été numérisées.

THE JOURNAL OF COMMERCE

FINANCE AND INSURANCE REVIEW

Finance Dept. 22 Dec. 83

Vol. 16. MONTREAL, FRIDAY, AUGUST 10, 1883. No. 25.

Leading Wholesale Houses of Montreal

First Prize Dominion Exhibition, 1880.

GAULT BROS. & CO.,

Importers and Manufacturers.

Having made special arrangements with a number of the leading Mills in the country, we shall be prepared, during this season, to offer unusual advantages to intending purchasers in our "CANADIAN MANUFACTURES DEPARTMENTS." We will show a large and varied stock of the best value in the following lines:

- Canadian Tweeds,
- Canadian Flannels,
- Canadian Shirts and Drawers,
- Canadian White and Grey Blankets,
- Canadian Wool Scarfs and Clouds,
- Canadian Hosiery,
- Hochelaga, Valleyfield and Stormont Cottons.

Orders through our Travellers, or otherwise, will receive our usual careful and prompt attention.

GAULT BROS. & CO.

Commercial Summary.

T. & H. LIKELY, dry goods merchants, St. John, N.B., are reported to have assigned.

W. H. MOODY, of Yarmouth, N.S., has been appointed Collector of Customs at that port.

THERE were thirty-two failures reported in Canada last week, a decrease of one from the preceding week.

JAMES KNIGHT, wine merchant and bottler of Halifax, has assigned in trust to E. D. Tucker & Co.

THE product of the coal mines of Nova Scotia during the first half of the present year amounted to 642,511 tons, 369,681 tons of which were mined during the second quarter.

CHAUNCEY CARPENTER, a saw-mill owner at Victoria, B.C., is reported to have absconded, leaving liabilities to the amount of \$40,000. It is believed that he carried \$20,000 away with him.

THE visible supply of cotton in the United States, says the New York Chronicle of last Saturday, is 1,198,356 bales, a decrease, as compared with the previous week, of 66,009 bales, and as compared with the like date of last year an increase of 418,199 bales.

NOTICE of application for letters patent for incorporation is given by the Saskatchewan Coal Mining and Transportation Company.—The Ontario & Quebec Railway Company give notice of a meeting of shareholders for the purpose of ratifying the lease of the Toronto Grey & Bruce Railway.

THE HALIFAX Steam Navigation Company and the New Brunswick Steamship Company have amalgamated, and will do business under the name of the former. Their first steamer, the Sicily, will sail for St. John and Halifax from London about the 18th instant. It is the intention to run four steamers, making fortnightly trips each way between the Maritime Provinces and Great Britain.

MANUFACTURED BY

WM. LUNAN & SON,

SOREL, QUE.

Sold by leading Grocers in Canada, Newfoundland, the West Indies, Bermuda and South America

JOHN KIRK, who came to Canada from "the land o' Oakes" last Fall and opened a bake shop in Carleton Place, Ont., left that town a few days ago rather hurriedly, leaving scarcely anything behind him but his debts, amounting to some \$800. He was respectably connected, and found no difficulty in getting all the credit he required; he was believed to be honest, commenced well, and was doing a fair business. His family came out a few weeks ago.

At the last meeting of the Toronto City Council it was resolved to grant permission to the Toronto Electric Light Company to erect poles in the city for the purpose of electric lighting. The Council also appointed a committee to consider the best means of lighting the city, and report us to whether the city should be lighted by gas or electricity. By-the-by, the number of electric lights which illuminated the principal streets of Montreal for the past year is growing smaller of late. Are the merchants of St. James st. becoming less enterprising?

At the annual meeting of the New Brunswick Railway Co., last week, the following officers were elected:—Samuel Thorne, president; Hon. Isaac Burpee, vice-president; E. B. Burpee, general manager; and S. Kennedy, of New York, and J. Kennedy Todd, of the same place, with the officers above named, executive committee. The other directors are Hon. Lord Elphinstone, of Musselborough, Scotland; George Stephen, of Montreal; O. H. Northcote,

Leading Wholesale Trade of Montreal.

GREENE & SONS
COMPANY

MONTREAL,

HATS, CAPS,

—AND—

FURS.

of New York; D. Willis James, of New York. The company is now operating 420 miles of road.

The track on the first section of the Erie and Huron Railway, 4½ miles, is completed to Wallaceburg, and it is expected that the new cross bridge at Chatham will be completed by the 1st of September, as well as the ballasting, fencing, and stations along the line, which are all in an advanced state, and the road opened for traffic by the Canada Southern on the 1st September. Whether the second section of forty miles to Sarnia shall be pushed to completion with similar speed entirely depends upon the action of the municipalities interested on the question of bonuses to the road.

Mr. Victor Honox, of Hochelaga, has just returned from Europe, whither he went to examine into the manufacture of woollens, alpacs, and fancy goods, with a view to purchasing the necessary machinery for his new mills at Beauharnois. He told a reporter that he had visited both England and France and had given orders for the most improved machinery which could be obtained, to be delivered early in the Fall. With his machinery his company hope to produce goods which will be unsurpassed in the world. He has, however, not yet completed the arrangements.

The Dominion Customs officials have been markedly more vigilant during the past few months in detecting irregularities attempted by importers and others, under the present tariff. They assert that they are much better supported in their efforts by the authorities at Ottawa than formerly. With reference to the recent seizures of jewellery from Montreal dealers, Messrs. E. A. and Wm. Eaves, the officers claim to have discovered the party engaged by American manufacturers to smuggle

the goods into Canada, and that he has confessed the whole transaction; it appears that he has been engaged in this practice for years, and has a number of accomplices. The matter has now been settled as regards both Wm. Eaves and E. & A. Eaves, who have agreed to pay Mr. Wulff, special agent of the Customs Department, \$10,500, including a fine, as well as customs dues on smuggled goods found on the premises, and on those sold to customers. The seizures were made and the case worked up by Messrs. O'Hara, Tidmarsh and Grosse, of this city; the firms mentioned denied any foreknowledge of the goods having been smuggled. The total value of the seizures made was estimated at \$50,000 to \$60,000.

Reports received daily during the week confirm the belief that most sections of the country will be favored with good crops, and that on the whole the Canadian harvest will be at least a fair average. The following despatch from London, Ont., is re-assuring: A number of local merchants report last week's business unusually satisfactory, and hopes are entertained that a turn in the commercial tide is about to set in. Despite the fact that the week was broken by the civic holiday, the sales are stated to have been above the average. The crop prospect is brightening, and business proportionately looking up. It would seem now that many farmers who were in too great a hurry to plough up their fall wheat, have made a serious mistake. A prominent Blanchard farmer, who had an unusually large acreage under fall wheat, and had begun the work of ploughing up, but was induced to leave the crop alone, now states that he will have at least thirty bushels per acre. In many cases the wheat crop, although presenting a most discouraging appearance in the Spring is now giving promise of a most excellent yield.

DRUGGISTS,
HAVE REMOVED TO THEIR NEW
AND COMMODIOUS PREMISES,
603 CRAIG STREET.
MONTREAL.

It is rumored that some of the leading insurance companies have suffered loss by the default of an agent at Sydenham, Ont., who is reported to have absconded.

This hay crop in Brant County, Ont., has been abundant; the wheat has been nearly all harvested, and the Fall wheat does not average over 12 bushels per acre. Spring wheat, oats and barley fairly good.—During last month 1,879 immigrants arrived in Toronto, and of the number 1,316 remained in Ontario.

THE ST. CATHARINES' Pulp and Paper Mill, referred to in recent issues, was sold last Saturday to "The Lincoln Paper Mills Company" for \$12,800 cash.—In our notice in last week's JOURNAL of the troubles of Mr. J. J. Gregory, it should have been stated that he is Post Master at Port Dalhousie, Ont., a village at the mouth of the Welland Canal.

The Halifax-dry goods firm of Dodd, Cairns & Co. have called a meeting of their creditors for to-morrow, the 11th inst. The firm have been in business for some years, and a few months ago they obtained a year's extension, but have only been able to meet their first payment. No statement of the firm's affairs have yet been received by the creditors.

H. SHOREY & CO.,
Wholesale Clothiers and Mantle Manufacturers,
32, 34, 36, 38 and 40 || 54, 56, 58, 60 and 62
Notre-Dame Street West. || St. Henry Street.
MONTREAL.

BRANCH WAREHOUSE,
Post Office Street, Winnipeg, Man.

The trade are invited to inspect our
FALL SAMPLES OF CLOTHING

now being shown by our ONTARIO REPRESENTATIVES.

Particular attention is directed to our Patent Overcoat and Ulster, also to several useful novelties made only by us, and which will be found to be of great advantage to the trade.

We are making special lines for Ontario trade; our Mantle travellers will be out shortly.

S. H. MAY & CO.,
474 AND 476 ST. PAUL STREET,
Importers and Dealers in

Paints, Boiled and Raw Linseed Oil, Pale Seal and Refined and Cod Oil, Rangoon Oil, the very best Oil in the market for Machinery, with a full supply of Carriage Paints and Materials. Glass—16 oz., 21 oz., 26 oz.; Smoothwick, German Star, Diamond Star and Double Enamelled and Colored, Rough, Rolled and Fluted Glass, Varnish, Japans, Spirits Turpentine, Shellac Varnish, Mirror Glass, 1 and 2 White.

