Chute, When Posts Gave Way.**

Toronto, June 30.—S. Warren, a Grand Trunk Railway fireman, was killed, and W. J. Campbell, an engineer, whose home is in Mimico, and James Hewitt, yardmaster, who lives at 109 Malvern avenue, East Toronto, were badly injured this morning as the result of a collapse of a trestle bridge in the Grand Trunk yards at East Toronto. The accident happened shortly before 10 o'clock. An engine was hauling two cars of coal up the chute when the wood of the posts gave way without the slightest warning, and the engine and cars crashed in a heap below. The collapse of the chute was due to the taking away of the coal beneath it when the yards were removed from East Toronto to Mimico.

**SPLENDID STOP
OF RUNAWAY HORSE****Man on Richmond St. Jumped

He Managed to Escape Himself
—Reward for the Hero.**

A ruined Panama hat and a broken bicycle were the most serious results of a runaway on Richmond street last night about 9 o'clock. A delivery horse belonging to Frank G. Moore, the fruit man on the Market Square, was standing outside the Grand Trunk freight sheds, when suddenly took fright and turned down York street, touching only the high spots in its mad career.

The horse turned north on Richmond street, and right in front of the city hall was where the trouble occurred. Taking in the situation, a man jumped in the rear end of the wagon and climbed over, grasping the reins. Just opposite the city hall he managed to turn the horse in on the sidewalk, stopping it.

But between the wagon and the sidewalk was a broken wheel and a badly smashed Panama hat when the wreck was cleared away. When the horse swerved to the left a young man on a bicycle was directly in its path. The bicyclist managed to escape danger, but not so his bicycle and hat. The spokes in the front wheel of the "bike" were broken. The horse and wagon escaped injury.

A citizen called at The Advertiser later and left \$100 presented to the man who caught the horse. "I don't know who he is," said the citizen, "but he certainly made a grand stop of that runaway."

**FINAL SCHEDULE OF
ELECTRICAL PRICES****Engineer Dark Says City Can
Beat Any Power Prices
Offered.**

The final schedule of power prices will be issued by the city electric department in a few days, and a thorough canvass of probable customers will be made by Mr. J. Anderson.

Tentative rates were discussed by several large firms in the city, but the revised schedule in the final schedule will be much more favorable to them, and it is expected that they will use the city power.

What May Be Done.

"We can sell power at 1.5 cents a kilowatt hour," said Mr. Anderson. "In this city can develop power by steam or otherwise for less than 2 cents a kilowatt hour. We will have that margin at least over power produced in the city."

"We will sell 4,000-horsepower in a short time, possibly at the end of the year. We have the cheapest power that can be secured. We can sell cheaper than the Detroit Electrical Company, who have probably the finest steam plant in America."

**ST. MARYS BYLAW
QUASHED BY COURT**

Toronto, June 30.—The divisional court yesterday morning gave judgment at Osgoode Hall allowing the appeal of William Dale, the younger, from the refusal of Chief Justice Munk to quash the debenture bylaw passed by the township of Blanchard, Perth County, authorizing the granting of aid to the extent of \$20,000 to the St. Marys and Western Ontario Railway Company. The court found that the bylaw was valid, and that the township was not liable for the cost of the bylaw.

Last night a Springbank car at Wondelton ran over and killed a monster turtle on her way to the sand hills to deposit her eggs. About a quart or more of eggs the size of pigeon's eggs were scattered about the track.

A number of citizens who were on the car took some of them home to have them hatched, while Inspector Nicholson, of the company, took a dozen to the city hall for Collegiate students, who might desire to have them.

**INSURANCE IS

Made Payable to the Pere

the Matter Will Be Taken Up.**

All the insurance on the London and Port Stanley property is payable to the Pere Marquette Railway Company. In his annual report to the board on the audit of the books of the Pere Marquette, City Auditor Jewell called the attention of the members to this fact, and Mayor Beattie and Mr. Jewell will take the matter up with the company at once, and a change will be suggested.

"The company pays the insurance," said Mr. Jewell. "They get a better rate, perhaps, than we could obtain, and that is the reason, I presume, why they are allowed to hold it in their name."

"There is no question that the property is insured to its value, but whether or not the board is justified in allowing the policies to remain in the name of the lessee is another matter."

Bad Business.

"I do not think it good business," declared Mayor Beattie. "It would cost us little, or the company little, to have the policies made payable to us. I do not like this method of doing business. I do not think a member of the board would allow his tenant to take out the insurance on his building, and have the policies paid to the tenant. Of course, there may be no difficulty, but it is not businesslike."

"I move that Mayor Beattie and City Auditor Jewell take the matter up with the Pere Marquette," said Mr. Stevely. Ald. Eckert seconded the motion and it carried.

At the meeting of the water commissioners held yesterday afternoon, Chairman A. T. McMahon notified the board that owing to illness that he would be unable to be present at the board meetings for some weeks.

Commissioner Pocock was named as chairman pro tem, and will preside at the deliberations of the board until Mr. McMahon's return.

