THE CONDITIONS REMAIN ABOUT AS YESTERDAY

Land Report From Paris Continues to Show Well For The Allies--In Furious Bayonet Fight in The Argonne Germans Are Driven Back

Paris, Nov. 6.—The official announcement today says: "There was no perceptible modification during the day of yesterday anywhere on the front. The fighting continued between Dixmude and the Lys with the same characteristics as previously and without any marked advance or retirement at any point. There was violent cannonading to the North of Arras, and also directed upon Arras, without result for the enemy.

"The German effort in Belgium and in the north of France continues. The Germans seem to have undertaken changes in the composition of their forces, which are operating in this region, and are reinforcing their reserve corps with active troops, with the idea of undertaking a new offensive movement, or at least, to mitigate the bloody checks which have been inflicted upon them.

"Between the Somme and the Oise, and between the Oise and the Meuse, there have been minor actions. We have consolidated our advance on the village of Andrey, to the west of Roye. A column of German wagons has been destroyed by the fire of our artillery at long range in the region of Namport, to the northeast of the forest of Aiguas.

"Near Berry-au-Bac we have retaken the village of Sapigneul, which had been captured by the Germans.

"There has been a furious fight in the Argonne where, as a result of fighting with the bayonet, our troops drove the Germans back.

"In the Woerwe district attacks by the enemy have been repulsed."

GERMAN LOSS IN SINKING OF THE YORK, 266

Berlin, via Rome, Nov. 6.—Only the scantiest authentic details of the sinking of the German cruiser York are available here. It is definitely announced, however, that the sinking was due to a German mine.

The British announcement warning neutral ships using the entrances to the North Sea, is regarded here merely as a step in the campaign to control neutral shipping which possibly might benefit German industry and is not based on actual danger. It is also stated that the route laid by the British via the channel, on the contrary, is infested with mines, while the southern half of the North Sea bristles with floating mines torn loose from their anchorage.

A report from Wilhelmshaven shows that 266 men are missing from the crew of the York and that 864 members of the crew including the commander and first officer were taken off by another vessel.

Kaiser Wants Guns London, Nov. 6.—A Reuter despatch from Amsterdam says: "A telegram from Berlin announces that the Emperor has promised a reward of 750 marks (about \$198), for each machine gun captured."

Made in Germany Berlin, via London, Nov. 6.—A newspaper of Ansbach, Bavaria, prints a letter from a post in the field, dated October 28, in which the writer mentions attending a dinner on the previous evening to celebrate the return of two aviators who had dropped bombs near Dover, Eng.

Says Prince is not Wounded London, Nov. 6.—According to a Central News despatch from Copenhagen, the German minister there denies that the German crown prince and Prince Albert were either wounded or killed. He says that both are in the best possible health.

The Case at the Front Petrograd, Nov. 6.—Emperor Nicholas has arrived at army headquarters at the front.

An Alleged Interview Berlin, Nov. 6.—The Franfurter Zeitung publishes a despatch from its Constantinople correspondent, who transmits an interview with the Khedive of Egypt. The Khedive expressed himself as indisturbed by the reported British annexation of Egypt. The people of Egypt would soon recognize, he declared, that the situation created by the British could not continue, and the British soon would see that the annexation of the historic and holy territory of Egypt could be of only a temporary character.

Earl of Dalhousie Wounded London, Nov. 6.—The Earl of Dalhousie, thirty-seven years old, has been wounded in the fighting on the continent. He is a lieutenant in the reserve of officers. He saw service in South Africa in 1901-2.

Phelix and Pherdinand WEATHER BULLETIN

Issued by the Department of Marine and Fisheries, R. F. Stewart, part, director of meteorological service. Synopsis:—The barometer is now highest over the Great Lakes and middle states with indications of a disturbance developing in the northwest states. The weather has turned somewhat cooler throughout the dominion, and light snowfalls are reported in the western provinces and Quebec.

Snow. Maritime—Moderate north and north-westerly winds, mostly fair and cooler to-day and on Saturday, a few local snow flurries.

New England Forecasts—Fair tonight and Saturday, moderate northwesterly winds, diminishing.

FAVOR ARMING FIREMEN FOR HOME DEFENCE

Common Council Defers Definite Action For Week

ALL DISCUSS PLAN

The Proposal to Fit Up Bunks For The Dragons—Some Financial and Other Matters of City Interest Come Into

A proposal, adopted by the firemen of the city to organize in three companies of fifty men each for home defence was presented to the common council at its meeting this morning by the commissioner of public safety. The members of the council expressed their approval, but the matter was laid over for a week for further consideration.

The same action was taken regarding the proposal to grant \$400 or \$500 to fit bunks in the exhibition building for the use of the firemen engaged in the work of the remounting department.

J. G. Sperakes applied for the lease of a lot near the west side ferry house as a site for a fruit stand, but this was held over until next week.

The problem arising from the fact that the city has \$2,500 left over from a bond issue for street paving was discussed in the light of the recorder's opinion that it was subject to the order of the council for any purpose desired and permission was given for its use in repaving sidewalks.

The council came to order at eleven o'clock, Mayor Prink presiding, with councilors Wignall, McNeil, Russell and Potts and the common clerk present.

The commissioner of finance and public works reported payments for October amounting to \$125,088.15. He recommended the following payments: Department of finance and public accounts, \$1,810.00; public safety, \$1,700.51; public works, \$1,001.85; water and sewerage, \$1,070.15; H. P. and P. Lands, \$1,422.77. The report was adopted.

Firemen for Home Defence. The commissioner of public works reported having considered the establishment of a fire department unit for military purposes in home protection and home service, and recommended the purchase of an engine, a fire department, and ammunition for practice, at a cost of \$8,000, and also the establishment of an indoor rifle range for the use of the department.

With reference to the complaint of A. B. McNeil, the commissioner of public safety reported that the building he had submitted for his inspection for approval before issuing his permit to the contractor, also provides that if any question arises between the builder and the inspector it must be referred to a board of arbitrators.

If the board therefore does not interfere with the law in this matter, it must take the responsibility for so doing.

The commissioner further recommended that the unexpended balance of the fire department appropriations for the remainder of the year be put into one fund to meet the expenditure of whatever part of this service remains the outlay; also the same in regard to the police department.

Com. McLellan said that he thought the city should contribute something towards the public defence and that the firemen were a body of about 100 men readily adapted for the work and anything the city would do for them would not be a burden to the present force.

He advised the purchase of sporting rifles, as military rifles could not be secured, and as these could readily be sold after the war. He had secured quotations on the four principal makes of rifles and thought he could secure their entry duty free. He had been offered the use of suitable rooms for indoor ranges at \$18 a month. The men would devote two nights a week to work—one for rifle and rifle drill, and the other for shooting practice. The use of the ranges at other times by other civilians should make itself apparent.

Ammunition could be supplied up to a certain limit and the men would pay for what additional quantity they wanted. The project would also have the advantage of giving the firemen and salvage corps members a drilling which would be of advantage in their own work, and, if any trouble ever arose as it had in the past, the city would have a trained body of men to assist in enforcing order.

The present plan was voluntary on the part of the men and they would elect their own officers. If the dominion authorities took any steps later to provide for civilian home defence the city would co-operate with them. An expert rifle instructor had offered his services free of charge.

Commissioner Potts asked if the proposal would interfere with the plan of the department of militia. He suggested that the matter might be held up for ten days for consideration and for the advice of the recorder.

Commissioner Russell asked under whose control the men would be. Com. McLellan replied that they would be under control of their own officers. The force would not be a military body, unless called out by the military authorities. They would merely be a civilian rifle club and would not interfere with any other projects.

Com. Russell: It would not interfere with my organizing a rifle brigade.

Com. Wignall said that the project appealed to him. He regarded the practice of rifle shooting as invaluable for every citizen, especially at the present time. In addition to this the city could well afford to give the firemen the drilling which they already received in other cities.

DOVER HEARS THE SOUND OF GUNS

Dover, Eng., Nov. 6—Heavy firing was heard off Dover this morning. It could not be ascertained whether the artillery exchanges were on the Belgian coast or indicated a naval engagement in the North Sea.

Constantinople, Nov. 6.—(Via London)—A Turkish official announcement says that one of the British warships bombarding the Dardanelles was struck by a shot from one of the forts, and an explosion on board resulted.

A British steamer, it is also stated, has been sunk off Aivali, Asia Minor, after the crew and cargo had been put ashore.

Amsterdam, Nov. 6.—From Sofia, Bulgaria, says that Turkish cruisers have successfully bombarded the Russian fortified seaport of Batumi, on the east shore of the Black Sea.

London, Nov. 6.—The Exchange Telegraph Company has given out a despatch from its Liverpool correspondent saying that the Turks have seized the British steamers Asstout and City of Khirt at Smyrna.

