

INSURANCE CHRONICLE.

DEVOTED TO FINANCE, COMMERCE, INSURANCE, BANKS, RAILWAYS, REAL ESTATE, MINES, INVESTMENT, PUBLIC COMPANIES, AND JOINT STOCK ENTERPRISE.

VOL. III-NO. 24.

TORONTO, FRIDAY, JANUARY 28, 1870.

Railways.

SUBSCRIPTION \$2 A YEAR.

Mercantile.

J. B. Boustead.

PROVISION and Commission Merchant. Hops bough and sold on Commission. 82 Front St., Toronto.

Buntin, Brother & Co.,

WHOLESALE STATIONERS, and Paper, Envelope, and Bank Book Manufacturers, Nos. 3 and 4 Com-mercial Buildings, Yonge Street, south of King Street, Toronto

Wm. Croft & Co.,

MANUFACTURERS of Needles, Fish Hooks, Tackle, M. &c., Importers of Cutlery, Thimbles, Pears and But-tons, Hooks and Eyes, Pins, Combs, and Small Wares in general. 37 Colborne Street, Toronto, Ont.

Childs & Hamilton.

MANUFACTURERS and Wholesale Dealers in Boots and Shoes, No. 7 Wellington Street East, Toronto, Ontario.

L. Coffee & Co.

PRODUCE and Commission Merchants, No. 2 Manning's I Block, Front St., Toronto, Ont. Advances made on consignments of Produce.

John Fisken & Co. ROCK OIL and Commission Merchants, Wellington Street East, Toronto, Ont.

Gundry and Langley;

A RCHITECTS AND CIVIL ENGINEERS, Building Surveyors and Valuators. Office corner of King and Jerdan treets, Toronto. THOMAS GUNDRY. HENRY LANGLEY.

Lyman & McNab.

WHOLESALE Hardware Merchants, Toronto, Ontario.

4

W. D. Matthews & Co.

PRODUCE Commission Merchants, Old Corn Exchange, 16 Front St. East, Toronto Ont.

R. C. Hamilton & Co.

PRODUCE Commission Merchants, 119 Lower Water St., Halifax, Nova Scotia.

H. Nerlich & Co.,

I MPORTERS of French, German, English and American Fancy Goods, Cigars, and Leaf Tobaccos, No. 2 Adelaide treet, West, Toronto.

Farson Bros.,

PETROLEUM Refiners, and Wholesale dealers in Lamps, Chimneys, etc. Waterooms 51 Front St. Refinery cor-iver and Don Sts., Toronto,

Reford & Dillon.

IMPORTERS of Grospries, Wellington Street, Toronto Onfario

W. Rowland & Co.,

PRODUCE BROKERS and General Commission Mer-chants, Advances made on Consignments. Corner Church and Front Streets, Toronto,

Sessions, Turner & Cooper.

MANUFACTURERS, Importers and Wholesale Dealer in Boots and Shoes, Leather Findings, etc., 8 Wel-on St West, Toronto, Out

Sparrow & Whatmough.

IMPORTERS and Dealers in Goneral House Furnishing Goods, Willow, Wooden and Hollow Ware, Chandeliers, Ecroscua Lang Goods, Olis, &c. Manufacturer of Ware Filters, Reinsersters, Mart Stras, Childran's Cabs, etc. 57 Yonge Street Torogro.

GREAT WESTERN RAILWAY.

The original line from which the Great Western has sprung ran from Hamilton to London. The original intention was 'to introduce the narrow gauge; but the Canadian Parliament, having the general question of gauge under discussion, resolv-ed to extend no aid to roads not adopting the is feet 6 inch gauge, which it saw fit to make the uni-form gauge of the Province. State aid was indis pensable, and so the wide gauge was adopted, against the judgment of those interested in the line. On the completion of the through line, the company built an extension from Hamilton to Toronto; one from London to Sarnia; and another from Harrisburg to Galt; while they came into possession (as mortgagee) of the Galt and Guelph Railway. At the time of the oil excitement, they built an extension from Wyoming (on Sarnia Branch) to Petrolia, tapping the productive oil region, from which a very heavy traffic has been steadily enjoyed-the shipments last year having reached an aggregate of 120,000 bris. In 1857, the parties constructing the Detroit and Milwaukee road becoming embarrassed and unable to complete and equip their line solicited aid from the Great Western Company, who eventually fur-nished £250,000, on condition that its control should be invested in the Great Western. The total capital expenditure on the entire property of the company (including the D. & M.) amounted January 1, 1869, to \$25,005,434. The main line extended from the Suspension Bridge, Niagara Falls, to Windsor, on the Detroit river, a distance of 229 miles. At Suspension Bridge it is con-nected with the New York Central Railroad by means of the Suspension Bridge, which was open-ed for trains in March, 1855. At Windsor, the connection is formed with the Michigan Central and Detroit and Milwankee railroads by means of ferry steamers, the width of the river being over one-half a mile. The steamers which at present transfer the passengers and freight consist of two first-class vessels. One is an iron double-ender steamboat, 240 fect in length, which takes over a whole passenger train on its two tracks, or 14 freight cars. The other is a large wooden steamboat, with a spacious saloon-deck, and eating-room, on which passengers only are transferred. Besides the main line, the following branches are worked by the Great Western Company, 1. The Erie and Niagara Railway- Fort Erie opposite Buffalo, to Niagara-31 miles. 2. The Toronto Branch-Hamilton to Toronto, where a connection is formed Hamilton to Toronto, where a connection is formed with the Grand Trunk Railway—394 miles. 3. The Galt and Guelph branch—Harrisburg to Guelph—275 miles. 4. The Sarnia branch—Ko-moka, west of London, to Sarnia, opposite Port Huron—51 miles. 5. A line from the Sarnia Branch, at Wyoming, to the oil region of Petrolia

thence it again gradually falls till it reaches the Detroit river at Windsor. The steepest grade is that ascending to the west from Hamilton, averiging 50 fert per mile for 10 miles. From Komoka westward, for 100 miles, the line is nearly level, and there are 57 miles of this length in a single straight line.

The company's grounds in Hamilton embrace 30 acres, having a frontage of a half a mile on the bay, with mine feet of water at the docks. The bay, with mine feet of water at the docks. The Rolling Mill, 120x135 feet, employing 126 men, and working night and day, has a capacity of 7,000 tons (70 miles of track) per year. In 1853-4, the track from the bridge to London (one-half of main line) was laid with the Bridge (or U) rail of Welsh (Ebbeynle) manufacture. Such has been Welsh (Ebberhi) manufacture. Such has been the tenacity of this rail, that the last of the stock is now being cut up. Subsequent importations from the same locality proved very inferior-especially that laid in the third rail in 1866, 13.especially that had in the third rail in 1866, 13,-500 tons, which on account of its brittleness, is already, being out up, reworking expelling the cinder and developing the fibre. It was this rail -bought at a high price, with the best expectations -that yielded so fatally to heavy traffic last winter. Two facts should also be borne in mind, winter. Two facts should also be borne in mind, in considering the general question of improved rails. On all our roads the dead weight (of rolling stock) has at least doubled since 1860—that is, stock) has at least doubled since 1860- that is, mileage has doubled; so that a rail which lasted eight or nine years then will fail much sooner now. Moreover, as traffic increases, not only the weight of rolling stock has to be increased, but also the of rolling stock has to be increased, but also the speed of trains, so that there may be no crowding of cars, causing dead locks at stations. As inatter-of-fact, even on our best managed roads, freight trains almost as a rule, fall behind, giving passenger trains time to pass; so that, instead of running at the schedule rate of 12 or 15 miles per hour, they not unfrequently nearly double that speed. Under condition such at these the measuring of second conditions such ha these, the necessity of reworkconditions such as these, the necessity of rework-ing old rails into new, containing a large proportion of the best new iron (with liability, even then, to laminate) and the consequent inconvenience of frequent changes and renewals of the track, to-gether with the increasing difficulty of securing good new iron rails at any price, have led this company, in common with the most of those in the States, to experiment with (or, rather, to introduce) steel rais on an extensive scale. In the reworking of rails, Mr. Reid finds that the pig ordinarily obtained from England is no longer suitable, and experiments are making with American varieties. Among these the Acadian (Nova Scotia) puddled is proving very superior-two pieces being introduced in the head, making 33 per cent of the weight of the rail. This iron is of the nature of a semi-steel, fine grain and exces-sively tough, free from danger of breakage under The Galt and Guelph branch— Harrisburg to Guelph—275 miles. 4. The Sarnia branch—Ko-moka, west of London, to Sarnia, opposite Port Huron—51 miles. 5. A line from the Sarnia Branch, at Wyoming, to the oil region of Petrolia - 54 miles. The main line leaves the Niagara river at an elevation of 326 feet above Lake Ontario. It gradually descends to the level of the lake at Hamilton, where grain and general freight war-houses are crected on the wharf. The line then steadily rises till the summit level is reached, 88 mfles west of the Suspension Bridge, where the elevation above Lake Ontario is 762 feet. From