The tenders for the underground work were awarded. The Safety Insulated Wire and Cable Company, of New York, were given the contract for the ducts and installation for the sum of \$22,184.

This tender was over \$2,500 cheaper than the next lower.

The cable contract was awarded to the Wire and Cable Company, of Montreal. The cost of this will amount to about \$12,000 or \$15,000.

Ald. Ashplant and Fire Chief Aitken were instructed to purchase straw hats for the firemen.

Mr. J. Anderson presented a petition asking that the market house be closed on Wednesday afternoon. Mayor Beattie pointed out that the committee had no power unless the petition from the butchers in the pavilion was unanimous. The communication was filed.

Another Water Cart.

City Engineer Graydon recommended the purchase of another water cart. The matter was laid over.

The application of O. J. Bridle for the position of blind inspector was filed, as Inspector McCallum has been named for the place.

The communication notifying the council of the annual convention of fire chiefs in the city was filed.

It was decided to accept the tender of Sutherland Bros., of \$40, for eaves-troughing on the market building.

—Some Weather Figures Which
Are of Interest.**

Statistics compiled at the local weather bureau show that the month of June ran up to extremes in the matter of temperature, and that on the whole it was much warmer than the same month of a year ago.

The highest temperatures recorded was on June 22 and 23, when the mercury ran up to 91.5 in the shade. In June of 1909, the highest temperature was 88.5.

The lowest reading of the thermometer during the present month was on the 4th, when 34.5 degrees was recorded. A year ago, the lowest reading was 39 degrees on the 15th.

The present has been a very dry month, the rainfall being only 1.71 inches, as compared with 2.49 inches in June of 1909.

The great heat and the lack of rain, as shown by the official figures of the observatory, account for the tremendous shrinkage in the Springbank springs, and also for the great demand in the city for water.

Chief Dispatcher Charles Forrester, of the Grand Trunk, received word from headquarters this morning of his appointment as trainmaster of the 15th and 20th districts, comprising the lines from Toronto to Sarnia Tunnel and the Buffalo and Goderich line.

Mr. Forrester's headquarters will be at Stratford, and he will take over his new position tomorrow.

Night Chief Dispatcher White succeeded Mr. Forrester as chief dispatcher, and Mr. C. Rutherford will succeed Mr. White.

W. S. Wilson, chief dispatcher at Stratford, will be trainmaster of the 22nd and 23rd districts, with headquarters at Palmerston.

George Stokes, dispatcher at Stratford, will be chief dispatcher at Palmerston, and it is the intention to place a staff of operators there.

Mr. Brown, of this city, will succeed Mr. Wilson at Stratford.

Mr. McLardy Resigns.

All the above changes have been made as a result of the resignation of Mr. J. A. McLardy, trainmaster at Stratford, who goes to Winnipeg to accept a more important position on the Grand Trunk Pacific.

Mr. McLardy went to Stratford from St. Thomas about a year ago. In St. Thomas he was trainmaster for the Wabash.

Mr. Forrester came to London from Hamilton twelve years ago. For seven years he was a dispatcher, and was then made night chief. He held this position for two years, and for the last three years has been chief. He is known as one of the best operators on the Grand Trunk, and is one of the best liked railroad men in the company's employ. He has a host of friends here who while regretting to lose him, will rejoice at his splendid promotion.

[Special to The Advertiser.]
Detroit, Mich., June 30.—Mrs. Frank S. Gouldthritte, wife of the missing Canadian Government official whose supposed suicide by leaping from the steamer Eastern States was reported on Monday, has arrived here from Minneapolis. She identified some of the clothing found on board the steamer as belonging to her husband. She is staying with a private family in the city.

Police officials say that Gouldthritte walked off the boat at Detroit, after apparently failing to make good his threat to end his life in the river, and that he had a scalper's one-way ticket for Duluth.

Sat on the Rail.

This is considered important in as much as Mrs. Gouldthritte in a five-minute conference with Detective Tuttle, in police headquarters last night, declared that she had been visiting in Minneapolis. Gouldthritte was evidently on the way to join his wife. The day patrol of the Eastern States this morning told General Manager A. A. Chantz, of the D. & C., that while on his rounds when the boat was opposite Smith's coal dock he saw Gouldthritte, apparently very nervous, sitting on the rear rail of the boat. The patrol ordered him down. On the next trip he did not see the man, but saw the straw hat lying there.

The five-year-old son of Gouldthritte has been spirited away from the home of Mrs. John Nevins, of Ottawa, where he was placed after the mother departed from the city.

[G. N. W. Dispatch.]
Toronto, June 30.—Pasquale Ventracini, the Italian who murdered Raffaele Fabbio, a fellow countryman on Manning avenue, this city, March 6 last, expiated his crime on the scaffold this morning in accordance with the sentence of Judge Riddell. The condemned man, white of face, and with his nerves evidently strung to the highest tension, walked steadily from his cell to the death chamber between two Italian priests, saying over and over again in a loud firm voice to the officials, guards and reporters, "Good morning," perhaps through his ignorance of English meaning "Good-bye." Father Redmond, of St. Mary's Cathedral, said the Lord's Prayer in English, and the Italian priests repeated it in Italian to Ventracini, who repeated the words.

