## AN EXPOSURE OF CORRUPTION

### MR. BORDEN JUSTLY SCORES GOVERNMENT AT OTTAWA

Leader of the Liberal-Conservative Party  
Tendered Splendid Ovation in  
the Maple City--Two Huge  
Gatherings of the  
Electorate

### A CONSERVATIVE POLICY OF PROGRESS

Mr. Borden's Platform Received with Unanimous Approval  
—His Glowing Tribute to H. S. Clements,  
the Energetic and Capable Mem-  
ber for West Kent.

The campaign for honest administration and upright government has started.

It started on Saturday with two of the best political meetings ever held in this city, at which there was a good representation of the people from all over the county. Mr. Borden, the speaker of the day, was at his best, and the message delivered from his lips was literally received with open arms by the people he addressed. In spite of the inclement weather there were two bumper audiences, and the effect it will have upon the people of this riding will be good, and not only for the residents of Kent but also for the people of the whole Dominion.

The Brisco Opera House was most tastefully and appropriately decorated for the occasion with flags, bunting and the following mottoes: "Annual Expenditures: Conservatives, 1896—\$38,000,000; Liberals, 1905—\$136,000,000."

"A True National Policy."  
"Welcome R. L. Borden, Our Leader and Statesman."

"H. S. Clements, The Workingman's Friend, Has Made Good." The Liberal-Conservative Association, presided over proceedings. He made a capital chairman, and his introductory speech, though short, was to the point. Mr. Pike is decidedly at home as a chairman of a meeting of this kind, no matter how large and important it may be, and he attends with a dignity and a nicety that gains for him the admiration of every audience he appears before in this capacity.

Mr. Pike first introduced P. H. Bowyer, M. P. E., the popular member for East Kent. On account of the lateness of the hour at which the meeting got started, Mr. Bowyer confined himself to a very few remarks. He got a very enthusiastic reception.

He was followed by H. S. Clements, M. P., who was greeted with a storm of applause. Mr. Clements opened his address by thanking the electors for the splendid support which they gave him at his election, and during the campaign. He was especially grateful to the Liberals who had turned out and voted for him. He would endeavor to be true to his trust whether it might be in public or private life. He had accepted the nomination on certain conditions, and he had advocated certain principles which he would stand by irrespective of party or any other influence. — Loud applause.

He took occasion to explain away the wrong impression which might have got about in some quarters through an erroneous report in the Toronto World. That paper, which is the property of W. F. MacLean, M. P., had stated that he had shirked a meeting of the railway committee in order to go to a fruit meeting. Mr. MacLean was bringing up his two-cent railway rate legisla-

tion at this meeting. He felt that this could not pass, even if he was present to record his vote, and he had gone to a fruit meeting where measures to wipe out the San Jose scale were being considered—a matter which was of vital interest to the farmers in West Kent—his constituency. He had afterwards taken Mr. MacLean to task about this matter, and had told him that there was not enough influence in the Conservative or Liberal parties to prevent him from recording his vote on any measure of national importance. — Applause. Mr. Clements referred to the inadequate immigration policy of the present day, by which Doukhobors, Japs, Hindus and Chinese are being allowed to flock into this country, and in some cases the Government paying five dollars a head to have them brought in here. The Doukhobors do not comply with the laws of this country to begin with, and are now a menace to morality and peace.

The speaker referred to the fight he had put up for the agricultural interests. The farmers of this country are not getting a square deal from the Government as regards tariff. He was a believer in equal protection for all, and it is high time the farmers were getting as much protection as the manufacturers. The American tariff is two and one-quarter per cent. higher than the Canadian tariff on farm produce. Thus the Canadian farmer is not getting the proper protection, and has not got the home market to himself as the American farmer has. That is the reason farmers' sons in this country are leaving their homes and going to other countries; they can make more money in other places. There is no reason why this should be. This country is just as rich as any other, but its produce is not as well protected. Mr. Clements said he would be willing to be a free trader if the other fellow would, but so long as the other fellow persisted in hitting us he believed in hitting back just as hard or harder. — Applause.

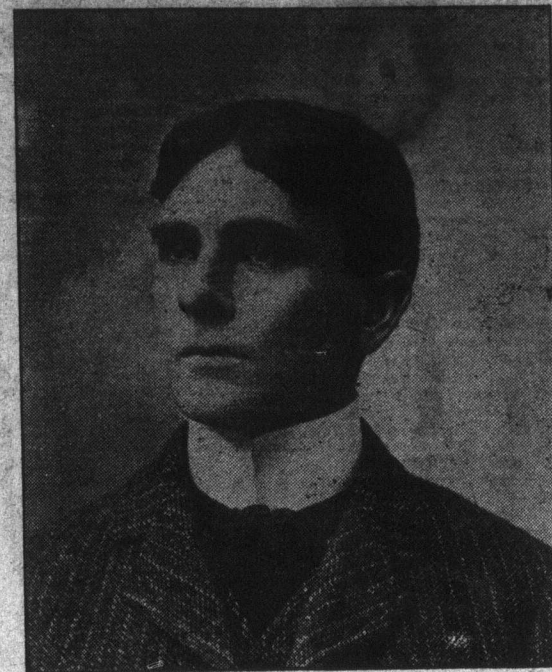

He drew attention to the scandalous extravagance of the Laurier Government, who have expended \$136,000,000 of the people's money in the past year, and they have practically nothing to show for it. One-third of this money must have gone down in the pockets of the grafters. The Sifton Syndicate land deal was a glaring example, where Sifton's friends were sold 250,000 acres of the people's land at \$1 an acre, and promptly resold it at from \$10 to \$15 an acre. They were not content with this, but they wanted to have this land fenced in at the public expense. About the time that this matter was coming up, he had received a letter from the Pigeon Fence Company of Walkerville, in which the latter had asked him if there was not a large fence contract being considered by the Government. He had hurried to Ottawa, and here he found the McGregor and Banwell Fence Company lobbying with the Government. Mr. Clements placed a question on the order paper of the day, and his question was answered by Sir Wilfrid himself, who said

COMING SEPT. 11

Chatham theatre-goers are promised a great musical treat on the occasion of the visit of the famous Schubert Symphony Club, which comes here September 11. From the press notices given this troupe elsewhere, it is evident that they have pleased wherever they have held forth. The following is a criticism from the Ashland, Wis., Daily Herald:

"The M. E. Church was crowded last night to hear the Schuberts, and it was evident from the hearty applause given each number that everyone was highly pleased with the efforts of the artists. The company has been here before and it is a general favorite here as elsewhere."

### TRIBUTE TO MR. CLEMENTS

Claude Macdonell Give  
Him Credit For His  
Splendid Work

Very Large Meeting at  
Pain Court—Fine  
Addresses

On Saturday night a meeting of the electors at Pain Court was addressed by H. S. Clements, M. P., and Claude Macdonell, M. P. for the city of Toronto.

In spite of the inclement weather a large audience assembled in the Town Hall to hear the two gentlemen who were billed to address them. Mr. Theodore Peltier acted as chairman and ably filled that office. After making a few preliminary remarks, Mr. Peltier called upon Mr. Clements to address the assembly.

