

WOULD STAMP OUT RACING.

Methodists Want That Racing Charter Revoked, Too, And All Betting and Gambling on Race Tracks Prohibited.

Work of the Citizens' Campaign Committee Approved.

Many important questions were discussed yesterday afternoon at the financial district meeting of the Hamilton Conference, all bearing on the spiritual progress of the church.

Two resolutions were passed. One dealt with the attitude of the conference toward the work done by the Citizens' League and read as follows: "Resolved, that we, the members of the Hamilton district of the Methodist Church, express our great appreciation of the excellent work being done by the Citizens' Campaign Committee of Hamilton in connection with the work of temperance and moral reform, and we wish to assure it that we are in hearty sympathy with it, and will spare no pains to bring to a successful issue the great work in which it is now engaged."

The second resolution passed had reference to race track gambling, and was as follows: "We, the members of the Hamilton district of the Methodist Church here assembled, composed of ministers and laymen representing 25,000 citizens within the boundary of the district, take this opportunity of strongly protesting against the granting of the charter by the Department of the Secretary of State to the Metropolitan Racing Association, believing that the betting and gambling generally associated with the race track is most demoralizing in its influence and injurious to the welfare of the state. This district meeting would also heartily commend to our people the action of the Social and Moral Reform Department of our various churches in seeking to check this evil by petitioning the Dominion Parliament at its next session to cancel the aforementioned charter, and to amend the criminal code as to make illegal all betting and gambling in connection with the turf, and thus protect our people and especially our youth from the encroachments of this growing vice."

SMALL SUIT

Brought By Big Man Who Recovers \$2.87 Without Costs.

An interesting case was tried at the Division Court this morning by Judge Monck. The action was brought against Richard Baird by T. J. Stewart, M.P., for \$6.50 for repairs to an iron gate on property which the plaintiff claimed was leased or occupied by the defendant in 1904. The defendant alleged that the work was done in 1901 and his solicitor, Mr. Telford, argued that the action was barred by the statute and that the defendant didn't order the work. Mr. Baird contended that the plaintiff had never demanded the money until after there had been a row and he was mad at everybody including the defendant.

W. M. SOCIETY

Board of Managers Meet Here Next Week.

The Board of Managers of the Woman's Missionary Society of the Methodist Church, Canada, will meet in this city in Centenary Church on Sept. 28 and three following days. Between fifty and sixty delegates will be present, representing the society from the Atlantic to the Pacific. On Tuesday evening Mrs. Ross, president, will say a few words upon the splendid work of the branches, which made possible the missionary effort at home and abroad. The report will be presented by Mrs. Kerr, of Toronto, and Mrs. Strachan, of Hamilton. Miss Brooks, from China, will give an address.

The address of Rev. T. E. Egerton, M. A., B. D., on Wednesday evening will be his first since his return from a missionary trip around the world. Hamilton should give him a warm welcome home. A reception will be given the delegates and their hostesses by the Centenary Auxiliary.

GREAT PAGEANT AT NEW YORK HARBOR.

All Units For Marine and Aeronautic Spectacle Ready For To-morrow's Demonstration.

New York, Sept. 24.—All the units which will compose the magnificent marine and aeronautic spectacle during the celebration of the 300th anniversary of the discovery of the Hudson River and the 100th anniversary of Fulton's first trip up that river in a steamboat were gathered in and about New York to-day with the single exception of one of the aeroplanes. And a strange and wonderful fleet of marine and aeriercraft they would have made if assembled in comparison. Here was the little Half Moon in which Hudson navigated the river three hundred years ago.

Across the harbor was the reproduction of the Clermont, capable, at the best, of steaming seven miles an hour with her uncovered paddle wheels, in striking contrast with the great turbine liner Lusitania, which came in this morning. Lying outside Sandy Hook Bar with three other British war vessels was the splendid British battleship Inflexible, one of the heaviest hitting, fastest and most costly of the British navy. Four German cruisers, the Victoria Luis, Hertha, Dresden and Bremen, came up the harbor amid salutes from the batteries, which they returned gun for gun, and took their places in the long column of American, French and Mexican ships already at anchor in the Hudson. The Inflexible, with Admiral Sir Edward Hobart Seymour in command, joined the other British ships off Sandy Hook this morning, and anchored there at the head of the British column, awaiting a favorable opportunity to come up the bay. This ship with her splendid armament and high speed is regarded as one of the most interesting sights of the great assembly. With her arrival the gathering of the fleets was complete, for the harbor was already dotted with beautiful steam yachts in readiness for the naval parade to-morrow, when the Half Moon and the Clermont will be escorted around the harbor and up the Hudson River to be saluted by the warships anchored there.

In the city itself the fever of preparation for the ceremonies beginning to-morrow was at its height. Every train swelled the numbers of visitors from all over the country, and hotels were beginning to be crowded with guests.

TO IMPROVE THE SERVICE.

Checking Routes on Which Traffic Is Heaviest.

Road to Guelph Must be Completed by 1911.

Company Got a Year's Extension by Spending \$100,000.

With a view to ascertaining the routes on which traffic is heaviest so that the service can be better regulated, the Street Railway Company to-day has men stationed at different points along the system, checking up the number of passengers on each car. This will be continued to-morrow and the company hopes to have enough data to make changes. It is understood some of the new cars, which the company is getting, will be hers this fall, and the officials are using this method of deciding on which routes they shall be placed. The cars were stopped at the following points to-day, while the passengers were counted.

Catherine and King streets, James and Gore streets, Catherine and Barton streets, Bay and King streets, Hunter and James streets, York and Bay streets.

An attempt was made to check the cars yesterday, but it had to be abandoned on account of the power going off.

The Cataract Power Company to-day forwarded to the City Clerk the accounts for the power used in July and August of this year, which were returned some weeks ago by the Board of Works, which refused to acknowledge that the city was liable under the power contract made by last year's Council. The company was told that the accounts in any event should have been sent to the City Clerk. Copies were not only sent to Mr. Kent but also to the Board of Works, with an explanation that the company would not be billing the city under the contract of 1908, if it was not perfectly sure the contract held good. This is taken as an indication that the company is prepared to fight the matter out in the courts.