The death cap was placed on the man's head, Hangman Arthur Ellis pulled the lever, and the trap door dropped. Nine minutes elapsed before Dr. W. T. Parry pronounced the man dead, and it was some time later before the body was cut down.

Wrote His Wife.

Ventracini's last act was the writing of a letter to his wife, in which he placed his soul in the hands of the merciful God, and said he hoped to go to heaven.

After leaving his cell, Ventracini stated, through Michael Basso, the Italian interpreter, that his greatest grief was the pain he was causing his own wife and the wife of the man he had killed. He said he realized that Fabbio's wife and his own wife would live in misery as the result of his deed, for which he was not responsible at the time of commission.

Fire Chief Aitken is after the street watering department. TO CURB OFFICIALS OF UNITED STATES

Conductors Ordered to See That Passengers Are Not Bothered in Canada.

Toronto, June 29.—"I won't admit, if I have a ticket from Toronto to Niagara Falls, Ont., that an American officer can properly come aboard the train at St. Catharines, ask me who I am, where I am going, and a lot of other questions."

With this emphatic statement, Chairman J. P. Mabey of the board of railway commissioners expressed his view of the arrangement the railways have with the United States Government, by which the United States immigration officers board Canadian trains and examine passengers in Canadian territory.

"They can do what they like across the border," said the chairman, "but it's not the proper thing here."

Mr. Edward Beatty, of the C. P. R., urged that the railways' aim was to cure the evil of carrying undesirable passengers.

Blames the Railway.

The chairman thought that the railways' fear of being penalized for carrying undesirable across the line had something to do with it.

"No, the main reason is to prevent delay of traffic."

"Could you not devise some other system by which those people who are going to cross the border could be designated by the conductor to the officer, and not turn this man loose on the train?"

Then Mr. Phippen, counsel for the C. N. R., took a hand in the debate.

"The immigration officer simply asks the passenger if he is going to the States. If he says he's not, that ends it," said he.

"Oh, no," replied the chairman, "he demands that the passenger show his ticket. If he refuses he is put off the train. They are doing it repeatedly."

Mr. Phippen: "I have been on trains and heard several discussions between these United States officers and passengers. I was impressed with the courtesy of these men, and in discussion I heard I must say that if I was the agent I would have been inclined to punch the passenger's head."

Chairman Mabey was not at all convinced. He put an illustrative case to Mr. Phippen.

"Supposing I have a ticket from Toronto to Niagara Falls, Ont. A man comes on at St. Catharines, and asks me who I am, and where I am going. What right has he to do that?"

Mr. Phippen: "Theoretically none."

Chairman: "And I tell him its none of his business. He insists on seeing my ticket."

Mr. Phippen: "I'd tell him to go to the United States."

Chairman: "Or some place warmer than this court room. But he keeps me under surveillance, watches me, and if I don't go on and cross the line he takes me into custody. That's all right over there, for if I went over I should be taken into custody."

Then Mr. Phippen gave way to Mr. S. T. Bell, general passenger agent of the G. T. R. The latter said that it should be remembered that a million people crossed the Niagara frontier in a short time.

Chairman Mabey: "We have had eleven complaints from passengers who crossed the line at Niagara during May, and these are probably a mere bagatelle of the real occurrences."

Mr. Bell produced an agreement between the railways, dating back to 1893, providing for this system of examining passengers. When the matter was before the commission some time ago the railways had agreed to send out a circular to their conductors directing them to defend their passengers from undue annoyance, and to report any cases of incivility on the part of United States officers to the head office.

To Notify Conductors.

This circular, explained Mr. Bell, had been issued by the G. T. R. transportation department, but through some oversight had failed to reach the passenger office, and thence the conductors. He would assure the board that the conductors would be notified.

The chairman told him that all 11 complaints were from G. T. R. passengers.

"I know one conductor who thinks it is his duty to practically turn his train over to those officers. If a passenger is assaulted, and the conductor does not defend him, the company is liable for damages."

After some further debate, and repeated assurances from the railway officials that they would do all in their power to prevent trouble, the board decided to let the matter stand.

"We are fully alive to the delicacy of this international matter," said the chairman, "and it would be better if the railways would deal with it rather than have the board intervene. It seems impossible to justify the interrogation of persons who should not be subject to such inquiries. All the railways must put this circular in the hands of their conductors."

MR. BRYCE'S GOOD WORK.

London, June 30.—Speaking at the National Liberal Federation, Mrs. Bryce said that Mrs. Bryce, who was recently here, gave her details of work done by Ambassador Bryce at Washington, in healing differences between Canada and the United States. Mrs. Bryce said to her: "He talks to Canadians like a Canadian, and to Americans like an American, and they let him say what they would let no one else say," consequently, said Mrs. Bryce, the clouds are disappearing.

FINE NEW HOME OF ONTARIO LOAN CO.

The New Premises To Be Occupied After July 1.

