Does It Pay

To dress well? No thinking man
will answer but that the investment is
a good one. Dressing well does not
mean that one must wear broadcloth.
Deeks & Munson, for instance, have
upon their tables many fine samples of
cloth that look well, wear well, and
are put together on the best looms
from only first-class material. They
are goods intended for business suits,
some of them; others are for "best."
But any of them are fit for any occa-
sion. If necessary, and they do not
come high in price, they meet the de-
mands of the times to a nicety. They
cost no more than poorer stuff made
up by inferior tailors, and that gives
no satisfaction from the first week of
its existence to its speedy end. Dress
well. It saves your self-respect, saves
your pocket, and extends your life by
keeping out discontent.

Legations' Fate Still in Doubt

Severe Fighting at Tien Tsin on 3rd and 4th July.

Torrential Rain Comes to the Relief of the Allies-A Message From the Emperor to the European Powers-Asks Aid in Supporting the Present Government-Japs Sending 63,000 Troops to China-Dispatch From the Gov-ernor of Shan Tung Says All the Legations Are Safe Excepting the German-Missionaries Getting Away.

London, Wednesday, July 11.-"No authentic news from Peking" is still the burden of the dispatches from the far east, and although the disposition is to believe the optimistic reports from Chinese sources, no real confidence is possible until the legations, if they are still in existence, are permitted to communicate with their governments.

SEVERE FIGHTING AROUND TIEN TSIN.

According to a special Che Foo dis-
patch, the fighting around Tien Tsin on July 3 and 4 was the severest yet experienced. The British losses alone were 30 killed or wounded. The Chinese had 75,000 men attacking simultaneously from the west, north and east, and made excellent practice with over 100 guns. The defenders numbered 14,000, with scant supplies, and it was only the presence of the newly-arrived Japanese and Russian guns that prevented a disaster. One Russian com-
pany of infantry, numbering 120 men, had 115 killed or wounded. The German contingent also suffered heavily. By the evening of the 4th the situation was very critical.

SAVED BY RAIN.
The allies narrowly escaped total defeat. Providentially, when things were at their worst, a torrential rain-fall completed the Chinese to retire. On July 6, the rain having abated, the Chinese renewed the attack, opening fire on Tien Tsin with two batteries of four guns, but the allies, aided by two of H. M. S. Terrible's 4.7 guns, succeeded in silencing the Chinese art-
illery after eight hours of fighting.

AT SHANGHAI.
Shanghai, July 10.-It is difficult to get news here, as the consuls are de-
pendent upon Taotai Sheng for Peking news. He and other officials have large landed interests, and therefore it is supposed he will do his best to assist the foreigners in getting the peace. The officials have turned all their atten-
tion to the defense of the Yang Tse, and have guaranteed to protect for-
eigners at Yang Tse ports, provided the foreigners established there remain quiet. No warships are allowed to land forces, and single warships only are allowed to pass the fortifications. Sheng's proposal to form a Chinese volunteer corps has been rejected.

A WRONG DATE.
A Shanghai it seems to be now the general belief that the date of the dis-
patch of July 3, asserting that two legations were still standing, was an error. The couriers must have left at least five days earlier, making the real date of the message June 28, while the massacres are said to have occurred on June 30. Until this matter is clear-

CAPTURE OF BETHLEHEM

By the British Forces Under
Paget and Clement.

Canadians in a Sharp Skirmish
Southeast of Pretoria.

List of Invalided Canadians Coming
Home.

London, July 11.—Lord Roberts has sent the following dispatch to the war office:

"Pretoria, July 10. — Clement's and Paget's forces entered Bethlehem July 7. The former, on nearing the town, sent in a flag of truce, demanding its surrender, which was refused by De Wet, when Paget, making a wide turning movement, succeeded in getting hold of the enemy's most important position covering the town. This was carried before dark by the Munster Fusiliers and Yorkshire Light Infantry. The following morning the attack was continued, and by noon the town was in our possession, and the enemy in full retreat."

BRITISH CASUALTIES FEW.

"Our casualties were four officers and thirty-two men of the Munster Fusiliers, one missing; Captains MacPherson and Weakes and Lieut. Conway severely, and Lieut. Boyd-Rochford, Scottish Rifles, slightly wounded; seven men of the Yorkshires wounded, one killed; two wounded on the Imperial Yeomanry."

"Paget reports that but for the accurate practice of the 38th Royal Artillery and the 4th City Imperial Batteries the casualties would have been many more."

"Baden-Powell reached Rustenburg during the evening of July 8 without opposition. He found all quiet there, and public confidence entirely satisfactory, though the prompt and bold grasp of the situation taken by Major Mansbury-Tracey. The district west of this is somewhat unsettled, owing to the small force which attacked Rustenburg, being still in that neighborhood. Measures are being taken to meet this."

MORE ABOUT BETHLEHEM.

"Further information regarding the capture of Bethlehem has now been received from Clement. He states that the country there is broken and difficult. Consequently his and Paget's cavalry were unable to make any wide turning movement. Clement attacked one position while Paget attacked another. The position assaulted by Clement was gallantly captured by the Royal Yeomanry, who captured a gun of the 7th Battery lost at Stormberg. The list of the casualties has not yet been received, but Clement states they are few, considering the strength of the positions assaulted."

"Hunter's cavalry, under Broadwood, reached Bethlehem, July 6. Hunter, with his main force, was within nine miles of the town when Clement dispatched his report."

STEYN MAY SURRENDER.

New York, July 11. — The Journal's London correspondent says that ex-President Steyn has offered to surrender on condition that he be given his personal freedom.

CANADIANS IN FRONT.

London, July 11.—On Sunday, Gen. Hutton's brigade of mounted infantry had a sharp skirmish at miles southeast of Pretoria. The Canadians took a leading part.

Pte. F. E. Weir, of the Queen's Own Rifles, Toronto, who was invalided to England from South Africa, visited the Bixey camp yesterday, and was warmly greeted by the Canadians. In conversation he declared that the charges made by Burdett-Coutts in the British House of Commons to a large extent were true. He stated that he had been well treated at Wynberg, but very badly at the Orange River Hospital.

AFTER THE WAR IS OVER.

The Daily Telegraph this morning says it understands that at the termination of the war in South Africa, the Right Hon. Sir Geo. Goldie will be appointed governor of the Cape Colony, Sir Alfred Milner, who now holds both the governorship and the high commissioner of South Africa, simply retaining the latter office.

The Boer delegates, Messrs. Venter, Fischer, and Wolmar, accompanied by Dr. Leyds, the diplomatic agent of the Transvaal, yesterday paid a visit

to M. Delcasse, the French minister of foreign affairs at Paris.

LATEST LIST OF CASUALTIES.

London, July 11.—The war office has issued another casualty list from South Africa, showing that during the week ending July 7 there were killed, wounded or captured 15 officers and 180 men; accidental deaths, 2 men; died of disease, 4 officers and 194 men; invalided home, 72 officers and 1,306 men. The total casualties as a result of the war are 46,198 officers and men.

The Canadians

SERIOUSLY ILL.

London, July 11.—The war office reports the following Canadians as seriously ill:

Pte. A. G. Howard, B battery, R. C. A. (late of the 3rd Canadian Artillery, St. John, N. B.)

Pte. J. Neil, of E battery, R. C. A. (late of the 13th Field Battery, Carberry, Man.)

Pte. Ernest Lutz, G company, R. C. A. (late of the 17th Battalion, New Brunswick).

2,489—Weldmore. [There is no such combination of name and number in the official lists. There is Henry Wetmore of 7th company, who went out as a saddler.]

The war office also announces that No. 25, Pte. John Everett Ball, second battalion, Canadian Mounted Rifles, is dangerously ill. Pte. Ball belongs to Edmonton, N. W. T.

ON THE PARISIEN.