City Solicitor Waddell to-day looked up the Hamilton, Guelph & Waterloo Railway by-law, and finds that the company has until Dec. 31 of this year to build to Galt, and until the end of next year to build to Guelph. The time, however, was to be extended for a year if \$100,000 was spent on purchase of right-of-way, grading, or construction. The company has spent that much on its right-of-way, which means that the road must be completed by the end of 1911. Work will be begun in the spring.

Mayor McLaren is one of those who will thoroughly appreciate direct communication with Guelph. He returned from there this morning, where he was attending the waterworks celebration yesterday, and expressed his disgust with the wretched service between Hamilton and Guelph. It took over four hours to go there yesterday, and almost as long to get back this morning.

Fire Chief Ten Eyck will ask for a new combination wagon for the central station next year.

John Shuart was granted a permit to-day for a brick house on George street, between Ray and Queen streets, to cost \$2,500.

Pickles and Preserver.

We have a handy recipe book for free distribution if you will call and ask for it. There are many first-class recipes between the covers. Bear in mind we sell the best spices that can be had, and our stock is always fresh.—Parke & Parke, druggists.

SHOULD NOT HAVE PAID.

The action of F. C. Mills against M. Robinson was disposed of by Judge Monck this morning. Mills sued for \$1.50 witness fees, and swore he paid these by reason of a false affidavit sworn to by Robinson. His Honor held that Mills should never have paid the fees in the first place, and dismissed the case without costs.

WANT GIBSON TO RESIGN.

Trades Congress Will Demand Lieut.-Governor's Head. Because of Remarks at the C. M. A. Banquet.

Endorsing Sentiment Barring "Strike Agitators."

The Canadian Trades Congress, now in session at Quebec, will demand the resignation of Col. J. M. Gibson, Lieutenant-Governor of Ontario, as a result of the remarks he made here last week at the banquet of the Canadian Manufacturers' Association, endorsing the sentiment expressed by President Hobson in his annual address to the effect that international labor officers, or strike agitators, as he termed them, should be barred from Canada. Word to that effect reached here shortly before press time to-day. The local Trades and Labor Council at its last meeting decided to invite Mr. Hobson to meet that body and discuss the matter with them. The latest sensational development is sure to arouse great interest in labor and manufacturing circles throughout the Dominion.

The Lieutenant-Governor in his address prefaced his remarks, endorsing President Hobson's observations about "strike agitators," with some significant statements about the treatment accorded the electrical companies by Hamilton. A shorthand report of that part of his address was as follows:

"Were it the proper thing to do—but it is not—I would prefer to speak here to-night as a citizen of Hamilton and of Hamilton's industries and progress. I was a manufacturer myself, or thought I was, in the production of electric power in this city. (Laughter.) That was an industry which was looked upon with great favor and popularity before it came into existence. (Laughter.) After the experimental stage had been passed, and it seemed almost possible that it would be a success, there were grave misgivings on the part of the public about those who were engaged in the business. (Laughter.) And afterwards when it was a success, and what were supposed to be advantages were given to Hamilton, such as cheap power from thirty-five or forty miles away, those of us who were concerned in the enterprise became absolute scoundrels. (Loud laughter.) Of course I am speaking now subject to correction—(laughter)—and more or less in a figurative sense. I might also state that I have had some connection with a street railway in the city. (Laughter.) Officially, at least, but not very much connection financially, and so with other interests more or less familiar to you all."

"I observed, Mr. Toastmaster, in the course of your address the other day, which I read carefully, and also with satisfaction and pleasure, the comments thereon, that you dealt to some extent with the subjects of strikes. So did I in my time deal with them to some extent, and I am forced to agree with your remarks regarding foreign agitators and fomenters of strikes. (Laughter.) And I think I am almost going to drop my speech at this point, for I am not here in my capacity as a private citizen, but simply in my official capacity as a representative of the Province."

Katharine's Sacrifice

Katharine followed the housekeeper down a marble paved hall—in which a scented fountain was playing in a marble basin, and huge palms and ferns were clustered together—until they came to a passage which Katharine saw ran to right and left of the hall. At the end of the one that she saw was a conservatory, and through that a large room. Into this Mrs. Parsons, the housekeeper, ushered Katharine.

who knows, your lips may have touched them, and I—I flung them away. Oh, if I could go back and find them! If I might gather them to my heart and treasure them, my love—my love that can never be mine!

African Hunter, Whose Aim Was Bad, Severely Maulled. London. — Frederick Courtenay Selous, the well-known African hunter and naturalist, who is back in England after several months spent in the region in which Col. The Work Cure.

If his stomach refuses to perform its legitimate functions and digest the food he puts into it, what is he to do? An answer is given in a recent article on "The Work Cure" by a prominent physician. He cites the case of a young man who got into such a condition that his stomach gave him pain whenever he put any food into it. The young man cut down his diet until he was reduced to a mere skeleton, but still his digestion was not better. The specialist he then consulted told him he must eat whether his stomach hurt or not; that he must force his stomach to work. He did so. He hid defiance to the rebellious organ and it surrendered and set about performing its functions. He is now, the narrator says, a well man.

He hid defiance to the rebellious organ and it surrendered and set about performing its functions. He is now, the narrator says, a well man. This case serves as a text for a prescription of the work cure for all kinds of ailments, physical and mental. The doctors cite the natural phenomenon of the river purifying itself by running and the fact that everything in nature is in a state of motion. The essential thing is to get an invalid to start to work. "If you wait until you feel able to work before you begin, you will never begin at all," he declares. It is nothing new to sing praises to the healing power of work. Poets and philosophers and practical men have done it in all ages; but to prescribe work for a run-down invalid is something out of the common.—Minneapolis Tribune.