H. F. POINER, the dry goods merchant in this city referred to in a recent issue, has effected a compromise at 60c on the dollar, in 3, 6, and 9 months, secured. This is considered a very fair settlement for all concerned.—A. L. Desève, general dealer at Acton Vale, Que., whose assignment was noticed in a previous issue, has also obtained a settlement, at 40c on the dollar, secured.

At a meeting in the Montreal Corn Exchange rooms, last Wednesday, of grocers and merchants interested in the sale of tobacco, to discuss the possibility of extending the territory already controlled by combination prices, it was resolved to sell tobacco in the Province of Quebec at an advance of three cents per pound over manufacturers' list prices and duty. There was a good representation of the trade in this city, and Mr. Turner, of Hamilton, represented the trade in Ontario.

A. W. MASTERS & SON, oil dealers at St. John, N.B., have assigned in trust. They are reported to have become involved through the failure of a Boston house, and their paper has been lying under protest for some time past. The senior partner has been in trouble before.—G. S. Young, boot and shoe dealer at Brockville, Ont., becoming involved through endor-

MONTREAL.

sations for the insolvent firm of J. A. Young & Co., shoe manufacturers, this city, has been obliged to effect a compromise of liabilities, amounting to \$10,500, at 35 per cent, payable in 4, 8 and 12 months, secured by his brother and brother-in-law.

The affairs of Mrs. Delaney, fancy goods dealer, Kingston, Ont., are not in a satisfactory condition, from all accounts, and she is meeting with some difficulty in trying to reach an understanding with her creditors. She is offering 35c on the dollar in 3 and 6 months, unsecured, on liabilities amounting to about \$5,000, while the assets apparent are only about \$1,400. Some six months ago it was claimed that she was worth about \$8,000, and all things considered some of the creditors evidently deem it worth while to push their claims to a suit. She has been in business a little over two years.

Mr. L. LOWENTHAL, tailor and clothier, this city, whose failure was recently announced, suddenly disappeared last Tuesday, since when no trace of his whereabouts has been discovered. He called a meeting of his creditors for that day, but does not seem to have considered his presence necessary, as he failed to attend.

ST. CLAIR BALFOUR

Accordingly *capias* have been issued to recover debts amounting to \$3,000. Messrs. H. R. Beveridge & Co., cloth importers, this city, who are the principal creditors, state that the first intimation they received of Lowenthal's difficulties was on last Thursday; their claim amounts to \$2,850. Mr. Jas. McShane, sr., has seized for \$2,500 for rent due.

The new Winery factory at Brantford, the only one of the kind in the Dominion, has been started, and the samples turned out are pronounced very good. The manufacturers of that city are all doing well, but the Cotton Mill is not producing as much as formerly.—Owing to a report that the Brantford Fire Company kept their hose in bad order, the insurance companies have rated that city second class; but a fair trial, made a few days ago, having proved the hose to be in good order, and capable of throwing three streams 175 feet high, the companies have promised to classify the city as No. 1. The committee on the erection of a monument to Chief Brant, have located the site on the square in front of the Court House in Brantford; it will cost about \$20,000.

The Dry Dock Committee of the Halifax City Council have long had the question of building a Dry Dock at that port under consideration. They recently decided to send the City Engineer to England to ascertain, among other things, what amount the British Government would contribute towards it; but the latest is an offer from a New York firm to build a wooden dry dock, 600 feet long, 132½ feet wide, 25 feet draught, and equal to the largest on the continent, in consideration of a yearly subsidy of \$20,000 for twenty years.—The daily press correspondents at Halifax cannot be charged with going beyond their latitude for news, as are oft-times those of Montreal. Yesterday's morning papers in this city contained a paragraph regarding the failure of J. R. & F. Blanchard, of Windsor, N.S., which was clipped word for word from last week's JOURNAL OF COMMERCE.

RECENT Ottawa advices report the following regulations regarding the importation of spirits have been established: That brandy, gin, whiskey or other distilled spirits shall not be imported to any part of Canada in any un-decked vessel, or in any under the burden of twenty tons' registered tonnage, or in any

Queen City Oil Co.**MACHINE OILS.****FOR SALE EVERYWHERE.**

vehicle by land other than a railway car, or in any package (except bottle spirits) containing less than one hundred gallons wine measure, except for the purpose of being manufactured as provided by order-in-council of 29th November, 1882, which is hereby continued in force, provided, however, that such spirits may be imported direct from Great Britain and other European countries and from any British colony and from the West India Islands in packages of not less capacity than octaves or in glass. That wine and malt liquor shall not be imported in any other conveyance than those above described, but may be thus imported in any of the packages usual, according to the ordinary custom of trade; and that any spirits imported contrary to or in violation of this regulation shall be seized and forfeited.

MUSKET STEEL.—One Jenkins, a worker in steel, in Pittsburg, Pa., claims to have discovered the process for making the celebrated Musket steel, heretofore produced by the Alfred Musket process only at Middleboro, England. Mr. Musket has refused to disclose the secret of the process, and has declined to take out a patent on it in order to keep the secret from getting out. Mr. Jenkins was in Musket's employ for a long time, and since his arrival in this country has made many attempts to produce the Musket steel, but without satisfactory result. A few days ago, while at work at Demler Station, he accidentally hit upon the pro-

cess of producing steel which requires no tempering after being cast. In an interview, Mr. Jenkins said:

"I have never met a steel manufacturer in England or in this country who has not experimented to find out the Mushet process, and in many cases the money expended has been almost ruinous to them. The selling price of Mushet's steel in the United States is 45 cents per pound, or about 34 cents more than the American steel, and it is worth the money. The nailmakers can earn so much more by using it that they pay half of its cost, and the other half is paid by the masters, which is proof of its superiority."

THE BOSTON LEATHER FAILURE.—The local leather trade pursues its normal course, apparently unaffected by the troubles in Boston, already noted, and there is every reason to believe that the firm in this city referred to will continue to maintain the high standing and credit which have always hitherto characterized them. One of the principal features of the Boston leather failure is not unknown

in Canadian trade, it being not uncommon for manufacturers to buy large quantities of leather for future delivery, the low price of hides being an inducement. In this manner the suspended Boston firm held large amounts of paper from the trade in that city and elsewhere, thus involving some of their customers in the catastrophe. The rumors as to heavy losses on the part of one or two banks in Nova Scotia and New Brunswick are to be received with caution. The special meeting of the Bank of Nova Scotia, called for the 8th inst., for the purpose of considering the terms of amalgamation with the Union Bank of Prince Edward Island, was adjourned till the 11th of next month, to allow time for arranging the form and terms to be submitted to the respective shareholders. A statement was made that the Bank of Nova

Scotia had had a cash offer for the Shaw Bros. debt, which would reduce its loss to an amount that would not infringe upon the reserve fund or interfere with the regular dividends. A despatch from Boston says:—"At a meeting of the creditors of Shaw Bros. recently, the firm stated their total liabilities at \$320,000 and assets at a million, nearly all of which was immediately convertible. The failure is laid to the fact that the firm's paper was hard to negotiate, and it chose this means of righting its affairs. Other failures are being precipitated in Boston, owing probably to renewed caution on the part of the banks."

**THE DEEPENING OF THE ST. LAW-
 RENCE.**

We had hoped that after the recent
 decision of the Government in favor of
 the prosecution of the St. Lawrence
 channel improvement, there would have
 been a general acquiescence in, if not an
 approval of the work. The Quebec Board
 of Trade, through its president, Mr.
 Sheyn, seems determined to take the
 lead in opposition, and, viewing the ques-
 tion from an exclusively Quebec stand-
 point, we can readily comprehend that
 the local public opinion of that city may
 be in accordance with the narrow views
 of its commercial representatives. Que-
 bec has been too late altogether in its
 opposition to the deepening of the chan-
 nel of the St. Lawrence. When, upwards
 of forty years ago, it was proposed that
 the improvement of the channel should
 be undertaken concurrently with that of
 the canals as public works, Quebec, far
 from opposing the scheme of the Govern-
 ment, gave its voice through one of its
 most venerated citizens, the late Hon.
 John Neilson, in favor of the measure, and
 it is only quite recently that there has
 been an organized opposition to a public
 improvement of the greatest importance
 to the Dominion.

While it is to be regretted that a narrow
 feeling of jealousy should have caused
 our near neighbors to endeavor to obstruct
 an important public improvement, still
 we can readily understand the difficulty
 that the exponents of public opinion in
 Quebec find in giving their assent to such
 a scheme. It is different altogether with
 the people who live west of Montreal, and

who are deeply interested in procuring the lowest rates of freight possible on the St. Lawrence route. Canada has spent far too much money on the improvement of the navigation, and even the harbors on the Lakes, to render it safe to abandon its great work at a time when the keenest competition exists, and when no effort is being spared by our republican neighbors to divert the traffic between the seaboard and the West from the St. Lawrence to their own Atlantic ports. It is not pretended, as the *Globe* asserts, that the trade which passes through the channel for transportation at Montreal en route to the West pays the entire cost of the channel deepening, as of course all the goods landed at Montreal to supply the local demand, including that for the country in the vicinity, contribute their full share to the aggregate amount of tolls levied. What seems sufficiently evident is that inasmuch as Canada has constructed the canals and other improvements at the public cost, with a view to extending the trade of the St. Lawrence, it would be an act of supreme folly to sacrifice the money already expended, and to allow the trade to be diverted to the United States ports.

