## GERMAN ARMIES BEATEN AFTER HEAVY FIGHTING WITH HUGE CASUALTIES

Allies' Advance Has Been Resolutely Pushed Home, and Result of Two Days' Operations Has Been Most Satisfactory to War Office.

### Thirty Thousand Germans Reported Taken Prisoners

Canadian Press Despatch. LONDON, Sept. 8, 11.54 p.m.—The British official press bureau issued the following announcement tonight: "The general position continues satisfactory. The allies are gaining ground on their left all along the line of the Ourcq and Petit Morin Rivers. The British have driven the enemy back ten miles."

Canadian Press Despatch. PARIS, Sept. 8, (10.40 p.m.)—Accounts of wounded soldiers who reached Paris this afternoon indicate that the result of the three days' fighting in the Champagne country has been more favorable for the allies than at first supposed. They say the German losses in killed were enormous, and that a great number of prisoners were taken. One French officer estimates the prisoners at 30,000.

## KAISER REARRANGES CAMPAIGN WHEN OUTNUMBERED BY ALLIES WHO CONTINUE THEIR ADVANCE

VALCARTIER  
In the face of all the assurances that everything is going splendidly at Valcartier, there still remains in the public mind a feeling which may perhaps be interpreted as wonder as to how long it will be before the Canadian contingent is ready for service, or if ready, till it be despatched where it is believed to be urgently needed. Without any desire to emphasize this feeling of surprise, we think the controlling officials, who are very busy with their preparations, do not appreciate how very long it seems to the public to take to get ready. A frank statement of the whole conditions, as far as this is possible, would do much to allay the impatience which is certainly increasing. Various reports come from the camp, and they are not always reassuring. If questions based on these reports and rumors were asked openly the questioner would probably be denounced as disloyal or ignorant. Yet these things are being spread abroad without an antidote, when they should be directly dealt with. It may be that the authorities, for reasons best known to themselves, or in accordance with instructions from London, are taking time to complete their arrangements. But, if so, then it would do much good to say so to the people who are so greatly interested. Moreover, it would stimulate the recruiting movement, which is not without need of a fillip if we are to send 100,000 men. Could there not be formed an advisory council of such men as General Otter, General Lessard, Lieut.-Col. Septimus Denison and others not actively employed, to whom, confidentially, the whole situation might be explained? The assurance of such a body that all was well would satisfy public opinion throughout the Dominion.

German Battle Line is Disorganized and Has Been Beaten in Several Engagements With Heavy Losses—Armistice Was Refused by the British—Germans Fear a Rear Attack by British, Russian and East Indian Reinforcement.—Allies Outnumber the Enemy for the First Time—Combined Armies of Crown Prince, Grand Duke and General Von Hausen Pound French Centre Without Success.

LONDON, Sept. 8.—Despatches received today from France announcing that the Kaiser and the general staff were hurriedly rearranging the disorganized German battle line following the repulse of their troops by the allies on the French centre caused widespread jubilation here. It is said that the Anglo-French troops violently attacked the Germans, causing the invaders' right army terrible losses. The reverses were of such a drastic character that General von Kluck, the German commander, asked for an armistice to bury his dead and gather his wounded. The request was refused.

HURRYING TO ASSISTANCE  
General Von Buelow's army is said to be hurrying to the assistance of General von Kluck in an effort to prevent his troops from being scattered or captured. The Kaiser is strengthening his centre by every available means. The French centre has been greatly reinforced by both British and French troops, but the emperor hopes to gain a decisive victory by a new movement.

OFFICIAL STATEMENT  
The following official statement was given out this afternoon by the war office:  
"The left wing of the allied armies, comprising portions of the force defending Paris, continues to make progress. The advance reaches the banks of the River Ourcq in the region of Montmirail. The Germans are retiring in the direction of the River Marne, between Meaux and Sezanne."

"Violent encounters have occurred on the French centre between Fere Champanoise and Vitry-le-Francois in the southern portion of the forest of Argonne. The French have fallen back now there. The Germans have lost greatly near Vitry. The movement of retirement is confirmed on the German side."  
"On the French right a German division attacked on the axis of Chateau Salins and Nancy, but were repulsed to the northward, passing the forest of Champenoux. Further to the east the French troops reoccupied the crest of St. Maudray and the peak of Fourneaux."

"There is no change in the situation in the Province of Alsace."  
FEAR ATTACK FROM REAR  
Military observers say that the retreat of the Germans and the rearrangement of their lines now in progress is believed to be due to fear of attack from the rear by an army of British, Russian and East Indian troops, now believed to be in Belgium and France. Russia's force in that army is placed at 250,000 men.

