NEW MAYOR OUTLINES A PROGRAM OF CIVIC PROGRESS AND IMPROVEMENT AT INAUGURAL MEETING

Ald. Graves is Chairman of the Finance Committee, Ald. Dakers of Board of Works, Ald. Avery of the Fire and Light Committee; Ald. Riffer Again Heads Railway Committee.

The inaugural meeting of the new City Council was held today, opening at 11 o'clock with a dozen spectators in attendance, among them women. Mayor Elson, former Alderman Eagle, Smith and Westwood and Secretary Cunningham of the G.W.V.A., were among the spectators. W. B. Burgoyne accepted an invitation by Mayor Lovelace to act as the platform. Former Mayor Elson had to leave shortly to catch a train and could not accept the invitation. City Solicitor Kingston and the Assistant Solicitor H. L. Cummings were also on the dais. Assistant City Clerk McBride read the election results. City Clerk Pay

ALD. JAMES DAKERS
New Board of Works Chairman.

Mayor Lovelace in his inaugural address said:

"As this inaugural occasion I desire to congratulate you most sincerely on your selection by your fellow citizens to administer the affairs of this City during the year upon which we are now entered, and to express the hope that, when the year shall have ended we shall jointly and mutually have the consciousness that our efforts have been prompted by the most worthy motives, and that some measure of happiness and well-being shall have accrued to the citizens at large, because of those efforts. In this way may we best show our appreciation of the confidence that is reposed in us, and of the responsibilities that rest upon us because of that confidence.

"It is but reasonable to expect that the years immediately following the close of the great war will be years of unsettled conditions in the business and industrial world, at least until such time as the soldier and auxiliary forces engaged in the colossal struggle shall have become re-organized and re-established in their proper places in the production of the several communities which they belong. Happy it may be stated that our returned soldiers are quite generally imbued with a sense of the duties of good citizenship, and only require to have the opportunity, in order again to become a valuable asset to the community with the zeal that, you will freely admit, has characterized their war effort, and which brought them so great renown in their sacrifices on behalf of British liberty and of true citizenship while overseas. It should be regarded as one of your primary duties to facilitate this work of re-establishment that it may never be said that you have been in the slightest degree unmindful of the great sacrifices, and probable consequent needs, of those men and women who so bravely responded to the call in our Empire's hour of need. I feel sure that in all respects where Civic Employment offers, this matter will be foremost in your minds.

"During the past half dozen years because of the war, it has been felt that only most pressing civic needs and requirements should receive special attention, with the result that several matters of urgent importance remain to be dealt with in the immediate future. Chief among these may be cited our Educational requirements, for which it will become our duty to meet the financial obligations in connection therewith on presentations from the recently constituted board of Education. Permit me to bespeak a hearty and cordial spirit of co-operation between the members of that Board and yourselves.

"Railways and Highways. Also eliciting a considerable public attention is the question of the extension of the present local system of electric railways, not only with a view to increasing the accommodation and needed facilities within the confines of the city, but also in mind the larger and very important need of establishing local railway connection with outlying por-

tions of this rich and especially favored district, of which our City is so logically the business centre.

"In this connection I would also like to remind you of the need of a greater attention to radial highways, which appear to have been overlooked in some measure. To the extent that we endeavor to establish means of ingress and egress to and from our confines, will we establish our City as the real metropolis of the Niagara Peninsula.

"Every effort should be put forth to assure the continued expansion of the City along industrial lines with railway and shipping facilities as at present existent throughout the district. St. Catharines must not be permitted to slacken the industrial effort that characterized our progress at the beginning of the decennial period of which we have now entered the last year. This should engage the attention of all, but particularly of the Railway and Industrial Committee.

"The Local Market. "In view of occasionally heard murmurings of discontent concerning the local produce market, it becomes us to study closely the conditions in this respect, not only with a view to enhancing its value to that portion of the public which relies largely on the Market for its supply of produce, but also to ascertain if the civic revenue obtained therefrom might not be very materially increased.

"The question of just weight and measure in the sale of market produce may also profitably engage your attention.

"Finance and Assessment. "The question of our Civic financial condition is one worthy of your most earnest attention, with a view to some re-adjustment that may permit of this Board meeting the needs of the hour, yet with an extremely careful regard for the burens of the (Continued on page 2)

THE WEATHER

TORONTO, Jan. 12.—The weather is fair and moderately cold in Ontario, Quebec and the Maritime Provinces and a moderate disturbance is now moving eastward across Manitoba will probably be followed by colder conditions in the west.

FORECASTS—Fair today, higher temperature tonight with strong south west winds. Tuesday: Light snow at first, followed by north west winds and colder again by night.

Vincent Griffin To Be Released On \$3,000 Bail

Vincent Griffin, who is charged with perjury in connection with the Battistie inquest was brought here yesterday from Toronto and in police court today was remanded for a week in order to allow the Crown to call witnesses.

The alleged perjury was in connection with the Battistie inquest. Griffin, it appears, found Battistie dead in the Griffin Opera House and went to the rooms of several men about 7 o'clock and reported the fact.

At the inquest he denied doing this though the other men swore positively that he did so.

Crown Attorney Brennan agreed to accept \$3,000 bail which will likely be raised.

Ontario Plans Increasing of Housing Fund

Attitude of the Public Works Minister Augurs Better Results in 1920 in the Housing Scheme.

Walter Rollo, the new public works minister for Ontario, is planning to make a much larger fund available for housing purposes next year than was available last year. In fact, the information received here states that about three times as much money will be available. "The government does not regard money invested in the housing proposition as an expenditure," he says, "but as an investment, and a good one, too." Owing to the guarantees required by the local council last year, few applications were made for loans, and not a home was built through government housing proposition funds. It is expected that several homes will be constructed by that means next spring, however.

CHAIRMANSHIPS
Finance—E. C. Graves.
Board of Works—J. Dakers.
Fire and Light—F. H. Avery.
Market and Buildings—Samuel McLean.
Parks and Cemeteries—M. J. Murphy.
Railway and Industrial—J. E. Riffer.

Two Runs For Firemen Early Sunday A. M.

The firemen had two runs early Sunday morning. Just after midnight a man burning a mattress in a backyard on Lovel avenue was the cause of a run by the Lake street brigade. Such a thing is contrary to law. Chief Early wishes to inform the public. Three men were named defendants. "These men have acquired the checking concession in most hotels and cafes," said Miss Stires. "They pay girls \$9 to \$15 a week and compel them to drop tips in a small iron bank, which is camouflaged with paper.

"I was checker for two years and turned in more than \$25,000 in that time."

The Hydro electric Commission has decided to take over the Sandwich, Windsor and Amherstburg Railway. The Saskatchewan Government proposes to advance a million dollars to enable the Saskatchewan Co-operative Elevator Co. to almost double its storage capacity at the Port Arthur terminals.

No Writs Likely For Several Days

U. S. Committee Will Meet Again About Middle of the Week.

Hon. H. C. Drury and his two weary with standing colleagues must wait yet a few days before they hear of a place to sit down. The special committee of the U. F. O. organization and members-elect entrusted with the task of finding seats for the Prime Minister and his Ministers will not meet again until about the middle of the week, according to J. J. Morrison, U. F. O. secretary and unofficial whip. In the intervening time, it is understood, further conversations with U. F. O. members will take place.