THE FARM. Hale, the well-known peach expert, says the white-fleshed peach is coming to be in great demand wherever quality is sought for, and, as it is more hardy than the yellow-fleshed, it is better for the grower in a cold climate. He further says the Greensboro is the earliest good peach; Waddell requires rich feeding and severe thinning; Champion, the most delicious-flavored peach we have, requires severe thinning; Belle of Georgia, good quality, handsome; Elberta, handsome, of inferior quality, but the best seller and a sure money-maker; Crosby, yellow-fleshed, but hardy, can get good-sized fruit by high feeding, and excessive thinning, has extra small pit, fine-flavored flesh; Hill's Chili, late, but a fine keeper, needs excessive feeding and good thinning.

TALK WITH AIRSHIPS. U. S. Signal Lieutenant Completes a New Device. Washington, Sept. 24.—Commander Cleveland Davis and Lieut. G. C. Sweet, the naval officers having in charge the selection near Washington of the site for the 37,000 mile radius wireless telegraph station for the Navy Department, consider it probable that the plant will be erected on the top of an old reservoir at Georgetown, near this city. The station will have the greatest radius for wireless telegraphy in the United States. From this the Navy Department will be able to communicate with war vessels in the Caribbean Sea or at nearly every port in the West Indies. The tower, which will house the powerful wireless apparatus, will be built of steel and concrete, and will be more than 600 feet in height. The army, too, is paying much attention to both wireless telegraphy and wireless telephony. Lieut. Frank J. Lahm, chief of the aeronautical division of the United States Signal Corps, has just completed a wonderful little wireless telegraph apparatus for use in aeroplanes, or in free and dirigible balloons. While allowing of communication for about three miles between aeroplanes, or between aeroplanes and stations on the ground, it will, it is thought by Signal Corps officers, be of much value in case of warfare in the clouds.

NICE FOR TAFT. Bomb Found Near Platform Where He Meets Diaz. El Paso, Tex., Sept. 24.—A bomb was found last night in the rear of the custom house at Juarez, Mex., a few feet from the platform which was erected for the meeting between President Taft and President Diaz on October 19th. The police say that ten more arrests will be made here to-day. The authorities at once started an investigation, making thirty arrests within a few hours.

MRS. BESANT. Now Recalls That She Was Hypathia and Bruno. Cleveland, Ohio, Sept. 24.—Intimate friends of Mrs. Annie Besant, president of the Theosophical Society of the World, declared here to-day that her leader had confided to them that she was a reincarnation of Hypathia and Gloriano Bruno. "It is certain that Mrs. Besant has been Hypathia and Bruno," said Mrs. E. O. Peets, president of the Cleveland Theosophical Society. "She remembers all—every day of her existence as those characters."

SHOT HIMSELF. Plattsburgh, N. Y., Sept. 24.—Frederick L. Hinds, of Ausable Forks, a well-known Adirondack hotel man, committed suicide last night by shooting himself in the head with a rifle. Temporary insanity resulting from injuries received from a recent fall from a horse is supposed to have been the cause.

Not So Bad. Nervous Lady—Don't your experiments frighten you terribly, professor? I hear that your assistant met with a horrible death by falling 4,000 feet from a balloon. Professor—Oh, that report was greatly exaggerated. Nervous Lady—Exaggerated! How? Professor—It wasn't much more than 2,500 feet that he fell.—Puck.

ROCHESTER "CINCHED" THE PENNANT YESTERDAY.

Toronto and Providence Did Not Play on Account of Rain—Newark Lost Doubleheader to Montreal—Detroit and Philadelphia Won.

RAIN PREVENTED Toronto and Providence from playing their final game of the season but the other league games were played, much to Newark's sorrow, who by losing two to Montreal, lost all chance for the pennant...

Table with columns for team names and scores, listing Washington, Detroit, Boston, Cleveland, and Philadelphia.

AT NEWARK. Newark, Sept. 24.—Montreal won two games from Newark yesterday, whitewashing them in both games by the same score. These games practically gave Rochester the pennant.

Table with columns for team names and scores, listing Philadelphia, St. Louis, and New York.

AT BALTIMORE. Baltimore, Sept. 24.—The Hustlers knocked Dessau off the mound in the first inning and Adkins received the same fate in the second. Dunn then went on the rubber and stopped further scoring, but it was too late, as the Bronchos had made enough runs to put the game on ice.

Table with columns for team names and scores, listing Chicago, Brooklyn, and Cincinnati.

AT JERSEY CITY. Jersey City, Sept. 24.—The Buffaloes and the Skeeters played two hot games yesterday, the second one running into darkness in the twelfth. Scores: First Game—R.H.E. Jersey City 0 3 3 Buffalo 1 3 2

Table with columns for team names and scores, listing St. Louis, New York, and Philadelphia.

As a matter of fact, with a fast track it looks as if not only the half-mile, mile and five-mile records would go down a little, as the best of the country's athletes are meeting in these events.

WHY KETCHEL-LANGFORD BOUT WAS CALLED OFF.

New York, Sept. 24.—The astonishing statement was made to-day by a high county official that the calling off of the Langford-Ketchel fight, scheduled for last Friday night at the Fairmont Athletic Club, was really instigated by well-known local sporting men who feared for their bets.

"The truth about the affair has not yet been printed," said this man to a reporter. "As a matter of fact, Ketchel, the favorite, hurt his arm in training, or, at least a report that he had hurt his arm was circulated quickly. There happened to be a group of men prominent around Forty-second street and Broadway who had wagered big sums of money on Ketchel to win."

"Fearing that if their man went into the ring with a crippled arm he would be licked by the negro, these men set to work deliberately to break up the bout. They succeeded in arousing certain anti-fight advocates without letting their interest in the matter be known to the reform element, and, as a result, strong representations were made to the Governor that the law was about to be violated."

