ANOTHER STABBED AT CHIPMAN.

Two Italian G. T. P. Workmen Quarrelled With Fists, Over a Trifling Matter.

KNIFE USED

By Man Who Got The Worst Of It.—Assassin Arrested.

Chipman, N. B., Nov. 8.—As the result of a quarrel over a fifteen cent laundry bill another shooting affray which may result in another murder trial, took place near here yesterday. Again the assassin is an Italian and this time his victim is a man of his own race.

Frank Deatti, the man who used the knife, is under arrest and his victim, William Cortiga, is lying in a critical condition under the care of Dr. Lang. Deatti's crime was peculiarly vicious and cowardly. Both men are employed under the Toronto Construction Company on the G. T. P. near here. Saturday they got into a dispute over a laundry bill amounting to fifteen cents and fought their quarrel with their fists. Deatti got decidedly the worst of the scrap and after it was over slipped into the bunk house, seized a large and ugly knife and sneaking up behind Cortiga, stabbed him in the back, inflicting a terrible wound.

Deatti was at once seized and taken before Commissioner Farris, who remanded him to jail until Friday next. Cortiga is dangerously wounded and whether he will live or die is not known.

FOOTBALL.

SACKVILLE, Nov. 3.—After a fiercely contested game here this afternoon between Mt. Allison and U. N. B., the score stood 3-3. The U. N. B. started in with a rush but Mt. Allison rushed the ball back and McWilliam's came nearly scoring about 5 minutes after the game had started. For a while the ball stayed in U. N. B.'s end of the field where the Mount A. men by short dashes worked the ball down. U. N. B. gained ground from a free kick by Deedes. A series of scrimmages followed till at length MacKay by following up one of his kicks scored for Mt. Allison. Doe failed to convert this and the first half ended with the score 3-0 in favor of Mt. Allison.

Soon after the second half started Diver, by a good run touched down for U. N. B. This was not converted. U. N. B. had the ball for a time after this, around Mt. A.'s 25 yard line, but the boys in "Garnet and Gold" worked it back and for the rest of the game the advantage was on the side of the local team. MacKay of Mt. A. was the star of the game. E. J. Wilson of Derby Junction also played a good game in the scrimmages.

CANADA VOTES SOLID.

There may be a difference of opinion amongst the voters of Canada regarding political matters, but when it comes to a question of a newspaper to suit the Canadian people the vote is solid for the Family Herald and Weekly Star of Montreal. It is a marvellous who popularity that paper enjoys. It is well deserved too, for it is beyond question the best daily paper in Canada. It should receive that great weekly, when it can be had for one dollar a year. In this section it reaches almost every home, and not one of them would think of letting their subscriptions expire. The Family Herald and Weekly Star is too good to miss even a single copy. Union Advocate and Weekly Star one year for \$1.50.

A NEW STATION.

MURDER AT MINTO MINES

Coroner's Jury Lays Blame upon John Endini, an Italian Miner.

THE EVIDENCE

Investigation Reing Held Into the Circumstances of The Case.

MINTO, Nov. 6.—At the inquest held here to-day on the body of John McKay, who died Wednesday night from wounds inflicted in a stabbing affray last Sunday, the jury at 8 o'clock this evening brought in the following verdict:

"John McKay died on the fourth day of November, 1908, at Minto in the county of Sunbury, and that the cause of his death was the result of wounds in the abdomen unlawfully inflicted by a knife or sharp instrument in the hands of John Endini."

Six witnesses were examined. In the course of the hearing, John Devine, an Italian, swore that Endini admitted to him after the affray that he had stabbed McKay.

An ante-mortem statement signed by McKay before Justice Halifax to the effect that Endini stabbed him, was put in evidence. Endini, who is now in jail at Oromocto, will be brought here on Monday for the preliminary hearing.

Coroner George A. Perley, of Margerville opened the enquiry in the waiting room at Minto Station, at 2.30 p. m. A. B. Wilmot, clerk of the peace for Sunbury county, represented the crown. Dr. Hay described the wounds which appeared to have been inflicted by a knife or sharp instrument. It had cut into the intestines and one of the lungs had been lacerated. Dr. Hay also testified to a verbal statement made in his presence by the deceased to the effect that the Italian Endini had caused the injuries.

Sobalio Giglio, an Italian, the next witness, told of going to the boarding house kept by Mary Herchuch and her husband, while the row was in progress. He did not see with Christopher Pettley, who was with McKay, and then ran away.

John Devine, another Italian, in the course of his evidence testified that after the stabbing Endini went to a house occupied by Frank Flament, where he admitted to the witness that he had stabbed McKay.

Percy Kennedy, a driver on the Central Railway, who was sent for by Pettley when the crime was committed told of the condition in which he found McKay and of helping him to his camp.

Justice Halifax gave evidence of having taken McKay's dying deposition in which Endini was charged with the crime.

Thomas Dawson testified to attending McKay up to the time of his death and described the wounds when he first saw them.

No evidence of anyone who saw the stabbing was available. The testimony of Mary Herchuch and her husband could not be taken as they are Austrians and there was no interpreter. Mr. Pettley, who was badly hurt in the drunken row which resulted in McKay's death, had not sufficiently recovered from his injuries to be called as a witness. Angelo Cordin, who is reported to have been in the room when the crime was committed, was not called as a witness, but is being held to give evidence at the investigation.

The evidence submitted was considered by the coroner sufficient to enable the jury to bring in a verdict. They retired at 7.30 p. m. and after deliberating for half an hour returned a verdict as stated.

The preliminary investigation will be held here by Justice Halifax. Mr. Wilmot will represent the crown, H. H. Fickett, of St. John, has been retained to appear for Angelo Cordin.

SCARLET FEVER EPIDEMIC

Death of Miss Florence Copp from The Dread Disease on Friday.

SCHOOLS CLOSED

Town Divided Into Districts And Every House Being Visited And Examined.

The death of Miss Florence Copp, aged fourteen, from scarlet fever, occurred on the 6th instant. She had been ill three days, no one knowing what was the trouble. Funeral took place on Saturday. Much sympathy is felt for the bereaved family. The schools were immediately closed by the Board of Health, and orders issued that children should be kept at home. The town was divided into four sections, each in charge of a resident physician, whose duty it is to examine each family to discover which, if any, have the disease and have not reported. Two or three cases have been found so far. There have been no deaths since Friday.

WITH THE HUNTERS.

H. G. Kethro and Chas. M. Dickenson returned from the woods this week, having shot a moose on their trip.

Frank Simkins, an English immigrant boy, who has been working at Vandine's lumber camps on Blue River, arrived in Fredericton on the 31st ult., and tells an interesting story of his experience with a bull moose. While coming out of the woods in company with two French-Canadians, they encountered the moose on the road. The moose showed fight and they climbed a tree. After rubbing his antlers on the base of the big tree, and grunting a few times the monarch rambled away. Young Simkins reports bears very plentiful in the Blue River districts, and says that they have raided a number of lumber camps.

Mr. Ralph Pultizer, son of Hon. Joseph Pultizer, publisher of the New York World, will spend three weeks hunting big game on the headwaters of the Little Southwest Miramichi. He has engaged Mr. Charles B. Love of Fredericton as guide.

While enroute to Fredericton the other day Mr. Arthur Anderson of the post office staff and his father Henry Anderson, met a big moose on the Woodstock road near the Flewelling camp. The animal paid but little attention to them and soon trotted away from the roadside.

Mr. Hugh G. Watson, of Cambridge, England, who accompanied Guide Braithwaite to the Miramichi woods a short time ago, shot a fine moose on the second day out. Mr. Watson is reported to be in India and Newfoundland but this is his first trip to New Brunswick. He was very anxious to get a moose to complete his collection of hunting trophies, and is delighted with his success. Mr. Watson and his friend, Mr. Lindsay, who accompanied him, have made up their minds that New Brunswick carries off the palm as a big game country, and they will probably remain in the woods until the end of November.

Chased through city streets of St. John, N. B., by a crowd of boys, a two-year-old cow moose which had wandered in from the woods near the city took refuge in the old burying ground in the centre of the city a few days ago, and fell exhausted in an attempt to mount a hill in the graveyard. A crowd pressed around and after an ineffectual effort to regain its feet the animal fell over and died. The moose in its flight ran into a woman wheeling a baby carriage in Waterloo street, but caused no injury. A few days ago a full grown cow moose was encountered a few miles from the city by a driving party.

GOV'T MAJORITY NOW FORTY-SEVEN.

There Are Still Four Elections To be Held.

Province	Lib.	Con.	Ind.
Ontario	37	47	2
Quebec	53	11	1
New Brunswick	11	2	0
Nova Scotia	12	6	0
P. E. Island	3	1	0
Manitoba	2	6	0
Saskatchewan	3	1	0
Alberta	4	3	0
British Columbia	2	3	0
Total	132	82	3

Government majority, 47. There are still four elections to be held, viz., Prince Albert, Saskatchewan; Yale-Cariboo and Kootenay; Yukon, Columbia, and Yukon. If these all elect Government Candidates the Liberal majority will be fifty-one over both Conservatives and Independents. In last House, just before dissolution, the majority over all was 64.

E. HUTCHINGS FOR CANDIDATE

Of The Local Government For the Northumberland Vacancy in The Legislature.

VETERAN LUMBERMAN.

Will Contest the County in the Interests of the Hazen Administration

It is authoritatively stated that the Local Government Candidate in the approaching bye-elections will be Ernest Hutchinson, the veteran mill-owner and lumberman of Douglastown, well known to everybody along the Miramichi. Many thought that Hon. D. Morrison would again be a candidate, and the names of Frank Swin, of Doaktown, T. W. Butler, of Newcastle, and J. L. Stewart, of Chatham, were also freely mentioned. Nothing has been decided as to whether Mr. Hutchinson will be opposed, but the name of Weldon Robinson, of Millerton, son of James Robinson, ex-M. P., has been spoken of as the Opposition Candidate.

WEDDING BELLS.

McCABE—MAJOR.

A wedding of much interest to Newcastle friends, took place on Wednesday morning, the 4th inst., at 8 o'clock in St. Mary's R. C. Church, Rev. Father Dixon tying the nuptial knot, when John McCabe and Miss Mollie Major became man and wife. The bride looked charming in a stylish suit of blue broadcloth with hat to match. She carried a pearl Rosary. She was attended by Miss Margaret Richardson, of Nelson, who wore a very becoming gown of dark green, with hat to match. The groom was supported by William Landry, of Newcastle. The happy couple drove to the home of the groom's parents where a sumptuous breakfast was served. A reception was held at the bride's home in the evening at which a large number of guests were present. The presents were both numerous, and costly. The groom's gift to his bride was a handsome Russian mink stole, and to the bride a handsome locket and chain; to the groomsmen, a pair of gold cuff links. The UNION ADVOCATE wishes them a pleasant and prosperous voyage through life.

RUSSELL—GEIKIE.

The marriage of Allan A. Russell of Nordin and Miss Jessie H., oldest daughter of Mr. and Mrs. David Geikie of Douglastown, took place in Chatham Thanksgiving night, Rev. J. M. McLean officiating. The couple were unattended. After the wedding a reception was held at the home of the bride's parents, at which the immediate relatives and friends of both parties were present. The bride received a large number of handsome presents. The UNION ADVOCATE extends congratulations to Mr. and Mrs. Russell, wishing them a happy wedded life.

KING—CONNORS.

An interesting event took place in St. Timothy's Church, Adamsville, at nine o'clock Monday morning when Mr. James M. King of the I. C. R. train service was united in marriage to Miss Lottie Connors, daughter of Mr. and Mrs. Robert Connors of Harcourt. The bride was attired in a pretty suit of alic blue with hat to match, and was attended by Miss Fannie Murray, of Moncton. Mr. Thos. McDonald, uncle of the bride, supported the groom. The ceremony was performed by Rev. Fr. Gaudet in the presence of only the immediate friends of the bride and groom.