London, July 11.—There are 27 Canadians on board the steamship Parisien, now on its way to Canada. They had all been invalided to England from South Africa, and had recovered sufficiently to be allowed to return to their homes across the Atlantic. The list, which is somewhat incomplete, as given out by the war office, is as follows:

Pte. John Frederick Wayne, 82nd Queen's County Battalion, New Brunswick, G company.

Pte. C. R. Nickle, 3rd Field Battery, Canadian Artillery, E company.

Pte. H. Leavitt, 71st York Battalion, New Brunswick, G company.

Pte. F. McNab, 63rd Halifax Rifles, H company.

Pte. J. D. Coleman, 43rd Ottawa and Carleton Rifles, D company.

Pte. H. G. Haig, 2nd Field Battery, Canadian Artillery, D company.

Pte. J. H. Sutton, 13th Battalion, Hamilton, C company.

Pte. John McLeod, 71st York Battalion, New Brunswick, G company.

Pte. J. S. Cairns, 2nd Field Battery, Canadian Artillery, D company.

Pte. V. F. Marentette, 21st Essex Fusiliers, B company.

Pte. F. Inglistrom, Queen's Own Rifles, Toronto, C company.

Pte. James Kennedy, 10th Royal Grenadiers, Toronto, wounded at Paardeberg, C company.

Pte. Joseph Epton, 62nd St. John Fusiliers, G company.

Pte. J. W. Hartnett, 83rd Cumberland Battalion, Nova Scotia, H company.

Pte. George Chapman, 74th Battalion, New Brunswick, G company.

Pte. W. G. Wendt, 43rd Ottawa and Carleton Rifles, D company.

Pte. F. A. Rae, 34th Ontario Battalion, G company.

Pte. Daniel Ferguson, 74th Battalion, New Brunswick, G company.

Pte. A. E. Robbins, 90th Winnipeg Rifles, A company.

The list also gives J. Sprague and J. Graham, both numbered. The former is likely F. W. Sprague, of the 2nd Regiment, Canadian Artillery, Nova Scotia. In the contingent there are Pte. George Graham, 25th Perth Battalion, B company; Pte. T. H. Graham, 13th York Rangers, C company; Pte. J. D. H. Graham, Princess Louise Dragoon Guards, Ottawa, D company; Pte. R. Graham, R.C.R.I., E company; Corp. W. Cartwright, son of A. Cartwright, Halifax, N. S., who went out with a squadron, Canadian Mounted Rifles, is also on the list. Pte. F. B. Strong, of F company, who is one of the party, is announced by the war office to be insane.

Lieut.-Col. Hercher, who went out to South Africa in command of the Mounted Rifles, but was taken ill shortly after his arrival, and was invalided to England, is in command of the party. He is looking splendid, having regained his former good health.

Labor Matters.

DETROIT, July 10.—The twenty-fourth annual session of the Glass Bottlers' Association of the United States and Canada is being held here. About 120 delegates were present when the convention was called to order. The delegates represent about 4,000 bottle blowers in the country. The convention will last about eight days. The most important question that will be brought up is the introduction of machinery. Another important question is that of child labor. It is said that the average life of a glass blower is 38 years, and it would be a bad business to put children at it. It is expected that a committee of the Flint glass blowers will be in Detroit to make a proposition to amalgamate the two organizations.

NOTES.

Sixteen thousand men have been thrown out of employment by the banking of five furnaces at Lebanon, Pa.

Messrs. Ham & Nott, fanning mill and agricultural implement makers, of Brantford, make a practice of dividing a share of the profits with their employees every year. Over \$300 was divided this year, according to the length of service.

It is to the colored people of the Southern States that the plantation whens of the Hawaiian Islands will turn for relief in the matter of the vexed labor question. John Hind and J. B. Collins left recently for the Southern States in quest of negro laborers. They have assurances that three or four hundred can be recruited at New Orleans. The plantation will pay their expenses to the country and give them \$30 a month. If enough negro labor can be secured the service of the Japanese will be dispensed with altogether.

A Deep Mystery.

It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phebe Chenley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me; and although 73 years old, I now am able to do all my housework." It overcomes Constipation, improves Appetite, gives perfect health. Only 50 cents. For sale by V. T. Strong & Co.

PRESBYTERY OF LONDON

Call to Rev. Dr. Johnston Considered and on Motion Set Aside.

Rev. Mr. Moffat Granted Three Months Leave of Absence—Report of the Committee on Reorganization of Charges—Presbytery Adjourned to Meet July 17.

The presbytery met in Knox Church, St. Thomas, at 10:30 a.m. Tuesday, July 10. Mr. R. Stewart, moderator, presiding.

Mr. A. Henderson was appointed clerk pro tem. The minutes of last regular and special meetings were sustained and docket prepared.

Dr. Johnston reported that the call from Thameford to Mr. McIntosh, licentiate, had been declined.

The call from Knox Church, Toronto, to Dr. Johnston was laid before the presbytery, signed by 339 members and 106 adherents, but was delayed until the afternoon, when the commissioners from the Presbytery of Toronto might have an opportunity to be present.

Messrs. J. Little, J. G. Stuart, R. W. Leitch, ministers, reported attendance at the general assembly, and spoke of the very satisfactory way in which the business was carried on. It was agreed that this item be taken up again in the afternoon.

Mr. Henderson reported in regard to the request of the presbytery to retain the name of Mr. McNeil, late minister of Chalmers and Dunwich, on the roll of presbytery, that it was necessary a minister should ask leave to retire. As Mr. McNeil does not wish to take the place of a retired minister, the matter dropped.

Messrs. MacGillivray, Dr. Johnston and R. W. Leitch were appointed a committee to draw up a minute in regard to the death of the late clerk, D. C. Johnson.

The presbytery clerk was instructed to take whatever steps are necessary that Mrs. D. C. Johnson may receive the benefits of the widows' and orphans' fund.

The moderators of Westminster and Thameford respectively were granted leave to moderate in calls.

Mr. Moffat was granted leave of absence for three months, if necessary, and in case of such absence Mr. John Currie be asked to act as moderator of Westminster.

New St. James' Church, London, requested leave to borrow, if necessary, up to \$3,000 of property. On motion this was granted.

Appin session was granted extract of minutes of the suspension of Mr. McGregor.

Messrs. Courtney, MacGillivray, Drummond, ministers, and Mr. Rathburn, elder, were appointed a committee to examine the books of the late clerk and report at the afternoon session.

Revs. John Anderson and Andrew McNab were invited to act as corresponding members.

Mr. John Currie presented the report of the committee on recurring charges, as follows:

1. That that portion of Fingal congregation known as Lynn Church be separated from Fingal congregation, the congregation to take effect on Oct. 1 next, and that Fingal congregation be asked to increase their Christian liberality with a view to at least becoming self-supporting; or, failing this, report at a subsequent meeting of presbytery the amount of aid required from the augmentation fund.

2. That that portion of Fingal congregation known as Lynn Church be organized into a congregation.

3. That inasmuch as Cowal congregation and Lynn Church have voted to stand alone, the presbytery request that the members of these two congregations be asked to ascertain their financial strength towards this end, for the guidance of the presbytery, and to report at a subsequent meeting of presbytery.

4. That Cowal congregation be supplied until Oct. 1 next by a minister eligible for a call, and that in connection therewith service be held at Iona Station every Sabbath afternoon or evening, as may be thought advisable by Cowal.

The presbytery adjourned to meet at 2 p.m.

After adjournment the election of a clerk was taken up. Mr. A. Henderson, Appin, was elected to that position, and also as treasurer.

The following commissioners to assemble in connection with the general assembly in attendance: Messrs. Wylie, Lawrence, Gaud and Kay, ministers, and Messrs. McKellar, McAlpine, Waugh, Sutherland and Fitzgerald.

It was decided that the roll of charges in the presbytery be printed in the minutes of the first meeting of the year.

Mr. Lawrence was granted leave to moderate in a call to Ivan and Caradoc.