COMMENT AND GOSSIP

Catcher Gibson, of the Pittsburgs, has broken the record for consecutive games behind the bat. He has caught in every game played by the Pirates with one exception this season, and is determined to remain on the job right through to the end of the world's series, unless he is injured.

The committee in charge of the meet has gone to considerable trouble and expense to bring the best athletes in the country here, and if the public do their part it will be the biggest thing ever pulled off in the athletic line in this city.

There's always sunshine somewhere! If you lose all your money at the races this fall you won't catch cold watching the football games.

Jeffries was recently seen at Carlshad by a New Yorker, who returned to Gotham on Tuesday with the report that the boiler-maker is having some trouble with his right arm. From this observer it was learned yesterday that Jeffries has been taking mud baths and drinking the waters at the famous health resort ever since his arrival there. He has also indulged in long walks, but has done no boxing or gymnasium work. He has been going to bed at 9 p. m., to get up with the sun.

During the recent Athletics-Tigers series there was nothing worth mentioning apparently except the doings of Ty Cobb. He was featured in every account whether or not he was in the limelight or not, and received more attention than a prima donna. The tone of the papers, however, was favorable to the Georgia Striker, and few unkind remarks were made about his base-running. If the accounts of the games were correct, Ty did more than his share to keep the Tigers where they belong.

Don't forget the Kerr games to-morrow at Britannia Park at 2.30 p. m.

At Washington—Detroit made it three out of four from the locals yesterday when they won yesterday's game. The batting of Cobb and McBride was a feature. Groom passed D. Jones, Bush and Cobb in the first, and was replaced by Gray, who allowed Detroit only one run. Detroit scored two runs in the second on a hit by O'Leary, a base on balls to D. Jones and Cobb's single. A double by Cobb and singles by Crawford, Moriarity and O'Leary scored three more in the fifth. In the eighth D. Jones made a two-bast hit, and Bush walked. Cobb scored both with a double. Score:

Toronto, Sept. 24.—"I don't know who offered him a job," said Mayor Oliver this morning, noting that a young man named Bardgett had been promised work at Toronto City Hall in order that the Argos may bring him from Brantford to play football.

Then he called up the departments, but none admitted hiring Bardgett. "Must have been one of the aldermen promised him a job," said the mayor, but he also intimated that he would fight any attempt to import City Hall employees, because of proficiency at football.

The Central Y. M. C. A. junior harriers' football team will practice at Victoria Park on Saturday afternoon at 2 o'clock sharp. As the first game of the league will be played on October 2nd, a full attendance is requested.

FALL OPENING

There's something about the opening of a new season at this store that starts a thrill of enthusiasm in every patron and employee.

We are ready to outfit every man and young man for the Fall and Winter and do it to his perfect satisfaction at the least possible expense. There will be no fireworks or bombastic ceremony to mark this opening event, but we most cordially invite everybody and anybody that is at all interested in choice wearables to come and see our showings.

We've exhausted the markets, both foreign and domestic, to bring to our show the best products in woollens, worsteds, cassimeres, etc. We've had them tailored into garments covering the entire range of desirable styles for the coming season.

We offer the conservative man the comfort and the gentility he so much admires, while the smart young dresser gets all the style kinks he demands in a suit.

BANGTAILS RAN IN MUD AT THE WOODBINE.

Prince Ahmed won the Minoru Plate and Ran the Fastest Mile of the Meeting, Though the Track Was Muddy—Four Favorites Won.

RAIN CAME DOWN with a vengeance on the fifth day of the fall races at the Woodbine Park, Toronto, and still four favorites finished in front in the sloppy going.

Lucetta, at short odds, galloped in the fourth, Belle Kingston and Eulalia May driving for the place. In order to live up to the letter of the law, the books were forced to do business under the open umbrellas and there were only about a dozen men told, some cutting in after the first race.

The Minoru mile, \$1,500 added, that closed with 35 nominations, had nine on the card, but only five faced the barrier. Bob Co being an added starter. Hanbridge was installed a hot favorite at even money and shorter. Great Heavens showed the way to the stretch, Hanbridge and the Prince racing together second and third. Old Honesty and Ahmed showed in front rounding the turn, ran wide and stayed on the outer rail, winning in a drive by 1 1/4 lengths, from the favorite, Great Heavens third alone.

The day was marred by two serious accidents to horses, making it necessary to kill both. In the third race J. H. Mason's 3-year-old b. f. Nasturita, by Nasturium—La Gascon, fell soon after the start, broke his foreleg and was shot in front of the paddock. In the steeplechase G. P. Sherman's 5-year-old b. g. by Compute—Andria, hit the second jump at the club house, breaking his left foreleg and a friendly bullet also put him out of misery.

"Yeah, I can find th' button aw ro', Nansky, but I've got to blame many 'tards an' fingers I don't know which of 'em to turn it with!" The electric fan plucks, clattered, chinked.

TO DISPROVE COOK CLAIMS.

Peary Has Placed Evidence in Hands of Hubbard,

Who is President of the Peary Arctic Club.

He Claims That His Proofs Will be Indisputable.

Portland, Me., Sept. 23.—Commander Robert E. Peary has placed all of his evidence to prove that Dr. Cook did not reach the North Pole, as he says he did, in the hands of General Thomas Hubbard, of New York, the president of the Peary Arctic Club. He will not make any further move in the controversy until Gen. Hubbard has gone over all the documents he received to-day, and the two have consulted together. Commander Peary said this afternoon, shortly after leaving Bangor on the train carrying him to Portland, that he would get in touch with General Hubbard some time very soon. His intimation given to the correspondents who have followed him down from Battle Harbor, was that they might have something to write soon after he and the Peary Arctic Club's president had been in consultation. Peary met General Hubbard at Bangor, according to an engagement made at the former's behest by wire from Sydney, N. S. They were not together more than 15 minutes, and then General Hubbard left for his summer home in Bar Harbor, carrying a grip full of papers.

The commander took the train to continue his trip to Portland, after ward.