We find it difficult to comprehend the policy of some leading journals in Ontario, which is completely at variance with that which has been steadily pursued in the United States. In the life of General Dix will be found a summary of what he himself termed the "Democratic points," and among them is "appropriations of money from the public treasury for the improvement of rivers and harbors to be confined to such as are general in their character; and no more than one new work to be provided for in the same bill." The last provision was obviously intended to prevent what is popularly known as log-rolling, and which there is reason to suppose was recently adopted in the Rivers and Streams bill. It will scarcely be pretended by any Canadian that the improvement of the River St. Lawrence is not general in its character. A demand has been made on the people of Montreal for proof that the further deepening of the channel would be advantageous to the Dominion. The answer is, that so far the improvement which has been progressive has been attended with a cheapening of freights, and an increase of trade that fully justifies the belief that similar results will follow the extension of the works. The reason that the people of Montreal have taken a prominent part in advocating the improvement of the channel is because the Harbor Commissioners of Montreal were

entrusted with the superintendence of the work, and with the collection of the tolls levied to pay the interest of the money borrowed on the security of the Dominion for its construction. The chairman and several of the Commissioners are appointed by the Dominion Government, and they and their colleagues have fulfilled the duties entrusted to them with marked zeal and fidelity. It is far too late in the day for the opponents of one of our most important public works to hope to check its progress.

THE RAT PORTAGE IMBROGLIO.

If the Dominion should be fortunate enough to be spared an effusion of blood in what may be termed the "disputed territory," it will not be from any want of encouragement given to those who have taken the responsibility of provoking an excited population. Algoma is on the eve of an election, which will necessarily take place under circumstances of peculiar excitement, and at this time the late insignificant *emeute* at Rat Portage is compared to the bombardment of Fort Sumter, the first act in the most disastrous civil war that is recorded in history. The comparison is sufficiently absurd, but it is indicative of the feelings which actuate those who can view with complacency the probability of a hostile encounter between the authorized employees of two Provinces of the Dominion. So far as we can judge of the merits of the controversy, Ontario, though most violently abused by the press in opposition to its Government, has acted with singular moderation. Persons acting under the authority of the Manitoba Government, commenced this trouble by incarcerating in gaol certain officials of the Ontario Government, a step which, under existing circumstances, was most unwise. This led to an assault on the gaol by a portion of the inhabitants; and the next step was the appearance on the scene of the Premier of Manitoba, and the subsequent arrest and removal to Winnipeg of persons charged with being concerned in the attack on the gaol. All this is sufficiently serious; but we fail to discover the slightest ground for imputing blame to the Government of Ontario. No censure that we have seen has been visited on the Manitoba Government, which has procured the incorporation of Rat Portage, which is within the territory which has been awarded to Ontario, and which, while claimed by that Province, is admitted by those opposed to the award to be in dispute. In two different articles in a recent number of the *Toronto Mail* the following remarks will be found: "It

(Ontario) has provoked the hostility of Manitoba, and has caused that Province to move in the direction of planting its institutions so firmly in the territory, that when a decision giving Ontario the legal right to possess it, is arrived at, the people will be loth to sever their connection with the Province to the west of us." We have italicized the *Mail's* admission that a decision will eventually be arrived at in accordance with that which Ontario holds has been already given. But the *Mail* admits that Manitoba has been planting its institutions firmly in the disputed territory, which it certainly had done prior to the recent action of the Ontario Government. Again, the *Mail* states in another article: "Until what we believe to be rightfully hers is adjudicated to Ontario, it is nonsense to talk of taking possession by the rule of thumb, bad whiskey, and rowdy violence."

The *Mail* has not failed to reassert the stale charge that "Mr. Mackenzie, with his usual caution, declined to sanction it (the award) before he saw what it was." The truth is that both Mr. Mackenzie and Mr. Mowat fully committed themselves to the award before the arbitrators met. On the 31st July, 1878, orders in Council were passed by the Governments of the Dominion and of Ontario, both agreeing that "the determination of such three referees be final and conclusive upon the limits to be taken, as and for each boundary respectively." The report of Council containing the foregoing words was approved on the same day by the Governor General, and, according to the established usage in the Mother Country, what has been sanctioned by the Crown, on the advice of its ministers, is never repudiated by the successors of such ministers. It is of course true, as the *Mail* says, that Executives cannot bind the Dominion and Provinces without "reference to the people's representatives." What, however, executives can do was not done. The new administration could have stated that, inasmuch as the faith of the Crown's representative in the Dominion had been pledged to Ontario to leave a disputed question to arbitration, and to abide by the award, it was bound to adhere to the agreement, and to stake its existence on carrying it out in good faith. Instead of doing what would have been in strict accordance with immemorial British practice, it almost immediately after its assumption of office determined to repudiate a solemn agreement entered into by the representative of the Crown, by the advice of its ministers, and its Parlia-

mentary supporters, mainly representing one of the parties to the dispute readily concurred in one of the most scandalous acts of repudiation that can be found in modern history.

The *Mail* persists in referring to the "Supreme Court" or "the Judicial Committee" as "competent authority." Surely one who has taken so prominent a part in the discussion of the question must be aware that when the late Chief Justice Draper was in England, in 1857, with a view of settling the territorial dispute with the Hudson's Bay Co., Sir Richard Bethell, the Attorney General, afterwards Lord Chancellor, and Sir Henry Keating, then Solicitor General, gave an opinion from which we shall quote an extract:—"Under these circumstances we cannot but feel that the important question of the boundaries of the Hudson's Bay Company, might, with great utility, as between the Company and Canada, be made the subject of a quasi judicial enquiry. But this cannot be done, except by the consent of both parties, namely Canada and the Hudson's Bay Company; nor would the decision of a Committee of the Privy Council have any effect as a binding judicial determination." The reference to the Judicial Committee, if agreed to, would be tantamount to a new arbitration; and yet it is understood that the Ontario Government has consented to this, only claiming that, pending the decision, the territory in dispute should be placed under its jurisdiction, a demand which, under the circumstances, appears most reasonable, and especially as the territory ought to be under some jurisdiction.

It is well known that the principal ground on which the Dominion Government justified its repudiation of the award, was that it had been admitted that the true boundaries had not been found, but merely a conventional boundary. Now the admission referred to, as has been repeatedly explained, had reference solely to the Northern boundary, and was to the effect that there was not in existence any precise definition of a boundary on the North-West. If this be true then it is simply impossible that any judicial tribunal can find a legal boundary. The Hudson's Bay Company's charter, which is their only title, grants them "all the lands and territories upon the countries, coasts and confines of the seas, bays, lakes, rivers, creeks and sounds that lie within the entrance of the Straits, commonly called Hudson's Straits, that are not already actually possessed by the subjects of any other Christian Prince or State." This charter was

granted in 1670, when Canada belonged to France. Twenty-seven years later, 1697, after endless warfare, a treaty was agreed to known as that of Ryswick, by which each power agreed to restore "all countries, islands, ports and colonies wherever situated, possessed by each before the declaration of war." It made special reference to Hudson's Bay, as follows: "Commissioners shall be appointed on both sides to examine and determine the rights and pretences which either of the said kings had to the places situated in Hudson's Bay; but the possession of those places which were taken by the French during the peace which preceded this present war, and were re-taken by the English during this war, shall be left to the French by virtue of the foregoing articles." The treaty of Utrecht, some fifteen years later, provided for the appointment of commissioners to determine boundaries, who were never able to agree; although, it appears from a letter addressed by Mr. Prior to secretary Lord Bolingbroke that, "according to the *casse* which came from our plenipotentiaries, marked with the extent of what was thought our Dominion, and returned by the French with what they judged the extent of theirs, *there was no very great difference*." The treaty of Utrecht provided that France should restore to Great Britain the Bay and Straits of Hudson, with all lands, etc., and this has chiefly given rise to the modern pretension of the Hudson's Bay Co., which, on the assumption that France agreed to a cession of territory which it always disclaimed having done, insisted on its right to all such territory, on the strength of a title granted nearly fifty years previously, and never extended. One thing is clear, viz., that so late as 1755, a few years before the conquest, the French king gave instructions with reference to the claims put forward regarding the boundaries:—"His Majesty is firmly resolved to maintain his rights and his possessions against pretensions so excessive and so unjust; and whatever be his love for peace will not make for its preservation any sacrifices but those which will accord with the dignity of his crown, and the protection he owes to his subjects."

After the conquest the only reference to the Northern boundary in the Act of 1774, known as the Quebec Act, and defining the boundaries of that Province as they existed until the treaty of peace with the United States, at the close of the Revolutionary War in 1783, was that the Northern boundary of the Province was "the Southern boundary of the territory granted to the merchants' adventures of

"England trading to Hudson's Bay." The next definition was that under the Act of 1791, which declares that His Majesty has been pleased to signify by message "His royal intention to divide his Province of Quebec into two separate Provinces." "The proclamation of Sir Alured Clarke was founded on an order in Council which was procured from the Public Records office in London, and which describes the boundary, after reaching Lake Temiscamingue, "from the head of the said lake by a line drawn due North until it strike the boundary of Hudson's Bay, including all the territory to the westward and southward of the said line to the utmost extent of the country, commonly called or known by the name of Canada." We have given all the materials that exist for determining the Northern boundary of the Provinces of Ontario and Quebec, which latter would be equally curtailed by the adoption of the Height of Land boundary. In his argument, Mr. Attorney General Mowat admitted that "how far the Hudson's Bay territory extends has never been definitely ascertained." This reference to the Northern boundary has been made simply to establish the fact that it has never been pretended, during the controversy, that any precise boundary was ever established on the North either before or since the conquest between the Hudson's Bay Company, now represented by the Dominion, and Canada represented in the present controversy by Ontario. The determination of this Northern boundary is not of pressing importance, and yet it is the only one regarding which there could be any pretence for asserting that the arbitrators adopted a conventional instead of a legal boundary. Any other tribunal would necessarily have to do the same. The controversy is at present in respect to the Westerly boundary, which has been clearly established by the Statute of 1774, and the Treaty of 1783, and regarding it the arbitrators had no doubt whatever. Still the award has been repudiated, and there is at least a danger of riots that may have serious consequences. It is difficult to comprehend why the contending parties have not long since sought the mediation of Her Majesty's Imperial Government, which would at least be an impartial arbitrator, and without going into the merits of the question, that Government having learned all the circumstances of the dispute could advise as to the conditions on which a reference to the Privy Council should be made, a reference which, we may remark, can only be obtained at the desire of the Crown.

