JAPANESE AMBUSHED, THIRTY DIE

Rebels Almost Wipe Out Whole Company of Troops

CUT OFF THEIR HEADS

Trouble Likely to Develop Between Russia and China, Say Newspapers Brought by Steamer to Victoria Yesterday—Armies Organizing

(Canadian Press)

Victoria, B. C., June 8.—The steamer Kamakura Maru yesterday brought news of the annihilation of a Japanese force of 300 men on May 8 by the rebels against whom the Japanese have been campaigning for the last three years. It seems that three tribes which made peace were incited to fresh rebellion by two tribes which remained obedient. Fifty men of a force sent against the Formosa were ambushed and after fierce fighting but ten escaped. The dead were mutilated, their heads being carried off by the head hunters. Inspector Hancock who commanded the party was found with his head missing and a broken sword lying cut in his hand.

Siberian newspapers brought by the Kamakura Maru from the Orient state that trouble is likely to develop soon between Russia and China. The Novaya Jena, published at Harbin, commenting on the state of affairs in Manchuria says the Chinese government is evidently at present organizing two armies, one south of Harbin and another further east near the Chingan Mountains on the road from Datsihari to Blagovestchensk. The movements of the Chinese troops are conducted under the pretense of putting down the Hung Hutzes. There is great apprehension along the Russian frontiers that Russian arms are closing up. There is also said to be much unrest along the Mongolian frontier.

CLAN MACKENZIE

OUTING GREAT SUCCESS

The moon shone with added brilliance last night to grace the excursion of Clan Mackenzie. The good steamer Victoria carried 600 merry-makers across from the Indian wharf. Leaving her moorings at 8:30 o'clock she sped up the river toward Public Landing.

The company aboard under the supervision of J. McLeod and dancing directed by Mrs. McLeod, enjoyed the diversion as only the Highlanders do. The sword, Highland fling and other exhibition dances were played. The St. John Pipe Band furnished the music.

Turning at Public Landing the return trip proved more enjoyable than the upward journey. Refreshments, provided by the clan, were served to the company. In all it was thoroughly delightful and all were sorry when the landing was reached. It is the moon, I ken it's horn. That's blinking in the light sea. It shines sea bright to wide us home. But by my faith will'd a wee.

MILLIONAIRE HOTEL MAN SHOT BY ACTRESS AND GIRL COMPANION

Blackmail, Says Stokes; Self-Defence Say The Women

Proprietor of Ansonia in New York Likely to Recover From Effect of Two Bullet Wounds Received in Call at Apartment of Lillian Graham and Ethel Conrad

(Canadian Press)

New York, June 8.—W. E. D. Stokes, millionaire proprietor of the Hotel Ansonia and widely known as a horseman, was shot last night by two young women in their apartment. His condition was such this morning that his physicians say he will likely recover. The young women, Lillian Graham, an actress, and Ethel Conrad, an illustrator, formally charged with the shooting, were taken to police headquarters on the charge of kidnaping. Three Japanese servants in the apartment house on West 80th street where Stokes was shot, are held as witnesses. Miss Graham and Miss Conrad will be held to await the result of Stokes' injuries. Anti-toxin was administered to him today and a further examination will be made to ascertain whether or not the two bullets still remain in the millionaire's ankle and thigh. Mr. Stokes' attorney says that his client went to the girl's apartment on receiving a message from Miss Conrad to obtain some letters. Stokes denies that he had ever written any letters and when he reached the apartment his counsel saw the door was locked behind him and "Miss Graham immediately drew a revolver and pointed it at a pistol on a desk at one side, she said "give me \$25,000 and sign this agreement."

'PHONE EXPERTS DO NOT AGREE

Inquiry Again Occupies Commission All Morning and Will Be Continued This Afternoon—Counsel Furnish a Little Breeze

The Telephone expert was resumed this morning, and Arthur J. Seymour, chief engineer of the Tri-State Telephone Co., of Minneapolis, was put on the stand by Mr. Powell and consumed much of the forenoon session in giving evidence of estimates of the cost of the plant and equipment of the New Brunswick Telephone Co. There is a wide difference as between his estimate of the plant and that of Dr. Hayes, the former totalling it at something more than \$268,000 as compared with \$1,000,000 or more by Dr. Hayes.

