OUR FIRST PARLIAMENT.

HOW TORONTO CELEBRATED ITS CENTENNIAL.

A Great Demonstration in the Queen's Park—Under the shadow of the new Legislative House—The Bands Played, the Children Sang, and Floods of Glory Marked the Day.

Toronto celebrated the centennial opening of the first parliament of Upper Canada on Saturday.

There was no booming of guns nor violent effervescence of enthusiasm. It was a quiet patriotic celebration and every loyal citizen's heart beat faster as the high and noble representatives of the people gathered for the Province of Ontario.

At 5 o'clock lines of carriages were drawn up in front of the old Parliament Buildings, while assembled within the high walls were members of Parliament, aldermen, High, Public and Separate School trustees, Army and Navy Veterans and the members of the Centennial Celebration Committee.

The procession moved off. The Army and Navy Veterans' band came first in the procession. Then came a carriage in which were seated Dr. Seadding, president of the exhibition committee, and Captain Jessop. The members of Her Majesty's Army and Navy Veterans followed on foot, attended by numerous flags.

Then came in ranks, in the following order, members of the Legislature, ladies and members of the Centennial Celebration Committee, Historical Society, City Council, High, Public and Separate School Trustees, and the procession extended several blocks, and the route was Wellington, Simcoe, Queen's, College-avenue, to the new Parliament buildings.

The rostrum was erected in front of the imposing pile, which made a striking background, while immediately facing it 70 yards away was a raised platform, upon which were seated, tier upon tier, some 500 school children. Most of the children were dressed in white, and each carried a branch of maple leaves. The afternoon sun was shining across the park and the scene was a pretty one.

Flags and mottoes were liberally distributed about the stadium, which was a guard of honor composed of 60 men of No. 2 Company, Canadian Regiment, under the command of Major Buchan. The band of the same regiment occupied the rear, while back of all, standing in a semi-circle, were some six or seven thousand interested spectators.

Among those present were Hon. Richard Harcourt, Hon. J. M. Gibson, Hon. Thomas Ballantyne, G. M. Marter, M.L.A., Hon. James Young, N. G. Bigelow, M.L.A., Dr. Seadding, Alexander Joseph Tait, M.L.A., William Heaton, Frank Somers, Rev. Dr. Dewar, John Fall, Rev. John Barton, F. M. Bell-Smith, Rev. Alexander Gilray, Rev. John Neil, Charles Durand, Rev. Dr. Withrow, Mayor D. B. Reid, Lieut. Governor Kirkpatrick and Mrs. Kirkpatrick, accompanied by the Commander-in-Chief and his staff. Then the bands played and the children sang "God Save the Queen," and the people cheered vociferously.

The proceedings opened with prayer. Hon. Thomas Ballantyne, speaker of the Ontario Legislature, offered up a brief prayer, and the celebration proceedings were in full swing. His Honor the Lieut-Governor presided.

Letters of regret were read from W. R. Meredith, Q.C., E. J. Clark, M.L.A., P. Bayly and F. J. French, President of the Grenville Pioneer Society.

His Honor the Lieut-Governor was greeted with loud applause as he rose to address the assembly. His remarks were brief, to the point and full of patriotic fire. "Ladies and gentlemen," he began, "I had much pleasure in accepting the invitation of the committee to attend here to-day and preside over this meeting, which was intended to celebrate the one hundredth anniversary of the meeting and opening of the first Parliament of Upper Canada. (Cheers.)

"I see by the program that I am down for an address. I regret that I cannot come. I am not a centenarian. I am only half that. (Laughter.) But there are older men here who can tell you what I cannot. I am sure that they will tell you that this is a most laudable thing for the committee having given this demonstration in hand to have gotten it up. There is no place more appropriate than in the city of Toronto, the site of which was selected by Governor Simcoe 100 years ago. And he could not have made a better selection. Nor could there have been a more appropriate site for this celebration than in front of the new building. (Hear, hear.) This building, with its large proportions, its beauty and symmetry, shows progress made by this province during the last 100 years. The House of Parliament was then a small one in Niagara. Another advantage this situation has for this demonstration is that we are within ear-shot of those grand educational institutions which mark the intelligence and moral progress of this province, where all classes in Ontario can receive a good education as in any part of the world."

