NO RETIREMENT IS NOTED ANYWHERE--- FRENCH OFFICIAL NOTE

On Right 'Bank of Yser River, Good Progress is Being Made-- German Artillery Has Been Rattling Again.

[By Special Wire to The Courier]
 PARIS, Nov. 5, 2.47 p.m.—The French official announcement given out in Paris this afternoon, says that the allies have made slight progress to the east of Nieupoort, on the right bank of the Yser river.

The text of the communication follows: "On our left wing the allied forces have made slight progress to the east of Nieupoort on the right bank of the Yser. From Dixmude to the Lys, the German attacks were renewed yesterday but at a number of points with lessened energy, particularly with regard to the action of their infantry.

"The Franco-British lines have at no point drawn back, and our troops undertaking the offensive have made notable progress in several directions.

"Between the region of La Bassée and the Somme the day was notable particularly for an artillery contest.

"In the region of Roye, we have maintained our occupation of Le Quesnoy-en-Santerre, and advanced perceptibly in the direction of Arras.

"On the center between the Oise and Aisne, there has been a recrudescence of the activity of the Germans, manifested particularly by their artillery fire.

"Summing up it may be said that the attacks of the enemy at various points on our front have been repulsed, in some instances after an engagement, which lasted all day long.

"On our right wing there is nothing new to report."

MINISTER ILL.
 LONDON, Nov. 5.—11.41 a.m.—Telegraphing from Amsterdam, the correspondent of Reuter's Telegram Company says a message reaching there from Berlin declares that the Saxon minister of war, General Von Carlowitz, stricken with heart disease in the French arena of the war, has been obliged to proceed to Nauheim, where he will be cared for.

CITY WILL PROCEED TO BUILD PARK DRIVE--ALL OBJECTIONS LAID ASIDE

Council Held Special Meeting Last Night When Matter Was Thoroughly Gone into--New Smallpox Hospital in Mt. Hope.

At a special meeting of the City Council last night the proposed park drive was again taken up and discussed with the result that the council adhered to its original action, two weeks ago, when it was decided to proceed with the work.

Representations had been made that the park drive was merely a scheme and would not benefit the city for the outlay. Accordingly Ald. Ward and others wanted to have a more complete discussion of the matter. Mr. Frank Cockshutt was present at the council meeting and put up a strong argument in behalf of the project. The fact that the city council itself would not be required to pay for the entire job, the patriotic committee contributing \$6,000, and also lending the city \$10,000 at a time when money is hard to borrow, had much to do with the aldermanic decision to proceed with the construction of the drive.

Ald. Pitcher's committee will have the task of building a new smallpox hospital and it will be built in one corner of Mt. Hope cemetery. The building will be economically put up, having regard at the same time for necessary requirements. In this matter the council agreed that a wise course was being followed.

New Smallpox Hospital.

ATTEMPT MADE TO WRECK A T.H.&B. TRAIN

The T. H. & B. passenger train due here at 7:05 last evening from Waterford had a remarkable escape from derailment, which would have caused serious loss of life. Near the Matthews Packing Company a rail had been placed directly over the track at a switch. The train fortunately was proceeding slowly at the time into the city, but the rail nevertheless was broken in two. Had it been placed in a different position in the switch the engine would have gone over the embankment, according to the train crew, who made a close examination of the affair. Conductor Oldfield was in charge of the train and there were quite a number of passengers for this city, including Mr. Welby Almas. The broken rail was picked up and brought in and the affair promptly reported to the police. No clue has been secured as to the identity of the culprit or culprits who committed the outrage. Special railway detectives are here to-day investigating the matter.

ATTACK CONTINUES

Tsing-Tau is Resisting to the Last Against Japs and British.

[By Special Wire to The Courier]
 TOKIO, Nov. 5.—It is officially announced that the bombardment of Tsing-Tau continues vigorously. The Germans, on the night of November 3, made a counter attack which for a time hindered operations.

The attacking forces, according to the statement, are now gradually closing in. Shells are falling in the streets of the town and the power house has been destroyed.

On November 4 the Japanese right captured some small forts, and an officer and twenty soldiers. Shells struck and burned the Bismarck barracks.

GERMAN CRITIC SEES HOPE, ALTHOUGH LONG BATTLE IS INDECISIVE

[By Special Wire to The Courier]
 BERLIN, Nov. 4.—via London, Nov. 5.—Major Morath, the military critic, discussing the military situation in the Tafeblatt, indicates that the German objective in the operations around Ypres is to press the British back upon the sea, opening the way to secure possession of a strip of the sea coast. The Germans are trying to break the French left wing at Arras, he says, and the object of the operations to the east of Soissons must soon become apparent.

"That the German attacks everywhere are progressing steadily," he adds, "must give satisfaction to the Germans, who have not been delighted with the long position of the fighting. In these days of our tense waiting the

NAVAL NEWS AGAIN LOOMS LARGE TO-DAY IN SITUATION WHICH HAS BECOME TENSE

Rebellion in South Africa Is Effectually Crushed

[By Special Wire to The Courier]
 LONDON, Nov. 5.—4.15 p.m.—A Cape Town despatch to the Reuter Telegram Company declares that the rebellion of General Christian Frederick Beyers in the western Transvaal and the mutiny of Lieutenant-General Maritz in North-west Cape Colony now appear to be completely crushed. Unofficial reports, according to the despatch, indicate that something resembling an armistice is being observed. The rebels are still collected at certain points in the northern Free State, but all these points are marked by adequate loyal commandos.

"It is abundantly clear," the despatch continues, "that the rebels are ill-equipped and have practically no organization."

Germany Loses Cruiser by Hitting a Mine in the North Sea.

Confirmation of Battle off Chile Still Lacking.

[By Special Wire to The Courier]
 LONDON, Nov. 5, 10 a.m.—Naval news again looms large in London to-day. The British public is seeking further details of the action last Sunday off the coast of Chile, but no continued efforts are being made to minimize this disaster. Great anxiety is felt concerning the fate of Rear Admiral Sir Christopher Cradock, which will not probably be known until it has been definitely determined what has become of his flagship, the cruiser, Good Hope. The British public, however, is not left without some comfort as Berlin officially admits the loss of the cruiser York blown up by a mine near Jade, one of the outlying defences of Wilhelmshaven, while in shipping circles in London it is declared that the career of the German Cruiser Koenigsberg in the Indian ocean has been ended. Sir Percy Scott, England's greatest gunnery expert and a champion of the use of submarines as against dreadnoughts, has rejoined the admiralty. As he has been known in the past as a supporter of Baron Fisher, it is expected that he will uphold the new policies already inaugurated by the first sea lord of the admiralty.

Further details from the scene of the fighting in the east indicate that the forward movement of the Russians has become general.

Even the Russian left wing, which has been held stubbornly by the Austrians for weeks past has joined in the advance. This is admitted by a conservatively worded official report given out in Vienna, which declares that the Austrians having maintained their position on the Lysagora, where their Teutonic allies pivoted in order to let the rest of the army complete its wheeling movement to a new line, are now retiring. At the same time, Austria sets forth certain minor successes along the line from the River San to Jaroslau.

Petrograd, however, makes positive assertion that the Austrian movement is a retreat amounting to a rout in which the Russians have taken many prisoners and much booty. According to reports in the Russian capital, Gen. Von Hindenburg, the German commander, is said to be continuing his retiring movement in Russian Poland, while desperate fighting along the frontier of East Prussia has enabled the Russians to cross the border at several points. A significant feature of the eastern campaign, is indicated by

DECLARES THAT GERMANY WILL FACE EXHAUSTION WITHIN THREE MONTHS

PARIS, Nov. 5.—Renewed violent attacks on the part of the Germans were expected to-day in the region between Dixmude and the Lys.

The recent efforts of the enemy in this section of the country, in spite of the fact that they have been reinforced by new contingents of reserves as well as by active troops, are believed here to have been unsuccessful. According to the latest review of the situation made in Paris, both the allies and the Germans are fighting hard for every inch of this territory. The Germans, for the time being, would appear to have abandoned their advance on the channel ports. This being accepted as correct the Germans are preparing to try other tactics. The French and the British commanders, in the opinion of the French observers, are satisfied with the result of the efforts they made yesterday, as well as with the general situation. The telegram sent yesterday by General Joffre, commander-in-chief of the Russian forces in the field, in which General Joffre said that the French situation was

THE KOENIGSBERG NAVAL EXPERT

German Cruiser in the Atlantic Ocean is Out of Action.

[By Special Wire to The Courier]
 LONDON, Nov. 5, 4.44 a.m.—The Times prints a report to-day, that the German Cruiser Koenigsberg has been put out of action in the Indian Ocean.

The Koenigsberg is a protected cruiser and was laid down in 1915. She is of 3,348 tons, is 354 feet long and has a speed of 23 1/2 knots. Her main battery consists of ten 2.1-inch guns.

JAPS WORK HARD
 PEKING, China, Nov. 4.—Since Tuesday morning no word has been received by wireless telegraphy from the defenders of Tsing-tau, the fortified position of the German concession of Kiao-Chow in the Chinese province of Shan-Tung. The Japanese began a general bombardment of the fortress with heavy siege guns several days ago.

NAVAL EXPERT

Gives Opinion on Result of Affair in the Pacific Ocean.