About the only really definite result to date is the securing of the East Kent seat, J. B. Clark, the elected member, over a wax ago offered to make way for Hon. Manning Deherty, and he has followed this up, it is stated, by placing his seat at the disposal of the Government to do with as those in control think best.

It was stated yesterday that Mr. Clark had placed his resignation in the hands of two U. F. O. members according to the rules of the House which, when the House is without a speaker, permit of a resignation being offered to two members.

In some quarters the time taken in finding seats for the seatless Ministers is contrasted with the facility with which leaders or the older parties found places. But conditions are different. In the good old days the man who resigned his seat generally found a paying appointment in his mail shortly thereafter. The U. F. O. professions do not allow room for this sort of use of provincial posts, and the committee had to begin its task with nothing in hand but generous praise to offer the farmer member whom they asked to give up a \$1,400 year post that will take him away from the farm only at a time when farm duties are light.

ALLIES WILL TRY EX-KAISER EVEN IF ACCUSED IS ABSENT

MANCHESTER, Eng., Jan. 12.—The Manchester Guardian hinted that a solution of the difficulty with regard to the trial of the former German Emperor will be found.

The "ex-Kaiser" will be summoned to trial before an Allied commission and if he does not answer—it is possible he may not—he will be tried in his absence," the newspaper says. "By this course his full guilt will be made manifest to the world by the testimony of witnesses, including Germans, his correspondence and other documents. Sentence will be pronounced, and if it cannot be executed, it will, at any rate, be on record. One possibility is that on evidence available from Germany and Holland the ex-Kaiser will be proved a criminal lunatic."

Married For Love, Cut Off With Lands Worth \$6,000,000

NEW YORK, Jan. 12.—Tracts of property in the heart of New York city valued today at \$6,000,000, which the late Henry Astor inherited from his grandfather, John Jacob Astor, who bought the land in 1797 for \$25,000, will be sold at public auction next March, trustees of the estate decided shortly after his death in 1918, to dispose of his realty interests.

Henry Astor was the forgotten son of William B. Astor, who cut him off in 1871 for marrying Malverina Dinehart, daughter of the gardener on his father's estate near Rhinebeck, N.Y. It is estimated he lost \$25,000,000 by the disapproved marriage. After suffering the ostracism of the family, he bought a far mat Copake, Columbia county, and lived there in obscurity with his wife until his death. During the years he lived as a recluse, the valuable New York city real estate was held in trust.

The land was the Eden farm when it was bought by the founder of the Astor fortunes and on it now stand theaters, private dwellings, factories and tenement houses.

BABY 2 DAYS OLD ALREADY HAS 2 TEETH
WARREN, Pa., Jan. 12.—Mr. and Mrs. Alex. Hutlman of this city are the proud parents of a new son who possesses two teeth. The youngster is but two days old, yet two teeth have forced their way through his gums.

Plans to Organize New Militia Force

First Step an Order Which Provides For Disbanding Every Unit.

OTTAWA, Jan. 12.—The first step in the re-organization of the Canadian active militia is taken in the publication today of an order laying down the general lines which will be followed in bringing the new force into being. The order is not concerned with details and gives no indication of the policy to be pursued in the matter of naming units, but it provides for the disbandment of every militia unit in Canada—a complete cleaning of the slate—and the immediate creation of the new force. "The rank and file being automatically discharged," says the order, "the commanding officer has a clear field for re-engagement in suitable ranks, and vacancies for new men of overseas experience, not former members of the unit."

"For some time past, a committee, of which Major General Sir T. C. Otter was chairman and Major General W. G. Gwatkin, Sir Edward Morrison and Brig.-General A. G. L. MacNaughton were members, have been considering the question of re-organization. They have visited all the military districts of Canada, and it is understood that they have made recommendations with regard to the working out of the plan outlined in the order issued today. Today's order, which is signed by Major General E. C. Ashton, Adjutant General, was recently passed in Militia Council.

Selection of Officers. It provides that a commanding officer, preferably with overseas service, will be selected, after due consultation with the old officers of each regiment, both overseas and militia, to command a new unit. The new commanding officer will prepare a new slate of officers, with due regard to war service, previous military service. (Continued on page three.)

Funeral Aid Has Now 415 Membership

The 47th annual meeting of the Oddfellows Funeral Aid Association of the counties of Lincoln and Welland, was held in the Empire Lodge when the reports of the Directors, Secretary and Treasurer were presented, showing that during the past year the Association has very much improved both numerically and financially. Directors were elected: From Union No. 18, Empire No. 87, Niagara Falls No. 53, Cataract No. 103, Livingston No. 130, Orient No. 134, Freemason No. 215, Electric City No. 313, St. David's No. 367, Empress Rebekah, Truth and Blue Bell Lodges.

The Directors elected the following officers for 1920:
H. G. Woolley, President.
J. L. Wilbur, Vice President.
Geo. E. Jones, Treasurer.
D. M. Walker, Secretary.
The total membership is now 415. Total cash assets \$4441.08.

FOUR SAY THEY ROUTED 100

Siege of Barrels Raised by Quartet of Constables, Dublin Asserts

DUBLIN, Jan. 12.—Police barracks six miles from the village of Tuam, Galway county, were attacked Thursday evening by about 100 men, according to reports reaching this city. They fired repeated rifle volleys which rattled the doors and smashed the windows. Two or three bombs were thrown, one wall being demolished and a police sergeant being slightly wounded. The occupants of the barracks returned the fire.

Four constables heard the explosions of the bombs and hastened to the scene. When they arrived they attacked the besiegers so vigorously that they abandoned the field.

LOOKIT! CHICAGO PUTS JIT-NEY TAX ON FREE BATHS

CHICAGO, Jan. 12.—The high cost of living has finally reached free bathing. The city council license committee, which is extending the license system to make up for lost liquor revenues, has ordered a five cent tax on baths at the municipal free bath-houses. The tax will cover soap and towels.

STILL ANOTHER EARTHQUAKE ROCKS MANY MEXICAN CITIES

Alarm Among Oil Companies, Geologists Reporting That the Quakes Might Change the Course of the Oil Subterranean Rivers.

MEXICO CITY, Jan. 12.—Earthquake shocks were registered at the port of Vera Cruz at 6.20 p.m., seemingly of great intensity. The walls of many houses were cracked, and citizens were thrown into considerable alarm, abandoning their houses. The shock was accompanied by violent subterranean noises, which continued until late last night. Seismic disturbances were felt throughout the same districts as during other previous shocks. Intense seismic disturbances were registered yesterday at the observatory of Tacubaya, near the capital. In the Orizaba district, according to advices received, no further damage was done, but many ruins were leveled.

Recent arrivals from the port of Vera Cruz deny a new crater in the Orizaba volcano, claiming that only deep fissures were opened on the sides, omitting gases and vapors. Thirty four more bodies were recovered today from the River Rinconada. Destitute natives are being cared for in the larger towns in barracks erected for them by the Government, and where soup kitchens have been established. Agular is supervising the relief work and soldiers are burying the dead, clearing away the debris and dynamiting many badly damaged buildings.

Of 600 inhabitants of the village of Barranca Grande, 40 remain alive. Only one attempt has been made by rebels to ambush relief expeditions, and in this the rebels were severely routed.

