MR. M. A. KELLY ANSWERS TRIBUNE

Three Candidates for the Office of Mayor and Wards Getting into Line.

Not for a great many years has there been so much interest in civic matters as this year. The fact that at this early date there are three prominent citizens offering for the office of Mayor assures a keen election contest.

Count C. A. Alexander, Mr. W. H. Wallace and M. A. Kelly, Esq., are the aspirants. The three gentlemen are working hard and no doubt a large vote will be brought out.

Tuesday next is nomination day and it is expected that before the nomination day there will be a large turnout of voters in some of the wards for Ward Councilors, but at the present time only enough gentlemen are spoken of to make a complete board.

In Ward I, Count Alexander and Mr. H. J. Currie are the likely candidates. Ward II, Count James Patterson and John Quinn are again in the field.

Ward III, Count D. Champoux and Count Bruce McNeill have signified their intention of offering.

For Councilors at Large Counts W. H. Miller and Ex-Coun. Chas. Goss will offer.

My citizens regret that Count W. H. Miller, who has for many years so faithfully worked in the town's interests could not be induced to offer as Mayor. Had he been prevailed upon to do so, we were sure that he would have been elected by acclamation.

During many years, Dr. Murray, M. D., while Mayor of Campbellton provided himself with a very efficient administration and many think that at this time in Campbellton's history he would be a very useful man on the Council.

Ward IV, Mr. Wallace is being pressed to allow his name to be placed on nomination day. Should he decide to offer, he would be a very useful man on the Council.

Many other names are being mentioned, but so far nothing definite has been announced.

Editor Campbellton, N. B., April 3, 1918.

Dear Sir:

In reading the Tribune yesterday I see that the Editor wants to keep on from year to year selecting Mayor and Councilors from the "Family Compact" and asks us to vote for his candidate Chas. Alexander.

ASTOUNDING REPORT FOR CAMPBELLTON.

The wife of a merchant had stomach trouble and could not eat anything but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL of Buckhorn's glycerine, etc., as mixed in Alder's benefited her INSTANTLY. Because Alder's is the "E.N."—the only one that relieves any case of constipation, sour stomach or gas and prevents appendicitis. It is the QUICKEST action of anything.

NEW EXHIBIT HALL NORMALLY OPENED

Interesting Opening at Shire Town Last Evening—Address and Presentation.

Dalhousie, April 4th.—The formal opening of the Grand Hall, built recently as an addition to the Convention place last evening, it being the feast of the Rev. A. A. Boucher, who since he came to Dalhousie has done so much for the education of the young.

In the afternoon a matinee was held for the children and in the evening a large audience greeted the Convention pupils who executed a splendid programme consisting of music, singing, dramas, recitations and drills. The costumes were very fine.

The Hall presented a very fine appearance, the decorations consisting of appropriate inscriptions of Welcome, etc., and hundreds of flags representing our Allies made a beautiful scene.

A lengthy address was read to Rev. A. A. Boucher by Miss Hickey, one of the pupils, referring to his zeal for the good of the children by building such a fine convent and recently adding such a splendid hall to it. This was followed by the presentation of a bouquet of flowers and a very pretty statue. Father Boucher spoke at length in reply, stating that he had been forty years in New Brunswick and that when he came to Dalhousie he had in his mind the education of the young and he was delighted that his work was appreciated.

Brief addresses referring to Father Boucher's grand work, the devotedness of the good Sisters, the success of the pupils, and the effort expended in the new Hall were referred to by Rev. R. Robichaud of Upper Charlot; Rev. F. de la Garde of Nasky Creek; Rev. Father Cyr of Campbellton; and the Rev. Fr. Allard of Tobique. Rev. Fr. Cyr said that about thirty pupils of Campbellton frequented the Dalhousie convent and on behalf of their parents in Campbellton he spoke in flattering terms of the good results achieved at the institution.

A very successful ceremony was closed with the singing of the National Anthem.

The acoustic properties of the building are splendid and when completed the Hall will be all that can be desired.

BUYING RAILWAY.

The House then went into committee on the Minister of Railways bill providing for the leasing of two miles of the Bangor and Aroostook Railway way so as to connect the Transcontinental and International Railways running through a section of New Brunswick.