EMIGRATION IN 1882.

The report of Mr. Robert Giffin to the Secretary of the Board of Trade on the "Statistical Tables relating to Emigration and Immigration from and into the United Kingdom in the year 1882," contains, as usual, many interesting facts, some of which are peculiarly so to Canadians. The aggregate increase in the emigration of people of British and Irish origin in 1882 over 1881 was 38,472, of which 16,193 was to British North America, 14,660 to Australasia, 7,112 to the United States, and 507 to all other parts. The aggregate number of emigrants to British America was 34,344. Mr. Giffin thinks that the increase is due to the special attractiveness of the North West Provinces of Canada and the great efforts made by the Canadian Government to have them settled. The aggregate to the United States was 153,435; so that Canada has obtained nearly 20 per cent of the emigrants, while its population is about one-twelfth of that of the United States. Mr. Giffin states an interesting fact as to the comparative emigration of male and female adults from Great Britain and from Ireland. The figures from England and Scotland, as regards the proportion of males and females, are much the same, and shew an enormous preponderance of the former, there having been 63,992 adult single males from England and 22,519 adult single females, while from Ireland the adult single males were 34,937 and females 28,695. In regard to children, the proportion is rather more than 20 per cent from England, nearly 23 per cent from Scotland, and about 13 per cent from Ireland. Mr. Giffin estimates the diminution in the population of Ireland in the last three years at about 160,000, owing to the emigration; and he states that the Irish emigration is much more largely than the English and Scotch, the emigration of people at the marriageable or approaching the marriageable age. The aggregate loss of population to the United Kingdom was very large last year, having been very nearly one-half of the total increase of births over deaths.

LIFE OF SIR JOHN A. MACDONALD.

BY J. E. COLLINS.

No. 4.

During the sharp controversy which took place in 1852 on the subject of the Grand Trunk Railway charter, Mr. Macdonald was the principal advocate of the Canadians who had obtained the control of the charters for constructing railroads between Montreal and Kingston and

Kingston and Toronto. Before the final passage of the Government Bill, there was an amalgamation of interests between the contending parties, and that question ceased to be a subject of controversy. When the bill for increasing the representation was under discussion Mr. Macdonald offered to it a most vigorous opposition in a speech which his biographer has printed in the appendix, a favor for which Sir John A. Macdonald will hardly thank him. A line or two of that speech is worth reproducing: "How can we legislate on the Clergy Reserves until another house is assembled if this Bill passes? A great question like this cannot be left to be decided by an accidental majority. We can legislate upon no great question after we have ourselves declared that we do not represent the country. Do Hon. gentlemen opposite mean to say that they will legislate on a question affecting the rights of people yet unborn with the fag end of a Parliament dishonored by its own confessions of incapacity?" Sir John's biographer seems to be entirely in accord with the foregoing remarks. Referring to the crisis of 1854, the year following that when the speech was made, he says: "clearly, then, from the moment Parliament had declared for an increase in the number of representatives, the existing Legislature was not fairly representative, and for a body so deficient to enact legislation affecting the interests of the public would have been a violation of the principle of responsible Government."

Let us now consider the course taken in 1854 by Mr. Macdonald. Lord Elgin in his despatch of 22nd June of that year to the Secretary of State, announcing the dissolution of the 4th Parliament, wrote as follows:—"To attempt, therefore, to settle such a question (Clergy Reserves) in a Parliament which had been already declared by its own vote to be an imperfect representation of the people, and by the exercise of what might be deemed the influence of the Government, was a course of proceeding open to serious objection. In these views of the Executive Council I entirely concurred." Lord Elgin then proceeded to report the various amendments proposed to the address in answer to the speech, the final one, which was carried by 42 votes to 29, having been moved by Mr. Sicotte, and having been supported by Conservatives and Grits from Upper Canada and by Rouges and a few Bleus from Lower Canada. It was to the following effect: "This House sees with regret

that His Excellency's Government do not intend to submit to the Legislature during the present session a Bill for the immediate settlement of the Seigniorial question, or one for the immediate settlement of the Clergy Reserves." Lord Elgin, in commenting on the result, observed: "The Conservative members, availing themselves of the ambiguity of the word 'settlement' to join the party who were censuring the administration for not having introduced during the then session a Bill for secularizing the Clergy Reserves." It is worth adding a few more lines from Lord Elgin's unanswerable despatch: "It will be obvious to Your Grace from the above statement of facts that a most embarrassing situation was created by this vote. It pledged the then subsisting Parliament to settle the question of the Clergy Reserves, and it was carried by a combination of parties holding opposite views with respect to the terms on which the settlement should be effected." The vote on that occasion was the final rupture between the two sections of the Reform party, which had been for some time becoming more and more estranged from each other. Among all who voted Mr. Macdonald was the only one who had himself in his speech of the preceding year emphatically declared that the course taken by the Ministers was strictly in accordance with propriety as well as with Imperial precedent. There can be little doubt that the verdict of history will be in accordance with that of his biographer, that the Ministry of 1854 acted with strict propriety.

When the new Parliament met, the Ministerial Reformers from Upper Canada, although numerically stronger than any section of their opponents, were unable to withstand the combined opposition of the Conservatives and clear Grits, although their allies in Lower Canada were in a considerable majority over the Conservatives and Rouges. The resignation of the Cabinet followed very shortly after the election of Speaker, and Sir Allan MacNab was charged with the formation of a new Government. As the Conservatives, including Mr. Macdonald, had voted but a few weeks previously against Mr. Hartman's amendment, expressing regret that Ministers were not prepared to legislate for the secularization of the Clergy Reserves, their adoption of that measure took the entire public by surprise. There can be little doubt that Mr. Macdonald had not been an inattentive observer of Mr. Draper's efforts to coalesce with the

French Canadians. Mr. Draper saw clearly that it was most important for the Conservative party to bring about a coalition with the French Canadians, but he had insuperable difficulties to contend with. Prominent among these was Mr. Daly's position. That gentlemen could not have been induced to resign voluntarily, and his dismissal could not be entertained. Still the object to be attained must have been constantly present to the mind of the astute statesman who then managed the interests of the Conservatives. We can hardly doubt that Sir Allan Macnab was influenced in a great degree by Mr. Macdonald, who had sagacity enough to perceive that the time had come when the settlement of the Clergy Reserve question could no longer be postponed. Since that period he has had an almost uninterrupted tenure of office, and has retained the confidence of all those with whom he has been connected. His brief alliance with Mr. Brown can hardly be termed an exception to the rule. We shall take an early opportunity to notice some of the other prominent events in his political career.

THE STRIKE OF THE ELECTRICIANS.

We infer from the tone of the United States press that the strikers are losing ground rather than the reverse. It is seldom that a strike of such magnitude can be carried out without the committal of grave errors. The order to the railroad operators, issued by the brotherhood, has been received with much disfavor, and again the strikers are naturally held responsible for the cutting of the wires, which has taken place in the vicinity of New York to a great extent. It would seem, notwithstanding their strong assertions to the contrary, as if the brotherhood had become convinced that their attempt to cause serious embarrassment to the companies had been a failure, and that they are now bent on revenge. It is believed that the demand on the railroad operators to come to their aid would not have been resorted to, but for the failure of the strike, and that it is wholly unjustifiable. It is not likely to produce any effect of importance, and will merely exasperate the public at large who travel by rail. All who desire the maintenance of law and order must condemn the cutting of wires, and although the brotherhood protest their innocence of such acts, yet they can scarcely be surprised that they are held responsible for them.

A WORD OF CAUTION.—The recent history of Fleming & Merriam have not deterred other firms of similar stripe from their well paying endeavors on the farmers and the persons of speculative tendencies to be found in every town and village in Canada, as well as in the United States. "W. T. Soule & Co.," of Chicago, have recently issued a circular, promising a harvest of wealth to all whom it may concern. Following is the circular of the kind-hearted firm:

WHAT WILL THE HARVEST BE—WHEAT.

Several estimates are made of the approaching wheat harvest this year. They vary from 380,000,000 to 440,000,000 bushels. Two well-posted parties, whom we agree with, place it at about 400,000,000 bushels. Last year it was 504,000,000 bushels. Six weeks ago, when wheat was \$1.18, nearly the country believed it would go to \$1.30 per bushel, and many bought to hold for \$1.25. A change came over the spirit of affairs, and prices declined to about \$1, and are now varying between \$1 and \$1.03 to \$1.05. We are now willing to buy it and sell on the frequent up turns of two to three cents per bushel, and are willing to put our own money in with yours, each using \$25, \$50, \$100, or \$500, and share alike. We report each trade to you by mail as made. We believe each \$100 should make \$500 within sixty days, and each \$500 should make \$2,500 or \$3,000 by careful, conservative trading only when opportunities are extra good. If you care to deal with us and make money in this way, don't delay. Do it now before prices get way up again.