SECOND CONTINGENT

Two Brigades of Infantry and Three of Artillery

Fresh Battalions of Infantry to be Recruited in Ontario For Reinforcements, is Announced in Ottawa

Ottawa, Ont., Nov. 6.—The detailed composition of the second Canadian contingent, now in course of preparation, has been made public by the department of militia here following complete instructions from the War Office.

Two brigades of infantry will be taken, in conjunction with one surplus brigade now at Salisbury Plains to make up its infantry branch of division.

There will be three brigades of artillery, consisting of nine batteries of eighteen pounders with four guns per battery. London will provide one battery, Toronto two, Kingston one, Montreal one, Maritime Provinces one, Winnipeg one, and Calgary one.

The same mobilization will be proceeded and the training be done with twelve pounders.

A heavy battery will also be organized in sections from different parts of the country. Each artillery battery will have an establishment of 120 men.

The army supplies will be raised with one company in Montreal, one at Halifax, one at Victoria and one at Winnipeg. The strength per company will be eighty-three men.

In the case of the Medical Service Corps, companies will be organized at Toronto, one at Montreal, and another at Winnipeg, Victoria and Calgary, in the proportion of a section each.

Two field companies of engineers, each comprising 220 men, are to be recruited in Ontario. The headquarters in Ottawa, and the recruiting, however, will be instituted at all the different centres of such men as are obtainable.

The organization of cyclists will be enlisted generally throughout the dominion. A section will be attached to each infantry battalion.

A signal company will also be raised, and probably be attached to the engineers.

In addition there will be a number of administrative units, including lines of communication, a divisional ammunition park supply column, reserve park for wagon, field butchery and bakery, railway supply detachments, and two unit depots of supply. These units will be drawn from all parts of the dominion.

Though only eight battalions of infantry are being sent with the second division, fresh battalions of infantry will be raised in the dominion right away.

These comprising about 9,000 men and officers, will be used to make up the reinforcements which the department contemplates sending, on the basis of seventy per cent of total force sent.

The eight battalions which are going are Kingston one, French Canadian one, Montreal one, Maritime Provinces one, London one, Toronto one, Manitoba and Saskatchewan one, British Columbia one.

The seven left to form the basis of a third Canadian army list—Toronto one, Montreal one, Winnipeg one, Calgary one, Quebec one, Halifax one, Victoria one, Montreal one.

COW WAS RESCUED. About three o'clock this morning a violent splashing in the river at Inlandtown attracted the attention of Frank Leonard, watchman on the ferry Steamer E. Ross. On investigating he found that a cow was struggling in the water trying to get ashore. With considerable difficulty he rescued the animal. It had probably fallen off one of the river steamers.

SILVER WEDDING Mr. and Mrs. Joseph Arthurs of Acme yesterday celebrated their silver wedding anniversary. In the evening about 125 friends including some from the city, assembled at their home to bestow their best wishes. Many handsome presents of silverware were received. Games and dancing were enjoyed during the evening and the party broke up at a late hour after a pleasant time enjoyed by all. Mr. and Mrs. Arthurs were the recipients of many congratulations and best wishes for many happy returns.

WONDERFUL MARCH BY RUSSIANS

London, Nov. 6.—A Reuter despatch from Petrograd says: "The newspapers here proudly comment on a wonderful thirty hours march in the Caucasus by a Russian column of all three arms over mountain passes covered with snow. The Russian front extends over 100 miles.

"The first important fighting is expected near Erzerum, Turkish Armenia, where the Turks are concentrating."

"Military experts estimate the total strength of the Turks at 90,000 men, with from fifty-five to sixty batteries, or 280 guns, thirty-five or forty squadrons of regular cavalry and 20,000 Kurdish irregulars. Part of this army probably will be detached to defend the Black Sea littoral, leaving from two to one and one-half army corps in Erzerum. It is said that General Liman von Sanders of the Prussian cavalry is in command.

GERMAN RIGHT SMASHED

LIKE FALLEN WINE GLASS

Disastrous Defeat at the Yser—Estimates of 30,000 to 50,000 as Enemy's Losses—Kaiser Directing the Effort to Reach Calais

London, Nov. 6.—The correspondent of the Daily Mail in the North of France, under date of November 5, describes the relief felt in Dunkirk, Calais, and the neighboring towns and villages at the retreat of the Germans, which he declares, amounts to nothing less than a rout. He says:

"The German right is smashed like a fallen wine glass. Guns, stores, rifles and even the wounded, were abandoned in the rush from this fatal battlefield. The chance of the Germans was well on the wane when the flooding of their positions came as a climax of the disaster.

"There is now left no more than a handful of the German force which met its fate at the Yser. Thirty thousand Germans, say the Belgians, have been put out of the light on this line. Not a single gun remains on this side of the river and the unburied dead, the drowned and the wounded, with the memory of all the trains of wounded that left the firing line in recent days, leads one to think that there is no overrating of the enemy's loss. There must be many thousands of prisoners."

TIMES MAN SAYS 50,000

London, Nov. 6.—The correspondent of the Times in Pas de Calais sends the following under Thursday's date:—"I am credibly informed that the German losses in the supreme attack on the British between Ypres and Lille are well over 50,000.

"The fighting is still proceeding, but its fury has spent itself. The Germans were repulsed but it is rather early yet to emphasize suggestions of German demoralization."

London, Nov. 6.—The correspondent of the Daily News in the north of France, under date of Thursday, telegraphs as follows:—"The main fighting is now proceeding farther south, around Armentieres, and on the frontier line a few miles east of Nieppe.

"Lille is burning and battered. The allies have been in and out of the city, and our shells set the town alight at the western end. If we cannot bound the enemy out, we must drive him towards Flanders with flame and smoke."

KAISER IS THERE "It is reported that Emperor William, with his staff, is directing the whirlwind from Tournai, Belgium, with Boulogne and Calais, as the objective via Hazebrouck and St. Omer, where, if the Germans can break through, there is a clear road to the coast. The battle here will not be decided for several days."

London, Nov. 6.—A Reuter despatch from Flushing, Holland, says: "The Germans have issued a new proclamation prohibiting an approach on the water-ways at Bruges."

"Heavy guns have been mounted on the sand dunes along the coast from the North of Ostend, to the Dutch frontier. Trenches have also been dug in the neighborhood of Heyst. Further reinforcements have reached the German fighting line during the present week."

GERMAN LINER IS TAKEN TO BOSTON FROM BAR HARBOR

Bar Harbor, Me. Nov. 6.—The three-months' stay of the interned North German Lloyd line steamer, Kronprinzessin Cecilie ended today, when, conveyed by the U. S. destroyers Terry and Lamson, she started for Boston. The change was made because it was considered that the anchorage here would be dangerous during the winter storms.

New York, Nov. 6.—After lying at anchor for several weeks off Staten Island, the German steamship Barbarossa was today permitted to enter the harbor in Halifax previous to that of the cruiser of the entrance to the harbor behind the great walls of the city. The change was anticipated. Officials of the ship said that she is being returned because the docks are again clear of other ships.

SAY NO DANGER TO PEOPLE BECAUSE OF CATTLE DISEASE

Chicago, Nov. 6.—Statements assuring the public that foot and mouth disease among live stock in nine states, cannot infect humans through the eating of meat, was issued by officials of Chicago's largest packing companies today.

FOOTBALL The St. John High School football team will go to Fredericton tomorrow morning to battle with the Fredericton High School team in the last game of the Inter-collegiate League. The result of this game will have no bearing on the league standing, as the local boys have safely landed the championship with an unbroken string of victories, while the boys at the capital have been unanimously consigned to the cellar position. The possible line-up of the local team will be—Nixon, fullback; McNulty, McAndrews, Donnelly, Trimball, halves; Taylor, Somerville, Wells, quarters; Jennings, Holder, Massie, Donnelly, Jones, Robinson and Callahan, forwards; and Gorman and Gillen, spares.

HOME FOR INCURABLES Donations of \$180 were received at the monthly meeting of the Home for incurables last evening to go towards paying for the installation of the electric system. The amounts contributed were as follows: J. S. Gregory, \$100; Dr. Thos. Walker, \$50; H. B. Emerson, \$25 and the Misses Reynolds, \$5. Doctor Walker presided and there was a good attendance of life members. It was said this morning that the work of wiring the institution for electricity was now nearly completed. It is expected that the expense of this improvement will be almost covered by donations from friends of the home.

KICKED BY HORSE A man named Price missed instant death by a few inches on board the remount steamer Anglo-Columbian this morning when he received a kick from the blow just below the chest. He was taken to the hospital for treatment but will not be required to stay there for any great length of time.

FIRST WOMAN TO CROSS SUSPENSION BRIDGE

Mrs. Michael Spragg Yesterday Entered Upon Her 97th Year To reach the age of ninety-six years and to be able to read without glasses is "consummation devoutly to be wished" but very seldom accomplished; yet there is a lady in the city today who yesterday started on the ninety-seventh year of her life and is in possession of all her faculties. She is Mrs. Michael Spragg and resides with her only daughter, Mrs. E. J. Carpenter, 406 Main street. She has the distinction of being the first woman to walk across the suspension bridge over the falls.

