APPLES

Owing to the cold, late spring the blossoming season has been very much delayed, and Ontario orchards did not bloom until the early part of last week.

It must be borne in mind that the report which follows is based entirely upon the bloom, and that many factors may interfere to change the prospects.

District 5—Apple trees are only now coming into bloom in New Brunswick, and are about two weeks later than usual.

District 6—The latest reports from Nova Scotia state that the bloom is very heavy and that spraying is more general than usual.

Districts 7 and 8—No reports have been received from Prince Edward Island or sections of Nova Scotia outside the Annapolis Valley.

Districts 9 and 10—Reports from all sections of British Columbia have been very favorable.

the crop at about 25 per cent larger than 1916.

United States Prospects

New York—Cold, wet weather delayed the blossom about two weeks, but during pollination was much more favorable.

Oregon.—The blossoms on apples has been uniformly heavy. The pear crop in Southern Oregon looks to be extremely large.

Idaho.—Prospects for all kinds of fruit were never better.

Montana—Apples promise better than normal; sour cherries average, and sweet cherries a light crop.

Washington—The prospects are exceedingly good for all kinds of fruit. Growers in Yakima Valley expect nearly a 50 per cent increase over last year's crop.

Note—A later report states that unfavorable weather in some of the above districts will seriously interfere with the "set."

Michigan—Early apples promise good crop and winter varieties, with the exception of Baldwins, fair to good.

By the time the war is over Germany will have lost more than 50 per cent of her merchant shipping.

lost by mines and torpedoes 452,000 tons, by capture by the enemy 807,000 and by loss in the harbors of the United States 2,341,000 tons.

In her home ports Germany has but 2,410,000 with which to start trading again.

TAKE CARE OF YOUR FRUIT AND EXPECT FAIR RETURNS

It seems to be a very common belief that in the event of the British embargo remaining in its present form and prohibiting the entry of apples into that country, growers may experience difficulties in the marketing of their crop.

The present indications are that the Ontario apple crop will not be greater than it was last year. During that season it will be remembered that there were never too many apples in our home markets, and although considerable quantities of fruit were shipped to Britain, there is every reason to believe that had the present embargo prevented the ocean transportation of Canadian apples, the demand in Canada would have been sufficiently great to have disposed of the crop at a fair price and without marketing difficulties.

If we would bear in mind the situation that existed in 1914, we would remember that Ontario had a particularly large crop of apples and that much of the fruit was never marketed, as growers did not consider that prices would be sufficiently high to warrant the cost of packing.

Later in that season there was an extreme shortage of Canadian apples. Canadian markets were paying high prices for such fruit as they could obtain, and in the spring months it was necessary to import American apples to meet the demand.

Growers should make every effort to produce a clean crop of apples, utterly regardless of the fact that the export market may be cut off.

There has never been any great demand for low grade apples and always a good demand for fruit of good quality.

AVONPORT

We are glad to hear that the Sunday school is rapidly progressing under the supervision of Mr. Jackson and we also are having meetings every Sunday afternoon conducted by Mr. James Denison of Kentville.

Mr. and Mrs. Nathan Schofield are enjoying good health although they are well advanced in age.

Mr. and Mrs. Samuel English spent Sunday in Greenwich.

We understand that Miss Edith Ward is coming home to take up her school duties at Welton corner.

Our school has closed for the season much thanks are due to Miss Sawyer who so willingly and carefully instructed the children of the neighborhood.

A copy of Resolution passed by Association of Medical Health Officers of Nova Scotia at annual meeting held at Halifax, July 3, 1917:

In view of the fact that smallpox has been reported from various parts of the Province, including Yarmouth, New Waterford, Sydney, North Sydney, Sydney Mines, Louisburg, River Denys Road, Antigonish, Stellarton, near Bridgewater, the Association of Medical Health Officers of Nova Scotia, in annual meeting assembled, call the attention of the people of the Province to the imminent danger which now exists and ask for general adoption of precautionary measures.

As vaccination has proved to be an almost certain preventive of the disease, the Association strongly urges that every unprotected person be at once vaccinated.

The attention of school boards and boards of health is especially called to the good which would result if vaccination were made a condition to the entrance of children into the public schools.

The last instance of boiling to death took place in Persia in 1890. The offender was guilty of stealing state revenues and was put into a large caldron of cold water, which was slowly heated to the boiling point. His bones were distributed as a warning among the provincial tax collectors.

KAISER DENOUNCED IN NEW YORK CHURCHES

"If the Kaiser is a Christian, then I am an atheist," asserted the Rev. Dr. Cortlandt Myers, pastory of Tremont Baptist Temple, Boston, yesterday afternoon at the opening service for this summer of Tent Evangel, at its new location, Amsterdam avenue and 110th street. This is opposite the Cathedral of St. John the Divine.

"If the Kaiser is a Christian, then Nero was a Christian," continued Dr. Myers, "then the red-handed African chief licking the warm blood from his axe blade is a Christian; then the devil himself must be a Christian."