[By Special Wire to The Courier]
 NEW YORK, Nov. 5.—Under the caption of "The lesson of the battle in the Pacific" The Herald's military critic to-day says:

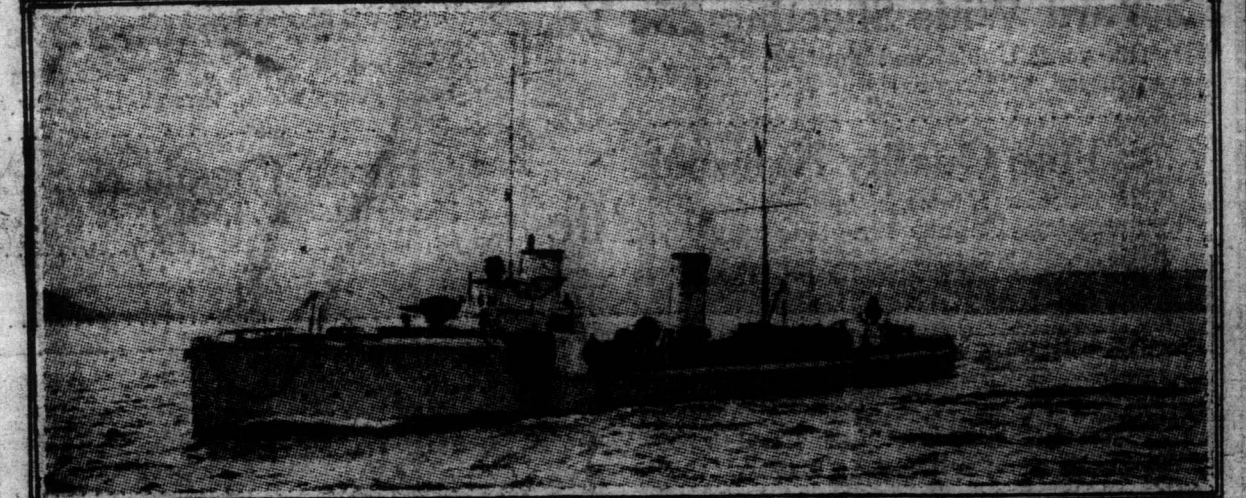

"The result of the naval battle off the southern coast of Chile is, in the opinion of naval men, a most serious one to the British, and to the American navy the lesson is of the utmost importance.

"The fight was in essentially British weather, heavy sea conditions such as prevail almost continuously north of the west Patagonia passengers, and it is for just such weather that vessels of the Good Hope and "Courage" class, of which latter the Monmouth is one, have been built.

"For years the British have doggedly adhered to the principle of building warships with a view of heavy weather conditions of battle and have sacrificed batteries for the sake of more weatherly qualities. They lost the German and Java in 1912 to the Constitution, all vessels of the frigate class largely because the Constitution out-battered the British craft.

"The British have repeatedly criticized the American policy of late years as providing too great weight of battery per ton of ship, but American policy was held to

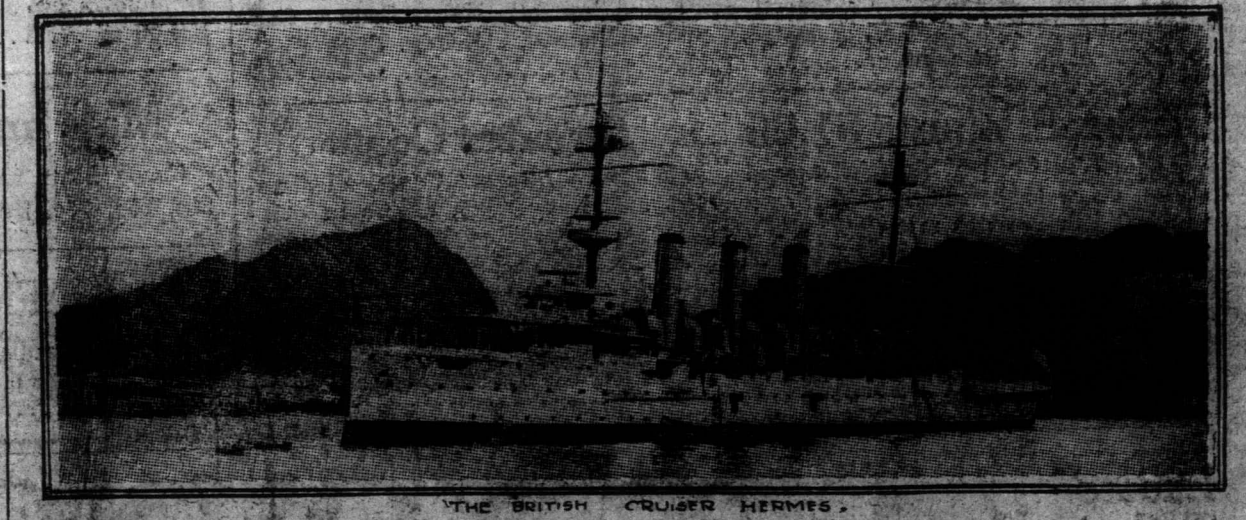

THE LATEST DISASTER TO VESSELS OF THE ALLIES.

THE TURKISH TORPEDO BOAT DESTROYER, MALVENET-I-MILLET

THE RUSSIAN GUNBOAT KUZNETSOV

THE BRITISH CRUISER HERMES

The British light cruiser Hermes was reported sunk by a German submarine in the Straits of Dover on October 31, and on the same date a torpedo fired from the Turkish torpedo boat Wauvelet-I-Millet sank the Russian gunboat Kuznetsov during the fighting in the Black Sea. The British light cruiser Hermes was a 5,000 ton vessel, built in 1908. She was a sister ship of the Highflyer, which sank the Kaiser Wilhelm der Grosse. She carried eleven 6-inch guns, eight 12-pounders and one 3-pounder. Her indicated horse-power was 14,000.

Local Turk Claimed That Mayor Spence Was His Sister

One of the Incidents Connected With Being Mayor of the City at the Present Time.

It is all very well to be Mayor of the city of Brantford during a crisis, but few people know of the actual experiences through which His Worship, John H. Spence is going through almost daily. Here is one of them.

On Tuesday, a dour looking Turk visited His Worship at his place of business and the Turk failing to show even usual politeness, somewhat alarmed the Mayor.

The Turk wanted to go to Detroit with others of the local colony.

"No," said the Mayor, "you stay right here. Some time ago, when we wanted you to go, you refused. You said 'We stay right here, we no leave. Now, you won't leave.'

"We will leave," yelled the Turk, vehemently.

"We'll see about that," and the Mayor immediately went to the phone and telephoned to the police station. With that the Turk gave a whoop and fell and came running around the counter to the Mayor, who stood at the telephone.

Not knowing what was coming off, and being unable to reach the revolver in a drawer at the counter, His

Worship stood ready, the attack one knee extended.

Whether the Turk saw it, we or not, and changed his intentions, matters not. At any rate the follower of the Ottoman went down on his knees and grabbing the Mayor by the hands begged him to desist.

"Oh my father, you my brother, you my sister, me stay here," exclaimed the Turk.

However, that night the police rounded up all Turks up and they must report regularly to the Chief.

Mayor Spence, however, refuses even yet, among his best friends, to be referred to as "Sister John" or in any of the other endearing terms used by the Turk in his direction.

BRITISH FLEET BUSY.
 PARIS, Nov. 4.—3 p.m.—A despatch to the Havas News Agency from Athens says that the bombardment of the forts of the Dardanelles, which was participated in chiefly by the British fleet, was suspended momentarily, but later was resumed and continued until 10 o'clock this morning. Seventy shells in all were fired at the Turkish forts.

HYDRO "SAFETY FIRST"

A short time ago a resident of a nearby city was killed by touching an electric light socket in his house. The current issue of the Electrical News contains an Editorial on this accident, part of which is reproduced below, and which is worthy of your attention:

"Once more the necessity of grounding the secondary side of distributing transformers has been brought home to us in the tragic death of a private resident of —, as the apparent result of a short circuit between the primary service wires and the low voltage lines entering the house. After hearing the evidence on both sides, the coroner's jury's finding was that death would not have occurred had the system been grounded as modern practice demands.

"In a matter of this sort, it is of course very difficult to lay the blame on the most faulty party. One thing is certain, however—this man's death is the direct result of somebody's neglect to do his duty. The necessity of grounding is recognized beyond question. Why then was the system not grounded?"

Grounding Protects Your Life and Property
THE HYDRO SYSTEM IS GROUNDED

If you are using HYDRO you are receiving EVERY SAFEGUARD that GROUNDING and other modern practice can give.

FIFTY GOLDEN YEARS

When, fifty years ago, Agnes Allison and Robert Bain were married in Paisley, Scotland, they doubtless saw no vision of a golden wedding in the new world. But yesterday's celebration in their home in Markham St. was none the less sweet and bright for having been unforeseen.

Surrounding Mr. and Mrs. Bain at dinner were their family, a party of sixteen in all—Mr. John Bain of Ottawa, who was toastmaster, Mr. and Mrs. Robert Bain of Paris and their daughters, Miss Eileen and Miss Margaret, Mrs. Lawerson and her son, Allan, Mr. and Mrs. W. M. Whitehead, Miss Jessie Bain of Montreal, Miss Agnes Bain, Miss Maggie Bain, Mr. William Bain and Mrs. George Dinmore. Golden chrysanthemums filled a huge bowl upon the dinner table, and a shoe and a heart, for good luck and tender sentiment, were also on the board.

Among many lovely gifts were a purse of gold from the family, a gold-headed walking-stick for Mr. Bain, and a beautiful umbrella with handle of pearl and gold for Mrs. Bain, from the staff at the Customs House, where Mr. Bain is an appraiser, and just to show that Scotland had not forgotten, though the bride and groom left her shores just twenty-five years ago to make their home in Paris, there came from her old home an umbrella also.

One of the features of the dinner was the announcement by Mr. Robert Bain of the engagement of his eldest daughter, Eileen Morrison, to George Ellsworth Johnson, only son of Mr. and Mrs. J. Ellsworth Johnson of Howard Park boulevard. These young people intend to start on their journey golden wedding-wards early in December.—Toronto Globe.