Mrs. Spragg is wonderfully active for a woman of her years and is able to move about the house with ease. She possesses a robust constitution and is straight and sturdy as many people have her age. Her eyesight and hearing are particularly keen and she spends a great deal of her time sewing. Although she does not leave the house very often, she is planning a visit of two or three weeks to relatives in another part of the city in the near future. She takes a keen interest in the happenings of the day.

This wonderful old lady has, besides her daughter, Mrs. Carpenter, three sons—Charles, Edward and Albert, all residing in Boston. Twenty grandchildren and five great-grandchildren are also living.

Yesterday Mrs. Spragg received many friends who called to extend congratulations and wish her good health for many more years. She was the recipient of several pretty bouquets.

UNITED STATES HAS NOW OFFICIALLY DECLARED AGAINST FRIEDMANN "CURE"

Washington, Nov. 6.—The seat of official disapproval has been placed upon the tuberculosis "cure" brought to this country in 1913 by Dr. Friedman of Berlin. The announcement was made today by the United States public health service. It declares that conclusions of the American physicians are in line with previous reports both in this country and abroad, "which have refuted Dr. Friedman's claims to have discovered a specific cure for tuberculosis."

W. J. HOWES GOES TO WAR

The Sault Ste. Marie Daily Star publishes the following:—"W. J. Howes, who since last January has been assisting Rev. W. Hardy Johnson, M. A., at St. John's church, has enlisted, and will go overseas with the 51st Regiment. Until coming to the Soo Mr. Howes was a student of the Wyckoff College, Toronto, and the many friends he has made since January wish him God speed and a safe return, not only to his home town, St. John, N. B., but to Sault Ste. Marie.

Mr. Howes is a son of Mrs. Joseph Howes of Sheriff street, North End. About four years ago he acted as a reader in St. Luke's church and will be remembered by many friends.

MAPPLES WON. The Maples and Shamrocks rolled last night in St. Peter's Y. M. A. Bowling League in an interesting match in which the former took three points. Their total was 1200 against the Shamrocks' 1180. The first string were 398 for the Maples and 395 for the Shamrocks, while the third string were also close, being 399 for the Shamrocks and 395 for the Maples. The members of the winning team were McInnis, Dougherty, Devoy, Crowley and Coughlan, and the losers were McNulty, Gibbons, McCurdy, McCann, McBratney.

AUSTRIANS HARD HIT AGAIN BY THE RUSSIANS

Petrograd, Nov. 6.—The Russians have recaptured the Galician town of Jaroslav and have taken 5,000 Austrian prisoners, according to a telegram from Lemberg. Jaroslav is seventeen miles northwest of Przemysl.

The Austrian attempts to cut off the Russian attackers finally have been broken down and the Austrians now are in retreat along the river San.

CANADA IN THE WAR

Sir Robert Borden may have to cut his holiday at Virginia Hot Springs short and return to Ottawa to grapple with the various problems now demanding attention in Canada.

As a result of the conferences of Sir Richard McBride with the Admiralty on his visit to England, it is expected that important steps will be taken in Canada for the home coastal defence.

A large crowd gathered last evening at the home of Mr. and Mrs. K. M. Burden, Lonewater Farm, Westfield, last night at a pie social and dance conducted in aid of the Belgian Relief fund.

At a meeting of citizens in Fredericton last night a committee was appointed to complete arrangements for securing rifles and beginning training for the home guards, now very satisfactorily organized there.

Machine gun sections are to be added to the strength of the Montreal Home Guard Regiment, which is now being organized. While the work of recruiting has so far been largely in the hands of the committee, already nearly 150 volunteers have called and paid in \$35 each to purchase their rifles, ammunition and equipment.

FAVOR ARMING FIREMEN FOR HOME DEFENCE

Com. Potts moved that the consideration of the resolution be deferred until a special meeting one week later. By that time, he said, additional suggestions might be made, say for the co-operation of the other departments, which would make the plan even more valuable.

This week's issue of the Maritime Merchant gives prominence to the fact that Halifax is very rich in pit props. It has 100,000 tons of pit props in all, with 100,000 tons of coal and 50,000 tons of iron ore.

CANADA IN THE WAR

Sir Robert Borden may have to cut his holiday at Virginia Hot Springs short and return to Ottawa to grapple with the various problems now demanding attention in Canada.

As a result of the conferences of Sir Richard McBride with the Admiralty on his visit to England, it is expected that important steps will be taken in Canada for the home coastal defence.

A large crowd gathered last evening at the home of Mr. and Mrs. K. M. Burden, Lonewater Farm, Westfield, last night at a pie social and dance conducted in aid of the Belgian Relief fund.

At a meeting of citizens in Fredericton last night a committee was appointed to complete arrangements for securing rifles and beginning training for the home guards, now very satisfactorily organized there.

Machine gun sections are to be added to the strength of the Montreal Home Guard Regiment, which is now being organized. While the work of recruiting has so far been largely in the hands of the committee, already nearly 150 volunteers have called and paid in \$35 each to purchase their rifles, ammunition and equipment.

FAVOR ARMING FIREMEN FOR HOME DEFENCE

Com. Potts moved that the consideration of the resolution be deferred until a special meeting one week later. By that time, he said, additional suggestions might be made, say for the co-operation of the other departments, which would make the plan even more valuable.

THE WAR NEWS

One report today says that the Germans in their desperate attempt to defeat the British near Ypres must have sustained a loss of at least 50,000 men. They have not, however, abandoned the hope of getting through the allied lines, and it is said that the Kaiser himself is directing the operations.

GERMAN ILLUSIONS

German egotism and German confidence in their ability to "hack their way through" to victory, are well expressed in the Saturday Evening Post, in an interview by Mr. Irvin S. Cobb with three representative Germans in Aix la Chapelle. Mr. Cobb's letter was written in the latter part of September, in a hotel in the German city.

THE LOCAL OUTLOOK

There are some who take a rather gloomy view of the outlook for the coming winter in this city and province. It is certainly wise to give thought to the subject, and to realize that this is a time for prudent spending.

Fifteen hundred university students in Toronto have enrolled in a university battalion.

Lord Fisher and Sir Percy Scott of the Admiralty are expected to make the naval arm of the British service more effective.

It is announced that the Canadian government will mobilize regiments of mounted rifles in Ontario, Alberta and British Columbia, and also a regiment for Manitoba and Saskatchewan.

The provincial government is to meet again next Tuesday. Will there be any further delay in giving the public the report of the Royal Commission on the Dugal charges?

If it is true that Germany has been compelled to transfer some of her soldiers from Belgium and France to East Prussia, it is the most conclusive confirmation of the reports of Russian successes in the east.

Aside altogether from the question of recruiting men for the second contingent, a series of meetings to arouse the people of New Brunswick to a fuller sense of the seriousness of the situation, and of the claims upon them, is desirable.

It is reported that some German professors will be sent to the United States during the Christmas season to deliver addresses and to tell the American people about the causes of the war.

A catalogue of murderers is one of the curiosities in the offices of the United States Secret Service in Washington. In this catalogue all the "cranks" are listed, first alphabetically under their names and aliases, and secondly under the particular forms taken by their obsessions.

Perhaps if Mayor Frink and those interested would look into the matter they might find opportunities for drill in some of the school buildings. The Toronto papers stated some time ago that the school buildings were being made available in that city for this purpose.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

NEW HIP YOKE EFFECT.

The demand for separate skirts is as great as ever. One of the newest models is shown here, having for its distinguishing feature a hip yoke that extends down the back in a box-pleated panel effect. The lower edges of the front may be finished in round or square outline. To make the skirt require 4 1/2 yards of 44-inch or 3 3/4 yards of 54-inch material. The foundation is a three-piece affair, lengthened by a two-piece lower part. The tunic has six gores.

Join lower skirt sections as notched. Pleat, creasing on slot perforations; bring folded edge to small "o" perforations and press. Turn under lower edge 3 inches for hem. Sew to lower edge of foundation goes as notched.

New pleat tunic as indicated and stitch. Turn under edge of front gore on slot perforations; lap to small "o" perforations in side gore, notches even; stitch as illustrated; close seam underneath and press. Turn hem at front edges of front gore and yoke at notches. Sew yoke and back gore to front and side gores, notches and center-fronts even. If square yoke is made lap on front gore to small "o" perforations, centers even. Lap right front on left, centers even; stitch, leaving edges free above single large "O" perforation in front gore for opening. Close center-back seam. Form inverted pleat at center-back, creasing on slot perforations; bring folded edge to center-back seam; stitch as illustrated and press. Arrange on foundation, centers even; stitch upper edges together.

5915

New skirt model suitable to development in cloth, velvet, tricotine or serge. The hip yoke and back gore are cut in one and buttons form the only decoration.

