

## COX OFFERS IRISH CASE TO LEAGUE

Democratic Nominee for President Pledges Himself to Intervene in Situation.

## WILL PERFORM HIS DUTY VERY QUICKLY

Any Question Disturbing Peace of Nations to Come Before League He Says.

Monte, Mont., Sept. 9.—A definite pledge to "present the Irish cause" to the League of Nations in event of his election, was made here tonight by Governor Cox of Ohio, in closing his Montana campaign.

"It would be my duty," said the Democratic nominee, "and very quickly availed of, as a friend of peace, associating the friendly right of any member of the league, to present the Irish cause to the attention of the league under the authority given by Article 11, and give to Ireland, or any other aggrieved people, the opportunity to plead their cause before the bar of civilized opinion."

The Irish question, Governor Cox said, needs settlement to promote peace between the English-speaking races. Reading Article 11 of the league covenant providing for consideration by any international conference of any international matter which threatens to disturb either the peace or the good understanding between nations, the governor said that under existing conditions, the Irish question could not be presented "to the bar of public opinion."

## MOTHER OF QUEBEC TWINS MAY ESCAPE DEATH ON GALLOWES

Remillard, Who is Also Under Death Sentence, May Appeal Conviction.

Quebec, Sept. 9.—The case of Madame Dagnon, sentenced to be hanged at Quebec on October 1, is now under consideration by the officials of the Department of Justice. It is expected to be before the cabinet council next week. Since being sentenced, Madame Dagnon has given birth to twins. She was found guilty of the murder of her two children on whose body no less than fifty-four wounds are reported to have been found.

## GREEK TROOPS REPLACE BRITISH

Five Transports Arrive at Ismid—Turk Leader Would Hang Kemal.

Constantinople, Sept. 9.—Five transports of Greek troops have landed at Ismid, on the Gulf of Ismid, 55 miles south west of Constantinople and are replacing the British forces there, according to advices received today. A detachment of soldiers today called on Damad Ferid Pasha, the Grand Vizier, and begged that he come to an agreement with the Nationalists before the Greeks had an excuse for occupying Constantinople. It is said the Grand Vizier wishes to hang Mustafa Kemal Pasha, the Nationalist leader, and therefore his attitude prevents an amicable agreement with the Nationalists.

London Press Claims Much of the Trouble is Due to Trades Unions.

London, Sept. 9.—A conference of the Mayors of London and the heads of other administrative bodies was held in the Mansion House yesterday to consider the employment of ex-service men. It was addressed by Dr. MacNamara on behalf of the government. He denied that the government was not employing as many ex-service men as possible.

## INVESTIGATING FRAUD CHARGES IN ONTARIO

Claimed That False Returns Have Deprived Government of \$20,000 in Stumpage.

Toronto, Sept. 9.—Fraudulent returns were sent to the Ontario government by scalars of the Port Evans Lumber Company in 1919, and one camp in the Keweenaw Lumber Company of Ontario overlooking timber cut that should have brought about \$20,000 dues to the government, according to evidence given before Justice Riddell and Chief Justice McRae in the case this afternoon by Samuel Price, chairman of the Workmen's Compensation Board. Mr. Price stated that in 1919 he was appointed by Hon. Frank Cochrane, a commissioner to investigate supposed irregularities in connection with the sending in of alleged false returns to the government, and those were two things he had discovered.

Arthur Meighen, in Sir Henry's constituency, Kingston, Ont., the following statement has been issued regarding the financial situation in Canada: "Owing to the financial conditions arising out of the war and the change in Canada, in recent months, from a favorable trade balance to a large trade deficit, the Minister of Finance has requested the Canadian banks to decline to facilitate the importation of carrying of Canadian and other securities which have been held abroad."

## RECALLS MESSINA TRAGEDY

The scenes in this earth-shaken town recalled those of the Messina disaster more strongly than any other earthquake disaster since. One row of buildings was observed apparently intact. None of the outer walls had fallen, and in the windows curtains could be seen waving in the wind. A look within, however, revealed the roofs gone and the floors fallen in, even the game having disappeared. Nothing was left inside but a mass of rubble. The earthquake occurred on Tuesday, Sept. 8, at 1:50 p.m. Just such a curious happening was the feature of the Messina disaster, when the facade of a row of splendid houses was left intact, while everything inside was destroyed.

TO CONFER ON WORLD FINANCE

League of Nations' Secret Plans International Meeting Sept. 24.

PRESIDING OFFICER WILL BE Delegates from Each to be Statesman, Finance and An Economist.

By CARL W. ACKERMAN (Copyright, 1920, by Public Ledger, London, Sept. 9.—Although governments have been in agreement on the amount of reparations Germany should pay under the terms of the Versailles treaty, the League of Nations secretariat is today developing its plan for the first financial conference in Brussels, Sept. 24.

Believing that economic reconstruction of the world is an essential United States aim, it is to the world, regardless of membership in the league, Europe is very desirous that America be represented.

This conference which was scheduled to take place in July and was postponed because of the failure of the armistice conference at Spa to agree on the amount of reparations, will be held in Brussels, Belgium, on Sept. 24.

Invited to send delegates. For the first time since the outbreak of the war in 1914 the four great powers will participate in an international conference, and terms with other states pressing full rights in speaking and the only nations not invited are Russia, which has no recognized agent and Turkey, which was not invited because of its failure to permit French opinion as exact amount of reparations to itself, a decision was made by the council of the league in San Francisco conference, could not be permitted to further delay, it is a vast amount of work, but it is a question which demands international consideration.

Must Fix Reparation Sum. It is very interesting to note that French officials of the league, M. Bourgeois and M. Monnet, almost induced M. Millerand to a specific sum. To that end, French public had been told that the conference would not be held unless this question was first disposed of.

Views of the governments, best economic and financial opinion of the world. It is urged that an equal delegation of three members be chosen from each of the four great powers.

Any decision arrived at their own recommendations to the governments and will have no legal force whatever. It has been said that this conference of its power, but this is not true. The decision may be made in the meetings will have an effect on all governmental action even though no nation is yet to give its delegates to an international body final power of commitment.

Swiss Republic, has been chosen as the host country. When he was in his selection, he expressed surprise, for he said he made no plan of knowing anything about the answer was that he had been asked because, first, he was a francophile, and second, as a member of the league, he was a neutral country he was obliged to do so.

EXPECTS MORE PAPER READY NEXT YEAR. London, Sept. 9.—Lord Riddell, noted newspaper owner, said today that the paper in the United States, in considering the possibility of the North American market, had the world's output would be substantially increased next year, it would be impossible to say if the output would meet the steady increasing demands.

### TO CONFERENCE ON WORLD FINANCES

League of Nations' Secretariat Plans International Meeting Sept. 24.

### PRESIDING OFFICER WILL BE SWISS

Delegates from Each Nation to be Statesman, Financier and An Economist.

By CARL W. ACKERMAN. (Copyright, 1920, by Public Ledger.) London, Sept. 9.—Although allied governments have been unable to agree on the amount of reparations Germany should pay under the terms of the Versailles treaty, the League of Nations secretariat is today rapidly developing its plan for the international financial conference in Brussels, beginning Sept. 24.

Believing that economic reconstruction of the world is an essential to the United States as it is to the rest of the world, regardless of membership in the league, Europe is very desirous that America be represented at this conference which was to have taken place in July and was postponed because of the failure of the Allies and the Germans to agree on the amount of reparations to be a true world gathering. Not only the United States, which has not ratified the treaty, and Finland, Luxembourg, Estonia, Latvia and Lithuania, who are not members of the league but far more important still Germany, Austria, Hungary and Bulgaria have all been invited to send delegates.

### Russia Not Invited.

For the first time since the outbreak of the war in 1914 the four leading enemy powers will participate in an international conference, and on equal terms with other states present, having full rights in speaking and voting. The only nations not invited are Russia, which has no recognized government and Turkey, which was still at war when the invitations were issued. Although the date of the conference was changed from July to September to permit French opinion as to the exact amount of reparations to be itself, a decision was made by the council of the league at San Sebastian to permit no further delays, as there is a vast amount of work outside this main question which demands international consideration.

### Must Fix Reparation Sum.

It is very interesting to note the French officials of the league, namely, M. Bourgeois and M. Meunier, had almost induced M. Millerand to agree to a specific sum. To that end the French public had been told that the Brussels conference could not function successfully unless this major question was first disposed of.

Just when everything seemed favorable to a solution of this problem, which dates back to the first days of the Peace Conference, pressure came upon M. Millerand from other French quarters. It was pointed out that a great concession had been made to the Germans on the question of coal, and it was hardly desirable for France to put all her cards on the table at the same time, but to give opportunity to see how the coal agreements were carried out before any further concessions were made along the lines of the fixation of a definite total.