The call to Dr. Johnston was taken up. No commissioners being present from Thameford, the call was placed in Dr. Johnston's hands, and he stated that he wished to decline the call.

On motion the call was set aside, and the presbytery expressed gratification that Dr. Johnston has seen fit to remain within the bounds of this presbytery.

Instruction from the synod was given in regard to the report required from augmented congregations for the assembly's augmentation committee.

The matter of rearrangement was again taken up. Messrs. McNab, Fletcher and Thompson were heard from Dr. Johnston's hands, and he stated that he was in favor of remaining as at present; next to that, union with Lynn.

Messrs. Turner, Campbell, Munro, McArthur and others were heard from Lynn. A long discussion followed.

The first recommendation was moved with the addition that every endeavor will be made by presbytery to make Dr. Johnston's salary at least \$800, it being understood that Fingal congregation should not recede from their present giving, and that if possible they shall increase their liberality.

It was moved in amendment that the substance of the above motion be affirmed as the judgment of the presbytery, and that Fingal be asked to fall in with it to report at a meeting to be held in St. Thomas on Tuesday, the 17th inst., at 10:30 a.m. Carried.

It was decided that North Eklrid be united into a pastoral charge, with Dr. Johnston's salary at least \$800, it being understood that Fingal congregation should not recede from their present giving, and that if possible they shall increase their liberality.

By Act of Parliament, assented to June 14th, 1900, the name of

THE ONTARIO MUTUAL LIFE ASSURANCE COMPANY

was changed to

THE MUTUAL LIFE ASSURANCE COMPANY OF CANADA.

As the only purely Mutual Life Company in Canada, and as its business extends from Ocean to Ocean, a more NATIONAL AND COMPREHENSIVE NAME was found desirable. HOW LONDON IS DEFENDED. The defenses of London at the entrance of the Thames and Medway are to be strengthened by construction of a new fort on the Isle of Grain. A position has been selected in close proximity to the existing fort, and the work will be taken in hand without delay. The fort will be armed with long-range breech-loading and quick-firing guns, which will command the navigable channels leading up the Thames and into Sheerness Harbor.

KIDNEY TROUBLE FOR THREE YEARS.

A Young Lady of Middlesex Co. Tells How She Was Cured at Last by Doan's Kidney Pills.

A great deal of suffering that women are called upon to endure is the result of kidney trouble. When the back, the head and the limbs ache, when there is tiredness and weariness, dizziness and dimness of vision, in all probability the kidneys are out of order and poisons are being absorbed in the system that these organs should carry off.

The most effective remedy to correct the kidneys so that they will remove all poisons from the blood is Doan's Kidney Pills. Just read what Miss Gerlie E. Steele, Bolton, P. O., says about them: "For three or four years I have suffered very much from pain in my back, especially in the mornings, and felt run down and worn out. I doct

IN THE WORLD OF SPORTS

A GOOD START.

The Hams were up against the real thing at Tecumseh Park yesterday, and will have to take a brace or the Cockneys will land another championship in a walk. It was the opening game of the Canadian championship series, and the visitors were never in it. They have the reputation of being the hardest hitters on earth, but Kestel made them look like a lot of schoolboys. The Hams, however, did not have hardly a square shake, as they only arrived here a couple of hours ahead of the game, and were not in good shape. Some 400 enthusiasts saw the Hams go down to defeat. Errors were decidedly plentiful. The game opened up lively. Sheehan hit a hot one to Kestel, but the ball reached the initial bag ahead of him. Cockman put a nice pop fly into Mohler's hands. McKevitt hit safe to center, but was forced at second by McKevitt.

Radcliffe started the fireworks for the home team, driving the ball at Cockman. The latter failed to hold it. Mohler sacrificed. Hemphill followed with a nice drive to third, which McKevitt misjudged, and after scoring the ball made a wild throw to the plate. Radcliffe came home, but Hemphill was caught a couple of feet from the plate. Duran made a pretty throw in, returning the ball to Conwell. Hart flew out. In the second, Bradford issued two passes, and these, coupled with two singles, a sacrifice hit and an error, gave the home team three tallies. The Hams' first run was given them in the third by Cope, who fumbled Sheehan's hit, and on scooping in McKevitt's grounder, made a wild throw to first, the ball going about 20 feet over Hart's head. Sheehan scored, but McKevitt was caught at the plate on a pretty return by Hemphill. In the fifth Hemphill opened with a long drive for three bases, and later came in on a wild pitch. In the seventh and eighth, the locals continued to score. McKevitt scored the visitors' last tally on a homer to left.

RIFLE.
London, July 10.—Magnificent weather favored the National Rifle Association competitors at Bisley today, the match rifle experts again having the programme to themselves. The Bass competition was won by Color-Sergeant, Pooten, of Liverpool, with a total of 135; no Canadians competed. The Halfford memorial challenge cup was won by Caldwell, of the Ulster Rifles.

A Toronto man, Sergt. J. McVittie, of the 48th Highlanders, shooting today in the Gregory match, which opened yesterday and finishes next Monday, got his shots within the inner circle each time he shot, making 35 points. The distance was 200 yards.

In the S. R. Association cup match, Lieut. H. C. Blair, of the 78th Battalion, made 34 points at 600 yards, with seven shots. He made a possible in the S. R. rifle, unaided competition at 600 yards, seven shots. In this match, which is open to the National Rifle Association only, the contestants are nominated by ladies.

Nelson covered 66 miles 30 feet during two hours riding. Four men started, the other three being Charles R. Miller, of Chicago; Burns W. Pierce, of Nova Scotia; and William C. Stinson, of Cambridge. Nelson's pace was terrific throughout the entire two hours, and he was over a mile ahead of Stinson at the end of the 30th lap. Nelson made 63 miles 3/4-lap; Miller 60 miles 3/4-lap, and Stinson, 57 miles 1/4-lap.

CLOTHING MANUFACTURERS

GREAT Non-Union Label Sale

Sale Begins Thursday Morning, July 12, 1900.

IN CALLING your attention to a Special Sale at this time, we are merely following up our usual custom of clearing out each season's goods in their own season, in order to give our customers new and up-to-date garments fresh from the looms at all times; but this sale means more than this, it means an epoch in our history as clothing manufacturers, it means the sacrifice of many thousands of dollars in order to make a fearless demonstration of a principle; it means that after very mature consideration we have come to the conclusion that only UNION MADE CLOTHING will in future be handled by us, because Union Made is the top notch of excellence in clothing. Union wages are the highest wages. Union conditions are the strictest in sanitary matters, and are therefore the safest where clean and sanitary workrooms are provided for our workpeople. It means that from the first snip of the shears to the last touch of the pressing iron not a man can put a finger to our goods unless he be a trained, skilled Union man at full Union wages. This is a simple statement of the facts, and to give emphasis to the event we have determined to clear at

A TERRIFIC FINANCIAL SACRIFICE!

every garment in our possession not bearing the Union Label. This determination has made a speedy and complete clearance an absolute necessity.

In conclusion, we invite you to the Great Sale. We promise you no undue pressure will be brought on you to buy, and should you make a selection that you have any reason to regret, bring it back to us, and your money will be as cheerfully refunded to you as we received it.

The Conservative "Emergency."

The question of emergency rations has during the last few days been a favorite subject with the Conservative press. The party journals admit that the rations have not done any harm to "our boys" in Africa, but by way of compensation they claim that it has disparaged one of the strongest governments Canada ever had.

It seems, then, that this ration just suits the Conservatives. They were on the eve of an election, and very hard up for cries when Dr. Devlin comes conveniently to hand. The very thing that the Conservatives wanted was some mixture that would do no harm to anybody except the Government. The independence manifested by members of the Liberal party is something they cannot understand. The Conservative party is always so well disciplined, its members respond to the whip with remarkable regularity. Liberals have never in any country been given to such mechanical discipline. They seem to be loyal to great principles, and do not make partisanship the supreme political virtue.