The conclusion is that forging (under 5 ton ham-mer) before rolling is of great utility. The rails retolled here now have an average life of five years Av. No. Gross Tot. work g Eq. p.e -a good result considering weight of traffic. The coal consumed amounts to 1 1-5 tens to ton of rails turned out. For fish-plates tough scrap is used; wing rails and crossing points are steel-capped. The experiments with all-steel points (Vickers' cast-steel points and crossings) have not been satisfactory; they wear down altogether faster, the flang of the wheel crushing them. An improved fish plate is being introduced, which conforms to the shape of the rail, and passes underneath. Experiments have been made with a process for carbonizing the whole rail (Bainton's patent)-the rail being placed entire in the furnace, which is then closed for from 36 to 48 hours, according to the hardness required; the mass absorbs carbon from the gasses, on the well-understood cementing process by which blister-steel is made; it is then thoroughly hammered down in the bloom; and is then put into the furnace again and finally repolled, and the metal having a consistency under the rolls like that of lead. A few of these after 18 months' wear, remain in remarkably good condition, although manufactured under great dis-advantages. The process (on which there is an

English patent) is considered a cheap one. The freight business is in charge of two agents -the principal having charge of the American through business; the assistant devoting himself to local duties and station work. Two through fast freight lines run over the road--the noted "Blue Line," running on the Michigan Central and its connections; and the "Milwaukee Line" doing the through business of the D. & M. road and its connections. The Great Western Com-pany have just built 190 "Blue Line," cars, in-creasing their stock thereof to 320; and contem-

plate building 180 more, making a total of 500. The company has 100 fast freight "Milwaukee Line" cars. The operation of this line is similar to that of the "Blue Line," its interests and management being indent cal with that of the rail-way company. At Suspension, Bridge and Detroit, all personal through baggage is put into " Yans, and sent through without inspection under the seal of the United States and Canada Customs. Under this arrangement five minutes now suffices for doing what previously consumed half an hour.

The freight earnings for each year since 1860 have been as follows-the half years closing on the 31st July and the 31st of January, respectively:

1860	\$1,0\$2,493
1861	1,345,425
1862	1,654,849
1863	1,726,076
1864	1,698,653
1885	1,594,735
1866	1,625,697
1867	2,022,915
1868	2,148,629
1869 (6 months)	1,105,868

The total of tons of freight forwarded during three years has been: 1867, 462,158; 1868, 507,-1081: 1869, 647,8174.

The following were the tons forwarded from the principal'stations:

	1867.	1868.	1869.	
Suspension Bridge	103,000	109,551	125,655	
Hamilton	21,434	23,975	26,134	
Toronto.	13,494	13,742	17,917	l
Guelph	20,413	14,770	-9,875	
Paris	16,045	13,941	14,110	
Ingersoll	20,379	19,313	19,394	
London!	22,895	21,938	22,182	
Petrolia	15,278	25,540	23,112	
Windsor	93,691	153,706	270,702	

The total number of barrels of oil shipped from Petrolia Station from January 1, 1867. to November 5, 1869, was 337,244.

The following is a comparative statement 01

MIDLAND RAILWAY OF CANADA. -The annual meeting of the shareholders of this Company took place in Port Hope, on the 17th January, when the following gentlemen were elected office-bearers for the ensuing year: -- President, H. Covert, Esq. Vice-President, Wm. Cluxton, Esq.; Secretary and Treasurer, Joseph Gray, Esq., Gen. Supt., A. T. H. Williams, Esq.; Engineer, A. T. Stewart, Esq.; Directors:-Hon. Sidney Smith, D. E. Boulton, Esq., and Lewis Moffatt, Esq. The report of the business of the road for the past year, 'presented by the General Superintendent was received with the utmost satisfaction. The Report shews the Company to be in an exceedingly prosperous condition, and this we believe is, in a great measure due to the energetic management of Mr. Williams, aided by his efficient assistants.

RAILROADS VS.- STEAMBOATS .- Mr. Potter, President of the Grand Trunk Railroad Company, estimates the yearly growth of the railroad traffic in Upper Canada at from 10 to 20 per cent., and says there is a tendency throughout our whole system for "the traffic more and more to seek the railroad and leave the water. Passenger boats on the St. Lawrence and the Lakes have ceased to pay, and no more are being built." Mr. Potter says it is no use to compare the Grand Trunk with the leading railroads of England, but that it is in as good condition as the railroads in the Western States, or other lines in Canada, but not equal to the New York Central or Pennsylvania Central, He advises the laying down of 5,000 tons of steel rails in 1870, and 9,000 or 10,000 tons more of iron rails, from the rolling mills of Portland, Detroit and Toronto. He also advises the expenditure of \$1,500,000 the present year on the permanent way. \$100,000 has just been received in Montreal to be expended on freight cars, 800 being in process of construction.

THE NORFOLK RAILWAY .--- The Norfolk Railway Company was organized at Simcoe on the Isth, by the election of Mr. H. S. Howland, President; Mr. Noah Barnhart, Vice-President; and Messrs. John Fisken, John Shedden, and George Laidlaw, Directors. Mr. Thomas Lailey was appointed Treasurer; Mr. George Laidlaw, Managing Director; Mr. Adam Crooks, Counsel; Mr. Thomas Moss, Solicitor, and Mr. John Conlin, Secretary of the Company.

Insurance.

FIRE RECORD. - Halifax, Jan. 18. - An obliging correspondent sends us full particulars of all the fires in Halifax and the vicinity, since the commencement of the present year. (Jan 1,)-A fire caught in a workshop, in the Royal Engineer's yard, and did only trifling damage; cause acci-dental. (Jan. 7.)—The confectionery store of Mr. O'Brien, on Buckingham street, was damaged to a trifling extent; some window decorations having caught fire. (Jan. 13.)—The Tobacconist's shop of M. Swain, on Water street, was set fire by a lighted match carlessly thrown among the cloth-ing; the damage was only trifling. On the same day, the Conservatory in the Governor, Sir C. H. Doyle's garden, was totally destroyed; no insur-ance; cause a defective "flue. (Jan. 15.)-The building owned by J. Lawlor, on Portland street, Portsmouth, east side of Halifax harbor, and occupied as a drug store, saddler's shop, and lodge room; was totally destroyed. The Masonie body had an insurance on the lodge furniture of \$500 in Liverpool and London and Globe; Mr. A. Corbin, had \$500 on the drug stock, in the same company, and \$1,500 in the Royal; the Lawlor estate had \$400 in the Royal, on the barn adjoin-ing. The cause of the fire is not yet ascertained.

Ingersoll, Ont., Jan. 16.—The barn and sheds belonging to Moses Tripp, bailiff, near Ingersoll, occupied by Peter Stuart, together with about \$600 worth of hay and grain, and a threshingmachine owned by the Messrs. Gamble, were de-stroyed by fire. The buildings were covered by insurance. Mr. Stuart's stock was insured fors \$500. The fire is supposed to be the work of an incendiary.

Peterboro', Jan. 25. -- Renfrew's stave factory, with all the machinery and material, was destroyed by fire last Sunday morning, a little before daylight. Loss \$2,000 ; insured in the Home and Commercial Union for \$1,500. Evidently the work of an incendiary, no fire having been in the building since New Year.

Elora, Jan. 24 .- Elora Mills have been burnt. It was noticed first about two o'clock on Sunday morning. The cause of the fire is supposed to be from middlings heating and igniting. The insu-rance on the mill, machinery and stock is \$16,000; loss about \$5,000.

St. Catharines, Jan. 24 .- Another incendiary fire occurred here on Sunday morning, by which a barn and small tenement house, between Ontario and William streets, were destroyed. Three cows and a horse were burned.