From the village of Perote, near the volcano, the whole hill near burst and sunk in the level of the ground. Where once was the high hill an immense dust cloud hangs. On the slopes of the Orizaba Mountain vast canyons have been discovered many miles long, which did not exist before. Frightened natives,

GOOD LOOKING COUNCIL

It is a good looking Council, made up of men who look as if they knew their business. It is a good working Council, made up of business men of ability. The political phase doesn't enter largely into the make-up. That bugaboo will not interfere with the proper carrying on of the city's business as may have been the case years ago.

Big Fire at Port Dalhousie On Sunday

A large building, comprising two stores and fourteen rooms, at Port Dalhousie was burned to the ground on Sunday evening and the large plant of the Dominion Dredging Company was endangered in the most devastating fire witnessed in the village for some time. The building, which was owned by Mr. Frank Baker, was occupied by a foreigner, and contained some \$4,000 worth of produce. The building itself will be a total loss close to \$20,000, only partly covered by insurance. The fire started at 6.45 o'clock and in the dusk the blaze was noted in St. Catharines, the report being spread that the machine shops of the Dominion Dredging Co. had been a prey to the flames.

Men employed by the Company were stationed on the roofs of the large plants with fire extinguishers and squelched the sparks as they landed from the burning structure. Workmen with fire extinguishers also succeeded in saving the house next to that of the burning building although it was severely scorched.

EPIDEMIC OF MAIL THEFTS IN IRELAND

DUBLIN, Jan. 12.—An epidemic of mail holdups is sweeping Ireland. Masked men, apparently members of a Sinn Fein organization, held up the driver of an automobile carrying mail near Galway. The men clubbed the chauffeur and looted the bags. Masked bandits riding bicycles held up a mail car near Rochford Bridge, looting the mail bags and taking money found in registered letters. There have been no arrests.

ALD. F. H. AVERY
New Chairman of the Fire and Light Committee.

workmen on the ranches, are fleeing to Perote, fearing the disappearance of villages in the ground, the same as the hill. Officials declared that press despatches are little exaggerated, and that the loss of life has been high.

There is alarm amongst the oil companies, reports issued by geologists say the earthquakes might change the course of the oil subterranean rivers. Three prominent oil representatives of United States companies told the correspondent that no news had been received up to now from the oil fields as to whether production was less or more, and in this the rebels were severely routed.

Officers and soldiers of the army will contribute one day's pay for the relief fund. Only a part of districts are covered by relief parties.

City Clerk Pay Fell on Ice and Breaks Arm

While on his way to the city hall this morning City Clerk J. Albert Pay slipped on a bit of ice and falling broke his right arm. He was taken home and will be incapacitated from work for some time to come, but came up later to the inaugural meeting.

GAUNTLET THROWN DOWN TO PRES. WILSON UNDER FREAK LAW

PIERRE, S. D., Jan. 12.—Under the primary law in this state, if an independent candidate for president issues a challenge, to a regular nominee for a joint debate, failure on the part of the challenged candidate to meet him in at least one joint debate in this state, bars him from the primary election. Under this provision James O. Gerard, independent candidate, has challenged Woodrow Wilson.

SMALL CHILD ONLY SURVIVED IN THE VILLAGE OF SANTITO

MEXICO CITY, Jan. 12.—One small child is said to be the only survivor of all the inhabitants of the village of Santito, State of Puebla, which was overwhelmed by poisonous gases. Indian refugees arriving at Juatusco from the San Higuier valley are unable to give any details regarding the loss of lives there, but say hundreds of persons were killed. Six hundred met death at Barranca Grande. Government despatches, which were filed after the confusion had ended, give estimates of 2000 dead.

SOVIET ARK DOCKS AT KIEL FOR REPAIRS

BERLIN, Jan. 12.—The American transport Buford, the "Soviet Ark," reached Kiel last night and docked for repairs. It was not known how long the vessel would remain there, but her ultimate destination was reported to be either Litau or Riga.

New Mayor Outlines Program

(Continued from page 1)

Individual taxpayers. Current expenditures should at the same time receive a very close scrutiny.

"Closely allied with the question of finance are the matters of local assessment and income taxation. These should be thoroughly studied in order that the burdens of civic obligation should be equitably distributed. Methods of collecting taxation may also be considered with a view to spreading payment over the year.

"The question of a sorely needed new City Hall with its complement of civic offices, is one that should also receive your consideration. The utter inadequacy of our obsolete civic buildings to provide for the present day needs of our growing city is so apparent that further delay in approaching this matter seems little short of neglect of the public convenience.

"The question of providing public lavatories has been before your predecessors for some years, and it is hoped you may be enabled before the present year is closed to satisfactorily meet the public need in this particular.

"You have a mandate in the By-law recently passed by the Electors, for further provision in the matter of recreation and Sports Grounds, and this matter I am sure, will also receive your most sympathetic consideration.

"In conclusion may I also suggest that special efforts be directed towards a close and harmonious co-operation with the Municipal Councils of the County of Lincoln, and of the neighboring municipalities on all sides of this city, to the end that profit may be derived from a more united effort to further our mutual interests. We have much in common with our neighbors, and much good may result to all concerned by the exercise of a cordial spirit of unity and co-operation.

"Permit me to express the sincere wish that our deliberations may be characterized by mutual cordiality, and goodwill, and that 1920 may be in all respects the best year that has been given to the people of St. Catharines."

On motion of Ald. Rose and Dakers the inaugural address was accepted and laid on the table for further consideration.

Ald. Dakers and Ald. Riffer moved that the whole Council be a Committee to strike the Standing Committee. This was agreeable to all the members so they adjourned to the Committee room to strike the Committee.

Ald. Graves reported for the Striking Committee as follows:

Finance—Ald. Graves, Chairman; Rose, Veale, Beattie and Riffer.

Board of Works—Ald. Dakers, Chairman; Riffer, Murphy, McLean.

Fire and Light—Ald. Avery, Chairman; Veale, Dakers, Murphy.

Market and Buildings—Ald. McLean, Chairman; Avery, Rose, Dakers.

Park and Cemetery—Ald. Murphy, Chairman; Beattie, Veale, Graves.

Railway and Industrial—Ald. Riffer, Chairman; Graves, Rose, Beattie.

Ald. Rose asked to have his vote registered against the report. The rest of the Council acquiesced.

Appointments as follows were made:

County Auditor: J. J. Timmons, re-appointed.

Public Library Board—E. C. Nicholson for three years, re-appointed.

Board of Management—Children's Shelter representative, Ald. Dakers for one year.

Interim grants were made to various Committees and as is usual \$100,000 is to be borrowed from the Imperial Bank.

Manager Deschamps announced in Paris that the Carpenter Dempsey bout would be held in New Jersey.

CURING LYMPHANGITIS The "Monday Morning Disease" Affecting Horses.

Symptoms Described, and a Course of Treatment Suggested for Alleviating and Curing the Trouble—Working Over Asparagus and Rhubarb Beds.

LYMPHANGITIS, commonly called weed, a shot of grease or Monday morning disease, is a common ailment in horses. Some horses are predisposed to the trouble and suffer after being exposed to slight exciting causes.

It occurs in horses that are accustomed to regular work and high feeding, when such are given a rest for a day or longer and in the meantime receive their regular ration of grain, hence the name "Monday morning disease," it frequently being noticed on Monday morning in work horses that have stood idle and been well fed since the Saturday evening preceding.