After July 1, the Ontario Loan and Debenture Company will open up in their fine new premises on the corner of Market Lane and Dundas street. It is a handsome stone and brick building, and has been entirely remodelled and rearranged. This makes the office much more easy of access, and adds greatly to its conveniences. Formerly it was necessary to go up a flight of steps to reach the front door. This has been done away with as the office stands on a level with the street.

remodelling was somewhat unique. The front and side walls were taken out up two stories to a height of 30 feet, and supports put in their place, while the new walls were built in. It was a delicate piece of work, but was successfully carried through. The new building presents a fine appearance, adding greatly to the corner on which it is situated.

LOSE ON THEIR SLEEPERS

Canadian Pacific Oppose Reduction in Rates of Uppers.

Toronto, June 30.—That the C. P. R. is losing money by operating its sleeping car service was the statement made to the board of railway commissioners today by Mr. Edward Beatty, general solicitor for that railway.

He put two officials in the witness box to show the cost of construction and operation of these cars, and the revenue derived therefrom.

This was the net result:

Operating expenses, \$1,414,384

Gross revenue, 1,377,015

Loss, \$37,369

The period covered by these figures was the year ending June 30, 1909.

Mr. Beatty offered this as his strongest argument against the proposal to make a difference in the rates for berths in sleepers. It is argued that upper berths should be cheaper than lower ones.

Mr. Beatty holds that as the C. P. R. is losing money by operating those cars now, it cannot very well stand a reduction in the rates.

It was shown by the officials that the company had 192 sleepers on the road, the cost of keeping these clean, salaries of employees, etc., for the year was \$669,731, or, as Chairman Mabey figured it down in round numbers, \$10 per day per car.

THAT GREAT GOLD STRIKE.

London, June 30.—The callers at the British Columbia agents' offices in connection with the reported gold discovery are numerous in scores. There are indications that the passenger agents are using the sensational reports as a means of attracting passengers.

LONDON, THURSDAY, JUNE 30.

A GOVERNMENT THAT IS "STILL ACHIEVING."

It has been said that Mr. Borden's speeches, during his recent tour, were confined to "destructive" criticism of the Government. It is not implied by this that he destroyed anything that the Government will miss in the next election, but that he showed no constructive ideas, and ignored the constructive features of the Government's record, with one or two exceptions. He had nothing to say about three great and forward steps taken by the Government since the general election less than two years ago:

1. The creation of a conservation commission. This is far-reaching and far-sighted legislation. The aim is to permanently conserve the country's vast stock of natural wealth, particularly forest wealth, which was being rapidly depleted. One of the first results has been the withdrawal from settlement of 14,000,000 acres of land on the eastern slopes of the Rockies. The Canada of the future will bless the men who initiated this development policy.

2. Anti-combine legislation. The measure placed on the statute book is a sincere and practicable attempt to deal with a grave problem. It puts the whole machinery of investigation, free of cost, at the disposal of any person who has a real grievance, and it provides for drastic remedies.

3. Technical education. While the great Province of Ontario refused to move in this matter of vital importance, the federal Government appointed a competent commission to study the technical systems in the United States and Europe, and frame a scheme adapted to the needs of this country. The industrial progress of Canada will be directly related to the work of this commission.

Since the general election the Government has also laid the foundation of a Canadian navy, the one achievement of the past two years to which Mr. Borden referred, thus calling attention to his own tortuous and unprincipled course in this matter.

It is mere malice to say, as some of the Opposition journals are doing, that Sir Wilfrid Laurier finished his work years ago. His Government was never more alert, more vigorous, more progressive.

CANADA'S RIGHTS IN HUDSON BAY.

It is said to be the intention of the Washington Government to contest the claim of Canada that the Hudson Bay is an inland sea.

American vessel-owners and captains fishing or trading in the Hudson Bay have been advised by Washington, "so the dispatches say, that they need not pay dues to the Canadian authorities, or recognize Canadian jurisdiction. If this is true, it is the first overt step taken by the United States toward making the possession of Hudson Bay an international question.

Hudson Bay is third among the world's inland waters, the larger ones being the Mediterranean and the Caribbean Seas. It is entirely within British territory, the only means of ingress and egress being the Hudson Strait, which is 400 miles in length, and 40 in width in the narrowest part. In an address before the Canadian Institute some years ago, Mr. J. W. Tyrrell, the great Canadian explorer, asserted that the fact that every discoverer who explored the shores of Hudson Bay was an Englishman, should establish Canada's claim to the Bay.

Probably the American contention is based on the convention of 1818, which gives the Americans certain fishing privileges along the coast of Labrador and northward indefinitely. For many years they have fished and maintained whaling stations through Hudson Strait and in Hudson Bay. The Washington Government may be also prepared to contest the British theory, which the United States has never recognized, that the waters behind a line drawn from headland to headland are coastal waters. The Americans have always insisted that the three-mile limit follows the windings of the coast. On this assumption, they would regard the shores of Hudson Bay as the Atlantic coast.

Before interpreting the attitude of Washington as unfriendly or provocative, it will be well to await fuller particulars.

WATER METERS.