Durham, Ont., January 15 .- A fire occurred from some unknown cause, in the iron foundry belonging to Messrs. A. & A. Cochrane. The fire originated in a shed near one of the tin shops. The stock of waggons, wheels, lumber, &c., was almost entirely vonsumed, but a small portion being rescued. Two other wooden buildings also shared the same fate; happily the fire did not extend to the main buildings. The loss will fak extend to the main buildings. very heavily on the owners.

Mitchell, January 25.- A fire took place this morning, originating at Mr. Thomas McDonald's grocery and hardways store, totally destroying the stores adjoining; Mr. Engel'adrug store, jewellery department, and Montreal Telegraph Office; Messrs. Currie and Thompson's provision store, Wm. Colwell's book store, Daniel McPharen and J. C. Dalrymple's law office, Thos. Skate's photograph gallery, Miss Fraser's music rooms, Dr. Edward Hornibrook's surgery, Messrs. Bronn's brassmaking establishment, John Aikens' dry goods and grocery store, Donald McIntyre's boot and shoe store, W. H. Fist's tinsmith shop, George Ritz's furniture store, and partially destroying the brick store occupied by Nelson Bris-ben's dry goods and stationery. Cause of the fire unknown.

Hespeler, Ont. July 20.—Fire was discovered about 8.15 last night, in the building known as Hespeler Mills. It was first seen through one of lower story windows, near the main entrance, the and only fifteen minutes after the watchman had rung the bell for eight. In a few minutes the Hespeler Fire Brigade were on the ground with their engine, but were not able to subdue the fames. In a short time the building was one mass of flames. A telegram was sent to Preston and Galt for engines. The Preston brigade was on the ground in a short time, followed soon after by a Galt company, but were only able to keep the fire confined to the one building. The insurances upon it are:-Liverpool and London, \$11,000; Royal, \$11,000; Phœnix, \$12,000-total, \$34,000, which, it is thought, will about half cover the 1055.

Harriston, January .- A fire broke out in the hall attached to McNeil's Commercial Hotel, or in the part of the tavern adjoining it, but which was by prompt exertion, without serious damage to the building, extinguished. Mr. W. S. Watson, lost two instruments and nearly the whole of his stock; damage nearly \$200.

Brantford, Jan. 24 -A despatch says: Another large fire occurred here on Sunday morning, at one o'clock, by which the Brock block, corner of Market and Colborne streets, was completely de-stroyed. The fire originated in the boot and shoe store of D. Calahan, but how remains a mystery. An investigation will take place. The following are the losses :--- Corner building, owned by Ebenezer Roy; loss \$5,000; insured in the Royal for \$3,500. The next building was owned by Geo. Keatchie; loss, \$4,500; insured in the Royal for D. Calahan's loss on stock not known; \$3,500. insured for \$1,000 in the Toronto Mutual. John Edgar & Co., glass and crockery warehouse; loss about \$12,000; insured in the Western of Canada, Imperial, and Hartford, \$6,000. Dr. Tafford's office, part of the furniture removed; loss about \$300, insured in Western for \$500. Smith & \$300, insured in Western for \$500. Smith & Eddy's photegraph gallery; loss \$2,500; insured for \$1,300 in the Hartford. Doric Lodge of Masons saved some furniture; loss \$800; insured for \$700 in the Royal, W. Cleland's dry goods store had some of the stock saved; less \$4,000, covered by insurance. The Mechanics' Institute Library sustained a loss of 1,600 volumes, valued at \$1,350; insured for \$600 in Hartford. J. B. Meacham's (dentist) loss is \$1,000; insured in Meacham's (dentist) loss is \$1,000; insured in the Home for \$400. The Sons of Temperance Hall, furniture all lost: valued at \$250; no insur-made; organ of Choral Union, in hall, insured for

3150. A. McMeans, grocer, stock and furnitur damaged by removal. W. Dealtry, sa'oon keeper damaged by removal. W moved out; loss trifling.

-The Supreme Court of the United States has recently decided that insurance is not commerce.

-The Halifax Fire Insurance Company havdeclared a dividend of 125 per cent. on the pais up capital (\$15,000) for the past year.

-The annual meeting of the Brant Farmers Mutual Insurance Company was called for the 26th inst., at Paris.

-The Victoria Mutual insurance Company, o Hamilton, have issue 1536 policies in the "Hamil-ton Branch," the average amount of which is \$800 in the past year,

-A meeting of gentlemen in Belleville was called for the 24th, to consider the propriety o establishing an insurance company in Hasting county.

-The Imperial and Queen insurance compan-ies have resolved to withdraw their agencies in Illinois in consequence of inadequate rates, an it is said the North British and Mercantile will follow the same course.

THE MERCHANTS SHIPPING ACT .- A Corres. pondent of the St. John Telegraph calls attention to the fact, that "a Bill to consolidate and amend the Merchants' Shipping Act," is to be considered by the Imperial Parliament, at the next session, which, if enacted, will seriously affect colonial shipping interests. To legalize deckloads, it is proposed that an owner may apply to have his ship reregistered, measuring the upper deck for cargo, which is to be added to the tonnage, and if any cargo is carried on an upper deck, without deck measurement being thus included on the registered tonnage, all tounage dues are to be doubled on that voyage on which such deck cargo is carried. This will prove a serious burden upon colonial ships, if the measurement of a deck is once added to the register tonnage, the ship would be liable for port charges on the increased tonnage for all time, a provision that no ship owner could submit to for the casual advantage of carrying a deckload when offered. The alternative would be then prohibition from taking a deck load, or be subject to double tonnage dues on the voyage. This would be the position of the colonial ship. while a foreign ship would be under no such restrictions. It requires no prophet to fortell what the effect of such a law would be upon colonial ships engaged in the deal and timber trade-and the other business, but particularly the former.

-The Chicago Insurance Chronicle gives the following as the experience of an agent : " In the course of my harangue I had recited my little fable about the construction of the premium table from the "Callisle Table of Mortality," and now the stranger, without appearing to notice my chagrin, very politely asked me, "Who was this Carlisle?" That was a question I had never propounded to myself, nor heard propounded to anybody else. Unwilling, however, to confess or betray ignorance, I promptly answered, "Carlisle was a schoolmaster in Connecticut, who made these things a study." The desperate and daring impudence of that reply astounds me, as I look back upon it. of that reply ascounds me, as a rook each thon H. So it seemed to my acquaintance, who looked at 'me in wonder, and then continued his questions.' I was soon led into a labyrinth, and so entangled in the "reserve," and "loading," and "mortality experience," and a dozen other things, of which I had never heard before, that I was glad at last to confess my ignorance, and surrender at discretion. I then learned what I had begun to suspect, that my inquisitor was the general agent of a life insur-ance company, who had come down to the village after a day's fishing.

MARINE DISASTER,-The schooner G. R. C.

with a cargo of ccal, on vessel's account from the oggins Mines, and bound for this port. The G. Ç., was built in 1861 at Cornwallis, was classed 2 n Amerijan Lloyi's, and was nsured for \$2,500 -valued for \$5,000-in "Boston Lloyd's." The argo was insured.

371

NITEO-GLYCERINE-THAT DANGEROUS EXPLO-IVE .- It is said another sad accident, illustratng the dangers of the careless handling of this ompound, occurred the other day on the Pacific oast. A mother was about to inflict summary unishment on her child for some misdemeanor, out unfortunately the boy had been sitting on ome leaky kees of nitro-glycerine, and the first pank was followed by an explosion which sent he parties to opposite ends of the room, and broke all the windows in the house!

DESERVED PROMOTION .- The New York Inurance Monitor notices the promotion of a memper of the staff of that journal-Dr. Kempson-to he important position of one of the managers of he Industrial Publication Company:-" Dr. Kempson joined the Monitor at the opening of 1868, being then almost a stronger in the city, and during the two years he has been associated vith us, has secured the warm personal friendship of almost every prominent insurance man in New York. Possessed, to an uncommon degree, of the power of adaptation, from his long intercourse in professional capacity with men of all classes, both here and abroad, Dr. K. has seldom failed to secure the interest, sympathy and cordial cooperation of all with whom he came in contact, and has displayed, from the outset, a fidelity and untiring energy which has secured for him the well deserved recognition he has received." Many of our readers will remember that Dr. Kempson was at one time associated with THE MONETARY TIMES. It is in consequence of his efforts that we are able to boost of a subscription list in New York and other of the American cities larger than any other Canadian journal. The Dr. has winning ways about him; if success is possible he will have We congratulate him on this new promotion.