PRATT—HAY.

The wedding took place, on the 6th ult., at the home of Mr. and Mrs. John Bell, 1212 East Colorado street Pasadena, Cal., when Annie M. Hay, daughter of Wm. Hay of Ferryville, N. B., was united in marriage to Mr. A. D. Pratt. The bride was very becomingly dressed in brown silk and carried a bouquet of orange blossoms and fan. Mr. and Mrs. Pratt will make their home in Tulare, Cal., where Mr. Pratt has business interest.

ARCHIBALD—JARDINE. Robert Archibald and Miss Janet K. daughter of Archibald Jardine, both of Upper Napan, were married by Rev. J. M. McLean at the home of the bride's father, on the 3rd instant. After the wedding supper, the young couple drove to their future home.

VOTED IN A BUNCH. The correct returns for the Madawaska section of Victoria constituency give Michael, Liberal, 1718 votes to 88 for Dr. Kirkpatrick, Conservative.

TERRIFIC EXPLOSION

IN PIT.

Seven Men Killed and Four Terribly Injured on Transcontinental.

NEWYEN, Ont., Thursday.—Later details of the accident which occurred on Tuesday night, resulting from the premature explosion of a large quantity of dynamite in a narrow pit on D. McLean's sub-contract on the line of the Transcontinental Railway, eighteen miles north of here state that in addition to the seven men who were killed, four were terribly injured.

Not a man of the eleven who were working in the rock cutting escaped injury. So far only three of the bodies of the seven that were killed have been extricated from under the mass of rock under which they are buried. The names of the killed have not yet been ascertained, but all of the men were Italians. A rigid investigation is to be held.

TO THE PEOPLE OF INDIA.

LONDON, Eng., Thursday.—On the occasion of the fiftieth anniversary of Great Britain's control of the direct government of India, Queen Victoria, having been proclaimed empress throughout India on November 1, 1858, King Edward yesterday issued a long message to the Princes and peoples of India, which the Viceroy, the Earl of Minto, read at the durbar at Jodhpur today.

The message dwells upon the peaceful progress of the empire under a beneficent administration, pays warm tribute to the loyalty of the Indian subjects, and troops and announces amnesty for prisoners, and a further gradual extension of the equality in citizenship, and a greater share by the Indians in legislation and government.

W. H. FAFT FOR PRESIDENT.

Republican Candidate Carries United States By Reduced Majority.

BRYAN DEFEATED

By Party That Stole His Principles and Paraded Them As Their Own.

NEW YORK, Wednesday.—Practically complete returns received up to a late hour tonight indicate that William H. Taft of Ohio as president-elect will have a vote of 309 in the electoral college.

This is within sixteen votes of the forecast by National Chairman Frank H. Hitchcock and 67 more than a majority out of the total electoral vote of 483.

The most important news of the late returns indicate that Maryland, after vacillating during the day and apparently being safe for democracy, has been swung into the Taft column. The unofficial figures give Mr. Taft the state by 149 votes.

Maryland was the last of the doubtful states to be heard from. Indiana and West Virginia, as well as Montana, turned out to be safely Republican. Colorado went for Bryan.

Mr. Bryan has a total of 174 votes, two less than he received in 1896. In 1904 Mr. Bryan received only 140 votes, and in 1896 the Nebraskan received 176 votes.

ANDERSON FURNITURE CO. WILLING TO START FACTORY

Ask Guarantee of \$40,000 Bonds From City on \$100,000 Plant To Employ 75 Hands.

HALIFAX, N. S., Wednesday.—Proposals for the establishment of a chair factory in Halifax which will employ seventy-five men, to start were laid before the city council last night.

For some time the board of trade have been investigating this industry, and also the business of Oliver Anderson, formerly of Newcastle, N. B. They found both satisfactory.

The promoters ask that the city guarantee bonds to the extent of \$40,000. A plant to cost \$100,000 is to be erected and the city will be given a first mortgage on this for security. The matter was referred to a committee to report in a week.

LIFTING A RIVER OVER MOUNTAIN.

Wonderful Engineering Feat Accomplished in British Columbia Gold Fields.

VANCOUVER, B. C., Monday.—The work of lifting a river of water seventy miles over mountains and turning it against the golden gravels of the heart of the Klondike has been completed by the Yukon Gold Company. The tremendous labor involved has required three years of persistent activity, and a corps of thousands of men, headed and directed by skillful engineers. The mammoth conduit is ready for the water, but the stream will not be turned on until next spring it is stated. It is probable also that much of next season will be required to get the ditch into first class shape but the gravel will be sent spinning before the year has gone. The new undertaking should mean much for the history of the Yukon.

A. N. C. Treadgold, promoter of the Yukon Gold Company, and organizer of the properties, who has just left Dawson after a hurried visit, spoke very highly while in the northern city of the good work done by the operative force in the construction of the ditch and the installation of the pipe line.

"I deem the work done by the men here," says Mr. Treadgold, "one of the greatest accomplishments of the kind in the history of the world; in fact, considering that this enterprise has been carried out in the sub-Arctic it may be declared the greatest undertaking of the kind in history. The managers here on the ground deserve great credit. I should say that it is a triumph of young manhood. Old men never would have accomplished it. The work is a splendid example of what pluck, hustle and energy can accomplish. In two or three years more the entire equipment will be operating at its best, and the splendid results will be apparent."

The men engaged by the Yukon Gold Company this year have numbered approximately two thousand, of whom two-thirds have been on the pipe line work. O. B. Perry, the general manager, has been in the field even since the opening of navigation, while C. A. Thomas, the local manager, has not left the field once, summer or winter, since the vast enterprise was undertaken three years ago. Both are young men, both on the sunny side of thirty-five. At present the large force of men who have been at work along the pipe line during the summer, are pouring into Dawson as fast as the camps at the various points are closed.

Angus Macdonald the chief field man of the pipe line, is squaring up his work of the general construction, and is having the camps closed as fast as the work at each place is finished. In his opinion the work has been far more difficult than if it had been undertaken in the tropics or at the Isthmus of Panama, and in this opinion there are many others who agree with him.

This autumn sees the completion of the work from Tombstone to Lovett and Cripple Creek. The pipe line is intended to convey 5,000 inches of water, but it is said to have a capacity when crowded, to 7,000 inches.

BENTLEY'S LINIMENT

takes hold of and quickly CURES Sprains, Strains, Kinks, Cramps, Bites, Bruises, Burns, Coughs, Colds, Croup, Rheumatism, Sore Throat, Neuralgia, Chapped Hands, Scalds and all pains and aches that afflict mankind. It is the recognized Family Remedy in thousands of Canadian homes, all of whom can testify to its remarkable powers, and we print herewith a few of their opinions.

Mr. O. J. McKinnon, Kennewick, N. B., writes, January 20, 1907: "I have used BENTLEY'S LINIMENT for both myself and children, and as a cure for sore throat, soreness of the chest, etc. I have never found anything to equal it."

Mr. James L. Campbell, New Brunswick, Oct. 20, 1907: "I recently used BENTLEY'S LINIMENT for a severe case of rheumatism in my shoulder. The pain was so severe that I could not move my arm. I used BENTLEY'S LINIMENT for a few days and the cure was marvelous."

Mr. J. E. Anderson, Quebec, P. Q., writes, February 15, 1907: "I used BENTLEY'S LINIMENT for a sprain and can highly recommend it."

Mr. W. A. Smith, New Brunswick, writes, April 12, 1907: "I have used BENTLEY'S LINIMENT and found it the best I ever tried, and can heartily recommend it."

Mr. F. E. Knappe, Warwick, P. Q., writes, July 17, 1907: "A few days ago, coming out of a wagon at St. Bonaventure, my foot slipped and I struck my leg against the wheel and hurt it very badly. It was extremely painful and I was afraid I should have to lay up. However, I was induced to try BENTLEY'S LINIMENT, and two applications made a complete cure. I can recommend it with pleasure."

Mr. F. E. Knappe, representing the Warwick Clothing Manufacturing Co., of Warwick, P. Q., Oct. 20, 1907: "I have used BENTLEY'S LINIMENT and can highly recommend it. I had a sore on my hand and tried several remedies without effect, as the skinning of my hand prevented it from healing. Two applications of BENTLEY'S LINIMENT made a complete cure."

We know what Bentley's Liniment is capable of and to show that the above claims are not mere idle boasts we guarantee every bottle to act exactly as represented, or bring the bottle back to your dealer; he will refund your money. We will pay him for it.

BENTLEY'S is a powerful White Liniment that will not soil or injure the most delicate fabric, and the 25c. size is the largest bottle of White Liniment on the market. Accept only Bentley's, it is the only Liniment, no other kind is just as good. For sale by dealers generally, especially druggists. 2 oz. Bottle, 10c.

6 oz. Bottle (over three times as much), 25c.

PEERS' FEAR SUFFRAGETTES May Descend in Force Upon Their Sacred Quarters.

LONDON, Wednesday.—Britain's peers are now sitting in daily dread of an invasion of their precincts in Westminster by the suffragettes, who further advertised their campaign on Wednesday evening when two of them fastened themselves with chains to grills that screen the ladies' gallery from the body of the House of Commons. The Speaker of the Commons has given orders which it is believed will preclude the possibility of any further scenes in the lower house, and now the members of the upper house expect to be tackled in their turn.

Every precaution is of course being taken to prevent such an incursion but many peers are afraid that feminine ingenuity—one often described it as 'devilish ingenuity'—will find a way to overcome all the obstacles, that mere Parliamentary ingenuity can devise.

Mrs. Humphry Ward issues the following statement: "Mrs. Humphry Ward is very well satisfied with the progress made by the Anti-Suffragette League, especially since the recent suffragette demonstrations, which have had the effect of very largely increasing the membership of the league. Mrs. Ward thinks there is abundant evidence to show that in spite of a certain natural admiration for the courage of some of the suffragist leaders, so far, English middle-class opinion is turning decidedly against their policy."

This certain 'natural admiration' to which the authoress refers, combined with a feeling that women like Mrs. Pankhurst should not be subjected to the indignities inflicted on ordinary prisoners found vent in appeals to the home secretary to exercise his presumed right to order them to be treated as first-class misdemeanants. Herbert Gladstone, however, intimated in Parliament that he possessed no such right, and Mrs. Pankhurst and Mrs. Drummond are purging sentence in the second division at Holloway. Exactly what this means is thus described:

When Mrs. Pankhurst arrived at Holloway she had to strip and be searched and to take a bath in a room with low partitions over which the wardresses could look. They gave her then a set of coarse underclothing of a make which was possibly fashionable in the middle ages, but which in these days are archaic and uncomfortable. The striped stockings to go with these were thick and clumsy. She was then directed to pick out a dress from a bundle of dresses, all of green serge stamped with broad arrows. A blue and white check apron, a white cap over her hair, and shapeless shoes completed the costume, and the attendant handed her a blue and white handkerchief and told her she must make it last a week.

Mr. Gladstone pointed out when he was questioned about it in the house that it remained with the prisoners to discharge themselves by paying their fines.

SMALLPOX SITUATION.

EDMUNDSTON, N. B., Thursday.—The smallpox situation in Edmundston is improving.

The disease started in a school and spread very rapidly. Had thirty-five houses closed, and about one hundred and forty cases since ten days ago.

Many of the houses that were quarantined have been released and the number of cases at the present time is about fifty. Every one is confident of better conditions. The commercial condition is looking well. We do not expect any more of the disease.

MARINE INVESTIGATION.

