast on their feet as Al Miller who won the hundred yard American in the international track in 9.45. The Harvard football man weighs 200.

Miss Anna Fuller has ceased to exist as a tennis personality. Mrs. Charles Hubbard has replaced the Cambridge star who became the wife of the former Harvard and All-American football player.

New York Giants Away Today To Face Most Severe Test of the Season

Along The Sport Trail

THAT THE FUTURE of baseball in Saint John is assured for some years at least is evident from the class of ball served up in the City Intermediate League. There are six teams in this league who are fighting hard for the honor of copping the pennant but their good work is being overshadowed by the senior organizations. However, that is only as it should be. The boys are thereby given an incentive to perfect their play so that when their turn comes they will be ready to show their wares in senior company. It is the ambition of every youngster to make good and win the recognition of some senior organization. In this way the game is perpetuated. It is a pity that the intermediates have not competent coaches who could drill them in the proper method of fielding a ball, hitting, pitching and inside play so that the advancement would be more rapid and the game, as played locally, would improve to a degree even more marked than at the present time.

BALL FANS will undoubtedly welcome "Quip" Moore when he comes here Saturday with the Milltown team. He is a player who is exceptionally popular due to his general demeanor and good sportsmanship on and off the field.

LOCAL BASEBALL FANS were certainly surprised to see the name of Chief Bender figuring in the line-up of the Chicago White Sox yesterday. This former star of Connie Mack was hired by Eddie Collins to coach his staff of twirlers. Either the "old war horse" still retains some of his uncanny control that made him famous when the Athletics were world's champions or else Eddie saw a chance to let his old friend again step on the slab and turn over a few after the game was practically lost. In either case it is a great tribute to a man who some years ago was a national figure in the great summer pastime. The Chief in his day was one of the most dependable pitchers that Connie Mack had and the fact that he is still considered good enough to be retained in the major leagues is proof that he had something on the ball that would be a valuable asset to the youngsters of the present generation.

THE POPULARITY of lawn tennis in England was proven recently when 22,000 fans turned out in one day to see some of the big championship matches at Wimbledon. This must certainly be an eye opener for the followers of the sport in America.

WILLIE HOPPE, who for nearly a score of years was conceded to be king of the balkline players, is now being looked upon as a prospective champion in the three cushion game. The National Championship Three Cushion League are making a determined effort to sign him for the season of 1925-26 and have expressed a willingness to give him a bonus of \$4,000 to sign up. Canifax, the present three cushion champion, is under suspension for one year as a result of his display of temper in the last match with Hoppe and the league is without the services of an outstanding billiardist. Hoppe seems to have taken quite a fancy to the three cushion game and it is a safe bet that he will accept any good offer that comes along his way. He has also demonstrated that he is a better player than Canifax and he should have little difficulty winning premier honors.

HORSE AND DRIVER FALL DURING RACE

Bad Spill in Opening of Circuit Meet in Capital—The Results.
A large number of racing enthusiasts attended the opening of the mid-summer card of the Maine & New Brunswick circuit in Fredericton yesterday. The 2 1/4 trot and pace was won by Peter Tullie, three out of four heats, best time 2:13 1/4. Earl North was second. During this race Barney Delight stumbled and fell and the driver "Red" of Hananah was hurled over a fence. Fortunately neither horse or driver were injured.

Dr. Gano Third.
In the junior free-for-all Saccharose won out in straight heats with Dan Hedgewood second and Dr. Gano third. The best time was 2:12 1/4. Dr. Gano is owned by Rice and Scott of this city. In the 224 trot Peter Stillwell won out taking three out of five heats. Mildred Forbes was second, John O'Neill third. Forbes was second, John O'Neill third. Forbes was second, John O'Neill third.

DOWNPOUR OF RAIN MARRED SCULLING RACES

Belyea and Giggey Carry Off Premier Honors

THE junior and senior sculling races were held at Renforth last evening, but evidently did not meet with favor in the eyes of the weather man who dished out a veritable torrent of rain, which to a great extent marred a perfectly good evening's sport. The junior race simmered down to a clash between Anthony Belyea, nephew of Hilton Belyea, former Canadian and National champion, and Willie Logan, national intermediate sculling champion. The former, by a magnificent burst of speed near the finish, won out quite handsly.

