## Dail Eireann Will Not Accept Dominion Status.

De Valera Makes Defiant Speech--Times Issues Warning to Extremists--Parliament Alone Should Have the Privilege of Making Gifts.

**OFFER REFUSED.** DUBLIN, Aug. 17. De Valera declared today that Dail Eireann would not accept terms offered by the British Government extending to Ireland the offer of Dominion status.

**DE VALERA DEFIANT.** DUBLIN, Aug. 17. There ought to be no doubt in any man's mind, said Mr. De Valera in his speech here, that we cannot and will not obey this nation or accept these terms. It is said we are offered the status of Dominion Home Rule for Ireland. Ireland is offered no such thing. The statement contains two falsehoods. Where is Ireland? There is no Ireland in the terms, but two pieces of Ireland. It was said that the Dominions had the right to secede, and could get out if they desired. We are told we must not claim the right to secede, because there has never been un-

the following regarding strictures by the public accounts committee upon gifts, without formal consent of Parliament, of warships, etc., to Dominions. Our Cabinet's proper relation to Dominions is not that of a wealthy uncle visiting his nephews at school, and simulating personal regard by handing some gifts. The taxpayers are uncles, and if uncles so deeply impoverished by a war are to tip nephews so much enriched by it, as were some of the Dominions, we might at least be allowed to know we are doing it. The Westminster Gazette remarks that such simulating personal regard by hand-outs is considered a low estimate of losses to Spanish, allied and neutral firms through the devastation caused by the fighting around Melilla.

**SAXON AT LEONE.** LONDON, Aug. 17. Reuter's correspondent at Sierra Leone has reported the arrival there of the steamer Saxon with her bunkers afire. General Smuts and other passengers are waiting transfer to another vessel.

**BROOKLYN FIRE.** NEW YORK, Aug. 17. Ten factory buildings, occupying a block in the Williamsburg section of Brooklyn, were destroyed by fire today. The loss is estimated at one million dollars.

**ASPIRIN**  
"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoceticiacidester of Salicylicacid.

## Guards Sports Day.

**BELL BEATS HIS RECORD.**  
The sports held yesterday afternoon on St. George's Field by the Methodist Guards Old Comrades Association proved a success. The affair was witnessed by over 3000 people, and amongst those present were many prominent citizens including Mayor Morris, Hon. S. and Mrs. Miller, Hon. F. and Mrs. Steer, Lady Crosbie, Mrs. C. R. Ayre, Lt.-Col. Conroy, C.O.C., and the programme was excellently arranged, and well carried out. Amongst the events the Slow Bicycle, the Boot and Barrel and the Whipp-it race proved the most merriest. All the events were well contested, and in the races good time was made. The following is a list of the sports and the prize winners:-

**100 Yards Dash.**-(Championship)- 1st, T. Butler; 2nd, T. Butler; time 10 2-5. (not official).  
**Stilt Race.**-Won by T. O'Neill.  
**Mercuriale Relay Race.**-Won by Bell's represented by Calvert, McNeil and Quick.  
**Football Fives.**-Guards vs. Briton, won by Guards, 1-0.  
**2 Mile Walking Race.**-1st, R. Steele; 2nd, Grant Burnsell; time 17 min. 33 3-5 sec.  
**Putting the Shot.**-Won by T. Morrissey, 24 feet.  
**Throwing the Hammer.**-Won by W. Coffield, 81 feet, 4 inches.  
**Quarter Mile Race.**-1st, T. Butler; 2nd, G. Halley; 52 2-5 seconds.  
**Football Fives.**-Cadets vs. Star, won by Cadets.  
**Tug of War.**-(Inter Comrades)- Won by C.O.C.  
**Half Mile Race.**-1st, T. Butler; 2nd, P. Dobbin; time 2:22 2-5.  
**Boot and Barrel Race.**-Won by G. Winsor.  
**Football Relay.**-1st, Feildians; 2nd, B.I.S.  
**Whip-It Race.**-1st, J. Barrett and James; 2nd, H. Burt and H. Squires.  
**One Mile Race.**-1st, H. Skirving; 2nd, J. Thorburn; time 4:54.  
**Bicycle Race, Slow.**-(Last in wins)- 1st, B. Muller; 2nd, A. Gilles.  
**Final Football Fives.**-Guards vs. Cadets, won by Guards.  
**10 Mile Road Race.**-1st, J. Bell; 2nd, A. Taylor; time 56:33.

The road race proved very exciting, there being eight entries. Of these 6 finished the full route of ten miles. Bell the winner, doing the course 2 minutes quicker than he did at the Dominion Sports, when he made his record. The race started sharp at 10 a.m. near the Octagon, the following competitors lining up:-R. S. Maunder, A. Taylor, G. Bayley, B. E. Halford, R. Pike, J. Jacobs, J. Bell, R. G. Kelly. The runners got away together, Bell taking the lead from the start, setting a pace of 98 to the minute, which he kept up till Donegan was reached, when on the fourth mile he quickened to 101, reducing in the fifth to 95 which he kept up till the finish. Halford held second place, and Donegan about 300 yards behind Bell with Taylor and Pike close behind. Along Cornwall Avenue and Lemarchant Road Bell increased his lead and kept running in splendid style. On entering St. George's Field he was given a tremendous ovation by the spectators. Bell completed his ten rounds of the field in wonderful form, and finished the course in 56:33 beating his nearest competitor by over a mile. A Taylor came in second, his time being 57 minutes. J. Jacobs finished third one minute and 20 seconds after Taylor. Kelly, Maunder and Pike followed in the order named. At the close of the sports Lady Crosbie made the presentation of prizes complimenting each of the winners on their success. President Russell on behalf of the Association thanked Lady Crosbie for so kindly consenting to present the prizes. Cheers were then given for Lady Crosbie, the Guards and Committee, after which the National Anthem played by the Guards Band brought to a close the most successful sports of the season.

**TRADE COMMISSIONER EDWARDS.** LONDON, Aug. 17. In the House of Commons Sir Wm. Mitchell-Thomson, Parliamentary Secretary for the Board of Trade, announced that Senior Trade Commissioner Edwards, having charge in Canada and Newfoundland, had resigned, stating that the office and travelling allowance were not adequate for the proper performance of the functions of his office.

**BIG PLANT DAMAGED.** KANSAS CITY, Aug. 17. Damage, estimated at approximately \$500,000, was caused here early today when the large plant of the Kelly Milling Company, located in the east side industrial district, was damaged by fire.