It was a stirring scene last night at the Brant Theatre as the men of the active service company responding to Manager Moule's invitation entered the music hall singing lustily "Tipperary."

A hearty hand clap greeted their sturdy appearance and the audience joined in the deep chorus of the marching ditty as the men filed down the centre aisle to the front seats. The theatre itself was a scene which blended well with patriotic sentiment; the huge drop curtain hung with the Canadian Jack, the old Union Jack and the Ensign, while their Majesties' portraits graced either side of the stage. Martial selections from the orchestra, with movies to portray their scenes made chorus after chorus resound from the soldiers.

Jim Whitaker and Verner O'Neill must have got the reception of their lives and the young Brantford volunteer's rendering of "Soldier's and Gentlemen's" was given all the spirit and vive de joie of soldiers of the King, from his delighted hearers.

Turn after turn eminently in keeping with such a night were staged and the war series pictures of Belgian soldiers and British dieldards, dusty, sweaty and hard looking as they rode along the roads around Antwerp were greeted and made the subject of admiring comment.

The audience was large and evidently in thorough sympathy and few who were present last night will ever forget the final scene as the National Anthem was sung, and the cheers that followed, which echo down the years to the patrons who attended at Brantford's vaudeville house.

Eight Japanese warships were reported 2,300 miles west of the Chilean coast.

Montreal has formed a home guard of three thousand men, each to possess a rifle and 250 rounds of ammunition.

ACTIVE SERVICE MEN AT THEATRE

Patriotic Program at the Brant Was Greatly Enjoyed by the Soldiers.

Our 12th Anniversary Sale

SATURDAY, OCT. 7th we celebrate our 12th Anniversary. We intend to make this one of the greatest sales of the year, and have been busy for the past month gathering to-gether many lines of useful and seasonable merchandise suitable for the occasion. This along with made in Canada Sale will be of great importance to the buying public, when we will offer many lines at reduced prices for the next 10 days. Sale commences **SATURDAY, OCTOBER 7th**. SILVER

History and Extent of Its Use as Money—Why the European War Must Increase Its Monetary Use—Effect of Increased Use on Silver-producing Mines How Investors in Silver Securities May be Advantaged Fourteen Leading Silver Stocks Analyzed.

UNDER the above title and sub-titles we have issued a 36-page-and-cover booklet—pages ordinary magazine size—that presents in a scholarly and exhaustive manner a phase of the European War situation that is not generally appreciated, and that is certain to turn the thoughts of those that read it from the horrors of blood-soaked Belgium and France to one of the brighter aspects of this War of the Nine Nations.

INCIDENTALLY to the main subject, we are presenting statistics never before compiled in similar manner, and not elsewhere available, on

- Kerr Lake
- Tonopah Belmont
- Silver King Consolidated
- Tonopah Mining
- Nipissing
- Iron Blossom
- Standard Silver-Lead
- Crown Reserve
- Silver King Coalition
- Coniagas
- Jim Butler
- West End Consolidated
- Mines Co. of America
- Tonopah Extension

We desire to place a copy of this altogether remarkable publication, which is prepared for gratuitous distribution, in the hands of all who may be interested in the subject. Write for a copy now.

"MADE IN CANADA" DISPLAY

The last three days of this week will be a Made-in-Canada display, and will be given by the retail business men of this city, when every merchant in Brantford is requested to give the utmost prominence, in his windows and throughout his store, to the merchandise that he usually carries in stock which is "Made in Canada." The purpose of this display is to familiarize the people of this vicinity with the nature of the goods that are the manufacture of Canadian artisans, so that such an increased demand will be created for this merchandise that the wheels of industry will be kept in operation during these trying times and unemployment reduced to a minimum.

When it is remembered that last year Canada bought nearly \$700,000,000 worth of foreign goods, nearly half of which could have been made in Canada, it will be realized that if this business can be diverted into the factories of this country that the commercial depression caused by the war would be largely minimized. Every Canadian is imbued with a strong sense of loyalty, and if every opportunity is taken to make the people more familiar with what "Made in Canada" actually means, undoubtedly the business of the industries of this country will be increased as a result.

Let every merchant enter heartily into this movement, and see that his store is attractively decorated with "Made-in-Canada" merchandise on Thursday, Friday and Saturday next, and every citizen is urged to visit the stores on these days to become more familiar with the extent and nature of the goods that are made in our own country. Remember, every two dollars spent on goods of foreign manufacture deprives a Canadian workman of a day's pay.

FAREWELL GIVEN

To Mr. C. Stubbs, Who Was Popular in Local Football Circles.

Football enthusiasts will learn with regret of the departure of Mr. C. Stubbs for the Old Country to take up his residence at his home in Great Britain. Mr. Stubbs came to this city about four years ago, and for three seasons played for the Cockshutt United football club, where his reputation as a full back is well known in the city.

His departure last Tuesday evening by the 7:00 train was the occasion for the gathering of a large crowd of admirers to see him off. Shortly before the train started, Mr. B. Unitch, secretary of the Cockshutt United football club, on behalf of the officers and players of the club, presented Mr. Stubbs with a handsome set of gold cuff links and a watch fob, and in making the presentation spoke highly of the esteem in which he was held by all who knew him, and assured him that he carried with him the best wishes for his future. Mr. Stubbs, who was visibly affected by the warmth of his reception, in returning thanks, said he hoped that his return to the old country would never efface the memory of the many happy days spent, and the large number of friends he made during his residence in Brantford.

\$100 REWARD, \$100

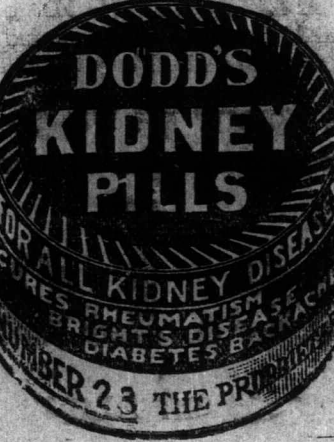

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

TURKS IN QUANDARY

LONDON, Nov. 5.—A despatch to The Times from Medeahatch, a seaport of European Turkey, dated Monday, affirms that some members of the Turkish Government were quite ignorant of the Turkish fleet's attack on Black Sea ports two hours after foreigners were aware of it. On hearing the news the grand vizier, Prince Said Halim fell ill and resigned. On Friday morning last, the Russian ambassador, unable to see the grand vizier owing to his illness, asked for his passports.

It is said the Swiss are working strenuously to secure an armistice.

NOW A BENEDICT

Brantford Soldier Takes unto Himself a Bride Prior to His Departure.

The advice which is being given in Great Britain just now to recruits going on active service to get married before they leave, has been taken up by at least one Brantford recruit prior to his departure to-morrow with the Brantford contingent. Harold George Bacon, one of the Brantford soldiers and Miss Clara Jean Port, were united in matrimony at Colborne street church yesterday. Rev. T. E. Hollingford officiated. A number of friends of the bride and groom were present to wish both hearty good luck.

At The Y. M. C. A.

Last night a large number of young men took part in the boxing class which is being conducted in the Y.M.C.A. George Nixon of Hamilton, who is the instructor, is a past master at the game, and the manner in which he handles the class is very satisfactory. A large number have signed up for this class, and judging by the turnout of the members last evening, it will soon be necessary to divide the class into two squads. All information regarding the class and fees can be obtained from the physical director.

A very satisfactory start was made by the fencers of the Y.M.C.A. under Instructor W. J. Feldkamp. Arrangements for future classes were made. Class meets for actual work next week on Wednesday night at 7:30.

Last night the Business Men and the Braves lined up for their first scheduled league game in the Y.M.C.A. gymnasium. Both teams had a comparatively strong line-up, and the Business Men showed marked improvement over their last appearance. Their ranks have been strengthened considerably. The game was a pitcher's battle from the start. The Business Men got away to an early lead, but the Braves tied in the fifth inning, after a batting rally which was started by Slattery. In the last half of the sixth inning the Braves were ahead by two runs and managed to keep the Braves from any further scoring. The final score was 8 to 6 in the Braves' favor. The batteries were Roper and Atkinson for Business Men, and Klersy and Woolmans for Braves. Harry Fleming umpired to the satisfaction of all.

High School Class

The High School Class has reorganized for the coming winter and from evidences displayed at their opening meeting held in the auditorium of the Y. M. C. A. on Tuesday evening, the class is to have a prosperous season.

Secretary Thompson presided over about 40 members, and among the visitors was C. T. Sharpe of Toronto West End, who gave a very interesting talk upon the work to the assembly. He outlined the curriculum of every high school class in the Dominion in no uncertain manner and he carried the conviction of his thoughts upon these subjects. His address was keenly appreciated. The election of officers followed and A. W. Burrows was appointed Honorary President and G. L. Godwin Honorary Vice-President. All members of the Y. M. C. A. staff and gentlemen teachers were appointed members of the Board.

QUEBEC SEND OFF

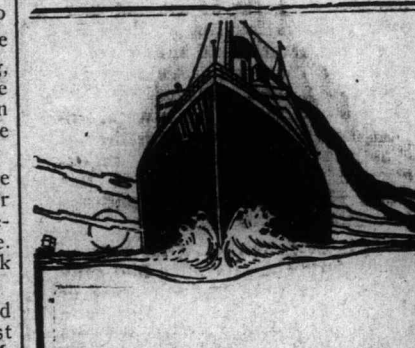

QUEBEC, Nov. 4.—Quebec is organizing a striking send-off for 125 of its soldiers, who have volunteered to serve in the Royal Canadian Regiment and who will leave Thursday morning for the St. John training camp and barracks. Under Major Edmond Laliberte, this first company will leave here to-morrow at ten on a special C. P. R. train and they will be marched through the streets, escorted by the R. C. G. A. band and the 6th Regiment, from the ranks of which most of the volunteers leaving have been taken to man the departing company.