Mr. Clements expressed his pleasure at being present to address the electors of the Township of Dover, which pleasure was very much increased from the fact that he was personally acquainted with every individual present. This division was very dear to him as it was practically his birthplace. He explained that when he was tendered the unanimous nomination as a candidate for West Kent, he refused to accept the same without being allowed certain privileges which he could use in the interests of his electors.

Many important matters were taken up, and discussed by the speaker. He first spoke on the immigration policy, and afterwards on the fight he had put up for the farmer in endeavoring to place him on an equal basis and to have the same protection as the manufacturer. The tariff question was touched upon and thoroughly explained. The expenditures of the Laurier Government were also alluded to, and the unnecessary amount which had been expended showed that the grafters were coming in for a large sum. The bounty system was also discussed, and after a few explanatory remarks concerning his stand on public affairs, Mr. Clements took his seat.

Mr. Macdonell was next called upon and gave a short address. He stated to his hearers that there was no man in the House of Commons who served his people better than does Mr. Clements. "He is alive in all public questions," and expresses his opinions in a straightforward and familiar manner in the House."

Mr. Macdonell was much pleased to be present, and stated that he had a large number of French people in his riding. He said that they were a very faithful and law-abiding class of people, and he was indeed pleased to have the honor of serving them in the House. "They are a very progressive people and I am glad to see that the French population

### HAD VERY FINE TRIP

Rev. J. W. Hodgins returns  
From a Very Pleasant  
Holiday

He Spent Two Weeks in  
New Ontario and  
Toronto

The Rev. J. W. Hodgins has returned from a two weeks' holiday, the greater part of which he spent in the wilds of New Ontario. He took a trip of 30 miles up the Montreal River, where the woods are full of prospectors for minerals, and for a couple of days shared the life of those who are seeking wealth amid the rocks of that country. The flies and mosquitoes were bad, but were nothing to what they had been in July and the early part of August, when men were actually driven out from work by these insects. He learned a great deal about the staking of claims, and also not to believe everything you see in the newspapers about the ease with which men pick up minerals in that country. On two occasions he had to make a portage of three-quarters of a mile through the woods in order to get past some rapids. Once it was at night, and the road was as dark as the streets of North Chatham, filled with rocks, stumps, and pools of water, and as the company had no lantern and every man carried his own baggage, there was lots of fun in the trip for the other fellow. He visited Kamagami, Batchford, Cobalt, Halleybury, and Liskard, all smart towns where plenty of business is being done. At Cobalt, owing to the strike, there were four hundred men idle on the streets, but

### THE BORDEN MEETING.

Mr. R. L. Borden bestowed a signal honor upon the people of Kent by addressing two audiences in the Brisco Opera House on Saturday last. This is the first time that Mr. Borden has spoken more than once in any one city since the beginning of his tour, and it is a matter of credit to the people of this community that such large audiences were present upon both occasions.

It was a most successful and satisfactory day from every standpoint. True, it rained, but no amount of water could dampen the ardor of the Conservatives of this riding. Besides, a political meeting or a fair in Chatham would not seem natural without a little rain. Then, too, as Mr. Borden himself remarked, the last time he was here it rained, and that visit was followed by a glorious victory for the Conservative candidate.

Mr. Borden's speeches were two of the most eloquent efforts ever delivered in this city. He not only criticized the present Administration, but he offered a constructive platform of his own, which appealed to everyone present as being progressive and worthy of unanimous support. Mr. Borden impressed his hearers as an honest, straightforward and conscientious statesman. He is in earnest in his efforts to better the public life and government of this country, and the great majority of the respectable element of the electorate are behind him. Mr. Borden's visit will do good.

That the work of Mr. H. S. Clements, the brilliant young member for West Kent in the House of Commons, is of the kind that commands itself not only to his constituents, but to his leader as well, was splendidly shown by a statement of Mr. Borden at the evening meeting.

"I trust that the electors of West Kent," said Mr. Borden, "will return 'Herb' by an increased majority at the next election. He is an honest, capable and upright public man, indefatigable and persistent beyond anything I have ever seen in Parliament. When he gets an idea that he believes is right, he follows it up with a vigor that commands my admiration. I know no member who has been more careful in his work for the interests of every portion of his constituency along agricultural lines."

### TWESBURY—OLDERSHAW

The marriage was solemnized at 5 o'clock Wednesday afternoon, at the home of the bride's father, J. H. Oldershaw, Grand Ave., of his daughter, Miss Grace Maud, to William Thomas Twesbury, Rev. W. E. Mathews officiating. Only the members of the families were present. The parlors were prettily decorated with ferns and flowers. As Miss Vera Neville played the wedding march the bride and groom proceeded to the altar, where the ceremony was performed.

The bride and groom were assisted by Miss Maud Twesbury, sister of the groom, and Mr. George Dyer, Lacroix Street. After the ceremony a dainty wedding luncheon was served in the spacious dining-room. Many beautiful presents received testified to the high regard in which the happy couple are held by their many friends.

### A CASE IN WEST ARICATH.

Mrs. A. P. Ferguson, a well-known Cape Bretoner, has cured asthma by Catarrhose. Her statement is convincing: "Although I was troubled for years I was only recently I tried Catarrhose. When an attack started I got out my inhaler and invariably got relief. Feeling satisfied Catarrhose would cure, I continued the treatment until one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhose is sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c. and \$1.00 at all dealers.

Take care of the present and the future will be all right.

Our happiness is a sacred deposit for which we must give an account.

A man is wise if he learns from his own experience; wiser if from another's.

### WRECK NARROWLY AVERTED.

Locomotive Upset But Passengers Escape With Few Injuries.

Halifax, N. S., Sept. 7.—What came near resulting in one of the worst railway accidents ever happening on the Reid Newfoundland Railway occurred Tuesday afternoon at 5.45. Only one man, the fireman on the locomotive, was injured. He will likely die.

The accident occurred while a train composed of baggage, two second-class and three first-class coaches was whirling along at high speed around a sharp curve at a place called Cooksbrook, 15 miles from Bay of Islands. On the right-hand side a steep 15-foot embankment runs the length of the curve, while on the other side a slight declivity extends part way.

When the engine reached the end of the turn, the rails parted, throwing the locomotive on the side of the track, overturning the tender, and causing the crowded second-class cars to leave the rails, as well as the forward part of the diner, leaving the first-class coaches safe.

Had not the last second-class car jumped the rails to the left the first-class cars would have been precipitated over the highest part of the steep embankment below which would no doubt have brought death to their occupants.

The engine and mostly all the second-class cars and baggage coach are destroyed, and not a few of the passengers had some slight injuries. Fortunately Dr. D. M. Whittington, a young American lady who has been stationed at one of Dr. Grenfell's hospitals on the Labrador coast, was on board the parlor car, and with the assistance of her trained nurse, rendered valuable help to the injured and to the fireman, who was taken out unconscious from the overturned tender.