Peary announced from the Labrador coast that he was bringing with him indisputable evidence to cut the ground from under Dr. Cook's claim of Polar achievements. He would not accept any invitations or ovals, he said later, at Sydney, until the matter of Cook's pretensions had been finally settled. Today he turned over to the head of the association which had financed his recent Polar expeditions, and which shares with him the burden of present discomfort, the proof on which his claim to being the sole discoverer of the North Pole rests. Gen. Hubbard, besides being the president of the association as Peary's backers, is also a lawyer of high standing, and Peary's personal counsel.

To-day when the correspondents on the train called Peary's attention to statements of Cook in the fuller accounts of his landing published in the New York papers of Wednesday, he read them, but without comment.

AGAINST TAMMANY.

New York Republicans and Independents Join Hands.

New York, Sept. 23.—With the announcement from the platform that practically all the fusion and independent forces, with the exception of the Independence League, would work in harmony to elect its candidates in the coming municipal election, the Republican city convention in Carnegie Hall unanimously nominated to-night these candidates for the three leading municipal offices:

For Mayor—Otto T. Bannard, President of the New York Trust Company.

Comptroller—Wm. A. Pendegast, for many years President of the Credit Men's National Association.

President Board of Aldermen—John Purroy Mitchell, present Commissioner of Accounts and an Independent Democrat.

Mr. Bannard's name came into the candidacy as a surprise, for it was not until the convention had organized at noon and adjourned while a committee was despatched for a final conference with the fusion forces in the hope of reaching an agreement upon candidates that his name was presented. With the exception of the Independence League split and some minor friction amongst the fusionists, the Republican leaders say that the alliance in opposition to Tammany is still formidable.

THREE CARDINALS.

Name of Mgr. Begin, of Quebec is Mentioned.

Quebec, Sept. 23.—It is stated here that three cardinal's hats are to be given to the United States and Canada at the consistory to be held in Rome in January next. One will be given to Mgr. Falconio, Papeal delegate to the United States; another to Mgr. Sbarretti, Papeal delegate to Canada, and a third to a Quebec prelate. In connection with the latter the name of Mgr. Begin is again mentioned.

SHEEP POISONED.

Mr. Cecil Langford, of London Township, Has a Cowardly Enemy.

London, Ont., Sept. 23.—Considerable excitement has been caused in London township by the work of sheep-poisoners. Cecil Langford, of concession 15, found five dead in his field on Saturday, five more have died since, and four others are sick. On investigation it was found that paris green had been mixed with salt and placed in the field where the sheep were kept. Quite recently Mr. Langford had a valuable collie dog just as he was ready to take it to the Fair for exhibition. The police are working on these outrages.

A Rule for Spelling.

It often happens that the easiest way to do a thing is the wrong way. The story is told of a man who had great difficulty in spelling words that had "s" or "c" in them. One day a friend offered to give him an infallible rule for such cases. "The rule is," said the friend, "that in 47 years has never failed me." His friend expressed his delight and waited. The man resumed: "The rule is simply this: Write your 'f' and 'e' exactly alike, and put your dot exactly between them."—Washington Star.

BUGS DISCOVERS SOMETHING NEW.

Bugs Raymond, the well-known hydrographer, was poring over a map showing the route taken by Cook and Peary to the North Pole. "No north, no east, no west," he was muttering to himself. "What's the trouble, Bugs?" asked Harry Sparrow, who had dropped into the Giants' club house. "Nothing," replied Bugs. "Except I have found out one sure thing, and that is that whatever Cook found at the North Pole it's a cluch that he went south with it."

TIMES PATTERNS.

A BECOMING WORK APRON.

No. 6195—Ladies' apron. Cut in sizes small, medium and large. The medium size will require 4 1/2 yards of 26-inch material. This neat and attractive work apron is made of white and black figured percale. The front is in princess effect and a deep pleat over the shoulders adds greatly to the becomingness of the mode. The full skirt extends around to the back, thus protecting the entire dress. Linen, gingham and percale are all suitable for the making.

A pattern of this illustration will be mailed to any address on the receipt of 10 cents in silver or stamps.

Address, "Pattern, Department," Times Office, Hamilton.

It will take several days before you can get pattern.

AFTER 30 YEARS.

Former St. Catharines Woman Gets Trace of Son.

Detroit, Sept. 23.—Somewhere in the little town of Algona, Mrs. Kexia Richardson-Sullivan, 58 years old, is seeking rest, after a dogged search for her son Frank, who died long ago with his father, when the latter left his wife in St. Catharines, Ont., 31 years ago.

When Mrs. Sullivan left Detroit, last Monday, she had almost given up hope of ever seeing her boy again. Within another week, she will be called home, perhaps, to find him awaiting her.

Yesterday, Mrs. James B. Simms, 634 Wabash avenue, a daughter of Mrs. Sullivan and sister of the son who has not been seen her for more than 30 years, learned that her brother probably is in Chicago, and that he is seeking his mother.

Mrs. Simms has written to her brother. She is certain that the family will be reunited but has refrained from communicating with her mother, until Frank arrives at the family home.

"Mother is sick, and I wouldn't care to risk the chance," said the daughter yesterday. "Of course, I'm certain that it's Frank, but it'll be much nicer to have him right here with us when she returns. We've written to him. All we need is an answer."

Richardson left in 1878, according to Mrs. Sullivan. Frank was six years old then. Year after year she searched for some trace of the man and boy. Her search was rewarded in a measure last May, when she learned that her husband and son had been in San Jose, Cal.

She immediately communicated with the chief of police of that city. The story of the woman's efforts to recover her boy found its way into the newspapers. Frank, in Chicago, read of the mother's efforts. He wrote to Supt. Downer, of the Detroit police department, for information concerning the whereabouts of Mrs. Sullivan who he believes is his mother.

Announcement of the arrival of this letter was printed in a Detroit paper. Mrs. Simms read it, just after her mother, broken in health as the result of her fruitless search, left for a rest in Algona.