The conference has been purposely constituted to draw forth, not the views of the governments, but the best economic and financial opinion of the world. It is urged that each national delegation of three members be comprised of one high government official, one leading financier and one recognized economist. In arranging plans for carrying on the business the question arose, should each national group be given a single vote, as in the assembly of the league, or should each member be permitted to vote according to his own judgment? Decision was finally made to allow voting by individuals. This, it is thought, will lead to the registration of best expert world opinion regardless of nationality. The main purpose is to get the freest and most sincere decisions, and no nation is in any sense bound by the statements of its representatives.

### No Power of Commitment.

Any decision arrived at there will be only recommendations to the various governments and will have no binding force whatever. It has been stated that this robs the conference of most of its power, but this is not necessarily true. The decisions that may be reached in the meetings will have a decided effect on all governmental policies, even though no nation is yet willing to give its delegates to an international body any final power of commitment.

Gustave Ador, ex-president of the Swiss Republic, has been chosen presiding officer. When he was informed of his selection he expressed great surprise, for he said he made no pretense of knowing anything about economics. The answer was that he had been picked because, first, he was not a financier, and would therefore be unprejudiced, and, second, as a man who had risen to the presidency of Switzerland, and thus holding highest post of a neutral country he was obviously a man well trained for the role of speaker, and certain to give all parties a hearing. Data and information concerning the subjects to come under consideration have been collected and embodied in fourteen pamphlets which are now being circulated to all the governments and financial experts.

### EXPECTS MORE PAPER READY NEXT YEAR

London, Sept. 9.—Lord Riddell, the noted newspaper owner, said yesterday that the paper and pulp companies of Canada, in considering the possibility of the North American forests, and the world's output would be substantially increased next year, but it would be impossible to say if the output would meet the steadily increasing demands.

### LORD BEAVERBROOK HERE NEXT MONDAY

England Wants No More War of Any Kind He Declares Now.

Lord Beaverbrook may be in St. John on Monday on his way to the United States for a brief visit. "England is a pacifist country," he says. "No one wants any more war. The country is determined to live at peace. That is the spirit of the people. Lloyd George knows this better than anyone else."

"However," said Lord Beaverbrook, "he had to face a difficult situation in Poland." Against the British premier's advice Poland had invaded Russia, and then when defeat came Poland appealed to the Allied powers for assistance. France was willing to help; Britain was unwilling, because she did not want any more war of any kind.

The Case of Poland. Lord Beaverbrook says Lloyd George advised acceptance of the Russian terms to Poland. France on the other hand, refused to deal with the Russian representatives, recognized the Wranigle government in the Crimea, and advised Poland to reject the Russian terms. Poland followed the advice of France.

Then, said His Lordship, Labor stepped into the field. Their leaders formed a Council of Action and insisted, by an ultimatum, in the midst of delicate diplomatic negotiations, upon an immediate declaration of refusal to assist Poland under any consideration.

Premier at Disadvantage. "Labor was in a position to state its policy. Mr. Lloyd George was not in a position to state his. He had to consider his Allies in Europe. Consequently, Labor, for the time being, reaped all the benefit of the fervor of the British people for peace."

"With the Council of Action in existence, and with the issue for which it had been formed out of the way, nothing was so certain as the use of the Labor party's new-found policy in other directions."

There had been a coal dispute for a long time. It culminated in claims of the miners asking an increase in wages of two shillings and a reduction in the controlled price of coal to the consumer of fourteen shillings a ton.

Government Will Win. Lord Beaverbrook said the nation encountered a similar situation in the railway strike of last year. The strikers were beaten, though a bridge was found for them over which to retreat.

"It is just as certain the miners will be beaten, though a bridge may be found for them also."

### CANADIAN NATIONAL RAILWAYS HAS A PICTURESQUE EXHIBIT

Vivid Portrayal of Beauties of Canadian Rockies—Wireless Telephone Demonstration Will Be Another Great Attraction to Visitors to the Railway Building.

The Canadian National Grand Trunk Railways have this year combined to make one of the most striking displays in the history of the Canadian National Exhibition. The exhibit, which occupies two of the three main sections of the railway building, gives a new vision of the extent and resources of the Dominion.

One of the sections is devoted to a vivid portrayal of the beauties of the Canadian Rockies at the point where the peaks reach their greatest heights. The grandeur of the Yellowstone Pass and its surrounding peaks is shown on a scale commensurate with the magnitude of the great mountain chain. The visitor stands under the shadow of a giant cedar, the branches of which arch over the whole of the ceiling. At his feet are the Malgait Falls and the turbulent silver stream of the Malgait River, threading its way among the foothills. In the background is a panorama 100 feet in length, of the magnificent mountains in Jasper National Park and Mount Robson Park, the two great scenic reserves through which the Canadian National and the Grand Trunk Pacific Railways make their way to the Pacific Coast. Mount Edith Cavell, the beautiful peak named by the Dominion government in memory of the martyr nurse, is in the centre of the panorama, and is supported by Mounts Gekkie, Fitzwilliam, Pyramid, Roche de Smet and Roche Miette, with the massive Mount Robson, the monarch of the Canadian Rockies, looming up in the distance.

The atmosphere of Canada's mountain world has been retained in a wonderful way, and it is difficult for the observer to realize that he is not viewing the scene from some favorable vantage point in the Rocky Mountains. This system of lighting has been arranged to give, in various periods of the day, the effects seen among the mountains at sunrise, noonday and evening.

In the second section of the exhibit the working of the Canadian government marine is featured in connection with the great network of railway lines that is now known as the Canadian National system. Adding a graphic touch to this display the ships of Canada's merchant marine are seen flashing actual wireless messages, and these are picked up in turn by no fewer than 45 wireless operators on the Canadian Marine on the chain of waterways from Cape Race to the Pacific Ocean. In order to make this possible the Marconi

Company has installed an aerial system above the railway building to receive messages from all points, these being handled by an operator housed in an exact replica of a steamship's wireless cabin. Simultaneously the messages are spelled out in Morse by a wonderful system of miniature lamps spread over a graphic map of the Dominion of Canada. In addition to the wireless telegraph apparatus there is kept working the new system of wireless telephony. Expert engineers are on hand to explain in full the working of the various forms of apparatus.

The Canadian government department of marine is also lending its assistance in making the Canadian National exhibit complete, and is showing a remarkable series of aids to navigation, including large revolving lighthouses, lanterns and beacon lights, for horns, etc.

Emphasis is also placed in the exhibit on the opportunities awaiting the settler along the lines of the Canadian National Railways, the whole display being excellently planned and carried out on a high scale of excellence.

Ramsgate, Eng., Sept. 9.—Henry Sullivan, of Lowell, Mass., who last night started from Dover in an attempt to swim the English Channel and was six miles off Cape Grimes, France, at seven o'clock this morning, abandoned his attempt at 1:15 o'clock this afternoon. He was then within two miles of the French coast.

There is nothing THE GIFT OF THRIFT you can give your children, in a material way, which will do them more lifelong good than a savings account in an institution like the Bank of Montreal. By encouraging them to save, you teach them the habit of thrift and provide a foundation for their future.

A savings account may be opened with \$1.00. Interest is paid at the highest current rates. "It is just as certain the miners will be beaten, though a bridge may be found for them also."

**BANK OF MONTREAL** Established over 100 years. Total Assets in Excess of \$500,000,000. Head Office: MONTREAL. Branches in all Important Centres in Canada—Savings Departments at all Branches.

**AutoStrop SAFETY RAZOR** EXPERIENCE shows that only a sharp blade can give a perfect shave, also that a blade cannot remain sharp without stropping. Couple these facts with the further fact that the AutoStrop Razor is the only safety razor that sharpens itself, and you will be in no doubt as to which safety razor to use.

Any dealer will demonstrate the AutoStrop Razor to you, guarantee satisfaction or refund of purchase price. Only \$5.00—complete with strop and twelve blades in an attractive assortment of cases to suit any purpose. AutoStrop Safety Razor Co., Limited AutoStrop Building, Toronto, Canada

### ZIONISTS ARE SEEKING MEN FROM THE U. S.

Good Progress Made in Restoring Holy Land—Power from the Jordan—Arabs Content.

(Copyright, 1920, by Public Ledger Company.)

Paris, Sept. 9.—Morris Margulies, a member of the national executive committee of the American Zionist organization sailed today on the Lapland. He gave the Public Ledger details of work accomplished in the Holy Land since it was restored to the Jews by action of the Peace Conference at San Remo last spring. He said:

"American Jews have taken the lead in sending supplies and money, but Great Britain up to now has furnished the majority of officials and workers. Most of the money must come from America, but we also must send men, especially experts, if we wish to reconstruct along modern lines, and not merely to transplant Polish or Russian ghettos.

To Harness Jordan.

"American engineers already are considering the harnessing of the River Jordan which, when accomplished, will supply light and heat for the entire land. Until that is done, industry cannot thrive, for there is no coal, petrol or wood. The country was entirely deforested by the Turks. Also, in the last few months, the American engineer, Mr. Cantor, of Rochester, has begun a complete sewerage system for the city of Jerusalem, where such never existed before.