"The murderous Turks have made rivers of Christian blood to run in these last years and all under the approval and protection of the Kaiser and his government."

"These red-capped fiends, demons incarnate, are the allies of Germany and German 'Christianity'."

"Great God! What a cruel mockery and mountain of shame! All this is a part of hell and not Heaven and must forever now be named right. We can no longer fool this thinking world and name this christian and give the Kaiser a church a Bible and a pulpit. This is an outrage on the Gospel of Jesus."

"If it is true that the English Church is responsible for keeping intoxicating liquors in England, thus cursing the people and hindering the victory in the war, then the English Episcopal Church must bear the judgement of God for covering this hypocrisy."

"The sooner every cathedral and church in England which stands for this and worships the demon rum is burned to the ground the better for England and the world."

"The same must be said concerning religion in America. Make it genuine or throw it away forever. The church here is damned also by her compromise with intemperance and money and power and other things. Away with it and give us reality."

That some of the little children who reached England from Belgium had their hands cut off by Germans was one of the statements made in an address of the Rev. Dr. Minifie, chaplain of the City Guards of London, in the new Metropolitan Tabernacle, No. 215 West Fifty-seventh street. He spoke on "The Tragedy of Belgium," being introduced by the Rev. Dr. W. Kemp, the pastor.

The Rev. Dr. Charles A. Eaton, pastor of the Madison avenue Baptist church, at Thirty-first street, said in his morning sermon that it was "all piffle and twaddle" to talk about "a theoretical Christianity" to Americans going to France.

The clergyman asserted in such clear terms the treatment which in his mind should be meted out traitors and pacifists that several uniformed officers of the army who were present applauded.

ITEM FROM HANTS JOURNAL  
Miss Ella Bigney, who is on the teaching staff of the Halifax Academy, passed through town Saturday evening, on her way to Hantsport, there to spend her vacation with her father, Rev. J. J. Bigney.

Pte. Clifford Smith, son of George Smith, Windsor, who recently returned with the wounded from the front, was in Halifax attending the reception to the returned heroes on Saturday and Sunday.

Miss Gena Smith, principal of Church School for Girls, and Miss Doman, one of the staff at Edgehill, left on Saturday, on an outing trip, part of which will be taken up with a run through the Thousand Isles.

Miss Blackadder, returned missionary from Japan, was in town on Wednesday guest of Mrs. Miner Miss B. spoke at a parlor meeting at the Methodist Parsonage, before the ladies of the congregation, her talk being helpful and inspiring. Refreshments were served.

ANY OTHER MAN SAID  
ABOUT CONSCRIPTION  
OTTAWA, June 26—Col. James Arthurs, of Parry Sound, who was at Vimy Ridge continued the debate on the compulsory service bill when the House opened. Col. Arthurs said there were no two opinions at the front concerning conscription. If a vote was taken not a single man would be against it. The only condition the men at the front commanded was that reinforcements be sent forward with the least possible delay. These men did not care what the premier or the leader of the opposition or any other man said about conscription in 1914.

PRISONERS AND GUNS CAPTURED BY BRITISH  
LONDON, July 5, Since the beginning of the war the British have captured 117,776 prisoners, exclusive of natives taken prisoner in the African campaigns, many of whom have been released, said Major General F. B. Maurice, director of military operations at the War Office today. The British have lost to the enemy 51,088 men, including Indian and native troops. These figures take in all theatres of war. The British have captured 739 guns during the war and lost 133. Of the guns lost 37 were recaptured and of the 96 remaining in enemy hands 84 were lost by the British on the West front early in the war. "The British have not lost a single gun on the West front since April 1915," said the General.

The Tower of London is favored as the place destined to become England's greatest war museum because a most surrounds it in which could be displayed the German submarines captured in the war. The Crystal Palace and other less famous places that have been offered as sites for the museum possess no such feature. It is planned to hold a preliminary exhibition during the coming summer.

DEAD GERMANS COVERED THE GROUND

FRENCH FRONT IN FRANCE, Wednesday, July 4 — After their strongest offensive effort since Verdun the Germans found themselves today thrown back everywhere along an eleven mile front on the Chemin des Dames, leaving the ground thickly strewn with their dead, and having failed to take even one French soldier prisoner. The French lines remained intact and the French commanding general who watched the operations throughout from the front trenches was able to declare tonight that not a single yard of territory had been lost.

Mowed Down Germans

The Germans came forward everywhere in the closest formation and in successive waves, preceded by the famous "Shock" troops, who were mowed down by the French fire. At the first onslaught in the vicinity of Cerny and on the California plateau the French were obliged to give way, but their yielding was only momentary and a counter-attack remedied the slight dent immediately and in addition gave them possession of some German trenches in the vicinity of Cerny, which they held.