Pictorial Review skirt pattern, No. 5915. Sizes 21, 22, 24, 26, 28, 30 and 32 inches waist measure. Price, 15 cents.

Save the Crumbs

BY CAROLINE COE

Save the crumbs and the leaves will take care of themselves.

There's a new twist to an old adage, and the housekeeper who throws away in crumbs almost half the bread she buys or bakes may find it worthy of her consideration—she'll find it much more profitable and much more agreeable to study the crumbs and their usefulness, than to worry about her grocery bill.

But there's one thing to be remembered in saving crumbs and pieces of bread, never save moldy bread. Crumbs may be stale, but they must not be moldy or else they are neither healthful or palatable.

After the crumbs, or the small bits have been gathered from the table or from the bread box they should be placed in a warm oven to dry. They must not be baked or toasted, just dried.

When the bread is crisp roll it with a rolling pin and sift through a fine sieve and then put the crumbs away in an air-tight can.

There are dozens of ways in which bread crumbs may be used in puddings and croquettes and in sauces, but some of the ways I have tested in my own kitchen and found good are given here. Give them a trial, I am sure you will find them good, and I know you will find them a great aid to economy in the kitchen.

Many Good Uses for Crumbs of Bread

Use bread crumbs to remove wax from silk: Toast a piece of soft bread until very hot, but not burned, and rub spot with hot bread until cold. Then reheat or use another piece of bread. Continue until the wax is removed. Afterwards rub the spot with dry crumbs until perfectly clean.

If candles drip upon a lacquered holder or it is almost impossible to remove the wax without injury to the holder, dip a piece of cotton into a little oil, then into the finest bread crumbs. Carefully rub the spot until the wax is removed.

If the bindings of books need to be cleaned and freshened rub with fine crumbs in a woolen bag. This will also freshen the soiled leaves of the books.

To clean fine lace stretch the lace carefully on an ironing board, fasten the edges with pins. Sprinkle the lace with fine bread crumbs, rub them over the lace with a soft cloth. Continually using fresh crumbs and changing cloth as it becomes soiled.

To clean gold or silver lace stretch the lace and baste it on a woolen cloth, taking great care to follow the outline. Tack the woolen cloth onto board, stretch well. Brush the lace free from dust. Mix fine crumbs with laundry blue in parts one of blue to three of crumbs. Sprinkle over lace, and gently with woolen cloth until clean. Many times rubbing lightly is better than trying to clean and polish with one application.

Clean chandeliers with soft brush dipped in coal oil and then in dry crumbs. Rub lightly. If chandelier is spotted by flies use onion juice in place of oil.

BRITISH LOSSES HEAVY AT BATTLE OF THE YSER

London, Nov. 6.—It is admitted at the War Office that the British troops had suffered heavy losses in the battle of the Yser, probably heavier than those of the French and Belgians. The Belgian troops are said to have lost between 12,000 and 18,000 men.

The great losses of the British are said to be due to the fact that the Germans concentrated their artillery fire on the English troops whenever possible. It is believed that the British had half a million Germans opposed to them in the Yser fighting.

smartest men belong to The Salvation Army.

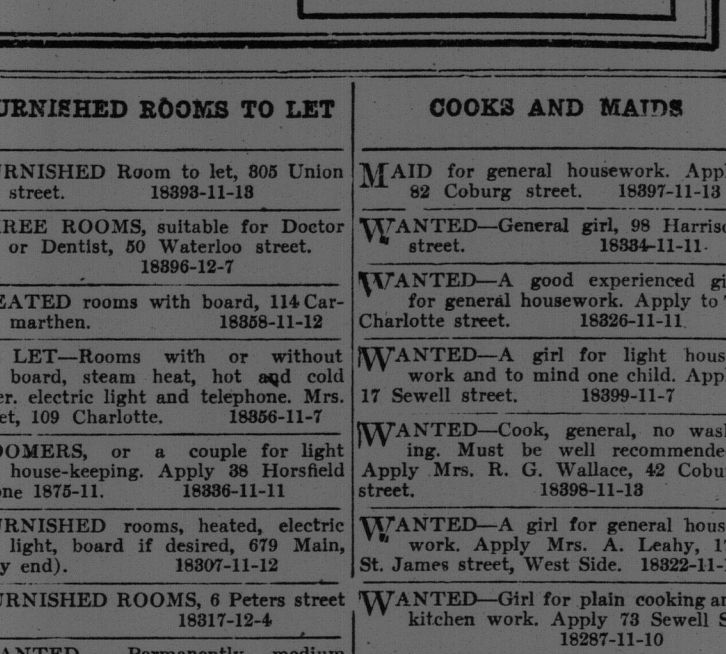

Bandman Lionel Kingston, son of Major and Mrs. Kingston, of the West London Division, left for the front on Thursday as a corporal in the Royal Engineers, in which he will serve as a motor dispatch rider. Our comrade has been in the Bristol Glider Band for a number of years.

In New Zealand's Expeditionary Force to the front there are many Salvationists, amongst them being seven Bandmen from Wellington City. Brigadier House and Staff Captain Greenfield are each represented by a son.

DREAMNOUGHTS Dreamnoughts have never been in action. When they engage it is possible to picture the damage they will do to each other, when we say that on some of the latest type the entire fire of fourteen inch guns weighing 11,500 pounds, can be directed on any given target. These guns each carry a projectile weighing about 870 pounds, and have a range of fifteen miles. The muzzle velocity is 3,600 feet a second—Victoria Colonist.

USE THE WANT AD WAY

How to Buy City Real Estate, or How to Find Purchasers

Somebody Wants to Locate in Every Part of This City

City really is the bed-rock of financial worth. It is an investment that presents liberal returns and steady appreciation in value. Owing to business demands, removals, deaths, settlements of estates and many other causes, there are always rare bargains to be picked up for cash or on terms. Many owners who are considering offers now would listen to your proposition if you were on hand.

Why not reach all those who have offers on the same day? Our Little Want Ads will reach the people you want to reach.

Also these columns open the way for quick sales to owners. It makes no difference what class of property you wish to buy or sell. There is always somebody waiting to talk business to you. It will cost you but a few pennies and will enable you to deal direct with principals, if you—

KILLED BY PLAYMATE

Paul Bonsant, aged 13, accidentally shot by Joseph Veilleux in Augusta, Me.

Augusta, Me., Nov. 6.—Paul Bonsant, 3 years old, was shot and fatally wounded when a rifle in the hands of a playmate, Joseph Veilleux, was accidentally discharged. The bullet entered the boy's head and he died a few hours later.

CAMPAIGN TO RAISE BRITISH WAR PENSIONS

London, Oct. 15 (Correspondence)—A campaign to raise British pensions and separation allowances has been started by G. N. Barnes, M. P., who proposes a minimum of £1 a week for the widow of every soldier and sailor killed at the front, for the mother dependent on any soldier and sailor killed, or the wife of every soldier and sailor in the fighting line, and also for every soldier and sailor permanently disabled by fighting. Such an increase sounds small in comparison with American pension rates, but would mean a fourfold raise for the English in most instances. From \$125 weekly pension allowed to disabled soldiers is 85 cents. Mr. Barnes also proposes to double the present allowance of 25 cents a week for every dependent child. It is pointed out that the nation has a support these dependents in any case and to throw the main burden on private charity does not relieve the country of the cost. An adequate separation allowance and pension would also relieve the men who are offering up their lives for their country from the stigma of being objects of charity.

Bobby—"Ma, you said that I should eat that piece of cake in the pantry—that it would make me sick?" Mother—"Yes, Bobby." Bobby (convincingly)—"But, ma, it hasn't made me sick."

IS HE CRAZY?

The owner of a large plantation in Mississippi, where the fine figs grow, is giving away a few five-acre tracts. The only condition is that figs be planted. The owner wants enough figs raised to supply a co-operative canning factory. You can secure five acres and an interest in the canning factory by writing the Eubank Farms Company, 814 Keystone, Pittsburg, Pa., U. S. A. They will plant and care for your trees for \$8 per month. Your profit should be \$1,000 per year. Some think this man is crazy for giving away such valuable land, but there may be method in his madness. 11-5-7-9

DENIES ONTARIO POLITICAL RUMOR

Toronto, Nov. 5.—A rumor of a shift in the Ontario cabinet, that Hon. J. J. Fay had resigned or was about to do so, and that Hon. Mr. Hanna had been named for the attorney-generalship, received an emphatic quietus from Hon. Mr. Hearst yesterday. The prime minister said that there had been no consideration of cabinet changes or additions.

The most important meeting of the Lancaster Board of Trade in months

took place last evening. Several members of the board of trade, particularly at this season of the year, Councilor James Bryant assured the board that several crossings of block construction were now being built and would soon be installed. This was regarded as satisfactory.

Numbering of the houses so that Lancaster might be placed in line for the

letter carrier system was next referred to. Fairville was getting a more antiquated method than the farmers who live in rural delivery outside the municipality. There was some little talk as to the responsible ones to go to and finally it was decided to speak to the board of management, composed of all three councilors. The following committee was named: Daniel Campbell, W. A. Nelson and V. Hamm.