"In the matter of hygiene, America has taken the lead. The American Zionist Medical Union has already in operation four complete hospitals in Jerusalem, Safed, Joppa and Tiberias; also a nurses' training school, which is the only institution in the world, where all training is done in the Hebrew tongue; and also two orphanages.

"The Arabs are gradually becoming accustomed to Jewish occupation. They have never done anything to develop the country. Therefore, they have nothing, and so cannot say the Jews have taken anything away from them. The Jewish system of paying a daily wage also strikes them as more desirable than the old method of their tribal chieftains, in giving them a percentage of the produce.

"Turk Misrule Apparent. "Evidences of Turkish misrule are apparent everywhere. So far as the Jews are concerned, the Turks even refused building permits, except for 'stables'—synagogues were registered at Constantinople as 'stables.' Most of the Arab outbreaks nowadays are against each other, rather than against the Jews, and I am sure that in our efforts to reclaim the country, that in fifty years there will be no greater evidences of centuries of Arab occupation than of the Indians in America today.

### RUM RUNNER SHOT BUT MADE ESCAPE

Windsor, Ont., Sept. 9.—At least one rum-runner was wounded in a gun fight which took place on the Detroit River opposite Sandwich, West, when license inspectors endeavored to stop a boat in which three rum-runners were carrying a supply of liquor to the American side. Orders to stop were disregarded by the smugglers, and when the officers commenced to carry out their threat to fire, the trio of rum-runners showed no hesitation in replying in like manner at close range, maintaining their position until one of their number was hit. They then made a quick run to the American side. Owing to the possession of a high-speed boat, the men escaped.

The man who outrages had luck in the worst kind of a bore.

### RECOMMEND AN INTERNATIONAL COAL BUREAU

Miners' Federation Favor This Means of Distributing World's Supply to Nations.

(Copyright, 1920, by Public Ledger.) F. W. WILE.

Washington, Sept. 9.—The 25th international congress of the International Miners' Federation has requested the International Labor office of the League of Nations to undertake to find the best method of establishing an international coal office for the purpose of securing a more equitable distribution of coal throughout the world, according to a statement given out by the international labor office.

Mr. Albert Thomas, director general of the international labor office, who was present at the session during which the creation of an international coal bureau was decided upon, made it clear that the distribution of coal in accordance with the needs of various nations would in no way modify or alter existing agreements arrived at by the treaty of peace or of the Spa conference and that such a task could only be carried out in co-operation with other branches of the League of Nations. He stated, however, that subject to these reservations he was ready to respond to the appeal made by the miners' congress and agreed to bring the matter before the governing body of the international labor office at its meeting on October 6th.

It is thought that such an international coal bureau will eliminate much of the present loss and waste involved by defective organization of distribution and transport of coal throughout the world. This request coming from the first congress to be held by the international miners' federation since the war, is interpreted by officials as indicating the confidence of labor in the international labor organization.

### HOLLAND MAKES BIG LOAN TO GERMANY

In Return Germans Agree to Supply 90,000 Tons of Coal Each Month.

(Copyright, 1920, by Cross-Atlantic.)

Berlin, Sept. 9.—The draft of a bill sanctioning a loan to be granted by Holland to Germany has been before the Reichstag. It provides for a loan of 200 million florins at 6 per cent, repayable after ten years. Sixty millions are to be applied towards the purchase of food, the remaining 140 millions to pay for raw material which may be bought in any country. This 140 millions credit is to be perpetually renewed by Holland. In consideration of these facilities Germany agrees to send a monthly minimum of 90,000 tons of coal, briquettes or coke to Holland, such supply to be sent for four years and to be paid for at the international market price.

### BRYAN A "DRY," NOT DEMOCRAT ANY MORE

(Public Ledger Service.) Washington, Sept. 9.—William Jennings Bryan virtually has abandoned the Democratic party. He announced today that he would devote his efforts in the fall campaign to a non-partisan effort to ensure the election of a dry Congress. He refused to discuss Democratic politics. He would not say what part, if any, he would take in the fight to make Governor M. Cox the next President of the United States. This is the first time since 1896 that the Commoner has declined to inject himself with all of his energy into the campaign in behalf of the party that three times made him its standard-bearer. It bears out his statement made at San Francisco following the nomination that that his "heart is in the grave."

# The Miracle Man Said: "Let There Be Business"

## And Behold, Record-Breaking Business Came

How they poured into this store—a seething mass of economy seekers. Some came with the "Show me" spirit—they were shown, some came with rapacious appetites for bargains, they bought bounteously, some came out of curiosity to see what marvels a Miracle Man can work—they remained to praise and to profit.

At times the buying overwhelmed us—swept beyond our control but not beyond our resources—reserve forces of salesmen were rushed into action and everyone was served, and satisfied with the greatest apparel money savers that ever hit town. Fine merchandise absolutely below wholesale replacement value today.

And still this carnival of economy goes on—this festival of future values, this banquet of bargains. There will be no halting or relaxation, no retrenchment from the extraordinary value-giving until stock clearance is accomplished. Your chance beckons you, economy urges you not to evade it. Get your share.

But buy these suits for less than we'll pay for equally good values at wholesale for fall!

The beautiful clear warm weather yesterday brought the crowds out to the mammoth exhibition and the total paid admissions for the day were 16,242. The attendance as given in the press for Wednesday as being 6,432 was a mistake and the total number of paid attendees for that date was 13,390. The total attendance for the first five days of this year's exhibition totals 60,470, in comparison with 45,200 for that many days in 1914, or an increase of 15,270 to date with the prospects of another record breaker today, as well as a big attendance on the closing day.

There is no person on the grounds more pleased than Manager Charles Robinson who with Secretary H. A. Porter have worked hard to make the 1920 show a success and the smooth manner in which all of their arrangements are being carried through, the compliments being received, and the large attendance is proof that their work has proved successful.

The attendance for the first five days of the 1910 exhibition was 57,513, being about 1,000 less than this year, so the success of the big show is assured already.

### Webb Electric Company.

An attractive booth at the exhibition which has been the source of much favorable comment and drawn the attention of many visitors to the big fair, is that of the Webb Electric Co. This company has arranged their splendid exhibit of electric fixtures, of both the direct and semi-direct systems of lighting in such a manner as to best set off their other exhibits, which include the well known Hot Point electric irons, and toasters, the Westinghouse Heaters, Branston Generator and Vibrator, and many other high grade electrical appliances. An interesting example of the amount of air displaced by the Premier Vacuum Cleaner is given with the aid of colored streamers.

### The Orphans Today.

All the orphans in the city will attend the big fair this afternoon. The Exhibition Association has extended a standing welcome to all the orphans in the city to bring the little ones to the fair grounds this afternoon where they will be admitted free and conducted on a tour of all the big attractions. Today will be the children's day, and although many adults have undoubtedly enjoyed their visit to the fair, it will remain with the children and especially the orphans to attain to the supreme degree of happiness.

### The Stock Classes

Yorkshires turned out to be the most heavily contested classes in the swine judging yesterday. The main Yorkshire honors went to Fowler Bros. of Welsford, N. B., with Gordon McKenzie of Welsford, N. B., also showing up well.

Most of the Berkshire prizes went to J. R. Semple and Son of Truro with E. Shaw of Fredericton taking the remainder. The Poland China awards all went to R. H. Libbey and Son of Stantard, Que., and the Chester White all to Jarvis Leaman of Hoyt Station, N. B. In the Boys' Pig Club entries, Gordon McKenzie of Welsford took all the first awards. The cup for the champion boar of the show went to J. R. Semple and Sons and the cup for swine judging went to Semple of the same concern.

### The Horses

In the judging of the horses the Aged Percheron Class award was won by D. P. Clayton of Fredericton, Indican, with W. E. Wallace of Penobscot's entry, Montgomery Ward, taking second prize. In the Standard Bred Class the four-cornered contest was won by Exposer owned by H. C. Jewett of Fredericton with Belyea of St. John's Native Worthy second and Colorado El. from P. E. I. third. The Clydesdale honors went to H. C. Jewett, Fredericton, for Dr. McCoy. The butter making contest which

extended over two days was won by Mrs. Isabel McFate of Upper Golden Grove, N. B.

### Talk to Parents

Mrs. Gertrude Haabrouk of New York will deliver a lecture in the Red Cross Hall on the exhibition grounds this afternoon. Her talk will be to parents on "The Mysteries of Adolescence."

### Red Cross Visitors

Out of town workers at the Red Cross Booth at the exhibition yesterday were Miss Maxwell, Miss N. Hagerman, Miss Ada M. Schleyer, Mrs. Wm. Richards and Mrs. H. W. Estabrooks, all of Fredericton.

### Passengers in Aeroplane

The aeroplane made several flights over the city yesterday and incidentally several citizens made their "seeing" flights, and enjoyed a bird's eye view of the city and surrounding country. Bates Tapley of the Exhibition Staff made a flight in the machine in the morning, and Lieutenant Barnhill who was in charge in the afternoon, had as a passenger Mrs. H. A. Porter, wife of the secretary of the Exhibition Association. After circling the city the aeroplane returned to its hangar and took Miss Lingley, of Lingley Station, who also enjoyed the modern method of seeing St. John.

