Mr. Soott was also on the platform. The meeting was brought to a close with prayer by Mr. Rae.

THE CANADIAN PACIFIC.

The Globe has got a fresh grievance, an it is this: "THE BUILDING OF THE ROAD A " SUCH EXCESSIVE SPEED IS INJURIOUS TO THE COUNTRY, IN THAT IT SCATTERS SETTLEMENT

"INSTEAD OF CONSOLIDATING IT." Sir John Macdonald was abused to th utmost for undertaking to have this road built in ten years, as it was years; but now that the work is progressing so rapidly that we begin to feel the beginning of the end within a very limited time, the poor Premier must catch it for not having "neerted a clause in the Speech from the Throne "as it should have been," that the road was being brilt far too " rapidly. It is quite impossible to follow the various objections, changes of base and twistings of the Globe and the Grit party on the question of the Pacific railway There is hardly a position possible that they have not taken and abandoned. Another great objection to the scheme at first was that the road never could be built out of the resources of the country; that Canada never could borrow enough to pay for a couple of hundred miles a year; but when a thousand miles are paid for and no meney is required to be borrowed at all, and instead of having deficit after eficit as used to be the case under Si Richard Carlwright's management, now that we can pay all ovr debts as we go along, and report seven milions of dollars surplus, oh! we are robbing the people The people, however, seem to be satisfied, and last June reaffirmed their satisfaction with the state of the country in the most varistakeable mapper Everyone who supported the Federal Govent on that occasion, and prevented by their votes an upheaval of all businessirelations throughout the covnery, should now vete for the overthrow of the most

The Montreal Witness is a great admired of the Mowat Government and of the Crooks Act but it has the candor to admit the blot in its administration. It says:
"In probably two-thirds of all the countes in the Province every member appointed to the license board is a member of the H. LOOH, - 89 WYNDHAM ST. Reform party, and a large proportion of them are very active men in party ranks. So far as we can learn every License Inspector appointed is a reformer, and in a large number of cases the appointments seem to have been made more with a view of rewarding mon for past party service than with that of special adaptation of the men for their work. It would have been much better for the success of the Crooks Act ard much more to the credit of the been otherwise made.

James West Sanuel, claiming to be a Glasgow councillor, who had left the old country to speculate in Canada, has evidently been unauccessful, being unable to pay a fine of \$5 inflicted for drunksnness this morning and going down for three days in default. The old gentleman seemed quite at home in the police court, and would have gone on chatting pleasantly concerning his private affairs had not the sentence brought him to time.

A general improvement intelligence trave is reported this morning, though it will apparently be some time before matters can assume their ordinary course. The lines most affected appear to be the Grand Trunk branches running north; the Morthera branch lines; the Midland above Peterboro' and north to Midland, and the Toronto, Gray & Bruce, which has five hundred men at work endeavoring to clear the track.

CHADWICK & CO., HERALD," GUELPH Will find on inspection that the new firm of PET-LEY & PETLEY are selling Carpets at Lower prices than any house in the trade. "The reason is" that they buy largely and pay prompt Cash, and no wholesale house in Canada can buy and sell carpets at lower prices.

We particularly desire to call the attention of Housekeepers to our immense stock of best quality five frame Brussels, Tapestry and Wool Carpets, for which we received a Silver Medal and Diploma at the late Industrial Exhibition. We would therefore request intending purchasers to inspect our stock and compare prices.