Respectfully,
W. T. Soule & Co.,
CHICAGO, July 22, '83. 130 La Salle-st.

There are thousands of people who have never heard of these schemes, and a goodly number of them will doubtless make the investment, eager to realize several hundred per cent. as promised in the circular. Advice to such people is usually thrown away, for nothing but experience can teach them. The post office authorities interfered with the operations of Fleming and his "Fuad W.," but similar schemes originating in Montreal appear to thrive unmolested.

THE ADDRESS of Mr. Geo. Tye, retiring president, at the recent meeting of the Ontario Press Association in this city, touched a point of vital import to the moral and economical welfare of the people. The veriest scoundrel in the community can, on the slightest pretext, enter an action for libel against the newspaper which has endeavored to warn the public against his wiles, or exposed his methods; and although cases of this kind seldom succeed, the trouble and expense to which the editor or publisher is put in defending himself are great, and enough to make him hesitate in the discharge of his duty when it involves him in such complications. Were the plaintiffs in these harassing actions obliged to provide security for costs, many of them would never be entered, and the press would be allowed that independence wherein lies our strongest safeguard against the rascalities and swindles so frequently sought to be perpetrated upon the people. Mr. Tye concluded as follows:

"It is well understood that legal gentlemen are too often eager to advise litigation, and take the risk of a verdict, when the defendant or the firm or company are good for the expenses as well as damages, though the plaintiff be notoriously insolvent. Nor is the law of libel

as amended, quite perfection, for were it so, how did it happen that the plea of the Montreal Star recently, in an action for libel against the proprietors, viz., truth and public interest, was rejected, and an appeal to the higher court accepted? Was it merely a difference of legal opinion, or is the law so indefinite that a jury of laymen cannot be expected to understand it? No question more seriously concerns the members of this Association, individually and collectively, than the extent of liability to legal proceedings, for no Canadian judge would venture to charge the jury that "the greater the truth the greater the libel," still the press should in no case be subject to punishment by fine or imprisonment when facts are faithfully stated and free from injurious or malicious comments. It can scarcely be questioned that the public is equally interested in sustaining the Liberty of the Press in all cases where the interests of the public are manifestly concerned, and also in punishing unwarrantable attacks."

AFTER a newspaper sensation, lasting several days, over the failure of Hon. Bradley Barlow, President of the South Eastern Railway Co., also of the Vermont National Bank, St. Albans, it is now rumored that his assignment to the bank was only a ruse to prevent the South Eastern being bought up by the Canadian Pacific Ry. Co., at a price which Mr. Barlow was unwilling to accept; and that the road has since been bonded to an American Syndicate, composed of Mr. Geo. D. Chapman, of the National Construction Co., New Jersey; and other capitalists. The figure agreed upon is said to be \$3,800,000, which, after paying all liabilities of his road, amounting to some \$3,300,000, including the \$1,400,000 due the Canadian Pacific, would leave Mr. Barlow a balance, of \$300,000 to \$400,000. It is further stated that the Syndicate includes several New York capitalists and some prominent banks, and that some of the members will proceed over the road to inspect it this week. Meanwhile the failure continues to be of exciting interest in railway circles, especially since the immediate cause was ascribed to the breaking off of negotiations by the C. P. R. for the purchase of the road, but it is now all but certain that the C. P. R. Co. cannot have the refusal of the road. The failure was not wholly unexpected, but the closing of the Bank caused great consternation among the depositors who Barlow stated would likely be paid in full. Seizures were made yesterday, attaching all Mr. Barlow's stock in the South Eastern and Montreal, Portland and Boston Railway, at the instance of Mr. O'Halloran, Q. C., solicitor of the South Eastern, for three notes for \$10,000. The Merchants' Bank has also taken an action for \$10,239 against the South Eastern on a note endorsed by Mr. Barlow and the Company.

THE REVENUE of the Dominion for the month ending July 31st was as follows:

Customs.....	\$1,624,230.22
Excise.....	395,439.31
Post-Office.....	140,653.72
Public Works, including Railways	275,024.45
Miscellaneous.....	52,536.19
Total.....	\$2,489,883.89

Expenditure\$2,644,057.24
Leaving an excess of expenditure of receipts for the month, according to the returns received, of \$156,173.35.

Market Reports.

MONTREAL WHOLESALE MARKETS.

THURSDAY, 9th Aug., 1883.

A "cool spell" in midsummer is certainly a rare experience, occurring probably not oftener than twice or thrice in a life-time, but this will be thought too often by some of our citizens who spent the extraordinarily cold nights in this year of July and first week in August this year at the sea-side. At present writing, a "thaw" has evidently set in, and in the interests of trade and ripening of the crops, especially in Manitoba, it is hoped the weather this month will continue more seasonable. In business generally an increased movement for the week is noticeable, though there are few if any new features in the situation. A fair average harvest now seems assured; and the outlook is regarded as promising, under present conditions of prudence and cautious buying. Dry goods, grocery and shoe houses are tolerably busy, but other lines remain quiet. There is practically no change as regards the telegraphers' strike, both parties still confidently holding out. Remittances are generally fair for the time of year. Money rules dull and easy without change of rates; Sterling Exchange inactive at 108½ for sixty-day bills and 108½ cash over the counter. Drafts on New York sold at par to 1-16 prem. The local Stock market has continued extremely dull; transactions this week have been small and restricted to only a few securities. The tendency of values, in the absence of any public interest manifested in the market, has been downward, but fluctuations have been merely fractional. The market closes a little stronger for leading bank stocks, but with little business recorded, and no immediate prospect of improvement. Montreal Bank shares sold to-day at 197, Merchant's at 121, Ontario at 115, Commerce at 132½, and Molsons at 124½. North West Land Co. has dropped 3s for the week, buyers closing at 52s, this is probably the weakest stock on the list. Canada Cotton has fallen 4 per cent, St. Paul, M. & M. has advanced 2½, and Canada Pacific has declined about 1 p. c. See table on another page.

ASHES.—Receipts remarkably light, less than one half of quantity received in July of last year to date. Price of First Pots has advanced; sales have been made this week at \$4.80 to \$4.90, closing firm; a few Seconds have been sold at \$4.50 to \$4.52½; there are no Thirds offering. **Pearls.**—No receipts this week, we quote nominal at \$6.25 to \$6.50. Receipts since 1st January, 5,102 barrels Pots, 284 barrels Pearls. Deliveries, 4,427 barrels Pots, 303 barrels Pearls. Stock in store at six o'clock on Wednesday evening, 990 barrels Pots, 73 barrels Pearls.

BOOTS AND SHOES.—Manufacturers are quite busy; a better feeling obtains among country merchants over the crop and general prospects, and orders are becoming more numerous as the season advances. Prices rule very steady, with apparently less cutting by manufacturers thus far than last year. Payments are "moderately fair," but, as usual during harvest time, rather slow in coming to hand. With some leading houses trade is as large as usual in August, but not so with others.

CATTLE, ETC.—At the local markets last Monday there was a fair demand for shipping cattle, but, owing to the small supply, sales

were light. Fair to good export *Beeves* sold at from 66 to 63c per lb, live weight. The offerings of butchers' cattle numbered about 150 head, which met with a good enquiry, and choice stock sold at from 5c to 5½c; ordinary to good, from 3½c to 4½c per lb. About 350 *Sheep* and *Lambs* were on the market; the latter sold at from \$2.50 to \$4.50 each, and the former at \$5.50 per 100 lbs. *Calves* sold at from \$3.50 to \$15 each, according to size.

DAIRY PRODUCTS.—The *Butter* market has developed little improvement within the week. The export trade continues to drag; a few export enquiries have been received, but shippers here must forward them to New York in the event of not being able to get the butter here at prices low enough. American exporters appear to be getting the cream of the English orders this season, simply because Canadian farmers are not willing to dispose of their goods at fair-export values, and until they determine to moderate their views to a shipping basis not much increased movement can be expected here, notwithstanding that there are considerable quantities in store in this market. Receipts during the week ending last Wednesday were 3,277 packages, an increase of 1,344 packages, compared with like period last year, and shipments were only about 1,600 packages. A couple of orders have been received here from Liverpool this week at 90s for choice Townships, and 80s for choice Western, equal to about 16c to 18c in this market. There has been some demand for Newfoundland and the Lower Ports, and sales aggregating about 400 packages Western have been made at from 16½c to 17c, the outside figure being paid only for choice lots. A tolerably good lot creamery sold at 19c, but for choice brings 20c to 20½c. To the city jobbing trade an advance of 2c per lb. on our prices is charged. The *Cheese* market has ruled about steady, with no important changes. Western factories are quoted at 9½c to 9¾c, and French do at 8½c to 9½c. It is rumored that the Kelso Combination has been bought by the proprietor of the Allan Grove Combination. If this be an accomplished fact (and there are reasonable grounds for believing it is), the amalgamation of these two well-known concerns will form by far the largest cheese combination in Canada, or, perhaps the United States. The Allan Grove comprises about 42 factories, and the Kelso about 22, making a total capacity for turning out from 22,000 to 25,000 boxes per month. We understand the amalgamation dates from August 1st. Both Allan Grove and Kelso are well-known brands in the English market.