The Senior Event.
The senior event brought together Harry Giggey, maritime single scull champion, and Jack Ward of West Saint John. The former won out by a good margin, but would undoubtedly have made faster time if conditions had been favorable.

Junior Race Called.
The junior race was the first called and Belyea and Logan rowed up to the starting point off Riverside. Logan had his choice of position and remained on the outside, while Belyea kept inshore. Both got away to a splendid start and were apparently on even terms until they could be distinctly seen by the fans assembled at the club house and on the wharf at Renforth. Logan shot wide from the start and was away off his course. Belyea kept a better course until about a half mile from the finish when he started to close in on Logan. As a result they were far out in the river and away off the finish line.

Heavy Rainfall.
When preparations were being made to start the senior race rain started to pour after the referee had signalled the start and finished the distance in 7 minutes and 40 seconds. Logan stopped rowing and did not finish. The time was so fast that it was taken for granted the course was not measured properly as this time for one mile and 550 yards would have been astounding.

STANDING OF CLUBS

Table showing standing of clubs in the Intermediate League championship race with columns for team name, wins, losses, ties, and points.

IS it always the correct ruling to declare out a baserunner who while rounding third base is touched by the catcher stationed there?

THE rule which directed that the baserunner be called out, if in rounding third base for the plate he be touched by the catcher was made to prevent football tactics from becoming a part of so-called baseball strategy.

For a time the runner at third was the mere tool of the catcher. If he believed the runner would be thrown out if he continued on to the plate, the catcher would use physical force to stop him and then assist him to return by pushing him back in the direction of the base.

This was pure interference on the part of the catcher with a possible play ahead. As such it deserved to be penalized.

The rule states that, if in the judgment of the umpire the catcher third base by touching or holding the runner, physically assists him in returning or leaving third base, the runner shall be declared out for the interference of the catcher.