CHARGED WITH MURDER

WINNIPEG, Man., Nov. 5.—Harry Mason, alias Harry Hamilton, puglist, going on active service in Saskatoon, charged with the murder here last week of J. J. McColm, coal dealer, whose dead body was found beside the road in St. Boniface. With Mason were arrested Bruce Beggs alias Grace Hamilton and Sidney Knotts, alias Nui, who are charged with being accessories after the fact. Robbery is believed to have been the motive for the murder.

A WARM WINTER.

June weather prevails in California, the ideal wintering place, reached comfortably and conveniently by the Chicago and North Western Ry. Four splendid trains daily from the new passenger terminal, Chicago—The Overland Limited, fastest train to San Francisco; The Los Angeles Limited, three days to Los Angeles; and the famous San Francisco Limited and the California Mail. Rates, illustrated matter and particulars on application. B. H. Bennett, General Agent, 46 Yonge St., Toronto, Ont.

Royal Line Steamships combine the finer features of all the world's ships. A ship's master, generally, attends women travelling alone. Handsomely illustrated booklet—write to 52 King St. East, Toronto, Ont.

If You Have Money to Burn Don't Read This!

We are in a position to give the citizens of Brantford a quality of coal second to none, at prices that prevailed during the summer months, just to advertise the original Black Diamond Scranton Coal, famous for its lasting qualities over the whole American continent. By buying Black Diamonds from us you have a double satisfaction, quality and quantity, thoroughly screened and free from dust. We will gladly show you our house, and you will see for yourself the high grade of coal, protected from all kinds of weather.

THE SITUATION.

"Are we downhearted? No!" That is the slogan of the British troops, and it is the slogan of all of us under the British flag everywhere. This thing is going to be fought to a finish, and there will be only the one end. In Belgium and the North of France it is still the fact that nothing of a definite nature can yet be recorded. The Germans are reckless of life, and the Allies are conserving their forces to the greatest possible extent, albeit there is no holding back when a necessary defence has to be made or a blow struck.

There is a rumor that Germany has started a move for an armistice. Armistice—well, there is no reason for it under any circumstances. Matters have got to be cleaned up, and that definitely.

The Russians still continue to make good headway, and the general situation may be regarded as reassuring.

CONSERVING \$1,400,000,000 A YEAR.

Let us get a notion of what this industrial fabric is that Canadian citizens are asked to maintain by taking part in the "Made-in-Canada" movement. In a matter of cold cash, it is an investment of \$1,500,000,000 in factories and equipment. It is an annual output of \$1,400,000,000. It is a yearly wages and salary list of \$288,000,000.

These are figures that entitle Canada to be considered as a great industrial nation in the making. They are figures that if used a few decades ago by England, the United States or Germany might have been made the subject of great orations. The sun total of Canada's share in the world's work represented by smokestacks and boxcars and payrolls is a great fabric of business that has become a source of pride to a young nation. We boast of our railway systems, our empire of farm lands, our free institutions, our worthy pioneers and our determined, clean-handed people. Let us also boast of the 23,000 factories that have become one of the bulwarks of the nation.

To help maintain this national asset is the privilege as well as to the advantage of every man and woman in Canada. This industrial fabric must not be endangered by war. It must be conserved, and in conserving it we serve our own interests in obtaining better values, in many cases in saving money, and making ourselves more prosperous.

THE KLOTZ FAMILY.

Dr. Klotz of the Dominion Observatory took occasion on Saturday, as president of the Ottawa University Club, to indicate the satisfaction of at least one German family in Canada with British rule. Originally from the Fatherland, the Klotz family has become completely assimilated in Canada, and, like many other families of foreign origin, is now almost ultra-British.

"The only available unmarried man in our family has enlisted and is at the front at the present time with the British troops," said Dr. Klotz, who repeated the utterance of his own years ago that "Britain's success with her colonies was due to the liberty she gave them contrasted with the rattling of the sword in the German colonies."

Dr. Otto Klotz and his brilliant doctor sons have one German trait, one that is worthy of emulation by all Canadians, namely, thoroughness. Would that Canada had more of the same type of men, be their origin foreign or domestic.

The representative of the Klotz family in the Canadian contingent is Captain Herbert Klotz of the University of Toronto, the only son of Dr. Otto Klotz' youngest brother. He has a commission in the battalion of which Willis O'Connor of Ottawa is adjutant.

WILY WILHELM'S WAYS.

A remarkable story, as illustrating the intriguing methods of what has been known as the German Secret Service, is communicated to a resident in Regina from friends in Scotland. The story, which is said to involve a teacher of German language in one of the provincial schools in Scotland, is to the effect that the said teacher had intimated to his pupils that he was to offer a money prize to the pupil or class making the best sketch or drawing of the Forth Bridge, the famous structure which spans the estuary of the Firth of Forth near the town of Queensferry. A number of the pupils

set to work, and from the drawings submitted to the teacher, one, as the best, was selected, and the prize awarded to the successful competitor. Regarding the incident there was a good deal of talk, not unminged with vague insinuations, and the elements of suspicion. In respect of this, the matter reached the ears of the criminal authorities, and an inquiry was instituted. As a result of that investigation, it is alleged that a letter was discovered in the possession of the gentleman in question, which had been addressed to him on behalf of the Kaiser. The letter, it is stated, was acknowledging receipt of the drawing of the famous bridge, which, by the way, is in proximity to the new naval base of Rosyth—and in effect thanking him for his good offices. The incident caused something of a sensation in the particular district, and developments are awaited.

GIFTS WERE MADE

Active Service Volunteers Each Got Parcel From Patriotic League.

The entire force of active service volunteers were this morning presented with a parcel of comforts by the Women's Patriotic Association, at the Armouries. Each one of the 120 soldiers received his parcel and each one individually gave thanks to his benefactors.

In the parcel was to be found a woollen waistband, a pair of wristlets, a scarf, some bandages, a bar of soap and a box of chicklets. The parcels were given to the volunteers in view of their early departure with the best wishes of the ladies. The boys keenly appreciated the gifts.

AS A RECOGNITION

Brantford City Council Will Make Presentation to Each Officer for the Front.

Some recognition from the City Council to the Brantford officers leaving for the front was decided upon at the special meeting of the Mayor and aldermen last night. Mayor Spence, who brought the matter up, declared that officers having under them a number of men could not be too well equipped for service. His Worship suggested as a useful gift a pair of field glasses for each man. A committee, consisting of the Mayor, Ald. Ward and Ryerson, were named to look into the matter and act.

Naval Fight Still Remains Deep Mystery

(Special to Courier)
LONDON, Nov. 5.—No British warships are in Chilean ports. The fate of the three British cruisers that engaged five German warships off the coast of Chile, and the transport that accompanied them, remains a mystery. On this mystery is based the British hope that one or more of their vessels survived the action. A despatch from Santiago to-day dispenses of an earlier report that the British cruiser Glasgow and the transport Otranto had been bottled up in Chilean waters by the German cruisers Leipzig and Bremen. The whereabouts of the two latter cruisers is in doubt. Of the nine vessels that figured in the naval battle only the German warships Scharnhorst, Gneisenau and Nurnberg have been definitely accounted for. After coming into Valparaiso they again sailed.

Obituary

Mrs. Truman W. Westbrook.
There passed away suddenly at her home this morning one of the most venerable and well known residents of Brantford Township in the person of Phoebe Erwin, the beloved wife of Truman W. Westbrook of Langford. The deceased was in her 74th year and was hearty and well on Saturday when she paid a visit to the city. She leaves a wide circle of friends in the city and township as well as the county to mourn her loss.

NAVAL NEWS

(Continued from Page 1)
a report from Rotterdam that the 9th German army corps has been transferred from Belgium to East Prussia.

NAVAL EXPERT

(Continued from Page 1)
the 1812 practice and continues to hold, and the significant part is that the Germans have followed American methods. The battery of practically every German warship of the premier class to-day shows the maximum of artillery compatible with tonnage displacement.

"The time has passed in modern naval warfare to consider that seamanship and mere bravery can offset artillery preponderance. A preponderate battery in the hands of untrained, unskilled men might count for little when opposed to a highly trained personnel, though provided with an inferior battery, but it has been known for many years that the Germans have reached to an extraordinary efficiency in naval gunnery, and their enterprise and bravery cannot be questioned. Given, therefore, equally efficient personnel, both as to seamanship and gun work, and not allowing for errors of judgment, the result of a naval battle in the open sea as between numerically equal forces should rest with that side possessing the preponderance of artillery."

"This is exactly what has occurred off the southern Chili coast."

"The Battle of two against twelve," was how a foreign naval expert, now in this city and who is connected with neither of the squadrons that fought off Coronel, characterized the struggle of the British and Germans, according to the Herald. "It was the two 9.2 guns of the Good Hope against twelve of the six-inch 8.2 inch guns of the Scharnhorst and Gneisenau," he said. The Glasgow and the three small German cruisers can be left out of the question, for their guns are not of calibre large enough to do damage at long ranges.

"At 5,000 yards, the numerous six inch guns of the Good Hope and Monmouth were practically unavailing against the six-inch thick belt armor of the big German cruisers, having at that distance penetration of three inches, while at that same distance the sixteen 8.2 inch guns of the German vessels could pierce the armor of the belt armor of the Good Hope (six inches) and the Monmouth (four inches)."