The German infantry appeared to have all the dash taken out of them by the French defence and made no attempt to regain the ground lost by the French reaction. Their artillery throughout the day, however, maintained a sweeping fire, but its effects were minimized by the enemy's lack of observation posts.

Crash! Bang! Wallop!

Mrs. Newman rushed out of the dining room and saw Sara Ann sitting among the ruins of her Crowna Derby.

For an instant she was speechless with horror and anger. Then she cried: "Sara Ann, what on earth have you done?"

Sarah Ann retrieved her cap from a sea of gravy and grunted: "It's the dinner things, mum! And oh, mum, what a good thing I hadn't washed 'em up!"

Mr. Murray Hill and Sir Patrick O'Hafferty, who is visiting New York were talking about sleep and snoring.

"When I was in Orland I snored so loud that I couldn't sleep" said the visitor.

"How did you break yourself of it?" asked Mr. Murray Hill.

"It's the simplest thing in the world me dear boy. After I retired for the night I got up and slept in the next room where I couldn't hear meself

### DIAMOND WEDDING

On Tuesday June 26th Mr. and Mrs. Charles Inglis Gates of Tremont celebrated their diamond wedding by inviting a few lifetime friends to tea.

The table was surrounded by twelve guests whose united ages amounted to 905 years. The eldest and most jolly of the very social company was Mrs. Samuel Spinney who is 86 years old.

They were married June 24th, 1857, at Aylesford by the late Rev. Abram Stronach.

They commenced life like many of our ancestors in this community by carving out a farm in the "Forrest primeval." They have five children living, some died of that much dreaded disease diphtheria which science of more modern times has done so much to prevent and cure. Also 22 grand children and 4 great grand children.

By honest industry and frugality they gained a competence and a few years ago sold their farm at South Tremont and have lived a more restful life since, Mr. and Mrs. Gates are enjoying good health for people of their age and those whom they entertained so pleasantly went away wishing them many more years of happy wedded life

### \$3000,000 FOR RED CROSS

A two days' Red Cross collection drive in Boston last week, brought in \$3,000,000.

### BRITISH MADE GOOD

The proposed exhibition of British manufacturers here will not likely be held until after the war. About 25,000 square feet of floor space will be required for the exhibit.

The Nova Scotia Telegraph and Telephone Co., Ltd., has presented Prof. Sexton, of the Technical College, Halifax, a car to train returned soldiers in automobile work.

The Boston Glob: says—Those who have held the theory that continued heavy explosions cause rain will now kindly explain why they have been having blistering drought in Germany, while it has been raining for almost 40 days and 40 nights over here.

Sir William Robertson, in a recent speech in London, stated that in the armies of the belligerents there are now 21,000,000 men, not including the great civilian armies behind the front. In the present war the dead alone already are numbered by the million. During the past five weeks 200,000 tons of ammunition have been moved from the factories in England to the guns in France, an amount of freight which meant a load of 15,000 cars.

The Canadian Postal Corps in England distributed over three and a quarter million letters and two hundred and ten thousand parcels during April.

### Mrs. Egan went out the Guysboro road yesterday and brought back a little colored boy of nine years of age, who has been in the Industrial school. The little fellow, on the death of his mother, was taken to keep by an out of town family, and news reached the city that he was being brutally treated in his new home. Mrs. Egan found that the little chap's back was lacerated cruelly with the switchings he had received. They used to switch me every time I was hungry and I said I wanted something to eat, said the little fellow.—Exchange.

In this world struggle there is neither place nor time, nor any distinction of class or of color or of blood. Vimy Ridge, where General Currie led his Canadian men to heroism and deathless glory, is unalterably part of Canada's defences as truly as is Bedford Basin and the Lower St. Lawrence and the House of Parliament at Ottawa.

In this world war the front of battle is everywhere. Every man of us, in the recreant heart or in the indomitable will, is either a willing conscript or a coward.

Mr. and Mrs. J. Elmer Dunn of Nicotau visited Mrs. C. W. F. Webster of Cambridge recently.

## The Studebaker Car

### Economy—a Reason for Its Leadership

THE Studebaker Car is economical to buy because its first cost is comparatively low.

The Studebaker Car is economical to operate because its splendid quality reduces maintenance costs to a minimum.

In ratio to power it is one of the most economical cars on the market in consumption of gasoline.

It is not only light in weight, but so perfectly balanced that Studebaker owners frequently get from 8,000 to 10,000 miles on a single set of tires.

Repair parts may always be conveniently obtained at relatively low prices.

The Studebaker Car is economical to own because in ratio to first cost, a

Studebaker has an unusually high second hand value.

On the coast and in the great Western Provinces, where people test and prove their cars on the longest, hardest, hilliest drives in the entire Dominion, Studebaker cars stand up and give the service at a minimum cost for upkeep and repairs.

If economy is a consideration with you, follow the example of thousands of others—buy a Studebaker car.

Let us demonstrate to you the quality and economy of a real Canadian-built car.

Let us show you its splendid power and easy riding comfort.