LIFE ASSURANCE THROUGHOUT THE WORLD.

According to a German manual of life insu-rance, lately published, the total number of life insurance societics in the whole world, and the amount of assurances granted by them, was as follows

Country	Number of Societies.	Amount insured.
England		£450,000,000
United States	55	270,000,000
France		62,250,000
Germany		52.500,000
Remainder of Europe		30,000,000
Remainder of the World		37,590,000
The second second second second second	4	and a second second second

£902,250,000

The American, French, and German statistics are obtained from official returns. Those of Sweden, Norway, Holland, Belgium, Switzerland, and Enssia are for the most part obtained from statistical returns, while those of England and the other countries are estimated. The author then shows the average amount of assurances per head in each country to be as follows (thalers are reduced to English money):

A	ol		uran			
Population.		jet.	: hes	d	211	
Millions.		R	8.	d.		
England 30		15	0	0	ķ

United States (U.S.Cy.) \$3.00 per annum. Casual advertisements will be charged at the rate of ten cents per line, each insertion.

Address all letters to "THE MONETARY TIMES. Cheques, money orders, de. should be made pay able to J. M. TROUT, Business Manager, who alone is authorized to issue receipts for money.

The Canadian Monetary Times.

FRIDAY, JANUARY 28, 1870.

SECURITY IN LIFE INSURANCE.

According to a late decision in a case before Vice-Chancellor James, the test of the solvency of Life Companies, so far as the Court of Chancery, in England, concerns itself, is the company's ability to pay actual outstanding liabilities at the time the test is applied. Though this may be the true legal test of solvency, it is apparent that a great deal more is needed to satisfy one of the soundness of a company in the sense of security. The losses of to-day may be met with ease by a company which will be utterly unable to pay the losses of the future. At the outset, glowing promises may be made to sway the minds of the ignorant, and those too careless to "inquire within"; but a day of reckoning surely comes when realization of these promises is looked for in vain. It bc-

future are built, to see if the foundations are secure and such precautions are taken as are likely to prevent disaster. The prudent man who insures his life should make security his first consideration, not only satisfying his mind at the commencement of his policy, but exercising from time to time a vigilant supervision, to prevent himself from paying his money for nought. Seeing that a thirty years' existence is barely adequate to prove the strength of a company, the future as well as the present must be taken into account.

It may be taken for granted that there is no test easily applied that will show conclusively the soundness or unsoundness of a Life Company ; but there are tests which, for all practical purposes, may be accepted as satisfactory by the unskilled, and which may be applied with reliable results. By the intelligent use of these tests, the assured may ascertain for himself, with a reasonable degree of certainty, what the prospects are of the object he has in view being realized. Of course, in assurance as well as in other kinds of business, one has to depend, in a measure, on the honesty and capacity of others, but it cannot be said that this is the case more particularly with assurance than with other matters. Every investment or trust is subject to the like conditions, in so far as the event is concerned. Taking for granted, therefore, that balance-sheets and certificates are prepared with ordinary honesty, what are the tests which are most likely to give the assured a fair idea of his assurer's position. A glance at the theory on which the system of life assurance is based will enable our readers to understand the subject. A company, in consideration of a premium received, contracts to pay a certain sum at, say, the death of the assured. The time of payment by the company is thus, to a certain extent, indefinite ; but experience has furnished the data by which the company calculates how much or how little it can safely receive in the way of premium, so that, by investment at a sufficient rate of interest, a sum will be produced which should equal that to be paid at the maturity of the contract. If too little be received as premium, or the margin for expenses be exceeded, or the lives be badly selected, or the investments do not yield according to expectation, the result, of course, will be inability on the part of the company to fulfil its contract, or a process of self-consumption will commence. In order to ascertain how it stands, a company has valuations made from time to time, just as a merchant, in order to satisfy himcomes, therefore, a duty which the assured self that all is going on satisfactorily, takes owes to himself and to his family, to examine stock. The policies are valued, and a bal-

company's resources. If each policyholder paid an increased premium corresponding to his increased age, the valuations would be unnecessary, because the liability of the company would be measured by the premium paid. But as average premiums are paid. the object of valuation is to determine the value of the depreciation occasioned by effluxion of time-to find the difference between the premiums payable according to the life tables at the present age, and the premim charged.

This valuation is obtained by an actuarial investigation, and as the rules by which it is reached are well understood, the result is, as a general thing, trustworthy. But as the material for such an investigation is not available to outsiders, we must see what can be gathered from the information that is or should be afforded. Such information as the following is necessary :- a statement of the ncome and expenditure, of the investment of funds, of the amount of the margin of premiums reserved at each valuation for future expenses and bonus, of the rate of mortality by which claims were provided for in the valuation, of the rate of interest at which in the valuation the funds were assumed to accumulate. The failures of life companies are attributed to taking risks at inadequate premiums, too heavy a rate of expenditure, and distributing a surplus shown by adopting an improper method of valuing the assets and liabilities at the periodical investigations. These considerations have suggested the following questions, as likely to furnish proof of solvency :-- (1.) Has the death rate experience, on the whole, been as favourable as that provided for by the table used in valuing at the last investigation ? (2.) Has the interest received been as great as it was then assumed it would be? (3.) Are the realized assets of the value put upon them? (4.) At the last investigation, was the whole of the "loading" set aside ¿ and if not, was the value of the part reserved, sufficient to cover the future working expenses? (5.) Have the expenses of management of all kinds exceeded the "loading" on the premiums? An Actuary of one of the companies says, "an office may be insolvent with £30 in hand, for every £100 assured, while another, and a younger company, which has £10 in hand, for every £100 may not only be safe, but also able to give a large bonus. The fund in hand may be equal to ten years of the premium income, and yet the office be insolvent, while another office may be safe and prosperous with a comparative small accumulation of premium income." Where there is a reserve laid aside sufficient to reinsure existing risks, a company is safe. The the structure on which his hopes for the ance is struck between the valuation and the security depends on the existence of a full

premium reserve. If that reserve is safely there can be no exception taken by even invested, then the solvency is beyond question

It will be readily seen from the above, that Life Companies, above all others, should give publicity to their affairs, and that the public should, in all cases, demand it. Any company that neglects to supply all requisite information, ought to be regarded with caution; and those who refuse it are just objects of suspicion.

MUSKOKA RAILWAY.

The directors of this Company are pushing forward the project with considerable energy, the President especially devoting a great deal of time, and using the full weight of his influence, to advance its interests. Meantime the municipalities seem alive to their duties in the premises. The Town Council of Barrie has submitted a by-law, which has passed through two readings, granting a bonus of \$30,000 ; Orillia is also, we believe, coming forward with a bonus of \$15,000.

TRADE REVIEW.

The retail trade of this city has been dull very dull-for a fortnight back, a state of things not unusual at this season of the year, but at present aggravated, doubtless, by the unwillingness of country customers to buy. The farmers are well enough off in reality, but they feel somewhat poor at finding their wheat worth so little as 75 cents per bushel, with very little prospect of its being worth more. We know how much a man's spirits have to do with his readiness to buy; nothing puts so effectual a stop to extra expenditure as a despondent state of mind, and on the other hand, nothing makes a man more ready than baoyancy of spirit. The farmers, we fancy, are generally inclined to be low spirited at present; not that there is any particular reason for it, except the low quotation just noticed, and hence we expect, after a little while, they will find there is no real foundation for depression, and go on buying as in former years. In the grain trade there are decided manifestations of a speculative tendency. The price is so low that many have come to the conclusion that chances must be in favor of the holder, and orders to buy are being given out with comparative freedom, at certain limits. It is well known that large quantities of wheat are held in Chicago and Milwaukee on Canadian account, waiting the turn of events; and preparations are being made, we believe, for considerable shipments of grain to Europe during the winter via Grand Trunk and Portland. We hope, for the sake of our merchants, that all this may end well, though we do not regard it as legitimate trading; at any rate, a good deal of it is not. Of course, if parties communicate with England by cable, and buy here to fill orders from thence, or having bought here at current prices, seek the next, or at once. to finish the transaction by selling to arrive, Pork is active. The quality of the dressed hogs statement of Messrs. Dan & Co. :