Virtually all the news of the fighting in France received here today deals with the success of the allies' left wing in driving back the German right. In spite of the reported reverses to the latter the encounter now taking place between the centres of the opposing forces is the more important.

TWO CENTRES IN CONTACT  
The Germans, after their powerful swing of their right toward Paris, which enveloped the allies' left wing and drove them back within the cover of the guns in the outer fortifications surrounding Paris, have now restored their attention to the country southwest of Verdun. The two forces have come in contact today along the line between Vitry and Fere Champanoise, near the southern border of the Department of Marne.

The French were faced with the alternative of meeting the Germans or of falling back again and permitting the German centre to move forward to a position where it might envelop the entire French right and force 150,000 to 200,000 men to surrender or to retreat into Switzerland.

However, the French had been reinforced by British and met the attack. The Kaiser's army is pounding the French centre with a force made up of the combined armies of the Grand Duke Albrecht, Crown Prince Frederick William and of General Von Hausen.

VIOLENT ENCOUNTERS  
Violent encounters have occurred in the forest of Argonne, in which, according to the latest advices, the French have taken many prisoners, including a battalion of German infantry, a number of rapid fire guns and many gun carriages. Details of the fighting between the British and French columns of the allies left, which is still

Further to the right again, from Vitry-le-Francois to Sermangeles-Mains, the enemy has been pressed back in the direction of Rheims.

"At Luneville an attempt by the Germans to advance has been repulsed."

"Pressure against the enemy continues all along the allies' front. The British force has been engaged all day, but the enemy who opposed it, after stubborn resistance, retired and is now crossing to the north of the Marne."

"The fifth French army has advanced with equal success and reports many captures."

"The sixth French army, on the Ourcq, has been heavily engaged, but here also the enemy has been driven back."

"The German army has suffered severely along the whole line, the advance having been resolutely pushed home."

"The British force has again sustained some casualties, but the number is small in relation to the nature of the fighting."

"The result of the two days' operations up to the present is very satisfactory."

## TWO MORE TRAWLERS SUNK

GRIMSBY, Eng. Sept. 8, 6.07 p.m.—(Via London)—Wreckage of the trawler Nelson has been picked up in the North Sea, and news has reached here of the sinking by a German cruiser of the trawler Capricornus.

With these two vessels the total number of Grimsby trawlers sunk by German ships or mines since the commencement of the war is sixteen.

## BELGIAN COLORS AS DISGUISE

LONDON, Sept. 8, 5.04 p.m.—German fishing boats decked with Belgian colors, according to a Reuter despatch from Ostend, have been sowing mines near the Sandette Lightship. In consequence of this the mail boat was unable to leave this morning.

Persons arriving in Ostend today report having seen German scouts near Bruges.

## Reinforcements From Morocco

PARIS, Sept. 8, 1.12 a.m.—The French war office announces that it is sending reserves to Morocco, and the incorporation of territorial troops now resident there, in order to release the regular forces in Morocco for service with the army in France.

## SEVERE, STUBBORN FIGHTING CONTINUING OUTSIDE PARIS; GERMANS ASKED ARMISTICE

Hundreds of Thousands of Men Engaged on Both Sides—Allies Have Taken Many Prisoners—Russians Continue to Advance With Great Success.

Special Direct Copyrighted Cable to The Toronto World, 9, 12.40 a.m.—The war office has issued the following communique referring to the theatre of war in France and Belgium:  
"First—On our left wing the allied armies, including the elements of the advanced defences of Paris, are making continuous progress from the banks of the River Ourcq as far as the region around Montmirail. The enemy is falling back in the direction of the River Marne between Meaux and Sezanne."

three lines of stout fortifications in Nicolaeff, south of Lemberg, have been carried by the Russian troops who also captured 20 guns and a great quantity of ammunition.  
"The Austrians are retiring and abandoning a considerable number of guns, trains and prisoners."  
"The Russian cavalry has already taken a position on the crest of the Carpathian Mountains. The second Austrian army, operating in the region of Lublin, was severely dealt with west of Krasnostav."  
"The fourth regiment of infantry surrendered bodily."

## GERMANS ASKED AN ARMISTICE.

PARIS, Sept. 8, (12.40 a.m.)—The battle which is proceeding to the east of Paris appears to be the most important and most stubbornly fought combat of the campaign. The military authorities decline to give any indication of the number of men engaged, but hundreds of thousands are participating on both sides.

According to those who are in a position to obtain authentic information, the casualties have been so great that the Germans have requested an armistice of 24 hours. The armistice was refused with the response: "We grant you that time to get out of France."

Stern Resistance.  
An official communication issued by the war office shows that the German wing, while retreating before the allies, has offered the sternest resistance, delivering several fierce and unsuccessful counter attacks.

