"Wilbur House." Bathurst, Cloucester Coun-

ty, N. B.

Monday next, 12th June. As regards situation, it is located in a very pleasant town, and being in close proximity to the Baie des Chalcurs, is one of the very best summer resorts for tourists and families who leave the heated cities to seek the invigorating air of the North. The County excels in beautiful scenery and excellent fishing grounds. The hotel is within easy reach of the Intercolonial Railway, and every effort will be made by the Proprietor to secure the comfort and pleasure of all who may patro-nize the establishment, which will be con-

ted in the very best-style H. WILBUR, Proprietor. Bathurt, June 6, 1876. ROYAL HOTEL,

October 10th, 1876. MR. J. H. ROBINSON. Dear Sir: In reply to your letter of enquiry, I would say that your "Phosphorized Emulsion of Cod Liver Oil with Lacto-phosphate of Lime," is the best preparation of the kind I have ever seen or taken. I was ordered by my physician to take it, and commenced about the last of August and since that time I have felt like a different man, and also look differently, and all for the better, as the doctor can testify. I was unable, in the summer, to walk any distance without much fatigue. I can now take my gun and travel all day, and feel first-rate at night and eat as much as any imberman. Have not bled any since ook your preparation, and can now inflat my lungs without feeling any soreness, and I think I can inflate them up to full measuiement same as before I was sick; have also gained in flesh, my weight in the summer was 173 lbs., and now it is nearly 190 lbs., which is pretty well up to my former

The Larmer's Corner. A Silent Teacher, As a general thing, mankind are so constituted that they would walk by sight rather than by faith. "Exwill explain how I can afford to give such ample goes further than precept" in good value to my customers. influencing men's actions. We may HIGHEST Market Rates paid for HIDES preach till doomsday of the usefulness and the profitableness of im provements, but it is the practical exemplification of their fruits that induce men to look upon innovations with favor. The past weeks, and one or two yet to come, have given GOOD NEWS FORALL. and will yet give opportunities for thousands of farmers to learn from a practical experience the truth of what agricultural writers have been enforcing upon their notice by "line to make purchases for next Spring and Sumupon line and precept upon precept" mer, I will clear out my Present Stock of for years past. Improve your farms, STAPLE AND FANCY level the rough places, remove the crooked fences, 1id the fields of stones and other incumbrances, utilize every rod of ground lest it become a proli fic source of pestiferous weeds, fertil. LARGEST AND BEST ASSORTED ize the soil, and make two or more in NEWCASTLE, at the above PRICES for blades of class clow where but one CASH ONLY. Also, grew before, and it will be money in the pocket, and pleasure and gratification in the parp, the stable, and the dwelling. But year by year the same unsightly spots, the same crooked, cumbersome fences around the misshapen lots, too insignificant to be called fields, have prevented Value. Also, the plow; the same obstructive rocks have gapped the scythes and jarred the arms of the mower; the same wretched crops have raised the question whether it would best pay to gather them or leave them to scatter their seeds upon the ground too

impoverished to sustain their growth; and the same impecunious condition has made the payment of taxes and the purchase of groceries or clothes a matter for close figuring. But one neighbour more adventurous and reckiess of consequences than others has procured a mowing machine, and straightway there comes into the field a silent teacher, whose influence for good outweighs in one short season the wordy lesson of years. Elegant in form and brilliant in appearance, it has a "taking As my fall and winter goods will arrive way" with the first. The weary mower laboring over his acre per day, and wasting a good fourth of his time in whetting his scythe hears SMALL ADVANCE mower across the fence. and beholds his neighbor at eventide unwearied after his day's ride around the field, contemplating his eight acres of meadow shorn, and the crop ready to be raked and bauled on the morrow. No fears of the weather trou ble his serenity. His crop is safe, while the swinging of the scythe must run the risk of a week or more before he can rest on ease on this score. When the weary limbs are laid to rest, he will be apt to calculate the money value of all this before he sleeps, and strike the exact balance in favor of machinery over hand-labor. But this will not be A Full Stock of the only lesson learned. His neighbor will, at the same moment, probably, be recalling the experiences of the day, for the same silent teach er has been eloquent in justraction for him too. TO THE &c., &c. FARMERS OF MIRAMICHI We have been Manufacturing IRON FRAME MOWERS J. W. DAVIDSON. For the last four years, and are now offering to the farming community this, the

BEST MOWER, Combining a greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant. brated Walter A. Wood's Iron Frame Mow-er, and the Richardson Buckeye, both Ameri-can machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States, We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents ture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market. The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the tarmers of the Maritime Provinces.