The Conservative press represent the Government as whitewashing Dr. Devlin, and glorifying his patent food. That does not follow from their action; but they certainly maintain that the Minister of Militia acted in good faith and took a fair amount of care in conducting a novel experiment.

The Minister of Militia is not an expert chemist, and must, like others, rely upon scientific evidence. No one ever denied that such subjects are proper to be inquired into. But from the first Mr. Monk tried to fasten on the Minister a charge of fraud. From his point of view this was a "deal and a steal" by the Cabinet Minister. It was a very small "deal"—microscopic compared with those that our Conservative friends are familiar with. If there was any deal in it, it was not on the part of the Liberal Minister. Mr. Monk did prove something, but he did not prove what he set out to prove, and we do not think that all the fuss he has made about emergency rations will help the Opposition in their emergency.

The Need of Sobriety.

The British Weekly has in its last issue a strong article against national thoughtlessness and heady jingoism, which is as timely as it is true. Looking back upon the history of the Boer war there are many things that make one pause and think. The true patriot cannot be content with mere humbug. Sometimes, notwithstanding the great things that have been done, there seems to be very little to shout about. Certainly great bodies of troops, horses and provisions were in a wonderful manner carried over great distances, but the British Empire is not a mere transportation company. Cook's Excursion Company have in their time done things in that line.

The wonderful work in the way of transportation has been acknowledged in all lands, but there are many other things to be looked at. The incapacity of officers, which time after time has resulted in such fearful loss of life, makes men shudder when they think of it.

The one bright spot has been the manifestation of the unity of the Empire, the willingness of Canadians, Australians and others to come to the help of the mother land. But the danger now is that the lessons which the war has burned into the heart of the nation shall be allowed to pass by without being properly applied. It is no use having all kinds of vim in the limbs if there is something radically wrong with the head and heart. It is evident that there needs to be a revolution at the war office if the British army is not to be strangled with red tape or ruined by undue social influence.

There is a feeling of uneasiness abroad. It is not a wish to embarrass the Government, but a desire to know that the best is being done that can be done for the reorganization of forces and the defense of the empire. The war has proved that British soldiers have not degenerated one iota. They have the same pluck and endurance as in the olden time. But it has shown that a great deal of bravery may be thrown away if it is not guided by brains.

There are men in England, Scotland and Ireland that can be made equal in skill to any officers in the world, but to give them free play, the free democratic spirit which has made England great must find its way into the army, and so long as an army is needed it must be managed on business principles as well as quickened by a patriotic spirit.

Says the Toronto Star: "The Millers' and Manufacturers' Insurance Company sends the Star a circular pointing out simple and effective means by which the enormous annual fire waste can be reduced. Care, order and cleanliness, when combined with an efficient supply of fire pails and casks of salted water, have proved a greater safeguard against fire than all other known appliances. As an evidence of this fact the official returns furnished by the New York fire commissioners for six consecutive years demonstrated that out of 15,235 fires, 8,453 were extinguished by pails of water, an average of 64 per cent of the whole number. An in-

teresting letter is quoted from a Chatham firm, telling of the saving of a mill and elevators by the use of pails of salt water."

Sixteen to One Again.

Many people thought that when Bryan was defeated at the last presidential election that 16 to 1 was settled as a great election issue. This has turned out to be a mistake, and the famous cry has risen again to create a momentary consternation in commercial circles. It is not likely that the economic discussion can be stimulated to the same extent as before. When a subject has been well thrashed out it is difficult to revive it. Probably most intelligent people have satisfied themselves before this on the merits of the silver discussion. In fact, it is the kind of thing that men do not care to argue with. To those who believe in it, it is an interest and a passion, which argument does not touch; and to those who reject it it is a fad so absurd as to be unworthy of argument. At any rate the Democrats have shown that they have the merit of consistency to this extent, that they can stick to a foolish thing for four years, and that they require at least two beatings before they believe that the whole country is not prepared to tax itself for the sake of a few people who are interested in silver.

It is not so far away from this as one might imagine to note that the silver plank has now a pro-Boer plank to keep it company. Gold and silver can keep company to this extent—the silver Democrats can show their sympathy with the Boers, whose great merit seems to have been that they oppressed the gold capitalists who developed their country. The real point of union is the anti-British feeling. The Democrats dislike Britain, because they look upon that country as the strongest supporter of the gold standard, and they profess to sympathize with the Boers because they dislike Britain.

It is not our affair, but it seems to be very clear that the Democrats are doing themselves harm by making their party the home of such discordant prejudices and passions. And if they could succeed with pro-Silver and pro-Boer cries, they would do harm to their country. They, however, are not troubling much about the country just now, but desire to get into office by any means.

PROGRESS OF NEW ONTARIO

How Settlers Are Coming In—An Influx From the States—Operations of the Colonization Bureau.

The colonization bureau which has been in operation this season, and of which Mr. Thomas Southworth is director, reports that the settlement of the portions of New Ontario which offer most inducements for cultivation is proceeding more rapidly this season than was anticipated. The machinery of the bureau is not yet fully completed as to details, and the organization being new, its work is largely of a tentative character, and as experience is gained it is hoped to effect considerable improvement in its methods. Mr. Southworth has been familiarizing himself as quickly as possible, with the characteristics of the leading areas open for settlement, with the object of being able to speak from personal knowledge as to the local particulars of each, and he has been successful in obtaining full information, such as the characteristics of the leading areas, travel, vicinity of markets, etc. He is at present examining agricultural land in West Nipissing. There is a large amount of land supposed to be well adapted for settlement that has not as yet been inspected, but the work is being steadily proceeded with. It is an obvious advantage to the intending settler to be able to obtain such information at a central point before starting to look for land, as it saves his visiting localities not adapted to his requirements.

In the Thunder Bay district last year R. A. Burris, formerly of Bowmanville, did much to aid settlers by furnishing them with information and helping them to select land. He selected a township in the Rainy River region, where many immigrants found homes, and he subsequently directed the settlers to land in the Whiteside and Slate River valleys, in Thunder Bay district. He was engaged by the bureau in a similar capacity, and owing to his fitness for the work, and experience, the machinery of colonization in that district is better organized than elsewhere. A large immigration shed, originally built by the Dominion government some years ago, has been secured and utilized for the accommodation of the settlers, being fitted up with cooking stoves and other conveniences.

Guides under the direction of the local colonization agent are placed at the services of land seekers in this district, by whose assistance they can find the best locations. The influx into the townships of Blake, Gillies, O'Connor, Strange, Lybster, Cormac, Pampouge, Dorion, Gorham and some others has been considerable, most of the settlers in this part coming from the United States, particularly from the west. Many of them abandoned rented farms in Ohio, Illinois, Michigan, Wisconsin, etc., to find homes in Ontario, attracted by the easy conditions of settlement, and the opportunity thus afforded to become their own landlords. The older sections of Ontario have also been largely drawn upon, and a number of the new-comers are from the British Isles. The movement has been facilitated by an arrangement which the bureau has effected with the railways, by which settlers can reach the townships above mentioned from Port Arthur, or go from the same place to Dryden and Wabigoon for the low fare of one cent per mile each way. It is hoped to effect a further reduction next season. In the territory of the Rainy River Valley the cost of travel is much greater, but the railway is being rapidly pushed to completion, which will render the land accessible at a cheap rate of travel.

In addition to the advance of settlement in the Thunder Bay district, there is a considerable movement towards the tracts of good agricultural land in Eastern Algoma, especially along the Canadian Pacific Railway, between Sudbury and Sault Ste. Marie.

and around Lake Nipissing, where many French-Canadians are coming in. Some of them are first-class farmers, but others, though they take up land, devote more attention to lumbering, and do little in the way of clearing or improvement. The building of wagon roads will render the land in this section more easy of access next season. A number of newly-arrived settlers have located at the head of Lake Temiscamingue.