The session was enlivened by a breeze between Mr. Powell and Mr. Baxter which resulted from the latter remarking that Mr. Powell was suggesting an answer to the witness. The first witness was Arthur J. Seymour, a native of New Brunswick, but now Chief Engineer of the Tri-State Telephone Co. of Minneapolis. He said his company operated thirty-six exchanges. He gave the number of telephones as follows: Minneapolis 21,600; St. Paul, 18,000; Duluth, 5,000; Superior, 1,800; Grand Forks, 2,500 and others. He had been engineer for six years, and superintendent of both aerial and underground work. The plant of St. John had been looked over casually, but he had not time to make minute examination.

Duluth, he thought, compared favorably with St. John. Many of the streets of Duluth were cut out of rock and consequently expensive for excavating. There was no part where the actual rock existed on the street surface, and poles were not all in rock. He placed in a new exchange in Duluth with 1,000 telephones. There were 11,000 old feet of underground lines. His company bought out another company and he made the valuation at which the property was bought.

Besides the city service, the subscribers had the use of the service at Superior. It cost more to install a system in a widely scattered district than in a compact district. In Duluth the system was party line.

Some Cross-Firing

Mr. Powell was about to ask the rate for service in Duluth when Mr. Barnhill objected. He said that he kept the same procedure as did Mr. Powell when he objected to Mr. Hall giving rates yesterday.

Commissioner Oty explained that the objection in the case of Mr. Hall was that the rate was one per cent above what was in force.

Mr. Powell: "Then you said \$30. Mr. Barnhill: "Thirty-six what, I had not heard the witness say anything about rates."

The Witness—"I think I did."

WINE RIOTS MAY START UP AGAIN

Champagne Troubles Once More Grow Serious In France

(Canadian Press)

Paris, June 8.—The champagne question, which led to serious riots in the departments of Marne and Aube last April, is likely to be revived, with all the usual disorders, as the result of a decree signed by President Fallieres yesterday. The decree raised the plan promulgated by the council of state for the solution of the problem as to which vines shall be designated champagne. According to the plan, the whole champagne region is divided into two zones, the first comprising Marne, to designate its wine, "champagne," the second, the department of Aube, styling its wine champagne from the second zone. This scheme, while only partially satisfactory to the people of Marne, has provoked violent opposition by the people of Aube. Delegates from all the vineyards of Aube, declaring the plan will be resisted to the end. The whole Aube district is seething with discontent, red flags are reappearing, but no serious disorders are reported so far. Large forces of troops hold all the roads leading to Paris. Yesterday, the storm centre, where the fury of the wine growers reached its height in the recent troubles. Explicit orders have been issued for the strict repression of any attempt at the destruction of property. President Fallieres' decree is likely to have a far-reaching political effect, as it brings up the whole question of delimitation. There is a strong current of opinion opposed to the decree, even from political considerations, because of the desire of the deputies from other regions to be included in the champagne zone. The delimitation act to avoid the complications, which so far have been the inevitable result of this measure, and it is understood that deputies will try to force a debate today with the object of securing the revision of the measure. The principle of delimitation, similar to the one in the senate which loosed the storm in Marne.

AVIATOR SPED AT RATE OF 155 MILES AN HOUR

Paris, June 8.—(Canadian Press)—L'Auto estimates that the aviator, who was the winner of the Paris to Madrid race, whose proper name is Jules Verne, attained the prodigious speed of 155 miles an hour on Tuesday, covering the 75 1/2 miles separating Dijon and St. Laurent Les Marseilles in thirty minutes. The paper quotes the aviator as saying that at times he was with the tail of his machine perpendicular. He also encountered wind pockets that caused his monoplane to make frightful drops some times descending 800 feet in a few seconds. Verne suffered only through the strain in his eyes.

GOVERNMENT IN WAR OVER VALLEY ROAD

Meeting in Fredericton a Lively One—Fleming's Latest Looked on as Backdown

(Special to Times) Fredericton, N. B., June 8.—The letter of Hon. J. K. Fleming, published in the St. John Standard this morning is regarded here as a complete backdown for the Haazen government on the Valley Road project. Although announcement was made that only routine business was transacted by the Haazen government here on Tuesday, the meeting was of an exceedingly lively nature. The Valley Railway project was the bone of contention and brought on a war of words which could hardly almost a block away. Those at the meeting were Messrs. Fleming, Landry, Maxwell and McLeod. The announcement that the dominion government is constructing a \$30,000 railway station here for the intercolonial, was well received here. It will be constructed on a lot at the rear of the present building, the lot adjoining, owned by John Boyd, will be expropriated. At a meeting of the city council last evening it was decided to arrange for a school children's parade on coronation day.