It consists in inflammation of the lymphatic glands, usually those of the limb or limbs, but it is not uncommon for the fore limbs to be the seat.

Symptoms.—The first symptoms usually are rigors (shivering) followed by well marked increase of temperature, but as those symptoms usually occur at night they are not often noticed. The first symptoms usually noticed are well marked soreness and lameness, usually of a hind limb. From reasons not understood the right hand limb is more frequently involved than the near one.

Pressure upon the inner surface of the limb from the sheath or mammal downwards reveals well marked soreness, and at first a beaded condition to the touch. If a fore limb is the seat this condition will exist on the inner surface of the fore arm. There is usually well marked increase in temperature, a full rapid pulse and often more or less well marked labored breathing. Appetite more or less impaired, and in some cases colicky pains are noticed. The swelling of the parts usually increases rapidly and the beaded condition disappears, and there is usually a decrease in soreness and lameness. Exercise reduces the swelling and lameness, but they reappear during the night, and at each time this occurs there is a tendency to organization of some of the exudate which may result in a chronic big leg, hence it is not wise to exercise or work until the acute lameness has disappeared.

Treatment.—If colicky pains be well marked, give a colic drench, as one oz. each of laudanum, spirits of nitre and tincture of belladonna in a pint of water. Follow up with a brisk purgative of 7 to 10 drams aloes (according to size of patient) and two drams ginger. Give the purgative at first colicky pains are not well marked. Follow up with four drams nitrate of potassium twice daily for two days. Keep the patient in a dark, cool, well-ventilated draught and bathe the affected leg frequently with hot water and after bathing rub well with a stimulant liniment, as one made of 2-oz. oil of turpentine, 1-oz. castor oil, 1/2 oz. camphor, 2-oz. alcohol, and water to make a pint. Feed bran only until purgation commences, then feed reasonable quantities of hay, but no straw. Continue treatment until the acute soreness and lameness have passed, then give regular work or exercise. The swelling will reappear at night for a few days. Prevention consists in either materially reducing the grain ration on days that the horse is not working, or seeing that he gets exercise in some way.

Repeated attacks usually result in a chronic big leg, called elephantitis, which is incurable.—J. H. R., Ontario Agricultural College, Guelph.

Working Over Asparagus and Rhubarb Beds.

The handling of asparagus and rhubarb beds in the spring of the year is largely dependent on the situation of them and the time that the owner has at his disposal both in the fall and spring.

Where properly handled the asparagus beds in the fall of the year should have had all tops removed and burned and the soil ploughed over the top of the row so that a furrow would be left to remove the water.

In the spring of the year the asparagus bed, if ploughed in the fall, should be ploughed back and then given a thorough disking so that the soil would warm up quickly, especially around the crown of the plant. After this cultivation should be practiced until the 1st of July, when cutting should cease and the bed receive a heavy coating of good manure and a considerable quantity of commercial fertilizer.

Rhubarb beds in the fall of the year should be manured heavily with well-rotted manure after the tops have been removed.

Rhubarb beds in the spring of the year are generally given a cultivation and much of the rougher manure carried from the roots of the plants and the crown. This permits the warming up of the soil and consequently early growth.—H. H. McLean, Vegetable Specialist.

Clover Seed and Hay Crop.

A crop of seed and of hay can be made from the second crop of clover just as well as from the first, according to the experience of a Pennsylvania farmer. In his practice the crop is cut when most of the heads are filled and brown. It is then cured in the usual way for hay and when good and dry the hullers will get out all the seed as well as if the stalks were dead and weatherbeaten. The resulting hay, while not of the best quality, is very good and the cattle will eat it even to the last bit.

Over a half a million spectators attended the English Cup soccer matches on Saturday.

Subtle and Otherwise

New York State has not yet electrocuted a woman. It would seem to the casual observer that a female electrocution is about due in that state. Taking the woman's own story and nothing else, a she devil of the type of Mrs. Pearl Odell has no right to be contaminating this world wicked as it is. If this had happened two days after, there might have been some excuse but to wait two years!

The Buffalo News coins "acronutty." Let us coin another—"dancnutty."

"Profiteering Boosts High Cost of Living," asserts Senator Thomas P. Gore, of the U.S.A. Well, just to think of it—and the thing never occurred to us before! Astonishing!

YES, AND ABOUT WHAT, DEAR LADY?

Miss Stenning will give interesting first hand information at the Winter Chapel Wednesday evening.—Kingston Whig.

And after all they fixed those chairmanships without wigs on the snow!

A Chicago report says low salaries are driving school teachers into the chorus. Yes, we know of some who would adorn a chorus, or any other place—but all school marmas are not fitted for the job.

WELL, HOW ABOUT UNSALTED PORRIDGE?

Positively our last notion of tasteless, useless, worthless table baggage is unsalted butter. The only shade of an excuse we ever heard offered for it was yesterday when one of Mr. Statler's menials said: "I can't help it; that's the way it comes."—Buffalo News.

This hysterical murderess over in Rochester cries that "if he goes to the chair I go to"—meaning her husband who helped her kill Kneip. Most people, after reading the details of the murder would rather put it the other way round. Surely Odell would not be sent to the chair alone when his wife actually did the killing.

SON'S LOOKS.

Father—Well, now that you've seen my son, which side of the house do you think he more closely resembles?

Genial Friend—H'm of course his full beauty is not yet developed, but surely you should not suggest that he looks like the side of a house!—Blighty London.

Troubles never cease for some folks. Here, a year ago, the Niagara Falls Review proprietor could scarcely get his paper out because of the visitation of Spanish Flu cut such capers with his staff. Yet, it was all imagination, he declared. Now this winter, its smallpox and everybody's getting vaccinated. It looks as if there was a movement on foot to convince the unbeliever and let us fondly hope it will be having next?

REAL GREATNESS

That man is great who knows it all, and therefore can discern

How small his wisdom is, how much the wisest still may learn.

But he is greater still whose store of knowledge being small.

Can make the whooping, happy crowds believe he knows it all.—Exchange

MRS. SANFORD'S MESSAGE TO WORKING WOMEN

Laurel, Miss.—"Eight years ago I was suffering with pains and weakness caused by a female trouble. I had headaches, chills and fevers, and was unable to do my work part of the time. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took twelve bottles of it, and my health has been good ever since. I am able to run the machine and do dressmaking besides my housework. You are at liberty to publish my letter if it will help some poor suffering woman."—Mrs. J. C. SANFORD, 1237 Second Ave., Laurel, Miss.

"Thousands of women drag along from day to day in just such a miserable condition as Mrs. Sanford, or suffering from displacements, irregularities, inflammation, ulceration, backache, headache, nervousness, or 'the blues'.

Such women should profit by Mrs. Sanford's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did. For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their long experience is at your service.

Ask Surrender Of the Kaiser During the Week

PARIS, Jan. 12.—The supreme council was scheduled to send a note to Holland early this week, demanding surrender of the former kaiser for trial by the Allies, if it was understood today.

The "big three" which was to resume its conference over unfinished peace matters, was expected to arrive at a definite agreement for disposition of Fiume, before Wednesday.

M. Demareilly has been appointed French charge d'affaires in Berlin, and will leave Saturday for Germany to resume diplomatic relations.