When the missing son returns to Detroit, Mrs. Sullivan will be brought back. Then the sad story of the deserted woman's struggle to find her boy will have its happy termination.

Mrs. Simms and the son are the only children of the Richardsons.

There is a black cat on Railroad street, Thomaston, Conn., that makes a point of escorting women and children home. When the party reach their destination the cat returns to its place and escorts other persons in the same way, keeping up this strange action until about 10 o'clock at night.

INTERNAL REVENUE LARGER.

Jump of \$2,000,000 in August Receipts Fortells Prosperity.

Washington, Sept. 23.—Treasury officials are delighted with the increase in the receipts of internal revenue, declaring that it is a harbinger of prosperity. The receipts from this source for August of this year aggregated \$20,286,735, an increase of nearly \$2,000,000 over the amount collected in the corresponding month in 1908.

Upon all articles against which internal revenue taxation is assessed increases were recorded in August of this year corresponding month of a year ago. More than that, \$9,000,000 was collected in taxes on spirits, an increase of nearly \$300,000. The sum of \$4,740,083 was collected on tobacco. The remainder was collected on miscellaneous articles.

\$50,000 TO SYRACUSE. Mrs. Sage's Gift to be Used to Endow New Teachers' College.

Syracuse, N. Y., Sept. 23.—Chancellor DeWitt announced in chapel this morning at the opening of the fall term at Syracuse University the gift of \$50,000 from Mrs. Russell Sage to the university.

Chancellor Day said that the money would be used to start an endowment fund for the teachers' college.

CONFERENCE OF THE USERS.

Hon. Adam Beck Calls Meeting For Next Wednesday

Of Engineers of All the Municipalities Interested.

Wants to Set Standards and Arrange Details.

Letters have been sent out by the Hon. Adam Beck, chairman of the Hydro-Electric Commission, to the Mayors of all the towns and cities which have contracted to take power from the commission, calling a meeting in the offices of the commission for Wednesday afternoon next, at which a discussion relating to the power scheme as a whole, and the needs of each municipality in particular, will be thoroughly discussed.

The letter is as follows:

"Dear Sir,—As the schemes of distribution of light and power in the various municipalities are now being completed, it appears to me that in the interest of the undertaking as a whole, that co-operation between the engineers of the different municipalities would be very advisable, and suggest that a meeting should take place between these engineers on Wednesday next, the 29th inst., at which a discussion might be had relating to the scheme as a whole, and the needs of each municipality in particular; the whole with a view

"To promote proper co-operation and understanding between the municipal engineers and those of the commission.

"To ensure a standardization, as far as possible, of the specifications to be issued.

"To arrive at conclusions as to the best methods of distribution for each municipality and the standardization of same, as far as possible.

"To give to each municipality the benefit of consideration of each case by practically a board of engineers.

"To sum up, practically to ensure standardization as far as possible, and the elimination of the personal equation of individual engineers.

"The conference would deal with such matters, for example, as:

"The size and characteristics of transformers and other apparatus which might be used, so as to, as far as possible, interchange between municipalities, thus cheapening the cost, reducing spares, and permitting of exchange during breakdown or for special demands.

"The best voltages and wattages of incandescent lamps to be used to meet commercial and operating conditions for each municipality, in view of the scheme as a whole.

"The use of synchronous apparatus for correcting power factor and decreasing the power used and paid for by each municipality.

"The most modern systems of street lighting, and their apparatus in each municipality, especially in view of recent improvements in arc and incandescent street lighting.

"I may say that without such co-operation it is quite possible that some municipalities may be seriously handicapped, and would be unable to obtain the same advantages that they would with more uniform equipment."

BOGUS CHEQUES.

CLEVER SWINDLERS FORGE BANK ACCEPTANCE STAMPS.

And There May be a Lot of Forged Paper Floating Around the Country—How Eastern Supply Houses Were Victimized.

Vancouver, Sept. 23.—The bogus cheque fraud worked on wholesale houses in the east by some ingenious swindler promises to be a very big money-maker, netting thousands of dollars to the operators. The chief of the gang personated in eastern trade centres Mr. Mackintosh, the purchasing agent of Kelly, Douglas & Co., wholesale grocers, of this city. He gave large orders for goods to be delivered to the firm and then cashed the firm's cheques, on the ground that he needed the money for expenses. The cheques, cashed by the unsuspecting supply houses, bore the forged acceptance stamps of the Bank of Montreal and the Royal Bank of Canada.

When these cheques began to pour in to the banks here from eastern centres the fraud was discovered. The forger must have had skilled assistance in the making of the fraudulent acceptance stamps. A curious error of the forger was to add a royal crown to the Royal Bank's stamp. This was the thing that led to the detection of the fraud. The swindler committed three forms of forgery. They forged the signature of the firm of Kelly, Douglas & Co., of the firm's buyer, and of the banks' acceptance. What the total loss will be is not yet known, but it will fall largely on United States supply houses.

The largest single cheque drawn by the forger was \$300, and was cashed by the Grape Nut firm, which has instructed its local agent to take up the cheque, the company standing the loss. It is anticipated that the forged paper will total at least \$10,000. The last seen of the forger was when he tendered a false cheque at a C. P. R. ticket office, receiving cash in change. C. P. R. has joined the banks and Kelly, Douglas & Co. in setting the law in motion.

It is possible that a clue to the more daring swindle will be found following upon the arrest of a young man in New Westminster to-day. He went to the Westminster Trust Co. on Saturday and vouched for a friend named Watson. Watson deposited an accepted cheque of the Union Bank for \$200. This was put to his credit. On Monday he drew out the money and later it was discovered that the acceptance stamp was a bogus one. Watson cannot be found.

These swindles, it will be noticed, are both variations of the crime of young Anderson, the Bank of Montreal clerk, who, after he had retired from the bank's service, lived splendidly on the proceeds of bogus cheques bearing the bank's acceptance stamp. It was supposed that he had possessed himself of a genuine acceptance stamp, but it begins to look now as if some skilled rubber stamp maker has become the confederate of a band of clever forgers.