The mistaken impression that the government grants pecuniary aid to settlers has inspired many people to write to the bureau from various parts of Canada and the United States, asking for such assistance. The notion is altogether and unfounded one. No money aid is given either to foreigners or Canadians, and no passage money paid, the assistance given being wholly along the lines indicated.

NEAR-BY "BOXERS"

An Organization Said to Exist in New York City—U. S. Soldiers Sent to Japan.

New York, July 11.—An intelligent Chinaman, who is very much Americanized, said today that there were Boxers in this city, that they were organized and active, and that Chinatown, which has so often been described as calm and altogether indifferent to the news from China, was under the surface in a state of intense excitement, says the Commercial Advertiser. The informant goes on to assert that the so-called Boxers have established lodges or secret conclaves, to which they are inviting all the Chinese of the quarters. They are not requiring active participation in the most secret work of the organization, but they do demand money, and they get it. This money, they say, is to be sent home to help the anti-foreign movement in China.

Washington, July 11.—The state department has made public the identical note which was recently delivered to the powers as defining the position of the United States respecting the Chinese troubles. It embodies the views to which this government has strictly adhered from the beginning of the present troubles, and which the different powers have now taken into favorable consideration. The United States do not consider themselves at war with the Chinese nation, but that all their efforts should be directed to localizing the disturbances in the province of Chi Li, and keeping them from spreading throughout the empire, by enlisting on the side of peace the powerful viceroys of Central and Southern China.

Plattsburgh, N. Y., July 11.—Four companies of the 15th Infantry, under command of Col. Moale, left Plattsburgh barracks yesterday for San Francisco, whence they will sail for Nagasaki on July 15.

London's team is in good form, and will give the red men a hard tussle. The match will be a fast one, as the locals depend upon their fleetness of foot and swift combination to break up the heavy defence of their opponents. The London had a fast practice last night, and intend putting a winning team in the field when they meet St. Mary's in that town on Friday next.

WHIST.—Niagara Falls, N. Y., July 10.—Chicago won the Brooklyn trophy by the closest score in the history of the American Whist League. The westerners were a tie with New York, but on the highest score by players Chicago had 29 plus, while New York was 19, so the trophy went to Chicago.

CRICKET.—THE INTERNATIONAL MATCH. London, July 10.—The visiting cricketers of Haverford College (Pennsylvania) today completed their first innings in the match with Marlborough College, begun yesterday, making 279 runs. The home eleven had made 167 runs for four wickets down in the second innings today, when the match was abandoned. Marlborough had scored 223 runs in their first innings, out of a total of 359 runs.

FISTIC.—JEFF AND RUHLIN GO IS OFF. New York, July 10.—James J. Jeffries will not fight Gus Ruhlín. This decision was reached yesterday at a meeting of representatives of the two men, in an agreement to postpone the fight until August 16, and Ruhlín's representative refused to enter into an indefinite arrangement.

A 25-ROUND DRAW. Rochester, N. Y., July 10.—Charley Johnson, of Philadelphia, and Bobby Dobbs (colored), of Baltimore, went 25 rounds to a draw at the Falls Field club before 800 people last evening. Both men weighed in at a trifle under 142 pounds in excellent condition.

FITZSIMMONS AND RUHLIN. New York, July 10.—Robert Fitzsimmons and Gus Ruhlín signed articles this afternoon for a 25-round globe contest on August 10, before the club offering the largest prize money. Neither is to have 75 and the loser 25 per cent of the prize money.

JOHN CHINAMAN HAS NO SUNDAY (New York Tribune.)

There is no Sabbath in China, but to make up for this there are many general and local festival days. Business is suspended only on the first day of the year, and then everybody makes merry and celebrates the day with good eating and drinking. The first three days of the lunar year and several days about the middle of April are devoted also to worship at the tombs. The days of relaxation and

merry-making are the two solstices and the festival of the dragon boats.

TRY IT.—It would be a gross injustice to confound that standard healing agent—Dr. Thomas' Electric Oil—with the ordinary unguents, lotions and salves. They are sometimes inflammatory and astringent. This Oil is, on the contrary, eminently cooling and soothing when applied externally to relieve pain, and powerfully remedial when swallowed.

"Necessity Knows No Law."

To take Hood's Sarsaparilla, the great blood purifier, is therefore a law of health and it is a necessity in nearly every household.

Erysipelas.—Has a severe attack of erysipelas, suffering from dizziness and nervousness so that I could not rest at night. Tried Hood's Sarsaparilla with good results, and now recommend it to others." M. CHAMBERS, Toronto, Ont.

WEEKLY REVIEW.

Today's session was quite like all the rest of the week, slack in grain receipts. The deliveries of the whole week would not make one good day. Wheat was steady at \$1.15 to \$1.20; oats very active at 50c to \$1.05, closing at \$1 to \$1.05. No other kind of grain came in, and the prices given for them are based in transactions from one to two weeks old in some cases.

Hay deliveries were fairly good for the season of the year; receipts were fairly well divided between old and new; \$5 to \$7 was the value of the latter by the load, and \$3 for the former by the ton.

Live hog receipts were quite large and sales ranged from \$5 to \$5.60, according to the weight.
Dressed hogs were about as plentiful as live ones. Sales at \$7 to \$7.25 for light and down to \$6 for heavy. Young pigs, \$4 to \$6 upward, selling slow.

PESSIMISM

Will Prevail

Until Direct News Comes From a Legation Member at Peking.

Fighting at Tien Tsin on July 6 Was the Severest That Has Yet Occurred.—Russians Alone Buried 200 Men.

London, July 1.—Although Shanghai today repeats the statement that both the emperor and dowager empress are alive, and telegrams from Chinese officialdom again testify to the safety of the legations, they no longer stimulate hope here, and pessimism will prevail as long as the authorities, who on their own showing are able to get messages to the coast, fail to send confirmation of the safety of the foreigners from some member of a legation at Peking. In the disappearance and reappearance of prominent people at Peking, and the efforts apparently making to shift the blame from one to the other, the Chinese attempt to represent themselves as victims of, instead of principals in, the recent occurrences. London sees only preparations for alibis and defenses in view of the approach of the troops of the powers, and the tragedy they may discover on reaching the Chinese capital.

According to a dispatch from Shanghai, the fighting at Tien Tsin, July 6, was the heaviest that has yet occurred, the Russians alone burying 200 men.

The allies are becoming exhausted by constant fighting.

A dispatch from Canton says Li Hung Chang is keeping excellent order. Robbers and pirates are executed publicly, and frequently, and the people are freed and afraid to disturb the peace.

FROM ADMIRAL REMY.

Washington, July 11.—The following cablegram has been received from the navy department from Admiral Remy: "Che Foo, July 10.—Arrived yesterday. Two battalions, 9th infantry, and one battalion marines, Col. Melade landed today to proceed to Tien Tsin. The allied forces at Tien Tsin are engaged in maintaining their defenses. Ordered the Solace to take the sick and wounded to Yokohama hospital. The Oregon proceeds soon to dock at Tien Tsin. I learned from Admiral Seymour at Tien Tsin that the foreigners there are hard pressed. Remy."

ANOTHER NAME ENROLLED.

Growing List of Those Who Testify to Dodd's Kidney Pills in Montreal.

Montreal, July 9.—The list of those who have received benefit from the great medicine, Dodd's Kidney Pills, is steadily growing in this city. Since Mr. Robert Thomson's name was published, Mr. M. Mullin, of 4 Elgin street, has stepped forward and submitted his testimony. His case was Rheumatism, which though now generally recognized as a kidney disease is not always treated as such.

People waste a lot of money trying to drive Rheumatism from the system. If they would all follow Mr. Mullin's example they would be saved much pain and expense.

Says he, "I have had Rheumatism for some time, and could get nothing to cure me until I used Dodd's Kidney Pills. I have now taken three boxes and am cured."

Mr. W. L. M. King, B.A., has accepted the editorship of The Labor Gazette. He is at present in Vienna pursuing his studies.