the severest critic. But the passion of the grain gambler will not be satisfied with that mode of doing business. It is not the certainty of closing a transaction at a moderate profit that pleases him, but the uncertainty within which a thousand chances of weather, politics, and whatnot may intervene, all of which he hopes may operate in his favor, and send the article up to a price at which he can sell and realize a large profit. The difference, indeed, between the legitimate trader and the speculator is just this: the one buys to satisfy a known demand, and in selecting his article, he has in view the wants of certain persons or districts ; -- the other buys what he has no definite outlet for : no person that he knows of wants that article in particular ; and he is content to wait upon the chapter of accidents and the chances of something turning up, that he may realize and see the end of his operation. It is to be regretted that the legitimate operations of persons in the grain trade everywhere are interfered with by speculators of the kind described, the magnitude of whose operations in some seasons far transcends all the bona fide purchases made. We are not aware if any statistics have ever been published on this continent, but a return was once published respecting the grain trade of Berlin, from which it appeared that the proportion of genuine operations during a certain season was only about one-sixth of the whole. We have probably never been as bad at any time as that, and certainly, at present, our proportion would be far different ; but the thing, in any degree, is an evil to be deprecated and discouraged as much as possible. Both the transactions and the risks are great enough in the course of legitimate trading, and there is no need to superadd speculation and gambling to make the matter worse

Our farmers now are bringing out the grain, Millers are stocking up; an operation; by which they have lost money a hundred times, but which they repeat every year to a certain extent, hoping that the present may give them better luck. The necessity of stocking, however, is becoming less and less every year; and with increased railway facilities, may be avoided altogether in course of time. The winter's business is always the most dangerous for a miller; and we believe it is a fact, that if all the mills in Canada had made a practice of closing during the winter months, and letting the grain be exported as grain, the millers, as a class, would have been better off. To make money in the fall and lose it in the winter, sometimes twice over, has been the average experience for very many years back. It is a poor confession, but only too true, and the reason for it, we firmly believe, to have been the practice of buying a mill-full of wheat during early winter, and taking all the chances of changable markets during the lapse of several months, while it is being manufactured. Milling will never be a safe steady business until every element of speculation is weeded out of it; and what is bought one week is sold

coming in is very fine, and the price such as to leave a handsome profit to the farmer. A good fat pig can be sold for as much as a cow was worth a few years ago; and if a farmer is only fortunate enough to have plenty, it will help to make up for klifficiency in other products of the land. Dressed hogs are about \$8.50, and the trade at that price is fairly profitable, according to the price of pork . and cured meats.

There is likely to be a much smaller production of lumber this season than was at one time supposed. The snow is excessively deep in the' woods, and many gangs of men have en withdrawn, and shanties closed up. This is not to be deprecated, for it will tend to keep down production to a reasonable point and prevent a glut in the market. There is no reason for gloomy forebodings in this trade; at the same time, there can be no doubt that the true policy for the manufacturer on this side is to saw up lightly and avoid crowding the markets of the States. Better hold here than send forward what will break the market down.

The importing trade presents no particular features of interest.

Money for investment continues very plentiful, and good mortgages are taken now bearing only 7 per cent. This is a most happy change from the crushing times when the poor borrower had to pay 10 or 12, the sure end of which, in many cases, was ruin.

BUSINESS FAILURES.

A statement has been published by Messrs, Dun & Co., of New York, showing the number of failures in the United States for a series of years. It will be noticed that in 1869, 2,411 firms "went under," a larger number than at any time since 1861. In that year there was an extraordinary sweeping away of business houses, owing to the breaking out of the war. If a return of the last three months of the year just closed were given. it would present a formidable appearance relatively. There is at least the authority of one journal for saying that during the time mentioned, failures were more frequent than at any time since 1857. The heavy decline in gold within that period is a sufficient cause for the rather serious weeding out that has taken place. As the hard money basis is

gradually approached, there will be a further and extensive lopping off of the rotten branches, stimulated into growth by an era of speculation and fictitious values; every one will feel poorer; economy will in a measure take the place of extravagance; a general curtailment of private expenditures will be the order of the day. The blow will fall heavily on every interest, but especially upon those interests started into existence by the abnornul state of things, having their origin in a general inflation of values. It is very desirable that the return to a sound currency should be gradual, otherwise a shock must be given to industry and commerce as will paralize them through all their avenues, and which would in a measure depress the trade of this Dominion. The following is the

In Canada we have had a remarkable exemption from failures for six menths past. In the early part of the year they were numerous. The new list in the *Gazette* every week was formidable. Now we cannot muster more than one or two new names a week; but we fear that this must be considered rather as a period of calm after the storm than as the result of a curtailment of credits, or of the exercise of a proper discrimination on the part of wholesale merchants in trusting out their goods.

POST MAGAZINE ALMANAC. — We have received this Almanac for 1869. It contains the usual amount of information in reference to the British Companies, and is altogether a useful publication.

-The municipalities on the line of the Nipissing railway, who delayed to forward their bonuses, have deposited the debentures with the Trustees; and, in consequence, the contemplated building of the line by the Lindsay route, has been abandoned. We believe the Lindsay branch still remains a part of the Nipissing scheme.

-A movement is on foot to secure the extension of the Norfolk railway to this city. It would pass Lynden station on the Great Western Railway, and thence by a circuitous route through the wealthy townships of the County of Halton, and the village of Streetsville to Toronto. A glance at the map will make it apparent that the scheme is a reasonable one, when the extent of country and the wealth of the inhabitants are taken into account.

financial.

TOBONTO STOCK MARKET.

Reported by Pellatt & Osler, Brokers.)

There has been a good demand for nearly all the leading stocks, but the amounts offering have been small. Large amounts of City of Toronto and County Debentures have changed hands.

Bank Stock .- Montreal has sold during the week at 1564. 156, and 1554, closing with sellers at this rate, but no buyers over 155. British is in fair demand at-104 and 105; none offering. Ontario sold at 98, 981, 99, 993, and 100, closing with buyers at the latter rate. Not a share of Not a share of Toronto to be had ; the outside quotations would be paid. There were small sales of Royal Canadian at 621 and 631; the latter price is now offered. Small sales of Commerce were made at 1091; buywould now give 110. Merchants' sold freely during the week at 1067 and 107; the latter price is still offered. There were buyers of Quebee at 1023; none on market. Nothing doing in Molsons'; quoted nominally at 101 and 1014. City sold at declining rates during the week, 874 and The subject is respectf sold at declining rates during the week, 874 and The subject is respectf sold. Du Peuple is in themand at 108 and 1084; favorable consideration."

holders are firm at 110. Nationale is asked for 105; no sellers. No Jacques Cartier on market; buyers would give ontside quotations. Mechanics' is nominally quoted at 96 and 91. No sales of Union on this market; worth about 105. *Debentures.*—No Canada of any description on market; Dominion Stock sold at 108. Considerable sales of Toronto 29-years' Debentures at 914. First-class Counties are readily taken at 1004 and 101.

Sundries. -- No City Gas on market: 1121 would be paid. British America Assurance is offering at 75, without buyers. Western Assurance is offering at 85, without buyers. Canada Permanent Building Society sold at 1254, 126, and 1264; the latter price would still be paid. There were small sales of Western Canada Building Society at 1194 and 120; none now on market. Nor sales of Freehold Building Society; the stock is much inquired for; 1194 to 120 would be paid. Huron and Erie Savings and Loan Society sold at 1124, which would still be paid. There are buyers of Montreal Telegraph at 138; no sellers under 140. Small sales of Canada Landed Credit at 814 and 82, ex-dividend, were made; the latter price would readily be paid for a round amount. Exceptionably good Mortgages can be placed at 7 per cent., but the ordinary rate is not under 8 per cent.

NEW YORK MONEY MARKET.—Jan. 21.—The money market is easy, and on call the ruling rate is s x per cent., with exceptional transactions at five and seven per cent. Discounts are easier, first-class double signatures' selling at 7½ to 10 per cent., and at 10 to 15 per cent. for single names. Gold is heavy, and closes at 120§.

BANK OF MONTREAL - The Daily Telegraph says:--Mr. Gundry, who has long filled with credit the position of agent for the Bank of Montreal in New York, has been appointed to take charge of the new agency about to be opened in London. Mr. Gundry sailed from New York a few days ago. Mr. King is expected to leave England on his return home, in the first week of February.

