CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI.

TORONTO, ONT., JANUARY 23, 1901

No 52

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'g
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions or one year, \$1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 75 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 22 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE—36-in. Wickes Gang, cutting 14 in. deep, located in Canada; price low. WICKES BROS., Saginaw, Mich.

WANTED—500,000 split cedar shingles. Quote price F.O.B. nearest shipping port. Address, **HORWOOD LUMBER CO.**, St. John's, Newfoundland.

HAVE YOU ANY STOCK WHICH YOU WISH TO SELL? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, **CANADA LUMBERMAN**.

CUBIC FEET of sound round Spruce, 10 inches and up, average length 10 feet; 15 to 200 M. feet b.m. sound round Hemlock, 12 inches and up, average length 22 feet; also 20,000 sawn 16 inch Cedar Shingles, X, XX and XXX. Delivery to begin next May. State prices c.o.d. Address **JAS. SHEPPARD & SON**, Sorel, Que.

FOR SALE

A FEW SPARS OF DIFFERENT LENGTHS up to 90 feet; also a small quantity of dry 2 and 1 1/2 inch good soft pine. **W. A. MILNE**, Brown's Corners, Ont.

FOR SALE.

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location. Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of pine lumber is quite as large as could be expected in the month of January. The open winter has made it possible to continue building operations, and the demand thus created has made heavy inroads on the stocks of retailers. It is expected that retail dealers may find it necessary to replenish broken stocks almost immediately, and that they will enter the market for liberal buying early in the spring. Considerable rail shipments are being made to the Eastern States, where wholesale stocks are light. Some sales of deals have been made by Georgian Bay manufacturers, and the usual quantity is likely to find a market in Great Britain this year. The cuts of the Ottawa Valley mills have mostly been contracted for, and we are advised of the sale of a large cut of spruce at an advance of \$1.25 per thousand over the figures paid for similar stock last year. The hardwood demand is still a little backward, although manufacturers are not weakening, but believe that all the available stock will find a market during the year at good prices. There is practically no movement of 16 inch pine shingle, and it is understood that some manufacturers have a considerable stock of these on hand.

The production of logs this winter is almost certain to be lighter than last season, owing to unfavorable logging weather in some districts and the scarcity of men early in the season.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber has improved during the past week. A more hopeful feeling prevails in respect to the British trade, and it is thought that in the near future shippers will be able to close their usual contracts at about the same figures as last year. The demand from the United States is showing more ac-

tivity. Spruce dimension, 10 and 12 inch is quoted at \$18 on Boston rate of freight, and 9 inch and under at \$16. Shingles are firmer at \$2.75 for extra cedar, \$2.50 for clear, \$2.00 to \$2.10 for second clear, \$2.00 for clear white, and \$1.85 for No. 1 extra. Laths are quoted at \$2.80 to \$2.85 for 1 1/2 inch, and \$2.60 to \$2.70 for 1 1/4 inch.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber throughout Manitoba and the Territories is quiet, with prices unchanged, but the trade are looking forward to an active demand as soon as spring opens. In some districts logging operations have been retarded by lack of snow, but the situation is now more favorable. A moderate demand for lumber is reported by British Columbia manufacturers. The statistics of the export trade show that the year 1900 was a very satisfactory one, the shipments exceeding the previous year.

UNITED STATES.

Important statistics have been compiled of the lumber production in the Michigan, Wisconsin and Minnesota districts. Last year the total cut of pine in these districts was 5,485,261,000 feet, as against 6,056,000,000 feet in 1899. The stock on hand at the mills on December 31st last was 2,839,705,000 feet, as against 2,728,271,000 at the same date in 1899. The output of hemlock last year was 1,166,284,000 feet, showing an increase of 297,874,000 feet. The stock of hemlock on hand, however, increased in still greater proportion, being 287,920,000 feet on December 1, 1899, and 622,312,000 on December 1 last. From a statistical standpoint, therefore, the lumber market cannot be said to be particularly strong, but there are other features, such as the light stocks held by dealers and the promising outlook for building operations, which it is thought offset this condition. During the past week the railroads have placed orders freely, and there has been a demand for building lumber much in excess of what is usual at this season of the year. Action has been taken in some instances towards higher prices. A 50 cent advance on hemlock boards has been made, and a new yellow pine list adopted by manufacturers making an average advance of about one dollar per thousand. At Pittsburg a new price list on pine went into effect on January 15th, advancing prices from 50 cents to \$1.50.

Some improvement in hardwood prices is reported. At Boston 1 inch maple is quoted at \$27 to \$28 and 1 1/4 to 2 inch at \$29 to \$31. Basswood is in good demand and brings \$31 for 1 inch No. 1 and 2. An element in the hardwood situation is the restricted operations in Wisconsin, where practically no oak is being put in. This is apparently the cause of the slump in hemlock values, as a large proportion of the Wisconsin hardwood log crop comes out with the hemlock, and consequently the restriction of the one means restriction of the other. Hemlock logs are selling there at \$3.25; while one year ago as high as \$6.50 was paid.

GREAT BRITAIN.