World's Champion Healer.

"I tried many remedies to cure piles," writes W. R. Smith, of Latham, Ill., "but found no relief till I used Buckle's Arnica Salve. I have not been troubled with piles since. Graciously give the cure on earth, and the best salve in the world. 25c per box, guaranteed by W. T. Strong & Co."

Prospects of Peace in South Africa

Much Improved by the Capture of Bethlehem.

All of Steyn's Government Surrendered, Excepting Steyn Himself—Early Collapse of Dewet's Force Likely.

Pretoria, July 10.—The presence of the British forces at Bethlehem has considerably improved the prospects for peace. It is said that the whole of the government of President Steyn of the Orange River States has surrendered except President Steyn himself.

The Orange River State officials who are British prisoners have been allowed to communicate with President Steyn for the purpose of attempting to prove to him the uselessness of a continuance of the struggle which can only produce bloodshed without any counterbalancing advantages.

The collapse of the forces of Gen. Dewet is expected next. The Boers say that many have taken a solemn oath never to personally surrender, but that they are beginning to see the unfairness of sacrificing life to personal wishes.

It is expected that when Gen. Botha learns of the defeat of his colleagues that he will gladly enter into conferences looking to the establishment of peace.

The need of more civil administrators is urgent, and the necessity for their appointment is becoming daily more apparent. Intelligent administrators, with a knowledge of the people, could undoubtedly greatly aid in the future settlement of difficulties, inasmuch as a frank feeling in favor of submission is prevalent among the Boers.

miles southwest of Chu Wang. An unsigned cablegram came on June 13, reporting all well in Honan. Doubtless the word went on this cablegram should be 13th. That would give time for sending to Che Foo this message that came today reporting that later the mission premises were burned, and the missionaries were escaping southward. They would travel to Shan Yang, a distance of about 250 miles, and then on the River Han to Han Kow, and thence to Shanghai.

The probability is that the missionaries from the other stations would accompany them, and as they are traveling in a known country, under the leadership of a civil engineer and his staff, the chances of safety are good, but as the distance is so great we may not hear for two weeks or more of their arrival at Shanghai.

New York, June 10.—The international commission of the Y. M. C. A. today received the following cablegram: "Shanghai, June 9.—A cablegram received from consul, Che Foo, All Tien Tsin Americans safe. Nothing has been heard of Gally personally, but the message is probably from Robert E. Lewis, the committee's secretary, at that place, and is supplementary to a dispatch received from Mr. Lewis a few days ago, in which he stated that he had no definite information regarding the committee's secretary, Robert E. Gally, at Tien Tsin, but that he was inquiring of the consul at Che Foo for definite intelligence. The committee has no direct communication from Gally, who is well known, was with his wife and children in Tien Tsin when the recent trouble arose."

THE BOXERS

Interesting Particulars Contributed to the London Times.

The following interesting particulars about the Boxers appear in a recent issue of the London Times:

1. Name.—The proper name of the society is I-ho-chuan, which may be translated, "League of United Patriotic." It is the origin of its popular designation, "Boxers," is uncertain. This name may have been given them from the prominence its members appear to attach to gymnastics in their training, or from the last character in their Chinese name, chuan, also meaning "fists"—the characters are different, but the pronunciation the same.

2. Origin.—The seizure of Kiao Chau by Germany, as one of the measures of punishment for the murder of two Catholic missionaries in Shan Tung, and the consequent acquisition (practically seizure) of Port Arthur and Liaon Bay by Russia, of Wei Hai Wei by England, and Kwang Hu by France, gave rise to a general belief among the Chinese that the chief source of international complications lies in missionary propaganda, and that if missionaries and converts could be once got rid of things would run smoothly. This idea was availed of by Yu Man Tsj as the basis of his campaign of destruction in Szu Chuan, and to a certain extent by the "Large Knife Society" in their uprising on the borders of Shan Tung, Anhwei, and Kiang Su (though in the latter case death of food was also a large contributing, probably the main, factor). It is the same idea which has led to the present outbreak of the I-ho-chuan in Shan Tung, the province in which Kiao Chau and Wei Hai Wei are situated, and in which the railway development being pushed on from the former place has encountered opposition.

3. Objects.—It is not unnatural therefore, as the China press reports in the case, the society's flag should bear the device, "Uphead the dynasty, drive out foreigners." It is also, perhaps, not unnatural—however mad the

policy indicated by such a device may appear to us Westerners—that at a time when great and widespread dissatisfaction was being openly expressed with the empress dowager's policy, not only throughout China—but by China's neighbors abroad, the society which openly avowed the maintenance of the dynasty as one of its main objects should be viewed with favor by the reactionaries in Peking—Yu Hsien, the late governor, not only took no action to suppress the society at its institution, but by his behavior aided its development, and little seems to have been done by the newly-appointed governor, Yuan Shih Kai, and the foreign drilled troops he took with him, to curb its action.

DOMINION PARLIAMENT

Mr. Foster Offers a General Criticism of the Government's Financial Policy—His Resolution Voted Down—Mr. Fielding's Able Reply.

Ottawa, July 10.—In the house today the indemnity question was raised by Mr. Casey, who drew attention to an article in the Hamilton Spectator saddling the French-Canadian members with responsibility for the claim for extra remuneration. Mr. Casey characterized this as a gratuitous lie, and protested against the insult sought to be cast upon the French-Canadian members. The application for extra indemnity was signed by members from all over the Dominion, and embraced a large percentage from both sides. He was not ashamed to say that he had signed it himself, and he was ready at any time to sustain the contention that \$1,000 was not a sufficient remuneration for a session of parliament lasting from five to six months. Mr. Craig, on behalf of the Conservatives, frankly avowed himself a supporter of an increase of indemnity, and gave reasons showing the necessity of paying a larger sum to members, now that the sessions of parliament were gaining in length. Applause from various parts of the house evidenced that the suggested increase was popular with many members.

The report that Mr. Tarte is leaving Paris for Canada, and that Mr. Hector Fabre has been appointed head of the mission at the exposition in the former's place was brought to the premier's notice and elicited a prompt denial.

Mr. George Taylor again drew attention to the case of Corp. Courtney, alleged to have been degraded for refusing to march a squad of men to the canten at Kingston. Hon. Mr. Borden gave an explanation, showing that the affair was purely one of regimental discipline. On the Queen's Birthday the members of the permanent corps are allowed a glass of beer, or its equivalent, at the canten. Courtney was ordered to take a squad of men there and keep check of what they received. He refused to execute the order of his superior officer, and was afterward court-martialed and reduced to the ranks. He is also on the regimental blacklist for many offenses committed previously. Mr. Taylor, his champion in the house, had no justification to offer when these facts came out.

On Mr. Mulock moving the second reading of his bill to reduce the postage on newspapers in the province of publication from one-half to one-eighth of a cent per pound, Mr. Nicholas Flood Davin was the man who above all others objected and proposed the six months' hoist. He evidently was quite unprepared for a vote, however, for when the speaker put his amendment he said "Lost on division." To this Mr. Gibson and other Liberals demurred, and insisted upon a division, much to the chagrin of the member for West Assiniboia. The second reading was then carried by 79 to 27, showing a majority for the bill of 25 Messrs. Ingram, Kaulbach and other Conservative members voted for the reduction in postage.

Mr. Foster tonight moved his annual resolution condemning the government for alleged cynical disregard of pre-election promises. The resolution was a very lengthy one, and contained excerpts from the speeches of Liberal leaders. The ex-finance minister charged that the taxation raised from the country, the public debt and the expenditure had been largely increased. Important measures including seven and one-quarter millions of supplementary estimates, had been delayed

until the dying days of the session, when proper consideration of them was impossible. The government were incapable, and their extravagant expenditures were causing alarm, and seriously affecting the business and financial standing of the country. The resolution was framed for campaign purposes, and supported by a speech of the same character.