Call or telephone today for a Studebaker demonstration.

**PROMOTED FOR CONSPICUOUS BRAVERY**

Mrs. Charles E. Robinson, of Lakeville, has received word that her son Lester, who enlisted in the 112th and was later transferred to the 25th, has been promoted to the rank of Sergeant, for conspicuous bravery when his company went over the top in a recent battle; and he is now an instructor in one of the training schools in France. Lester was a bonnie lad and a great favorite among friends, who will be glad to hear of his good fortune. The news of their son's promotion closely followed a cablegram stating that another son, Burnie, had been wounded and was now in a hospital in France. These two brothers, doing their bit so bravely and so well, are a splendid example of the glorious manhood of Nova Scotia's sons.

**MAJOR J. L. RALSTON SLIGHTLY WOUNDED**

**OUR HONOR ROLL**

**PRIVATE PHILLIP BEALS**

The sad news has come to Mrs. Phillip Beals and also to Rev. F. H. Beals Lawrencetown, that the former's husband and son of the latter had been killed in action in France.

Private Beals was the owner of a farm at Morristown when the call of his country appealed to him. In his patriotic response he sold his farm, left a wife at home and enlisted and with his regiment has been doing good service in France. The news of his death will be a great shock to his young wife, his father and mother, Rev and Mrs Beals, who have recently left Wolfville for Lawrencetown and his brother and sister at home.

Had conscription been the law in Canada Private Beals would probably never have been allowed to leave the most necessary work of production on the farm and a young wife besides, when so many others both athletic and single in towns, cities and elsewhere are frequenting pool rooms and places of amusements rather than helping to win the war.

**VERNON WILSON**

On Thursday Morristown was deeply stirred to learn that Private Vernon Wilson had been killed in action. He is a son of Private Norman Wilson, the father and son serving together in the trenches. He was a fine type of manhood and highly esteemed at home as well as with the Highland Brigade.

**PRIVATE MELVERN KINNEY**

Mr. J. R. Kinney of Windermere in this County has been called upon to mourn the death of one of his heroic sons. He has three all serving in the artillery and word came home to the relatives last week that Melvern had been killed while fighting in France. The three noble Kings County boys whose death is recorded here Phillip Beals, Vernon Wilson and Melvern Kinney were all comrades and neighbors. The families will have the sympathy of all in their bereavement and we feel sure that when particulars are forthcoming they gloriously upheld the best traditions of our true Canadian boys.

**GUNNER ROLAND A. TURNER**

Rev. W. R. and Mrs. Turner of Middleton have received the saddest of all news that their noble son, Gunner Roland F. Turner of the Canadian Siege Artillery was killed in action June 26th. He is a grandson of Mr. and Mrs. Enoch Collins of Wolfville.

**CORPL. ROBERT ALEXANDER MUIR**

A large number in Kentville will regret to hear of the death in action of Corporal R. A. Muir son of Michael Muir, New Glasgow. This young man enlisted at Kentville having resided here for a year or more being a pattern maker in the D. A. K. shops. He was a young man of fine talents, was a most attentive usher, etc., at St Paul's Presbyterian Church and won the name of Stonewall Muir as a goal keeper with the Kentville Hockey team. He was attached to the infantry at the front.

Mrs. Gullison, wife of Rev. R. E. Gullison has gone to Halifax with her family and will go to Yarmouth County to spend the summer.

Miss Flossie Harvey who has been stenographer with the Colonial Fertilizer Co., Windsor, had to go to the hospital at Windsor a week ago Friday for an operation for appendicitis. She has recovered rapidly since.

The opening night at the Arena was a most successful occasion. The rink was prettily decorated with flags and the shining flood with the roller skaters was a pretty sight. Later in the evening when the dancers took their places on the immense floor it presented a still more attractive appearance. The Arena is one of the largest floor spaces for roller skating in the Province. The attendance was very large.

Mrs. J. W. Turner, Kentville, has had a great number of letters of sympathy and enquiry since the death of her daughter Mildred from diphtheria. As the family is still under quarantine she is unable to answer letters personally. She desires in this way to express her heartfelt thanks to all her friends for kind words of sympathy. She will be unable to answer letters for some time. The other members of the family have been ill but will soon all be well again.

Mr. and Mrs. John Caldwell wish to express their sincere thanks to the neighbors and friends whose untiring efforts saved so much of their furniture from destruction at the time of the burning of their house and barn and especially to those who loaned their gasoline engines which were so instrumental in saving the post office. Such kindness will not soon be forgotten.

**NOTICE OF ASSIGNMENT**

Notice is hereby given that Mrs. Cassie Mitchell of Wolfville in the County of Kings, Merchant, has by Deed of Assignment dated the 2nd day of July, 1917, made under the provisions of "The Assignment Act" and amendments thereto, assigned all her property to me in trust for the benefit of her creditors.