**AROUND MELILLA.** TANGIER, Aug. 17. European aviators with experience in the late war, according to advices received here, are being offered 45,000 francs a month to serve with the Moorish army in the Melilla region. These advices state that one hundred million pesetas is considered a low estimate of losses to Spanish, allied and neutral firms through the devastation caused by the fighting around Melilla.

**THE CIVIL SERVANTS' CUT.** Editor Evening Telegram.  
Dear Sir.-Amongst other notable achievements that have gone on record to mark the names of the present Government as "small," ignoble and detested, is the action of having cut the salaries of the Civil Servants, in some quarters.

That the cut having been made only in certain divisions of the service, shows, as I will prove, the cowardly perception of the Government besides their utter inability to handle men and departments in the Civil Service. When at first the question of cutting the salaries of the whole service was mooted, the two bodies of Postal Telegraphs and Police threatened to walk in and hang up, two essential factors to the benefit and uses of the country.

The Government was made aware of this and knowing their men, they exempted the Police, Postal Telegraphs, Firemen, and I understand, the Nursing Staff from the supposed-to-be general wage retrenchment. What is the result of this cowardly movement? That the employees of other departments must resign themselves to the flit stroke of incompetent authority, and do the greater work for wages they received years ago.

The whole thing is unfair and as I say this, I have in view the case of the Postal Telegraphs and the other employees of the service. The Postal Telegraphs retain the same wage cut has been made. The other employees of the Postal Department lose a percentage. The cut has been made. Why? This is distinction. Why? The whole Postal Service is as it were incorporated. The Postal Telegraphs belong to and are one with the Postal Service.

Then comes the injustice of it. Young employees in the Postal Telegraphs to-day get from 20 to 35% more wages than long-tenured men in other departments of the same service. Three certain men in the Post Office, after from 33 to 45 years in the service, receive the wage of \$15 month. Others in the Telegraph Department who can count their service by one or two decades, receive from \$145 to \$160 per month. The Telegraphs escape the cut, the other postal officials must bear the cut. Funny isn't it?

It is to be hoped that the Minister of Posts and Telegraphs (Mr. Halford) will see that this movement is derogatory to the dignity of his position. He stands in a false position when he permits one section of his staff, who hardly a third at that, to retain a favor that the other, two-thirds must have usurped from them. Mr. Halford's position in this whole matter is an un-

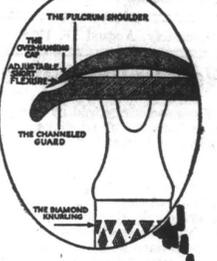

# The Men "Who"

- are the men who do something,
- the men who act,
- the pioneers who open up new lands,
- the manufacturer who scraps the old machine and strides forward,
- those spirits of progress who root up old-established habits for methods that are new and better,
- the men who count.
- For its very life, a nation depends upon its men "who."

Nearly 20 years ago, Gillette introduced his original safety razor. Beards disappeared. Daily shaving became the habit of a nation. He was a pioneer. And with him were the men who discarded their strops and hones, abandoned their age-old methods and adopted the new razor.

Gillette, to-day, is the pioneer of the New Improved Gillette Safety Razor--the first shaving instrument of precision ever known, and with him in the vanguard of progress are many of those same men who were amongst the earliest users of the old-type Gillette. The new razor awakens in them the spirit of the pioneer. They stride forward to the realization of their goal--the final word in shaving comfort.

NOTE--The Gillette Company assumes full responsibility for the service of blades when used in any genuine Gillette razor either old-type or New Improved. But with imitations of the genuine Gillette, it cannot take responsibility.

Workers Dissatisfied

The news story told by one of our reporters of conditions at Badger, in yesterday's issue of the Telegram, is not one whit exaggerated. Rather was it toned down somewhat, because had the whole of the individual sufferings of the men working in the wilderness been described, it would have made a tale of a most heart-rending nature. The description of life at the camps was received at first hand from a man who returned from there, being unable to stand the severe physical strain imposed upon him any longer, and who painted a word picture of such a state of affairs, that would do no discredit to the descriptive powers of Jack London. Working under all sorts of difficulties, tormented by day and night alike with those pests, mosquitoes, sand and deer flies, the diurnal round of the road makers is one of purgatorial torment. Broiling in the hot sun turning up soil to form the direction of the road, which has been stated leads from "nowhere to nowhere," moving camp despite the heat and under all sorts of adverse meteorological conditions, is it any wonder that the men who have been sent to this penal settlement in the woods are disgusted and dissatisfied. Sleepless nights follow the day's fatiguing labor, and out of it all there is no future prospect of the object for which those men have suffered, namely the provision for the coming cold months of the year; for after this work is finished those employed at it will be no better off than when they left their homes to begin.

About three weeks ago, to be precise on July 27th, an article in this column foreshadowed the discomforts which would be inflicted upon the men who were laboring on the construction of this road from Badger to Hall's Bay. The conditions under which they would have to toil were pointed out, as was also the lack of financial benefit to them. And all that was written then has come to pass. When they left home they had to make provision for their families by obtaining credit from the dealers in the places from which they went. That was inevitable. The natural and obvious result was that a stoppage of wages for the first month was made by the suppliers. There was nothing wrong about that, but the sequence is that the first month's pay netted the laborers nothing. True their bills for advances were paid, leaving them without any indebtedness. But their families still had to be fed, and they themselves had to keep going at the stores in the vicinity of their work for subsistence. And the cost of living in that direction has not decreased to any great extent. Hence the person interviewed by our reporter had no hesitation in stating that the greatest sum the most careful and economical could place at the disposal of their families, after they had fed themselves, was not more than five dollars per week. And so when this work ends, whether the road is completed or not, what prospects are there for the winter for those men who have gone up there? Will not their last state be worse than their first? It was estimated that the work would take about two and a half months. The greater portion of that time has been put in, and the road is only about one-third graded. The obstacle in the way now is a swamp of one and one half miles across, over which a "corduroy" road has to be built. For the benefit of the uninformed it might be said that a "corduroy" road is an American definition of a road formed by laying poles in

a transverse position and in contact with each other, and is used as a mud bridge in swampy places. Beside cutting and bringing the poles to the place where they are required, it is necessary that hundreds of trees and boughs be laid underneath, in order to give a bottom upon which to place the poles. Or long logs as they are colloquially known in this country. The amount of labor required to get these and transport them is incalculable. Then the longers have to be cut and laid, and after the work is completed the way is no better than a foot-bridge for pedestrians. The labor to be expended on this construction will be herculean, and by the time it is completed and the road laid over the swamp, the period of work will have been exhausted. What will happen then?

Jubilee Scholarship Winner.