All the passengers were fully equipped with the proper thing for flying in the hall, an aviator's helmet and a fur coat. They were all delighted with the sensation of flying and expressed a willingness to "take off" at the next possible opportunity.

### N. B. Telephone Company

Without a doubt there have been more out of town visitors at the exhibition this year than at any previous exhibition.

The exhibit that has been the most patronized by the visitors is that of the N. B. Telephone Co. There are many reasons for this. The booth is at the same time a rest station, where one can relax after a tiring sight-seeing trip through the grounds and a public service station linking up the Provincial Exhibition with every town and village in the province. If the out-of-town visitor wants to speak with the folks at home and tell the what a good time he or she is having and will not be home till Saturday, all that is necessary is to tell the expert operator on duty who is wanted and is no time the service is rendered.

The booth, which is a very large and handsome decorated in white and gold and relieving colors of green, is directly to the left of the main entrance. One of the special features is the display of equipment used by the Company in this city and throughout the province, showing business, residence and farmers' line sets. Experts from the head office are in constant attendance to explain the operation of these lines and also to give detailed information regarding the changes that have gone into effect under the re-classification rates. Fred J. Necht is in charge of the exhibit and he is assisted by a staff of experts from the operating and mechanical staffs.

## Millinery Opening Today At The M. R. A. Stores

Visitors from all over the city and many strangers in town were in attendance at the autumn millinery opening at the M. R. A. store yesterday.

The event was one of great interest to fashion loving women, and the hat styles for autumn and winter proved to be more fascinating than ever—originality and cleverness of design being evident in all the different varieties of fashionable headwear.

An oriental note could be noticed in many of the modes of the moment, these introduced the influence of the Chinese, Japanese and Egyptian, of course, cleverly adapted to the style ideas of our own women.

Of the face hats, betrons in smart variations and others of unusual shape fashioned of duvety, Lyons velvet, haters plush and felt were seen in such charming new shades as chow brown, cameo pink, copper and lemon yellow. Everywhere feathers were in evidence, many of these bunched in iridescent effects. Metallic brocade, touches of hand embroidery, ribbons, and fancy ornaments are among the new and favored trimming ideas.

Choice of color, shape and fabric allows a broad selection for the fall season and for charm and distinctive style, the hats shown at the opening appealed alike to all.

This opening will be continued on Friday and Saturday, and any who have not yet had the opportunity to see these captivating styles may do so on these days.

### Ludgate-Colpitta.

Special to The Standard.  
Moncton, N. B., Sept. 8.—A pretty wedding was solemnized at the resi-

dence of Mr. and Mrs. R. C. Colpitta today at high noon, when their second daughter, Miss Marjorie, was united in marriage with Leon P. Ludgate, son of Mr. and Mrs. Edwin Ludgate, of Woodstock, N. B. The ceremony was performed by Rev. Hammond Johnston, pastor of the Wesley Memorial Methodist church, in the presence of a number of guests. The bride was attired in a travelling suit of navy blue with hat to match, and was attended by her cousin, Miss Marion Wood, of Edmonton, Alberta.

Among the out-of-town guests were Mrs. Ludgate, mother of the groom; Mr. and Mrs. Lloyd E. Wood, Edmonton; Mr. and Mrs. Fred Ripley, Halifax; Mr. and Mrs. W. F. Holmes, Amherst; Miss Muriel Colpitta, Brandon; Mr. and Mrs. R. W. Heine, St. John. Following a delightful luncheon at the home of the bride, the happy couple left on a motor trip through New Brunswick and the State of Maine. They will reside at Woodstock, N. B.

## BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

Bolsheviks Are Suspicious of

By VIGGO TOEPFER.  
(Copyright, 1920, by Cross-Antic.)  
Berlin, Sept. 9.—The Russian count Alexander Stepanovich Bolevitch, an intimate friend of the late Leo Tolstoy and a strong believer in a constitutional monarchy as the only salvation for Russia, has arrived here after meeting with countless adventures since he succeeded in making his escape from the Bolsheviks who plundered his estates nearly two years ago. During this time he has worn many disguises and mingled with all classes of the Russian population who, he declares, are thoroughly tired of Leninism and sighing for the appearance of a strong national leader to liberate them from the tyranny of Trotsky.

Recalls French Revolution.  
"In a great many respects," the Count said to me at his hotel here today, "conditions in Russia at the present moment bear a strong resemblance to those in France at the time of the Great Revolution, and the war against Poland has emphasized the similarity."

"The small Jewish clique at Moscow now ruling the country has found it an easy task to terrorize the Russian bourgeoisie through their gang of hired Chinese and Jewish henchmen and assassins, but these forces would scarcely have been sufficient for a real war. Then, fortunately for them, came the war with Poland, which gave the impulse to a strong patriotic movement similar to that which enabled the ragged, barefooted troops of the French Revolution to defeat the seasoned soldiers of the other European states."

Officers Not Bolsheviks.  
"M. Radok, the finest journalistic pen of Soviet Russia, quite frankly admits that the majority of the officers who at the present moment are leading the red armies from victory to victory have absolutely no inclination toward Bolshevism. They are simply young patriotic men of the same age as the French revolutionary generals who later on became the marshals of the first French Empire. Old General Brusiloff is nothing more than a figurehead who follows the initiative of his general staff as Hindenburg followed that of his chief of staff. The entire work of organizing behind the front is in the hands of the highly gifted Kameneff, whose real name is Rosenfeld, and who is the Carnot of Soviet Russia."

"Because the army in Russia stands on a different political foundation from that of the central government, the latter is always suspicious of its army officers. The Soviet government has its commissioners who follow each of the generals and are their superior in rank. With his usual oriental craftiness, Lenin has, besides, been careful enough to get all the nearest relatives of the officers in his power. If any of these should think of a coup d'etat or counter-revolutionary plot, he knows that his wife and children would pay for his crime by being slowly tortured to death by Lenin's Bolshevik executioners."

Lenin in Fear.  
"Well, nothing is more certain than that Lenin's greatest and constant fear is that a Russian Napoleon may arise. This is the reason he would grant anything that is the reason for the order of General Wrangel. A student of Russian history is bound to arise as surely as all patriotic Russians see that Lenin and Trotsky may end as did Robespierre and Danton before them."

COMPLETES WRECK PROBE  
Quebec, Sept. 9.—Dominion Wreck Commissioner Demers, who with two assessors, has been presiding over an investigation into the cause of the stranding of the White Island of the American steamer Pascoona, took the matter on dobers yesterday.

NEW SHIP BEACHED  
Boston, Mass.—The new shipping board steamer Dowd was beached on the East Boston flats today in a sinking condition, after striking on the ledge of the Graves Light at the entrance to the harbor, last night. The hull was said to be badly damaged. She came here light from Dublin.

### TRANSPORT OF ARMS TO BE PROHIBITED

Germany Moves to Check Illicit Traffic in Arms and Munitions Which is Prevalent.

(Copyright, 1920, by Public Ledger Company.)  
Berlin, Sept. 9.—The illicit disposal of arms and munitions, apparently for sale abroad contrary to provisions of the peace treaty, has assumed large proportions since the passage of the disarmament law, according to an official statement of Commissioner Peter, appointed by the government to enforce the pledges made at Spa for the confiscation of all arms in the possession of the population and for surrender to the extent for destruction. This attempt to evade the requirements set both at Spa and Versailles has occasioned special measures to deal with the problem along the lines adopted in the United States to enforce prohibition, namely, by absolute prohibition against transportation of anything except property authorized shipments of weapons and military material by any means of transport whatever. Movement by railroad, steamship, post, automobile, wagon or aeroplane will be alike illegal and punishable with heavy penalties.

The only exceptions are the shipments of condemned military materials under the Versailles treaty, supplies for the Entente garrisons in the plebeian areas and movements of arms or armed bodies belonging to the German army or police, all whereof must be covered by open orders. The railroad authorities will call for the assistance of the workmen, all of whom can be counted upon to report illicit shipments to enforce the regulation. The chairman of the district unions sits upon the commission to supervise the execution.

The Nationalist parties fought against that provision, declaring its recognition of "outside government." A representative of the German People's party, even threatened that his party would withdraw from the cabinet unless workmen were forbidden to interfere with the transportation of munitions, but the regulation went through the Reichstag committee unchanged.

### BABE RUTH HITS 47TH HOME RUN

Cleveland, Ohio, Sept. 9.—Babe Ruth knocked his forty-seventh home run of the season in the first game of the New York-Cleveland series here today. His drive came in the third inning. There was no one on bases.

### October Races On Chatham Track

One of the directors of the Chatham Speedway, which holds many Canadian records, was in the city yesterday. He said that there was a possibility of a race meeting being held in the North Shore town in early October, probably after the Charlotte-tion exhibition races. It had been the original intention to hold a meet during Labor Day, but this had to be cancelled. The weather is always glorious in Chatham during the month of October, and the racing, if it materializes, should meet with favor from horsemen.