**Notice of Meeting of Creditors**

A meeting of the creditors of the said Mrs Cassie Mitchell will be held at the Court house, Kentville, Kings Co., on Thursday the 19th day of July, 1917, at the hour of 3 o'clock p.m., to receive a statement of the affairs of the Estate and for the giving of directions with reference to the disposal of the same. Creditors are requested to file their claims (proved by Affidavit) with me on or before the day of said meeting.

When J. Kenneth Dawson, of Bridgewater died several years ago, he left a will which was a model for others who have a generous portion of this world's goods. This will directed that \$20,000 and a lot of land be given to town for a public hospital, provided another \$20,000 was raised for the same purpose. This latter proposition is being laboriously and slowly worked out by the Town Council. Another thousand was left for the beautification of their pretty cemetery. This money has been expended for a handsome fountain which is now being placed in position on the top of a hill in the cemetery. It is a beautiful piece of work and will be called the Dawson Memorial Fountain and will perpetuate the name of the generous donor. The proposition is to publicly turn on the water in this fountain on Sunday afternoon at three o'clock if all is in readiness.

The Canadian Senate, as at present constituted, consists of 38 Conservatives and 39 Liberals, with 10 vacancies. The vacant Senate seats are: One from New Brunswick, 3 in Quebec, 1 in Manitoba and 5 in Ontario. It is understood that several other appointments will be made shortly, so as to assure the Government a majority in the Senate on the Conscription Bill.

Nearly 400 motor vehicles throughout the Province were registered in May, and there will be as many more in June. There have been over 6,000 registered since the Provincial Registration Act came into operation, there having been about 1,300 since September last and it is estimated there are at least 4,000 operating in the Province today.

After praying for forty years for a baby, a New Jersey couple placed an ad in a newspaper and that same night a bouncing boy was left on their doorstep. Prayer is all right if you are not in a hurry, but for quick results, use printer's ink.

While fishing in the Bay of Fundy recently, a motor boat occupied by Walter and Hillyard Barnes, of Digby, became disabled. Mr. Wm. Ellis and son Archie immediately went to their assistance. A heavy sea was running at the time and the town line catching in the propeller, in some way knocked Walter Barnes overboard. Much credit is due Mr. Ellis and son and Walter's brother Hillyard for the skillful manner in which they rescued Walter from drowning.—Monitor.

Bridgewater Bulletin—Mrs. R. G. Sprague has received a letter from her husband at Karlsruhe, Germany, who was steamer the Pontiat, torpedoed in Adriatic Sea. Captain Sprague writes: "The Pontiat was torpedoed at 5.30 p. m., and sank in about thirty minutes. The third officer was drowned getting into the boat, Mr. Still and myself were the last to leave the Pontiat, at that time the water was on deck aft. Was only in the boat a few minutes when the submarine took Mr. Still and me prisoner. We were six days on the east side of the Adriatic (Cattaro Montenegro), were four days there and seven and a half days on the train getting here. The remainder of the crew left in two life boats and I trust have been picked up." Capt. Sprague goes on to say that he is well and getting along all right, but expects to be moved to another camp. He lost most of his clothes.

stated by Senator Robinson, is "to increase efficiency and energy during the war." When such a law was first urged in England years before the outbreak a House of Commons committee foresaw that it would "facilitate the training of the territorial force, reduce the industrial, commercial and domestic expenditure on artificial light, and benefit the physique, general health and welfare of all classes in the community." The experience of ten countries during the summer months of 1916—the first year of the operation of the plan for all of them—has amply justified that forecast. It has also shown that daylight saving, advocated originally as a peace measure, adds enormously to the resources of a nation at war.

**DEATH OF DR. F. W. KELLEY**  
The death of Dr. F. W. Kelley took place at Montreal on Saturday last, aged 73 years. He was a man well known in Kentville and Kings County having spent many years of his vacation visiting his sister the late Mrs. Guy Morton and other persons. He stood high in educational circles and had been senior master at the Montreal High School for thirty-two years. He was a native of Steiwick and graduated in 1871 from McGill University.  
He is survived by his widow, who was Miss Jean Hart, formerly principle of the Girls High School.

...A CONCRETE ILLUSTRATION...  
Vancouver World.—If a savage had broken into your neighbor's house and had killed your neighbor:  
And if the brute, crazed with the blood he had shed, attacked your neighbor's wife and daughter committed unmentionable outrages upon them;  
And if your neighbor unarmed and unprepared was unable to overcome the savage though he made a most gallant fight;  
And if your brother came to the rescue and unarmed and unprepared fought the murderer for a whole day;  
And if you had come to his help and together you managed to get the upper hand for a moment;  
And the savage then got a renewed access of strength and your brother needed all the help you could possibly give him in order finally to bind the beast that was threatening his life and yours and the lives of everyone else in the world;  
cause you had done enough and really  
And then you proposed to quit be-