### ATTACK ON THE HINDUS.

Dominion Government Without Information—The Only Restrictions.

Ottawa, Sept. 7.—The Dominion Government has had no information concerning the report that 750 Hindus are on their way from Bellingham, in Washington Territory, for British Columbia, nor as to the raid upon Hindus in Bellingham. The only thing that Canada can do to prevent Hindus arriving in Canada is to apply to them the terms of the immigration act in the same way as to other British subjects. That is to say, if there are any undesirable among the Hindus they will be deported. Any of them suffering from disease or likely to become a public charge on the community will not be allowed to land in Canada. Beyond this, which is applicable to British subjects as well as foreigners, there are no restrictions upon Hindu immigration. The immigration department has no information of the matter.

### WHEN THAT COLD COMES.

How is it to be cured? This method is simplicity itself. Rub the chest and throat well with Nervilleine, use it as a gargle and take some in hot water before retiring, along with one of Dr. Hamilton's Pills. Next morning find you refreshed, free from cold and bright as a dollar. These household remedies are wonderfully successful, and certainly won't fail in your case. For sale at all dealers.

### ROBBERS HOLD UP TRAIN.

Passengers Compelled to Hand Over Valuables to Masked Thieves.

Omaha, Neb., Sept. 7.—The Omaha and Rocky Mountain Limited, Express on the Rock Island, was ambushed yesterday morning just before daylight, near Murdoch, Neb., by three masked men.

The robbers went through the train, robbing every passenger therein, securing the pocketbooks and purses, covered the train crew with revolvers, and escaped by leaping from the train.

Railroad detectives and sheriffs' possees are in pursuit, but the robbers have several hours' start on the officers. Shortly after leaving Murdoch, the men arose in their seats, their faces covered with masks, and with revolvers in each hand, covered the passengers.

Then the leader ordered everybody to keep still and not to resist, else they would be shot. Two men went down the aisle with hats in hand, while the third kept the passengers covered. All passengers were ordered to throw pocketbooks into the hats, and this was done.

The conductor appeared in the car with a pistol in his hand, but was promptly covered with four guns and forced to drop his revolver.

After getting all the money in the car, the robbers jumped from the train, which had slowed down for a grade. An attempt was made to enter the sleeper section, but the door was locked and the attempt was unsuccessful.

### NOT AN OLD ONE.

They alluded to me as an old grater, declared Senator Glahall angrily.

That's a shame.

Ain't it, now?

I should say so. You're only 52.

Mystical Shooting.

Indiana Physician Dead and His Wife Wounded.

Brazil, Ind., Sept. 7.—Dr. Edward Glasgo, a physician, is dead from three bullets through his head, and his wife is slightly wounded in the left breast as a result of a mysterious shooting Thursday night.

Glasgo and his wife had separated, Glasgo applying for a divorce. Mrs. Glasgo, accompanied by Attorney Charles Whitlock of Terre Haute, drove to a brick plant, where Glasgo was to try to arrange a settlement of alimony. Whitlock got out of the buggy and Glasgo got in and started to drive back to the city when the shooting occurred.

The woman was placed under arrest, charged with the murder of her husband. Attorney Whitlock also is being held by the police. Mrs. Glasgo says her husband tried to shoot her and then shot himself. Glasgo's wounds are such that physicians say he could not have inflicted them himself.

EVERY DAY.

## THE STAGE

### ANNOUNCEMENTS.

Supplied to The Planet by Press Agents.

At the Brisco Opera House—Faust—Thursday Sept. 12.

FAUST IS WELL PLAYED.

Faust, the story old of man's temptation and his fall, was presented at the Grand last night by Porter J. White and a good company. The acting was excellent. The mechanism and electrical effects were superior to those of any production of Faust ever seen here. It is certainly a good company, aided by very effective settings and mechanisms.—Danville, Ill., Democrat.

"Faust" will be seen here at The Brisco Opera House next Thursday, Sept. 12th.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### GETS CIVIL DAMAGES.

Eloper Awarded \$45,000 From Irate

Father-in-Law.

Uniontown, Pa., Sept. 7.—William Wirsing was awarded \$45,000 damages yesterday for injuries said to have been received at the hands of his father-in-law, James R. Smith, a wealthy coal operator.

A year ago Wirsing eloped with Smith's daughter. Upon the return of the young couple, Smith met Wirsing with a Winchester rifle and shot him in the right arm, shattering the bone, and, it is said, rendering it useless for life.

Smith is now serving a five-year

sentence for the shooting.

I'll stop your pain free. To show you first—before you spend a penny—what my Pink Pain Tablets can do I will mail you free, a Trial Package of them—Dr. Shoop's Headache Tablets. Neuralgia, Headache, Toothache, Period pains, etc., are due alone to blood congestion. Dr. Shoop's Headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis.

Sold by All Dealers.

### Russian Elections Soon.

St. Petersburg, Sept. 7.—It was announced yesterday that the preliminary parliamentary elections in Moscow and Tver Provinces will take place Sept. 15, and in the other provinces soon afterwards.

The Constitutional Democrats have issued a manifesto setting forth that party's claims for popular support.

Minard's Liniment Co., Limited.

Dear Sirs,—I had a Bleeding Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it made a complete cure, and it healed all up and disappeared altogether.

DAVID HENDERSON.

Bellevue Station, King's Co., N. B.

Sept. 17, 1904.

A gentleman buying a bottle of Veteran's Cure, said: "This is a small bottle for 50c." I replied: "make a calculation. A 12 oz. bottle of other medicine costs \$1; the dose is 1 tablespoonful 3 times a day, equal to 1 1/2 oz.; the 12 oz. lasts 8 days. That 50c. V. S. O. bottle contains about 1 1/2 days' medicine; 18 3/4 times as much as the large bottle—a saving of \$18.00. In the one you pay for water and glass. V. S. O. is concentrated medicine without water. It is the medicine for all classes; 50c. and \$1 bottles. At druggists'. Mailed anywhere by The V. S. O. Med. Co., Chatham, Ont.

## CLARIFIED AND BOTTLED MILK

To clarify and bottle milk is the only sanitary and up-to-date way to handle such an important product of the dairy as milk, for while it is one of the best and most necessary foods we have if properly cared for, it is certainly one of the most dangerous if neglected or carelessly handled, and should never be exposed to street dust, as is done in the ordinary way of peddling milk from large cans with open measures. The Steam Turbine Machine used to clarify all the milk sold from the

THEFT ON BRITISH WARSHIP.

Pay of Officers and Men, Aggregating \$10,000, Missing.

Plymouth, Sept. 9.—A sum of \$10,000, intended for the payment of the officers and crew of the warship Assistance, of the Channel Fleet, is reported to be missing.

As the result of this discovery, a warrant has been issued for the arrest of an officer, who has, however, not yet been apprehended.

The Assistance is the steam repair ship of the fleet, and has been stationed here lately.

The news of the disappearance of the naval funds—an event without precedent in modern times in the senior service—has caused consternation throughout the fleet.