## MONEY MAY TURN BIG WAR'S SCALES

"Last Few Hundred Millions May Win," Says Lloyd-George, in Urging That Not a Penny Be Wasted—"Bullet of Silver" Has Won Before.

Canadian Press Despatch. LONDON, Sept. 8, 10.10 p.m.—"We want every penny we can raise to help fight the enemy," said David Lloyd George, chancellor of the exchequer, replying to a deputation from the municipal council, which wanted the aid of the treasury in securing loans at cheap rates.

"We must come out triumphant in this struggle," continued the chancellor, "and as finance is going to play a very important part in it we must husband our resources. We don't want a penny spent which is not absolutely essential to relieve distress. In my judgment the last few hundred millions may win this war."

Cash Plays Big Part.  
"The first hundred millions our enemies can stand as well as we can, until they cannot, thank God! And therefore I think cash is going to count much more than we imagine. At the present moment we are only at the beginning; we are fighting a very tough enemy, who is well prepared for the fight, and will probably fight to the very end before he will accept the only conditions upon which we can possibly make peace."

"If we are wise, that is where our resources will come in, not merely of m.n. but of cash. We have won with a silver bullet before. We financed our hope in the greatest war we ever fought, and that is what won. Of course, British tenacity and British courage always come in and they always will. Let us remember that the British cash tells, too."

## Gen. Joffre Thanks Kitchener for Help

LONDON, Sept. 8, 10.50 p.m.—The official press bureau announces that the French war minister, M. Millerand, the French war minister, has sent to Lord Kitchener the following telegram, dated Bordeaux, Sept. 7: "I am pleased to transmit to you the following telegram which Gen. Joffre requested me to send to you: 'The commander-in-chief of the French armies expresses to Lord Kitchener his warm thanks for the constant support given to our armies by the British forces during the whole course of the operations. At the present moment that support is most valuable, and is manifesting in a very energetic manner in the action now engaged in against the German right wing.'

"I am expressing my gratitude to Field Marshal French, who has always lent to our armies the most effective collaboration. Allow me in the name of the government to join the expression of my gratitude to that of the general-in-chief."

To this Lord Kitchener has replied: "Pray accept and transmit to Gen. Joffre my most sincere thanks for the telegram you have had the kindness to address to me. I ask you to believe and cause Gen. Joffre to be told how content the British army is to find itself collaborating with the French army, and how proud we are of the noble task of bringing to them the support of which you speak so generously and upon which you can always rely with the greatest confidence."

Chilly Mornings and Evenings Call for Fall Overcoats.  
For comfort and protection most men realize the importance of an immediate overcoat such as are now being shown at Dineen's, 140 Yonge street. They are simply swell and smart, imported from the famous Henry Heath, London, Eng. All materials are sound and serviceable, as well as of exclusive design and pattern. The Bulmeacan is still a favorite, but other styles are in the field that will be fashionable to an almost equal extent. Before you have suffered from the erratic changes in climate you should come in and select from this choice showing.

"The Franco-British troops have taken many prisoners, including a battalion of infantry and a mitrailleuse company."  
"Second—On our centre, violent combats have taken place between La Fere Champanoise and Vitry-le-Francois, as well as the southern points of the Argonne hills. We have been in no way driven back by the enemy who have held ground on the outskirts of Vitry-le-Francois, where a retreating movement on the part of the enemy has been clearly observed."  
"Third—On our right, the German division has attacked us along a line passing thru Chateau Salins and Nancy, but it has been driven back as far as north of the forest of Champenoux. Further eastward, our troops have retaken the crest of St. Maudray and Col Des Journaux."  
"There are no modifications in the situation in Alsace."  
"In the Austro-Russian theatre of operations, the Russian offensive against the Austrian forces in Galicia is continuing successfully."

TRANSPORT AND EXHIBITS RECEIVE MOST ATTENTION AVERAGE CROWD VISITORS

Large Force of Demonstrators Kept Busy--Latest Means of Travel Are Seen--Judging Horses Continued--Motor Boat Races Held--Many Out-of-Town Visitors.

There is probably no problem which enters into the life of a community as greatly as that of transportation.

Transportation has been called the forerunner of civilization. By the forerunner of civilization, the hand is made which makes its way into new lines which makes its way into the forest, the new pathway described on a chart and by which merchant steamers find their path from one continent to another is but another step in the progress of humanity.

Large Space Occupied. Because of the importance of transportation a great deal of space has been devoted to it at the exhibition.

One of the largest buildings on the grounds is entirely taken up with transport exhibits. The majority of the space is occupied by automobiles.

The finished products are to be seen. Besides this, however, the various parts which go to make up the latest 1915 model are shown in working exhibits.