Rugs for the New Home

Unquestionably the richest showing in the history of this store. To the Rug Section we direct you with pride and assurance, firm in the knowledge of a success well accomplished. Tapestry Carpets

Hard-wearing, serviceable Carpets at a low price. 50c, 75c, 85c and \$1.10 per yard

Linoleums

We carry amongst others such famous lines as Nairn's and Barry Ostler's and Shepherd's. Throughout the British Isles, these people have a splendid reputation for good Linoleum, even when it is put to very strenuous tests of durability. Even on ships of the navy it is perfectly satisfactory. The sale of Linoleum is increasing every year, because it is very sanitary, easily kept clean, and is not a tax on the strength of the housekeeper to keep in order. Inlaid Linoleum, which is made with the pattern going right through to the canvas at the back at 75c, 85c, \$1.10 and \$1.35 per yard. Printed Linoleums which are made with the patterns on the surface in 2 yards, 3 yards and 4 yards wide, at 40c, 45c and 50c per yard. Patterns resembling oak flooring, in many cases, the patterns are so correct as to deceive an expert, it's difficult to tell it from the real parquet flooring. This is cheaper than staining the floor for rugs, and much more satisfactory.

MEANS WAR IN AFRICA.

Trouble Over Moorish Tribesmen May Bring Complications.

Madrid, Sept. 24.—It is generally believed here that the complications which have arisen between Spain and Mulai Hafid, the Sultan of Morocco, are likely to result in a Spanish-Moorish war, that is, a war between Spain and the forces of the Sultan of Morocco in distinction to the fighting going on to-day, which is limited to the Moorish tribesmen inhabiting the Rif country.

Spain to-day has over 60,000 troops in Northern Africa, with 11,000 more mobilizing for service there, and the government feels that only the brilliant completion of the work begun can defeat the plans of its political enemies at home. The situation at Barcelona is causing renewed anxiety. Bomb explosions on the streets of Barcelona are almost of daily occurrence and although the newspapers that print even the rumors of such occurrences are seized by the authorities, the Minister of the Interior insists that the government is not fighting its political enemies, but rather a widespread anarchistic plot.

WOMEN'S UNDERWEAR SAVINGS.

On Saturday Finch Bros. will continue the sale of women's winter underweares and drawers. They are all this season's goods, a manufacturer's stock being sold at a saving of one-third and coming just at the beginning of the season when warm underwear is necessary, makes this sale of special interest to everyone. The special prices are 35c, 44c and 49c.

A special offer of tailor-made suits in the new styles, values at \$20 and \$22.50, for \$15.49 is the attraction in the garment section, as well as many other worth while savings.

An unexpected sale of fall dress goods at such price-savings that should bring every woman's choice to a final decision.

Scores of other values will interest you as a glance at their ad. will show. This Saturday being one of the rush Saturdays of the season, shoppers will find before noon is the best time for comfort in buying. Ready at 8.30 a.m. in the morning. Finch Bros.

Was He Hired? Gent (engaging new chauffeur)—And have you any references from your last employer? Applicant for situation—No; but I can get some in about a month. Gent—Why the delay? Applicant—He's in the hospital.—Casell's Saturday Journal.

SUDBURY CASE.

Isidore Bourassa Accused of Dynamiting Lawyer's House.

Sudbury, Sept. 23.—The trial of Isidore Bourassa, for attempting to murder F. F. Lemieux, ex-Mayor of Sudbury, mining recorder and Local Master in the High Court is in progress in the Assize Court. On the morning of July 3, 1908, between 2 and 3 o'clock, a portion of Mr. Lemieux's residence was wrecked and the family were in grave danger. In December, 1907, Bourassa was defendant in a Division Court action, and Mr. Lemieux was solicitor for the plaintiff. Judgment for about \$70 was secured, and a bailiff seized Bourassa's chattels in default. Bourassa was suspected of dynamiting the residence, but denied it to Inspector Reburn, who took charge of the case. About the end of July, 1909, a witness named Boufard worked for Bourassa on his farm. Bourassa, according to Boufard's story, said he was the cause of the dynamiting and wanted to kill Mr. Lemieux. A search warrant revealed dynamite on the farm of Bourassa, hidden under sheets of birch bark which the witness said Bourassa told him was the balance of a box from which the explosive had been taken for the Lemieux wreck.

In the Assize Court this morning the Grand Jury returned a true bill for murder against James Robinson for destroying the life of an infant born to his daughter Ellen, on the 23rd day of March, 1908. No bill was found against Robinson for the murder of the infant of his daughter Jessie, on the 27th day of March, 1908.

Justice Magee will hold a special sitting of the Assize Court on the 28th day of October, as the defence was not in a position to proceed, and the nine other indictments will also stand against him until that date.

OBITUARY.

Funeral of Wm. Russell and of Mrs. Stedford.

A large number of the friends of the late William Russell attended his funeral which took place yesterday afternoon from the family residence, 787 King street east to Hamilton Cemetery. Rev. Dr. J. V. Smith, of Centenary Methodist Church, officiated and the pallbearers were Messrs. W. A. Howell, C. H. Taylor and George Milne, of this city and E. G. Nyburg, Charles Mathews and E. F. Snelgrove of Woodstock.

The remains of Mrs. John Stedford were laid at rest this afternoon in Hamilton Cemetery. They were taken from her late residence, 477 Barton street east to St. Matthew's Church for Holy Communion at 11 o'clock, and the funeral took place from the church at 2 p.m. Rev. E. N. R. Burns conducted the services and the pallbearers were Messrs. John Fox, John Hope, John Attle, L. Daniels, Frank Hayward and Edward Layland. The floral tributes included pieces from Silver Cross Guild, Willing Workers of St. Matthew's Church and officers and members of Acorn Lodge, S. O. E.