EXPORTATION OF SILVER COIN.—The following shows the receipts of silver coin by Mr. W. Weir since the 1st November, 1869, to the end of the year.—Received at Montreal, \$61,699; Quebee, \$38,868; Brockville, \$10,000; Kingston, \$8,000; Belleville, \$18,000; Berlin, \$1,500; Stratford, \$6,000; London, \$18,000; Hamilton, \$13,000; St. Catharines, \$5,500; St. Mary's, \$5,000; Napanee, \$1,155; in agents hands, \$22,000; total, \$203,205. Exported from Montreal, \$142,000; Brockville, \$10,000; Kingston, \$8,000; Belleville, \$17,000; London, \$12,000; Hamilton, \$12,000; St. Catherines, \$5,000; in transit, \$14,000; total, \$220,000.

POST OFFICE SAVINGS BANKS.—The sum of, \$109.183 of deposits were received during Dec; withdrawn during the month, \$47,164. Total in hands, 31st Dec., \$1.154.007.

SAVINGS BANKS. - Governor Hoffman, in his recent Message to the New York State Levisla ture, makes the following recommendations re-Specting these institutions :-- " One hundred and twenty-eight savings banks are now organized and doing business in this State, with an aggregate of assets exceeding \$180,000,000. The maginitiale and the importance of this interest seem to demand a more intimate guardianship and more careful supervision than is new afforded. An amendment to the existing laws, requiring or at least authorizing a personal examination of these institutions, under the direction of the Superintendent of the Bank Department, would, in my judgment, worthily supplement what has already been done in the direction of securing safety and efficiency in their management, and a full disclosure of their real condition for the information and greater security of their depositors. The subject is respectfully submitted to your

LIMITED LIABILITY .- The London Investors' Guardian, in reviewing the workings of the Limited Liability Act, says :-- "Our firm confirm conviction is that the only safe and legitimate application of the Act, as respects limited companies, is with shares fully paid up at the outset, with share warrants to bearer under the Act of 1867. Without specifying any particular instance, we may say that in nearly all the great companies which were ushered with great pomp and circum-stance into the world in 1864-1865, all came to grief through this fatal fundamental error. Shares of £100 and £50 were freely fixed with £10 or £20. They were then driven paid in the first instance. up to a furious premium. When the first funds were exhausted, and the obligations incurred on the basis, not of the paid-up, but of the nominal capital, came to be pressing, it was found that enforced and compulsory liquidation was the only alternative, Consternation, distrust and disma reigned paramount, and many a company which might have fulfilled a profitable existence was thus consigned to the limbo of departed corperations." .

-The Montreal Rolling Mills Company pay 10 per cent. for the past year. The following are the Directors:-T. Morland, E. H. King, George Stephen, W. Markland Molson, and Peter Redpath.

-It is runnored in Kingston that Mr. C. S. Ross, of that city, and late of the Commercial Bank, will succed Mr. Langfon as Auditor General, the latter to be made Sub-treasurer of the Dominion at Toronto. It is also reported that Deputy Receiver General Harrington will receive the appointment of Sub-treasurer of Quebec.

-Efforts are being made to establish a new Building Society in Quebec.

Beal Estate.

SALES IN TORONTO. — The following properties have been sold within the last six weeks: Lot on Alexander Street to Mr. Roddy for \$500 cash; lot on Grovesner street, to Mr. Culverdon, for \$936 cash; lot on Walton street, near Elizabeth, to Mr. Easterbrook for \$375, part tash: Lot on Walton street to Mr. McCrae for \$425, part cash; lot on Walton street to Mr. Mabley for \$400, part cash; lot on Walton street to Mr. Emery for \$400, part cash; brick residence on Jarvis street for \$3,200 cash; cottage and lot on Magill street for \$300 to Mis. McCaw, cash; 54 acres of land; on Yonge street near the toll-bar, for \$1,742.50 cash.

-The following sales have been made by Mr. J. W. G. Whitney :- East Market Square, the ground occupied by the Albion Hotel, with a frontage of 463 feet, for \$5,000 cash.

A lot on Sherbourne Street, Moss Park Estate, 71 feet 6 inches, at \$12 per foot.

A lot on Sherbourne Street, corner of Wildon Crescent, 90 feet frontage, at \$14 per foot.

A lot on Sherbourne Street, north of Wilton Crescent, 50 feet frontage, at \$12 per foot.

On York Street, a block of stores, corner of York and Bolton Streets, have changed hands; price, \$6,500.

A lot on Géorge Street, north of Queen Street, 70 feet frontage, at \$20 per foot.

SALES IN MONTREAL. — The sale of the different properties belonging to the succession of the late Mrs. John Donegani at John J. Arnton's Real Estate Rooms on the 19th Jamary, drew together a very large attendance of real estate buyers. We give a list of prices obtained for each lot and the name of the purchaser.

A lot on St. Margice Street, 45 x 70 ft., not commuted, \$1,660, to W. S. Evans, Esq., Lot No. 1, corner of Visitation and St. Catherine Streets, commuted, 35 x 100, for \$880, to Mr. Oliver Robert. Lot No. 2, on St. Catherine Street, commuted, 22.6 x 100, \$400, to Mrs. E. Jobin. Lot No. 3, on St. Catherine Street, commuted,

22.6 x 100, \$400 to Mr. H. Pavie, Lot No. 4, on St. Catharine Street, commuted, 26.6 x 100, \$405, to Mr. H. Pavie. Lot No. 5, on St. Cathi-erine Street, commuted, 22.6 x 100, \$390, Mr. Z. Theriault. Lot No. 6 and 7, on St. Catherine Street, commuted, 22.6 x 100, each. 390, Mr. Alex. St. Amour. Lot No. 10, corner St. Cath-erine and Panet Streets; commuted, 35 x 100, \$825, Messis. Jordan and Bernard. Lot No. 8, on St. Catherine Street. 22.6 x 100, \$400, Messis. on St. Catherine Street, 22.6 x 100, \$400, Messra. Jordan and Bernard. Lot No. 11, on Visitation Street, commuted, 22 x 124, \$390, Mr. Alex. St. Amour. Lot No. 12, on Visitation Street, com-muted, 22 x 124, \$390, Mr. Alexander St. Amour. Lot No. 13, on Visitation Street, commuted. 22 x 124, \$350, S. W. Latour. Lot 14, on Visitation Street, commuted, 22 x 124, \$350, S. W. Latour, Lot No. 15, on Visitation Street, commuted, 22 x 124, \$350, S. W. Latour. Lot No. 23, corner Rose and Panet Streets, commuted, 22 x 124, §430, Mr. G. Provost. Lot No. 22, on Panet Street, commuted, 22 x 124, \$380, Mr. G. Provost. Lot No. 16, on Panet Street, commu-ted, 22 x 124, \$310, S. W. Latour. Lot No 17, on Panet street, commuted, 22 x 124, \$310, S. W. Latour. Lot No. 18, on Panet street, com-muted, 22 x 124, S. W. Latour. Lot No. 19, on Panet street, commuted, 22 x 124, \$310, S. W. Latour. Lot No. 20, on Panet street, commuted, 22 x 124, \$210, S. W. Latour. Lot No. 21 on Pnnet street, 22' x 124, \$310, S. W. Latour. Lot No. 1, corner Craig and Jacques Cartier streets, not commuted, 24 x 77, for \$840, to F. X. Beaudry. Lot No. 2, on Craig street, not commuted, 23 x 77, \$725, Mr. F. X. Beaudry. Lot No. 3, on Jacques Cartier street, not commuted, 40.12 x 47.18, \$525, Mr. F. X. Beaudry. Lot No. 4, on St. Joseph street, opposite Can tin's, not commuted, 21.6 x 100, \$440, to Mr. C. Gareau. Lot No. 3, St. Joseph street, not com-muted, 21.6 x 80, \$445, to Mr. C. Gareau. Lot No. 2, St. Joseph street, adjoining, not commuted, 21.6 x 80, \$145, to Mr. G. Gareau. Lot No. I, St. Joseph street, adjoining, not commuted, 21.6 x 100, \$465, to Mr. C. Gareau. Property on Bonaventure and Desrivieres streets, all com-muted. Lot No. I, Bonaventure street, 26.11 x 80, 8925, to Mr. C. Gareau. Lot No. 2, Bona-80, \$925, to Mr. C. Gareau. Lot No. 2, Bonaventure street, 26.11 x 80, \$925, to Mr. C. Gareau. Lot No. 3, Bonaventure street, 25.11 x 80 feet, \$925, to Mr. C. Forte. Lot No. 4, Bonaventure street, 26.31 x 80, \$925, to Mr. C. Forte. Lot No. 16, corner of Bonaventure and Desrivieres streets, 28,5 x 70, \$1000, to Mr. F. X. Roy. Lot No. 13, Bonaventure street, 28,5 x 70, \$300, to Mr. F. X. Bonaventure Street, 28,5 x 70, \$380, to Mr. F. X. Bonaventure street, 28,5 x 70, \$380, to Mr. F. X. Bonaventure Street, 28,5 x 70, \$380, to Mr. F. X. Bonaventure Street, 28.5 x 70, \$380, to Mr. F. X. Roy. Lot No. 6, Desrivieres Street, 313 x 813, 8700, to Mr. Langley. Lot No. 5, Desrivieres Street, 30 x 80 feet \$590, to Mr. Jas. Austin. Lot No. 8, Projected Street, 29.3 x 76, \$500, to Mr. C. Forté. Lot No. 11, Desrivieres Street, 31 x 95, \$655, to Mr. J. M. Duffin. Lot No. 12, 31 x 95, \$530, to Mr, J. Austin. Lot. No. 16, Pro-jected Street, 27.7 x 60, \$420, to Mr. M. Mansfield Lot No. 7, Projected Street, 30 x 75, \$430, to Mr. C. Forté. Amount sold for Estate Mrs. John Donegani, \$25,300. A Tenement house, No. 69 Campeau Street, size of Lot 40 x 78, to Mr. L. Plamondon, for \$1,925. And the house and grounds, belonging to the Estate Canfield Dor-win, on Drummond Street, to Mr. S. H. May, for \$14,200. Also the stone house and lot fronting on St. Antoine Street, 42:6 and on Craig Street 66.6 of an irregular figure, and commanded to Owen McGarvey fr \$3,900. Total amount of sale, \$45,325.