DRY GOODS.—There seems to be a wide difference between the experience of some leading houses and that of others. In some quarters business is reported satisfactory, and growing more active as the season advances, while other houses report that orders per travellers show a considerable percentage under the volume for the like period last year, and look for a larger sorting-up trade this year than last. There can be no doubt that country merchants are wisely showing a more general disposition this season to defer, as far as possible, heavy purchases of woollens and other winter goods until after the harvest has been reaped or ascertained. This will tend to develop a healthier condition of trade, and curtail considerably, it may be hoped, the demoralizing custom of dating forward, even though financing should be somewhat disturbed by the purging process. On the whole, business thus far this season, especially in this month, is reported about equal to last year; and although importations have been generally a little lighter, it is yet rather too early to predict, as some contemporaries have done, a smaller volume of Fall trade than was done last year. Already a number of applications have been received for orders to purchase return tickets at one and one-third fare from the following points: Grand Trunk Railway, from Kingston and all stations westward; Midland Railway, from all points; Canadian Pacific

Railway, from Ottawa and all stations westward; Canada Atlantic Railway, from Ottawa city only. The tickets will be available on the down trip by the boats of the Richelieu and Ontario Navigation Company from Toronto, or from any place between there and Kingston, on payment of one-third extra fare, from such place to Montreal, returning by railway. This arrangement with the Montreal Dry Goods Association extends from 6th August to 1st October next, and the tickets will be good for 15 days from the date of beginning the journey. Dress goods are commanding a good deal of buyers' attention, broadened velveteens in all colors being in active demand; dark and crimson shades are the more popular, and velvet ribbons, etc., are also sought after. Medium class of Canadian tweeds, ranging from 80c to \$1 per yard, have been selling freely, and the demand for Canton flannels manufactured by the leading Canadian mills is said to be in excess of the supply. Payments, as usual at this period, are rather light. Our prices current for Canadian cottons are again revised this week, quotations for some lines having been advanced.

FLOUR AND GRAIN.—Foreign advices to-day report English Breadstuffs markets firmer, with an advance of 1d per cental for wheat, and of 1d per qr. for Corn. The Chicago Wheat market was weaker to-day, with a decline of about ½c. In New York also the feeling was weak and depressed, at a decline of ½c to ¾c per bush. The local grain market has ruled quiet all week, the bulk of business being done in the West; considerable new wheat is coming forward from the Western States, and prices here have advanced somewhat for Wheat. The fall in Chicago to-day tended to depress this market, and there was little business done in either grain or flour; stocks of the latter are small, holders firm, and buyers scarce. New flour is now offering here, and readily commands 5c to 10c per brl. more than old flour.

FRUITS.—*Peaches* are about the newest kind in season; shipments have been arriving freely from Delaware and New York, and selling at \$2.50 to \$3 per crate, and in baskets at \$1.50 to \$2. New Canadian *Apples* have been arriving this week from Picton, Ont., and sold at \$5 per barrel for the best, and \$3.50 do. for second quality. Choice *apples* from Chicago were sold at \$5 per barrel. California Bartlett *Pears* are still in fair request, at \$5 to \$6 per box, and California *Plums* are worth \$4 do. A few California *Grapes* have been received, and are offering at 20c to 30c per lb. *Lemons* are in less active demand, at \$6.50 to \$7 per box. *Blueberries* from the Saguenay are in fair supply, at 75c to \$1 per box, but the demand is rather limited. *Watermelons* rather slow of sale, at 20c to 50c each, as to size, etc. Advices from the Western States report that the prospects for the winter crop of *Apples* are poor, and that as soon as the early varieties are worked off the supply will be less plentiful. The cool weather of the past few days has militated considerably against the demand for fruit. Regarding the *Grape* crop letters have been received here from growers in New York State, advising a heavy crop of Concord and other varieties. California grapes of the sweetwater variety sold well at \$4 per crate of 20 lbs.

GROCERIES.—*Sugars.*—There is a continued steadiness for Refined Sugars, with fair demand on basis of last week's figures, practically. Raw Sugars, except for refining, are dull. *Teas.*—The high grade of new crop Japans are held without change of moment; operations are not heavy in any grade. China Young Hysons, Imperials, Gunpowders dull, as well as Black Teas. *Molasses.*—There is now report of about close of stock in Barbadoes; values rule in common way, steady. *Syrups* quiet. *Coffees.*—The re-opening of direct trade with Brazil may be expected to put Coffees again from that country pretty freely on the market, and trade at the moment in Coffees is light. *Spices.*—Market not active; Pepper is still to be noted

firm at the high price ruling for many months past. *Fruits*.—Dullness prevails as common between the seasons; choice Valentias are held with some firmness, while inferior kinds are neglected. Malaga Raisins also dull. The growing crops for Raisins and Currants promise still well at last accounts. In Almonds the report is as to light crop of Tarragonas, and other kinds from same quarter are largely confirmed.

HARDWARE AND IRON.—This being the dullest period of the year in general hardware, there is nothing of interest to chronicle. The market remains *in statu quo*, business being restricted to supplying small country orders. The *Big Iron* market remains quiet, business being confined to filling a few casual orders at about quotations. It is expected that contracts for full supplies will be made by founders during this month. Price list unchanged.

HIDES AND SKINS.—Inspected Ontario *Hides* are selling here in moderate-sized lots at 9c, and Western States *Hides* rule quiet at 9½c for No. 1, and 8½c for No. 2. Values have advanced a fraction in the Western States, but for Montreal *Hides* local dealers are talking of putting prices down again, but as the changes in this market are often the result of petty jealousy between buyers than aught else, little importance will attach to this proposed change. *Lambskins* have advanced, and are now quoted at 50c to 55c; clips remain steady at about 35c each.

HOPS.—No. 1 hops are offering in this market at 30c per lb. For a lot of seven bales of fine hops grown in the Dundee section, offering here this week, 20c was the best bid received, while \$1.05 had been previously refused, showing a loss of \$1,000 on the seven bales.

LEATHER.—Business has been rather more active the past week, and is reported in a healthy condition, although no large transactions can be noted. Manufacturers have been in the market, and selected lots of plump *Sole* have brought outside prices. Waxed *Upper* has been in good request, and several lots of choice quality have changed hands at our quotations. There has been a moderate enquiry for *Buff* and *Pebble*, but no large movement can be reported in any description. English advices report the foreign markets steady.

LUMBER.—There is little change to note from last week; quietness prevails. Sales are dull, but prices remain about the same. Some concessions are offering and being made on large lots; but dealers say they cannot afford to sell at much lower prices. Still, with the immense quantity accumulating on hand, and the slow sales, prices must soon break to some extent. Buyers are chary about purchasing, and go in for small quantities for present use, and no more. Considerable hardwood and basswood has been offering this summer that usually was bought up by Americans of late years; prices are easier. Lath and shingles continue to be scarce and wanted.

OILS.—*Spirits of Turpentine* having advanced 5c per gallon in the South, this market is also quoted higher, at 58c to 60c. *Linseed Oil* steady at last week's quotations. Other kinds unchanged.

POTATOES.—The new crop on the island of Montreal promises to be one of the finest ever known, both as to size and quality. The best qualities of Early Rose have been selling on the market this week at 50c to 60c per bushel; old potatoes are being pressed on the market at 25c to 30c per bag, the quality and condition being bad; for these same lots 70c to 75c per bag was refused some time ago. Enquiries

have been received by Montreal dealers from the Western States as to the supply of Early Rose in this market; it is evident that the supply in the States is excessive. There is said to be a glut in Chicago, where earloads have been sold at from 25c to 40c per bushel. With an abundant crop in Canada and the United States, the outlook favors low prices.

PROVISIONS.—The Liverpool market yesterday was, according to cable advices, unchanged. In the American markets there was not much change,—and the local provision market remains quiet, with a more hopeful feeling, however, consequent upon the steady upward movement in the West this week. It is believed here that prices have touched bottom, as mess pork or lard could not be produced in Chicago for any thing like the figures they are now being sold at, considering as a basis the present value of hogs. Within three months the price of pork in Chicago has declined about \$8 per brl. Lard during the same period has undergone the remarkable shrinkage of \$3.87½ per 100 lbs. In this market the decline has not been so severe, for the reason that prices here did not follow the full advance in the West, but it has been sufficient for those who brought on the product for sale. From the first break in the market, which preceded the McGeoch fiasco, to the present, there has been a series of unfortunate ventures in the shape of purchases which were repeatedly made in the hope of recovering former losses, but which were only aggravated by the disastrous "breaks" which invariably followed. Values for hog products in this market are slightly lower than last week. The *Egg* market, under light stocks and a good demand, rules firm at 17c to 18c, as to freshness.

WINDOW GLASS.—Owing to the Str. "Ludwig" being so long overdue at this port, the market has become rather bare of glass, and values are a shade firmer, though not notably higher. Fears, amounting to despair, are entertained for the ship's safety, it being surmised that she has met with disaster in the ice-frequented waters of the Atlantic. Her cargo consisted of glass, iron and hardware, and 144 head of cattle, the total value being \$200,000, and that of the ship \$300,000; both were insured.

WINES AND LIQUORS.—A good average jobbing demand has been experienced for all kinds of liquors except *Clarets*, and *Lime Juice*, of which the consumption has fallen off, owing to the cool weather. Values are unchanged throughout, but a steady, healthy business is being done.