Latest Style in Ford, Make Two Fords From One

BUFFALO, Jan. 12.—An alleged plan to make two Fords rattle where before there was but one was revealed in the city court yesterday when Samuel Edinger of No. 149 Monroe street was trounced on a charge of having in his possession a car stolen from George Naab of No. 917 Smith street on November 30th.

Some time in November, according to Harry L. Neuse, assistant district attorney, Edinger reported to the police that his Ford had been stolen. Two weeks later a Ford, bearing the engine number that he gave, was recovered and turned over to Edinger.

While the police had the car, however, Nabb identified it as his. Although the engine number had been altered, he said he recognized the car by certain distinctive marks, particularly by some repairs which had been made. The repair man also identified these marks.

Mr. Neuse contends that Edinger bought a Ford car, stole another, to which he transferred the license plates and engine number of the first and left the second machine in the street to be discovered by the police, after he had notified them that his car had been stolen. When it was returned to him he would have two cars instead of one.

Edinger claimed that the machine in question belongs to him and produced his state license card and also a bill of sale, dated on August 25th. Chief Judge George W. Woltz held him for trial.

Edinger claimed that the machine in question belongs to him and produced his state license card and also a bill of sale, dated on August 25th. Chief Judge George W. Woltz held him for trial.

TOUCHING

At first she touches up her hair

To see if its in place

And then, with manner debonaire,

She touches up her face.

A touch to curls behind her ear,

A touch to cuffs on collars,

And then she's off to hubby dear

To touch him for ten dollars.

—Exchange.

The New Electorate The Women of Canada

CHANGING conditions have given the Dominion a new electorate—the women of Canada.

Canadian womanhood, to take full advantage of its prerogatives, to take its proper place in the management of Canadian affairs, must keep informed on the questions of the hour—must have the knowledge of events that will be the foundation of definite opinions on public questions.

Women Must Read the Daily Newspaper

The extension of the franchise to women was the fulfillment of a policy consistently advocated by The Globe in season and out of season.

But this is only the beginning. Womanhood must serve as well as vote. They must advocate reforms that are badly needed.

There must be legislation for the aged, as well as for the young, pensions for mothers, educational improvements, unemployment and sickness insurance.

These are some of the questions on which the womanhood of Canada will now have to take sides. Therefore, in this respect, The Globe has a

special appeal for progressive, right thinking Canadian women.

The Globe is not a political organ. It never has submitted to outside dictation. It supports progressive liberalism, because it believes that true liberalism draws its inspiration from the needs of the people.

Its daily Women's Department and Thursday's Women's Section have a special interest for womanhood in the home. It was the first Toronto paper to establish a women's department, edited for all Canadian homemakers.

The Globe is first and last a Great Family Newspaper. It serves the women in the home, in public life, in business, in the professions and in industry.

What The Globe has been in the past is its guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

What The Globe has been in the past is its guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

RICH FUTURITIES AT STAKE FOR 1920

Harness Experts Begin Sizing Up Chances of Fast Youngsters Foals of 1917, That Became Three Years Old This Month; Best Performers Expected From 1919 List

NEW YORK, Jan. 7.—Under the rules of light harness racing, all of the foals of 1917 became three years old on January 1. With the beginning of the new year every follower of colt racing will begin to take stock of the youngsters. Each will select the one which on public form appears to have the best chance of winning the big futurities that will be raced for in 1920.

While it is reasonable to expect that the winners will come from the group which was seen in front in the two year old events in 1919, they have not always proved the leaders, as was shown by Molly Knight this year, Mary Putney in 1915, and The Harvester in 1908. The returns for the past few seasons, however, have been on the side of those which were raced freely in their two year old form. The best evidence of this is the careers of Periscope, Brusloff, Nella Dillon, The Real Lady, Miss Bertha Dillon, Harvest Gale, Volga and her brother, Peter Volo, says the Times.

At present it looks as if the 1920 futurities would be another session of Peter the Great against the world. In the three year old division the Laurel Hill premier will have Daystar, Natalie the Great, The Great Miss Morris, Evening Gale, and Klio, while of his sons, Peter Volo will be represented by Voltage and Sunflash; Azoff, by the fleet filly Sister Azoff; Czar Peter, by the Michigan stake winner Alta Coast, and Peter Mozart, by Lady Mozart; that won at Readville in 2:14.1-4.

GIRL KEPT PRISONER 15 YEARS BY PARENTS

NEW YORK, Jan. 12.—Rural tourists were no less astonished at the wonders of New York to-day than Harriet Seres, a 15-year old girl, who has lived in the heart of the city since birth. The child has been kept a prisoner all her life by her parents in an upper room of a Brooklyn tenement, and was rescued yesterday by agents of the Society for the Prevention of Cruelty to Children, and the police.

The mother was placed under observation in the psychopathic clinic of Bellevue Hospital. The father said that since their first child died, before Harriet was born, the mother had "acted queerly." After Harriet was born her mother would never permit her out of sight, he said. He was heartbroken at having the child taken away.

The three "R's" are complete mysteries to the little girl. She had no puny words to describe the alphabet and took childish delight in ability to spell two words, dog and cat.

PLAN TO ORGANIZE NEW MILITIA FORCE

(Continued from page 1)

vice, and qualifications, and will forward to headquarters recommendations for all officers on the strength not included in the new cadre. On receipt and approval of the above a general order will be issued disbanding the regiment as of a certain date for the purpose of reorganization. "This disbandment," says the statement, "will clear the situation, render free action possible in making new appointments and adjusting seniority, and will force decisions in the case of all officers on present strength who are not receiving appointments to the reorganized units by transfer to another unit, appointment to the corps reserve, or to the reserve of officers, Canadian militia, as otherwise they automatically cease to be officers of the active militia."

In spite of the disbanding of the units, however, there need be no fear of loss of continuity of service. This is provided for by immediate reappointment and enlistments, and the order provides that "new service rolls will be opened as of date of reorganization, proper attestation forms being insisted on. A new general order will immediately be issued gazetted all officers in the new unit, and all officers on the old strength not reappointed will be disposed of either by transfer to the corps reserve of the units, transfer to the reserve of officers of Canadian militia, or by retirement.

The question of rank is dealt with in the new order, the ruling being that officers appointed to the active list will be recommended for such rank as they may be appointed to in accordance with the establishment of the unit. Those with C.E.F. service, however, will be recommended for a brevet equal to their rank in the C.E.F. reserve. They will, if recommended, be considered qualified by war service for the next highest rank to any rank held by them in the C.E.F. for a period of six months.

The reorganization will, it is stated at militia headquarters, be proceeded with by arms and an order applicable to the artillery will be issued shortly, to be followed with the cavalry and infantry a little later on. Each arm as ready will be dealt with along the general lines indicated above.

TRY OUT ANY VICTROLA RECORD.

In the Victrola Parlors of Ye Olde Firme of Heintzman and Co., Limited, 68 St. Paul street, St. Catharines, the best opportunity is given to try out in their splendidly appointed rooms, any number of records. Buyers of records find this an advantage well worth their while. Suppose you try out some of the January records, which is considered the best list that has yet been put out by the Victrola Company.