What would you think of yourself?  
Yet this is what our anti-conscription-

Mr. Will Crooks, M. P., in an interview, said that he was within a hundred yards of the place where the bomb was dropped on the Country Council school referred to by Mr. Bonar Law in the House.  
He immediately threw himself to the ground, and after the explosion went home to ascertain if his wife was safe, and then did all he could to comfort the hundreds of mothers who flocked to the vicinity of the disaster. A number of bluejackets ably assisted the police in their efforts to alleviate the sufferings of the victims.  
Mr. Crooks expressed his astonish-  
of the schoolroom should have escaped, seeing that the four walls were blown out and the desk and other portions of the furniture blown to atoms.  
One poor woman to whom Mr. Crooks spoke stated that her 6-year-old boy had been blown to pieces.  
Mr. Crooks, who has only recently recovered from a severe illness, was much upset and shaken by his experiences, and expressed his intention of returning home at once.

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions.

Duties—Sirs months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain districts Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or rocky land. Live stock may be substituted for cultivation under certain conditions.

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

Russians Are Attacking Turks

Petrograd, July 5th. — The Turkish troops that were forced out of Panjwin, on the Mesopotamian front, by the Russian occupation reported yesterday, have retired to positions on heights west and south of the town where the Russians are attacking them, the War Office announced today.

A German airplane attack on the Russian aviation base on the south end of the Island of Oesel, off the Gulf of Riga, was rendered futile by gunfire from Russian ships and land batteries, says an official announcement today.

The colors of the first detachment of the Petrograd women's regiment were blessed in the square of St. Isaac's Cathedral today. More than two hundred women with their hair closely cropped and in full uniform were present armed with rifles. Don Cossacks and sailors furnished a guard of honor.

Subsequently the women paraded through the Nevesky Prospect and other streets, carrying banners with the inscriptions: "Death is better than Shame," and "Women do not give your hands to traitors."

TO LET—large furnished room, on ground floor, suitable for two. Apply to Box 187.

A CANADIAN'S CALL TO ALL CANADA

The following clarion call to arms is from the Toronto Globe the leading Liberal paper in Canada:

"It is an imperative and urgent necessity that steps be immediately taken to insure that sufficient drafts of officers and men are sent from Canada to keep the corps at its full strength.

"Imperative!" "Urgent!" "Necessary!" "Immediately!" "Officers and men!" Those ringing words, like the shattering explosive shells that cleared the way before his rushing men on the slopes of Vimy Ridge, come straight from the heart and brain and conscience of General Sir Arthur Currie to the hearts and brains and consciences of all other Canadians in every part of Canada. And they come today.

They are not the excited declaration of the extravagant rhetorician. Neither are they the calculated words of a professional militarist. The man who spoke them gives himself, the pride of his manhood and all there is in life for him, in pledge of their simple truth. In the back of his mind persists imperishably the peaceful scenes of his own Canadian boyhood's home.

When Arthur Currie wrote these words in Flanders last week he knew that, published in Canadian newspapers they would be read in the Currie family circle in West Middlesex, and by men and women who were his chums on the concession-lines and the cross-roads out from Strathroy twenty-five years ago.

For such a man, under such circumstances, there could be no playing to the galleries. In his cabled despatch to Sir Robert Borden, published yesterday, he said:

"I note with special gratification your assurance that the troops in the field can rely on Canada giving them all necessary support. They have given their blood freely to maintain nation's honor, and now confidently expect that the full fruits of their sacrifice will not be prejudiced."

And then follows his challenging appeal "that sufficient drafts of officers

and men are sent from Canada."

"That appeal must be heeded. It will not do. The man who speaks it is one of ourselves, bone of our bone, flesh of our flesh, blood of our blood. Not to answer, not to answer with the best the nation breeds, would be for Canadians treachery of the blackest shame. No matter what the men in Parliament may do about conscription and the selective draft, the rest of us throughout the country, with whom rests the honor of Canada as surely as it rests in Ottawa—we must with one strong and steady voice, with one stout and courageous shout, make answer: We come!"

And, come we must, with whatever service we can render, with whatever sacrifice is ours to make—come we must! We dare not wait till next week, or next month or next year. We dare not postpone our decision until Parliament passes a conscription law. In the judgment hall of our own lives the eternal law of service in law now; and is law for us. We are conscripts. All we have of liberty, of material possessions, of life itself—it is all conscripted now, for the service of the world, in this supreme sacrifice for the rights of all humanity.

WHAT LONDON SAW People Kept Their Heads And Went To Rescue of the Injured.

The aeroplanes were flying at a tremendous height, and when first sighted, a few minutes before 12 o'clock, were between 16000 and 17000 feet high.

The morning was beautifully clear, and although aircraft at that height are more often than not totally invisible, the German raiders were quite visible to the naked eye.

The first bomb was dropped in the vicinity of a newspaper office. Almost as soon as the detonation had started the people the guns of the anti-aircraft batteries blazed forth.