WOOL.—The market for both foreign and domestic remains quiet; manufacturers are tolerably well supplied, and are buying only light parcels at firm but unchanged values for all kinds. New *Fleece* wool is reported to be selling in Toronto at 18c to 20c per lb., but there is none offering here yet. The American markets are decidedly firmer, and the feeling here is stronger in consequence; another cause is the extremely light stocks in the market at present. In England there will not be much doing until the next London sales, a few weeks hence. A Boston report, dated 2nd inst, says:—"The tone of the market has been of course subjected to the influences of the Shaw and other failures in leather and boots and shoes, so that dealers have continued ready sellers, and the demand from manufacturers has not been so brisk. They are preparing their samples of spring weights, but the trade in such goods is always moderate. The report that manufacturers are buying fine delaine in the English markets may be correct, but last mail advices reported the market there exceedingly quiet and depressed. Prices now prevailing are steady, and about 20 per cent above those ruling in February."

TORONTO WHOLESALE MARKETS.

(Revised by Telegraph.)

TORONTO, August 9, 1883.

There has been a greater change during the week than might have been expected. The reports of the crops and the fine harvest weather have produced a healthy feeling, both in the country and the town. In nearly all branches of the wholesale trade there has arisen a feeling of more confidence; in some of them business has sensibly improved. The bank settlement on the 4th instant is admitted to have been satisfactory; both to bankers and customers. Payments were quite equal to what is expected at this season; and the personal statements of merchants confirmed the opinion that collections have been good; also that there is encouraging prospects for a good fall business. Money matters are easy. Sterling exchange is not in much demand; selling at 108½ between banks, and 108½ to 109 over the counter. Gold drafts are quiet also; at par to 1-16 between banks, and at ¼ premium to buyers over the counter. Call loans are easier, the rate being 6 per cent, with no great demand. Commercial paper is discounted regularly, for good paper, at 7 per cent. The stock exchange has been rather uneventful, and towards the latest reported rather weak, but showing nothing approaching a general break, nor is it at all likely that any such event will occur. Loan Companies have been generally steady with still not much doing, and miscellaneous shares have shown some firmness and comparative activity. Following are the bids to-day, compared with those of last Thursday:—

Banks.	Bid July 26.	Bid Aug. 9.	Loan Cos.	Bid July 26.	Bid Aug. 9.

FLOUR AND MEAL.—The market for *Flour* has been very quiet, and prices have not really changed within the week. There appears to be only a local demand, and while sellers are successfully holding the different grades steadily, it shows their firmness more than demonstrates the value of flour. The Liverpool market is dull; and United States flour is neither active nor very firm. At the same time flour is not too high in view of the price of wheat. There have been few sales, and the same prices have been recapitulated every day for the past week. Superior Extra has been sold in small lots at \$4.80 for inspected; and prices are quoted at \$4.80 to \$4.85 representing buyers and sellers' ideas. Extra is quoted at \$4.70 to \$4.85. At to-day's market there was no change, but holders were steadier in their views. The stock on Monday last was 1,340 barrels, against 2,275 barrels July 30; against 1,051 barrels, August 7, 1882; and 500 barrels August 8, 1881. *Outmeal* is quiet at \$5 for Standard, in small lots. *Cornmeal* is in slow demand at \$3.75 per barrel. *Bran* is quiet at \$10 to \$10.25 on the track.

WHEAT.—The outside markets continue to be quiet in tone, with prices almost remarkably morotonous, in view of the

estimated shortness of the crop. The reserves in the United Kingdom are being somewhat reduced, and this will be accelerated by the reduction in deliveries of home-grown wheat. But the imports continue to be large, and English buyers are taking advantage of the situation and keeping prices as low as they can. If the crops in all quarters should turn out at equal to the highest estimates, there need not be any advance during this year at least; but if the list of threshing should reduce the expected yield, there will be higher values before Xmas. Prices have been almost unbroken during the week, with few transactions. There is no active demand either; as the wheat in store here is not being hurried away. Prices are for No. 2 Fall \$1.08; No. 3 Fall \$1.06; No. 2 Spring \$1.09 to \$1.10; No. 3 Spring \$1.07 to \$1.08. Goose is worth about \$1. At the market to-day there was no business reported, but sellers were firm and sales would have been easier at the prices quoted. Stocks on Monday last were 153,200 bushels, against 170,106, July 30; against 112,578 bushels August 7, 1882; and 116,378 bushels August 8, 1881.

COARSE GRAINS.—There is nothing doing in *Barley*, and values are not named. Threshing has commenced in the vicinity of Toronto, and immediate interest is springing up both as to how the crop will turn out, and as to what the opening prices will be. Prices are entirely nominal at 68c for No. 2, and 50c for No. 3. Stocks on Monday were 25,577 bushels, against 30,728 July 30th; against 4,432 bushels August 7, 1882; and 18,332 bushels August 8, 1881. *Oats* have been steady, with a moderate demand. Good Western samples have sold at 42c and 43c on the track; eastern are worth 40c and 41c, according to sample. There are no stocks here. There were 2,909 bushels in store Aug. 7, 1882, and 7,824 bushels August 8, 1881. *Peas* are quoted nominal at 80c for No. 2; but there is no enquiry, and none offering. Stocks were 642 bushels on Monday, against 311 bushels July 30; against 775 August 7, 1882; and 657 bushels August 8, 1881. *Rye* is quoted nominal at about 56c. Stocks are 341; against 3,684 August 7, 1882. *Corn* is not offered, but the price is quoted nominal at about 64c. The total quantity of grain in store on Monday last was 179,760; against 128,125 August 7, 1882; and 143,185 bushels August 8, 1881.

BOOTS AND SHOES.—There is an improved feeling within the week, and it is now an opinion that, although there is no great change at present, the fall business will be better than expected. Prices are steady, and the market promises to be firm during the season. Following are the leading prices:—Men's calf boots, \$3.50 to \$4; men's stogas, \$1.50 to \$3; men's kip, \$2.25 to \$2.75; men's pegged gaiters, \$1.50 to \$2.50; machine sewed, \$1.50 to \$2.50; men's cobourgs, \$1.10 to \$1.75; boy's congress gaiters, \$1.35 to \$1.75; pegged balmorals \$1.40 to \$1.75; stogas, \$1.25 to \$2; woman's prunella bals, 50c to \$2; petbled and buff pegged bals, \$1.10 to \$1.60; pebbled and buff sewed, \$1.25 to \$1.75; women's congress, \$1. to \$2.50. Misses' work ranging from pebbled and buff bals. 90c to \$1.30; calf bals. \$1.30.

DRY GOODS.—There is not reported so much prospect of improvement in this branch of trade, but it is reported that it has shared in the bettered prospects of business generally. The prospects of good crops has been increased to a great degree with the fine weather of the past week, and even the dry goods have felt the influence. There is no boom, but trade is reported better.

GROCERIES.—There is reported a distinct improvement this week in the number and extent of the orders sent in by travellers. In addition to this is the statement that the prospects for the Fall trade are better than had been expected, as the crop prospects and feeling throughout the country were greatly better. Quotations in leading lines are: Coffees, Java,

18c to 25c; Rior, 10c to 11c; Mocha, 30c to 38c; Ceylon, 23c to 25c. Fruits dull, and prices continue low. Valentias have sold in large quantities at 5c. Sugars, Porto Rico, dark to fair, 7c to 7½c; bright to choice, 7½c to 8c; Canada refined, 6½c to 8½c; Standard granulated, 8½c to 9c; Paris Lump, 10c to 10½c; Scotch refined, 6½c to 7½c. Syrups unchanged. Teas steady, but promising firmness. Tobaccos, dark, 31½c to 32½c; Western Leaf, 31½c to 34½c; bright, 48c to 52c; choice, 70c to 75c.

HARDWARE.—There is no present improvement in business, but orders have been coming in, and September shipments will be liberal, and larger than was looked for. There is no particular line in greater demand, but trade is promising and will be very satisfactory this season. Prices also are steady, and it is even thought that buyers at present will be better off than buyers later on.

LIVE STOCK TRADE.—The market is somewhat irregular. Prices are not so firm in England, and United States markets are lower. Export cattle here are probably not worth more than \$6 to \$6.50 for good to choice, per 100 lbs., live weight. At Tuesday's market in Toronto there were some 250 head of cattle. The most of the cattle were of medium quality only; the lot ranged from poor to merely good; and prices were paid of \$4.50 to \$5.25 per 100 lbs., live weight, or from \$35 to \$65 per head. There were no export cattle. The demand for sheep is very good, chiefly for heavy animals for export. Prices are for heavy sheep, 5½c to 5½c per lb., live weight; and for butchers' sheep, \$5 to \$7 per head. There were a good many lambs on the market, and prices were rather easier, at from \$3 to \$4.50. The demand for sheep for export makes prices rather high. There is a sufficient supply of lambs; calves sell at 8c to 10c per lbs., dressed weight.

PROVISIONS, ETC.—The markets are generally weaker. Meats are lower, owing to the continued depression in the west. *Bacon* is dull: 500 sides long clear sold yesterday at less than 10c, probably 9½c; and box lots sell at 10c. Cumberland Cut is sold at 9½c to 10c. Breakfast bacon at 14c for smoked. *Hams* are steady, at 12c for pickled; 14c for smoked; 14½c for canvassed. *Lard* weak; 50 tubs sold yesterday at 12c; small lots sell at 12½c. *Pork* nominal, at \$19 to \$20 for single barrels. *Beef* unchanged, at \$16 for prime and \$17 for mess. *Butter* weak, and quoted at 13c to 14c for small lots of store packed good to fine quality. *Cheese* is still quiet, and prices unchanged; skims selling at 10c, and full cream at 11c to 11½c. *Eggs* are not in demand; pickled are offering at 15c to 16c, according to quantity. *Dried Apples* almost unsaleable, quoted at 10c to 10½c for common and 16c for evaporated. *Beans* are slightly in demand, with some sales recently at \$1.60 to \$1.80 per bushel, according to quality. *Potatoes* steady, at \$1.10 per bag for Canadian; and \$2.50 per barrel for American. *Salt* in good demand, and sales of Liverpool at 65c per bag in car lots. Canadian, \$1.35 per barrel in car lots; dairy salt, 3 lb. bags, at \$3.75 per brl. *Hops* are quoted at 35c to 38c for single bales.