Congratulations to Miss Olive News, daughter of Mr. and Mrs. F. A. News, who has won the Jubilee University Scholarship of \$1500 in the Associated Grad. Examinations. Council of Higher Education. Miss News is one of the pupils of Bishop Fenwick College and her success reflects credit alike to herself and to the educational institution and its capable teaching staff.

Narrow Escape From Death.

WORKMAN FALLS 30 FEET.  
A workman named Walter Piercy, employed on the new Memorial School, being erected by the K. of C., had a narrow escape from being killed last evening. The man was at the top of the building, and was about to descend a ladder, preparatory to finishing up his day's work, when he misstepped his footing and fell a distance of some 30 ft. He was picked up by other workmen and a doctor was called. An examination disclosed a broken limb, but the patient was ordered to Hospital, where he was taken in the ambulance. Piercy was badly cut about the face and head in his fall, and is suffering a severe shaking up.

B. I. S. Annual Outing.

Over 200 people went out by special train at 3 p.m. yesterday to attend the B.I.S. annual outing at Bonaville. On arrival at the grounds all preparations were in readiness, and the L. and A. Committee, under the supervision of Chairman P. H. Moore, soon had things well under way. A variety of sports in which both ladies and gentlemen took part proved very enjoyable, the different events being well contested. At 5 p.m. a delightful supper was served by Mrs. Higgins and her capable assistants. During the supper, Mr. P. F. Moore presided, and in his address, he spoke of the B.I.S. Ladies' Association, for their work of behalf of the Society. He also complimented Mrs. and Mrs. Hughes for the splendid manner in which the catering was done. Mr. J. C. Pippy, in the absence of President Higgins, took out of order, and spoke thanking the L. and A. Committee and all concerned on the splendid success of the 1921 Outing and he looked forward with great hope for the future, as regards the work of the Ladies' Auxiliary and the L. and A. Committee. During the night dancing was indulged in, music being furnished by the B.I.S. Orchestra. The return to town was made at 1 o'clock this morning.

League Football.

The League Football game played last evening between the Highlanders and Star teams on St. George's Field, was keenly contested, both teams putting up a splendid game. In the first half the Highlanders played against the Stars and after minutes play Hewitne got an opening and placed the ball nicely in the net. The Stars worked hard to equalize, and shortly before the end of the first half, a corner, headed the ball between the posts. The Highlanders protested that the ball was not "touched" but referee Quick awarded the goal. Shortly after they being resumed Adams scored No. 3 for the Stars. Although both teams worked hard, no further scoring was done and the game ended Star 1-2 Highlanders 1. During the process of the game B. Hart received an injury to his leg, and was obliged to leave the field. His place was taken by L. Delahanty.

Master Sick at Barbados.

MATE BRINGS VESSEL HOME.  
Owing to the attack of fever, which kept him in hospital, Capt. Joseph House, of the schr. Little Princess, which arrived in port yesterday from Barbados, was unable to join his vessel. The ship was commanded by Mate Joshua Morgan, and the passage was made in 23 days. Since the vessel's arrival in port a message has been received saying that Capt. House is now on the road to recovery and is out of hospital.

Motor Car Collision.

Yesterday evening a motor bus going along Waterford Bridge Road was involved in a collision with a motor car, as the two vehicles tried to pass on a narrow strip of road near Molloy's Lane. The motor bus was crowded with women and children at the time of the accident, and they received a bad scare. The front midguard and one of the wheels of the bus were smashed, and the motor car also received damage.

SENT BACK TO WORK.—A large number of the men who were paid off from the Freshwater Road works, as notified at the Labor Bureau, this morning, seeking further work. About 50 of the most busy were signed on and will be sent to work gain in the same season.

Police Court.

A peltor of Bond Street, given in charge by his wife for being drunk and disorderly, was fined \$1. When the police arrested him at his home they found a jar of rum, which the prisoner to-day said was given him by a resident of Torbay. The liquor is being held by the police.  
An expressman summoned by Constable Myers for driving without a light, on the night of the 16th inst., was let off on paying costs.  
A motorist for driving without a license was fined \$5 or 14 days.  
A laborer of the West End, who was disorderly in his mother's house, was ordered to leave there within the next 30 days. He promised to take passage as far as Sydney as soon as he could raise the funds.

Baseball.

A close and stirring contest on the diamond may be expected in Baseball circles this evening, when the Cubs and Red Lions will meet in mortal combat at St. George's Field in the scene of the battle and both teams are determined on victory. It is expected that the bodies of the dead will be left unburied. Oh! the poor umpires.

TO-DAY'S MESSAGES.

VATICANAL HOPE.  
ROME, Aug. 18.  
The Holy See has unofficially expressed its deep satisfaction over the negotiations now proceeding between the Irish Republic and the British Government, and fervently wishes that the question may be settled to the satisfaction of both parties by the acknowledgement of their respective just aspirations.

AUSTRALIAN PRESS OPINION.

LONDON, Aug. 18.  
A Reuter despatch from Melbourne, Australia, quotes the Melbourne Herald as saying, in commenting on the Irish situation, that Ireland has no more right to secession than had the Southern States of America at the time of the Civil War. The Argus is of opinion that Sinn Fein, having refused Dominion status, the duty of governing South Ireland devolves upon the British Government, and adds, "We do not think De Valera is foolish enough not to bow to the inevitable, thereby postponing for generations the realization of Irish aspirations, or reckless enough to declare himself the enemy of British rule, and plunge the country into strife." The Argus says the publication of De Valera's letter reveals an utterly impossible claim, and shows that the issue is not now "Home Rule," but the right of Ireland to make itself a troublesome little foreign country, with power to class Irishmen throughout the Dominions as foreigners.

INCOMPREHENSIBLE.

LONDON, Aug. 18.  
In an editorial this morning, while confessing that the speech of De Valera, Wednesday, was discouraging, the London Times says, "We hesitate to believe the issues which were raised will be lightly decided. During the past few days voices from the outside world have been reaching Ireland and there is no longer any doubt as to the general view of the British Commonwealth. Refusal to accept basis of Dominion status is in effect a reflection upon the system of government in which the great mass of its citizens firmly believe. In the United States also, important sections of opinion, which in the past has been sternly critical of this country's attitude towards Ireland, now regard it in another light. The Irish leaders have begun to speak to the world in a language which the world finds it difficult to understand."

No Intoxicants to be Laden.