It was decided to interview the manager of the street railway, H. M. Hopper, on three questions of vital importance: (1) The lighting of Mill street, (2) Regarding the extension of the line out Manawagonish, (3) The running of a through car from Douglas avenue during the winter months to connect with the 8 o'clock Fairville trip.

A Good Time to Change

If you have been using a mixture of cream of tartar and soda for quick baking you will find it profitable, because of the increasingly high price of cream of tartar, to use Royal Baking Powder instead.

It will pay you to do this because the price of Royal, which is made from highly refined cream of tartar, has not been changed, and because you will find it in every way more satisfactory than the use of homemade mixtures to which you have been accustomed. Royal Baking Powder is famous for its absolute purity and its reliability as a quick raising agent.

ST. ANDREW'S SOCIETY HOLD ANNUAL MEETING

At a meeting of the St. Andrew's society last evening it was decided to ask for legislation permitting them to donate \$500 to the Canadian Patriotic and the Edinburgh societies suggested contributions for a Scottish hospital in France, and also a contribution towards the celebration of the 60th anniversary of the Battle of Bannockburn. Resolutions of regret regarding the deaths of Robert Thomson, Andrew Malcolm and James Masson were passed. Sympathy was also expressed at the illness of James Knox.

The secretary's report showed 220 members on the rolls and the treasurer reported that \$1,841.28 had been received and \$1,419.92 paid out during the year. Funds on hand totaled \$12,750.92

After the meeting the members were

entertained at an oyster supper, at the Creamery. The members of the society who have gone to the front was drunk.

Alexander Macaulay was re-elected president of the society for the ensuing year, and the election for the other officers resulted as follows: 1st vice-president—Alex. McMillan. 2nd vice-president—H. C. Rankine. Chaplain—Rev. J. J. McCaskill. Historian—Alex. Wilson. Treasurer—John White. Secretary—F. W. Fraser. Marshalls—C. W. Bell and E. A. Inches.

Committee on charity—Dr. P. R. Innes, W. R. Jack, and F. P. F. P. Auditors—R. G. Wallace and A. G. Leavitt.

FIRE AWAY

A company of English territorialists were at the range. The usual marker had not turned up, but a deputy was soon found in the person of an old worthy well known in the district who occasionally acted as substitute in such circumstances. The first round was about to be fired when the captain, looking towards the target, was almost stupefied to see the newly-engaged marker right in the line of fire.

"Stop firing!" he screamed, as he hastened to where the old man stood, "Do you know you were within an ace of death just now?"

"Och, aye," was the reply. "Just fire away. I have marked for your squad before."

MORNING WAR NEWS

London, Nov. 5--9.15 p. m.--No decision has yet been reached in the battle in the sand dunes of West Flanders, and the opposing armies stand now virtually as they have stood for many days.

While the Germans keep hammering away at the Allies around Ypres, which route they choose, for their march to the coast, after they had found the road along the sea barred to them, and the Allies are making an effort to move northward to Ostend, neither side has got very far. The Belgians and those supporting them have found that the floods which they created to stop the German advance are a hindrance to their movements, although they have been able to occupy some villages, including Bischoote, which had been in the possession of the Germans.

Around Ypres, the German offensive, according to the accounts of the Allies has met with no success. In fact it seems that all along the line there has been merely a repetition of artillery duels and of infantry attacks and counter-attacks, which some times succeed, but more often do not.

On the frontier in the east more wide sweeping movements are being made by the opposing armies. The Russians, from all reports, have driven back the German offensive to the River Warthe, in Russian Poland, have held back a German offensive movement from East Prussia, and now are straightening out their line for a more vigorous offensive against the Austrians, who have been trying to break their left wing in Galicia.

The Anglo-French fleet continued to bombard the Dardanelles forts, but the Turks say the warships have inflicted no damage. In other parts of Turkey, British warships are being kept busy. The government at London, however, has ordered that Holy places shall be respected by the British gun fire, so long as the Indian subjects visiting them are not molested.

This necessity for respecting the feelings of her Moslem subjects, it is considered, here may hamper Great Britain somewhat in the prosecution of the war against Turkey, but with her large Moslem population it cannot be disregarded. In addition to the assurances received from the Indian princes, England has been informed by the leaders of the Moslems in the Malay States that her war against Turkey will not affect the loyalty of the Moslems to the empire.

London, Nov. 6, 1.50 a.m.--A despatch to the Daily Telegraph from Odessa, by way of Moscow, says that twelve Turkish and German transports carrying coal have been sunk near Usungulak, on the coast of Anatolia.

London, Nov. 5, 4 p.m.--The British mine-sweeper Mary was sunk by a mine in the North Sea today. Six of the crew of fourteen were rescued. The survivors who were landed at Lowestoft reported heavy gun firing off the Yorkshire coast this afternoon.

Queenstown, Nov. 5, 6.17 p.m.--The German sailing ship Methusalem, which sailed from Tocopilla, Chile, July 8, laden with nitrates, was towed into Queenstown today by a British cruiser, which had captured her. Captain Langman said neither he nor his crew had heard that a war was in progress.

On a Pedestal

Those things we value most highly, as symbolizing the best in Art, in Science or in Literature, are fittingly placed upon a pedestal, where we can look up to them.

Figuratively speaking, we also place upon the pedestal of our imagination, those high ideals, those lofty aspirations, by which, in our more thoughtful moments, we would wish to guide our conduct.

Among those guiding principles, why not place upon a pedestal of its own, an ideal that may be better described as "Canada First," rather than "Made in Canada."

The "Made in Canada" movement stands for far more than mere commercial patriotism. Pride of country, pride of national resources, pride of national accomplishment in the realms of literature, art and science, pride of virile citizenship, and pride of national destiny, are all embraced within the broad sweep of this deep seated and soul stirring movement.

Future generations will look back to 1914 as an epoch marking year in Canada's history if you, in common with all her citizens, will only resolve, from this day forward, to be guided by the motto

"CANADA FIRST"

ONLY TEMPORARY WIRELESS SUSPENSION. New York, Nov. 5--The Western Union Telegraph and Cable Company announced tonight that communication with Germany and Austria by way of the wireless station at Tuckerton (N. J.) has been suspended until further notice.

Washington, Nov. 5--Navy department officials said tonight that the Tuckerton wireless station had not been closed, and that there would be no interference with official messages. They explained that the reason for the Western Union Telegraph Company's announcement was that the station was so congested with messages that a temporary suspension of business had been determined upon.

The suspension of that business would last only three or four days, it was said, while messages on hand were being disposed of and some repairs made to the station.

WOMEN IN BATTLE ON RUSSIA'S FIRING LINE. London, Nov. 6--The number of women coming back wounded from the Russian front proves that the contingent of adventurous females on the fighting lines is considerable. These women, as a general rule, get their hair, assume a soldier's uniform, and get away secretly with the connivance of friends among the soldiers. Others start alone on various pretexts, such as seeking injured relatives, and then don male attire when they reach the front.

A Cossack girl trooper, Helen Choba by name, went with the full knowledge and permission of the authorities, having long been distinguished as a horse-woman, swordswoman and marksman. Colonel Tomilobakava's daughter, who, in male uniform, on the August 10 front, distinguished herself as a scout leader, has been wounded three times.

RENEWED VIGOR IN OLD AGE. This Letter Brings a Message of Cheer to the Aged--Results of Using Dr. Chase's Nerve Food.

New, rich blood is what is most needed in the declining years to keep up energy and vitality. That Dr. Chase's Nerve Food is a wonderful help in maintaining good health and prolonging life is attested by the writer of this letter: Mr. Stephen J. Leard, North Tarry, P. E. I. writes: "At seventy-five years of age my heart gave out and became very irregular and weak in action and would palpitate. My nerves also became weak, and I could do nothing but lie in bed in a languishing condition, losing strength and weight. In that condition I began using Dr. Chase's Nerve Food, and am cured. Had I not obtained this treatment I would now be in the box with the roof over my nose. At eighty-one I have an energy which means go, and I am writing this letter so that old people like myself may prolong their health and strength by using this great medicine." 50c. a box, 6 for \$2.50. GOLD RUSH IN B. C. LIKELY THIS WINTER.

An official of the Grand Trunk Pacific Railway, who has just returned to Montreal, states that he expects to see a new gold rush into northern British Columbia this winter.

"Fifty years ago," he said, "miners in search of placer gold struggled through the wilderness and negotiated rapid rivers to reach the Omineca region, which had been reported to be rich in both gold and silver. It was a long and hard trek to get into that remote part of the country, for Victoria (B. C.), was then the nearest base of supplies. Prospectors took a small steamer up the Fraser, Nechako and Stuart rivers and over mountain ranges in order to facilitate transportation of supplies and outfit, but the best route presented had many difficulties and such hard and costly work that after a few years the field was abandoned and almost forgotten, although recently some mining has been done with good results."