Dr. Reid explained that the rental of this piece of road would make a simple station on the work which was required to do. He said that the government would have spent about \$100,000 on this piece of road but the bonds did not mature until 1914. Therefore the lease would be made until this year.

Plus Michael, of Restigouche, objected to the passage of the bill, saying he had just come from the district and the people were opposed to the removal of the station.

Mon. Mr. Reid consented to an adjournment of the discussion in order that some other objections might be looked into.

NEWSPAPER COSTS.

Problem Being Discussed by Press Association Everywhere.

The increasing cost of producing a newspaper continues to occupy the attention of publishers all over the continent as well as across the seas. At every meeting of every Press Association, it is the great problem and discussion. Members tell how they are meeting the situation. Some have drastically cut down their size, some have advanced their advertising rates, nearly all have doubled and some even tripled their selling price. Some publishers have done all these things and yet find progress difficult.

Signaling Pedestrians.

Carroll's pedestrian—How did I know that you were going to do? Ought to have a system of signals.

Impatient pedestrian—Like this: One honk, "stand still"; two honks, "dodge to right"; three, "dodge to left"; four, "jump straight up and I run under you"; five, "turn a hand spring and land behind me."

Otherwise Occupied.—Alma—"When Harold proposed to you did he get down on his knees?" Hazel—"I should say not."

Not the least recommendation for a real worth of these records is the fact that they are the best of Pathe Records.

The Pathe Music is marvellously different

Owing to the unique and so rare Pathe method of recording and reproduction by the Pathe gramophone, the Pathe Ball instead of a scarcely recorded Pathe record and instrumental music possesses fully 40% more tone colors than any other record.

THE QUEBEC RIOTS.
It is regrettable that the young men of Quebec would so far forget themselves as to create such disturbances as took place in that city last week. No doubt much of the damage wrought was done while the rioters were laboring under great excitement, but this should be no excuse. The place for young Frenchmen to fight is in France, and against the Germans. The Militia Department should deal firmly and promptly with them, and send them where they will get "fed up" on fighting until the end of the war. We think we voice the sentiments of the better class of French residents.

CANADIAN AEROPLANES.
(Kingston Whig).
Before the war all that Canada knew about aeroplanes was gleaned from witnessing a fight at fair times. Now she is building 300 planes a month, and has already supplied 25 per cent of the entire flying force of the British Empire. What this young Dominion can accomplish when she sets about it with "the will to win" is really marvellous.

To conserve the British food supply and provide labor in Canada, all Canadian soldiers in England under military service will be sent home along with 25,000 soldiers' wives and children. Why not this policy pursued from the first?—Ex.

The speech from the throne promises a franchise act giving Canadian women the right to vote for members of Parliament. This should remove the last objection to a provincial universal suffrage act.—Globe.

Daylight saving has been adopted by the United States. The bill only waits the president's signature. A similar bill will be introduced at Ottawa. If it passes, Canada will be in line with the United States in a war measure which will be no less valuable in time of peace. The prejudice against it will quickly pass away.

"Refreshments were served" is a term it should no longer be possible to use in connection with afternoon gatherings, socials and other functions. It implies the use of food, not as a necessity, but as a luxury, and food is too scarce now to be used as a luxury. The way to conserve is to conserve, and that can only be done by setting out the luxuries and getting down to a common-sense use of those things which will best meet home needs while leaving for overseas use the essentials which are most easily transported and contain the greatest amount of nutriment.—Ex.

MAIL.

The Graphic does not hold itself responsible for opinions expressed in this column.

Campbellton, N. B., April 2nd, 1919.
To the Editor of the Tribune, Town.

Dear Sir:
In reference to the civic contest which will take place on April 16th I feel that the issues should be known and by so doing the people will awaken to the duty that they, not only owe themselves but the Town generally, I would respectfully ask the ratepayers not to be misled or influenced by a few "Whispering" party men who represent a few that have held power by these methods so long, and to the detriment of us all. To make it plain I may say that I think it would be a grave mistake to mislead Dominion or provincial issues. What ought to be in the minds of the people is what is in the best interests of Campbellton, during these critical war times, I have visited the homes of many and I find a large majority want a change in our own management. To them I wish to improve the fact, you have the means (the ballot) with which you can exercise your rights.