The reports from the British market are of a more cheerful tone. Market values, although practically unchanged, seem to have reached bottom, and the prices realized at recent auction sales indicate that higher prices will rule. At a sale held by Churchill & Sim last week nearly 100,000 pieces of spruce deals and battens were disposed of at very fair figures. The 3-inch spruce from Dalhousie, N.B., sold at £8 per standard, an advance of 5 shillings over previous sales. Second quality 3 x 11 Quebec spruce brought £10 15s, and third quality £9 12s 6d. For a line of 2 1/2 x 7 inch first, second and third quality St. John spruce, only £7 5s was realized. The Quebec pine sold well, first quality 3 x 11 bringing £27 and 3 x 9 £20 10s. Quebec red pine battens were rather weak, but on the whole the result of the sale was considered most satisfactory. In another column particulars of the Glasgow market are given. It is understood that some sales of pine have been made at high prices, and that the stock of these in first hands is low. Importers have not yet commenced to buy with any freedom.

STOCKS AND PRICES.

Michigan lumbermen are paying \$6 per thousand feet for maple logs.

The Ottawa Lumber Company recently sold 100,000 feet of hemlock lumber for local delivery.

Sutherland & Baillie have moved their mill to Westchester, N.S., where they will cut 1,000,000 feet of lumber.

According to report the lumber cut this winter on the Sissiboo river in Nova Scotia will be the largest known for several years.

The city of St. John, N.B., is about to invite tenders for the supply of 1,600 tons of hemlock timber for wharf construction.

A. B. Calhoun, of Calhoun's Mills, Westmoreland county, N.B., will get out about 2,000,000 feet of logs at Beaver Brock, Albert county.

The steamer Truna is loading lumber at St. John, N. B., for the Canary Islands and Ireland, the shippers being A. Cushing & Company.

Henry Boone, of Rowena, Victoria county, N. B., has been given a contract to supply a Sydney building firm with 5,000,000 feet of lumber, to be delivered in two years.

A. L. Wright & Co., of Salisbury, N. B., are getting out several million feet of logs on the Little River for their Coverdale mills. Humphrey & Frites, of Petitcodiac, are logging extensively on the North river.

It has been estimated that the stock of lumber in wholesale yards at Albany, N. Y., is 60,000,000 feet, composed of 45,000,000 feet of pine and 15,000,000 feet of spruce. One year ago the stock was 70,000,000 feet.

W. J. Trenouth & Bro., of Powassan, Ont., have two logging camps in operation this season, but their cut is likely to be about 5,000 pieces less than last winter, owing to the scarcity of men in the early fall and too much snow.

The steamer Caithness, was loading 3,000,000 feet of lumber at Everett, Wash.,

when the wharf collapsed, and 700,000 feet of lumber was launched into the water. She is now loading 1,000,000 feet at the Moodyville mills, Vancouver, B. C., to complete her cargo.

The Bonfield Lumber Company, of Bonfield, Ont., whose announcement appears in this issue, expect to have their mill in operation next month, when they will be open to contract to cut bills of hemlock on short notice. There is a large quantity of hemlock in the vicinity.

A British firm of timber merchants write us that they are desirous of securing importations of spruce and red and white pine from Canada, and are anxious to negotiate with reliable shippers who are willing to quote c.i.f. Newcastle-on-Tyne. The name and address of the firm may be obtained at this office.

The Ottawa Lumber Co., of Ottawa, closed a contract last week for the sale of all the spruce to be cut this year at their Rouge mill, the greater portion of which will be shipped to the British market. The purchasers were the firm who secured their cut last year, and it is said that the price was \$1.25 per thousand in advance. The quantity will be from four to six million feet, which will be cut largely into three inch deals.

THE GLASGOW TRADE.

Reviewing the timber trade of 1900, F. A. Lightbody & Company, of Glasgow, say: In making our annual report of the timber trade for 1900 we have to chronicle a very satisfactory year's trading both with regard to the volume of business done and the maintenance of high values.

At the close of 1899 the stocks were considerably below the average, and the activity of all branches of trade helped to keep

up the advance in prices which had been established all-round. This applies to all Canadian wood goods with perhaps the exception of birch logs. This advance in prices has been maintained throughout the whole year, which closes with stocks firmly held. The stocks of Canadian pine of both timber and deals are in a position which warrants holders taking up a firm attitude in regard to value.

The shipbuilders' out-turn for 1900 is a record for Scotland, amounting to 541,031 tons, as compared with 536,872 tons in 1899. The new work secured by Scotch builders amounts to about half a million tons, and this ensures activity in this important industry for the whole of the coming year. The house building trade the past year has been very brisk and the outlook for 1901 is good.

Railway, carriage and wagon builders have also been very busy and have accounted for a large quantity of American oak being used.

The imports from Montreal and Quebec during the season in pine and spruce have been very much less than for the last num-

ber of years, and consequently prices have been very firmly maintained.

The outlook for 1901 in all branches of trade—shipbuilders, house builders and all branches where wood goods are used—is extremely bright, and prices are sure to rule about the present high rates all through the year.

Following are the current prices at Glasgow:—

Table with columns for 'WHITE PINE DEALS, 2 INCHES THICK', 'WHITE PINE BOARDS', and 'RED PINE DEALS'. It lists various grades and sizes of lumber with their corresponding prices in £ s. d. and £ s. d.

A. S. Kibbee, senior partner in the wholesale lumber firm of A. S. Kibbee & Son, of Albany, N. Y., has retired. The business will be continued under the former name, with William B. Kibbee as manager.