QUEBEC, Thursday.—At the marine investigation before Justice Casels this morning, Blackstone, a sail-maker, testified that he had paid J. U. Gregory, marine agent, a commission of five per cent. in consideration of the money advanced to him.

Blackstone said he did business to the extent of several thousand dollars with the department here.

The orders for sails and other paraphernalia for the ships of the department were given to him direct by Mr. Gregory.

A large number of cheques were produced, and witness classified them as those which meant "Commission cheques," and those which were departmental.

To Mr. Watson, witness said he was aware that he was paying the money to the marine agent in his official capacity.

BIG CATCHES OF SEA OTTER.

Sealing Schooners Return to Victoria After Successful Season.

VICTORIA, B. C., Thursday.—Two more sealing schooners arrived on Friday from the Behring Sea, the Markland, Capt. George Peater, with 904 sealskins, and Thomas F. Bayard, Capt. Balkstad, with 813 sealskins and 28 sea-otter.

These are the top liners of a fleet which was smaller than usual this year, numbering only eight vessels. Two catches are higher than have been made for six or seven years, the Thomas F. Bayard being the largest brought to this port.

Two other schooners are still out, the Dora Seward, Capt. Whither, which has about 400 skins, and the Umbrina, Capt. Belouchrey, which has 464 pelts.

Walter Blake, of Jersey, England, and John McLean, a half-breed, were both swept overboard and drowned. Billy, the Kyoquot Indian and his kiootchen were lost from the Thomas F. Bayard and were brought to their homes on the schooner Markland after enduring terrible privations.

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labelled his own product. This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce.

Ask for MINARD'S and you will get it.

RECOUNT IN CAPE BRETON SOUTH.

SYDNEY, N. S., Thursday.—At this morning's session of the county court Judge McGillivray, granted an application on the part of the Liberal-Conservative candidate for a recount in the South Riding, in which D. D. McKenzie, Liberal, had a majority of 17 over McCormack. The proceedings will take place at the court house at Baddeck, on Saturday. There are 5,733 ballots to be counted, which will occupy the better part of next week.

VITAL STATISTICS FOR ST. JOHN.

ST. JOHN, N. B., Thursday.—The number of deaths during the fiscal year ending October 31st was 785. This is seven less than in the fiscal year 1907, when there were 792 deaths. This year there were 395 males and 390 females; 401 single and 379 married, and five not stated, while 643 were Canadian born, 135 foreign born, and four not stated.

A train of twenty-five car loads of whiskey is on its way from Belleville to Winnipeg. There must be an awful lot of grief to be drowned in the west when the orders for the wherewithal are given in train loads.

PRINCE EDWARD ISLAND ELECTIONS.

Prince Edward Island is now in the throes of a provincial election. The administration of the day is Liberal, and appeals to the country with excellent prospects. A feature of the Liberal platform is a proposal that in a reasonable time, ascertain the cost of a tunnel, and proceed with the work of the expenditure is not found to be prohibitive. The opposition leader, Mr. J. A. Mathieson, also is a tunnel advocate. In fact any man who is in politics on the island is a tunnel man. That is the big issue, and properly. The opposition platform, which has many features identical with the government's proposals, amongst others, these:—

The preparation and presentation of the island's claims against Canada, including amongst others the following:—

1. The cost of the Prince Edward Island Railway, amounting to \$2,144,000, with interest since 1873.
 2. Damages for non-fulfilment of the terms of union respecting continuous communication between this island and the mainland.
 3. Fair transportation rates.
 4. Our share of the fishery award. Thorough revision of the laws relating to our fisheries and the protection of the rights of our fishermen.
 5. Compensation in respect of the public lands of Canada which have been transferred to the larger provinces with any consideration for the interest of this province therein.
 6. An equivalent for the increased subsidies granted the larger provinces to meet the increased cost of education, public works and agriculture.
 7. The payment of the subsidies upon an assumed population of at least 150,000 as was done in the case of British Columbia, Saskatchewan, and Alberta inasmuch as the failure of this province to attain that population is due to the default of the Dominion.
 8. Recognition of original representation in the federal parliament.
 9. The tunnel.
- The island is pretty evenly divided in Federal politics, for even though the Liberals carried three of the four seats on October 26, the votes cast by each side were nearly equal.

WHY LOGGIE WON.

The Chatham Commercial indignantly denies the charge that the Liberals of Northumberland distributed among Catholic electors that Orange pamphlet calling for Laurier's defeat on religious grounds, which Conservatives were secretly circulating in Protestant communities. It also denies that Mr. Loggie's victory was due to any such influence. "It is hardly necessary to say that Mr. Loggie won," says the Commercial, "but a few of the many reasons may be given."

1. Because he was recognized by the people as the best and strongest man.
2. He demonstrated his superiority over his opponent on every possible occasion.
3. He had the strongest newspaper support.
4. He was appealing as a supporter of the strongest government which ever held sway in Canada.

EMPRESS OF IRELAND HAS ARRIVED AT RIMOUSKI.

MONTREAL, Que., Thursday.—The steamship Empress of Ireland reached Rimouski early this morning, and again broke her record for the westward trip from Liverpool. Her time was 5 days and 15 hours, allowing 5 hours for the difference in time.

BUENOS AIRES.

An Orderly City in Which Affairs Are Well Conducted.

Things are done well in the city of Good Airs. There are good things to eat, comfortable rooms to live in, places where a man can get his exercise and outdoor sport. After the tropics the gringo feels like a man who has been hopping from foothold to foothold in a swamp, and steps at last on solid ground. The creature comforts of a capable, wide-awake, well arranged city, soothingly envelop him. The cocher knows where he wants to go, the waiter knows that he wants to eat. The mounted policeman in breastplate and horsehair helmet, rides him back with the rest of the crowd, and does it so quietly and with such sophisticated nonchalance that he promptly conceives a passionate admiration for that policeman and his beautiful horse falls into the communistic pride, common to all city dwellers, and is ready to declare that there is no other policeman so fine in the world. The streets are clean and well kept, and the buildings which line them, however gingerbreadly their architecture, are held within decorous maximum and minimum limits of height. Everything is near at hand. The hotel, club, bank, drive, the restaurants and theatres are all within so to say feeling distance. And this physical compactness and neatness, this continental glitter and activity, set here easily combine to give the whole a certain diminutiveness, and cozy intimacy. There's a "little old Buenos Aires," too.—*Ed.*

HOW TO CURE A HEADACHE.

To attempt to cure a headache by taking a "headache powder," is like trying to stop a leak in the roof by putting a pan under the dripping water. Chronic headaches are caused by poisoned blood. The blood is poisoned by tissue waste, undigested food and other impurities remaining too long in the system. These poisons are not promptly eliminated because of liver, bowels, skin or kidney trouble. If the bowels do not move regularly and there is pain in the back showing kidney trouble—if the skin is sallow, or disfigured with pimples—it shows clearly what is causing the headache.

"Fruit-a-tives" cure headaches because they cure the cause of headaches. "Fruit-a-tives" act directly on the three great eliminating organs—bowels, kidneys and skin. "Fruit-a-tives" keep the system free of poisons. "Fruit-a-tives" come in two sizes—25c and 50c. If your dealer does not have them write to Fruit-a-tives Limited, Ottawa.

THANKSGIVING.

Monday was Thanksgiving Day. Canada has much for which to be thankful this year. In the general industrial depression which, because of the unseasonable business methods that prevail in all civilized countries, has brought so much suffering to the poorer people in many lands, Canada has suffered probably the least of all. Our immense natural resources—the gift of Providence—have helped to tide us over the difficulty that has nearly paralyzed more densely-populated countries. For the present we are financially safe, and before the next crisis is due we can, if we will, put ourselves in a position to safely weather any industrial storm. The threatened trouble with Japan over the immigration question was averted by the wise diplomacy of the two governments concerned. The strong arm of Great Britain and Ireland effectually prevented our having to suffer at the hands of the United States or Germany any such humiliation as these strong countries occasionally inflict on the weak states of Spanish America. Another cause of thankfulness is the high character of the immigration that is coming to our shores. We are annually receiving into our midst the best of the population of the British Isles, Russia, Rumania (East Galicia) the United States, and other lands.

In King Edward VII, whose sixtieth birthday fell on Thanksgiving Day, we have a monarch who is respected at home and abroad, a statesman who has done much to weld the semi-independent sections of the Empire into a homogeneous state and make the latter the most important factor in international politics. May he live to a good old age, continuing his work of preserving peace among the nations and developing and increasing the harmony and security of all classes of the peoples over whom he rules.

THE UNITED STATES ELECTION.

The presidential contest in the United States last week was won by William Howard Taft, the Candidate of the Republicans. Of the 483 votes of the Electoral College, Mr. Taft will receive nearly two-thirds, the remainder going to William Jennings Bryan, the Democratic Candidate.

There were eight parties in the field, representing all shades of political thought.

The Republicans (or Conservatives) stood for a high tariff, a greatly increased Army and Navy, the continuation of the power of the Supreme Court Judges to issue injunctions against workmen in cases of industrial disputes, and the maintenance in general of the present system of government.

The Democrats (or Liberals) professed to favor a tariff for revenue only, national peace and a small army and navy, the independence of the Philippine Islands, admission of Porto Rico to state rights, and the granting of trial by jury in cases of contempt of court injunctions in Labor troubles.

The People's Party demanded government ownership of all railroads, telegraphs and telephones, the election of United States Senators by popular vote and the issue of all money directly by the government. They are essentially a farmers' party. In 1893, the first time they nominated a man for president, they polled 1,025,000 votes and carried several states. In 1896 they fused with the Democrats and the greater part of them were lost in that party. In 1900,

the middle-of-the-road Populists ran independently and polled 50,000 votes. In 1904 their vote was 117,000.

The Prohibition Party were again in the field this year, contending for absolute prohibition of the traffic in intoxicating liquor as a beverage. Their vote in 1904 was about 300,000.

The Independence Party, the new organization led by Wm. R. Hearst, proprietor of the New York American, entered the lists this year, nominating Wm. L. Hise for president. They are a Socialistic party, except in name, and stand for the abolition of the right of Judges to issue an injunction in a Labor dispute until after the case has been tried by jury, for election of Judges and Senators by popular vote, for government ownership of railroads, telegraphs and telephones, and for effective government control of all industries liable to be monopolized by Trusts.

There were two Straight Socialist parties—Socialist and Socialist Labor—in the field, each standing for the public ownership, operation and control of all the means of production, distribution and exchange. They demanded the complete nationalization of land, mines and factories, under a co-operative commonwealth, thus abolishing the wage-earning system and putting employers, as a class, out of business. They elected several congressmen in Wisconsin, and in the whole republic increased their vote about 50 per cent. over that of 1904.

The "Liberal Party," whose radical program included the Socialist plank of political equality for women, was organized too late to make much of an impression upon the electorate in this campaign.

No definite statement of the popular vote is yet to hand.

It however appears certain that both Democrats and Republicans, the former especially, lost heavily to the smaller parties, and the early breaking up of the Democratic organization is predicted.

OBITUARY

JOHN HAYDEN.

At Chelmsford on Nov. 1st, John Hayden, a highly respected resident, passed to his eternal reward, after a lingering illness, which he bore patiently.

Deceased was in the 57th year of his age, and, besides a sorrowing wife he leaves three sons, William, George and John P., and one daughter, Mary, to mourn the loss of a most kind and loving husband and father; and two brothers, Michael and William of Pokemouche, and one sister, Mrs. Wm. Gratton of Tabusintac.