HAMILTON, Bermuda.—(Associated Press).—The Colonial Parliament has just passed a special law to prevent liquor smuggling from Bermuda to the United States. Anyone putting intoxicants aboard a vessel bound to American ports incurs a fine of \$25 and the penalty for a second offence is \$50. Local dealers who are found to be in contravention with the law-breakers are penalized and may be deprived of their licenses. This law, which is now in effect, was brought about thanks to the reckless manner of carrying on illicit operations during the past year. Not only were hiding places for "booze" in all parts of the ships utilized, but the smugglers went so far as to open up barrels of potatoes in the hold and insert whisky bottles. Discovery of this practice led to an outcry from local produce shippers who foresaw interference with their deliveries, entailing delay and money losses. The Bermudians were concerned over the possibility of having the liners held up at New York by Federal agents, to the peril of legitimate trade, and the interruption of tourist traffic, on which local prosperity so largely depends. The recent capture of the Carolina coast, of a schooner with 45 barrels of whiskey, loaded here at St. George's, also had its effect in hastening legislation.

The First Sign of Fall! A Return to Soft Hats

The Summer Straw has gone the way of the weary, so with his pal the Panama. Up in the locker 'till next year, or down to Kearney's for a quarter—so dresses the funeral dirge.

Old chum, I'm just comfort-glad to get back to you after Summer's scorching, says every man. You Stetson—you Borsalino—you Christy. Of course it's one of these three for the man who doesn't stint himself when he wants good looks and lasting wear. A cheap hat? No, sir; you couldn't make a man buy a cheap hat after wearing one of these famous brands, not if you gave it to him for advertising purposes. These men have cultivated good taste; have received some of the refined signals atmosphere that makes these hats distinctive. The atmosphere of gay old London, of romantic Alessandria, of vivacious New York, where these fine hats come from.

Two points to remember when buying your Fall Hat: Kearney knows how to buy hats, and he knows how to sell them too.

**Garden Parties Yesterday.**

The Garden Party held yesterday afternoon under the auspices of the British Society at Brookfield, proved most successful. The energetic committee under the supervision of Mr. C. Bowden, President of the Society, had an excellent programme prepared. Various side shows helped to make the evening enjoyable. There were a large number of people present, amongst whom were Sir R. A. and Lady Squires. A pony race, included in the events, proved most exciting. The award was won by the winner. The event was opened by Mr. G. W. B. who made a most appropriate speech, evoking much applause. It is hoped by the committee to make the garden party an annual affair.

**ST. MICHAEL'S AT LESTER'S FIELD.**  
The annual Garden Party held by the ladies of St. Michael's Parish yesterday afternoon at Lester's Field, proved a great attraction. The affair opened at 2.30 and throughout the evening there was not a dull moment. A variety of sideshows, including putting the shot, shooting galleries, tennis, lawn bowls and others, furnished excellent entertainment. Starting at five o'clock plain and meat teas were served by the ladies of the parish in a most class style and were largely patronized. The C.L.B. band was in attendance and rendered excellent selections throughout the evening. The proceeds are expected to be fully up to the mark of last year.

**AT TORBAY AND PITCH COVE.**  
The attractions of our garden parties yesterday, were the C. of E. Garden Party at Torbay and a similar event held at Pitch Cove. Both were largely attended, many people from the city attending. The usual attractions helped to make the day very successful.

**Fallen Hero Honoured.**

**CHURCH PAYS TRIBUTE TO GAL-LANT SON.**

On Sunday, August 14th, at 3 p.m., Memorial Service for the late Captain W. Bartlett, M.C. of the Order of the Crown of Italy, was held in the Parish Church, where a large congregation had assembled to do honor to the memory of one who in the name of Liberty and Justice, for King and Country. The services were by the singing of Hymn No. 100, by the Methodist Hymn Book, "Ever further than Thy Cross, never have I feared Thy feet," followed by prayer and Scripture reading, Rev. J. H. Chap. Hymn No. 310, "Fight the Good Fight with all thy might," preceded the address which was delivered by the officiating clergyman, Rev. Oliver Jackson. Taking as his text the passages of Scripture found in Hebrews, xii: 32-34; 1:11, the rev. gentleman drew a comparison between the Patriarchs of ancient Greece and the National Heroes of the Great World War. The speaker referred to the sterling qualities which characterized the short life of the brave young soldier as well as from many letters, that had been received after his death from those who were intimately acquainted with him, and who spoke in a certain sound of the integrity, nobility and efficiency which prompted him in all phases of duty which he was engaged, and which led him from a Private in the ranks of Captain in so short a time. The discourse which was eloquent, impressive and most appropriate, was an appeal from the Pastor to Christians to measure up to the hero's last call "Come on, Carlsberg." A brief prayer followed the discourse, after which a beautiful solo "Crossing the Bar" was nicely rendered by Mrs. Oliver Jackson. Her sublime words of Tennyson were all the more touching, because they having been sung in the church by the young soldier on the day he spent in our midst. In the close of this the congregation proceeded to the family plot, where the kind thought of a loving brother is expressed in tangible form in the shape of a massive monument erected from Newfoundland granite, inscribed by Capt. Robert A. Bartlett to the memory of his beloved brother, and bearing the inscription:—

In fond memory of  
Capt. Wilfred Bartlett, M.C. and Bar,  
Carabinieri Order of Crown of Italy,  
Killed in Action at Cambrai  
November 30th, 1917,  
Aged 28 years,  
until the day break and the shadows  
see away."

After the unveiling of the monument Mr. Thompson, beautiful wreaths were laid on the cenotaph by six children, relatives of the deceased, who conveyed these floral tributes from the rostrum in the church, where they had lain during the ceremony, to the cemetery. After the singing of "Nearer my God to Thee" the Benediction, followed by the National Anthem, brought the service to a close.

**Some Difference.**

A correspondent signing himself "Somebody" sends us a clipping of a notice taken from a Canadian newspaper. He says the butchers here are charging from 40 to 50 cents per lb. for dressed meat, and the public are expected to know if there is any justification for such high prices.

A clipping from the Maritime Merchant of August 4, gives the prices of dressed meat in the Provinces as follows:—  
Beef, dressed light per lb., 8 to 10 cents; dressed heavy per lb., 8 to 10 cents; Mutton, per lb., 8 cts.; Lamb, 18 to 20 cents; Veal, per lb., 12 to 15 cents.