### Another Royal Commission?

There should be a law standardizing the perfumes used by ladies who write in street cars. Nowadays so many different kinds of essences attack the olfactory organs of a mere man in a car that he is in danger of being gassed and so weakened that he can hardly retain hold of the strap to which he is hanging.

## Peter Manning Wins Feature Event

### The Champion 4-Year Old Easily Outclasses Field in \$10,000 Classic at Hartford

Hartford, Conn., Sept. 9.—Peter Manning, champion four year old trotter, this afternoon won the classic event of the Grand Circuit meeting here. His victory was an easy one, the son of Aroostook having outclassed the field and coming home on the stretch with a lead of nearly two lengths in each of the two heats won. It was Murphy's third win of the meeting and the third consecutive year that he has won the Charter Oak stake.

### Where Credit is Due

The success of the show reflects great credit on Judge Hopton, W. C. McKay, secretary of the club; E. J. Wallace, superintendent of the club, and the members generally. St. Stephen does well to the fore in the smooth fox-terriers division. Belium Velocity was best of breed, while Belium Mystic was winner of both. These dogs are owned by Percy S. Clark.

## NEW BRUNSWICK KENNEL CLUB BENCH SHOW CLOSED

### Charles G. Hopton of New York City Finished Judging Last Evening—Irish Setter Owned by Mrs. E. J. Wallace, St. John, Best Dog in Show—Presentation of Prizes.

Sonora Rhoads Jess, an Irish setter, has the signal honor of being the best dog in the 1920 show of N. B. Kennel Club. She is owned by Mrs. E. J. Wallace, wife of the superintendent of the show. The decision was made last evening at the conclusion of the judging by Judge Charles G. Hopton, of New York City. Britannia's Pride, an English setter, owned by James Latimer, was reserve.

It is a great compliment to St. John sporting dog fanciers to have two dogs of the best in the show. What on the bench was the 2 1/2 pace with pace and winning the 2 1/2 pace with the 2 1/2 pace, a member of the Pittman stable. The free-for-all for 3 year old trotting colts was unfinished at the end of the third heat. Worthy Chief, Jane the Great, and Star Betty each winning a heat. This race will be finished tomorrow. Get-Away Day.

The 2 1/2 pace brought out the closest finishes of the afternoon when the two trotters from the Murphy stables successfully keeping the favorite, Bina Early, from winning the event.

## Horses Entering From The States

### Those Entered in Races Will Not be Held up Over Veterinary Inspections.

Fredricton, N. B., Sept. 9.—Horses entering the Maritime Provinces from the New England states for the harness races during the next few weeks will find the barrier of red tape over veterinary inspections, which held up some of the stables in July swept aside.

When several strings were held up at Aroostook Junction in July, on Park Association, took the matter up with Hon. Arthur Meighen, and instructions were then issued to the inspectors in New Brunswick that the entry of the race horses was to be facilitated as much as possible.

This week a letter has come from Premier Meighen, enclosing a memorandum from Dr. Torrance, veterinary director-general, in which he writes that instructions have already been sent out with regard to admitting horses coming in for the fall fairs and races.

## Bill Sharon Shows Class At Presque Isle

### New Brunswick Horses Make Racing Interesting in the Potato Country.

Presque Isle, Me., Sept. 9.—Weather cleared up today and, after hours of strenuous work and the use of every available appliance on hand to dry the track, the races were started over a fairly good course, which improved with every heat raced over it, and, as shown by the time of the heats, was in good shape before racing was concluded.

In the 2 1/2 trot and pace after Rob Waller had finished first and second in the first two heats, the judges substituted Garrison for Taylor behind the horse, and he finished 2 1/2 in the next two heats.

In the 2 1/2 trot, Peter Prodigal, after winning two heats, was given a great handle through the stretch by Togo M., who was out finishing him, but within three lengths of the wire made a break. Peter Prodigal almost at the same time left his feet, both horses finishing on the run. Judges awarded the heat and race to Peter Prodigal who finished first.

The 2 3/4 pace was won in straight heats by Northern Mack, driven by John Walker. Two heats of the 2 3/4 trot and pace were raced and won by the Canadian trotter, Bill Sharon, driven by the veteran Nova Scotia driver, Peter Carroll.

Harry Nevers, of Houlton, won the only heat of the 2 1/2 trot and pace raced with Lee Ervin's pacer, Peter Setzer.

## Trying To Bring Dibble Or Kelly

### Aquatic Championships for Maritime Provinces Held Here Saturday Week.

The aquatic championships for the Maritime Provinces, under sanction of the A. A. U. of Canada, will be held by the athletic association of the St. John Commercial Club on the Courtenay Bay course, Saturday, the 18th inst., at 3 p. m.

The programme will include: Single senior, Four-oared junior, Four-oared junior, Single junior, Boys' single, open to boys under 16 years of age.

(The entries close on the 16th inst. with Frank White.)  
This announcement will be received gladly by the large number who enjoy boat racing, one of the clearest sports known. As in the case of the local aquatic club, it needs an earnest list in condition, the list of entries should be large.

It is hoped that some of the Halifax clubs will send crews or single scullers to take part in the races, as this would make the programme all the more interesting.

The prizes will be the regulation gold medals, and the committee will do all in its power to make this event one of the best ever. An effort will be made to have Bob Dibble, the champion amateur single sculler, to enter in the seniors, and in event of the New England States, will be communicated with. To have either Dibble or Kelly, the champion of the New England States, will be a great honor to the local man at his best.

Herbert MacDonald Tells of Incident When British Polo Team Was Hissed.

Toronto, Sept. 9.—Among the advances made by returned Canadian Olympic athletes, ten of whom arrived here yesterday, was Herbert MacDonald, the veteran cyclist. In an interview here, he spoke of the booting and hissing, and disrespect shown the British polo team when the British polo team won from the native team.

"It was not only evidence of ill-feeling between the Belgians and the British," said Mr. MacDonald. "They, like England and Canada and the United States, and all the rest of their Allies in the war, but they are poor losers in sport and hissed and booed and howled every time a decision went against their men. We are not used to that stuff, and so it seems worse than it really is. Outside of the stadium the people treated us great."

MAYOR OF MONTREAL FAVORS MacSWINEY

Montreal, Sept. 9.—Mayor Martin sent the following cablegram to Premier Lloyd George yesterday: "In my own name, and on behalf of the population of the metropolis of Canada, I hereby beg to pray you, as head of the British government, to be lenient towards Lord Mayor MacSwiney, at present incarcerated in Brixton jail for a political crime, and release him before he dies of hunger. I am convinced the population of the whole Dominion, without any distinction as to race or creed, is anxious that he should be liberated at once."

TO TOUR NOVA SCOTIA INTERESTS OF W. V. A.

Ottawa, Sept. 9.—C. G. McNeill, Dominion secretary-treasurer of the G. W. V. A. left last night for a tour of Nova Scotia. Primarily, his trip is to attend the Nova Scotia provincial convention which takes place at Digby on September 21 and 22. At the request of the Nova Scotia provincial secretary, Mr. McNeill will also make a speaking tour of the province to tell the Nova Scotia returned men of the accomplishments, aims and objects of the G. W. V. A. and its future outlook.

THOUSANDS ARE WASTED

HON. R. W. WIGMORE Minister of Customs and Inland Revenue.

At a time such as this when Canada requires every possible cent of revenue to meet war-time obligations, when companies, firms and individuals are taxed to the limit, and when our only salvation is national economy, it is little less than criminal for W. L. Mackenzie King, nominal leader of the Liberal Party, to insist upon a political contest in this constituency.

Let Mr. King have his answer in the form of such a vote for Hon. R. W. Wigmore as will express the feelings of this constituency toward those who are responsible for this annoyance and expense.

"Well, what do you think of the situation?" "Biggest mess I ever saw. Rotten politics and rotten policy." Such was the greeting between two prominent members of the Liberal party, that was overheard by a passerby on King street yesterday morning. One of the speakers is a signatory to the nomination of Hon. Mr. Wigmore, the other's name is not on either nomination paper. But their conversation is typical of the opinion held generally among the electors of this constituency, regarding the bringing forward of Dr. Emery to oppose Mr. Wigmore. Now that the fight is on, people are asking themselves what Dr. Emery is going to do for the city and port if by any chance he should capture the seat. And what troubles them is that they are unable to find the answer, at least not a satisfactory answer. What the city wants in Parliament is a representative who can do something for it.

## NEW YORK SOLD STOCKS VALUED AT \$8,850,000 IN DAY

### United Fruit Made a Gain of 13 1/2 Points in Big Trading There.

New York, Sept. 9.—The investment situation was a factor of paramount importance in the stock market today, taking precedence over easier money conditions and the more promising crop outlook.

Announcement of the successful offering of the new French loan, which was over-subscribed before the opening of the books, was accepted by the financial community as an indication that investors are eager to participate in attractive underwritings.

The only noteworthy drawback was again furnished by foreign exchange, which continued for the most part, to move against European markets. Speculative selling of British and Italian bills was attributed to the tense industrial conditions prevailing in those countries.