At first some difficulty was experienced in believing that the long promised daylight raid had at last come about. But there was no panic. The public behaved with exemplary coolness and courage.

No sooner did a bomb drop than an enterprising party of willing helpers set about succoring the wounded.

Followed by the white puff balls from the shells of the British anti-aircraft guns, the raiders pursued their nefarious way across the heart of the City, dropping bombs, with frightful regularity.

Oblivious of any danger to themselves, passers by stopped in the middle of the roads and took the chance of being run over rather than lose the opportunity of seeing the sight—if "sight" it should be called.

Although considerable damage was done by the incendiary and explosive variety which were dropped in the City, by far the greater damage was done to property and persons in the poorer parts attacked.

A district not far removed from the City, and another immediately eastward of the City, seem to have been more severely visited than any other part.

In one small area covering but a few hundred yards, more than a dozen bombs were dropped. Here, naturally, the casualties were very heavy indeed, both in actual lives lost and lighter casualties.

No sooner, however, had the murderers departed than these poor people taught for years the necessity of self-help, formed themselves into bands of mercy and, until the police arrived, performed miracles of rescue.

Minard's Liniment Co., Limited.

Dear Sirs—This Fall I got thrown on a fence and hurt my chest very badly, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

GREECE PREPARING TO SEND TROOPS INTO MACEDONIA

Venizelos Calls Army to Athens for Conference—How Relations Were Broken.

Athens, July 2—Premier Venizelos has invited the chiefs of the Greek army corps at Peloponnesus to come to Athens. Most of the officers have accepted the invitation, and are arriving in the capital. The premier will discuss with them the question of sending forces to Macedonia.

Vienna, via London—The rupture of diplomatic relations between Greece and Austria-Hungary was preceded by a statement which the Greek minister at Vienna handed the foreign office on Saturday. The statement reads:

"Now that unity has been restored between the two parties which have hitherto divided Greece into two camps and the Greek troops fighting on the Macedonian front, the government of Greece sees itself obliged to break off relations with Austro-Hungary."

The minister then asked for his passports. He said the Greek interests would be entrusted to the Dutch legation.

Germany Notified.

Amsterdam, July 2—According to the North German Gazette the Greek charge d'affaires at Berlin has handed the German government a statement notifying the foreign office that Greece felt herself obliged to break diplomatic relation with Germany."

PROPOSED NEW INDUSTRY FOR HALIFAX

Mr. J. E. Chipchase, the Eastern manager for Hinde & Dauch Paper Co., of Canada, Ltd., manufacturers of corrugated and fibre containers, has been in the city for the past week interviewing the box users and gathering the box data, with the view to the further development of this industry in the Maritime Provinces.

This being Mr. Chipchase's first visit to Halifax he expresses himself as being delighted with the cordial reception he has met with from the business men of the city, and is much enthused with the possibilities of this industry here.

The corrugator and fibre box business in many shipping centres has reached very large proportions owing to the lumber situation not being as favorable to box conditions as it has been in these Provinces. The packing of various commodities is now most favorable to the corrugated and fibre box business, and will therefore liberate large quantities of lumber for more useful purposes.

Two American ladies, Miss Alice D. Seward, of Geneva, N.Y., and Miss Emily L. Tuckerman, of New York City, hearing of the cordial welcome given to the returned men on their arrival at the Pier at Halifax by the Reception Committee, were desirous of doing something on their own account to help in this good work.

They got up a sale of "Canadian War Cake" recipes, with the result that a cheque for the substantial amount of \$100 was remitted by them to their friend, Mrs. Charles Archibald, Inglis Street, to be given to the Treasurer of the Fund. This kindly act is much appreciated by the Reception Committee, and it shows that their work in welcoming the men is recognized surely is a good thing for people abroad to know that our Canadian heroes are well treated when they land at the Port of Halifax—the Gateway of Canada.—Halifax Chronicle.

EAST ST. POUL, Ill., July 2—Raco riots tonight have resulted in great loss of life estimated at midnight at probably 250, virtually all negroes. The torch was applied to the negro settlement and the district is in flames.

Will Women Volunteer?

They may Serve, if they wish, in the Last Line of Trenches The Tilled Fields

Thousands of the men who used to do the farm work in Nova Scotia are now fighting overseas. Their places must be filled. Yet the required number of men is not forthcoming. There are more jobs than there are men available.

Therefore Women are Asked to Volunteer for this Work

We want the names and address of all women in this Province who are able to engage in a healthful open-air occupation. Applicants should state the date they can begin work and length of time they can spend on the farm. Wages according to ability, will be paid. We believe that the women of Nova Scotia will respond to the call of the land as promptly and as efficiently as did their sisters in the countries of our allies.

APPLY AT ONCE to either W. E. PORTER, Kentville; H. E. CALKIN, Wolfville; JOHN E. WOODWORTH, Berwick, Secretary FARM LABOR EXCHANGE, or to the SECRETARY OF INDUSTRIES and IMMIGRATION, HALIFAX.