His kind hearted and charitable disposition endeared him to his neighbors and friends as he was always ready to help them when in need. He was a faithful Christian. The funeral took place on Wednesday, and was very largely attended, interment being in the R. C. cemetery. Rev. E. A. Murdoch celebrated Requiem Mass. The pall bearers were, Messrs James Harrigan, Peter O'Neill, Jeremiah Casey, Stephen Duthie, Wm. Gorbett. The heartfelt sympathy of the community is extended to the family in their sad bereavement.

MRS. THOS. CARROLL.

Mrs. Thomas Carroll, a highly respected resident of Escuminac, died on Oct. 31st, aged 35 years. She had been ill a long time. The deceased, who was Miss Catherine Walsh, daughter of the late John Walsh of Hardwoods, leaves, besides her husband and eight children, two brothers and one sister, Edward and Thomas of Hardwoods, and Sister Margaret of Waltham, Mass. The funeral was held on the 2nd., Rev. Father Savoy conducting the services.

Beetz, as boasted the Parisian portrait painter, why monsieur, I remember when patrons were packed in that little room like sardines, waiting to have their portraits painted. Like sardines, echoed the man from Montana, Oh, I see. Waiting to be done in oil, eh?

THE NEXT SPEAKER.

It is understood that Mr. George J. Clarke, M. P. for Charlotte, will succeed Hon. Donald Morrison, who recently resigned as Speaker of the Legislature.

MILTON MOWATT.

The funeral of Milton Mowatt, who died on Sunday, Oct. 26, in Vancouver was held in Chatham, Friday afternoon. Rev. J. M. McLean conducted the service at the house. The burial was at Riverside Cemetery.

The Methodist services on Sunday morning were conducted by Miss Bessie Scott, Field Deaconess, who gave an address on the Deaconess work of the church. The pulpit in the evening was occupied by Rev. S. B. Stothart of Sunny Brae. The pastor, Rev. H. C. Rice was preaching at the reopening of the church in Stilesville.

NO TIME TO LOSE.

Those who have not yet ordered The Family Herald and Weekly Star of Montreal for next year should do so at once. It is said there is a bigger rush of subscriptions than ever this year, and the publishers are earnestly urging their present subscribers to renew at once before the December and January rush. A new series of short stories is to commence next week and these alone are considered to be worth the whole year's subscription. At one dollar a year no better investment can be made than by ordering The Family Herald and Weekly Star for 1909.

Family Herald and Union Advocate both for \$1.50 per year.

S. OF T. ANNUAL MEETING.

Slight Falling Off of Total Membership, but Gains in Kent and Northumberland.

REPORTS RECEIVED.

Governor Tweedie and Premier Hazen Promise Consideration Of Prohibition.

The Grand Division, Sons of Temperance of New Brunswick, met in annual session in St. John, Nov. 2 and 3. In his annual report Rev. C. Flemington, Grand Worthy Patriarch, said:—"It is pleasing to note the earnest missionary spirit manifested by the workers in some of our district divisions. Kent-Northumberland district engaged the services of J. H. Roberts, who held very successful meetings at various points, and the Grand Worthy Patriarch then commissioned L. R. Hetherington, of Richibucto, and Rev. R. H. Stavert, of Harcourt, as special organizing deputies. Divisions were formed at Rexton, Coal Branch, Mill Branch and at Doaktown. At the latter place a division was organized by the G. W. P. H. H. Stuart, of Newcastle, had rendered valuable assistance by voice and pen.

"The Westmorland-Albert district division report all the old divisions in good order and one division re-organized. Much of the success of the work in the Westmorland-Albert district was due to Clarence L. Hicks, the D. W. P. St. John County district division had resumed work early last spring after a lapse of one year. Strong bands of hope had been organized during the year at Waterford and Lower Millstream.

Rev. C. W. Hamilton, Grand Scribe, presented his report. It showed that the membership had suffered a slight decrease, but some new members have lately joined.

The election of officers resulted as follows:—G. W. P. E. S. Hennigan, St. John; G. W. A. P. J. Sullivan, St. John; G. S. Rev. C. W. Hamilton, Salisbury; G. T. Joshua Stark, St. John; Grand Chap. Rev. R. H. Stavert, Harcourt; G. Con., M. J. Stoeves, Moncton; Grand Sen., Geo. Fawcett, Sackville; G. S. Y. P. W. Miss Kirby, Albert.

The report of the finance and audit committee showed a balance of \$412.86.

The committee on the state of the order regretted to state that there had been a falling off in membership. They suggested that the services of one or more good men be obtained for working towards the increase in membership. Good work had been done in connection with the Electoral Reform League and with the Temperance and Election League. Nothing had as yet resulted from the united efforts for the enactment of the provincial prohibition law. The committee recommended that the members endeavor to have the petitions in favor of prohibition signed as generally as possible. The good work of the superintendent of young people's work was noted with pleasure. The results from the district division of Northumberland and Kent were pleasing. There were on Sept. 30th, in that District eleven Divisions, with 567 members. District Division should be organized in all parts of the province where at all possible.

The report of the Kent and Northumberland District Division reaffirmed its position upon the liquor question, and demanded that the provincial

government submit to the electorate the question of prohibition of the traffic in alcohol for beverage purposes. The district requested the Grand Division to see that its effort along these lines was supported.

The report of the St. John County District Division said there were only four subordinate divisions now meeting, St. Martins, Granite Rock, St. George and Lorneville. The membership of the district was 195. The balance on hand was \$7.61.

Replies from Lieutenant Governor Tweedie and Premier Hazen in regard to a request for an appeal to the electorate for prohibition were read, promising that Prohibition would be considered at next session of the Legislature.

Moncton was chosen as the place for the next annual meeting and the fourth Monday in October, 1909 as the time.

The usual grants of \$10 each were passed to each district division for propagation work, and a special grant of the same amount was made to the Kent-Northumberland district for this purpose.

NEWFOUNDLAND ELECTIONS.

The Newfoundland Electors last week were very close. Of 33 seats the Opposition led by Sir Edward Morris, have won 18; Premier's Bond, 17, with 1 to hear from.

CONCERNING WOMEN.

Mrs. Frank R. Sturgis, of New York has given to the American Museum of Natural History, a fine collection of birds of paradise.

Miss Martha Van Rensselaer, of Cornell University, says that with the present cost of living, salaries of the majority of instructors are inadequate and they are obliged to give up house-keeping and board.

Queen Alexandra has put a stop to the stories that she wears alighters by an official statement that she does not, and this is enough to make it a matter of discourtesy for anyone else to wear the feathers of the ostrich in her presence.

A young woman from Aurora, Ind., went to Paris with a party this summer and came home very much depressed because of the lack of "style" in Paris. She says Chicago and New York are much superior in that some thing that women admire and call by the name of style.

King Alfonso is said to telegraph three times a day to his queen when she is away from home, and he joins her at the earliest opportunity, upon the whole the domestic lives of the rulers of Europe are a pattern for the rest of the world.

The taxpayers of South Nyack, N.Y., voted the other day on the proposition to bond the village for permanent improvement. The resolution in favor of issuing bonds to pave and lay cross walks on certain streets was carried by a vote of 25 to 18. Ten women voted in the affirmative and two in the negative.

Probably no reader has the least idea what is the total amount of imprisonment, to which offenders in England, are sentenced every year. The figures are remarkable. In round numbers, 950 people receive sentences of 2,300 years' penal servitude, and 15,000 people receive 16,000 years' imprisonment. That is a total of 20,300 years. What a fearful loss this is to the country? Not only have all these people to be fed, clothed, housed, and guarded, but they are practically idle—or, at least, their work is of little value. The great majority of them are in the prime of working life, aged from 20 to 60.

Mrs. Ryetop—John, how much time elapses between the second and third acts?

Mrs. Ryetop—The programme says six months, Maria.

Mrs. Ryetop (glances)—Six months John? Lands, we can't wait! Why, then, back what cakes I left to his will have gone clear through the roof by that time.

ABOUT THE HOUSE IN OCTOBER.

Sort over the fruit and vegetables stored in the cellar and remove the rotting specimens.

Get in a supply of firewood for the fireplaces. In cutting the trees always keep in mind the principles of forestry, and cut with a view to ultimately improving the remaining timber. Chestnut is the present staple, hickory is the best.

Overhaul the furnace now. Examine all smoke pipes for soot accumulation and obstructions, test valves for leaks and have them packed, cast radiators and be sure the safety valve on the steam furnace is working all right.

Get a winter supply of dry leaves for bedding and plenty of roof dust for the poultry dust bath.

Tackle the San Jose scale this month. Three commonly used remedies are whale oil soap, lime sulphur salt wash and the soluble oil. The last named process is the easiest and best. Cut out and burn as much of the infected wood as the tree will stand before applying the spray.

If the house is to be closed for the winter, be sure that all proceedings against frost have been taken. Empty all the water from water tanks and boilers and drain the pipes. All piping systems should be drained thoroughly at the lowest point. Empty traps and basins. Three things you will probably forget to protect from freezing are bottles in the medicine chest, jars of fruit in the pantry and the fire extinguisher.

The cellar should be cleaned thoroughly before it is closed up. If you are planning any buildings in the spring put in the foundations now to get an early start. Never work with concrete in freezing weather.

All ditching and drains should be completed this month. A new lawn should not be cut in the late season. The tender roots will need the protection of a grass cover. If you want a perfectly safe place for children to skate, dam up a brook to the height of a foot or so to flood a meadow. Such an arrangement is possible in almost any neighborhood.

Dogs that sleep outdoors should have a dry kennel. This may easily be accomplished by raising a few inches off the ground. A piece of carpet across the front will keep the wind out.

KEEP HIS VOW NEVER TO WORK FOR 25 YEARS

CINCINNATI, Wednesday.—"Colonel" James A. Murray, one of the city's most peculiar characters, died at the Branch Hospital at the age of 53 years. Twenty years ago Murray was the leader of a plumbers' strike and took a vow never to perform another bit of work if the union would not succeed. The union lost and Murray who up to that time had been an industrious and frugal workman, kept the vow, living off his wife and the indulgence of relatives.

Dark browns, greens and the blue, striped in sister tones and contrasting pleasingly with the higher shades of the same color found in the shirt and tie, will be in demand. The new exclusive dressers, however, will wear nothing but black socks this fall, unembellished, save for a handsome diminutive figure embroidered at instep.

Katherine, called the old gentleman from the top of the stairway, saw you still telling that young man good night in the vestibule.

Yes, pa, called back the stout daughter.

Well, don't you know you are wasting the light.

Oh, what's the difference, it is here that makes the world go round.

Yes, and it also makes the good mother go round.

Onch, barber, grasped the victim, nervously, there are several heads in that razor.

"The big barber swung the brush around savagely. Wait what do you expect in a 30-cent shave, suppose, gentlemen? he roared, "blow it out."

RHEUMATISM IN THE BLOOD

Liniments and Rubbing Will Not Cure It. The Disease Must be Treated Through the Blood.

The trouble with men and women who have rheumatism is that they waste valuable time in trying to rub the complaint away. If they rub hard enough the friction causes warmth in the affected part, which temporarily relieves the pain, but in a short time the aches and pains are as bad as ever. All the rubbing, and all the liniments and outward applications in the world won't cure rheumatism, because it is rooted in the blood. Rubbing won't remove the poisonous acid in the blood that causes the pain. But Dr. Williams' Pink Pills will, because they are a blood medicine acting on the blood. That is why the aches and pains and stiff swollen joints of rheumatism disappear when these pills are used. That's why sensible people waste no time in rubbing but take Dr. Williams' Pink Pills when the first twinges of rheumatism come on, and these speedily drive the trouble out of their system. Mr. John Evans, 12 Kempt Road, Halifax, N. S., says: "About three years ago I had an attack of rheumatism which settled in my right leg and ankle. Which became very much swollen and was exceedingly painful. I wasted a good deal of time trying to get rid of the trouble by rubbing with liniments, but it did not do me a bit of good. My daughter was using Dr. Williams' Pink Pills at the time and finally persuaded me to try them. Inside of a week the pills began to help me, and after taking them a few weeks longer the trouble had completely disappeared and has not bothered me since. My daughter who was taking the pills at the time for weakness and anemia, was also cured by them, and I am now a firm friend of this medicine."