I am not in any way interfering in the selection of the ward candidates, but I have heard many express the opinion that Dr. D. Murray should be on the Board. I understand that he has refused to have his name placed on nomination for Mayor which he filled with honor for several terms. As W. H. Miller has served some fifteen years and is anxious to retire, if Dr. Murray could be induced to offer as councillor at large it would meet with general approval.

As it is the wish that all denominations should be represented at the Board there seems to be a desire to make a change and I frequently hear the name of P. M. Shannon mentioned as Councillor at large. If that gentleman could spare the time he could give the town good service as he had several years experience as a councillor in the shire town. Besides he is very much interested in having industries established here.

I would also like to bring to the attention of all that since we have been a town, there has not been a mayor or a councillor elected from amongst them, a member of the good old Church of England.

I believe if James Duncan was called on he would act as Councillor in Ward II as Mr. Quinn has frequently expressed a desire to retire. He is well qualified in every way, holds two of the highest offices in a very important society. Besides I believe the Duncans were amongst the first families that came to our shores and through much hardship and toil gave us this Campbellton we are all so proud of.

I hope to be able to see all the voters before election day as there are many important matters that are of interest to them, therefore do not promise your support and vote until you have well considered your own and the Town's welfare.

In closing I may say I am in this contest to WIN and if the working men will only stand together as they are in France "They Will Not Pass" on April 16th, 1919.

I trust that the above few thoughts will meet with your favorable consideration. I have the honor to be, Your obedient servant,
W. H. WALLACE.

The above letter was refused publication forty-eight hours before time of issue for this week by the editor

of the Tribune. Reasons given no space for it. It would appear that this is not well founded as we notice that his inside pages are filled up with "plate" matter of miscellaneous topics. The fact that the Editor of the Tribune has signed Mr. C. A. Alexander's nomination paper surely should not make it necessary for him to refuse paid advertising, however I will leave this matter to the judgment of the electors, all we are asking for, is British fair play.

W. H. WALLACE.

British Were Tortured
By the Brutal Germans.

Says Sir A. Conan Doyle

SIR ARTHUR CONAN DOYLE, the author, writing to The London Times from his home in Sussex, says:—

"I had occasion recently to talk with a British officer who had endured captivity in Germany. With a voice which was husky with passion, trembling with the violence of his own feelings, he told me what he and his comrades had gone through. I had read such things in cold print, but to hear them from one who had seen and felt them had an indelible effect. I was unable to say as he was before he had finished.

"This officer, of senior regimental rank, a man of dignity and refinement, was taken wounded at the end of 1914. With his comrades in captivity he was stuck during the long 'two days' journey from the front to his prison. At one spot, he thinks that it was during a heavy rain, upon wheels was rolled up to their compartment in order to mock them. They endured these things, they were outside the station, hardly able to stand after their dreadful journey.

"When released, they were treated in his own forcible words. They kicked out behind all the way up the street. There was not one of them who had not his behind kicked. These were British officers, honorable gentlemen, many of them wounded, now helpless under circumstances which have in all ages appealed to the chivalry of the captors. And we, when a German officer is caught, red-handed with his apparatus ready for the chivalry of the captives, and we, hurry him away that he may have a hot supper.

"This officer was, as I was told by a third party, a witness of the dreadful incident of the burning hut. One of the butts in the prison camp took fire. It was night, and the door had been locked on the outside. The key was not found. One of the inmates, a sailor, tried to get out through the narrow window.

"The prisoners who were spectators thought that he was about to make a dash for it, but he rushed forward. The prisoners who were spectators thought that he was about to make a dash for it, but he rushed forward. The prisoners who were spectators thought that he was about to make a dash for it, but he rushed forward.

"Why should we recall these incidents? It is because hate has its uses in war, as the Germans have long discovered. It steals the mind and sets the emotions on fire. It is not emotion that can do so much. It is the feeling that the Germans are contemptible, that they are cowards, that they are traitors, that they are the enemy of all that is noble and brave. It is this feeling that has made the British soldiers so brave and so true.

"Many of us could conceive of a peace which included some compromise upon frontiers, so long as Belgium was intact. Many also would be content to sacrifice Russia, if she persisted in her treason. But not one who knows the facts but would fight to the last gasp in order to ensure stern justice being done to the murderers of our women and to the men who tortured our helpless prisoners.