STRAWBERRY PICKERS WANTED

ALL women, Boys and girls in KINGS County who are willing to help the strawberry growers during the picking season, are asked to send in their names at once to any of the following SECRETARIES OF FARM LABOR EXCHANGE: —

W. E. PORTER, Kentville; H. E. CALKIN, Wolfville; JOHN E. WOODWORTH, Berwick,

or to the SECRETARY OF INDUSTRIES, & IMMIGRATION HALIFAX

### MINE OWNERS AGREE TO SWEEP- ING REDUCTION IN SOFT COAL PRICES

Washington, June 28—Sweeping reductions in the price of bituminous coal at all mines east of the Mississippi river ranging from \$1 to \$5 a ton to the public, with a further cut of 50 cents to the government, were agreed on today at conferences between the operators and government officials. The new prices become effective July 1.

Four hundred operators who gathered here yesterday at a call from Secretary Lane and pledged themselves to furnish their product at a reasonable price were represented in the final conferences by committees from each field.

Earlier in the day they had agreed to place the price fixing in the hands of the government through the defence council's coal production committee, Secretary Lane and Commissioner Fort, of the federal trade commission, thus avoiding the possibility of violating the anti-trust laws.

Director Smith, of the geological survey, estimated that the reduced prices would mean that the operators get \$180,000,000 less annually for their output and that the saving to the government and the coal consuming would be even greater.

In addition to placing prices upon coal at the mines it was announced that jobbers, brokers, retailers and commission men would be permitted to charge commission of not more than 25 cents a ton and that no more than one commission should be charged. In other words the consumer will get his coal at the mine price plus transportation charges and 25 cents per ton.

### A GENUINE JOY RIDE

On Friday, June 29th as happy a load of individuals as ever landed at Halls Harbor, was that of about fifteen of the Cornwallis Alms House who were taken by the Manager, Mr. J. S. Slaughter, white to the sea shore. No elliptical springs or rubber tires ever seemed half so soft as the bounteous supply of straw in the capacious hay wagon as it bounded over the road. Every one enjoyed the outing and this is but another evidence of the care and attention which our unfortunate poor of Cornwallis is receiving at the hands of Mr. and Mrs. Slaughterwhite and the overseers in charge.

### SAW MILL AT MORDEN DESTROYED

The saw mill near Morden, Kings Co., owned and operated by Boyd Dorey, was destroyed by fire in the early hours of Friday morning, June 29th. How the fire originated is a mystery as Mr. Dorey was at the mill some hours after closing time and left everything safe, as he thought. A neighbor, passing about 11 p.m., saw no signs of fire, yet at 2 a.m. the building was so far gone as to make it impossible to save any part of the machinery. It is a great loss to Mr. Dorey there being no insurance, and much sympathy is felt for him. He is an enterprising, industrious young man. We hope to see him building up a successful business in the near future.

### DISASTROUS FIRE AT CAMBRIDGE.

On Friday before the noon hour, the alarm of fire was sounded and the firemen started for Cambridge in autos and on a special train with ladder wagons, etc. The fire started in one of the warehouses at Cambridge and was all in flames when discovered. Soon the old and new warehouses of Howard Bligh & Sons was consumed, considerable contents being removed and the house and barn of Mr. John Caldwell, adjoining were also destroyed, but contents saved.

The Post Office and other building near were saved by hard work.

### LOCAL AND GENERAL NEWS

### SERVICE AT BAPTIST CHURCH

On Sunday morning the service in the Kentville Baptist Church was taken by Corporal Griffith of the 249th Battalion, Saskatchewan who is now taking a course at the School of Instruction here. Corporal Griffith left charge of a Methodist circuit in Saskatchewan to join the ranks and defend his country. He gave an excellent sermon.

In the evening Capt. Minard who is finishing a qualifying course at the School of Instruction gave a most interesting address on social service, including national, social and christian service. Capt. Minard is an authority on this subject, and although not a preacher is a talented speaker and has presented this subject in many of the pulpits in Ontario and Quebec.

He spoke most feelingly of the way the young soldiers could be helped by kind words and attention and by remembrances when in the trenches. Few who listened to Capt. Minard knew that on Friday last he received word that one of his sons at the front had been killed in action. Mrs. Minard is in Kentville and was formerly a resident of Cornwallis.

### Great Strawberry Crop

Mr. Sam Chute's fruit farm at Berwick is now a veritable hive of industry. With orchard, field crops, beans, strawberries, etc., to care for, it requires quite an array of people to look after all. Mr. Chute expects to produce this season over 60,000 boxes of Strawberries and the season is in full swing, and the fields are filled with girls, boys, etc., picking the luscious fruit. This week a group of young ladies will arrive from Halifax to assist Mr. Chute in berry picking. They will show how competent city girls can become in farm production. Mr. Chute has a splendid crop of 28 acres of beans under cultivation and they are looking fine.