### CHAMPIONSHIP GAME TO-NIGHT.

The pennant for 1921 depends on the outcome of to-night's game between the Cubs and Red Lions, and both are putting their best foot forward to do the necessary. For two years now the Lions have held the silverware, and their supporters are confident that they can do the trick. Walter Callahan who so successfully twirled them to victory in their last clash will be on the mound for the champions with Cork Cahill as assistant; while Jack Canning and Chris DeMers are going to show the multitude how to produce pennant-winning balls. The game starts at 6.45 sharp but a leisurely stroll up to St. George's Field after tea will find them not midway as a full nine innings are to be played. Messrs. Chessman and Hartnett will control the game but it will need more than these two redoubtable umps to control the crowd in case the game, as the name of these particular teams are red hot and just hate what they consider rough stuff. However here's wishing the officials the best-of luck. It is thought that the largest crowd of the season will witness the clash to-night.

### NEXT WEDNESDAY.

The Guards are to be complimented on their splendid Sports' program yesterday, which was easily the finest and best contested for the season. The various events were well contested, while the unusual feats of skill were most interesting, and the "Whip-it" race was simply "jake." This brings us now to the biggest event ever pulled off in Newfoundland which is scheduled for next Wednesday. There is quite an interesting little story concerning its origin. A num-

ber of young men interested in outdoor sports held an informal meeting with the object of getting the requisite to send some one to Halifax to represent St. John's in the big annual road race to be held there in October. The proverbial shake of the hat was resolute to them as it avowed too much of charity. It was felt that a big Championship Sports Day could be organized as a fitting finale to the splendid showing made by our athletes this summer, and the proceeds devoted towards defraying the expenses. Then the announcement was made that the City Council had expressed their willingness to hand over the Parade Ground to the Amateur Athletic Association. This of course meant that the A.A.A. had justified its formation, and could be regarded as an active body representing all branches of sport in Newfoundland. A request was made to them by the informal sports' Committee asking for permission for the Championship meet to be held under their auspices and the President Ayre agreed, and further offered a gold medal from the A.A.A. for the victor Iuderm. In accordance with A.A.A. regulations at the time, the winners of the various events will be carefully measured by engineers and accurate times recorded. Other gentlemen have very kindly interested themselves in the big event and the following have offered gold medals:—Messrs. Mark Chaplin, George Marshall, W. J. Higgins, James Edwards, W. H. Jackson. The winners of the various events will be regarded as the Newfoundland champions for 1921, and in addition will have the honour of winning the first A.A.A. medals ever offered in Newfoundland. We will have more particulars to give the public and competitors in to-morrow's issue.

### More Precious Than Gold.

#### ROMANTIC DISCOVERY OF A NEW METAL.

An interesting history attaches to a small packet about two and a half inches square which recently arrived in London.

It weighed two and a half pounds and was eagerly bought by an American firm for £1,200.

The packet contained osmiridium (osmium and its alloy iridium), used for the tipping of fountain-pen points and for delicate bearings of fine machinery.

The discovery of osmiridium, which is a member of the platinum group of metals, constitutes an interesting romance.

Towards the end of last year a small group of prospectors were washing for gold in one of the river beds in Papua, British New Guinea. In their eagerness to find the precious metal they threw away from their pans a bluish-grey flaky substance as worthless.

This was osmiridium, but the men did not know it, and it is eight times more valuable than gold, and worth at the present time about forty pounds an ounce.

When the men got back to the settlement they mentioned the occurrence to a mining engineer, who immediately asked them what they did with the substance. They replied that they left it on the river bank, and the engineer exclaimed, "It must be osmiridium."

The next morning the whole party started for the spot, only to find on their arrival that the tropical rains and the swollen river had washed away most of the precious stuff. What remained was carefully raked together, refined, and dispatched to London, where it arrived safely a short while ago, having been heavily insured for the voyage.

Osmiridium is one of the hardest metals known, and prospectors are eagerly searching for it in Papua.

### PRIEST IN ITALIAN PARLIAMENT.

ROME. (Associated Press).—The new Italian Parliament will have some striking characteristics. The provinces annexed to Italy, in consequence of the great war, are sending four Germans and five Slavs to their new capital to sit in the Chamber of Deputies, and among the Slavs there is a priest, the Rev. Virgilio Scholz, who has been elected for the Gorizia constituency. No priest has sat in the Chamber since 1870, when the temporal power was lost to the Pope. It was said that the Vatican had forbidden this Slav clerical member to press his candidature, but the official announcement of his election is now published.

### An Easter Heave.

An Easter "heave" is not a trip on the sea, nor is it a sign for pre-war Easter prices. It is a very ancient Easter custom which is still observed in rural England. In some parishes it is called "tipping." The custom seems almost as old as Christianity itself. Kings, nobles, and peasants are all "heaved." An old document in the Tower describes the Easter "heaving" of Edward I. by the ladies of the bed-chamber and maids of honor. The "heaving days"—still called such—were Easter Monday and Tuesday. On the Monday the men "heaved" the women—seized them, lifted them thrice head-high, and then demanded a "chaste salute." If that was not given, then a shilling fine was imposed. On the Easter Tuesday the women heaved the men. The latter were held until, by payment of toll, they won "leave and licence to depart." It may be asked—why "heave"? Heaving, like most old customs, had a religious origin. Easter is the commemoration of Christ's rising from the grave, and "heaving," which is a rising of the person from the ground, was simply a way of remembering the religious significance of Easter. It seems queer to us, but our unaltered forebears went in for symbolic (and frolicsome) remembrances far more than we do.

# Chiropractic

(PRONOUNCED KIRO-PRAK-TIK)

Evolution is perpetual. Health modes are no exception. Who will say the Electric Light does not improve on the tallow candle?—the self-binder on the old-fashioned cradle?—the truck on the rail?—or the automobile on the ox-cart? Results are the measure of merit in any human work. Chiropractic makes no claims not based on success.

In the Science of Chiropractic the Brain, Spine and Nerves are looked to for health of the whole body. The Brain receives its Power from the intelligence that rules the Universe and transmits it to the body through the Nerves. The Spine is the route of Nerve travel and organ of Nerve distribution. Displaced joints in the Spine compress (pinch) the Nerves and interfere with the impulses from the brain, which irregularities are the cause of about all the diseases the body suffers. The Chiropractor adjusts these disordered vertebrae (small bones) of the Spine by hand and the patient gets well by the forces that reside in the body.

The following cut explains it more definitely.

1. Slight subluxations at this point may cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.
2. A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, gutta serena, nervous prostration, grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.
3. The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, gutta serena, nervous prostration, etc.
4. A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.
5. Stomach and liver troubles, enlargement of the spleen, pleurisy, gall stones and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.
6. Here we find the cause of dyspepsia of upper bowels, fevers, shingles, hiccoughs, worms, etc.
7. Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.
8. Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point.
9. Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause?
10. A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

If you suffer from any of the above listed disorders, investigate Chiropractic and regain your health.