Waterworks Engineer Fellows, of Toronto, says the meter system should be introduced in that city. "It would prevent all extravagance and unwarranted waste of water," he says. The depth of water in the Toronto reservoir is five feet less than it should be at this time of year. The city has the whole lake to draw upon, but the consumption is taxing the capacity of the pumping machinery.

If the meter system is needed in Toronto, it is more needed in London. This city is blessed with a supply of pure water from springs and wells, which will be ample for many years if it is not recklessly wasted. It should be conserved by putting a check on waste, and the meter is the only method of prevention. The water commissioners are to be commended for steadily extending the meter system, and for fixing the rates so as to discourage waste without discouraging the needful use of water. The prejudice against water meters has disappeared.

THE ALBERTA BY-ELECTIONS.

The new premier of Alberta, former Chief Justice Sifton, has been elected in Edmonton. The same good fortune has befallen former Judge Mitchell, who is Mr. Sifton's choice for a cabinet portfolio.

These triumphs appear to refute the notion that the Liberal party in Alberta has been disrupted by the downfall of the Rutherford Government. It is likely that the Liberals in the Legislature will rally to the support of the Sifton ministry, excepting the disappointed applicants for cabinet positions. As there are only two Conservatives in the House, the new Government should have smooth sailing.

Mr. Sifton showed courage in leaving the lucrative security of the chief justiceship to take the risks of a party contest, and a political career. He showed even greater courage in resisting the pressure to include in his cabinet men who shared the responsibility for the railway legislation which wrecked the old Government.

The Zeppelin airship had plenty of passengers before she came to grief. Perhaps they used to ride the old high-wheeled bicycles and were afraid of nothing.

Dr. Sproule has dispatched a letter to the British Government, protesting against any change in the accession oath. If he really wishes to frighten the Government, he should threaten to go over and make a speech.

It is said that the newly-discovered gold region in northern British Columbia is another Klondike, without the weather. It is wise to discount first rumors, but this country is so everlastingly rich that we are prepared to believe anything about it.

Some of our contemporaries are under the impression that parliament is amending the coronation oath. The subject of discussion is the royal declaration or accession oath. There is nothing in the coronation oath offensive to any creed or church.

There is more money in Ontario agriculture than ever before, but, during the past five years, according to Mr. Flavelle, a blight has come upon the enterprise of Ontario farmers. They now realize fully what they owed to John Dryden. Duff is merely rattling around in Dryden's shoes.

The next imperial conference will be held in 1911. The first one was held in London thirteen years ago, and Sir Wilfrid Laurier will be the only premier present next year who will have attended them all. How the other prime ministers must envy his primacy in this respect!

As this is the last day of June, the newspapers will have to wait for eleven months before misquoting again Lowell's famous line. We were surprised that the poetry censor of the Hamilton Herald also wrote it, "What so rare as a day in June?" The Herald man seldom makes a slip, and we shouldn't have mentioned this one had he not once chided this great home journal for misquoting Byron. After all, an error of this kind may be defended as a proof that the quoter is depending upon his memory, and not upon a "Book of Quotations" at his elbow.

STILL THERE.

[Youth's Companion.]
"I suppose," began the inquiring summer visitor, engaging, "that the wealth in this part of New Hampshire is in the soil?"

The native regarded the shining blade of his scythe reflectively. "I reckon it is," he mildly assented. "I don't know anybody hereabouts that ever got any out of it."

JUDGE PARRY ON NEWSPAPERS.

Judge Parry, at the annual dinner of the London, England, Press Club: The evening paper was now in the forefront of things. It was so from the beginning. When the world was created it was the evening and the morning that made up the first day (laughter). And the importance to the British nation of the evening newspaper seemed to be this, that in the morning paper they were only told the horse that was going to win. In the evening paper they were told the horse that had won. And they were not always the same horse. (Loud laughter.) One hopeful thing about the English press was that it was not written by Englishmen—at least, not largely. Hence it was a great power. (Laughter.) They saw a great prime minister, great English barrister, instructed by a Welsh solicitor on behalf of an Irish client. (Loud laughter.) He was told by an official of the British Museum that in 50 years the whole thing (the current newspapers) would have moldered away owing to the way in which paper was now manufactured. That would relieve some of them from an enormous responsibility when they knew that anything they were now writing could not possibly be read by those who came after them. It was a fine thing to think that the basis of English journalism was pulp. (Loud laughter.)

Join the Williams Piano Club Now Have the Piano Sent Home at Once Or Later

We mean by this, that you do not have to have your piano delivered now, if you join the Williams piano club now. You can join the club tomorrow and have the piano delivered next week or next month.

The point is—if you want to join the Williams piano club, you must do so soon. If you would share in its many advantages, economies and privileges, you must send in or bring in your application now.

Before many days roll around, the Williams club will have been filled.

The only way to take advantage of the Williams piano club privileges to make your home a happy one is to join the club right away.

You can pay your \$5.00, the initial fee. We will give you a receipt for it.

If you want your piano delivered right away your weekly payments of 1 dollar and 25 cents will start right away. If you don't want your piano delivered until later, your weekly payments will not start until delivery.