TURN TO EAST ST. JOHN FOR POSSIBLE INCINERATOR SITE

With a view to looking over the plant at East St. John at present used for preparing matter for fertilizing purposes, a committee representative of the board of health and common council will, this afternoon, visit that place and, after making an inspection of the plant, will report back with recommendations as to the possibility of utilizing the plant. Some people who have seen the plant are of the opinion that it could be used for the purpose desired, namely, the disposal of refuse, in reference to the protection of dependant and neglected children. He is willing to speak in St. John at some time on the subject, if requested. A report on the national council organization was read by Mrs. John V. E. In it she stated that Miss Riddell, secretary of the national council, and Mrs. MacNaughton will be in the maritime provinces in the autumn, and will visit St. John. Miss Peters read an interesting report on the playgrounds matter to be read at the national council meeting.

POLICE COURT TODAY

In the police court this morning, Henry Turner, Emma Lester and Walter Winslow were fined \$5 each for drunkenness. Edward Mullin was fined a fine amount for profanity, while Frank Allen, arrested for wandering about in Dock street last night, received the same. Walter Keefe was remanded on a charge of drunkenness. Margaret Sullivan is again behind the bars. She was arrested a few days ago for being drunk in Sheffield street. On this occasion she had only been out of jail one day, but the longing for free life and fresh air apparently did not appeal to her. The magistrate, however, allowed her to go on condition that she would go to the Boys' Industrial Home at Crouville and work. She went but after remaining one night at the home she left for Sheffield street, and again fell to the stalwart arms of a policeman. She was placed in jail on a commitment.

THE FIFTH BARONET

Sir Robert Peel, who in January of last year was gazetted in London as a baronet, for the fifth time, has issued a statement to the people of Timworth and of the district, in which he announces that he has "come to the irrevocable determination to sever my connection with Drayton Manor, and with my Drayton Manor estates and to part with them and the mansion house," and then goes on to express his profound grief at the severance of his relations with those to whom he had become so deeply attached since his accession to his title and estates. He also intimates that his action in the matter is due to the oppressive legislation of the present government. This is ridiculous. Sir Robert Peel, who portrayed himself in a biography as "A Bit of a Fool," (which was the title of the work) is giving his estates, sold by his trustees, to the man to whom he had become so deeply attached since his accession to his title and estates. Two weeks later he entertained Mr. Gladstone, who recorded in the visitor's

THE MARQUISE DE FONTENOY

A Great German Statesman, The Strongest Man in the Nation—The Downfall of Sir Robert Peel—His Good Bye to Drayton Manor. Germany's strongest statesman today, the only one, indeed, that in his breadth of view and his masterfulness compares in any degree with the first Prince Bismarck, is not in Berlin, or in Germany, but in Constantinople, where he has filled the role of German ambassador ever since 1871, dominating not only the Sublime Porte, but also the entire diplomatic corps. He is Baron Adolf Marschall von Bieberstein, and prior to being sent to Stamboul was minister of foreign affairs at Berlin, and before that, minister of state to the Grandduke of Baden. At one time he was on very friendly terms with the late Emperor and Empress Frederick, and after his death, was looked upon as one of the widowed empress' champions. In fact, he is generally supposed to have been summoned to Berlin to assume the secretaryship of state for foreign affairs by the Kaiser, at the instance of the latter's mother. A Pretty Row. The experiment at Berlin was not altogether successful. The baron and the emperor did not get along well together; each of them was too masterful. The baron represented the Kaiser's constant interference, and the Kaiser, on the other hand, objected to the baron's independence of speech and of action. This soon became known at the court of Berlin, and a court cabal was formed, organized largely by the unsavory Prince Eulenberg, who succeeded in securing the services of Major von Tausch, the official responsible for the police protection of the emperor and of the court, and the head of the secret service. Tausch became involved in very serious trouble, was brought to trial, and during the course of the latter, the intrigues of Eulenberg and of certain high court officials, also the activity of Tausch himself against the baron were brought to light. Eulenberg, who is a man of the same huge build as Bismarck, and quite as choleric, completely lost his temper, and insisted on resigning. Nothing would induce him to stay on as minister of foreign affairs. Subsequently he was placed by the appointment as ambassador at Constantinople where he is left almost entirely free hand, and from whence he virtually directs Germany's policy in that part of the world. It was expected that at the time of the overthrow of Abdul Hamid that his over-ambition in Constantinople would wane. But he has known how to accommodate himself to the new regime, and is now a very powerful man in Constantinople. He headed the German delegation at the last peace conference. He is not liked by the emperor, who cannot forget the bitter words that passed between them fifteen years ago, and even when the baron comes to Germany on leave of absence, or to consult with his government at Berlin, the emperor, who has loaded him with honours, avoids him in a rather pointed manner. The baron was originally chamberlain of the widowed Grandduchess of Baden, the only daughter of old Emperor William and his father occupied a similar position at the court of Carlruhe, where he was also chief justice of the grandduchy. Once More Baronet. TO HAVE A CLEAN VELVET CLONEXION