The missing money will be made good by the Admiralty, and the seamen who have been inconvenienced temporarily by the loss will receive their arrears of wages in full.

## BABY HAD DIARRHOEA FOR SEVEN WEEKS

Thousands of infants die annually who could be saved by the timely use of Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY.

There can be no doubt about it. Sixty-two years experience has proved this sterling remedy to be the best for Diarrhoea, Dysentery, Colic, Cramps, Cholera Infantum, Cholera Morbus, Summer Complaint, and all bowel troubles in both children and adults.

Many of the imitations sold are positively dangerous, as they often check the diarrhoea too suddenly and cause inflammation.

Always insist on the genuine Dr. FOWLER'S. Sold at all medicine dealers at 25 cents a bottle.

Mrs. A. B. De Marchand, Bath, N.B., writes: "My baby was troubled with Diarrhoea for nearly seven weeks. I tried three different doctors, but none of them could do her any good. I was advised to try Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY, and less than half a bottle cured her."

Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

See that their name is on the wrapper and thus insure getting the genuine.

## Arctic Steamer Lost.

London, Sept. 7.—It is reported from Mount Athabasca Landing, in the Canadian Northwest, that the steamer Arctic, which was on the Mikikelsen Arctic expedition was working its way into the polar regions, has been lost.

All the reports agree on this, but there is uncertainty as to whether Capt. Mikikelsen was with the ship when she went down.

The news was brought to Athabasca Landing by a steamer in the service of the Hudson Bay Co.

I will mail you free, to prove merit, examples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or the Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all Dealers.

## Barn Burned.

## BORDEN MEETING

Continued from Page 3.

Quebec had accused him—Mr. Borden—of making rash proposals and catering to the farmers. He did not, however, think it was a rash proposal to cater to the agriculturists of this country. They are the backbone of the nation. In Great Britain and in many parts of the States free rural postal delivery has proven a success, and there is no reason why it should not in Canada. This was part of the more advanced Conservative platform planks. The speaker also believed that the control of railways by a commission should prove a good thing for this country. This would do much towards safeguarding the people's interests. The Halifax platform, if properly carried out, is in the interests of the people, which statement will be amply proven when the Conservative party resume power at Ottawa. The Conservative party is one of great traditions, and Conservatives can look back with pride on the administration of the great Conservative leaders of the past, the great Sir John A. Macdonald had not failed in any of his promises to the electorate.

Mr. Borden wished to compliment the people of West Kent on the live wide awake and honest member they have in Mr. Clements. He said, he had been indefatigable, patriotic, and earnest in his work in the House, and he was continually working for the interests of the agriculturists, especially. He worked for every portion of his constituency, and he earnestly hoped that Mr. Kent would not fail to send him back to represent them at Ottawa in the new Conservative Government that is to be.

At the conclusion of the meeting three hearty cheers were given for the King, Mr. R. L. Borden, and Mr. Clements.

## THE EVENING MEETING

The evening meeting was a very large one. In the afternoon the meeting was held for the benefit of the farmers especially, and many of these having gone to the house, their places were taken by people from the city. It was a most successful gathering from every standpoint. The most rapid attention was given throughout, and the applause, which was freely distributed through the audience, showed that the meeting was a most successful one. The approval and support of the people generally.

The meeting was opened by Mr. Matthew Wilson, K. C., who acted as chairman of the evening. Mr. Wilson made a particularly brilliant address. He is one of the city's most polished orators, and his remarks were listened to with interest and pleasure. He mentioned the hold that Mr. Borden had on the people of the Dominion, and after listening to his speech in the afternoon, he did not wonder at the position of Minister of Railways and Minister of Public Works.

Mr. Mulock, who was Postmaster General, resigned his position, and the reason given was that his health was giving out. He seemed to be in the prime of health at the time. Shortly afterwards he was given the position of Chief Justice, which position requires a man of indomitable energy and strength. Mr. Aylesworth was found from the outside. One would think, if he were allowed to think things other than he knows to be positive facts, that the position was made vacant for him. Who was it? Aylesworth, the former counsel for the Ross-Stratton-Graham combination of Ontario, which has since been condemned by the electors, and turned out of power. In the meantime, when the political corruption pot had for a time ceased to boil, Mr. Ross himself was transferred to the Upper House to lead the Liberal party for Laurier there.

When the Minister of Railways, owing to certain well-known reasons, was obliged to resign his position to clear his character, for a couple of months, the position left vacant was not filled from the alleged able men who were sitting behind Laurier. Mr. Graham, who stood by Ross, and who defended him in his regime of corruption, was chosen to fill this high position to-day.

While we are spending money in improving our school systems, we maintain a government which our children see around them as they grow up, with such men as Preston, Jackson and the like held as favorites, and who by their example give to the growing generation lessons showing that the way to political favor is not the highway of many men, but rather the dark alleyways and bypaths of political corruption.—Applause.

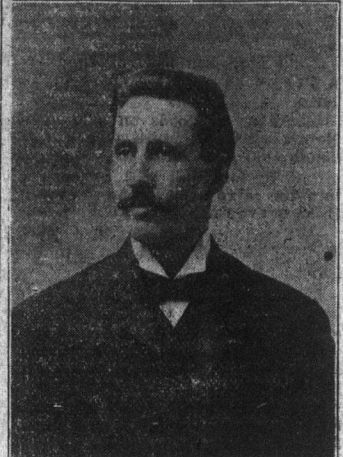

When Mr. Wilson had concluded he was given a burst of applause. He then introduced to the audience

a man who, he said, would soon be their representative in the best government that Ontario ever had, and a man who had already been given positions of public trust, which he had always filled to the satisfaction of everyone, and with honor to himself.

## MR. SULLMAN.

When Geo. W. Sulman, the Conservative nominee for the Legislature, stood up he was greeted with round upon round of applause. Mr. Sulman is deservedly popular in the Maple City and adjoining country. He is a Chatham boy, and has shown during his career as a business man and public servant that he is a man of energy and ability, not afraid of work, and is capable of doing a wonderful amount of it.

It was a great pleasure to him, he said, of having the privilege of addressing such a large audience, and a greater pleasure to find gathering.

J. M. PIKE.

The Energetic President of West Kent Liberal-Conservative Association.

ered in the Opera House such a large and enthusiastic throng of people who had ventured out to hear Mr. Borden, in spite of the inclemency of the weather. He felt that it was a great honor to be asked to speak as they did when he ran for Mayor, that there would be no doubt about him being a representative in the Government spoken of by Mr. Wilson. He had no fears for the result, and he felt that the people would support him in the next election.

He represented a government that there was no politics in his election for Mayor, but he saw no real reason why there should be too much politics in the coming Provincial campaign. What is to encourage the next election is on, and the government for providing excellent government for the people, if the people do not send them back into power and show their approval. The Whitney Government has provided good legislation, which is generally admitted. They have given good school book legislation, the speaker humorously pointed out that he was not trying to advertise himself or his business, and went on to say that under the Ross regime he was in his private life forced to charge people \$1 for books worth 20 cents. The latter part of the Government, Laurier, the Government he supported has inaugurated an act to charge 15 cents, for books which formerly sold for 40 cents; 13 cents for those which sold for 35 cents; 9 cents for those which sold for 25 cents; 7 cents for those which formerly sold for 15 cents; and 5 cents for those which under Ross were offered for sale for 10 cents. They would have reduced more of these prices if it were not for the fact that there are certain contracts made by Ross which would not be broken.