Your weekly payments will not start until you want your piano delivered, whether that is next month, or in two months.

On the other hand, you may, however, keep up your weekly payments just as though the piano had been delivered, and still not have it sent out until some time later.

For instance: Suppose you joined the club tomorrow, but instructed us not to deliver the piano for seven months, but you kept on paying and paying every week just as though the piano had been sent out the day after you joined the club—you would have paid in the neat little sum of 36 dollars and 25 cents on the piano by the time it was sent out and in all likelihood would never have missed the money. The same thing applies to those who want to go away on vacations. You can join the club before you go—and start your weekly payments when you return—or whenever you want your piano delivered. Send in or bring in your application tomorrow, don't put it off.

Boiled Down, This is the Whole of the Williams Piano Club Plan

1. The value of the Williams Club Piano is \$350.
2. The price to Williams Club Members is \$257.50.
3. The terms are \$5.00 cash when you join, then \$1.25 per week for 202 weeks.
4. The piano will be delivered when you join or later, as you wish.
5. The weekly payments of \$1.25 begin when the piano is delivered.
6. Every instrument is guaranteed without reserve—for five years. There are no "ifs" or "ands" in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing.
7. If, after 30 days' trial, the piano is not satisfactory we will give you your money back.
8. If the piano is satisfactory after 30 days' use, the Club Member has eleven more months in which to satisfy himself as to the character of the piano. If it does not then prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell (and we sell over five different representative makes).
9. If a Club Member dies during the life of his contract we will immediately send a receipt in full to his family for the instrument.
10. A beautiful stool to match the piano is included without extra cost.
11. The piano will be tuned twice without charge.

RUPTURE

J. Y. EGAN, SPECIALIST, TORONTO.
A WORD OF CAUTION.

Prostration is the most common error of ruptured people. In most cases they do not realize the risk they are running. You may have been ruptured for some time, and not noticed any change for better or worse. But remember, no rupture stands still. Even if not getting larger, the bowel is growing fast to the inside, and any day your ordinary truss is liable to slip while lifting or coughing and let more of the bowel escape. In such a case strangulation is likely to result in death. Many people come to me constipated, nervous, irritable, suffering from indigestion and constant colds. They seldom charge this to their rupture, but that is where their ill-health originates. A rupture strains the whole physical organism, and is a constant nerve irritant. A breeding place for the germs of typhoid, and frequently causes rheumatism, paralysis and sterility. Your rupture cured will make you feel like a new being; your nerves will recover their normal tone and your run down condition replaced by vigorous, joyous health. Act at once and remove the daily danger of death which, like a threatening thunder-cloud, hangs over the head of every ruptured person. Don't delay, to suffer and die. Let me help you live and enjoy life. What I have done for thousands in the past fifty years I can do for you today. Awaken to the fact that a cure means to you—vital, immediate security, comfort and a perfect physical condition. This is all yours today for the asking. Out-of-town patients can consult me and return home same day. No operation, pain or loss of time. Tear off free coupon now.

Free Consultation Coupon.

This coupon, upon presentation to J. Y. EGAN, rupture specialist, 231 West King street, Toronto, who will visit LONDON, Ont., House, Saturday (all day and evening), one day only, JULY 1st, will entitle the bearer to free consultation and examination of his or her case. Consult me early.

BOY JUMPS FROM BROOKLYN BRIDGE

Wins \$250 and Two Suits of Clothes by His Feat.

New York, June 29.—A sharp-featured, under-sized youth in ragged swimming trunks, with a skimpy coat and an old pair of trousers thrown over them, dived successfully this afternoon from the centre span of Brooklyn Bridge to the East River, 133 feet below, for \$250 in cash, two new suits of clothes and whatever else the world may hold in store for a bridge jumper.

The late Steve Brodie acquired fame as a bridge jumper and long ran a Bowery saloon on the strength of it, but many say it was never proved that Steve really jumped. Several seeking death have been fished out of the river unharmed, after jumping, but Otto Eppers is the first amateur to jump with unquestioned witnesses, as part of a pre-arranged plan.

The boy's first words when he was fished out of the river by the crew of a passing tug were: "Gee! But I hit hard!"

His next word: "Say, who's got the makins' of a cigarette?"

Eppers is 17 years old, the son of a lithographer. He weighs about 110 pounds, and has been unofficial swimming champion of the East River ever since he got into the big boys' class. Recently he heard that a Brooklyn merchant was willing to pay \$250 out of his advertising appropriation to the first man who would jump from any one of the bridges over the East River. Otto was the boy for the job. He had jumped 104 feet from a bridge once before, and the addition of a few more feet never caused him so much as a thought.

DEREHAM FARMER DEAD IN HIS BED

Ingersoll, June 30.—Mr. John Dick-out, a Dereham farmer, was found dead in his bed here yesterday. He had been in poor health for some time, and was supposed to have expired during Tuesday night. He was 73 years of age. The dead body was found by his son who resides in the neighborhood.