"It is evident then, that beyond 5,000 yards the Germans had only to fear the two 9.2 inch guns of the Good Hope in a broadside fight, while the British vessels would be under the fire of twelve of the Germans 8.2 guns."

a different tale to tell. "One must not from this," he concluded, "rush to the conclusion that should the British and German main battle fleets clash the same result would follow for the big gun policy has been followed out on all the British dreadnoughts."

Two Prisoners Were Escorted Away To-day

The escort for the two Germans under arrest, arrived in this city this morning and left with their prisoners of war by the 1.42 p.m. train for Toronto.

Biliousness

is Cured by HOOD'S PILLS 25c.

will escort the prisoners back with fixed bayonets and three rounds of ammunition in case of emergencies. Their instructions are to take no chances and they will see that they are carried out to the letter. Both of the soldiers, one a Scot and the other a son of Wales, are well made specimens and fully capable of looking after their trust.

The Ham and Nott Softball gave the active service men, leaving to-morrow, a set of their new baseballs as part of their athletic outfit.

BUILDING STATISTICS.
The building permits for the month numbered 16 and have a value of \$16,353. This compares poorly with the corresponding month of the previous year, when 43 permits were issued with a total value of \$83,350, the decrease being in excess of 66.99%.

WELL REPRESENTED.
When the Boys Work Conference of Sunday School and Y. M. C. workers meet at Guelph on the 22nd and 23rd of this month, they will be twenty representatives of Brantford City there and 15 from Brant County.

NEW POST OFFICE.
It is stated that the new Post Office will hardly be ready for occupation before next spring, contract for the fixtures has not been let and other interior work to be done. The last of the structure sheds on the property now being removed.

FOR EMPLOYMENT.
This city is doing about all it can for relief of unemployment. Mayor Spence last night, weekly roll is from \$2,200 to \$2,500 and this is at the rate of over 100 per year. This is generally considered as satisfactory for many are having difficulty in finding public work.

SPLENDID WORK.
The Ontario Associated Child Aid Societies have offered the Government to take care of 200 orphan children, bring them up after them. The Brantford S. has been asked to look after 20 of these children and it will please them to know that the answer goes back that Brantford Child Shelter will not only take eight children, but more if need be.

LADIES DID WELL.
The ladies of the house committee of the Children's Shelter and numerous friends did exceptionally well at the two pound parties held last week for the relief of the B. C. In all 515 pounds of groceries, pieces of canned goods and 311 of clothing were secured. As a five-hundred-dollar party, it was well worth the effort. Their efforts really a most successful one are carried out in a quiet, earnest way.

TO CONFER TO-NIGHT.

The Park's board hold a meeting in the City Hall this evening.

MEET TO-DAY.

A meeting of the Council of the Board of Trade is being held this afternoon.

GAVE THEM OUTFIT.

The Ham and Nott Softball team gave the active service men, leaving tomorrow, a set of their new baseball bats as part of their athletic equipment.

BUILDING STATISTICS.

The building permits for the last month numbered 16 and have a total value of \$16,355. This compares poorly with the corresponding month of the previous year, when 42 permits were issued with a total value of \$83,350, the decrease being no less than 66.95.

WELL REPRESENTED.

When the Boys Work Conference of Sunday School and Y. M. C. A. workers meet at Guelph on the 22d, 23d and 24th of this month, there will be twenty representatives of Brantford City there and 15 from Brant County.

NEW POST OFFICE.

It is stated that the new Post Office will hardly be ready for occupation before next spring. The contract for the fixtures has not yet been let and other interior work has to be done. The last of the construction sheds on the property are now being removed.

FOR EMPLOYMENT.

"This city is doing about all it can do for relief of unemployment," said Mayor Spence last night. The weekly roll is from \$2,200 to \$2,300 and this is at the rate of over \$100,000 per year. This is generally considered as satisfactory as many cities are having difficulty in financing public work.

SPLENDID WORK.

The Ontario Associated Children's Aid Societies have offered the Ontario Government to take care of 200 Belgian children, bring them up and look after them. The Brantford Society has been asked to look after eight of this number and it will please many citizens to know that the answer has gone back that Brantford Children's Shelter will not only take eight Belgian tots, but more if need be.

LADIES DID WELL.

The ladies of the house committee of the Children's Shelter and their numerous friends did exceptionally well at the two pound parties held last week for the relief of the Belgians. In all 515 pounds of groceries, 180 pieces of canned goods and 311 pieces of clothing were secured. As a result five bales of clothing and 10 boxes, including groceries were shipped off this morning to Montreal and will from there be sent on to Belgium. The ladies are most grateful to those who contributed. Their effort was really a most successful one and was carried out in a quiet, earnest way.

GIVEN APPOINTMENT.

James Aitken of the 38th Duferin Rifles has been gazetted as a provisional lieutenant in the regiment.

WRIT ISSUED.

Andrew McNair, administrator, has issued a writ in the County Court for \$161 against Charles and Thomas Armstrong, executors.

FOR THE CHILDREN.

The subject of the Story Hour taken this afternoon by Miss Middlemiss at the Library will be the old tale "Beowulf."

APPOINTED SUPERNUMERARY.

Lieut. W. C. Towers of the 38th Duferin Rifles has been appointed a supernumerary lieutenant with the corps.

RIFLE CLUB.

The Rifle Club will meet for drill at the Collegiate Institute to-night. Sergt.-Major Oxtoby will give instruction and Captain T. H. Jones will be in command.

TO OPPOSE THE KOLTS.

The Dormitory Kolts of the Y. M. C. A. will to-night oppose the Marlboro St. ball team in a game of indoor ball upon the Y. M. C. A. gymnasium.

NURSING APPOINTMENT.

The many city friends of Miss Clara Louise Bowden will be pleased to hear of her appointment as a supernumerary nurse of the Nursing Sisters with the Canadian militia.

ELECTRIC INSPECTOR.

Mr. W. K. McEwatt, the Hydro Electric Inspector, for the city was this morning installed in the City Engineer's Office, commencing his civic duties to-day.

CONVERSION CHARGE.

County Constable Taylor was on the trail of W. Johnson of the reserve at Tuscarora from an early hour this morning on a charge of conversion in the case of a calf and a cow valued at some \$125. He will be charged with the offence to-morrow.

WITH THE POLICE.

Andrew Milliken was charged at the police court this morning with assaulting a young girl, and the case was adjourned until to-morrow for further evidence. Roy Henderson will, according to the magistrate's order, be paid the full amount of wages owed to him by his employer, Emery Ferguson. A drunk, who was fined three dollars, completed the list.

JUMPED THE RAILS.

One of the Street Railway cars this morning left the rails upon Arthur street with a jolt, severely shaking up two solitary occupants, one of whom was James George Smith, who were fortunately uninjured after their experience. The car was being backed up and jumped a junction point to drop into a hole in the improvements which are now being made. So badly fouled was the car that it had to be jacked up and it was two hours before it was put back into service.

CROMPTON'S | The House of Quality and Good Value | CROMPTON'S

Our 26th Anniversary Sale

Brings an Opportunity That Will Not Soon Occur Again! Decide Now to Take Advantage of it!

Goods that you will have to pay full price for later on are now being offered at savings of a third to a half. The long-looked-for opportunity for practising economy presents itself now in our 26th ANNIVERSARY SALE.

Compare the Wonderful Value of This Stylish Suit With Others at \$25.00

You will quickly acknowledge that it is the equal to any \$25.00 Costume that you have ever seen.

New York has produced no more attractive design this season than this smart Redingote style which we illustrate. This suit is featured exclusively by this store. The materials are French all wool suiting, wide wale serge, as well as fancy weaves. The colors are Russian Green, Copenhagen, Nut Brown, Navy Blue, Black and Beet Root. The coat is lined with our "Wearwell" guaranteed satin, which is WARRANTED TO WEAR FOR TWO YEARS.

Little need be said about the style, as the illustration tells its own story. This suit also comes in the Tuxedo style. This coat, being some what shorter than the Redingote, with cutaway front and flaring back.

The trimmings are velvet and buttons, the latter either cloth covered or jet, both being now very fashionable. Collars come in both the Robespierre design, as shown, or plain coat style.

Our Special Price: \$17.50 LINED WITH SATIN GUARANTEED FOR TWO YEARS.

BRANTFORD'S DEATH RATE FAIRLY LOW

Vital Statistics Covering the Province Are Received by the City Clerk.

The City Clerk this morning received a copy of the vital statistics of the Province, an edition published in Toronto, for the year 1913. In every case, the returns show an increase upon last year's figures. The population of the province is given at 2,677,600 and during the year, 64,516 births, 26,998 marriages and 34,317 deaths were registered. The cities accounted for a population of 957,415 with 26,914 births, 14,089 marriages and 13,887 deaths. Brantford itself is given with a population of 26,100, among whom 369 deaths occurred, and 323 marriages and 742 births. Brantford's death rate was 14.1, moderately low and the marriage rate was medium while they were strong in the nativity rate, having registered 28.4. This sank into insignificance against Fort Williams rate of 33.0, but is appreciably greater than Chatham's modest 20.8.

AN EPIDEMIC EXPECTED

Water Supply Very Limited in the City of Antwerp

LONDON, Nov. 5.—A despatch to the Exchange Telegraph from Rotterdam says: "Antwerp doctors predict an early epidemic owing to the fact that the only available water supply, comes from the River Nethe, which contains the bodies of many slain soldiers. The rebuilding of reservoirs which were destroyed by the bombardment has not been permitted."

Sir George Foster gave a stirring address on the war in Convocation Hall, Toronto.

GENERAL VON KLUCK

Is Reported to Have Died From Injuries Received in Battle.

[By Special Wire to the Courier]
PARIS, Nov. 5.—A man—The correspondent of the Excelsior at Havre says he has, from a source which he cannot designate news of the death of General Van Kluck ten days ago in a hospital at Namur, where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Belgium and Germany.