Mr. Sulman closed with the assurance that the people would have plenty of opportunity to hear him when the next election is on, and graciously gave way for Mr. Borden, whom the people were all assembled to hear.

When Mr. Sulman resumed his seat the house was filled with spirited applause for several minutes, which showed that the audience were in sympathy, but also with what he had said, but also with his candidature, and the record of the splendid Government he represents. There is no doubt that the prophecy made by Mr. Wilson about Mr. Sulman being a sure representative after the election will come true in a most convincing manner.

## MR. BORDEN.

When Mr. Wilson arose to introduce Mr. Borden he first paid a glowing tribute to Mr. Sulman and the speech he had just made. He said that Mr. Sulman should not offer any apology for appearing, even when he was to be succeeded by the man whom the audience were on this occasion most anxious to hear. At the rate he was going, and judging from the intelligence of his remarks, the audience would no doubt be pleased to hear him speak for a much longer time.—Applause.

Mr. Borden was then introduced, and the enthusiasm felt by everyone in the hall was let loose, and Mr. Borden took up the first few minutes of his time in acknowledging the greetings and the audience. He then gave a speech in the afternoon had struck a responsive chord in the hearts of the audience, and many of those who had the privilege of hearing him in the afternoon were on hand again in the evening.

Mr. Borden, however, lost no time in getting down to his speech. He is in earnest over his work, and he had a message of vital importance to deliver, and he gave it in a manner which impressed everyone in the hall with his sterling worth, and his conscientiousness in advocating the platform he supported. He impressed the listener as a man of honor

and truth—a straightforward, honest man—the type of a man most needed in Canada to-day.

In opening his remarks Mr. Borden referred to the presence of so many ladies of the fair city of Chatham. During his tour, which has been in progress now for two weeks, Mr. Borden and his party have been honored by the presence of large numbers of ladies at their meetings. This, he thought, was a good omen. He felt sure that Mr. Clements will be assured of not only being returned, but with a big majority if the ladies of the city and county will support him, for he humorously remarked, the more votes he had to add to the open air; St. John, N. B., Quebec, where he had an audience of 8,000 people, who listened to him with attention and evident approval; Three Rivers, Valley Field and Montreal; and now he came to Chatham, and Kent County, the center of Ontario, where he was more than pleased with the reception tendered to him.

He would endeavor to give his opinions of the record of his Opponents as well as give some account of the faith that is in him and the party he represents.

## TRIBUTE TO CLEMENTS.

In opening his remarks he paid a glowing tribute to Mr. H. S. Clements, M. P.

"I have nothing but good words to say of him," said Mr. Borden. "He has been a faithful and energetic member of Parliament on all occasions. He has been constant in the care of his duties both in and out of the House, and has been zealous in the performance of his duties as a public man. He has always had the interests of his constituency at heart, and is also a broad-minded man with an eye to the best interests of the whole country. His course should commend itself to your approval and you should return him with an increased majority."

In proceeding with his address, he said that he had found the chief argument of his Liberal friends, who thought that the Laurier Government should be kept in power, to be that the country was prosperous. They think that the prosperity which Canada in common with the rest of the world is enjoying to-day, is an argument that their government is good. We recognize this prosperity and are thankful and glad for it. But our Liberal friends seem to think that it is a most fitting thing that when the world is prosperous that their party should be in power.

He had from time to time challenged his Liberal friends to point to one piece of legislation enacted by them which had contributed to this prosperity, but they have as yet failed to do so. When Laurier came into power he had a certain platform. They have not carried out that platform, and in many cases the reason has been that they could not carry it out, because it was inconsistent. If they had carried out Free Trade as it is in England, and the rest of their platform which got them into power, would we have the prosperity we enjoy to-day? No. They claim credit for this prosperity. It reminded the speaker of a story, which he related.

A young man was warned not to cross a certain field where there was a vicious bull. The young man was courageous. He entered the field, and was a few moments after picked up in an unconscious condition. Twenty-four hours afterwards he regained consciousness. He was in a hospital, and when he opened his eyes, the first thing he said was, "How far did I throw the bull?" Laughter and applause. The young man was a great believer in his strength, and the Liberal party at Ottawa is also a great believer in their policy. They are too modest, however. They should claim credit also for the general prosperity which the whole world is enjoying to-day. The true foundation for the prosperity which is so much talked of about is the policy inaugurated by Sir John A. Macdonald in '78. The fiscal policy which the Liberals denounced until '96, they did not dare to set aside when they came into power. It is the true foundation for the prosperity which the country has enjoyed for the last six, eight or ten years.—Applause. Their own policy they were afraid to carry out, and, as a result, they have not given to the people of this country a fulfillment of their promises.

The people generally did not realize how few of the promises made by the Liberals have been carried out since they first came into power. The speaker hoped that he was addressing many Liberals and men of independent views. During the eighteen years that the Liberals were in Opposition they made many promises, and not a single one of them did they perform with the exception of the appeal of the franchisees.

They were going to reform the Senate. They have done so by making that House a sort of hospital for men who have been defeated at the polls and who have to be looked after. They were going to give prohibition, if a plebiscite would warrant it. They failed. They were going to give Free Trade as it is in England. They have not done so. They were going to reduce the expenditures, and instead of that they have more than doubled them. The speaker would not object to some increase in the expenditures, but the most of the increase has been due to money spent for unworthy purposes, gifts to the candidates, and the contributions largely to the campaign funds, and who have to be reimbursed in some way. If the people of Canada could only get in the galleries of the House, or in at the meetings of the Public Accounts committee, they

London, Sept. 7.—(C. A. It adds, the people of Britain are only themselves to blame.

## Big Barn Burned.

Woodstock, Sept. 7.—Lightning on Thursday struck the barn on the farm of Joel Erb, who lives near Tavistock. The last load of the crops was still on the wagon when the fire occurred. The loss will be \$3,000; partly covered by insurance. It is only five years since Mr. Erb sustained a similar loss.

## FOUGHT OVER GIRL.

Former Belleville Man Has the Lady and Broken Nose.

Rochester, N. Y., Sept. 7.—Robert Thompson of Belleville was assaulted last night by Benjamin McGill, an American, because Thompson had obtained the company of Artie Cameron, a young woman of that place now employed in a shoe factory in Rochester.

Thompson and Miss Cameron were in Genesee Valley Park when accosted by McGill. Words passed between the young men, but policemen prevented an outbreak.

An hour later Thompson left the park, and was met in Main street by McGill. The latter struck him in the face and broke his nose in two places. McGill is under arrest on a charge of assault in the second degree.

## FRENCH DRIVEN BACK

Had to Give Ground on Three Sides at Once.