"What then should we do? We should have a statement drawn up, not coldly official but humanly moving, signed by the officers who saw and endured these things. This document should be translated into German and put under the nose of every prisoner in Germany, that they may at least appreciate the contrast in the culture of the two countries.

"At present we are so pedantically correct in our treatment of these prisoners that when at an earlier stage of the war I made the suggestion that we place a copy of 'J'accuse' in every prison, it was refused on the grounds that it was against international law to proselytize prisoners. This was about the time when Cassini and the Germans were trying to starve the Irish prisoners into enlistment against Great Britain.

"The munition workers have many small vexations to endure, and their nerves get badly frayed. They need strong elemental emotions to carry them on. Let pictures be made of these and other incidents. Let them be hung in every shop. Let them be distributed thickly in the Sinn Féin districts of Ireland, and in the hotbeds of Socialism and pacifism in England and Scotland. The Irishman has always been a man of chivalrous nature, and I cannot believe that even the wrong-headed Sinn Féin has got down to the level of the Sinn Féin of Prussia and Turkey. Let his eyes rest upon the work of his friends and perhaps he will realize more clearly how he stands, and the position which he has taken up in the world's fight for freedom.

"Scatter the facts. Put them in red-hot fashion. Do not preach to the solid south, who need no conversion, but spread the propaganda wherever there are signs of enemy intrigue on the Tyne, the Clyde, in the Midlands, above all in Ireland and French Canada. Let us pay no attention to platitudinous blarney or gloomy denials or any other superior people who preach against retaliation or whole-hearted warfare. We have to win, and we can only win by keeping up the spirit and indignation of our own people."

WHAT SUSSEX MAN SAYS OF MR. WALLACE

Letter to Graphic Speaks Well of Mayorality Candidate.

The following letter from the Assistant Editor of the Kings County Record of Sussex, N. B., has been received at this office:

Sussex, N. B., April 1st, 1919.

Dear Sir:
I have been informed that Mr. W. H. Wallace of your Town (who was a former resident of Sussex) is to be a candidate for Mayor at the approaching civic election to be held in Campbellton. His many friends here who still take a warm interest in him, with whom he parted with deep regret, on their part, about 15 years ago still have a warm spot in their hearts for him, all wish him every success in his desire to become chief Magistrate of the North Shore Metropolis, his adopted home.

Mr. Wallace was also second in sex was always a lively, in every sense of the term, and was always to the front in every measure that spelt advancement to the Town. He was born in Sussex some 61 years ago and in his younger days was an athlete of no mean repute. He organized and was a member of the celebrated "Albert Base Ball Club" that made a provincial reputation, and was also a cricket player of much fame and a general all around athlete.

Mr. Wallace was also second in command of the old Sussex Fire Department and a prominent member of the Sussex Comet Band and other musical organizations.

As a Master Mechanic he was the peer of any in the Maritime Province, and was the designer and builder of many handsome residences and business houses in our Town, that stand today as monuments of his skill and energy. He designed and superintended the erection of the Exhibition Building which was built of plank and truss work, the first of its kind to be erected in the Maritime Province, the plans of which were copied and used by the leading architects and builders in Canada.

Sussex lost a valued citizen when William H. Wallace moved away, and he has been greatly missed from the community. If he lived in Sussex today and desired to be Mayor of this Town there is not a doubt that he would be granted that honourable position by acclamation and without an opposing voice.

The people of Campbellton will not be making any mistake if they do like him.

The coming civic election in Campbellton will be looked forward to with marked interest by the people of Sussex on account of the fact that most beloved and former residents being in the field as a candidate.

Up to 1911 he was engaged as a contractor and builder. In the fire of 1910 his residence was destroyed, together with much other property, and he was one of the heavy losers in that conflagration. With commendable pluck and enterprise he made a fresh start and imported a concrete block making plant, erecting his present handsome concrete residence on Water Street and moved into same within five months after the fire.

Since that time he has built a number of concrete block and brick buildings. He also built the first skating rink, Messrs. Miller and Ingram, and after the fire these gentlemen engaged him to reconstruct the building. This rink is of rather novel and unique design, and considered, by many, one of the finest in New Brunswick. This frame work is what is known as plank truss construction, and the only one of its kind in Canada.