Most of the troubles that afflict mankind are due to poor quality of blood. Dr. Williams' Pink Pills actually make new red blood. That is why they cure anemia with its headaches and backaches, and dizziness and fainting spells; the pangs of rheumatism, and the sharp stabbing pains of neuralgia; also indigestion, St. Vitus dance, paralysis and the ailments of young girls and women of mature age. Good blood is the secret of health and the secret of good blood is Dr. Williams' Pink Pills. Sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

RESOLUTION OF CONDOLENCE.

At the regular meeting of Division No. 5, A. O. H., Nelson, held on Nov. 4th, 1908, the following resolution was unanimously adopted:

Whereas it has pleased Almighty God in His divine wisdom to remove by death Michael English, father of our esteemed Brothers Martin and George English;

Be it resolved that this Division tender its sincere sympathy and condolence to Brothers Martin and George English, in this their sore bereavement and

Be it further resolved that copies of this resolution be spread on the minutes of the meeting and forwarded to Brothers English, and to the UNION ADVOCATE, North Shore Leader and New Freeman for publication.

THE APOLOGY.

He kissed her, and she made him go. But straightway called him back, And said he might apologize— So he took another little smack.

A RUDE YOUNG MAN.

Fair Maid—In this write up of the reception the society reporter praised my complexion.

Young Man—Sort of powder puff, eh?

Vinegar never catches flies, So the proverb maker wrote; And the sugarless candidate, Off falls to catch the vote.

Hix—Brown is certainly an oddity. How does he strike you?
Dix—For \$5, usually.

SLEEPLESS BABIES ARE SICKLY BABIES.

When babies are restless and sleepless it is the surest possible sign of illness. Well babies sleep soundly and wake up brightly. Sleeplessness is generally due to some derangement of the stomach or bowels or to teething troubles. A few doses of Baby's Own Tablets will put the little one right, and make it sleep naturally and soundly. Mothers need not be afraid of this medicine as it is guaranteed by a government analyst to contain no opiate or narcotic. Mrs. Louis Reville, Gawa, Ont., says: "I am never without Baby's Own Tablets in the house. I have used this medicine for my children as occasion required, for the last five years, and have found it superior to all other medicines in curing the ailments of childhood." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

TWO PRETTY GIRLS HELD AS PAIS OF HIGHWAYMEN.

BOSTON, Mass., Thursday.—Believing that they were the pals of the two highwaymen who figured in the sensational robbery of Ernest L. Jenkins, near Edward Everett Square, at Manchester, N. H., early yesterday morning, the police of the Dudley street station arrested two pretty girls in the south end today.

One of them has admitted that although she is but 17 years of age, she has already served a sentence of one year in New York City, and at police headquarters it is believed that both may be wanted by the New York authorities.

The names and descriptions of both women, who are refined looking and well dressed, have been sent to the New York police.

The women who gave the names of Gertrude Klehn, 17 and Loretta McCadden, 22, were found yesterday covering in a room at 38 Worcester St., by Agents Fitzgerald and Fitzgerald, and Special Officer Keene.

Beneath a bed in the same room and hiding behind a pile of dress suit cases, was found a young man, who gave the name of William F. Duncan. He was charged at once with being the bandit who escaped from the police during the sensational revolver duel between the officers and the highwaymen that followed the hold-up.

CATS TO SCARE SQUIRRELS

Three easterners came out to the coast a year and a half ago looking for a location, and the result of the venture was explained recently by H. J. Macomber, who arrived at the St. Francis and registered from Palacios Rancho.

They have just completed a \$25,000 dam a mile long and nearly 40 feet high, and the water for it is brought through seven miles of ditches from the Tres Pinos and the San Benito rivers.

The pest and the menace, and a man with a gun has to guard the dam to keep squirrels from puncturing it and starting a break. At the time a colony of cats has been placed to chase squirrels, and one of the men has advised a great number of little crosses with ribbons from the arms and a cross is set at each squirrel hole so that as the breeze blows the ribbons flutter and when the squirrel comes up it is frightened away.—San Francisco Chronicle.

Socks for the fall are offered in many color effects, but they are much lower in tone than those which have been in vogue during the summer months, and are designed especially to carry out the harmony of idea in dress.

Cobalt has made thirteen millionaires. With this clue it ought to be possible to find out where some of it went.

TAXICAB MECHANISM

Just What Should be Done to the Meter that's Working up in Front

Probably not one person in ten riding in a taximeter cab has any idea how the meter is manipulated. Of course, not all of these meters work alike. There is a general similarity in the mechanism.

In London taximeters have to be passed upon by three police officials before they are allowed to be placed in service, says Cassell's Magazine, and they have to be periodically tested.

It is not asserted that the record is infallibly accurate, but as a rule the advantage is slightly in favor of the passenger, and practices has shown sufficiently accurate for all practical purposes.

When a machine is engaged the driver moves the flag downward by means of the handle on the flagpost, and this movement causes the word "Hired" to be exhibited in place of the word "For Hire" on the main dial.

The initial charge is shown under Fare by means of a handle at the back the driver can then change for "Extras" such as additional persons, baggage, etc., an indication of these items being also shown on the main dial.

As each of the handles is moved a gong is sounded, so that the apparatus cannot be manipulated without the passenger's attention being attracted. When a journey is completed and fare paid the driver moves the flag up again, and the indications on the main dial disappear until the vehicle is again hired. The other handle at the back is for the purpose of winding the clock mechanism.

In addition to the items which effect the passenger, however, the apparatus also indicates the record of a day's work on a side dial, these indications, reading in order from the top downward in horizontal lines, being as follows:

1—This indicates the number of engagements, for each of which the initial charge has to be accounted for.

2—This indicates all the amounts received above the initial charge.

3—This indicates the total of all extras.

4—This indicates the number of miles travelled without a fare.

5—This indicates the number of miles travelled while engaged and therefore while earning a fare.

By means of these indications the earnings of the day and the work done can be readily computed.

RESOLUTION OF CONDOLENCE.

At the regular meeting of Division No. 5, A. O. H., Nelson, the following resolution was unanimously adopted: Whereas it has pleased Almighty God in His divine wisdom to remove by death, Miss Dennis Kirke, member of our esteemed Brother, William Kirke,

Be it resolved that this Division tender its sincere sympathy and condolence to Brother Kirke on this his sore bereavement.

Be it further resolved that copies of this resolution be spread on the minutes of the meeting, and forwarded to Brother Kirke and to the UNION ADVOCATE, the North Shore Leader and New Freeman for publication.

HARCOURT.

HARCOURT, Nov. 7th.—Mrs. Mildred Crocker has returned from a two week's visit to Millerton friends.

Mrs. Clifford McKay of Moncton is spending a few days at her old home in Trout Brook.

Ernest Buckenfield is home from Dalhousie Law School to spend the Thanksgiving holidays.

Yvonne Buckley of Rogersville was the guest this week of her aunt, Mrs. W. E. Buckley.

Miss Briggs and Mr. Langin of Chipman were guests during the week of Mrs. D. D. Johnston.

Miss Blanche Keith is spending the holidays with her parents here, are Miss Marion Dunn, of Mt. Allison Ladies College, accompanied by her friend, Miss Alice Boyer, is spending the Thanksgiving holidays at her home.

Miss Margaret Cash of Mt. Allison is the guest of Miss Jean Thurber.

Among those spending the holiday season at their homes here, are Miss Drusilla Smallwood, Messrs. Ernest Manaton, M. E. Dunn and Jas. Wathen.

J. Robinson Belyea is a guest for the week end of friends in Brown's Yard.

Mr. and Mrs. M. VanBuskirk went to Bathurst this week on a business trip.

J. W. Lutes has returned from a month's vacation at Berry's Mills. In his absence his office was filled by Mr. Mervin English.

Miss Jessie Miller of Chatham and Mr. Douglas Miller of Montreal, spent part of the week in the village, the guests of Mr. and Mrs. W. G. Thirner.

Mr. McMichael has removed to West Branch.

BIBLE SOCIETY MEETING.

The first public meeting under the auspices of the recently formed New Branch of the British and Foreign Bible Society was held in the Methodist Church here on Tuesday evening, October twenty-seventh.

Rev. Mr. Rice, assisted by Rev. Mr. Brown conducted the opening exercises. Mrs. Leard kindly presided at the organ.

The speaker of the evening was Rev. B. W. Cooper, M. A. of Toronto, Gen. Sec'y of the work in Canada. Mr. Cooper came to Canada from Bristol, England, about a year ago, and is successor to Rev. R. E. Welch, D. D.

In a clear and forcible manner, Mr. Cooper outlined the work of the Bible Society; viz.—to print the Word of God, to translate it into every tongue, to circulate it in every land, to establish the various branches of the Christian Church, it thus secures a broad, strong platform for every denomination.

To circulate the Word of God, so that every man may read it in his native tongue. During the past century, the Bible (in whole or in part) has been translated into more than four hundred (400) languages and dialects.

To supply all mission fields and stations with as many copies as are found necessary to carry on the work, free, or at prices far below the actual cost.

By the aid of colporteurs, to send the Bible into the wildest and most remote parts of the country; and by this means to reach thousands in places where actual missionary work is for the present impossible.

After giving many points of interest in regard to foreign work, special mention was made of the work the Society is doing in Canada where, at five different landing stations, foreigners, on consular to our shores, met by the agents of the Bible Society and presented each with a free copy of the Bible in his own tongue. Attention was drawn to the very important work to be done in lumbering and mining districts and to the very insufficient number of colporteurs at present employed.

The "Layman's Missionary Movement" has deeply stirred the churches of our Dominion. In consequence the offerings for missions have materially increased. As a result, a much larger number of missionaries will be sent out. More fields will be opened, more bibles will be needed. The Bible Society will strive, as ever, to meet the demand. It becomes necessary, therefore, that contributions for carrying on its immense work of translation, publication and distribution increase in a corresponding degree.

SUGGESTIONS FOR THE HOUSEWIFE.

Kid shoes may be kept soft and free from cracks by rubbing them once a week with a little glycerine or castor oil.

When brushing a room sweep toward the fireplace, otherwise the draft from the chimney draws the dust in that direction.

CONSUMPTION'S STARTING POINT

Lies in Weak, Watery Blood. Dr. Williams' Pink Pills Make the Blood Rich and Red.

Bloodlessness is the starting point of consumption. When your blood declines, your face grows pale, your appetite fails and your heart jumps and flutters at the least exertion or excitement. You are always weak and wretched, and lose interest in everything. This is the point from which you may easily step into that hopeless decline that leads to consumption and the grave. What is actually needed to bring back health and strength and energy is the new rich blood Dr. Williams' Pink Pills actually make. In all the world there is no other tonic medicine like them, and all who feel weak and easily tired should take these Pills at once, and regain new health.

Miss Ada Burke, The Range, N. B., says: "I feel that I cannot say too much in favor of Dr. Williams' Pink Pills. In March, 1907, I was attacked with whooping cough which clung to me for several months, and when the cough disappeared I was left weak and run down. All summer I was ailing, but when the autumn came I was again enjoying the best of health with a hearty appetite, good color and renewed energy."

If you want new health and new strength try Dr. Williams' Pink Pills. A fair use of this medicine will not disappoint you. Sold by medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville Ont.

REFORESTING IN FLORIDA.