BEAR HOLDS UP A TRAIN

Claws Engine Pilot and Shows Fight Till Scared by Whistle.
Wilkesbarre, Pa., June 30.—A big black bear held up the Lehigh Valley Railroad passenger train due here from the Bernice wild mountainous district at 11:20 yesterday morning for some time, and was supposed to have expired during Tuesday night. He was 73 years of age. The dead body was found by his son who resides in the neighborhood.

CATHOLIC PUPILS HAD A BIG TIME

Picnic Down the River Wednesday Was Unqualified Success
BISHOP FALLON THERE

His Lordship Was a Prime Favorite With the Children—Sisters of St. Joseph Were Present.

The separate schools children of London, accompanied by many of the clergy, the separate school board, sisters of charity, and parents, spent a most enjoyable day at Springbank Park yesterday.

An occasion was known as the bishop's holiday, and his lordship graced the usual day by his presence. He was seen of him that he towers like Saul of old above his fellow men, out at the park he was as the Colossus of Rhodes amongst the hundreds of little children, who clung to his knees, and sought to attract his notice. His ecclesiastical dignity was forgotten when he arrived, accompanied by Father Aylward, in Mr. William McPhillips' auto.

A Popular Bishop.
When the children spied him they began a siege. It was very difficult for him to get out of the car without walking on somebody. It was very evident that the children of London have taken complete possession of this democratic churchman.

Some of the ladies were endeavoring to open a sealer, and one suggested that the bishop, being the biggest man in the crowd, would try his hand. His lordship tendered his regrets, but delegated a priest to do the work.

"It's the church against the can," said the bishop, amidst general laughter. An advertiser reporter saw a couple of children, each holding a hand and making strenuous efforts to climb up with dirty shoes on his lordship's trousers.

Sisters Were Present.
At the special wish of his lordship, the Sisters of St. Joseph and Children of Mary attended the picnic, and none took greater pleasure than they in the rejoicing of the day.

A feature of the afternoon was the fact that the bishop and clergy assisted the ladies in the handing out of ice cream, candy, etc., to the school children and parents. His lordship was to have remained for a luncheon, but owing to his recent illness, he found it impossible to do this, and left for home about 4 o'clock.

A Great Boister.
Mr. B. C. McCann was the life and soul of the picnic. Assisted by Messrs. Frank Forriat, Loughlin, Cushing, Dr. Mogan and others, he injected a vim and go into the proceedings, which made the picnic an ideal one.

With his big megaphone, Mr. McCann, from the hill, if not from the "tapering summits of tall minarets," called the faithful to participate in the sports of the day.

And faithful they were, for boys and girls never cried quits so long as there was a chance to compete for anything.

In addition to the prizes which were awarded for the various games, etc., were dealt out with a generous hand.

Ice Cream Treat.
The ice cream treat for the orphans was provided by the following: Messrs. Lamb, Callaghan, Dromgole, Farmer, Horne, and others.

At the banquet there were present the following school trustees, Messrs. Regan, Brown, Loughlin, Burns, McPhillips, Forriat, Cushing, and others.

MUST PROVIDE PLACE FOR MR. WATT'S WAGON

Local Merchant Complained That He Could Not Get Such On the Market.

The annual argument between Mr. P. J. Watt, liquor merchant, and Market Clerk Maker, as to positions on the market, was staged at the meeting of No. 3 committee last evening.

The difficulty arose over the fact that Mr. Watt often could not find a place for his delivery wagon. After hearing both sides of the case, Ald. Jeffries moved that Mr. Watt be given a place for his horse at the rear of his store, and the market clerk was instructed to see that the place is reserved for him.

Cut the Hose.
Fire Chief Aitken reported that a Grand Trunk yard engineer had run over a length of hose at the Workman & Ward fire, destroying it. He recommended that the bill, \$55, be sent to the Grand Trunk officials. This was done.

Under the Estimates.
"We are \$2,000 and more under our estimates," said Commissioner Pocock. "That certainly is to our advantage. I expect we can save still more."

Commissioner Wyatt and Manager Dark will take up the question of the right-of-way over the Hunt property and the Lyons property for the high tension lines.

"We have better take this up immediately," declared his worship. "If we cannot make satisfactory arrangements for the land, we will have to find out how we can acquire the property."

Sell the Pumps.
Engineer Gaultier recommended that the Kelly pumps at Springbank be offered to the city. The tenders be called for the new equipment. The recommendations were accepted, and tenders will be called for at once.

Also suggested that two meters be placed on the Springbank line, one at Springbank, and one at the outskirts of the city. The commissioners, however, could not see the necessity of two meters. Prices will be obtained for one, however.

Manager Frank Dark was instructed to order the hardware necessary for the line to Springbank from the Hydro-Electric commission.

Those present were: Commissioner Phil Pocock, chairman; Commissioner Wyatt, Mayor Beattie, Engineer Roberts, Manager Dark and Secretary Ellwood.

RAH FOR HARVARD

Yale Defeated Today in Two Boat Races at New London.