The same Old British Redcoat. "One thing I must tell that I am proud of, and that is that notwithstanding the changes that have taken place in the last 100 years, there is one thing that is just the same; the guard of honor that received me is just the same that received him then. (Applause.) They are the British Redcoats. (Renewed cheers.) And this grand page we will try and hand down to our children."

As the Lieut-Governor took his seat the school children struck up "The Maple Leaf" and they sang it with vigor. Hon. Thomas Ballantyne, speaker of the Ontario Legislature, reminded the assembly that it was just one hundred years since the first meeting of the Legislature of Upper Canada began, the greatest liberty that could be granted to any people, the liberty of self-government. The great mistake made at that time was that it was only a half measure for it did not make the military responsible to the people. This is after years gave rise to a bitter struggle and had led to the conscription of one party which at the present day were counted patriots and well as their enemies. Not only had Ontario made great strides in the perfection of her self-government, but she had lately sent one of her most illustrious sons to the Conservative Motherland to assist in the righting of her social and political tangle. Hamilton and Not Toronto should have been the seat of Government.

Hon. J. M. Gibson, Provincial Secretary, was the next speaker. He complimented those present, that notwithstanding the pressing duties of business, so many had

assembled to celebrate the anniversary of the opening of the first Parliament of Upper Canada. "It is a right," he said, "that we should occasionally pause and take a retrospect of the past; the past when I was a young man. (Laughter.)

He traced briefly the parliamentary history of this country and referred to the tradition that Governor Simcoe had directed the shores of Lake Ontario in small boats in search of a suitable site for the seat of government. "I don't believe that history is always accurate," I don't believe that Governor Simcoe skirted the shores of this lake. I believe he cut straight across the lake, or he never would have reached Burlington Bay. (Laughter.) I don't see what there is to laugh at. Neither would he have passed the site of the "Ambitious City" (Renewed laughter.) "In my opinion, and in the opinion of the 50,000 people whom I represent, he skirted Lake Ontario instead of cutting across."

The Best Country Under the Sun. Hon. Richard Harcourt referred to the fact that he was not patriotic enough to join the nation to the south, whose press, politicians and pulpits strive to increase the love of home preference in open rivalry for the place in their schools a garland and one sided history. But Canada did not have to resort to a war with the United States to get her independence. He declared that their country was the best country in the world. They had everything that conduces to fortune and happiness, vast fertile agricultural districts, a beautiful and invigorating climate, boundless wealth of forest and mine, immunity from cyclone and pestilence; the various forms of labor, and the various forms of industry, and the various forms of commerce, and the various forms of education, and the various forms of religion, and the various forms of literature. True, there was a season of depression, but he trusted the seven years had passed, and the seven years would follow.

Why Movat Keeps in Power. Mr. G. M. Marter, M.L.A., followed with a witty criticism of the Government during which he expressed the opinion that had it not been for Mr. Meredith the Movat Government would not have been in power so long, nor would it have placed on the statute books the various bills which were the work of the Opposition. He meted out praise to Sir Oliver Movat for his dismissal of Mr. Meredith. "I am glad," he said, "that there is a man in this country who prefers the United States that he should be free to go home." (Loud applause.)

Niagara speaks of Heroic Deeds. Mr. W. McCleary, M.L.A., announced himself as the representative of the good old loyal district of Niagara. He referred to the fact that he was a true Briton, for every acre of that constituency speaks of heroic deeds of our fore-fathers. He was not loyal because his father was. He was loyal because of the personal good of the Province and because of the liberality of the Mother Land towards Canada. He had heard the sentiments Sir Oliver expressed at Niagara a few months ago, and felt that as Canada's greatest glory was that she was no longer for the future of Canada. (Cheers.)

RHEUMATISM

It is a well-known fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined.

Thousands of people suffer from a variety of nervous diseases, such as Neural Weakness, Impotency, Loss of Memory, etc., that the old modes of treatment fail to cure. There is a loss of nerve force or power that cannot be restored by any medical treatment, and any doctor who would treat by electricity is only using a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined.

Electricity, as applied by the Owen Electric Belt and Suppressor, will most assuredly do so. It is the only known force or power that will supply what is lacking, namely nerve force or power, impart tone and vigor to the organs and cause a healthy action of the whole nervous system. It will positively cure Nervous Prostration, Rheumatism, Sciatica, Kidney Disease, Lumbago and Loose Back and Dyspepsia.