The United States Forest Service will reforest about 3,000 acres of cut-over long leaf pine lands in Southern Florida, about twenty-five miles to the southwest of Ocala. After a careful study of the soil and forest-growing conditions here, the service has decided that the most practical method of doing this will be the planting of pine seed on the areas to be covered with trees, for starting the trees in a nursery and transplanting the seedlings in a field is not considered feasible because of the long tap roots produced by this species of pine, these roots rendering transplanting a

It's all very well to be polite and "speak the parting guest" when the guest happens to be the ice man; but how about welcoming the "coming guest," in the form of the coal man? Anyway, it's pleasant not to be compelled to entertain both of them at the same time.

It looks as if dollar wheat ought to be a permanent possibility when it is remembered that the 80,000,000 people in the United States will consume 360,000,000 bushels of the 98.5-000,000 raised this year. This is on the calculation of a per capita consumption of four and a half barrels.

ARTISTIC JOBWORK PROMPTLY EXECUTED.

Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

November 8, 1908. David Grieves for Absalom. 11 Sam. 18.

Golden Text: A foolish son is a grief to his father. Prov. 17:25.

If a preacher or a priest defends a creed which he knows to be untrue can his word be trusted in other matters? (This question must be answered in writing by the members of the club.)

Nov. 15th, 1908. The Lord Our Shepherd—Psalm 23. Golden Text—The Lord is my shepherd; I shall not want. Ps. xxiii: 1 Verse 1.—Does God personally shepherd each individual soul?

Does scientific research and our fuller knowledge of the vast net work of worlds, in the Universe, tend to weaken or strengthen, our faith in God's individual love and care for each person?

Does God "shepherd" and love sinners as well as the good? (Read Jesus' story of the lost sheep.)

May we learn of the reality of God's individual, and constant care of us, by "The practice of the presence of God," the same as we learn to think and see and do, almost everything else by practice? (This question must be answered in writing by members of the club.)

Is it possible, for a Christian, to depend upon God, the same as one depends upon a government bank note, and to always have the comfort of that dependence in the most trying circumstances?

Verse 2.—As a matter of fact do all who serve God, actually enjoy the bliss suggested by the figures, "He maketh me to lie down in green pastures; he leadeth me beside the still waters?"

Are Christians like sheep, sometimes full and lie down "chewing the cud of contentment," and at other times hunting for food or flying for protection from the enemy?

Verse 3.—In the struggle for existence, with men as with sheep, the soul gets tired and weary, and its strength exhausted; what and where, is the source for restoring this soul exhaustion?

What are some of the means which our shepherd takes to restore our exhausted strength, to increase our faith and revive our flagging energies?

A hungry sheep is not troubled with "righteousness," but will take food which belongs to another; contrast this with the way in which God leads the Christian.

Our shepherd leads the soul in paths of righteousness; now if one be found in the paths of unrighteousness, is that, or not clear evidence that he is a wandering sheep, not under control of the shepherd?

Verse 4.—The shepherds in Palestine often had to lead their sheep, through ravines, where death lurked in the shape of wild beasts and other dangers; do Christians today, have to pass through similar dangers, and what are some of them?

Is there any part of the journey of life, from the start out in the morning until we reach the sheep fold at sunset, which is not beset with dangers?

What is the guarantee that the "shepherd" will destroy that which destroys the Christian, and take him home to the fold in perfect safety?

When our shepherd finally leads his sheep "through the valley of the shadow of death," which leads to the "better country," what is invariably their experience?

How do you account for it, that when rebellious men come down to die they are paralyzed with fear, for the future, while the children of God fear not, but are comforted?

Verse 5.—In the evening time of life, what are the peculiar enemies which God's sheep have to face?

In the presence of old age, failing physical and mental powers, eye sight and hearing gone, "the pains of death" gripping him, what sort of a table does God spread before the departing saint?

Verse 6.—What blessing answering to "goodness and mercy" follow the Christian all the days of his life, as contrasted with the experience of those who live in rebellion against God?

Is the life of a faithful servant of God, always a triumphant one? What is "the house of the Lord" in which the Christian will live forever? Lesson for Sunday, Nov. 22nd, 1908.—Solomon Anointed King. 1 Kings 1:1-12.

AMERICAN HONORED BY JAPAN.

Professor Miss Abby Leach Receives Golden Cup from the Mikado.

BROCKTON, Mass., Wednesday.—Prof. Abby Leach of Vassar College, Poughkeepsie, N. Y., whose home is in this city, has received the golden cup presented as a mark of especial favor by the Emperor of Japan. The distinction is one which comes to but few, and never before to an American woman, and it is indicative of the high regard in which Prof. Leach is held in educational circles.

The presentation of the cup to Miss Leach was made when Consul-General Midzuno of New York, and the vice-consul called upon her at Vassar College, and formally presented the cup. The consul-general made a speech in presenting the box containing the cup, in which he stated that it was a time honored custom of the Emperor of Japan to present cups of gold or silver or lacquered cups for meritorious service. Miss Leach responded, expressing her gratitude and appreciation of the honor conferred.

The cup is of solid gold. It is of a very heavy and graceful design. It was draped in a doubled square of Habutai silk, which is made only for Imperial use. The box which contained the gift is of chrysanthemum wood, "panlownia imperialis." Upon the cup is to be seen the emperor's coat of arms.

The presentation of the cup by the Mikado came about through Viscount Kaneko, who is now one of the emperor's privy council and who is a graduate of the Harvard Law School. He was the special envoy of the emperor to this country the year of the Japanese-Russian war.

Miss Leach has received an invitation to a reception to be given at the Hotel Astor in New York next Thursday, to participate in the celebration of the birthday of the emperor of Japan, which occurs on Tuesday.

Last May it was announced that Miss Leach had been honored by the Emperor in the presentation of this cup, and since that time it has been in preparation and on the way from Japan to America.

During May, shortly after the announcement Miss Leach was the guest of honor at a dinner given at the Hotel Astor, New York, by Consul-General K. Midzuno. Twenty covers were laid, and one of the special guests of the occasion was Baron Takahashi, Japanese ambassador to the United States. The majority of the others were Americans in or near New York, who have received decorations at the hands of the Mikado. Most of those present wore the jewel of the Order of the Rising Sun, the most costly and beautiful emblem given by the emperor.

Miss Abby Leach was born in this city, then North Bridgewater, and is the daughter of Marcus Leach, a pioneer shoe manufacturer of this city who is now retired. Her mother was Eliza Charles Bourne-Leach. As a child Miss Leach showed an unusual aptitude for learning. She attended school in the old building, which has since been replaced by the brick building on Quincy street. When but a little more than ten she entered the Brockton high school. She has graduated. She is at present a member of the fellowship committee of the American school at Athens and vice-president of the school and college organization of the middle states and Maryland. She has been a frequent contributor to philological journals and has given many addresses before public schools and clubs.

Miss Leach has been abroad four times. She spent a year—1886-1887—at the University of Leipzig and she has travelled extensively in Greece, Italy and Sicily.

In 1869 she entered the Oread, a boarding school in Worcester, and two years later graduated. After that she taught school in Worcester for several years, and from 1876 to 1878 was preceptress of the Oread. She was the first student at the Harvard Annex from 1876 to 1882, and when it became known at Radcliffe College she was instrumental in its reorganization. This was due in part to her proficiency through private courses which she had taken with Harvard professors.

As there were no degrees given at Radcliffe she took the degrees of bachelor of arts and master of arts at Vassar, and in 1889 was made a full professor. She has been president of the College Alumnae.

OTTAWA, Ont., Thursday.—Mr. R. L. Borden will probably go to England for a short visit, it is stated here. The matter has not yet been definitely arranged.

THE HIPPOCRATIC OATH.

What Every Conscientious Physician Undertakes to do.

"First and last, day and night, he who has given himself to the cause of medicine sees the most sordid, the most filthy, the most pitiful, side of humanity," says a writer in Appleton's Magazine. "His training is in the slums, where the elements of life may touch even the lowest and basest. His service is demanded in sickness, and in pain, and his final act as irrevocably as the rising of the sun, is to close the eyes forever of others, even perhaps those whom he brought into the world. He is the possessor of secrets, the repository of sorrow."

"Into whatever house I enter, I will go for the benefit of the sick. With purity and holiness I will pass my life and practice my art. So ran the oath administered by Hippocrates to his students almost five centuries before Christ, and so still stands today the physician's ideal. Medicine, then, partook of a character of holiness, for the student, too, swore to reckon him who taught me this art equally dear to me as my parents, to look upon his offering in the same footing as my own brothers and to teach them this art. If they shall wish it, without fee or stipulation."

"Can anyone today with an inkling of the life of the disciple of medicine, doubt that the spirit of this ancient oath is rigidly observed in its practice, or that, as Hippocrates dictated 2,500 years ago, 'Whatever in connection with my professional practices or not in connection with it I see or hear in the life of men, which ought not to be spoken abroad I will not divulge as reckoning all that should be kept secret?'"

BOYCOTT AGAINST JAPAN.

Rioting at Hong Kong—Singapore Merchants Who Favored Japan Maltraited.

HONG KONG, Wednesday.—Rioting which resulted here yesterday from an attempt of those involved to force the local merchants to continue the boycott against Japanese goods, has been suppressed by the soldiers who were called out to patrol the business districts. One Chinese who offered a firm resistance, was shot.

The riots were organized primarily by the students of this city and the disturbance is evidently widespread.

At Singapore similar riots have occurred and a number of merchants said to have shown a desire to discontinue the boycott and otherwise favor Japan have been branded as traitors and in several instances marked by having their ears split. It is alleged that a league has been formed secretly and has pledged itself to give any man who splits the ears of a so-called traitor fifteen dollars, and if he should be thrown into jail, to see that he is held up to the public as a martyr and to pay him a dollar a day while in prison. Should one of the traitor merchants be killed, it is alleged, the league agrees to pay his slayer \$200.

At Canton there have been hints of the same trouble and a number of ruffians have been hired to attack merchants. Vigorous measures to suppress the rioting have been taken.

The Campbellton Tribune, which is largely a reprint from that Tory political sewer, the Fredericton Gleaner, publishes a despatch to that paper from Montreal in reference to the reconstruction of the Liberal cabinet. This interesting article states that "Today it is intimated that in the reconstruction, which is generally admitted, will follow, the portfolio of Millits, will be transferred from Nova Scotia to New Brunswick, and that Col. McLean, whose great activity since the elections have been marked, will be the lucky man."

"Cabinet ministers who are likely to go out are Brodeur, Sir Frederick Borden and Mr. Pugsley, but these vacancies will be made by appointments to other positions outside the administration."

"The weakness in the party was pretty well shown in the campaign, and it is generally admitted that had it not been for Sir Wilfrid's strong personality, and the influence of his special appeals, his party could not possibly have come through the elections successfully."

That there is not a particle of truth or probability in the above assertion, is well known to the majority of the electors. It does not seem likely that Hon. Mr. Pugsley, who has now the "banner province in the Dominion" from a Liberal standpoint, will be set back to a secondary position, neither does it seem reasonable that Hon. Mr. Brodeur, who was elected by acclamation, would be set aside for another. These are two matters which the electors certainly settled in the elections of the 26th of October. Hon. Mr. Pugsley and Hon. Mr. Brodeur will both remain in Sir Wilfrid's cabinet.

DEER IN A ROLLING MILL.

As a Result One Thousand Men Were Idle Several Hours.

SAULT STE. MARIE, Ont., Tuesday.—A frightened deer dashed into the rolling mill at the plant of the Algoma Steel Co. today and leaped into the rolls, which were turning out steel rails. As a result, 1,000 men were idle several hours.