In answer to numerous enquiries... decided to waylay him and enquire as to the reason for this incomprehensible change of attitude on the part of Sir R. A. Squires.

Of this we were already aware, and what gave the offer of a Government Measure greater appearance of sincerity was the fact that certain conditions were imposed, i.e.:

Bill this session by offering to introduce it as a Government Measure yourself, in place of Mr. Jennings.

To this note we received no reply. We decided to see the Premier again and ask for an explanation.

In no case of the extension of the franchise to men, has the plebiscite ever been used.

Further comment on this interview is unnecessary. Meanwhile our Bill was "hung up" in the House of Assembly.

When the Bill (at long last) came up in Committee the insincerity on the part of the Prime Minister was manifest.

All opposition to the Woman Suffrage Movement is of no avail.

# Shopkeepers, Read This!

## Lantic is in Yellow Packages--2 lbs. & 5 lbs.

Next time you open a barrel of sugar, count the bags, the 2's, the 4's, the 5's, the 7's, the 10's, the 14's, you use in weighing up the barrel of sugar. Figure the cost of the bags and twine and time spent in weighing. Don't forget to estimate the wear and tear on your scales.

Next time you're busy weighing up sugar keep your eye on the people who come into your shop to buy something, but finding you busy weighing up sugar, go out without buying anything. Charge up these losses on your barrel of sugar.

Taking your several parcels of sugar from 2 lbs. to 14 lbs. and reckoning that you put up 50 parcels of sugar out of a barrel, consider that you're taking 50 chances of making a mistake. 50 chances to waste a little sugar.

Consider also why it is that grocers in Canada and America use package sugar in preference to barrel sugar? If you carefully consider the above matters you will realize that 1 cent per pound is a fair estimate of your loss in retailing sugar out of a barrel.

If you sell package sugar (you can get Lantic in 2's, 5's, 10's and 20's) you have no weighing to do, each package contains full weight of sugar. Selling Lantic in packages saves you the cost of all wasted bags and twine. Saves you loss from short weight. Enables you to attend to all customers who come into your shop. You'll know Lantic Sugar by the red ball on the YELLOW package. Try a 100 lb. case of 2 lb. packages. Your customers will prefer Lantic.

### Side Talks by Ruth Cameron

#### THE MAN WHO CAN'T PLAY.

"I've been so busy all my life making the money to support my family that I never had time to play. I never felt before that I could take much of any vacation, and now that I can take one I don't know what to do with it."

That is the substance of what a man said to me the other day. He is taking his first vacation in many years and he has been spending most of it sitting on the porch of his summer cottage, rocking, looking out and longing for the time to go to the mall.

He does not fish, he does not golf, he does not play golf or tennis, he does not care for motoring, he does not care to get to places, he does not swim every day, but he can only swim for a few minutes

and he finds it hard to know what to do with the rest of the day.

#### Longs For Vacation to End.

I know he is just longing for the two weeks to be up, and yet I also know that he needs the rest badly and that he looked forward to this vacation with the greatest eagerness. I call that man a pathetic figure. I call all the men and women who, like him, have failed to develop some sport, some art, some vocation which shall give a flavor and a significance to their moments of leisure, pathetic figures.

No one can afford to be without some outside interests of this sort. To fail to be laying up some such interests against that leisure time, is as bad as to fail to lay up material provision for leisure.

Of course there are plenty of men and women who have too many such interests instead of too few. That is the more common mistake. But there are enough of the other class to make it a danger which young persons should make up their minds to avoid.

#### Things One Wants More Time For.

Take up some sports or some interest when you are young and pliable and enthusiastic. Encourage your self to enjoy golf or tennis, or sailing, or billiards, or chess. Collect something, whether it be old china or autographs, or a fine library, or music records. Study something. Develop any small gift you have. In short, try to have several things that you wish you had more time for. Of course, this wish will cause you a kind of unhappiness, you will cast longing eyes at the fortunate few who have nothing to do but play, you will wish your vacations were longer and will come back to work with

regret for the pleasure you have left. But believe me, there is far less unhappiness in wishing one's vacations longer than in wishing them shorter.

The very fact that you do not have as much time as you want for your fishing or hunting or sailing makes the sport that more attractive. If you had plenty of time, you would cease to find it as fascinating.

Unassisted Longing is the Spice of Life. It is hard to come back from a vacation wishing you might fish or hunt or sail for a few weeks longer, but it is far harder to come back without any such unassisted longing to add a sting to the anticipation of your next holiday.

It was the Stoics, wasn't it, who sought happiness by trying to stop wanting things? They may have gotten away from unhappiness that way but I'll bet they didn't find happiness. Nature abhors a vacuum or a balance. She wants us to want things and try to get them, and to keep on wanting and getting as long as we live.

#### Drum as Telegraph.

News is carried by drumbeat in Africa at a rate as fast as the telegraph, writes a correspondent. The natives of Central Africa have a wonderful system of signalling from villages to villages by drum-beat, he says. Generally the property of the chief, these official drums, which are many, forming a set of varying size, are as a rule of the species known as incision-drum. This is a long, narrow hollow cylinder, made from a tree trunk with the ends closed. By relay a message may travel a thousand miles in little more than the velocity of sound. The drum telephone depends upon an elaborate code of sounds. European travellers often order their dinner and night's lodging at the next village by a drum message. The villagers use it as we use a postal, telegraph and telephone service and there are no charges. To a European the rhythm of a drum

expresses nothing beyond a repetition of the same note at different intervals of time, but to a native it expresses much more. To him the drum can and does speak, the sounds produced from it forming words and the whole measure or rhythm a sense. Thus, at a dance of "companies," in one measure they abuse the men of another company, then the rhythm changes and the gallant of their own company are extolled. All this, and much more, is conveyed by the beating of drums, and the native, ear, trained to detect and interpret each beat, is never at fault.

THE "QUINNY-TWO" SCORE.  
The game was done and home we came, and he muttered low to me:  
"I had a four on number five, and it should have been a three;  
I took three puts on number six, a common fault, it's true,  
But I'd have made a five back there if I had taken two."  
"I took a peek on number seven that cost an extra stroke,  
Had I been careful as I should, the sixty I'd have broke;  
On number eight I found the ditch, and there a five I made,  
Yet I've had four there every time the last few weeks I've played."

"Do you remember number twelve? I should have 'birdied' that. But just as I was set to putt my caddy dropped his hat. And here I am with ninety-four, but I know you will agree. That, given any luck at all, I'd had an eighty-three."