General Von Kluck, who led the dash of the German right wing which got to within a few miles of Paris in the first month of the fighting, has been reported within the last few days in official communications, as directing his army in the fighting on the River Aisne. When the scene of severe fighting shifted to Belgium and the German right wing was extended into that territory, General Von Kluck following his skillful retreat from the vicinity of Paris, remained in the position he had taken on the Aisne. CITY WILL PROCEED

(Continued from Page 1)

Strong Petition
A strongly signed petition was received from West Brantford and Holmedale, requesting that work on the proposed park drive be proceeded with.

The Park Drive
In explaining the proposition, Ald. Ward said that the more the drive of the city looked into the park drive the less attractive it looked when it came to providing employment. Advice received was to the effect that two men could be employed outside of the city for each team employed. A bridge over the hydraulic canal at a cost of \$4,000 was required. Ald. Ward declared that this was useless and unnecessary. Another item was for fencing. A dyke had to be built from 15 ft to 18 ft above the river. The proposition was to build a fence at a cost of \$3,107. In order to get material, a ramp had to be built into the river at a cost of \$300. No member of the board of works, objected to the scheme because employment was to be furnished. There was other work however which could be undertaken which would be of benefit to the city at large. The drive would be used by very few and those only for pleasure. If there was any other necessary work, it should be undertaken with a preference to this. The House of Refuge and the Sanatorium both needed a sanitary sewer. There was a real job to undertake, which would be of use and it would give a lot of work to the hands and was really important. The grading of Dundas street should be widened and the South Market street should be extended. The latter job would employ a large number of hands and was really important. The streets of Brantford could stand \$100,000 in repairs, chiefly labor.

One section of the park drive, the section from Lorne Bridge to Agricultural Park was an attractive one. This section would cost \$8,000. The parks board, however insisted on the whole scheme or nothing, otherwise the parks board or social service league would not contribute as promised.

When the Council first considered the matter, it was stipulated that men should be employed instead of teams. This resulted in an increased expenditure of 25 per cent. If the city were short a few thousand dollars, who would pay? It would come finally on the grounds that it would not benefit the city proportionately to the expenditure nor would it provide the employment to relieve the situation proportionately to the money spent.

Other Discussion
Ald. Gabeck said he endorsed the park drive scheme on its first presentation and was still prepared to endorse it unless some other better scheme for employment were presented. If there was other necessary work, the improvement of streets, the construction of drainage and sanitary sewers, etc., then this work should be proceeded with.

The Mayor
Mayor Spence did not want the council to get the ideal of the parks board wanted to drive through the scheme. As a matter of fact all the patriotic agencies were trying to figure out a good way to provide work without satisfying those who needed help. The city did not want to give relief, because many a person would starve first, before asking. It was a question of keeping the food supply going during winter without having decent people begging. It was not desired to benefit particular sections or particular interests. The park drive had not been in the city for years and it looked like a good chance to undertake the work.

The Mayor assured council that no one was pushing the scheme except for one thing, viz. to provide work. Some of the schemes mentioned by Ald. Ward were excellent and should be proceeded with. Erie Ave. pavement would be a good thing, but sewers, water pipes, gas, etc., also lower rates had to be considered before hand to last 30 years, therefore the

street could not be paved for some time. Besides the street car track had to be relaid on cement.

Ald. Ward said a storm sewer on Erie Avenue would be started on Monday next and would require a large number of men.

A Delegation
Messrs. Frank Cockshutt and E. L. Gould formed the deputation favoring the park drive.

Mr. Cockshutt said he had approved of the drive for several years and believed it would be a useful work for the city. The construction of a road from Ava Avenue through the O. I. B. grounds was necessary. The Parks board several years ago wanted the Waterworks property developed by the planting of trees, etc. The scheme was approved. The present commissioners also endorsed the plan. The waterworks was a splendid property, but it was not doing as much as it should for the city. The park drive, said Mr. Cockshutt, could be approved and undertaken on its own merits. There was nothing the city could do more to its advantage than to develop its own natural resources. Now was the time to make a start and it was sound policy. The West Brant end of the park drive was more costly. A lot of waste ground would be reclaimed. If the property were sold it would pay for the whole drive, and give splendid access to the Agricultural Park. At present thousands of people had to cross two railway tracks. Was not that worth while for the young people to cut out this danger. Mr. Cockshutt held there was nothing better municipally than to beautify the city. On the financial side, Mr. Cockshutt said the patriotic and social service committees wanted civic work to be done as a public work was endorsed by both organizations and \$5,000 was passed to the city besides a loan of \$10,000 to be given to the city. The social service league promised 30 per cent. of the labor involved in the project. It would be a matter of great disappointment if the council should decline to co-operate at the present late stage with the scheme. Mr. Cockshutt believed that faith should now be kept with the other boards, and it was not merely "a scrap of paper." In the end every body would approve of it. Other schemes should be undertaken because there were 1,000 to 1,200 unemployed men in Brantford at the present time. Any other practicable scheme would be endorsed by either the patriotic or social service league.

Ald. Ward asked Mr. Cockshutt if he would favor the West Brantford end of the Park Drive as a start.

Mr. Cockshutt said he stood for the scheme as a whole and did not think the council should divide it up.

Ald. Ward said in the O. S. B. grounds it picks and shovels were used the cost would be as per cent extra.

Mr. Cockshutt said he would let the engineer rule in those matters. He wanted all the labor that could be reasonably employed on business principles.

City Engineer Jones said he doubted if 25 per cent. extra cost would result. In one section of cuts and fills the distance would determine whether it would be economy to use teams or hand labor. In case of long haul teams should be employed. As regards the cost estimate, Mr. Jones said it was prepared hurriedly, but it would not be \$60,000 as reported in a local paper. From Ava road to the Waterworks levels had been taken and the estimate was fairly close.

Mr. Cockshutt said that certain properties would have to be acquired and about 30 feet on Brant street.

The Mayor pointed out that under consent of the Ontario Government all money had to be entirely spent on labor and could not be spent for expropriation of any property.

Mr. Cockshutt—"Very small matter, Mr. Mayor."

Ald. Ryerson said he endorsed the scheme, although he recognized that Ald. Ward's criticism was fairly taken. He did not see how the dead end of Brant street could be utilized. At any rate the work could be gone on with. Would it not be possible to take the west side of Kerby Island for filling in, and would it not make the river conditions a lot better?

The City Engineer approved of Ald. Ryerson's suggestion to clear out the river, and he pointed out that it would be cheaper to secure material from the island.

Ald. Broadbent heartily concurred in the Park Drive scheme, making a strong speech in favor of it.

Ald. English wanted an accurate estimate of the cost.

Ald. Stuch was in favor of the scheme because it would provide employment and because the patriotic and social service leagues as well as the parks board showed good faith in putting up a portion of the cost.

Ald. Fitcher said he endorsed all the scheme except the expenditure of \$3,000 on team work to fill in the land between Lorne Bridge and Agricultural Park. In a few years that part would be filled in without cost with garbage etc. The scheme in that one particular looked extravagant.

Ald. Ward in his outline of street widening Lawrence street, the highway to the hospital. This needed fixing and would be greatly appreciated.

The quorum present was as follows: Mayor Spence, Ald. Robinson, Quintan, Wood, Sigman, Fitcher, Broadbent, Sutch, Woolams, Ryerson, Gabeck, Ward and English.

Aches and Pains of rheumatism are not permanently, but only temporarily, relieved when treated with remedies. Why not use an internal remedy—Hood's Sassaaparilla, which corrects the acidity of the blood as well as rheumatism, and cures the disease?

ter, Mr. Mayor."

Ald. Ryerson said he endorsed the scheme, although he recognized that Ald. Ward's criticism was fairly taken. He did not see how the dead end of Brant street could be utilized. At any rate the work could be gone on with. Would it not be possible to take the west side of Kerby Island for filling in, and would it not make the river conditions a lot better?

ADMIRALTY STATEMENT
LONDON, Nov. 5, 6.30 a.m.—The Times to-day under date of Valparaiso prints the report of Admiral Von Spee, regarding the fight between British and German cruisers off the Chilean coast on Sunday night, which reports the despatch says, was made to the Chilean authorities. No other news of the fight is available up to date, according to the despatch and there is no news of the Glasgow, Good Hope or Otranto.

The Times despatch says that it is believed all of the Monmouth's crew were lost, and it also relates that the German officers testify to the great gallantry of the crew of the Monmouth, which while in a sinking condition attempted to ram one of the German vessels. The universal opinion in Valparaiso is that the German squadron was always well provided with wireless information, while the contrary was the case with the British squadron.

LONDON, Thursday, Nov. 6.—The Admiralty has issued a statement in which it says it has received from German sources details of a naval engagement of the Chilean coast, in which the British cruiser Monmouth, was sunk and the cruiser Good Hope

ONLY GERMAN NEWS IS THUS FAR RECEIVED OF THE NAVAL BATTLE

Admiralty Announces That Battle Cruiser Canopus Was Despatched to Strengthen Admiral Craddock's Squadron.

ADMIRALTY STATEMENT.
LONDON, Nov. 5, 6.30 a.m.—The Times to-day under date of Valparaiso prints the report of Admiral Von Spee, regarding the fight between British and German cruisers off the Chilean coast on Sunday night, which, report, the despatch says, was made to the Chilean authorities.

No other news of the fight is available up to date, according to the despatch and there is no news of the Glasgow, Good Hope or Otranto.

The Times despatch says that it is believed all of the Monmouth's crew were lost, and it also relates that the German officers testify to the great gallantry of the crew of the Monmouth, which while in a sinking condition attempted to ram one of the German vessels. The universal opinion in Valparaiso is that the German squadron was always well provided with wireless information, while the contrary was the case with the British squadron.