The intricate parts, which are not seen under other circumstances, are laid bare, and it is possible to study the mechanism of the engines at close range.

A noticeable feature this year is the lack of freak cars. One of the latest innovations has to do with the tires. In this case hard rubber is used in the wheels, but there is a pneumatic spring designed to perform the duties of an air tire, but removed from the point of contact with the road.

A large force of demonstrators are on hand to explain the very latest improvements. Although the number of prospective customers was not large, there was an atmosphere of business surrounding the building, which in point of grand total will undoubtedly offset any disappointment thru lack of numbers.

At the Luncheon. "When the old lion calls, the cubs fall over themselves to help," said Hon. T. W. Green, minister of agriculture, in a patriotic speech at the exhibition luncheon yesterday.

He referred to the war as a stupendous catastrophe. "We are in no way to blame," he said. "We took no part in causing it. Indeed, the home government has almost humiliated us in its anxious efforts to maintain peace. When it became a question of proving false to our friends, Britons the world over said, 'No. That is something even more dishonorable than war itself. We are in it. We are one unit.'"

"Those of us who remain at home have a duty to perform, perhaps less spectacular, but none the less essential to the ultimate success of Britain in the war. Everyone is working and all are sacrificing something for the general good of the empire. Our opponents have no friends except those fighting with them, but all the people in the world are with the allies."

He referred to a case of a friend of his for whom he had made application to the minister of militia for special concessions so that he might go to the war. The application was turned down, but the man who determined to go, so to speak, was one-half of his salary, to keep four soldiers in the field for a year.

In speaking of the feeling of patriotism that has swept Canada from coast to coast and the willingness and anxiety of citizens to help, he cited the result of the campaign for the raising of the County of Elgin. Over and above the contributions to the patriotic and Red Cross funds, the county intends to raise \$100,000 for general assistance to the government. "Things like these strengthen us," he said.

"I hope the farmers will send more acreage for next year's crop," said the minister of agriculture, "and that the many ways in which those who stay at home may help the empire. Prices will be higher, and when the farmer receives the money for his products he spends more. This brings more work for our factories. From a material viewpoint we won't suffer from the war. We will receive higher prices for what goods we sell. In the end we will be able to share with the great victory that is surely coming."

Should Be Confident. "Let us be confident in our men," he said, and great enthusiasm was brought forth when he mentioned the names of Sir Edward Grey, Lord Kitchener, General French and other men prominent in looking after British interests in the war.

"It is much better for us to continue in our daily work," he said. "Let us be united in our efforts, no matter what our sphere. These are essential to the man who stands behind the gun."

JUDGING HARNESS AND SADDLE HORSES

Large Class of Roadster Pacers Step Thru Stretch--Exhibition Awards.

Judging of harness classes and saddle horses was continued yesterday afternoon with considerable success.

There was a fairly large class and they all stepped thru the stretch. Sedalia, a grey gelding, owned by Geo. B. Hance, was awarded the red ribbon. This mare showed a lot of class and good conformation.

Class 178 was for roadster paces, mares or geldings, 15.2 and over. W. J. Crossen was driving with Barton and Camden. They were a nice working pair and could show a lot of speed.

Class 179 was for roadster paces, mares or geldings, 14.2 and under 15 hands. This was a good field and each individual was well represented.

Class 180 was for roadster paces, mares or geldings, 13.2 and under 14 hands. This was a good field and each individual was well represented.

Class 181 was for roadster paces, mares or geldings, 12.2 and under 13 hands. This was a good field and each individual was well represented.

Class 182 was for roadster paces, mares or geldings, 11.2 and under 12 hands. This was a good field and each individual was well represented.

Class 183 was for roadster paces, mares or geldings, 10.2 and under 11 hands. This was a good field and each individual was well represented.

Class 184 was for roadster paces, mares or geldings, 9.2 and under 10 hands. This was a good field and each individual was well represented.

Class 185 was for roadster paces, mares or geldings, 8.2 and under 9 hands. This was a good field and each individual was well represented.

Class 186 was for roadster paces, mares or geldings, 7.2 and under 8 hands. This was a good field and each individual was well represented.

Class 187 was for roadster paces, mares or geldings, 6.2 and under 7 hands. This was a good field and each individual was well represented.

Class 188 was for roadster paces, mares or geldings, 5.2 and under 6 hands. This was a good field and each individual was well represented.

EXPORTS INCREASE WITH EDUCATION

Such is Contention of President Fairbairn of Technical Association.

"Only by the development of an enormous export trade," declared President Fairbairn at the session of the Technical Education Association yesterday, "has Germany been able to build up her great fighting machine. That export trade has been cut off; it is up to Canada to take as large a portion of it as possible. This can be done only by technical education."