WOOL.—There is no change in the market, nor in quotations. Selected Leicester fleece is worth 19c to 20c here; Cotswold about 17c to 18c. Part bred Southdown is worth 23c and 24c; and Southdown worth probably 26c to 27c. Holders of wool in the country are generally looking for a cent more than these prices, and trading, in consequence, has not been so active. The markets outside, it is thought, are not promising any profit to buyers at anything beyond the prices named. The trouble is that there is too much coarse wool grown. The large kinds of sheep sell well for the English markets, but their clip is of comparatively low value. The demand from factories continues light, and pulled wools are quiet; supers selling at 26c, and extra supers at 30c. The position of buyers generally is that prices are yet one cent too high.

SPECIAL NOTICE.

The attention of machinists, founders, engineers and mill-owners is directed to the Sand Blast File in the advertisement of Messrs. Sanderson Bros. & Co., of Sheffield, England, and for which Messrs. J. Muckleston & Co., wholesale hardware merchants, Kingston, Ontario, are sole agents for the Dominion. The superiority of these files is due entirely to the extra sharpness and improved shape of their teeth, as they are not re-cut. They are now being used extensively in Ontario, Quebec and Prince Edward Island. Sand Blast Mill-Files are used entirely by many large lumber firms, such as P. McLaren, Gilmour & Co., Edwards & Co. They are made by one of the oldest and largest steel houses in England: Sanderson Bros. & Co. (Lim.), of Sheffield.

The promoters of the Central Bank of Canada, in presenting this enterprise to the public, do so in the belief that the great increase of general business throughout the Dominion renders the present period extremely favorable for the formation of a new bank.

The stocks of all the banks doing business in Toronto stand at a high premium, on account of the large rests they have accumulated, the satisfactory dividends they pay, and the great demand existing among our moneyed classes for such investments.

At no time in the history of the Dominion has the country made such rapid progress as it is now making, and is likely to make for some years to come. The construction of the Canadian Pacific Railway and other Railways and public works—the rapid opening up and settlement of Manitoba and the great North-West—the establishment of new industries of many kinds in all parts of Canada, and the large influx of immigrants, many of them possessed of means, and who are settling to a considerable extent in Ontario—render necessary, enlarged facilities for business by the provision of additional Banking Capital.

The standing, character, and reputation of the Provisional Directors of the CENTRAL BANK OF CANADA, and of the gentlemen selected by them to take the management of the bank, warrant the belief that its initiation will be received with favour, and that under cautious, wise and prudent management its success will not be less marked than that of the other prosperous institutions of similar kind.

It is the intention to place the whole capital on the market, and when the requisite amount has been subscribed, and 20 per cent paid in, to commence operations. Ten per cent to be paid on subscription, and ten per cent on allotment, and further calls as business may require; provided that such calls shall be made at intervals of not less than thirty days, and not to exceed ten per cent of each share subscribed. If more than the authorized capital is subscribed, allotments will be reduced *pro rata*.

Calls on Stock are to be paid at the Bank of Montreal and its Agencies, with whom arrangements for this purpose have been made.

Suitable premises for the bank have been secured on Yonge Street, immediately north of the Bank of British North America.

Stock Books have been opened at the offices of the under-mentioned, where further information respecting the Banks, copies of Prospectus, and forms of application for shares can be obtained.

To Messrs W. F. Lewis & Co
Montreal

August 12 1878

Gentlemen

I have carefully examined the sample of your
second made sour mash Whiskey "Cup 1874" sent me by you;
I now report it to be free from fusel oil, and all other, such as
compounds injurious to health; and that it is in every respect
a sample of a choice spirit and of such an one as I can
recommend for use medicinally when an alcoholic stimulant
is indicated.

As I give you permission to publish this certificate, I reserve
to myself the right to analyse and report upon samples
from time to time repurchased by myself for comparison with
standard samples which I retain.

I am Gentlemen,

Yours truly,

G. J. Goodwood M.D. M.R.C.S.

Prof. of Practical Chemistry M.G.S. College

Montreal

Just received, an importation of the above Whiskey, Spring of 1878, and shall be
glad to receive orders for it in either Cases or Wood.

W. F. LEWIS & CO.

27 St. Sacrement Street, Montreal

Leading Hotels in Canada.

ST. LAWRENCE HALL.

THIS HOTEL WAS OPENED on the First of May, 1879, by the former Proprietor, so long and favorably known throughout Canada, the United States and British Empire, who has spared no expense in entirely re-furnishing the whole House; also adding ALL MODERN IMPROVEMENTS, which will considerably enhance the already enviable popularity of this First-class Hotel.

H. HOGAN, Proprietor. S. MONTGOMERY, Manager

THE RUSSELL, OTTAWA.

THE PALACE HOTEL OF CANADA.

This magnificent new Hotel, fitted up in the most modern style, is now re-opened. The Russell contains accommodation for over FOUR HUNDRED GUESTS, with passenger and baggage elevators, and commands a splendid view of the city, Parliamentary grounds, river and canal. Visitors to the Capital having business with the Government find it most convenient to stop at the Russell, where they can always meet the leading public men. The entire Hotel is supplied with escapes, and in case of fire there would not be any confusion or danger. Every attention paid to Guests.

JAS. A. GOUIN, PROPRIETOR.

Preston Mineral Baths & Summer Resort PRESTON, ONT.

EXPERIENCE has proved that the continuous use of the water with which the Preston Mineral Baths are supplied, used internally and externally, is of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach, Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism: will find that using these waters will almost always effect a cure. Stage Line between Preston and Berlin meets G. W. R. and G. T. R. Trains.

GOVERNMENT DEPOSIT,	101,000

Life Insurance Agents who can do \$100,000 of new business in a year are invited to communicate with DAVID BURKE, Manager, Hamilton, with a view to an engagement.

THE FEDERAL

LIFE ASSURANCE COMPANY.

HEAD OFFICE, HAMILTON, ONT.

Guarantee Capital	\$700,000
Government Deposit,	51,100

WRITES LIBERAL POLICIES

Without burdensome conditions.

NON-FORFEITABLE POLICIES.

Example.—Age 35—\$1,000 Ordinary Life Policy. Payment of three annual Premiums will keep the Policy in force 5 years and 298 days. The same number of Premiums on an Endowment or Term-payment Life Policy will keep it in force a longer term.

DAVID DEXTER,
Managing Director.

THE ONTARIO MUTUAL LIFE ASSURANCE CO.

Head Office, Waterloo, Ontario.

DOMINION DEPOSIT, \$56,207.00.

The only Purely Mutual Life Company in Canada.

Total number of Policies in force, Dec. 31, 1882,	4,335
Covering Assurance to the amount of	\$5,504,478 00
Net Cash Assets	365,328 71
Net Reserve to Credit of Policy-holders,	383,044 59

The Company's Reserves are based on the Actuaries' "Table of Mortality," and four per cent. interest—the HIGHEST standard adopted by any life company in Canada, and one-half per cent. higher than the standard used by the Dominion Insurance Department.

The rapid growth of the Company may be seen from the fact, that in 1870, the first year of its business, the total assets amounted to only \$6,216, while last year they reached the handsome total of **\$427,429!!**

Insurance.

THE ACCIDENT INSURANCE COMPANY OF NORTH AMERICA.

Incorporated by Dominion Parliament, A.D., 1872

Authorized Capital, - - \$500,000.

HEAD OFFICE:

260 ST. JAMES STREET, MONTREAL.

President, Sir A. T. GALT. Vice-President, HON. JAMES FERRIER.
MANAGING DIRECTOR, EDWARD RAWLINGS.

THE ACCIDENT INSURANCE COMPANY OF NORTH AMERICA possesses a record for both reliability and liberality, one proof of which is that it has paid over two thousand losses and has NEVER contested a claim at law. It has ample financial resources, and has made the Special Deposit with the Insurance Department at Ottawa. It is, moreover, the only Company whose capital and funds are solely applicable to Accident Insurance.

Insurance

WHAT THE PUBLIC WANT.

PRIVILEGES,

NOT

CONDITIONS

On their Life Policies.

The unconditional policies of the
SUN LIFE ASSURANCE CO. of Montreal,

contain not one condition, but have the following privileges on them:

1. Liberty to travel anywhere without extra.
 2. Liberty to engage in any occupation without extra.
 3. Thirty days of grace for premiums.
 4. Policy may be revived within a year after lapse.
 5. Paid up policies given for definite amounts after three years.
 6. Loans made after two years.
 7. Policy indisputable after two years.
 8. Any difference to be referred to arbitration.
- Compare this with ordinary policies.

The Company is very strict in admitting persons to these benefits, but it is evident those who get them get privileges no other Company in Canada gives.

It is universally admitted to be by far the simplest and most straight-forward policy in use in this country.

R. MACAULAY, Manager.