Out-of-town banks contributed to the enlarged supply of money on call, most of which was offered at seven per cent, but relaxed to six per cent later. Short term loans in moderate sums were negotiated at 8 1/2 per cent for prime collateral.

Shipping and Oils Lead

Shipments, oils, dividend-paying rails and chemicals led the day's higher range of prices, maximum quotations being registered in the final half hour. United Fruit made a gain of 13 1/2 points on rumors of a forthcoming cash or stock dividend and American International, which is said to have large holdings of United Fruit, rose almost five points.

## MEAT PRICES DOWN THIS WEEK HERE

### Pork and Lamb Decline Two Cents Per Pound—Pears Drop Too.

Wholesale groceries were very steady this week, the only change from last week's prices being furnished by cornmeal, which advanced ten cents a bag.

Meats weakened, and both pork and spring lamb dropped two cents. In wholesale fruits, bananas advanced a cent a pound, and California pears dropped fifty cents a box. Prices on fish remained the same, but they are reported very scarce, and stocks limited.

Green hides sold at eleven cents flat, and salt hides at from eleven to thirteen cents, a drop of a cent per pound. Butter and eggs commanded high prices in the city market. Good butter sold as high as seventy cents a pound, and fresh eggs at seventy-five cents per dozen.

The pickling season was heralded into the green grocery market with full lines of all the housewife's needs. Several new vegetables also made their appearance, some of them being pumpkins, pumpkins and sweet potatoes. Raspberries were displaced by rock and high-bush cranberries.

## BROMPTON GAINS TWO POINTS; ALL PAPER STOCKS UP

### Traction Group Stronger With Toronto Rails 4 1/2 Higher at 48 3/4.

Montreal, Sept. 9.—Trading in listed stocks on the stock exchange here today showed considerable strength in the paper group. With the exception of a 1 1/2 point decline in Howard Smith preferred, most of them showed advances at the close. Brompton was heavily traded in and rose two points to 75 and held the gain. Spanish River common netted 1 1/2 points and the preferred three points at 118 1/2 and 128 respectively. Abitibi moved to a new high at 81. Riorion was up a point at 20, and Wraygammack again made a substantial rise, of which the greater part was retained at the close. At 143 1/2 the stock made a new high record and closed at 141, showing a gain of 30 1/2.

The traction group was stronger. Toronto Railway selling up 3 1/2 points to 48 3/4, and Quebec Railway being up 3 1/2 at 90 1/2. The textile group was not prominent. Converters sold at 1 1/2 points higher at 74. The steels were irregular, with Dominion up a fraction and Ontario off a point, and Canadian off a fraction.

Stronger stocks elsewhere took in Asbestos, up a point each for the common and preferred, the former to 90, and the latter to 100, both new highs. Weak stocks were Lake of the Woods, down 1 1/2 points at 168 from the previous last board sale. Total sales listed, 11,170; bonds, \$42,800.

MINERS' THREAT A MEANS TO THAT END

Local Councils of Action Organizing Food Transport in Event of its Coming.

By MARY HENKE, (Copyright, 1920, by Public Ledger.)

Postville, Vt., Sept. 9.—An organization for transporting food and other supplies to workers in the event of a national strike is now being organized by the trade union members in south Wales. Local councils of action, the offspring of the national council of action recently formed by the miners and the labor party for the avowed purpose of preventing work with strikes, are discussing the movement.

CANADA SHOULD SERVE HER FARMS BETTER TO GROW

Such is the Opinion of Viscount Burnham After Touring Dominion.

Toronto, Sept. 9.—Canada should give better facilities for the establishment on the farm of people from the Old Country, in the opinion of Viscount Burnham, who told a big audience of Ontario people today during a visit to the Toronto exhibition that the special facilities afforded by the Canadian authorities for the land settlement of ex-service Canadians should be extended to a wider circle of immigrants from overseas. If there is not a broader encouragement given to intending farmers in Canada, the bulk of British immigrants will inevitably make for the larger centers of population in Canada, rather than for the farming communities, and the new immigration will be dammed up in such cities as Winnipeg, defeating the purpose of the Canadian authorities.

SERIOUS PARLEY PLANNED BY REDS

Appointment of Joffe to Head Soviet Delegates at Riga

Soviet Delegates at Riga Soviet New Basis.

Berlin, Sept. 9.—The will of the Soviet Government to conduct peace negotiations at Riga on a more serious basis than the abortive parleys at Minsk is indicated by the commission of the new delegation which is announced it is sending to Riga. Adolf Joffe, who supplants the stars of the third Russian magnitude that were representing Russia at Minsk, is a leading Bolshevik light, second only in importance to Lenin, Trotsky, Zinoviev and a few others. He was chairman of the Bolshevik delegation at the Brest-Litovsk negotiations with the Germans in 1918 until he was replaced by Trotsky himself.

HOUSE SHORTAGE HINDERS CUPID

London, Sept. 9.—Marriage in London is being seriously interfered with by the housing famine. Despite a big drive for the sale of housing bonds, the proceeds of which are being used in the erection of buildings to relieve the living congestion, shortage of homes is increasing. Hundreds of couples are unable to marry because they can find no place to live; and after marriages the bride finds it necessary to live with her people while the husband returns to his parents' home. In the two homes they share rooms with sisters and brothers respectively, but there is no spare room in either home in which they could live. As a result many are following the example of Fanny Hurst, the American novelist, who has confessed to occasional breakfast with her husband, but seldom sees him daily.

DIAMONDS MAY GO UP FIFTY PER CENT.

London, Sept. 9.—The price of diamonds and of diamond rings will probably be increased fifty per cent. in the next six months, said A. Mayer of Brooklyn, a leader of the American delegation at the conference of the Universal Alliance of Diamond Workers of the World. "This is due to two things, first, that the diamond mine owners of South America intend to close their mines until the demand is greater than the supply; and second, the demand formulated in the convention here for a 44 hour week for the diamond workers of the world, with a determination for an international strike if the demands are not granted."

TENDER GUMS A WARNING

Beware of gum tenderness that warns of Fyrrhea. Four out of five people over forty have Fyrrhea—many under forty also. Loosening teeth indicate Fyrrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—injecting the joints or tonsils—or causing other troubles. Forhan's positively prevents Fyrrhea. It is used in time and used consistently. As it hardens the gums the teeth become firmer. Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean. If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. "65 and 66" tubes in Canada and U.S. If your dentist cannot supply you, send price to direct and we will mail tube postpaid.

HE CAN DO TWICE THE WORK NOW, SAYS SCOTT

Everything He Eats Agrees With Him Since He Began Taking Tanlac and Everybody Tells Him How Well He Looks.

"I can do twice as much work now as I could before I took Tanlac, and I tell the world it's the greatest medicine ever made," was the emphatic statement of Arthur Scott, a well known longshoreman living at Randolph, N. B., two and a half miles from St. John. "For two years before taking Tanlac I suffered almost continually from the worst kind of stomach trouble. After every meal I had a feeling like a weight of lead in the pit of my stomach and a tightness across my chest that made it hard for me to get my breath. If I ate anything sour, especially, it would keep me gasping miserably for days afterward. "It was an effort for me to get through with my work, and when the day was over I just felt completely played out. I would wake up in the morning feeling tired and worn out and unfit for anything. In fact I felt bad, downhearted and discouraged all the time. "But just a few bottles of Tanlac have relieved me of all these troubles. My stomach never bothers me a particle now, and everything I eat seems to agree with me perfectly. I never have a touch of indigestion. Everybody tells me I look better and I certainly feel a lot better. I get up in the mornings feeling fine, ready for a good breakfast and a good day's work. I am now doing the hardest kind of work and it doesn't give me a bit of trouble. After what Tanlac has done for me, I am ready to give it a good word any day."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro using the personal direction of a special Tanlac representative.—Adv.

Religious Competition. Dr. Lyman P. Powell gives some examples of the lengths to which petty bitterness between sects will sometimes carry men. "A visitor in a certain town which had four churches and inadequately supported none asked 'How's your church getting?' 'Not very well,' was the reply, 'but, thank the Lord, the others are not doing any better.'"—The Christian Register (Boston).

## Mrs. Hasbrouck On Child Welfare

Interesting Address at Luncheon Given by the Public Health Department of N.B.

That a nation which neglects its children is building on sand, was one of the arresting statements made by Mrs. Gertrude Hasbrouck of New York, president of the National Child Welfare Association, speaking yesterday at a luncheon given by the Public Health Department of New Brunswick. Hon. Dr. W. P. Roberts acted as host, and a table beautifully decorated with golden glow, and daisies was set in the executive dining-room at the institution.