"In a large measure Germany has been able thru her system of technical education and protection to command not only her home market, but the enormous export trade of \$2,400,000,000 per annum, which consists almost entirely of manufactured goods. This export trade suddenly ceased on the first of August when Germany lost control of all the seas and the allies seized her merchant marine."

"This immense German trade will be split up, England and the United States are after as much as they can get, and Canada as an agricultural and manufacturing people must exert her best brain energy and money to secure her fair share. More money, more money and more education are the three essentials which will make Canada a great nation. As an association we should urge the government to stimulate technical education in our towns and cities."

Will Not Retrench. Dr. Pyne was present at the meeting and in an address he promised that whatever departments might be curtailed technical education would not suffer. Dr. F. W. Merchant, in his address, described the immense increase in technical education in Ontario during the last year. In Ontario there was 10 per cent. of the population engaged in this branch of study during the last winter.

Other addresses were given by J. D. Allan, J. P. Murray, F. R. Angus of Kingston; H. B. Beal of London, and Miss E. J. Guest of Belleville. The Ontario legislature will be memorialized to increase the present grant towards technical education.

PROMINENT EXHIBITORS

SIGNED IN GOLD. Novel Distinction of Canadian-Made Piano.

While wandering through the various exhibits at the exhibition, in search of anything new or novel, we unexpectedly unearthed a most surprising feature in connection with the new scale Williams Pianos, at the Williams Piano Company exhibit.

Probably every lover of music knows how intimately this piano has been associated with the great artists coming to Canada, but just how cleverly this influential endorsement has been utilized you could hardly imagine.

We were inspecting one of the beautiful new scales, while the salesman explained its various individual features. He lifted the top to show us the brass agraffe harmonic tone-producing bridge, of which the Williams Company is proud, when suddenly we discovered underneath the top, in letters of gold, the signature of that great contralto, Louise Homer.

Yes, there can be no doubt that it was before us, Homer's own handwriting there before us in gold, on the New Scale Williams Piano.

Amazed, we asked for an explanation, to which the salesman replied: "You see, when the artists visit Toronto, they select the particular style of instrument they wish sent to their homes, and they are interested in having reproduced their signature of approval in gold under the cover, as you see it."

Certainly this was a most original method of emphasizing distinction accorded the New Scale Williams Piano by these artists, and is bound to make a great impression upon the public, who appreciate the value of a musician's personal endorsement.

Everything in Sheet Metal. There are a number of travelers of the Pedlar Piano Co. at the exhibition, and at the time of the company's fine exhibit, to be found just north of the main entrance to the grand stand, and housed in two of Pedlar's metal buildings.

Pedlar's metal and prospective-buyers will see themselves a lot of trouble if they step in and have the various features of lines in which they are interested explained to them by our salesman.

Full information and valuable advice is cheerfully given, and even the order may not be forthcoming at the time, arranged for a call at a later date.

There are a great many points of interest in Pedlar's "Perfect" Products, especially to the country dweller.

Elmira, N.Y., Has an Exhibit Worth Seeing. A very interesting exhibit is located in the main building. It is a handsome steam engine, "Grand Force Pump Company, Elmira, N.Y., arrests attention, and a most attractive collection of goods is shown in the main building.

COUNCILS CONSIDER LAKE SHORE ROAD

Special Municipal Meeting Called This Week for Final Consideration.

In one week's time the method of proceeding with the construction of the Toronto-Hamilton paved roadway will be pretty well decided upon by a special committee appointed yesterday at a conference of the Ontario county and representatives from all interested municipalities has undertaken as the first movement to have the municipal councils of the district meet before next Tuesday. On that day an assembly will again be called to consider the matter, and the ways and means recommended by the committee will be the aim of all parties concerned to hasten the whole affair, so that immediate employment may be brought to a large number of men and women in the district.

When the meeting was called yesterday it was hoped that a final decision could be reached at once, but differences of opinion made this impossible. Mayors Hocken and Allen of the two cities expressed the anxiety of having the cities under a heavy co-operation. The proposal of having a commission in charge and financing on a joint provincial and city subsidy, and by means of a general property tax, they agreed would work out well. Moreover, together with the saving thru generous advancement from different interests and abundance of labor, the cities would have considerable relief from the pressure of their social problems.

Trafalgar and Etobicoke townships, represented by reserves, did not favor the idea as a whole, and Toronto Township claimed to be already in debt. Some spoke of cutting labor down to 15 cents per hour, but this was strongly opposed by Conroy, Sompton of Toronto, who said it was too low for city workers.