"With the opening of the Grand Trunk Pacific this region has been brought several hundred miles nearer a supply centre, and interest in this district is reviving to such an extent that there is likely to be a rush of prospectors during the coming winter. They will take in their supplies from Vancouver (B. C.), so that they can begin work immediately. Spring opens and thus get in a full summer's work. Mining men declare that big strikes will be made when the region has been thoroughly explored and state that there are rich quartz deposits as well as placer gold and silver. It is common knowledge among Hudson's Bay men that the Indians hunting in that part of the country use silver nuggets for bullets, and also carried considerable quantities of gold and silver to Fort Simpson and Hazelton in exchange for goods."

DISCOVER A SERUM TO PREVENT GANGLIOMA. Paris, Nov. 6--A microbe causing gangrene to develop in bullet and chrapnel wounds has been discovered by Drs. James Seale and Georges Desjardins, of the American Ambulance Service.

Previously initial cultures all were impure, leading to the belief of scientists that the disease was caused not by a single germ, but by a combination of germs. After much research and experimentation on horses and guinea pigs, a single bacillus has been discovered and isolated and the serum is now being prepared by Dr. Henri Weinger, of the Pasteur Institute.

The discovery is expected in medical circles to have world-wide importance. The serum is being injected into patients on the battlefield in the early stages of infection, obviating amputations and averting a great loss of life.

FUR COATS BEING MADE FOR THE BRITISH ARMY. London, Oct. 16--(Correspondence)--With the building of new army store houses here it is learned that the government is laying in an immense stock of furs and sheepskins to be made in winter coats for the army. These materials are arriving by the trainload. Already the sheds cover acres of ground surrounded by barbed wire fences and guarded by policemen.

PEOPLE OFTEN SAY "How Are We To Know When The Kidneys Are Out Of Order?" EASIEST THING IN THE WORLD!

The location of the kidneys, close to the small of the back, render the detection of kidney trouble a simple matter. The note of warning comes from the back. The kidneys become overtaxed and fail to do their work at nature's call. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble.

The danger lies in delay. Doan's Kidney Pills stimulate the action of the kidneys, and enable them to perform their duty perfectly.

Mrs. Greig Murphy, Lower Shire Harbor East, N.S., writes: "I have used Doan's Kidney Pills in my family with great success, and don't think there is a better pill for the kidneys. I am very miserable with my back, and could hardly get about. I got a box, and tried them, and found that they were really good, so I took in all about six boxes and soon found my back cured, and my kidneys as well as ever."

Doan's Kidney Pills are 50c per box 3 boxes for \$1.25; for sale at all dealer or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto Ont.

When ordering direct specify "Doan's." Woman's Health and spirits depend upon her digestion and circulation. Sallow skin, pimples, facial blemishes and depression disappear after the system has been cleansed and the blood purified by BEECHAM'S PILLS. WONDERFUL FINE NEW OVERCOATINGS

YOU never saw anything like it! Wonderful Overcoatings that are away ahead of the procession—patterns and shades wholly exclusive with us—"Mill-to-Man" values that instantly win the approval of every man, and young man, who sees them.

Do you have your clothes "Tailored" or "Manufactured?"—there's a difference. The manufactured garment is the "hand-me-down" article—commonly called "ready-made"—they are cut in lays of 30 to 50 suits or overcoats at a time, of one particular size and style, and manufactured wholesale into "ready-mades"—BUT—no two men are built alike and what will fit one fellow won't fit the other, and that's why your "hand-me-down" sags, bags and rags after a few weeks' wear.

The Tailor-made garment is made to fit YOU, and only you, and WE ARE TAILORS—not the ordinary mushroom kind, but big, broad-minded fellows, doing a big business at a small profit per garment—getting our woolsens direct from mills in "The Tight Little Island" and putting the profits of the middleman into the pockets of our customers. That's why you should come to us for your Winter Overcoat—come and see us and you'll understand what we mean when we say that we have no competition—anywhere.

RECENT DEATHS

The death of Mrs. Annie Cochran, widow of Henry Cochran, occurred yesterday afternoon at her home, 299 City road, in the 78th year of her age. She leaves one daughter, Mrs. A. D. Hopkins, of this city. Mrs. Cochran was a devoted Christian woman and a life-long member of Exmouth street Methodist church.

Albert Black died in Everett, Mass., on October 30. He was about 72 years of age, and is survived by two brothers, Benjamin S. of St. Stephen; William of Pennsylvania, and two sisters, Mrs. R. V. Bower, Philadelphia, Mrs. John T. Carter, Upper Sackville. Three sons and one daughter also survive.

The death of Mrs. Alexander Prosser, of Midway, Albert county, occurred Tuesday evening, a few days after the birth of her infant. Mrs. Prosser, who was about 35 years of age, was formerly Miss Carrie Stevens, of Midway, and was a trained nurse.

Mrs. Fred Peterson, aged seventy-nine years, passed away at the home of John Day in Fredericton on Tuesday night. She is survived by one daughter, Mrs. Myles Savary of Penniar, and one son, Irvine Peterson, in California. Three

brothers, Adolphus Allen, Thos. Allen, of Penniar, and John Allen, of Fredericton, and one sister, Mrs. Jerry Saunders, of Marysville, also survive.

The death of Patrick Mullin took place in Chatham last week. He was seventy-six years of age and is survived by one daughter, Mrs. Albert Trevors, and three sons, James and Albert in the states, and John of Moncton.

George Traer, a well-known Napan market gardener, expired suddenly in Chatham on Monday morning. He is survived by his wife, three sons and four daughters—Fred, Albert and Ernest of Napan, Mrs. Henry W. Pileger of Chatham, Mrs. Mitchell of P. E. Island, Mrs. Ira Pratt of Boston, and Maggie at home. Three brothers, William of Newcastle, Charles of Porth Arthur, and Thomas of Vancouver, also survive, as well as the following sisters: Mrs. Frank Johnson of Douglastown, Mrs. David Trevors of Chatham, Mrs. Russell and Mrs. Charlotte Pratt of Boston.

WHAT CAUSES COLDS?

This question and "How to Prevent Colds" is asked a thousand times every day. A cold is really a fever, not always caused by the weather but due to a disordered condition of the blood or lack of important food-elements. In changing seasons food-foods are essential because they distribute heat by enriching the blood and so render the body better able to withstand the varying elements.

This is the underlying reason why the medicinal fats in Scott's Emulsion quickly overcome colds and build strength to prevent more serious sickness. It contains nature's medicinal fats, so skillfully prepared that the blood profits from every drop, and it is totally free from harmful drugs.

CHRISTENDOM'S JUST WAR

Statement by Archbishop of Canterbury and Other Leaders in Religious Matters in England

(London Chronicle.)

In reply to the recent appeal of German theologians on the European war, the Archbishop of Canterbury, in conjunction with the leading representatives of all the Christian denominations in this country, has framed the following statement for publication:

A document has obtained circulation in England, and, we believe, in America, in the form of an appeal with reference to the European War addressed to "the Evangelical Christians Abroad" and making special reference to the members of the World Missionary Conference at Edinburgh. It is signed by brothers and friends of our own in the Church of Christ—men of whose honesty, capacity, and good faith there can be no conceivable question, and whose names carry weight throughout the world among those who think and teach and pray.

It fills us with amazement that those who sign the positions held by these signatories of the appeal should commit themselves to a statement of the political causes of the war, which departs so strangely from what seem to us to be the plain facts of this grave hour in European history. They offer in brief words some account of the events of recent months or years, but to the most salient of the facts out of which the war has arisen they make no reference at all.

It has not been a light thing for us to give our assent to the action of the government of our country in this matter. But the facts of the case as we know them have made it impossible for us to do otherwise. Of these facts we offer here a brief but a careful summary, derived from the official papers, the accuracy of which cannot be challenged. It is upon these facts that we rest our assured conviction that, for men who desire to maintain the paramount obligation of fidelity to plighted word, and the duty of defending weaker nations against violence and wrong, no possible course was open but that which our country has taken.

1.—Course of Negotiations

On July 24 Sir Edward Grey said to the German Ambassador that "if the Austrian ultimatum to Serbia did not lead to trouble between Austria and Russia" he "had no concern with it."

He proposed that "the four powers—Germany, Italy, France, and ourselves—should work together simultaneously at Vienna and St. Petersburg in favor of moderation in the event of the relations between Austria and Russia become threatening." (Correspondence respecting the European crisis, White Book, Cd. 7467, No. 11.) The German Secretary of State said (July 29) that he was quite ready to fall in with this suggestion (No. 18).

When the Serbian reply was rejected by Austria, Sir E. Grey proposed (July 26) that the French, Italian, and German Ambassadors should meet him at Rome "for the purpose of discovering an issue which would prevent complications" (No. 86). The responsibility for the failure of this proposal rests solely with Germany, who alone raised objections. While favorable "in principle," to mediation between Russia and Austria, the German government could not approve the particular method of conference suggested, but they invited to do so, they put forward no alternative proposal.