New London, June 30.—Harvard cleared up the Thames this morning with two of the most decisive victories that ever marked the opening of her annual rowing regatta with Yale. The crimson freshmen eight-oared crew beat the youngsters from New Haven by three lengths, and the Harvard varsity four bettered this performance a little later, going away from Yale in the last eight mile of a surprising race and finishing four lengths in the lead.

A quarter down-stream breeze, which rose to eight knots an hour before the second race began, cut down the time, and, although both the winning crews were strong both races were slow. The time was: Freshman eight—Harvard, 11:54; Yale, 12:04. Varsity four—Harvard, 13:00 1/2; Yale, 13:18.

ANOTHER GOOD STRAWBERRY MARKET

Not as Large as Tuesday But Prices Were Easier.

There was a good sized market this morning with products of all kinds fairly plentiful.

Strawberries, of course, ranged first in importance, and in the matter of supply, there were not so many as last Tuesday, but the price was, if anything, a shade easier. Single boxes sold for 8 and 9 cents, while wholesale lots went from 7 to 8 cents.

Butter and eggs are not now coming in such large quantities as a week of two ago. In the dairy hall 20 to 21 cents was paid for eggs, and 22 to 23 for butter. The wholesale dealers are paying 18 to 19 cents for eggs, and the same price for butter.

Potatoes are down this week from last week's high figure. The wholesale price is 10 to 12 cents a bag, and retail 65 to 70 cents a bag.

The sale of hay was considerably larger, and they went off freely from \$12 to \$14 a ton. The bulk of the loads went off at \$12 to \$13 a ton.

There was a good supply of oats on hand this morning. Over a dozen loads were delivered, quotations ranging from \$1.15 to \$1.25 a cwt.

Green peas dropped from 25 cents a quart retail, to 20 cents a quart. The wholesale price is 15 to 16 cents a quart.

NOTHING IMPROPER.

Toronto, June 29.—In the police court this morning George Dearlove and Bella Gooderham were fined \$75 and costs and \$5 costs for abducting Mary McIntyre, a 15-year-old girl. The evidence was to the effect that as the result of a squabble in the family the two persons named had added the girl in going from her home of a relative of one of the accused. There was no contention or suggestion of anything improper outside of this.

Leaving for the Old Land.

Mr. and Mrs. T. J. Clatworthy, of Ilderton, and daughter Mae, Mrs. McColl, of Granton, leave Montreal on Friday on the Corsican for the old country. They purpose making a three months' visit with friends and relatives in London, Bristol, Cheltenham, Porlock and other places in the western part of England.

Gold for the Pastor.

Rev. Mr. Salton, an old London pastor, was agreeably surprised on the eve of his departure from Trowbridge for St. Johns circuit. A large congregation assembled and presented him with a highly eulogistic address, and a well-filled purse of gold. Many spoke and expressed regret at his departure, their high regard for himself and family, and their good wishes for their future happiness and success. Refreshments were served, and the social time ended with the singing of "God Be With You" and "God Save the King."

Glendale Entertainment.

Those who attended the Glendale Church entertainment last night enjoyed all the good things the ladies provided, including ice cream and strawberries, after which the large audience adjourned to the church. After a short address by the Rev. Mr. Jewitt, chairman, a programme was rendered by the Maitland Street Baptist Church choir, and Mr. C. W. Barrons, elocutionist, of this city. Mr. Howard's son and daughter gave a duet, which was heartily enjoyed. Mrs. Barrons created much laughter by her comic recitations, and was presented with a beautiful bouquet, as were also the other ladies taking part in the programme. Rev. Mr. Jewitt leaves on Monday for his new circuit in Mount Brydges.

The programme was as follows: Prayer; anthem, "Look to the Hills"; solo, "The Publican," Mr. W. Robinson; ladies' quartette; duet, Mr. and Miss Leach; reading, "Jerry Jones," Mrs. C. W. Barrons; solo, "The Lord

A Canadian Lager For Canadian People

YOU CAN'T BUY IMPORTED LAGER.

and get a light beer as wholesome, delicious and refreshing as Canada Club Lager. You pay more for imported beers than you do for Canada Club, and then do not get a beer made from barley malt and Bohemian hops.

Canada Club is brewed in accordance with Canadian Laws, for the Canadian people, from nothing but the choicest barley malt, Bohemian hops and pure spring water.

No beer on the continent so absolutely beneficial and appetizing; comparison proves this claim. Every dealer everywhere.

RAILWAY COMMISSION AND U. S. OFFICIALS

Complaints Regarding Immigration Agents Under Discussion.

Toronto, June 29.—In discussing at this morning's session of the railway commission the complaints regarding the conduct of some United States immigration officers when examining passengers on trains going to the United States, but not yet crossed the line, Chairman Mabee said he thought the Canadian roads should take some action for the protection of their passengers. He suggested that the railways issue circulars instructing their conductors to this effect. Being informed that the C. P. R. already had done this, and that the G. T. R. was now doing it, Chairman Mabee stated that if this was not productive of the effect desired the board would have to take some action.

In considering the tariffs for sleeping berths the commission was confronted with figures and statements from the railway companies, to the effect that the tariff for car and sleeping coaches cost more for maintenance and operation than the revenue produce from the same.