It will be remembered that some years ago Mr. Wallace moved a large residence for Mr. W. B. Montgomery of Dalhousie. This building was placed on two lighters and towed to the harbor, a distance of about two miles.

During his years of residence here, although a busy man, he has taken a deep interest in town improvements, and has made many suggestions for its betterment.

In closing it might not be amiss to say that his father the late G. H. Wallace was Collector of Customs and Police Magistrate at Sussex for over a quarter of a century, and his brother F. W. Wallace has served as Mayor for that town for two years.

He is a member of a number of societies, among them being the old Sons of Temperance, in which he held many of the important offices.

He has three sons, two of whom Lieut. G. A. and Sergeant H. M. joined the army shortly after the outbreak of the war, and both of whom fought in the Vimy Ridge battle, where H. M. was wounded.

Mr. Wallace is a good debater and has great faith in the future of Campbellton. In religion he is Episcopalian.

Vocal Records that Stand Supreme

In the making of Pathe's Vocal Records, by a recording process used only by Pathe, every note, big or little, every nuance, every breath, tone or expression of the artist is faithfully caught and inscribed.

The Pathe groove in which the minute sound waves are recorded is from two to four times as large as in any other record. This big groove enables Pathe to get 40% more tone colors and detail. Compare these records with other makes in the same class. Study the detail, the tone quality, the true naturalness of the voice, the orchestral accompaniment, always in perfect sympathy, yet note how voice and instrument each stand out clear and distinct right through to the end. The satisfying completeness of Pathe's vocal record leaves nothing to be desired.

While to hear Pathe's records at their best, they should be played on the Pathephone, yet if you already have a machine of another make, any Pathe record can be played on it. Pathe's records—no, better still—will make you a liberal allowance for your machine in part payment of a Pathephone, which plays any record.

A very interesting lecture was held
 on Monday by the Rev. J. M. B. A. Hall on Tuesday
 evening on Forestry. The Conservation
 of Forests, prevention of forest
 fires, etc., was dealt with, and illustrated
 by lantern slides. Mr. Dooley of the
 Forestry Department was the
 speaker, and was listened to with deep
 interest.

Rev. F. L. Jobb attended the equally
 interesting meeting of the Forestry held
 in Newcastle recently, and was nominated
 as one of the Assembly Committee for
 September 1919.

 exposure. It is over a year since he
 entered the hospital, so that his home

 time. Two other brothers, Private
 Clarence and Orrin are overseas also.

Congratulations are in order to Mr.
 and Mrs. Albert Duplessis on the ar-
 rival of a baby girl at their home re-
 cently.

The community was deeply stirred
 on Monday by the sad news of the
 death of Patrick P. Dempsey and his
 son Charles. The death of Charles
 occurred in the morning. He had
 been in ill health for some time, so
 that his passing away was not unex-
 pected. He was 29 years of age. But
 his father had been in his usual good
 health and had been up all night with
 his son, in the forenoon he was taken
 suddenly ill and expired shortly after-
 wards. He was about 65 years of age,
 and leaves a large family, as well
 as his wife to mourn his loss, also
 two sisters, Mrs. Joseph LaViolette
 and Mrs. Frederick Noel, who have
 the sympathy of the community. In-
 terment took place Wednesday morn-
 ing.

EQUAL BASIS.

Uniform Administration of Military Service Act sought by Questionnaire Method.

The great crisis through which the world is now passing has served to emphasize among a great many other things the nature and responsibility of the citizen of a free country. Because equal rights are enjoyed by all citizens of Canada, it is the duty of our Government to see, as far as it is able, that all are made to bear equal sacrifices. That the Dominion's War Government is not unmindful of its duty in this respect is evidenced from the fact that it is taking steps to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit a checking of the decisions in the case of each to the end that uniformity be established in the application of the legislation. These questionnaires must be returned promptly upon penalty of forfeiture of the exemption papers previously granted. Exempted men should notify the registrar of their district of any change of address, as non-receipt will be regarded as constituting failure to return questionnaires properly filled in as required. The Government is determined that the Military Service Act shall be administered fairly and in this determination they will have the active support of all followers of democratic ideals.

THE QUEBEC RIOTS.