Finally, at the very last moment, Sir E. Grey made a new effort for the maintenance of peace—"I said to German Ambassador this morning (July 31) that if Germany could get any reasonable proposal put forward which made it clear that Germany and Austria were trying to preserve European peace and that Russia and France would be unreasonable if they rejected it, I would support it at St. Petersburg and Paris, and go to the length of saying that if Russia and France would not accept it his Majesty's Government would have nothing more to do with the consequences; but, otherwise, I told German Ambassador that if France became involved we should be drawn in." (No. 111).

2.—Neutrality of Belgium

The actual interposition of Britain in the present war arose directly out of the question of the neutrality of Belgium.

The original guarantee of the neutrality of Belgium is to be found in Article VII of the Treaty of London 1814 (April, 1839) between England, Austria, France, Russia and Prussia, on the one hand and the Netherlands on the other.

The article reads: "Belgium shall form a state independent and perpetually neutral. It is under obligation to observe such neutrality towards all other states." On the outbreak of the Franco-Prussian War in 1870 identical treaties between England and France and between England and Prussia acting for herself and her Allies, were signed in London. The treaties were in each case preceded by a formal declaration on the part of the belligerent powers, that they would respect the neutrality of Belgium.

The Prussian Note expressly stated that the Prussian government regarded such a declaration as superfluous in view of the existing treaties. The treaties of 1870 moreover, specifically recognized as of binding force Article VII of the treaty of 1839. The treaties provide that in the case of one belligerent respecting and the other violating the neutrality of Belgium, the United Kingdom will cooperate with the belligerent respecting neutrality against the other.

The third Article of the Treaties pro-

vides that it shall be binding on the contracting parties during the continuance of the war and for 12 months after; "and on the expiration of that time the independence and neutrality of Belgium will, so far as the high contracting parties are respectively concerned, continue to rest as heretofore on the Quintuple Treaty of 1839."

Germany's Obligation

The obligation thus rested on Germany no less than on England and France, to respect in accordance with the treaties which she had signed, the neutrality of Belgium. In reply to an inquiry addressed by the British, to the French and German governments on August 1st July, when the outbreak of hostilities appeared imminent, France gave an assurance that she would respect the neutrality of Belgium. Germany gave no such assurance, our ambassador gathering from what the secretary of state said, "that he thought any reply they might give could not but disclose a cer-

tain amount of their plan of campaign in the event of war ensuing." (No. 122).

On 8th August an ultimatum was addressed to Belgium by the German government, the effect of which was that Belgium would be treated as an enemy unless she assented to the violation of her territory by permitting the passage of German troops to France (No. 133).

This is the Belgian government, categorically refused as a flagrant violation of the Law of Nations—a view of the action of Germany which is supported by the speech of the Chancellor to the Reichstag on August 4; for, after speaking of "the just protest" of Belgium, he added: "The wrong—I speak openly—that we are committing we will endeavor to make good as soon as our military goal has been reached."

Untrue German Statement

German publications, official and unofficial, have, since the actual violation of the Law of Nations, stated that Belgium territory was only violated after the Belgians had agreed to allow the French to march through, and had thereby broken the neutrality. These statements are advanced without any attempt to support them by evidence; they are in contradiction to the substantial pleas put forward by Germany at the time, and they directly conflict with the pledge given by France to Sir E. Grey; they are wholly baseless and untrue.

It is right that at this point we should refer to "the strong bid for British neutrality" reported by the British Ambassador at Berlin as having been made to him by the Imperial Chancellor on July 29 (No. 85). In replying to it (Continued on following page).

says she likes the Victrola "because the children are so fond of it."

"I always play it for them evenings before bedtime, so now I never have any trouble in getting them home."

"Then the Victrola is such a splendid help to the children's education. Through it's teaching, they have become familiar with the best works of all the great composers, as interpreted by the best singers and musicians. One of their favorites is Dvorak's beautiful "Humoresque," played by Mischa Elman."

"Besides, I have a really selfish reason for liking it. Some of the ladies of my acquaintance used to delight in inviting me to teas and receptions where they played their fine Victor Records, but now that we have a Victrola, I can have just as good music as theirs."

SKIN TROUBLE ON THE SCALP

Skin Dried and Cracked and Hair Fell Out—Cured by Dr. Chase's Ointment.

Eczema is annoying and distressing at any time, but doubly so when it gets into the scalp and causes the hair to fall out. Here is a grateful letter from a lady who was cured by using Dr. Chase's Ointment.

Mrs. Hector Currie, Tobermory, Ont., writes: "I was cured of disagreeable skin disease of scalp by using Dr. Chase's Ointment. The trouble started with itching and pain in the scalp, the skin would get dry and crack, and at times would bleed, and the hair would fall out. I tried three doctors without benefit, and suffered for three years. Reading in the almanac about Dr. Chase's Ointment, I began its use, and am now completely cured. The hair has grown again, and I am as well as I ever was. You are at liberty to use this letter, for I am glad to recommend so excellent a treatment."

Dr. Chase's Ointment has no rival as a cure for itching skin disease.

CHRISTENDOM'S JUST WAR

(Continued from preceding page) The next day, Sir E. Grey wrote as follows: His Majesty's government cannot for moment entertain the Chancellor's proposal that they should bind themselves to neutrality on such terms. What asks us in effect to engage to stand while French colonies are taken and none is beaten, so long as Germany does not take French territory as distinct from the colonies. From the moral point of view such a proposal is repulsive; for France without territory in Europe being taken over, could be so crushed as to lose position as a Great Power, and become subordinate to German policy.

When we turn to the generalities which the document contains about Germany and policy and plans, we find in vain for any reference to the changing of such writers as Treitschke and Bernhardi. Does it mean that those who have led the German appeal regard those men and teachers as negligible, or that their own opposition to what those men say is so well known as to need no assertion? We tell, but the facts of the hour are above, correspond so clearly what is incalculable and driven home by our writings that we shall at least be impossible to separate the one from the other.

Again we cannot pass in silence the tenets of the manifesto that "unbearable horrors have been committed since Germans living peacefully abroad." We do not know to what the nations refer in this general statement but we may be permitted to ask of what is within our personal knowledge. Peaceful and well-disposed men in this country are being treated with all possible consideration and kindness, and the Home Secretary has them under his own protection. God knows what it means to us to be separated for a time by this great war from many with whom it will our privilege again to work for the betterment of the Christian message among men.

Although only eighteen years old, this youngster has shown the class and skill of a veteran. Those who have watched his game closely say that he is certain to make as great a player as his father. He is now most proficient at the 182 style of playing but is fast developing as an expert in other styles. He is certain to become a champion and is urged on by a determination to reach that pinnacle of fame which his father reached.

Philadelphia, Nov. 5.—Eddie Collins, star second baseman of the Athletics, is to be traded or sold outright to the New York American League Club, according to pretty authoritative information obtained at the local ball club headquarters, and Connie Mack practically substantiated the report by saying that the little surprise he sprung last Saturday with the announcement of having asked for waivers on Chief Bender, Eddie Plank and Jack Coombs was only the forerunner to another "thriller" for local fans.

Mack would not talk about the Collins matter. However, when asked

HAD INDIGESTION FOR OVER 10 YEARS. ALMOST DESPAIRED OF EVER GETTING WELL.

Indigestion is one of the worst forms of stomach trouble. The stomach becomes upset and you have a raw, debilitating feeling in it. After a meal you feel that you must get rid of that nasty, bilious, burning sensation. It is not necessary for you to be troubled with indigestion if you will only try that old and well-known remedy, Burdock Blood Bitters, which has combination of nature's best known roots, herbs and barks for the cure of all stomach and blood troubles.

I can strongly recommend B.B.B. to anyone suffering from indigestion and all its ailments. B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Charles Ellis, who represents Cleveland in the Interstate Three Cushion Billiard League, is making the whole lot of the Federal League. Mack knows that he will not be able to hold Collins and, should follow that he is, realizes the only way leading to financial gain on the proposition is to allow Eddie to go to some other club in the league that would be willing to pay enough for his services and his release.

Joe Page Helped. Through the efforts of Joe Page, the Northern League, which a few years ago had Winnipeg as its only Canadian representative, is gradually becoming a Canadian League and next season will consist of four Canadian clubs and two United States organizations.

Useless to Try. Needing some ribbon one day while in a very small southern town, we went to the one store there. The store-keeper, "Well, we all just mislaid our stock of ribbons, but if you'll come back later I'll see if I can find them." So back they went later. He had found them.