The finance minister, in his reply, badly punctured the sophistry of which Mr. Foster is a master. If the business of the session had been delayed it was not the fault of the government, for there had never been a moment when there were not measures waiting to be proceeded with.

LITTLE VIXEN

"And Mr. Douglas?" he asked, looking keenly into her face.
"He is dead!" said Lettie impulsively. Then her face blanched to marble pallor. "Oh, no, no, Tracy, I did not mean that!" she cried. "I mean, he did not die. He is better, much better, and although he cannot come himself, he says he can spare Dawn."

She gave a slight shudder as she spoke, thinking of her victims—one lying down under the deep water of the lily pond, the others dead in the woods by the axe and knife of the black stable hand whom she had bribed to do her deadly work.
Then she drew him away to a quiet bay window, where she could not be overheard, and said, with bitter resentment:
"For heaven's sake, do not look so black and miserable. One would think you were going to be hanged instead of being married to a pretty girl who can endow you with Cedarhurst and a fortune."
He replied with desperate frankness:
"Heaven knows, Aurora, I would as soon be hanged as take Cedarhurst, the fortune, or the bride, only to save my parents from the disgrace that must otherwise fall upon their gray heads."

She clinched her hands and her handsome face darkened with futile rage.
"You are frank and chivalrous, sir," she said, in impotent wrath, and a flush of shame rose over his face.
"I spoke hastily, I beg your pardon, Aurora," he replied, sighing. "But you know, you have known all along, that my heart was not in this marriage. I paused, but his lip and became silent."
"Go on," she said sharply, studying with fierce eyes the dark, sad, downcast face.
He looked up and answered impulsively:
"I was going to say that if I thought it would be of any use I would plead with you for mercy—mercy for my erring parents, and for myself, their unhappy son, for whom they sinned. Oh, Aurora, is there no other way for me to expiate their crime than by this fatal marriage?"

If glances could have killed, the flash of her furious eyes would have laid him dead at her feet. She answered, coarsely, with concentrated passion:
"No, there is no other way, I am quite determined to become your wife, if for no other purpose than to punish Dawn Douglas and you for your cruel treatment of me! Ha, ha, she loves you, you know, and it will break her heart when I become your wife!"
There was a strange, wild gleam in her eyes that startled him. She clung to his arm, and whispered, frantically:
"For God's sake, give me your love, Tracy, or I shall go mad!"
With an expression of disgust he disengaged himself from her clasp, and replied:
"You are mad, indeed, to dream of such an impossibility as winning my heart, Aurora. I shall never love any one but Dawn Douglas while life lasts. It is as well for you to understand this now, for you have taken the irrevocable plunge that binds your warm heart to one that will ever be cold to you as Alpine snows."

"I will take the risk," she answered, eagerly. "If I cannot have your love, I can punish you by making you miserable in return for the cruel wrongs you have said to me today; and with eyes blazing with fury, she swept away to her own room to begin her wedding toilet, leaving Tracy staring like a statue of despair beside the window."

man from the fineness of his clothing, elegance of his watch, ring and pin, and his cheerful smile.
Mr. Tempest promised to reward the gatekeeper richly for his care of the stranger, and dismissed him, promising to come at the earliest possible moment to see his charge.
Then he returned to the nervous invalid, whose large eyes were already fastened eagerly upon the door, watching for his return.
"You are weary and tired, dear," she whispered. "Go into my dressing-room and lie down and sleep. I shall do very well with my maid and Mrs. De Nevarre, who is going to sit with me awhile."

He did not know how weary he was until he flung himself heavily upon the luxurious sofa in the darkened dressing-room, but a deep, refreshing slumber came to him that lasted far into the afternoon.
When he roused himself at last and went back to his wife he was surprised to find how late it was. She was asleep and a faint, delicate color lay upon her thin face. Suddenly she awakened and gave him a sweet smile.
"Oh, my dear, I have been dreaming such happy dreams," she murmured, when she found herself alone with him. "I dreamed that all our sorrows had fallen from us and that Aurora Douglas was gone away and that our Tracy was married to the beautiful Dawn."
"Ah, if it might only come true—that glorious dream!" he sighed.

A little later he went down to mingle with the wedding guests, who all expressed lively regret that dear Mrs. Tempest was too unwell to leave her bed and consequently could not witness her son's marriage.
They tried to assure the bride that she was already gone to her room to dress, and that Mrs. Douglas and Miss Dawn Douglas were momentarily expected to arrive.
He looked out and saw that twilight had fallen, and realized that it lacked but an hour to the time set for the ceremony.
Then someone came to tell him that Wilkins, the gatekeeper, was asking for him and would not be denied.
Mr. Tempest went hastily to the man and found him nervous and excited.
"Oh, sir, will you please come to that sick man if only for one minute? He's come to himself and talking so strange," he said.
"It lacks but an hour to my son's marriage, but I will go," he said, running down the steps by Wilkins' side. As they started off briskly, side by side, he inquired: "Have you learned the stranger's name?"
"Oh, sir, I'm afraid the man's crazy, he's talking such wild stuff. He declares that he is Mr. Carl Douglas, the missing husband of Mrs. Virginia Douglas. He wanted me to send up to Cedarhurst for her and that pretty Miss Dawn, and when I told him about the telegram that called them away he fairly flew wild. He swore he had sent me every telegram, and that it was a plot against their lives by the same bad woman that pushed him into the water."

"And that woman?" Mr. Tempest breathed, hoarsely.
"Oh, Mr. Tempest, that's the strangest part of it all. He declares it's Miss Aurora Douglas, the young lady that's going to marry your son tonight. He cursed her in his fury, and swore she was old Jarvis' own daughter, and that the other one, Miss Dawn Douglas, was the heiress of Cedarhurst, and he vows that the marriage must not come off tonight."

NOT ALL GOLD THAT GLITTERS

Gloomy Outlook for Cape Nome Gold Hunters.

Washington, D. C., July 11.—A report has been received at the treasury department from Capt. Roberts, commanding the revenue cutter Manning, dated Dutch Harbor, Alaska, June 23, 1900, showing a situation at Cape Nome which the officials fear may result in great suffering during the coming winter among the crowds that are now flocking to the new goldfields.
Capt. Roberts says: "The steamer Luella, of San Francisco (P. Miller, master), came in from Nome with a clean bill of health, and confirms the report that smallpox cases were found on board the steamers Ohio and Santa Ana, which have been sent to Egg Island, off St. Michaels, for detention in quarantine. Dr. Call, recently of our service, has been appointed quarantine officer by the authorities. Capt. Miller informs me that there are no cases of smallpox ashore, but that nearly everyone expects an epidemic of typhoid fever. There are, he believes, 10,000 people on the beach, with no prospect of securing a paying claim or of obtaining employment outside of mechanics, such as carpenters, builders, etc. It appears impossible for the vast throng that has been and is being thrown into Nome by the numerous transportation companies, which use every means possible to induce travel to the Cape Nome fields, to find mines or work. Many of these people have but little above their passage money and outfits, and depend upon finding gold to keep them going after landing. It is the opinion of those from the mining district of Nome and vicinity, from whom I have sought information, that a large number of people will be stricken before the end of the season, with no means of getting to the country without assistance from some source. The revenue cutters, crowded to their utmost, could take but a small fraction of the number, and the problem of how they will relieve the rigors of an Arctic winter is one that requires serious attention."

Can You Tell Why you have constant headaches, are nervous and sleepless at night and feel tired in the morning? Your blood isn't carrying the right materials to your nerves and other organs. Begin taking Hood's Sarsaparilla, the great blood purifier, and you will soon realize a change. You will feel better and stronger, will relish your food and enjoy refreshing sleep.

You never see a married man applaud a wife who gets the best of her husband in a quarrel.

A CLEAR, HEALTHY SKIN.—Eruptions of the skin and the blotches which blemish beauty are the result of impure blood caused by unhealthy action of the Liver and Kidneys. In correcting this unhealthy action and restoring the organs to their normal condition, Parnelle's Vegetable Pills will at the same time cleanse the blood, and the blotches and eruptions will disappear without leaving any trace.