## Young Woman of France Has Changed

Once So Conventional and Carefully Guarded She Now is Independent, Athletic and Modern But More Charming

Frenchwomen of the smaller shop-keeping class at all events, have for many years been their husbands' best and most successful business partners and not infrequently their most successful competitors. But the independent young business woman in the American sense is something not so familiar to French life. The war seems to have brought her into existence or hurried her on the scene if it did not actually create her. A writer in the London Daily Mail, evidently well used to French ways before the war, finds the changed conditions pleasant and interesting, as the following shows:

"A girl's clear, pleasant, yet businesslike, voice gives the reply in a phone number. I heard the reply in a French restaurant. Then little Miss France resumed:

"That you, did? I just rang up to say that I shall be in tonight until fairly late. Elese, Antoinette and I are going to a dancing show. We shall dine at our usual Bouliant's and come home on the Metro together. So long, dear."

"And the speaker, aged 19, speaking in these jolly, independent, affectionate, self-reliant tones from the Banque Industrielle de la Madeline (for whose French manager she is capable private secretary at \$30 a month) to a distinguished barrister father, is that outstanding figure of the modern young French girl.

"I imagine what once she was! How well I recall her in the proper, prim, spindle-legged gilt saloon of Paris before the war. Demure, elegant, guarded by drooping of dull propriety, there she sat, and with downcast eyes blushed when a young man spoke to her, and when there was no young man she read Prosper Merimee on heavy volumes from the leading lights of the Sorbonne.

"Never did she go out alone. Her mind was hung around with white dimity curtains. All that was genuine and strong and emotional in her was kept from her. A matinee at the Comedie Francaise and a visit to the Louvre (tho she became tired to death of the chilly majesty of the Venus of Milo) were all she saw of life.

"And today she rings up her father and announces that she is off for a frolic on her own."

"She is infinitely the better for it. All her simpering affectations and useless ignorances and suspicions have vanished. The job came along and in really technical and responsible work girls had to replace men because the men were fighting.

"And the girls took up the task without a moment's question. Everywhere they have been astonishingly successful, for the brain of the French woman is both cool and shrewd. They have French young girls made good, and I have known those who handled abstract problems of exchange and bills of lading with a certainty and quickness of decision which compelled admiration.

"Still, being young, she loves life. Dancing is her craze and dress is still her delight. She reads romantically, but her taste is clear and healthy, and she tells me that the modern decadent French novels are hateful to her. She plays tennis at every opportunity. She has no affectations but much knowledge. Her head is clear, yet she has delightful enthusiasms, and she retains the passionate affection for her family which in one sense is the cardinal strength of France.

"And her mother? The beautiful, serene, adaptability of motherhood has quietly shed all the narrow conventions in face of the new needs. Little Miss France has a delighted mother, all grace and humor, and perfectly dressed. I rang her up on the telephone.

"How, I asked, my little friend Miss France getting on in her new job?"

## H. M. S. Constance Comes To St. John

Will Reach Port Tomorrow from Halifax and Will Remain All Next Week.

St. John is to have another visit from one of His Majesty's "dogs of war," and her citizens will have the opportunity of extending their hospitality to the "lady in Navy Blue." Lieut-Governor Pugsley yesterday afternoon notified Mayor Schofield that he had just received a message that H. M. S. Constance would arrive at St. John on Saturday and would remain in harbor for the greater part of the following week. The ship is commanded by Capt. Kennedy, and is at present in Halifax.

## Power of the Press

Hon. Dr. Roberts in introducing Mrs. Hasbrouck, spoke of the power of the press to aid in the battle being waged against disease. He told of the place Mrs. Hasbrouck has won for herself in the hearts of those who have been privileged to hear her, and asked for continued help in supporting all movements for the improvement of Public Health and child welfare.

Mrs. Hasbrouck began her interesting address by telling of the neglect of health matters by the nations in former years, and how the well-being of man is being more thought of than his mere value as a worker. She commended New Brunswick on possessing several splendid measures, such as vital statistics, thorough medical inspection in the school and a school nurse.

Reduced Death Rate  
The reduced death rate from tubercular disease was referred to and several statements made regarding the black plague and its dangers. Mrs. Hasbrouck touched upon the relation of bad housing conditions to disease. It is not always the number of children who survive that we should estimate, she stated, but number which are fit to live. She pointed out the need for primary care so that mothers and children may be saved.

What is needed are nurses, clinics, hospitals, pre-school clinics, and the prevention and cure of mal-nourished children. A bill to pass in the United States last year, but it is hoped that this year it may become law. England's excellent system of pre-natal care, her mother's benefits and other health reforms were dwelt upon.

Conditions in Russia  
In Russia one in every four children died according to recent statistics. In New Zealand one in every twenty. The Germans by their destruction of child life in an enemy's country, showed the world what a high value they placed on the children as the hope of the future.

The awfulness of Child Labor was pointed out, and an appeal made to journalists to use their great influence to spread abroad the necessity of caring and helping children to reach their highest development as citizens.

Mrs. Hasbrouck, who heartily applauded at the close of her address, which had been most comprehensive, covering a number of subjects. Dr. Roberts then called upon Rev. R. J. Colpitts and George Bidlake to express the thanks of the guests present to the eloquent speaker. Mr. Colpitts referred to the fact that all health reform means the spending of money and said that he thought the best to be done by the people to see that these reforms are really necessary. Mr. Bidlake seconded the vote of thanks, saying that all would agree with the speaker in placing child welfare among the most important matters to be considered.

## LAUGHED HIMSELF TO DEATH IN HOSPITAL

Camden, N. J., Sept. 9.—A laugh caused the death of Mrs. Imogene Meyer, seventy years old, today in the Cooper Hospital. The exertion was too great for her weak heart. She was suffering from a broken hip. The family of Mrs. Meyer, knowing her condition and the danger of laughter, was always cautious not to excite any merriment in her presence, but something a caller said today started the patient laughing. She apparently realized her own danger, but that failed to stop her.

## MIXED MARRIAGE IS QUASHED BY COURT

Montreal, Sept. 9.—Mr. Justice Brown rendered judgment in the superior court this morning maintaining the action taken by Marie Louise Haines to annul her marriage with John Edward Thomas. The parties, both Roman Catholics, the plaintiff alleged, were married by a Protestant minister in St. Stephen's church, Lachine. Both parties to the suit are American citizens. Plaintiff pleaded that, according to the law of Quebec, the marriage of Catholics before a Protestant minister was null and void. Furthermore, the alleged respondent had abandoned her.

William Gardner, both, was a visitor to the city yesterday.

Mr. and Mrs. George Hasbrouck, of Fredericton, are visiting in the city.

## REFLECTIONS OF BACHELOR GIRL

By HELEN HOWLAND

The tightest thing on earth is the lock on a millionaire's cellar door; the looziest thing is the cork in a poor man's last bottle.

A woman can endure a man's cruel deception; but telling her the cruel truth is hitting her below the vanity-belt.

Nothing makes a girl so hopeful—or a married woman so cynical—as to watch a moving picture actor make love in the thrilling way, in which every woman fondly dreams of being "loved."

Before marriage, when a woman speaks to a man in an undertone, he calls it "cooing"—after marriage, "ragging."

The percentage of "love" that makes the world go 'round appears to have decreased in proportion to the percentage of alcohol in the things that used to start it going that way.

A woman will forgive a man anything on earth, except for failing to admire her, when she wants him to; a man will forgive a woman anything on earth except for insisting on admiring him, when he doesn't want her to.

Maybe dollars won't buy happiness, but after all, they are the only thing that will buy a new fur coat and a hat with a paradise feather—and that is about as near to happiness as any woman needs or expects to get in this world.

The average woman's idea of "reforming" a man, seems to be to make life so dull for him, that he loses his last drop of interest in it.

A lot of people appear to live in this country just in order to have the right to abuse it and call it names and a lot of people appear to keep on living with each of her for the same reason.

## FREED FROM WIFE WHO USED TUB FOR HUBBY'S TABLE

New York, Sept. 9.—When his wife made him eat from a tub, while the "star boarder" ate from the table, George Lynch, of Brooklyn, decided to get another wife, with more widely consideration. He carried out his intention, and in due course faced the court on a charge of bigamy.

The court, also married, heard Lynch's tale with sympathy, and let him go on condition that he support wife No. 1 and his mother.

No man is so stupid or so great that he is not afraid of somebody, and in this case out of ten that somebody is a woman.

No Doubt About It.  
"Whom would you consider the best Irish leader, De Valera or Parnell?" was a question put to an Ulsterman. "My vote would go to Parnell," was the reply. "He's dead."

### NEW MOVES IN JAP AND U. S. NEGOTIATIONS

Viscount Kentaro Kaneko to Visit United States on Unofficial Mission.

### RESIGNATION OF HARA MINISTRY LIKELY

Both These Events Expected to Have an Effect on Discussion Going on.

(Copyright, 1920, by Public Ledger, Inc., N. Y., U. S. A.)

Washington, Sept. 9.—Two moves made recently in Japanese quarters were looked upon in Washington today as likely to have an effect on the negotiations which are now in progress between the United States and Japan looking to a softening of the pact of fiction that exists between the two nations.