LONDON, Thursday, Nov. 6.—The Admiralty has issued a statement in which it says it has received from German sources details of a naval engagement off the Chilean coast, in which the British cruiser Monmouth, was sunk and the cruiser Good Hope

severely damaged. The statement says the Admiralty has no confirmation of the report.

The Statement was issued through the official Press Bureau, in the name of the Secretary of the Admiralty, and says:

"Rumors and reports have been received at the Admiralty from various sources of a naval battle having occurred off the Chilean coast. The Admiralty has no official confirmation of this, and such accounts as they have received rest admittedly on German evidence.

"It is reported that the Scharnhorst, Gneisenau, Leipzig, Dresden and Nürnberg concentrated near Valparaiso, and that an engagement was fought with a portion of Rear Admiral Sir Christopher Craddock's squadron on Sunday last. The German report asserts that the Monmouth was sunk and the Good Hope very severely damaged. The Glasgow and the Auxiliary cruiser Otranto broke off action and escaped.

"The Admiralty cannot accept these facts as accurate at present, for the battleship Canopus specially was sent to strengthen Rear Admiral Craddock's squadron, and would have given him a decided superiority not mentioned in them. Further, although five German ships concentrated in

Chilean waters, only three entered Valparaiso harbor. It is possible, therefore, that when the full account of the action is received it may considerably modify the German version. Effective measures have been taken to deal with the situation in any event."

The battleship Canopus, mentioned by the Admiralty as having been sent to reinforce Admiral Craddock's squadron, has four 12-inch, twelve 6-inch, ten 12-pounder and six smaller guns. Thus her fighting strength is probably superior to the combined armament of the Gneisenau and Scharnhorst, which consists of sixteen 8 1/2 inch, twelve 6-inch and 58 smaller guns. The Canopus was built in 1899, has a complement of 60 men, and a speed of 18 1/2 knots.

LEFT VALPARAISO.
LONDON, Nov. 5.—The German armored cruisers Scharnhorst and Gneisenau and the Light Cruiser Nürnberg steamed away from Valparaiso at noon on Wednesday, according to a despatch to the Reuters Telegram Company from Santiago, Chile.

HE LIKED THE GAME.
Sporting Editor:—

I wish through the columns of your paper to make a few remarks concerning the game between Brantford City and Hamilton. Perhaps it is late in the day, but still, I would like to say as an interested spectator, that I consider that it was certainly a great example of what Brantford can do. As a game of football it was excellent in every way, clean, the refereeing good, spectators well behaved and above all most exciting. I have been watching local football for some time and I never saw a better game and it certainly does credit to the organizers. Whenever Brantford City play I shall do my best to be present. If we only get one or two games of the same style I am sure it will do more good than five hundred local football games.

Thanking you for your space,
Yours Faithfully,
J. C. WELLABY.

When Headachy Take Cascarets For the Bowels

To-night! Clean Your Bowels and End Headache Colds, Sour Stomach.

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleansing up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

SIR NIGEL

BY A. CONAN DOYLE
Copyright, 1905, 1906, by A. Conan Doyle.

Nigel cast open the door, plucking forth from his breast as he did so. Half a dozen men-at-arms sat on their horses outside, but one had dismounted, a short, squat, swarthy man with a rat face and quick, restless brown eyes which peered eagerly past Nigel into the red glare of the well-lit hall.

"I am Sir Aymer of Favia," he whispered. "For God's sake, tell me the King within?"

"He is at table, fair sir, and he bids you to enter."

"One moment, young man, one moment, and a secret word in your ear. Now you see it is that the King has sent for me?"

Nigel read terror in the dark cunning eyes which glanced in sidelong fashion into his. "Nay, I know not."

"I would I knew—I would I was sure ere I sought his presence. You have but to cross the threshold, fair sir, and my horse will learn from the King's own lips."

Sir Aymer seemed to rather himself as one who braces for a spring into ice-cold water. Then he crossed with a quick stride from the darkness into the light. The King stood up and held out his hand with a smile upon his long handsome face, and yet it seemed to the Italian that it was the lips which smiled but not the eyes.

"Welcome!" cried Edward. "Welcome to our worthy and faithful Beneschal of Galais! Come, sit here before me at the board, for I have sent for you that I may hear your news from over the sea, and thank you for the care that you have taken of that which is as dear to me as wife or child. Set a place for Sir Aymer there, and give him food and drink, for he has ridden fast and far in our service to-day."

Throughout the long feast which the skill of the Latin Ernoulade had arranged, Edward chatted lightly with the Italian as well as with the barons near him. Finally, when the last dish was removed and the grumpy-sounding rounds of coarse bread which served as plates had been cast to the dogs, the wine-flagons were passed round; and old Weathercote the minstrel entered timidly with his harp in the hope that he might be allowed to play before the King's majesty. But Edward had other sport afoot.

"I pray you, Nigel, to send out the servants, so that we may speak alone. I would have two men-at-arms at every door lest we be disturbed in our debate, for it is a matter of privacy. And now, Sir Aymer, these noble lords as well as I, your master, would fain hear from your own lips how all goes forward in France."

The Italian's face was calm; but he looked restlessly from one to another along the line of his listeners.

"So far as I know, my liege, all is quiet on the French marches," said he.

"You have not heard then that they have mustered or gathered to a head with the intention of breaking the truce and making some attempt upon our dominions?"

"Nay, sire, I have heard nothing of it."

"You set my mind much at ease, Aymer," said the King; "for if nothing has come to your ears surely it cannot be. I was told that the wild Knight de Charny had come down to St. Omer with his eyes upon my precious jewel and his mailed hands ready to grasp it."

"Nay, sire, I have come. He will find the jewel safe in its strong box, with a goodly guard over it."

"You are the guard over my jewel, Aymer?"

"Yes, sire, I am the guard."

"And you are a faithful guard and one whom I can trust, are you not? You would not barter away that which is so dear to me when I have chosen you out of all my army to hold it for me?"

"Nay, sire, what reasons can there be for such questions? They touch my honor very nearly. You know that I would part with Galais only when I parted with my soul."

"Then you know nothing of de Charny's attempt?"

"Nothing, sire."

"Liar and villain!" yelled the King, springing to his feet and dashing his fist upon the table until the glasses rattled again. "Seize him, archers! Seize him this instant, and close by either elbow, lest he do himself a mischief! Now do you dare to tell me to my face, you perjured Lombard, that you know nothing of de Charny and his plans?"

"As God is my witness I know nothing of him!" The man's lips were white, and he spoke in a thin, sighing, reedy voice, his eyes wincing away from the fell gaze of the angry King.

Edward laughed bitterly, and drew a paper from his breast. "You are the judges in this case, you, my fair son, and you, Chandon, and you, Manny, and you, Sir Hubert, and you also my Lord Bishop. By my sovereign power I make you a court that you may deal justice upon this man, for by God's eyes I will not stir from this room until I have sifted the matter to the bottom. And first I would read you this letter. It is superscribed to Sir Aymer of Favia, nomme Le Lombard, Chevalier de Galais. Is not that your name and style, you rogue?"

"It is my name, sire; but no such letter has come to me."

"Else had your villainy never been disclosed. It is signed 'Isidore de Charny.' What says my enemy de Charny to my trusted servant? Listen!"

"We could not come with the last moon, for we have not gathered sufficient strength, nor have we been able to collect the twenty thousand crowns which are your price. But with the next turn of the moon in the darkest hour we will come, and you will be paid your money at the small postern gate with the rowan-bush beside it. Well, rogue, what say you now?"

"It is a forgery!" gasped the Italian.

"I pray you that you will let me

see it, sire," said Chandon. "De Charny was my prisoner, and so many letters passed ere his ransom was paid that his script is well-known to me. Yes, yes, I will swear that this is indeed him. If my salvation were at stake I could swear it."

"If it were indeed written by de Charny it was to dishonor me," cried Sir Aymer.

"Nay, nay!" said the young Prince. "We all know de Charny and have fought against him. Many faults he has, a boaster and a braver, but a braver man and one of greater heart and higher of enterprise does not ride beneath the lilies of France. Such a man would never stoop to write a letter for the sake of putting dishonor upon one of his high rank. If for one, will never believe it."

A gruff murmur from the others showed that they were of one mind with the Prince. The light of the torches from the wall beat upon the lines of stern faces at the high table. They had sat like flint, and the Italian shrank from their inexorable eyes. He looked swiftly round, but armed men choked every entrance. The shadow of death had fallen all about his soul.

"This letter," said the King, "was given by de Charny to one Dom Beauvais, a priest of St. Omer, to carry into Galais. The said priest, smelling a reward, brought it to one who is my faithful servant, and so it came to me. Straightway I sent for this man that he should come to me. Meanwhile the priest has returned so that de Charny may think that his message is indeed delivered."

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSTOWN, ONT., Aug. 26th, 1913.
"I can highly recommend 'Fruit-a-Tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-Tives' for a general break-down and they did me a world of good. We bought a good many dollars' worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-Tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

Mrs. W. N. KELLY
"Fruit-a-Tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-Tives Limited, Ottawa.