Gen. Drude's Army of Picked Men Narrowly Escaped Disaster—More Trouble With Tribesmen—Important Change for Morocco—Paris Newspapers Adopt Graver Tone—Spain to Assist France.

Paris, Sept. 7.—A most important change, the Associated Press is informed, has occurred in the political aspect of the Moroccan question, a change which may have a far-reaching effect on the future of Morocco and the relations of the powers thereof. France and Spain have the intention to occupy the littoral ports of Morocco with their own forces and establish police organizations. This contemplated action results from the official announcement of the Moroccan Government, through the War Minister, El Gabbas, that it is unable to guarantee the safety of the European instructors of the international police force, which under the terms of the Algeiras convention was to be composed of Moors.

France and Spain, who by the terms of the Algeiras convention are compelled to organize the international police, was submitted to the signatory powers, including the United States, and they all agreed that the situation demanded that France and Spain police Morocco themselves.

Occupation May Be Lengthy. Although it is distinctly stipulated that such occupation is merely provisional, or until it is safe to recruit the police from among the Moors, there is a strong feeling that the occupation of the ports may cause serious complications, resulting from the increased hostility of the fanatical Moors, a hostility which may compel an enlargement of the police and culminate in a virtual military control of the Moroccan empire. This, however, will depend on the attitude of the Moors.

France has planned to occupy Maagran, Mogador, Safi and Rabat, and Spain to occupy El Araish and Tetuan. France and Spain together will occupy Casablanca and Tangier.

Paris, Sept. 7.—The Petit Parisien declared yesterday that another complication has arisen in the shape of grave disquiet among the Seninasse tribesmen near Oudja and the Algerian frontier. Oudja, which is in Morocco, has been occupied by a French force for some months. The military authorities, the paper declares, are most anxious and are preparing to send in troops from Algeria.

The newspapers yesterday adopted an altogether graver tone in discussing the Moroccan situation.

The more comprehensive reports of the engagement of Tuesday show it to have been much more serious than was first stated. The correspondent of The Matin at Casablanca telegraphs as follows: "The engagement of Tuesday gave some idea as to the obstacles that an expedition into the interior have to encounter and the number of men needed. The march made by the French troops Tuesday was the longest one yet, and marks the utmost that Gen. Drude can possibly do with the force at his disposal. The column had all the cavalry and field artillery yet this strong force, made up of picked men, whose armament can be described as crushing compared to that of the Moors, was heavily engaged throughout the entire encounter. It was compelled to give ground in three places at once, and was turned by Moors, who got within a quarter of a mile of the camp. It cannot now be said that the wild energy of the natives is due to ignorance of our forces. On the contrary, they returned to the fray with greater courage and increased numbers after each engagement."

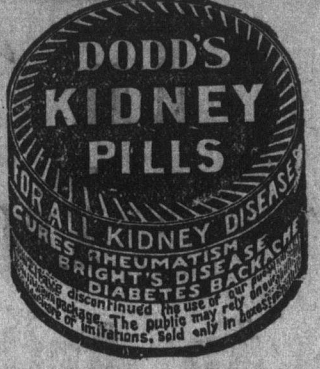

To Stop Alarming Rumors. Tangier, Sept. 7.—Responding to a request of the diplomatic corps that he is to take steps to arrest the exodus of people from Tangier caused by the prevalence of local disorders and the circulation of false, alarming reports, the Moroccan War Minister, El Gabbas, yesterday proposed the institution of a summary tribunal before which malefactors and persons guilty of circulating damaging rumors could be brought. A note sent in for the purposes of the powers and proposed tribunal was sent to the delegates, and all the representatives of the powers, with the exception of the Spanish Minister, expressed the fear that at the end of the note might accord with the wording of the Algeiras convention, the Minister of Spain requested to be allowed to submit the document to the authorities at Madrid before giving his adhesion to it.

Burned In Their Homes. Williamsport, Pa., Sept. 7.—By the explosion of a lamp in an upstairs room the two young children of Aaron Anderson of Coleman Hollow, Potter County, were burned to death Thursday night. Anderson and his aged father were helplessly ill in a room downstairs.

Mrs. Anderson and her ten-year-old son tried to rescue the children, but they failed. Before they could drag the two men out both were so badly burned that they too, probably will die. Mrs. Anderson had to care for her two-week-old baby.

To Reduce Postage. Montreal, Sept. 7.—Hon. Rodolphe Lemieux, the Postmaster-General, confirms the report that he intends making an effort at the next session of Parliament to reduce the postage on all drop letters from 2 cents to 1 cent.

One Killed. Botsford, Conn., Sept. 7.—One man was killed and several passengers are reported injured in a collision at this point between a freight train and a passenger train last night.

### Too Carbolic Acid.

Sault Ste. Marie, Sept. 7.—Charles Boyce of Elmville, Ont., 26 years old, committed suicide at the Windsor Hotel here yesterday afternoon by taking carbolic acid. He had been in town but a few days. Until a few days ago he was cook on one of the boats running into the Soo.

After drinking some water he proceeded to a small room adjoining the bar and sat down alone, closing the door. Some moments after the bartender heard a commotion in the room and detected the fumes of carbolic acid. Boyce was found seated in a chair all but unconscious. His hands and face were burned with the acid, and he was unable to speak.

An empty bottle on the floor, procured from a drug store in Owen Sound, and labelled carbolic acid, told the tale. He died in a few minutes.

A HARD CASE OVERCOME. No longer necessary to suffer from muscular rheumatism. Every one can be cured. Ferrozone is unfailing, as proved by David Johnston, of Ormond, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could do very little work. Her knuckles and joints swelled, causing torture. To get up or down stairs was impossible. She took box after box of Ferrozone and rubbed the sore place with Neroline. Improvement started and she mended fast. To-day she is quite cured, and we thank Ferrozone for her recovery." No remedy more popular with doctors than Ferrozone. It does cure, 50c. per box at all dealers.

For Selling on Sunday. Montreal, Sept. 7.—Royald S. Devlin, proprietor of the Bath Hotel, which up to a few months ago was a temperance hotel, was charged yesterday morning with having sold liquor on Sunday, Aug. 23, and was fined \$30 and costs or three months' imprisonment.

Antwerp Strike Broken. Antwerp, Sept. 7.—Work was resumed here yesterday on all the steamers, where 4,000 strike-breakers are employed. No further disorders occurred.

WOMEN WHO WEAR WELL. It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliance, which is rudely handled. The man is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change—ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the system of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Farrow's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label.

Must Burn Hospital. San Francisco, Sept. 7.—The Board of Health yesterday recommended to the board of supervisors that the city and county hospital, which has sheltered a number of plague cases, be burned.

The city and county hospital is a collection of frame buildings, and it has long been planned to demolish it.

## BORDEN MEETING

Continued from Page 6.

would see the endeavors of these gentlemen of the Government to prevent exclusions. They call in their followers to vote down inquiry, and yet they call themselves a decent government. If the people could only see for themselves how things are managed, the speaker would have no fears for the result of the next election—in fact, he had none as it was—Applause.