THE TWO FLET RAILWAYS.—An exchange says that California is constructing this new class of railway, and the engines therefore are being constructed in the Atlantic States. The cost per mile to build and equip is put at \$3,000 to \$5,000 The engines are swing on trucks with power applied at both ends, which enables them to turn sharp curves with safety.

Mining.

CALIFORNIA GOLD MINING REVIEW.

There was no important change of a general character in the gold-mining industry of California in 1869, except a slight decline in placer productions, the precise amount of which is not ascertainable; and a slight increase in the yield of the quartz mines. The treasure exports were \$37,287,117, and the receipts were \$51,226,769, including about \$12,000,000 from Nevada, \$4,132,055 imports, and \$3,042,540 brought by coast steamers, mostly from Oregon and Idaho.

One of the chief events of the year has been the resumption of profitable work on the Mariposa estate, which has not produced enough to pay expenses for the last five years. The Princeton Mine, which yielded a great revenue under the manage ment of Park, is neglected, but the Pine Tree, the Josephine, and the Mariposa, which paid him very little, are now yielding finely. The Mariposa Mill has twenty-five stamps running by wet process, and twenty-five more are to be added in the spring. The quartz ranges in yield from \$13 to \$1\$ per ton A large body of ore is in sight. The Benton Mills have sixty-one stamps (including twenty-five started lately), running on ore that averages \$18 per ton, mostly from two large pay chutes, each 500 feet long horizontally, and five feet wide on the Pine Tree Mine.' The expense at the Benton Mill is \$4 for extraction, 90 cents for transportation, and \$1.25 for pulverization and amalgamation by the wet process, making \$6.15 as the total expense per The expense of pulverization and amalgaton. mation is \$2.25 more per ton by the dry process but the gain in yield is considered to be enough to justify the preference of that mode of working the rock containing the gold in very fine particles. We have no statistics of the total yield, but the 86 stamps must crush about 70 tons per day, or at the rate of \$378,000 in 300 working days.

The Eureka Mine, at Grass Valley, produced \$573,600 gross, and \$3660000 for the year ending on the 30th of last September. The number of tons crushed was 20,638; the gross yield per ton, \$27.80; the cost of mining and milling, \$9.65 per ton. In the last three months the clean-ups have been as follows: October 29, \$20,293; November 5, \$19,158; November 20, \$17,916; November 30, \$28,459; December 18, \$23,830.41; December 31, \$20,000; sulphurets, \$5,229. Total, \$134,885. The dividends have been \$30,000 for each of the last three months.

The following figures show the gross yield, the number of tons worked and the dividends of the Amador:

Total, Gross yield, \$658,702.52; Tons worked, 32,510; Dividends, \$379,400. The gross yield was \$20.06 per ton; the ret, \$11.36.

The product of the Sierre Buttes Mine for the last year has been \$217,000, and the dividends \$123,000. The average yield of the quartz is about \$12.50 per ton. There are 40,000 tons of good ore in sight, endugh to keep the present mills running for three years. The Alaska Mine is producing \$4,000 per month, gross, and the Brush Creek Mine is credited with a yield of \$105,000 in the twelve months ending September 18.

The Idaho Mine, in the year ending October last, crushed 9, 438 tons and extracted \$398,745, or \$32.50 gross per ton. The cost of mining and milling was \$11.67 per ton. The dividends were about \$15,000 per month, and the rock is now better than ever before. The Allison Mine has crushed some rich rock from the dump and from the old levels, but is not yet fairly reopened. We have no late figures from the Confidence Mine, of Tuolumma County, which according to report, is producing about \$20,000 per month. The Soulsby Mine, which long occupied a leading place in that county, is now producing little or nothing.

The Keystone, of Amador, is being enlarged to double its capacity, so as to run forty stamps. It has been producing with twenty stamps, until within a few weeks, when it shut down, \$25,000 gross and \$15,000 net per month. The Keystone, of Sierra, which turned out \$20,000 per month for a short time last summer, was stopped by the water, and production will not be resumed until a drain tunnel now in progress is finished, and that may require six months or more. The Crescent, of Plunus County, after having passed through some strange vicissitudes of prosperity and adversity, resumed work in June, running only 16 of its 32 stamps. Two months were spent in repairing, and in the four months of work \$58 were extracted. The yield per ton was from \$12 to \$15, and the total expense of mining and milling is reported to have been \$3 per ton. The Oaks & Reese mill crushed 9,059 tons, and

The Oaks & Reese mill crushed 9,059 tons, and extracted 130,229.10 in 1869, an average of \$14,37 per ton. The mill has 28 stamps, of which 12 first commenced work a month since. The Union Hill Mine, which has lately been sold to an English Company, cleaned up for December \$16,300, of which 40 per cent. is profit. The monthly production seldom exceeded \$12,000 before. The Empire North Star and Banner mines are at work, but we have no figures from them.

The Smartsville Consolidated Hydraulie Mining Company have opened their claim, and for nearly three months have taken outTabout \$500 per day. The Blue Gravel (for which we have no figures for 1869) and the Blue Point, adjoining claims, are running outlet tunnels, which will require about a year for completion. Several large companies have been formed near Smartsville and Timhuetoo by the consolidation of smaller ones. It is reported that the Blue Lead has been found north of Førest City, where it was thought to exist, though numerous previous searchings for it through a period of fifteen years, some of them very expensive, were in vain. It is also supposed that the same lead has been found- on the northern bordler of Eldoralo County, but as yet these supposed dicoveries have not led to any important results.

The consumption of dynamite, or giant powder, and the employment of single-hand drills have been gaining ground steadily; and in some kinds of rock they have enabled the mine owners to make important reductions in the expense of extraction. In May there was an excitement at Grass Valley, in consequence of the formation of a league among the miners to prevent others from working for less than \$3.50 per day, and from using dymanite. The leaguers repeatedly used violence against those who refused to obey their rules, but they found public opinion against them, and they disavowed a resort to force. Quiet has now been restored, and in most of the mines there is no opposition to dynamite. There is a fair prospect that the gold production of 1870 will be larger than that of 1869.

Commercial.

011 Matters at Petrolia.

(From Our Own Correspondent.)