Local News
THE PROBS
TORONTO, Nov. 5.—The distur-
bance, which was over the great lakes yesterday, has moved to the Gulf of St. Lawrence with diminishing energy. The weather is unsettled and showery in Quebec and for the most part fair in the other provinces with a tendency towards lower temperature in Ontario and the west.
Forecast.
Fresh westerly winds, mostly fair and cooler to-day and Friday.
BATTERY TO GO
A Hamilton despatch says: The 33rd Howitzer battery of Hamilton, commanded by Lieut.-Colonel Rennie will go with the second Canadian overseas force as a unit. General Leason will be in command of the battery and take command. He promptly complied and the battery will be recruited to war strength at once.
GOES TO GLENCOE
Mr. George Batcheller, the manager of the Brantford branch of the Royal Bank of Canada will in three weeks visit Glencoe in the West. His position will be taken by Mr. F. W. Bain of Montreal.
ARE OFFICIALLY AT WAR NOW WITH TURKEY
(By Special Wire to the Courier)
LONDON, Nov. 5, 11.35 a.m.—
It was officially announced in London to-day that a state of war existed between Great Britain and Turkey.
The proclamation to this effect, which subsequently was gazetted, read as follows:
"Owing to hostile acts committed by Turkish forces under German officers, a state of war exists between Great Britain and Turkey from to-day and all proclamations and order-in-council issued with reference to the state of war between Great Britain and Germany and Austria-Hungary shall apply to the state of war between Great Britain and Turkey."
A privy council was held in Buckingham Palace this morning to discuss this question. At its conclusion, King George signed the documents proclaiming the state of war and the announcement was made.
"Of our columns, having passed through difficult roads for a distance of 53 miles in thirty hours, encountered the Turks at Mysonne and Diyadin (about 30 miles west of Bayazid, which is the capital of the Sanjak of Bayazid). We dispersed a large body of Kurds and occupied Diyadin, where we took munitions of war and many prisoners. On November 3 we occupied Bayazid, where we routed the Turkish troops who resisted strongly."
GERMANS LOSE HEAVILY.
PARIS, Nov. 5.—A late official communication from the Russian Government is contained in a Petrograd despatch to the Havas Agency. It says:
"The losses sustained by the Germans on the East Prussian front are considerable. Of certain companies only 80 men remain. On the night of Nov. 3, we took Miawa, near the East Prussian frontier. A detachment of forty Cosacks attacked the pickets of the enemy, sabred forty and took an officer and twelve men prisoners; losing only two killed and three wounded."
A SUICIDE.
ST. JOHN, N. B., Nov. 5.—Worried because of not having received letters from his family in Genoa, Italy, Louis Denagre, aged about 55 years, a native of that country, shot himself dead this morning. He was found at the time of the shooting at a table on board the steamer Anglo-Columbian here for the British army re-mounts and the shooting took place aboard.

RUSSIA HAS WON BACK FIRST LINE
German Army Forced to Take Up New Position on River.
Enemy Will be Unable to Advance Again on Warsaw.
[By Special Wire to the Courier]
PETROGRA, via London, Nov. 5.—The new position of the German army front along the River Warthe, over 75 miles west of the city of Warsaw, which they reached at the time of the attempted attack on Warsaw, indicates the tremendous retreat of General Von Hindenberg's army in Poland during the past two weeks. This retreat is regarded as especially important, since such noted industrial centres as Lodz, Piotrkow, Radom and Kielec are recaptured by the Russians. The strategic point at Sandomir which is at the junction of the San and Vistula River, has also been retaken.
There is particular elation over Russia's advance since there now seems little possibility of the Germans regaining the lost territory because of any improvement in the roads, the conditions of which was regarded as a large factor of the German failure. The improvement of the roads is more than counterbalanced by the enormous Russian reinforcements since received. While the population of that district a month ago were vacillating in their sympathies all are now enthusiastically with the victor.
On the east Prussian frontier, the Germans have met with no success in assuming the aggressive, and at some points the Russians have even crossed into German territory. In this region, however, the German retreat was not marked by serious losses. Some of the military experts here explain that the passing of the Germans from the offensive to the defensive is due to the reports circulating in their sympathies all are now enthusiastically with the victor.
While the retreat of the Austrians operating in South Poland and Galicia is not so marked as that of the Germans, the official reports here indicate that they have moved perceptibly backward. The suspected retreat of the Austrians, is explained by the Russians as due to the fear of exposing their army to the cholera epidemic prevalent there.
TADZAR ARABIA.
PETROGRAD, Nov. 5.—The following official communication has been received from the Russian general staff:
"In Caucasia, one of our columns suddenly attacked the enemy near Ardost (15 miles south of Kars, near the boundary of Turkish Armenia. The Turks retired, abandoning their wounded."
Having dislodged the Turks from the village of Id (about 60 miles west of Ardost, on the line into Turkish Armenia) we took a great quantity of food. After a violent combat our troops seized Khorasan (in Turkish Armenia, 30 miles south of Id), and Colonel Karaderbit. One hundred Cosacks attacked the trenches of the enemy and sabred the Turkish infantry.
"Of our columns, having passed through difficult roads for a distance of 53 miles in thirty hours, encountered the Turks at Mysonne and Diyadin (about 30 miles west of Bayazid, which is the capital of the Sanjak of Bayazid). We dispersed a large body of Kurds and occupied Diyadin, where we took munitions of war and many prisoners. On November 3 we occupied Bayazid, where we routed the Turkish troops who resisted strongly."
GERMANS LOSE HEAVILY.
PARIS, Nov. 5.—A late official communication from the Russian Government is contained in a Petrograd despatch to the Havas Agency. It says:
"The losses sustained by the Germans on the East Prussian front are considerable. Of certain companies only 80 men remain. On the night of Nov. 3, we took Miawa, near the East Prussian frontier. A detachment of forty Cosacks attacked the pickets of the enemy, sabred forty and took an officer and twelve men prisoners; losing only two killed and three wounded."
A SUICIDE.
ST. JOHN, N. B., Nov. 5.—Worried because of not having received letters from his family in Genoa, Italy, Louis Denagre, aged about 55 years, a native of that country, shot himself dead this morning. He was found at the time of the shooting at a table on board the steamer Anglo-Columbian here for the British army re-mounts and the shooting took place aboard.

BORDEN CLUB OPENING FRIDAY
The opening event of the season will be held by the Borden Club on Friday evening next, when a visit will be paid by the members of the Borden Club of Paris. The visitors will put on the program, and the meeting will be an open one to all. Mayor Spence will preside, and a big crowd is expected. An excellent list of winter entertainments has been arranged by the executive, and Friday night's program will be the first.
WILD RUMORS STARTLED CITY
Report About Welland Canal Had No Foundation in Fact.
Brantford was considerably per-
turbed this morning by a rumor which was widely circulated that a wireless operator in London intercepted a message with regard to the Welland Canal and had endeavored to blow the locks to fragments. Time after time the Courier "phone rang and the query anxiously asked "Is there any truth in the report about Welland Canal." In every instance the Courier was able to give a convincing denial of the rumor to the general satisfaction of the inquirer.
The rumor had gone round extensively and also every man on the street had heard it and the impression was broadcast that villainy had been abroad. One rumor even stated that a sentry on guard had been able to shoot three of the foreigners who were found tampering with the locks.
The origin of the rumor remained a mystery, but it is ascertained that a wireless operator in London intercepted a message with regard to duty upon the Canal and mistaking the sense of the message, he thought an attack had been made upon the canal. He then sent out a message which was taken up in Brantford and resulted in such a widespread rumor which was absolutely without foundation.
British warships began the bombardment of the Dardanelles, destroying a fort.

PICTURE FRAMING

Drove Back Germans With Terrific Loss.
[By Special Wire to the Courier]
LONDON, Nov. 6.—The press bureau to-day issues the following account of what the battle front saw, witnesses reported by Col. E. D. Swinton, the intelligence department of general staff. The actual date of the news is given as November 1, and says:
"Friday, October 30. I witnessed a renewal of the attack against our lines which were in center the bombardment heavy. Indeed so many shells fell around our positions that those wires frequently were cut. The attack in the direction of Ypres generally was renewed Southeast of that town it pressed in great force and places our line was again forced back a short distance. But on left the on-coming Germans were stopped by our entanglements under a close rifle fire and a effort to advance, they gave way."
"On Saturday, October 3, most determined attack was made upon our left and center, pressure being especially against the latter portion of position. Part of our line driven back temporarily by the Germans but it was almost all recaptured again before night. Against center the enemy did not advance, while against our right they were not nearly so active they were further north."
"So far with assistance of French who have been co-operating most effectually, we have succeeded in maintaining our line and in retaining possession of Ypres, after the capture of which by the end of October, the Germans had set their heart."
"As may have been gathered from the fighting of the past five or six days, it has been eminently soldier's battle and without exaggeration or any undue self-complacency, it can be said that men have behaved splendidly. The face of heavy odds, and against the repeated onslaught of great masses, which were usually replaced by fresh men backed up by the automatic course of immense guns. I have, by their dogged resistance well upheld the reputation of our army."
"Heavy as have been our losses, we have taken a far heavier from the enemy and we have vented them gaining the object which all their energies have concentrated. And not only our troops maintained their positions, but our French allies have been fighting with all the dash which they are famous. Judged from all accounts they have met at Dixmude and along the name for themselves which never die. The Belgian army has resisted the furious onslaught of the enemy with utmost gallantry."
"The German troops also won our respect for the way which they have advanced. But their it is due to patriotic fear induced by iron discipline the fact remains that they press forward to what in cases must obviously have a certain death."
"That they are some forced to go on is shown by following answer to an interrogation put to a wounded German prisoner:
'I was enlisted in October 1913. On mobilization, the day and those backward in doing to the front, I was about 10 per cent of the company withdrawn from the active front to form the nucleus of a new regiment, which was placed by me from Baden-Wurttemberg, belonging to second section of the land. We received new gray uniforms after ten weeks of hard training we travelled for three days two nights from Thuringia to Aix-La-Chapelle, where we remained in reserve. We were then attacked by our nearest enemies were English."
"On the 17th and 18th of October we performed such fighting forced marches that men fell out on the road. On October 19, we each received rounds of ammunition, and