"Yes, yes," I answered, "maybe so, but let me say to you, we'd all be great if all the time we did as we should do. And the game of golf and the game of life to the self-same rules are played. The records stand with the scores we had not the ones we should have made."

## Exposures of Government Wrong Doing--Sensational Administration Scandals--A Review of 1921 Proceedings.

(Continued)  
**THE OPENING DEBATE.**  
The debate on the Address in Reply occupied over four weeks and was the longest on record. For four long weeks the Government sat silent under volleys of criticism from the Opposition Benches. Not a member dared reply. Not one had any reply to make. It must have been particularly galling to the Prime Minister and Minister of Marine and Fisheries to have to remain silent when charges were made against them. But they could not speak. They realized that every accusation was made on a firm basis. They realized too well that the Opposition knew what they were talking about. And so, like so many war veterans, they said nothing. They showed, in occasional instances, the emotion that must have been stirring within them. Every member of the Opposition spoke during the debate, and all made excellent addresses. Those, however, that were the most noteworthy were made by Sir Michael Cashin and Sir John Crosbie. Splendid, practical speeches were delivered by Messrs. Bennett, Higgins, Fox, Sullivan, Walsh, McDennell and Lewis but those made by the two Opposition leaders for their effect on the Government members, from the serious charges which they made and substantiated against the Executive, are particularly worthy of mention. Sir Michael Cashin's speech extended over a period of three days, during which the most extraordinary scenes ever witnessed in the House took place. But more of this anon.

**SIR MICHAEL'S SPEECH.**  
Sir Michael began his speech on April 12th. For three hours that day he subjected the Government to a merciless castigation, which was backed up by volumes of indisputable facts. Accusations of the severest nature were made. None were denied. Sir Michael opened his speech by moving an amendment to the effect that whereas the Fish Regulations had proved a complete failure and that it was the unanimous desire of the Exporters that they should be removed, the Codfish Exportation Act should be immediately repealed.

In the first part of his address, Sir Michael dwelt upon the Woodford Affidavit inquiry and said that the Government had been completely vindicated. He referred to the Harbor Main by-election where, he said, Hon. Dr. Campbell had won money right and left, and had violated the Prohibition Law in all moods and tenses. He declared that the Government were on a political hyacinth. He then spoke of the Fish Regulations. The Opposition had been willing to give them the trial, but they had found them injurious and there was no redress. Sir Michael severely criticized the Government's handling of financial affairs. They had squandered the large surplus left by the previous Government. The allocation of half a million dollars for the purchase of Labrador fish had been done on the authority of only three members of the Executive. So biting was Sir Michael's criticism that Mr. Gosse, member for Hr. Grace, rose whilst being attacked, and left the Chamber. The leader of the Op-

#### Miss Thompson Couldn't Eat Solid Food--Gets Rid of Eight Years' Stomach Trouble.

"Only a wonderful medicine could have relieved me as Tanlac has done, and I'm glad to tell my experience, as it may be of help to others," said Miss Ethel Thompson, well known Salvation Army worker, living at 15 Haslover St., St. John, N.B. I was in a truly deplorable condition when I began taking this medicine, as I had suffered for seven years with stomach trouble and it was impossible for me to eat any solid food at all. I suffered from nausea so bad that I couldn't retain any solid food and really I'm so happy over my recovery that I can't describe it. My nerves became upset, too. I got very little rest either day or night and the least excitement would make me tremble like a leaf.

"I was just at my wit's end to know what to do and my mother advised me to take Tanlac. It certainly was good advice, for I'm just like a different person now. My stomach is in such excellent condition I never suffer from gas, pain or nausea. I'm not nervous like I used to be and at night I sleep like a child. I'm gaining weight and strength every day and really I'm so happy over my wonderful improvement it's hard for me to express myself."

Tanlac is sold by leading druggists everywhere.

**THE PRESIDENT COAKER.**  
One of the greatest scandals exposed in the House during the past session was that of the first cargo of the schooner "President Coaker." Mainly through Sir John Crosbie was the whole story told and it was a story which showed that even the most respected Minister of the Crown was not above suspicion. The responsible Minister in this case was Hon. W. F. Coaker. Here a man who worked in so many diverse interests that he could not even keep his political reputation intact. Expectations might have been written of Mr. Coaker when he said "If you have assumed any character above your strength, you have both made an ill figure in that, and quitted the position of a Minister of the Crown." In this case, the "President Coaker" had a large fish cargo owned by the Union Trading Company. By a swiftness of action which was not to be faulted, Sir John Crosbie had the fish under the \$500,000 allocation. Furthermore the fish had been paid for at a higher rate than that of other fish purchased out of the allocation. Sir John tabled a cheque issued by Mr. Sellars in favour of the Union Trading Company for \$25,675.

**There are plain rules, well understood, about keeping a piece of machinery in repair and running smoothly.**  
Is the body as important as an automobile engine or a furnace?  
Isn't it reasonable to talk about the best ways of sustaining the body as it is to talk about the best ways of repairing the engine or the furnace?  
The body, like a piece of machinery, wears out. It is not a young man in a very perfect condition who can afford to neglect his health.

It is a convenient and economical food, for it is ready to eat from the package, keeps in perfect condition in a tin, and is a splendid food for the family.

**A DANGEROUS PRECEDENT.**  
One of the unusual features of the late session of the legislature was the habit of presenting petitions at the Bar of the House. The writer has previously been taken to task in the public press for stating that to allow this was to establish a dangerous precedent. He reiterates this statement. From the time a deputation of unemployed men presented a petition at the Bar of the House, and to address and threaten the members, the dignity of the House was lessened. Three times the House was visited by deputations, including prohibitionists, anti-prohibitionists and naval reservists also advanced to the Bar of the House on several occasions. The last named actually stayed for seven hours haranguing the House. Whilst they may have been there in a good cause, and whilst their object was attained by the means they adopted, nevertheless the policy of permitting private deputations of any sort to present their petitions in this way is a bad one and should be discouraged.

**GENERAL LEGISLATION.**  
Amongst the Bills passed during the past session, there were few of any great importance, and these few will be dealt with in special paragraphs. Of the minor legislation there is not very much to be said. The debate on the Bill to Repeal the Codfish Exportation Act was lengthy but did not bring out many facts which had not been previously stated in the debate on the Address in Reply. Several Bills were passed in connection with Pulp and Paper contracts, the exportation of pit props. Exploration for oil and several similar matters. In the matter of the Woman Suffrage Bill the Government was guilty of a most deplorable act. They buoyed up the hopes of the suffragettes and presented the Bill should be introduced as a party measure. It was presented to the House by the Prime Minister, who, in spite of his previous promise, declared it to be a non-partisan measure. A division, the Bill was referred to a Select Committee, as were also the Bills concerning the Welfare of Children and Pensions. There was little importance to be attached to all of these Bills although some are likely to have considerable effect upon the economic condition of the country.