Report in a Week. Hon. W. J. Hanna and Hon. G. L. Lucas, supported the proposal of Mr. Forster of Oakville for a committee to take the matter up with the municipalities and report on Tuesday, Sept. 15. The meeting closed in a general feeling that the emergency situation and the agreement would have to be confirmed by the legislature when next called.

EXPORTS INCREASE WITH EDUCATION

Such is Contention of President Fairbairn of Technical Association.

"Only by the development of an enormous export trade," declared President Fairbairn at the session of the Technical Education Association yesterday, "has Germany been able to build up her great fighting machine. That export trade has been cut off; it is up to Canada to take as large a portion of it as possible. This can be done only by technical education."

"In a large measure Germany has been able thru her system of technical education and protection to command not only her home market, but the enormous export trade of \$2,400,000,000 per annum, which consists almost entirely of manufactured goods. This export trade suddenly ceased on the first of August when Germany lost control of all the seas and the allies seized her merchant marine."

"This immense German trade will be split up, England and the United States are after as much as they can get, and Canada as an agricultural and manufacturing people must exert her best brain energy and money to secure her fair share. More money, more money and more education are the three essentials which will make Canada a great nation. TURKEY UNDECIDED WISHES TO FIGHT ON WINNING SIDE

L. Babayan, a Toronto Man, Returns From the Orient—Was Smuggled Out of Turkey to Escape Military Service—Entire East in Turmoil.

Detained for service in the Turkish army, smuggled out of Constantinople by the aid of a timely bribe which he gave to the captain of a Turkish vessel bound from Constantinople for Italy, L. Babayan had an interesting story to tell...

L. BABAYAN of Toronto, who has just returned after a most exciting experience in Turkey.

At present Enver Bey, the minister of war, is in favor of the Turks joining in with Germany, although the grand vizier and the minister of foreign affairs are inclined towards the British.

Mr. Babayan was in Constantinople for two weeks, and was there when the war started. He left on August 11 on the ship Sicilia, which was the last ship to leave port after the war started.

When the Sicilia left the Dardanelles, two hours later they found four British men-of-war just outside, waiting for the German ship. British and French ships were also found patrolling the Adriatic.

All the horses, even those belonging to American and English residents, were seized by the military authorities, and it was a common sight to see a carriage standing in a street where it had been left after the soldiers had taken the horses to use for military purposes.

On the morning after leaving Constantinople he arrived in the Dardanelles, where he saw the Goeben and Breslau. The commander of the former ship was ordered to return to the Dardanelles.

FEARED POISON IN CAPTURED SUPPLIES

British Officers Ordered Destruction of Big Quantity of Delicacies.

Canadian Press Despatch. PARIS, Sept. 8.—An English cavalry officer writes that he was in the fighting at Compiègne and who took part in covering his horse in Paris, has given the following account of the engagement at that place.

Speaking of events previous to the battle this officer said that the English captured two German supply trains loaded with provisions and probably intended for officers.

Some of the Landsturm appeared armed with rifles taken from the Belgians, while uniforms. It is stated, are not available for all of the Landsturm troops.

DAY OF PRAYER FOR PEACE. WASHINGTON, Sept. 8.—President Wilson today signed a proclamation calling on the people of the United States to pray for peace in Europe and sets aside Sunday, October 4th, as a day of prayer.

General Joffre Holds Kaiser's Army at Bay. An official communication issued at Paris this afternoon says that the left wing of the allied armies, comprising portions of the forces defending Paris, continues to make progress.

Worn-out Troops of Germany Encounter Relatively Fresh Soldiers of Britain and France at Disadvantage—Enemy Repulsed and in Grave Danger.

Canadian Press Despatch. PARIS, Sept. 8.—(5:10 p.m.)—The leading military authorities of the city are convinced that Gen. Joffre, commander-in-chief of the French forces, is at least holding at bay the vast German army of invasion.

The fighting on the long line to the east of Paris probably will last for a number of days, and a quiet and decisive outcome is expected. The results of the encounters of the past two days are regarded as distinctly favorable to the allies, and there is an atmosphere of cheerfulness at the French war office this evening.

Left Wing Progresses. Paris this afternoon says that the left wing of the allied armies, comprising portions of the forces defending Paris, continues to make progress.

Violent encounters have occurred on the French centre between Ferey-Champenoise and Vitry-Le-Francois, at the southern point of the forest of Argonne. The French have driven back nowhere. The Germans have lost ground.

German Division Repulsed. Near Vitry the movement of retirement is confirmed on the Germans' side. On the French right a German division attacked on the axis of Champagne, but was repulsed to the northward, passing the forest of Champenoise.

Further to the east the French troops recaptured the crest of Mantry and the peak of Fontenay. There is no change in the situation in the Province of Alsace.