In reference to the expenditures, Mr. Borden dwelt at some length. The Government at Ottawa is prodigal of their expenditures. Why do they spend \$50,000 in one place on a particular job while in another they institute some unnecessary work in certain localities as a public bribe to get support? Why did they pay out \$300,000 for the expedition of the "Arctic" without any cause whatever? No one on the Government side of the house can be the object of the day's work unless it was to put money in the hands of the friends of the Government, whom they have to keep in good humor in order to keep in power. Mr. Borden challenged any Liberal to give any explanation of why the Government paid out \$100,000 for one article of the "Arctic" trip, which could have been purchased for at most \$2,000, according to sworn statements, or why such vast amounts were paid out to the middlemen in connection with the sales of lands in the western provinces. The electors were shareholders in a corporation and the directors of that corporation conducted the business of that concern according to the same standards as those followed by the Liberals in public affairs, and how long would the shareholders keep such directors in power? They would be turned out at the earliest opportunity.

Mr. Borden then went into the timber land deals. He compared the way that Premier Whitney is conducted at Ottawa. Mr. Whitney is dealing with the timber lands of the province in a business-like manner. He recognizes that he is the trustee for the people, and he is acting honorably and justly towards every resident of the province who are all interested in these lands. The same policy is followed by Premier Whitney in connection with the mining lands. In the western provinces these would be lands very extensive. Mr. Laurier said that the lands should be held for the settler and not the speculator. These who are settled in the western provinces know how little this is true. When lands are tendered for, one man in the civil service opens the tenders, and the immense amounts of graft secured by the favorites who are awarded these lands is appalling.

The Saskatchewan land deal and the Robin deal were both touched upon with telling effect. \$250,000 was turned over to favorites through the Government's turning over to them land at \$1 an acre, which they promptly re-sold immediately afterwards for as high as \$12 an acre. How little the Government carried out their promise that the land would be held for the settler.

The matter of elections was then taken up by Mr. Borden. The Liberals claim purity in elections. In 1898 Mr. Borden found that the Government of the day were practicing in West Huron and Brookville. The actions of Wilfrid Laurier and his friends was such as to condone these frauds. There was ballot-box stuffing in those two elections and the Government had the perpetrators to prison. It is on the records of the public affairs of this country that nothing was done to bring the criminals to justice. The Government refused to act. Mr. Borden did not wish to charge the whole Liberal party with these practices, but he did charge the leaders at Ottawa for the condonation and for the protection to crime which they have given and which has made possible the carnival of vice and corruption. There has since been more of it. If the Liberals at Brookville had followed up would the similar state of affairs have followed at Frontenac, West Hastings and London? No. There has never been anything in the history of the world like the carnival of vice which has been practiced under the eyes and ears of the Government at Ottawa. Huge campaign funds have paid these men and kept them on pensions afterwards. And they, the Liberals, preach purity in elections!—Applause.

If winning elections in the future depends upon the size of the campaign fund, the people might as well do away with elections altogether, and let the leaders of the party go out and see what size of a fund they can gather together and then measure the funds and the one with the largest gets into power.

If we are to have responsible Government, with all that means, and men in Parliament who really represent the people, it is high time that something were done. The Conservative party must, and will, see that their hands are clean. Pledges to this effect must be exacted from all candidates. It is a ridiculous thing to think even that the Conservatives could get into power by lying to the people. The Liberals who are in power, in the size of their campaign funds and the amount of money they spend, the party in power is unscrupulous, and in the next election

tion must watch for every fraudulent device to be brought into action in their desperate attempt to keep their seats on the Treasury Bench. It would be folly to compete with the public funds. Of course a campaign fund must be kept for legitimate expenses, but you should always see that you have enough to spare to fight in the courts against stealing. In Great Britain and New York precautions have already been taken against the accumulation of high campaign funds. In Great Britain a constituency can be disfranchised and the candidate made ineligible to run in any constituency even though he did not authorize the corruption which is found to exist. In New York there is a law against the collecting of money from corporations who are in any way interested in any legislation which might be passed. In Great Britain there is a Public Prosecutor to probe all election frauds.

The people at Ottawa were in a position to prophesy what would happen in the bye-elections. In the London case we were told to see what the electors would have to say of the educational policy in the Hyman election. We were told by the Government that the people of London would approve of this legislation by returning Hyman. They were confident of victory.

It reminded Mr. Borden of a story which illustrated the point in a humorous way. A man was very ill. His doctor told him he could not get better, in fact he would not last un-

length on the fiscal policies of the two parties. What does it mean to a country to have a Conservative party in Canada a richly endowed country with the best agricultural land in the world. This is its main asset, but it is also richly endowed with minerals, forests, fisheries, and the greatest industrial possibilities. The home market should be kept open to the producer. The labor which develops these resources should be Canadian labor. The main argument of protection is that we should keep our people within our own country by giving them a fair living wage to encourage them to stay here. The Canadian laborer should not have to compete with the foreigner in his own country. We should look for the conversion of the raw material into the manufactured article being done by the Canadian workman, who shall be given a fair wage for his work.

What is the policy of the Liberal party? Does anyone know it? Three years ago Mr. Fielding proclaims at Yarmouth that he is a free trader. Afterwards, when it suits their purpose, the Government is talking protection.

The question of immigration into the Northwest is one of moment. When Mr. Borden moved in committee during the debate on the bill that the control of the public lands in the Provinces be left with the Provinces to deal with, it was voted. What Mr. Borden contends is that the lands should be restored to these Provinces upon fair terms.

What the Government should do now is to get quality and not quantity in reference to immigration. Canada is well enough advertised at the present time. What there should be now is a careful selection. It is not well to criticize too much what has been done in the past, but there is no doubt that the immigrants who were brought in there so that the Government could, through coercion of the settlers, keep his majority in the west.—Applause.

There should be an end of the bonus system, such as was practiced with the North Atlantic Trading Company. This company was made and articles signed and sealed by a company when no company existed, and when no seal existed. Laughing. Some persons must have committed forgery in signing those documents. The company was constituted six months afterwards, at a capital less than \$250. They received \$15,000 in advance from Canada. The directors were two or three solicitors clerks and a number of local boys in England. Some went to the Amsterdam office and inquired for a representative of the company. He was told that the only ones who were ever around there was a man who came once in a week to get the mail, which consisted of a check from the Dominion Government.—Applause. (For every person brought here from any of the countries of Europe, no matter whether they brought them or not, this precious company got the sum of \$5. The Opposition interfered, and as a result, the company with the North Atlantic Trading Company was annulled. The reason which was given by the Government didn't exist. The reason was that, after \$300,000 had been paid out, the Opposition objected to the \$700,000 additional being paid out, and after a determined fight, the Opposition won out.)

In reference to the public ownership of utilities, Mr. Borden proposes to govern them with an independent commission, and keep them away from the politician and grant. This same plan is suggested by the ownership of telegraphs and telephones.

He proposes to extend the work of the Railway Commission and make it a Public Utilities Commission with wider jurisdiction, to guard the people on one hand and the capitalists on the other.