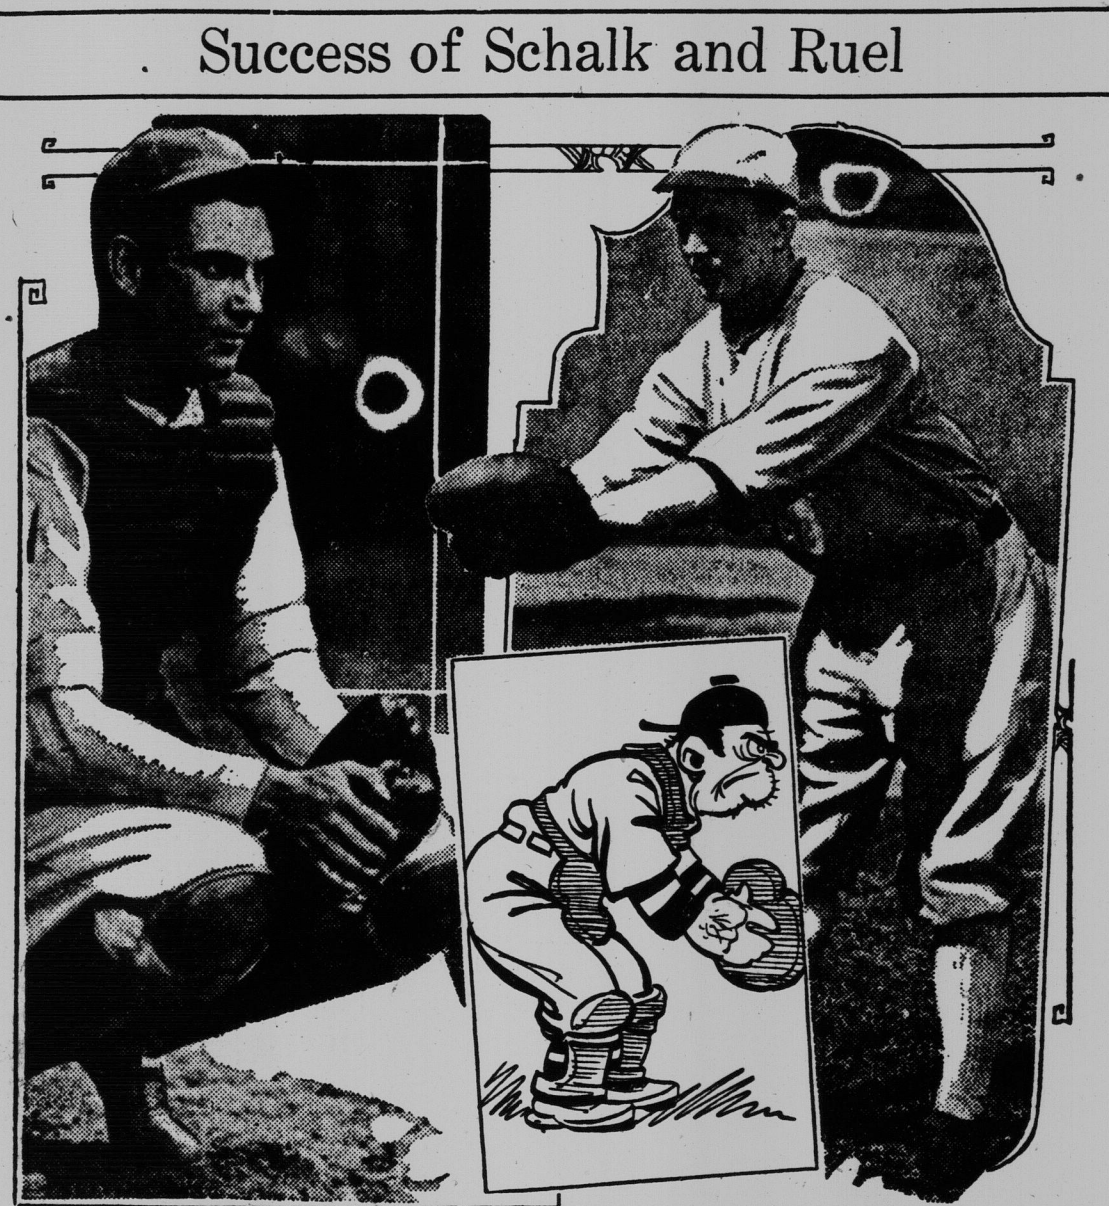

However, if no play is being made, any act of the catcher must be overlooked and no penalty inflicted.

This if a batsman hits the ball out of playing territory, entitling him to a home run, and as he rounds third the catcher at that base slaps him on the back, no attention should be paid to the act. No play is possible when the ball is hit over the fence, the batsman is entitled to a home run if he touches the bases in their proper order.

In like manner if a runner is standing on third as the result of a three bagger or has reached the base through some other player's hit and there is no play at third or any other base, the umpire should not call the runner out if the catcher places his hands on the baserunner.

The rule was made to prevent objectionable tactics by a catcher when there was a possible chance for a play.

Jim Maloney, Boston heavyweight, drew another step nearer his goal, a bout for the world's heavyweight title, when he disposed of King Solomon. Despite the dangerous left the Panama fighter was supposed to have Maloney won the decision handsly.

Muddy Ruel, left, and Ray Schalk. When Ray Schalk, veteran backstop of the Chicago White Sox, passes from the majors, he must be credited with setting a new style for catchers. Schalk has for all time definitely established the fact that it is not necessary to be a big husky to make good in the majors back of the bat.

Success of Schalk and Ruel

When Ray Schalk, veteran backstop of the Chicago White Sox, passes from the majors, he must be credited with setting a new style for catchers. Schalk has for all time definitely established the fact that it is not necessary to be a big husky to make good in the majors back of the bat.

Schalk, small of stature as big leaguers go, has already engraved his name in baseball's hall of fame as one of the greatest catchers that ever donned a mask.

Now just as Schalk is nearing the end of his days as the premier catcher of the American, if not the majors, Muddy Ruel of Washington enters the scene bidding for the honor.

Last season Ruel worked 147 games for Washington and caught superbly. When the season started he weighed 154, when it closed he weighed 155.

Pittsburg To Stage Assault On First Place

NEW YORK, July 23.—The New York Giants today took the road for a three weeks' trip which is expected to offer the champions their most severe test of the season.