STUTTGART PEOPLE "ACT UNWORTHILY" Chief of Police in Proclamation Declares Citizens Are Going Mad.

Canadian Press Despatch. LONDON, Sept. 8.—Copies reached London today of the following curious proclamation issued a few days ago by the chief police inspector at Stuttgart:

"The people of this town are going mad. The streets are crowded with old women, both in petticoats and breeches, behaving most unworthily."

"Everybody sees in his fellow-creatures Russian or French spies, and thereupon creates a great commotion. Clouds are taken for aeroplanes, stars for airships, cycle handles for bombs, and the wildest rumors are spread about."

"So far, however, not the slightest thing has really happened to give rise to apprehension. Everybody's business should be to look after his business. Police-men particularly should be calm and collected, and be men, not foolish women."

PRUSSIANS SACRIFICE BAVARIAN SOLDIERS Canadian Press Despatch. LONDON, Sept. 8.—A war correspondent writing from the front, says: "Discontent is reported to exist among the Bavarian troops in the German army. The Bavarians claim that the Kaiser's generals continually shove them upon the firing line while the Prussians are held upon the second line. The Bavarians claim they are shot down while the rewards of victory go to the Prussians. It is said that the Bavarians have lost nearly 40 per cent. of their men."

of Austria to withstand the Russian onset. The Belgian resistance and the careful avoidance of a decisive battle on the part of the allies have necessitated a complete change of the German program.

The contending armies, occupying a front of over two hundred miles, are or will soon be locked in the first real struggle for land supremacy. That has hitherto been avoided by skilful strategy. The allied armies, yielding to the force of superior numbers, permitted the Germans to reach the outer fortifications of Paris while maintaining their strength and their morale unimpaired.

No doubt at this more nearer or more remote date the military critic, possessed of more information than has yet been vouchsafed, may be able to explain the why and wherefore of the marching and countermarching that so far has been the distinguishing feature of the campaign.

Running on Their Record. The president writes interestingly and to the point in his letter to Representative Doremus of Michigan, who is in charge of the Democratic congressional campaign.

How much of the calm which is said to prevail in Great Britain is due to the newspapers? There are, however, no restrictions upon publication. Extras are issued by the hundreds of thousands.

**GIRL OF THIRTEEN  
 BADLY ASSAULTED**

Assailant, Identity Unknown,  
 Evades Police—Victim's  
 Condition Serious.

Special to The Toronto World.  
**ST. CATHARINES, Sept. 8.**—The  
 most serious case of assault in this  
 district in many years took place  
 about noon today, the victim being the  
 13-year-old daughter of J. Young,  
 Grantham Township, employed on the  
 farm of W. H. Bunting, fruit grower.  
 The girl was on her way to take a car  
 to St. Catharines to purchase a pair  
 of school shoes, when a rough-looking  
 man, unshaven for two weeks, about  
 5 feet 7 inches and 180 lbs. in weight,  
 seized her and carried her into a  
 graper, where she was kept for two  
 hours. She was found in a critical  
 condition and a physician was called.  
 The police of the city and county  
 searched the locality for the man this  
 afternoon, but he is still at large. He  
 wore a black Derby hat when last  
 seen.

 After Vacation Peel  
 Your Discolored Skin

Women returning from the seaside  
 with browned, reddened or freckled  
 complexions will be wise in immediately  
 taking up the mercurized wax treatment.  
 Weather-beaten skin had best come out  
 by no amount of "beautifying" will ever  
 make such skin pretty to look at. The  
 most safest, easiest way to shed the  
 discolored cuticle is with the treatment  
 suggested. Put the wax on before re-  
 turning to the city, gradually showing  
 the healthy, youthful skin beneath.  
 One ounce of mercurized wax, obtainable  
 at any drug store, is enough to make  
 any discolored or spotted complexion  
 clear, white and satiny soft. Its action is  
 so gentle, so easy to use, that a face  
 shows no trace of its use.  
 Burning heat, irritating winds and dirt  
 will such wrinkles-maker that the daily  
 use of the following is highly advisable:  
 Powdered salicylic, 1 oz., dissolved in  
 witch hazel, 1 pt. Used as a face this  
 is a splendid wrinkle remover and  
 preventive.

Ontario Women's Liberal Association  
 Meets Friday to Discuss  
 Plans of Action.

The Ontario Women's Liberal Association  
 will take their share in dealing  
 with the social problem arising from  
 the war and from unemployment. A  
 meeting of the association has been  
 called for this evening, 7 o'clock, at the  
 Laura Matilda tea rooms, Yonge  
 street. Representatives from Ham-  
 iltion, Brantford, Stratford, Warton  
 and a number of other out-of-town  
 delegates will attend. The wives of the  
 Ontario Liberal members in parlia-  
 ment and the legislature have also  
 been invited.