In ending his speech, Mr. Borden said that he had done his best to do his duty fearlessly and well. He had with him men in Parliament who were capable men and he expected to have more after the next election. He would do his duty by his party before them, to elect the men who are standing for honest administration. There are enough men in the Opposition to-day to create two better cabinets than the one now sitting.

It was said that Whitney could not form a cabinet, but he has, since getting into power, given the very best Government that Ontario has ever had. The men behind Laurier had supported him in all of his wrong-doing, and yet when it came time to select another minister the Premier goes outside of the House. If he was looking for an honest man for the position, it does not speak very well for those "giants of debate" who are with him in the House, and if he was looking for a dishonest man, it does not speak very well for the men chosen.—Laughter.

As to the prospects, Mr. Borden was very optimistic and sanguine. He has received every encouragement. He is soon going to British Columbia, where Premier McBride assures him that he will have a big majority at the next election. If the people are sufficiently impressed with the platform of the Conservative party, and the record of past events, the Conservative party will win a glorious victory. The party will then have an opportunity to perform as great a service as that performed under the auspices of the great Leaders of bygone days.

Mr. Borden was given a rousing ovation at the conclusion of his excellent speech.

MR. PIKE. Mr. J. M. Pike, the popular and energetic President of the West Kent Liberal-Conservative Association, was then announced, and although it was late in the evening, the spirit of the audience had not waned. His popularity was clearly shown by the applause which greeted him. Mr. Pike closed the meeting with one of his characteristic "rousters." He is one of the fore-

most orators of the country to-day, and he has the ability to appeal to his audience in a manner which few speakers possess. He is a very rapid and fluent talker, and when he started to speak, the audience settled back expecting to hear something good and they were not disappointed.

Mr. Pike explained the absence of Mr. Clements, who was in Paris. Court. He reviewed the speeches of the day in a clear and comprehensive style, and prophesied great things for the future in both Federal and Provincial campaigns. He was interrupted several times with evidences of approval of the audience.

In conclusion, Mr. Wilson added a few words, giving voice to the honor which had been done the Maple City through the visit of Mr. Borden, and expressing the opinion that when he next visits Chatham the people will have the pleasure of greeting him as the Premier of Canada.

The meeting closed with cheers for the King, Mr. Borden, Mr. Clements, Mr. Sulman and Mr. Pike.

PEERESS IS PRESIDENT. Duchess of Sutherland Head of Lady Automobileists in England.

Many English society women are becoming active automobilists, and a woman's automobile club has been established at Claridge's Hotel. The Duchess of Sutherland, one of the busiest as well as one of the handsomest of peeresses, finds time to act as president, and to be a practical chauffeuse.

Among other well-known women who drive their own machines are Lady Wilmorine, the Baroness Campbell von Laurentz, Mrs. Edward Kennard, the novelist; the Countess of Kinnaird, Miss Dorothy Levitt, another member, is perhaps pioneer of motoring for women. She has taken part in important races, and knows what it is to be held up by the police for exceeding the speed limit.

Very few people who were present at the rather quiet wedding of Miss Beatrice Knollys, a niece of Lord

Knollys, King Edward's lifelong friend and secretary, to Sir Capel Wolsey realized the pathetic opposition to the marriage, which had been offered by the Knollys family.

There was no question of criticism about the bridegroom, who is a popular and charming man of much culture, but, unhappily, he is British Consul at Archangel, that terrible northern post in the political offenders' camp, and he is a life of absolute boredom through terrible winters. They are the best class of political prisoners, it is true, and they are allowed much freedom, but theirs is the only society offered to them, and it was for this reason that the match was opposed.

King Edward, however, has the strongest sense of duty, and when the Knollys family tried to prevail upon him his answer was "If she wishes to marry the man, she must share his responsibilities, as many royal women do." This was the King's advice to his own daughter Maud when she first objected to becoming Queen of Norway.

BUYING OLD FIDDLES. How Some Fine Instruments Have Been Picked Up Cheap.

Great numbers of fine old violins and violoncellos have come into the high-class market of London are produced through the medium of advertisements inserted in obscure country papers, and especially those of ancient cathedral cities.

Of course, few of the fiddles thus obtained are veritable masterpieces, but a great many of them are fine examples of early English and foreign makers, and they are often bought for ridiculously small prices by a group of experts, who have brought the business to a lucrative system. Many a struggling family of long descent has come out of the way part of the country happens to see in the one newspaper of the week that good prices are given for old fiddles, and some long forgotten instrument in a lumber room or put away on a shelf, suddenly comes to mind.

Correspondence follows; the dealer sends a deposit in order that some fiddle spoken of may be sent to him and examined, and he usually replies that the instrument sent is disapproved and but no one generally, but that he is willing to give 30s. or £2 for it. In a great many cases the offer is accepted off-hand, and in this way most of the finest fiddles extant of the second-class come into the hands of dealers. Only lately a fiddle came from a Shropshire farm at the price of £2 sold the same day to a West-end dealer for nearly £100.

One of the most shrewd and respected of all these dealers was, until a year or two ago, a humble member of the orchestra of a London suburban theatre. He began to advertise in remote papers to the greatest limits of his scanty wages, and is now one of the most extensive and prosperous dealers in the trade.—London Tit-Bits.

tion is increasing daily," said Mr. Macdonell. He endorsed the statements of the former speaker, and said that party politics should be abandoned and every elector should vote as he saw fit and thought correct. He spoke of the clean administration they have now at Toronto, after a thirty-year fight against corruption. "As Conservatives we have an honorable past and a clean record; the Ross Administration was dethroned by Liberal votes, and we glory in the fact that we have built up the Great Northwest," were the speakers words.

Mr. Macdonell again spoke of the high esteem in which Mr. Clements is held and of his independent and clever ideas. After thanking the audience for their kind attention he resumed his seat.

The meeting was closed with three cheers for the King, H. S. Clements, Claude Macdonell and the chairman.

they kept the best of order, no liquor being sold in the town. Coming down the line he spent a couple of days around Muskoka, in the neighbourhood of Huntsville, where he met the Bishop of Algoma, and assisted at a confirmation service. He spent Sunday in Toronto, taking part in the services at St. James' Cathedral in the morning, when about 2,500 were present. He also spent a day on the grounds of the Toronto Yacht Club, where he indulged in his favorite game of bowling. Took a day in an auto trip seeing the city; a day at the Exhibition; another at Hamilton; and one at London. It was a trip full of interest, and Mr. Hodgins enjoyed every hour of it. He will occupy his own pulpit on both occasions on Sunday next.

### FALSE ALARM

At eleven o'clock Friday evening many of the citizens were awakened from their peaceful slumbers by the piercing tones of the alarm fire alarm whistle at Gray's carriage works. The fire department had been notified that a test was being made of the whistle, but someone pulled the alarm box nearby. A large crowd—many of them scantily clad—gathered near the factory, only to find that it was a false alarm.

Many persons greatly object to the blowing of this whistle in the night hours when there is no necessity for it.