A buck and doe emerged from the river near the plant and wandered about the yards. When a yard engine came steaming by the buck deserted his companion and plunged into the river again, but the doe, trembling with fright, dashed for the mill, rushing along the track and leaping over the heads of the startled workmen, she landed on the steaming rolls and was so badly injured that she had to be killed. The doe was one of the finest specimens ever seen in the north country.

AUSTRALIAN RAIN

When it Does Fall it Pours Down in a Perfect Flood

How different things are in the old world from what they are in the far-away tropics!

"They have no rain here for a fortnight, and they called it a drought!" wrote an Australian from Scotland in a scornfully superior tone calculated to induce the belief that it never rains in Australia and that droughts last a hundred years. Not so. Australia is the land of contrasts. A drought has lasted for seven years. But what is there even in Scotland to compare with the persistency of Australian rain when it does see fit to fall?

For eleven weeks without stopping did the rain continue to moisten the dry places of Sydney some years ago, was out most cruelly the brief, bright season of winter, when the Australian looks for living instead of existence and peace instead of pressure. And what rain! It shot from the clouds like arrows, and the whole world was a battlefield during that July. As the arrows darted into the earth, the earth rose and dashed into the air, and rain and mud met, and grappled with each other day and night week after week. And the battle was neither to the rain nor to the mud. A strange and horrid situation arrived—Sydney ran clean out of galloches.

For two weeks not a galloche was to be had in the rain drenched city for love or money. Then a fresh ship load arrived from somewhere or other. And then the rain stopped—London Mail.

Perhaps nothing is calculated to worry a pessimist more than the noise made by people who shout for joy.

THE FEAST OF YULE.

It was Pope Telesphorus, who died before the year 160 A. D., who instituted Christmas as a festival, though for some time it was irregularly held in December, April and May. But for centuries before there had been a feast of Yule among the northern nations, whose great enjoyment was in drinking the wassail bowl or cup. Nothing gave them so much delight as indulging in "carousing ale," especially at the season of the short days, when fighting was ended. It was like the custom of all feasts "for the master of the house to fill a large bowl or pitcher, to drink out of it, first himself, and then give to him that sat next, and so it went around." This may have been the origin of that popular American custom known as "treating."

DOCTORS SAID "CUT OFF!"

"The only thing I can do now is to take the finger completely off. It cannot otherwise be cured." So said one of the leading doctors of Toronto to Mr. W. C. Edwards, P.D.C.E.A.O.F., P.G.M.I.O.O.F., the well-known Friendly Society leader, of Peter Street, Toronto. Almost a year before, Mr. Edwards cut the middle finger of his left hand very badly and blood poison ensued. For two months the doctor had been treating him, but no good had resulted, and this was the final decision. A fifty-cent box of Zam-Buk saved Mr. Edwards from life-long mutilation which \$500 would not have compensated him for. He says: "The blood poison from the finger spread up my hand and arm and caused me terrible agony. After months' treatment the doctor said there was no cure, and amputation would have to take place if I intended to save the arm. My hand, at that time, was all swollen up and discolored, and I had to carry it in a sling. I left that doctor and consulted another. After a few weeks' treatment he also told me that operation would be necessary, and the finger would have to be opened so that the bone could be scraped. I went away to consider when I would have the operation performed, and got a friend who advised me to try Zam-Buk. That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the first time for many nights. In the morning the wound began to bleed instead of the foul discharging as in the past. This was a healthy sign so I went on with the Zam-Buk. Well, to cut a long story short, in a few days I put away the sling and in a few weeks the finger was healed completely. To-day that finger is as sound as a bell and I owe it to Zam-Buk."

KILLED IN PANAMA.

Twelve Men Lost Their Lives in Explosions on Canal.

WASHINGTON, D. C., Saturday.—Information reached the Isthmian Canal offices in this city today concerning two explosions of dynamite that occurred on the canal on October 15th, whereby twelve men were killed and eighteen were injured. The first explosion was at Culera Cut, near Empire, where five men were killed and eight injured, and the second at Mendez, where seven were killed, ten injured and one missing. All of those killed and injured at Culera Cut were negroes, excepting W. J. Davis, an engineer, and George Goodley, a crane man.

Stanfield's Underwear
fits perfectly because each garment is made to fit an individual type of figure.

After it is finished and goes to the laundry for its final washing, each garment is tested on models ranging from 22 to 50 inch bust measurement. Thus the size is determined accurately. And the size as marked is exact, and stays so, because Stanfield's Underwear can't shrink nor stretch.

Your dealer will likely have all sizes and weights. If not, he can get them for you.

S. OF T. MEET AT LOGGIEVILLE.

Last Quarter Reported Best in the Three Years History of The District.

557 MEMBERS.

Strong Resolution in Favor of Referendum on Provincial Prohibition Reaffirmed.

The twelfth annual session of the Kent-Northumberland District Division, S. of T., was held in the public hall at Loggieville on Wednesday afternoon, October 28th, 1908.

The officers and delegates present were:

Harcourt.—Rev. R. H. Stavert, D. W. P., Miss Blanche Wellwood and Miss Deborah Lamkey.

Newcastle.—Thomas A. Clarke, D. W. P., and H. H. Stuart, district scribe.

Burnt Church.—Mrs. William Anderson, and Miss Rachel Loggie.

Bay du Vin.—Mrs. Fred W. Williston and Miss Mary Williston.

Loggieville.—J. W. S. Babkirk, Albert Loggie, Miss Katie Loggie, Miss Evelyn Russell and Mrs. James W. Johnston. Besides, there were many visiting members from Loggieville Division.

The following committees were appointed:

State of Order.—Mrs. William Anderson, Albert Loggie, Mrs. J. W. Johnston and Miss Wellwood.

Political Action.—H. H. Stuart, T. A. Clarke and J. W. S. Babkirk.

Program.—Misses Irene Loggie, Bertie Loggie, Evelyn Russell, Deborah Lamkey, and Messrs. W. W. Hetherly and Earl Walls.

The district worthy patriarch reported that John H. Roberts had been employed by the executive for four weeks, beginning August 23rd, and as a result, five new divisions had been organized, four in Kent, and one in Northumberland. He had organized a Division at Beersville, Sept. 30, with 19 members; at Coal Branch, Oct. 1st, with 21; and at South Division, Oct. 2nd, with 15. Rexton Division had been organized in September, and Doaktown on Oct. 8th. Also, several new branches of the W. C. T. U. had been organized in Kent Co.

The report of the district scribe showed that the quarter just closed, was the most prosperous in the three years' history of the district division. While Millerton division had not reported to the grand division for two quarters and was presumably dormant, and Chatham division had not been re-surveyed, and Newcastle division had not met during most of the summer, yet there had been a net gain during the quarter of two divisions and 31 members. The total membership in September was 557, the largest ever reported to this District Division.

Besides the two new divisions above mentioned, the three organized early in October were the direct result of propaganda work completed in September. The report expressed the opinion that a permanent organizer would greatly help the cause of the Order in the province. Wherever any special temperance effort had been made the results had been beneficial. Scott Act enforcement was at a low ebb in the towns of Chatham and Newcastle, where very little effort was noticeable on the part of the authorities to put a stop to the frequent violations of the

law. Before the Temperance people can impress upon the Government that it is unsafe to longer refuse a Provincial Prohibition Act, the former must show the Government that they (the Temperance people) really mean business and are not only willing but able to punish at the polls any party that will not give the desired legislation. The present Government, like its predecessor, ignores the repeated demand for Prohibition, and until the advocates of Prohibition, demonstrate their political strength, this will continue to be the case. There is evidence that, at last, the Temperance people of New Brunswick are becoming thoroughly awakened, and the cause of the liquor dealers is doomed.

Report was adopted. The report of the committee on the state of the order, which was adopted, showed that the membership of the district division on Sept. 30th, was as follows:

KENT COUNTY.
Harcourt 91
Richibucto 66
Grangeville 63
Bass River 51
Rexton 32
Rogersville 19
Total 322

NORTHUMBERLAND COUNTY.
Bay du Vin 75
Newcastle 54
Douglastown 41
Loggieville 38
Burnt Church 27
Total 235

The committee on political action, reported as follows:

Loggieville, Oct. 28. Officers and Members, Kent-Northumberland Division, S. of T.: Your committee on political action recommend:

(1) That this district division reaffirm its position on the liquor question taken at Richibucto, May 7th, 1908, and Bass River, July 27th, 1908, and demand that without further unnecessary delay the provincial government submit to the electorate the question of provincial prohibition of the traffic in alcoholic liquors for beverage purposes.

(2) That this district division request the grand division of New Brunswick, about to meet in annual session, to take whatever steps may be deemed necessary to second our effort in bringing the above matter to the attention of the provincial government.

(Signed) H. H. Stuart, Thomas A. Clarke, J. W. S. Babkirk.

This report was received and adopted unanimously, and notice thereof ordered sent to the local government and the grand scribe.

Rev. R. H. Stavert, submitted the report of John H. Roberts' expenses.

\$18.00 raised by Harcourt Division leaving \$18.08 to be still made up.

The report was received and adopted. On motion of T. A. Clarke and H. H. Stuart, it was resolved that the funds of the District Division should be held available for making up the balance due the District Worthy Patriarch if the executive should find it necessary to use the same.

The motion of T. A. Clarke, that the banner now held by Harcourt Division be awarded at end of each year to Division securing largest number of new members during the year, instead of to the one having largest membership at end of the year, was lost on the casting vote of the chairman.

The next meeting will be at Harcourt on the third Wednesday of January. Adjourned.

PUBLIC MEETING.
The public meeting in the evening was attended by nearly 200 people. Several splendid selections were rendered by the choir. Recitations were finely rendered by Misses Hilda Babkirk and Blanche Wellwood, Mrs. Barbour Williston delighted the audience with the singing of Loch Lomond, and addresses were given by Rev. H. J. Fraser, J. W. S. Babkirk, T. A. Clarke, H. H. Stuart and Rev. R. H. Stavert.

Rev. Mr. Fraser severely condemned the keeping of a bar in the House of Commons.

Ex-Alderman T. A. Clarke, of Newcastle, said that the Scott Act was not as rigidly enforced in Newcastle as it should be. The enforcement rested largely with the Town Council. For two years there had been a strong Temperance Council, and the lid was kept on pretty tight. But the voice of the people at last election had relegated the "fanatics" to the background and elected men not noted for their temperance sympathies—men who would not demean themselves by having their names connected with temperance. In one year the last Council would have put the liquor dealers out of business. But at the election the two years' good work had been thrown away.

All the speakers were listened to with the greatest interest. The offering was \$7.18.

It isn't so difficult to strengthen a weak stomach if one goes at it properly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the Stomach or stimulating the Heart or Kidneys is surely wrong! Dr. Shoop first pointed out this error. "So to the weak or ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fail then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by all dealers.

ANOTHER LIBERAL ELECTED FOR B. C.
VICTORIA, B. C., Thursday.—Stone, Liberal, was elected by acclamation yesterday in Comox-Atlin, B. C.

JUSTICE HAS TO BE PAID FOR.
Some foolish people were boasting before Charles Fox, of the excellency of the English laws. He said that there were some present objections. "How?" replied the others. "The law is equally open to the peasant and the peer!" "Yes," said Fox, "and so is the London tavern." Their inference is obvious; if you can pay you can dine. When we talk of the equality of all men before the laws, we are often mistaken; "summus jus, summa injuria."

SAVED BY A SPIDER.

Had It Not Dropped into His Chocolate Frederick The Great Would Have Been Poisoned

On the ceiling of one of the rooms of Sans Souci, the world-renowned palace of Frederick the Great, is painted a great spider with its web. The origin of this strange decoration is as follows:

This apartment was the great king's breakfast room and adjoining this bed chamber. Every morning when his majesty entered the room he was accustomed to find a cup of chocolate, but on one occasion as he was about to drink, he bethought himself of something he had forgotten and returned to his bedroom.