One was the announcement that Viscount Kaneko, a leading Japanese statesman and one of the men who took part in the negotiations with American bankers, was to come to the United States on an unofficial mission. He was expected to arrive in Washington today and during his stay in this country he will be entrusted with a part in the negotiations between the two nations.

Regarded As Friend.

Viscount Kaneko is a privy councillor and has established a reputation for friendliness toward the United States.

He was educated in this country and during the Russo-Japanese war served as a representative of his government in this country.

Although it is not the announced intention of the Japanese to make him a member of the embassy staff, it is understood that he will be entrusted with a part in the negotiations between the two nations.

Secretary of State and Ambassador Shidehara.

The resignation of the Hara ministry intimations of which have been drifting in from Tokyo recently will, of course, influence Japanese foreign affairs greatly.

The three names most commonly mentioned in connection with the premiership are Viscount Takaaki Kato, former foreign minister; Baron Nobuyuki Makino, who resigned Japan at the peace conference.

### REGAL FREE RUNNING TABLE SALT

THE CANADIAN SALT CO. LIMITED

### WILL TAKE TIMBER OVER TO ENGLAND

Montreal, Sept. 9.—Mr. O. Mason, of Manchester, England, accompanied by H. M. Cookson, his secretary, is here today, en route to Montreal, Ont., in connection with a big job put through by the company in March last, involving the purchase of the Musquash River sawmill output, with twenty-five million feet of timber, representing an investment of over one million dollars.

Mr. Mason intimated that the purpose of his present trip is to make forward arrangements to have the timber, as it is put through the mill, forwarded to the company's distributing yards in Manchester, where they have large storing grounds and shed space, adjacent to the ship canal, and possessing railway communication.

Baron Shinnpei Goto, also a former foreign minister.

Kato Is Aggressive.

Viscount Kato held the foreign portfolio at the time that negotiations for the conclusion of a new treaty between Japan and the United States because of the passage of the anti-alien land laws were broken off.

The explanation at the time was that Japanese public sentiment compelled the government to suspend the discussion.

Viscount Kato is regarded in Japanese circles as the most likely choice in the event that international questions hold the center of the stage at the formation of a new cabinet.

Baron Makino, regarded as equally sound in foreign affairs, is not quite so popular as Viscount Kato.

The latter is generally regarded as a likely choice if the international situation seems to require a man of quick imagination, daring and boldness.

### SLEEPING CAR SERVICE ST. JOHN TO CAMPBELLTON.

Convenient to travelers is the Through Sleeping Car Service between St. John and Campbellton.

No. 10 passenger train on the Canadian National Railway carries a through standard sleeper (except on Saturday and Sunday nights) leaving at 11:45 p.m. This car is attached to No. 21 train which leaves Campbellton at 8:30 a.m. and arrives at Campbellton at 8:30 a.m.

Returning sleeper leaves Campbellton at 8:25 p.m. on No. 22 passenger train (except Saturday and Sunday) and connects at Moncton with No. 9 train reaching St. John at 6:05 a.m.

By this train North Shore points are comfortably and conveniently reached, also points in the Gaspé Peninsula, or stations between Campbellton and Lévis.

For information with regard to fares, reservations, etc., will be found in the St. John City Ticket Office, 49 King street, or Ticket Agent at Station.

ROUSING MEETING OF THOSE IN FAVOR OF HON. R. W. WIGMORE

Minister of Customs and Inland Revenue Delivered Strong Address to Electors—Ward Chairmen and Committees Chosen—Battle on in Earnest and Election of This Popular Candidate is Assured.

The enthusiasm which was evidenced at the gathering in Seaman's Institute Hall last evening argues well for the prospects of the Hon. Mr. Wigmore, Minister of Customs and Inland Revenue, when the ballots are counted on the night of September 20.

Back in the Fight

The first to be called on was that veteran of many battles, Dr. Thomas Walker. Dr. Walker said he had thought he was out of politics for good and all, but the present situation was such that he felt it was his duty to make his mark again.

Policies To Come Later

Mr. Wigmore was given a splendid reception when he rose to speak. In opening he said it was not his intention to discuss the policies of the party; this would come at later meetings.

Defeat Mr. King

"The thing for us to do now is roll up such a majority on the 20th that Mr. Mackenzie King will see that he cannot come down here and dictate to the electors of this constituency, and let him know that he has added another to the long list of mistakes which he has made since he became leader of the party. One thing I want to warn the electors against, that is over confidence, we do not want just to win; we want a great big majority—bigger even than we had in 1917. We should also roll up a big majority to show to Hon. Mr. Melghe that we appreciate his action in giving to New Brunswick the representation in the cabinet."

Promises His Best

"I want to again express my interest in the development of the port of St. John and to say that I will always do my best to see that she gets a fair deal and the port is developed as it should be. During the war we were willing to wait for necessary expenditures, but now the war is over the money must be found to carry on these works. I believe the government realizes this and will do what must be done to bring this port to fulfil its destiny as the great winter port of Canada.

Home Destroyed Last Evening

One and Half Story Dwelling Owned by Ernest Hampton, Fairville Plateau, Victim of Fire.

Shortly after nine o'clock last evening fire was discovered in the one and a half story residence owned and occupied by Ernest Hampton and family, situated on the Fairville Plateau.

It was not very long before the building was a mass of flames so fast did the fire gain. Neighbors assisted in moving some of the furniture but it was too late to save.

There was no chance to stop the progress of the fire for it had good start, and as there was no appliances for any fire apparatus there was nothing left for those on the scene but to save if possible, of the contents and allow the flames to burn the building to the ground.

The house is practically new having been erected a few years ago, and it was stated last night that while there was some insurance on the house and contents it will be small and Mr. Hampton's loss will prove severe.

The M. R. A. Exhibit At Fair Is One of Unusual Merit

The M. R. A. exhibit on the second floor of the main exhibition building is one of unusual beauty and merit, and has been meeting with much favorable criticism. Just glancing at the booth where the furs and women's garments are displayed, one is impressed with the exquisite harmony of color, and on further study it is noticeable that no matter from what angle one looks at this display, every garment is in full view and the effect is equally attractive.

The design of the background is one of massive platters, with archway in the middle. The color scheme is old ivory and gold relieved by a deep border, and interior scenes of blended blue and green. Large ornamental urns and vases of flowers artistically arranged are in the same harmony of colors.

The floor is covered here and there with small, rich, rugs from the orient, and on opposite sides are fine grizzly bears in tiger rugs. This display is gilded in and reveals among other things:

A very luxurious coat of Alaska seal with collar and cuffs of real sable. Price of this garment \$2,350. A fine Muskrat coat with large collar and wide striped hand around bottom. Valued at \$1,100. Wonderful capey wraps of nutria, Hudson seal and moles.

Rich necks of sable, silver fox, mink, seal, fisher and squirrel. The hats showing are of original design and are creations of foremost milliners. One "Sanby" hat of unusual design is fashioned of brightest French velvet ribbon with no other color in relief. The hat shown on the model is an American conical, designed by "Schwaibe" of New York.

A suit of mole velvet with collar and cuffs of beaver, and a stunning afternoon frock of georgette crepe and crepe meteor in a color combination of mahogany and navy, are also most fascinating.

The booth where men's wear is displayed shows to advantage, shown at models in fur coats, evening clothes, top coats and suits, also clothes for boys—and in a smaller booth adjoining a demonstrator is showing the fine points of the "Hoover" vacuum cleaner.

Altogether these three displays reflect much credit upon the store that can get together such a collection of fine articles, and the artist who designs in shirt and neckties; new soft collars; \$15 raincoats for \$10.50—Gil-mour's, 68 King street.

EXHIBITION NOTES The first show of the season at the Exhibition by the Enterprise Poultry Company is attracting a great deal of attention and favorable comment, showing, as it does, the strides made by this well named company, whose products are now sold from coast to coast. There can be no better evidence than this exhibit to show the ability of our Maritime manufacturers to produce goods that are second to none made in this country.

WEEK-END SPECIALS Fall weight overcoats in great variety of patterns and styles; new patterns in shirts and neckties; new soft collars; \$15 raincoats for \$10.50—Gil-mour's, 68 King street.

LECTURE TO MOTHERS A most interesting lecture will be delivered at the Exhibition this afternoon at 2.30, St. John Daylight time, by Mrs. Gertrude Hasbroeck. Her subject is "The Right of Every Mother of the Adolescent Period to 'Your Boy and Girl' should prove of value to all parents."

ELECTORS, ATTENTION! A meeting of the electors of Simonds No. 1, favorable to Hon. R. W. Wigmore, will be held on Monday evening Sept. 13, at eight o'clock, in Peck's Hall, East St. John, for organization purposes.

LATE, BUT GOOD A half dozen boxes of strawberries arrived in the city yesterday from upriver. They were booked to one of the city's leading green grocers. Sixty cents per box was the price asked for the luscious reminders of early July, with its fragrant odors, telling of berry plots and blooming roses.

AN I. O. D. E. BOOTH The Woodstock Chapter, I. O. D. E. are in charge of a refreshment booth at the Woodstock Exhibition, which will be held next week.