PETROLIA, Jan. 25, 1870.

2

There has been very little doing for the last week in the production of crude, as two-thirds of the wells on the King territory have been shut down for repairs, and the rest have not been able to control the water. The shipments have been about the same as last week. The mammoth still is running its full capacity. Another refining company have just commenced operations at Dundas; it is carried on by Germans. They claim quite a new process in distilling, and say that they can run off an average still in twelve hours, and that they have done so. I have seen their oil; it is very fine as to color, but lacks somewhat in odor. This, of course, will be remedied by adopting the Allan treatment. They

also further claim that they can get 80 per cent. of pure oil from our crude petroleum. A report is current here that the oil operators of New York have entered into a combination not to touch our Canadian oil, as it seriously interferes with their trade. This may be a refiners' canard, but if it is true, it will only make this difference, that the exporters will have to export their own oil, in-stead of selling it in New York as they now do.

There is to be a meeting in London to-day for the purpose of getting every refiner to join in a petition to the Legislature, to have the duty on refined oil removed.

The McDougall well is still flowing about twelve barrels per day. There are some six new wells going down near it.

The Titusville oil men who came over last week have made several purchases, and are now actual operators. They speak very favorably of all they have seen, and say that our territory offers many more inducements for the production of oil than the Pennsylvanian. No new wells completed The destination of our shipments of barley the since last week

Crude Oil, \$1.40 to \$1.50; Refined, 23c. M. P gallon.

Toronto Market.

Ever since the commencement of the year the general trade of the city has been quiet, and there are as yet no noticeable indications of revival.

GROCERIES. - Prices are very steady as quoted, and trade is quiet. Sugars-Raw is heavy ; in New York prices declined 1 to 3c last week. The new crop sugars arriving in that market are re-The ported offering freely at low prices, and are of poor quality. Teas-There is no special movement to notice in this market. A telegram from Hong Kong of Dec. 13 gives the total shipments from China and Japan at 119,000,000 lbs. against 121,000,000 lbs. to Deer 5th the previous year. The stock of teas in New York on January 1st was made up thus:-Greens, 3,394,386 lbs. ; Oo-longs and Pouchongs, 4,612,003 lbs.; Japans, 1,525,950 lbs.; Congo and Souchong, 541,865 lbs.; total stock January 1, 1870, 10,074,204 lbs. The stock on the 1st January in the two previous years was, January 1, 1869, 10,031,874 lbs.; Jan. 1, 1868, 8,046,267 lbs.

PROVISIONS. -Butter is dull and tending downward; little doing. Chocse is reported firm and in better demand in Liverpool. Bacon-A sale of 100 boxes at 11c. is reported. Hams-Some business done at 111c. Pork-Two cars of mess sold at \$25 50, showing a decline on previous the totals, which are as follows : quotations. Lard is firm, under advices of a better market in Liverpool. Dressed Hogs-A good besiness was done ; sales of lots are reported at prices ranging from \$8.10 to \$8.50. LEATHER - We have no changes of consequence

to note in prices; business drags since the beginning of the year.

HIDES AND SKINS .- The hide trade is very quiet; a fair business is being done in sheepskins; the demand is good, absorbing all that arrive. The figures quoted in our list show a reduction in the case of a number of articles on the prices lately paid.

FLOUR.-It appears from statistics that have January 18:-Upper Provinces at St. John were :-

1869. By water, barrels	1868. 167,651 10,000
Total Canadian	177,651 33,050
910 081	915 701

The receipts of flour at Toronto for three years were, 1867, 117,953 brls.; 1868, 112,187 brls.; 1869, 145,747 brls.; but this latter amount includes a pretty large allowance for receipts through other than the ordinary channels, and is probably above the mark. There were sales of No. 1 \$3.85, and of extra at \$4.00-during the past week.

GRAIN .- Wheat-The receipts of wheat at Toronto for three years are given thus:-3'

ľ	Fall. Spring.
1	1867, bushels
1	1868. "
	1869, "
	The market has been quiet for the past week,
1	with few sales at quotations. The quantity of
6	wheat in store, and in transit in the principal
	American markets on the 15th was 10,544,619
	bushels ; on the 8th, 11,840,438 bushels; on the
l	1st January, 1870, 11,348,839 bushels, showing a
1	steady falling off, which movement will probably
	continue as the season advances. Barley-The
	receipts of barley at Toronto for four years were:
	* 1866, bushels 1,218,767

1867,	44	
1868,	66	
1869,		

two last years was as follows :---

BANKERS: CANADIAN BANK OF COMMERCE.

AGENT FOR TORONTO, - T. B. GRIFFITH,

OFFICE -- PROVINCIAL CHAMBERS. Provincial Insurance Co's Buildings. Opposite the Post Office, Toronto.

The Shareholders of the above Company, who are re-sponsible to Policyholders to the extent of their Subscribed Capital, are as wealthy a proprietary as can be found in connection with any Company in the Dominion. Lists of their names and residences will be placed in the Agents' hands for the information of the public on this point.

The Directors are now giving not only weekly but daily attention to the Company saffairs, and promptness in the transaction of all business, especially the settlement of Claims, may be fully relied upon.

Statements, both of the Company's current business and its assets and liabilities, will also be shortly communicated to the Agents, and cannot fall to be thoroughly satisfactory to all.

Its rates, whether for Fire or Marine Insurance business, are fair, and as low as experience has shown will yield a profit.

The Company is of old standing; it has no adjusted claim whatever against it unpaid; and its earnings are spent in Canada-not withdrawn either to the United States or the United Kingdom.

The patronage of the public, both in Toronto and at the Company's numerous Agencies, is respectfully solicited. By order of the Board.

ARTHUR MARVEY.

Briton Medical and General Life Association, with which is united the BRITANNIA LIFE ASSURANCE COMPANY. Capital and Invested Funds	any of the Agencies. JAS. GRANT, Resident Secretary. Agents wanted in unrepresented districts. 43-1y	The business of the Company is divided into three separate and distinct branches, the VILLAGE, FARM, AND MANUFACTURES Each Branch paying its own losses and its just proportio of the managing expenses of the Company. C. M. TAYLOR, Sec. J. W. WALDEN, M.D., Pres. J. HUGHES, Inspector. 15-y Lancashire Insurance Company.
almost unparalleled in the history of Life Assurance. Life Policies on the Profit Scale become payable during the lifetime the Assured, thus rendering a Policy of Assurance a means of subsistence in old age, as well as a protection for a simily, and a more valuable security to creditors in the event of early death; and effectually meeting the often urged objection, that persons do not themselves reap the benefit of their own prudence and forethought. No extra charge made to members of Volunteer Corps or services within the British Provinces. IN TORONTO AGENCY, 5 KING ST. WEST. Oct 17-9-1yr JAMES FRASER, Agent.	The Gore District Mutual Fire Insurance Company GRANTS INSURANCES on all description of Property against Loss or Damage by FIRE. It is the only Ma- tual fire Insurance Company which assesses its Policies yearly from their respective dates; and the average yearly cost of insurance in it, for the past three and a half years, has been nearly TWENTY CENTS IN THE DOLLAR less than what it would have been in an ordinary Pro- prietary Company. AOENTS:-DAVID WERGHT, Esq., Hamilton: FRANCIS STEVENS, Esq., Barrie: Messay, GIBIS & Bay, Oshawa.	Canada Life Assurance Company. ESTABLISHED 1847. THE RECENT FAILURES OF TWO OF THE LARGEST ENGLISH ASSURANCE OFFICES, naturally causing much anxiety in the minds of Assurers in all Companies, the Directors of the CANADA LIFE have published a Report, and net valuation, of all its policy and annuity obligations, by an Actnary totally un- connected with it, the Hon. ELIZUR WRIGHT, of Boston, late Insurance Commissioner for the 4 tate of Massachu- sets. It is believed that such a voluntary submission of the Company's position to an eminent and entirely independent Actuary of the Hon. ELIZUR WRIGHT's well Known, high character, and professional skill, will add to that public satisfaction and confidence which the Canada Life Com- pany enjoys. Copies of Mr. WHIGHT's Report may be had at the Head Office, or at any of the Agencies throughout the Dominion. Persons who may be assured in the Companies whose condition is unsatisfactory, desiring to join the Canada Life, will be dealt with upon such terms as are reason- able and fair.