**RELIEF WORK AND SUPPLIES.**  
Owing to the disaster which fell upon our fish markets last year the people suffered terribly. In many places they were reduced to starvation whilst work of any kind was at a premium. The Government was therefore compelled to find some means other than actual charity, by which these people might be enabled to earn a livelihood and keep body and soul together. The method adopted was that of expending money on road building. In the estimates, therefore, a special grant of \$500,000 was made for this road work, which was distributed amongst those districts which were in the worst condition. This was of course, merely another form of able bodied relief. In the meanwhile, the time for the advent of the fishery was fast approaching and it was impossible for those men who were in a penniless condition, to earn sufficient to purchase supplies. The merchants would not supply on the usual credit basis, and an arrangement had to be made whereby the Government put up one half of the required amount for this purpose. A Fishery Supplies Bill was passed to protect the Government from loss in this connection.

**King's Building Fancy.**  
Louis XIV, badly bitten by the building fever, about 1669 houses bought a piece of ground upon which stood a poor little hamlet, containing a church dedicated to "Divine Maria de Treviso." The king had the village razed, and in the last week of 1670 he began to build his latest whim and the little castle rose as if by magic from the ground together with the blossoms of the spring. And a quaint gay little building it must have been, this curious little china house where Madam de Montespan presided over the sumptuous suppers offered by the luxury-loving king to the brilliant members of his brilliant court; suppers at which Quinault recited his verses and Lullu charmed his hearers with his music. The porcelain Trianon was built after a Chinese model; its walls were cream color and its chimneys brick-red, white blue-and-white deilt ties surrounded with wreaths and set in gilded leaden rims, gave significance to the name and color to the scheme of the king's toy. White marble busts stood on brilliantly colored china brackets and all along the balustrade were placed blue and white vases. The inside decoration of the house was in the same style and though the porcelain used in such profusion looked like Chinese or Dutch, it came from much nearer home and was all manufactured at St. Cloud.

**TODAY'S MESSAGES.**

**THE IRISH SITUATION.**

DUBLIN, Aug. 17. (Special Telegrams.)—The Government's proposals for peace, the reiterated words of Eamon de Valera still fresh in the minds of its members, that Eireann cannot, and should not, on behalf of Ireland accept any terms offered. At a second session of the Irish Parliament, held today, de Valera again dealt with the British Government's proposals for peace, and again he insisted that nothing less than independence for Ireland was acceptable. He stressed his view that the offer of status of Dominion to Ireland had not been made, and that the Government had been offered two falsehoods. There was mentioned in the terms, Ireland as two broken pieces of Ireland. The Dominions had the right to secede from the Empire, and he asked whether the Irish Republic desired to be so or not. During his address, de Valera held out the olive branch to the British Government, and stated that he was ready to accept a settlement of the controversy, Northern Ireland not give up its own point of view. He said he would be willing to suggest a good deal in order that Ireland might be able to view the future without anticipating distracting internal problems. De Valera declared that the claims of the minority in Ireland, as represented by Ulster, were wrong, but added that he for his part would be ready to long way to come to with us, and consider the interest of their own country, and to ally themselves with foreign powers where these words of De Valera with regard to Ulster were regarded as indicating that events were being planned behind the scenes, having for their purpose the bringing of Sir Craig Ulster Premier, into touch with Sinn Fein leaders in the hope of some means of surmounting the impasse. A significance in respect, also attaches to the offer of the Valera that the Republicans were ready to make to Northern Ireland, as a possible submission of the terms of Premier Lloyd George to a referendum, is said to have been suggested to members of Dail Eireann. In his suggestion he declared to be that Dail Eireann, which is the governing body of the Irish Republic, should go to Great Britain and say: "We as a Republic are desirous of becoming a member of the British Commonwealth. We are willing to grant you the concessions, which Lloyd George has demanded in his letter, such as naval and air bases." This was said in high quarters, and would involve Ulster into a single Dominion with Northern Ireland. High authority is expressed the view that they did not believe Ulster would do so, when the Irish Parliament was elected, and that they could not trust to legislate in respect to their property.

**GENERAL NEWS.**  
TOKYO, Aug. 17. (Special Telegrams.)—The uprising, reported in Transbaikalia where the Far-Eastern Republic is situated, really occurred, says the Harbin correspondent of a Japanese news agency, but apparently the extent was exaggerated. A dispatch, under date of Friday last, said that according to reports received here, the Government of the Far-Eastern Republic of Manchuria had been overthrown by anti-Communist forces, and that the Government had fled from the capital.

**ERUPTION IMMINENT.**

**IRLAND FOR CONFERENCE.**  
PARIS, Aug. 17. (Special Telegrams.)—The Premier, Briand, this evening, handed to Mr. T. Herrick, United States Ambassador, France's acceptance of an invitation of President Harding to a conference on disarmament and Far Eastern questions, to be held in Washington. In his formal message, Mr. Briand again indicated that he intended to attend this conference in person.

**GERMANS AND POLES FIGHT.**  
BERLIN, Aug. 17. (Special Telegrams.)—Four Poles were killed, and many wounded to-day, in a fight between German and regular Polish troops near the frontier villages of Kostellitz, in Upper Silesia. The Germans drove the Poles from the frontier.

**EVACUATION ORDERED.**  
LONDON, Aug. 17. (Special Telegrams.)—The British Foreign Office has ordered the evacuation of the region between Sivri Hisar and Ankara, says a despatch to the Times from Smyrna.

**WOMEN REPRESENTED.**  
WASHINGTON, Aug. 17. (Special Telegrams.)—The League of Women requested President Harding to appoint a woman on the States delegation to the disarmament conference, to speak not as a representative of women, but in the name of women. The delegation came to the White House declaring they were satisfied that women would be represented. They were very anxious to have the inclusion and intentions of women represented at this great conference.

**Price-Recessions!**

When stocks are low, like now, wise investors buy them, and when they recover in price and others rush to buy them, they sell to take profits and this causes a reaction in price. Then when the same stocks get low enough, the wise investors buy again and repeat the same game over and over, making profits every time.

MORAL:—Buy when others rush to sell, and you can then sell when the others want to buy.

MARGIN TRADING IS SIMPLE AND PROFITABLE.