MEXICO CITY, Jan. 12.—A new earthquake in the vicinity of Cossautan, Vera Cruz, today was reported to have killed more than 100 persons. A message from the governor of Puebla declared refugees had reached there reporting that six villages on the slopes of Mount Orizaba, disappeared in the earthquake.

ELECTION OF MR. CLEMENCEAU IS APPARENT NOW

PARIS, Jan. 12.—Premier Clemenceau's election to the presidency practically has been assured as the result of yesterday's elections to the French Senate, it was indicated today.

A majority of the premier's supporters were successful, election returns showed. The Chamber of Deputies and the Senate will meet January 17th to name the new president.

Returns up to early today indicated a general defeat for the Socialists. In the Seine province, it was said the Socialist defeat was overwhelming.

A majority of the cabinet has been re-elected and President Poincare, while not a candidate, has been elected to the Senate by a plurality of 547. Voters in the Meuse district wrote his name on the ballot. Stephen Pichon, foreign minister; M. Pams, home minister, and Senator Dubost have been re-elected, according to early returns while Senator Humbert probably has been defeated.

Russia's losses during the war is killed and wounded aggregate 35,000,000.

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-tives" The Fruit Medicine

R. R. No. 1. LOBNE, ONT. "For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried "Fruit-a-tives". Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place". ALEXANDER MUNRO.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

An order was published in Ottawa Saturday providing for the disbandment of every militia unit in Canada and the immediate creation of the new force, the Commanding Officer having a clear field.

GENERAL MEWBURN

General Mewburn leaves the Cabinet with the respect of his colleagues the good will of men of all parties in Parliament and with a claim upon the gratitude of the country. With no more interest in politics than the average good citizen ought to have, General Mewburn entered Union Government in 1917 to do his best toward prosecuting the war, and fulfilled his contract with courage and capacity. Now, with the war over, and demobilization complete, he desires to retire to private life, no one can object to his decision. On the contrary the country ought to remember him as one who at a time of crisis in his country's history submerged partisanship for patriotism and the national good.

The silver content of Canadian silver coins has been reduced from 925 to 800 parts in 1,000.

The Sydney branch of the National Council of Women has asked the Nova Scotia censors to compel moving picture theatres to show literal serial films on some other days than Fridays and Saturdays.

Making a purely vegetable Medicine

1875 — 1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests, — then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years

These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

- First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.
- Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.
- Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.
- Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.

Ailing Women Should Try

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

SICKLY WIFE NO FIT MATE FOR ANY MAN

GIRLS AND WOMEN SHOULD LOOK WELL TO THEIR HEALTH AND STRENGTH

Never before was physical health and vigor so highly esteemed and so eagerly sought for as today. No man finds happiness in a sickly wife, and the woman who wishes to enjoy the pleasures of life should spare no effort to maintain perfect health.

Is your daughter growing up strong and ruddy? Has she strength to drink in greedily all the pleasures that youth so zealously seeks—or is she compelled to use the street car instead of enjoying the delightful exercise of walking—does she after the ball arise refreshed and vigorous or is she exhausted, indifferent, and perhaps irritable?

When strength and vigor can be so easily maintained by Ferrozone, when the glow of health is so quickly brought to the cheeks and elasticity to the step, it is plainly a mother's duty to see that Ferrozone is on hand to assist her daughter back to health. Upon the wake of Ferrozone quickly follows a stream of rich, nourishing blood which imparts that power and surplus energy so earnestly desired by those in ill health.

Stop and think what this means for your daughter—certainly a great deal and it can be accomplished by Ferrozone.

Every growing girl and young woman derives enormous benefit in many ways from this nutritive vitalizing tonic.

It is specially suited for young women and is a guarantee of health and regularity as long as it is used. Ferrozone is free from alcohol and perfectly safe to use. Prepared in the form of a chocolate coated tablet and sold in 50c boxes or six for \$2.50 at all dealers, or direct from The Cartharozone Co., Kingston, Ont.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions, I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

PROPRIETOR OF LONDON PAPER CHARGED WITH INCITING MURDER

LONDON, Jan. 10.—Charles Diamond, proprietor of the London Catholic Herald, was arraigned at the Mansion House today, charged with the publication of an article in which he was alleged to have said that "killing is no murder."

Diamond, according to the indictment, "did unlawfully solicit, encourage, persuade and endeavor to persuade and propose to divers persons in Ireland to whom the article should be communicated, to murder divers persons carrying on the government of Ireland."

The lord mayor remanded the defendant, who protested against the "transferring of Dublin castle methods" to London.

"MAYTIME"

Announced as the biggest popular success yet produced by the Messrs. Shubert, "Maytime" a genuine dramatic and musical novelty, by Rida Johnson Young, with music by Sigmond Romberg, will be seen for the first time at the Grand Opera House, Monday night, January 12th. To those who kept posted on the more important theatrical events, "Maytime" is by no means an unknown quantity. News of its exceptional worth as a "distinctly discernible" entertainment has already travelled far and wide from New York, where it was seen and heard by over a half million patrons during a record run of two years. In Chicago the vogue of "Maytime" for six months rivalled the patronage accorded it in New York. Boston found it equally delightful. It ran for five months in that city. Certain it is that "Maytime" in no wise resembles the recent musical offering. In fact, it marks a real innovation in stage fare. All of the scenes are laid in Manhattan Island and the action, starting in a Washington Square garden in 1840, carries on for almost a century, reaching the climax in the busy times of to-day. The fact that each of the four has depicted—1840, 1855, 1880 and 1919—are accurately reproduced as to costumes and manners makes for a picturesqueness in staging. "Maytime" that will delight the jaded theatregoer.

ONTARIO GOVERNMENT FINDS SEATS FOR TWO MEMBERS.

TORONTO, Jan. 10.—Constituencies have been found for members of the provincial government who have not seats at present in the legislative assembly. Premier Drury will run in North Norfolk, where

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach; or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin their inside bathing before breakfast.

George D. Sewell will make way for him, and the Honorable Manning Doherty, minister of agriculture, will run in East Kent, where J. B. Clark is the present member.

No seat has yet been found for the Honorable W. E. Raney, attorney general, and the government is reported to be having some little difficulty in securing a seat for Mr. Raney.

PRINCE SAYS HE'S COMING BACK AGAIN IN THE FALL

CALGARY, ALTA., Jan. 8.—The Prince of Wales is determined to visit his ranch in Alberta during the coming fall on his way back from India, he told Prof. Carlyle, of Calgary, who has just returned from England, where he made arrangements for the shipments to the ranch of thoroughbred Dartmoor ponies which the Prince is introducing into Alberta, also thoroughbred Short-horn cattle and Shropshire sheep. The name of the ranch has been fixed by the Prince as the "E. P. Ranch."

Prof. Carlyle, who is manager of the George Lane Ranches, will also manage the Prince's ranch.

CHINESE BOY IS CONVICTED OF THREE MURDERS

WASHINGTON, Jan. 12.—A verdict of murder in the first degree was returned against Ziang Sun Wang, a Chinese student, who was arrested in New York a year ago, after three members of a Chinese educational mission in Washington had been murdered. The penalty is hanging.

Through a month off he trial before a crowded courtroom, young Wang immaculately dressed, showed no signs of emotion. As the verdict was read, he burst into tears and collapsed in the arms of two deputy marshals.

After his arrest in New York, where he had attempted to cash a check for \$5000 bearing the signature of one of the murder victims, Wang was brought to Washington and locked in a hotel room for a week.