A four-game series in Boston starting today will be followed by a swing through the west, where the pace-makers last month lost their tight grip on first place after opening the campaign with a rush.

Maintain Margin.
The Giants maintained their slight margin over the Pirates yesterday in another day of illness throughout the circuit, rain forcing a postponement of all contests. Pittsburg had a margin of four runs over the Phillies, 7 to 3 when a downpour drove both clubs from the diamond in the fourth.

Fight for Lead.
A new assault on first place will be made by the Corsairs beginning today in a home series with St. Louis Cardinals, who have thus far been able to take but two games out of eleven from McKee's cohorts.

POLITICAL POT IS WARMING UP

Speaking Campaign in Provincial Contest Will Begin Next Week.

W. E. Scully to be Asked to Run as an Independent Candidate.

With full government and opposition tickets in the field and the possibility of at least one candidate running as an independent, the political situation in connection with the provincial campaign has begun to warm up in the city and surrounding districts. So far, the activities of the opposing forces has been confined to organization, with ward meetings held every evening, but early next week the speaking campaign as well as active canvassing will commence. Public meetings are now being arranged.

The next likely turning point in the campaign will be the issuing of manifestoes by each of the party leaders. These are expected to be given to the public within the next few days.

PETITION FOR SCULLY.

A petition is being circulated in the city calling upon W. E. Scully, M. L. A., who was defeated in the selection of candidates at the government convention recently, to offer as an independent candidate. It was said yesterday that about 1,000 persons have already signed, and that it was proposed to present the petition to Mr. Scully on Saturday. Mr. Scully said that he had heard nothing officially of the movement.

LISTS PREPARED.

The political workers on both sides are circulating their lists principally at the present time to getting all possible names on the voters' lists before Saturday next, after which no further names will be added. It is estimated by those in charge of this work that about 5,000 names will be added to the lists, and this will make over 80,000 eligible to cast a ballot for four of the candidates offering in this constituency.

A meeting of the revisors will be held early next week to scan the lists submitted to them. At the former chairman of the board, E. J. Henneberry, is a candidate, he resigned from that position, and yesterday the government appointed Louis J. McDonald to fill the vacancy.

WARD MEETINGS.

The government party headquarters are in the Walker building, King street, and all the city wards hold their committee meetings in that building at present. In West Side wards, meetings are held in the Curling Club, and in North End they use the former Star Theatre for the ward meetings.

The opposition headquarters are at the Seaman's Institute, and they have an office in the Levine store, King street, where the work of receiving names to be added to the voters' list is carried on. The ward workers for Sidney, Dukes and Queens wards meet in the Seaman's Institute; those for Prince, Wellington and Kings meet in the Maxwell building; Victoria, at 80 City Road; Duferin, at 4 Paradise Row; Lansdowne, at the Hamm building; and those for the Cowan building, Gorge, at 'Prentice Boys' Hall; Brooks, at the corner of Union and Queen streets; and Stanley, at 200 Millidge avenue.

These are all busy spots, the workers gathering every evening to prepare for the fray.

LADIES WORKING.

The ladies are taking an active interest in the campaign, and both sides have large and enthusiastic committees at work. They are making strong efforts to have every woman voter registered and to secure a pledge at the polls that they will exercise the franchise on election day.

As Hiram Sees It

"This here," said Mr. Hiram Hornbeam to The Times reporter, "is the quietest election I ever see. There ain't been enough noise so far to wake up a baby. What's the matter?"

"The fog," suggested the reporter—"very depressing—don't you think?"

"It never used to shut the mouth of the faithful," said Hiram. "Why I've heard fellows arguin' politics when the fog was thick it 'ud roll in an' hide 'em from one another every few minutes. Now you kin go along the street or up to the market an' they're as quiet as lambs. I guess it must be because you newspaper fellows ain't 'cin' 'em on every day the way it used to be when everybody was a thief but the feller that was talkin'—an' he was one a jump ahead o' the constable. Nebbe it's all right though. I ain't sayin' it ain't. I was just wonderin'—that's all. I'd be gittin' lay if the weather was fit—Yo, sir."