The Women's Liberal Association of  
 Great Britain, under the leadership of  
 Mrs. Asquith, is taking up similar  
 work in Great Britain.

British Trade Commissioner Will  
 Endeavor to Have Wants Fill-

The British trade commissioner's  
 office at Montreal is making a strong  
 effort to enable importers of German  
 goods to duplicate their requirements  
 in the United Kingdom market, and  
 Mr. C. Hamilton Wickes, the British  
 trade commissioner there, will be  
 pleased to receive samples of any  
 goods which have been imported by  
 Canada from German or Austrian  
 markets, and will endeavor to secure  
 quotations for articles of a similar  
 nature from the United Kingdom for  
 importers requiring same.  
 In this connection it may also be  
 well to mention that there are many  
 firms holding German and Austrian  
 agencies in Canada who will be ob-  
 liged to sever their connections with  
 their desire to secure British repre-  
 sentation to replace the foreign repre-  
 sentation at present held, they should  
 make application to his majesty's  
 trade commissioner at Beaver Hall  
 square, Montreal, Que.

**THE BEST IS CHEAPEST  
 CONTRACTOR'S EXCUSE**

General Fire Extinguisher Com-  
 pany Says Apparatus Install-  
 ed in Schools is Efficient.

Two hours' hot shot over a contract  
 kept the advisory industrial commit-  
 tee of the board of education busy  
 yesterday afternoon. The firm of en-  
 gineers representing the board at the  
 two-million-dollar central technical  
 school made a report indicating that  
 contractors of the heating apparatus,  
 Messrs. M. O. Powell and McMaster  
 were present for the contractors and  
 sub-contractors concerned.

Mr. Woodman, president of the General  
 Fire Extinguisher Company and the  
 sub-contractors, the Brock Co., of Bos-  
 ton, with putting in a cheaper design  
 of apparatus than called for by the  
 contract, was willing to advise  
 the committee to except it, pro-  
 vided the contractors would make a  
 reduction of \$1500 and give a guaran-  
 tee of its efficiency.

It was admitted that the plant had  
 been installed in the building and  
 could not be taken out without con-  
 siderable expense and delay to the  
 work.

After the lawyers had talked exten-  
 sively the sub-contractor, Mr. Brock,  
 made the statement that the design  
 followed was a great improvement on  
 the contract. He was willing to adjust  
 the difference at a reduction of \$1000.

The matter was referred to a sub-  
 committee to settle this afternoon.

**IS NOW NUMBER TWO.**  
 Editor World: Will you kindly call  
 the attention of the public to the fol-  
 lowing change in the number of the  
 field ambulance from Toronto, as the  
 mail and express packages are going  
 astray? The number of No. 1 field  
 ambulance from Toronto has been  
 changed to No. 2 Canadian Field Am-  
 bulance.

D. W. McPherson, Lieut.-Col.,  
 O. C. No. 2, Canadian Field Ambulance.

**HIS SKULL FRACTURED.**  
 While crossing Wilton avenue, near  
 Sherbourne street, at 7.30 last evening,  
 five-year-old Frank Wylie, riding  
 his bicycle, was struck by a motor  
 car, driven by Melville Grimshaw, 24  
 Brookmount avenue, sustaining a  
 fractured skull. He was removed to  
 St. Michael's Hospital in the police  
 ambulance. His condition is critical.

**HEBREWS FOR THE LAND.**  
 It is possible that a movement back  
 to the farm lands of Ontario may be  
 started among the Jewish community  
 of Toronto. Rabbi Fuchs of the Uni-  
 versity avenue synagogue is urging  
 the unemployed of his race to make  
 use of the provincial government's  
 offer before the winter is here.

**"LADY LUXURY" PREMIERE  
 NEXT THURSDAY NIGHT**

Fred C. Whitney telegraphed from  
 New York yesterday to Manager O.B.  
 Sheppard that owing to the elaborate  
 nature of the production for the new  
 opera, "Lady Luxury," to be given at  
 the Princess Theatre next week, it  
 was best to postpone the premiere un-  
 til Thursday night. The first three  
 nights of the week will be devoted to  
 a rare musical treat on the stage of  
 the Princess, as the big company will  
 arrive here Sunday to put the final

Glorious Autumn Tones in a Hundred Weaves

From the marvelous displays of former years you would think that the creators of style in fabrics had exhausted all the possibilities of weaves and color in producing the marvelous variety of silks and dress goods. Yet the 1914 display excels them all. It needs only a glance over the counters of the big departments on the second floor to tell you that the range is greater than ever and that the color lists for fall are full of surprises everywhere.