He is alleged to have confessed to the police at the end of the week's withdrawal of the confession questioning. His defense at the trial which he said was forced from him by starvation and threats.

The murder of three prominent Chinese educators here last January was discovered when their home remained closed for several days. They had been shot to death by a pistol belonging to one of them.

TOULON, France, Jan. 12.— The repatriation of sick or seriously wounded Turkish and Bulgarian war prisoners will commence in the near future, it was announced.

ST THOMAS WANTS CIVIC ELECTION BEFORE CHRISTMAS

ST. THOMAS, Jan. 10.—The matter of increasing the Mayor's salary from \$500 to \$1000 will undoubtedly be one of the first questions that will come before the new City Council at its inaugural meeting next Monday. The increase is favored by a number of ratepayers of the city, on account of the increased duties of the chief executive.

It is probable that an offer will be made to have the election date changed to the middle of December, with the fiscal year ending November 31. Those who favor the change point out that it would give electors an opportunity to vote more intelligently, the present fiscal year not ending until after the election.

CATARRH COLDS BRONCHITIS CURED WITHOUT DRUGS

It is really impossible to treat Catarrh, unless by inhaling the soothing germ killing vapor of Catarrhazone. Its rich fragrant essences are breathed from the inhaler to every sore, diseased spot in the breathing organs. Not a single germ can escape the healing fumes of Catarrhazone which acts on the infected linings of the nose and throat just as an ointment would act on a cut finger. You see Catarrhazone soothes, cleanses, heals. It cannot fail to reach and cure Catarrh; it's simply a wonder on weak throats, bronchial coughs, deafness, buzzing ears, and all other symptoms of Catarrhal cold.

Get Catarrhazone today. Complete outfit costs \$1.00 and is sufficient for three months' use. Smaller 50c, all dealers or the Catarrhazone Co., of Kingston, Ont., Canada.

CASTORIA For Infants and Children In Use For Over 30 Years

BEARS AND ANNUAL PRODUCE VARIETIES RECOMMENDED FOR HOME ORCHARDS.

Bearers and Annual Produce Varieties Recommended for Home Orchards. Also Varieties Especially Liable to Disease—Harmless Also a Good Quality—Kent Potato Rot From Spreading.

THE home orchard should provide high-class dessert apples, cooking apples throughout the entire apple season, the middle of July until the spring. It is quite easy to select varieties for any part of the season which will do this satisfactorily. The varieties selected should be into bearing early, should be fruiting annually, and should be as free as possible from diseases of which a minimum of expense and care throughout this article the varieties mentioned are listed in the order of their season of use, so that into planters may be guided in making a selection to cover the season in order to simplify the selection of varieties for any given district. This list is given herewith based on their relative hardiness, which is their ability to withstand cold weather successfully.

Best—Transparent, Duchesne, McIntosh, Hibernia, Crisp, Golden Russet, Ben Jonson, Wealthy, and other varieties listed here. These are hardy as far north as the Yukon, and can be grown in any soil, and in any climate.

Second Hardest—Astrachan, Wealthy, Snow, Scarlet Pippin, Wealthy, Golden Russet, Ben Jonson, Wealthy, and other varieties listed here.

Third Hardest—Blenheim, Wealthy, Golden Russet, Ben Jonson, Wealthy, and other varieties listed here.

Fourth Hardest—Gravenstein, Wealthy, Golden Russet, Ben Jonson, Wealthy, and other varieties listed here.

Fifth Hardest—These varieties are more or less tender, and are best in the south of a line drawn from Milton to Brantford and Godfreyburg, Ribston, Hubbardston, Wealthy, and other varieties listed here.

These varieties are tender and thrive best in the Erie counties, although they are not entirely satisfactory everywhere. Jonathan Winesap, Spitzenberg, and Baldwin are omitted from the above classification for the reason that their inclusion would probably be misleading. It is formed in about the fourth grade of hardiness, but intending planters do well to make careful note of the fact that they have withstood badly of recent years, even in most southerly counties.

The varieties which come in the earliest (about the 1st of September) are Duchesne, Wealthy, McIntosh, Wagner and Ontario. The other varieties listed show a bearing about the 15th of September, but Blenheim and Spy show exceptions to this, and do not produce fruit until about the 1st of October.

Varities which are least liable to apple scab are Duchesne, Blenheim, Hibernia, Baldwin, Russet.—Prof. J. W. Crow, Guelph.

Potato Rot From Spreading

When harvesting potatoes, especially in damp seasons, it is vital to pick them over and discard specimens that are diseased, especially those that show any indication of rot. If this is not done, disease is liable to spread through the whole mass during storage.

For dry rot (Fusarium) or blight and wet rot (B. solanacearum) blight (Phytophthora infestans) may be taken for granted the percentage of the tubers will be lost. These diseases may be found at all stages of development in tubers produced by an affected potato. These are the diseases most liable to spread to a greater or less extent through the tubers of stored tubers. If any of them are affected at the time they are stored away, especially the greatest care should be taken when harvesting a crop, to show diseases when growing in the field.

These diseases show themselves in tubers, either as a dry rot or as a wet slimy rot, or as blightish discolorations. On tubers the diseased condition may be easily noticed. On a diseased potato the disease may be of any development and not easily seen. Where practicable it is desirable to pick out all tubers in which disease is readily seen and the remainder either in a separate bin or by turning a hose over them. This washing not only removes any soil that may be sticking to the tubers, but it also removes the undesirable specimens which are only lightly affected. After the tubers are removed, they should be stored away in a bin or in a sack, and not in a pile, and the remaining tubers should be stored away in a bin or in a sack, and not in a pile, and the remaining tubers should be stored away in a bin or in a sack, and not in a pile.

Fertile Soils for Alfalfa

Alfalfa will not thrive on soils that are deficient in phosphorus. Even soils that are moderate in phosphorus will not produce good crops of alfalfa unless first fertilized with phosphorus, and then planted in sweet clover, which should be turned under in the summer.

Best farm motors for pumping, pulping turps, cutting hay, etc.

Vanities defeated Kitchener. H. A. senior game on Saturday 4 to 1.

FARM LOANS FOR SOLDIERS

Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

(a) He has performed the required military service;

(b) He is sincere in his intention to make farming his permanent occupation;

(c) He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery; ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but will not exceed three months, the man is placed with a carefully selected farmer in the district in which he intends to settle, to complete his training. During this period (not exceeding one year), the soldier is visited from time to time by representatives of the Soldier Settlement Board, who check his progress and recommend when he is considered qualified to take up a farm of his own.

It will be evident that by this system of preliminary training the soldier settler will gain a thorough practical knowledge of farming without expense; will learn to appreciate the responsibility involved in the venture, and at the same time gain a clear conception of just what farm life means.

On His Own Farm

When a settler is deemed qualified by the Agricultural Qualification Committee, the Board will assist him to become established on a farm of his own, and will, through its Agricultural Advisers, continue to co-operate with him in his work, thereby ensuring his success and consequent ability to discharge his obligations and become permanently established.

Fair To Both

The procedure outlined not only gives the soldier an opportunity of first becoming familiar with his environment and of acquiring the experience requisite to success, but ensures adding to the nation's fundamental industry only competent and satisfied producers.