The funeral of Vera, infant daughter of John and Mrs. Wallman, took place this afternoon from her parents' residence, 86 Robert street, to Hamilton Cemetery. Rev. Isaac Couch officiated at the house and grave.

GREAT PARADE.

100,000 Temperance Workers Will March in Chicago.

Chicago, Sept. 24.—Prohibitionists from many States in the Union, who have made the cause of scientific temperance the keynote of a political body, arrived in Chicago to-day prepared to swell the ranks of temperance advocates. To-morrow they will celebrate the fortieth anniversary of the birth of the Prohibitionist party. Twenty thousand blue-ribboned men are expected to be in Chicago when the celebration opens at the La Salle Hotel. To-day an informal reception to the visiting members was held at the headquarters of the party. The members of the political party on Sunday will join forces with the religious and social prohibition advocates and swell the ranks of the novel temperance and law enforcement parade, which will demonstrate the strength of the city. One hundred thousand marchers, men and boys, will march under the generalship of Gen. Frederick Dent Grant, U. S. A. The Prohibition party was organized in Chicago, September 1st, 1869, but the celebration has been set back in order that it might be coincident with the civic temperance demonstration on Sunday.

Old-timers who were present at the birth of the party are expected to reach Chicago during the day and participate in the festivities. John Russell, of New Haven, Mich., who was temporary chairman of the first convention of the party, and Samuel Dickie, of Alhambra, Mich., who was a prominent organizer, will attend the anniversary.

CANADIAN LOCK CLOSED.

Sault Ste. Marie, Ont., Sept. 23.—The Canadian lock was closed at 10 o'clock to-night and pumped out to make some necessary repairs. Several of the iron bonds on the lower gates are broken and will have to be repaired almost immediately. It is expected the work will be completed by to-morrow night.

Y. M. C. A.

Social Committee Arranging For an Attractive Season.

The Y. M. C. A. Social and Reception Committee met for reorganization last evening and elected the following officers: President—A. E. Morgan. Vice-President—C. A. Larn. Secretary—G. Johnston. Assistant Secretary—R. Curry. Treasurer—A. E. Freeman. Reporter—J. W. Head. Editor of the Eye Opener—A. Pirie. Assistant Editor—E. Collard.

The date for the opening reception was set for Tuesday, October 5th, when a special invitation will be sent out to the young men of the city and their friends to spend an evening in the association. An interesting programme of gymnastics, aquatics, music and refreshments will be provided. Representatives of the committee will be on duty every evening, assisting with the reception of strangers. An entertainment of some nature will be put on in the near future for the purpose of raising funds for the committee.

The regular weekly meeting will be held on Thursday evening, and a literary programme provided.

Any young man wishing to assist in this work and have the advantage of the Literary and Debating Society in connection with it, should attend the regular meeting next week.

Y. M. C. A. MEN'S MEETING.

The Sunday afternoon men's meeting at the Y. M. C. A. will be of special interest to men from now on, through the winter season. Meetings have been held regularly all through the summer, with very fair attendance, but now that the weather is getting cooler a larger attendance is expected. Mr. J. Linsay, Field Secretary for the Brotherhood of Andrew and Phillip, will be the speaker next Sunday, and the following Sunday the Victoria University Evangelistic and will have charge of the meeting. Prof. Alorinus J. Stone is in charge of the musical programme, and will arrange for special music for every meeting. All met. are cordially invited.

LITTLE HOPE FOR BLYTH

Unless Mr. Justice Riddell Grants Stated Case.

He Will Likely Be Executed at the Time Already Set.

Motion at Toronto to Wind Up Amusement Company.

Toronto, Sept. 24.—(Special.)—W. S. McBryne, as counsel for J. Reuben Cambden, appeared before Chancellor Boyd in chambers at Osgoode Hall this morning, and asked for an order winding up the Hamilton Amusement Company. This is the second amusement company of Hamilton to come before the chancellor this week.

Mr. A. M. Lewis, for certain of the shareholders, objected to the application on behalf of Cambden. He produced affidavits of Aza I. Burke and Harry Baker to the effect that Cambden wanted to get the company into liquidation in order to sell it out as a personal profit.

Mr. McBryne submitted that this would make the winding up act.

Unless Mr. Justice Riddell changes his previous ruling and consents to give a stated case to the Court of Appeal there is little ground for the hope that Walter Blyth will be saved from the gallows. He is under sentence to die on October 1st for the murder of his wife at Agincourt. The Court of Appeal gave judgment this morning on the application of T. C. Robins, K. C., to that effect.

ONLY SIX.

Dr. Alway Says Scarlet Fever Danger Is Over.

It was reported in yesterday's issue of a local paper that there are 70 cases of scarlet fever in Crown Point and 33 houses under quarantine, also that new cases are being reported regularly. This morning Dr. Alway emphatically denied that there were so many cases and informed the Times that there are now only six cases in all in the afflicted district, three at Crown Point, one at Kenilworth and two at Prospect Place.

Great Anniversary Sale.

The 24th, in order to celebrate their second anniversary, and to wind up a very successful year, are offering in today's paper some special sale lines that are the acme of value-giving. They are going to make this anniversary stand for everything that is best in clothing values—for intrinsic worth, thoroughness, superiority of style. They are values that will commend themselves to the housewife's confidence in their methods and their merchandise.

HOWARTH CASE.

(Special Despatch to the Times.) Toronto, Sept. 24.—The jury in the Court of General Sessions, which heard the evidence in the case against Harry Howarth the 26-year-old Englishman charged with bringing 13-year-old Ethel Manning from her home, Hamilton to Toronto, and here living with her, filed out at 1 o'clock to consider their verdict, and were still out at the time of going to press.

WIRES WERE TANGLED.

The shortage of power yesterday was caused by the transmission wires becoming tangled. It was thought that the trouble had been remedied by noon yesterday, but five times during the afternoon the power was interrupted to run the street cars. The nearest lamps in the stores were nearly all blown out on account of the changing of the force of the power. The company announced today that no further trouble was expected.
