The copy filmed here has been reproduced thanks to the generosity of:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

This Institution

Is delightfully situated on a gentle elevation in the midst of beautiful shrubbery. It commands a beautiful view of the City of Port Huron, Michigan, Sarnia Bay, and the Lake and River Shipping.

HEALTHY LOCATION.

The invigorating air of Lake Huron has for years made Sarnia a favorite Summer Resort for invalids from the South and Southwest.

EASE OF ACCESS.

From Detroit, Michigan, in Spring, Summer and Autumn we have a choice of railroad or water communication—distance 60 miles.

The system of discipline is mild but uniform, while every laudable incentive is employed to forward the pupils in knowledge and virtue.

The course of study embraces the various branches of a solid, useful and ornamental education.

Pupils of all religious denominations are admitted. No interference is permitted with their religious convictions. They are required, however, to conform to the general rules of the Institution.

The scholastic year is divided into two sessions, each of five months. The first session opens on the first Tuesday of September, and ends January 31st. The second opens February 1st, and closes last week of June. Pupils, however, can enter at any time of the year.

TORONTO.																		
<p>The largest city and the capital of the Province of Ontario, is beautifully situated on the shore of a spacious bay of Lake Ontario, in York Co., of which it is the county seat. Toronto has an excellent harbor, accessible to the largest craft navigating the lakes, and which is perfectly sheltered by a long narrow island extending about five miles along the front of the city, at a distance of about one and a half miles from the shore, forming a safe anchorage ground. It was incorporated as a city in March 1834. The city is laid out with great regularity, the streets running n, s, e and w.</p> <p>The growth of Toronto may be seen from the following table of its population at various periods, viz:</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 25%;">1836.....</td> <td style="width: 25%;">9,652</td> <td style="width: 25%;">1881.....</td> <td style="width: 25%;">87,000</td> </tr> <tr> <td>1850.....</td> <td>26,000</td> <td>1889.....</td> <td>171,822</td> </tr> <tr> <td>1861.....</td> <td>48,000</td> <td>1894.....</td> <td>219,153</td> </tr> <tr> <td>1871.....</td> <td>59,000</td> <td>1898.....</td> <td>235,000</td> </tr> </table>	1836.....	9,652	1881.....	87,000	1850.....	26,000	1889.....	171,822	1861.....	48,000	1894.....	219,153	1871.....	59,000	1898.....	235,000	<p>It is true Toronto is to some extent prospering at the expense of surrounding towns and villages. This, of course, we cannot help. It is in the natural order of things, and it is our duty to take advantage of the situation.</p> <p>In addition to its facilities for communication by water, Toronto is the centre of an extensive ry system, the following rys either running through or having one of their termini in the city: The main line of the G T R, with its Mid, Nip, N & N W and G W divs, and the C P R, with its divs of the C V, the T G & B and the O & Q lines.</p> <p>It has excellent hotel accommodation, among the best being the Queen's, Rossin, Arlington, Kensington, Walker & Palmer Houses.</p> <p>Manufacturing of almost every description is extensively carried on.</p> <p>In the matter of education Toronto</p>

PETROLEA

An inc town 160 miles from Toronto, located on Bear creek, a tributary of the Sydenham river, in the heart of the oil producing region of Canada. The Petrolea branches of the G W division G T R, and of the C division M C R, both terminate here. It is in Lambton county, 16 miles south east of Sarnia, the county seat. The total amount of capital invested in the the oil industry in its various branches is estimated to be but little short of \$12,000, 000. It has 3 foundries and machine shops, 2 boiler works, flour, planing and saw mills, largesteam cooperage, capacity 1,000 barrels per week, tin

can factory capacity 3,000 per week.