Detailed information regarding the provisions of the Soldier Settlement Act and further particulars regarding agricultural training may be obtained from the Provincial Superintendent, 32 Adelaide Street East, Toronto, Ont.

Religion Is Patriotism

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities.

The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

The Menace of To-day

This conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten.

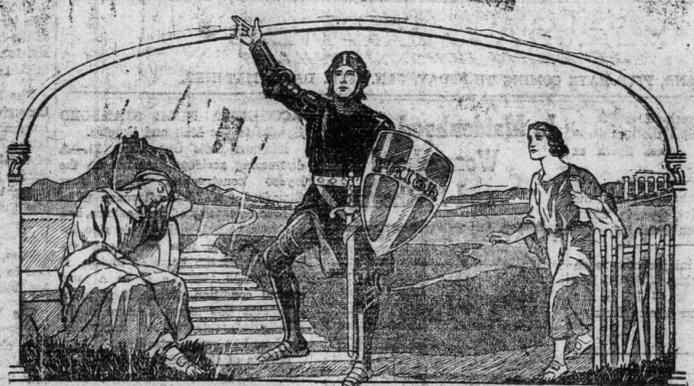

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war. How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus-Christ. There is no other agency or society that has any possibility or hope of bringing about a full

realization of the brotherhood of all mankind, and the reign of the Prince of Peace. All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus-Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

Victory only through Christ. The Church of Jesus-Christ. There is no other agency or society that has any possibility or hope of bringing about a full realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

The World's Need is Spiritual. I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow.

Right the Good Fight

The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lief in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

Following which the Pastor gave a short address and the service closed with the National Anthem.

Cincinnati Man Discovers Drug That Loosens Corns so They Lift Out

Local druggists are having a tremendous call for freezone, the drug which is said to shrivel a corn root and all, without any pain.

A few drops applied directly upon a tender, aching corn relieves the soreness at once and shortly the entire corn, root and all, lifts right out with the fingers. This new drug is being dispensed at small cost in water ouch bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once and does not inflame or even irritate the surrounding tissue or skin. There is no excuse for anyone inviting death by infection or lockjaw from cutting their corns now.

ADVERTISE IN THE JOURNAL

BIG LOSS IN GRANARIES

Bad Weather and Mice Destroy Much Grain.

Concrete Structures Best — How to Make Old Granary Efficient — Finish Ewes to Increase 1919 Lamb Crop — Great Shortage of Fall Wheat Seed.

NO hard and fast rules can be laid down for the erection of a convenient and efficient granary. Each problem requires a knowledge of local conditions and requirements. Granaries, in the majority of cases, are built in enclosures on the barn floor, and constructed with too little regard for strength, durability and convenience. These structures should be located immediately over the feed room, each bin having a chute with a controlling slide, or a canvas distributor to convey the grain to the hopper of the grinder; or if the grain is intended for market, to a sack placed on the scales below the chute ready to receive it. To facilitate emptying the grain, the floor of the bins should be sloping.

The important consideration in the construction of granaries and bins for loose grain is to be sure that the structure is designed with sufficient strength to prevent bulging of the sides and springing of the floor, for grain, owing to its enormous outward thrust, corresponding somewhat to that of water, has a tendency to burst the sides unless well braced or supported. Timber construction requires frequent repairs to prevent decay and general depreciation from use. It is always liable to climate conditions. The boards will crack and shrink in the summer when the bins may be empty, and when the new grain is dumped into the bins an enormous quantity promptly disappears into the cracks and crevices and through mice holes, entailing considerable loss to the farmer, to the consumer and to the nation. Thousands of bushels of grain are, in this way, lost to the producers through sheer indifference to the condition of the granary. Yet this preventable waste may be easily remedied and made secure by lining the bins with sheet metal.

The watchword is "Conservation." Every grain is needed to feed the Empire and its Allies. It is, therefore, highly desirable at this time to bend every effort to eliminate all possible leakage and conserve our grain for the need of the Allied nations. While there is an annual depreciation on a timber structure varying from 4 to 6%, concrete construction grows better as it grows old; hence concrete properly reinforced, is the ideal material for granaries, because it is both damp-proof and rat-proof, two very essential factors in the construction of granaries.

Concrete properly made to suit existing conditions, is absolutely impervious to moisture, and can be kept as dry as the structure of wood ever built. The experience of many farmers is that grain, mature enough to be placed in storage, will not spoil on contact with concrete, nor will it mold, provided there is good ventilation and the roof is tight. To get rid of rats and mice destroy their nesting place and to this end concrete is pre-eminently the best material and is recommended for all farm structures.

Under average present day conditions a reinforced concrete granary may represent an additional outlay of about 25% over that required to construct of timber, but the high efficiency distinctive of concrete quickly offsets this increased initial cost. Concrete construction has many in short, important advantages. The contents are safe from the depredations of rodents, is damp-proof, requires neither paint nor repairs, is fireproof, the grain is perfectly preserved under all conditions of climate and temperature, and the resulting structure is practically everlasting. — Prof. John Evans, Ontario Agricultural College, Guelph.

Care of Ewes After Weaning

In order to avoid udder trouble, it is necessary to keep a close watch of the ewes for a few days after they are separated from the lambs. Not a few cases of defective udders can be traced to the want of a little care in this respect. Milk should be drawn enough to keep the udder soft the day after the lambs have been weaned. After two days' time they are again milked out. Some ewes do not need any more attention after the second milking. Such ewes may be marked to indicate that they are dry. Three more days should elapse before the next milking is done and this method followed until it is certain the entire flock is safe. In conjunction with the method outlined above the ewes should be separated some distance from the lambs, and be on scant pastures until all are perfectly dry. This is a good time to go over the flock and cull out all undesirable members. Non-producers and those with broken mouths and poor udders should not be retained. A good deal of the success of the subsequent lamb crop will depend upon the treatment the ewes receive from time of weaning until after they are bred. They should have good pastures and be given an opportunity of putting on flesh. This is what is commonly called "flushing." Nothing better for this purpose than rape pasture. It is usually from six weeks to two months from date of sowing that rape is ready for pasture. If rape pasture is not available new seeding or second crop of clover will serve fairly well. Stock should not be turned on rape or fresh clover for the first time when the leaves are wet from rain or even dew, in order to avoid trouble from bloat.— J. P. Sackville, B.S.A., Ontario Agricultural College, Guelph.

National Hockey League results on Saturday were: Canadiens 14; St. Patrick's 7; Ottawa 7, Quebec 1.

Watch Your Child's Tongue! Constipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."—Beware!

SAVING MOULDS CHARACTER

A prominent employer recently said: "The best men working in our shops to-day are the men who save money regularly. The steadiness of purpose and ambition thus displayed is apparent in their work. They are the men to whom advancement and promotions most frequently come and they will be the first to be laid off when dull times come." Open a Savings Account with

Give Your Boy a Chance, You Will Not Miss the Small Monthly Amounts

On the first day of every month draw a cheque for \$10 for the credit of your son's Savings Account. Do this regularly for (say) ten years.

Your boy will then have \$1380.42.—He can own a farm when other boys are still working for wages.

Capital and Reserve \$ 34,000,000 Total Resources \$330,000,000

SECURITY

A Savings Bank Account not only provides an assurance for the present, but guarantees you security in the future.

To save is to succeed—