LOCAL WAR NOTES

A start was made this morning on the work of refitting the dairy portion of the exhibition buildings for the accommodation of the 28th Dragons on duty at the remount depot. Quarters for 100 men and three officers have to be arranged. The work is being done by Edward Bates. Thus far Lieut. Col. Masie, officer in charge of transports and supplies here, has been unable to announce who has been awarded the contract for refitting the armory for the accommodation of the 1,000 and more volunteers to be raised for the 28th New Brunswick battalions. The approval of the contracts has not yet been made in Halifax. When the papers have been ratified it is likely that quite a crew of men will be put to work in night and day squads providing the bunks and other quarters necessary for the comfortable housing of the regiment here, but even rushing at this rate the work will require at least five or six days.

Recruiting.

Until this task is completed not very much can be done in the way of receiving recruits. Advice to Lieut. Col. McAvity is to the effect that in the districts where officers have been appointed enlisting has taken an encouraging swing and already there are several squads of volunteers in readiness to be sent here for the final registration. The recruiting offices at the armory are open each day from 10 a. m. to 10 p. m. Lieut. Col. Armstrong has signed quite a number of recruits locally, and it is likely when the refitting work has been completed, that the volunteers will pour in more numerous.

Men Signed.

Thus far in St. John about seventy-five recruits have been signed, although the offices have been open but a few days. This includes the men of the permanent company of the 62nd regiment, numbering 55, who have been on duty as home guards since the departure of the first contingent. All are being given a stiff seasoning, and drilling is each day carried on actively. Route marches are one of the most customary features in the routine. Included in the "rookies" are several from the I. C. R. and in this connection they have been induced to volunteers is that the government employees have been offered the saving of their positions until their return.

BRIDES' RECEPTION DAYS

Mrs. J. A. MacKeigan (nee McAvity), received yesterday afternoon for the first time since her marriage, at her residence, 74 Mecklenburg street. The decorations were pink chrysanthemums and pink roses. The bride wore her wedding gown of white satin. Mrs. William Angus received with Mrs. MacKeigan, and Mrs. Alexander Binning presided. The vendors of the reception were: Mrs. William Lockhart, Mrs. Fred Crosby, Miss Catherine McAvity, Miss Helen Gertrude Jack, Gertrude Hannab, Mrs. MacKeigan received again this afternoon, assisted by her mother, Mrs. John McAvity, Mrs. Arthur Melrose and others who assisted were: Miss Eda Williams, Miss Ethel Shaw, Miss Hazel Campbell, Mrs. George Bilzard and Mrs. James Stone.

FREED ON SUSPENDED SENTENCE

Fred Riley was tried before Judge Forbes this morning under the Speedy Trials Act, and pleaded guilty to stealing seals from George Mackinnon. He was allowed out on suspended sentence. The case of Arthur Nee, arrested in the connection with the Mackinnon case, ago, and, the complainant being satisfied, His Honor decided to give Riley the same opportunity as he has given Nee. E. S. Ritchie appeared for a prisoner.

John McCarthy pleaded guilty to assaulting John C. Long, who was fined \$50, which was allowed to stand pending his future good conduct. I. Sweeney appeared for the defendant. C. H. Ferguson prosecuted in both cases.

Fred O'Dell, committed for trial on the charge of stealing a watch, will come before Judge Forbes on Monday morning under the Speedy Trials Act. The civil non-jury docket in the county court will also be taken up on Monday.

King's Bench Division.

The case of John A. Y. Smith against James E. Beyea was argued on appeal before Mr. Justice McKewen in chambers this morning. The defendant was fined \$1 by Magistrate Adams in Brookville on September 23 for having eight cattle running at large. The magistrate did not return the copy of the by-law and His Honor remitted the case to the justice for further trial giving instructions that the by-law should be proved. J. King Kelley, K.C., appeared for the complainant, and E. P. Raymond for the defendant.

GUTIERREZ THE CHOICE FOR MEXICAN PRESIDENT

Mexico City, Nov. 5.—General Obregon, a member of the commission appointed by the Aguas Calientes, peace convention to inform General Carranza of the election of General Sinaloa Gutierrez as provisional president was in conference with General Carranza all day yesterday in Puebla.

The other members of the commission, Generals Villares, Venavides, and Hay are now in this city.

The minister of war declared today that the situation was more hopeful than in the last few days.

A despatch from Aguas Calientes says that no official action will be taken by the conference until the commission reports the result of its interview with Carranza.

Fighting on the outskirts of the capital continues, but the military commander of the district today said that the Constitutionalists will act on the defensive, only checking any advance attempted by followers of Zapata.

MOVING DAY AS CAUSE LEADING TO DIVORCE

Kansas City, Mo., Nov. 6.—Moving day was depicted as one of the greatest foes of modern society, and one of the cardinal reasons for divorce and vice, by John B. Hammond, of Des Moines, Iowa, in an address before the International Purity Congress here today.

"The re-establishment of the American home," he said, "is the only remedy for the social evil, and the only hope of Democracy."

EIGHTEEN TRIED AND ALL FAILED

Several, However, Will be Able to Pass For Court Stenographer at Next Test, in January

Eighteen applicants took the recent examinations to qualify as court stenographers and of the eighteen none managed to pass the tests. The standard required is a fairly high one, it being necessary for the applicant to write at a speed of 150 words a minute and transcribe the notes accurately.

Half a dozen of those who tried made such a good showing that the examiners are satisfied that at least this number could qualify with a little additional practice and an opportunity will be given them to do so. All those who took the tests have been notified that a second examination will be held in January and have been advised to keep up their work and try again at that time.

The examination was for the office of stenographer for the Chancery Court but there are also other vacancies to which successful applicants might be appointed. The examiners were Hon. George J. Clarke, J. B. M. Baxter, K. C., and C. F. Sanford.

THE INCREASED C. M. B. A. RATES

Older Members Most Affected—One of the Local Branches Clear of Higher Charges

Much interest had been aroused among the members of the C. M. B. A. in the advance in rates made public this week. Some of the members who have been in the ranks for many years have been given a decided increase, in some instances more than double what they have been paying, but only those who have been members before November 1, 1907, are subject to the changes. Those holding certificates dated prior to November 1, 1907, will be subject after January 1, 1915, to the following table, arranged on the basis of a \$1,000 policy:

Age of member,	Monthly Premium
January 1, 1912	\$0.99

68	7.45
69	7.90
70 and over	7.90

Several of the local members are the holders of policies at \$1,500 and \$2,000, so that at this rate some of those more than seventy years of age will be required to pay over \$15 monthly or at least \$180 annually on their certificates. So far as local members of the association are concerned, those affected are only the ones enrolled in branches 188 and 184 before 1907. The North End branch, 42, having been instituted since that time, is not affected.

GOING TO JAMAICA

Mr. and Mrs. J. W. Cassidy Leaving For 18 Months Visit—A Presentation

J. W. Cassidy, secretary-treasurer of Hutchings Co., Ltd., and Mrs. Cassidy will leave next week for Jamaica on a visit of eighteen months to their son, Claire, who is the proprietor of a flourishing garage and auto supply business there.

In recognition of their departure and in appreciation of Mrs. Cassidy's activity in the church and other good works Mrs. Cassidy was the guest of honor at a gathering of the ladies of Brookville and Torryburn last evening at the residence of F. C. Colwell, Brookville. On behalf of those present W. B. Tennant presented to her a fine pearl and amethyst gold brooch and a handsome box of stationery, the presentation being accompanied by an address in which a fitting tribute was paid to the place she has occupied in the esteem of her friends. Mrs. Cassidy made an appropriate reply.

The balance of the evening was spent with music contributed chiefly by Miss Ada Colwell and Messrs. Harvey and Kenneth Colwell, a reading was given by Mrs. Hevenor and there were games in which Mrs. Messereau of Torryburn was the winner. Among the guests were Rev. Messrs. Pinkerton and Champion, the present and past Methodist ministers of the district.

BURIED TODAY

The funeral of Charles Miller was held this afternoon and was attended by many friends. Service at his late residence, 150 Adelaide street, to Cedar Hill. Services were conducted by Rev. J. J. McCaskill. Interment was in Fernhill. Many friends gathered for the occasion.

The funeral of Mrs. David W. Whelpley was held this afternoon from her late residence, 150 Adelaide street, to Cedar Hill. Services were conducted by Rev. B. H. Nobles.

THEIR BABY DEAD

The death of Doris Lillian Johnston, aged one year, daughter of Mr. and Mrs. Fred H. Johnston, of 28 Murray street, occurred early this morning. The parents have the sympathy of many friends.

Buy Canadian Made Goods and Keep the Wheels of Industry Revolving in Canada

"What we have we'll hold, What we have we'll make."

Let this be the slogan from one end of Canada to the other and there will be no question as to the ultimate result.

Present industries will largely increase their output and new industries will come into being, giving employment to the unemployed and bringing prosperity to our land such as has never been experienced.

In the purchase of our stocks, preference in every case will be given to "Made in Canada" goods.

Our clothing stock is largely of our own manufacture, some lines of which are being made in Saint John.

During the next few days we are making special window displays of "Made in Canada" goods that should be of interest to every citizen.