When he again returned to the breakfast room his majesty discovered that a great spider had dropped from the ceiling into the cup. And he naturally cried out for fresh chocolate to be prepared.

The next instant the king was startled by the report of a pistol. No sooner had the cook received the order than he blew out his brains. Not because the King had refused the chocolate did he do this, but because he had poisoned the cup and had thought himself discovered. It was in remembrance of this narrow escape that His Majesty ordered the spider with his web to be painted on the ceiling.

NEWFOUNDLAND ELECTIONS.

HALIFAX, N. S., Thursday.—Returns from Newfoundland show gains for the government in the outlying sections, and they now have a lead, but eleven seats are yet to be heard from.

The standing of the parties at present is: Carbonear, 1 government; Harbor Grace, opposition 2; government 1; Harbor Maine, opposition 2; Southern Shore, opposition 1, government 1; Bay de Verde, opposition 2; Port de Grave, opposition 1; St. John's east government 3; St. John's west, opposition 3; Burin, government 2; Trinity Bay, opposition 1, government 2; Placentia government 3.

Seats yet to be counted are, Fogo, St. Barbe, Fortune Bay, Burego, Bay St. George, Twillingate, (three seats) and Bonaventure (3 seats).

The first figures from Fogo are favorable to the government, which is now 13 seats to 12 of the opposition. Father (age 50)—At your age a man thinks he knows everything. Son (age 21)—Yes, and at your age he knows he does.

A clergyman writes: "Preventives, those little Candy Cold Cure Tablets, are working wonders in my parish. Preventives will surely check a cold, or the Grippe, in a very few hours. And Preventives are so safe and harmless. No Quinine, nothing harsh nor sickening. Fine for feverish restless children. Box of 48 at 25c. Sold by all dealers."

FREDERICTON, N. B., Friday.—A Urquhart, of Covered Bridge, parish of Stanley, is in jail here charged with causing the death of another boy by the name of George Clary at that place on October 16th.

Read the pain formula on a box of Pink Pain Tablets. Then ask your Doctor if there is a better one. Pain means congestion—blood pressure somewhere. Dr. Shoop's Pink Pain Tablets check head pains, womanly pains, pain, etc. Try one and see! 25c. Sold by all dealers.

TRADE IS REVIVING.

Return of Customs Revenue for October.

OTTAWA, Ont., Thursday.—The customs revenue of the Dominion for October shows a considerably smaller falling off, as compared with the same month of last year, that has been the case for six or seven months past, indicating that the expected revival in trade is beginning to be felt in the increasing orders for imported goods.

For the month the customs revenue was \$4,316,473, as compared with \$4,330,021 for October of last year, a decrease of \$13,558. For the first seven months of the present fiscal year the customs revenue has totalled \$27,179,191, a decrease of \$3,162,575. For the balance of the fiscal year it is expected that there will be a steady betterment in the monthly statement of the customs revenue.

A contemporary, forgetful of its Latin, says that a Pompeian fresco was found in the house of a woman named Septimia. A woman with a name like that must have been either a man or a suffragette.

After suffering eight years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. A. D. Trudeau, Annapolis, Ontario, writes to Mrs. E. Pinkham: "I suffered terribly from ulceration of the feminine organs for eight years. I tried four doctors but got no relief, and thought I would have to die."

"One day I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in the paper. I sent for some, and before I had used five bottles I was entirely cured. I hope every suffering woman will take my advice and use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if you need advice about your sickness. She will treat your letter in confidence and advise you free. Because of her vast experience she has helped thousands. Address, Lynn, Mass.

SPECIAL MEETING.
Major Phillips and Major McGillivray of St. John will conduct a special meeting in the S. A. Hall on Monday, Nov. 16th, at 8 p. m. At this meeting the new colors will be presented to the Corps. An invitation is extended to all to attend.

A delegation from the Miramichi Exhibition Association, consisting of Messrs. R. A. Murdoch, George Hildebrand and J. P. Benson, went to Fredericton, last week, to interview the Government in regard to the proposed Exhibition grant. The Government promised consideration.

FRATERNAL VISIT.
The Sons of Temperance Lodge, which was organized at Rexton, a short time ago, with 22 members, has now a membership of 73. Wednesday evening a number of the members paid a fraternal visit to the Richibucto Division. The visitors were well entertained.

JOSEPH CAIL.
The death occurred at his home at Ford's Mills, Kent Co., Wednesday night, of Joseph Cail, who was 76 years of age. He is survived by a widow, who was a Miss Farrer, one son, William Cail, of Ford's Mills, and five daughters, who are Mrs. Wm. Irving of Munderville, Mrs. Whitney of Fine Ridge, Mrs. Wm. McWilliams of Ford's Mills and Mrs. Frank Graham and Mrs. Howard Lawson of Main river. The remains were interred at West Branch.

The Power Stock Co., played in the Opera House all last week to good crowds. Heretofore the Power was ably supported by Wilbur Synmonds, Dan Malloy, Charles M. Bessie Beaumont, Minnie Gordon, Louise Robinson, A. M. Brunet, Jack Mack, Bradley Haskell and others. The acting was good and the audience was kept amused between the acts. The company will return for a couple of nights next week.

NEW PASTOR FOR REDBANK.
Rev. E. E. Mowatt, who for a number of years was in charge of Presbyterian Church, New Maryland, York Co., and vicinity, and who has lately been pastor at Stanley, has been given a call to Redbank, Northumberland county. The salary is \$800 and a manse. Rev. Mr. Mowatt, who is a son of Rev. Dr. Mowatt of Evershire Church, Montreal, and for a number of years pastor of St. Paul's Church, Fredericton, will likely accept.

AMERICAN POTATO MARKET.
The New York market showed a decidedly firmer tone at the close of business last week over the previous week. Several cargoes of foreign potato shipments were received, but they made little impression on the New York market because of their poor quality. The stock from Maine still holds the call and at a price in advance of any other shipments. Because of this condition of affairs, the price advanced ten cents here this week, \$1.60 being paid by the dealers at the C. P. R.—Aroostook Pioneer.

YOUNG URQUHART WAS ACQUITTED.
Fredericton, N. B., Nov. 6.—The end of the Urquhart case was reached in the police court this morning when Col. Marsh discharged the prisoner from custody. The magistrate said the evidence showed that the abducting of Geo. Clary was accidental, and that no motive for the commission of a crime had been disclosed. H. B. Ramsford, who conducted the prosecution, said he concurred in the magistrate's decision and young Urquhart was given his liberty. O. S. Crockett, M. P., conducted the case for the defence.

It is probable that the Campbellton and Dalhousie, N. B., schools, will shortly introduce Manual Training, and combine to secure the services of a teacher who will give a proportionate time to each school.
The Bathurst Village schools have been thoroughly renovated and supplied with new blackboards, school desks and other furniture, at a cost of over \$500.00. Other improvements to the grounds are projected for the next season. Mr. P. Oldwood, the principal of the superior school, is doing excellent work. A correspondent speaks of the trustees as "men imbued with a due sense of their responsibility, and with energy enough to convert it into practical potential activity of the highest type."—a class of trustees that we should all like to see directing our schools.

Carload of assorted apples to arrive this week.—GEORGE STABLES.

The case of Miller vs. Hill was dismissed by the Police Magistrate, last week.

The Chatham Scott & Co. Inspector's report for October shows six convictions, all for first offence.

DISASTROUS FIRE.
Fire in Millerton, N. B., Friday morning destroyed three buildings and caused a loss of about \$7,000.

HAS BECOME LAW.
The amendments to the Workmen's Compensation Act passed at the last session of the legislature became law last week.

In his sermon Sunday night, Rev. Geo. Wood of Chatham declared that in that town twenty men and women were openly violating the law and though some places were opened almost day and night, the greatest offender had only been fined twice since April.

The Moncton Orangemen and True Blues had a monster parade to the Baptist church on Sunday last, where they were addressed by Rev. Mr. MacLachy. Several other clergymen assisted. Alexandra Lodge, L. T. B. A., Newcastle, was represented by H. Wyse.

Rev. H. C. Rice returned on Thanksgiving night from Stillsville, Westmorland County, where he went to conduct the services at the reopening of the Methodist church there. His services were taken here by Miss Bessie Dick, Field Deaconess, in the morning and by Rev. H. S. B. Stothard of Sunny Brae at night.

THE NEXT EXHIBITION.
The executive of the Fredericton Agricultural Society held a meeting on Thursday afternoon and appointed a committee to urge upon the authorities at Ottawa through Mr. N. W. Brown, Fredericton's claims for the Dominion Exhibition grant for 1909. A committee was also appointed to wait upon the government and ask for a provincial grant.

WHO'LL WIN THIS PRIZE?
The Chief Superintendent of Education announces the offering of a prize amounting to about \$500 by the Norwegian Government, as what is known as the Nobel Peace Prize for 1909. The award will be made for the best essay on the subject of the promotion of world peace and those who may compete for the prize include members of parliament, university professors of political science, law, history and philosophy and others.

CIVIL CASE BEFORE THE GLOUCESTER COURT.
The November session of the county court opened in Bathurst on Wednesday. His Honor Judge McLatchy presiding. The business consisted of one civil case, viz Joseph Poirier vs. Joseph Arsenault. The case occupied about three hours and resulted in the plaintiff getting judgment for one hundred and sixty-five dollars and forty-seven cents. N. A. Landry for the plaintiff and J. P. Byrnes for the defendant.

WORKMAN WINS SUIT.
The case of Jean Baptiste Henry against Mr. Thos. Malcolm was decided yesterday by the Supreme Court at Fredericton. This was an action for damages under the Workmen's Compensation Act for injuries sustained by the plaintiff while employed on the International Railway, and was referred to the court bench by Judge Landry. The full bench that a rock cut on a railway in course of construction was not a quarry, and instructed the trial judge to fix the amount of damages at any amount, not exceeding \$1,000, which would be equivalent to three years' wages.—Campbellton Tribune.

VALUABLE PROPERTY TRANSFER AT DALHOUSIE.
Mr. Fred Ritchie, representing the New York capitalists has closed a deal with Mr. W. S. Montgomerie, by which the site in Dalhousie formerly owned by the Restigouche Woodworking Company, Ltd., as well as all the water privileges owned by the Montgomerie Lumber Company, The amount paid has not been made public, but street rumor places the figures at \$15,000. It is understood that the company will build a modern shingle mill and also a planing mill.

FAREWELL ENTERTAINMENT.
The members of Alexandra True Blue Lodge No. 191, assisted by a number of friends, gave a reception in True Blue Hall on Thursday night to sisters Abigail Stewart and Elizabeth G. H. Dick, who were about to leave for Massachusetts. The program consisted of speeches by Mr. and Mrs. H. Wyse, Mr. and Mrs. Thos. Jeffrey, Misses Stewart and Dick, Jas. J. Stewart and H. H. Stuart, a solo by Capt. Moore (S. A.), and recitations by Capt. Andrew (S. A.), and H. H. Stuart. After this part of the entertainment, supper was served, a very enjoyable time being spent, shadowed only by the knowledge that two of the most faithful and popular members of the Lodge were going away for the winter.

AMATEUR-A HEAVY WEIGHT ROOFING.
The resisting ability of a roofing depends largely upon the amount of material there is in it—not upon the thickness nor upon the number of layers, but upon the actual density of the roof—that is upon its weight. A light weight ready-roofing may be as thick as Amattite, but if it is not as heavy roll for roll, it can't have as much good stuff in it. Amattite weighs as much as roofings that cost three times its price.