By MADAME D'VILLE. (From Chicago Inter-Ocean). Madame D'ville, one of Paris' most famous beauties just passing through Chicago, gives us a few valuable ideas on skin treatment as follows: "I have just come from beautiful Japan, where many of the Japanese women use a certain facial formula and ideas which American women should know. "What do they use to make their skin so soft and velvety? "Any American woman can use the same treatment if she desires. Dissolve one original package of mayonaise in the face, arms and neck with this solution once or twice a day, and you will shortly find you have a lovely, soft complexion, and then the best of it all is that this solution prevents the growth of hair and is absolutely harmless to the most delicate skin. Make the solution yourself. "Why, yes—of course I use it. Just see how beautifully soft my arms and face are, and not a hair. "No, you will never use powder again, and those stray hairs will soon be missing from your face."

Conservative Toronto News Shows Foolishness of the Tory Cry About Danger of Imperialism

The Toronto News (Conservative) says: "Over the earth and the skies" says the piece, "are filled with audacious contingencies, measureless means of surprise."

The Norman conquest altered the structure of society and the proprietorship of the land, but the kingdom continued strong. The dynastic system was in sequence, and gave us the Wars of the Roses, swept away whole sections of the higher classes, but the nation continued.

Then we had new changes of opinions and we began to talk of imperialism. There is current a phase of opinion some what mysteriously compounded of "Anglo-Saxonism" and "imperialism" in portions which no one has yet scientifically compounded for use.

A CHANGE OF BASE

The Valley Railway matter has taken another interesting turn. Acting Premier Fleming has receded from his former position and now announces in a letter to Hon. Dr. Pugsley, which the Standard publishes this morning, that he is prepared to accept intercolonial operation of the line if the federal government will make some further concessions with regard to grades.

As an evidence of what imperialism based upon reciprocal tariffs would mean, one has only to note the attitude of the Unionist party in Great Britain to the proposed Canadian tariff arrangement with the United States. Beginning with Mr. Balfour who described it as "imperial disaster," down to Lord Selborne, who is so effectively answered by Mr. Fielding, there has been a strong tendency among the rank and file of the Conservatives to criticize in a way that could only mean a demand in the British parliament that the reciprocity agreement be voted if that party were in power.

TAKES ON LAND

The town of New Westminster, B. C., has decided to exempt buildings and all improvements, and levy taxes on land values only. The question was decided by a plebiscite, which gave a large majority in favor of the change. The Ottawa Journal, which is a strong advocate of exempting buildings and improvements either wholly or in part, declares that such a system would encourage the home-builder rather than the land-shark.

CHURCHES AND TAXES

The Tax Reform League of Ontario has issued a letter to the churches dealing with the question of church-exemption from taxation. The secretary of the league, Mr. A. B. Farmer, has sent a copy of this

letter to the ministers of 3,500 churches in eastern Canada, asking them to bring the matter before their churches for consideration. The letter in question sets forth the arguments in favor of church exemption and those against it, the strongest of the latter being, in the case of cities, that the greatest benefit is received by wealthy churches, while down-town missions are forced to pay rent for small quarters, and the high price of land and the poverty of the people in urban districts make self-supporting churches there almost impossible.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—in a cured every day.

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 31 one-cent stamps to cover cost of mailing only; or, in cloth binding for 50 stamps.

Andover Meeting Condemns Hazen Government Valley Railway Scheme and Endorses Federal Government Plan

A meeting held at Andover last night, called by Senator Baird, who has always been a Conservative, condemned the Hazen government's Valley Railway scheme, and endorsed that of the federal government, calling for intercolonial operation of a line from St. John to Grand Falls, connecting with the Grand Trunk Pacific. The speakers were Senator Baird, Pius Michael, M. P., J. F. Tweeddale, M. P., J. L. White and T. J. Carter. It was declared that the federal government proposition was the only one for the benefit of the province, financial standpoint. The meeting, however, was in favor of making the grade the same as that on the I. C. R., and a resolution to this effect was carried, along with Senator Baird's motion favoring I. C. R. operation. Messrs. Baird, White, William Perry, Tweeddale and Burgess were appointed a committee to interview the provincial government, urging the acceptance of the federal government plan.