It is regrettable that the young men of Quebec would so far forget themselves as to create such disturbances as took place in that city last week. No doubt much of the damage wrought was done while the rioters were laboring under great excitement, but this should be no excuse. The place for young Frenchmen to fight is in France, and against the Germans. The Military Department should deal firmly and promptly with them, and send them where they will get "fed up" on fighting until the end of the war. We think we voice the sentiments of the better class of French residents.

SAYS LEMON JUICE

WILL REMOVE FRECKLES

Apply this lemon juice to clear and whiten your skin.

Spices the juice of two lemons into a bottle containing three ounces of white, shake well, and you have a quart of the best freckle and tan lotion, and complexion beautifier, at very small cost. Your grocer has the lemons and any drug store or better supplier will supply three ounces of white for a few cents. Shaking this sweetly fragrant lotion into the face each day, and hands each day and see how freckles and blotches disappear and how clear, soft and white the skin becomes. Yes! it is wonderful.

A HINT TO SOCIETY.

The following extracts are taken from a Quebec Catholic Journal: "It will soon be four years since the war began, has the love of luxury declined? Have we modified our mode of life? God forgive us; if there has been any change it has been for the worse. Who has refrained from having her fur coat remodelled because it was a little out of fashion? Who has deprived herself of a boat of unusual height or of a color out of the ordinary? Who sacrificed a hat, a pair of gloves, an ornament of any sort because we are at war and the times are sad? Have we not seen real scandals in so-called social reunions held in theatres, dance halls and elsewhere? Women and young girls have shown themselves in many places in such a manner as to cause spectators to ask if they have not sacrificed their modesty to the Red Cross or the Patriotic Fund. It is more important than ever that in the awful trials through which we are passing, society should divest itself of certain fetters which have bound it, if it desires to conserve the force necessary to meet the present crisis.

JACK OF ALL TRADES

Sheridan was down at Brighton one summer, when Fox, the manager, desirous of showing him some civility, took him all over the theatre, and exhibited its beauties.

"There Mr. Sheridan," said Fox, who combined 28 occupations, without being very clever in any, "I built and painted all these boxes, and I painted all these scenes."

"Did you?" said Sheridan, surveying them rapidly. "Well I should say I am sure, have known you were a Fox by your brush."

"AND FOOD IS LIFE TODAY."

National Council of Women Appeals to Affiliated Societies.

Mrs. R. D. Fairbairn, corresponding Secretary of the National Council of Women, has sent out a circular letter to affiliated societies all over the country urging them to refuse to serve food between meals. She writes: "The fact that the bread is of standard flour and that the cakes contain some recommended white flour substitute does not condone the fact that you are consuming food at a time when there is a shortage in the world's supply, and food is life."

"Let every Club not already doing so omit tea at the close of lectures or concert, the profits from which go to provide comforts for soldiers overseas. Let your Society pride itself not on the tea money taken in but on the proceeds of the social hour without tea. Refuse to serve food between meals."

Will the knitters please keep April 15th in mind, and have their work ready for that date.

Messrs. W. Luce, V. Arsenault, L. Caldwell, W. Huntington and W. Anderson went down with the team, and by the good cheer at the station on their return one would think the score was in their favor, so they are good losers. The young men treated the team to dinner on their return to New Cariblie.

DO YOU KNOW THAT.

Some of the world's most noted characters have never written more than a line; or at least no trace of such writings can be found. Some have left no writings. Shakespeare has left only a few autographs for present-day people to see.

Of the 26 barons who signed the Magna Charta, only three could write their own names.

Bishop Butler worked 20 years on his "Analogy," and then wanted to burn it because he thought it not good enough.

George Eliot read more than 1000 volumes before she began to write "Daniel Deronda."

There are 2064 languages in the world.

A STRIKING ANSWER.

An Irishman inviolated home from the war was asked by one of his relatives what struck him most about the battle he took part in.

"What struck me most?" said Pat. "Sure, it was the large number of bullets flying around that didn't hit me."

A GOOD PLACE TO KEEP IT.

Burke once mentioned to Fox that he had written a tragedy. "Did you let Garrick see it?" inquired his friend.

"No," replied Burke, "though I had the folly to write it, I have the wit enough to keep it to myself."