Necessity is the mother of invention. —Farquhar.

Warning! It is not to be wondered at that most Americans are dyspeptics. Swallowing ice cold drinks on a hot summer day does the mischief. Why then not add 10 drops of Angostura Bitters, the well-known tonic, to your favorite beverage, and thus avoid all danger of cold in the stomach?

SNOW EIGHT FEET IN DEPTH

Early and Severe Winter in New South Wales.

Safe Arrival of Gov. Hodgson and His Party at Cape Coast Castle.

FRENCH TROOPS FOR CHINA.
Toulon, July 11.—The French troopship Aquitaine has sailed from this port with 850 infantry soldiers and artillery for China.
SAFETY OF ASHANTY'S GOVERNOR
London, July 11.—The Daily Mail's Accra correspondent, telegraphing July 10, says: Frederick Mitchell Hodgson, Governor of the Gold Coast Colony, and his wife arrived at Cape Coast Castle today. The remainder of the party is expected tomorrow.

DINED WITH THE QUEEN.
London, July 11.—Lord Salisbury, United States Ambassador Choate and Mrs. Choate and a few others dined Monday evening with the Queen at Windsor Castle. Her Majesty will come to London July 11 to attend the garden party at Buckingham Palace.

SNOW EIGHT FEET DEEP.
Sydney, N. S. W., July 11.—An unusually early winter, with floods of unprecedented severity, is causing great loss throughout this colony. Telegraphic communication is interrupted, train-loads of passengers are snow-bound and freight traffic is paralyzed. In many parts of the country snow stands eight feet deep.

HOLE IN THE PLATFORM.
London, July 11.—The Times' New York correspondent is very severe to-day upon the Democratic platform, in which it is stated that the American people shall ever be held in unwilling subjection to European authority. That, says The Times' correspondent, is a direct invitation to any seditious Canadian minority which may at any time seek an outlet for its discontent.

SUBMARINE VOLCANO.
London, July 11.—A dispatch to the Times from Sydney, New South Wales, says that while the cruiser Ringarooma was practicing off the New Hebrides, she lost a torpedo. Three divers attempted to descend to recover the torpedo, but they encountered an active submarine volcano. The water below the surface was boiling. The men, mired from their ears and noses, and their diving suits were injured by the heat.

AMERICANIZE STRATFORD-ON-AVON.
London, July 11.—The number of American visitors at Stratford-on-Avon this year is far greater than ever, and in fact, the town has become so American that one of the largest hotels has purchased an American ice chest and imported a barkeeper to make cocktails. The ingredients of which a local guide describes as consisting of chain lightning, vitriol and bits of broken glass. The Americans, so the guides claim, all are bent on writing their names on the wall of Shakespeare's home, and especially on the window which bears Sir Walter Scott's autograph. Many also ask to be allowed to lie upon Anne Hathaway's rush mattress.

A FAMOUS BOY.
London, July 11.—Fame and fortune came to Kubelik, the wonderful boy violinist, almost in a day. A month ago he was unknown, outside of a coterie of musical enthusiasts, and now he is playing to immense audiences. He has been sent for by the Queen and commands enormous prices for his services.
Saturday Kubelik was offered \$525 to play at the reception of a well-known Populian, but he refused unless he was given twice the price.

Already over 1,000 engagements are booked for the youthful star in America and on the continent. The boy's parents are quite poor and his fortune will fall into worthy hands.
THE POWERS AND CHINA.
Berlin, July 11.—Regarding the attitude of the powers toward China, an official said that the conference he had just attended was a most successful one, and that the harmony just now is standing the first serious test, namely, the sending to China of another Japanese division—an increase which will especially welcome the Chinese. The official added, "No objection to the landing of forces by any of the allied powers, if they only hasten their arrival."

The British Charge D'Affaires, Lord Gough, said in a representative of the Associated Press: "The powers are now engaged in a new interchange of views regarding Japan's most recent inquiry, but each power has answered for itself. The powers are not in a hurry to formulate a more remote plan of political action in China, as the first thing necessary is the relief of Peking."

PARTNER SHOT HIM.
New York, July 11.—John Maags, 51 years old, of Hoboken, N. J., a manufacturer of upholsteries, was shot through the breast yesterday by his partner, Peter Stelward. The men had quarrelled over business affairs. Maags' wound is probably fatal.

NINE PERSONS POISONED.
Little Rock, Ark., July 10.—An entire family of nine persons died today near Calico Rock, Marion county, from eating poisonous toadstools, mistaking them for mushrooms. The family ate a hearty dinner, which included the supposed mushrooms. All were violently ill, and none recovered.

MARRIAGE OF A PRIEST.
Worcester, Mass., July 11.—Rev. J. Arthur Coutlee, a priest of the Roman Catholic Church, and Miss Georgiana Carrier, formerly a school teacher in Ontario, Canada, who eluded her parents and came 500 miles, were married by Rev. Arthur St. James in the Beacon Street French Baptist Church here last night. A surging crowd filled the street, and crowded the edifice during the ceremony.

VERY MANY PERSONS die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If it lacked no delay in getting a bottle of Dr. J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain and disease.

TRIBUTE TO McLEAY

The Most Promising Actor on the English Stage—Clement Scott's Opinion.

Writing of the death of Franklin McLeay, the young Canadian actor, Clement Scott says:
"He was the most promising actor on the English stage, and would soon have taken the first rank in Shakespearean and romantic drama. The place was his by right of genius and attainment, and it was almost within his grasp when he passed away. He was a graduate of Toronto University, a profound Greek scholar, and a professor of elocution.
"He was discovered there in Canada by Wilson Barrett, and was by him tempted to leave the classics for the stage, and as was to have been expected, his first appearance was with Barrett. His best success was as Nero in 'The Sign of the Cross,' where his work was superb. Grace Warner was in the same company, and played the part of Poppea with almost equal success.
"Naturally, this gifted couple, being so close together, fell in love and were married. That was scarcely eighteen months ago. I was present at the ceremony, and never have I seen a more or more perfectly mated couple. Both were in the prime of health, youth and beauty, and we all looked forward to the day when they would have a theater of their own, like their famous predecessors, the Kembles and Charles Kean, who were actors first and archaeologists afterward.
"The young Canadian's dramatic success grew and increased greatly under Barrett's training. He was a brilliant hit as Cassius and Hubert, and his performance as Derick in 'Rip Van Winkle' was the best thing in the play."

"It was his tremendous energy which killed him. He was never weary with well doing. He worked at the Canadian benefit night and day like a horse. He was rehearsing and attending committee meetings all the day-long hours, and acting and writing letters all the night. It was work, always work, and much of it for others, and without hope of reward.
"The last time I saw my dear friend I implored him to take care of his health. He was then bitterly indignant at the statement made in some of the London papers that Ottawa did not want a benefit, and that the money obtained would go to local improvements. He broke down to the verge of tears in my house, for he felt that the public would, because of these stories, cruelly misjudge and misunderstand him."

"This brave young fellow was only 30 years old when he died. He knew he had overtaxed his strength, but he went on working. Then came brain fever, unconsciousness and premature death.
"The next part he would have played was Iago, which fact he foreshadowed at the Canadian matinee."

GRAND TRUNK RAILWAY

Magnetawan River.

The beauty of Muskoka lies as much in its rivers as in its lakes. The Magnetawan is situated sixty miles north of Gravenhurst, at Burk's Falls on the Grand Trunk Railway, and opens up another and entirely new region to staid navigation, to the tourist, and particularly the sportsman who can get with comparatively little trouble to a district which has hitherto been accessible only to those with ample means and time. The very heart center for sport, for rod and gun. Its rivers and lakes can be ascended and descended in canoes and the best of sport, while the eye is fascinated by the fresh and unspoiled wilderness of its forest haunts.
