This Association is designed to be an auxiliary to the College. Composed chiefly of graduates, it aims to bind them together in friendship, to renew and render permanent their old attachment to the College, to insure the life-long devotion of its members to the interests of the College and through her to the cause of Education throughout the Province. The Association meets annually in June at Wolfville, when the Annual Oration is delivered and the members dine together. The funds accruing from a membership fee of two dollars per annum are expended in the bestowment of prizes to Students, and in such other useful ways as the Annual Meeting determines. Through the instrumentality of this Society over two hundred dollars annually are offered as prizes to the Students of the College. The Society does not aim so much to afford pecuniary assistance as to unite the Alumni together, and to the College. It is not difficult to foresee, however, that in so far as the Association is successful in this latter object, they will assist very materially in at length placing the College upon a solid pecuniary basis.

The special aim of this school is to prepare classes for entering College. The work therefore is arranged with this end in view, much time being devoted to the Classics, History, and such branches of Mathematics as are required for matriculation. With a slight variation from the ordinary course, for which provision can be made, pupils may prepare for College, and at the same time be qualifying themselves to take out 1st Class Licenses as Teachers.
